Merrill Lynch & Co.
 October 6, 2008

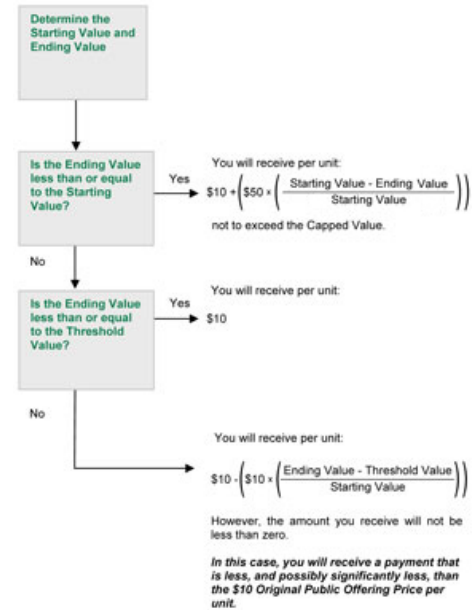

Summary

The Accelerated Return Bear Market Notes Linked to the Russell 2000® Index due November 25, 2009 (the “Notes”) are senior, unsecured debt securities of Merrill Lynch & Co., Inc. designed for, but not limited to, investors (i) who anticipate that the level of the equity-based Russell 2000® Index (the “Index”) will decrease moderately from the Starting Value of the Index, determined on October 6, 2008, the date the Notes were priced for initial sale to the public (the “Pricing Date”), to the Ending Value of the Index, determined on the Calculation Days shortly prior to the maturity date of the Notes or (ii) who want to invest in such a security for risk diversification purposes. Investors must be willing to forego interest payments on the Notes and willing to accept a repayment that is capped and that may be less, and potentially significantly less, than the Original Public Offering Price of the Notes if the Index increases.

Terms of the Notes

Issuer:	Merrill Lynch & Co., Inc.
Original Public Offering Price:	\$10 per unit
Term:	Approximately 13.5 months
Market Measure:	Russell 2000® Index
Starting Value:	595.91
Ending Value:	The average of the closing levels of the Index on each of the Calculation Days (as defined in product supplement ARNB-4) during the Calculation Period shortly before the maturity date of the Notes, as more fully described in product supplement ARNB-4.
Threshold Value:	655.50 (110% of the Starting Value)
Leverage Factor:	5
Capped Value:	Represents a return of 29% over the \$10 Original Public Offering Price (or \$12.90 per unit of the Notes).
Calculation Period:	November 16, 2009, November 17, 2009, November 18, 2009, November 19, 2009 and November 20, 2009. Fewer Market Measure Business Days and even a single day could be used in case of Market Disruption Event(s), as more fully described in product supplement ARNB-4.
Calculation Agent:	Merrill Lynch, Pierce, Fenner & Smith Incorporated

Determining Payment at Maturity for the Notes

Hypothetical Payout Profile

This graph reflects the hypothetical returns on the Notes, including the Capped Value of 29%. The green line reflects the hypothetical returns on the Notes, while the blue dashed-line reflects the hypothetical return of a direct investment in the stocks included in the Index excluding dividends.

This graph has been prepared for purposes of illustration only. Your actual return will depend on the actual Ending Value and the term of your investment.

Hypothetical Payments at Maturity

Examples

Set forth below are four examples of payment at maturity calculations (rounded to two decimal places), including the Starting Value of 595.91 and the Capped Value of \$12.90.

Example 1—The hypothetical Ending Value is 130% of the Starting Value and greater than the Threshold Value:

Starting Value: 595.91
 Hypothetical Ending Value: 774.68
 Threshold Value: 655.50

$$\$10 - \left(\$10 \times \left(\frac{774.68 - 655.50}{595.91} \right) \right) = \$8.00$$

Payment at maturity (per unit) = \$8.00

Example 2—The hypothetical Ending Value is 105% of the Starting Value but less than the Threshold Value:

Starting Value: 595.91
 Hypothetical Ending Value: 625.71
 Threshold Value: 655.50

Payment at maturity (per unit) = \$10.00

If the Ending Value is greater than the Starting Value but is less than or equal to the Threshold Value, the payment at maturity (per unit) will equal the \$10 Original Public Offering Price.

Example 3—The hypothetical Ending Value is 98% of the Starting Value:

Starting Value: 595.91
 Hypothetical Ending Value: 583.99

$$\$10 + \left(\$50 \times \left(\frac{595.91 - 583.99}{595.91} \right) \right) = \$11.00$$

Payment at maturity (per unit) = \$11.00

Example 4—The hypothetical Ending Value is 70% of the Starting Value:

Starting Value: 595.91
 Hypothetical Ending Value: 417.14

$$\$10 + \left(\$50 \times \left(\frac{595.91 - 417.14}{595.91} \right) \right) = \$25.00$$

Payment at maturity (per unit) = \$12.90 (Payment at maturity cannot be greater than the Capped Value)

ENHANCED PARTICIPATION

The following table illustrates, for the Starting Value of 595.91, the Threshold Value of 655.50 and a range of hypothetical Ending Values of the Index:

- the percentage change from the Starting Value to the hypothetical Ending Value;
- the total amount payable on the maturity date per unit (rounded to two decimal places);
- the total rate of return to holders of the Notes;
- the pretax annualized rate of return to holders of the Notes; and
- the pretax annualized rate of return of an investment in the stocks included in the Index, which includes an assumed aggregate dividend yield of 2.08% per annum, as more fully described below.

The table below includes the Capped Value of \$12.90.

Hypothetical Ending Value	Percentage change from the Starting Value to the hypothetical Ending Value	Total amount payable on the maturity date per unit	Total rate of return on the Notes	Pretax annualized rate of return on the Notes (1)	Pretax annualized rate of return of the stocks included in the Index (1)(2)
417.14	-30.00%	\$12.90	29.00%	23.90%	-27.01%
476.73	-20.00%	\$12.90	29.00%	23.90%	-16.66%
536.32	-10.00%	\$12.90	29.00%	23.90%	-7.00%
548.24	-8.00%	\$12.90	29.00%	23.90%	-5.14%
560.16	-6.00%	\$12.90 (4)	29.00%	23.90%	-3.30%
578.03	-3.00%	\$11.50	15.00%	12.78%	-0.58%
586.97	-1.50%	\$10.75	7.50%	6.52%	0.76%
592.93	-0.50%	\$10.25	2.50%	2.20%	1.65%
595.91 (3)	0.00%	\$10.00	0.00%	0.00%	2.09%
625.71	5.00%	\$10.00	0.00%	0.00%	6.45%
655.50 (5)	10.00%	\$10.00	0.00%	0.00%	10.69%
715.09	20.00%	\$9.00	-10.00%	-9.13%	18.87%
774.68	30.00%	\$8.00	-20.00%	-18.84%	26.69%
834.27	40.00%	\$7.00	-30.00%	-29.25%	34.18%
893.87	50.00%	\$6.00	-40.00%	-40.53%	41.38%
953.46	60.00%	\$5.00	-50.00%	-52.92%	48.32%
1,013.05	70.00%	\$4.00	-60.00%	-66.77%	55.03%

(1) The annualized rates of return specified in this column are calculated on a semiannual bond equivalent basis and assume an investment term from October 9, 2008 to November 25, 2009, the term of the Notes.

(2) This rate of return assumes:

- a percentage change in the aggregate price of the stocks included in the Index that equals the percentage change in the level of the Index from the Starting Value to the relevant hypothetical Ending Value;
- a constant dividend yield of 2.08% per annum, paid quarterly from the date of initial delivery of the Notes, applied to the level of the Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical Ending Value; and
- no transaction fees or expenses.

(3) This is the Starting Value.

(4) The total amount payable on the maturity date per unit of the Notes cannot exceed the Capped Value of \$12.90.

(5) This is the Threshold Value. Investors will receive \$10 per unit if the Ending Value is greater than or equal to the Starting Value but less than or equal to the Threshold Value.

The above figures are for purposes of illustration only. The actual amount you receive and the resulting total and pretax annualized rates of return will depend on the actual Ending Value and term of your investment.

Risk Factors

An investment in the Notes involves significant risks. The following is a list of certain of the risks involved in investing in the Notes. You should carefully review the more detailed explanation of risks relating to the Notes in the "Risk Factors" sections included in the product supplement and MTN prospectus supplement identified below under "Additional Note Terms". We also urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the Notes.

- Your investment may result in a loss.
- Your yield may be lower than the yield on other debt securities of comparable maturity.
- You must rely on your own evaluations regarding the merits of an investment linked to the Index.
- Any positive return is limited by the Capped Value.
- You will not have the right to receive cash dividends or exercise ownership rights with respect to the stocks included in the Index.
- In seeking to provide investors with what we believe to be commercially reasonable terms for the Notes while providing MLPF&S with compensation for its services, we have considered the costs of developing, hedging and distributing the Notes. If a trading market develops for the Notes (and such a market may not develop), these costs are expected to affect the market price you may receive or be quoted for your Notes on a date prior to the stated maturity date.
- The publisher of the Index may adjust the Index in a way that affects its level, and the publisher has no obligation to consider your interests.
- Many factors affect the trading value of the Notes; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor.
- Purchases and sales of securities underlying the Index by us and our affiliates may affect your return.
- Potential conflicts of interest could arise.
- Tax consequences are uncertain.

Recent Developments

On September 15, 2008, we entered into an Agreement and Plan of Merger (the "Merger Agreement") with Bank of America Corporation ("Bank of America"). The Merger Agreement provides that, upon the terms and subject to the conditions set forth in the Merger Agreement, a wholly owned subsidiary of Bank of America will merge with and into ML&Co. with ML&Co. continuing as the surviving corporation and as a wholly owned subsidiary of Bank of America. The merger has been approved by the board of directors of each of ML&Co. and Bank of America and is subject to shareholder votes at both companies.

Upon completion of the merger, each outstanding share of ML&Co. common stock will be converted into the right to receive 0.8595 shares of Bank of America common stock, and the Bank of America board of directors will be expanded to include three existing directors of ML&Co. The Merger Agreement contains certain termination rights for both ML&Co. and Bank of America and is subject to customary closing conditions, including standard regulatory approvals. The transaction is expected to close in the first quarter of 2009.

Investor Considerations

You may wish to consider an investment in the Notes if:

- You anticipate that the Index will depreciate moderately from the Starting Value to the Ending Value.
- You accept that your investment may result in a loss, which could be significant, if the level of the Index increases from the Starting Value to the Ending Value.
- You accept that the return on the Notes will not exceed the Capped Value.
- You are willing to forego interest payments on the Notes, such as fixed or floating rate interest paid on traditional interest bearing debt securities.
- You want exposure to the Index with no expectation of dividends or other benefits of owning the underlying securities.
- You are willing to accept that there is no assurance that the Notes will be listed on NYSE Arca and that any listing will not ensure that a trading market will develop for the Notes or that there will be liquidity in the trading market.

The Notes may not be appropriate investments for you if:

- You anticipate that the Index will appreciate from the Starting Value to the Ending Value or that the Index will not depreciate sufficiently over the term of the Notes to provide you with your desired return.
- You are seeking principal protection or preservation of capital.
- You seek a return on your investment that will not be capped at 29%.
- You seek interest payments or other current income on your investment.
- You want to receive dividends paid on the stocks included in the Index.
- You want assurances that there will be a liquid market if and when you want to sell the Notes prior to maturity.

Other Provisions

We may deliver the Notes against payment therefor in New York, New York on a date that is in excess of three business days following the Pricing Date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, if the initial settlement on the Notes occurs more than three business days from the Pricing Date, purchasers who wish to trade Notes more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

If you place an order to purchase these offered securities, you are consenting to each of MLPF&S and its broker-dealer affiliate First Republic Securities Company, LLC acting as a principal in effecting the transaction for your account. MLPF&S is acting as an underwriter and/or selling agent for this offering and will receive underwriting compensation from the issuer of the securities.

The following definition replaces the definition of "Market Measure Business Day" set forth in product supplement ARNB-4: "A "Market Measure Business Day" means a day on which (1) the New York Stock Exchange, the American Stock Exchange and the Nasdaq Stock Market (or any successor to the foregoing exchanges) are open for trading and (2) the Market Measure or any successor thereto is calculated and published."

Supplement to the Plan of Distribution

MLPF&S and First Republic Securities Company, LLC, each a broker-dealer subsidiary of ML&Co., are members of the Financial Industry Regulatory Authority, Inc. (formerly the National Association of Securities Dealers, Inc. (the "NASD")) and will participate in distribution of the Notes. Accordingly, offerings of the Notes will conform to the requirements of NASD Rule 2720.

MLPF&S and First Republic Securities Company, LLC may use this Note Prospectus for offers and sales in secondary market transactions and market-making transactions in the Notes. MLPF&S and First Republic Securities Company, LLC may act as principal or agent in these transactions, and any such sales will be made at prices related to prevailing market prices at the time of the sale.

The Index

The Russell 2000® Index

Frank Russell Company began dissemination of the Index on January 1, 1987 and calculates and publishes the Index on Bloomberg L.P. under index symbol "RTY". The Index was set to 135 as of the close of business on December 31, 1986. The Index measures the composite price performance of stocks of 2,000 companies which are either domiciled in the United States, its territories or are eligible for inclusion as a BDI (as defined in the index supplement I-1). All 2,000 stocks are traded on a major U.S. exchange and form a part of the Russell 3000® Index. The Russell 3000 Index is composed of the 3,000 largest companies either domiciled in the United States or its territories, or companies eligible for inclusion as a BDI, as determined by market capitalization. The Index consists of the smallest 2,000 companies included in the Russell 3000® Index. The Index is designed to track the performance of the small capitalization segment of the United States equity market. The Index is determined, comprised and calculated by Frank Russell Company without regard to the Notes.

The following graph sets forth the monthly historical performance of the Index in the period from January 2003 through September 2008. This historical data on the Index is not necessarily indicative of the future performance of the Index or what the value of the Notes may be. Any historical upward or downward trend in the level of the Index during any period set forth below is not an indication that the Index is more or less likely to increase or decrease at any time over the term of the Notes. On the Pricing Date, the closing level of the Index was 595.91.

The information on the Index provided in this document should be read together with the discussion under the heading "The Russell 2000® Index" beginning on page IS-18 of the index supplement I-1.

Certain U.S. Federal Income Taxation Considerations

Set forth below is a summary of certain U.S. federal income tax considerations relating to an investment in the Notes. The following summary is not complete and is qualified in its entirety by the discussion under the section entitled "United States Federal Income Taxation" in the accompanying product supplement ARNB-4 and MTN prospectus supplement, which you should carefully review prior to investing in the Notes.

General. There are no statutory provisions, regulations, published rulings or judicial decisions addressing or involving the characterization and treatment, for U.S. federal income tax purposes, of the Notes or securities with terms substantially the same as the Notes. Accordingly, the proper U.S. federal income tax characterization and treatment of the Notes is uncertain. Pursuant to the terms of the Notes, ML&Co. and every holder of a Note agree (in the absence of an administrative determination, judicial ruling or other authoritative guidance to the contrary) to characterize and treat a Note for all tax purposes as a cash-settled financial contract linked to the level of the Index. Due to the absence of authorities that directly address instruments that are similar to the Notes, significant aspects of the U.S. federal income tax consequences of an investment in the Notes are not certain, and no assurance can be given that the Internal Revenue Service (the "IRS") or the courts will agree with the characterization and tax treatment described above. Accordingly, prospective purchasers are urged to consult their own tax advisors regarding the U.S. federal income tax consequences of an investment in the Notes (including alternative characterizations and tax treatments of the Notes) and with respect to any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

Payment on the Maturity Date. Assuming that the Notes are properly characterized and treated as cash-settled financial contracts linked to the level of the Index, upon the receipt of cash on the maturity date of the Notes, a U.S. Holder (as defined in the accompanying product supplement ARNB-4) will recognize gain or loss. The amount of such gain or loss will be the extent to which the amount of the cash received differs from the U.S. Holder's tax basis in the Note. A U.S. Holder's tax basis in a Note generally will equal the amount paid by the U.S. Holder to purchase the Note. It is uncertain whether any such gain or loss would be treated as ordinary income or loss or capital gain or loss. Absent a future clarification in current law (by an administrative determination, judicial ruling or otherwise), where required, ML&Co. intends to report any such gain or loss to the IRS in a manner consistent with the treatment of such gain or loss as capital gain or loss. If such gain or loss is treated as capital gain or loss, then any such gain or loss will be short-term or long-term capital gain or loss, depending upon the U.S. Holder's holding period for the Note as of the maturity date. The deductibility of capital losses is subject to certain limitations.

Sale or Exchange of the Notes. Assuming that the Notes are properly characterized and treated as cash-settled financial contracts linked to the level of the Index, upon a sale or exchange of a Note prior to the maturity date of the Notes, a U.S. Holder will generally recognize capital gain or loss in an amount equal to the difference between the amount realized on such sale or exchange and such U.S. Holder's tax basis in the Note so sold or exchanged. Any such capital gain or loss will be short-term or long-term capital gain or loss, depending upon the U.S. Holder's holding period for the Note as of the date of such sale or exchange. The deductibility of capital losses is subject to certain limitations.

Possible Future Tax Law Changes. On December 7, 2007, the IRS released a notice that could possibly affect the taxation of holders of the Notes. According to the notice, the IRS and the U.S. Department of the Treasury (the "Treasury Department") are actively considering, among other things, whether the holder of an instrument having terms similar (but not identical) to the Notes should be required to accrue either ordinary income or capital gain on a current basis, and they are seeking comments on the subject. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, holders of instruments having terms similar to the Notes will ultimately be required to accrue income currently and this could be applied on a retroactive basis. The IRS and the Treasury Department are also considering other relevant issues, including whether additional gain or loss from such instruments should be treated as ordinary or capital, whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals, whether the tax treatment of such instruments should vary depending upon whether or not such instruments are traded on a securities exchange, whether such instruments should be treated as indebtedness, and whether the tax treatment of such instruments should vary depending upon the nature of the underlying asset. Holders are urged to consult their tax advisors concerning the significance, and the potential impact, if any, of the above considerations to their investment in the Notes. ML&Co. intends to continue to treat the Notes for U.S. federal income tax purposes in accordance with the treatment described herein unless and until such time as the Treasury Department and IRS determine that some other treatment is more appropriate.

Prospective purchasers of the Notes should consult their own tax advisors concerning the tax consequences, in light of their particular circumstances, under the laws of the United States and any other taxing jurisdiction, of the purchase, ownership and disposition of the Notes. See the discussion under the section entitled "United States Federal Income Taxation" in the accompanying product supplement ARNB-4.

Experts

The consolidated financial statements incorporated by reference in this term sheet from Merrill Lynch & Co., Inc.'s Annual Report on Form 10-K for the year ended December 28, 2007 and the effectiveness of Merrill Lynch & Co., Inc. and subsidiaries' internal control over financial reporting have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, incorporated herein by reference (which reports (1) expressed an unqualified opinion on the consolidated financial statements and included an explanatory paragraph regarding the changes in accounting methods in 2007 relating to the adoption of Statement of Financial Accounting Standards No. 157, "Fair Value Measurement," Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115," and FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109," and in 2006 for share-based payments to conform to Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment," and included an explanatory paragraph relating to the restatement discussed in Note 20 to the consolidated financial statements and (2) expressed an unqualified opinion on the effectiveness of internal control over financial reporting). Such consolidated financial statements have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to the unaudited condensed consolidated interim financial information for the three-month periods ended March 28, 2008 and March 30, 2007 and the three-month and six-month periods ended June 27, 2008 and June 29, 2007, which is incorporated herein by reference, Deloitte & Touche LLP, an independent registered public accounting firm, have applied limited procedures in accordance with the standards of the Public Company Accounting Oversight Board (United States) for a review of such information. However, as stated in their reports included in Merrill Lynch & Co., Inc.'s Quarterly Reports on Form 10-Q for the quarters ended March 28, 2008 (which report included an explanatory paragraph relating to the restatement discussed in Note 16 to the condensed consolidated interim financial statements), and June 27, 2008 (which report included explanatory paragraphs related to the restatement discussed in Note 16 to the condensed consolidated interim financial statements and a number of transactions subsequent to the balance sheet date which are expected to have a material impact on the interim financial statements for the three and nine month periods ended September 26, 2008 discussed in Note 18 to the condensed consolidated interim financial statements), and incorporated by reference herein, they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their reports on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP are not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their reports on the unaudited interim financial information because those reports are not "reports" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Act.

Additional Note Terms

You should read this term sheet, together with the documents listed below (collectively, the "Note Prospectus"), which together contain the terms of the Notes and supersede all prior or contemporaneous oral statements as well as any other written materials. You should carefully consider, among other things, the matters set forth under "Risk Factors" in the sections indicated on the cover of this term sheet. The Notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the Notes.

You may access the following documents on the SEC Website at www.sec.gov as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC Website):

ML&Co. has filed a registration statement (including a prospectus) with the Securities and Exchange Commission (the "SEC") for the offering to which this term sheet relates. Before you invest, you should read the prospectus in that registration statement, and the other documents relating to this offering that ML&Co. has filed with the SEC for more complete information about ML&Co. and this offering. You may get these documents without cost by visiting EDGAR on the SEC Website at www.sec.gov. Alternatively, ML&Co., any agent or any dealer participating in this offering, will arrange to send you the Note Prospectus if you so request by calling toll-free 1-866-500-5408.

Structured Investments Classification

ML&Co. classifies certain of its structured investments (the "Structured Investments"), including the Notes, into four categories, each with different investment characteristics. The description below is intended to briefly describe the four categories of Structured Investments offered: Principal Protection, Enhanced Income, Market Participation and Enhanced Participation. A Structured Investment may, however, combine characteristics that are relevant to one or more of the other categories. As such, a category should not be relied upon as a description of any particular Structured Investment.

Principal Protection: Principal Protected Structured Investments offer full or partial principal protection at maturity, while offering market exposure and the opportunity for a better return than may be available from comparable fixed income securities. Principal protection may not be achieved if the investment is sold prior to maturity.

Enhanced Income: Structured Investments offering enhanced income may offer an enhanced income stream through interim fixed or variable coupon payments. However, in exchange for receiving current income, investors may forfeit upside potential on the underlying asset. These investments generally do not include the principal protection feature.

Market Participation: Market Participation Structured Investments can offer investors exposure to specific market sectors, asset classes and/or strategies that may not be readily available through traditional investment alternatives. Returns obtained from these investments are tied to the performance of the underlying asset. As such, subject to certain fees, the returns will generally reflect any increases or decreases in the value of such assets. These investments are not structured to include the principal protection feature.

Enhanced Participation: Enhanced Participation Structured Investments may offer investors the potential to receive better than market returns on the performance of the underlying asset. Some structures may offer leverage in exchange for a capped or limited upside potential and also in exchange for downside risk. These investments are not structured to include the principal protection feature.

The classification of Structured Investments is meant solely for informational purposes and is not intended to fully describe any particular Structured Investment nor guarantee any particular performance.
