Bank of America Reports Quarterly Earnings of \$7.0 Billion, EPS of \$0.74

Full-Year 2019 Net Income of \$27.4 Billion, or \$2.75 Per Share

Full-Year 2019 Net Income of \$29.1 Billion, or \$2.93 Per Share, Excluding 3Q19 Impairment Charge³

4Q19 Financial Highlights¹

4Q19 Business Segment Highlights^{1,2}

Commentary from Chairman and CEO Brian Moynihan: "In a steadily growing economy marked by solid client activity, our teammates produced another strong quarter and year, allowing us to increase investments in our customers, communities, and employees, while keeping a close eye on expenses. We also delivered for shareholders in 2019 by returning a record \$34 billion in excess capital through dividends and share repurchases. As evidenced by a quarter in which our customer deposits surpassed \$1.4 trillion and client balances in our wealth management business topped \$3 trillion, we enter 2020 with momentum."

¹ Financial Highlights and Business Segment Highlights compare to the year-ago quarter unless noted. Loan and deposit balances are shown on an average basis unless noted.

² The Corporation reports the results of operations of its four business segments and All Other on a fully taxable-equivalent (FTE) basis.

³ Represents a non-GAAP financial measure. For additional information, see endnotes C and D on page 10 and reconciliation on page 18.

Commentary from Chief Financial Officer Paul Donofrio: "The company managed well through a period of transition from rising rates to lower rates over a short period of time. Solid client activity in growing loans and gathering deposits helped us offset spread compression. We also are aided by diverse lines of business and operations, with noninterest income comprising nearly half of our revenue."

Financial Results¹

- Net income of \$3.1 billion, down \$332 million, or 10%, as healthy levels of client activity and spending helped mitigate the impact of lower rates
- Revenue of \$9.5 billion decreased 4%, driven primarily by lower NII and the absence of a small gain in 4Q18
- Provision for credit losses increased modestly to \$934 million
 - Net charge-off ratio improved to 1.18%, compared to 1.22%
- Noninterest expense increased 1%, driven by the cost of increased client activity and investments for business growth, largely offset by improved productivity and lower FDIC expense

Business Highlights^{1,2}

- Average deposits grew \$33 billion, or 5%; average loans grew \$21 billion, or 7%, driven by growth in residential mortgages
- Consumer investment assets grew \$54 billion, or 29%, to \$240 billion, driven by strong market performance and client flows
- · Combined credit/debit card spend increased 6%, with record 2019 holiday spend
- 40 new financial centers opened and 305 renovated in 4019
- · Digital usage continued to grow
 - 38.3 million active digital banking users, up 6%
 - 29.2 million active mobile banking users, up 10%
 - Digital sales were 29% of all Consumer Banking sales
 - 1.6 billion mobile logins in 4Q19
 - 9.7 million active Zelle® users with 95 million transactions in 4Q19
- 6.1 million Consumer customers enrolled in Preferred Rewards with 99% retention rate

Global Wealth and Investment Management

Financial Results¹

- Net income of \$1.0 billion, down \$48 million, or 4%
- Revenue of \$4.9 billion decreased 2%
 - 4Q18 included a gain on the sale of a non-core asset
 - Asset management fees increased 5%, driven by the impact of higher market valuations and positive AUM flows, while transactional revenue declined
 - Net interest income declined, as solid loan and deposit growth partially offset the impact from lower interest rates
- Noninterest expense decreased 1% as investments for business growth were more than offset by lower amortization of intangibles, litigation and FDIC expense

¹ Represents a non-GAAP financial measure. For reconciliation, see page 18 of this press release.

Endnotes

- A We also measure net interest income on an FTE basis, which is a non-GAAP financial measure. FTE basis is a performance measure used in operating the business that management believes provides investors a more accurate picture of the interest margin for comparative purposes. We believe that this presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. Net interest income on an FTE basis was \$12.3 billion, \$12.3 billion and \$12.7 billion for the three months ended December 31, 2019, September 30, 2019 and December 31, 2018, respectively. The FTE adjustment was \$145 million, \$148 million and \$155 million for the three months ended December 31, 2019, September 30, 2019 and December 31, 2019, September 30, 2019 and December 31, 2018, respectively.
- B Global Markets revenue and net income, excluding net debit valuation adjustments (DVA), and sales and trading revenue, excluding net DVA, are non-GAAP financial measures. Net DVA gains (losses) were \$(86) million, \$(15) million and \$52 million for the three months ended December 31, 2019, September 30, 2019 and December 31, 2018, respectively. FICC net DVA gains (losses) were \$(81) million, \$(18) million and \$45 million for the three months ended December 31, 2019, september 30, 2019 and December 31, 2018, respectively.
- C Our financial results, after giving effect to the impact of the non-cash impairment charge related to the notice of termination of the merchant services joint venture (JV) at the conclusion of its current term, include non-GAAP financial measures. This impairment charge was recorded in 3Q19 and reduced net income by \$1.7 billion, or \$0.19 per diluted share (\$0.18 per diluted share for full-year 2019), which included an increase in noninterest expense and a reduction in pretax income of \$2.1 billion and a reduction in income tax expense of \$373 million. The impairment charge negatively impacted 2019 return on average assets by 7 bps, return on average common shareholders' equity by 66 bps, return on average tangible common shareholders' equity by 91 bps and increased the efficiency ratio by 227 bps. We believe the use of these non-GAAP measures provides additional clarity in understanding our results of operations and comparing our operational performance between periods.
- D Return on average tangible common shareholders' equity is a non-GAAP financial measure. See page 18 of this press release for reconciliation to GAAP financial measures.
- E Global Liquidity Sources (GLS) include cash and high-quality, liquid, unencumbered securities, limited to U.S. government securities, U.S. agency securities, U.S. agency MBS, and a select group of non-U.S. government and supranational securities, and are readily available to meet funding requirements as they arise. They do not include Federal Reserve Discount Window or Federal Home Loan Bank borrowing capacity. Transfers of liquidity among legal entities may be subject to certain regulatory and other restrictions.
- F Regulatory capital ratios at December 31, 2019 are preliminary. The Corporation reports regulatory capital ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is used to assess capital adequacy, which for Common equity tier 1 (CET1) is the Standardized approach for all reporting dates presented.

Forward-Looking Statements

Bank of America Corporation (the "Company") and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent the Company's current expectations, plans or forecasts of its future results, revenues, expenses, efficiency ratio, capital measures, strategy, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Company's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of the Company's 2018 Annual Report on Form 10-K and in any of the Company's subsequent Securities and Exchange Commission filings: the Company's potential claims, damages, penalties, fines and reputational damage resulting from pending or future litigation, regulatory proceedings and enforcement actions; the possibility that the Company's future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, regulatory, and representations and warranties exposures; the possibility that the Company could face increased servicing, fraud, indemnity, contribution or other claims from one or more counterparties, including trustees, purchasers of loans, underwriters, issuers, monolines, private-label and other investors, or other parties involved in securitizations; the Company's ability to resolve representations and warranties repurchase and related claims, including claims brought by investors or trustees seeking to avoid the statute of limitations for repurchase claims; the risks related to the discontinuation of the London InterBank Offered Rate and other reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Company's exposures to such risks, including direct, indirect and operational; the impact of U.S. and global interest rates, inflation, currency exchange rates, economic conditions, trade policies and tensions, including tariffs, and potential geopolitical instability; the impact of the interest rate environment on the Company's business, financial condition and results of operations; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties; the Company's ability to achieve its expense targets and expectations regarding net interest income, net charge-offs, effective tax rate, loan growth or other projections; adverse changes to the Company's credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Company's assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards, including the new credit loss accounting standard; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements and/or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Company's capital plans; the effect of regulations, other guidance or additional information on the impact from the Tax Cuts and Jobs Act; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including, but not limited to, recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards and derivatives regulations; a failure or disruption in or breach of the Company's operational or security systems or infrastructure, or those of third parties, including as a result of cyber-attacks; the impact on the Company's business, financial condition and results of operations from the planned exit of the United Kingdom from the European Union; the impact of any future federal government shutdown and uncertainty regarding the federal government's debt limit; and other matters.

Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

(1) Return on average tangible common shareholders' equity and tangible book value per share of common stock are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. Tangible book value per share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock. See Reconciliations to GAAP Financial Measures on page 18.

²¹ Ratios do not include loans accounted for under the fair value option. Charge-off ratios are annualized for the quarterly presentation.

Balances do not include loans accounted for under the rain value option. Charge on raises are annuance for the quartery presentation.
(a) Balances do not include past due consumer credit card loans, consumer loans secured by real estate where repayments are insured by the Federal Housing Administration and individually insured long-term stand-by agreements (fully insured home loans), and in general, other consumer and commercial loans not secured by real estate; purchased credit-impaired loans even though the customer may be contractually past due; and nonperforming loans held for sale or accounted for under the fair value option.

nonperforming loans held for sale or accounted for under the fair value option. ^[4] Regulatory capital ratios at December 31, 2019 are preliminary. Bank of America Corporation reports regulatory capital ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is used to assess capital adequacy, which for Common equity tier 1 (CET1) is the Standardized approach for all periods presented.

Table is used to assess capital adequacy, which for common equity der 1 (CET) is to bandancize upprotect for an periods presence. ¹⁵ Tangible quity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. (1) FTE basis is a non-GAAP financial measure. FTE basis is a performance measure used by management in operating the business that management believes provides investors with a more accurate picture of the interest margin for comparative purposes. The Corporation believes that this presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. Net interest income includes FTE adjustments of \$595 million and \$610 million for the years ended December 31, 2019 and 2018, \$145 million and \$148 million for the fourth and third quarters of 2019, and \$155 million for the fourth quarter of 2018.

Bank of America Corporation and Subsidiaries Reconciliations to GAAP Financial Measures

(Dollars in millions, except per share information)

The Corporation evaluates its business based on the following ratios that utilize tangible equity, a non-GAAP financial measure. Tangible equity represents an adjusted shareholders' equity or common shareholders' equity amount which has been reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible common shareholders' equity measures the Corporation's net income applicable to common shareholders as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible shareholders' equity measures the Corporation's net income as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity measures the Corporation's net income as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. The tangible equity average tangible shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related tax liabilities. Tangible book value per common share epresents adjusted ending common shareholders' equity divided by ending common shareholders' equity divided by ending common shares outstanding. These measures are used to evaluate the Corporation's use of equity. In addition, profitability, relationship and investment models all use return on average tangible shareholders' equity as key measures to support our overall growth goals.

See the tables below for reconciliations of these non-GAAP financial measures to the most closely related financial measures defined by GAAP for the years ended December 31, 2019 and 2018 and the three months ended December 31, 2019, September 30, 2019 and December 31, 2018. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in understanding its results of operations and trends. Other companies may define or calculate supplemental financial data differently.

Year-Over-Year Growth in Business Segments

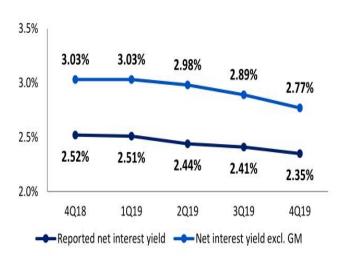

Net Interest Income

Net Interest Income (FTE, \$B)¹

Net interest income of \$12.1B (\$12.3B FTE¹)

- Decreased \$0.4B, or 3%, from 4Q18, driven primarily by lower interest rates, partially offset by loan and deposit growth
- Declined modestly from 3Q19, as lower asset yields were partially offset by lower funding costs as well as benefits of loan and deposit growth
- Net interest yield of 2.35% decreased 17 bps from 4Q18 and decreased 6 bps from 3Q19¹
 - Average rate paid on interest-bearing deposits declined 15 bps from 3Q19 to 0.61%
- Asset sensitivity position relatively unchanged compared to 3Q19

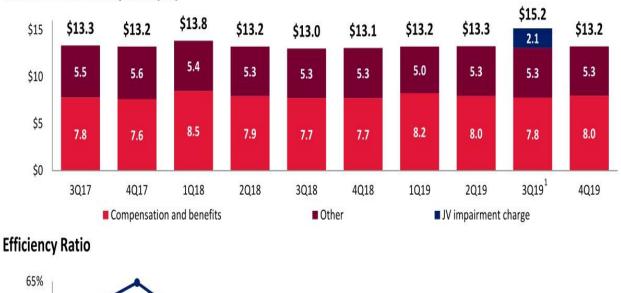

Notes: FTE stands for fully taxable-equivalent basis. GM stands for Global Markets.

¹Represent non-GAAP financial measures. Net interest yield adjusted to exclude Global Markets NII of \$1.1B, \$1.0B, \$0.8B, \$1.0B and \$0.9B and average earning assets of \$481.4B, \$476.9B, \$474.1B, \$472.4B and \$458.3B for 4Q19, 3Q19, 2Q19, 1Q19 and 4Q18, respectively. The Company believes the presentation of net interest yield excluding Global Markets provides investors with transparency of NII and net interest yield in core banking activities. For important presentation information, see slide 30.

Net Interest Yield (FTE)¹

Expense and Efficiency

Total Noninterest Expense (\$B)

Noninterest expense of \$13.2B increased \$0.2B from 4Q18, as investments across the franchise including in client-facing associates, employee • compensation programs, technology, and real estate were partially offset by efficiency savings enabled by operational excellence work, lower FDIC costs and lower amortization of intangibles

- Noninterest expense declined \$1.9B from 3Q19, driven by absence of 3Q19 impairment charge of \$2.1B for notice of termination of the merchant services joint venture at the conclusion of its current term
- Compared to 4Q19, 1Q20 expenses expected to include approximately \$0.4B for seasonally elevated personnel costs ٠

Reported 3Q19 efficiency ratio was 67%. See note A on slide 27 for reconciliations.

Asset Quality

Net Charge-offs (\$MM)¹

3Q19 and 2Q19 included recoveries from the sale of previously charged-off non-core consumer real estate loans of \$198MM and \$118MM; NCO ratio of 0.42% and 0.43% excluding these sales; impact of sales on other periods presented was immaterial

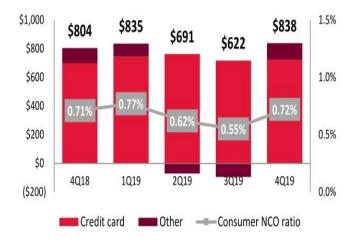

Provision for Credit Losses (\$MM)

- Total net charge-offs of \$959MM
 - Net charge-offs were modestly down from 3Q19, excluding 3Q19 recoveries from the sale of previously charged-off noncore consumer real estate loans of \$198MM
- Net charge-off (NCO) ratio of 39 bps
 - Excluding the loan sales in 3Q19, net charge-off ratio decreased 3 bps
- Provision expense of \$941MM increased \$162MM from 3Q19, due primarily to loan sale recoveries in 3Q19
 - 4Q19 included a small reserve release of \$18MM, similar to 3Q19
- Allowance for loan and lease losses of \$9.4B represented 0.97% of total loans and leases ¹
- Nonperforming loans (NPLs) of \$3.6B were stable vs. 3Q19
 - As a percentage of loans and leases, NPL ratio remains near historic lows
 - 44% of consumer NPLs are contractually current
- Commercial reservable criticized utilized exposure of \$11.5B declined modestly from 3Q19, and reservable criticized ratio remains near historic lows

¹Excludes loans measured at fair value.

- Net income of \$3.1B decreased from 4Q18, as solid client activity partially offset the impact of lower interest rates in the second half of 2019
- Revenue of \$9.5B decreased \$0.4B, or 4%, from 4Q18, driven primarily by lower NII and the absence of a small gain in 4Q18
- Provision increased modestly from 4Q18
- Noninterest expense increased 1% from 4Q18, driven by the cost of increased client activity and investments for business growth, largely offset by improved productivity and lower FDIC expense
 - Continued investment in financial center and ATM builds/renovations, sales professionals, digital capabilities, minimum wage increases and Shared Success programs
 - Digital usage increased for sales, service and appointments
- Average deposits of \$720B grew \$33B, or 5%, from 4Q18
 - 53% of deposits in checking accounts; 91% primary accounts⁴
 - Average cost of deposits of 1.51% ¹; rate paid of 11 bps
- Average loans and leases of \$311B increased \$21B, or 7%, from 4Q18, driven by growth in residential mortgages
- Consumer investment assets of \$240B grew \$54B, or 29%, from 4Q18, driven by strong market performance and client flows
 - \$20B of client flows since 4Q18
 - Client accounts of 2.7MM, up 7%
- Combined credit / debit card spend increased 6% from 4Q18, including record holiday spend
- 6.1MM consumer clients enrolled in Preferred Rewards; 99% retention

Notes

^A Our financial results, after giving effect to the impact of the non-cash impairment charge related to the notice of termination of the merchant services joint venture at the conclusion of its current term, include non-GAAP financial measures. This impairment charge was recorded in 3Q19 and reduced net income by \$1.7B, or \$0.19 per diluted share (\$0.18 per diluted share for full-year 2019), which included an increase in noninterest expense and a reduction in pretax income of \$2.1B and a reduction in income tax expense of \$373MM. The impairment charge negatively impacted 2019 return on average assets by 7 bps, return on average tangible common shareholders' equity by 91 bps, and increased the efficiency ratio by 227 bps. Reported 2019 metrics are shown on slide 2. We believe the use of these non-GAAP financial measures provides additional clarity in understanding our results of operations and comparing our operational performance between periods.

^B Global Liquidity Sources (GLS) include cash and high-quality, liquid, unencumbered securities, limited to U.S. government securities, U.S. agency securities, U.S. agency MBS, and a select group of non-U.S. government and supranational securities, and are readily available to meet funding requirements as they arise. It does not include Federal Reserve Discount Window or Federal Home Loan Bank borrowing capacity. Transfers of liquidity among legal entities may be subject to certain regulatory and other restrictions.

^c Revenue for all periods included net debit valuation adjustments (DVA) on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Net DVA gains (losses) were (\$86MM), (\$15MM) and \$52MM for 4Q19, 3Q19 and 4Q18, respectively, and (\$222MM), (\$162MM), (\$428MM), (\$238MM), (\$786MM) and (\$240MM) for 2019, 2018, 2017, 2016, 2015 and 2014, respectively. Net DVA gains (losses) included in FICC revenue were (\$81MM), (\$18MM) and \$45MM for 4Q19, 3Q19 and 4Q18, respectively, and (\$208MM), (\$142MM), (\$238MM), (\$763MM) and (\$308MM) for 2019, 2018, 2017, 2016, 2015 and 2014, respectively. Net DVA gains (losses) included in FiCC revenue were (\$81MM), (\$18MM) and \$45MM for 4Q19, 3Q19 and 4Q18, respectively, and (\$208MM), (\$142MM), (\$238MM), (\$763MM) and (\$308MM) for 2019, 2018, 2017, 2016, 2015 and 2014, respectively. Net DVA gains (losses) included in Equities revenue were (\$5MM), \$3MM and \$7MM for 4Q19, 3Q19 and 4Q18, respectively, and (\$208MM) and \$68MM for 2019, 2018, 2017, 2016, 2015 and 2014, respectively. Net DVA gains (losses) included in Equities revenue were (\$5MM), \$3MM and \$7MM for 4Q19, 3Q19 and 4Q18, respectively, and (\$14MM), (\$20MM), (\$24MM), \$0MM, (\$23MM) and \$68MM for 2019, 2018, 2017, 2016, 2015 and 2014, respectively.

^D VaR model uses historical simulation approach based on three years of historical data and an expected shortfall methodology equivalent to a 99% confidence level. Using a 95% confidence level, average VaR was \$20MM, \$19MM and \$22MM for 4Q19, 3Q19 and 4Q18, respectively, and \$20MM, \$19MM, \$20MM, \$22MM, \$25MM and \$29MM for 2019, 2018, 2017, 2016, 2015 and 2014, respectively.

Forward-Looking Statements

Bank of America Corporation (the "Company") and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent the Company's current expectations, plans or forecasts of its future results, revenues, expenses, efficiency ratio, capital measures, strategy, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Company's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of the Company's 2018 Annual Report on Form 10-K and in any of the Company's subsequent Securities and Exchange Commission filings: the Company's potential claims, damages, penalties, fines and reputational damage resulting from pending or future litigation, regulatory proceedings and enforcement actions; the possibility that the Company's future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, regulatory, and representations and warranties exposures; the possibility that the Company could face increased servicing, fraud, indemnity, contribution, or other claims from one or more counterparties, including trustees, purchasers of loans, underwriters, issuers, monolines, private-label and other investors, or other parties involved in securitizations; the Company's ability to resolve representations and warranties repurchase and related claims, including claims brought by investors or trustees seeking to avoid the statute of limitations for repurchase claims; the risks related to the discontinuation of the London InterBank Offered Rate and other reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Company's exposures to such risks, including direct, indirect and operational; the impact of U.S. and global interest rates, inflation, currency exchange rates, economic conditions, trade policies and tensions, including tariffs, and potential geopolitical instability; the impact of the interest rate environment on the Company's business, financial condition and results of operations; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties; the Company's ability to achieve its expense targets and expectations regarding net interest income, net charge-offs, effective tax rate, loan growth or other projections; adverse changes to the Company's credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Company's assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards, including the new credit loss accounting standard; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements and/or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Company's capital plans; the effect of regulations, other guidance or additional information on the impact from the Tax Cuts and Jobs Act; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including, but not limited to, recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards and derivatives regulations; a failure or disruption in or breach of the Company's operational or security systems or infrastructure, or those of third parties, including as a result of cyber-attacks; the impact on the Company's business, financial condition and results of operations from the planned exit of the United Kingdom from the European Union; the impact of any future federal government shutdown and uncertainty regarding the federal government's debt limit; and other matters.

Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Important Presentation Information

- The information contained herein is preliminary and based on Company data available at the time of the earnings presentation. It speaks only as of the particular
 date or dates included in the accompanying slides. Bank of America does not undertake an obligation to, and disclaims any duty to, update any of the
 information provided.
- In the Consolidated Statement of Income, amounts related to certain asset and liability management activities have been reclassified from Other income to Market making and similar activities, which was previously referred to as Trading account income. All prior periods presented reflect this change, which has no impact on the Company's Total noninterest income or Net income, and has no impact on business segment results. The amounts included in Market making and similar activities related to this change in presentation are as follows: \$930 million and \$1.1 billion for the years ended December 31, 2019 and 2018, and \$53 million, \$411 million, \$36 million, \$430 million and \$177 million in the fourth, third, second and first quarters of 2019 and the fourth quarter of 2018, respectively.
- The Company may present certain key performance indicators and ratios, including year-over-year comparisons of revenue, noninterest expense and pretax
 income, excluding certain items (e.g., DVA) which result in non-GAAP financial measures. The Company believes the use of these non-GAAP financial measures
 provides additional clarity in understanding its results of operations and trends. For more information about the non-GAAP financial measures contained herein,
 please see the presentation of the most directly comparable financial measures calculated in accordance with GAAP and accompanying reconciliations in the
 earnings press release for the quarter ended December 31, 2019 and other earnings-related information available through the Bank of America Investor
 Relations website at: http://investor.bankofamerica.com.
- The Company views net interest income and related ratios and analyses on a fully taxable-equivalent (FTE) basis, which when presented on a consolidated basis are non-GAAP financial measures. The Company believes managing the business with net interest income on an FTE basis provides investors with a more accurate picture of the interest margin for comparative purposes. The Company believes that the presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. The FTE adjustment was \$145MM, \$148MM, \$149MM, \$153MM and \$155MM for 4Q19, 3Q19, 2Q19, 1Q19 and 4Q18, respectively.
- The Company allocates capital to its business segments using a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. The Company's internal risk-based capital models use a risk-adjusted methodology incorporating each segment's credit, market, interest rate, business and operational risk components. Allocated capital is reviewed periodically and refinements are made based on multiple considerations that include, but are not limited to, risk-weighted assets measured under Basel 3 Standardized and Advanced approaches, business segment exposures and risk profile, and strategic plans.

Description of Financial Reporting Reclassification

In the Consolidated Statement of Income, amounts related to certain asset and liability management activities have been reclassified from Other income to Market making and similar activities, which was previously referred to as Trading account income. All prior periods presented reflect this change, which has no impact on the Corporation's Total noninterest income or Net income, and has no impact on business segment results. The amounts included in Market making and similar activities related to this change in presentation are as follows: \$930 million and \$1.1 billion for the years ended December 31, 2019 and 2018, and \$53 million, \$411 million, \$36 million, \$430 million and \$177 million in the fourth, third, second and first quarters of 2019 and the fourth quarter of 2018, respectively.

Business Segment Operations

The Corporation reports the results of operations of its four business segments and *All Other* on a fully taxable-equivalent (FTE) basis. Additionally, the results for the total Corporation as presented on pages 10 - 12 are reported on an FTE basis.

(1) Tangible equity ratios and tangible book value per share of common stock are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. Tangible book value per share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on page 33.)

 Tangible quity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. Tangible common equity ratio equals period-end tangible sesters are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations - Reconciliation to GAAP Financial Measures on page 33.)

Includes *Global Banking* sales and trading revenue o\$533 million and \$421 million for the years endedDecember 31, 2019 and 2018, and \$142 million, \$148 million, \$128 million, \$115 million and \$126 million for the fourth, third, second and first quarters of 2019 and the fourth quarter of 2018, respectively.
 For this presentation, sales and trading revenue excludes net debit valuation adjustment (DVA) gains (losses) which include net DVA on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Sales and trading revenue excluding net DVA gains (losses) represents a non-GAAP financial measure. We believe the use of this non-GAAP financial measure provides additional useful information to assess the underlying performance of these businesses and to allow better comparison of period-to-period operating performance.
