dated March 30, 2012 and prospectus dated
March 30, 2012 (together, the "Note Prospectus")

Bank of America Corporation
Medium-Term Notes, Series L
Accelerated Return Notes®
Linked to the S&P 500® Index, due January 4, 2016
(the "ARNs")

This document supplements the Note Prospectus in connection with any secondary market transactions in the ARNs by Merrill Lynch, Pierce, Fenner & Smith Incorporated and its affiliates. Capitalized terms used but not defined in this supplement have the meanings set forth in the Note Prospectus.

The Starting Value for the ARNs was defined in the final term sheet dated December 23, 2013 (the "Final Term Sheet"). The Starting Value was defined as the lowest closing level of the Market Measure on any Market Measure Business Day during the Starting Value Determination Period on which a Market Disruption Event has not occurred. The closing level of the Market Measure on December 23, 2013, the first day of the Starting Value Determination Period, was 1,827.99.

The Starting Value Determination Period expired on February 24, 2014. The lowest closing level of the Market Measure on any Market Measure Business Day during the Starting Value Determination Period on which a Market Disruption Event did not occur was 1,741.89, which was the closing level of the Market Measure on February 3, 2014. This closing level is less than 1,827.99.

Therefore, the Starting Value for the ARNs is 1,741.89.

Documentation

You should read this supplement, together with the documents listed below, which together contain the terms of the ARNs and supersede all prior or contemporaneous oral statements as well as any other written materials. You should carefully consider, among other things, the matters set forth in "Risk Factors" on page TS-6 of the Final Term Sheet and beginning on page

PS-6 of product supplement EQUITY INDICES ARN-1, as the ARNs involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the ARNs.
