**Bank of America Earns \$4.2 Billion in First Quarter**

*Earnings Exceed All of 2008*

*Record Revenue of \$36 Billion and Pretax, Pre-Provision Income of \$19 Billion*

*Merrill Lynch Contributes More Than \$3 Billion to Net Income*

*Tangible Common Equity Ratio Improves to 3.13 Percent*

*Extends \$183 Billion in Credit in the First Quarter*

*Adds \$6.4 Billion to Loan Loss Reserve*

CHARLOTTE — Bank of America Corporation today reported first-quarter 2009 net income of \$4.2 billion. After preferred dividends, including \$402 million paid to the U.S. government, diluted earnings per share were \$0.44.

Those results compared with net income of \$1.2 billion, or diluted earnings per share of \$0.23 after preferred dividends, during the same period last year.

Results for the quarter include Merrill Lynch & Co., which Bank of America purchased on January 1, 2009, and Countrywide Financial, which was acquired on July 1, 2008. Merrill Lynch contributed \$3.7 billion to net income, excluding certain merger costs, on strong capital markets revenue. Countrywide also added to net income as mortgage lending and refinancing volume increased. The year-ago period does not include Merrill Lynch and Countrywide results.

The company also took several actions in the quarter to enhance its capital and liquidity position, including strengthening its loan loss reserves and building its cash position.

More

"The fact that we were able to post strong, positive net income for the quarter is extremely welcome news in this environment," said Kenneth D. Lewis, chairman and chief executive officer. "It shows the power of our diversified business model as well as the ability of our associates to execute. We are especially gratified that our new teammates at Countrywide and Merrill Lynch had outstanding performance that contributed significantly to our success."

However, we understand that we continue to face extremely difficult challenges primarily from deteriorating credit quality driven by weakness in the economy and growing unemployment," Lewis said. "Our company continues to be a solid contributor to the effort to revitalize the U.S. economy through our industry-leading efforts to reform mortgage lending, restructure home loans where appropriate and mitigate foreclosures wherever possible. We look forward to continuing that role."

#### **First Quarter 2009 Business Highlights**

- Bank of America Merrill Lynch was No. 2 in global and U.S. investment banking fees during the quarter and based on volume was No. 1 in U.S. equity capital markets, No. 1 in U.S. high yield debt, leveraged and syndicated loans, and was a top-five advisor on mergers and acquisitions globally and in the U.S., according to first-quarter league tables.
- Bank of America funded \$85 billion in first mortgages, helping more than 382,000 people either purchase a home or refinance their existing mortgage. Approximately 25 percent were for purchases.
- Credit extended during the quarter, including commercial renewals of \$44.3 billion, was \$183.1 billion compared with \$180.8 billion in the fourth quarter. New credit included \$85.2 billion in mortgages, \$70.9 billion in commercial non-real estate, \$11.2 billion in commercial real estate, \$5.5 billion in domestic and small business card, \$4.0 billion in home equity products and \$6.3 billion in other consumer credit. Excluding commercial renewals, new credit extended during the period was \$138.8 billion compared with more than \$115 billion in the fourth quarter.
- During the first quarter, Small Business Banking extended more than \$720 million in new credit comprised of credit cards, loans and lines of credit to more than 45,000 new customers.
- The company originated \$16 billion in mortgages made to 102,000 low- and moderate-income borrowers.

More

- To meet rising refinancing and first mortgage application volume, the company is in the process of adding approximately 5,000 positions in fulfillment. In addition, the company has more than 6,400 associates in place to address increasing needs from consumers for assistance with loan modifications.
- To help homeowners avoid foreclosure, Bank of America modified nearly 119,000 home loans during the quarter. Last year the company embarked on a loan modification program projected to modify over \$100 billion in loans to help keep up to 630,000 borrowers in their homes. The centerpiece of the program is a proactive loan modification process to provide relief to eligible borrowers who are seriously delinquent or are likely to become seriously delinquent as a result of loan features, such as rate resets or payment recasts. In some instances, innovative new approaches will be employed to include automatic streamlined loan modifications across certain classes of borrowers. Also during the first quarter, the company began a new program that utilizes affordability measures to qualify borrowers for loan modifications.
- Average retail deposits in the quarter increased \$140.0 billion, or 27 percent, from a year earlier, including \$107.3 billion in balances from Countrywide and Merrill Lynch. Excluding Countrywide and Merrill Lynch, Bank of America grew retail deposits \$32.7 billion, or 6 percent, from the year-ago quarter.

#### **Transition Update**

The **Merrill Lynch** integration is on track and expected to meet targeted cost savings. Senior- and middle-management appointments have been made across all lines of business, including the complete integration of global research, and the combination of a large number of client-facing teams in corporate and investment banking and Global Markets is in place.

Merrill Lynch financial advisors and Bank of America are engaged in client referrals. Merrill Lynch financial advisors are in the process of integrating Bank of America's broad product set to offer clients. The business has had early success with a sales program for certificates of deposit, which booked more than \$135 million in CDs in Florida alone. The program soon will be rolled out nationally.

Bank of America and Merrill Lynch investment banking teams worked jointly, providing advice and financing on numerous transactions in the quarter.

The **Countrywide** transition is on track. Cost savings from the acquisition are ahead of schedule.

Later this month, the company will introduce the Bank of America Home Loans and Insurance brand to consumers.

**First Quarter 2009 Financial Summary**

**Revenue and Expense**

Revenue net of interest expense on a fully taxable-equivalent basis more than doubled to a record \$36.1 billion from a year ago.

Net interest income on a fully taxable-equivalent basis rose 25 percent to \$12.8 billion from \$10.3 billion in the first quarter of 2008 due to an improved rate environment, the addition of Countrywide and Merrill Lynch and an increase in market-based net interest income. These improvements were impacted by the sale of securities and higher funding costs related to an increase in long-term debt. The net interest yield declined three basis points to 2.70 percent due to lower-yielding assets associated with the acquisitions during the past year.

Noninterest income rose more than threefold to \$23.3 billion compared with a year earlier. Increases in trading account profits, investment and brokerage services, gains on sales of debt securities and other income reflected the addition of Merrill Lynch while growth in mortgage banking income reflected the Countrywide acquisition and higher mortgage activity due to lower interest rates. Equity investment income includes a \$1.9 billion pretax gain on the sale of China Construction Bank (CCB) shares. Bank of America continues to own approximately 17 percent of the common shares of CCB. These increases were partially offset by lower card income due to higher credit costs on securitized credit card loans and lower revenues.

Noninterest income included \$2.2 billion in gains related to mark-to-market adjustments on certain Merrill Lynch structured notes as a result of credit spreads widening.

Noninterest expense increased to \$17.0 billion from \$9.3 billion a year earlier. Higher personnel and general operating expenses, driven in part by the Merrill Lynch and Countrywide acquisitions, contributed \$6.4 billion of the increase. Pretax merger and restructuring charges related to acquisitions rose to \$765 million from \$170 million a year earlier.

The efficiency ratio on a fully taxable-equivalent basis was 47.12 percent compared with 53.32 percent a year earlier. Pretax, pre-provision income on fully-taxable equivalent basis was a record \$19.1 billion.

**Credit Quality**

Credit quality deteriorated further across all lines of business as housing prices continued to fall and the economic environment weakened. Consumers are under significant stress from rising unemployment and underemployment levels. These conditions led to higher losses in almost all consumer portfolios.

Declining home values, reduced spending by consumers and businesses and continued turmoil in the financial markets negatively impacted the commercial portfolio. Commercial losses increased from the prior quarter driven by higher broad-based losses in the non-homebuilder portion of the real estate portfolio within Global Banking and the small business portfolio within Global Card Services.

The provision for credit losses of \$13.4 billion rose from \$8.5 billion in the fourth quarter and included a \$6.4 billion net addition to the allowance for loan and lease losses. Reserves were added across most consumer portfolios reflecting increasing economic stress on consumers. Reserves were also increased on commercial portfolios. Nonperforming assets were \$25.7 billion compared with \$18.2 billion at December 31, 2008 and \$7.8 billion at March 31, 2008, reflecting the continued deterioration in portfolios tied to housing. The 2009 coverage ratios and amounts shown in the following table include Merrill Lynch.

**Capital Management**

Total shareholders' equity was \$239.5 billion at March 31. Period-end assets were \$2.3 trillion. The Tier 1 Capital ratio was 10.09 percent, up from 9.15 percent at December 31, 2008 and higher than the 7.51 percent a year ago. The Tangible Common Equity ratio was 3.13 percent, up from 2.93 percent at December 31, 2008 and lower than 3.21 percent a year earlier.

In January, \$20.5 billion of common shares were issued in connection with the Merrill Lynch acquisition. The company also issued \$8.6 billion of preferred shares in exchange for outstanding Merrill Lynch preferred stock. Additionally, the company issued \$30.0 billion in preferred stock related to the Troubled Asset Relief Program to the U.S. Department of the Treasury. Bank of America paid a cash dividend of \$0.01 per common share. During the quarter preferred dividends decreased earnings available to common shareholders by \$1.4 billion. Period-end common shares issued and outstanding were 6.40 billion for the first quarter of 2009, 5.02 billion for the fourth quarter of 2008 and 4.45 billion for the year-ago quarter.

**First Quarter 2009 Business Segment Results**

Effective January 1, Bank of America reports results from six main business segments. The former Global Consumer and Small Business Banking now is reflected in three separate business segments: Deposits, Global Card Services and Home Loans and Insurance. The former Global Corporate and Investment Banking is now divided into Global Banking and Global Markets. These results along with Global Wealth Management are presented below. Certain prior period amounts have been reclassified to conform to current period presentation.

**Deposits** net income fell 53 percent from a year ago due to lower net revenue. The decrease in revenue was primarily a result of a lower residual net interest allocation and spread compression on money market deposits and certificates of deposit. Noninterest income declined 5 percent as service charge income decreased due to changes in consumer spending behavior attributed to current economic conditions.

Average consumer deposits rose 11 percent, or \$38 billion, from a year earlier due mainly to the Countrywide acquisition and organic growth in checking and savings products.

**Global Card Services**, which now includes Debit Card to better coordinate the company's payments businesses, swung to a net loss of \$1.8 billion as the weak economic environment drove credit costs higher. Managed net revenue declined 5 percent to \$7.5 billion due mainly to lower fee income and the absence of the positive impact from the Visa Inc. initial public offering a year earlier. The decline was partially offset by higher net interest income due to lower funding costs.

Provision expense nearly doubled to \$8.2 billion from a year earlier as economic conditions led to deterioration in the consumer card, consumer lending and small business portfolios, including a higher level of bankruptcies. Also contributing were reserve additions related to maturing securitizations.

Noninterest expense decreased 6 percent due to lower levels of marketing-related expenses.

The net loss in **Home Loans and Insurance** narrowed to \$498 million as revenue rose, mostly offset by higher credit costs and noninterest expense. Net revenue nearly quadrupled to \$5.2 billion primarily due to the acquisition of Countrywide and from higher mortgage banking income as lower interest rates drove an increase in mortgage activity.

The provision for credit losses increased to \$3.4 billion driven by economic and housing market weakness particularly in regions experiencing higher unemployment and falling home prices.

Noninterest expense increased to \$2.7 billion primarily due to the acquisition of Countrywide.

**Global Banking** net income fell to \$175 million as credit costs increased and noninterest expense rose.

Net revenue increased 20 percent mainly from the addition of Merrill Lynch, strong advisory and capital markets income and improvement in net interest income driven by loan spreads and increased deposit balances.

The provision for credit losses increased to \$1.8 billion as net charge-offs and reserves continued to rise, primarily in the real estate and retail dealer-related portfolios.

- **Corporate Banking** revenue of \$1.4 billion increased 30 percent as a result of higher loan and deposit balances, increased loan spreads and fee income as clients returned to more traditional providers of financing. These positive impacts were partially offset by lower revenue attributed to the impact of lower interest rates on deposit balances.
- **Commercial Banking** revenue rose 3 percent to \$2.8 billion driven by a 20 percent increase in deposit balances and a more modest increase in both loan balances and spreads. The year-ago quarter included the positive impact from the Visa Inc. initial public offering.
- **Investment Banking** revenue of \$433 million includes fees from mergers and acquisitions, market share gains in debt and equity capital markets fees and reflects the impact of the Merrill Lynch integration. Investment banking income more than doubled, driven by debt capital raising and advisory fees.

More

- *Note: Total investment banking income in the quarter of \$1.1 billion is shared between Global Banking and Global Markets based on an internal fee sharing arrangement between the two segments. Advisory fee income more than quadrupled from the year ago quarter, while fees from debt capital raising almost doubled reflecting the increased size and breadth from the acquisition of Merrill Lynch.*

**Global Markets** swung to net income of \$2.4 billion due to the Merrill Lynch acquisition and lower losses on positions that resulted from market disruptions including collateralized debt obligations (CDOs), leveraged lending and commercial mortgages.

Net revenue was \$6.8 billion, which included \$1.7 billion of losses primarily on positions that resulted from market disruptions. The increase in net revenue was driven by the addition of Merrill Lynch, strong trading results in interest and currency rate products, equities and commodities.

- **Rates and Currencies** revenue of \$3.6 billion was driven by the enhanced global breadth of product and distribution capabilities from the acquisition of Merrill Lynch, increased volatility in interest and currency rates.
- **Mortgage and Credit** revenues of \$1.2 billion and \$890 million, respectively, were driven by the complementary nature of the legacy institution platforms relating to origination and distribution, as well as lower market liquidity driven losses.

More

- **Equities** revenue of \$1.4 billion increased due mainly to the acquisition of Merrill Lynch, despite the weak origination market and lower financing revenue opportunities as a result of deleveraging by clients.
- **Commodities** revenue of \$536 million was driven by the power and natural gas markets.

Net income more than doubled to \$510 million due to the acquisition of Merrill Lynch partially offset by lower net interest income from legacy Bank of America.

Net revenue increased to \$4.4 billion as investment and brokerage service income rose to \$2.4 billion and net interest income increased 62 percent mainly from the acquisition of Merrill Lynch.

- **U.S. Trust, Bank of America Private Wealth Management** net income fell 28 percent to \$95 million as net revenue declined and credit costs rose. Net revenue decreased 4 percent to \$692 million on lower investment and brokerage services income.
- The net loss in **Columbia Management** narrowed to \$50 million from \$82 million in the same period last year due primarily to the \$103 million reduction in support provided to certain cash funds, partially offset by the impact of declining equity markets on investment and brokerage fees.

More

- **Global Wealth Advisors**, which includes the wealth management organization of Merrill Lynch, had net income of \$565 million, compared with \$176 million a year earlier driven by the positive impact on earnings from the acquisition. Net revenue increased to \$3.3 billion compared with \$983 million as asset management fees and brokerage income rose due to the acquisition of Merrill Lynch partially offset by the effect of lower equity markets and spread compression.

All Other swung to net income of \$3.0 billion from a net loss of \$236 million a year earlier. Fair value adjustments related to certain Merrill Lynch structured notes, increased gains on sales of debt securities and higher equity investment income related to the gain on the sale of CCB shares drove the increase. The provision for credit losses rose due to deterioration in the residential mortgage portfolio. Noninterest expense increased mostly on merger and restructuring charges related to the Merrill Lynch acquisition.

## Bank of America Corporation and Subsidiaries Reconciliation - Managed to GAAP

(Dollars in millions)

The Corporation reports *Global Card Services* on a managed basis. Reporting on a managed basis is consistent with the way that management evaluates the results of *Global Card Services*. Managed basis assumes that securitized loans were not sold and presents earnings on these loans in a manner similar to the way loans that have not been sold (i.e., held loans) are presented.

Loan securitization is an alternative funding process that is used by the Corporation to diversify funding sources.

Loan securitization removes loans from the Consolidated Balance Sheet through the sale of loans to an off-balance sheet qualified special purpose entity which is excluded from the Corporation's Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States (GAAP).

The performance of the managed portfolio is important in understanding *Global Card Services'* results as it demonstrates the results of the entire portfolio serviced by the business. Securitized loans continue to be serviced by the business and are subject to the same underwriting standards and ongoing monitoring as held loans. In addition, retained excess servicing income is exposed to similar credit risk and repricing of interest rates as held loans. *Global Card Services'* managed income statement line items differ from a held basis reported as follows:

- Managed net interest income includes *Global Card Services'* net interest income on held loans and interest income on the securitized loans less the internal funds transfer pricing allocation related to securitized loans.
- Managed noninterest income includes *Global Card Services'* noninterest income on a held basis less the reclassification of certain components of card income (e.g., excess servicing income) to record managed net interest income and provision for credit losses. Noninterest income, both on a held and managed basis, also includes the impact of adjustments to the interest-only strip that are recorded in card income as management continues to manage this impact within *Global Card Services*.
- Provision for credit losses represents the provision for credit losses on held loans combined with realized credit losses associated with the securitized loan portfolio.

**Reconciliation to GAAP financial measures**

Return on average tangible shareholders' equity utilizes non-GAAP allocation methodologies. Return on average tangible shareholders' equity measures the earnings contribution of the Corporation as a percentage of shareholders' equity reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. This measure is used to evaluate our use of equity (i.e., capital) at the individual unit level and are integral components in the analytics for resource allocation. The efficiency ratio measures the costs expended to generate a dollar of revenue. We believe the use of these non-GAAP measures provides additional clarity in assessing the results of the Corporation.

Other companies may define or calculate supplemental financial data differently. See the tables below for supplemental financial data and corresponding reconciliations to GAAP financial measures for the three months ended March 31, 2009, December 31, 2008, September 30, 2008, June 30, 2008 and March 31, 2008.

- (1) Yields on AFS debt securities are calculated based on fair value rather than historical cost balances. The use of fair value does not have a material impact on net interest yield.
- (2) Nonperforming loans are included in the respective average loan balances. Income on these nonperforming loans is recognized on a cash basis. We account for acquired impaired loans in accordance with SOP 03-3. Loans accounted for in accordance with SOP 03-3 were written down to fair value upon acquisition and accrete interest income over the remaining life of the loan.
- (3) Includes foreign consumer loans of \$1.7 billion in the first quarter of 2009, and \$2.0 billion and \$3.3 billion in the fourth and first quarters of 2008.
- (4) Includes consumer finance loans of \$2.6 billion in the first quarter of 2009, and \$2.7 billion and \$3.0 billion in the fourth and first quarters of 2008; and other foreign consumer loans of \$596 million in the first quarter of 2009, and \$654 million and \$857 million in the fourth and first quarters of 2008.
- (5) Includes domestic commercial real estate loans of \$70.9 billion in the first quarter of 2009, and \$63.6 billion and \$61.0 billion in the fourth and first quarters of 2008.
- (6) Interest income includes the impact of interest rate risk management contracts, which decreased interest income on the underlying assets \$61 million in the first quarter of 2009, and \$41 million and \$103 million in the fourth and first quarters of 2008. Interest expense includes the impact of interest rate risk management contracts, which increased (decreased) interest expense on the underlying liabilities \$(512) million in the first quarter of 2009, and \$237 million and \$49 million in the fourth and first quarters of 2008.

(1) This table presents a non-GAAP financial measure. The impact of interest rate risk management derivatives is shown separately. Interest income and interest expense amounts, and the yields and rates have been adjusted. Management believes this presentation is useful to investors because it adjusts for the impact of our hedging decisions and provides a better understanding of our hedging activities. The impact of interest rate risk management derivatives is not material to the average balances presented above.

(2) The following presents the impact of interest rate risk management derivatives on interest income and interest expense.

Interest income excludes the impact of interest rate risk management contracts, which increased (decreased) interest income on:

- (2) Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories defined by regulatory authorities. The reservable criticized exposure is on an end-of-period basis and is also shown as a percentage of total reservable commercial utilized credit exposure, including loans and leases, standby letters of credit, financial guarantees, commercial letters of credit and bankers' acceptances.
- (3) Nonperforming assets are on an end-of-period basis and defined as nonperforming loans and leases plus foreclosed properties. The nonperforming ratio is nonperforming assets divided by commercial loans and leases plus commercial foreclosed properties.

Certain prior period amounts have been reclassified among the segments to conform to the current period presentation.

Information for periods beginning July 1, 2008 include the Countrywide acquisition. Information for the period beginning January 1, 2009 includes the Merrill Lynch acquisition. Prior periods have not been restated.

**Global and U.S. Market Share and Product Ranking**

Source: Dealogic data. Rankings based on deal volumes except for investment banking revenue rankings which reflect fees. Merger and acquisition fees included in investment banking revenues reflect 10 percent fee credit at announcement and 90 percent fee credit at completion as per Dealogic. Mergers and acquisitions volume rankings are for announced transactions and provide credit only to the investment bank advising the parent company that is domiciled within that region. Each advisor receives full credit for the deal amount unless advising a minority stakeholder.

**Highlights**

*Global top 3 rankings in:*

- Equity capital markets
- High-yield corporate debt
- Leveraged loans
- Mortgage-backed securities
- Investment grade corporate debt

*U.S. top 3 rankings in:*

- Equity capital markets
- Debt capital markets
- High-yield corporate debt
- Leveraged loans
- Mortgage-backed securities
- Convertible debt
- Common stock underwriting
- Investment grade corporate debt
- Syndicated loans

1Q2009 global and U.S. investment grade corporate debt results include self-funded transactions. Excluding these deals, global investment grade corporate debt market share was 6.3 percent and U.S. investment grade corporate debt market share was 15.6 percent.

Information for the period beginning January 1, 2009 includes the Merrill Lynch acquisition. This information is preliminary and based on company data available at the time of the presentation.

- (1) Variable interest entities (VIEs) are special purpose entities (SPEs) which lack sufficient equity at risk or whose equity investors do not have a controlling financial interest. In accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46 (Revised December 2003), "Consolidation of Variable Interest Entities, an interpretation of ARB No. 51" (FIN 46R), a VIE is consolidated by the party known as the primary beneficiary that will absorb the majority of the expected losses or expected residual returns of the VIEs or both. For example, an entity that holds a majority of the subordinated debt or equity securities issued by a VIE, or protects other investors from loss through a guarantee or similar arrangement, may have to consolidate the VIE. The assets and liabilities of consolidated VIEs are recorded on the Corporation's balance sheet.
- (2) Qualifying special purposes entities (QSPEs) are SPEs whose activities are strictly limited to holding and servicing financial assets and meet the requirements set forth in SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities – a replacement of FASB Statement No. 125" (SFAS 140). QSPEs are generally not required to be consolidated by any party. This table includes only those QSPEs to which we have liquidity exposure.
- (3) Merrill Lynch related exposures as of March 31, 2009 were: \$8.1 billion collateralized debt obligation vehicles, \$6.6 billion municipal bond trusts, \$2.9 billion in credit-linked note and other vehicles and \$570 million in customer conduits.

(1) The elimination of assets under management that are managed by two lines of business.

(2) The January 1, 2009 acquisition of Merrill Lynch contributed \$1.0 trillion to client brokerage assets.

(3) Financial advisor productivity is defined as annualized total revenue (excluding residual net interest income) divided by the total number of financial advisors.

The decline in Financial Advisor productivity in the first quarter 2009 compared to previous quarters results from the inclusion of Merrill Lynch financial advisors. Legacy Bank of America financial advisors historically have had higher amounts of credit and banking activity in their portfolios.

(4) Client balances are defined as deposits, assets under management, client brokerage assets and other assets in custody.

(5) Results shown are defined by Columbia Management's calculation using Morningstar's Overall Rating criteria for 4 & 5 star rating. The assets under management of the Columbia Funds that had a 4 & 5 star rating were totaled then divided by the assets under management of all the funds in the ranking.

Certain prior period amounts have been reclassified among the segments to conform to the current period presentation.

Information for periods beginning July 1, 2008 include the Countrywide acquisition. Information for the period beginning January 1, 2009 includes the Merrill Lynch acquisition. Prior periods have not been restated.

- (1) All Other consists of equity investment activities including Global Principal Investments, Corporate Investments and Strategic Investments, the residential mortgage portfolio associated with ALM activities, the residual impact of cost allocation processes, merger and restructuring charges, intersegment eliminations and the results of certain businesses that are expected to be or have been sold or are in the process of being liquidated. All Other also includes certain amounts associated with ALM activities, including the residual impact of funds transfer pricing allocation methodologies, amounts associated with the change in the value of derivatives used as economic hedges of interest rate and foreign exchange rate fluctuations that do not qualify for SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities, as amended" hedge accounting treatment, foreign exchange rate fluctuations related to SFAS No. 52, "Foreign Currency Translation" revaluation of foreign-denominated debt issuances, certain gains (losses) on sales of whole mortgage loans, and gains (losses) on sales of debt securities. All Other also includes adjustments to noninterest income and income tax expense to remove the FTE impact of items (primarily low-income housing tax credits) that have been grossed up within noninterest income to a FTE amount in the business segments. In addition, All Other includes the offsetting securitization impact to present Global Card Services on a managed basis. (See Exhibit A: Non-GAAP Reconciliations - All Other - Reconciliation on page 39).
- (2) Effective January 1, 2009, as part of the Merrill Lynch acquisition, All Other includes the results of First Republic Bank as well as fair value adjustments related to certain Merrill Lynch structured notes.

- (1) There is no generally accepted definition of emerging markets. The definition that we use includes all countries in Asia Pacific excluding Japan, Australia and New Zealand; all countries in Latin America excluding Cayman Islands and Bermuda; all countries in Middle East and Africa; and all countries in Central and Eastern Europe excluding Greece. There was no emerging market exposure included in the portfolio measured at fair value in accordance with SFAS 159 at March 31, 2009 and December 31, 2008.
- (2) Includes acceptances, standby letters of credit, commercial letters of credit and formal guarantees.
- (3) Derivative assets are reported on a mark-to-market basis and have been reduced by the amount of cash collateral applied of \$635 million and \$152 million at March 31, 2009 and December 31, 2008. At March 31, 2009 and December 31, 2008, there were \$1.1 billion and \$531 million of other marketable securities collateralizing derivative assets for which credit risk has not been reduced.
- (4) Generally, cross-border resale agreements are presented based on the domicile of the counterparty, consistent with Federal Financial Institutions Examination Council (FFIEC) reporting rules. Cross-border resale agreements where the underlying securities are U.S. Treasury securities, in which case the domicile is the U.S., are excluded from this presentation.
- (5) Cross-border exposure includes amounts payable to the Corporation by borrowers or counterparties with a country of residence other than the one in which the credit is booked, regardless of the currency in which the claim is denominated, consistent with FFIEC reporting requirements.
- (6) Local country exposure includes amounts payable to the Corporation by borrowers with a country of residence in which the credit is booked, regardless of the currency in which the claim is denominated. Local funding or liabilities are subtracted from local exposures consistent with FFIEC reporting requirements. Total amount of available local liabilities funding local country exposure at March 31, 2009 was \$17.6 billion compared to \$12.6 billion at December 31, 2008. Local liabilities at March 31, 2009 in Asia Pacific and Latin America were \$16.9 billion and \$693 million, of which \$8.5 billion were in Singapore, \$2.7 billion in Hong Kong, \$2.3 billion in South Korea, \$1.3 billion in India, \$943 million in China, and \$639 million in Mexico. There were no other countries with available local liabilities funding local country exposure greater than \$500 million.
- (7) Securities/Other Investments include an investment of \$16.8 billion in China Construction Bank (CCB).
- (8) No country included in Other Asia Pacific, Other Latin America, Other Middle East and Africa, or Other Central and Eastern Europe had total foreign exposure of more than \$500 million.

(1) Excludes small business commercial - domestic loans.

(2) Balances do not include loans accounted for in accordance with SOP 03-3 even though the customer may be contractually past due. Loans accounted for in accordance with SOP 03-3 were written down to fair value upon acquisition and accrete interest income over the remaining life of the loan.

(3) Balances do not include nonperforming loans held-for-sale included in other assets of \$2.5 billion, \$1.3 billion, \$848 million, \$388 million and \$327 million at March 31, 2009, December 31, 2008, September 30, 2008, June 30, 2008 and March 31, 2008, respectively.

(4) Balances do not include loans measured at fair value in accordance with SFAS 159. At March 31, 2009, December 31, 2008, September 30, 2008, June 30, 2008 and March 31, 2008, there were no nonperforming loans measured at fair value in accordance with SFAS 159. At June 30, 2008, there were \$81 million of loans past due 90 days or more and still accruing interest measured at fair value in accordance with SFAS 159. At March 31, 2009, December 31, 2008, September 30, 2008 and March 31, 2008, there were no loans past due 90 days or more and still accruing interest measured at fair value in accordance with SFAS 159.

(5) Balances do not include loans held-for-sale past due 90 days or more and still accruing interest included in other assets of \$18 million, \$31 million, \$138 million, \$32 million and \$69 million at March 31, 2009, December 31, 2008, September 30, 2008, June 30, 2008 and March 31, 2008, respectively.

(6) Ratios do not include loans measured at fair value in accordance with SFAS 159 of \$7.4 billion, \$5.4 billion, \$5.4 billion, \$5.0 billion and \$5.1 billion at March 31, 2009, December 31, 2008, September 30, 2008, June 30, 2008 and March 31, 2008, respectively.

(7) The majority of the increase from December 31, 2008 relates to the fair value of the acquired Merrill Lynch unfunded lending commitments, excluding commitments accounted for under SFAS 159.

(8) Criticized exposure and ratios exclude assets held-for-sale, exposure measured at fair value in accordance with SFAS 159 and other nonreservable exposure. Including assets held-for-sale, other nonreservable exposure and commercial loans measured at fair value, the ratios would have been 12.63 percent, 9.43 percent, 7.94 percent, 6.62 percent and 6.12 percent at March 31, 2009, December 31, 2008, September 30, 2008, June 30, 2008 and March 31, 2008, respectively.

(1) Provision for credit losses represents provision for credit losses on held loans combined with realized credit losses associated with the securitized loan portfolio.

(2) The securitization impact on net interest income is on a funds transfer pricing methodology consistent with the way funding costs are allocated to the businesses.

(3) Fully taxable-equivalent basis

Certain prior period amounts have been reclassified among the segments to conform to the current period presentation.

The Corporation reports *Global Card Services* on a managed basis. Reporting on a managed basis is consistent with the way that management evaluates the results of *Global Card Services*. Managed basis assumes that securitized loans were not sold and presents earnings on these loans in a manner similar to the way loans that have not been sold (i.e., held loans) are presented. Loan securitization is an alternative funding process that is used by the Corporation to diversify funding sources. Loan securitization removes loans from the Consolidated Balance Sheet through the sale of loans to an off-balance sheet qualified special purpose entity which is excluded from the Corporation's Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States (GAAP).

The performance of the managed portfolio is important in understanding *Global Card Services*' results as it demonstrates the results of the entire portfolio serviced by the business. Securitized loans continue to be serviced by the business and are subject to the same underwriting standards and ongoing monitoring as held loans. In addition, retained excess servicing income is exposed to similar credit risk and repricing of interest rates as held loans. *Global Card Services*' managed income statement line items differ from a held basis reported as follows:

- Managed net interest income includes *Global Card Services*' net interest income on held loans and interest income on the securitized loans less the internal funds transfer pricing allocation related to securitized loans.
- Managed noninterest income includes *Global Card Services*' noninterest income on a held basis less the reclassification of certain components of card income (e.g., excess servicing income) to record managed net interest income and provision for credit losses. Noninterest income, both on a held and managed basis, also includes the impact of adjustments to the interest-only strip that are recorded in card income as management continues to manage this impact within *Global Card Services*.
- Provision for credit losses represents the provision for credit losses on held loans combined with realized credit losses associated with the securitized loan portfolio.

Information for periods beginning July 1, 2008 include the Countrywide acquisition. Information for the period beginning January 1, 2009 includes the Merrill Lynch acquisition. Prior periods have not been restated.

- Investment banking fees in 1Q09 were up \$341 million from 4Q08 as lower market fee pools were offset by the addition of Merrill Lynch
- From a "pooled view" versus 4Q08, fees were down primarily in equities as the IPO market and average deal size shrunk
- Bank of America Merrill Lynch was No. 2 in global and U.S. investment banking fees during 1Q09
- Bank of America Merrill Lynch was No. 1 based on volume in:
  - U.S. equity capital markets
  - U.S. high yield debt, leveraged and syndicated loans
- A top-five advisor on mergers and acquisitions globally and in the U.S.
- Lead advisor and/or underwriter in many well known deals announced during the quarter

- Credit quality deteriorated further during the quarter as the impacts of the recessionary environment worsened. Consumers continued to experience high levels of stress from depreciating home prices, rising unemployment and underemployment
- The commercial portfolio losses were impacted by small business and deterioration in the commercial real estate portfolio. Although losses did not increase outside of commercial real estate, the commercial portfolio did see an increase in criticized exposure and nonperforming loans from the widespread effects of the economy
- Held net charge-offs increased to 2.85%, up 49 basis points from 4Q08
- Managed net losses increased to 3.40%, up 56 basis points from 4Q08
- Allowance for loan losses covers 3% of loans and, including the reserve for unfunded commitments, is \$30.4 billion

\* Schedule reflects a held basis. Managed losses would add \$2,182 in 1Q09, an increase of \$325 million from 4Q08

## Consumer Credit Card Asset Quality

### Consumer Credit Card – Managed Basis <sup>1</sup>

- Net losses increased \$531 million to \$3.8 billion as the loss ratio climbed 146 basis points to 8.62%
  - US credit card portfolio refreshed FICO of 681 while originated average FICO was 761 in 1Q09
  - California and Florida represent 24% of balances but 34% of managed losses
  - Losses impacted by unemployment and remain higher in geographies of housing stress
- 30+ delinquencies increased 117 basis points to 7.85% of loans
- 90+ delinquencies increased 83 basis point to 3.99% of loans
- Unused commitments were reduced over \$200 billion in 1Q09, principally on inactive accounts

<sup>1</sup> Credit Card includes U.S. consumer, Europe and Canada credit card

## Home Loan Asset Quality

### Residential Mortgage

- Net charge-offs increased \$319 million to \$785 million as the loss ratio climbed 47 basis points to 1.20%
  - Adjusted for the expected benefit of Resi Wrap protection, the loss rate would be 0.95%
  - CRA portfolio still drove a disproportionate share of losses (7% of loans with 4.4% loss rate)
  - Loans with >90% RLTV represented 25% of the portfolio reflecting home price deterioration
  - CA and FL represented 43% of the portfolio but 59% of losses
- Allowance covers 1.09% of loans
- Nonperforming loans increased \$3.8 billion from 4Q08 and now represents 4.13% of loans. The increase was driven by the performance of 2006/2007 vintages
- 30+ performing past dues were flat compared to 4Q08 but, with loan balance increases, the ratio declined 17 bps to 3.04% of loans

### Home Equity

- Net charge-offs increased \$568 million to \$1.7 billion as the loss ratio climbed 138 basis points to 4.30%
  - Loans with >90% RCLTV represent 42% of portfolio reflecting home price deterioration
  - CA and FL represent 41% of the portfolio but 61% of losses
- Allowance covers 4.73% of loans
- Nonperforming loans increased \$928 million from 4Q08 and now represents 2.28% of loans
