

Terms of the Notes

The Enhanced Return Notes provide between [160% and 165%] (set on the pricing date) upside exposure to increases in the Least Performing Underlying if its Ending Value is greater than its Starting Value. If the Ending Value of the Least Performing Underlying is equal to or less than its Starting Value but greater than or equal to its Threshold Value, at maturity you will receive the principal amount. However, if the Ending Value of the Least Performing Underlying is less than its Threshold Value, your investment will be subject to 1:1 downside exposure to decreases in the Least Performing Underlying, with up to 100% of the principal at risk. The Notes will not pay interest. At maturity, you will receive the Redemption Amount, calculated as described under "Redemption Amount Determination".

(1) The Redemption Amount per Note is based on the hypothetical Upside Participation Rate.
 (2) This is the Underlying Return of the Least Performing Underlying which corresponds to the Threshold Value.

Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- The Notes do not bear interest.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- Any payments on the Notes are subject to our credit risk and the credit risk of the Guarantor, and any actual or perceived changes in our or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- The payments on the Notes will not reflect changes in the level of the Underlying other than on the Valuation Date.
- Because the Notes are linked to the least performing (and not the average performance) of the Underlyings, you may not receive any return on the Notes and may lose a significant portion or all of your principal amount even if the Ending Value of one Underlying is greater than or equal to its Threshold Value.
- The Notes are subject to risks associated with small-size capitalization companies.

You may revoke your offer to purchase the Notes at any time prior to the time at which we accept such offer on the date the Notes are priced. We reserve the right to change the terms of, or reject any offer to purchase, the Notes prior to their issuance. In the event of any changes to the terms of the Notes, we will notify you and you will be asked to accept such changes in connection with your purchase. You may also choose to reject such changes in which case we may reject your offer to purchase.
