INFORMATION INCLUDED IN THE REPORT

The Annual Report on Form 10-K for the year ended December 31, 1998 and filed with the Securities and Exchange Commission on March 22, 1999, is amended to reflect a change on the Report of Management, Item 8 on page 50.

Item 8. CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Management

The management of BankAmerica Corporation is responsible for the preparation, integrity and objectivity of the consolidated financial statements of the Corporation. The consolidated financial statements and notes have been prepared by the Corporation in accordance with generally accepted accounting principles and, in the judgment of management, present fairly the Corporation's financial position and results of operations. The financial information contained elsewhere in this report is consistent with that in the consolidated financial statements. The financial statements and other financial information in this report include amounts that are based on management's best estimates and judgments giving due consideration to materiality.

The Corporation maintains a system of internal accounting controls to provide reasonable assurance that assets are safe-guarded and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of consolidated financial statements in accordance with generally accepted accounting principles. Management recognizes that even a highly effective internal control system has inherent risks, including the possibility of human error and the circumvention or overriding of controls, and that the effectiveness of an internal control system can change with circumstances. However, management believes that the internal control system provides reasonable assurance that errors or irregularities that could be material to the consolidated financial statements are prevented or would be detected on a timely basis and corrected through the normal course of business. As of December 31, 1998, management believes that the internal controls are in place and operating effectively.

The Internal Audit Division of the Corporation reviews, evaluates, monitors and makes recommendations on both administrative and accounting control, which acts as an integral, but independent, part of the system of internal controls.

The independent accountants were engaged to perform an independent audit of the consolidated financial statements. In determining the nature and extent of their auditing procedures, they have evaluated the Corporation's accounting policies and procedures and the effectiveness of the related internal control system. An independent audit provides an objective review of management's responsibility to report operating results and financial condition. Their report appears on page 51.

The Board of Directors discharges its responsibility for the Corporation's consolidated financial statements through its Audit Committee. The Audit Committee meets periodically with the independent accountants, internal auditors and management. Both the independent accountants and internal auditors have direct access to the Audit Committee to discuss the scope and results of their work, the adequacy of internal accounting controls and the quality of financial reporting.
