Risk Factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

- Depending on the performance of the Market Measure as measured shortly before the maturity date, your investment may result in a loss; there is no guaranteed return of principal.
- Payments on the notes are subject to the credit risk of BAC, and actual or perceived changes in the creditworthiness of BAC are expected to affect the value of the notes. If BAC becomes insolvent or is unable to pay its obligations, you may lose your entire investment.
- Your investment return, if any, is limited to the return represented by the Capped Value and may be less than a comparable investment directly in the Market Measure, excluding dividends.
- Changes in the price of the Basket Components may offset each other.
- If you attempt to sell the notes prior to maturity, their market value may be lower than the price you paid for the notes.
- You will have no rights of a holder of the Basket Components, and you will not be entitled to receive shares of the Basket Components or dividends or other distributions by the issuers of the Basket Components.

Final terms will be set on the pricing date within the given range for the specified Market-Linked Investment. Please see the Preliminary Offering Documents for complete product disclosure, including related risks and tax disclosure.
