Risk Factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

- If your notes are not automatically called, your investment may result in a loss; there is no guaranteed return of principal.
- Payments on the notes are subject to the credit risk of BAC, and actual or perceived changes in the creditworthiness of BAC are expected to affect the value of the notes. If BAC becomes insolvent or is unable to pay its obligations, you may lose your entire investment.
- Changes in the price of one of the Basket Stocks may be offset by changes in the value of the other Basket Stocks.
- The initial estimated value of the notes on the pricing date will be less than their public offering price.
- If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.
- If called, your investment return is limited to the return represented by the applicable Call Premium.
- You will have no rights of a holder of the Basket Stocks, and you will not be entitled to receive shares of the Basket Stocks or dividends or other distributions by the issuers of the Basket Stocks.
- We do not control any company included in the Basket and have not verified any disclosure made by any other company. The companies included in the Basket will have no obligations relating to the notes.
- The Redemption Amount will not be adjusted for all corporate events that could affect the Basket Stocks.
- The Basket is concentrated in the cyber security industry; an investment in the notes involves certain risks associated with an investment in companies in the cyber security industry.
- Two Basket Stocks have limited historical information.
