SUMMARY OF TERMS

THIS SERIES TERM SHEET WILL BE SUPERSEDED IN ITS ENTIRETY BY THE INFORMATION PROVIDED IN THE FINAL PROSPECTUS SUPPLEMENT, THE FINAL PROSPECTUS AND THE SERIES 2000-C SUPPLEMENT TO THE POOLING AND SERVICING AGREEMENT DATED AS OF AUGUST 4, 1994 (AS AMENDED FROM TIME TO TIME, THE "AGREEMENT") BETWEEN MBNA, AS SELLER (THE "SELLER") AND AS SERVICER (THE "SERVICER") AND THE BANK OF NEW YORK, AS TRUSTEE (THE "TRUSTEE").

OFFERED SECURITIES

The Trust is offering the Class A Certificates and the Class B Certificates as part of Series 2000-C. The Certificates represent an interest in the assets of the Trust.

The Class B Certificates are subordinated to the Class A Certificates.

INTEREST PAYMENTS

The Class A Certificates will accrue interest for each Interest Period at the

Class A Certificate Rate set on the related LIBOR Determination Date. The "Class A Certificate Rate" is an annual rate equal to LIBOR plus %.

The Class B Certificates will accrue interest for each Interest Period at the Class B Certificate Rate set on the related LIBOR Determination Date. The "Class B Certificate Rate" is an annual rate equal to LIBOR plus %.

Interest accrued during each Interest Period will be due on each Distribution Date. Any interest due but not paid on a Distribution Date will be payable on the next Distribution Date together with additional interest at the applicable Certificate Rate plus 2% per annum.

. A "Distribution Date" is the 15th day of each month, or if that day is not a business day, the next business day. The first Distribution Date is June 15, 2000.

. Each "Interest Period" begins on and includes a Distribution Date and ends on but excludes the next Distribution Date. However, the first Interest Period will begin on and include April , 2000 (the "Closing Date") and end on but exclude June 15, 2000, the first Distribution Date.

. LIBOR is the rate for deposits in U.S. dollars for a one-month period which appears on the Bridge Telerate Page 3750 (or similar replacement page) as of 11:00 a.m., London time, on the related LIBOR Determination Date.

. "LIBOR Determination Dates" are:

. April , 2000, for the period beginning on and including the Closing Date and ending on but excluding May 15, 2000;

. May 11, 2000, for the period beginning on and including May 15, 2000 and ending on but excluding June 15, 2000; and

. the second London business day prior to the first day of each Interest Period, for each Interest Period following the first Interest Period.

#### PRINCIPAL PAYMENTS

You are expected to receive payment of principal in full on the "Scheduled Payment Date" which is February 15, 2005, or, if that date is not a business day, the next business day. However, certain circumstances could cause principal to be paid earlier or later, or in reduced amounts. No principal will be paid to the Class B Certificateholders until the Class A Certificateholders are paid in full.

The final payment of principal and interest on the Certificates will be made no later than July 16, 2007, or, if that date is not a business day, the next business day, called the "Legal Final Maturity" or the "Series 2000-C Termination Date."

#### THE COLLATERAL INTEREST

The Trust is also issuing an interest in the assets of the Trust that is subordinated to the Certificates called the "Collateral Interest." The initial Collateral Interest Amount is \$112,500,000, representing 7.5% of the initial aggregate principal amount of the Certificates plus the Collateral Interest. As a subordinated interest, the Collateral Interest is a form of Credit Enhancement for the Certificates. The Collateral Interest Holder will have voting and certain other rights as if the Collateral Interest were a subordinated class of certificates.

2

#### CREDIT ENHANCEMENT

Credit Enhancement for your Series is for your Series's benefit only, and you are not entitled to the benefits of any credit enhancement available to other Series.

Subordination of the Class B Certificates provides Credit Enhancement for the Class A Certificates. Subordination of the Collateral Interest provides Credit Enhancement for both the Class A Certificates and the Class B Certificates. The Collateral Interest and the Class B Investor Interest must be reduced to zero before the Class A Investor Interest will suffer any loss of principal. The Collateral Interest must be reduced to zero before the Class B Investor Interest will suffer any loss of principal.

#### OTHER INTERESTS IN THE TRUST

#### OTHER SERIES OF CERTIFICATES

The Trust has issued other Series of certificates and expects to issue additional Series of certificates. When issued by the Trust, the certificates of each of those Series also represent an interest in the assets of the Trust.

The Trust may issue additional Series with terms that may be different from any other Series without prior review or consent by any Certificateholders.

#### THE SELLER INTEREST

MBNA will own the "Seller Interest," which represents the remaining interest in the assets of the Trust not represented by the Certificates, the Collateral Interest and the other interests issued by the Trust. The Seller Interest does not provide credit enhancement for your Series or any other Series.

#### INFORMATION ABOUT THE RECEIVABLES

The Trust assets include Receivables from certain MasterCard(R) and VISA(R)\* revolving credit card accounts selected from MBNA's credit card account portfolio.

The Receivables consist of both Principal Receivables and Finance Charge Receivables.

"Principal Receivables" are, generally, (a) amounts charged by cardholders for goods and services and (b) cash advances.

"Finance Charge Receivables" are (a) the related finance charges and credit card fees and (b) for your Series, certain amounts of fees, called Interchange, collected through MasterCard and VISA and annual membership fees collected from cardholders.

#### COLLECTIONS BY THE SERVICER

The Servicer will collect payments on the Receivables and will deposit those collections in an account. The Servicer will keep track of those collections that are Finance Charge Receivables and those collections that are Principal Receivables.

#### ALLOCATIONS AND PAYMENTS TO YOU AND YOUR SERIES

Each month, the Servicer will allocate collections and the amount of Receivables that are not collected and are written off as uncollectible, called the Default Amount, among:

- . your Series, based on the size of the Investor Interest (initially \$1,500,000,000);
- . other outstanding Series, based on the size of their respective interests in the Trust; and
- . MBNA, based on the size of the Seller Interest.

The Trust assets allocated to your Series will be allocated to the following, based on varying percentages:

- . holders of the Class A Certificates, based on the Class A Investor Interest (initially \$1,275,000,000);
- . holders of the Class B Certificates, based on the Class B Investor Interest (initially \$112,500,000); and
- . the holder of the Collateral Interest, based on the Collateral Interest Amount (initially \$112,500,000).

- -----

\* MasterCard(R) and VISA(R) are federally registered servicemarks of MasterCard International Inc. and Visa U.S.A., Inc., respectively.

You are entitled to receive payments of interest and principal based upon allocations to your Series. The Investor Interest, which is the basis for allocations to your Series, is the sum of (a) the Class A Investor Interest, (b) the Class B Investor Interest and (c) the Collateral Interest Amount. The Class A Investor Interest, the Class B Investor Interest and the Collateral Interest Amount will initially equal the outstanding principal amount of the Class A Certificates, the Class B Certificates and the Collateral Interest. The Investor Interest will decline as a result of principal payments and may decline due to the writing off of Receivables or other reasons. If your investor interest declines, amounts allocated and available for payment to your Series and to you will be reduced.

#### ERISA CONSIDERATIONS

Subject to important considerations described in the Prospectus Supplement and in the Prospectus, the Class A Certificates are eligible for purchase by

persons investing assets of employee benefit plans or individual retirement accounts.

For the reasons discussed in the Prospectus Supplement and the Prospectus, the Class B Certificates are not eligible for purchase by persons investing assets of employee benefit plans or individual retirement accounts other than an insurance company investing assets of its general account.

CERTIFICATE RATINGS

The Class A Certificates are required to be rated in the highest rating category by at least one nationally recognized rating organization.

The Class B Certificates are required to be rated in one of the three highest rating categories by at least one nationally recognized rating organization.

EXCHANGE LISTING

We will apply to list the Certificates on the Luxembourg Stock Exchange. We cannot guaranty that the application for the listing will be accepted. You should consult with Deutsche Bank Luxembourg S.A., the Luxembourg listing agent for the Certificates, Boulevard Konrad Adenauer 2, L-1115 Luxembourg, phone number (352) 42 12 21, to determine whether or not the Certificates are listed on the Luxembourg Stock Exchange.

MBNA'S CREDIT CARD PORTFOLIO

GENERAL

The receivables (the "Receivables") conveyed or to be conveyed to the Trust by MBNA pursuant to the Agreement have been or will be generated from transactions made by holders of selected MasterCard and VISA credit card accounts (the "Accounts"), including premium accounts and standard accounts, from the portfolio of MasterCard and VISA accounts owned by the Seller (the "Bank Portfolio").

DELINQUENCY AND GROSS CHARGE-OFF EXPERIENCE

The following tables set forth the delinquency and gross charge-off experience for each of the periods shown for the Bank Portfolio of credit card accounts. The Bank Portfolio's delinquency and gross charge-off experience is comprised of segments which may, when taken individually, have delinquency and gross charge-off characteristics different from those of the overall Bank Portfolio of credit card accounts. As of the beginning of the day on March 3, 2000, the Receivables in the Trust Portfolio represented approximately 91% of the Bank Portfolio. Because the Trust Portfolio is only a portion of the Bank Portfolio, actual delinquency and gross charge-off experience with respect to the Receivables may be different from that set forth below for the Bank Portfolio. There can be no assurance that the delinquency and gross charge-off experience for the Receivables in the future will be similar to the historical experience of the Bank Portfolio set forth below.

- (1) Average receivables outstanding is the average of the daily receivable balance during the period indicated.
- (2) Total gross charge-offs as a percentage of average receivables outstanding for the months ended January 31, 2000 and February 29, 2000 were 5.51% and 5.49%, respectively, each calculated as an annualized figure. Total gross charge-offs are total principal and interest charge-offs before recoveries and do not include the amount of any reductions in average receivables outstanding due to fraud, returned goods, customer disputes or other miscellaneous credit adjustments.

THE RECEIVABLES

The Receivables conveyed to the Trust arise in Accounts selected from the Bank Portfolio on the basis of criteria set forth in the Agreement as applied on June 22, 1994 (the "Cut-Off Date") and, with respect to Additional Accounts, as of the related date of their designation (the "Trust Portfolio").

The Receivables in the Trust Portfolio, as of the beginning of the day on March 3, 2000, included \$49,607,360,133 of Principal Receivables and \$1,143,681,693 of Finance Charge Receivables. The Accounts had an average Principal Receivable balance of \$1,374 and an average credit limit of \$11,432. The percentage of the aggregate total Receivable balance to the aggregate total credit limit was 12.29%. The average age of the Accounts was approximately 48 months. As of the beginning of the day on March 3, 2000, cardholders whose Accounts are included in the Trust Portfolio had billing addresses in all 50 States and the District of Columbia. As of the beginning of the day on March 3, 2000, 34.1% of the Accounts were standard accounts and 65.9% were premium accounts, and the aggregate Principal Receivable balances of standard accounts and premium accounts, as a percentage of the total aggregate Principal Receivables, were 23.4% and 76.6%, respectively.

The following tables summarize the Trust Portfolio by various criteria as of the beginning of the day on March 3, 2000. Because the future composition of the Trust Portfolio may change over time, these tables are not necessarily indicative of the composition of the Trust Portfolio at any subsequent time.

PAYMENT RATES

The following table sets forth the highest and lowest cardholder monthly payment rates for the Bank Portfolio during any month in the periods shown and the average cardholder monthly payment rates for all months during the periods shown, in each case calculated as a percentage of total opening monthly account balances during the periods shown. Payment rates shown in the table are based on amounts which would be deemed payments of Principal Receivables and Finance Charge Receivables with respect to the Accounts.

RECEIVABLE YIELD CONSIDERATIONS

The gross revenues from finance charges and fees billed to accounts in the Bank Portfolio for each of the three calendar years contained in the period ended December 31, 1999 are set forth in the following table.

The historical yield figures in the following table are calculated on an accrual basis. Collections of Receivables included in the Trust will be on a cash basis and may not reflect the historical yield experience in the table. During periods of increasing delinquencies or periodic payment deferral programs, accrual yields may exceed cash amounts collected from cardholders. Conversely, cash yields may exceed accrual yields as amounts collected in a current period may include amounts accrued during prior periods. However, the Seller believes that during the three calendar years contained in the period ended December 31, 1999, the yield on an accrual basis closely approximated the yield on a cash basis. The yield on both an accrual and a cash basis will

8

be affected by numerous factors, including the monthly periodic finance charges on the Receivables, the amount of the annual membership fees and other fees, changes in the delinquency rate on the Receivables and the percentage of cardholders who pay their balances in full each month and do not incur monthly periodic finance charges.

</TABLE>

- 
- (1) Finance Charges and Fees are comprised of monthly periodic finance charges and other credit card fees.
  - (2) Average Account Monthly Accrued Finance Charges and Fees are presented net of adjustments made pursuant to MBNA's normal servicing procedures, including removal of incorrect or disputed monthly periodic finance charges.
  - (3) Average Account Balance includes purchases, cash advances and accrued and unpaid monthly periodic finance charges and other charges and is calculated

based on the average of the account balances during the periods shown for accounts with charging privileges.

- (4) Yield from Finance Charges and Fees is the result of dividing the annualized Average Account Monthly Accrued Finance Charges and Fees by the Average Account Balance for the period.
- (5) Yield from Interchange is the result of dividing annualized revenue attributable to Interchange received during the period by the Average Account Balance for the period. The amount of Interchange for each of the periods indicated above has been estimated.

The revenue for the Bank Portfolio of credit card accounts shown in the above table is comprised of monthly periodic finance charges, credit card fees and Interchange. These revenues vary for each account based on the type and volume of activity for each account. Because the Trust Portfolio is only a portion of the Bank Portfolio, actual yield with respect to Receivables may be different from that set forth above for the Bank Portfolio.
