Capped Leveraged Index Return Notes®

Linked to a Basket of 21 Common Equity Securities, due June 27, 2014

Summary

The Capped Leveraged Index Return Notes® Linked to a Basket of 21 Common Equity Securities, due June 27, 2014 (the "notes") are our senior unsecured debt securities. The notes are not guaranteed or insured by the Federal Deposit Insurance Corporation or secured by collateral. **The notes will rank equally with all of our other unsecured and unsubordinated debt. Any payments due on the notes, including any repayment of principal, will be subject to the credit risk of BAC.** The notes provide you a leveraged return, subject to a cap, if the Ending Value (as determined below) of the Basket of 21 common equity securities (the "Basket") is greater than the Starting Value. If the Ending Value is less than the Threshold Value, you will lose a portion, which could be significant, of the principal amount of your notes.

The terms and risks of the notes are contained in this term sheet and the documents listed below (together, the "Note Prospectus"). The documents have been filed as part of a registration statement with the SEC, which may, without cost, be accessed on the SEC website as indicated below or obtained from MLPF&S by calling 1-866-500-5408:

Before you invest, you should read the Note Prospectus, including this term sheet, for information about us and this offering. Any prior or contemporaneous oral statements and any other written materials you may have received are superseded by the Note Prospectus. Capitalized terms used but not defined in this term sheet have the meanings set forth in product supplement STOCK LIRN-2. Unless otherwise indicated or unless the context requires otherwise, all references in this document to "we," "us," "our," or similar references are to BAC.

Terms of the Notes

Issuer:	Bank of America Corporation ("BAC")
Original Offering Price:	\$10 per unit

Starting Value:	100
Ending Value:	The average of the closing value of the Basket on each scheduled calculation day occurring during the maturity valuation period. The calculation days are subject to postponement in the event of Market Disruption Events, as described beginning on page S-29 of product supplement STOCK LIRN-2.
Threshold Value:	84 (84% of the Starting Value)
Capped Value:	\$12 per unit of the notes, which represents a return of 20% over the Original Offering Price.
Maturity Valuation Period:	June 18, 2014, June 19, 2014, June 20, 2014, June 23, 2014 and June 24, 2014.
Participation Rate:	271%
Calculation Agent:	Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S"), a subsidiary of BAC.
Fees Charged:	The public offering price of the notes includes the underwriting discount of \$0.20 per unit as listed on the cover page and an additional charge of \$0.075 per unit more fully described on page TS-19.

Redemption Amount Determination

On the maturity date, you will receive a cash payment per unit determined as follows:

Investor Considerations

You may wish to consider an investment in the notes if:

- You anticipate that the value of the Basket will increase moderately from the Starting Value to the Ending Value.
- You are willing to risk a loss of principal and return if the Ending Value is below the Threshold Value.
- You accept that the return on the notes, if any, will be capped.
- You are willing to forgo the interest payments that are paid on traditional interest bearing debt securities.
- You are willing to forgo dividends or other benefits of owning the stocks included in the Basket.
- You are willing to accept a limited market for sales prior to maturity, and understand that the market prices for the notes, if any, will be affected by various factors, including our actual and perceived creditworthiness, and the fees charged on the notes, as described on page TS-2.
- You are willing to assume our credit risk, as issuer of the notes, for all payments under the notes, including the Redemption Amount.

We urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

The notes may not be an appropriate investment for you if:

- You believe that the value of the Basket will decrease from the Starting Value or that it will not increase sufficiently over the term of the notes to provide you with your desired return.
- You seek 100% principal protection or preservation of capital.
- You seek an uncapped return on your investment.
- You seek interest payments or other current income on your investment.
- You want to receive dividends or other distributions paid on the Basket Components.
- You seek an investment for which there will be a liquid secondary market.
- You are unwilling or are unable to take market risk on the notes or to take our credit risk as issuer of the notes.

Hypothetical Payout Profile

This graph reflects the returns on the notes, based on the Participation Rate of 271%, the Threshold Value of 84% of the Starting Value and the Capped Value of \$12. The green line reflects the returns on the notes, while the dotted gray line reflects the returns of a direct investment in the Basket Components, excluding dividends.

This graph has been prepared for purposes of illustration only.

Hypothetical Payments at Maturity

The following table and examples are for purposes of illustration only. They are based on **hypothetical** values and show **hypothetical** returns on the notes. **The actual amount you receive and the resulting total rate of return will depend on the actual Ending Value and the term of your investment.**

The following table is based on the Starting Value of 100.00, the Threshold Value of 84.00, the Participation Rate of 271% and the Capped Value of \$12.00 per unit. It illustrates the effect of a range of Ending Values on the Redemption Amount per unit of the notes and the total rate of return to holders of notes. The following examples do not take into account any tax consequences from investing in the notes.

Ending Value	Percentage Change from the Starting Value to the Ending Value	Redemption Amount per Unit	Total Rate of Return on the Notes
60.00	-40.00%	\$7.600	-24.00%
70.00	-30.00%	\$8.600	-14.00%
80.00	-20.00%	\$9.600	-4.00%
84.00 (1)	-16.00%	\$10.000	0.00%
90.00	-10.00%	\$10.000	0.00%
95.00	-5.00%	\$10.000	0.00%
100.00 (2)	0.00%	\$10.000	0.00%
102.00	2.00%	\$10.542	5.42%
104.00	4.00%	\$11.084	10.84%
110.00	10.00%	\$12.000 (3)	20.00%
120.00	20.00%	\$12.000	20.00%
130.00	30.00%	\$12.000	20.00%
140.00	40.00%	\$12.000	20.00%
150.00	50.00%	\$12.000	20.00%

(1) This is the Threshold Value.

(2) The Starting Value was set to 100.00 on the pricing date

(3) The Redemption Amount per unit cannot exceed the Capped Value.

For recent actual levels of the Market Measure, see "The Basket" section below. The Ending Value will not include any income generated by dividends paid on the Basket Components, which you would otherwise be entitled to receive if you invested in those stocks directly. In addition, all payments on the notes are subject to issuer credit risk.

Redemption Amount Calculation Examples

Example 1

The Ending Value is 70, or 70% of the Starting Value:

Starting Value:	100
Ending Value:	70
Threshold Value:	84

$$\$10 - \left[\$10 \times \left(\frac{84 - 70}{100} \right) \right] = \$8.600 \text{ Redemption Amount per unit}$$

Example 2

The Ending Value is 95, or 95% of the Starting Value:

Starting Value:	100
Ending Value:	95
Threshold Value:	84

Redemption Amount (per unit) = **\$10.000**, the Original Offering Price, since the Ending Value is less than the Starting Value but equal to Threshold Value.

or greater than the

Example 3

The Ending Value is 104, or 104% of the Starting Value:

Starting Value:	100
Ending Value:	104

$$\$10 + \left[\$10 \times 271\% \times \left(\frac{104 - 100}{100} \right) \right] = \$11.084 \text{ Redemption Amount per unit}$$

Example 4

The Ending Value is 140, or 140% of the Starting Value:

Starting Value:	100
Ending Value:	140

$$\$10 + \left[\$10 \times 271\% \times \left(\frac{140 - 100}{100} \right) \right] = \$20.840, \text{ however, because the Redemption Amount for the notes cannot exceed the Capped Value, the Redemption Amount will be } \$12.00 \text{ per unit}$$

Risk Factors

There are important differences between the notes and a conventional debt security. An investment in the notes involves significant risks, including those listed below. You should carefully review the more detailed explanation of risks relating to the notes in the "Risk Factors" sections beginning on page S-8 of product supplement STOCK LIRN-2, page S-5 of the MTN prospectus supplement, and page 8 of the prospectus identified above under "Summary." We also urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

- Depending on the performance of the Basket as measured shortly before the maturity date, your investment may result in a loss; there is no guaranteed return of principal.
- Your yield may be less than the yield you could earn by owning a conventional debt security of comparable maturity.
- Payments on the notes are subject to our credit risk, and actual or perceived changes in our creditworthiness are expected to affect the value of the notes. If we become insolvent or are unable to pay our obligations, you may lose your entire investment.
- Your investment return, if any, is limited to the return represented by the Capped Value and may be less than a comparable investment directly in the Basket Components.
- If you attempt to sell the notes prior to maturity, their market value may be lower than the price you paid for the notes due to, among other things, the inclusion of fees charged for developing, hedging and distributing the notes, as described on page TS-19 and various credit, market and economic factors that interrelate in complex and unpredictable ways.
- A trading market is not expected to develop for the notes. MLPF&S is not obligated to make a market for, or to repurchase, the notes.
- Changes in the prices of the Basket Components may offset each other.
- Our business activities as a full service financial institution, including our commercial and investment banking activities, our hedging and trading activities (including trades in shares of the Basket Components) and any hedging and trading activities we engage in for our clients' accounts, may affect the market value of the notes and their return and may create conflicts of interest with you.
- You will have no rights of a holder of the Basket Components, and you will not be entitled to receive shares of the Basket Components or dividends or other distributions by the issuers of the Basket Components.
- While we or our affiliates may from time to time own shares of the Basket Components, we do not control any company included in the Basket, and are not responsible for any disclosure made by any other company.
- The Redemption Amount will not be adjusted for all corporate events that could affect a Basket Component. See "Description of LIRNs — Anti-Dilution Adjustments" beginning on page S-23 of product supplement STOCK LIRN-2.
- There may be potential conflicts of interest involving the calculation agent. We have the right to appoint and remove the calculation agent.
- The U.S. federal income tax consequences of the notes are uncertain, and may be adverse to a holder of the notes. See "Summary Tax Consequences" below and "U.S. Federal Income Tax Summary" beginning on page S-34 of product supplement STOCK LIRN-2.

The Basket

The Basket is designed to allow investors to participate in the percentage changes in the prices of the Basket Components from the Starting Value to the Ending Value of the Basket. The Basket Components are described in the section "The Basket Components" below.

For more information on the calculation of the value of the Basket, please see the section entitled "Description of LIRNs — Basket Market Measures" beginning on page S-28 of product supplement STOCK LIRN-2.

On the pricing date, for each Basket Component, the Initial Component Weight, the closing price, the Component Ratio and the initial contribution to the Basket value were as follows:

				Starting Value	100.00

(1) These were the closing prices of the Basket Components on the pricing date.

(2) Each Component Ratio equals the Initial Component Weight of the relevant Basket Component (as a percentage) multiplied by 100, and then divided by the closing price of that Basket Component on the pricing date and rounded to eight decimal places.

The calculation agent will calculate the value of the Basket on each calculation day during the Maturity Valuation Period by summing the products of the closing price for each Basket Component (multiplied by its Price Multiplier) on that calculation day and the Component Ratio applicable to that Basket Component. If a Market Disruption Event occurs as to any Basket Component on a scheduled calculation day, the closing price of that Basket Component will be determined as more fully described beginning on page S-29 of product supplement STOCK LIRN-2 in the section "Description of LIRNs — Basket Market Measures — Computation of the Basket."

While actual historical information on the Basket did not exist before the pricing date, the following graph sets forth the hypothetical historical monthly performance of the Basket from September 2008 through May 2012. The graph is based upon actual month-end historical levels of the Basket Components, hypothetical Component Ratios determined as of September 30, 2008, and a Basket value of 100.00 as of that date. This hypothetical historical data on the Basket is not necessarily indicative of the future performance of the Basket or what the value of the notes may be. Any historical upward or downward trend in the value of the Basket during any period set forth below is not an indication that the value of the Basket is more or less likely to increase or decrease at any time over the term of the notes.

The Basket Components

We have derived the following information about the Underlying Companies from publicly available documents that they have published. We have not independently verified the following information.

Because each Basket Component is registered under the Securities Exchange Act of 1934, the Underlying Companies are required to file periodically certain financial and other information specified by the SEC. Information provided to or filed with the SEC by the Underlying Companies can be located at the Public Reference Section of the SEC, 100 F Street, N.E., Room 1580, Washington, D.C. 20549 or through the SEC's web site at <http://www.sec.gov> by reference to the applicable CIK number set forth below.

This term sheet relates only to the notes and does not relate to any securities of the Underlying Companies. Neither we nor any of our affiliates have participated or will participate in the preparation of the Underlying Companies' publicly available documents. Neither we nor any of our affiliates have made any due diligence inquiry with respect to the Underlying Companies in connection with the offering of the notes. Neither we nor any of our affiliates make any representation that the publicly available documents or any other publicly available information regarding the Underlying Companies are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this term sheet, including events that would affect the accuracy or completeness of these publicly available documents that would affect the trading price of the Basket Components, have been or will be publicly disclosed. Subsequent disclosure of any events or the disclosure of or failure to disclose material future events concerning the Underlying Companies could affect the value of the Basket Components and therefore could affect your return on the notes. The selection of the Basket Components is not a recommendation to buy or sell shares of the Basket Components.

The tables set forth below shows the quarterly high and low Closing Market Prices of the shares of each Basket Components on its primary exchange from the first quarter of 2007 (or the first quarter when it was listed) through the pricing date. We obtained this historical data from Bloomberg L.P. We have not independently verified the accuracy or completeness of the information obtained from Bloomberg L.P.

Supplement to the Plan of Distribution

We will deliver the notes against payment therefor in New York, New York on a date that is greater than three business days following the pricing date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

The notes will not be listed on any securities exchange. In the original offering of the notes, the notes will be sold in minimum investment amounts of 100 units.

If you place an order to purchase the notes, you are consenting to MLPF&S acting as a principal in effecting the transaction for your account.

MLPF&S may repurchase and resell the notes, with repurchases and resales being made at prices related to then-prevailing market prices or at negotiated prices. MLPF&S may act as principal or agent in these market-making transactions; however it is not obligated to engage in any such transactions.

Role of MLPF&S and Conflicts of Interest

MLPF&S, a broker-dealer subsidiary of BAC, is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") and will participate as selling agent in the distribution of the notes. Accordingly, offerings of the notes will conform to the requirements of Rule 5121 applicable to FINRA members. MLPF&S may not make sales in this offering to any of its discretionary accounts without the prior written approval of the account holder.

Under our distribution agreement with MLPF&S, MLPF&S will purchase the notes from us as principal at the public offering price indicated on the cover of this term sheet, less the indicated underwriting discount. The public offering price includes, in addition to the underwriting discount, a charge of approximately \$0.075 per unit, reflecting an estimated profit earned by MLPF&S from transactions through which the notes are structured and resulting obligations hedged. Actual profits or losses from these hedging transactions may be more or less than this amount. In entering into the hedging arrangements for the notes, we seek competitive terms and may enter into hedging transactions with MLPF&S or another of our affiliates.

All charges related to the notes, including the underwriting discount and the hedging related costs and charges, reduce the economic terms of the notes. For further information regarding these charges, our trading and hedging activities and conflicts of interest, see "Risk Factors — General Risks Relating to LIRNs" beginning on page S-8 and "Use of Proceeds" on page S-17 of product supplement STOCK LIRN-2.

Validity of the Notes

In the opinion of McGuireWoods LLP, as counsel to BAC, when the trustee has made an appropriate entry on Schedule 1 to the Master Registered Global Senior Note, dated March 30, 2012 (the "Master Note") identifying the notes offered hereby as supplemental obligations thereunder in accordance with the instructions of BAC, and the notes have been delivered against payment therefor as contemplated in this Note Prospectus, all in accordance with the provisions of the Senior Indenture, such notes will be legal, valid and binding obligations of BAC, subject to applicable bankruptcy, reorganization, insolvency, moratorium, fraudulent conveyance or other similar laws affecting the rights of creditors now or hereafter in effect, and to equitable principles that may limit the right to specific enforcement of remedies, and further subject to 12 U.S.C. §1818(b)(6)(D) (or any successor statute) and any bank regulatory powers now or hereafter in effect and to the application of principles of public policy. This opinion is given as of the date hereof and is limited to the federal laws of the United States, the laws of the State of New York and the Delaware General Corporation Law (including the statutory provisions, all applicable provisions of the Delaware Constitution and reported judicial decisions interpreting the foregoing). In addition, this opinion is subject to the assumption that the trustee's certificate of authentication of the Master Note has been manually signed by one of the trustee's authorized officers and to customary assumptions about the trustee's authorization, execution and delivery of the Senior Indenture, the validity, binding nature and enforceability of the Senior Indenture with respect to the trustee, the legal capacity of natural persons, the genuineness of signatures, the authenticity of all documents submitted to McGuireWoods LLP as originals, the conformity to original documents of all documents submitted to McGuireWoods LLP as photocopies thereof, the authenticity of the originals of such copies and certain factual matters, all as stated in the letter of McGuireWoods LLP dated March 30, 2012, which has been filed as an exhibit to BAC's Registration Statement relating to the notes filed with the SEC on March 30, 2012.

Summary Tax Consequences

You should consider the U.S. federal income tax consequences of an investment in the notes, including the following:

- There is no statutory, judicial, or administrative authority directly addressing the characterization of the notes.
- You agree with us (in the absence of an administrative determination, or judicial ruling to the contrary) to characterize and treat the notes for all tax purposes as a single financial contract with respect to the Market Measure.
- Under this characterization and tax treatment of the notes, a U.S. Holder (as defined beginning on page 62 of the prospectus) generally will recognize capital gain or loss upon maturity or upon a sale or exchange of the notes prior to maturity. This capital gain or loss generally will be long-term capital gain or loss if you held the notes for more than one year.
- No assurance can be given that the IRS or any court will agree with this characterization and tax treatment.

You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws. You should review carefully the discussion under the section entitled "U.S. Federal Income Tax Summary" beginning on page S-34 of product supplement STOCK LIRN-2.

Where You Can Find More Information

We have filed a registration statement (including a product supplement, a prospectus supplement, and a prospectus) with the SEC for the offering to which this term sheet relates. Before you invest, you should read the Note Prospectus, including this term sheet, and the other documents that we have filed with the SEC, for more complete information about us and this offering. You may get these documents without cost by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, we, any agent, or any dealer participating in this offering will arrange to send you these documents if you so request by calling MLPF&S toll-free at 1-866-500-5408.

Market-Linked Investments Classification

Enhanced Return

MLPF&S classifies certain market-linked investments (the "Market-Linked Investments") into categories, each with different investment characteristics. The following description is meant solely for informational purposes and is not intended to represent any particular Enhanced Return Market-Linked Investment or guarantee any performance.

Enhanced Return Market-Linked Investments are short- to medium-term investments that offer you a way to enhance exposure to a particular market view without taking on a similarly enhanced level of market downside risk. They can be especially effective in a flat to moderately positive market (or, in the case of bearish investments, a flat to moderately negative market). In exchange for the potential to receive better-than market returns on the linked asset, you must generally accept market downside risk and capped upside potential. As these investments are not market downside protected, and do not assure full repayment of principal at maturity, you need to be prepared for the possibility that you may lose all or part of your investment.
