Merrill Lynch & Co., Inc.
Medium-Term Notes, Series C
Quarterly Income Strategic Return Notes®
Linked to the U.S. Select Foreign Access 25 Buy-Write Index
due September 2013
(the “Notes”)

US\$10 original public offering price per unit

Private Offering Notice
Summary Terms

The Notes:

- The Notes are designed for investors seeking exposure to a “covered call” strategy, as represented by the U.S. Select Foreign Access 25 Buy-Write Index (the “Index”), who want the potential to receive current income in the form of variable quarterly payments, and are willing to risk losing a significant portion of the \$10.00 original public offering price per unit if the level of the Index decreases or does not increase sufficiently over the term of the Notes.
 - We may make variable quarterly payments on the Notes beginning in December 2008.
 - The quarterly payments will vary and may be zero. For a given quarterly calculation period, the quarterly payment will equal the hypothetical dividend and premium income related to each of the stocks comprising the Index during that period, minus the amount subtracted from the level of the Index due to the application of the index adjustment factor during that period. The index adjustment factor accrues at a rate of 1.0% per annum on the closing levels of the Index and is deducted from the level of the index daily.
 - There is no principal protection on these Notes, and therefore you will not receive a minimum amount on the maturity date or upon exchange.
 - The Notes will not be listed on any securities exchange.
 - The Notes will be senior unsecured debt securities of Merrill Lynch & Co., Inc. and part of a series entitled “Medium-Term Notes, Series C”. The Notes will have the CUSIP No. .
 - The Notes are made available to each investor outside of the United States in a minimum initial investment of US\$50,000 (US\$100,000 for residents of the European Economic Area) or other amounts as permitted by local jurisdictions, and subject to any other restrictions, as may be applicable to an investor under the private offering rules of any jurisdiction outside of the United States.
- The pricing date for the Notes is expected to be September , 2008.
 - The settlement date for the Notes is expected to be September , 2008.

Payment on the maturity date or upon exchange:

- The amount an investor will receive on the maturity date or upon exchange, as applicable, will be based primarily on the direction of and percentage change in the level of the Index. For each \$10.00 unit, an investor will receive \$9.80 multiplied by the percentage change in the Index from the starting value, determined on the pricing date, to the ending value determined shortly before the maturity date or, if exchanged, the percentage change in the Index from the starting value to the exchange price determined shortly before the exchange date.
- The level of the Index must increase by approximately 2.04% from the starting value to the ending value in order for an investor to receive at least the \$10.00 original public offering price per unit on the maturity date. If the level of the Index has declined or has not increased sufficiently, an investor will receive less, and possibly significantly less, than the \$10.00 original public offering price per unit.
- An investor may also elect to exchange all or a portion of the investor’s Notes during a specified period in the month of September 2009, 2010, 2011 and 2012 by giving notice. Upon exchange an investor will receive a cash amount per unit equal to the redemption amount, calculated as if the exchange date were the stated maturity date, except that the ending value will be equal to the exchange price.
