Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your return on the Notes is limited to the return represented by the Fixed Coupon Payments over the term of the Notes.
- The Early Redemption Amount or Redemption Amount, as applicable, will not reflect changes in the price of the Underlying Stock other than on the Observation Dates or Valuation Date, as applicable.
- The Notes are subject to a potential Automatic Call, which would limit your ability to receive the Fixed Coupon Payments over the full term of the Notes.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- Any payments on the Notes are subject to our credit risk and the credit risk of the Guarantor, and any actual or perceived changes in our or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- The terms of the Notes will not be adjusted for all corporate events that could affect the issuer of the Underlying Stock.

You may revoke your offer to purchase the Notes at any time prior to the time at which we accept such offer on the date the Notes are priced. We reserve the right to change the terms of, or reject any offer to purchase, the Notes prior to their issuance. In the event of any changes to the terms of the Notes, we will notify you and you will be asked to accept such changes in connection with your purchase.
