A class designation of notes determines the relative seniority for receipt of cash flows and funding of uncovered defaults on principal receivables allocated to the related series of notes. The Class B notes are subordinate to the Class A notes and the Class C notes are subordinate to the Class B notes. With respect to the tranches in each class of notes, the cash flows and funding of uncovered defaults will be allocated to the tranches on a pro rata basis.

Without noteholder consent, BA Credit Card Trust may issue a new series, class or tranche of notes at any time upon the satisfaction of certain conditions described in the underlying transaction agreements, including confirmation that (i) the issuer reasonably believes that the new issuance will not adversely affect the amount of funds available to be distributed to the holders of any outstanding notes or the timing of such distributions, and (ii) the new issuance will not cause a reduction, qualification or withdrawal of the ratings of any outstanding notes.

In addition, without noteholder consent and without the consent of any holders of certificates issued by BA Master Credit Card Trust II, BA Credit Card Funding, LLC has the right to designate, from time to time, additional eligible credit card accounts to BA Master Credit Card Trust II. The following table sets forth the principal charge-off experience for cardholder payments on the credit card accounts comprising the Master Trust II Portfolio for each of the periods shown. Charge-offs consist of write-offs of principal receivables. If accrued finance charge receivables that have been written off were included in total charge-offs, total charge-offs would be higher as an absolute number and as a percentage of the average of principal receivables outstanding during the periods indicated. Average principal receivables outstanding is the average of the daily principal receivables balance during the periods indicated. We cannot provide any assurance that the charge-off experience for the receivables in the future will be similar to the historical experience set forth below.

Total charge-offs are total principal charge-offs before recoveries and do not include any charge-offs of finance charge receivables or the amount of any reductions in average daily principal receivables outstanding due to fraud, returned goods, customer disputes or other miscellaneous adjustments.

Net charge-offs are total charge-offs less recoveries on receivables in Defaulted Accounts, determined as described below. Each month, BANA allocates amounts recovered (net of expenses) from the U.S. credit card portfolio to the Master Trust II Portfolio by dividing the total principal charge-offs for the Master Trust II Portfolio for the related calendar month by the total

principal charge-offs for the U.S. credit card portfolio for the same calendar month. Under the master trust II agreement, recoveries allocated to the Master Trust II Portfolio and transferred to Funding under the receivables purchase agreement are treated as collections of finance charge receivables.
