This document supplements the Note Prospectus in connection with any secondary market transactions in the notes by Merrill Lynch, Pierce, Fenner & Smith Incorporated and its affiliates. Capitalized terms used but not defined in this supplement have the meanings set forth in the Note Prospectus.

The Starting Value for the notes was defined in the final term sheet (the "Final Term Sheet"), dated September 26, 2013 and filed with the Securities and Exchange Commission (the "SEC") on September 30, 2013. The Starting Value was defined as the lowest closing level of the Market Measure on any Market Measure Business Day during the Starting Value Determination Period on which a Market Disruption Event has not occurred. The closing level of the Market Measure on September 26, 2013, the first day of the Starting Value Determination Period, was 15,328.30.

The Starting Value Determination Period expired on November 26, 2013. The lowest closing level of the Market Measure on any Market Measure Business Day during the Starting Value Determination Period on which a Market Disruption Event did not occur was 14,776.53, which was the closing level of the Market Measure on October 8, 2013. This closing level is less than 15,328.30.

Therefore, the Starting Value for the notes is 14,776.53.
