## Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your return on the Notes is limited to the return represented by the Contingent Coupon Payments, if any, over the term of the Notes.
- The Notes are subject to a potential Automatic Call, which would limit your ability to receive the Contingent Coupon Payments over the full term of the Notes.
- You may not receive any Contingent Coupon Payments and the Notes do not provide for any regular fixed coupon payments.
- The Contingent Coupon Payment, Early Redemption Amount or Redemption Amount, as applicable, will not reflect the prices of the Basket Components other than on the Observation Dates.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- Any payment on the Notes is subject to the credit risk of BofA Finance and the Guarantor, and actual or perceived changes in BofA Finance's or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- Alcoa Corporation has limited actual historical information.
- Changes in the price of one of the Basket Components may be offset by changes in the price of the other Basket Components.
- The terms of the Notes will not be adjusted for all corporate events that could affect an issuer of a Basket Component.
