Dated: April 15, 2025

Bank of America Reports 1Q25 Net Income of \$7.4 Billion and EPS of \$0.90
Revenue Up 6% YoY to \$27.4 Billion,¹ Net Interest Income Reached \$14.4 Billion (\$14.6 Billion FTE)^(A)
Balance Sheet Remained Strong With Approximately \$2 Trillion in Ending Deposits

1Q25 Financial Highlights^{2(B)}

- Net income of \$7.4 billion, or \$0.90 per diluted share, compared to \$6.7 billion, or \$0.76 per diluted share
- Revenue, net of interest expense, of \$27.4 billion (\$27.5 billion FTE),^(A) up 6%, driven by noninterest income growth across all segments and higher net interest income (NII)
 - NII of \$14.4 billion (\$14.6 billion FTE),^(A) up 3% from 1Q24 and 1% from 4Q24
 - The year-over-year increase reflected the benefits of several factors, including lower deposit costs, higher NII related to Global Markets activity and fixed-rate asset repricing, partially offset by the impacts of lower interest rates and one less day of interest accrual
 - The linked-quarter increase reflected the benefits of several factors, including lower deposit costs, higher NII related to Global Markets activity and fixed-rate asset repricing, partially offset by the impacts of lower interest rates and two fewer days of interest accrual
- Provision for credit losses of \$1.5 billion increased from \$1.3 billion in 1Q24 and was flat from 4Q24
 - Net charge-offs of \$1.5 billion were flat to 1Q24 and 4Q24
- Noninterest expense of \$17.8 billion, up 3%, driven primarily by higher revenue-related expenses and investments in people, technology, operations and brand, partially offset by the absence of the \$0.7 billion 1Q24 FDIC special assessment expense
- **Balance Sheet Remained Strong**
 - Average deposit balances of \$1.96 trillion increased 3%, seven consecutive quarters of growth
 - Average loans and leases of \$1.09 trillion increased 4%
 - Average Global Liquidity Sources of \$942 billion^(C)

 - Equities revenue reached new record of \$2.2 billion, up 17% including and excluding net DVA^(E)

From Chair and CEO Brian Moynihan:

"We had a good first quarter, with earnings per share of \$0.90 up from \$0.76 last year. This reflected growth in net interest income and fee income, while sales and trading delivered its 12th consecutive quarter of year-over-year revenue growth. Our business clients have been performing well; and consumers have shown resilience, continuing to spend and maintaining healthy credit quality. Though we potentially face a changing economy in the future, we believe the disciplined investments we have made for high-quality growth, our diverse set of businesses, and the team's relentless focus on Responsible Growth will remain a source of strength."

See page 10 for endnotes. Amounts may not total due to rounding.

From Chief Financial Officer Alastair Borthwick:

"We grew average deposits for the seventh consecutive quarter to nearly \$2 trillion. Asset quality remained stable reflecting years of responsible lending, while our strong capital and liquidity levels allowed us to support our clients' growth and return \$6.5 billion to shareholders. We run our business in a manner intended to withstand volatility for the long-term. And through our capabilities, relationships and financial flexibility, we believe we are well-positioned to continue delivering for our clients and shareholders."

All Other^{1,2}

- Net loss of \$4 million improved from a net loss of \$696 million in 1Q24, reflecting the absence of the \$0.7 billion 1Q24 FDIC special assessment accrual
- Total corporate effective tax rate (ETR) for the quarter was approximately 9%
 - Our tax rate is lower than the combination of the U.S. federal income tax rate and state tax rate, driven primarily by recurring tax credits on investments in renewable energy and affordable housing

Endnotes

- A We also measure NII and revenue, net of interest expense, on an FTE basis, which are non-GAAP financial measures. FTE basis is a performance measure used in operating the business that management believes provides investors with meaningful information on the interest margin for comparative purposes. We believe that this presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practice. NII on an FTE basis was \$14.6 billion, \$14.5 billion, \$14.1 billion, \$13.9 billion and \$14.2 billion for the three months ended March 31, 2025, December 31, 2024, September 30, 2024, June 30, 2024 and March 31, 2024, respectively. Revenue, net of interest expense, on an FTE basis, was \$27.5 billion, \$25.5 billion and \$26.0 billion for the three months ended March 31, 2025, December 31, 2024 and March 31, 2024, respectively. The FTE adjustment was \$145 million, \$154 million, \$147 million, \$160 million and \$158 million for the three months ended March 31, 2025, December 31, 2024, September 30, 2024, June 30, 2024 and March 31, 2024, respectively.
- B We present certain key financial and nonfinancial performance indicators (KPIs) that management uses when assessing consolidated and/or segment results. We believe this information is useful because it provides management and investors with information about underlying operational performance and trends. KPIs are presented in Consolidated and Business Segment Highlights on page 1, Balance Sheet, Liquidity, and Capital Highlights on page 9 and on the Segment pages for each segment.
- C Global Liquidity Sources (GLS) include cash and high-quality, liquid, unencumbered securities, inclusive of U.S. government securities, U.S. agency securities, U.S. agency mortgage-backed securities, and a select group of non-U.S. government and supranational securities, and other investment-grade securities, and are readily available to meet funding requirements as they arise. Transfers of liquidity among legal entities may be subject to certain regulatory and other restrictions.
- D Regulatory capital ratios at March 31, 2025 are preliminary. The Corporation reports regulatory capital ratios under both the Standardized and Advanced approaches. Capital adequacy is evaluated against the lower of the Standardized or Advanced approaches compared to their respective regulatory capital ratio requirements. The Corporation's binding ratio was the Tier 1 capital ratio under the Standardized approach at March 31, 2025 and the Total capital ratio under the Standardized approach at December 31, 2024 and March 31, 2024.
- E The below table includes Global Markets sales and trading revenue, excluding net DVA, which is a non-GAAP financial measure. We believe that the presentation of measures that exclude this item is useful because such measures provide additional information to assess the underlying operational performance and trends of our businesses and to allow better comparison of period-to-period operating performance.

- F Pretax, pre-provision income (PTPI) is a non-GAAP financial measure calculated by adjusting consolidated pretax income to add back provision for credit losses. Management believes that PTPI is a useful financial measure as it enables an assessment of the Company's ability to generate earnings to cover credit losses through a credit cycle and provides an additional basis for comparing the Company's results of operations between periods by isolating the impact of provision for credit losses, which can vary significantly between periods. For Reconciliations to GAAP Financial Measures, see page 18.
- G Reserve build (or release) is calculated by subtracting net charge-offs for the period from the provision for credit losses recognized in that period. The period-end allowance, or reserve, for credit losses reflects the beginning of the period allowance adjusted for net charge-offs recorded in that period plus the provision for credit losses and other valuation accounts recognized in that period.
- H Beginning in the first quarter of 2025, the VaR amounts for all periods presented are those used in the Corporation's risk management of its trading portfolios. Previously, the VaR amounts presented were those used for regulatory capital. The trading portfolio represents trading assets and liabilities, primarily consisting of regular underwriting or dealing in securities and derivative contracts, and acquiring positions as an accommodation to customers.

Forward-Looking Statements

Bank of America Corporation (the Corporation) and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "outlook," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent the Corporation's current expectations, plans or forecasts of its future results, revenues, liquidity, net interest income, provision for credit losses, expenses, efficiency ratio, capital measures, strategy, deposits, assets, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Corporation's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

* Website content is not incorporated by reference into this press release.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of our 2024 Annual Report on Form 10-K and in any of the Corporation's subsequent Securities and Exchange Commission filings: the Corporation's potential judgments, orders, settlements, penalties, fines and reputational damage, which are inherently difficult to predict, resulting from pending, threatened or future litigation and regulatory investigations, proceedings and enforcement actions, which the Corporation is subject to in the ordinary course of business, including matters related to our processing of unemployment benefits for California and certain other states, the features of our automatic credit card payment service, the adequacy of the Corporation's anti-money laundering and economic sanctions programs and the processing of electronic payments, including through the Zelle network, and related fraud, which are in various stages; the possibility that the Corporation's future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, and regulatory and government actions; the Corporation's ability to resolve representations and warranties repurchase and related claims; the impact of U.S. and global interest rates (including the potential for ongoing adjustments in interest rates), inflation, currency exchange rates, economic conditions, trade policies and tensions, including changes in, or the imposition of, tariffs and/or trade barriers and the economic impacts, volatility and uncertainty resulting therefrom, and geopolitical instability; the risks related to the discontinuation of reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Corporation's exposures to such risks, including direct, indirect and operational; the impact of the interest rate, inflationary, macroeconomic, banking and regulatory environment on the Corporation's assets, business, financial condition and results of operations; the impact of adverse developments affecting the U.S. or global banking industry, including bank failures and liquidity concerns, resulting in worsening economic and market volatility, and regulatory responses thereto; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties, including the impact of supply chain disruptions, inflationary pressures and labor shortages on economic conditions and our business; potential losses related to the Corporation's concentration of credit risk; the Corporation's ability to achieve its expense targets and expectations regarding revenue, net interest income, provision for credit losses, net charge-offs, effective tax rate, loan growth or other projections; variances to the underlying assumptions and judgments used in estimating banking book net interest income sensitivity; adverse changes to the Corporation's credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Corporation's assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements, stress capital buffer requirements and / or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Corporation's capital plans; the effect of changes in or interpretations of income tax laws and regulations; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards, derivatives regulations and potential changes to loss allocations between financial institutions and customers, including for losses incurred from the use of our products and services, including electronic payments and payment of checks, that were authorized by the customer but induced by fraud; the impact of failures or disruptions in or breaches of the Corporation's operations or information systems, or those of various third parties, including regulators and federal and state governments, such as from cybersecurity incidents; the risks related to the development, implementation, use and management of emerging technologies, including artificial intelligence and machine learning; the risks related to the transition and physical impacts of climate change; our ability to achieve environmental goals and targets or the impact of any changes in the Corporation's sustainability strategy, goals or targets; the impact of uncertain or changing political conditions or any future federal government shutdown and uncertainty regarding the federal government's debt limit or changes in fiscal, monetary or regulatory policy; the emergence of widespread health emergencies or pandemics; the impact of natural disasters, extreme weather events, military conflicts (including the Russia / Ukraine conflict, the conflicts in the Middle East, the possible expansion of such conflicts and potential geopolitical consequences), terrorism or other geopolitical events; and other matters.

Forward-looking statements speak only as of the date they are made, and the Corporation undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

⁽¹⁾ Return on average tangible common shareholders' equity and tangible book value per share of common stock are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. Tangible book value per share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock. See Reconciliations to GAAP Financial Measures on page 18.

⁽²⁾ Ratios do not include loans accounted for under the fair value option. Charge-off ratios are annualized for the quarterly presentation.

⁽³⁾ Balances do not include past due consumer credit card loans, consumer loans secured by real estate where repayments are insured by the Federal Housing Administration and individually insured long-term stand-by agreements (fully-insured home loans), and in general, other consumer and commercial loans not secured by real estate, and nonperforming loans held-for-sale or accounted for under the fair value option.

⁽⁴⁾ Regulatory capital ratios at March 31, 2025 are preliminary. Bank of America Corporation reports regulatory capital ratios under both the Standardized and Advanced approaches. Capital adequacy is evaluated against the lower of the Standardized or Advanced approaches compared to their respective regulatory capital ratio requirements. The Corporation's binding ratio was the Tier 1 capital ratio under the Standardized approach at March 31, 2025 and the Total capital ratio under the Standardized approach at December 31, 2024 and March 31, 2024.

⁽⁵⁾ Tangible equity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. Tangible common equity ratio equals period-end tangible common shareholders' equity divided by period-end tangible assets. Tangible shareholders' equity and tangible assets are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. See Reconciliations to GAAP Financial Measures on page 18.

⁽¹⁾ FTE basis is a non-GAAP financial measure. FTE basis is a performance measure used by management in operating the business that management believes provides investors with meaningful information on the interest margin for comparative purposes. The Corporation believes that this presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. Net interest income includes FTE adjustments of \$145 million, \$154 million and \$158 million for the first quarter of 2025 and the fourth and first quarters of 2024, respectively.

Bank of America Corporation and Subsidiaries

Reconciliations to GAAP Financial Measures

(Dollars in millions, except per share information)

The Corporation evaluates its business using certain non-GAAP financial measures, including pretax, pre-provision income (as defined in Endnote F on page 10) and ratios that utilize tangible equity and tangible assets, each of which is a non-GAAP financial measure. Tangible equity represents shareholders' equity or common shareholders' equity reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities ("adjusted" shareholders' equity or common shareholders' equity). Return on average tangible common shareholders' equity measures the Corporation's net income applicable to common shareholders as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total tangible assets (total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities). Return on average tangible shareholders' equity measures the Corporation's net income as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total tangible assets. Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding. These measures are used to evaluate the Corporation's use of equity. In addition, profitability, relationship and investment models all use return on average tangible shareholders' equity as key measures to support our overall growth goals.

See the tables below for reconciliations of these non-GAAP financial measures to the most directly comparable financial measures defined by GAAP for the three months ended March 31, 2025, December 31, 2024 and March 31, 2024. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in understanding its results of operations and trends. Other companies may define or calculate these non-GAAP financial measures differently.

Net Interest Income (FTE, \$B)¹

- Net interest income of \$14.4B (\$14.6B FTE)¹
 - Increased \$0.1B from 4Q24, driven by lower deposit costs, higher NII related to Global Markets (GM) activity, and fixed-rate asset repricing, partially offset by the impact of lower interest rates and ~(\$250MM) from two fewer days of interest accrual
 - Increased \$0.4B from 1Q24, as lower deposit costs, higher NII related to GM activity, and fixed-rate asset repricing more than offset the impact of lower interest rates and ~(\$125MM) from one less day of interest accrual
- Net interest yield of 1.99% increased 2 bps from 4Q24 and was flat vs. 1Q24
 - Blended cash and securities yield of 3.23% vs. total deposit rate paid of 1.79%
 - Excluding GM, net interest yield of 2.47%¹
- 100 bps parallel shift below the March 31, 2025 forward interest rate yield curve is estimated to reduce net interest income by \$2.2B over the next 12 months²

Expense and Efficiency

Total Noninterest Expense (\$B)

Efficiency Ratio

- 1Q25 noninterest expense of \$17.8B
 - Increased \$1.0B, or 6%, vs. 4Q24, driven primarily by seasonally-elevated payroll taxes, higher litigation costs, higher revenue-related expenses, and the absence of the \$0.3B release of the 4Q24 FDIC special assessment accrual
 - Increased \$0.5B, or 3%, vs. 1Q24, driven primarily by higher revenue-related expenses and investments in people, technology, operations, and brand, partially offset by the absence of the \$0.7B 1Q24 FDIC special assessment accrual

Note: Amounts may not total due to rounding.

¹ Represent non-GAAP financial measures. For important presentation information, see slide 35. Adjusted 1Q24 efficiency ratio is calculated as the reported 1Q24 efficiency ratio of 67% less 271 bps for the impact of the FDIC special assessment accrual. Adjusted 4Q24 efficiency ratio is calculated as the reported 4Q24 efficiency ratio of 66% less 118 bps for the impact of the FDIC special assessment reduction.

Asset Quality

Net Charge-offs (\$MM)¹

Provision for Credit Losses (\$MM)

¹ Excludes loans measured at fair value.

² Allowance for loan and lease losses ratio is calculated as allowance for loan and lease losses divided by loans and leases outstanding at the end of the period.

- Total net charge-offs¹ of \$1.5B decreased \$14MM from 4Q24
 - Consumer net charge-offs of \$1.1B increased \$12MM, driven primarily by seasonally-higher credit card losses
 - Credit card loss rate of 4.05% in 1Q25 vs. 3.79% in 4Q24
 - Commercial net charge-offs of \$333MM decreased \$26MM
 - Net charge-off ratio of 0.54% was flat to 4Q24
- Provision for credit losses of \$1.5B was flat to 4Q24
 - Net reserve build of \$28MM in 1Q25 vs. net reserve release of \$14MM in 4Q24
- Allowance for loan and lease losses of \$13.3B represented 1.20% of total loans and leases^{1,2}
 - Total allowance of \$14.4B included \$1.1B for unfunded commitments
- Early- and late-stage credit card delinquencies declined from 4Q24
- Nonperforming loans of \$6.1B increased \$0.1B from 4Q24
- Commercial reservable criticized utilized exposure of \$27.7B increased \$1.2B from 4Q24

Notes

- ^A Global Liquidity Sources (GLS) include cash and high-quality, liquid, unencumbered securities, inclusive of U.S. government securities, U.S. agency securities, U.S. agency MBS, and a select group of non-U.S. government and supranational securities, and other investment-grade securities, and are readily available to meet funding requirements as they arise. Transfers of liquidity among legal entities may be subject to certain regulatory and other restrictions.
- ^B Reserve build (or release) is calculated by subtracting net charge-offs for the period from the provision for credit losses recognized in that period. The period-end allowance, or reserve, for credit losses reflects the beginning of the period allowance adjusted for net charge-offs recorded in that period plus the provision for credit losses and other valuation accounts recognized in that period.
- ^C Pretax, pre-provision income (PTPI) at the consolidated level is a non-GAAP financial measure calculated by adjusting consolidated pretax income to add back provision for credit losses. Similarly, PTPI at the segment level is a non-GAAP financial measure calculated by adjusting the segments' pretax income to add back provision for credit losses. Management believes that PTPI (both at the consolidated and segment level) is a useful financial measure as it enables an assessment of the Corporation's ability to generate earnings to cover credit losses through a credit cycle as well as provides an additional basis for comparing the Corporation's results of operations between periods by isolating the impact of provision for credit losses, which can vary significantly between periods. See reconciliation below.

- ^D Interest rate sensitivity as of March 31, 2025, reflects the potential pretax impact to forecasted net interest income over the next 12 months from March 31, 2025, resulting from an instantaneous parallel shock to the market-based forward curve. As part of our asset and liability management activities, we use securities, certain residential mortgages, and interest rate and foreign exchange derivatives in managing interest rate sensitivity. The sensitivity analysis assumes that we take no action in response to this rate shock and does not assume any change in other macroeconomic variables normally correlated with changes in interest rates. The sensitivity analysis incorporates potential movements in customer behavior that could result in changes in both total customer deposit balances and balance mix in various interest rate scenarios. In lower rate scenarios, the analysis assumes that a portion of higher-yielding deposits or market-based funding are replaced with low-cost or noninterest-bearing deposits.
- ^E Forward-looking statements related to the Corporation's NII outlook are based on the Corporation's baseline NII forecast that takes into account expected future business growth, ALM positioning, and the future direction of interest rate movements as implied by market-based curves, including, among others, the Corporation's current expectations regarding expected interest rate cuts, the expected impact of two additional days compared to 1Q, the expected benefit to NII from fixed-rate asset repricing, and a range of expected loan and deposit growth. These statements are not guarantees of future results or performance and involve known and unknown risks, uncertainties, and assumptions that are difficult to predict and are often beyond the Corporation's control. For more information, see Forward-Looking Statements on slide 34.
- ^F Revenue for all periods included net debit valuation adjustments (DVA) on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Net DVA gains (losses) were \$19MM, (\$19MM), (\$85MM), \$14MM, and \$69MM for 1Q25, 4Q24, 1Q24, 1Q23, and 1Q22, respectively. Net DVA gains (losses) included in FICC revenue were \$15MM, (\$18MM), (\$76MM), \$11MM, and \$60MM for 1Q25, 4Q24, 1Q24, 1Q23, and 1Q22, respectively. Net DVA gains (losses) included in Equities revenue were \$4MM, (\$1MM), (\$9MM), \$3MM, and \$9MM for 1Q25, 4Q24, 1Q24, 1Q23, and 1Q22, respectively.
- ^G VaR model uses a historical simulation approach based on three years of historical data and an expected shortfall methodology equivalent to a 99% confidence level. Using a 95% confidence level, average VaR was \$39MM, \$35MM, \$31MM, \$30MM, and \$22MM for 1Q25, 4Q24, 1Q24, 1Q23, and 1Q22, respectively. Beginning in the first quarter of 2025, the VaR amounts for all periods presented are those used in the Corporation's risk management of its trading portfolios. Previously, the VaR amounts presented were those used for regulatory capital. The trading portfolio represents trading assets and liabilities, primarily consisting of regular underwriting or dealing in securities and derivative contracts, and acquiring positions as an accommodation to customers.

Forward-Looking Statements

Bank of America Corporation (the Corporation) and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "outlook," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent the Corporation's current expectations, plans or forecasts of its future results, revenues, liquidity, net interest income, provision for credit losses, expenses, efficiency ratio, capital measures, strategy, deposits, assets, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Corporation's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of our 2024 Annual Report on Form 10-K and in any of the Corporation's subsequent Securities and Exchange Commission filings: the Corporation's potential judgments, orders, settlements, penalties, fines and reputational damage, which are inherently difficult to predict, resulting from pending, threatened or future litigation and regulatory investigations, proceedings and enforcement actions, which the Corporation is subject to in the ordinary course of business, including matters related to our processing of unemployment benefits for California and certain other states, the features of our automatic credit card payment service, the adequacy of the Corporation's anti-money laundering and economic sanctions programs and the processing of electronic payments, including through the Zelle network, and related fraud, which are in various stages; the possibility that the Corporation's future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, and regulatory and government actions; the Corporation's ability to resolve representations and warranties repurchase and related claims; the impact of U.S. and global interest rates (including the potential for ongoing adjustments in interest rates), inflation, currency exchange rates, economic conditions, trade policies and tensions, including changes in, or the imposition of, tariffs and/or trade barriers and the economic impacts, volatility and uncertainty resulting therefrom, and geopolitical instability; the risks related to the discontinuation of reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Corporation's exposures to such risks, including direct, indirect and operational; the impact of the interest rate, inflationary, macroeconomic, banking and regulatory environment on the Corporation's assets, business, financial condition and results of operations; the impact of adverse developments affecting the U.S. or global banking industry, including bank failures and liquidity concerns, resulting in worsening economic and market volatility, and regulatory responses thereto; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties, including the impact of supply chain disruptions, inflationary pressures and labor shortages on economic conditions and our business; potential losses related to the Corporation's concentration of credit risk; the Corporation's ability to achieve its expense targets and expectations regarding revenue, net interest income, provision for credit losses, net charge-offs, effective tax rate, loan growth or other projections; variances to the underlying assumptions and judgments used in estimating banking book net interest income sensitivity; adverse changes to the Corporation's credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Corporation's assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements, stress capital buffer requirements and / or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Corporation's capital plans; the effect of changes in or interpretations of income tax laws and regulations; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards, derivatives regulations and potential changes to loss allocations between financial institutions and customers, including for losses incurred from the use of our products and services, including electronic payments and payment of checks, that were authorized by the customer but induced by fraud; the impact of failures or disruptions in or breaches of the Corporation's operations or information systems, or those of various third parties, including regulators and federal and state governments, such as from cybersecurity incidents; the risks related to the development, implementation, use and management of emerging technologies, including artificial intelligence and machine learning; the risks related to the transition and physical impacts of climate change; our ability to achieve environmental goals and targets or the impact of any changes in the Corporation's sustainability strategy, goals or targets; the impact of uncertain or changing political conditions or any future federal government shutdown and uncertainty regarding the federal government's debt limit or changes in fiscal, monetary or regulatory policy; the emergence of widespread health emergencies or pandemics; the impact of natural disasters, extreme weather events, military conflicts (including the Russia / Ukraine conflict, the conflicts in the Middle East, the possible expansion of such conflicts and potential geopolitical consequences), terrorism or other geopolitical events; and other matters.

Forward-looking statements speak only as of the date they are made, and the Corporation undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Important Presentation Information

- The information contained herein is preliminary and based on Corporation data available at the time of the earnings presentation. It speaks only as of the particular date or dates included in the accompanying slides. Bank of America does not undertake an obligation to, and disclaims any duty to, update any of the information provided.
- The Corporation may present certain metrics and ratios, including year-over-year comparisons of revenue, noninterest expense, and pretax income, excluding certain items (e.g., DVA) that are non-GAAP financial measures. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in understanding its results of operations and trends. For more information about the non-GAAP financial measures contained herein, please see the presentation of the most directly comparable financial measures calculated in accordance with GAAP and accompanying reconciliations in the earnings press release for the quarter ended March 31, 2025, and other earnings-related information available through the Bank of America Investor Relations website at: <https://investor.bankofamerica.com/quarterly-earnings>, the content of which is not incorporated by reference into this presentation.
- The Corporation presents certain key financial and nonfinancial performance indicators (KPIs) that management uses when assessing consolidated and / or segment results. The Corporation believes this information is useful because it provides management with information about underlying operational performance and trends. KPIs are presented herein, including in the 1Q25 Financial Results on slide 5 and the Summary Income Statement for each segment.
- The Corporation also views revenue, net interest income, and related ratios and analyses on a fully taxable-equivalent (FTE) basis, which when presented on a consolidated basis are non-GAAP financial measures. The Corporation believes managing the business with net interest income on an FTE basis provides investors with meaningful information on the interest margin for comparative purposes. The Corporation believes that the presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. The FTE adjustment was \$145MM, \$154MM, \$147MM, \$160MM, and \$158MM for 1Q25, 4Q24, 3Q24, 2Q24, and 1Q24, respectively.
- The Corporation allocates capital to its business segments using a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. Allocated capital is reviewed periodically and refinements are made based on multiple considerations that include, but are not limited to, risk-weighted assets measured under Basel 3 Standardized and Advanced approaches, business segment exposures and risk profile, and strategic plans. As a result of this process, in the first quarter of 2025, the Corporation adjusted the amount of capital being allocated to its business segments.

Supplemental Information First Quarter 2025

Current-period information is preliminary and based on company data available at the time of the earnings presentation. It speaks only as of the particular date or dates included in the accompanying pages. Bank of America Corporation (the Corporation) does not undertake an obligation to, and disclaims any duty to, update any of the information provided. Any forward-looking statements in this information are subject to the forward-looking language contained in the Corporation's reports filed with the SEC pursuant to the Securities Exchange Act of 1934, which are available at the SEC's website (www.sec.gov*) or at the Corporation's website (www.bankofamerica.com*). The Corporation's future financial performance is subject to risks and uncertainties as described in its SEC filings.

⁽¹⁾ Pretax, pre-provision income (PTPI) is a non-GAAP financial measure calculated by adjusting pretax income to add back provision for credit losses. Management believes that PTPI is a useful financial measure because it enables an assessment of the Corporation's ability to generate earnings to cover credit losses through a credit cycle. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on page 29.)

⁽²⁾ Tangible equity ratios and tangible book value per share of common stock are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. Tangible book value per share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on page 29.)

⁽¹⁾ Regulatory capital ratios at March 31, 2025 are preliminary. The Corporation reports regulatory capital ratios under both the Standardized and Advanced approaches. Capital adequacy is evaluated against the lower of the Standardized or Advanced approaches compared to their respective regulatory capital ratio requirements. The Corporation's binding ratio was the Tier 1 capital ratio under the Standardized approach at March 31, 2025 and the Total capital ratio under the Standardized approach at December 31, 2024 and March 31, 2024.

⁽²⁾ Tangible equity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. Tangible common equity ratio equals period-end tangible common shareholders' equity divided by period-end tangible assets. Tangible shareholders' equity and tangible assets are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. (See Exhibit A: Non-GAAP Reconciliations - Reconciliation to GAAP Financial Measures on page 29.)

(1) FTE basis is a non-GAAP financial measure. FTE basis is a performance measure used by management in operating the business that management believes provides investors with meaningful information on the interest margin for comparative purposes. The Corporation believes that this presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. Net interest income includes FTE adjustments of \$145 million, \$154 million, \$147 million, \$160 million and \$158 million for the first quarter of 2025 and the fourth, third, second and first quarters of 2024, respectively.

⁽¹⁾ Investment banking fees represent total investment banking fees for *Global Banking* inclusive of self-led deals and fees included within Business Lending.

⁽²⁾ Advisory includes fees on debt and equity advisory and mergers and acquisitions.

⁽³⁾ Investment banking fees represent only the fee component in *Global Banking* and do not include certain other items shared with the Investment Banking Group under internal revenue sharing agreements.

⁽⁴⁾ Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories defined by regulatory authorities. The reservable criticized exposure is on an end-of-period basis and is also shown as a percentage of total commercial reservable utilized exposure, including loans and leases, standby letters of credit, financial guarantees, commercial letters of credit and bankers' acceptances.

⁽⁵⁾ Nonperforming loans, leases and foreclosed properties are on an end-of-period basis. The nonperforming ratio is nonperforming assets divided by loans, leases and foreclosed properties.

⁽¹⁾ Includes *Global Banking* sales and trading revenue of \$(37) million, \$182 million, \$165 million, \$186 million and \$144 million for the first quarter of 2025 and the fourth, third, second and first quarters of 2024, respectively.

⁽²⁾ For this presentation, sales and trading revenue excludes net debit valuation adjustment (DVA) gains (losses), which include net DVA on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Sales and trading revenue excluding net DVA gains (losses) represents a non-GAAP financial measure. We believe the use of this non-GAAP financial measure provides additional useful information to assess the underlying performance of these businesses and to allow better comparison of period-to-period operating performance.

⁽³⁾ Net DVA gains (losses) were \$19 million, \$(19) million, \$(8) million, \$(1) million and \$(85) million for the first quarter of 2025 and the fourth, third, second and first quarters of 2024, respectively. FICC net DVA gains (losses) were \$15 million, \$(18) million, \$(8) million, \$5 million and \$(76) million for the first quarter of 2025 and the fourth, third, second and first quarters of 2024, respectively. ⁽¹⁾ For amounts excluded from nonperforming loans, leases and foreclosed properties, see footnotes to Nonperforming Loans, Leases and Foreclosed Properties table on page 25.

⁽²⁾ Consumer loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection.

⁽³⁾ Our policy is not to classify consumer credit card and non-bankruptcy related consumer loans not secured by real estate as nonperforming; therefore, the charge-offs on these loans have no impact on nonperforming activity and, accordingly, are excluded from this table.

⁽⁴⁾ Includes repossessed assets of \$32 million in consumer loans and \$3 million in commercial loans for the first quarter of 2025. Includes \$29 million, \$21 million, \$22 million and \$22 million in consumer loans and \$2 million, \$1 million, \$2 million and \$1 million in commercial loans for the fourth, third, second and first quarters of 2024.

⁽⁵⁾ Includes U.S. small business commercial activity. Small business card loans are excluded as they are not classified as nonperforming.

⁽⁶⁾ Commercial loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection.

Exhibit A: Non-GAAP Reconciliations

Bank of America Corporation and Subsidiaries Reconciliations to GAAP Financial Measures

(Dollars in millions, except per share information)

The Corporation evaluates its business using certain non-GAAP financial measures, including pretax, pre-provision income and ratios that utilize tangible equity and tangible assets, each of which is a non-GAAP financial measure. Tangible equity represents shareholders' equity or common shareholders' equity reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities ("adjusted" shareholders' equity or common shareholders' equity). Return on average tangible common shareholders' equity measures the Corporation's net income applicable to common shareholders as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total tangible assets (total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities). Return on average tangible shareholders' equity measures the Corporation's net income as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total tangible assets. Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding. These measures are used to evaluate the Corporation's use of equity. In addition, profitability, relationship and investment models all use return on average tangible shareholders' equity as key measures to support our overall growth goals.

See the tables below for reconciliations of these non-GAAP financial measures to the most directly comparable financial measures defined by GAAP for the three months ended March 31, 2025, December 31, 2024, September 30, 2024, June 30, 2024 and March 31, 2024. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in understanding its results of operations and trends. Other companies may define or calculate these non-GAAP financial measures differently.
