Bank of America Corporation (the "Corporation") and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent the Corporation's current expectations, plans or forecasts of its future results, revenues, liquidity, net interest income, provision for credit losses, expenses, efficiency ratio, capital measures, strategy, deposits, assets, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Corporation's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K and in any of the Corporation's subsequent Securities and Exchange Commission filings: the Corporation's potential judgments, orders, settlements, penalties, fines and reputational damage, which are inherently difficult to predict, resulting from pending, threatened or future litigation and regulatory investigations, proceedings and enforcement actions, of which the Corporation is subject to in the ordinary course of business, including matters related to our processing of unemployment benefits for California and certain other states, the features of our automatic credit card payment service, the adequacy of the Corporation's anti-money laundering and economic sanctions programs, the processing of electronic payments and related fraud and the rates paid on uninvested cash in investment advisory accounts that is swept into interest-paying bank deposits, which are in various stages; the possibility that the Corporation's future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, and regulatory and government actions; the possibility that the Corporation could face increased claims from one or more parties involved in mortgage securitizations; the Corporation's ability to resolve representations and warranties repurchase and related claims; the risks related to the discontinuation of reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Corporation's exposures to such risks, including direct, indirect and operational;

the impact of U.S. and global interest rates, inflation, currency exchange rates, economic conditions, trade policies and tensions, including tariffs, and potential geopolitical instability; the impact of the interest rate, inflationary, macroeconomic, banking and regulatory environment on the Corporation's assets, business, financial condition and results of operations; the impact of adverse developments affecting the U.S. or global banking industry, including bank failures and liquidity concerns, resulting in worsening economic and market volatility, and regulatory responses thereto; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties, including the impact of supply chain disruptions, inflationary pressures and labor shortages on economic conditions and our business; potential losses related to the Corporation's concentration of credit risk; the Corporation's ability to achieve its expense targets and expectations regarding revenue, net interest income, provision for credit losses, net charge-offs, effective tax rate, loan growth or other projections; variances to the underlying assumptions and judgments used in estimating banking book net interest income sensitivity; adverse changes to the Corporation's credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Corporation's assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements, stress capital buffer requirements and/or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Corporation's capital plans; the effect of changes in or interpretations of income tax laws and regulations; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including, but not limited to, recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards, derivatives regulations and potential changes to loss allocations between financial institutions and customers, including for losses incurred from the use of our products and services, including electronic payments and payment of checks, that were authorized by the customer but induced by fraud; the impact of failures or disruptions in or breaches of the Corporation's operations or information systems, or those of third parties, including as a result of cybersecurity incidents; the risks related to the development, implementation, use and management of emerging technologies, including artificial intelligence and machine learning; the risks related to the transition and physical impacts of climate change; our ability to achieve environmental, social and governance goals and commitments or the impact of any changes in the Corporation's sustainability strategy or commitments generally; the impact of uncertain political conditions or any future federal government

shutdown and uncertainty regarding the federal government's debt limit or changes in fiscal, monetary or regulatory policy; the emergence or continuation of widespread health emergencies or pandemics; the impact of natural disasters, extreme weather events, military conflicts (including the Russia/Ukraine conflict, the conflict in the Middle East, the possible expansion of such conflicts and potential geopolitical consequences), terrorism or other geopolitical events; and other matters.

Forward-looking statements speak only as of the date they are made, and the Corporation undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Notes to the Consolidated Financial Statements referred to in Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) are incorporated by reference into the MD&A. Certain prior-period amounts have been reclassified to conform to current-period presentation. Throughout the MD&A, the Corporation uses certain acronyms and abbreviations which are defined in the Glossary.

Executive Summary

Business Overview

The Corporation is a Delaware corporation, a bank holding company (BHC) and a financial holding company. When used in this report, "Bank of America," "the Corporation," "we," "us" and "our" may refer to Bank of America Corporation individually, Bank of America Corporation and its subsidiaries, or certain of Bank of America Corporation's subsidiaries or affiliates. Our principal executive offices are located in Charlotte, North Carolina. Through our various bank and nonbank subsidiaries throughout the U.S. and in international markets, we provide a diversified range of banking and nonbank financial services and products through four business segments: *Consumer Banking*, *Global Wealth & Investment Management (GWIM)*, *Global Banking* and *Global Markets*, with the remaining operations recorded in *All Other*. We operate our banking activities primarily under the Bank of America, National Association (Bank of America, N.A. or BANA) charter. At June 30, 2024, the Corporation had \$3.3 trillion in assets and a headcount of approximately 212,000 employees.

As of June 30, 2024, we served clients through operations across the U.S., its territories and more than 35 countries. Our retail banking footprint covers all major markets in the U.S., and we serve approximately 69 million consumer and small business clients with approximately 3,800 retail financial centers, approximately 15,000 ATMs, and leading digital banking platforms (www.bankofamerica.com) with approximately

47 million active users, including approximately 39 million active mobile users. We offer industry-leading support to approximately four million small business households. Our GWIM businesses, with client balances of \$4.0 trillion, provide tailored solutions to meet client needs through a full set of investment management, brokerage, banking, trust and retirement products. We are a global leader in corporate and investment banking and trading across a broad range of asset classes serving corporations, governments, institutions and individuals around the world.

The Corporation's website is www.bankofamerica.com, and the Investor Relations portion of our website is <https://investor.bankofamerica.com>. We use our website to distribute company information, including as a means of disclosing material, non-public information and for complying with our disclosure obligations under Regulation FD. We routinely post and make accessible financial and other information, including environmental, social and governance (ESG) information, regarding the Corporation on our website. Investors should monitor our website, including the Investor Relations portion, in addition to our press releases, U.S. Securities and Exchange Commission (SEC) filings, public conference calls and webcasts. Recent Developments

Capital Management

On June 26, 2024, the Board of Governors of the Federal Reserve System (Federal Reserve) announced the results of the 2024 Comprehensive Capital Analysis and Review (CCAR) supervisory stress tests. Based on the results, our stress capital buffer (SCB) is expected to be 3.2 percent, and the Common equity tier 1 (CET1) minimum requirement will be 10.7 percent when finalized. The new SCB will be effective from October 1, 2024 through September 30, 2025.

On July 24, 2024, the Corporation's Board of Directors (the Board) authorized a \$25 billion common stock repurchase program, effective August 1, 2024, to replace the Corporation's existing program, which will expire on the same date. For more information, see Capital Management – CCAR and Capital Planning on page 21. The Board also declared a quarterly common stock dividend of \$0.26 per share, an increase of eight percent compared to the prior dividend, payable on September 27, 2024 to shareholders of record as of September 6, 2024.

For more information on our capital resources and regulatory developments, see Capital Management beginning on page 21.

⁽²⁾ Return on average tangible common shareholders' equity is a non-GAAP financial measure. For more information and a corresponding reconciliation to the most directly comparable financial measures defined by accounting principles generally accepted in the United States of America (GAAP), see Non-GAAP Reconciliations on page 48.

Net income was \$6.9 billion and \$13.6 billion, or \$0.83 and \$1.59 per diluted share, for the three and six months ended June 30, 2024 compared to \$7.4 billion and \$15.6 billion, or \$0.88 and \$1.82 per diluted share, for the same periods in 2023. The decrease in net income was primarily due to higher noninterest expense and provision for credit losses.

Total assets increased \$77.8 billion from December 31, 2023 to \$3.3 trillion primarily driven by higher securities borrowed or purchased under agreements to resell and trading account assets to support *Global Markets* client activity.

Total liabilities increased \$75.6 billion from December 31, 2023 to \$3.0 trillion primarily driven by higher securities loaned or sold under agreements to repurchase to support *Global Markets* client activity.

Shareholders' equity increased \$2.2 billion from December 31, 2023 primarily due to net income, partially offset by returns of capital to shareholders through common stock repurchases, common and preferred stock dividends, and preferred stock redemptions.

Net Interest Income

Net interest income decreased \$456 million to \$13.7 billion, and \$872 million to \$27.7 billion for the three and six months ended June 30, 2024 compared to the same periods in 2023. Net interest yield on a fully taxable-equivalent (FTE) basis decreased 13 basis points (bps) to 1.93 percent and 17 bps to 1.96 percent for the same periods. The decreases were primarily driven by higher deposit costs, partially offset by higher asset yields and higher net interest income related to *Global Markets* activity. For more information on net interest yield and FTE basis, see Supplemental Financial Data on page 6, and for more information on interest rate risk management, see Interest Rate Risk Management for the Banking Book on page 44.

Noninterest Income

Table 2 Noninterest Income

(Dollars in millions)	Three Months Ended June 30		Six Months Ended June 30

Total noninterest income	\$ 11,675	\$ 11,039	\$ 23,461	\$ 22,849

Noninterest income increased \$636 million to \$11.7 billion and \$612 million to \$23.5 billion for the three and six months ended June 30, 2024 compared to the same periods in 2023. The following highlights the significant changes.

- Service charges increased \$143 million and \$175 million primarily driven by higher treasury service charges.
- Investment and brokerage services increased \$481 million and \$816 million primarily driven by higher asset management fees due to higher average equity market valuations and positive assets under management (AUM) flows, partially offset by the impact of lower AUM pricing.
- Investment banking fees increased \$349 million and \$754 million primarily due to higher debt and equity issuance fees.
- Market making and similar activities decreased \$399 million and \$1.2 billion primarily driven by lower trading revenue from macro products in Fixed Income, Currencies and Commodities (FICC). The decreases were partially offset by higher trading revenue in Equities.

Noninterest Expense

Table 3 Noninterest Expense

(Dollars in millions)	Three Months Ended June 30		Six Months Ended June 30	
	2024	2023	2024	2023
Compensation and benefits	\$ 9,826	\$ 9,401	\$ 20,021	\$ 19,319

Total noninterest expense	\$ 16,309	\$ 16,038	\$ 33,546	\$ 32,276

Noninterest expense increased \$271 million to \$16.3 billion and \$1.3 billion to \$33.5 billion for the three and six months ended June 30, 2024 compared to the same periods in 2023. The increases in both periods were primarily driven by higher investments in people and revenue-related compensation,

Provision for Credit Losses

The provision for credit losses increased \$383 million to \$1.5 billion and \$771 million to \$2.8 billion for the three and six months ended June 30, 2024 compared to the same periods in 2023. The provision for credit losses for the current-year periods was primarily driven by credit card loans and the commercial real estate office portfolio, partially offset by an improved macroeconomic outlook. For more information on the provision for credit losses, see Allowance for Credit Losses on page 40.

partially offset by lower litigation expense. The increase in the six-month period also included the additional accrual of \$700 million for the Federal Deposit Insurance Corporation (FDIC) special assessment recorded in the first quarter of 2024, as well as higher investments in technology.

Income Tax Expense

Table 4 Income Tax Expense

(Dollars in millions)	Three Months Ended June 30		Six Months Ended June 30	
	2024	2023	2024	2023
Income before income taxes	\$ 7,560	\$ 8,034	\$ 14,822	\$ 17,123
Income tax expense	663	626	1,251	1,554
Effective tax rate	8.8 %	7.8 %	8.4 %	9.1 %

The effective tax rates for the three and six months ended June 30, 2024 and 2023 were primarily driven by our recurring tax preference benefits that mainly consist of tax credits from investments in affordable housing and renewable energy. Also included in the effective tax rate for the six months ended June 30, 2024 was the discrete benefit from the \$700 million charge recorded in the first quarter for the FDIC special assessment. Absent the tax credits and discrete tax benefits, the effective tax rates would have been approximately 25 percent and 26 percent for the three months ended June 30, 2024 and 2023 and 26 percent for both the six months ended June 30, 2024 and 2023.

Supplemental Financial Data

Non-GAAP Financial Measures

In this Quarterly Report on Form 10-Q, we present certain non-GAAP financial measures. Non-GAAP financial measures exclude certain items or otherwise include components that differ from the most directly comparable measures calculated in accordance with GAAP. Non-GAAP financial measures are provided as additional useful information to assess our financial condition, results of operations (including period-to-period operating performance) or compliance with prospective regulatory requirements. These non-GAAP financial measures are not intended as a substitute for GAAP financial measures and may not be defined or calculated the same way as non-GAAP financial measures used by other companies.

When presented on a consolidated basis, we view net interest income on an FTE basis as a non-GAAP financial measure. To derive the FTE basis, net interest income is adjusted to reflect tax-exempt income on an equivalent before-tax basis with a corresponding increase in income tax expense. For purposes of this calculation, we use the federal statutory tax rate of 21 percent and a representative state tax rate. Net interest yield, which measures the basis points we earn over the cost of funds, utilizes net interest income on an FTE basis. We believe that presentation of these items on an FTE basis allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices.

We may present certain key performance indicators and ratios excluding certain items (e.g., debit valuation adjustment (DVA) gains (losses)), which result in non-GAAP financial measures. We believe that the presentation of measures that exclude these items is useful because such measures provide additional information to assess the underlying operational performance and trends of our businesses and to allow better comparison of period-to-period operating performance.

We also evaluate our business based on certain ratios that utilize tangible equity, a non-GAAP financial measure. Tangible equity represents shareholders' equity or common

shareholders' equity reduced by goodwill and intangible assets (excluding mortgage servicing rights (MSRs)), net of related deferred tax liabilities ("adjusted" shareholders' equity or common shareholders' equity). These measures are used to evaluate our use of equity. In addition, profitability, relationship and investment models use both return on average tangible common shareholders' equity and return on average tangible shareholders' equity as key measures to support our overall growth objectives. These ratios are:

- Return on average tangible common shareholders' equity measures our net income applicable to common shareholders as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total tangible assets.
- Return on average tangible shareholders' equity measures our net income as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total tangible assets.
- Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding.

We believe ratios utilizing tangible equity provide additional useful information because they present measures of those assets that can generate income. Tangible book value per common share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock.

The aforementioned supplemental data and performance measures are presented in Table 5 on page 7.

For more information on the reconciliation of these non-GAAP financial measures to the corresponding GAAP financial measures, see Non-GAAP Reconciliations on page 48.

Key Performance Indicators

We present certain key financial and nonfinancial performance indicators (key performance indicators) that management uses when assessing our consolidated and/or segment results. We believe they are useful to investors because they provide additional information about our underlying operational performance and trends. These key performance indicators (KPIs) may not be defined or calculated in the same way as similar KPIs used by other companies. For information on how these metrics are defined, see Key Metrics on page 103.

Our consolidated key performance indicators, which include various equity and credit metrics, are presented in Table 1 on page 4 and Table 5 on page 7.

For information on key segment performance metrics, see Business Segment Operations on page 10.

Business Segment Operations

Segment Description and Basis of Presentation

We report our results of operations through four business segments: *Consumer Banking*, *GWIM*, *Global Banking* and *Global Markets*, with the remaining operations recorded in *All Other*. We manage our segments and report their results on an FTE basis. For more information, see Business Segment Operations in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

We periodically review capital allocated to our businesses and allocate capital annually during the strategic and capital planning processes. We utilize a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. The capital allocated to the business segments is referred to as allocated capital. Allocated equity in the reporting units is comprised of allocated capital plus capital

for the portion of goodwill and intangibles specifically assigned to the reporting unit. For more information, including the definition of a reporting unit, see *Note 7 – Goodwill and Intangible Assets* to the Consolidated Financial Statements.

For more information on our presentation of financial information on an FTE basis, see Supplemental Financial Data on page 6, and for reconciliations to consolidated total revenue, net income and period-end total assets, see *Note 17 – Business Segment Information* to the Consolidated Financial Statements.

Key Performance Indicators

We present certain key financial and nonfinancial performance indicators that management uses when evaluating segment results. We believe they are useful to investors because they provide additional information about our segments' operational performance, client trends and business growth.

Consumer Banking, comprised of Deposits and Consumer Lending, offers a diversified range of credit, banking and investment products and services to consumers and small businesses. For more information about *Consumer Banking*, see Business Segment Operations in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Consumer Banking Results

Three-Month Comparison

Net income for *Consumer Banking* decreased \$258 million to \$2.6 billion primarily due to lower revenue. Net interest income decreased \$319 million to \$8.1 billion primarily driven by lower deposit balances, partially offset by higher loan balances. Noninterest income was \$2.1 billion, largely unchanged from the same period a year ago.

The provision for credit losses was \$1.3 billion, relatively unchanged from the same period a year ago. Noninterest expense was \$5.5 billion, relatively unchanged from the same period a year ago.

The return on average allocated capital was 24 percent, down from 27 percent, due to an increase in allocated capital and lower net income. For information on capital allocated to the business segments, see Business Segment Operations on page 10.

Six-Month Comparison

Net income for *Consumer Banking* decreased \$710 million to \$5.3 billion primarily due to lower revenue. Net interest income decreased \$715 million to \$16.3 billion primarily due to the same factors as described in the three-month discussion. Noninterest income decreased \$143 million to \$4.1 billion, primarily due to lower other income driven by the allocation of asset and liability management (ALM) results.

The provision for credit losses increased \$75 million to \$2.4 billion primarily driven by credit card loans. Noninterest expense was \$10.9 billion, relatively unchanged from the same period a year ago.

The return on average allocated capital was 24 percent, down from 29 percent, primarily due to an increase in allocated capital and lower net income.

Deposits

Three-Month Comparison

Net income for Deposits decreased \$326 million to \$1.8 billion primarily due to lower revenue. Net interest income decreased \$513 million to \$5.2 billion primarily driven by lower deposit balances. Noninterest income was \$699 million, relatively unchanged from the same period a year ago.

Noninterest expense was \$3.4 billion, relatively unchanged from the same period a year ago.

Average deposits decreased \$56.9 billion to \$944.4 billion primarily due to net outflows of \$60.9 billion in money market savings and \$26.1 billion in checking, partially offset by growth in time deposits of \$40.1 billion.

Six-Month Comparison

Net income for Deposits decreased \$715 million to \$3.7 billion primarily due to lower revenue. Net interest income decreased \$1.1 billion to \$10.5 billion primarily due to the same factor as described in the three-month discussion. Noninterest income decreased \$108 million to \$1.4 billion primarily driven by the allocation of ALM results.

Average deposits decreased \$65.2 billion to \$946.1 billion primarily due to net outflows of \$67.2 billion in money market savings and \$29.1 billion in checking, partially offset by growth in time deposits of \$41.8 billion.

The table below provides key performance indicators for Deposits. Management uses these metrics, and we believe they are useful to investors because they provide additional information to evaluate our deposit profitability and digital/mobile trends.

Consumer investment assets increased \$89.4 billion from June 30, 2023 to \$476.1 billion at June 30, 2024 driven by market performance and positive net client flows. Active mobile banking users increased approximately two million, reflecting continuing changes in our clients' banking preferences. Since June 30, 2023, we have had a net decrease of 101 financial centers and 363 ATMs as we continue to optimize our consumer banking network.

Consumer Lending

Three-Month Comparison

Net income for Consumer Lending increased \$68 million to \$751 million primarily due to higher revenue. Net interest income increased \$194 million to \$2.9 billion primarily due to higher loan balances. Noninterest income was \$1.4 billion, relatively unchanged from the same period a year ago.

The provision for credit losses was \$1.2 billion, relatively unchanged from the same period a year ago. Noninterest expense increased \$54 million to \$2.1 billion, relatively unchanged from the same period a year ago.

Average loans increased \$5.4 billion to \$308.0 billion primarily driven by an increase in credit card loans.

Six-Month Comparison

Net income for Consumer Lending was \$1.5 billion, relatively unchanged from the same period a year ago. Net interest income increased \$345 million to \$5.8 billion primarily due to the same factor as described in the three-month discussion. Noninterest income was \$2.7 billion, relatively unchanged from the same period a year ago.

The provision for credit losses increased \$211 million to \$2.3 billion primarily driven by credit card loans. Noninterest expense increased \$92 million to \$4.2 billion, relatively unchanged from the same period a year ago.

Average loans increased \$7.3 billion to \$308.4 billion primarily driven by the same factor as described in the three-month discussion.

The following table provides key performance indicators for Consumer Lending. Management uses these metrics, and we believe they are useful to investors because they provide additional information about loan growth and profitability.

GWIM consists of two primary businesses: Merrill Wealth Management and Bank of America Private Bank. For additional information on GWIM, see Business Segment Operations in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Three-Month Comparison

Net income for GWIM increased \$48 million to \$1.0 billion primarily due to higher revenue, largely offset by higher noninterest expense. The operating margin was 25 percent, unchanged from the same period a year ago.

Net interest income decreased \$112 million to \$1.7 billion primarily driven by an increase in the deposit rate paid and lower average deposit balances.

Noninterest income, which primarily includes investment and brokerage services income, increased \$444 million to \$3.9 billion. The increase was primarily driven by higher asset management fees due to higher average equity market valuations and positive AUM flows, partially offset by the impact of lower AUM pricing.

Noninterest expense increased \$274 million to \$4.2 billion primarily due to higher revenue-related incentives.

The return on average allocated capital was 22 percent, up from 21 percent, due to higher net income. For information on capital allocated to the business segments, see Business Segment Operations on page 10.

Average loans increased \$4.2 billion to \$222.8 billion primarily driven by custom lending and residential mortgage, partially offset by securities-based lending. Average deposits decreased \$7.7 billion to \$287.7 billion primarily driven by a higher level of client tax payments as well as clients moving deposits to higher yielding investment cash alternatives, including offerings on our investment and brokerage platforms.

Merrill Wealth Management revenue of \$4.6 billion increased seven percent primarily driven by higher asset management fees due to the impact of higher average equity market valuations and positive AUM flows, partially offset by the impact of lower AUM pricing and lower net interest income.

Bank of America Private Bank revenue of \$951 million increased five percent primarily driven by higher asset management fees due to the impact of higher average equity market valuations and the impact of positive AUM flows.

Six-Month Comparison

Net income for GWIM increased \$136 million to \$2.0 billion primarily due to the same factors as described in the three-month discussion. The operating margin was 24 percent, unchanged from the same period a year ago.

Net interest income decreased \$174 million to \$3.5 billion primarily due to the same factors as described in the three-month discussion.

Noninterest income, which primarily includes investment and brokerage services income, increased \$782 million to \$7.7 billion due to the same factors as described in the three-month discussion.

Noninterest expense increased \$471 million to \$8.5 billion due to the same factor as described in the three-month discussion.

The return on average allocated capital was 22 percent, up from 21 percent, due to the same factor as described in the three-month discussion.

Average loans increased \$678 million to \$220.7 billion primarily due to the same factors as described in the three-month discussion. Average deposits decreased \$12.1 billion to \$292.5 billion due to the same factors as described in the three-month discussion.

Merrill Wealth Management revenue of \$9.3 billion increased six percent primarily driven by the same factors as described in the three-month discussion.

Bank of America Private Bank revenue of \$1.9 billion increased four percent primarily driven by the same factors as described in the three-month discussion.

Global Banking, which includes Global Corporate Banking, Global Commercial Banking, Business Banking and Global Investment Banking, provides a wide range of lending-related products and services, integrated working capital management and treasury solutions, and underwriting and advisory services through our network of global offices and client relationship teams. For more information about *Global Banking*, see Business Segment Operations in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Three-Month Comparison

Net income for *Global Banking* decreased \$537 million to \$2.1 billion primarily driven by lower revenue and higher provision for credit losses.

Net interest income decreased \$415 million to \$3.3 billion primarily due to the impact of interest rates, partially offset by the benefit of higher average deposit balances.

Noninterest income was \$2.8 billion, relatively unchanged from the same period a year ago.

The provision for credit losses increased \$226 million to \$235 million primarily driven by the commercial real estate office portfolio.

Noninterest expense increased \$80 million to \$2.9 billion due to higher regulatory costs and continued investments in the business, including technology.

The return on average allocated capital was 17 percent, down from 22 percent, due to lower net income. For information on capital allocated to the business segments, see Business Segment Operations on page 10.

Six-Month Comparison

Net income for *Global Banking* decreased \$1.1 billion to \$4.1 billion driven by higher provision for credit losses, lower revenue and higher noninterest expense.

Net interest income decreased \$862 million to \$6.7 billion primarily due to the same factors as described in the three-month discussion.

Noninterest income increased \$230 million to \$5.3 billion due to higher investment banking fees and treasury service charges, partially offset by lower leasing-related revenue.

The provision for credit losses increased \$692 million to \$464 million primarily driven by the commercial real estate office portfolio compared to a benefit in the prior year due to certain improved macroeconomic conditions.

Noninterest expense increased \$152 million to \$5.9 billion primarily due to the same factors as described in the three-month discussion.

The return on average allocated capital was 17 percent, down from 21 percent, due to lower net income.

Business Lending revenue decreased \$127 million for the three months ended June 30, 2024 compared to the same period a year ago primarily driven by lower leasing-related revenue and the impact of lower average loan balances. Business lending revenue decreased \$57 million for the six months ended June 30, 2024 compared to the same period a year ago primarily driven by the same factors as described in the three-month discussion.

Global Transaction Services revenue decreased \$362 million for the three months ended June 30, 2024 primarily driven by the impact of interest rates, partially offset by the benefit of higher average deposit balances and treasury service charges. Global Transaction Services revenue decreased \$761 million for the six months ended June 30, 2024 primarily driven by the same factors as described in the three-month discussion.

Average loans and leases of \$372.6 billion decreased three percent for the three months ended June 30, 2024, and average loans and leases of \$373.0 billion decreased two percent for the six months ended June 30, 2024 due to lower client demand.

Average deposits of \$525.4 billion and \$522.5 billion for the three and six months ended June 30, 2024 increased six percent for both periods. The increases were due to growth in both domestic and international balances.

Global Investment Banking

Client teams and product specialists underwrite and distribute debt, equity and loan products, and provide advisory services and tailored risk management solutions. The economics of certain investment banking and underwriting activities are shared primarily between *Global Banking* and *Global Markets* under an internal revenue-sharing arrangement. *Global Banking* originates certain deal-related transactions with our corporate and commercial clients that are executed and distributed by *Global Markets*. To provide a complete discussion of our consolidated investment banking fees, the table below presents total Corporation investment banking fees and the portion attributable to *Global Banking*.

Total Corporation investment banking fees, which exclude self-led deals and are primarily included within *Global Banking* and *Global Markets*, were \$1.6 billion and \$3.1 billion for the three and six months ended June 30, 2024. The three-month period increased 29 percent compared to the same period in 2023, and the six-month period increased 32 percent compared to the same period in 2023. The increases in both periods were primarily due to higher debt and equity issuance fees.

Global Markets offers sales and trading services and research services to institutional clients across fixed-income, credit, currency, commodity and equity businesses. *Global Markets*

product coverage includes securities and derivative products in both the primary and secondary markets. For more information about *Global Markets*, see Business Segment

Operations in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

The following explanations for period-over-period changes in results for *Global Markets*, including those disclosed under Sales and Trading Revenue, are the same for amounts including and excluding net DVA. Amounts excluding net DVA are a non-GAAP financial measure. For more information on net DVA, see Supplemental Financial Data on page 6.

Three-Month Comparison

Net income for *Global Markets* increased \$304 million to \$1.4 billion for the three months ended June 30, 2024 compared to the same period in 2023. Net DVA losses totaled \$1 million compared to \$102 million in 2023. Excluding net DVA, net income increased \$227 million to \$1.4 billion. These increases were primarily driven by higher revenue, partially offset by higher noninterest expense.

Revenue increased \$588 million to \$5.5 billion primarily due to higher sales and trading revenue and investment banking fees. Sales and trading revenue increased \$394 million, and excluding net DVA, increased \$293 million. These increases were primarily driven by higher revenue in Equities.

Noninterest expense increased \$137 million to \$3.5 billion, primarily driven by revenue-related expenses and continued investments in the business, including technology.

Average total assets increased \$31.1 billion to \$908.5 billion for the three months ended June 30, 2024 compared to the same period in 2023 driven by increased securities financing activity, higher levels of inventory and loan growth in FICC.

The return on average allocated capital was 13 percent, up from 10 percent in the same period a year ago, reflecting higher net income. For information on capital allocated to the business segments, see Business Segment Operations on page 10.

Six-Month Comparison

Net income for *Global Markets* increased \$339 million to \$3.1 billion for the six months ended June 30, 2024 compared to the same period in 2023. Net DVA losses were \$86 million compared to \$88 million in 2023. Excluding net DVA, net income increased \$337 million to \$3.2 billion. These increases were primarily driven by higher revenue, partially offset by higher noninterest expense.

Revenue increased \$845 million to \$11.3 billion primarily due to the same factors as described in the three-month discussion. Sales and trading revenue increased \$419 million, and excluding net DVA, sales and trading revenue increased \$417 million. These increases were driven by higher revenue in Equities, partially offset by lower revenue in FICC.

Noninterest expense increased \$278 million to \$7.0 billion, driven by the same factors as described in the three-month discussion.

Average total assets increased \$28.2 billion to \$902.0 billion, and period-end total assets increased \$69.6 billion from December 31, 2023 to \$887.2 billion. The increases were driven by higher securities financing activity and higher levels of inventory in FICC.

The return on average allocated capital was 14 percent, up from 12 percent in the same period a year ago, reflecting higher net income.

Sales and Trading Revenue

For a description of sales and trading revenue, see Business Segment Operations in the MD&A of the Corporation's 2023 Annual Report on Form 10-K. The following table and related discussion present sales and trading revenue, substantially all of which is in *Global Markets*, with the remainder in *Global Banking*. In addition, the following table and related discussion also present sales and trading revenue, excluding net DVA, which is a non-GAAP financial measure. For more information on net DVA, see Supplemental Financial Data on page 6.

⁽²⁾ Includes FTE adjustments of \$142 million and \$291 million for the three and six months ended June 30, 2024 compared to \$85 million and \$175 million for the same periods in 2023.

⁽³⁾ Includes *Global Banking* sales and trading revenue of \$186 million and \$330 million for the three and six months ended June 30, 2024 compared to \$154 million and \$331 million for the same periods in 2023.

⁽⁴⁾ FICC and Equities sales and trading revenue, excluding net DVA, is a non-GAAP financial measure. FICC net DVA gains (losses) were \$5 million and \$(71) million for the three and six months ended June 30, 2024 compared to \$(97) million and \$(86) million for the same periods in 2023. Equities net DVA gains (losses) were \$(6) million and \$(15) million for the three and six months ended June 30, 2024 compared to \$(5) million and \$(2) million for the same periods in 2023.

Three-Month Comparison

Including net DVA, FICC revenue increased \$75 million for the three months ended June 30, 2024 compared to the same period in 2023. Excluding net DVA, FICC revenue decreased \$27 million. FICC revenue, including and excluding net DVA, was driven by a weaker trading environment for foreign exchange and rates products, largely offset by improved client activity in mortgages, credit and commodities. Including and excluding net DVA, Equities revenue increased \$319 million and \$320 million driven by a strong trading performance in cash and derivatives.

Six-Month Comparison

Including and excluding net DVA, FICC revenue decreased \$134 million and \$149 million for the six months ended June 30, 2024 compared to the same period in 2023 driven by a weaker trading environment for macro products, partially offset by improved trading in mortgages. Including and excluding net DVA, Equities revenue increased \$553 million and \$566 million driven by the same factors as described in the three-month discussion.

All Other primarily consists of ALM activities, liquidating businesses and certain expenses not otherwise allocated to a business segment. ALM activities encompass interest rate and foreign currency risk management activities for which substantially all of the results are allocated to our business segments. For more information on our ALM activities, see Note 17 - *Business Segment Information* to the Consolidated Financial Statements.

Three-Month Comparison

The net loss in *All Other* increased \$68 million to \$250 million primarily due to a lower income tax benefit, partially offset by lower noninterest expense.

Noninterest expense decreased \$231 million to \$261 million primarily due to lower expenses related to a liquidating business activity.

The income tax benefit decreased \$153 million to \$1.8 billion due to lower tax preference benefits primarily related to

tax credit investment activity. Both periods included income tax benefit adjustments to eliminate the FTE treatment of certain tax credits recorded in *Global Banking* and *Global Markets*.

Six-Month Comparison

The net loss in *All Other* increased \$657 million to \$946 million primarily due to higher noninterest expense.

Noninterest expense increased \$356 million to \$1.3 billion primarily due to a \$700 million accrual for the increase in the Corporation's estimated share of the FDIC special assessment, partially offset by lower expenses related to a liquidating business activity.

The income tax benefit was \$3.7 billion, relatively unchanged from the same period a year ago. Both periods included income tax benefit adjustments to eliminate the FTE treatment of certain tax credits recorded in *Global Banking* and *Global Markets*.

Managing Risk

Risk is inherent in all our business activities. The seven key types of risk faced by the Corporation are strategic, credit, market, liquidity, compliance, operational and reputational. Sound risk management enables us to serve our customers and deliver for our shareholders. If not managed well, risk can result in financial loss, regulatory sanctions and penalties, and damage to our reputation, each of which may adversely impact our ability to execute our business strategies. We take a comprehensive approach to risk management with a defined Risk Framework and an articulated Risk Appetite Statement, which are approved annually by the Enterprise Risk Committee and the Board.

Our Risk Framework serves as the foundation for the consistent and effective management of risks facing the Corporation. The Risk Framework sets forth roles and responsibilities for the management of risk and provides a blueprint for how the Board, through delegation of authority to committees and executive officers, establishes risk appetite and associated limits for our activities.

Our risk appetite provides a common framework that includes a set of measures to assist senior management and the Board in assessing the Corporation's risk profile across all risk types against our risk appetite and risk capacity. Our risk appetite is formally articulated in the Risk Appetite Statement, which includes both qualitative statements and quantitative limits.

For more information on the Corporation's risks, see Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K. These risks are being managed within our Risk Framework and supporting risk management programs. For more information on our Risk Framework, risk management activities and the key types of risk faced by the Corporation, see the Managing Risk section in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Capital Management

The Corporation manages its capital position so that its capital is more than adequate to support its business activities and aligns with risk, risk appetite and strategic planning. For more information, see Capital Management in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

CCAR and Capital Planning

The Federal Reserve requires BHCs to submit a capital plan and planned capital actions on an annual basis, consistent with the rules governing the CCAR capital plan, which includes supervisory stress testing by the Federal Reserve. We submitted our 2024 CCAR capital plan and related supervisory stress tests in April 2024 and received our results on June 26, 2024. Based on the results, our SCB is expected to be 3.2 percent, and the CET1 minimum requirement will be 10.7 percent when finalized. The new SCB will be effective from October 1, 2024 through September 30, 2025.

The Board has authorized the repurchase of up to \$25 billion of common stock over time, which includes common stock repurchases to offset shares awarded under the Corporation's equity-based compensation plans. Pursuant to Board authorization, during the three months ended June 30, 2024, we repurchased \$3.5 billion of common stock. For more

information, see Part II, Item 2. Unregistered Sales of Equity Securities and Use of Proceeds on page 105 and Capital Management – CCAR and Capital Planning in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

On July 24, 2024, the Corporation's Board authorized a \$25 billion common stock repurchase program, effective August 1, 2024, to replace the Corporation's existing program adopted by the Board in October 2021 and subsequently modified in September 2023. The existing repurchase program will expire on August 1, 2024.

The timing and amount of common stock repurchases are subject to various factors, including the Corporation's capital position, liquidity, financial performance and alternative uses of capital, stock trading price, regulatory requirements and general market conditions, and may be suspended at any time. Such repurchases may be effected through open market purchases or privately negotiated transactions, including repurchase plans that satisfy the conditions of Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (Exchange Act).

Regulatory Capital

As a BHC, we are subject to regulatory capital rules, including Basel 3, issued by U.S. banking regulators. The Corporation's depository institution subsidiaries are also subject to the Prompt Corrective Action (PCA) framework. The Corporation and its primary affiliated banking entity, BANA, are Advanced approaches institutions under Basel 3 and are required to report regulatory risk-based capital ratios and risk-weighted assets (RWA) under both the Standardized and Advanced approaches. The lower of the capital ratios under Standardized or Advanced approaches compared to their respective regulatory capital ratio requirements is used to assess capital adequacy, including under the PCA framework. As of June 30, 2024, the CET1 capital, Tier 1 capital and Total capital ratios under the Standardized approach were the binding ratios.

Minimum Capital Requirements

In order to avoid restrictions on capital distributions and discretionary bonus payments to executive officers, the Corporation must meet risk-based capital ratio requirements that include a capital conservation buffer of 2.5 percent (under the Advanced approaches only), an SCB (under the Standardized approach only), plus any applicable countercyclical capital buffer and a global systemically important bank (G-SIB) surcharge. The buffers and surcharge must be comprised solely of CET1 capital. For the period from January 1, 2024 through September 30, 2024, the Corporation's minimum CET1 capital ratio requirements are 10.0 percent under both the Standardized approach and the Advanced approaches.

The Corporation is required to calculate its G-SIB surcharge on an annual basis under two methods and is subject to the higher of the resulting two surcharges. Method 1 is consistent with the approach prescribed by the Basel Committee's assessment methodology and is calculated using specified indicators of systemic importance. Method 2 modifies the Method 1 approach by, among other factors, including a measure of the Corporation's reliance on short-term wholesale funding. Effective January 1, 2024, the Corporation's G-SIB surcharge, which is higher under Method 2, increased 50 bps, resulting in an increase in our minimum CET1 capital ratio

requirement under the Standardized approach to 10.0 percent from 9.5 percent. At June 30, 2024, the Corporation's CET1 capital ratio of 11.9 percent under the Standardized approach exceeded its CET1 capital ratio requirement.

The Corporation is also required to maintain a minimum supplementary leverage ratio (SLR) of 3.0 percent plus a leverage buffer of 2.0 percent in order to avoid certain restrictions on capital distributions and discretionary bonus payments to executive officers. At June 30, 2024, our insured depository institution subsidiaries exceeded their requirement to

maintain a minimum 6.0 percent SLR to be considered well capitalized under the PCA framework.

Capital Composition and Ratios

Table 8 presents Bank of America Corporation's capital ratios and related information in accordance with Basel 3 Standardized and Advanced approaches as measured at June 30, 2024 and December 31, 2023. For the periods presented herein, the Corporation met the definition of well capitalized under current regulatory requirements.

⁽¹⁾ Capital ratios as of June 30, 2024 and December 31, 2023 are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of the current expected credit losses (CECL) accounting standard on January 1, 2020.

⁽²⁾ The CET1 capital regulatory minimum is the sum of the CET1 capital ratio minimum of 4.5 percent, our G-SIB surcharge of 3.0 percent at June 30, 2024 and 2.5 percent at December 31, 2023, and our capital conservation buffer (under the Advanced approaches) or SCB (under the Standardized approach) of 2.5 percent, as applicable. The countercyclical capital buffer was zero for both periods. The SLR regulatory minimum includes a leverage buffer of 2.0 percent.

⁽³⁾ Total capital under the Advanced approaches differs from the Standardized approach due to differences in the amount permitted in Tier 2 capital related to the qualifying allowance for credit losses.

⁽⁴⁾ Reflects total average assets adjusted for certain Tier 1 capital deductions.

At June 30, 2024, CET1 capital was \$198.1 billion, an increase of \$3.2 billion from December 31, 2023, primarily due to earnings, partially offset by capital distributions. Tier 1 capital increased \$1.3 billion primarily driven by the same factors as CET1 capital, partially offset by preferred stock redemptions. Total capital under the Standardized approach increased \$35 million primarily due to the same factors driving the increase in Tier 1 capital and an increase in the adjusted allowance for

credit losses included in Tier 2 capital, largely offset by a decrease in subordinated debt. RWA under the Standardized approach, which yielded the lower CET1 capital ratio at June 30, 2024, increased \$10.2 billion during 2024 to \$1,661 billion primarily driven by client activity in *Global Markets* and lending activity in *GWIM*. Supplementary leverage exposure at June 30, 2024 increased \$80.2 billion primarily driven by increased activity in *Global Markets* and ALM activities in *All Other*.

⁽²⁾ Risk-based capital regulatory minimums at both June 30, 2024 and December 31, 2023 are the minimum ratios under Basel 3 including a capital conservation buffer of 2.5 percent. The regulatory minimums for the leverage ratios as of both period ends are the percent required to be considered well capitalized under the PCA framework.

⁽³⁾ Total capital under the Advanced approaches differs from the Standardized approach due to differences in the amount permitted in Tier 2 capital related to the qualifying allowance for credit losses.

⁽⁴⁾ Reflects total average assets adjusted for certain Tier 1 capital deductions.

Total Loss-Absorbing Capacity Requirements

Total loss-absorbing capacity (TLAC) consists of the Corporation's Tier 1 capital and eligible long-term debt issued directly by the Corporation. Eligible long-term debt for TLAC ratios is comprised of unsecured debt that has a remaining maturity of at least one year and satisfies additional requirements as prescribed in the TLAC final rule. As with the

risk-based capital ratios and SLR, the Corporation is required to maintain TLAC ratios in excess of minimum requirements plus applicable buffers to avoid restrictions on capital distributions and discretionary bonus payments to executive officers. Table 12 presents the Corporation's TLAC and long-term debt ratios and related information as of June 30, 2024 and December 31, 2023.

Table 12 Bank of America Corporation Total Loss-Absorbing Capacity and Long-Term Debt

⁽¹⁾ As of June 30, 2024 and December 31, 2023, TLAC ratios are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of the CECL accounting standard on January 1, 2020.

⁽²⁾ The TLAC RWA regulatory minimum consists of 18.0 percent plus a TLAC RWA buffer comprised of 2.5 percent plus the Method 1 G-SIB surcharge of 1.5 percent. The countercyclical buffer is zero for both periods. The TLAC supplementary leverage exposure regulatory minimum consists of 7.5 percent plus a 2.0 percent TLAC leverage buffer. The TLAC RWA and leverage buffers must be comprised solely of CET1 capital and Tier 1 capital, respectively.

⁽³⁾ The long-term debt RWA regulatory minimum is comprised of 6.0 percent plus the Corporation's G-SIB surcharge of 3.0 percent at June 30, 2024 and 2.5 percent at December 31, 2023. The long-term debt leverage exposure regulatory minimum is 4.5 percent. Effective January 1, 2024, the Corporation's G-SIB surcharge, which is higher under Method 2, increased 50 bps, resulting in an increase in our long-term debt RWA regulatory minimum requirement to 9.0 percent from 8.5 percent.

⁽⁴⁾ The approach that yields the higher RWA is used to calculate TLAC and long-term debt ratios, which was the Standardized approach as of June 30, 2024 and December 31, 2023.

Regulatory Developments

For information on regulatory developments, see Capital Management – Regulatory Developments in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Regulatory Capital and Securities Regulation

The Corporation's principal U.S. broker-dealer subsidiaries are BofA Securities, Inc. (BofAS) and Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S). The Corporation's principal European subsidiaries undertaking broker-dealer activities are Merrill Lynch International (MLI) and BofA Securities Europe SA (BofASE).

The U.S. broker-dealer subsidiaries are subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. BofAS computes its capital requirements as an alternative net capital broker-dealer under Rule 15c3-1e, and MLPF&S computes its capital requirements in accordance with the alternative standard under Rule 15c3-1. BofAS is registered as a futures commission merchant and is subject to Commodity Futures Trading Commission (CFTC) Regulation 1.17. The U.S. broker-dealer subsidiaries are also registered with the Financial Industry Regulatory Authority, Inc. (FINRA). Pursuant to FINRA Rule 4110, FINRA may impose higher net capital requirements than Rule 15c3-1 under the Exchange Act with respect to each of the broker-dealers.

BofAS provides institutional services, and in accordance with the alternative net capital requirements, is required to maintain tentative net capital in excess of \$5.0 billion and net capital in excess of the greater of \$1.0 billion or a certain percentage of its reserve requirement in addition to a certain percentage of securities-based swap risk margin. BofAS must also notify the SEC in the event its tentative net capital is less than \$6.0 billion. BofAS is also required to hold a certain percentage of its customers' and affiliates' risk-based margin in order to meet its CFTC minimum net capital requirement. At June 30, 2024, BofAS had tentative net capital of \$22.0 billion. BofAS also had regulatory net capital of \$19.3 billion, which exceeded the minimum requirement of \$4.1 billion.

MLPF&S provides retail services. At June 30, 2024, MLPF&S' regulatory net capital was \$4.2 billion, which exceeded the minimum requirement of \$158 million.

Our European broker-dealers are subject to requirements from U.S. and non-U.S. regulators. MLI, a U.K. investment firm, is regulated by the Prudential Regulation Authority and the Financial Conduct Authority and is subject to certain regulatory

capital requirements. At June 30, 2024, MLI's capital resources were \$33.8 billion, which exceeded the minimum Pillar 1 requirement of \$12.1 billion.

BofASE, an authorized credit institution with its head office located in France, is regulated by the Autorité de Contrôle Prudentiel et de Résolution and the Autorité des Marchés Financiers, and supervised under the Single Supervisory Mechanism by the European Central Bank. At June 30, 2024, BofASE's capital resources were \$9.8 billion, which exceeded the minimum Pillar 1 requirement of \$3.5 billion.

In addition, MLI and BofASE remained conditionally registered with the SEC as security-based swap dealers, and maintained net liquid assets at June 30, 2024 that exceeded the applicable minimum requirements under the Exchange Act. The entities are also registered as swap dealers with the CFTC and met applicable capital requirements at June 30, 2024.

Liquidity Risk

Funding and Liquidity Risk Management

Our primary liquidity risk management objective is to meet expected or unexpected cash flow and collateral requirements, including payments under long-term debt agreements, commitments to extend credit and customer deposit withdrawals, while continuing to support our businesses and customers under a range of economic conditions. To achieve that objective, we analyze and monitor our liquidity risk under expected and stressed conditions, maintain liquidity and access to diverse funding sources, including our stable deposit base, and seek to align liquidity-related incentives and risks. These liquidity risk management practices have allowed us to effectively manage market fluctuations from the rising interest rate environment, inflationary pressures and changes in the macroeconomic environment.

We define liquidity as readily available assets, limited to cash and high-quality, liquid, unencumbered securities that we can use to meet our contractual and contingent financial obligations as they arise. We manage our liquidity position through line-of-business and ALM activities, as well as through our legal entity funding strategy, on both a forward and current (including intraday) basis under both expected and stressed conditions. We believe that a centralized approach to funding and liquidity management enhances our ability to monitor liquidity requirements, maximizes access to funding sources,

minimizes borrowing costs and facilitates timely responses to liquidity events. For more information on the Corporation's liquidity risks, see the Liquidity section within Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K. For more information regarding global funding and liquidity risk management, as well as liquidity sources, liquidity arrangements, contingency planning and credit ratings discussed below, see Liquidity Risk in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

NB Holdings Corporation

Bank of America Corporation, as the parent company (the Parent), which is a separate and distinct legal entity from our bank and nonbank subsidiaries, has an intercompany arrangement with our wholly-owned holding company subsidiary, NB Holdings Corporation (NB Holdings). We have transferred, and agreed to transfer, additional Parent assets not required to satisfy anticipated near-term expenditures to NB Holdings. The Parent is expected to continue to have access to the same flow of dividends, interest and other amounts of cash necessary to service its debt, pay dividends and perform other obligations as it would have had it not entered into these arrangements and transferred any assets. These arrangements support our preferred single point of entry resolution strategy, under which only the Parent would be resolved under the U.S. Bankruptcy Code.

Global Liquidity Sources and Other Unencumbered Assets

We maintain liquidity available to the Corporation, including the Parent and selected subsidiaries, in the form of cash and high-quality, liquid, unencumbered securities. Our liquidity buffer, referred to as Global Liquidity Sources (GLS), is comprised of assets that are readily available to the Parent and selected subsidiaries, including holding company, bank and broker-dealer subsidiaries, even during stressed market conditions. Our cash is primarily on deposit with the Federal Reserve Bank and, to a lesser extent, central banks outside of the U.S. We limit the composition of high-quality, liquid, unencumbered securities to U.S. government securities, U.S. agency securities, U.S. agency mortgage-backed securities and other investment-grade securities, and a select group of non-U.S. government securities. We can obtain cash for these securities, even in stressed conditions, through repurchase agreements or outright sales. We hold our GLS in legal entities that allow us to meet the liquidity requirements of our global businesses, and we consider the impact of potential regulatory, tax, legal and other restrictions that could limit the transferability of funds among entities.

Table 13 presents average GLS for the three months ended June 30, 2024 and December 31, 2023.

Table 13 Average Global Liquidity Sources

(Dollars in billions)		
Bank entities	\$ 745	\$ 735
Nonbank and other entities ⁽¹⁾	164	162
Total Average Global Liquidity Sources	\$ 909	\$ 897

⁽¹⁾ Nonbank includes Parent, NB Holdings and other regulated entities.

Our bank subsidiaries' liquidity is primarily driven by deposit and lending activity, as well as securities valuation and net debt activity. Bank subsidiaries can also generate incremental liquidity by pledging a range of unencumbered loans and securities to certain Federal Home Loan Banks (FHLBs) and the

Federal Reserve Discount Window. The cash we could have obtained by borrowing against this pool of specifically-identified eligible assets was \$317 billion and \$312 billion at June 30, 2024 and December 31, 2023. We have established operational procedures to enable us to borrow against these assets, including regularly monitoring our total pool of eligible loans and securities collateral. Eligibility is defined in guidelines from the FHLBs and the Federal Reserve and is subject to change at their discretion. Due to regulatory restrictions, liquidity generated by the bank subsidiaries can generally be used only to fund obligations within the bank subsidiaries, and transfers to the Parent or nonbank subsidiaries may be subject to prior regulatory approval.

Liquidity is also held in nonbank entities, including the Parent, NB Holdings and other regulated entities. The Parent and NB Holdings liquidity is typically in the form of cash deposited at BANA, which is excluded from the liquidity at bank subsidiaries, and high-quality, liquid, unencumbered securities. Liquidity held in other regulated entities, comprised primarily of broker-dealer subsidiaries, is primarily available to meet the obligations of that entity, and transfers to the Parent or to any other subsidiary may be subject to prior regulatory approval due to regulatory restrictions and minimum requirements. Our other regulated entities also hold unencumbered investment-grade securities and equities that we believe could be used to generate additional liquidity.

Table 14 presents the composition of average GLS for the three months ended June 30, 2024 and December 31, 2023.

Table 14 Average Global Liquidity Sources Composition

	Three Months Ended

U.S. agency securities, mortgage-backed securities, and other investment-grade securities	286	299
Non-U.S. government securities	23	21
Total Average Global Liquidity Sources	\$ 909	\$ 897

Our GLS are substantially the same in composition to what qualifies as High Quality Liquid Assets (HQLA) under the final U.S. Liquidity Coverage Ratio (LCR) rules. However, HQLA for purposes of calculating LCR is not reported at market value, but at a lower value that incorporates regulatory deductions and the exclusion of excess liquidity held at certain subsidiaries. The LCR is calculated as the amount of a financial institution's unencumbered HQLA relative to the estimated net cash outflows the institution could encounter over a 30-day period of significant liquidity stress, expressed as a percentage. Our average consolidated HQLA, on a net basis, was \$592 billion and \$590 billion for the three months ended June 30, 2024 and December 31, 2023. For the same periods, the average consolidated LCR was 113 percent and 115 percent. Our LCR fluctuates due to normal business flows from customer activity.

Liquidity Stress Analysis

We utilize liquidity stress analysis to assist us in determining the appropriate amounts of liquidity to maintain at the Parent and our subsidiaries to meet contractual and contingent cash outflows under a range of scenarios. For more information on liquidity stress analysis, see Liquidity Risk – Liquidity Stress Analysis in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Net Stable Funding Ratio

The Net Stable Funding Ratio (NSFR) is a liquidity requirement for large banks to maintain a minimum level of stable funding over a one-year period. The requirement is intended to support the ability of banks to lend to households and businesses in both normal and adverse economic conditions and is complementary to the LCR, which focuses on short-term liquidity risks. The U.S. NSFR applies to the Corporation on a consolidated basis and to our insured depository institutions. For the three months ended March 31, 2024 and June 30, 2024, the average consolidated NSFR was 120 percent and 119 percent.

Diversified Funding Sources

We fund our assets primarily with a mix of deposits, and secured and unsecured liabilities through a centralized, globally coordinated funding approach diversified across products, programs, markets, currencies and investor groups. We fund a substantial portion of our lending activities through our deposits, which were \$1.91 trillion and \$1.92 trillion at June 30, 2024 and December 31, 2023. Our trading activities in other regulated entities are primarily funded on a secured basis through securities lending and repurchase agreements, and these amounts will vary based on customer activity and market conditions.

Deposits

Our deposit base is well-diversified by clients, geography and product type across our business segments. At June 30, 2024, 50 percent of our deposits were in *Consumer Banking*, 15 percent in *GWIM* and 27 percent in *Global Banking*. We consider a substantial portion of our deposit base to be a stable, low-

cost and consistent source of liquidity. At June 30, 2024 approximately 68 percent of consumer and small business deposits and 79 percent of U.S. deposits in *Global Banking* were held by clients who have had accounts with us for 10 or more years. In addition, at June 30, 2024 and December 31, 2023, 27 percent and 28 percent of our deposits were noninterest bearing and included operating accounts of our consumer and commercial clients. Deposits at June 30, 2024 decreased \$13.3 billion from December 31, 2023 primarily due to seasonal deposit outflows and customers' movement of balances to higher yielding investment alternatives, partially offset by time deposit growth.

During the three months ended June 30, 2024 and 2023, rates paid on deposits were 60 bps and 22 bps in *Consumer Banking*, 314 bps and 235 bps in *GWIM*, and 318 bps and 224 bps in *Global Banking*. For information on rates paid on consolidated deposit balances, see Table 6 on page 8.

Long-term Debt

During the six months ended June 30, 2024, we issued \$29.8 billion of long-term debt consisting of \$7.8 billion of notes issued by Bank of America Corporation, which were primarily TLAC compliant, \$10.6 billion of notes issued by Bank of America, N.A. and \$11.4 billion of other debt.

During the six months ended June 30, 2024, we had total long-term debt maturities and redemptions in the aggregate of \$33.7 billion consisting of \$20.9 billion for Bank of America Corporation, \$6.8 billion for Bank of America, N.A. and \$6.0 billion of other debt. Table 15 presents the carrying value of aggregate annual contractual maturities of long-term debt at June 30, 2024.

⁽¹⁾ Total includes \$176.5 billion of outstanding notes that are both TLAC eligible and callable one year before their stated maturities, including \$9.6 billion during the remainder of 2024, and \$21.8 billion, \$21.3 billion, \$24.6 billion and \$19.4 billion during each year of 2025 through 2028, respectively, and \$79.8 billion thereafter. For more information on our TLAC eligible and callable outstanding notes, see Liquidity Risk – Diversified Funding Sources in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

⁽²⁾ Represents liabilities of consolidated variable interest entities (VIEs) included in total long-term debt on the Consolidated Balance Sheet.

Total long-term debt decreased \$11.7 billion to \$290.5 billion during the six months ended June 30, 2024 primarily due to debt maturities and valuation adjustments, partially offset by debt issuances. We may, from time to time, purchase outstanding debt instruments in various transactions, depending on market conditions, liquidity and other factors. Our other regulated entities may also make markets in our debt instruments to provide liquidity for investors.

During the six months ended June 30, 2024, we issued \$14.2 billion of structured notes, which are debt obligations that pay investors returns linked to other debt or equity securities, indices, currencies or commodities. These structured notes are typically issued to meet client demand, and notes with certain attributes may also be TLAC eligible. We typically hedge the returns we are obligated to pay on these liabilities with derivatives and/or investments in the underlying

instruments, so that from a funding perspective, the cost is similar to our other unsecured long-term debt. We could be required to settle certain structured note obligations for cash or other securities prior to maturity under certain circumstances, which we consider for liquidity planning purposes. We believe, however, that a portion of such borrowings will remain outstanding beyond the earliest put or redemption date.

Substantially all of our senior and subordinated debt obligations contain no provisions that could trigger a requirement for an early repayment, require additional collateral support, result in changes to terms, accelerate maturity or create additional financial obligations upon an adverse change in our credit ratings, financial ratios, earnings, cash flows or stock price. For more information on long-term debt funding, including issuances and maturities and redemptions, see *Note 11 – Long-term Debt* to the Consolidated Financial Statements of the Corporation’s 2023 Annual Report on Form 10-K.

We use derivative transactions to manage the duration, interest rate and currency risks of our borrowings, considering the characteristics of the assets they are funding. For more information on our ALM activities, see *Interest Rate Risk Management* for the Banking Book on page 44.

Credit Ratings

Credit ratings and outlooks are opinions expressed by rating agencies on our creditworthiness and that of our obligations or securities, including long-term debt, short-term borrowings, preferred stock and other securities, including asset securitizations. Table 16 presents the Corporation’s current long-term/short-term senior debt ratings and outlooks expressed by the rating agencies.

The ratings and outlooks from Moody’s Investors Service, Standard & Poor’s Global Ratings and Fitch Ratings for the Corporation and its subsidiaries have not changed from those disclosed in the Corporation’s 2023 Annual Report on Form 10-K.

For more information on additional collateral and termination payments that could be required in connection with certain over-the-counter derivative contracts and other trading agreements in the event of a credit rating downgrade, see *Note 3 – Derivatives* to the Consolidated Financial Statements herein and Item 1A. Risk Factors of the Corporation’s 2023 Annual Report on Form 10-K.

Finance Subsidiary Issuers and Parent Guarantor

BofA Finance LLC, a Delaware limited liability company (BofA Finance), is a consolidated finance subsidiary of the Corporation that has issued and sold, and is expected to continue to issue and sell, its senior unsecured debt securities (Guaranteed Notes) that are fully and unconditionally guaranteed by the Corporation. The Corporation guarantees the due and punctual payment, on demand, of amounts payable on the Guaranteed Notes if not paid by BofA Finance. In addition, each of BAC Capital Trust XIII, BAC Capital Trust XIV and BAC Capital Trust XV, Delaware statutory trusts (collectively, the Trusts) is a 100 percent owned finance subsidiary of the Corporation that has issued and sold trust preferred securities (the Trust Preferred Securities) or capital securities (the Capital Securities and, together with the Guaranteed Notes and the Trust Preferred Securities, the Guaranteed Securities), as applicable, that remained outstanding at June 30, 2024. The Corporation has fully and unconditionally guaranteed (or effectively provided for the full and unconditional guarantee of) all such securities issued by such finance subsidiaries. For more information regarding such guarantees by the Corporation, see *Liquidity Risk – Finance Subsidiary Issuers and Parent Guarantor* in the MD&A of the Corporation’s 2023 Annual Report on Form 10-K.

For information on the Corporation’s loan modification programs, see *Note 1 – Summary of Significant Accounting Principles* and *Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses* to the Consolidated Financial Statements. For more information on the Corporation’s credit risks, see the *Credit* section within Item 1A. Risk Factors of the Corporation’s 2023 Annual Report on Form 10-K.

During the six months ended June 30, 2024, our net charge-off ratio increased primarily driven by credit card loans and the commercial real estate office portfolio. Commercial reservable criticized exposure increased compared to December 31, 2023 driven by an increase across a broad range of industries excluding commercial real estate, while nonperforming loans remained relatively unchanged. Uncertainty remains regarding

broader economic impacts as a result of inflationary pressures, elevated rates and the current geopolitical environment and could lead to adverse impacts to credit quality metrics in future periods.

Consumer Portfolio Credit Risk Management

Credit risk management for the consumer portfolio begins with initial underwriting and continues throughout a borrower's credit cycle. Statistical techniques in conjunction with experiential judgment are used in all aspects of portfolio management including underwriting, product pricing, risk appetite, setting credit limits, and establishing operating processes and metrics to quantify and balance risks and returns. Statistical models are built using detailed behavioral information from external sources, such as credit bureaus, and/or internal historical experience and are a component of our consumer credit risk management process. These models are used in part to assist in making both new and ongoing credit decisions as well as portfolio management strategies, including authorizations and line management, collection practices and strategies, and determination of the allowance for loan and lease losses and allocated capital for credit risk.

Consumer Credit Portfolio

During the six months ended June 30, 2024, the U.S. unemployment rate remained relatively stable and home prices continued to rise. During the three and six months ended June 30, 2024, net charge-offs increased \$339 million and \$714 million to \$1.1 billion and \$2.1 billion compared to the same periods in 2023, primarily due to higher credit card loan charge-offs.

The consumer allowance for loan and lease losses was \$8.5 billion, relatively unchanged from December 31, 2023. For more information, see Allowance for Credit Losses on page 40.

For more information on our accounting policies regarding delinquencies, nonperforming status, charge-offs and loan modifications for the consumer portfolio, see Note 1 – Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K and Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses to the Consolidated Financial Statements.

⁽¹⁾ Residential mortgage loans accruing past due 90 days or more are fully-insured loans. At June 30, 2024 and December 31, 2023, residential mortgage included \$125 million and \$156 million of loans on which interest had been curtailed by the Federal Housing Administration (FHA), and therefore were no longer accruing interest, although principal was still insured, and \$86 million and \$96 million of loans on which interest was still accruing.

⁽²⁾ Outstandings primarily includes auto and specialty lending loans and leases of \$53.6 billion and \$53.9 billion, U.S. securities-based lending loans of \$46.7 billion and \$46.0 billion at June 30, 2024 and December 31, 2023, and non-U.S. consumer loans of \$2.8 billion at both June 30, 2024 and December 31, 2023.

⁽³⁾ For more information on the fair value option, see Note 15 – Fair Value Option to the Consolidated Financial Statements.

⁽⁴⁾ Excludes consumer loans accounted for under the fair value option. At June 30, 2024 and December 31, 2023, loans accounted for under the fair value option past due 90 days or more and not accruing interest were insignificant.

We believe that the presentation of information adjusted to exclude the impact of the fully-insured loan portfolio and loans accounted for under the fair value option is more representative of the ongoing operations and credit quality of the business. As a result, in the following tables and discussions of the residential mortgage and home equity portfolios, we exclude loans accounted for under the fair value option and provide information that excludes the impact of the fully-insured loan portfolio in certain credit quality statistics.

Residential Mortgage

The residential mortgage portfolio made up the largest percentage of our consumer loan portfolio at 50 percent of consumer loans and leases at June 30, 2024. Approximately 51 percent of the residential mortgage portfolio was in *Consumer Banking*, 46 percent was in *GWIM* and the remaining portion was in *All Other*.

Outstanding balances in the residential mortgage portfolio decreased \$533 million during the six months ended June 30, 2024, as paydowns and payoffs outpaced new originations.

At June 30, 2024 and December 31, 2023, the residential mortgage portfolio included \$10.5 billion and \$11.0 billion of outstanding fully-insured loans, of which \$2.1 billion and \$2.2 billion had FHA insurance, with the remainder protected by Fannie Mae long-term standby agreements.

Table 19 presents certain residential mortgage key credit statistics on both a reported basis and excluding the fully-insured loan portfolio. The following discussion presents the residential mortgage portfolio excluding the fully-insured loan portfolio.

⁽¹⁾ Outstandings, accruing past due, nonperforming loans and percentages of portfolio exclude loans accounted for under the fair value option.

⁽²⁾ Includes loans that are contractually current that have not yet demonstrated a sustained period of payment performance following a modification.

Nonperforming outstanding balances in the residential mortgage portfolio remained relatively unchanged during the six months ended June 30, 2024. Of the nonperforming residential mortgage loans at June 30, 2024, \$1.3 billion, or 63 percent, were current on contractual payments. Loans accruing past due 30 days or more of \$987 million also remained relatively unchanged.

Of the \$217.4 billion in total residential mortgage loans outstanding at June 30, 2024, \$63.5 billion, or 29 percent, of loans were originated as interest-only. The outstanding balance of interest-only residential mortgage loans that had entered the amortization period was \$3.5 billion, or six percent, at June 30, 2024. Residential mortgage loans that have entered the amortization period generally experience a higher rate of early stage delinquencies and nonperforming status compared to the residential mortgage portfolio as a whole. At June 30, 2024,

\$49 million, or one percent, of outstanding interest-only residential mortgages that had entered the amortization period were accruing past due 30 days or more compared to \$987 million, or less than one percent, for the entire residential mortgage portfolio. In addition, at June 30, 2024, \$197 million, or six percent, of outstanding interest-only residential mortgage loans that had entered the amortization period were nonperforming, of which \$75 million were contractually current. Loans that have yet to enter the amortization period in our interest-only residential mortgage portfolio are primarily well-collateralized loans to our wealth management clients and have an interest-only period of three years to 10 years. Substantially all of these loans that have yet to enter the amortization period will not be required to make a fully-amortizing payment until 2026 or later.

Table 20 presents outstandings, nonperforming loans and net charge-offs by certain state concentrations for the residential mortgage portfolio. In the New York area, the New York-Northern New Jersey-Long Island Metropolitan Statistical Area (MSA) made up 15 percent of outstandings at both

June 30, 2024 and December 31, 2023. The Los Angeles-Long Beach-Santa Ana MSA within California represented 14 percent of outstandings at both June 30, 2024 and December 31, 2023.

Home Equity

At June 30, 2024, the home equity portfolio made up six percent of the consumer portfolio and was comprised of home equity lines of credit (HELOCs), home equity loans and reverse mortgages. HELOCs generally have an initial draw period of 10 years, and after the initial draw period ends, the loans generally convert to 15- or 20-year amortizing loans. We no longer originate home equity loans or reverse mortgages.

At June 30, 2024, 84 percent of the home equity portfolio was in *Consumer Banking*, 10 percent was in *GWIM* and the remainder of the portfolio was in *All Other*. Outstanding balances in the home equity portfolio decreased \$85 million during the six months ended June 30, 2024 primarily due to paydowns outpacing draws on existing lines and new originations. Of the

total home equity portfolio at June 30, 2024 and December 31, 2023, \$9.7 billion and \$10.1 billion, or 38 percent and 39 percent, were in first-lien positions. At June 30, 2024, outstanding balances in the home equity portfolio that were in a second-lien or more junior-lien position and where we also held the first-lien loan totaled \$4.4 billion, or 17 percent, of our total home equity portfolio.

Unused HELOCs totaled \$45.3 billion and \$45.1 billion at June 30, 2024 and December 31, 2023. The HELOC utilization rate was 35 percent at both June 30, 2024 and December 31, 2023.

⁽¹⁾ Outstandings, accruing past due, nonperforming loans and percentages of the portfolio exclude loans accounted for under the fair value option.

⁽²⁾ Includes loans that are contractually current that have not yet demonstrated a sustained period of payment performance following a modification.

Nonperforming outstanding balances in the home equity portfolio decreased \$28 million to \$422 million at June 30, 2024, primarily driven by paydowns and payoffs and returns to performing status outpacing new additions. Of the nonperforming home equity loans at June 30, 2024, \$253 million, or 60 percent, were current on contractual payments. In addition, \$94 million, or 22 percent, were 180 days or more past due and had been written down to the estimated fair value of the collateral, less costs to sell. Accruing loans that were 30 days or more past due remained relatively unchanged during the six months ended June 30, 2024.

Of the \$25.4 billion in total home equity portfolio outstandings at June 30, 2024, as shown in Table 21, 10 percent require interest-only payments. The outstanding balance of HELOCs that had reached the end of their draw period and

entered the amortization period was \$3.6 billion at June 30, 2024. The HELOCs that have entered the amortization period have experienced a higher percentage of early stage delinquencies and nonperforming status when compared to the HELOC portfolio as a whole. At June 30, 2024, \$36 million, or one percent, of outstanding HELOCs that had entered the amortization period were accruing past due 30 days or more. In addition, at June 30, 2024, \$262 million, or seven percent, were nonperforming.

For our interest-only HELOC portfolio, we do not actively track how many of our home equity customers pay only the minimum amount due on their home equity loans and lines; however, we can infer some of this information through a review of our HELOC portfolio that we service and is still in its revolving period. During the six months ended June 30, 2024, 29 percent

of these customers with an outstanding balance did not pay any principal on their HELOCs.

Table 22 presents outstandings, nonperforming balances and net recoveries by certain state concentrations for the home equity portfolio. In the New York area, the New York-Northern New Jersey-Long Island MSA made up 11 percent of the

outstanding home equity portfolio at both June 30, 2024 and December 31, 2023. The Los Angeles-Long Beach-Santa Ana MSA within California made up 10 percent of the outstanding home equity portfolio at both June 30, 2024 and December 31, 2023.

Credit Card

At June 30, 2024, 97 percent of the credit card portfolio was managed in *Consumer Banking* with the remainder in *GWIM*. Outstandings in the credit card portfolio decreased \$2.8 billion during the six months ended June 30, 2024 to \$99.5 billion as payments more than offset purchase volume and card transfers. Net charge-offs increased \$345 million to \$955 million and \$743 million to \$1.9 billion during the three and six months ended June 30, 2024 compared to the same periods in 2023.

Credit card loans 30 days or more past due and still accruing interest of \$2.4 billion, and 90 days or more past due and still accruing interest of \$1.3 billion remained relatively unchanged at June 30, 2024.

Unused lines of credit for credit card increased to \$396.5 billion at June 30, 2024 from \$390.2 billion at December 31, 2023.

Direct/Indirect Consumer

At June 30, 2024, 52 percent of the direct/indirect portfolio was included in *Consumer Banking* (consumer auto and recreational vehicle lending) and 48 percent was included in

GWIM (principally securities-based lending loans). Outstandings in the direct/indirect portfolio increased \$366 million during the six months ended June 30, 2024 to \$103.8 billion driven by increases in securities-based lending.

Other Consumer

Other consumer primarily consists of deposit overdraft balances. Net charge-offs decreased \$40 million to \$67 million and \$128 million to \$141 million during the three and six months ended June 30, 2024 compared to the same periods in 2023, primarily driven by lower overdraft losses from fraud activity.

Nonperforming Consumer Loans, Leases and Foreclosed Properties Activity

Table 25 presents nonperforming consumer loans, leases and foreclosed properties activity for the three and six months

ended June 30, 2024 and 2023. During the six months ended June 30, 2024, nonperforming consumer loans of \$2.7 billion remained relatively unchanged.

At June 30, 2024, \$460 million, or 17 percent, of nonperforming loans were 180 days or more past due and had been written down to their estimated property value less costs to sell. In addition, at June 30, 2024, \$1.6 billion, or 61 percent, of nonperforming consumer loans were current and classified as nonperforming loans in accordance with applicable policies.

During the six months ended June 30, 2024, foreclosed properties of \$114 million remained relatively unchanged.

Commercial Portfolio Credit Risk Management

Commercial credit risk is evaluated and managed with the goal that concentrations of credit exposure continue to be aligned with our risk appetite. We review, measure and manage concentrations of credit exposure by industry, product, geography, customer relationship and loan size. We also review, measure and manage commercial real estate loans by geographic location and property type. In addition, within our non-U.S. portfolio, we evaluate exposures by region and by country. Tables 30, 32 and 35 summarize our concentrations. We also utilize syndications of exposure to third parties, loan sales, hedging and other risk mitigation techniques to manage

the size and risk profile of the commercial credit portfolio. For more information on our industry concentrations, see Table 32 and Commercial Portfolio Credit Risk Management – Industry Concentrations on page 37.

For more information on our accounting policies regarding delinquencies, nonperforming status, net charge-offs and loan modifications for the commercial portfolio, see Note 1 – Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K and Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses to the Consolidated Financial Statements.

Commercial Credit Portfolio

Outstanding commercial loans and leases increased \$6.1 billion during the six months ended June 30, 2024 due to growth in U.S. commercial, primarily in *GWIM* and *Global Markets*. During the six months ended June 30, 2024, commercial credit quality deteriorated as reservable criticized utilized exposure increased primarily driven by U.S. commercial across a broad range of industries while commercial nonperforming loans remained relatively unchanged. Commercial net charge-offs increased \$325 million and \$641 million to \$474 million and \$944 million during the three and six months ended June 30, 2024 compared to the same periods in 2023 primarily due to higher losses in the commercial real estate office portfolio.

With the exception of the office property type, which is further discussed in the Commercial Real Estate section herein, credit quality of commercial real estate borrowers has remained relatively stable since December 31, 2023; however, we are closely monitoring emerging trends and borrower performance in the higher interest rate environment. Recent demand for office space has been stagnant, and future demand for office space continues to be uncertain as companies evaluate space needs with employment models that utilize a mix of remote and conventional office use.

The commercial allowance for loan and lease losses decreased \$98 million during the six months ended June 30, 2024 to \$4.7 billion. For more information, see Allowance for Credit Losses on page 40.

Total commercial utilized credit exposure increased \$1.5 billion during the six months ended June 30, 2024 to \$697.8 billion primarily driven by increased loans and leases, partially offset by lower derivative assets. The utilization rate for loans and leases, standby letters of credit (SBLCs) and financial guarantees, and commercial letters of credit, in the aggregate, was 55 percent at both June 30, 2024 and December 31, 2023.

Table 26 presents commercial credit exposure by type for utilized, unfunded and total binding committed credit exposure. Commercial utilized credit exposure includes SBLCs and financial guarantees and commercial letters of credit that have been issued and for which we are legally bound to advance funds under prescribed conditions during a specified time period, and excludes exposure related to trading account assets. Although funds have not yet been advanced, these exposure types are considered utilized for credit risk management purposes.

⁽⁴⁾ Includes the notional amount of unfunded legally binding lending commitments, net of amounts distributed (i.e., syndicated or participated) to other financial institutions. The distributed amounts were \$10.3 billion at both June 30, 2024 and December 31, 2023.

⁽⁵⁾ Derivative assets are carried at fair value, reflect the effects of legally enforceable master netting agreements and have been reduced by cash collateral of \$27.4 billion and \$29.4 billion at June 30, 2024 and December 31, 2023. Not reflected in utilized and committed exposure is additional non-cash derivative collateral held of \$56.8 billion and \$56.1 billion at June 30, 2024 and December 31, 2023, which consists primarily of other marketable securities.

Table 29 presents commercial reservable criticized utilized exposure by loan type. Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories as defined by regulatory authorities. Total commercial reservable criticized utilized exposure increased \$1.5 billion during the six months ended June 30, 2024 primarily driven by U.S. commercial, partially offset by commercial real estate. At June 30, 2024 and December 31, 2023, 90 percent and 89 percent of commercial reservable criticized utilized exposure was secured.

⁽²⁾ Percentages are calculated as commercial reservable criticized utilized exposure divided by total commercial reservable utilized exposure for each exposure category.

Commercial and Industrial

Commercial and industrial loans include U.S. commercial and non-U.S. commercial portfolios.

U.S. Commercial

At June 30, 2024, 62 percent of the U.S. commercial loan portfolio, excluding small business, was managed in *Global Banking*, 22 percent in *Global Markets*, 15 percent in *GWIM* (loans that provide financing for asset purchases, business investments and other liquidity needs for high net worth clients) and the remainder primarily in *Consumer Banking*. U.S. commercial loans increased \$10.2 billion, or three percent, during the six months ended June 30, 2024 primarily driven by *Global Banking* and *GWIM*. Reservable criticized utilized exposure increased \$1.8 billion, or 15 percent, driven by a broad range of industries.

Non-U.S. Commercial

At June 30, 2024, 60 percent of the non-U.S. commercial loan portfolio was managed in *Global Banking*, 39 percent in *Global Markets* and the remainder primarily in *GWIM*. Non-U.S. commercial loans decreased \$2.4 billion, or two percent, during the six months ended June 30, 2024 primarily driven by *Global Banking*. Reservable criticized utilized exposure increased \$48 million, or three percent. For information on the non-U.S. commercial portfolio, see Non-U.S. Portfolio on page 39.

Commercial Real Estate

Commercial real estate primarily includes commercial loans secured by non-owner-occupied real estate and is dependent on the sale or lease of the real estate as the primary source of repayment. Outstanding loans decreased \$2.6 billion, or four percent, during the six months ended June 30, 2024 to \$70.3 billion primarily driven by the office property type. The

commercial real estate portfolio is primarily managed in *Global Banking* and consists of loans made primarily to public and private developers, and commercial real estate firms. The portfolio remains diversified across property types and geographic regions. California represented the largest state concentration at 20 percent of commercial real estate at both June 30, 2024 and December 31, 2023.

Reservable criticized utilized exposure decreased \$435 million, or five percent, during the six months ended June 30, 2024 primarily driven by office loans. Office loans represented the largest property type concentration at 23 percent of the commercial real estate portfolio at June 30, 2024, and approximately two percent of total loans for the Corporation. This property type is roughly 75 percent Class A and had an origination loan-to-value of approximately 55 percent. Reservable criticized exposure for the office property type was \$5.1 billion at June 30, 2024, and approximately \$4.8 billion of office loans are scheduled to mature by the end of 2024.

During the three and six months ended June 30, 2024, net charge-offs increased by \$203 million and \$485 million to \$272 million and \$576 million compared to the same periods in 2023 driven by office loans. We use a number of proactive risk mitigation initiatives to reduce adversely rated exposure in the commercial real estate portfolio, including transfers of deteriorating exposures for management by independent special asset officers and the pursuit of loan restructurings or asset sales to achieve the best results for our customers and the Corporation.

Table 30 presents outstanding commercial real estate loans by geographic region, based on the geographic location of the collateral, and by property type.

U.S. Small Business Commercial

The U.S. small business commercial loan portfolio is comprised of small business card loans and small business loans primarily managed in *Consumer Banking*. Credit card-related products were 54 percent of the U.S. small business commercial portfolio at both June 30, 2024 and December 31, 2023 and represented 99 percent and 98 percent of net charge-offs for the three and six months ended June 30, 2024 compared to 98 percent for the same periods in 2023. Accruing past due 90 days or more of \$189 million remained relatively unchanged.

Nonperforming Commercial Loans, Leases and Foreclosed Properties Activity

Table 31 presents the nonperforming commercial loans, leases and foreclosed properties activity during the three and six months ended June 30, 2024 and 2023. Nonperforming loans do not include loans accounted for under the fair value option. During the six months ended June 30, 2024, nonperforming commercial loans and leases increased \$29 million to \$2.8 billion. At June 30, 2024, 94 percent of commercial nonperforming loans, leases and foreclosed properties were secured, and 42 percent were contractually current. Commercial nonperforming loans were carried at 79 percent of their unpaid principal balance, as the carrying value of these loans has been reduced to the estimated collateral value less costs to sell.

⁽³⁾ Commercial loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, when the loan otherwise becomes well-secured and is in the process of collection, or when a modified loan demonstrates a sustained period of payment performance.

⁽⁴⁾ Outstanding commercial loans exclude loans accounted for under the fair value option.

Industry Concentrations

Table 32 presents commercial committed and utilized credit exposure by industry. For information on net notional credit protection purchased to hedge funded and unfunded exposures for which we elected the fair value option, as well as certain other credit exposures, see Commercial Portfolio Credit Risk Management – Risk Mitigation.

Commercial credit exposure is diversified across a broad range of industries. Total commercial committed exposure increased \$8.0 billion during the six months ended June 30, 2024 to \$1.2 trillion. The increase in commercial committed exposure was concentrated in Asset managers and funds, Software and services and Consumer services.

For information on industry limits, see Commercial Portfolio Credit Risk Management – Risk Mitigation in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

Asset managers and funds, our largest industry concentration with committed exposure of \$174.3 billion, increased \$5.0 billion, or three percent, during the six months ended June 30, 2024, which was primarily driven by investment-grade exposures.

Real estate, our second largest industry concentration with committed exposure of \$97.3 billion decreased \$3.0 billion or three percent during the six months ended June 30, 2024. For more information on the commercial real estate and related portfolios, see Commercial Portfolio Credit Risk Management – Commercial Real Estate on page 36.

Capital goods, our third largest industry concentration with committed exposure of \$92.2 billion, decreased \$4.8 billion, or five percent, during the six months ended June 30, 2024. The decline in committed exposure was primarily due to decreases in Industrial conglomerates and Aerospace and defense, partially offset by an increase in Building products.

Various macroeconomic challenges, including geopolitical tensions, inflationary pressures and elevated interest rates, have led to uncertainty in the U.S. and global economies and have adversely impacted, and may continue to adversely impact, a number of industries. We continue to monitor all industries, particularly higher risk industries that are experiencing or could experience a more significant impact to their financial condition.

⁽¹⁾ Includes U.S. small business commercial exposure.

⁽²⁾ Includes the notional amount of unfunded legally binding lending commitments, net of amounts distributed (i.e., syndicated or participated) to other financial institutions. The distributed amounts were \$10.3 billion at both June 30, 2024 and December 31, 2023.

⁽³⁾ Industries are viewed from a variety of perspectives to best isolate the perceived risks. For purposes of this table, the real estate industry is defined based on the primary business activity of the borrowers or counterparties using operating cash flows and primary source of repayment as key factors.

Risk Mitigation

We purchase credit protection to cover the funded portion as well as the unfunded portion of certain credit exposures. To lower the cost of obtaining our desired credit protection levels, we may add credit exposure within an industry, borrower or counterparty group by selling protection.

At June 30, 2024 and December 31, 2023, net notional credit default protection purchased in our credit derivatives portfolio to hedge our funded and unfunded exposures for which we elected the fair value option, as well as certain other credit exposures, was \$10.4 billion and \$10.9 billion. We recorded net gains of \$9 million and net losses of \$16 million for the three and six months ended June 30, 2024 compared to net losses of \$34 million and \$111 million for the three and six months ended June 30, 2023. The gains and losses on these instruments were largely offset by gains and losses on the

related exposures. The Value-at-Risk (VaR) results for these exposures are included in the fair value option portfolio information in Table 38. For more information, see Trading Risk Management on page 42.

Tables 33 and 34 present the maturity profiles and the credit exposure debt ratings of the net credit default protection portfolio at June 30, 2024 and December 31, 2023.

Non-U.S. Portfolio

Our non-U.S. credit and trading portfolios are subject to country risk. We define country risk as the risk of loss from unfavorable economic and political conditions, currency fluctuations, social instability and changes in government policies. A risk management framework is in place to measure, monitor and manage non-U.S. risk and exposures. In addition to the direct risk of doing business in a country, we also are exposed to indirect country risks (e.g., related to the collateral received on secured financing transactions or related to client clearing activities). These indirect exposures are managed in the normal course of business through credit, market and operational risk governance rather than through country risk governance. For more information on our non-U.S. credit and trading portfolios, see Non-U.S. Portfolio in the MD&A of the Corporation's 2023 Annual Report on Form 10-K. For more information on risks related to our non-U.S. portfolio, see the Geopolitical section within Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K.

Table 35 presents our 20 largest non-U.S. country exposures at June 30, 2024. These exposures accounted for 89 percent of our total non-U.S. exposure at both June 30, 2024 and December 31, 2023. Net country exposure for these 20 countries increased \$10.0 billion in 2024 primarily driven by an increase in the United Kingdom.

Our largest non-U.S. country exposure at June 30, 2024 was the United Kingdom with net exposure of \$66.8 billion, which increased \$10.9 billion from December 31, 2023 primarily due to increased deposits with the central bank. Our second largest non-U.S. country exposure was Germany with net exposure of \$33.6 billion at June 30, 2024, which decreased \$2.0 billion from December 31, 2023 primarily due to lower exposure with financial institutions.

Allowance for Credit Losses

The allowance for credit losses decreased \$209 million from December 31, 2023 to \$14.3 billion at June 30, 2024, which included a \$33 million and \$176 million reserve decrease related to the consumer and commercial portfolios. The reserve

decrease was primarily driven by the commercial portfolio due to an improved macroeconomic outlook.

Table 36 presents an allocation of the allowance for credit losses by product type at June 30, 2024 and December 31, 2023.

Net charge-offs for the three and six months ended June 30, 2024 were \$1.5 billion and \$3.0 billion compared to \$869 million and \$1.7 billion for the same periods in 2023 primarily due to credit card loans and the commercial real estate office portfolio. The provision for credit losses increased \$383 million to \$1.5 billion and \$771 million to \$2.8 billion for the three and six months ended June 30, 2024 compared to the same periods in 2023. The provision for credit losses for the current-year periods was primarily driven by credit card loans and the commercial real estate office portfolio. The provision for credit losses for the consumer portfolio, including unfunded lending commitments, of \$1.1 billion and \$2.1 billion was largely unchanged for the three and six months ended June 30, 2024 compared to the same periods in 2023. The provision for credit

losses for the commercial portfolio, including unfunded lending commitments, increased \$255 million to \$414 million and \$764 million to \$774 million for the three and six months ended June 30, 2024 compared to the same periods in 2023.

Table 37 presents a rollforward of the allowance for credit losses, including certain loan and allowance ratios for the three and six months ended June 30, 2024 and 2023. For more information on the Corporation's credit loss accounting policies and activity related to the allowance for credit losses, see *Note 1 - Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K and *Note 5 - Outstanding Loans and Leases and Allowance for Credit Losses* to the Consolidated Financial Statements.

Market Risk Management

For more information on our market risk management process, see Market Risk Management in the MD&A of the Corporation's 2023 Annual Report on Form 10-K. For more information on market risks, see the Market section within Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K.

Market risk is the risk that changes in market conditions may adversely impact the value of assets or liabilities, or otherwise negatively impact earnings. This risk is inherent in the financial instruments associated with our operations, primarily within our *Global Markets* segment. We are also exposed to these risks in other areas of the Corporation (e.g., our ALM activities). In the event of market stress, these risks could have a material impact on our results.

Trading Risk Management

To evaluate risks in our trading activities, we focus on the actual and potential volatility of revenues generated by individual positions as well as portfolios of positions. VaR is a common statistic used to measure market risk. Our primary VaR statistic is equivalent to a 99 percent confidence level, which means that for a VaR with a one-day holding period, there should not be losses in excess of VaR, on average, 99 out of 100 trading days.

Table 38 presents the total market-based portfolio VaR, which is the combination of the total covered positions (and less liquid trading positions) portfolio and the fair value option portfolio. For more information on the market risk VaR for trading activities, see Trading Risk Management in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

The total market-based portfolio VaR results in Table 38 include market risk to which we are exposed from all business segments, excluding credit valuation adjustment (CVA), DVA and related hedges. The majority of this portfolio is within the *Global Markets* segment.

Table 38 presents period-end, average, high and low daily trading VaR for the three months ended June 30, 2024, March 31, 2024 and June 30, 2023 using a 99 percent confidence level. The amounts disclosed in Table 38 and Table 39 align to the view of covered positions used in the Basel 3 capital calculations. Foreign exchange and commodity positions are always considered covered positions, regardless of trading or banking treatment for the trade, except for structural foreign currency positions that are excluded with prior regulatory approval.

The average of total covered positions and less liquid trading positions portfolio VaR increased for the three months ended June 30, 2024 compared to the prior quarter due to an increase in interest rate and debt risk.

⁽¹⁾ The high and low for each portfolio may have occurred on different trading days than the high and low for the components. Therefore the impact from less liquid exposures and the amount of portfolio diversification, which is the difference between the total portfolio and the sum of the individual components, is not relevant.

⁽²⁾ Impact is net of diversification effects between the covered positions and less liquid trading positions portfolios.

The following graph presents the daily covered positions and less liquid trading positions portfolio VaR for the previous five quarters, corresponding to the data in Table 38.

Additional VaR statistics produced within our single VaR model are provided in Table 39 at the same level of detail as in Table 38. Evaluating VaR with additional statistics allows for an increased understanding of the risks in the portfolio, as the historical market data used in the VaR calculation does not necessarily follow a predefined statistical distribution. Table 39 presents average trading VaR statistics at 99 percent and 95 percent confidence levels for the three months ended June 30, 2024, March 31, 2024 and June 30, 2023.

Backtesting

The accuracy of the VaR methodology is evaluated by backtesting, which compares the daily VaR results, utilizing a one-day holding period, against a comparable subset of trading revenue. For more information on our backtesting process, see Trading Risk Management – Backtesting in the MD&A of the Corporation’s 2023 Annual Report on Form 10-K.

During the three and six months ended June 30, 2024, there were no days where this subset of trading revenue had losses that exceeded our total covered portfolio VaR, utilizing a one-day holding period.

Total Trading-related Revenue

Total trading-related revenue, excluding brokerage fees, and CVA, DVA and funding valuation adjustment gains (losses), represents the total amount earned from trading positions,

including market-based net interest income, which are taken in a diverse range of financial instruments and markets. For more information, see Trading Risk Management – Total Trading-related Revenue in the MD&A of the Corporation’s 2023 Annual Report on Form 10-K.

The following histogram is a graphic depiction of trading volatility and illustrates the daily level of trading-related revenue for the three months ended June 30, 2024 compared to the three months ended March 31, 2024. During the three months ended June 30, 2024, positive trading-related revenue was recorded for 100 percent of the trading days, of which 95 percent were daily trading gains of over \$25 million. This compares to the three months ended March 31, 2024 where positive trading-related revenue was recorded for 100 percent of the trading days, of which 97 percent were daily trading gains of over \$25 million.

Trading Portfolio Stress Testing

Because the very nature of a VaR model suggests results can exceed our estimates and it is dependent on a limited historical window, we also stress test our portfolio using scenario analysis. This analysis estimates the change in the value of our trading portfolio that may result from abnormal market movements. For more information, see Trading Risk Management – Trading Portfolio Stress Testing in the MD&A of the Corporation’s 2023 Annual Report on Form 10-K.

Interest Rate Risk Management for the Banking Book

The following discussion presents net interest income for banking book activities. For more information, see Interest Rate Risk Management for the Banking Book in the MD&A of the Corporation’s 2023 Annual Report on Form 10-K.

Table 40 presents the spot and 12-month forward rates used in our baseline forecasts at June 30, 2024 and December 31, 2023.

Table 40 Forward Rates

	Federal Funds	SOFR	10-Year SOFR
	June 30, 2024		
Spot rates	5.50 %	5.33 %	3.98 %
12-month forward rates	4.50	4.42	3.79
	December 31, 2023		
Spot rates	5.50 %	5.38 %	3.47 %
12-month forward rates	3.89	3.93	3.32

Table 41 shows the potential pretax impact to net interest income over the next 12 months from June 30, 2024 and December 31, 2023 resulting from instantaneous parallel and non-parallel shocks to the market-based forward curve. Periodically, we evaluate the scenarios presented so that they are meaningful in the context of the current rate environment.

⁽¹⁾ Dynamic Deposit sensitivity reflects behavioral customer deposit balance changes that could occur under various scenarios while Static Deposits assumes no deposit balance change. n/a = not applicable

We continue to be asset sensitive to a parallel upward move in interest rates, with the majority of that impact coming from the short end of the yield curve. Additionally, higher interest rates negatively impact the fair value of our debt securities classified as available for sale and adversely affect accumulated OCI and thus capital levels under the Basel 3 capital rules. Under instantaneous upward parallel shifts, the near-term adverse impact to Basel 3 capital would be reduced over time by offsetting positive impacts to net interest income generated from banking book activities. For more information on Basel 3, see Capital Management – Regulatory Capital on page 21.

As part of our ALM activities, we use securities, certain residential mortgages, and interest rate and foreign exchange derivatives in managing interest rate sensitivity. The sensitivity analysis in Table 41 assumes that we take no action in response to these rate shocks and does not assume any change in other macroeconomic variables normally correlated with changes in interest rates. Beginning in the second quarter of 2024, the sensitivity analysis incorporates potential movements in customer behavior that could result in changes in both total customer deposit balances and deposit balance mix, (e.g., interest bearing versus noninterest bearing), under the various interest rate scenarios. In higher rate scenarios, the analysis assumes that a portion of low-cost or noninterest-bearing deposits are replaced with higher yielding deposits or market-based funding. Conversely, in lower rate scenarios, the analysis assumes that a portion of higher yielding deposits or market-based funding are replaced with low-cost or noninterest-bearing deposits.

For larger interest rate scenarios, the interest rate sensitivity may behave in a non-linear manner as there are numerous estimates and assumptions, which require a high degree of judgment and are often interrelated, that could impact the outcome. Pertaining to the mortgage-backed securities and residential mortgage portfolio, if long-end interest rates were to significantly decrease over the next twelve months, for example over 200 bps, there would generally be an increase in customer prepayment behaviors with an incremental reduction to net interest income, noting that the extent of changes in customer prepayment activity can be impacted by multiple factors and is not necessarily limited to long-end interest rates. Conversely, if long-end interest rates were to significantly increase over the next twelve months, for example, over 200 bps, customer prepayments would likely modestly decrease and result in an incremental increase to net interest income. In addition, deposit pricing is rate sensitive in nature. This sensitivity is assumed to have non-linear impacts to larger short-end rate movements. In decreasing interest rate scenarios, and particularly where interest rates have decreased to small amounts, the ability to further reduce rates paid is reduced as customer rates near zero. In higher short-end rate scenarios, deposit pricing will likely increase at a faster rate, leading to incremental interest expense and reducing asset sensitivity. While the impact related to the above assumptions used in the asset sensitivity analysis can provide directional analysis on how net interest income will be impacted in changing environments, the ultimate impact is dependent upon the interrelationship of the assumptions and factors, which vary in different macroeconomic scenarios.

Economic Value of Equity

In addition to interest rate sensitivity described above, the Corporation's management of its interest rate exposures in the banking book also considers a long-term view of interest rate sensitivity through the measurement of Economic Value of Equity (EVE). EVE captures changes in the net present value of banking book assets and liabilities under various interest rate scenarios and its impact to Tier 1 capital. Similar to net interest income, the Corporation establishes limits for EVE. EVE is largely driven by the Corporation's longer duration fixed-rate products, such as investment securities, residential mortgages and deposits. For assets or liabilities that have no stated maturity, such as deposits, the Corporation estimates the duration for measurement purposes.

Interest Rate and Foreign Exchange Derivative Contracts

We use interest rate and foreign exchange derivative contracts in our ALM activities to manage our interest rate and foreign exchange risks. Specifically, we use those derivatives to manage both the variability in cash flows and changes in fair value of various assets and liabilities arising from those risks. Our interest rate derivative contracts are generally non-leveraged swaps tied to various benchmark interest rates and foreign exchange basis swaps, options, futures and forwards, and our foreign exchange contracts include cross-currency interest rate swaps, foreign currency futures contracts, foreign currency forward contracts and options.

The derivatives used in our ALM activities can be split into two broad categories: designated accounting hedges and other risk management derivatives. Designated accounting hedges are primarily used to manage our exposure to interest rates as described in the Interest Rate Risk Management for the Banking Book section and are included in the sensitivities presented in Table 41. The Corporation also uses foreign currency derivatives in accounting hedges to manage substantially all of the foreign exchange risk of our foreign operations. By hedging the foreign exchange risk of our foreign operations, the Corporation's market risk exposure in this area is not significant.

Risk management derivatives are predominantly used to hedge foreign exchange risks related to various foreign currency-denominated assets and liabilities and eliminate substantially all foreign currency exposures in the cash flows of the Corporation's non-trading foreign currency-denominated financial instruments. These foreign exchange derivatives are sensitive to other market risk exposures such as cross-currency basis spreads and interest rate risk. However, as these features are not a significant component of these foreign exchange derivatives, the market risk related to this exposure is not significant. For more information on the accounting for derivatives, see Note 3 – Derivatives to the Consolidated Financial Statements.

Mortgage Banking Risk Management

We originate, fund and service mortgage loans, which subject us to credit, liquidity and interest rate risks, among others. We determine whether loans will be held for investment or held for sale at the time of commitment and manage credit and liquidity risks by selling or securitizing a portion of the loans we originate.

Changes in interest rates impact the value of interest rate lock commitments (IRLCs) and the related residential first mortgage loans held-for-sale (LHFS), as well as the value of the MSRs. Because the interest rate risks of these hedged items offset, we combine them into one overall hedged item with one combined economic hedge portfolio consisting of derivative contracts and securities. For more information on IRLCs and the related residential mortgage LHFS, see Mortgage Banking Risk Management in the MD&A of the Corporation's 2023 Annual Report on Form 10-K.

There were no significant gains or losses related to the change in fair value of MSRs, IRLCs and LHFS, net of gains and losses on the hedge portfolio, for the three and six months ended June 30, 2024 and 2023. For more information on MSRs, see *Note 14 - Fair Value Measurements* to the Consolidated Financial Statements.

Climate Risk

Climate Risk Management

Climate risk is the risk that climate change or actions taken to mitigate climate change expose the Corporation to economic, legal/regulatory, operational or reputational harm. Climate-related risks are divided into two major categories, both of which span across the seven key risk types discussed in the Managing Risk section in the MD&A of the Corporation's 2023 Annual Report on Form 10-K: (1) Physical Risk: risks related to the physical impacts of climate change, driven by extreme weather events such as hurricanes and floods, as well as chronic longer-term shifts such as rising average global temperatures and sea levels, and (2) Transition Risk: risks related to the transition to a low-carbon economy, which may entail extensive policy, legal, technology and market changes.

Physical risks of climate change, such as more frequent and severe extreme weather events, can increase the Corporation's risks, including credit risk by diminishing borrowers' repayment capacity or collateral values, and operational risk by negatively impacting the Corporation's facilities, employees, or vendors. Transition risks of climate change may amplify credit risks through the financial impacts of changes in policy, technology or the market on the Corporation or our counterparties. Unanticipated market changes can lead to sudden price adjustments and give rise to heightened market risk.

Reputational risk can arise if we do not meet our climate-related goals and/or targets, or are perceived to be inadequately responsive to climate change or otherwise.

Our approach to managing climate risk is consistent with our risk management governance structure, from senior management to our Board and its committees, including the Enterprise Risk Committee (ERC) and the Corporate Governance, ESG and Sustainability Committee (CGESC) of the Board, which regularly discuss climate-related topics. The ERC oversees climate risk as set forth in our Risk Framework and Risk Appetite Statement. The CGESC is responsible for overseeing the Corporation's environmental and sustainability-related activities and practices, and regularly reviews the Corporation's climate-related policies and practices. Our Climate Risk Council consists of leaders across risk, Front Line Unit and control functions, and meets routinely to discuss our approach to managing climate-related risks.

Our climate risk management efforts are overseen by an officer who reports to the Chief Risk Officer. The Corporation has a Climate and Environmental Risk Management function that is responsible for overseeing climate risk management. They are responsible for establishing the Climate Risk Framework (described below) and governance structure, and providing an independent assessment of enterprise-wide climate risks.

Based on the Corporation's Risk Framework, in 2023 we created our internal Climate Risk Framework, which addresses how the Corporation identifies, measures, monitors and controls climate risk by enhancing existing risk management processes and also includes examples of how climate risk manifests across the seven risk types. The framework details the roles and responsibilities for climate risk management across our three lines of defense (i.e., Front Line Units, Global Risk Management and Corporate Audit).

For more information on our governance framework, see the Managing Risk section in the MD&A of the Corporation's 2023 Annual Report on Form 10-K. For more information on climate risk, see Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K.

Climate-related Goals and Targets

In 2021, the Corporation announced a goal of achieving net zero greenhouse gas emissions before 2050 in our financing activities, operations and supply chain (Net Zero goal). As part of this goal, we have set interim 2030 targets across our financing activities related to certain high-emitting sectors (2030 Financing Activity Emissions Targets), operations and supply chain, all of which are further supported and complemented by our 10-year goal to mobilize and deploy \$1.5 trillion in sustainable finance by 2030 in support of the U.N.

Sustainable Development Goals, of which \$1 trillion is dedicated to supporting the transition to a low-carbon economy, including capital mobilized across clean energy sectors and tailored financial solutions for emerging areas of the low-carbon economy. In particular, we have announced 2030 Financing Activity Emissions Targets for auto manufacturing, aviation, cement, energy, iron and steel, maritime shipping and power generation sectors.

Achieving our climate-related goals and targets, including our Net Zero goal and 2030 Financing Activity Emissions Targets, may require technological advances, clearly defined roadmaps for industry sectors and better emissions data reporting. Required changes may also include new standards and public policies, including those that improve the cost of capital for the transition to a low-carbon economy, as well as strong and active engagement with customers, suppliers, investors, government officials and other stakeholders. Activities related to our climate-related goals and targets have not resulted in a significant effect on our results of operations or financial position in the relevant periods presented herein.

For more information on climate-related matters and the Corporation's climate-related goals and targets, including the Corporation's plans to achieve its Net Zero goal and its 2030 targets, and progress on its sustainable finance goal, see the Corporation's website, including its 2023 Task Force on Climate-related Financial Disclosures (TCFD) Report (2023 TCFD Report) and Addendum to the 2023 TCFD Report (2023 TCFD Addendum). The contents of the Corporation's website, including the 2023 TCFD Report and 2023 TCFD Addendum are not incorporated by reference into this Quarterly Report on Form 10-Q.

The foregoing discussion and the statements on the Corporation's website, including in the 2023 TCFD Report and 2023 TCFD Addendum, regarding the Corporation's climate-related goals and targets, its approach with respect to climate risk management, and the nature and extent of climate-related risks, contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Corporation's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

Complex Accounting Estimates

Our significant accounting principles, are essential in understanding the MD&A. Many of our significant accounting principles require complex judgments to estimate the values of assets and liabilities. We have procedures and processes in place to facilitate making these judgments. For more information, see Complex Accounting Estimates in the MD&A of the Corporation's 2023 Annual Report on Form 10-K and *Note 1 – Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Goodwill and Intangible Assets

The nature of and accounting for goodwill and intangible assets are discussed in *Note 7 – Goodwill and Intangible Assets* to the Consolidated Financial Statements herein and *Note 1 – Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K. As of June 30, 2024, goodwill recorded on our consolidated balance sheet was as follows.

Table 42 Goodwill by Reporting Segment

(Dollars in millions)	June 30 2024	December 31 2023
Consumer Banking	\$ 30,137	\$ 30,137
Global Wealth and Investment Management	9,677	9,677
Global Banking	24,026	24,026
Global Markets	5,181	5,181
Total	\$ 69,021	\$ 69,021

We completed our annual goodwill impairment test as of June 30, 2024 by using a qualitative assessment. Factors considered in the qualitative assessment include, among others, macroeconomic conditions, industry and market considerations, financial performance of the respective reporting unit and other relevant entity and reporting-unit specific considerations. Based on our assessment, we have concluded that none of our reporting units are at risk of impairment, as each of the reporting units' fair values are substantially in excess of their carrying values.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

See Market Risk Management on page 42 in the MD&A and the sections referenced therein for Quantitative and Qualitative Disclosures about Market Risk.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this report, the Corporation's management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness and design of the Corporation's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) of the Exchange Act). Based upon that evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures were effective, as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Corporation's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the three months ended June 30, 2024, that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Notes to Consolidated Financial Statements

NOTE 1 Summary of Significant Accounting Principles

Bank of America Corporation, a bank holding company and a financial holding company, provides a diverse range of financial services and products throughout the U.S. and in certain international markets. The term “the Corporation” as used herein may refer to Bank of America Corporation, individually, Bank of America Corporation and its subsidiaries, or certain of Bank of America Corporation’s subsidiaries or affiliates.

Principles of Consolidation and Basis of Presentation

The Consolidated Financial Statements include the accounts of the Corporation and its majority-owned subsidiaries and those variable interest entities (VIEs) where the Corporation is the primary beneficiary. Intercompany accounts and transactions have been eliminated. Results of operations of acquired companies are included from the dates of acquisition, and for VIEs, from the dates that the Corporation became the primary beneficiary. Assets held in an agency or fiduciary capacity are not included in the Consolidated Financial Statements. The Corporation accounts for investments in companies for which it owns a voting interest and for which it has the ability to exercise

significant influence over operating and financing decisions using the equity method of accounting. These investments, which include the Corporation’s interests in affordable housing and renewable energy partnerships, are recorded in other assets. Equity method investments are subject to impairment testing, and the Corporation’s proportionate share of income or loss is included in other income.

The preparation of the Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts and disclosures. Actual results could materially differ from those estimates and assumptions.

These unaudited Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements, and related notes thereto, of the Corporation’s 2023 Annual Report on Form 10-K.

The nature of the Corporation’s business is such that the results of any interim period are not necessarily indicative of results for a full year. In the opinion of management, all adjustments, which consist of normal recurring adjustments necessary for a fair statement of the interim period results, have been made. The Corporation evaluates subsequent events through the date of filing with the Securities and Exchange Commission (SEC).

NOTE 2 Net Interest Income and Noninterest Income

The table below presents the Corporation's net interest income and noninterest income disaggregated by revenue source for the three and six months ended June 30, 2024 and 2023. For more information, see Note 1 – Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K. For a disaggregation of noninterest income by business segment and All Other, see Note 17 – Business Segment Information.

NOTE 3 Derivatives

Derivative Balances

Derivatives are entered into on behalf of customers, for trading or to support risk management activities. Derivatives used in risk management activities include derivatives that may or may not be designated in qualifying hedge accounting relationships. Derivatives that are not designated in qualifying hedge accounting relationships are referred to as other risk management derivatives. For more information on the Corporation's derivatives and hedging activities, see Note 1 - Summary of Significant Accounting Principles and Note 3 -

Derivatives to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K. The following tables present derivative instruments included on the Consolidated Balance Sheet in derivative assets and liabilities at June 30, 2024 and December 31, 2023. Balances are presented on a gross basis, prior to the application of counterparty and cash collateral netting. Total derivative assets and liabilities are adjusted on an aggregate basis to take into consideration the effects of legally enforceable master netting agreements and have been reduced by cash collateral received or paid.

Offsetting of Derivatives

The Corporation enters into International Swaps and Derivatives Association, Inc. (ISDA) master netting agreements or similar agreements with substantially all of the Corporation's derivative counterparties. For more information, see *Note 3 - Derivatives* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

The following table presents derivative instruments included in derivative assets and liabilities on the Consolidated Balance Sheet at June 30, 2024 and December 31, 2023 by primary risk (e.g., interest rate risk) and the platform, where applicable,

on which these derivatives are transacted. Balances are presented on a gross basis, prior to the application of counterparty and cash collateral netting. Total gross derivative assets and liabilities are adjusted on an aggregate basis to take into consideration the effects of legally enforceable master netting agreements, which include reducing the balance for counterparty netting and cash collateral received or paid.

For more information on offsetting of securities financing agreements, see *Note 9 - Securities Financing Agreements, Collateral and Restricted Cash*.

⁽¹⁾ Over-the-counter derivatives include bilateral transactions between the Corporation and a particular counterparty. Over-the-counter cleared derivatives include bilateral transactions between the Corporation and a counterparty where the transaction is cleared through a clearinghouse. Exchange-traded derivatives include listed options transacted on an exchange.

⁽²⁾ Consists of derivatives entered into under master netting agreements where the enforceability of these agreements is uncertain under bankruptcy laws in some countries or industries.

⁽³⁾ Amounts are limited to the derivative asset/liability balance and, accordingly, do not include excess collateral received/pledged. Financial instruments collateral includes securities collateral received or pledged and cash securities held and posted at third-party custodians that are not offset on the Consolidated Balance Sheet but shown as a reduction to derive net derivative assets and liabilities.

Derivatives Designated as Accounting Hedges

The Corporation uses various types of interest rate and foreign exchange derivative contracts to protect against changes in the fair value of its assets and liabilities due to fluctuations in interest rates and foreign exchange rates (fair value hedges). The Corporation also uses these types of contracts to protect against changes in the cash flows of its assets and liabilities, and other forecasted transactions (cash flow hedges). The Corporation hedges its net investment in consolidated non-U.S.

operations determined to have functional currencies other than the U.S. dollar using forward exchange contracts and cross-currency basis swaps, and by issuing foreign currency-denominated debt (net investment hedges).

Fair Value Hedges

The following table summarizes information related to fair value hedges for the three and six months ended June 30, 2024 and 2023.

⁽¹⁾ Amounts are recorded in interest expense in the Consolidated Statement of Income.

⁽²⁾ Represents cross-currency interest rate swaps related to available-for-sale debt securities and long-term debt. For the three and six months ended June 30, 2024, the derivative amount includes gains (losses) of \$8 million and \$17 million in interest income, \$273 million and \$597 million in market making and similar activities, and \$(2) million and \$9 million in accumulated other comprehensive income (OCI). For the same periods in 2023, the derivative amount includes gains (losses) of \$1 million and \$1 million in interest income, \$(1) million and \$7 million in interest expense, \$103 million and \$105 million in market making and similar activities, and \$4 million and \$2 million in accumulated OCI. Line item totals are in the Consolidated Statement of Income and on the Consolidated Balance Sheet.

⁽³⁾ Amounts are recorded in interest income in the Consolidated Statement of Income.

⁽⁴⁾ Amounts are recorded in market making and similar activities in the Consolidated Statement of Income.

The table below summarizes the carrying value of hedged assets and liabilities that are designated in fair value hedging relationships, along with the cumulative amount of gains and losses on the hedged assets and liabilities that are included in their carrying value. There is no impact to earnings for the cumulative amount of these fair value hedging adjustments as long as the hedging relationships remain open through the

hedged period. Instead, the open hedges have the effect of synthetically converting the hedged assets and liabilities into variable-rate instruments. If an open hedge is de-designated prior to the derivative's maturity, any cumulative fair value adjustments at the de-designation date are then amortized or accreted into earnings over the remaining life of the hedged assets or liabilities.

Designated Fair Value Hedged Assets and Liabilities

Trading account assets ⁽⁴⁾	3,257	167	7,475	414

⁽¹⁾ Increase (decrease) to carrying value.

⁽²⁾ These amounts include the amortized cost of the financial assets in closed portfolios used to designate hedging relationships in which the hedged item is a stated layer that is expected to be remaining at the end of the hedging relationship (i.e. portfolio layer hedging relationship). At June 30, 2024 and December 31, 2023, the amortized cost of the closed portfolios used in these hedging relationships was \$37.8 billion and \$39.1 billion, of which \$24.4 billion and \$22.5 billion were designated in a portfolio layer hedging relationship. At June 30, 2024 and December 31, 2023, the cumulative adjustment associated with these hedging relationships was a decrease of \$341 million and an increase of \$48 million.

⁽³⁾ Carrying value represents amortized cost.

⁽⁴⁾ Represents hedging activities related to certain commodities inventory.

At June 30, 2024 and December 31, 2023, the fair value adjustments from de-designated long-term debt hedges decreased the long-term debt carrying value by \$10.2 billion and \$10.5 billion. The fair value adjustments from de-designated AFS debt securities hedges decreased the AFS debt securities carrying value by \$5.0 billion and \$5.6 billion. The fair value adjustments are being amortized or accreted into interest over the contractual lives of the assets or liabilities, along with any premiums or discounts.

Cash Flow and Net Investment Hedges

The following table summarizes certain information related to cash flow hedges and net investment hedges for the three and six months ended June 30, 2024 and 2023. Of the \$7.7 billion

after-tax net loss (\$10.3 billion pretax) on derivatives in accumulated OCI at June 30, 2024, losses of \$3.7 billion after-tax (\$4.9 billion pretax) related to both open and closed cash flow hedges are expected to be reclassified into earnings in the next 12 months. These net losses reclassified into earnings are expected to primarily decrease net interest income related to the respective hedged items. For open cash flow hedges, the maximum length of time over which forecasted transactions are hedged is approximately nine years. For terminated cash flow hedges, the time period over which the forecasted transactions will be recognized in interest income is approximately five years, with the aggregated amount beyond this time period being insignificant.

⁽²⁾ Amounts reclassified from accumulated OCI are recorded in compensation and benefits expense in the Consolidated Statement of Income.

⁽³⁾ Amounts reclassified from accumulated OCI are recorded in other income in the Consolidated Statement of Income. For the three and six months ended June 30, 2024, amounts excluded from effectiveness testing and recognized in market making and similar activities were gains of \$40 million and \$106 million. For the same periods in 2023, amounts excluded from effectiveness testing and recognized in market making and similar activities were gains of \$76 million and \$109 million.

Other Risk Management Derivatives

Other risk management derivatives are used by the Corporation to reduce certain risk exposures by economically hedging various assets and liabilities. The table below presents gains (losses) on these derivatives for the three and six months ended June 30, 2024 and 2023. These gains (losses) are largely offset by the income or expense recorded on the hedged item.

Transfers of Financial Assets with Risk Retained through Derivatives

The Corporation enters into certain transactions involving the transfer of financial assets that are accounted for as sales where substantially all of the economic exposure to the transferred financial assets is retained through derivatives (e.g., interest rate and/or credit), but the Corporation does not retain control over the assets transferred. At June 30, 2024 and December 31, 2023, the Corporation had transferred \$4.0 billion and \$4.1 billion of non-U.S. government-guaranteed mortgage-backed securities to a third-party trust and retained economic exposure to the transferred assets through derivative contracts. In connection with these transfers, the Corporation received gross cash proceeds of \$4.1 billion and \$4.2 billion at the transfer dates. At June 30, 2024 and December 31, 2023, the fair value of the transferred securities was \$3.9 billion and \$4.1 billion.

Sales and Trading Revenue

The Corporation enters into trading derivatives to facilitate client transactions and to manage risk exposures arising from trading

account assets and liabilities. It is the Corporation's policy to include these derivative instruments in its trading activities, which include derivatives and non-derivative cash instruments. The resulting risk from these derivatives is managed on a portfolio basis as part of the Corporation's *Global Markets* business segment. For more information on sales and trading revenue, see *Note 3 - Derivatives* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

The following table, which includes both derivatives and non-derivative cash instruments, identifies the amounts in the respective income statement line items attributable to the Corporation's sales and trading revenue in *Global Markets*, categorized by primary risk, for the three and six months ended June 30, 2024 and 2023. This table includes debit valuation adjustment (DVA) and funding valuation adjustment (FVA) gains (losses). *Global Markets* results in *Note 17 - Business Segment Information* are presented on a fully taxable-equivalent (FTE) basis. The following table is not presented on an FTE basis.

Includes investment and brokerage services revenue of \$516 million and \$1.0 billion for the three and six months ended June 30, 2024 compared to \$492 million and \$1.0 billion for the same periods in 2023.

⁽²⁾ Includes commodity risk.

Credit Derivatives

The Corporation enters into credit derivatives primarily to facilitate client transactions and to manage credit risk exposures. Credit derivatives are classified as investment and non-investment grade based on the credit quality of the underlying referenced obligation. The Corporation considers ratings of BBB- or higher as investment grade. Non-investment grade includes non-rated credit derivative instruments. The Corporation discloses internal categorizations of investment

grade and non-investment grade consistent with how risk is managed for these instruments. For more information on credit derivatives, see *Note 3 - Derivatives* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Credit derivative instruments where the Corporation is the seller of credit protection and their expiration at June 30, 2024 and December 31, 2023 are summarized in the following table.

The notional amount represents the maximum amount payable by the Corporation for most credit derivatives. However, the Corporation does not monitor its exposure to credit derivatives based solely on the notional amount because this measure does not take into consideration the probability of occurrence. As such, the notional amount is not a reliable indicator of the Corporation's exposure to these contracts. Instead, a risk framework is used to define risk tolerances and establish limits so that certain credit risk-related losses occur within acceptable, predefined limits.

Credit-related notes in the table above include investments in securities issued by collateralized debt obligation (CDO), collateralized loan obligation (CLO) and credit-linked note

vehicles. These instruments are primarily classified as trading securities. The carrying value of these instruments equals the Corporation's maximum exposure to loss. The Corporation is not obligated to make any payments to the entities under the terms of the securities owned.

Credit-related Contingent Features and Collateral

Certain of the Corporation's derivative contracts contain credit risk-related contingent features, primarily in the form of ISDA master netting agreements and credit support documentation that enhance the creditworthiness of these instruments compared to other obligations of the respective counterparty with whom the Corporation has transacted. These contingent features may be for the benefit of the Corporation as well as its

counterparties with respect to changes in the Corporation's creditworthiness and the mark-to-market exposure under the derivative transactions. At June 30, 2024 and December 31, 2023, the Corporation held cash and securities collateral of \$102.5 billion and \$104.1 billion and posted cash and securities collateral of \$89.8 billion and \$93.4 billion in the normal course of business under derivative agreements, excluding cross-product margining agreements where clients are permitted to margin on a net basis for both derivative and secured financing arrangements.

In connection with certain OTC derivative contracts and other trading agreements, the Corporation can be required to provide additional collateral or to terminate transactions with certain counterparties in the event of a downgrade of the senior debt ratings of the Corporation or certain subsidiaries. The amount of additional collateral required depends on the contract and is usually a fixed incremental amount and/or the market value of the exposure. For more information on credit-related contingent features and collateral, see *Note 3 - Derivatives* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

At June 30, 2024, the amount of collateral, calculated based on the terms of the contracts, that the Corporation and certain subsidiaries could be required to post to counterparties but had not yet posted to counterparties was \$2.4 billion, including \$1.2 billion for Bank of America, National Association.

Some counterparties are currently able to unilaterally terminate certain contracts, or the Corporation or certain subsidiaries may be required to take other action such as find a suitable replacement or obtain a guarantee. At June 30, 2024 and December 31, 2023, the liability recorded for these derivative contracts was not significant.

The following table presents the amount of additional collateral that would have been contractually required by derivative contracts and other trading agreements at June 30, 2024 if the rating agencies had downgraded their long-term senior debt ratings for the Corporation or certain subsidiaries by one incremental notch and by an additional second incremental notch. The table also presents derivative liabilities that would be subject to unilateral termination by counterparties upon downgrade of the Corporation's or certain subsidiaries' long-term senior debt ratings.

Valuation Adjustments on Derivatives

The table below presents credit valuation adjustment (CVA), DVA and FVA gains (losses) on derivatives (excluding the effect of any related hedge activities), which are recorded in market making and similar activities, for the three and six months ended June 30, 2024 and 2023. For more information on the valuation adjustments on derivatives, see *Note 3 - Derivatives* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

⁽¹⁾ At June 30, 2024 and December 31, 2023, the underlying collateral type included approximately 24 percent and 17 percent prime and 76 percent and 83 percent subprime.

⁽²⁾ Primarily includes non-U.S. securities used to satisfy certain international regulatory requirements. Any changes in value are reported in market making and similar activities. For detail on the components, see Note 14 - Fair Value Measurements.

⁽³⁾ Includes securities pledged as collateral of \$219.1 billion and \$204.9 billion at June 30, 2024 and December 31, 2023.

⁽⁴⁾ The Corporation held debt securities from Fannie Mae (FNMA) and Freddie Mac (FHLMC) that each exceeded 10 percent of shareholders' equity, with an amortized cost of \$263.6 billion and \$166.4 billion, and a fair value of \$211.3 billion and \$133.5 billion at June 30, 2024, and an amortized cost of \$272.5 billion and \$171.5 billion, and a fair value of \$226.4 billion and \$142.3 billion at December 31, 2023.

At June 30, 2024, the accumulated net unrealized loss on AFS debt securities, excluding the amount related to debt securities previously transferred to held to maturity, included in accumulated OCI was \$2.8 billion, net of the related income tax benefit of \$931 million. At June 30, 2024 and December 31, 2023, nonperforming AFS debt securities held by the Corporation were not significant.

At June 30, 2024 and December 31, 2023, \$836.3 billion and \$824.9 billion of AFS and HTM debt securities, which were predominantly U.S. agency and U.S. Treasury securities, have a zero credit loss assumption. For the same periods, the expected credit losses on the remaining \$36.1 billion and \$40.2 billion of AFS and HTM debt securities were insignificant. For more information on the zero credit loss assumption, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

At June 30, 2024 and December 31, 2023, the Corporation held equity securities at an aggregate fair value of \$250 million and \$251 million and other equity securities, as valued under the measurement alternative, at a carrying value of \$406 million and \$377 million, both of which are included in other assets. At

both June 30, 2024 and December 31, 2023, the Corporation also held money market investments at a fair value of \$1.2 billion, which are included in time deposits placed and other short-term investments.

The gross realized gains and losses on sales of AFS debt securities for the three and six months ended June 30, 2024 and 2023 are presented in the table below.

⁽²⁾ Total outstandings primarily includes auto and specialty lending loans and leases of \$53.9 billion, U.S. securities-based lending loans of \$46.0 billion and non-U.S. consumer loans of \$2.8 billion.

⁽³⁾ Consumer loans accounted for under the fair value option includes residential mortgage loans of \$66 million and home equity loans of \$177 million. Commercial loans accounted for under the fair value option includes U.S. commercial loans of \$2.2 billion and non-U.S. commercial loans of \$1.2 billion. For more information, see Note 14 – Fair Value Measurements and Note 15 – Fair Value Option.

⁽⁴⁾ Total outstandings includes U.S. commercial real estate loans of \$66.8 billion and non-U.S. commercial real estate loans of \$6.1 billion.

⁽⁵⁾ Total outstandings includes loans and leases pledged as collateral of \$33.7 billion. The Corporation also pledged \$246.0 billion of loans with no related outstanding borrowings to secure potential borrowing capacity with the Federal Reserve Bank and Federal Home Loan Bank.

The Corporation has entered into long-term credit protection agreements with FNMA and FHLMC on loans totaling \$8.4 billion and \$8.7 billion at June 30, 2024 and December 31, 2023, providing full credit protection on residential mortgage loans that become severely delinquent. All of these loans are individually insured, and therefore the Corporation does not record an allowance for credit losses related to these loans.

Nonperforming Loans and Leases

Nonperforming loans were \$5.5 billion at both June 30, 2024 and December 31, 2023. Commercial nonperforming loans were \$2.8 billion at both June 30, 2024 and December 31, 2023 primarily driven by the commercial real estate office property

type. Consumer nonperforming loans were \$2.7 billion at both June 30, 2024 and December 31, 2023, driven primarily by residential mortgage.

The following table presents the Corporation's nonperforming loans and leases and loans accruing past due 90 days or more at June 30, 2024 and December 31, 2023. Nonperforming loans held-for-sale (LHFS) are excluded from nonperforming loans and leases as they are recorded at either fair value or the lower of cost or fair value. For more information on the criteria for classification as nonperforming, see Note 1 – Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Credit Quality Indicators

The Corporation monitors credit quality within its Consumer Real Estate, Credit Card and Other Consumer, and Commercial portfolio segments based on primary credit quality indicators. For more information on the portfolio segments, see *Note 1 – Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K. Within the Consumer Real Estate portfolio segment, the primary credit quality indicators are refreshed loan-to-value (LTV) and refreshed Fair Isaac Corporation (FICO) score. Refreshed LTV measures the carrying value of the loan as a percentage of the value of the property securing the loan, refreshed quarterly. Home equity loans are evaluated using combined loan-to-value (CLTV), which measures the carrying value of the Corporation's loan and available line of credit combined with any outstanding senior liens against the property as a percentage of the value of the property securing the loan, refreshed quarterly. FICO score measures the creditworthiness of the borrower based on the financial obligations of the borrower and the borrower's credit history. FICO scores are typically refreshed quarterly or more frequently. Certain borrowers (e.g., borrowers that have had debts discharged in a

bankruptcy proceeding) may not have their FICO scores updated. FICO scores are also a primary credit quality indicator for the Credit Card and Other Consumer portfolio segment and the business card portfolio within U.S. small business commercial. Within the Commercial portfolio segment, loans are evaluated using the internal classifications of pass rated or reservable criticized as the primary credit quality indicators. The term reservable criticized refers to those commercial loans that are internally classified or listed by the Corporation as Special Mention, Substandard or Doubtful, which are asset quality categories defined by regulatory authorities. These assets have an elevated level of risk and may have a high probability of default or total loss. Pass rated refers to all loans not considered reservable criticized. In addition to these primary credit quality indicators, the Corporation uses other credit quality indicators for certain types of loans.

The following tables present certain credit quality indicators and gross charge-offs for the Corporation's Consumer Real Estate, Credit Card and Other Consumer, and Commercial portfolio segments by year of origination, except for revolving loans and revolving loans that were modified into term loans, which are shown on an aggregate basis at June 30, 2024.

Loan Modifications to Borrowers in Financial Difficulty

As part of its credit risk management, the Corporation may modify a loan agreement with a borrower experiencing financial difficulties through a refinancing or restructuring of the borrower's loan agreement (modification programs). Effective January 1, 2023, the Corporation adopted the new accounting standard on loan modifications. Accordingly, June 30, 2024 balances presented in payment status tables represent loans that were modified over the last 12 months, and June 30, 2023 balances presented in payment status tables represent loans that were modified during the first half of 2023.

Consumer Real Estate

The following modification programs are offered for consumer real estate loans to borrowers experiencing financial difficulties. Residential mortgage modifications represented 0.04 percent and 0.07 percent of outstanding residential mortgage loans for the three and six months ended June 30, 2024 compared to 0.14 percent and 0.19 percent for the same periods in 2023. Home equity modifications represented 0.04 percent and 0.07 percent of outstanding home equity loans for the three and six months ended June 30, 2024 compared to 0.19 percent and 0.28 percent for the same periods in 2023.

Forbearance and Other Payment Plans: Forbearance plans generally consist of the Corporation suspending the borrower's

payments for a defined period with those payments then due over a defined period of time or at the conclusion of the forbearance period. The aging status of a loan is generally frozen when it enters into a forbearance plan. If a borrower is unable to fulfill their obligations under the forbearance plans, they may be offered a trial offer or permanent modification.

Trial Offer and Permanent Modifications: Trial offer for modification plans generally consist of the Corporation offering a borrower modified loan terms that reduce their contractual payments temporarily over a three-to-four-month trial period. If the customer successfully makes the modified payments during the trial period and formally accepts the modified terms, the modified loan terms become permanent. Some borrowers may enter into permanent modifications without a trial period. In a permanent modification, the borrower's payment terms are typically modified in more than one manner but generally include a term extension and an interest rate reduction. At times, the permanent modification may also include principal forgiveness and/or a deferral of past due principal and interest amounts to the end of the loan term. The combinations utilized are based on modifying the terms that give the borrower an improved ability to meet the contractual obligations. The term extensions granted for residential mortgage and home equity permanent modifications vary widely and can be up to 30 years, but are mostly in the range of 1 to 20 years. Principal forgiveness and payment deferrals were insignificant during the three and six months ended June 30, 2024 and 2023.

The table below provides the ending amortized cost of the Corporation's modified consumer real estate loans for the three and six months ended June 30, 2024 and 2023.

For consumer real estate borrowers in financial difficulty that received a forbearance, trial or permanent modification, there were no commitments to lend additional funds at June 30, 2024 and 2023.

The Corporation tracks the performance of modified loans to assess effectiveness of modification programs. During the three and six months ended June 30, 2024 and 2023, modified

residential and home equity loans that defaulted were insignificant. The table below provides aging information as of June 30, 2024 for consumer real estate loans that were modified over the last 12 months and as of June 30, 2023 for consumer real estate loans that were modified during the first half of 2023.

Consumer real estate foreclosed properties totaled \$92 million and \$83 million at June 30, 2024 and December 31, 2023. The carrying value of consumer real estate loans, including fully-insured loans, for which formal foreclosure proceedings were in process at June 30, 2024 and December 31, 2023, was \$588 million and \$633 million. During the six months ended June 30, 2024 and 2023, the Corporation reclassified \$56 million and \$68 million of consumer real estate loans to foreclosed properties or, for properties acquired upon foreclosure of certain government-guaranteed loans (principally FHA-insured loans), to other assets. The reclassifications represent non-cash investing activities and, accordingly, are not reflected in the Consolidated Statement of Cash Flows.

Credit Card and Other Consumer

Credit card and other consumer loans are primarily modified by placing the customer on a fixed payment plan with a significantly reduced fixed interest rate, with terms ranging from 6 months to 72 months, most of which had a 60-month term at June 30, 2024. In certain circumstances, the Corporation will forgive a portion of the outstanding balance if the borrower makes payments up to a set amount. The Corporation makes modifications directly with borrowers for loans held by the Corporation (internal programs) as well as through third-party renegotiation agencies that provide solutions to customers'

entire unsecured debt structures (external programs). The June 30, 2024 amortized cost of credit card and other consumer loans that were modified through these programs during the three and six months ended June 30, 2024 was \$200 million and \$401 million compared to \$168 million and \$303 million for the same periods in 2023. These modifications represented 0.10 percent and 0.20 percent of outstanding credit card and other consumer loans for the three and six months ended June 30, 2024 compared to 0.08 percent and 0.15 percent for the same periods in 2023. During the three and six months ended June 30, 2024, the financial effect of modifications resulted in a weighted-average interest rate reduction of 19.59 percent and 19.66 percent compared to 19.02 percent and 18.82 percent for the same periods in 2023, and principal forgiveness of \$29 million and \$57 million, compared to \$14 million and \$25 million for the same periods in 2023.

The Corporation tracks the performance of modified loans to assess effectiveness of modification programs. As of June 30, 2024, defaults of modified credit card and other consumer loans over the last 12 months were insignificant. Defaults of modified credit card and other consumer loans since January 1, 2023 were insignificant during the first half of 2023. At June 30, 2024, modified credit card and other consumer loans to borrowers experiencing financial difficulty over the last 12 months totaled \$674 million, of which \$566 million were

current, \$58 million were 30-89 days past due, and \$50 million were greater than 90 days past due. At June 30, 2023, modified credit card and other consumer loans to borrowers experiencing financial difficulty totaled \$303 million, of which \$237 million were current, \$35 million were 30-89 days past due, and \$31 million were greater than 90 days past due.

Commercial Loans

Modifications of loans to commercial borrowers experiencing financial difficulty are designed to reduce the Corporation's loss exposure while providing borrowers with an opportunity to work through financial difficulties, often to avoid foreclosure or bankruptcy. Each modification is unique, reflects the borrower's

individual circumstances and is designed to benefit the borrower while mitigating the Corporation's risk exposure. Commercial modifications are primarily term extensions and payment forbearances. Payment forbearances involve the Bank forbearing its contractual right to collect certain payments or payment in full (maturity forbearance) for a defined period of time. Reductions in interest rates and principal forgiveness occur infrequently for commercial borrowers. Principal forgiveness may occur in connection with foreclosure, short sales or other settlement agreements, leading to termination or sale of the loan. The table below provides the ending amortized cost of commercial loans modified during the three and six months ended June 30, 2024 and 2023.

Term extensions granted increased the weighted-average life of the impacted loans by 1.3 years for the three and six months ended June 30, 2024 compared to 1.6 years for the same periods in 2023. The weighted-average duration of loan payments deferred under the Corporation's commercial loan forbearance program was 8 months and 12 months for the three and six months ended June 30, 2024 compared to 11 months for the same periods in 2023. The deferral period for loan payments can vary, but are mostly in the range of 8 months to 24 months. Modifications of loans to troubled borrowers for Commercial Lease Financing and U.S. Small Business Commercial were not significant during the three and six months ended June 30, 2024 and 2023.

The Corporation tracks the performance of modified loans to assess effectiveness of modification programs. As of June 30, 2024, defaults of commercial loans modified during the last 12 months were insignificant. As of June 30, 2023, defaults of commercial loans modified during the six months ended June 30, 2023 were insignificant. The table below provides aging information as of June 30, 2024 for commercial loans that were modified over the last 12 months and as of June 30, 2023 for commercial loans that were modified during the six months ended June 30, 2023.

For the six months ended June 30, 2024 and 2023, the Corporation had commitments to lend \$916 million and

\$687 million to commercial borrowers experiencing financial difficulty whose loans were modified during the period.

Loans Held-for-sale

The Corporation had LHFS of \$7.0 billion and \$6.0 billion at June 30, 2024 and December 31, 2023. Cash and non-cash proceeds from sales and paydowns of loans originally classified as LHFS were \$15.7 billion and \$7.4 billion for the six months ended June 30, 2024 and 2023. Cash used for originations and purchases of LHFS totaled \$17.0 billion and \$7.3 billion for the six months ended June 30, 2024 and 2023. Also included were non-cash net transfers into LHFS of \$0 and \$457 million during the six months ended June 30, 2024 and 2023.

Accrued Interest Receivable

Accrued interest receivable for loans and leases and loans held-for-sale was \$4.5 billion at both June 30, 2024 and December 31, 2023 and is reported in customer and other receivables on the Consolidated Balance Sheet.

Outstanding credit card loan balances include unpaid principal, interest and fees. Credit card loans are not classified as nonperforming but are charged off no later than the end of the month in which the account becomes 180 days past due, within 60 days after receipt of notification of death or bankruptcy, or upon confirmation of fraud. During the three and six months ended June 30, 2024, the Corporation reversed \$215 million and \$420 million of interest and fee income against the income statement line item in which it was originally recorded upon charge-off of the principal balance of the loan compared to \$138 million and \$256 million for the same periods in 2023.

For the outstanding residential mortgage, home equity, direct/indirect consumer and commercial loan balances classified as nonperforming during the three and six months ended June 30, 2024 and 2023, interest and fee income reversed at the time the loans were classified as nonperforming was not significant. For more information on the Corporation's nonperforming loan policies, see *Note 1 - Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Allowance for Credit Losses

The allowance for credit losses is estimated using quantitative and qualitative methods that consider a variety of factors, such as historical loss experience, the current credit quality of the portfolio and an economic outlook over the life of the loan. Qualitative reserves cover losses that are expected but, in the Corporation's assessment, may not be adequately reflected in the quantitative methods or the economic assumptions. The Corporation incorporates forward-looking information through the use of several macroeconomic scenarios in determining the weighted economic outlook over the forecasted life of the assets. These scenarios include key macroeconomic variables such as gross domestic product, unemployment rate, real estate prices and corporate bond spreads. The scenarios that are chosen each quarter and the weighting given to each scenario depend on a variety of factors including recent

economic events, leading economic indicators, internal and third-party economist views, and industry trends. For more information on the Corporation's credit loss accounting policies including the allowance for credit losses, see *Note 1 - Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

The June 30, 2024 estimate for allowance for credit losses was based on various economic scenarios, including a baseline scenario derived from consensus estimates, an adverse scenario reflecting an extended moderate recession, a downside scenario reflecting continued inflation and interest rates with minimal rate cuts, a tail risk scenario similar to the severely adverse scenario used in stress testing and an upside scenario that considers the potential for improvement above the baseline scenario. The overall weighted economic outlook of the above scenarios has improved compared to the weighted economic outlook estimated as of December 31, 2023. The weighted economic outlook assumes that the U.S. average unemployment rate will be four and a half percent by the fourth quarter of 2024 and will increase to just below five percent by the fourth quarter of 2025. The weighted economic outlook assumes sluggish growth with U.S. real gross domestic product forecasted to grow at 1.0 percent and 1.5 percent year-over-year in the fourth quarters of 2024 and 2025.

The allowance for credit losses decreased \$209 million from December 31, 2023 to \$14.3 billion at June 30, 2024, which included a \$33 million reserve decrease related to the consumer portfolio and a \$176 million reserve decrease related to the commercial portfolio. The reserve decrease was primarily driven by commercial due to an improved macroeconomic outlook. The change in the allowance for credit losses was comprised of a net decrease of \$104 million in the allowance for loan and lease losses and a decrease of \$105 million in the reserve for unfunded lending commitments. The decline in the allowance for credit losses was attributed to decreases in the commercial portfolio of \$176 million and the consumer real estate portfolio of \$66 million, partially offset by an increase in the credit card and other consumer portfolios of \$33 million. The provision for credit losses increased \$383 million to \$1.5 billion, and \$771 million to \$2.8 billion for the three and six months ended June 30, 2024 compared to the same periods in 2023. The provision for credit losses for the current-year periods was primarily driven by credit card loans and the commercial real estate office portfolio.

Outstanding loans and leases excluding loans accounted for under the fair value option increased \$3.4 billion during the six months ended June 30, 2024 primarily driven by commercial, which increased \$6.4 billion due to broad-based growth. Consumer loans decreased \$3.0 billion driven by credit card loans.

The changes in the allowance for credit losses, including net charge-offs and provision for loan and lease losses, are detailed in the following table.

NOTE 6 Securitizations and Other Variable Interest Entities

The Corporation utilizes VIEs in the ordinary course of business to support its own and its customers' financing and investing needs. The Corporation routinely securitizes loans and debt securities using VIEs as a source of funding for the Corporation and as a means of transferring the economic risk of the loans or debt securities to third parties. The assets are transferred into a trust or other securitization vehicle such that the assets are legally isolated from the creditors of the Corporation and are not available to satisfy its obligations. These assets can only be

used to settle obligations of the trust or other securitization vehicle. The Corporation also administers, structures or invests in other VIEs including CDOs, investment vehicles and other entities. For more information on the Corporation's use of VIEs, see *Note 1 - Summary of Significant Accounting Principles* and *Note 6 - Securitizations and Other Variable Interest Entities* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

The tables in this Note present the assets and liabilities of consolidated and unconsolidated VIEs at June 30, 2024 and December 31, 2023 in situations where the Corporation has a loan or security interest and involvement with transferred assets

or if the Corporation otherwise has an additional interest in the VIE. The tables also present the Corporation's maximum loss exposure at June 30, 2024 and December 31, 2023 resulting from its involvement with consolidated VIEs and unconsolidated VIEs. The Corporation's maximum loss exposure is based on the unlikely event that all of the assets in the VIEs become worthless and incorporates not only potential losses associated with assets recorded on the Consolidated Balance Sheet but also potential losses associated with off-balance sheet commitments, such as unfunded liquidity commitments and other contractual arrangements. The Corporation's maximum loss exposure does not include losses previously recognized through write-downs of assets.

The Corporation invests in ABS, CLOs and other similar investments issued by third-party VIEs with which it has no other form of involvement other than a loan or debt security issued by the VIE. In addition, the Corporation also enters into certain commercial lending arrangements that may utilize VIEs for activities secondary to the lending arrangement, for example to hold collateral. The Corporation's maximum loss exposure to these VIEs is the investment balances. These securities and loans are included in Note 4 – Securities or Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses and are not included in the following tables.

The Corporation did not provide financial support to consolidated or unconsolidated VIEs during the three and six months ended June 30, 2024 or the year ended December 31, 2023 that it was not previously contractually required to provide, nor does it intend to do so.

The Corporation had liquidity commitments, including written put options and collateral value guarantees, with certain unconsolidated VIEs of \$957 million and \$989 million at June 30, 2024 and December 31, 2023.

First-lien Mortgage Securitizations

As part of its mortgage banking activities, the Corporation securitizes a portion of the first-lien residential mortgage loans it originates or purchases from third parties, generally in the form of residential mortgage-backed securities (RMBS) guaranteed by government-sponsored enterprises, FNMA and FHLMC (collectively the GSEs), or the Government National Mortgage Association (GNMA) primarily in the case of FHA-insured and U.S. Department of Veterans Affairs (VA)-guaranteed mortgage loans. Securitization usually occurs in conjunction with or shortly after origination or purchase, and the Corporation may also securitize loans held in its residential mortgage portfolio. In addition, the Corporation may, from time to time, securitize commercial mortgages it originates or purchases from other entities. The Corporation typically services the loans it securitizes. Further, the Corporation may retain beneficial interests in the securitization trusts including senior and subordinate securities and equity tranches issued by the trusts. Except as described in Note 10 – Commitments and Contingencies, the Corporation does not provide guarantees or recourse to the securitization trusts other than standard representations and warranties.

The table below summarizes select information related to first-lien mortgage securitizations for the three and six months ended June 30, 2024 and 2023.

⁽¹⁾ The Corporation transfers residential mortgage loans to securitizations sponsored primarily by the GSEs or GNMA in the normal course of business and primarily receives residential mortgage-backed securities in exchange. Substantially all of these securities are classified as Level 2 within the fair value hierarchy and are typically sold shortly after receipt.

⁽²⁾ A majority of the first-lien residential mortgage loans securitized are initially classified as LHFS and accounted for under the fair value option. Gains recognized on these LHFS prior to securitization, which totaled \$8 million and \$13 million, net of hedges, during the three and six months ended June 30, 2024 compared to \$7 million and \$17 million for the same periods in 2023, are not included in the table above.

⁽³⁾ The Corporation may have the option to repurchase delinquent loans out of securitization trusts, which reduces the amount of servicing advances it is required to make. The Corporation may also repurchase loans from securitization trusts to perform modifications. Repurchased loans include FHA-insured mortgages collateralizing GNMA securities.

The Corporation recognizes consumer MSR from the sale or securitization of consumer real estate loans. The unpaid principal balance of loans serviced for investors, including residential mortgage and home equity loans, totaled \$88.2 billion and \$95.9 billion at June 30, 2024 and 2023. Servicing fee and ancillary fee income on serviced loans was \$58 million and \$120 million during the three and six months ended June 30, 2024 compared to \$63 million and \$132 million for the same periods in 2023. Servicing advances on serviced loans, including loans serviced for others and loans held for investment, were \$1.1 billion and \$1.3 billion at June 30, 2024 and December 31, 2023. For more information on MSRs, see Note 14 – Fair Value Measurements.

Home Equity Loans

The Corporation retains interests, primarily senior securities, in home equity securitization trusts to which it transferred home equity loans. In addition, the Corporation may be obligated to

provide subordinate funding to the trusts during a rapid amortization event. This obligation is included in the maximum loss exposure in the preceding table. The charges that will ultimately be recorded as a result of the rapid amortization events depend on the undrawn portion of the home equity lines of credit, performance of the loans, the amount of subsequent draws and the timing of related cash flows.

Mortgage and Home Equity Securitizations

During the three and six months ended June 30, 2024, the Corporation deconsolidated agency residential mortgage securitization trusts with total assets of \$32 million and \$825 million compared to \$296 million and \$624 million for the same periods in 2023.

The following table summarizes select information related to mortgage and home equity securitization trusts in which the Corporation held a variable interest and had continuing involvement at June 30, 2024 and December 31, 2023.

⁽¹⁾ Maximum loss exposure includes obligations under loss-sharing reinsurance and other arrangements for non-agency residential mortgage and commercial mortgage securitizations, but excludes the reserve for representations and warranties obligations and corporate guarantees and also excludes servicing advances and other servicing rights and obligations. For more information, see Note 10 – Commitments and Contingencies and Note 14 – Fair Value Measurements.

⁽²⁾ Principal balance outstanding includes loans where the Corporation was the transferor to securitization VIEs with which it has continuing involvement, which may include servicing the loans.

⁽³⁾ For unconsolidated home equity loan VIEs, the maximum loss exposure includes outstanding trust certificates issued by trusts in rapid amortization, net of recorded reserves. For both consolidated and unconsolidated home equity loan VIEs, the maximum loss exposure excludes the reserve for representations and warranties obligations and corporate guarantees. For more information, see Note 10 – Commitments and Contingencies.

Other Asset-backed Securitizations

The following paragraphs summarize select information related to other asset-backed VIEs in which the Corporation had a variable interest at June 30, 2024 and December 31, 2023.

Credit Card and Automobile Loan Securitizations

The Corporation securitizes originated and purchased credit card and automobile loans as a source of financing. The loans are sold on a non-recourse basis to consolidated trusts. The securitizations are ongoing, whereas additional receivables will be funded into the trusts by either loan repayments or proceeds from securities issued to third parties, depending on the securitization structure. The Corporation's continuing involvement with the securitization trusts includes servicing the receivables and holding various subordinated interests, including an undivided seller's interest in the credit card receivables and owning certain retained interests.

At June 30, 2024 and December 31, 2023, the carrying values of the receivables in the trusts totaled \$18.7 billion and \$16.6 billion, which are included in loans and leases, and the carrying values of senior debt securities that were issued to third-party investors from the trusts totaled \$8.6 billion and \$7.8 billion, which are included in long-term debt.

Resecuritization Trusts

The Corporation transfers securities, typically MBS, into resecuritization VIEs generally at the request of customers seeking securities with specific characteristics. Generally, there are no significant ongoing activities performed in a resecuritization trust, and no single investor has the unilateral ability to liquidate the trust.

The Corporation resecuritized \$3.8 billion and \$6.6 billion of securities during the three and six months ended June 30, 2024 compared to \$4.1 billion and \$5.8 billion for the same

periods in 2023. Securities transferred into resecuritization VIEs were measured at fair value with changes in fair value recorded in market making and similar activities prior to the resecuritization and, accordingly, no gain or loss on sale was recorded. During the three and six months ended June 30, 2024, resecuritization proceeds included securities with an initial fair value of \$795 million and \$883 million, compared to \$478 million and \$1.1 billion for the same periods in 2023, of which substantially all of the securities were classified as trading account assets for both periods. Substantially all of the trading account securities carried at fair value were categorized as Level 2 within the fair value hierarchy.

Customer VIEs

Customer VIEs include credit-linked, equity-linked and commodity-linked note VIEs, repackaging VIEs and asset acquisition VIEs, which are typically created on behalf of customers who wish to obtain market or credit exposure to a specific company, index, commodity or financial instrument.

The Corporation's involvement in the VIE is limited to its loss exposure. The Corporation's maximum loss exposure to consolidated and unconsolidated customer VIEs totaled \$1.0 billion and \$952 million at June 30, 2024 and December 31, 2023, including the notional amount of derivatives to which the Corporation is a counterparty, net of losses previously recorded, and the Corporation's investment, if any, in securities issued by the VIEs.

Municipal Bond Trusts

The Corporation administers municipal bond trusts that hold highly-rated, long-term, fixed-rate municipal bonds. The trusts obtain financing by issuing floating-rate trust certificates that reprice on a weekly or other short-term basis to third-party investors.

The Corporation's liquidity commitments to unconsolidated municipal bond trusts, including those for which the Corporation was transferor, totaled \$1.8 billion and \$1.7 billion at June 30, 2024 and December 31, 2023. The weighted-average remaining life of bonds held in the trusts at June 30, 2024 was 11.8 years. There were no significant write-downs or downgrades of assets or issuers during the six months ended June 30, 2024 and 2023.

Collateralized Debt Obligation VIEs

The Corporation receives fees for structuring CDO VIEs, which hold diversified pools of fixed-income securities, typically corporate debt or ABS, which the CDO VIEs fund by issuing multiple tranches of debt and equity securities. CDOs are generally managed by third-party portfolio managers. The Corporation typically transfers assets to these CDOs, holds securities issued by the CDOs and may be a derivative counterparty to the CDOs. The Corporation's maximum loss exposure to consolidated and unconsolidated CDOs totaled \$80 million at both June 30, 2024 and December 31, 2023.

Investment VIEs

The Corporation sponsors, invests in or provides financing, which may be in connection with the sale of assets, to a variety of investment VIEs that hold loans, real estate, debt securities or other financial instruments and are designed to provide the

desired investment profile to investors or the Corporation. At June 30, 2024 and December 31, 2023, the Corporation's consolidated investment VIEs had total assets of \$3 million and \$472 million. The Corporation also held investments in unconsolidated VIEs with total assets of \$20.7 billion and \$18.4 billion at June 30, 2024 and December 31, 2023. The Corporation's maximum loss exposure associated with both consolidated and unconsolidated investment VIEs totaled \$2.2 billion and \$2.6 billion at June 30, 2024 and December 31, 2023 comprised primarily of on-balance sheet assets less non-recourse liabilities.

Leveraged Lease Trusts

The Corporation's net investment in consolidated leveraged lease trusts totaled \$1.1 billion at both June 30, 2024 and December 31, 2023. The trusts hold long-lived equipment such as rail cars, power generation and distribution equipment, and commercial aircraft. The Corporation structures the trusts and holds a significant residual interest. The net investment represents the Corporation's maximum loss exposure to the trusts in the unlikely event that the leveraged lease investments become worthless. Debt issued by the leveraged lease trusts is non-recourse to the Corporation.

The table below summarizes the maximum loss exposure and assets held by the Corporation that related to other asset-backed VIEs at June 30, 2024 and December 31, 2023.

⁽¹⁾ At June 30, 2024 and December 31, 2023 loans and leases in the consolidated credit card trust included \$4.4 billion and \$3.2 billion of seller's interest.

⁽²⁾ The retained senior securities were valued using quoted market prices or observable market inputs (Level 2 of the fair value hierarchy).

Tax Credit VIEs

The Corporation holds equity investments in unconsolidated limited partnerships and similar entities that construct, own and operate affordable housing, renewable energy and certain other projects. The total assets of these unconsolidated tax credit VIEs were \$83.3 billion and \$84.1 billion as of June 30, 2024 and December 31, 2023. An unrelated third party is typically the general partner or managing member and has control over the significant activities of the VIE. As an investor, tax credits

associated with the investments in these entities are allocated to the Corporation, as provided by the U.S. Internal Revenue Code and related regulations, and are recognized as income tax benefits in the Corporation's Consolidated Statement of Income in the year they are earned, which varies based on the type of investments. Tax credits from investments in affordable housing are recognized ratably over a term of up to 10 years, and tax credits from renewable energy investments are recognized either at inception for transactions electing Investment Tax Credits

(ITCs) or as energy is produced for transactions electing Production Tax Credits (PTCs), which is generally up to a 10-year time period. The volume and types of investments held by the Corporation will influence the amount of tax credits recognized each period.

The Corporation's equity investments in affordable housing and other projects totaled \$16.2 billion and \$15.8 billion at June 30, 2024 and December 31, 2023, which included unfunded capital contributions of \$7.4 billion and \$7.2 billion that are probable to be paid over the next five years. The Corporation may be asked to invest additional amounts to support a troubled affordable housing project. Such additional investments have not been and are not expected to be significant. During the three and six months ended June 30, 2024, the Corporation recognized tax credits and other tax benefits related to affordable housing equity investments of \$562 million and \$1.1 billion compared to \$517 million and \$1.0 billion for the same periods in 2023, and reported pretax losses in other income of \$409 million and \$822 million compared to \$383 million and \$756 million for the same periods in 2023. The Corporation's equity investments in renewable energy totaled \$13.4 billion and \$14.2 billion at June 30, 2024 and December 31, 2023. In addition, the Corporation had unfunded capital contributions for renewable energy investments of \$5.5 billion and \$6.2 billion at June 30, 2024 and December 31, 2023, which are contingent on various conditions precedent to funding over the next two years. The Corporation's risk of loss is generally mitigated by policies requiring the project to qualify for the expected tax credits prior to making its investment. During the three and six months ended June 30, 2024, the Corporation recognized tax credits and other tax benefits related to renewable energy equity investments of \$894 million and \$1.9 billion compared to \$1.1 billion and \$2.1 billion for the same periods in 2023 and reported pretax losses in other income of \$591 million and \$1.3 billion compared to \$567 million and \$1.1 billion for the same periods in 2023. The Corporation may also enter into power purchase agreements with renewable energy tax credit entities.

NOTE 7 Goodwill and Intangible Assets

Goodwill

The table below presents goodwill balances by business segment at June 30, 2024 and December 31, 2023. The reporting units utilized for goodwill impairment testing are the operating segments or one level below. The Corporation completed its annual goodwill impairment test as of June 30, 2024 by using a qualitative assessment. Based on the assessment, the Corporation has concluded that none of its reporting units are at risk of impairment, as each of the reporting units' fair values are substantially in excess of their carrying values. For more information regarding the nature of and accounting for the Corporation's annual goodwill impairment testing, see *Note 1 - Summary of Significant Accounting Principles* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Intangible Assets

At both June 30, 2024 and December 31, 2023, the net carrying value of intangible assets was \$2.0 billion. At both June 30, 2024 and December 31, 2023, intangible assets included \$1.6 billion of intangible assets associated with trade names, substantially all of which had an indefinite life and, accordingly, are not being amortized. Amortization of intangibles expense was \$20 million for both the three months ended June 30, 2024 and 2023, and \$39 million for both the six months ended June 30, 2024 and 2023.

NOTE 8 Leases

The Corporation enters into both lessor and lessee arrangements. For more information on lease accounting, see *Note 1 – Summary of Significant Accounting Principles* and *Note 8 – Leases* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K. For more information on lease financing receivables, see *Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses*.

Lessor Arrangements

The Corporation's lessor arrangements primarily consist of operating, sales-type and direct financing leases for equipment. Lease agreements may include options to renew and for the lessee to purchase the leased equipment at the end of the lease term.

The table below presents the net investment in sales-type and direct financing leases at June 30, 2024 and December 31, 2023.

Total net investment in sales-type and direct financing leases	\$ 19,498	\$ 19,050

⁽¹⁾ In certain cases, the Corporation obtains third-party residual value insurance to reduce its residual asset risk. The carrying value of residual assets with third-party residual value insurance for at least a portion of the asset value was \$7.3 billion and \$6.8 billion at June 30, 2024 and December 31, 2023.

The table below presents lease income for the three and six months ended June 30, 2024 and 2023.

NOTE 9 Securities Financing Agreements, Collateral and Restricted Cash

The Corporation enters into securities financing agreements which include securities borrowed or purchased under agreements to resell and securities loaned or sold under agreements to repurchase. These financing agreements (also referred to as "matched-book transactions") are to accommodate customers, obtain securities to cover short positions and finance inventory positions. The Corporation elects to account for certain securities financing agreements under the fair value option. For more information on the fair value option, see *Note 15 – Fair Value Option*.

Offsetting of Securities Financing Agreements

The Securities Financing Agreements table presents securities financing agreements included on the Consolidated Balance Sheet in federal funds sold and securities borrowed or purchased under agreements to resell, and in federal funds purchased and securities loaned or sold under agreements to repurchase at June 30, 2024 and December 31, 2023. Balances are presented on a gross basis, prior to the application of counterparty netting. Gross assets and liabilities are adjusted on an aggregate basis to take into consideration the effects of legally enforceable master netting agreements. For more information on the offsetting of derivatives, see *Note 3 – Derivatives*. For more information on the securities financing agreements and the offsetting of securities financing transactions, see *Note 10 – Securities Financing Agreements, Short-term Borrowings, Collateral and Restricted Cash* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

⁽¹⁾ Includes activity where uncertainty exists as to the enforceability of certain master netting agreements under bankruptcy laws in some countries or industries.

⁽²⁾ Includes securities collateral received or pledged under repurchase or securities lending agreements where there is a legally enforceable master netting agreement. These amounts are not offset on the Consolidated Balance Sheet, but are shown as a reduction to derive a net asset or liability. Securities collateral received or pledged where the legal enforceability of the master netting agreements is uncertain is excluded from the table.

⁽³⁾ Excludes repurchase activity of \$12.6 billion and \$8.7 billion reported in loans and leases on the Consolidated Balance Sheet for June 30, 2024 and December 31, 2023.

⁽⁴⁾ Balance is reported in accrued expenses and other liabilities on the Consolidated Balance Sheet and relates to transactions where the Corporation acts as the lender in a securities lending agreement and receives securities that can be pledged as collateral or sold. In these transactions, the Corporation recognizes an asset at fair value, representing the securities received, and a liability, representing the obligation to return those securities.

Repurchase Agreements and Securities Loaned Transactions Accounted for as Secured Borrowings

The following tables present securities sold under agreements to repurchase and securities loaned by remaining contractual term to maturity and class of collateral pledged. Included in "Other" are transactions where the Corporation acts as the lender in a securities lending agreement and receives securities that can be pledged as collateral or sold. Certain agreements contain a right to substitute collateral and/or terminate the

agreement prior to maturity at the option of the Corporation or the counterparty. Such agreements are included in the table below based on the remaining contractual term to maturity. For more information on collateral requirements, see *Note 10 – Securities Financing Agreements, Short-term Borrowings, Collateral and Restricted Cash* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

⁽¹⁾ At June 30, 2024 and December 31, 2023, \$4.6 billion and \$3.1 billion of these loan commitments were held in the form of a security.

⁽²⁾ The notional amounts of SBLCs and financial guarantees classified as investment grade and non-investment grade based on the credit quality of the underlying reference name within the instrument were \$23.4 billion and \$9.8 billion at June 30, 2024, and \$23.6 billion and \$9.7 billion at December 31, 2023. Amounts in the table include consumer SBLCs of \$864 million and \$744 million at June 30, 2024 and December 31, 2023.

⁽³⁾ Primarily includes second-loss positions on lease-end residual value guarantees.

⁽⁴⁾ Includes business card unused lines of credit.

Other Commitments

At June 30, 2024 and December 31, 2023, the Corporation had commitments to purchase loans (e.g., residential mortgage and commercial real estate) of \$540 million and \$822 million, which upon settlement will be included in trading account assets, loans or LHFS, and commitments to purchase commercial loans of \$1.3 billion and \$420 million, which upon settlement will be included in trading account assets.

At June 30, 2024 and December 31, 2023, the Corporation had commitments to enter into resale and forward-dated resale and securities borrowing agreements of \$126.3 billion and \$117.0 billion, and commitments to enter into forward-dated repurchase and securities lending agreements of \$94.3 billion and \$63.0 billion. A significant portion of these commitments will expire within the next 12 months.

At both June 30, 2024 and December 31, 2023, the Corporation had a commitment to originate or purchase up to \$4.0 billion on a rolling 12-month basis, of auto loans and leases from a strategic partner. This commitment extends through November 2026 and can be terminated with 12 months prior notice.

At June 30, 2024 and December 31, 2023, the Corporation had unfunded equity investment commitments of \$478 million and \$477 million.

As a Federal Reserve member bank, the Corporation is required to subscribe to a certain amount of shares issued by its Federal Reserve district bank, which pays cumulative dividends at a prescribed rate. At both June 30, 2024 and December 31, 2023, the Corporation had paid \$5.4 billion for half of its subscribed shares, with the remaining half subject to call by the Federal Reserve district bank board, which the Corporation believes is remote.

Other Guarantees

Bank-owned Life Insurance Book Value Protection

The Corporation sells products that offer book value protection to insurance carriers who offer group life insurance policies to corporations, primarily banks. At June 30, 2024 and December 31, 2023, the notional amount of these guarantees totaled \$3.3 billion and \$3.8 billion. At June 30, 2024 and December 31, 2023, the Corporation's maximum exposure related to these guarantees totaled \$508 million and \$577 million, with estimated maturity dates between 2034 and 2037.

Merchant Services

The Corporation in its role as merchant acquirer or as a sponsor of other merchant acquirers may be held liable for any reversed charges that cannot be collected from the merchants due to, among other things, merchant fraud or insolvency. If charges are properly reversed after a purchase and cannot be collected from either the merchants or merchant acquirers, the Corporation may be held liable for these reversed charges. The ability to reverse a charge is primarily governed by the applicable payment network rules and regulations, which include, but are not limited to, the type of charge, type of payment used and time limits. The total amount of transactions subject to reversal under payment network rules and regulations processed for the preceding six-month period, which was approximately \$225 billion, is an estimate of the Corporation's maximum potential exposure as of June 30, 2024. The Corporation's risk in this area primarily relates to circumstances where a cardholder has purchased goods or services for future delivery. The Corporation mitigates this risk by requiring cash deposits, guarantees, letters of credit or other types of collateral from certain merchants. The Corporation's reserves for contingent losses, and the losses incurred related to the merchant processing activity were not significant.

Representations and Warranties Obligations and Corporate Guarantees

For more information on representations and warranties obligations and corporate guarantees, see *Note 12 – Commitments and Contingencies* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

The reserve for representations and warranties obligations and corporate guarantees was \$265 million and \$604 million at June 30, 2024 and December 31, 2023 and is included in accrued expenses and other liabilities on the Consolidated Balance Sheet, and the related provision is included in other income in the Consolidated Statement of Income. The representations and warranties reserve represents the Corporation's best estimate of incurred losses, is based on its experience in previous negotiations, and is subject to judgment, a variety of assumptions and known or unknown uncertainties. Future representations and warranties losses may occur in excess of the amounts recorded for these exposures; however, the Corporation does not expect such amounts to be material to the Corporation's financial condition and liquidity. See *Litigation and Regulatory Matters* below for the Corporation's combined range of possible loss in excess of the reserve for representations and warranties and the accrued liability for litigation.

Fixed Income Clearing Corporation Sponsored Member Repo Program

The Corporation acts as a sponsoring member in a repo program whereby the Corporation clears certain eligible resale and repurchase agreements through the Government Securities Division of the Fixed Income Clearing Corporation on behalf of clients that are sponsored members in accordance with the Fixed Income Clearing Corporation's rules. As part of this program, the Corporation guarantees the payment and performance of its sponsored members to the Fixed Income Clearing Corporation. The Corporation's guarantee obligation is secured by a security interest in cash or high-quality securities collateral placed by clients with the clearinghouse and therefore, the potential for the Corporation to incur significant losses under this arrangement is remote. The Corporation's maximum potential exposure, without taking into consideration the related collateral, was \$131.7 billion and \$132.5 billion at June 30, 2024 and December 31, 2023.

Other Guarantees

In the normal course of business, the Corporation periodically guarantees the obligations of its affiliates in a variety of transactions including ISDA-related transactions and non-ISDA related transactions such as commodities trading, repurchase agreements, prime brokerage agreements and other transactions.

Guarantees of Certain Long-term Debt

The Corporation, as the parent company, fully and unconditionally guarantees the securities issued by BofA Finance LLC, a consolidated finance subsidiary of the Corporation, and effectively provides for the full and unconditional guarantee of trust securities and capital securities issued by certain statutory trust companies that are 100 percent owned finance subsidiaries of the Corporation.

Other Contingencies

In 2023, the Federal Deposit Insurance Corporation (FDIC) issued a final rule to impose a special assessment to recover

certain estimated losses to the Deposit Insurance Fund (DIF) arising from the closures of Silicon Valley Bank and Signature Bank. The estimated losses will be recovered through quarterly special assessments collected from certain insured depository institutions, including the Corporation, and collection began during the three months ended June 30, 2024. As of June 30, 2024 and December 31, 2023, the Corporation's accrual for its estimated share of the FDIC special assessment was \$2.5 billion and \$2.1 billion. The Corporation continues to monitor the FDIC's estimated loss to the DIF, which could affect the amount of its accrued liability.

Litigation and Regulatory Matters

The following disclosures supplement the disclosure in *Note 12 – Commitments and Contingencies* to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K (the prior commitments and contingencies disclosure).

In the ordinary course of business, the Corporation and its subsidiaries are routinely defendants in or parties to many pending and threatened legal, regulatory and governmental actions and proceedings. In view of the inherent difficulty of predicting the outcome of such matters, particularly where the claimants seek very large or indeterminate damages or where the matters present novel legal theories or involve a large number of parties, the Corporation generally cannot predict the eventual outcome of the pending matters, timing of the ultimate resolution of these matters, or eventual loss, fines or penalties related to each pending matter.

As a matter develops, the Corporation, in conjunction with any outside counsel handling the matter, evaluates whether such matter presents a loss contingency that is probable and estimable, and, for the matters disclosed in the prior commitments and contingencies disclosure and updated below, whether a loss in excess of any accrued liability is reasonably possible in future periods. Once the loss contingency is deemed to be both probable and estimable, the Corporation will establish an accrued liability and record a corresponding amount of litigation-related expense. The Corporation continues to monitor the matter for further developments that could affect the amount of the accrued liability that has been previously established. Excluding expenses of internal and external legal service providers, litigation and regulatory investigation-related expense of \$53 million and \$151 million was recognized for the three and six months ended June 30, 2024 compared to \$276 million and \$365 million for the same periods in 2023.

For any matter disclosed in the prior commitments and contingencies disclosure for which a loss in future periods is reasonably possible and estimable (whether in excess of an accrued liability or where there is no accrued liability) and for representations and warranties exposures, the Corporation's estimated range of possible loss is \$0 to \$0.8 billion in excess of the accrued liability, if any, as of June 30, 2024.

The accrued liability and estimated range of possible loss are based upon currently available information and subject to significant judgment, a variety of assumptions and known and unknown uncertainties. The matters underlying the accrued liability and estimated range of possible loss are unpredictable and may change from time to time, and actual losses may vary significantly from the current estimate and accrual. The estimated range of possible loss does not represent the Corporation's maximum loss exposure.

Information is provided below and in the prior commitments and contingencies disclosure regarding the nature of the litigation and, where specified, associated claimed damages. Based on current knowledge, and taking into account accrued

liabilities, management does not believe that loss contingencies arising from pending matters, including the matters described in the prior commitments and contingencies disclosure and updated below, will have a material adverse effect on the consolidated financial condition or liquidity of the Corporation. However, in light of the significant judgment, variety of assumptions and uncertainties involved in those matters, some of which are beyond the Corporation's control, and the very large or indeterminate damages sought in some of those matters, an adverse outcome in one or more of those matters could be material to the Corporation's business or results of operations for any particular reporting period, or cause significant reputational harm.

Deposit Insurance Assessment

On July 1, 2024, the district court judge vacated the magistrate judge's April 2023 report and recommendation for resolving the parties' cross-motions for summary judgment, and asked the parties to file new motions, in light of a recent Supreme Court decision, by the end of October 2024.

The following table presents the net change in fair value recorded in accumulated OCI, net realized gains and losses reclassified into earnings and other changes for each component of OCI pre- and after-tax for the six months ended June 30, 2024 and 2023.

During the three and six months ended June 30, 2024, the Corporation repurchased and retired 93 million and 165 million shares of common stock, which reduced shareholders' equity by \$3.5 billion and \$6.0 billion, including excise taxes.

During the six months ended June 30, 2024, in connection with employee stock plans, the Corporation issued 71 million shares of its common stock and, to satisfy tax withholding obligations, repurchased 26 million shares of common stock. At June 30, 2024, the Corporation had reserved 555 million unissued shares of common stock for future issuances under employee stock plans, convertible notes and preferred stock.

On July 24, 2024, the Board of Directors declared a quarterly common stock dividend of \$0.26 per share.

Preferred Stock

During the three months ended June 30, 2024 and March 31, 2024, the Corporation declared \$310 million and \$532 million of cash dividends on preferred stock, or a total of \$842 million for the six months ended June 30, 2024. During the three months ended June 30, 2024, the Corporation fully redeemed Series U for \$1.0 billion and Series JJ for \$854 million. For more information on the Corporation's preferred stock, including liquidation preference, dividend requirements and redemption period, see Note 13 - Shareholders' Equity to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

NOTE 14 Fair Value Measurements

Under applicable accounting standards, fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Corporation determines the fair values of its financial

instruments under applicable accounting standards and conducts a review of fair value hierarchy classifications on a quarterly basis. Transfers into or out of fair value hierarchy classifications are made if the significant inputs used in the financial models measuring the fair values of the assets and liabilities become unobservable or observable in the current marketplace. During the six months ended June 30, 2024, there were no changes to valuation approaches or techniques that had, or are expected to have, a material impact on the Corporation's consolidated financial position or results of operations.

For more information regarding the fair value hierarchy, how the Corporation measures fair value and valuation techniques, see *Note 1 – Summary of Significant Accounting Principles* and

Note 20 – Fair Value Measurements to the Consolidated Financial Statements of the Corporation’s 2023 Annual Report on Form 10-K. The Corporation accounts for certain financial instruments under the fair value option. For more information, see Note 15 – Fair Value Option.

⁽¹⁾ Amounts represent the impact of legally enforceable master netting agreements and also cash collateral held or placed with the same counterparties.

⁽²⁾ Includes securities with a fair value of \$18.0 billion that were segregated in compliance with securities regulations or deposited with clearing organizations. This amount is included in the parenthetical disclosure on the Consolidated Balance Sheet. Trading account assets also includes certain commodities inventory of \$42 million that is accounted for at the lower of cost or net realizable value, which is the current selling price less any costs to sell.

⁽³⁾ Includes MSRs, which are classified as Level 3 assets, of \$970 million.

⁽⁴⁾ Total recurring Level 3 assets were 0.29 percent of total consolidated assets, and total recurring Level 3 liabilities were 0.23 percent of total consolidated liabilities.

The following tables present a reconciliation of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the three and six months ended June 30, 2024 and 2023, including net realized and unrealized gains (losses) included in earnings and accumulated OCI. Transfers into Level 3 occur primarily due to

decreased price observability, and transfers out of Level 3 occur primarily due to increased price observability. Transfers occur on a regular basis for long-term debt instruments due to changes in the impact of unobservable inputs on the value of the embedded derivative in relation to the instrument as a whole.

⁽¹⁾ Assets (liabilities). For assets, increase (decrease) to Level 3 and for liabilities, (increase) decrease to Level 3.

⁽²⁾ Includes gains (losses) reported in earnings in the following income statement line items: Trading account assets/liabilities - market making and similar activities and other income; Net derivative assets (liabilities) - market making and similar activities and other income; AFS debt securities - other income; Other debt securities carried at fair value - other income; Loans and leases - other income; Loans held-for-sale - other income; Other assets - market making and similar activities and other income related to MSR; Short-term borrowings - market making and similar activities; Accrued expenses and other liabilities - other income; Long-term debt - market making and similar activities.

⁽³⁾ Includes unrealized gains (losses) in OCI on AFS debt securities, foreign currency translation adjustments, derivatives designated in cash flow hedges and the impact of changes in the Corporation's credit spreads on long-term debt accounted for under the fair value option. Amounts include net unrealized losses of \$44 million and \$124 million related to financial instruments still held at June 30, 2024 and 2023.

⁽⁴⁾ Net derivative assets (liabilities) include derivative assets of \$3.9 billion and \$4.4 billion and derivative liabilities of \$6.3 billion and \$9.4 billion at June 30, 2024 and 2023.

⁽⁵⁾ Amounts represent instruments that are accounted for under the fair value option.

⁽⁶⁾ Issuances represent loan originations and MSR recognized following securitizations or whole-loan sales.

⁽⁷⁾ Settlements primarily represent the net change in fair value of the MSR asset due to the recognition of modeled cash flows and the passage of time.

⁽¹⁾ For loans and securities, structured liabilities and net derivative assets (liabilities), the weighted average is calculated based upon the absolute fair value of the instruments.

⁽²⁾ The categories are aggregated based upon product type, which differs from financial statement classification. The following is a reconciliation to the line items in the table on page 89: Trading account assets – Corporate securities, trading loans and other of \$1.8 billion, Trading account assets – Non-U.S. sovereign debt of \$323 million, Trading account assets – Mortgage trading loans, MBS and ABS of \$973 million, AFS debt securities of \$381 million, Other debt securities carried at fair value - Non-agency residential of \$53 million, Other assets, including MSRs, of \$1.7 billion, Loans and leases of \$89 million and LHFS of \$133 million.

⁽³⁾ Includes models such as Monte Carlo simulation and Black-Scholes.

⁽⁴⁾ Includes models such as Monte Carlo simulation, Black-Scholes and other methods that model the joint dynamics of interest, inflation and foreign exchange rates.

⁽⁵⁾ The weighted-average life is a product of changes in market rates of interest, prepayment rates and other model and cash flow assumptions.

CPR = Constant Prepayment Rate

CDR = Constant Default Rate

MMBtu = Million British thermal units

IR = Interest Rate

FX = Foreign Exchange

⁽¹⁾ For loans and securities, structured liabilities and net derivative assets (liabilities), the weighted average is calculated based upon the absolute fair value of the instruments.

⁽²⁾ The categories are aggregated based upon product type, which differs from financial statement classification. The following is a reconciliation to the line items in the table on page 90: Trading account assets – Corporate securities, trading loans and other of \$1.7 billion, Trading account assets – Non-U.S. sovereign debt of \$396 million, Trading account assets – Mortgage trading loans, MBS and ABS of \$1.2 billion, AFS debt securities of \$376 million, Other debt securities carried at fair value - Non-agency residential of \$69 million, Other assets, including MSRs, of \$1.7 billion, Loans and leases of \$93 million and LHFS of \$164 million.

⁽³⁾ Includes models such as Monte Carlo simulation and Black-Scholes.

⁽⁴⁾ Includes models such as Monte Carlo simulation, Black-Scholes and other methods that model the joint dynamics of interest, inflation and foreign exchange rates.

⁽⁵⁾ The weighted-average life is a product of changes in market rates of interest, prepayment rates and other model and cash flow assumptions.

CPR = Constant Prepayment Rate

CDR = Constant Default Rate

MMBtu = Million British thermal units

IR = Interest Rate

Uncertainty of Fair Value Measurements from Unobservable Inputs

For information on the types of instruments, valuation approaches and the impact of changes in unobservable inputs used in Level 3 measurements, see Note 20 - Fair Value Measurements to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Nonrecurring Fair Value

The Corporation holds certain assets that are measured at fair value only in certain situations (e.g., the impairment of an asset), and these measurements are referred to herein as nonrecurring. The amounts below represent assets still held as of the reporting date for which a nonrecurring fair value adjustment was recorded during the three and six months ended June 30, 2024 and 2023.

⁽¹⁾ Includes \$2 million and \$4 million of losses on loans that were written down to a collateral value of zero during the three and six months ended June 30, 2024 compared to losses of \$3 million and \$5 million for the same periods in 2023.

⁽²⁾ Amounts are included in other assets on the Consolidated Balance Sheet and represent the carrying value of foreclosed properties that were written down subsequent to their initial classification as foreclosed properties. Losses on foreclosed properties include losses recorded during the first 90 days after transfer of a loan to foreclosed properties.

⁽³⁾ Excludes \$21 million and \$46 million of properties acquired upon foreclosure of certain government-guaranteed loans (principally FHA-insured loans) at June 30, 2024 and 2023.

⁽⁴⁾ Represents the fair value of certain impaired renewable energy investments.

The table below presents information about significant unobservable inputs utilized in the Corporation's nonrecurring Level 3 fair value measurements during the six months ended June 30, 2024 and the year ended December 31, 2023.

NOTE 15 Fair Value Option

The Corporation elects to account for certain financial instruments under the fair value option. For more information on the primary financial instruments for which the fair value option elections have been made, see Note 21 - Fair Value Option to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K. The following tables provide information about the fair value carrying amount and the

contractual principal outstanding of assets and liabilities accounted for under the fair value option at June 30, 2024 and December 31, 2023, and information about where changes in the fair value of assets and liabilities accounted for under the fair value option are included in the Consolidated Statement of Income for the three and six months ended June 30, 2024 and 2023.

⁽²⁾ Includes the value of IRLCs on funded loans, including those sold during the period.

⁽³⁾ The net gains (losses) in market making and similar activities relate to the embedded derivatives in structured liabilities and are typically offset by (losses) gains on derivatives and securities that hedge these liabilities. For the cumulative impact of changes in the Corporation's own credit spreads and the amount recognized in accumulated OCI, see Note 12 – Accumulated Other Comprehensive Income (Loss). For more information on how the Corporation's own credit spread is determined, see Note 20 – Fair Value Measurements to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

⁽⁴⁾ Includes gains (losses) on loans reported as trading account assets, other assets, long-term deposits, federal funds purchased and securities loaned or sold under agreements to repurchase, and asset-backed secured financings.

NOTE 16 Fair Value of Financial Instruments

The following disclosures include financial instruments that are not carried at fair value or only a portion of the ending balance is carried at fair value on the Consolidated Balance Sheet. Certain loans, deposits, long-term debt, unfunded lending commitments and other financial instruments are accounted for under the fair value option. For more information, see Note 21 – Fair Value Option to the Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Fair Value of Financial Instruments

The carrying values and fair values by fair value hierarchy of certain financial instruments where only a portion of the ending balance was carried at fair value at June 30, 2024 and December 31, 2023 are presented in the table below.

⁽¹⁾ Includes demand deposits of \$859.7 billion and \$897.3 billion with no stated maturities at June 30, 2024 and December 31, 2023.

⁽²⁾ The carrying value of commercial unfunded lending commitments is included in accrued expenses and other liabilities on the Consolidated Balance Sheet. The Corporation does not estimate the fair value of consumer unfunded lending commitments because, in many instances, the Corporation can reduce or cancel these commitments by providing notice to the borrower. For more information on commitments, see Note 10 – Commitments and Contingencies.

NOTE 17 Business Segment Information

The Corporation reports its results of operations through the following four business segments: *Consumer Banking*, *Global Wealth & Investment Management*, *Global Banking* and *Global Markets*, with the remaining operations recorded in *All Other*. For more information, see Note 23 – Business Segment Information to the Consolidated Financial Statements of the Corporation's

2023 Annual Report on Form 10-K. The following tables present net income (loss) and the components thereto (with net interest income on an FTE basis for the business segments, *All Other* and the total Corporation) for the three and six months ended June 30, 2024 and 2023, and total assets at June 30, 2024 and 2023 for each business segment, as well as *All Other*.

Glossary

Alt-A Mortgage – A type of U.S. mortgage that is considered riskier than A-paper, or “prime,” and less risky than “subprime,” the riskiest category. Typically, Alt-A mortgages are characterized by borrowers with less than full documentation, lower credit scores and higher LTVs.

Assets Under Management (AUM) – The total market value of assets under the investment advisory and/or discretion of *GWIM* which generate asset management fees based on a percentage of the assets’ market values. AUM reflects assets that are generally managed for institutional, high net worth and retail clients, and are distributed through various investment products including mutual funds, other commingled vehicles and separate accounts.

Banking Book – All on- and off-balance sheet financial instruments of the Corporation except for those positions that are held for trading purposes.

Brokerage and Other Assets – Non-discretionary client assets which are held in brokerage accounts or held for safekeeping.

Committed Credit Exposure – Any funded portion of a facility plus the unfunded portion of a facility on which the lender is legally bound to advance funds during a specified period under prescribed conditions.

Credit Derivatives – Contractual agreements that provide protection against a specified credit event on one or more referenced obligations.

Credit Valuation Adjustment (CVA) – A portfolio adjustment required to properly reflect the counterparty credit risk exposure as part of the fair value of derivative instruments.

Debit Valuation Adjustment (DVA) – A portfolio adjustment required to properly reflect the Corporation’s own credit risk exposure as part of the fair value of derivative instruments and/or structured liabilities.

Funding Valuation Adjustment (FVA) – A portfolio adjustment required to include funding costs on uncollateralized derivatives and derivatives where the Corporation is not permitted to use the collateral it receives.

Interest Rate Lock Commitment (IRLC) – Commitment with a loan applicant in which the loan terms are guaranteed for a designated period of time subject to credit approval.

Letter of Credit – A document issued on behalf of a customer to a third party promising to pay the third party upon presentation of specified documents. A letter of credit effectively substitutes the issuer’s credit for that of the customer.

Loan-to-value (LTV) – A commonly used credit quality metric. LTV is calculated as the outstanding carrying value of the loan divided by the estimated value of the property securing the loan.

Macro Products – Include currencies, interest rates and commodities products.

Margin Receivable – An extension of credit secured by eligible securities in certain brokerage accounts.

Matched Book – Repurchase and resale agreements or securities borrowed and loaned transactions where the overall asset and liability position is similar in size and/or maturity. Generally, these are entered into to accommodate customers where the Corporation earns the interest rate spread.

Mortgage Servicing Right (MSR) – The right to service a mortgage loan when the underlying loan is sold or securitized. Servicing includes collections for principal, interest and escrow payments from borrowers and accounting for and remitting principal and interest payments to investors.

Nonperforming Loans and Leases – Includes loans and leases that have been placed on nonaccrual status, including nonaccruing loans whose contractual terms have been restructured in a manner that grants a concession to a borrower experiencing financial difficulties.

Prompt Corrective Action (PCA) – A framework established by the U.S. banking regulators requiring banks to maintain certain levels of regulatory capital ratios, comprised of five categories of capitalization: “well capitalized,” “adequately capitalized,” “undercapitalized,” “significantly undercapitalized” and “critically undercapitalized.” Insured depository institutions that fail to meet certain of these capital levels are subject to increasingly strict limits on their activities, including their ability to make capital distributions, pay management compensation, grow assets and take other actions.

Subprime Loans – Although a standard industry definition for subprime loans (including subprime mortgage loans) does not exist, the Corporation defines subprime loans as specific product offerings for higher risk borrowers.

Value-at-Risk (VaR) – VaR is a model that simulates the value of a portfolio under a range of hypothetical scenarios in order to generate a distribution of potential gains and losses. VaR represents the loss the portfolio is expected to experience with a given confidence level based on historical data. A VaR model is an effective tool in estimating ranges of potential gains and losses on our trading portfolios.

Item 1. Legal Proceedings

See Litigation and Regulatory Matters in Note 10 – Commitments and Contingencies to the Consolidated Financial Statements, which is incorporated by reference in this Item 1, for litigation and regulatory disclosure that supplements the disclosure in Note 12 – Commitments and Contingencies to the

Consolidated Financial Statements of the Corporation's 2023 Annual Report on Form 10-K.

Item 1A. Risk Factors

There are no material changes from the risk factors set forth under Part 1, Item 1A. Risk Factors of the Corporation's 2023 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below presents share repurchase activity for the three months ended June 30, 2024. The primary source of funds for cash distributions by the Corporation to its shareholders is dividends received from its banking subsidiaries. Each of the banking subsidiaries is subject to various regulatory policies and requirements relating to the payment of dividends, including requirements to maintain capital above regulatory minimums. All of the Corporation's preferred stock outstanding has preference over the Corporation's common stock with respect to payment of dividends.

⁽¹⁾ Includes 201 thousand shares of the Corporation's common stock acquired by the Corporation in connection with satisfaction of tax withholding obligations on vested restricted stock or restricted stock units and certain forfeitures and terminations of employment-related awards and for potential re-issuance to certain employees under equity incentive plans.

⁽²⁾ In October 2021, the Corporation's Board of Directors (Board) authorized the repurchase of up to \$25 billion of common stock over time. Additionally, the Board authorized repurchases to offset shares awarded under equity-based compensation plans. In September 2023, the Board modified the October 2021 authorization, effective October 1, 2023, to include repurchases to offset shares awarded under equity-based compensation plans when determining the remaining repurchase authority. During the three months ended June 30, 2024, pursuant to the Board's authorizations, the Corporation repurchased approximately 93 million shares, or \$3.5 billion, of its common stock, including repurchases to offset shares awarded under equity-based compensation plans. For more information, see Capital Management – CCAR and Capital Planning in the MD&A on page 21 and Note 11 – Shareholders' Equity to the Consolidated Financial Statements.

⁽³⁾ On July 24, 2024, the Board authorized a \$25 billion common stock repurchase program, effective August 1, 2024, to replace the Corporation's existing program adopted by the Board in October 2021 and subsequently modified in September 2023. The existing repurchase program will expire on August 1, 2024.

The Corporation did not have any unregistered sales of equity securities during the three months ended June 30, 2024.

Item 5. Other Information

Trading Arrangements

During the fiscal quarter ended June 30, 2024, none of the Corporation's directors or officers (as defined in Rule 16a-1(f) of the Securities Exchange Act of 1934, as amended) adopted or terminated a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (in each case, as defined in Item 408 of Regulation S-K) for the purchase or sale of the Corporation's securities.

Disclosure Pursuant to Section 13(r) of the Securities Exchange Act of 1934

Pursuant to Section 13(r) of the Exchange Act, an issuer is required to disclose in its annual or quarterly reports, as applicable, whether it or any of its affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or with individuals or entities designated pursuant to certain Executive Orders. Disclosure may be required even where the

activities, transactions or dealings were conducted in compliance with applicable law. Except as set forth below, as of the date of this Quarterly Report on Form 10-Q, the Corporation is not aware of any other activity, transaction or dealing by any of its affiliates during the quarter ended June 30, 2024 that requires disclosure under Section 13(r) of the Exchange Act.

During the second quarter of 2024, Bank of America, National Association (BANA), a U.S. subsidiary of Bank of America Corporation, processed 30 authorized wire payments totaling \$8,094,375 pursuant to a general license issued by the U.S. Department of the Treasury's Office of Foreign Assets Control regarding Afghanistan or governing institutions in Afghanistan. These payments for three BANA clients were processed to Afghan state-owned banks which are subject to Executive Order 13224. There was no measurable gross revenue or net profit to the Corporation relating to these transactions, except nominal fees received by BANA for processing payments. The Corporation may in the future engage in similar transactions for its clients to the extent permitted by U.S. law.

ARTICLE II

OFFICES

Section 1. Principal Place of Business. The principal place of business of the Corporation shall be located in the City of Charlotte, County of Mecklenburg, State of North Carolina.

Section 2. Registered Office. The registered office of the Corporation required by the DGCL to be maintained in the State of Delaware is The Corporation Trust Center, 1209 Orange Street, Wilmington, New Castle County, Delaware, 19801. The name of the Corporation’s registered agent at such address is The Corporation Trust Company.

Section 3. Other Offices. The Corporation may have offices at such other places, either within or without the State of Delaware, as the Board of Directors may from time to time determine or as the affairs of the Corporation may require from time to time.

ARTICLE III

STOCKHOLDERS

Section 1. Annual Meeting. The annual meeting of the Stockholders shall be held each year at a date and hour fixed from time to time by resolution of the Board of Directors for the purpose of electing directors and for the transaction of such other proper business as may come before the meeting. The Board of Directors may postpone, reschedule or cancel any annual meeting of Stockholders previously scheduled by the Board of Directors.

Section 2. Special Meetings.

(a) General.

- (i) Special meetings of the Stockholders, for any purpose or purposes, unless otherwise prescribed by the DGCL, may be called by the Board of Directors, the Chair of the Board, the Chief Executive Officer, the President, or by the Secretary acting under instructions of the Board of Directors, the Chair of the Board, the Chief Executive Officer, or the President, subject to any applicable law or regulation (each, a “Special Meeting Request”). A special meeting of Stockholders shall be called by the Secretary upon the written request of Stockholders, including a written request made by one or more Stockholders on behalf of any beneficial owner of Common Stock, representing ownership of at least ten (10) percent of the outstanding Common Stock of the Corporation (the “Requisite Percent”), subject to Subsection (b) of this Section 2 (a “Stockholder Requested Special Meeting”). Business transacted at any special meeting of Stockholders shall be limited to the purposes stated in the notice. The Board of Directors may postpone, reschedule or cancel any special meeting of the Stockholders previously scheduled by the Board of Directors.
- (ii) For purposes of calculating the Requisite Percent, “ownership” shall be deemed to consist of and include only the outstanding Common Stock as to which a person possesses both (A) the full voting rights pertaining to the Common Stock and (B) the full economic interest in (including the opportunity for profit and risk of loss on) such Common Stock; provided that the ownership of Common Stock calculated in accordance with clauses (A) and (B) shall not include any Common Stock (x) that a person has sold in any transaction that has not been settled or closed, (y) that a person has borrowed or purchased pursuant to an agreement to resell or (z) subject to any option, warrant, forward contract, swap, contract of sale, other derivative or similar agreement entered into by a person, whether any such instrument or agreement is to be settled with Common Stock or with cash based on the notional amount or value of Common Stock, in any

such case which instrument or agreement has, or is intended to have, the purpose or effect of (1) reducing in any manner, to any extent or at any time in the future, the person's full right to vote or direct the voting of any such Common Stock, and/or (2) hedging, offsetting or altering to any degree gain or loss arising from the full economic ownership of such person's Common Stock. "Ownership" shall include Common Stock held in the name of a nominee or other intermediary so long as the person claiming ownership of such Common Stock retains the right to instruct how the Common Stock is voted with respect to the election of directors and possesses the full economic interest in the Common Stock, provided that this provision shall not alter the obligations of any Stockholder to provide the notice described in Subsection (b) of this Section 2. Ownership of Common Stock shall be deemed to continue during any period in which Common Stock has been loaned if the person claiming ownership may terminate the Common Stock lending within three (3) days and during any period in which any voting power has been delegated by means of a proxy, power of attorney or other instrument or arrangement which is revocable at any time without condition. The determination of the extent of "ownership" of Common Stock for purposes of this Section 2 shall be made in good faith by the Board of Directors. The terms "owned," "owning" and other variations of the word "own" shall have correlative meanings.

(b) Stockholder Requested Special Meetings. In order for a Stockholder Requested Special Meeting to be called, one or more requests for a special meeting (each, a "Stockholder Special Meeting Request," and collectively, the "Stockholder Special Meeting Requests") must be signed by Stockholders owning in the aggregate not less than the Requisite Percent (or their duly authorized agents) and must be delivered to the Secretary. The Stockholder Special Meeting Request(s) shall be delivered to the Secretary at the principal executive offices of the Corporation by registered mail, return receipt requested. Each Stockholder Special Meeting Request shall (i) set forth a statement of the specific purpose(s) of the meeting and the matters proposed to be acted on at it, (ii) bear the date of signature of each such Stockholder (or duly authorized agent) signing the Stockholder Special Meeting Request, (iii) set forth (A) the name and address of each Stockholder signing such request and of any beneficial owner on whose behalf the Stockholder Special Meeting Request is signed, (B) the amount of Common Stock owned of record and beneficially by each such Stockholder and (C) include documentary evidence of such Stockholder's record and beneficial ownership of such Common Stock, (iv) set forth all information relating to each such Stockholder that must be disclosed with respect to persons involved in solicitations of proxies for election of directors in an election contest (even if the Stockholder Requested Special Meeting does not involve an election contest), or is otherwise required, in each case, pursuant to Regulation 14A under the Exchange Act, (v) contain the information required by Article III, Section 12(c)(i)-(iii) of these Bylaws as to each such Stockholder and any beneficial owners on whose behalf the Stockholder Special Meeting Request is signed, and the information required by Article III, Section 12(c)(iv) and (v) as to any nominees and other business proposed to be presented at such meeting, and (vi) set forth an

acknowledgment by each such Stockholder that the Stockholder Special Meeting Request shall be deemed to be revoked (and any meeting scheduled in response may be canceled) if the Common Stock owned by such persons does not represent ownership of at least the Requisite Percent at all times between the date on which such Stockholder Special Meeting Request is delivered and the date of the applicable Stockholder Requested Special Meeting, as well as an agreement by each such Stockholder to notify the Corporation immediately if such Stockholder ceases to own any Common Stock. Any requesting Stockholder may revoke a Stockholder Special Meeting Request at any time by written revocation delivered to the Secretary at the principal executive offices of the Corporation; provided, however, that if following such revocation there are Stockholder Special Meeting Requests which have not been revoked from Stockholders holding in the aggregate less than the Requisite Percent, the Board of Directors, in its discretion, may cancel the Stockholder Requested Special Meeting. If none of the Stockholders who submitted a Stockholder Special Meeting Request for a Stockholder Requested Special Meeting appears or sends a qualified representative (as defined below in Article III, Section 12(g)) to present the nominations proposed to be presented or other business proposed to be conducted at the Stockholder Requested Special Meeting, the Corporation need not present such nominations or other business for a vote at such Stockholder Requested Special Meeting.

In determining whether a Stockholder Requested Special Meeting has been requested by Stockholders (including by one or more Stockholders on behalf of any beneficial owners of Common Stock) owning in the aggregate not less than the Requisite Percent as of the date of such written request to the Secretary, multiple Stockholder Special Meeting Requests delivered to the Secretary will be considered together only if (i) each request identifies substantially the same purpose or purposes of the proposed Stockholder Requested Special Meeting and substantially the same matters proposed to be acted on at the proposed Stockholder Requested Special Meeting (in each case to be determined by the Board of Directors), and (ii) such Stockholder Special Meeting Requests have been dated and delivered to the Secretary within sixty (60) days of the earliest dated Stockholder Special Meeting Request.

(c) Calling of a Special Meeting. The Secretary shall not be required to call a special meeting of Stockholders if (i) the Board of Directors calls an annual or special meeting of Stockholders to be held not later than sixty (60) days after the date on which a valid Special Meeting Request, Stockholder Special Meeting Request or multiple Stockholder Special Meeting Requests constituting at least the Requisite Percent have been delivered to the Secretary (the "Delivery Date"); or (ii) the Special Meeting Request or the Stockholder Special Meeting Request (A) is received by the Secretary during the period commencing seventy-five (75) days prior to the first anniversary of the date of the immediately preceding annual meeting and ending on the date of the next annual meeting; (B) contains an identical or substantially similar item (a "Similar Item") to an item that was presented at any meeting of Stockholders held within one hundred and twenty (120) days prior to the Delivery Date (and, for purposes of this clause (B) the election of directors shall be deemed a "Similar Item" with respect to all items of business involving the election or removal of directors); (C) relates to an item of business that is not a proper subject for action by the party requesting the special meeting under applicable law; (D) was made in a manner that involved a violation of Regulation 14A under the Exchange Act or other applicable

law; or (E) does not comply with the provisions of this Section 2. The Secretary may call a special meeting of Stockholders at any time as requested by any government or regulatory agency.

(d) **Holding a Special Meeting.** Except as provided in the next sentence, any special meeting shall be held at such date, time and place, within or without the State of Delaware, as may be fixed by the Board of Directors in accordance with these Bylaws and the DGCL. In the case of a Stockholder Requested Special Meeting, such meeting shall be held at such date, time and place as may be fixed by the Board of Directors; provided, however, that the date of any Stockholder Requested Special Meeting shall be not less than ten (10) days nor more than sixty (60) days after the record date for such meeting (the "Meeting Record Date"), which shall be fixed in accordance with Article III, Section 5 of these Bylaws; provided further that, if the Board of Directors fails to designate, within ten (10) days after the Delivery Date, a date and time for a Stockholder Requested Special Meeting, then such meeting shall be held at 9:00 a.m. local time on the sixtieth (60th) day after the Meeting Record Date (or, if that day shall not be a business day, then on the next preceding business day); and provided further that in the event that the Board of Directors fails to designate a place for a Stockholder Requested Special Meeting within ten (10) days after the Meeting Record Date, then such meeting shall be held at the Corporation's principal executive offices. In fixing a date and time for any Stockholder Requested Special Meeting the Board of Directors may consider such factors as it deems relevant within the good faith exercise of business judgment, including, without limitation, the nature of the matters to be considered, the facts and circumstances surrounding any request for meeting and any plan of the Board of Directors to call an annual meeting or a special meeting.

(e) **Business Transacted at a Special Meeting.** Business to be transacted at a special meeting may only be brought before the meeting pursuant to the Corporation's notice of meeting. Business transacted at any Stockholder Requested Special Meeting shall be limited to the purpose(s) stated in the Stockholder Special Meeting Request(s); provided, however, that nothing herein shall prohibit the Board of Directors from submitting matters to the Stockholders at any Stockholder Requested Special Meeting.

Section 3. Place of Meeting. The Board of Directors, the Chair of the Board, the Chief Executive Officer or the President of the Corporation, or the Secretary acting under instructions of the Board of Directors, the Chair of the Board, the Chief Executive Officer or the President, may designate any place, either within or without the State of Delaware, as the place of meeting for any annual meeting of Stockholders or for any special meeting of Stockholders. The Board of Directors may, in its sole discretion, determine that a meeting of Stockholders shall not be held at any place but may be held solely by means of remote communication in accordance with the DGCL.

Section 4. Notice to Stockholders. Except as otherwise provided herein or permitted by law, whenever Stockholders are required or permitted to take any action at a meeting, a notice of the meeting shall be given which shall state the place, if any, date and hour of the meeting, the means of remote communications, if any, by which the Stockholders and proxyholders may be deemed to be present in person and vote at such meeting, and, in the case of a special meeting, the

purpose or purposes for which the meeting is called. Any notice to Stockholders shall be effective if given by a form of electronic transmission in the manner and to the extent permitted by the DGCL.

Unless otherwise provided or permitted by law, the Certificate of Incorporation or these Bylaws, the notice of any meeting shall be given not less than ten (10) nor more than sixty (60) days before the date of the meeting to each Stockholder entitled to vote at such meeting. Notwithstanding the foregoing, notice may be given to Stockholders sharing an address in the manner and to the extent permitted by the DGCL and by the "householding" rules set forth in Rule 14a-3(e) under the Exchange Act. If mailed, notice is given when deposited in the United States mail, postage prepaid, directed to the Stockholder at such Stockholder's address as it appears on the records of the Corporation.

Any meeting of Stockholders, annual or special, may adjourn from time to time to reconvene at the same or another place. When a meeting is adjourned to another time or place, notice need not be given of the adjourned meeting if the date, time and place, if any, of the adjourned meeting and the means of remote communications, if any, by which the Stockholders and proxyholders may be deemed to be present in person and voting at such meeting are announced at the meeting at which the adjournment is taken or are provided in any other manner permitted by the DGCL. At the adjourned meeting the Corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than thirty (30) days, a notice of the adjourned meeting shall be given to each Stockholder entitled to vote at the meeting. If after the adjournment a new record date for determining Stockholders entitled to vote is fixed for the adjourned meeting, the Board of Directors shall fix a new record date for notice in accordance with Article III, Section 5 of these Bylaws and notice of the adjourned meeting shall be given to each Stockholder of record entitled to vote at such adjourned meeting as of the record date fixed for notice of such adjourned meeting.

A Stockholder may waive any notice required by the DGCL, the Certificate of Incorporation or these Bylaws before or after the date and time stated in the notice. Attendance of a Stockholder at a meeting shall constitute a waiver of notice of such meeting, except when the Stockholder attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened.

Section 5. Fixing of Record Date. For the purpose of determining Stockholders entitled to notice of or to vote at any meeting of Stockholders or any adjournment thereof, or Stockholders entitled to receive payment of any dividend or other distribution, or in order to make a determination of Stockholders for any other proper purpose, the Board of Directors may fix in advance a date for any such determination of Stockholders, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which date in any case shall not be more than 60 days and, in case of a meeting of Stockholders, not less than ten days, prior to the date of such meeting or on which such action is to be taken. If no record date is fixed for the determination of Stockholders entitled to notice of or to vote at a meeting of

Stockholders, the close of business on the day before the first notice is given, or if notice is waived, the close of business on the day before the date of such meeting shall be the record date. If no record date is fixed for the determination of Stockholders entitled to receive payment of a dividend or other distribution or any other proper purpose, the close of business on the day on which the Board of Directors adopts the resolution relating thereto shall be the record date. When a determination of Stockholders entitled to vote at any meeting of Stockholders has been made as provided in this Section 5, such determination shall apply to any adjournment thereof or any postponement that is to a date not more than sixty (60) days after the record date, in each case unless the Board of Directors fixes a new record date.

Section 6. Stockholders List. The Corporation shall prepare, no later than the tenth day before each meeting of Stockholders, a complete list of the Stockholders entitled to vote at the meeting, arranged in alphabetical order, and showing the address of each Stockholder and the number of Shares registered in the name of each Stockholder. The list of Stockholders shall be open to the examination of any Stockholder, for any purpose germane to the meeting, for a period of ten days ending on the day before the meeting date during ordinary business hours, at the principal place of business of the Corporation, or the Corporation may place the Stockholders list on a reasonably accessible electronic network as permitted by the DGCL. Except as otherwise provided by law, the stock ledger shall be the only evidence as to who are the Stockholders entitled to examine the list of Stockholders required by this Section 6 or to vote in person or by proxy at any meeting of Stockholders.

Section 7. Quorum. Except as otherwise required by law, a majority of the voting power of the outstanding Shares entitled to vote at the meeting, present in person or represented by proxy, shall constitute a quorum at a meeting of Stockholders. Where a separate vote by a class or series or classes or series is required, a majority of the votes entitled to be cast by the outstanding Shares of such class or series or classes or series, present in person or represented by proxy, shall constitute a quorum entitled to take action with respect to that vote on that matter. In the absence of a quorum, such meeting may be adjourned from time to time by the chair of the meeting or upon the approval of the majority of the voting power of the outstanding Shares present and entitled to vote at the meeting, even if less than a quorum, without notice other than announcement at the meeting as provided in Article III, Section 4 or as otherwise required by Article III. Once a quorum is present at a meeting, it is deemed present for the remainder of the meeting and for any adjournment of that meeting, notwithstanding the withdrawal of enough Stockholders to leave less than a quorum.

Section 8. Proxies. Each Stockholder entitled to vote at a meeting of Stockholders or to express consent or dissent to corporate action without a meeting may authorize another person or persons to act for such Stockholder by proxy, but no such proxy shall be voted or acted upon after three years from its date, unless the proxy provides for a longer period.

Without limiting the manner in which a Stockholder may authorize another person or persons to act for such Stockholder as proxy pursuant to the previous paragraph, the following shall constitute a valid means by which a Stockholder may grant such authority:

(1) A Stockholder, or such Stockholder's authorized officer, director, employee or agent, may execute a document authorizing another person or persons to act for such Stockholder as proxy.

(2) A Stockholder may authorize another person or persons to act for such Stockholder as proxy by transmitting or authorizing the transmission of an electronic transmission to the person who will be the holder of the proxy or to a proxy solicitation firm, proxy support service organization or like agent duly authorized by the person who will be the holder of the proxy to receive such transmission, provided that any such transmission must either set forth or be submitted with information from which it can be determined that the transmission was authorized by the Stockholder. If it is determined that such transmissions are valid, the inspectors or, if there are no inspectors, such other persons making that determination shall specify the information upon which they relied.

(3) The authorization of a person to act as a proxy may be documented, signed and delivered in accordance with the DGCL, provided that such authorization shall set forth, or be delivered with information enabling the Corporation to determine, the identity of the Stockholder granting such authorization.

Any copy, facsimile telecommunication or other reliable reproduction of the document (including electronic transmission) created pursuant to the previous paragraph of this Section 8 may be substituted or used in lieu of the original document for any and all purposes for which the original document could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original document.

A duly executed proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A proxy may be made irrevocable regardless of whether the interest with which it is coupled is an interest in the stock itself or an interest in the Corporation generally.

A Stockholder may revoke any proxy which is not irrevocable by attending the meeting and voting in person or by delivering to the Secretary a revocation of the proxy or a new proxy bearing a later date.

Section 9. Voting of Shares; Required Vote for Matters other than the Election of Directors. Except as otherwise provided by the Certificate of Incorporation, each outstanding Share of Common Stock is entitled to one vote on each matter voted on at a Stockholders meeting. Other Shares are entitled to vote only as provided in the Certificate of Incorporation or the DGCL. If a quorum exists, action on a matter (other than election of directors, which is set forth in Section 10 of this Article III) is approved if the votes cast favoring an action exceed the votes cast opposing the action; provided, however, if the Certificate of Incorporation, these Bylaws, the DGCL, the rules or regulations of the New York Stock Exchange ("NYSE") (unless the Corporation's Common

Stock ceases to be listed on the NYSE and is listed on another exchange in which case such exchange's rules and regulations), or any law or regulation applicable to the Corporation or the action to be voted on requires a different number of affirmative votes for approval of such matter, then such different number of affirmative votes shall be the required vote for such matter.

Section 10. Required Vote for Directors. A nominee for director shall be elected to the Board of Directors if the votes cast for such nominee's election exceed the votes cast against such nominee's election; provided, however, that the directors shall be elected by a plurality of the votes cast at any meeting of Stockholders for which (a) the Secretary receives a notice that a Stockholder has nominated one or more persons for election to the Board of Directors pursuant to these Bylaws and (b) each such nomination has not been withdrawn by such Stockholder or such nominee on or prior to the date that is ten (10) days in advance of the date the Corporation files its definitive proxy statement (regardless of whether thereafter revised or supplemented) for such meeting of Stockholders with the Securities and Exchange Commission, as a result of which the total number of nominees for director exceeds the number of directors to be elected at such meeting of Stockholders. If no nominees for election to the Board of Directors are elected at an annual meeting, a special meeting of Stockholders shall be called for an election of directors in the manner provided in Article III, Section 2 of these Bylaws.

Section 11. Conduct of Meetings. The Chair of the Board shall preside as chair at each meeting of Stockholders or, in the Chair of the Board's absence, the Lead Independent Director shall so preside. At the request of the Chair of the Board or the Lead Independent Director, or in the event all are absent, such other director or Officer as the Board of Directors shall designate shall so preside at any such meeting. The Secretary or, in the absence or at the request of the Secretary, any person designated by the person presiding at a Stockholders meeting shall act as secretary of such meeting. The chair of the meeting shall have the authority to adopt and enforce such rules or regulations for the conduct of meetings of Stockholders and the safety of those in attendance as deemed necessary, appropriate or convenient, including, without limitation, establishing: (a) an agenda or order of business for the meeting; (b) rules and procedures for maintaining order at the meeting and the safety of those present; (c) limitations on participation in the meeting to Stockholders entitled to vote at the meeting, their duly authorized and constituted proxies and such other persons as the chair of the meeting shall permit; (d) restrictions on entry to the meeting after the time fixed for the commencement thereof; (e) limitations on the time allotted for consideration of each agenda item and for questions and discussion by participants; and (f) procedures requiring attendees to provide the Corporation advance notice of their intent to attend the meeting.

The chair of the meeting, in addition to making any other determinations that may be appropriate to the conduct of the meeting, shall, if the facts warrant, determine and declare to the meeting that a matter of business was not properly brought before the meeting and if the chair should so determine, such chair shall so declare to the meeting that any such matter or business not properly brought before the meeting shall not be transacted or considered. The chair of the meeting may, for any reason, from time to time, adjourn any meeting of Stockholders, or recess

any meeting of Stockholders, without notice other than announcement at the meeting except as provided in Article III, Section 4. The date and time of the opening and closing of the polls for each matter upon which the Stockholders will vote at the meeting shall be announced at the meeting.

Section 12. Notice of Stockholder Business and Nominations.

(a) At any meeting of the Stockholders, only nominations for the election of directors and the proposal of other business to be considered that has been properly brought before the meeting in accordance with the procedures set forth in this Section 12 may be conducted. Nominations for the election of directors and the proposal of other business at an annual meeting may be made only: (i) by or at the direction of the Board of Directors or any committee thereof; (ii) by a Stockholder of the Corporation who was a stockholder of record of the Corporation at the time the notice provided for in this Section 12 is delivered to the Secretary, who is entitled to vote at the meeting and who complies with this Section 12; or (iii) by an Eligible Stockholder (as defined in Article IV, Section 9 of these Bylaws) who complies with the requirements of Article IV, Section 9 of these Bylaws. For the avoidance of doubt, the foregoing clauses (ii) and (iii) shall be the exclusive means for a Stockholder to make director nominations at an annual meeting of Stockholders, and the foregoing clause (ii) shall be the exclusive means for a Stockholder to propose other business at an annual meeting of Stockholders (other than a proposal included in the Corporation's definitive proxy statement for the applicable Stockholders' meeting pursuant to and in compliance with Rule 14a-8 under the Exchange Act).

(b) For nominations or other business to be properly brought before an annual meeting by a Stockholder pursuant to clause (ii) of Subsection (a) of this Section 12, the Stockholder must have given timely and proper notice thereof in writing to the Secretary and any such proposed business other than the nominations of persons for election to the Board of Directors must constitute a proper matter for stockholder action. To be timely, a Stockholder's notice shall be delivered to the Secretary at the principal executive offices of the Corporation by registered mail, return receipt requested, not later than the close of business on the seventy-fifth (75th) day, nor earlier than the close of business on the one hundred twentieth (120th) day prior to the first anniversary of the preceding year's annual meeting (provided, however, that in the event that the date of the annual meeting is more than thirty (30) days before or more than seventy (70) days after its anniversary date, notice by the Stockholder must be so delivered not earlier than the close of business on the one hundred twentieth (120th) day prior to such annual meeting and not later than the close of business on the later of the seventy-fifth (75th) day prior to such annual meeting or the tenth (10th) day following the day on which public announcement of the date of such meeting is first made by the Corporation). In no event shall the public announcement of an adjournment or postponement of an annual meeting commence a new time period (or extend any time period) for the giving of a Stockholder's notice as described above. The number of persons a Stockholder may nominate for election as a director at the annual meeting (or in the case of a Stockholder giving the notice on behalf of a beneficial owner, the number of persons a Stockholder may nominate for election as a director at the annual meeting

on behalf of such beneficial owner) shall not exceed the number of directors to be elected at such annual meeting.

- (c) To be proper, the notice by a Stockholder must set forth:
 - (i) the name and address of the Stockholder and the beneficial owner (within the meaning of Section 13(d) of the Exchange Act), if any, on whose behalf the nomination is made or the business is proposed;
 - (ii) a representation that the Stockholder is a holder of record of the Corporation's Shares (including the number and class of Shares which are owned of record by such Stockholder and the beneficial owner, if any, on whose behalf the nomination is made or the other business is proposed) as of the date of the notice, entitled to vote at such meeting of Stockholders and intends to appear (or have a qualified representative appear) at such meeting to make such nomination or to propose such business;
 - (iii) as to the Stockholder giving the notice or, if the notice is given on behalf of a beneficial owner, as to such beneficial owner, and if such Stockholder or beneficial owner is an entity, as to each individual who is a director, executive officer, general partner or managing member of such entity or of any other entity that has or shares control of such entity (each such individual or entity, a "control person"):
 - (A) the number and class of Shares which are beneficially owned by such Stockholder or beneficial owner and by any control person as of the date of the notice, and a representation that the Stockholder will notify the Corporation in writing within five (5) business days after the record date for such meeting of the class and number of Shares beneficially owned by the Stockholder or such beneficial owners and by any control person as of the record date for the meeting. For purposes of this Subsection (A), Shares shall be treated as "beneficially owned" by a person if the person beneficially owns such Shares, directly or indirectly, for purposes of Section 13(d) of the Exchange Act and Regulations 13D and 13G thereunder or has or shares pursuant to any agreement, arrangement or understanding (whether or not in writing): (1) the right to acquire such Shares (whether such right is exercisable immediately or only after the passage of time or the fulfillment of a condition or both), (2) the right to vote such Shares, alone or with others, (3) investment power with respect to such Shares, including the power to dispose of, or to direct the disposition of, such Shares, and/or (4) a direct or indirect pecuniary interest in such Shares, as determined pursuant to Rule 16a-1(a)(2) under the Exchange Act,

or other direct or indirect financial interest in Shares, regardless of whether exempt from the definition of pecuniary interest;

- (B) whether and the extent to which any hedging, pledging or other transaction or series of transactions has been entered into as of the date of the notice by or on behalf of, or any other agreement, arrangement or understanding, including any derivative or short positions, profit interests, options, warrants, forward contracts, swaps, contracts of sale, voting rights, dividend rights, performance-related fees or any borrowing and/or lending of Shares (any of the foregoing, a “Derivative Instrument”) has been made, whether the Derivative Instrument is to be settled with Shares or with cash based on the notional amount or value of Common Stock, the effect or intent of which is to mitigate loss to or manage risk or benefit of changes in the price of any class or series of capital stock of the Corporation, or to increase or decrease the voting power of, such Stockholder or any such beneficial owner and any control person with respect to any Shares, and a representation that the Stockholder will notify the Corporation in writing within five (5) business days after the record date for such meeting of any Derivative Instrument in effect as of the record date for the meeting;
- (C) a representation whether the Stockholder or the beneficial owner, if any, and any control person intends or is part of a group that intends to engage in a solicitation with respect to the nomination or business proposed and, if so, (1) whether such solicitation will be conducted as an exempt solicitation under Rule 14a-2(b) of the Exchange Act, (2) the name of each participant (as defined in Item 4 of Schedule 14A under the Exchange Act) in such solicitation, (3) in the case of a proposal of business other than any nomination for the election of a director, whether such person intends or is part of a group which intends to deliver a proxy statement and form of proxy through means satisfying each of the conditions that would be applicable to the Corporation under either Rule 14a-16(a) or Rule 14a-16(n) of the Exchange Act to holders (including any beneficial owners pursuant to Rule 14b-1 and Rule 14b-2 of the Exchange Act) of at least the percentage of the voting power of the outstanding Shares required under applicable law to approve or adopt the proposal, and (4) in the case of any solicitation that is subject to Rule 14a-19 of the Exchange Act, confirming that such person will deliver a proxy statement and form of proxy through means satisfying each of the conditions that would be applicable to the Corporation under either Rule 14a-16(a) or Rule 14a-16(n) of

the Exchange Act to holders (including any beneficial owners pursuant to Rule 14b-1 and Rule 14b-2 of the Exchange Act) of at least sixty-seven percent (67%) of the voting power of the outstanding Shares then entitled to vote at the meeting on the election of directors;

- (D) a representation that promptly after soliciting proxies from the percentage of Stockholders referred to in the representation required under clause (c)(iii)(C)(4) of this Section 12, and no later than the tenth day before such meeting of Stockholders, such Stockholder or beneficial owner will provide the Corporation with documents, which may take the form of a certified statement and documentation from a proxy solicitor, specifically demonstrating that the necessary steps have been taken to deliver a proxy statement and form of proxy to holders of such percentage of the Corporation's outstanding Shares, which documents shall be deemed to be a part of the notice required under this Section 12(c);
- (E) a description of any plans or proposals which such Stockholder or beneficial owner and each control person may have which relate to or would result in, if implemented, any action that would (1) be required to be disclosed pursuant to Item 4 of Schedule 13D of the Exchange Act (regardless of whether a Schedule 13D is required), and/or (2) require the Stockholder to notify any government or regulatory agency, including the Board of Governors of the Federal Reserve System (the "Federal Reserve Board") and/or the Office of the Comptroller of the Currency (the "OCC") under applicable banking laws and regulations, and a representation that the Stockholder will notify the Corporation in writing within five (5) business days after the record date for such meeting of any such plans or proposals existing as of such record date; and
- (F) a description (which description shall include, in addition to all other information, information identifying all parties thereto) of all agreements, arrangements or understandings with respect to the nomination or proposal among the Stockholder or the beneficial owner, if any, and any control person and each nominee, if any, and any other person or persons (naming such person or persons) including without limitation any agreements that would be required to be disclosed pursuant to Item 5 or Item 6 of Exchange Act Schedule 13D (regardless of whether the requirement to file a Schedule 13D is applicable to the Stockholder or beneficial owner) pursuant to which the nomination or proposal is to be made by the Stockholder and a representation that the Stockholder will notify

the Corporation in writing within five (5) business days after the record date for such meeting of any such agreements, arrangements or understandings in effect as of the record date for the meeting;

- (iv) as to each person whom the Stockholder proposes to nominate for election as a director:
 - (A) all information regarding each nominee that would be required to be disclosed in solicitations of proxies for election of directors in an election contest pursuant to Regulation 14A under the Exchange Act and such person's written consent to being named as a nominee for director in a proxy statement and form of proxy relating to the meeting at which directors are to be elected and to serving as a director if elected;
 - (B) completed and signed questionnaires in the same form the Corporation requests of the Board of Directors' nominees for director, and such other information as the Corporation reasonably requests to permit the Board of Directors to determine whether such nominee's service as a director of the Corporation would be subject to statutory, regulatory or other similar restrictions or limitations or would otherwise impose statutory or regulatory filing and disclosure obligations on the Corporation, including information relevant to a determination of whether such person (1) qualifies as independent under the listing standards of each principal U.S. exchange upon which the Common Stock of the Corporation is listed, any applicable rules of the Securities and Exchange Commission, the Federal Reserve Board, the OCC and any publicly disclosed standards used by the Board of Directors in determining and disclosing the independence of the Corporation's directors, (2) has any direct or indirect relationship with the Corporation other than those relationships that have been deemed categorically immaterial pursuant to the Corporation's Corporate Governance Guidelines, and (3) if such person is not and has not been subject to any event specified in Item 401(f) of Regulation S-K (or successor rule) of the Securities and Exchange Commission;
 - (C) a written statement, not to exceed 500 words, in support of such person as a nominee for the Board of Directors; and
 - (D) a written representation by such person as a nominee that such person (1) is not and will not become a party to any compensatory, payment or other financial agreement,

arrangement or understanding with any person or entity in connection with such person's nomination, service or action as a director of the Corporation, or any agreement, arrangement or understanding with any person or entity as to how such person would vote or act on any issue or question as a director, in each case that has not been disclosed to the Corporation, (2) is not and will not become a party to any agreement, arrangement or understanding with any person or entity that could limit or interfere with the person's ability to comply, if elected as a director, with such person's fiduciary duties under applicable law, and (3) has read and agrees, if elected to serve as a member of the Board of Directors, to adhere to the Corporation's Corporate Governance Guidelines and Code of Conduct and any other Corporation policies and guidelines applicable to directors.

- (v) As to any business other than a nomination for director that the Stockholder proposes to bring before the meeting, to be proper, the notice by a Stockholder must set forth:
 - (A) a brief description of the business desired to be brought before the meeting;
 - (B) the text of the proposal or business (including the text of any resolutions proposed for consideration and in the event that such business includes a proposal to amend the Bylaws of the Corporation, the language of the proposed amendment);
 - (C) the reasons for conducting such business at the meeting; and
 - (D) any substantial interest (within the meaning of Item 5 of Schedule 14A under the Exchange Act) in such business of such Stockholder and the beneficial owner, if any, on whose behalf the proposal is made and of any control person.

(d) Any Stockholder directly or indirectly soliciting proxies from other Stockholders must use a proxy card color other than white, which shall be reserved for the exclusive use for solicitation by the Board of Directors.

(e) Notwithstanding anything in the second sentence of Subsection (b) of this Section 12 to the contrary, in the event that the number of directors to be elected to the Board of Directors of the Corporation at an annual meeting is increased and there is no public announcement by the Corporation naming the nominees for the additional directorships at least one hundred twenty (120) days prior to the first anniversary of the preceding year's annual meeting, a Stockholder's notice required by this Section 12 shall also be considered timely, but only with respect to nominees for the additional directorships, if it shall be delivered to the

Secretary at the principal executive offices of the Corporation not later than the close of business on the tenth (10th) day following the day on which such public announcement is first made by the Corporation.

(f) Only such business shall be conducted at a special meeting of Stockholders as shall have been brought before the meeting pursuant to the Corporation's notice of meeting. Nominations of persons for election to the Board of Directors may be made at a special meeting of Stockholders at which directors are to be elected pursuant to the Corporation's notice of meeting (i) by or at the direction of the Board of Directors or any committee thereof or Stockholders pursuant to Article III, Section 2 of these Bylaws or (ii) provided that the Board of Directors or Stockholders pursuant to Article III, Section 2 of these Bylaws have determined that directors shall be elected at such meeting, by any Stockholder of the Corporation who is a stockholder of record at the time the notice provided for in this Section 12 is delivered to the Secretary, who is entitled to vote at the meeting and who complies with the notice procedures set forth in this Section 12. The number of persons a Stockholder may nominate for election as a director at the special meeting (or in the case of a Stockholder giving the notice on behalf of a beneficial owner, the number of persons a Stockholder may nominate for election as a director at the special meeting on behalf of such beneficial owner) shall not exceed the number of directors to be elected at such special meeting. In the event the Corporation calls a special meeting of Stockholders for the purpose of electing one or more directors to the Board of Directors, any such Stockholder entitled to vote in such election of directors may nominate a person or persons (as the case may be) for election to such position(s) as specified in the Corporation's notice of meeting, if the Stockholder's notice required by Subsection (b) of this Section 12 shall be delivered to the Secretary at the principal executive offices of the Corporation not earlier than the close of business on the one hundred twentieth (120th) day prior to such special meeting and not later than the close of business on the later of the ninetieth (90th) day prior to such special meeting or the tenth (10th) day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors or the Stockholders pursuant to Article III, Section 2 of these Bylaws to be elected at such meeting. In no event shall the public announcement of an adjournment or postponement of a special meeting commence a new time period (or extend any time period) for the giving of a Stockholder's notice as described above.

(g) Except as otherwise provided by law, (i) the Board of Directors shall have the power and duty to determine whether a nomination or any business proposed to be brought before the meeting was made or proposed, as the case may be, in accordance with the procedures set forth in this Section 12 (including whether the Stockholder or beneficial owner, if any, on whose behalf the nomination or proposal is made provided timely and proper notice pursuant to this Section 12 or solicited (or is part of a group which solicited) or did not so solicit, as the case may be, proxies in support of such nominee or proposal in compliance with the representations as required by Subsection (c)(iii)(C) of this Section 12) and (ii) if the Board of Directors determines that any proposed nomination or business was not made or proposed in compliance with this Section 12 (including if a Stockholder or a nominee, as applicable, did not provide the information required under Article III, Section 12(c) to the Corporation within the

time period prescribed therein), then, the chair of the meeting shall have the power and authority to declare that such nomination shall be disregarded or that such proposed business shall not be transacted, notwithstanding that proxies and votes in respect of such matter may have been received (which proxies and votes shall be disregarded). If at any meeting of stockholders a nomination or other business is proposed to be brought before the meeting for which advance notice was not given or provided as required by this Section 12, the chair of the meeting shall have the power and authority, as provided in Article III, Section 11, to declare that such nomination shall be disregarded or that such proposed business shall not be transacted. In furtherance and not by way of limitation of the foregoing provisions of this Section 12, unless otherwise required by law, if the Stockholder (or a qualified representative of the Stockholder) does not appear at the annual or special meeting of Stockholders of the Corporation to present a nomination or proposed business, such nomination shall be disregarded and such proposed business shall not be transacted, notwithstanding that proxies and votes in respect of such matter may have been received by the Corporation. For purposes of Article III, Section 2 and this Section 12, to be considered a qualified representative of the Stockholder, a person must be a duly authorized officer, manager or partner of such Stockholder or must be authorized by a writing executed by such Stockholder or an electronic transmission delivered by such Stockholder to act for such Stockholder as proxy at the meeting of Stockholders and such person must produce such writing or electronic transmission, or a reliable reproduction of the writing or electronic transmission, at the meeting of Stockholders. In the event that a qualified representative of the Stockholder will appear at the annual or special meeting of Stockholders (including a Stockholder Requested Special Meeting) to make a nomination or propose business, the Stockholder must provide notice of the designation, including the identity of the representative, to the Corporation at least forty-eight (48) hours prior to such meeting. Where a Stockholder fails to provide such notice of designation to the Corporation within the required timeframe, such Stockholder must appear in person to present such Stockholder's nomination or proposed business at the annual or special meeting or such nomination shall be disregarded and such proposed business shall not be transacted as provided for above.

(h) For purposes of this Section 12 and Article IV, Section 9(b) of these Bylaws, "public announcement" shall include disclosure in a press release reported by the Dow Jones News Service, Associated Press or comparable national news service or in a document publicly filed by the Corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the Exchange Act.

(i) Notwithstanding the foregoing provisions of this Section 12, a Stockholder seeking to include a proposal in a proxy statement that has been prepared by the Corporation to solicit proxies shall comply with all applicable requirements of the Exchange Act and the rules and regulations thereunder with respect to the matters set forth in this Section 12. Nothing in this Section 12 shall be deemed to affect any rights (i) of Stockholders to request inclusion of proposals in the Corporation's proxy statement pursuant to Rule 14a-8 promulgated under the Exchange Act or (ii) of the holders of any series of preferred stock to elect directors pursuant to any applicable provisions of the Certificate of Incorporation.

Section 13. Inspectors of Election. The Corporation shall, in advance of any meeting of Stockholders, appoint one or more inspectors of election, who may be employees of the Corporation, to act at the meeting or any adjournment thereof and to make a written report thereof. The Corporation may designate one or more persons as alternate inspectors to replace any inspector who fails to act. In the event that no inspector so appointed or designated is able to act at a meeting of Stockholders, the chair of the meeting shall appoint one or more inspectors to act at the meeting. The inspector or inspectors so appointed or designated shall (a) ascertain the number of Shares outstanding and the voting power of each such Share, (b) determine the Shares of the Corporation represented at the meeting and the validity of proxies and ballots, (c) count all votes and ballots, (d) determine and retain for a reasonable period a record of the disposition of any challenges made to any determination by the inspectors, and (e) certify their determination of the number of Shares of the Corporation represented at the meeting and such inspectors' count of all votes and ballots. Such certification and report shall specify such other information as may be required by law. In determining the validity and counting of proxies and ballots cast at any meeting of Stockholders of the Corporation, the inspectors may consider such information as is permitted by applicable law. No person who is a nominee for an office at an election may serve as an inspector at such election.

ARTICLE IV

BOARD OF DIRECTORS

Section 1. General Powers. The business and affairs of the Corporation shall be managed under the direction of its Board of Directors, except as otherwise provided in the Certificate of Incorporation or permitted under the DGCL.

Section 2. Number and Qualifications. Subject to the Certificate of Incorporation, the number of directors of the Corporation shall be fixed or changed from time to time by resolution adopted by the Board of Directors. Directors need not be residents of the State of Delaware or Stockholders of the Corporation. A director of the Corporation shall at all times meet all statutory and regulatory qualifications for a director of a publicly held bank holding company and financial holding company, as well as all requirements of the Corporation's primary regulators in their supervisory capacity.

Section 3. Terms of Directors. The terms of all directors shall expire at the next annual Stockholders meeting following their election or upon a director's earlier death, resignation, disqualification or removal. A decrease in the number of directors does not shorten an incumbent director's term. The term of a director elected to fill a vacancy shall expire at the next Stockholders meeting at which directors are elected or upon such director's earlier death, resignation, disqualification or removal. Despite the expiration of a director's term, however, such director shall continue to serve until the director's successor is elected and qualified or until such director's earlier death, resignation, disqualification or removal. Any director may be removed at any time with or without cause by the affirmative vote of the holders of a majority

of the voting power of the outstanding Shares then entitled to vote at an election of directors. Any director may resign at any time upon notice to the Corporation.

Section 4. Vacancies and Newly Created Directorships. Except in those instances where the Certificate of Incorporation or applicable law provides otherwise, a majority of directors then in office, although less than a quorum, or a sole remaining director, may fill a vacancy or a newly created directorship on the Board of Directors. A vacancy that will occur at a specific later date (by reason of a resignation effective at a later date or otherwise) may be filled before the vacancy occurs by a majority of directors then in office, including those who have so resigned, but the new director may not take office until the vacancy occurs.

Section 5. Compensation. The Board of Directors may provide for the compensation of directors for their services as such and may provide for the payment or reimbursement of any or all expenses reasonably incurred by them in attending meetings of the Board or of any committee of the Board or in the performance of their other duties as directors.

Section 6. Committees. The Board of Directors may from time to time create or eliminate one or more committees, including but not limited to Audit, Compensation and Human Capital, Corporate Governance, ESG, and Sustainability, and Enterprise Risk committees, and appoint members of the Board of Directors to serve on them. Each committee must have one or more members who serve at the pleasure of the Board of Directors, and the Board of Directors shall periodically review, and approve any changes to, the charter describing the duties of each committee. The provisions of the DGCL and these Bylaws that govern meetings, action without meetings, notice and waiver of notice, and quorum and voting requirements of the Board of Directors, shall apply to committees and their members as well. Each committee may exercise the authority of the Board of Directors to the extent provided by the Board of Directors, and to the fullest extent permitted by the DGCL and other applicable law. Nothing contained in this Section 6 shall preclude the Board of Directors from establishing and appointing any committee, whether of directors or otherwise, not having or exercising the authority of the Board of Directors.

Section 7. Chair of the Board. The Board of Directors may elect from among its members a director designated as the Chair of the Board, but the appointment of a Chair of the Board shall not be required. If a Chair of the Board shall be elected, then the Chair of the Board shall have such other duties and authority as may be prescribed by the Board of Directors from time to time. In general, the Chair of the Board shall perform all duties incident to the position of chair of the board or as may be prescribed by the Board of Directors or these Bylaws from time to time. The Board of Directors, by the affirmative vote of a majority of its members, may remove the Chair of the Board.

Section 8. Lead Independent Director. A majority of the independent members of the Board of Directors may elect from among the independent members of the Board of Directors a Lead Independent Director, but the election of a Lead Independent Director shall not be required. The Lead Independent Director may be removed as a Lead Independent Director by vote of a majority of the independent members of the Board of Directors. If a Lead Independent Director shall be

elected, then the Lead Independent Director shall have such duties and authority as may be prescribed by the Board of Directors from time to time. For purposes of this Bylaw, “independent” has the meaning set forth in the NYSE listing standards, unless the Corporation’s Common Stock ceases to be listed on the NYSE and is listed on another exchange, in which case such exchange’s definition of independent director shall apply.

Section 9. Inclusion of Director Nominations by Stockholders in the Corporation’s Proxy Materials.

(a) Subject to the terms and conditions set forth in these Bylaws, the Corporation shall include in its proxy statement and form of proxy (hereinafter, the “proxy materials”) for an annual meeting of Stockholders, in addition to the persons nominated for election by the Board of Directors or any committee thereof, the name, and with respect to the proxy statement, the Required Information (defined below), of any person nominated for election (the “Stockholder Nominee”) to the Board of Directors by one or more Stockholders that satisfies the notice, ownership and other requirements of this Section 9 (such person or group, the “Eligible Stockholder”).

(b) To nominate a Stockholder Nominee, the Eligible Stockholder must provide a notice that expressly elects to have its Stockholder Nominee included in the Corporation’s proxy materials pursuant to this Section 9 (the “Notice of Proxy Access Nomination”). To be timely, a Notice of Proxy Access Nomination must be delivered to the Secretary at the principal executive offices of the Corporation by registered mail, return receipt requested, not earlier than the one hundred fiftieth (150th) calendar day and no later than the close of business on the one hundred twentieth (120th) calendar day prior to the anniversary of the date the Corporation commenced mailing of its proxy materials in connection with the most recent annual meeting of Stockholders (the last day on which a Notice of Proxy Access Nomination may be delivered, the “Final Proxy Access Nomination Date”), provided that in the event that the date of such annual meeting is more than thirty (30) calendar days before or seventy (70) calendar days after its anniversary date, the Notice of Proxy Access Nomination must be so delivered not later than the close of business on the later of (i) the one hundred twentieth (120th) calendar day prior to such annual meeting or (ii) the tenth (10th) calendar day following the day on which a public announcement of the annual meeting date is first made. In addition to other requirements set forth in this Section 9, the Notice of Proxy Access Nomination must include the name and address of the Eligible Stockholder (including each Stockholder and/or beneficial owner whose stock ownership is counted for the purposes of qualifying as an Eligible Stockholder).

(c) For purposes of this Section 9, the “Required Information” that the Corporation will include in its proxy statement is (i) the information concerning the Stockholder Nominee and the Eligible Stockholder that the Corporation determines is required to be disclosed in the Corporation’s proxy materials by the regulations promulgated under the Exchange Act; and (ii) if the Eligible Stockholder so elects, a Statement (defined below). Nothing in this Section 9 shall limit the Corporation’s ability to solicit against and include in its proxy materials its own statements relating to any Stockholder Nominee.

(d) The maximum number of Stockholder Nominees (including Stockholder Nominees that were submitted by an Eligible Stockholder for inclusion in the Corporation's proxy materials pursuant to this Section 9 but either are subsequently withdrawn or that the Board of Directors decides to nominate as Board of Director nominees) appearing in the Corporation's proxy materials with respect to an annual meeting of Stockholders shall not exceed 20% of the number of directors in office as of the Final Proxy Access Nomination Date, or if such number is not a whole number, the closest whole number below 20% (the "Permitted Number"); provided, however, that the Permitted Number shall be reduced, but not below zero, by the number of such director candidates for which the Corporation shall have received one or more valid notices that a Stockholder (other than an Eligible Stockholder) intends to nominate director candidates at such applicable annual meeting of Stockholders pursuant to Article III, Section 12 of these Bylaws; provided, further, that in the event that one or more vacancies for any reason occurs on the Board of Directors at any time after the Final Proxy Access Nomination Date and before the date of the applicable annual meeting of Stockholders and the Board of Directors resolves to reduce the size of the Board of Directors in connection therewith, the Permitted Number shall be calculated based on the number of directors in office as so reduced. In the event that the number of Stockholder Nominees submitted by Eligible Stockholders pursuant to this Section 9 exceeds the Permitted Number, each Eligible Stockholder will select one Stockholder Nominee for inclusion in the Corporation's proxy materials until the Permitted Number is reached, with preference provided based on the number (largest to smallest) of Shares owned by each Eligible Stockholder pursuant to this Section 9. If the Permitted Number is not reached after each Eligible Stockholder has selected one Stockholder Nominee, this selection process will continue as many times as necessary, following the same order each time, until the Permitted Number is reached.

(e) An Eligible Stockholder is one or more Stockholders who owns and has owned, or are acting on behalf of one or more beneficial owners who own and have owned (as defined below), for at least three years as of date the Notice of Proxy Access Nomination is received by the Corporation, Shares representing at least 3% of the voting power entitled to vote generally in the election of directors (the "Required Shares"), and who continue to own the Required Shares at all times between the date the Notice of Proxy Access Nomination is received by the Corporation and the date of the applicable annual meeting of Stockholders, provided that the aggregate number of Stockholders, and, if and to the extent that a Stockholder is acting on behalf of one or more beneficial owners, of such beneficial owners, whose stock ownership is counted for the purposes of satisfying the foregoing ownership requirement shall not exceed twenty (20). Two or more funds that are (i) under common management and investment control or (ii) under common management and funded primarily by a single employer (such funds together under each of (i) or (ii) comprising a "Qualifying Fund") shall be treated as one Stockholder for the purpose of determining the aggregate number of Stockholders in this Section 9(e), and treated as one person for the purpose of determining ownership in Section 9(f), provided that each fund comprising a Qualifying Fund otherwise meets the requirements set forth in this Section 9. No Stockholder or beneficial holder may be a member of more than one group constituting an Eligible Stockholder under this Section 9.

(f) For purposes of calculating the Required Shares, “ownership” shall be deemed to consist of and include only the outstanding Shares as to which a person possesses both (i) the full voting and investment rights pertaining to the Shares and (ii) the full economic interest in (including the opportunity for profit and risk of loss on) such Shares; provided that the ownership of Shares calculated in accordance with clauses (i) and (ii) shall not include any Shares (A) that a person has sold in any transaction that has not been settled or closed, (B) that a person has borrowed or purchased pursuant to an agreement to resell or (C) subject to any option, warrant, forward contract, swap, contract of sale, other derivative or similar agreement entered into by a person, whether any such instrument or agreement is to be settled with Shares or with cash based on the notional amount or value of Shares, in any such case which instrument or agreement has, or is intended to have, the purpose or effect of (1) reducing in any manner, to any extent or at any time in the future, the person’s full right to vote or direct the voting of any such Shares, and/or (2) hedging, offsetting or altering to any degree gain or loss arising from the full economic ownership of such person’s Shares. “Ownership” shall include Shares held in the name of a nominee or other intermediary so long as the person claiming ownership of such Shares retains the right to instruct how the Shares are voted with respect to the election of directors and possesses the full economic interest in the Shares, provided that this provision shall not alter the obligations of any Stockholder to provide the Notice of Proxy Access Nomination. Ownership of Shares shall be deemed to continue during any period in which Shares have been loaned if the person claiming ownership may terminate the Shares lending within three (3) days and during any period in which any voting power has been delegated by means of a proxy, power of attorney or other instrument or arrangement which is revocable at any time without condition. The determination of the extent of “ownership” of Shares for purposes of this Section 9 shall be made in good faith by the Board of Directors. The terms “owned,” “owning” and other variations of the word “own” shall have correlative meanings. An Eligible Stockholder shall include in its Notice of Proxy Access Nomination the number of Shares it is deemed to own for the purposes of this Section 9.

(g) No later than the Final Proxy Access Nomination Date, an Eligible Stockholder (including each Stockholder, fund comprising a Qualifying Fund and/or beneficial owner whose stock ownership is counted for the purposes of qualifying as an Eligible Stockholder) must provide the following information in writing to the Secretary: (i) one or more written statements from the record holder of the Shares (and from each intermediary through which the Shares are or have been held during the requisite three-year holding period) verifying that, as of the date the Notice of Proxy Access Nomination is sent to by the Corporation, the Eligible Stockholder owns, and has owned continuously for the preceding three (3) years, the Required Shares, and the Eligible Stockholder’s agreement to provide (A) within five (5) business days after the record date for the annual meeting, written statements from the record holder and intermediaries verifying the Eligible Stockholder’s continuous ownership of the Required Shares through the record date, and (B) immediate notice if the Eligible Stockholder ceases to own any of the Required Shares prior to the date of the applicable annual meeting of Stockholders; (ii) the written consent of each Stockholder Nominee to being named as a nominee for director in a proxy statement and form of proxy and to serving as a director if elected; and (iii) a copy of the Schedule 14N that has been filed with the Securities and Exchange Commission as required by Rule 14a-18 under the

Exchange Act. In addition, no later than the Final Proxy Access Nomination Date, an Eligible Stockholder (including each Stockholder, fund comprising a Qualifying Fund and/or beneficial owner whose stock ownership is counted for purposes of qualifying as an Eligible Stockholder) must provide to the Secretary a signed and written agreement of the Eligible Stockholder setting forth: (i) a representation that the Eligible Stockholder (A) acquired the Required Shares in the ordinary course of business and not with the intent to change or influence control of the Corporation, and does not presently have such intent, (B) intends to maintain qualifying ownership of the Required Shares through the date of the applicable annual meeting of Stockholders, (C) has not nominated and will not nominate for election to the Board of Directors at the applicable annual meeting of Stockholders any person other than its Stockholder Nominee, (D) has not engaged and will not engage in, and has not and will not be a “participant” in another person’s, “solicitation” within the meaning of Rule 14a-1(l) under the Exchange Act in support of the election of any individual as a director at the applicable annual meeting of Stockholders other than its Stockholder Nominee(s) or a nominee of the Board of Directors, (E) will not distribute to any Stockholder any form of proxy for the applicable annual meeting of Stockholders other than the form distributed by the Corporation, and (F) will provide facts, statements and other information in all communications with the Corporation and its Stockholders that are or will be true and correct in all material respects and do not and will not omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading and otherwise will comply with all applicable laws, rules and regulations in connection with any actions taken pursuant to this Section 9; (ii) a representation that the Eligible Stockholder intends to maintain ownership (as defined in this Section 9) of the Required Shares for at least one year following the applicable annual meeting of Stockholders; (iii) in the case of a nomination by a group of Stockholders that together is such an Eligible Stockholder, the designation by all group members of one group member that is authorized to act on behalf of all members of the nominating stockholder group with respect to the nomination and matters related thereto, including withdrawal of the nomination; and (iv) an undertaking that the Eligible Stockholder agrees to (A) assume all liability stemming from any legal or regulatory violation arising out of the Eligible Stockholder’s communications with the Stockholders of the Corporation or out of the information that the Eligible Stockholder provided to the Corporation, (B) indemnify and hold harmless the Corporation and each of its directors, officers and employees individually against any liability, loss or damages in connection with any threatened or pending action, suit or proceeding, whether legal, administrative or investigative, against the Corporation or any of its directors, officers or employees arising out of any nomination, solicitation or other activity by the Eligible Stockholder in connection with its efforts to elect the Stockholder Nominee pursuant to this Section 9, and (C) file with the Securities and Exchange Commission any solicitation or other communication with the Corporation’s Stockholders relating to the meeting at which the Stockholder Nominee will be nominated, regardless of whether any such filing is required under Regulation 14A of the Exchange Act or whether any exemption from filing is available for such solicitation or other communication under Regulation 14A of the Exchange Act. In addition, no later than the Final Proxy Access Nomination Date, a Qualifying Fund whose stock ownership is counted for purposes of qualifying as an Eligible Stockholder must provide to the Secretary documentation reasonably satisfactory to the Board of Directors that demonstrates that the funds comprising the Qualifying Fund are

either (i) under common management and investment control, or (ii) under common management and funded primarily by a single employer.

(h) The Eligible Stockholder may provide to the Secretary, at the time the information required by this Section 9 is provided, a written statement for inclusion in the Corporation's proxy materials for the applicable annual meeting of Stockholders, not to exceed 500 words, in support of the Eligible Stockholder's Stockholder Nominee (the "Statement"). Notwithstanding anything to the contrary contained in this Section 9, the Corporation may omit from its proxy materials any information or Statement (or portion thereof) that it, in good faith, believes would violate any applicable law or regulation.

(i) The Notice of Proxy Access Nomination shall set forth or be submitted with the following information and materials in writing: (i) an executed agreement, in a form deemed satisfactory by the Board of Directors or its designee, that (A) the Stockholder Nominee has read and agrees, if elected, to serve as a member of the Board of Directors, to adhere to the Corporation's Corporate Governance Guidelines and Code of Conduct and any other Corporation policies and guidelines applicable to directors, and (B) that the Stockholder Nominee is not and will not become a party to any compensatory, payment or other financial agreement, arrangement or understanding with any person or entity in connection with such Stockholder Nominee's nomination, service or action as a director of the Corporation, or any agreement, arrangement or understanding with any person or entity as to how the Stockholder Nominee would vote or act on any issue or question as a director, in each case that has not been disclosed to the Corporation; (ii) all completed and signed questionnaires requested of the Corporation's Board of Directors; and (iii) a representation that the Stockholder Nominee will provide, within five (5) business days of the Corporation's request, such additional information as the Corporation reasonably requests to permit the Board of Directors to determine (A) if such Stockholder Nominee is independent under the listing standards of each principal U.S. exchange upon which the Common Stock of the Corporation is listed, any applicable rules of the Securities and Exchange Commission, the Federal Reserve Board, the OCC and any publicly disclosed standards used by the Board of Directors in determining and disclosing the independence of the Corporation's directors, (B) if such Stockholder Nominee has any direct or indirect relationship with the Corporation other than those relationships that have been deemed categorically immaterial pursuant to the Corporation's Corporate Governance Guidelines, and (C) if such Stockholder Nominee is not and has not been subject to any event specified in Item 401(f) of Regulation S-K (or successor rule) of the Securities and Exchange Commission. In the event that any information or communications provided by the Eligible Stockholder or the Stockholder Nominee to the Corporation or its Stockholders is inaccurate, incomplete, ceases to be true and correct in any respect or omits a fact necessary to make the statements made, in light of the circumstances under which they were made, not misleading, each Eligible Stockholder or Stockholder Nominee, as the case may be, shall promptly notify the Secretary of any such inaccuracy or omission in such previously provided information and of the information that is required to make such information or communication true and correct; it being understood that providing any such notification shall not be deemed to cure any defect or limit the Corporation's rights to omit a Stockholder Nominee from its proxy materials as provided in this Section 9.

(j) Any Stockholder Nominee who is included in the Corporation's proxy materials for a particular annual meeting of Stockholders but either (i) withdraws from or becomes ineligible or unavailable for election at that annual meeting, or (ii) does not receive at least 20% of the votes cast in favor of the Stockholder Nominee's election, will be ineligible to be a Stockholder Nominee pursuant to this Section 9 for the next two (2) annual meetings of Stockholders. Any Stockholder Nominee who is included in the Corporation's proxy materials for a particular annual meeting of Stockholders, but subsequently is determined not to satisfy the eligibility requirements of this Section 9 or any other provision of the Corporation's Bylaws, Certificate of Incorporation, Corporate Governance Guidelines or other applicable regulation at any time before the applicable annual meeting of Stockholders, will not be eligible for election at the relevant annual meeting of Stockholders and may not be substituted by the Eligible Stockholder that nominated such Stockholder Nominee. Any Eligible Stockholder (including each Stockholder, fund comprising a Qualifying Fund and/or beneficial owner whose stock ownership is counted for the purposes of qualifying as an Eligible Stockholder) whose Stockholder Nominee is elected as a director at the annual meeting of Stockholders will not be eligible to nominate or participate in the nomination of a Stockholder Nominee for the following two (2) annual meetings of Stockholders other than the nomination of such previously elected Stockholder Nominee.

(k) The Corporation shall not be required to include, pursuant to this Section 9, a Stockholder Nominee in its proxy materials for any meeting of Stockholders, or, if the proxy statement already has been filed, to allow the nomination of a Stockholder Nominee, notwithstanding that proxies in respect of such vote may have been received by the Corporation: (i) if the Stockholder Nominee or the Eligible Stockholder (or any member of any group of Stockholders that together is such Eligible Stockholder) who has nominated such Stockholder Nominee has engaged in or is currently engaged in, or has been or is a "participant" in another person's, "solicitation" within the meaning of Rule 14a-1(l) under the Exchange Act in support of the election of any individual as a director at the applicable annual meeting of Stockholders other than its Stockholder Nominee(s) or a nominee of the Board of Directors; (ii) if another person is engaging in a "solicitation" within the meaning of Rule 14a-1(l) under the Exchange Act in support of the election of any individual as a director at the applicable annual meeting of Stockholders other than a nominee of the Board of Directors; (iii) who is not independent under the listing standards of each principal U.S. exchange upon which the Common Stock of the Corporation is listed, any applicable rules of the Securities and Exchange Commission, the Federal Reserve Board, the OCC, and any publicly disclosed standards used by the Board of Directors in determining and disclosing independence of the Corporation's directors, in each case as determined by the Board of Directors; (iv) who does not meet the audit committee independence requirements under the rules of any stock exchange on which the Corporation's securities are traded, is not a "non-employee director" for the purposes of Rule 16b-3 under the Exchange Act (or any successor rule), is not experienced in matters of risk management for the purposes of Regulation YY of the Federal Reserve Board, is not independent for the purposes of the requirements under the FDIC Improvement Act related to designation as an "outside director," and is not a U.S. citizen; (v) whose election as a member of the Board of Directors would cause the Corporation to be in violation of these Bylaws, the Certificate of Incorporation, the rules and listing standards of the principal U.S. securities exchanges upon which the Common Stock of the

Corporation is listed, or any applicable state or federal law, rule or regulation; (vi) who is or has been, within the past three (3) years, an officer or director of a competitor, for purposes of Section 8 of the Clayton Antitrust Act of 1914; (vii) whose election as a member of the Board of Directors would cause the Corporation to seek, or assist in the seeking of, advance approval or to obtain, or assist in the obtaining of, an interlock waiver pursuant to the rules or regulations of the Federal Reserve Board, the OCC or the Federal Energy Regulatory Commission; (viii) whose then-current or within the preceding ten (10) years' business or personal interests place such Stockholder Nominee in a conflict of interest with the Corporation or any of its subsidiaries that would cause such Stockholder Nominee to violate any fiduciary duties of directors under applicable law, including but not limited to, the duty of loyalty and duty of care, as determined by the Board of Directors; (ix) who is a named subject of a pending criminal proceeding (excluding traffic violations and other minor offenses) or has been convicted in such a criminal proceeding within the past ten (10) years; (x) if such Stockholder Nominee or the applicable Eligible Stockholder (or any member of any group of Stockholders that together is such Eligible Stockholder) shall have provided information to the Corporation in connection with such nomination that was untrue in any material respect or omitted to state a material fact necessary in order to make any statement made, in light of the circumstances under which it was made, not misleading, as determined by the Board of Directors or any committee thereof; (xi) the Eligible Stockholder (or any member of any group of Stockholders that together is such Eligible Stockholder) does not appear at the applicable annual meeting of Stockholders to present the Stockholder Nominee for election; (xii) the Eligible Stockholder (or any member of any group of Stockholders that together is such Eligible Stockholder) or applicable Stockholder Nominee otherwise breaches or fails to comply with its representations or obligations pursuant to these Bylaws, including, without limitation, this Section 9; or (xiii) the Eligible Stockholder ceases to be an Eligible Stockholder for any reason, including but not limited to not owning the Required Shares through the date of the applicable annual meeting. For the purpose of this paragraph, clauses (iii) through (xiii) will result in the exclusion from the proxy materials pursuant to this Section 9 of the specific Stockholder Nominee to whom the ineligibility applies, or, if the proxy statement already has been filed, the ineligibility of the Stockholder Nominee; however, clauses (i) and (ii) will result in the exclusion from the proxy materials pursuant to this Section 9 of all Stockholder Nominees from the applicable annual meeting of Stockholders, or, if the proxy statement already has been filed, the ineligibility of all Stockholder Nominees.

ARTICLE V

MEETINGS OF DIRECTORS

Section 1. Regular Meetings. A regular meeting of the Board of Directors shall be held without other notice than this Bylaw provision immediately after, and at the same place as, the annual meeting of the Stockholders. In addition, the Board of Directors may determine the date, time and place, within or without the State of Delaware for the holding of additional regular meetings.

Section 2. Special Meetings. Special meetings of the Board of Directors may be held at any date, time and place, within or without the State of Delaware, upon the call of the Chair of the Board, the Lead Independent Director, the Chief Executive Officer, the President or of the Secretary acting under instructions from the Chair of the Board, the Lead Independent Director, the Chief Executive Officer or the President, or upon the call of any three directors. Special meetings may be held at any date, time and place and without special notice by unanimous consent of the directors.

Section 3. Notice. The person or persons calling a special meeting of the Board of Directors shall, at least twenty-four (24) hours before the meeting, give notice thereof by any usual means of communication. Such notice may be communicated, without limitation, in person; by telephone, facsimile, or other electronic transmission; or by mail or private carrier. Notice of a directors' meeting is effective at the earliest of the following:

- (a) when received;
- (b) if by facsimile or other electronic transmission, when sent addressed to the director; or
- (c) on the date shown on the confirmation of delivery issued by United States mail or a private carrier, if sent by overnight delivery to the address of the director last known to the Corporation.

Oral notice is effective when actually communicated to the director. Notice of an adjourned meeting of directors need not be given if the time and place are fixed at the meeting being adjourned. The notice of any meeting of directors need not describe the purpose of the meeting unless otherwise required by the DGCL.

Section 4. Waiver of Notice. A director may waive any notice required by the DGCL, the Certificate of Incorporation or these Bylaws before or after the date and time stated in the notice. The waiver may be in writing, signed by the director entitled to the notice, or by electronic transmission of such director and filed with the minutes or corporate records, except that, notwithstanding the foregoing requirement of notice, a director's attendance at or participation in a meeting waives any required notice to the director of the meeting unless the director at the beginning of the meeting expressly objects to holding the meeting or transacting business at the meeting because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the directors or members of a committee of directors need be specified in any waiver of notice unless so required by the Certificate of Incorporation.

Section 5. Quorum. A majority of the number of directors in office immediately before the meeting begins, but in no case less than one-third (1/3) of the total number of directors fixed by the Board of Directors, shall constitute a quorum for the transaction of business at any meeting of the Board of Directors, but if a quorum is not present at a meeting, a majority of directors present may adjourn the meeting from time to time without further notice.

Section 6. Manner of Acting. Except as otherwise provided in the DGCL, the Certificate of Incorporation or herein, the act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors.

Section 7. Conduct of Meetings. The Chair of the Board shall preside at all meetings of the Board of Directors or, in the Chair of the Board's absence or at the Chair of the Board's request, the Lead Independent Director shall so preside; provided, however, that in the absence or at the request of both the Chair of the Board and the Lead Independent Director, or if there shall not be persons holding such offices, the person selected to preside at a meeting of directors by a vote of a majority of the directors present shall preside at such meeting. The Secretary, or in the absence or at the request of the Secretary, any person designated by the person presiding at a meeting of the Board of Directors, shall act as secretary of such meeting.

Section 8. Action Without a Meeting. Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if the action is taken by all members of the Board of Directors or such committee, as the case may be. The action must be evidenced by one or more consents in writing or by electronic transmission describing the action taken. After an action is taken, the consent or consents shall be filed with the records of the Board of Directors or of such committee in the same paper or electronic form as the minutes are maintained.

Section 9. Participation Other Than in Person. Members of the Board of Directors or any committee designated by the Board of Directors may participate in a Board of Directors or committee meeting by means of conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting pursuant to this Section 9 shall constitute presence in person at the meeting.

ARTICLE VI

OFFICERS

Section 1. Officers of the Corporation. The officers of the Corporation may include a Chief Executive Officer, a President, one or more Vice Chairs, one or more individuals designated by the Board of Directors as an "executive officer" for purposes of the Securities and Exchange Commission's rules and regulations (the "Executive Officers"), one or more Managing Directors (including the officer title of Directors), one or more Vice Presidents (including Executive Vice Presidents, Senior Vice Presidents and Assistant Vice Presidents), a Secretary, a Treasurer, a chief internal audit executive (the "Chief Audit Executive"), and such other officers, assistant or deputy officers and agents, as may be elected from time to time by or under the authority of the Board of Directors (collectively, with the Chief Executive Officer, the President, the Vice Chair, the Executive Officers, the Managing Directors, the Vice Presidents, the Secretary, the Treasurer, and the Chief Audit Executive, the "Officers"). The Officers shall have such duties and authorities as may be prescribed by these Bylaws, the Board of Directors, the Chief Executive Officer or by the Officer to whom such Officer reports.

The same individual may simultaneously hold more than one office in the Corporation, but no individual may act in more than one capacity where action of two or more Officers is required. The title of any Officer may include any additional designation descriptive of such Officer's duties as the Board of Directors may prescribe.

Section 2. Appointment and Term. The Officers of the Corporation shall be elected by the Board of Directors, by a duly authorized committee thereof or by an Officer authorized by the Board of Directors or a duly authorized committee thereof to elect one or more Officers; provided, however, that no Officer may be authorized to elect the Chief Executive Officer or the President. Each Officer shall hold office until such Officer's death, resignation, retirement, removal or disqualification or until such Officer's successor is elected and qualified.

Section 3. Compensation. The compensation of all Officers of the Corporation shall be fixed by or under the authority of the Board of Directors. No Officer shall be prevented from receiving such salary by reason of the fact that such Officer is also a director.

Section 4. Resignation and Removal of Officers. An Officer may resign at any time by communicating such Officer's resignation to the Corporation. A resignation is effective when it is communicated unless it specifies in writing or by electronic transmission a later effective date. If a resignation is made effective at a later date and the Corporation accepts the future effective date, the Board of Directors may fill the pending vacancy before the effective date if the Board of Directors provides that the successor does not take office until the effective date. The Board of Directors, by the affirmative vote of a majority of its members, may remove the Chief Executive Officer or the President whenever in its judgment the best interest of the Corporation would be served thereby. In addition, the Board of Directors or a duly authorized committee or an Officer authorized by the Board of Directors or a duly authorized committee thereof may remove any other Officer at any time with or without cause.

Section 5. Contract Rights of Officers. The appointment of an Officer does not itself create contract rights. An Officer's removal does not itself affect the Officer's contract rights, if any, with the Corporation, and an Officer's resignation does not itself affect the Corporation's contract rights, if any, with the Officer.

Section 6. Chief Executive Officer. The Board of Directors may elect a Chief Executive Officer. The Chief Executive Officer shall, subject to the direction and control of the Board of Directors, supervise and control the business and affairs of the Corporation. In general the Chief Executive Officer shall perform all duties incident to the position of chief executive officer or as may be prescribed by the Board of Directors or these Bylaws from time to time.

Section 7. President. The Board of Directors may elect a President. The President shall perform the duties and exercise the powers of that office and, in addition, the President shall perform such other duties and shall have such other authority as the Board of Directors shall prescribe. In general the President shall perform all duties incident to the position of president or as may be prescribed by the Board of Directors or these Bylaws from time to time. The Board of Directors shall, if it deems such action necessary or desirable, designate the Officer of the

Corporation who is to perform the duties of the President in the event of such Officer's absence or inability to act.

Section 8. Secretary. The Secretary shall keep the minutes of meetings of the Stockholders and of the Board of Directors and be custodian of the corporate records, and in general perform all duties incident to the office of the secretary and such other duties as from time to time may be prescribed by these Bylaws or assigned to the Secretary by the Chief Executive Officer, the Board of Directors or a committee created by the Board of Directors.

Section 9. Treasurer. The Treasurer shall have charge and custody of all funds and securities of the Corporation, and in general perform all of the duties incident to the office of Treasurer and such other duties as from time to time may be prescribed by these Bylaws, or assigned to the Treasurer by the Chief Executive Officer, the Board of Directors or a committee created by the Board of Directors.

ARTICLE VII

SHARES AND THEIR TRANSFER

Section 1. Shares. Shares of the Corporation will be uncertificated unless the Board of Directors by resolution determines otherwise. Shares represented by an existing certificate will remain certificated until such certificate is surrendered to the Corporation. Shares represented by certificates shall be in such form as shall be required by the DGCL, and as determined by the Board of Directors. If certificates are issued, each certificate shall be signed by, or in the name of the Corporation by, any two authorized Officers, including but not limited to the Chief Executive Officer, a Vice Chair of the Board, the President, a Vice President, the Secretary or the Treasurer of the Corporation certifying the number of Shares represented by such certificate. Any or all the signatures on the certificate may be a facsimile. In case any Officer or any transfer agent or registrar (whose roles are described in Article VII, Section 4 below) who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such Officer, transfer agent, or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if such person were such Officer, transfer agent, or registrar at the date of issue.

Section 2. Stock Transfer Books and Transfer of Shares. The Corporation, or its agent, shall keep a book or set of books to be known as the stock transfer books of the Corporation, containing the name of each stockholder of record, together with such Stockholder's address and the number and class or series of Shares held by such Stockholder. Transfer of Shares of the Corporation shall be made on the stock transfer books of the Corporation, and if such Shares are represented by certificates only upon surrender of the certificates for the Shares sought to be transferred by the holder of record thereof or by such holder's duly authorized agent, transferee or legal representative, who shall furnish proper evidence of authority to transfer with the Secretary. All certificates surrendered for transfer shall be canceled, and the Shares shall

thereafter be uncertificated, unless otherwise determined by a resolution of the Board of Directors.

Section 3. Lost Certificates. The Chief Executive Officer, the President, any Vice Chair, any Executive Officer, any Senior Vice President, any Managing Director, the Secretary, the Treasurer, or such other Officers, employees or agents as the Board of Directors or any of the designated Officers may direct, may authorize the issuance of uncertificated Shares, or, if determined by a resolution of the Board of Directors, a replacement stock certificate, in place of a certificate claimed to have been lost, stolen, destroyed or mutilated, upon receipt of an affidavit of such fact from the person or persons claiming the loss or destruction and any other documentation satisfactory to the Board of Directors or such Officer. At the discretion of the party reviewing such claim, any such claimant may be required to give the Corporation a bond in such sum as it may direct to indemnify against the loss from any claim with respect to the certificate claimed to have been lost, stolen or destroyed.

Section 4. Transfer Agent and Registrar; Regulations. The Corporation may, if and whenever the Board of Directors so determines, maintain in the State of Delaware or any other state of the United States, one or more transfer offices or agencies and also one or more registry offices, which offices and agencies may establish rules and regulations for the issue, transfer and registration of certificates and uncertificated Shares not inconsistent with these Bylaws or applicable law. No certificates for Shares in respect of which a Transfer Agent and Registrar shall have been designated shall be valid unless countersigned by such Transfer Agent and registered by such Registrar. Any such countersignature may be a facsimile. The Board may also make such additional rules and regulations as it may deem expedient concerning the issue, transfer and registration of certificates and uncertificated Shares.

ARTICLE VIII

INDEMNIFICATION

Section 1. Right to Indemnification. Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit, arbitration, alternative dispute mechanism, inquiry, judicial, administrative or legislative hearing, investigation or any other threatened, pending or completed proceeding, whether brought by or in the right of the Corporation or otherwise, including any and all appeals, whether of a civil, criminal, administrative, legislative, investigative or other nature (a "Proceeding"), by reason of the fact that such person is or was a director, officer, or employee of the Corporation or is or was serving at the request of the Corporation as a director, officer, manager or employee of an Affiliate or of another corporation, association, limited liability company, partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (an "Indemnitee"), whether the basis of such Proceeding is alleged action in an official capacity as a director, officer, manager, employee or agent or in any other capacity while serving as a director, officer, manager, or employee or agent, shall be vested with the contractual right to indemnification and be held harmless by the Corporation to the fullest extent authorized by the DGCL, as the same exists or

may hereafter be amended, against all expense, liability and loss (including attorneys' fees, judgments, fines, taxes, including ERISA excise taxes, or penalties and amounts paid in settlement) reasonably incurred or suffered by such Indemnitee in connection therewith if the Indemnitee acted in good faith and in a manner the Indemnitee reasonably believed to be in or not opposed to the best interest of the Corporation or other entity covered by this Article VIII, and, with respect to any criminal action or Proceeding, had no reasonable cause to believe that Indemnitee's conduct was unlawful. Such indemnification shall not be retroactively amended to adversely affect the rights of an Indemnitee in connection with any act, omissions, facts or circumstances occurring prior to the date of amendment, shall continue as to an Indemnitee who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the Indemnitee's heirs, executors and administrators; provided, however, that, except as provided in Section 3 of this Article VIII with respect to Proceedings to enforce rights to indemnification and advancement under this Article VIII, the Corporation shall indemnify any such Indemnitee in connection with a Proceeding (or part thereof) initiated by such Indemnitee (including claims and counterclaims, whether such counterclaims are asserted by (a) such Indemnitee, or (b) the Corporation in a Proceeding initiated by such Indemnitee) only if such Proceeding (or part thereof) was authorized by the Board of Directors of the Corporation. This Article shall supersede any conflicting provisions contained in the corporate governance documents of any Affiliate of the Corporation.

Section 2. Right to Advancement of Expenses. The Corporation shall pay the expenses (including attorney's fees) incurred by an Indemnitee in defending any Proceeding (an "Advancement of Expenses"); provided, however, that an Advancement of Expenses incurred by or on behalf of an Indemnitee shall be made only upon delivery to the Corporation of an undertaking (hereinafter an "Undertaking"), by or on behalf of such Indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (a "Final Adjudication") that such Indemnitee is not entitled to be indemnified for such expenses under this Section 2 or otherwise.

Section 3. Right of Indemnitee to Bring Suit. The rights to indemnification and to the Advancement of Expenses conferred in Sections 1 and 2 of this Article VIII, as limited by Section 7 hereof, are contract rights. If a claim under Sections 1 or 2 of this Article VIII is not paid in full by the Corporation within 60 days after a written claim has been received by the Corporation, except in the case of a claim for an Advancement of Expenses, in which case the applicable period shall be 20 days, the Indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. If successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an Advancement of Expenses pursuant to the terms of an Undertaking, the Indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit to the fullest extent permitted by law. In (i) any suit brought by the Indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the Indemnitee to enforce a right to an Advancement of Expenses) it shall be a defense that, and (ii) in any suit by the Corporation to recover an Advancement of Expenses pursuant to the terms of an Undertaking, the Corporation shall be entitled to recover such expenses upon a Final Adjudication that, the Indemnitee has not met any applicable standard for indemnification set

forth in the DGCL. Neither the failure of the Corporation (including its Board of Directors, a committee thereof or independent legal counsel) to have made a determination prior to the commencement of such suit that indemnification of the Indemnitee is proper in the circumstances because the Indemnitee has met the applicable standard of conduct set forth in the DGCL, nor an actual determination by the Corporation (including its Board of Directors, a committee thereof or independent legal counsel) that the Indemnitee has not met such applicable standard of conduct, shall create a presumption that the Indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the Indemnitee, be a defense to such suit. In any suit brought by the Indemnitee to enforce a right to indemnification or to an Advancement of Expenses hereunder, or by the Corporation to recover an Advancement of Expenses pursuant to the terms of an Undertaking, the burden of proving that the Indemnitee is not entitled to be indemnified, or to such Advancement of Expenses, under this Article or otherwise shall be on the Corporation.

Section 4. Non-Exclusivity of Rights. The rights to indemnification and to the Advancement of Expenses conferred in this Article shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, the Corporation's Certificate of Incorporation, Bylaws, agreement, vote of Stockholders or disinterested directors or otherwise.

Section 5. Insurance. The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or any person serving at the request of the Corporation as a director, officer, manager, employee or agent of another corporation, association, limited liability company, partnership, joint venture, trust or other enterprise, against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Section 6. Indemnification of Agents of the Corporation. The Corporation may, to the extent authorized from time to time by the Board of Directors or its designee, grant rights to indemnification, and to the Advancement of Expenses to any agent of the Corporation to the fullest extent of the provisions of this Article VIII with respect to the indemnification and Advancement of Expenses of directors and officers of the Corporation.

Section 7. Limitations on Indemnification. All indemnification and insurance provisions contained in this Article VIII are subject to the limitations and prohibitions imposed by federal law, including the Securities Act of 1933 and the Federal Deposit Insurance Act, and any implementing regulations concerning indemnification.

Section 8. Severability. If any provision or provisions of this Article VIII shall be held to be invalid, illegal or unenforceable for any reason whatsoever (a) the validity, legality and enforceability of the remaining provisions of this Article VIII (including, without limitation, all portions of any paragraph of this Article VIII containing any such provision held to be invalid, illegal or unenforceable, that are not by themselves invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby, and (b) to the fullest extent possible, the provisions of this Article VIII (including, without limitation, all portions of any paragraph of this Article VIII containing any such provision held to be invalid, illegal or unenforceable, that are not themselves

invalid, illegal or unenforceable) shall be construed so as to give effect to the intent of the parties that the Corporation provide protection to the Indemnitee to the fullest enforceable extent.

ARTICLE IX

GENERAL PROVISIONS

Section 1. Execution of Instruments. All indentures, mortgages, deeds, conveyances, contracts, notes, drafts, loan documents, letters of credit, master agreements, swap agreements, guarantees, discharges, releases, satisfactions, settlements, affidavits, bonds, undertakings, powers of attorney, and other instruments or contracts may be signed, executed, acknowledged, verified, attested, delivered or accepted on behalf of the Corporation by an Officer (as such term is defined in Article VI, Section 1) or any individual who is listed on the Corporation's Officer's payroll file in a position equal to any of the Officers, or such other officers, employees or agents as the Board of Directors, the Chief Executive Officer or any Officer reporting directly to the Chief Executive Officer may direct in a written delegation kept in the minute book of the Corporation. The provisions of this Section 1 are supplementary to any other provision of these Bylaws and shall not be construed to authorize execution of instruments otherwise dictated by law.

Section 2. Voting of Ownership Interests. The Chief Executive Officer, the President, any Vice Chair, any Executive Officer, the Secretary, the Treasurer, or such other Officers, employees or agents as the Board of Directors or such designated Officers may direct are authorized to vote, represent and exercise on behalf of the Corporation all rights incident to any and all shares of stock or other ownership interests in any Affiliate or any other corporations, associations, limited liability companies, partnerships, or other entities standing in the name of the Corporation. The authority herein granted to the individuals to vote or represent on behalf of the Corporation any and all ownership interests held by the Corporation may be exercised either by the individuals in person or by any duly executed proxy or power of attorney.

Section 3. Distributions. The Board of Directors may from time to time authorize, and the Corporation may pay or distribute, dividends or other distributions on its outstanding Shares in such manner and upon such terms and conditions as are permitted by the Certificate of Incorporation and the DGCL.

Section 4. Seal and Attestation. Any Officer of the Corporation is empowered to affix the corporate seal on all documents, and may attest the signature of any person executing an instrument on behalf of the Corporation. In the execution on behalf of the Corporation of any instrument, document, writing, notice or paper, it shall not be necessary to affix the corporate seal of the Corporation thereon, and any such instrument, document, writing, notice or paper when executed without said seal affixed thereon shall be of the same force and effect and as binding on the Corporation as if said corporate seal had been affixed thereon in each instance.

Section 5. Amendments. The Board of Directors may amend or repeal these Bylaws and may adopt new Bylaws; provided, however, that any amendment or repeal of, or the adoption of any Bylaw inconsistent with, Article III, Section 10 of these Bylaws shall also require the approval of

the Stockholders of the Corporation. The Stockholders of the Corporation may also amend or repeal these Bylaws and may adopt new Bylaws.

Section 6. Exclusive Forum. Unless the Corporation consents in writing to the selection of an alternative forum, (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any current or former director, officer, or other employee or agent or stockholder of the Corporation to the Corporation or the Corporation's stockholders, including a claim alleging the aiding and abetting of such a breach of fiduciary duty, (iii) any action asserting a claim against the Corporation or any current or former director, officer or other employee or agent of the Corporation arising pursuant to any provision of the DGCL or the Corporation's Certificate of Incorporation or these Bylaws (as any of the foregoing may be amended or restated from time to time), or as to which the DGCL confers jurisdiction on the Court of Chancery of the State of Delaware; (iv) any action asserting a claim governed by the internal affairs doctrine of the State of Delaware; or (v) any action asserting an "internal corporate claim" as that term is defined in Section 115 of the DGCL, shall be solely and exclusively brought in the Court of Chancery of the State of Delaware (or, if the Delaware Court of Chancery in the State of Delaware determines that it lacks jurisdiction over any such action or proceeding, another state or federal court located within the State of Delaware). Any person or entity purchasing or otherwise acquiring or holding any interest in Shares of capital stock of the Corporation shall be deemed to have notice of and consented to the provisions of this Article IX, Section 6.

ARTICLE X

EMERGENCY BYLAWS

Section 1. Emergency Bylaws. This Article X shall be operative during any emergency resulting from an attack on the United States or on a locality in which the Corporation conducts its business or customarily holds meetings of its Board of Directors or its Stockholders, or during any nuclear or atomic disaster or during the existence of any catastrophe, including, but not limited to, an epidemic or pandemic, and a declaration of a national emergency by the United States government, or other similar emergency condition, irrespective of whether a quorum of the Board of Directors or a standing committee thereof can be readily convened for action (an "Emergency"), notwithstanding any different or conflicting provision in the preceding Articles of these Bylaws, in the Certificate of Incorporation or in the DGCL. Without limiting any powers or emergency actions that the Board of Directors may take during an Emergency, during an Emergency, the Board of Directors may take any action that it determines to be practical and necessary to address the circumstances of the Emergency including, without limitation, taking the actions with respect to stockholder meetings and dividends as provided in the DGCL. To the extent not inconsistent with the provisions of this Article, the Bylaws provided in the preceding Articles and the provisions of the Certificate of Incorporation of the Corporation shall remain in effect during such Emergency, and upon termination of such Emergency, the provisions of this Article X shall cease to be operative.

Section 2. Meetings. During any Emergency, a meeting of the Board of Directors, or any committee thereof, may be called by any member of the Board of Directors, the Chair of the Board, the Lead Independent Director, the Chief Executive Officer, President, a Vice Chair, the Secretary or any Officer reporting directly to the Chief Executive Officer. Notice of the time and place of the meeting shall be given by any available means of communication by the person calling the meeting to such of the directors and the members of the Corporation's Management Operating Committee, or any successor committee thereto, (the "Designated Officers") as it may be feasible to reach. Such notice shall be given at such time in advance of the meeting as, in the judgment of the person calling the meeting, circumstances permit. As a result of any Emergency, the Board of Directors may determine that a meeting of Stockholders not be held at any place, but instead be held solely by means of remote communication in accordance with the DGCL.

Section 3. Quorum. At any meeting of the Board of Directors, or any committee thereof, called in accordance with Section 2 of this Article X, the presence of one director shall constitute a quorum for the transaction of business. Vacancies on the Board of Directors, or any committee thereof, may be filled by a majority vote of the directors in attendance at the meeting. In the event that no directors are able to attend a meeting of the Board of Directors, then the Designated Officers in attendance shall serve as directors for the meeting, without any additional quorum requirement and with full powers to act as directors of the Corporation.

Section 4. Amendments. At any meeting called in accordance with Section 2 of this Article X, the Board of Directors or the committees thereof, as the case may be, may modify, amend or add to the provisions of this Article X so as to make any provision that may be practical or necessary for the circumstances of the Emergency.

Section 5. Contingency Plan. The Corporation may develop a contingency plan for the management of the Corporation in the event of an Emergency. The contingency plan may be reviewed or modified by the Board of Directors from time to time as provided in this Article X.

Section 6. Liability. No Officer, director or employee of the Corporation acting in accordance with the provisions of this Article X shall be liable except for willful misconduct.

Section 7. Repeal or Change. The provisions of this Article X shall be subject to repeal or change by further action of the Board of Directors or by action of the Stockholders, but no such repeal or change shall modify the provisions of Section 6 of this Article X with regard to action taken prior to the time of such repeal or change.

OF THE SARBANES-OXLEY ACT OF 2002
FOR THE CHIEF EXECUTIVE OFFICER**

I, Brian T. Moynihan, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Bank of America Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
