Variable Coupon Notes

Linked to a Basket of 16 Common Equity Securities, due April 5, 2017

Summary

The Variable Coupon Notes Linked to a Basket of 16 Common Equity Securities, due April 5, 2017 (the "notes") are our senior unsecured debt securities. The notes are not guaranteed or insured by the Federal Deposit Insurance Corporation or secured by collateral. **The notes will rank equally with all of our other unsecured and unsubordinated debt, and all payments due on the notes, including any repayment of principal, will be subject to the credit risk of BAC.**

The notes provide investors with annual interest payments based upon the performance of an equally-weighted basket (the "Basket") of 16 common equity securities, subject to an Auto-Cap of 11.05%. The Basket consists of the following common equity securities:

| Basket Stock | Ticker | Weight | Initial Share Price |
|-------------------------------|---------------|---------------|----------------------------|
| Altria Group, Inc. | MO | 6.25% | 30.48 |

| Term: | Five years |
| Coupon Determination Dates: | March 28, 2013, March 31, 2014, March 30, 2015, March 29, 2016, and March 29, 2017, subject to postponement as described on page S-20 of product supplement VCN-2 if it is determined that a scheduled Coupon Determination Date is not a trading day or if a Market Disruption Event occurs on a scheduled Coupon Determination Date. |
| Coupon Payment Dates: | Annually, on April 5, or if that day is not a business day, the next business day. The final Coupon Payment Date will be the maturity date. |
| Coupon Payments: | Annually, on each Coupon Payment Date, the Coupon Payment will equal the product of the principal amount and the Coupon Rate determined on the applicable Coupon Determination Date. |
| Initial Share Price: | For each Basket Stock, the Initial Share Price is the Volume Weighted Average Price of the Basket Stock listed in the table immediately above. |
| Volume Weighted Average Price: | The price (rounded to two decimal places) shown on page "AQR" on Bloomberg L.P. for trading in shares of the Basket Stock taking place on all U.S. exchanges on the pricing date from approximately 9:30 a.m. to 4:02 p.m. for Basket Stocks whose primary exchange is the New York Stock Exchange, and from 9:30 a.m. to 4:05 p.m. for Basket Stocks whose primary exchange is the Nasdaq Global Select Market. |
| Annual Level: | For each Basket Stock, the Annual Level will be the Closing Price of one share of the Basket Stock on the applicable Coupon Determination Date, multiplied by its Price Multiplier. |
| Minimum Coupon Rate: | 1.00% per annum |
| Auto-Cap: | 11.05% |
| Return Floor: | Not applicable |
| Price Multiplier: | For each Basket Stock, 1, subject to adjustment for certain corporate events relating to the Basket Stocks described beginning on page S-22 of product supplement VCN-2. |
| Calculation Agent: | MLPF&S, a subsidiary of BAC |
| Fees Charged: | The public offering price of the notes includes the underwriting discount of \$0.250 per unit as listed on the cover page and an additional charge of \$0.075 per unit more fully described on page TS-7. |

Coupon Payment Determination

On each Coupon Determination Date, the Performance Level for each Basket Stock will be determined as follows:

The Coupon Rate will equal the arithmetic average of the Performance Level (the "Average Performance Level") of each of the Basket Stocks on the applicable Coupon Determination Date. However, in no event will the Coupon Rate be less than the Minimum Coupon Rate.

Hypothetical Coupon Rate Calculations

Examples

Set forth below are examples of the calculations of the **hypothetical** Coupon Rates (rounded to the nearest hundredth and expressed as percentages) determined on each of the Coupon Determination Dates, based upon the Minimum Coupon Rate of 1.00% per annum and the Auto-Cap of 11.05%. The examples illustrate, for the Initial Share Prices set forth in the tables below, and a range of **hypothetical** Annual Levels on each Coupon Determination Date:

- the **hypothetical** Stock Return and Performance Level of each Basket Stock;
- the **hypothetical** Average Performance Level; and
- the **hypothetical** Coupon Rate payable on the applicable Coupon Payment Date.

On the first Coupon Determination Date, the Stock Return of each Basket Stock is less than zero. The Performance Level of each Basket Stock will equal its Stock Return, resulting in a **hypothetical** Average Performance Level of -19.12%. However, because in no event will the Coupon Rate determined on any Coupon Determination Date be less than the Minimum Coupon Rate, the **hypothetical** Coupon Rate for April 5, 2013 is 1.00%.

On the second Coupon Determination Date, the Stock Returns of two Basket Stocks are less than zero, and the Stock Returns of the other fourteen Basket Stocks are greater than zero. The Performance Levels of each of the Basket Stocks with a Stock Return that is greater than zero will equal the Auto-Cap, and the Performance Levels of each of the Basket Stocks with a Stock Return that is less than zero will equal its Stock Return. The **hypothetical** Average Performance Level is -0.64%. However, because in no event will the Coupon Rate determined on any Coupon Determination Date be less than the Minimum Coupon Rate, the **hypothetical** Coupon Rate for April 7, 2014 is 1.00%.

On the third Coupon Determination Date, the Stock Return of each Basket Stock is greater than zero. Because of the Auto-Cap, the Performance Level of each Basket Stock will equal the Auto-Cap. Therefore, even though the **hypothetical** average Stock Return is 14.13%, the **hypothetical** Coupon Rate for April 6, 2015 is 11.05%.

On the fourth Coupon Determination Date, the Stock Return of each Basket Stock is greater than zero. The Performance Level of the Basket Stocks with a Stock Return that is greater than zero will equal the Auto-Cap. Therefore, even though the hypothetical average Stock Return is 2.55%, the **hypothetical** Average Performance Level is 11.05%. As a result, the **hypothetical** Coupon Rate for April 5, 2016 is 11.05%.

On the fifth Coupon Determination Date, the Stock Return eight Basket Stocks is less than zero and the Stock Return of the other eight Basket Stocks is greater than zero. The Performance Levels of each of the Basket Stocks with a Stock Return that is greater than zero will equal the Auto-Cap, and the Performance Levels of each of the Basket Stocks with a Stock Return that is less than zero will equal its hypothetical Stock Return. The **hypothetical** Average Performance Level of -1.22%. However, because in no event will the Coupon Rate determined on any Coupon Determination Date be less than the Minimum Coupon Rate, the **hypothetical** Coupon Rate for April 5, 2017 is 1.00%.

These examples and the table below are for illustration only. The Coupon Rate on one or more Coupon Payment Dates may be limited to the Minimum Coupon Rate.

Risk Factors

There are important differences between the notes and a conventional debt security. An investment in the notes involves significant risks, including those listed below. You should carefully review the more detailed explanation of risks relating to the notes in the "Risk Factors" sections beginning on page S-8 of product supplement VCN-2 and page S-4 of the MTN prospectus supplement identified below under "Additional Terms." We also urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

- The Coupon Rate on one or more Coupon Payment Dates may be limited to the Minimum Coupon Rate.
- Your yield may be less than the yield on a conventional debt security of comparable maturity.
- The Coupon Rate that will be applicable to each Coupon Payment Date will not exceed the Auto-Cap.
- Due to the Auto-Cap, a significantly negative Stock Return of one or more Basket Stocks may not be offset by the positive stock return of one or more other Basket Stocks.
- Your investment return, if any, may be less than a comparable investment directly in the Basket or the Basket Stocks.
- You must rely on your own evaluation of the merits of an investment linked to the Basket Stocks.
- Payments on the notes are subject to our credit risk, and changes in our credit ratings are expected to affect the value of the notes.
- In seeking to provide you with what we believe to be competitive terms for the notes while providing MLPF&S with compensation for its services, we have considered the costs of developing, hedging, and distributing the notes described on page TS-7. The price at which you may sell the notes in any secondary market may be lower than the public offering price due to, among other things, the inclusion of these costs.
- A trading market is not expected to develop for the notes. MLPF&S is not obligated to make a market for, or to repurchase, the notes.
- The Coupon Payments will not be affected by all developments relating to the Basket Stocks.
- Changes in the value of one or more of the Basket Stocks may be offset by changes in the value of one or more of the other Basket Stocks.
- If you attempt to sell the notes prior to maturity, their market value, if any, will be affected by various factors that interrelate in complex ways, and their market value may be less than their Original Offering Price.
- You will have no rights of a holder of any of the Basket Stocks, you will have no rights to receive any of the Basket Stocks, and you will not be entitled to dividends or other distributions by the issuers of the Basket Stocks.
- Although we or our affiliates may from time to time hold one or more Basket Stocks, we do not control any company included in the Basket and are not responsible for any disclosure made by any other company.
- Our business activities relating to the issuers of the Basket Stocks may create conflicts of interest with you.
- The issuers of the Basket Stocks have no obligations relating to the notes and we will not perform any due diligence procedures with respect to these issuers.
- Purchases and sales of the Basket Stocks by us and our affiliates may affect your return.
- Our trading and hedging activities may create conflicts of interest with you.
- Our hedging activities may affect your return on the notes and their market value.
- The Annual Level of each Basket Stock determined on any Coupon Determination Date is not subject to adjustment for all corporate events.
- There may be potential conflicts of interest involving the calculation agent. We have the right to appoint and remove the calculation agent.
- You should consider the tax consequences of investing in the notes. See "Material U.S. Federal Income Tax Considerations" below and beginning on page S-29 of product supplement VCN-2.

Investor Considerations

You may wish to consider an investment in the notes if:

- You anticipate that the Annual Level of each of the Basket Stocks will be greater than the Initial Share Price on each of the Coupon Determination Dates.
- You accept that the Coupon Rate applicable to each annual interest period is uncertain and may not be more than the Minimum Coupon Rate.
- You accept that the Coupon Rate for each Coupon Payment Date will not exceed the Auto-Cap.
- You seek exposure to the Basket Stocks with no expectation of dividends or other benefits of owning the Basket Stocks.
- You are willing to accept that a trading market is not expected to develop for the notes. You understand that secondary market prices for the notes, if any, will be affected by various factors, including our actual and perceived creditworthiness.
- You are willing to make an investment, the payments on which depend on our creditworthiness, as the issuer of the notes.

The notes may not be an appropriate investment for you if:

- You anticipate that the Annual Level of each of the Basket Stocks will be less than the Initial Share Price on each of the Coupon Determination Dates.
- You seek an investment that provides annual interest payments with a guaranteed rate or a floating rate that is not limited to the Auto-Cap.
- You want to receive dividends or other distributions paid on the Basket Stocks.
- You seek assurances that there will be a liquid market if and when you want to sell the notes prior to maturity.
- You are unwilling or are unable to assume the credit risk associated with us, as the issuer of the notes.

Supplement to the Plan of Distribution; Role of MLPF&S and Conflicts of Interest

We will deliver the notes against payment therefor in New York, New York on a date that is greater than three business days following the pricing date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

The notes will not be listed on any securities exchange. In the original offering of the notes, the notes will be sold in minimum investment amounts of 100 units.

MLPF&S, a broker-dealer subsidiary of BAC, is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") and will participate as selling agent in the distribution of the notes. Accordingly, offerings of the notes will conform to the requirements of Rule 5121 applicable to FINRA members. MLPF&S may not make sales in this offering to any of its discretionary accounts without the prior written approval of the account holder.

Under our distribution agreement with MLPF&S, MLPF&S will purchase the notes from us as principal at the public offering price indicated on the cover of this term sheet, less the indicated underwriting discount. The public offering price includes, in addition to the underwriting discount, a charge of approximately \$0.075 per unit. This charge reflects an estimated profit earned by MLPF&S from transactions through which the notes are structured and resulting obligations hedged. The fees charged reduce the economic terms of the notes. Actual profits or losses from these hedging transactions may be more or less than this amount. In entering into the hedging arrangements for the notes, we seek competitive terms and may enter into hedging transactions with a division of MLPF&S or one of our subsidiaries or affiliates. For further information regarding these charges, our trading and hedging activities and other conflicts of interest, see "Risk Factors," beginning on page S-8 and "Use of Proceeds" on page S-17 in product supplement VCN-2.

If you place an order to purchase the notes, you are consenting to MLPF&S acting as a principal in effecting the transaction for your account.

MLPF&S may repurchase and resell the notes, with repurchases and resales being made at prices related to then-prevailing market prices or at negotiated prices. MLPF&S may act as principal or agent in these transactions; however it is not obligated to engage in any such transactions.

The Basket Stocks

None of the issuers of the Basket Stocks has authorized or sanctioned the notes or participated in the preparation of this term sheet. Each of these issuers is subject to the informational requirements of the Exchange Act and files reports and other information with the SEC. Companies with securities registered under the Exchange Act are required to file periodically financial and other information required by the SEC. Information filed with the SEC can be inspected and copied at the Public Reference Section of the SEC, 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Copies of this material also can be obtained from the Public Reference Section at prescribed rates. In addition, information filed electronically by each of the issuers of the Basket Stocks with the SEC can be reviewed through a website maintained by the SEC. The address of the SEC's website is <http://www.sec.gov>.

This term sheet relates only to the notes and does not relate to the Basket Stocks. We are not offering or selling securities of any of the issuers of the Basket Stocks. The descriptions of the Basket Stocks in this section are derived from the publicly available documents described in the preceding paragraph. None of us or our affiliates has participated in the preparation of these documents, verified the accuracy or the completeness of the information concerning the Basket Stocks included in the publicly available documents or made any due diligence inquiry with respect to the Basket Stocks. We do not make any representation that the publicly available documents or any other publicly available information about the Basket Stocks are accurate or complete. There can be no assurance that events occurring prior or subsequent to the date of this term sheet (including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph) that might affect the value of any of the Basket Stocks have been or will be publicly disclosed. Because each Coupon Payment is related to the value of the Basket Stocks, those events, if any, also would affect the market value of the notes. We do not intend to furnish to you any additional information about the Basket Stocks. Neither we nor any of our affiliates makes any representation to you as to the future performance of any of the Basket Stocks.

We obtained the historical prices of the Basket Stocks shown below from the Bloomberg Financial[®] service, without independent verification. The historical value of any Basket Stock should not be taken as an indication of its future performance, and we cannot assure you that its Annual Level determined on any Coupon Determination Date will not decrease from its Initial Share Price.

You should make your own investigation into the Basket Stocks.

Material U.S. Federal Income Tax Considerations

Set forth below, together with the discussion of U.S. federal income tax in the accompanying product supplement VCN-2, is a summary of the material U.S. federal income tax considerations relating to an investment in the notes. The following summary is not complete and is qualified in its entirety by the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-29 of the accompanying product supplement VCN-2, which you should carefully review prior to investing in the notes. For purposes of that discussion, we intend to treat the notes as "variable rate debt instruments" for U.S. federal income tax purposes, and the balance of this discussion assumes that this characterization is proper and will be respected. Capitalized terms used and not defined herein have the meanings ascribed to them in the accompanying product supplement VCN-2.

Under this characterization, interest on a note generally will be included in the income of a U.S. Holder as ordinary income at the time it is accrued or is received in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes. Upon the sale or exchange of a note, a U.S. Holder will recognize gain or loss equal to the difference between the amount realized upon the sale or exchange (except to the extent attributable to accrued but unpaid interest) and the U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will be the cost of the note to such U.S. Holder. Gain or loss realized on the sale or exchange of a note generally will be capital gain or loss and will be long-term capital gain or loss if the note has been held for more than one year. The deductibility of capital losses is subject to limitations.

Withholding on Dividend Equivalents

A "dividend equivalent" payment is treated as a dividend from sources within the U.S. and such payments generally would be subject to U.S. withholding tax if paid to a Non-U.S. Holder. Under proposed U.S. Treasury Department regulations, certain payments that are contingent upon or determined by reference to U.S. source dividends, including payments reflecting adjustments for extraordinary dividends, with respect to equity-linked instruments, including the notes, may be treated as dividend equivalents. If enacted in their current form, the regulations may impose a withholding tax on payments made on the notes on or after January 1, 2013 that are treated as dividend equivalents. In that case, we (or the applicable paying agent) would be entitled to withhold taxes without being required to pay any additional amounts with respect to amounts so withheld. Further, Non-U.S. Holders may be required to provide certifications prior to, or upon the sale, redemption or maturity of the notes in order to minimize or avoid U.S. withholding taxes.

Foreign Account Tax Compliance Act

The IRS has issued notices and the Treasury Department has issued proposed regulations affecting the legislation enacted on March 18, 2010 and discussed in the product supplement under "U.S. Federal Income Tax Summary—Legislation Affecting Taxation of Notes Held By or Through Foreign Entities." This U.S. withholding tax will generally apply to payments made after December 31, 2013. However, if proposed U.S. Treasury Department regulations are finalized in their current form, this withholding tax will not be imposed on payments pursuant to obligations outstanding as of December 31, 2012. Holders are urged to consult with their own tax advisors regarding the possible implications of this U.S. withholding tax on their investment in the notes.

You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws. See the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-29 of the accompanying product supplement VCN-2.

Validity of the Notes

In the opinion of McGuireWoods LLP, as counsel to BAC, when the notes offered by this Note Prospectus have been completed and executed by BAC, and authenticated by the trustee in accordance with the provisions of the Senior Indenture, and delivered against payment therefor as contemplated by this Note Prospectus, such notes will be legal, valid and binding obligations of BAC, subject to applicable bankruptcy, reorganization, insolvency, moratorium, fraudulent conveyance or other similar laws affecting the rights of creditors now or hereafter in effect, and to equitable principles that may limit the right to specific enforcement of remedies, and further subject to 12 U.S.C. §1818(b)(6)(D) (or any successor statute) and any bank regulatory powers now or hereafter in effect and to the application of principles of public policy. This opinion is given as of the date hereof and is limited to the Federal laws of the United States, the laws of the State of New York and the Delaware General Corporation Law (including the statutory provisions, all applicable provisions of the Delaware Constitution and reported judicial decisions interpreting the foregoing). In addition, this opinion is subject to customary assumptions about the trustee's authorization, execution and delivery of the Senior Indenture, the validity, binding nature and enforceability of the Senior Indenture with respect to the trustee, the legal capacity of natural persons, the genuineness of signatures, the authenticity of all documents submitted to McGuireWoods LLP as originals, the conformity to original documents of all documents submitted to McGuireWoods LLP as photocopies, the authenticity of the originals of such copies and certain factual matters, all as stated in the letter of McGuireWoods LLP dated April 28, 2011, which has been filed as an exhibit to our Current Report on Form 8-K dated April 28, 2011.

Market Downside Protection

MLPF&S classifies certain market-linked investments (the "Market-Linked Investments") into categories, each with different investment characteristics. The following description is meant solely for informational purposes and is not intended to represent any particular Market Downside Protection Market-Linked Investment or guarantee any performance.

Market Downside Protection Market-Linked Investments combine some of the capital preservation features of traditional bonds with the growth potential of equities and other asset classes. They offer full or partial market downside protection at maturity, while offering market exposure that may provide better returns than comparable fixed income securities. It is important to note that the market downside protection feature provides investors with protection only at maturity, subject to issuer credit risk. In addition, in exchange for full or partial protection, you forfeit dividends and full exposure to the linked asset's upside. In some circumstances, this could result in a lower return than with a direct investment in the asset.
