Contingent Income Buffered Auto-Callable Yield Notes

Bank of America

Filed pursuant to Rule 433
Registration Statement No 333-213265-01

Terms of the Notes

The Contingent Income Buffered Auto-Callable Yield Notes Linked to the Least Performing of the EURO STOXX Banks Price Index and the SPDR® S&P® Oil & Gas Exploration & Production ETF (the "Notes") provide a monthly Contingent Coupon Payment of between [$8.3333 and $9.1667] (set on the pricing date) on the applicable Contingent Payment Date if, on the related montly Observation Date, the Observation Value of **each** Underlying is greater than or equal to its Coupon Barrier. Beginning in May 2020, if the Observation Value of **each** Underlying is greater than or equal to its Starting Value on any Observation Date occurring in February, May, August and November of each year (other than the final Observation Date), the Notes will be automatically called, in whole but not in part, at an amount equal to 100% of the principal amount, together with the relevant Contingent Coupon Payment. No further amounts will be payable following an Automatic Call. If the Notes are not automatically called, at maturity you will receive the Redemption Amount, calculated as described under "Redemption Amount Determination".

(1) The "Return on the Notes" is calculated based on the Redemption Amount and potential final Contingent Coupon Payment (assuming the midpoint of the Contingent Coupon Payment Range), not including any Contingent Coupon Payments paid prior to maturity.

(2) This amount represents the sum of the principal amount and the final Contingent Coupon Payment.

(3) This is the Underlying Return which corresponds to the Threshold Value of the Least Performing Underlying.

(4) This is the Underlying Return which corresponds to the Coupon Barrier of the Least Performing Underlying.

Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your return on the Notes is limited to the return represented by the Contingent Coupon Payments, if any, over the term of the Notes
- The Notes are subject to a potential Automatic Call, which would limit your ability to receive the Contingent Coupon Payments over the full term of the Notes.
- You may not receive any Contingent Coupon Payments and the Notes do not provide for any regular fixed coupon payments.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- Any payments on the Notes are subject to the credit risk of BofA Finance and the Guarantor, and actual or perceived changes in BofA Finance or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- The Contingent Coupon Payment or Redemption Amount, as applicable, will not reflect the values of the Underlyings other than on the Observation Dates.
- Because the Notes are linked to the least performing (and not the average performance) of the Underlyings, you may not receive any return on the Notes and may lose some or all of your principal amount even if the Observation Value of one Underlying is always greater than or equal to its Threshold Value.
- The stocks held by each Underlying are concentrated in one industry.
- The stocks of the companies in the oil and gas sector are subject to swift price fluctuations.
- The Notes are subject to risks associated with the banking industry.

You may revoke your offer to purchase the Notes at any time prior to the time at which we accept such offer on the date the Notes are priced. We reserve the right to change the terms of, or reject any offer to purchase, the Notes prior to their issuance. In the event of any changes to the terms of the Notes, we will notify you and you will be asked to accept such changes in connection with your purchase. You may also choose to reject such changes in which case we may reject your offer to purchase.
