 Term Sheet to Preliminary Pricing Supplement dated February 16, 2024

Summary of Terms

Issuer and Guarantor:	BofA Finance LLC (“BofA Finance” or “Issuer”) and Bank of America Corporation (“BAC” or “Guarantor”)
Underlyings:	Energy Select Sector SPDR [®] Fund, the Industrial Select Sector SPDR [®] Fund and the SPDR [®] S&P [®] Biotech ETF
Pricing Date*:	February 23, 2024
Issue Date*:	February 28, 2024
Denominations:	\$1,000 and any integral multiple of \$1,000. References in the pricing supplement to a “Security” are to a Security with a principal amount of \$1,000.
Contingent Coupon Payments:	On each Contingent Coupon Payment Date, you will receive a Contingent Coupon Payment at a per annum rate equal to the Contingent Coupon Rate if, and only if, the Fund Closing Price of the Lowest Performing Underlying on the related Calculation Day is greater than or equal to its Coupon Barrier. Each Contingent Coupon Payment, if any, will be calculated per Security as follows: $(\$1,000 \times \text{Contingent Coupon Rate}) / 4$
Contingent Coupon Payment Dates:	Quarterly, on the third business day following each Calculation Day; provided that the Contingent Coupon Payment Date with respect to the Final Calculation Day will be the Maturity Date.
Contingent Coupon Rate:	At least 10.60% per annum, to be determined on the pricing date
Automatic Call:	If the Fund Closing Price of the Lowest Performing Underlying on any of the Calculation Days from August 2024 to November 2026, inclusive, is greater than or equal to its Starting Value, the Securities will be automatically called, and on the related Call Settlement Date you will be entitled to receive a cash payment per Security equal to the principal amount per Security plus a final Contingent Coupon Payment.
Calculation Days*:	Quarterly, on the 23rd day of each February, May, August and November, commencing May 2024 and ending November 2026, and February 23, 2027 (the “Final Calculation Day”).
Call Settlement Date:	Three business days after the applicable Calculation Day
Maturity Payment Amount (per Security):	<ul style="list-style-type: none"> if the Ending Value of the Lowest Performing Underlying on the Final Calculation Day is greater than or equal to its Threshold Value: \$1,000; or if the Ending Value of the Lowest Performing Underlying on the Final Calculation Day is less than its Threshold Value: $\\$1,000 \times \text{performance factor of the Lowest Performing Underlying on the Final Calculation Day}$
Maturity Date*:	February 26, 2027
Lowest Performing Underlying:	For any Calculation Day, the Lowest Performing Underlying will be the Underlying with the lowest performance factor on that Calculation Day.
Performance Factor:	With respect to an Underlying on any Calculation Day, its Fund Closing Price on such Calculation Day divided by its Starting Value (expressed as a percentage).
Starting Value:	For each Underlying, its Fund Closing Price on the pricing date
Ending Value:	For each Underlying, its Fund Closing Price on the Final Calculation Day
Coupon Barrier:	For each Underlying, 60% of its Starting Value
Threshold Value:	For each Underlying, 60% of its Starting Value

Summary of Terms (continued)

Calculation Agent:	BofA Securities, Inc. (“BofAS”), an affiliate of BofA Finance
Underwriting Discount**:	Up to 2.325%; dealers, including those using the trade name Wells Fargo Advisors (WFA), may receive a selling concession of 1.75% and WFA may receive a distribution expense fee of 0.075%.
CUSIP:	09710PXX9
Material Tax Consequences:	See the preliminary pricing supplement.

** In addition, selected dealers may receive a fee of up to 0.35% for marketing and other services

Hypothetical Payout Profile (Maturity Payment Amount)

If the Securities are not automatically called prior to maturity and the Ending Value of the Lowest Performing Underlying on the Final Calculation Day is less than its Threshold Value, you will lose more than 40%, and possibly all, of the principal amount of your Securities at maturity. Any return on the Securities will be limited to the sum of your Contingent Coupon Payments, if any. You will not participate in any appreciation of any Underlying, but you will have full downside exposure to decreases in the value of the Lowest Performing Underlying on the Final Calculation Day if the Ending Value of that Underlying is less than its Threshold Value.

The initial estimated value of the Securities as of the pricing date is expected to be between \$916.75 and \$966.75 per Security, which is less than the public offering price. The actual value of your Securities at any time will reflect many factors and cannot be predicted with accuracy. See “Selected Risk Considerations” beginning on page PS-9 of the accompanying preliminary pricing supplement and “Structuring the Securities” on page PS-30 of the accompanying preliminary pricing supplement for additional information.

The Securities have complex features and investing in the Securities involves risks not associated with an investment in conventional debt securities. Potential purchasers of the Securities should consider the information in “Selected Risk Considerations” beginning on page PS-9 of the accompanying preliminary pricing supplement and in “Risk Factors” beginning on page PS-5 of the accompanying product supplement, page S-6 of the accompanying prospectus supplement, and page 7 of the accompanying prospectus.

This introductory term sheet does not provide all of the information that an investor should consider prior to making an investment decision.

Investors should carefully review the accompanying preliminary pricing supplement, product supplement, prospectus supplement and prospectus before making a decision to invest in the Securities.

Selected Risk Considerations

The risks set forth below, as well as additional risks related to this investment, are discussed in detail in the “Selected Risk Considerations” section in the accompanying preliminary pricing supplement. Please review those risk disclosures carefully.

- Your investment may result in a loss; there is no guaranteed return of principal.
- Your return on the Securities is limited to the return represented by the Contingent Coupon Payments, if any, over the term of the Securities.
- The Securities are subject to a potential automatic call, which would limit your ability to receive the Contingent Coupon Payments over the full term of the Securities.
- You may not receive any Contingent Coupon Payments.
- Because the Securities are linked to the lowest performing (and not the average performance) of the Underlyings, you may not receive any return on the Securities and may lose a significant portion or all of your principal amount even if the Fund Closing Price of one Underlying is always greater than or equal to its Coupon Barrier or Threshold Value, as applicable.
- Higher Contingent Coupon Rates are associated with greater risk.
- Your return on the Securities may be less than the yield on a conventional debt security of comparable maturity.
- The Contingent Coupon Payment, payment upon automatic call or Maturity Payment Amount, as applicable, will not reflect the prices of the Underlyings other than on the Calculation Days.
- A Contingent Coupon Payment Date, a Call Settlement Date and the Maturity Date may be postponed if a Calculation Day is postponed.
- We are a finance subsidiary and, as such, have no independent assets, operations or revenues.
- Any payment on the Securities is subject to the credit risk of BofA Finance, as issuer, and BAC, as Guarantor, and actual or perceived changes in BofA Finance or the Guarantor’s creditworthiness are expected to affect the value of the Securities.
- The public offering price you pay for the Securities will exceed their initial estimated value.
- The initial estimated value does not represent a minimum or maximum price at which BofA Finance, BAC, BofAS or any of our other affiliates or WFS or its affiliates would be willing to purchase your Securities in any secondary market (if any exists) at any time.
- BofA Finance cannot assure you that a trading market for your Securities will ever develop or be maintained.
- The Securities are not designed to be short-term trading instruments, and if you attempt to sell the Securities prior to maturity, their market value, if any, will be affected by various factors that interrelate in complex ways, and their market value may be less than the principal amount.
- Trading and hedging activities by BofA Finance, the Guarantor and any of our other affiliates, including BofAS, and WFS and its affiliates, may create conflicts of interest with you and may affect your return on the Securities and their market value.
- There may be potential conflicts of interest involving the calculation agent, which is an affiliate of ours.
- Changes that affect an Underlying or its respective fund underlying index may adversely affect the value of the Securities and any payments on the Securities.
- We and our affiliates have no affiliation with any fund sponsor or fund underlying index sponsor and have not independently verified their public disclosure of information.
- Risks associated with an applicable fund underlying index will affect the value of that Underlying and hence the value of the Securities.
- Adverse conditions in the energy, industrial and technology sectors may reduce your return on the Securities.
- The stocks of companies in the energy sector are subject to swift price fluctuations .
- The stocks held by each of the XLE, XLI and XBI are concentrated in three distinct sectors.
- The performance of an Underlying may not correlate with the performance of its fund underlying index as well as the net asset value per share of the Underlying, especially during periods of market volatility.
- The anti-dilution adjustments with respect to an Underlying will be limited.
- The U.S. federal income tax consequences of an investment in the Securities are uncertain, and may be adverse to a holder of the Securities.

This term sheet is a summary of the terms of the Securities and factors that you should consider before deciding to invest in the Securities.
