(2) This is the Underlying Return which corresponds to the Threshold Value of the Least Performing Underlying.

Risk Factors

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your return on the Notes is limited to the return represented by the Fixed Coupon Payments, if any, over the term of the Notes.
- The Notes are subject to Optional Early Redemption.
- Your return on the Notes may be less than the yield on a conventional debt security of comparable maturity.
- The Redemption Amount will not reflect changes in the levels of the Underlyings other than on the Valuation Date.
- Because the Notes are linked to the least performing (and not the average performance) of the Underlyings, you may not receive any return on the Notes and may lose a significant portion or all of your principal amount even if the Ending Value of one Underlying is always greater than or equal to its Threshold Value.
- Any payment on the Notes is subject to the credit risk of BofA Finance and the Guarantor, and actual or perceived changes in BofA Finance's or the Guarantor's creditworthiness are expected to affect the value of the Notes.
- The public offering price you pay for the Notes will exceed their initial estimated value.
- We cannot assure you that a trading market for your Notes will ever develop or be maintained.
- The Notes are subject to risks associated with small-size capitalization companies.
- The Notes are subject to risks associated with foreign securities markets.

You may revoke your offer to purchase the Notes at any time prior to the time at which we accept such offer on the date the Notes are priced. We reserve the right to change the terms of, or reject any offer to purchase, the Notes prior to their issuance. In the event of any changes to the terms of the Notes, we will notify you and you will be asked to accept such changes in connection with your purchase. You may also choose to reject such changes in which case we may reject your offer to purchase.
