#### Charge-Off Rates and Cash Yield for Outstanding Series of Certificates of BA Master Credit Card Trust II

Historically, we have disclosed gross charge-offs and cash yield including recoveries on defaulted accounts for the BA Master Credit Card Trust II portfolio of credit card accounts. Beginning with reporting of BA Master Credit Card Trust II portfolio performance data for September 2008, we will also disclose charge-offs net of recoveries and cash yield excluding recoveries. To facilitate comparisons of historical data going forward, the tables in Exhibits 99.1 and 99.2 set forth:

- the Series 2001-D allocation of principal charge-offs on defaulted accounts from the BA Master Credit Card
  Trust II portfolio for each of the months shown, both gross and net of recoveries on defaulted accounts, in
  each case as a percentage of the Investor Interest for Series 2001-D (adjusted for issuances of and final
  payment on BA Credit Card Trust notes within the applicable month),
- the Series 2001-D allocation of cash yield from cardholder payments on the credit card accounts comprising
  the BA Master Credit Card Trust II portfolio for each of the months shown, both with and without
  recoveries on defaulted accounts, in each case as a percentage of the Investor Interest for Series 2001-D
  (adjusted for issuances of and final payment on BA Credit Card Trust notes within the applicable month),
- the allocation to other outstanding Series of principal charge-offs on defaulted accounts from the BA Master Credit Card Trust II portfolio for each of the months shown, both gross and net of recoveries on defaulted accounts, in each case as a percentage of the applicable Series Investor Interest, and
- the allocation to other outstanding Series of the cash yield from cardholder payments on the credit card
  accounts comprising the BA Master Credit Card Trust II portfolio for each of the months shown, both with
  and without recoveries on defaulted accounts, in each case as a percentage of the applicable Series Investor
  Interest

Gross charge-offs consist of write-offs of principal receivables. If accrued finance charge receivables that have been written off were included in gross charge-offs, gross charge-offs would be higher as an absolute number and as a percentage of the applicable Series Investor Interest during the months indicated.

Cash yield includes collections of finance charges and fees, interest funding account and principal funding account investment earnings (net of investment expenses and losses), and recoveries on defaulted accounts. The cash yield in the following table is calculated on a cash basis. Finance charges and fees are comprised of monthly cash collections of periodic finance charges and other credit card fees including interchange.

Recoveries on defaulted accounts allocated to the BA Master Credit Card Trust II for a month are determined by multiplying recoveries (net of expenses) for the entire U.S. credit card portfolio received by FIA Card Services, National Association in the related month times:

- for the months after and including March 2008, the ratio of the principal charge-offs for the BA Master Credit Card Trust II portfolio for the related month to the principal charge-offs for the U.S. credit card portfolio for the same month, and
- for the months prior to March 2008, the ratio of the average total principal receivables for the BA Master Credit Card Trust II portfolio for the related month to the average total principal receivables for the U.S. credit card portfolio for the same month.

Prior to November 2001, recoveries were not included as collections of finance charge receivables for the BA Master Credit Card Trust II.

We cannot provide any assurance that the charge-off or cash yield experience for the BA Master Credit Card Trust II receivables in the future will be similar to the historical experience set forth in Exhibits 99.1 and 99.2.
