Risk factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

- Depending on the performance of the Market Measure as measured shortly before the maturity date, you may not earn a return on your investment
- Payments on the notes are subject to the credit risk of BofA Finance and the credit risk of BAC, and actual or perceived changes in the creditworthiness of BofA Finance or BAC are expected to affect the value of the notes. If BofA Finance and BAC become insolvent or are unable to pay their respective obligations, you may lose your entire investment.
- Changes in the price of one of the Basket Components may be offset by changes in the price of the other Basket Components.
- The initial estimated value of the notes on the pricing date will be less than their public offering price.
- If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.
- Ownership of the notes will not entitle you to any rights with respect to any Basket Component or any related commodity.
- Changes in the level of one of the Basket Components may be offset by changes in the levels of the other Basket Components.
- The initial estimated value of the notes on the pricing date will be less than their public offering price.
- If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.
- Commodity prices of a single commodity, such as each Basket Component, tend to be more volatile than, and may not correlate with, the prices of commodities generally.
- The price movements in each of the Basket Components may not correlate with changes in its corresponding commodity's spot price.
- The market value of the notes may be affected by price movements in distant-delivery futures contracts associated with the Basket Components.
- The Notes provide exposure to futures contracts on WTI light sweet crude oil, natural gas, corn and soybeans and not direct exposure to such commodities.
- The market price of each Basket Component will affect the value of the Notes.

Final terms will be set on the pricing date within the given range for the specified Market-Linked Investment. Please see the Preliminary Offering Documents for complete product disclosure, including related risks and tax disclosure.
