The LIRNs are being offered by Bank of America Corporation ("BAC"). The LIRNs will have the terms specified in this term sheet as supplemented by the documents indicated below under "Additional Terms" (together, the "Note Prospectus"). Investing in the LIRNs involves a number of risks. **There are important differences between the LIRNs and a conventional debt security, including different investment risks. See "Risk Factors" on page TS-5 of this term sheet and beginning on page S-10 of product supplement LIRN-2. LIRNs:**

## Summary

The Capped Leveraged Index Return Notes® Linked to the Russell 2000® Index, due August 31, 2012 (the “LIRNs”) are our senior unsecured debt securities. The LIRNs are not guaranteed or insured by the Federal Deposit Insurance Corporation (the “FDIC”) or secured by collateral, and they are not guaranteed under the FDIC’s Temporary Liquidity Guarantee Program. **The LIRNs will rank equally with all of our other unsecured and unsubordinated debt, and any payments due on the LIRNs, including any repayment of principal, will be subject to the credit risk of BAC.** The LIRNs provide a leveraged return for investors, subject to a cap, if the level of the Russell 2000® Index (the “Index”) increases moderately from the Starting Value of the Index, determined on the pricing date, to the Ending Value of the Index, determined during the Maturity Valuation Period. Investors must be willing to forgo interest payments on the LIRNs and be willing to accept a return that is capped or a repayment that is less, and potentially significantly less, than the Original Offering Price.

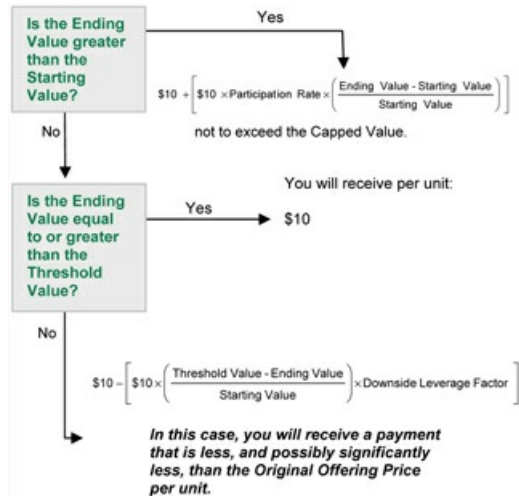

Capitalized terms used but not defined in this term sheet have the meanings set forth in product supplement LIRN-2. Unless otherwise indicated or unless the context requires otherwise, all references in this document to “we,” “us,” “our,” or similar references are to BAC.

## Terms of the LIRNs

|                                   |   |
|-----------------------------------|---|
| <b>Issuer:</b>                    | Bank of America Corporation (“BAC”)   |
| <b>Original Offering Price:</b>   | \$10.00 per unit  |
| <b>Term:</b>                      | Approximately two years   |
| <b>Market Measure:</b>            | The Russell 2000® Index (Index symbol: “RTY”)   |
| <b>Starting Value:</b>            | 604.87  |
| <b>Ending Value:</b>              | The average of the closing levels of the Index on each scheduled calculation day during the Maturity Valuation Period. If it is determined that a scheduled calculation day is not a Market Measure Business Day, or if a Market Disruption Event occurs on a scheduled calculation day, the Ending Value will be determined as more fully described beginning on page S-24 of product supplement LIRN-2. |
| <b>Threshold Value:</b>           | 544.38 (90% of the Starting Value, rounded to two decimal places)   |
| <b>Capped Value:</b>              | \$14.00 per unit of the LIRNs, which represents a return of 40% over the Original Offering Price.   |
| <b>Participation Rate:</b>        | 200%  |
| <b>Downside Leverage Factor:</b>  | 100%  |
| <b>Maturity Valuation Period:</b> | August 22, 2012, August 23, 2012, August 24, 2012, August 27, 2012, and August 28, 2012   |
| <b>Calculation Agent:</b>         | MLPF&S, a subsidiary of BAC   |

## Determining the Redemption Amount for the LIRNs

On the maturity date, you will receive a cash payment per unit (the “Redemption Amount”) calculated as follows:

## Hypothetical Payout Profile

This graph reflects the **hypothetical** returns on the LIRNs at maturity, based upon the Participation Rate of 200%, the Threshold Value equal to 90% of the Starting Value, and the Capped Value of \$14.00 (a 40% return). The green line reflects the **hypothetical** returns on the LIRNs, while the dotted grey line reflects the return of a **hypothetical** direct investment in the stocks included in the Index, excluding dividends.

This graph has been prepared for purposes of illustration only. Your actual return will depend on the actual Ending Value and the term of your investment.

## Hypothetical Redemption Amounts

### Examples

Set forth below are four examples of Redemption Amount calculations (rounded to two decimal places) payable at maturity, based upon the Participation Rate of 200%, the Downside Leverage Factor of 100%, the Starting Value of 604.87, the Threshold Value of 544.38, and the Capped Value of \$14.00 per unit.

**Example 1**—The **hypothetical** Ending Value is 70% of the Starting Value and is less than the Threshold Value:

Starting Value: 604.87  
**Hypothetical** Ending Value: 423.41  
 Threshold Value: 544.38

$$\$10 - \left[ \$10 \times \left( \frac{544.38 - 423.41}{604.87} \right) \times 100\% \right] = \$8.00$$

Redemption Amount (per unit) = \$8.00

**Example 2**—The **hypothetical** Ending Value is 95% of the Starting Value and is greater than the Threshold Value:

Starting Value: 604.87  
**Hypothetical** Ending Value: 574.63  
 Threshold Value: 544.38

Redemption Amount (per unit) = \$10.00

If the Ending Value is less than or equal to the Starting Value but is greater than or equal to the Threshold Value, the Redemption Amount will equal the Original Offering Price.

**Example 3**—The **hypothetical** Ending Value is 104% of the Starting Value:

Starting Value: 604.87  
**Hypothetical** Ending Value: 629.06

$$\$10 + \left[ \$10 \times 200\% \times \left( \frac{629.06 - 604.87}{604.87} \right) \right] = \$10.80$$

Redemption Amount (per unit) = \$10.80

**Example 4**—The **hypothetical** Ending Value is 150% of the Starting Value:

Starting Value: 604.87  
**Hypothetical** Ending Value: 907.31

$$\$10 + \left[ \$10 \times 200\% \times \left( \frac{907.31 - 604.87}{604.87} \right) \right] = \$20.00$$

Redemption Amount (per unit) = \$14.00 (The Redemption Amount cannot be greater than the Capped Value.)

ENHANCED PARTICIPATION

The following table illustrates, for the Starting Value of 604.87, the Threshold Value of 90% of the Starting Value (rounded to two decimal places), and a range of **hypothetical** Ending Values of the Index:

- the percentage change from the Starting Value to the **hypothetical** Ending Value;
- the **hypothetical** Redemption Amount per unit of the LIRNs (rounded to two decimal places); and
- the total rate of return to holders of the LIRNs.

The table below is based on the Participation Rate of 200%, the Downside Leverage Factor of 100%, and the Capped Value of \$14.00 (per unit).

| Hypothetical Ending Value(1) | Percentage Change from the Starting Value to the Hypothetical Ending Value | Hypothetical Redemption Amount per Unit | Total Rate of Return on the LIRNs |
|------------------------------|--|---|-----------------------------------|
| 302.44                       | -50.00%  | \$6.00                                  | -40.00%                           |
| 362.92                       | -40.00%  | \$7.00                                  | -30.00%                           |
| 423.41                       | -30.00%  | \$8.00                                  | -20.00%                           |
| 483.90                       | -20.00%  | \$9.00                                  | -10.00%                           |

| 665.36                       | 10.00%   | \$12.00                                 | 20.00%                            |
| 725.84                       | 20.00%   | \$14.00(4)                              | 40.00%                            |
| 786.33                       | 30.00%   | \$14.00                                 | 40.00%                            |
| 846.82                       | 40.00%   | \$14.00                                 | 40.00%                            |
| 907.31                       | 50.00%   | \$14.00                                 | 40.00%                            |

- (1) The Index is a price return index. Accordingly, the Ending Value will not include any income generated by dividends paid on the stocks included in the Index, which you would otherwise be entitled to receive if you invested in those stocks directly.
- (2) This is the Threshold Value.
- (3) This is the Starting Value.
- (4) The Redemption Amount per unit of the LIRNs cannot exceed the Capped Value of \$14.00.

The above figures are for purposes of illustration only. The actual amount you receive and the resulting total rate of return will depend on the actual Ending Value and the term of your investment.

TS-4

## Risk Factors

There are important differences between the LIRNs and a conventional debt security. An investment in the LIRNs involves significant risks, including those listed below. You should carefully review the more detailed explanation of risks relating to the LIRNs in the "Risk Factors" sections beginning on page S-10 of product supplement LIRN-2 and page S-4 of the MTN prospectus supplement identified below under "Additional Terms." We also urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the LIRNs.

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your yield may be less than the yield on a conventional debt security of comparable maturity.
- Your investment return, if any, is limited to the return represented by the Capped Value.
- Your investment return, if any, may be less than a comparable investment directly in the stocks included in the Index.
- You must rely on your own evaluation of the merits of an investment linked to the Index.
- In seeking to provide you with what we believe to be commercially reasonable terms for the LIRNs while providing the selling agent with compensation for its services, we have considered the costs of developing, hedging, and distributing the LIRNs.
- A trading market is not expected to develop for the LIRNs.
- The Redemption Amount will not be affected by all developments relating to the Index.
- Russell Investments ("Russell") may adjust the Index in a way that affects its level, and Russell has no obligation to consider your interests.
- You will have no rights of a holder of the securities represented by the Index, and you will not be entitled to receive securities or dividends or other distributions of the issuers of those securities.
- While we or our affiliates may from time to time own shares of companies included in the Index, we do not control any company included in the Index, and are not responsible for any disclosure made by any other company.
- If you attempt to sell the LIRNs prior to maturity, their market value, if any, will be affected by various factors that interrelate in complex ways, and their market value may be less than their Original Offering Price.
- Payments on the LIRNs are subject to our credit risk, and changes in our credit ratings are expected to affect the value of the LIRNs.
- Purchases and sales by us and our affiliates of shares of companies included in the Index may affect your return.
- Our trading and hedging activities may create conflicts of interest with you.
- Our hedging activities may affect your return on the LIRNs and their market value.
- Our business activities relating to the companies represented by the Index may create conflicts of interest with you.
- There may be potential conflicts of interest involving the calculation agent. We have the right to appoint and remove the calculation agent.
- The U.S. federal income tax consequences of the LIRNs are uncertain, and may be adverse to a holder of the LIRNs. See "Summary Tax Consequences" and "Certain U.S. Federal Income Taxation Considerations" below and "U.S. Federal Income Tax Summary" beginning on page S-35 of product supplement LIRN-2.

## Investor Considerations

### You may wish to consider an investment in the LIRNs if:

- You anticipate that the level of the Index will increase moderately from the Starting Value to the Ending Value.
- You accept that your investment will result in a loss, which could be significant, if the level of the Index decreases from the Starting Value to an Ending Value that is less than the Threshold Value.
- You accept that the return on the LIRNs will not exceed the return represented by the Capped Value.
- You are willing to forgo interest payments on the LIRNs, such as fixed or floating rate interest paid on traditional interest bearing debt securities.
- You seek exposure to the Index with no expectation of dividends or other benefits of owning the stocks included in the Index.
- You are willing to accept that a trading market is not expected to develop for the LIRNs. You understand that secondary market prices for the LIRNs, if any, will be affected by various factors, including our actual and perceived creditworthiness.
- You are willing to make an investment, the payments on which depend on our creditworthiness, as the issuer of the LIRNs.

### The LIRNs may not be an appropriate investment for you if:

- You anticipate that the level of the Index will decrease from the Starting Value to the Ending Value or that the level of the Index will not increase sufficiently over the term of the LIRNs to provide you with your desired return.
- You seek 100% principal protection or preservation of capital.
- You seek a return on your investment that will not be capped at 40% over the Original Offering Price.
- You seek interest payments or other current income on your investment.
- You want to receive dividends or other distributions paid on the stocks included in the Index.
- You seek assurances that there will be a liquid market if and when you want to sell the LIRNs prior to maturity.
- You are unwilling or are unable to assume the credit risk associated with us, as the issuer of the LIRNs.

# Capped Leveraged Index Return Notes®

## Other Provisions

We will deliver the LIRNs against payment therefor in New York, New York on a date that is greater than three business days following the pricing date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the LIRNs more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

If you place an order to purchase the LIRNs, you are consenting to MLPF&S acting as a principal in effecting the transaction for your account.

## Supplement to the Plan of Distribution

MLPF&S, a broker-dealer subsidiary of BAC, is a member of the Financial Industry Regulatory Authority, Inc. (formerly the National Association of Securities Dealers, Inc. (the "NASD")) and will participate as selling agent in the distribution of the LIRNs. Accordingly, offerings of the LIRNs will conform to the requirements of NASD Rule 2720. Under our distribution agreement with MLPF&S, MLPF&S will purchase the LIRNs from us on the issue date as principal at the purchase price indicated on the cover of this term sheet, less the indicated underwriting discount. In the original offering of the LIRNs, the LIRNs will be sold in minimum investment amounts of 100 units.

MLPF&S may use this Note Prospectus for offers and sales in secondary market transactions and market-making transactions in the LIRNs but are not obligated to engage in such secondary market transactions and/or market-making transactions. MLPF&S may act as principal or agent in these transactions, and any such sales will be made at prices related to prevailing market prices at the time of the sale.

Capped Leveraged Index Return Notes®

## The Index

All disclosures contained in this term sheet regarding the Index, including, without limitation, its make up, method of calculation, and changes in its components, have been derived from publicly available sources. The information reflects the policies of, and is subject to change by, Russell. Russell, which owns the copyright and all other rights to the Index, has no obligation to continue to publish, and may discontinue publication of, the Index. The consequences of Russell discontinuing publication of the Index are discussed in the section on page S-30 of product supplement LIRN-2 entitled "Description of LIRNs —Discontinuance of a Market Measure." None of us, the calculation agent, or the selling agent accepts any responsibility for the calculation, maintenance, or publication of the Index or any successor index.

"Russell 2000®" and "Russell 3000®" are trademarks of Russell and have been licensed for use by our subsidiary, MLPF&S. The LIRNs are not sponsored, endorsed, sold, or promoted by Russell, and Russell makes no representation regarding the advisability of investing in the LIRNs.

Russell began dissemination of the Index (Bloomberg L.P. index symbol "RTY") on January 1, 1984 and calculates and publishes the Index. The Index was set to 135 as of the close of business on December 31, 1986. The Index is designed to track the performance of the small capitalization segment of the U.S. equity market. As a subset of the Russell 3000® Index, the Index consists of the smallest 2,000 companies included in the Russell 3000® Index. The Russell 3000® Index measures the performance of the largest 3,000 U.S. companies, representing approximately 98% of the investable U.S. equity market. The Index is determined, comprised, and calculated by Russell without regard to the LIRNs.

### Selection of Stocks Underlying the Index

All companies eligible for inclusion in the Index must be classified as a U.S. company under Russell's country-assignment methodology. If a company is incorporated, has a stated headquarters location, and trades in the same country (American Depositary Receipts and American Depositary Shares are not eligible), then the company is assigned to its country of incorporation. If any of the three factors are not the same, Russell defines three Home Country Indicators ("HCIs"): country of incorporation, country of headquarters, and country of the most liquid exchange (as defined by a two-year average daily dollar trading volume) ("ADDTV"). Using the HCIs, Russell compares the primary location of the company's assets with the three HCIs. If the primary location of its assets matches any of the HCIs, then the company is assigned to the primary location of its assets. If there is insufficient information to determine the country in which the company's assets are primarily located, Russell will use the primary country from which the company's revenues are primarily derived for the comparison with the three HCIs in a similar manner. For the 2010 reconstitution, Russell will use one year of assets or revenues data to determine the country for the company. Beginning in 2011, Russell will use the average of two years of assets or revenues data, in order to reduce potential turnover. Assets and revenues data are retrieved from each company's annual report as of the last trading day in May. If conclusive country details cannot be derived from assets or revenues data, Russell will assign the company to the country of its headquarters, which is defined as the address of the company's principal executive offices, unless that country is a Benefit Driven Incorporation "BDI" country, in which case the company will be assigned to the country of its most liquid stock exchange. BDI countries include: Anguilla, Antigua and Barbuda, Bahamas, Barbados, Belize, Bermuda, British Virgin Islands, Cayman Islands, Channel Islands, Cook Islands, Faroe Islands, Gibraltar, Isle of Man, Liberia, Marshall Islands, Netherlands Antilles, Panama, and Turks and Caicos Islands.

All securities eligible for inclusion in the Index must trade on a major U.S. exchange. Bulletin board, pink sheets, and over-the-counter ("OTC") traded securities are not eligible for inclusion. Stocks must trade at or above \$1.00 on their primary exchange on the last trading day in May to be eligible for inclusion during annual reconstitution. However, in order to reduce unnecessary turnover, if an existing member's closing price is less than \$1.00 on the last day of May, it will be considered eligible if the average of the daily closing prices (from its primary exchange) during the month of May is equal to or greater than \$1.00. Nonetheless, a stock's closing price (on its primary exchange) on the last trading day in May will be used to calculate market capitalization and index membership. Initial public offerings are added each quarter and must have a closing price at or above \$1.00 on the last day of their eligibility period in order to qualify for index inclusion. If a stock, new or existing, does not have a closing price at or above \$1.00 (on its primary exchange) on the last trading day in May, but does have a closing price at or above \$1.00 on another major U.S. exchange, that stock will be eligible for inclusion, but the lowest price from a non-primary exchange will be used to calculate market capitalization and index membership.

An important criteria used to determine the list of securities eligible for the Index is total market capitalization, which is defined as the market price as of the last trading day in May for those securities being considered at annual reconstitution times the total number of shares outstanding. Common stock, non-restricted exchangeable shares and partnership units/membership interests are used to determine market capitalization. Any other form of shares such as preferred stock, convertible preferred stock, redeemable shares, participating preferred stock, warrants and rights, or trust receipts, are excluded from the calculation. Companies with a total market capitalization of less than \$30 million are not eligible for the Index. Similarly, companies with only 5% or less of their shares available in the marketplace are not eligible for the Index.

Royalty trusts, limited liability companies, closed-end investment companies (business development companies are eligible), blank check companies, special purpose acquisition companies, and limited partnerships are also ineligible for inclusion. In general, only one class of common stock of a company is eligible for inclusion in the Index, although exceptions to this general rule have been made where Russell has determined that each class of common stock acts independent of the other.

Annual reconstitution is a process by which the Index is completely rebuilt. Based on closing levels of the company's common stock on its primary exchange on the last trading day of May of each year, Russell reconstitutes the composition of the Index using the then existing market capitalizations of eligible companies. Reconstitution of the Index occurs on the last Friday in June or, when the last Friday in June is the 28<sup>th</sup>, 29<sup>th</sup>, or 30<sup>th</sup>, reconstitution occurs on the prior Friday. In addition, Russell adds initial public offerings to the Index on a quarterly basis based on market capitalization guidelines established during the most recent reconstitution.

After membership is determined, a security's shares are adjusted to include only those shares available to the public. This is often referred to as "free float." The purpose of the adjustment is to exclude from market calculations the capitalization that is not available for purchase and is not part of the investable opportunity set.

As a capitalization-weighted index, the Index reflects changes in the capitalization, or market value, of the component stocks relative to the entire market value of the Index. The current Index level is calculated by adding the market values of the Index's component stocks, which are derived by multiplying the price of each stock by the number of shares outstanding, to arrive at the available market capitalization of the 3,000 stocks. The available market capitalization is then divided by a divisor, which represents the index value of the Index. To calculate the Index, closing prices will be used from the primary exchange of each security. If a component stock is not open for trading, the most recently traded price for that security will be used in calculating the Index. In order to provide continuity for the Index's level, the divisor is adjusted periodically to reflect events including changes in the number of common shares outstanding for component stocks, company additions or deletions, corporate restructurings, and other capitalization changes.

The following graph sets forth the monthly historical performance of the Index in the period from January 2004 through July 2010. This historical data on the Index is not necessarily indicative of the future performance of the Index or what the value of the LIRNs may be. Any historical upward or downward trend in the level of the Index during any period set forth below is not an indication that the level of the Index is more or less likely to increase or decrease at any time over the term of the LIRNs. On the pricing date, the closing level of the Index was 604.87.

Before investing in the LIRNs, you should consult publicly available sources for the levels and trading pattern of the Index. The generally unsettled international environment and related uncertainties, including the risk of terrorism, may result in the Index and financial markets generally exhibiting greater volatility than in earlier periods.

#### License Agreement

Russell and MLPF&S have entered into a non-exclusive license agreement providing for the license to MLPF&S and its affiliates, including us, in exchange for a fee, of the right to use indices owned and published by Russell in connection with some securities, including the LIRNs. The license agreement provides that the following language must be stated in this term sheet:

The LIRNs are not sponsored, endorsed, sold, or promoted by Russell. Russell makes no representation or warranty, express or implied, to the holders of the LIRNs or any member of the public regarding the advisability of investing in securities generally or in the LIRNs particularly or the ability of the Index to track general stock market performance or a segment of the same. Russell's publication of the Index in no way suggests or implies an opinion by Russell as to the advisability of investment in any or all of the securities upon which the Index is based. Russell's only relationship to MLPF&S and to us is the licensing of certain trademarks and trade names of Russell and of the Index, which is determined, composed, and calculated by Russell without regard to MLPF&S, us, or the LIRNs. Russell is not responsible for and has not reviewed the LIRNs nor any associated literature or publications and Russell makes no representation or warranty express or implied as to their accuracy or completeness, or otherwise. Russell reserves the right, at any time and without notice, to alter, amend, terminate, or in any way change the Index. Russell has no obligation or liability in connection with the administration, marketing, or trading of the LIRNs.

RUSSELL DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN AND RUSSELL SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. RUSSELL MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY MLPF&S, US, HOLDERS OF THE LIRNS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR ANY DATA INCLUDED THEREIN. RUSSELL MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL RUSSELL HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

## Summary Tax Consequences

You should consider the U.S. federal income tax consequences of an investment in the LIRNs, including the following:

- You agree with us (in the absence of an administrative determination, or judicial ruling to the contrary) to characterize and treat the LIRNs for all tax purposes as a single financial contract with respect to the Index that requires you to pay us at inception an amount equal to the purchase price of the LIRNs and that entitles you to receive at maturity an amount in cash based upon the performance of the Index.
- Under this characterization and tax treatment of the LIRNs, upon receipt of a cash payment at maturity or upon a sale or exchange of the LIRNs prior to maturity, you generally will recognize capital gain or loss. This capital gain or loss generally will be long-term capital gain or loss if you held the LIRNs for more than one year.

## Certain U.S. Federal Income Taxation Considerations

Set forth below is a summary of certain U.S. federal income tax considerations relating to an investment in the LIRNs. The following summary is not complete and is qualified in its entirety by the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-35 of product supplement LIRN-2, which you should carefully review prior to investing in the LIRNs.

**General.** Although there is no statutory, judicial, or administrative authority directly addressing the characterization of the LIRNs, we intend to treat the LIRNs for all tax purposes as a single financial contract with respect to the Index that requires the investor to pay us at inception an amount equal to the purchase price of the LIRNs and that entitles the investor to receive at maturity an amount in cash based upon the performance of the Index. Under the terms of the LIRNs, we and every investor in the LIRNs agree, in the absence of an administrative determination or judicial ruling to the contrary, to treat the LIRNs as described in the preceding sentence. This discussion assumes that the LIRNs constitute a single financial contract with respect to the Index for U.S. federal income tax purposes. If the LIRNs did not constitute a single financial contract, the tax consequences described below would be materially different. The discussion in this section also assumes that there is a significant possibility of a significant loss of principal on an investment in the LIRNs.

This characterization of the LIRNs is not binding on the Internal Revenue Service ("IRS") or the courts. No statutory, judicial, or administrative authority directly addresses the characterization of the LIRNs or any similar instruments for U.S. federal income tax purposes, and no ruling is being requested from the IRS with respect to their proper characterization and treatment. Due to the absence of authorities on point, significant aspects of the U.S. federal income tax consequences of an investment in the LIRNs are not certain, and no assurance can be given that the IRS or any court will agree with the characterization and tax treatment described in product supplement LIRN-2. Accordingly, you are urged to consult your tax advisor regarding all aspects of the U.S. federal income tax consequences of an investment in the LIRNs, including possible alternative characterizations.

**Settlement At Maturity or Sale or Exchange Prior to Maturity.** Assuming that the LIRNs are properly characterized and treated as single financial contracts with respect to the Index for U.S. federal income tax purposes, upon receipt of a cash payment at maturity or upon a sale or exchange of the LIRNs prior to maturity, a U.S. Holder (as defined in product supplement LIRN-2) generally will recognize capital gain or loss equal to the difference between the amount realized and the U.S. Holder's basis in the LIRNs. This capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder held the LIRNs for more than one year. The deductibility of capital losses is subject to limitations.

**Possible Future Tax Law Changes.** From time to time, there may be legislative proposals or interpretive guidance addressing the tax treatment of financial instruments such as the LIRNs. We cannot predict the likelihood of any such legislation or guidance being adopted, or the ultimate impact on the LIRNs. For example, on December 7, 2007, the IRS released Notice 2008-2 ("Notice") seeking comments from the public on the taxation of financial instruments currently taxed as "prepaid forward contracts." This Notice addresses instruments such as the LIRNs. According to the Notice, the IRS and Treasury are considering whether a holder of an instrument such as the LIRNs should be required to accrue ordinary income on a current basis, regardless of whether any payments are made prior to maturity. It is not possible to determine what guidance the IRS and Treasury will ultimately issue, if any. Any such future guidance may affect the amount, timing, and character of income, gain, or loss in respect of the LIRNs, possibly with retroactive effect. The IRS and Treasury are also considering additional issues, including whether additional gain or loss from such instruments should be treated as ordinary or capital, whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals, whether Section 1260 of the Internal Revenue Code of 1986, as amended, concerning certain "constructive ownership transactions," generally applies or should generally apply to such instruments, and whether any of these determinations depend on the nature of the underlying asset. We urge you to consult your own tax advisors concerning the impact and the significance of the above considerations. We intend to continue treating the LIRNs for U.S. federal income tax purposes in the manner described herein unless and until such time as we determine, or the IRS or Treasury determines, that some other treatment is more appropriate.

**You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the LIRNs, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws. See the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-35 of product supplement LIRN-2.**

## Additional Terms

You should read this term sheet, together with the documents listed below, which together contain the terms of the LIRNs and supersede all prior or contemporaneous oral statements as well as any other written materials. You should carefully consider, among other things, the matters set forth under "Risk Factors" in the sections indicated on the cover of this term sheet. The LIRNs involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the LIRNs.

You may access the following documents on the SEC Website at [www.sec.gov](http://www.sec.gov) as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC Website):

- Product supplement LIRN-2 dated April 21, 2009:  
<http://www.sec.gov/Archives/edgar/data/70858/000095014409003415/q18702p2e424b5.htm>
- Series L MTN prospectus supplement dated April 21, 2009 and prospectus dated April 20, 2009:  
<http://www.sec.gov/Archives/edgar/data/70858/000095014409003387/q18667b5e424b5.htm>

Our Central Index Key, or CIK, on the SEC Website is 70858.

**We have filed a registration statement (including a product supplement, a prospectus supplement, and a prospectus) with the SEC for the offering to which this term sheet relates. Before you invest, you should read the product supplement, the prospectus supplement, and the prospectus in that registration statement, and the other documents relating to this offering that we have filed with the SEC for more complete information about us and this offering. You may get these documents without cost by visiting EDGAR on the SEC Website at [www.sec.gov](http://www.sec.gov). Alternatively, we, any agent, or any dealer participating in this offering will arrange to send you the Note Prospectus if you so request by calling MLPF&S toll-free at 1-866-500-5408.**

## Structured Investments Classification

MLPF&S classifies certain structured investments (the "Structured Investments"), including the LIRNs, into four categories, each with different investment characteristics. The description below is intended to briefly describe the four categories of Structured Investments offered: Principal Protection, Enhanced Income, Market Participation, and Enhanced Participation. A Structured Investment may, however, combine characteristics that are relevant to one or more of the other categories. As such, a category should not be relied upon as a description of any particular Structured Investment.

**Principal Protection:** Principal Protected Structured Investments offer full or partial principal protection against decreases in the value of the underlying market measure (or increases in the value of an underlying market measure for bearish Structured Investments), while offering market exposure and the opportunity for a better return than may be available from comparable fixed income securities. Principal protection may not be achieved if the investment is sold prior to maturity.

**Enhanced Income:** Structured Investments offering enhanced income may offer an enhanced income stream through interim fixed or variable coupon payments. However, in exchange for receiving current income, investors may forfeit upside potential on the underlying asset. These investments generally do not include the principal protection feature.

**Market Participation:** Market Participation Structured Investments can offer investors exposure to specific market sectors, asset classes, and/or strategies that may not be readily available through traditional investment alternatives. Returns obtained from these investments are tied to the performance of the underlying asset. As such, subject to certain fees, the returns will generally reflect any increases or decreases in the value of such assets. These investments generally do not include the principal protection feature.

**Enhanced Participation:** Enhanced Participation Structured Investments may offer investors the potential to receive better than market returns on the performance of the underlying asset. Some structures may offer leverage in exchange for a capped or limited upside potential and also in exchange for downside risk. These investments generally do not include the principal protection feature.

The classification of Structured Investments is meant solely for informational purposes and is not intended to fully describe any particular Structured Investment nor guarantee any particular performance.

"Leveraged Index Return Notes®" and "LIRNs®" are our registered service marks.
