Optional Make-Whole Redemption:	The Issuer may redeem the Notes, at its option, in whole at any time or in part from time to time, on or after September 28, 2022 (or, if additional Notes are issued after March 28, 2022, on or after the date that is six months after the issue date of such additional Notes) and prior to March 16, 2027, upon at least 5 business days', but not more than 60 calendar days', prior written notice to the holders of the Notes being redeemed at a "make-whole" redemption price calculated as set forth in the Prospectus Supplement under "Description of the Notes—Redemption—Make-Whole Redemption." For purposes of the make-whole redemption, the "spread" is 47.5 basis points.

Recent Developments Relating to CDOR and Related Risk Factors

Subsequent to the date of the Prospectus Supplement, certain recent developments have occurred with respect to CDOR. A summary of such developments is set forth in the following risk factor, which should be deemed to supersede and replace the risk factor entitled “Regulation, reform, and the potential or actual discontinuation of CDOR may adversely affect the return on, value of and market for affected CDOR notes” set forth under the heading “Risk Factors Relating to the Notes—Risks Relating to the Canadian Dollar Bankers’ Acceptance Rate and CDOR Notes Generally” in the Prospectus Supplement. In addition, the risk factors in the Prospectus Supplement under “Risk Factors Relating to the Notes—Risks Relating to the Canadian Overnight Repo Rate Average and Compounded CORRA Notes Generally” relating to CORRA (as defined below) should be given careful consideration. Capitalized terms used and not defined below have the respective meanings given to them in the Prospectus Supplement.

Interest on the Notes during the Floating Rate Period will be calculated using a reference rate other than three-month CDOR if the Issuer or its designee (after consulting with the Issuer) determines that an Index Cessation Event has occurred with respect to such rate.

The Canadian Alternative Reference Rate Working Group (“CARR”) was established by the Bank of Canada’s Canadian Fixed-Income Forum with a primary objective of reviewing and analyzing the efficacy of CDOR and making recommendations for its future based on that analysis. In December 2021, CARR announced its finding that there are certain aspects of CDOR’s architecture that pose risks to its future robustness and recommended that Refinitiv Benchmark Services (UK) Limited (“RBSL”) should cease its calculation and publication of CDOR after June 30, 2024. CARR also recommended that, by June 30, 2023, all new securities use the Canadian Overnight Repo Rate Average (“CORRA”), subject to certain limited exceptions. In its announcement, CARR stated that the decision to ultimately cease CDOR lies solely with RBSL. As a result, in January 2022, RBSL issued a consultation on the potential cessation of CDOR. As of the date of this term sheet, the deadline to submit comments on RBSL’s consultation has passed, but RBSL has not published the results of this consultation. In addition, it has been reported that the Canadian Bankers’ Acceptance borrowing (“BA”) market—which CDOR is designed to represent—has experienced a significant decline in market volumes. If BA volumes continue to decline, or if one of the six banks comprising the panel that submits BA quotations to RBSL for use in RBSL’s calculation of CDOR leave such panel (as a result of declining BA volumes or otherwise), it is possible that three-month CDOR could cease to be calculated and published prior to June 30, 2024. As a result of these developments, there is a substantial likelihood that an Index Cessation Event will occur with respect to three-month CDOR on or before June 30, 2024.

If the Issuer or its designee (after consulting with the Issuer) determines that an Index Cessation Event has occurred with respect to three-month CDOR, the Issuer or its designee will determine an Applicable Fallback Rate and related adjustments to such rate and other terms and provisions of the Notes in accordance with the terms and provisions set forth under “Description of the Notes—Floating-Rate Notes—Floating-Rate Notes without Payment Delay—Determination of Base Rates—CDOR Notes” in the Prospectus Supplement, which shall be binding on the Issuer, the trustee for the Notes, investors in the Notes and the beneficial owners of interests in the Notes. In so acting, the Issuer or its designee would assume no obligations or relationship of agency or trust, including, but not limited to, any fiduciary duties or obligations, for or with any of the investors in the Notes. Any of the factors noted above could adversely affect the rate of interest on the Notes, which could adversely affect the return on, value of and market for the Notes.

Bank of America Corporation (the “Issuer”) has filed a registration statement (including the Pricing Supplement, the Prospectus Supplement, and a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read those documents and the other documents that the Issuer has filed with the SEC for more complete information about the Issuer and this offering.
