Term Sheet No.			

Enhanced Buffer Market-Linked Step Up Notes

- Step Up Payment of 14% to 20% over the Original Offering Price at maturity if the level of the Dow Jones Industrial AverageSM (the "Index") is greater than or equal to 90% of the Starting Value (the "Threshold Value"), but does not increase above the Step Up Value
- 100% participation in any increase in the level of the Index if it increases above the Step Up Value of 114% to 120% of the Starting Value
- 1-to-1 downside exposure to decreases in the level of the Index in excess of the Threshold Value, with up to 90% of the principal amount at risk
- A maturity of approximately three years
- Payment of the Redemption Amount at maturity is subject to the credit risk of Bank of America Corporation
- No periodic interest payments
- No listing on any securities exchange

STRUCTURED INVESTMENTS

ENHANCED PARTICIPATION

The notes are being offered by Bank of America Corporation ("BAC"). The notes will have the terms specified in this term sheet as supplemented by the documents indicated below under "Additional Terms" (together, the "Note Prospectus"). Investing in the notes involves a number of risks. **There are important differences between the notes and a conventional debt security, including different investment risks. See "Risk Factors" on page TS-5 of this term sheet and beginning on page S-8 of product supplement SUN-1. The notes:**

Are Not FDIC Insured	Are Not Bank Guaranteed	May Lose Value
----------------------	-------------------------	----------------

In connection with this offering, Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S") is acting in its capacity as principal for your account.

None of the Securities and Exchange Commission (the "SEC"), any state securities commission, or any other regulatory body has approved or disapproved of these securities or determined if this Note Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price (1)	\$10.000	\$
Underwriting discount (1)	\$ 0.225	\$
Proceeds, before expenses, to Bank of America Corporation	\$ 9.775	\$

- (1) The public offering price and underwriting discount for any purchase of 500,000 units or more in a single transaction by an individual investor will be \$9.950 per unit and \$0.175 per unit, respectively. The public offering price and underwriting discount for any purchase by certain fee-based trusts and fee-based discretionary accounts managed by U.S. Trust operating through Bank of America, N.A. will be \$9.775 per unit and \$0.000 per unit, respectively.

*Depending on the date the notes are priced for initial sale to the public (the "pricing date"), which may be in November or December 2010, the settlement date may occur in November or December 2010, and the maturity date may occur in November or December 2013. Any reference in this term sheet to the month in which the pricing date, the settlement date, or the maturity date will occur is subject to change as specified above.

Merrill Lynch & Co.

November , 2010

Summary

The Enhanced Buffer Market-Linked Step Up Notes Linked to the Dow Jones Industrial AverageSM, due November , 2013 (the "notes") are our senior unsecured debt securities. The notes are not guaranteed or insured by the Federal Deposit Insurance Corporation or secured by collateral. **The notes will rank equally with all of our other unsecured and unsubordinated debt, and any payments due on the notes, including any repayment of principal, will be subject to the credit risk of BAC.**

The notes provide investors with a Step Up Payment if the Ending Value of the Dow Jones Industrial AverageSM (the "Index"), determined on a calculation day shortly before the maturity date, is greater than or equal to the Threshold Value, but does not increase above the Step Up Value. If the level of the Index increases from the Starting Value to an Ending Value that is above the Step Up Value, investors will participate on a 1-for-1 basis in the increase above the Starting Value. Investors should be of the view that the Ending Value will be greater than the Threshold Value. Investors must be willing to forgo interest payments on the notes and be willing to accept a repayment that will be less, and potentially significantly less, than the Original Offering Price if the Ending Value is less than the Threshold Value. Investors must also be willing to forgo a higher Step Up Payment that would apply to market-linked step up notes in which the Step Up Payment would not be paid if the Ending Value was less than the Starting Value.

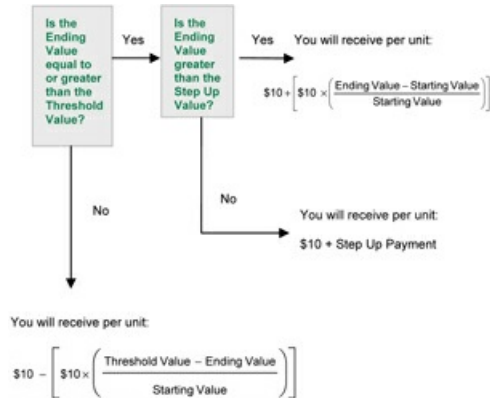

Capitalized terms used but not defined in this term sheet have the meanings set forth in product supplement SUN-1. Unless otherwise indicated or unless the context requires otherwise, all references in this document to "we," "us," "our," or similar references are to BAC.

Terms of the Notes

Issuer:	Bank of America Corporation ("BAC")
Original Offering Price:	\$10.00 per unit
Term:	Approximately three years
Market Measure:	Dow Jones Industrial Average SM (Bloomberg symbol: "INDU")
Starting Value:	The closing level of the Index on the pricing date. The Starting Value will be determined on the pricing date and set forth in the final term sheet that will be made available in connection with sales of the notes.
Ending Value:	The closing level of the Index on the calculation day. If it is determined that the scheduled calculation day is not a Market Measure Business Day, or if a Market Disruption Event occurs on the scheduled calculation day, the Ending Value will be determined as more fully described beginning on page S-20 of product supplement SUN-1.
Step Up Value:	The Step Up Value will be between 114% and 120% of the Starting Value. The Step Up Value will be determined on the pricing date and set forth in the final term sheet that will be made available in connection with sales of the notes.
Step Up Payment:	The Step Up Payment will be between \$1.40 and \$2.00 per unit at maturity (representing a return of between 14% and 20% over the Original Offering Price). The actual Step Up Payment will be determined on the pricing date and set forth in the final term sheet that will be made available in connection with sales of the notes.
Threshold Value:	90% of the Starting Value, rounded to two decimal places.
Calculation Day:	The fifth scheduled Market Measure Business Day immediately prior to the maturity date, determined on the pricing date and set forth in the final term sheet that will be made available in connection with sales of the notes.
Calculation Agent:	MLPF&S, a subsidiary of BAC

Determining the Redemption Amount for the Notes

On the maturity date, you will receive a cash payment per unit of the notes (the "Redemption Amount") calculated as follows:

In this case, you will receive a Redemption Amount that is less, and possibly significantly less, than the Original Offering Price per unit of the notes.

Hypothetical Payout Profile

Enhanced Buffer Market-Linked Step Up Notes

This graph reflects the **hypothetical** returns on the notes at maturity, based on the **hypothetical** Step Up Payment of \$1.70 (the midpoint of the Step Up Payment range of \$1.40 to \$2.00), the **hypothetical** Step Up Value of 117% of the Starting Value (the midpoint of the Step Up Value range of 114% to 120%), and the Threshold Value of 90% of the Starting Value. The green line reflects the **hypothetical** returns on the notes while the grey dotted line reflects the **hypothetical** returns of a direct investment in the stocks included in the Index, excluding dividends.

This graph has been prepared for purposes of illustration only. Your actual return will depend on the actual Starting Value, Step Up Payment, Step Up Value, Ending Value, Threshold Value, and the term of your investment.

Hypothetical Redemption Amounts

Examples

Set forth below are four examples of **hypothetical** Redemption Amount calculations (rounded to two decimal places) payable at maturity, based upon a **hypothetical** Starting Value of 11,062.78 (the closing level of the Index on October 15, 2010), a **hypothetical** Threshold Value of 9,956.50, a **hypothetical** Step Up Payment of \$1.70 (the midpoint of the Step Up Payment range of \$1.40 to \$2.00), and a **hypothetical** Step Up Value of 117% of the **hypothetical** Starting Value (the midpoint of the Step Up Value range of 114% to 120%):

Example 1 — The **hypothetical** Ending Value is 80% of the **hypothetical** Starting Value and is less than the **hypothetical** Threshold Value:

Hypothetical Starting Value: 11,062.78
 Hypothetical Threshold Value: 9,956.50
 Hypothetical Ending Value: 8,850.22

$$\text{Hypothetical Redemption Amount (per unit)} = \$10 - \left[\$10 \times \left(\frac{9,956.50 - 8,850.22}{11,062.78} \right) \right] = \$9.00$$

Example 2 — The **hypothetical** Ending Value is 95% of the **hypothetical** Starting Value and is greater than the **hypothetical** Threshold Value, but is less than or equal to the **hypothetical** Step Up Value:

Hypothetical Starting Value: 11,062.78
 Hypothetical Threshold Value: 9,956.50
 Hypothetical Ending Value: 10,509.64
 Hypothetical Step Up Value: 12,943.45

$$\text{Hypothetical Redemption Amount (per unit)} = \$10.00 + \$1.70 = \$11.70$$

In this case, even though the **hypothetical** Ending Value is less than the **hypothetical** Starting Value, because the **hypothetical** Ending Value is greater than or equal to the **hypothetical** Threshold Value but less than or equal to the **hypothetical** Step Up Value, the **hypothetical** Redemption Amount (per unit) will equal \$11.70, which is the sum of the Original Offering Price and the **hypothetical** Step Up Payment of \$1.70.

Example 3 — The **hypothetical** Ending Value is 105% of the **hypothetical** Starting Value and is greater than the **hypothetical** Threshold Value, but is less than or equal to the **hypothetical** Step Up Value:

Hypothetical Starting Value: 11,062.78
 Hypothetical Threshold Value: 9,956.50
 Hypothetical Ending Value: 11,615.92
 Hypothetical Step Up Value: 12,943.45

$$\text{Hypothetical Redemption Amount (per unit)} = \$10.00 + \$1.70 = \$11.70$$

In this case, because the **hypothetical** Ending Value is greater than or equal to the **hypothetical** Threshold Value but less than or equal to the **hypothetical** Step Up Value, the **hypothetical** Redemption Amount (per unit) will equal \$11.70, which is the sum of the Original Offering Price and the **hypothetical** Step Up Payment of \$1.70.

Example 4 — The **hypothetical** Ending Value is 150% of the **hypothetical** Starting Value and is greater than the **hypothetical** Step Up Value:

Hypothetical Starting Value: 11,062.78
 Hypothetical Ending Value: 16,594.17
 Hypothetical Step Up Value: 12,943.45

$$\text{Hypothetical Redemption Amount (per unit)} = \$10 + \left[\$10 \times \left(\frac{16,594.17 - 11,062.78}{11,062.78} \right) \right] = \$15.00$$

ENHANCED PARTICIPATION

The following table illustrates, for the hypothetical Starting Value of 11,062.78 (the closing level of the Index on October 15, 2010), a Threshold Value of 90% of the **hypothetical** Starting Value (rounded to two decimal places), and a range of **hypothetical** Ending Values:

- the percentage change from the **hypothetical** Starting Value to the **hypothetical** Ending Value;
- the **hypothetical** Redemption Amount per unit of the notes (rounded to two decimal places); and
- the **hypothetical** total rate of return to holders of the notes.

The table below is based on a **hypothetical** Step Up Payment of \$1.70 (the midpoint of the Step Up Payment range of \$1.40 to \$2.00) and a **hypothetical** Step Up Value of 117% of the Starting Value (the midpoint of the Step Up Value range of 114% to 120%).

Hypothetical Ending Value ⁽¹⁾	Percentage Change from the Hypothetical Starting Value to the Hypothetical Ending Value	Hypothetical Redemption Amount per Unit	Hypothetical Total Rate of Return on the Notes
5,531.39	-50.00%	\$6.00	-40.00%
6,637.67	-40.00%	\$7.00	-30.00%
7,743.95	-30.00%	\$8.00	-20.00%
8,850.22	-20.00%	\$9.00	-10.00%
9,956.50 ⁽²⁾	-10.00%	\$11.70 ⁽³⁾	17.00%
10,509.64	-5.00%	\$11.70	17.00%
10,841.52	-2.00%	\$11.70	17.00%
11,062.78 ⁽⁴⁾	0.00%	\$11.70	17.00%
11,284.04	2.00%	\$11.70	17.00%
11,615.92	5.00%	\$11.70	17.00%
12,169.06	10.00%	\$11.70	17.00%
12,943.45 ⁽⁵⁾	17.00%	\$11.70	17.00%
13,275.34	20.00%	\$12.00	20.00%
14,381.61	30.00%	\$13.00	30.00%
15,487.89	40.00%	\$14.00	40.00%
16,594.17	50.00%	\$15.00	50.00%

- (1) The Index is a price return index. Accordingly, the Ending Value will not include any income generated by dividends paid on the stocks included in the Index, which you would otherwise be entitled to receive if you invested in those stocks directly.
- (2) This is the **hypothetical** Threshold Value. The actual Threshold Value will be determined on the pricing date and set forth in the final term sheet that will be made available in connection with sales of the notes.
- (3) This amount represents the sum of the Original Offering Price and the **hypothetical** Step Up Payment. The actual Step Up Payment will be determined on the pricing date and will be between \$1.40 and \$2.00.
- (4) This is the **hypothetical** Starting Value, which is the closing level of the Index on October 15, 2010. The actual Starting Value will be determined on the pricing date and set forth in the final term sheet that will be made available in connection with sales of the notes.
- (5) This is the **hypothetical** Step Up Value. The actual Step Up Value will be determined on the pricing date and will be between 114% and 120% of the actual Starting Value.

The above figures are for purposes of illustration only. The actual Redemption Amount and the resulting total rate of return will depend on the actual Starting Value, Threshold Value, Ending Value, Step Up Value, Step Up Payment, and the term of your investment.

TS-4

Risk Factors

There are important differences between the notes and a conventional debt security. An investment in the notes involves significant risks, including those listed below. You should carefully review the more detailed explanation of risks relating to the notes in the "Risk Factors" sections beginning on page S-8 of product supplement SUN-1 and page S-4 of the MTN prospectus supplement identified below under "Additional Terms." We also urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your yield may be less than the yield on a conventional debt security of comparable maturity.
- You must rely on your own evaluation of the merits of an investment linked to the Index.
- In seeking to provide you with what we believe to be commercially reasonable terms for the notes while providing MLPF&S with compensation for its services, we have considered the costs of developing, hedging, and distributing the notes.
- A trading market is not expected to develop for the notes. MLPF&S is not obligated to make a market for, or to repurchase, the notes.
- Payments on the notes are subject to our credit risk, and changes in our credit ratings are expected to affect the value of the notes.
- The Redemption Amount will not be affected by all developments relating to the Index.
- Dow Jones & Company, Inc. ("Dow Jones") may adjust the Index in a way that affects its level, and Dow Jones has no obligation to consider your interests.
- You will have no rights of a holder of the securities represented by the Index, and you will not be entitled to receive securities or dividends or other distributions by the issuers of those securities.
- While we or our affiliates may from time to time own shares of companies included in the Index, except to the extent that our common stock is included in the Index, we do not control any company included in the Index, and are not responsible for any disclosure made by any other company.
- If you attempt to sell the notes prior to maturity, their market value, if any, will be affected by various factors that interrelate in complex ways, and their market value may be less than their Original Offering Price.
- Purchases and sales by us and our affiliates of shares of companies included in the Index may affect your return.
- Our trading and hedging activities may create conflicts of interest with you.
- Our hedging activities may affect your return on the notes and their market value.
- Our business activities relating to the companies represented by the Index may create conflicts of interest with you.
- There may be potential conflicts of interest involving the calculation agent. We have the right to appoint and remove the calculation agent.
- The U.S. federal income tax consequences of the notes are uncertain, and may be adverse to a holder of the notes. See "Summary Tax Consequences" and "Certain U.S. Federal Income Taxation Considerations" below and "U.S. Federal Income Tax Summary" beginning on page S-31 of product supplement SUN-1.

Investor Considerations

You may wish to consider an investment in the notes if:

- You anticipate that the Ending Value will increase from the Starting Value, and in no event will be less than the Threshold Value.
- You accept that your investment will result in a loss, which could be significant, if the level of the Index decreases from the Starting Value to an Ending Value that is less than the Threshold Value.
- You are willing to forgo interest payments on the notes, such as fixed or floating rate interest paid on traditional interest bearing debt securities.
- You are willing to forgo a higher Step Up Payment that would apply to a market-linked step up note in which the Step Up Payment would not be paid if the Ending Value was less than the Starting Value.
- You seek exposure to the Index with no expectation of dividends or other benefits of owning the stocks included in the Index.
- You are willing to accept that a trading market is not expected to develop for the notes. You understand that secondary market prices for the notes, if any, will be affected by various factors, including our actual and perceived creditworthiness.
- You are willing to make an investment, the payment on which depends on our creditworthiness, as the issuer of the notes.

The notes may not be an appropriate investment for you if:

- You anticipate that the level of the Index will decrease from the Starting Value to an Ending Value that is less than the Threshold Value.
- You seek 100% principal protection or preservation of capital.
- You seek interest payments or other current income on your investment.
- You seek a higher Step Up Payment that would apply to a market-linked step up note in which the Step Up Payment would not be paid if the Ending Value was less than the Starting Value.
- You want to receive dividends or other distributions paid on the stocks included in the Index.
- You seek assurances that there will be a liquid market if and when you want to sell the notes prior to maturity.
- You are unwilling or are unable to assume the credit risk associated with us, as the issuer of the notes.

Other Provisions

We may deliver the notes against payment therefor in New York, New York on a date that is greater than three business days following the pricing date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, if the initial settlement of the notes occurs more than three business days from the pricing date, purchasers who wish to trade the notes more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

If you place an order to purchase the notes, you are consenting to MLPF&S acting as a principal in effecting the transaction for your account.

Supplement to the Plan of Distribution

MLPF&S, a broker-dealer subsidiary of BAC, is a member of the Financial Industry Regulatory Authority, Inc. (formerly the National Association of Securities Dealers, Inc. (the "NASD")) and will participate as selling agent in the distribution of the notes. Accordingly, offerings of the notes will conform to the requirements of NASD Rule 2720. Under our distribution agreement with MLPF&S, MLPF&S will purchase the notes from us on the issue date as principal at the purchase price indicated on the cover of this term sheet, less the indicated underwriting discount. MLPF&S will not receive an underwriting discount for notes sold to certain fee-based trusts and fee-based discretionary accounts managed by U.S. Trust operating through Bank of America, N.A. In the original offering of the notes, the notes will be sold in minimum investment amounts of 100 units.

MLPF&S may use this Note Prospectus for offers and sales in secondary market transactions and market-making transactions in the notes but is not obligated to engage in such secondary market transactions and/or market-making transactions. MLPF&S may act as principal or agent in these transactions, and any such sales will be made at prices related to prevailing market prices at the time of the sale.

Enhanced Buffer Market-Linked Step Up Notes

The Index

All disclosures contained in this term sheet regarding the Index, including, without limitation, its make up, method of calculation, and changes in its components, have been derived from publicly available sources. The information reflects the policies of Dow Jones, and is subject to change by Dow Jones. Dow Jones has no obligation to continue to publish, and may discontinue publication of, the Index. The consequences of Dow Jones discontinuing publication of the Index are discussed in the section beginning on page S-25 of product supplement SUN-1 entitled "Description of the Notes—Discontinuance of a Market Measure." None of us, the calculation agent, or the selling agent accepts any responsibility for the calculation, maintenance, or publication of the Index or any successor index.

"Dow Jones", "Dow Jones Industrial AverageSM", and "DJIASM" are service marks of Dow Jones and have been licensed for use for certain purposes by us. The notes based on the Dow Jones Industrial AverageSM are not sponsored, endorsed, sold, or promoted by Dow Jones, and Dow Jones makes no representation regarding the advisability of investing in the notes.

The Index is a price-weighted index (i.e., the weight of a component stock in the Index is based on its price per share rather than the total market capitalization of the issuer of the component stock) comprised of 30 common stocks chosen by the editors of The Wall Street Journal (the "WSJ"), which is published by Dow Jones, as representative of the broad market of U.S. industry. The Index is not limited to traditionally defined industrial stocks. Instead, the Index serves as a measure of the entire U.S. market, covering such diverse industries as financial services, technology, retail, entertainment, and consumer goods. Although there are no pre-determined criteria for inclusion of a component stock, the corporations represented in the Index are U.S. companies that tend to be leaders within their respective industries, with stocks that are typically widely held by individuals as well as institutional investors.

Changes in the composition of the Index are made entirely by the editors of the WSJ without consultation with the corporations represented in the Index, any stock exchange, any official agency, or us. Historically, most changes to the component stocks of the Index have been the result of corporate acquisitions or other dramatic shifts in a component stock's core business, but, from time to time, changes may be made to achieve what the editors of the WSJ deem to be a more accurate representation of the broad market of U.S. industry. When such an event necessitates that one component stock be replaced, the entire Index is reviewed and, as a result, multiple component stock changes are often implemented simultaneously. In choosing a new corporation for the Index, the editors of the WSJ look for leading industrial companies with a successful history of growth and wide interest among investors. The component stocks of the Index may be changed at any time for any reason. Dow Jones, publisher of the WSJ, is not affiliated with us and has not participated in any way in the creation of the notes.

The Index initially consisted of 12 common stocks and was first published in the WSJ in 1896. The Index was increased to include 20 common stocks in 1916 and to 30 common stocks in 1928. The number of common stocks in the Index has remained at 30 since 1928, and, in an effort to maintain continuity, the constituent corporations represented in the Index have been changed on a relatively infrequent basis.

Computation of the Index

The level of the Index is the sum of the primary exchange prices of each of the 30 component stocks included in the Index, divided by a divisor that is designed to provide a meaningful continuity in the level of the Index. Because the Index is price-weighted, stock splits or changes in the component stocks could result in distortions in the Index level. In order to prevent these distortions related to extrinsic factors, the divisor is periodically changed in accordance with a mathematical formula that reflects adjusted proportions within the Index. The current divisor of the Index is published daily in the WSJ and other publications. In addition, other statistics based on the Index may be found in a variety of publicly available sources.

ENHANCED PARTICIPATION

The following graph sets forth the monthly historical performance of the Index in the period from January 2005 through September 2010. This historical data on the Index is not necessarily indicative of the future performance of the Index or what the value of the notes may be. Any historical upward or downward trend in the level of the Index during any period set forth below is not an indication that the level of the Index is more or less likely to increase or decrease at any time over the term of the notes. On October 15, 2010, the closing level of the Index was 11,062.78.

Before investing in the notes, you should consult publicly available sources for the levels and trading pattern of the Index. The generally unsettled international environment and related uncertainties, including the risk of terrorism, may result in the Index and financial markets generally exhibiting greater volatility than in earlier periods.

License Agreement

We have entered into a non-exclusive license agreement with Dow Jones providing for the license to us and certain of our affiliated or subsidiary companies, in exchange for a fee, of the right to use indices owned and published by Dow Jones (including the DJIASM) in connection with certain securities, including the notes.

The license agreement between us and Dow Jones requires that the following language be stated in this term sheet:

The notes are not sponsored, endorsed, sold, or promoted by Dow Jones. Dow Jones makes no representation or warranty, express or implied, to the owners of the notes or any member of the public regarding the advisability of investing in securities generally or in the notes particularly. Dow Jones' only relationship to us is in the licensing of certain trademarks, trade names, and service marks of Dow Jones and of the DJIASM, which is determined, composed, and calculated by Dow Jones without regard to us or the notes. Dow Jones has no obligation to take our needs or the needs of holders of the notes into consideration in determining, composing, or calculating the DJIASM. Dow Jones is not responsible for and has not participated in the determination of the timing of, prices at, or quantities of the notes to be issued or in the determination or calculation of the amount to be paid on the notes. Dow Jones has no obligation or liability in connection with the administration, marketing, or trading of the notes.

DOW JONES DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE DJIASM OR ANY DATA INCLUDED THEREIN AND DOW JONES SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. DOW JONES MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY US, OWNERS OF NOTES, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE DJIASM OR ANY DATA INCLUDED THEREIN. DOW JONES MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE DJIASM OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL DOW JONES HAVE ANY LIABILITY FOR ANY LOST PROFITS OR INDIRECT, PUNITIVE, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSSES, EVEN IF NOTIFIED OF THE POSSIBILITY THEREOF. THERE ARE NO THIRD PARTY BENEFICIARIES OR ANY AGREEMENTS OR ARRANGEMENTS BETWEEN DOW JONES AND US.

TS-9

Summary Tax Consequences

You should consider the U.S. federal income tax consequences of an investment in the notes, including the following:

- You agree with us (in the absence of an administrative determination, or judicial ruling to the contrary) to characterize and treat the notes for all tax purposes as single financial contracts linked to the Index that requires you to pay us at inception an amount equal to the purchase price of the notes and that entitles you to receive at maturity an amount in cash linked to the performance of the Index.
- Under this characterization and tax treatment of the notes, upon receipt of a cash payment at maturity or upon a sale or exchange of the notes prior to maturity, you generally will recognize capital gain or loss. This capital gain or loss generally will be long-term capital gain or loss if you held the notes for more than one year.

Certain U.S. Federal Income Taxation Considerations

Set forth below is a summary of certain U.S. federal income tax considerations relating to an investment in the notes. The following summary is not complete and is qualified in its entirety by the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-31 of product supplement SUN-1, which you should carefully review prior to investing in the notes.

General. Although there is no statutory, judicial, or administrative authority directly addressing the characterization of the notes, we intend to treat the notes for all tax purposes as single financial contracts linked to the Index that requires the investor to pay us at inception an amount equal to the purchase price of the notes and that entitles the investor to receive at maturity an amount in cash linked to the performance of the Index. Under the terms of the notes, we and every investor in the notes agree, in the absence of an administrative determination or judicial ruling to the contrary, to treat the notes as described in the preceding sentence. This discussion assumes that the notes constitute single financial contracts linked to the Index for U.S. federal income tax purposes. If the notes do not constitute single financial contracts, the tax consequences described below would be materially different. The discussion in this section also assumes that there is a significant possibility of a significant loss of principal on an investment in the notes.

This characterization of the notes is not binding on the Internal Revenue Service ("IRS") or the courts. No statutory, judicial, or administrative authority directly addresses the characterization of the notes or any similar instruments for U.S. federal income tax purposes, and no ruling is being requested from the IRS with respect to their proper characterization and treatment. Due to the absence of authorities on point, significant aspects of the U.S. federal income tax consequences of an investment in the notes are not certain, and no assurance can be given that the IRS or any court will agree with the characterization and tax treatment described in product supplement SUN-1. Accordingly, you are urged to consult your tax advisor regarding all aspects of the U.S. federal income tax consequences of an investment in the notes, including possible alternative characterizations.

Settlement at Maturity or Sale or Exchange Prior to Maturity. Assuming that the notes are properly characterized and treated as single financial contracts linked to the Index for U.S. federal income tax purposes, upon receipt of a cash payment at maturity or upon a sale or exchange of the notes prior to maturity, a U.S. Holder (as defined on page S-32 in product supplement SUN-1) generally will recognize capital gain or loss equal to the difference between the amount realized and the U.S. Holder's basis in the notes. This capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder held the notes for more than one year. The deductibility of capital losses is subject to limitations.

Possible Future Tax Law Changes. From time to time, there may be legislative proposals or interpretive guidance addressing the tax treatment of financial instruments such as the notes. We cannot predict the likelihood of any such legislation or guidance being adopted, or the ultimate impact on the notes. For example, on December 7, 2007, the IRS released Notice 2008-2 ("Notice") seeking comments from the public on the taxation of financial instruments currently taxed as "prepaid forward contracts." This Notice addresses instruments such as the notes. According to the Notice, the IRS and Treasury are considering whether a holder of an instrument such as the notes should be required to accrue ordinary income on a current basis, regardless of whether any payments are made prior to maturity. It is not possible to determine what guidance the IRS and Treasury will ultimately issue, if any. Any such future guidance may affect the amount, timing, and character of income, gain, or loss in respect of the notes, possibly with retroactive effect. The IRS and Treasury are also considering additional issues, including whether additional gain or loss from such instruments should be treated as ordinary or capital, whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals, whether Section 1260 of the Internal Revenue Code of 1986, as amended, concerning certain "constructive ownership transactions," generally applies or should generally apply to such instruments, and whether any of these determinations depend on the nature of the underlying asset. We intend to continue treating the notes for U.S. federal income tax purposes in the manner described herein unless and until such time as we determine, or the IRS or Treasury determines, that some other treatment is more appropriate. We urge you to consult your own tax advisors concerning the impact and the significance of the above considerations.

Additional Medicare Tax on Unearned Income. With respect to taxable years beginning after December 31, 2012, certain U.S. Holders, including individuals, estates, and trusts, will be subject to an additional 3.8% Medicare tax on unearned income. For individual U.S. Holders, the additional Medicare tax applies to the lesser of (i) "net investment income," or (ii) the excess of "modified adjusted gross income" over \$200,000 (\$250,000 if married and filing jointly or \$125,000 if married and filing separately). "Net investment income" generally equals the taxpayer's gross investment income reduced by the deductions that are allocable to such income. Investment income generally includes passive income such as interest, dividends, annuities, royalties, rents, and capital gains. U.S. Holders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the notes.

You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws. See the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-31 of product supplement SUN-1.

Additional Terms

You should read this term sheet, together with the documents listed below, which together contain the terms of the notes and supersede all prior or contemporaneous oral statements as well as any other written materials. You should carefully consider, among other things, the matters set forth under "Risk Factors" in the sections indicated on the cover of this term sheet. The notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

You may access the following documents on the SEC Website at www.sec.gov as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC Website):

- Product supplement SUN-1 dated September 22, 2009:
<http://sec.gov/Archives/edgar/data/70858/000119312509195916/d424b5.htm>
- Series L MTN prospectus supplement dated April 21, 2009 and prospectus dated April 20, 2009:

Our Central Index Key, or CIK, on the SEC Website is 70858.

We have filed a registration statement (including a product supplement, a prospectus supplement, and a prospectus) with the SEC for the offering to which this term sheet relates. Before you invest, you should read the product supplement, the prospectus supplement, and the prospectus in that registration statement, and the other documents relating to this offering that we have filed with the SEC for more complete information about us and this offering. You may get these documents without cost by visiting EDGAR on the SEC Website at www.sec.gov. Alternatively, we, any agent, or any dealer participating in this offering will arrange to send you the Note Prospectus if you so request by calling MLPF&S toll-free at 1-866-500-5408.

Structured Investments Classification

MLPF&S classifies certain structured investments (the "Structured Investments"), including the notes, into four categories, each with different investment characteristics. The description below is intended to briefly describe the four categories of Structured Investments offered: Principal Protection, Enhanced Income, Market Participation, and Enhanced Participation. A Structured Investment may, however, combine characteristics that are relevant to one or more of the other categories. As such, a category should not be relied upon as a description of any particular Structured Investment.

Principal Protection: Principal Protected Structured Investments offer full or partial principal protection against decreases in the value of the underlying market measure (or increases in the value of an underlying market measure for bearish Structured Investments), while offering market exposure and the opportunity for a better return than may be available from comparable fixed income securities. Principal protection may not be achieved if the investment is sold prior to maturity.

Enhanced Income: Structured Investments offering enhanced income may offer an enhanced income stream through interim fixed or variable coupon payments. However, in exchange for receiving current income, investors may forfeit upside potential on the underlying asset. These investments generally do not include the principal protection feature.

Market Participation: Market Participation Structured Investments can offer investors exposure to specific market sectors, asset classes, and/or strategies that may not be readily available through traditional investment alternatives. Returns obtained from these investments are tied to the performance of the underlying asset. As such, subject to certain fees, the returns will generally reflect any increases or decreases in the value of such assets. These investments generally do not include the principal protection feature.

Enhanced Participation: Enhanced Participation Structured Investments may offer investors the potential to receive better than market returns on the performance of the underlying asset. Some structures may offer leverage in exchange for a capped or limited upside potential and also in exchange for downside risk. These investments generally do not include the principal protection feature.

The classification of Structured Investments is meant solely for informational purposes and is not intended to fully describe any particular Structured Investment nor guarantee any particular performance.
