

Terms of the Notes

The Dual Directional Buffered Notes provide 1:1 upside exposure to increases in the Least Performing Underlying if its Ending Value is greater than or equal to its Starting Value, subject to the Max Return of \$1,260.00 per \$1,000 in principal amount of Notes. If the Ending Value of the Least Performing Underlying is less than its Starting Value but greater than or equal to its Threshold Value, you will receive a positive return equal to the Absolute Underlying Return. However, if the Ending Value of the Least Performing Underlying is less than its Threshold Value, you will be exposed to any decrease in the Underlying beyond the Threshold Value, and you will lose some or a substantial portion of your investment in the Notes. The Notes will not pay interest. At maturity, you will receive the Redemption Amount, calculated as described under "Redemption Amount Determination".

(1) The Redemption Amount per Note cannot exceed the Max Return.
(2) This is the Underlying Return of the Least Performing Underlying which corresponds to the Threshold Value.

Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- The return on the Notes will be limited to the Max Return.
- Your potential for a positive return based on the depreciation of the Underlying is limited.
- The Notes do not bear interest.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- Any payment on the Notes is subject to the credit risk of BofA Finance and the Guarantor, and actual or perceived changes in BofA Finance or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- The payments on the Notes will not reflect changes in the level of the Underlying other than on the Valuation Date.
- Because the Notes are linked to the least performing (and not the average performance) of the Underlyings, you may not receive any return on the Notes and may lose some or a significant portion of your principal amount even if the Ending Value of one Underlying is always greater than or equal to its Threshold Value.
- The Notes are subject to risks associated with small-size capitalization companies.

You may revoke your offer to purchase the Notes at any time prior to the time at which we accept such offer on the date the Notes are priced. We reserve the right to change the terms of, or reject any offer to purchase, the Notes prior to their issuance. In the event of any changes to the terms of the Notes, we will notify you and you will be asked to accept such changes in connection with your purchase. You may also choose to reject such changes in which case we may reject your offer to purchase.
