Risk factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

- If the notes are not automatically called, depending on the performance of the Market Measure as measured shortly before the maturity date, your investment may result in a loss; there is no guaranteed return of principal.
- If the notes are called, your return on the notes is limited to the return represented by the Call Premium.
- Changes in the price of one of the Basket Stocks may be offset by changes in the prices of the other Basket Stocks.
- Payments on the notes are subject to the credit risk of BofA Finance and the credit risk of BAC, and actual or perceived changes in the creditworthiness of BofA Finance or BAC are expected to affect the value of the notes. If BofA Finance and BAC become insolvent or are unable to pay their respective obligations, you may lose your entire investment.
- The initial estimated value of the notes on the pricing date will be less than their public offering price.
- If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.
- You will have no rights of a holder of the Basket Stocks, and you will not be entitled to receive securities or dividends or other distributions by the issuers of those securities.
- The Basket Stocks are concentrated in one sector.
- An investment in the notes is subject to risks associated with investing in stocks in the information technology sector.

Final terms will be set on the pricing date within the given range for the specified Market-Linked Investment. Please see the Preliminary Offering Documents for complete product disclosure, including related risks and tax disclosure.

Note Return at Maturity

***** Direct Investment in Market Measure, Excluding Dividends

The graph above and the table below reflect the hypothetical return on the notes, based on the terms contained in the table to the left (using the mid-point for any range(s)). The graph and table have been prepared for purposes of illustration only, assume that the notes are not called on any Observation Date and do not take into account any tax consequences from investing in the notes.
