

## Terms of the Notes

The Capped Enhanced Return Notes Linked to the Least Performing of the Nasdaq-100® Index, the Russell 2000® Index and the S&P 500® Index (the "Notes") provide a leveraged return, subject to the Max Return, if the Ending Value of the Least Performing Underlying is greater than its Starting Value. If the Ending Value of the Least Performing Underlying is equal to or less than its Starting Value but greater than or equal to its Threshold Value, you will receive the principal amount of your Notes at maturity. If the Ending Value of the Least Performing Underlying is less than its Threshold Value, there is full exposure to declines in the Least Performing Underlying and you will lose a significant portion or all of your investment in the Notes. The Notes will not pay interest. At maturity, you will receive the Redemption Amount, calculated as described under "Redemption Amount Determination".

## Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- The return on the Notes will be limited to the Max Return.
- The Notes do not bear interest.
- The Redemption Amount will not reflect changes in the levels of the Underlying other than on the Valuation Date.
- Because the Notes are linked to the least performing (and not the average performance) of the Underlyings, you may not receive any return on the Notes and may lose a significant portion or all of your investment in the Notes even if the Ending Value of one Underlying is greater than or equal to its Threshold Value.
- Any payments on the Notes are subject to our credit risk and the credit risk of the Guarantor, and any actual or perceived changes in our or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- The Notes are subject to risks associated with small-size capitalization companies.
- The Notes are subject to risks associated with foreign securities markets.
