CEO Commentary

"This quarter, we benefited from good consumer and commercial banking activity. Our business segments earned \$4.5 billion, up 16 percent from the year-ago quarter. This was partially offset by valuation adjustments from lower long-term interest rates and annual compensation expenses. Despite volatile markets, our Global Markets business produced solid earnings. As always, we are focused on loan and deposit growth and managing expenses. By doing that, we continue to improve on what we do best: helping consumers live their financial lives and helping businesses grow and employ more people."

— Brian Moynihan, Chief Executive Officer

Business Segments include Consumer Banking, Global Wealth & Investment Management, Global Banking, Global Markets, and Legacy Assets & Servicing with the remaining operations recorded in All Other.

¹ Financial Highlights and Business Highlights compare to the year-ago quarter unless noted. Loan and deposit balances are shown on an end-of-period basis. Fully taxable-equivalent (FTE) basis for the corporation is a non-GAAP financial measure. See endnote (A) for more information. Total revenue, net of interest expense, on a GAAP basis, was \$19.5 billion for Q1-16, and \$20.9 billion in Q1-15. Net interest income, on a GAAP basis, was \$9.2 billion for Q1-16, and \$9.4 billion for Q1-15. Earnings per share is on a fully diluted basis.

² Combined credit/debit spending excludes the impact of portfolio divestitures. Including divestitures, combined spending was up 3%.

CFO Commentary

"In a challenging and volatile environment, we stayed true to our strategy this quarter. We grew loans and deposits, increased core net interest income and improved an already strong and highly liquid balance sheet, increasing tangible book value per share by 9 percent. We also reduced noninterest expense by \$1 billion, or 6 percent, as we continued to focus on improving operating leverage."

— Paul Donofrio, Chief Financial Officer

Credit Quality

Highlights ¹	(\$ in millions)	Three months ended		
		3/31/2016	12/31/2015	3/31/2015
Overall credit quality remained strong; consumer portfolios continued to improve, and commercial portfolios remained stable except the energy sector	Provision for credit losses	\$ 997	\$ 810	\$ 765
	Net charge-offs	1,068	1,144	1,194
	Net charge-off ratio ²	0.48%	0.52%	0.56%
- Net charge-offs declined to \$1.1 billion from \$1.2 billion - Excluding losses associated with the settlement with the U.S. Department of Justice and nonperforming loan sales, net charge-offs were \$1.0 billion in both Q1-16 and the year-ago quarter	At period-end			
	Nonperforming loans, leases and foreclosed properties	\$ 9,281	\$ 9,836	\$ 12,101
	Nonperforming loans, leases and foreclosed properties ratio ³	1.04%	1.10%	1.40%
The net charge-off ratio decreased to 0.48% from 0.56%; excluding the items noted above, the net charge-off ratio was 0.46% in Q1-16, down from 0.47%	Allowance for loan and lease losses	\$ 12,069	\$ 12,234	\$ 13,676
	Allowance for loan and lease losses ratio ⁴	1.35%	1.37%	1.58%
Provision for credit losses increased to \$997 million, due to increased reserves in the commercial portfolio due to energy sector exposure				
Net reserve release was \$71 million, compared to \$429 million, as reserve releases in consumer were mostly offset by increased commercial reserves				
Reservable criticized commercial exposures increased to \$18.6 billion from \$15.9 billion in the prior quarter and \$11.9 billion in Q1-15, primarily due to increases in the energy sector				

¹ Comparisons are to the year-ago quarter unless noted.

² Net charge-off ratio is calculated as annualized net charge-offs divided by average outstanding loans and leases during the period.

³ Nonperforming loans, leases and foreclosed properties ratio is calculated as nonperforming loans, leases and foreclosed properties divided by outstanding loans, leases and foreclosed properties at the end of the period.

⁴ Allowance for loan and lease losses ratio is calculated as allowance for loan and lease losses divided by loans and leases outstanding at the end of the period.

Note: Ratios do not include loans accounted for under the fair value option.

Energy Exposure

- Utilized energy exposure of \$21.8 billion decreased \$0.3 billion from Q1-15
 - Higher risk subsectors of Exploration & Production (E&P) and Oil Field Services (OFS) decreased \$0.6 billion from Q4-15 and \$0.3 billion from Q1-15 to \$7.7 billion, representing less than 1% of total corporation loans
 - Energy reserves increased \$525 million from Q4-15 to \$1.0 billion, primarily driven by increased allowance coverage for the higher risk subsectors (E&P and OFS)

Notes:

¹ Represents a non-GAAP financial measure. For reconciliation, see pages 16-18 of this press release.

² Regulatory capital ratios are preliminary. Common equity tier 1 (CET1) capital, Tier 1 capital, risk-weighted assets (RWA), CET1 ratio and bank holding company supplementary leverage ratio (SLR) as shown on a fully phased-in basis are non-GAAP financial measures. For a reconciliation of CET1 to fully phased-in, see page 13 of this press release.

³ Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements beginning in the fourth quarter of 2015. With the approval to exit parallel run, Bank of America is now required to report regulatory capital under both the Standardized and Advanced approaches. The approach that yields the lower ratio is to be used to assess capital adequacy and was the Advanced approaches at March 31, 2016 and December 31, 2015. Prior to exiting parallel run, we were required to report regulatory capital under the Standardized approach only.

⁴ With the approval to exit parallel run, U.S. banking regulators requested modifications to certain internal analytical models including the wholesale (e.g., commercial) credit models, which increased our risk-weighted assets beginning in the fourth quarter of 2015.

⁵ Basel 3 fully phased-in Advanced approaches estimates assume approval by U.S. banking regulators of our internal analytical models, including approval of the internal models methodology (IMM). As of March 31, 2016, BAC did not have regulatory approval for the IMM model.

Endnotes

- A Fully taxable-equivalent (FTE) basis for the Corporation is a non-GAAP financial measure. For reconciliation to GAAP financial measures, refer to pages 16-18 of this press release. Net interest income on a GAAP basis was \$9.2 billion and \$9.4 billion for the three months ended March 31, 2016 and 2015. Net interest income on an FTE basis, excluding market-related adjustments, represents a non-GAAP financial measure. Negative market-related adjustments of premium amortization expense and hedge ineffectiveness were \$1.2 billion and \$0.5 billion for the three months ended March 31, 2016 and 2015. Total revenue, net of interest expense, on a GAAP basis was \$19.5 billion and \$20.9 billion for the three months ended March 31, 2016 and 2015. Net DVA gains (losses) were \$154 million and \$(401) million for the three months ended March 31, 2016 and 2015.
- B Fully phased-in estimates are non-GAAP financial measures. For reconciliation to GAAP financial measures, refer to pages 16-18 of this press release. Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements beginning in the fourth quarter of 2015. As previously disclosed, with the approval to exit parallel run, U.S. banking regulators requested modifications to certain internal analytical models including the wholesale (e.g., commercial) credit models, which increased our risk-weighted assets beginning in the fourth quarter of 2015. Basel 3 Advanced approaches estimates on a fully phased-in basis assume approval by U.S. banking regulators of our internal analytical models, including approval of the internal models methodology (IMM). As of March 31, 2016, BAC did not have regulatory approval for the IMM model.
- C Global Excess Liquidity Sources include cash and high-quality, liquid, unencumbered securities, limited to U.S. government securities, U.S. agency securities, U.S. agency MBS, and a select group of non-U.S. government and supranational securities, and are readily available to meet funding requirements as they arise. It does not include Federal Reserve Discount Window or Federal Home Loan Bank borrowing capacity. Transfers of liquidity from the bank or other regulated entities are subject to certain regulatory restrictions. Time to required funding is a debt coverage measure and is expressed as the number of months unsecured holding company obligations of Bank of America Corporation can be met using only the parent company's Global Excess Liquidity Sources without issuing debt or sourcing additional liquidity. We define unsecured contractual obligations for purposes of this metric as maturities of senior or subordinated debt issued or guaranteed by Bank of America Corporation. For all periods shown prior to Q1-16, we have included in the amount of unsecured contractual obligations the liability, including estimated costs, for the previously announced BNY Mellon private-label securitization settlement. The settlement payment of \$8.5 billion was made in the first quarter of 2016.
- D Return on average tangible common equity and return on average tangible common equity excluding the negative impacts of the market-related adjustments and annual retirement-eligible incentive costs are non-GAAP financial measures. Market-related adjustments for premium amortization expense and hedge ineffectiveness, and the annual retirement-eligible incentive costs, net of tax, were \$738 million and \$527 million for the three months ended March 31, 2016. For more information, refer to pages 16-18 of this press release.
- E Tangible book value per share of common stock is a non-GAAP financial measure. For more information, refer to pages 16-18 of this press release.
- F Rankings per Dealogic as of April 1, 2016 for the quarter ended March 31, 2016. Excluding self-led. Municipal Bond ranking per Thompson Reuters as of April 1 2016.
- G Global Markets revenue, excluding net DVA, and sales and trading revenue, excluding net DVA, are non-GAAP financial measures. Net DVA gains (losses) were \$154 million, \$(198) million and \$(401) million for the three months ended March 31, 2016, December 31, 2015 and March 31, 2015, respectively. FICC net DVA gains (losses) were \$140 million and \$(392) million for the three months ended March 31, 2016 and 2015, respectively. Equities net DVA gains (losses) were \$14 million and \$(9) million for the three months ended March 31, 2016 and 2015.
- H Legacy Assets and Servicing (LAS) noninterest expense, excluding litigation, is a non-GAAP financial measure. LAS noninterest expense was \$860 million, \$1.1 billion and \$1.2 billion for the three months ended March 31, 2016, December 31, 2015 and March 31, 2015, respectively. LAS litigation expense was \$131 million, \$353 million and \$179 million in the three months ended March 31, 2016, December 31, 2015 and March 31, 2015, respectively.
- I Return on average allocated capital is a non-GAAP financial measure. The company believes the use of this non-GAAP financial measure provides additional clarity in assessing the results of the segments. Other companies may define or calculate this measure differently. For reconciliation to GAAP financial measures, refer to pages 16-18 of this press release.
- J The estimated supplementary leverage ratio is measured using quarter-end Tier 1 capital as the numerator, calculated under Basel 3 on a fully phased-in basis. The denominator is supplementary leverage exposure based on the daily average of the sum of on-balance sheet exposures less permitted Tier 1 deductions, as well as the simple average of certain off-balance sheet exposures, as of the end of each month in a quarter. Off-balance sheet exposures primarily include undrawn lending commitments, letters of credit, potential future derivative exposures and repo-style transactions. At March 31, 2016, the estimated SLR for the Bank Holding Company on a fully phased-in basis was 6.8 percent. Differences between fully phased-in and transitional supplementary leverage exposures are immaterial.

Forward-Looking Statements

Bank of America and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent Bank of America's current expectations, plans or forecasts of its future results and revenues, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond Bank of America's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of Bank of America's 2015 Annual Report on Form 10-K, and in any of Bank of America's subsequent Securities and Exchange Commission filings: the Company's ability to resolve representations and warranties repurchase and related claims, including claims brought by investors or trustees seeking to distinguish certain aspects of the ACE Securities Corp. v. DB Structured Products, Inc. (ACE) decision or to assert other claims seeking to avoid the impact of the ACE decision; the possibility that the Company could face increased servicing, securities, fraud, indemnity, contribution or other claims from one or more counterparties, including trustees, purchasers of loans, underwriters, issuers, other parties involved in securitizations, monolines or private-label and other investors; the possibility that future representations and warranties losses may occur in excess of the Company's recorded liability and estimated range of possible loss for its representations and warranties exposures; the possibility that the Company may not collect mortgage insurance claims; potential claims, damages, penalties, fines and reputational damage resulting from pending or future litigation and regulatory proceedings, including the possibility that amounts may be in excess of the Company's recorded liability and estimated range of possible loss for litigation exposures; the possible outcome of LIBOR, other reference rate and foreign exchange inquiries and investigations; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Company's exposures to such risks, including direct, indirect and operational; the impact of U.S. and global interest rates, currency exchange rates and economic conditions; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior and other uncertainties; the impact on the Company's business, financial condition and results of operations of a potential higher interest rate environment; the impact on the Company's business, financial condition and results of operations from a protracted period of lower oil prices; adverse changes to the Company's credit ratings from the major credit rating agencies; estimates of the fair value of certain of the Company's assets and liabilities; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements, including the potential adoption of total loss-absorbing capacity requirements; the potential for payment protection insurance exposure to increase as a result of Financial Conduct Authority actions; the impact of recently proposed U.K. tax law changes including a further limitation on how much net operating losses can offset annual profits and a reduction to the U.K. corporate tax rate which, if enacted, will result in a tax charge upon enactment; the possible impact of Federal Reserve actions on the Company's capital plans; the possible impact of regulatory determinations regarding the Company's Recovery and Resolution plans; the impact of implementation and compliance with new and evolving U.S. and international regulations, including, but not limited to, recovery and resolution planning requirements, the Volcker Rule, and derivatives regulations; a failure in or breach of the Company's operational or security systems or infrastructure, or those of third parties, including as a result of cyber attacks; and other similar matters.

Forward-looking statements speak only as of the date they are made, and Bank of America undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

⁽¹⁾ Return on average tangible common shareholders' equity and tangible book value per share of common stock are non-GAAP financial measures. We believe the use of these non-GAAP financial measures provides additional clarity in assessing the results of the Corporation. Other companies may define or calculate non-GAAP financial measures differently. See Reconciliations to GAAP Financial Measures on pages 16-18.

⁽²⁾ Ratios do not include loans accounted for under the fair value option during the period. Charge-off ratios are annualized for the quarterly presentation.

⁽³⁾ Balances do not include past due consumer credit card, consumer loans secured by real estate where repayments are insured by the Federal Housing Administration and individually insured long-term stand-by agreements (fully-insured home loans), and in general, other consumer and commercial loans not secured by real estate; purchased credit-impaired loans even though the customer may be contractually past due; nonperforming loans held-for-sale; nonperforming loans accounted for under the fair value option; and nonaccruing troubled debt restructured loans removed from the purchased credit-impaired portfolio prior to January 1, 2010.

⁽⁴⁾ Regulatory capital ratios are preliminary.

⁽⁵⁾ Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements in the fourth quarter of 2015. With the approval to exit parallel run, Bank of America is required to report regulatory capital risk-weighted assets and ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is to be used to assess capital adequacy, and was the Advanced approaches at March 31, 2016 and December 31, 2015. Prior to exiting parallel run, we were required to report regulatory capital under the Standardized approach only.

⁽⁶⁾ Tangible equity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. Tangible common equity ratio equals period-end tangible common shareholders' equity divided by period-end tangible assets. Tangible shareholders' equity and tangible assets are non-GAAP financial measures. We believe the use of these non-GAAP financial measures provides additional clarity in assessing the results of the Corporation. Other companies may define or calculate non-GAAP financial measures differently. See Reconciliations to GAAP Financial Measures on pages 16-18.

⁽⁷⁾ Fully phased-in estimates are non-GAAP financial measures. For reconciliations to GAAP financial measures, see above.

⁽⁸⁾ Basel 3 fully phased-in Advanced approaches estimates assume approval by U.S. banking regulators of our internal analytical models, including approval of the internal models methodology (IMM). As of March 31, 2016, the Corporation did not have regulatory approval for the IMM model.

Reconciliations to GAAP Financial Measures

(Dollars in millions)

The Corporation evaluates its business based on a fully taxable-equivalent basis, a non-GAAP financial measure. The Corporation believes managing the business with net interest income on a fully taxable-equivalent basis provides a more accurate picture of the interest margin for comparative purposes. Total revenue, net of interest expense, includes net interest income on a fully taxable-equivalent basis and noninterest income. The Corporation views related ratios and analyses (i.e., efficiency ratios and net interest yield) on a fully taxable-equivalent basis. To derive the fully taxable-equivalent basis, net interest income is adjusted to reflect tax-exempt income on an equivalent before-tax basis with a corresponding increase in income tax expense. For purposes of this calculation, the Corporation uses the federal statutory tax rate of 35 percent. This measure ensures comparability of net interest income arising from taxable and tax-exempt sources. The efficiency ratio measures the costs expended to generate a dollar of revenue, and net interest yield measures the basis points the Corporation earns over the cost of funds.

The Corporation also evaluates its business based on the following ratios that utilize tangible equity, a non-GAAP financial measure. Tangible equity represents an adjusted shareholders' equity or common shareholders' equity amount which has been reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible common shareholders' equity measures the Corporation's earnings contribution as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible shareholders' equity measures the Corporation's earnings contribution as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding. These measures are used to evaluate the Corporation's use of equity. In addition, profitability, relationship and investment models all use return on average tangible shareholders' equity as key measures to support our overall growth goals.

In addition, the Corporation periodically reviews capital allocated to its businesses and allocates capital annually during the strategic and capital planning processes. We utilize a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. The Corporation's internal risk-based capital models use a risk-adjusted methodology incorporating each segment's credit, market, interest rate, business and operational risk components. Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Allocated capital and the related return both represent non-GAAP financial measures. Allocated capital is reviewed periodically and refinements are made based on multiple considerations that include, but are not limited to, risk-weighted assets measured under Basel 3 Standardized and Advanced approaches, business segment exposures and risk profile, and strategic plans. As part of this process, in 2016, the Corporation adjusted the amount of capital being allocated to its business segments.

See the tables below and on pages 17-18 for reconciliations of these non-GAAP financial measures to financial measures defined by GAAP for the three months ended March 31, 2016, December 31, 2015 and March 31, 2015. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in assessing the results of the Corporation. Other companies may define or calculate supplemental financial data differently.

Bank of America 

Bank of America Merrill Lynch U.S. Bank of America
America ynch Trust Merrill Lynch

1Q16 Highlights

- Net income of \$2.7B in 1Q16, or \$0.21 per diluted common share
 - Includes negative market-related NII adjustments of \$0.07 per share and annual retirement-eligible incentive costs of \$0.05 per share ¹
- Increased net interest income, excluding market-related adjustments
- Loans in primary lending segments grew 11% from 1Q15 ²
- Deposits increased 6% from 1Q15 to over \$1.2T
- Continued progress on key metrics across businesses
- Noninterest expense declined \$1.0B, or 6%, from 1Q15
- Asset quality remains strong
- Record capital and liquidity levels

¹ See note A on slide 28 for definition of market-related NII adjustments.

² Includes Consumer Banking, Global Wealth & Investment Management (GWIM), Global Banking and Global Markets. Total loans (including Legacy Assets & Servicing and All Other) grew 3% from 1Q15.

Business Results

¹ Global Markets net income included net debit valuation adjustments (DVA) of \$154MM and (\$401MM) in 1Q16 and 1Q15.

² ROAAC defined as return on average allocated capital.

Improved Cost Structure (\$B) ¹

- New BAC: Completed \$8B of annualized cost saves in 3Q14 ²
- Significant progress in reducing LAS expense (excl. litigation) ³
- Simplify & Improve (SIM): Driving a culture focused on sustainable operating leverage

¹ Noninterest expense excludes goodwill impairment of \$3.2B in 2011. Reported expenses were \$80.3B.

² Program announced in 3Q11.

³ Represents a non-GAAP financial measure. Reported LAS noninterest expense was \$4.4B for 2015 and \$17.1B in 2011.

Strengthened Balance Sheet and Reduced Risk

¹ 4Q09 reflects 12/31/09 information adjusted to include the 1/1/10 adoption of FAS 166/167 as reported in the company's SEC filings, which represents a non-GAAP financial measure.

² Represents a non-GAAP financial measure. Common equity ratio was 8.7% and 10.9% at 4Q09 and 1Q16. Book value per share was \$21.48 and \$23.12 at 4Q09 and 1Q16.

⁴ Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements beginning in the fourth quarter of 2015. With the approval to exit parallel run, Bank of America is now required to report regulatory capital RWA and ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is to be used to assess capital adequacy, and was the Advanced approaches at March 31, 2016 and December 31, 2015. Prior to exiting parallel run, we were required to report regulatory capital under the Standardized approach only.

⁵ Basel 3 fully phased-in Advanced approaches estimates assume approval by U.S. banking regulators of our internal analytical models, including approval of the internal models methodology (IMM). As of March 31, 2016, BAC did not have regulatory approval for the IMM model.

⁶ As previously disclosed, with the approval to exit parallel, U.S. banking regulators requested modifications to certain internal analytical models including the wholesale (e.g., commercial) credit models, which increased our risk-weighted assets under the Advanced approaches beginning in the fourth quarter of 2015.

⁷ See note E on slide 28.

Asset Quality Trends

Net Charge-offs (NCOs) and Adjusted Net Charge-offs (\$B) ¹

Provision for Credit Losses (\$B)

- Total reported and adjusted net charge-offs ¹ were relatively flat versus 4Q15
- Provision of \$1.0B increased \$0.2B from 4Q15, driven by lower net reserve release
 - 1Q16 increase in commercial reserves for Energy was offset by reserve releases in consumer

¹ Represents a non-GAAP financial measure. Adjusted net charge-offs exclude Department of Justice (DoJ) settlement impacts of \$9MM, \$28MM, \$53MM, \$166MM and \$230MM for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively, and recoveries / (charge-offs) from nonperforming loan (NPL) sales and other recoveries of (\$40MM), \$8MM, \$58MM, \$27MM and \$40MM for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively, and collateral valuation adjustments of \$119MM in 4Q15.

Asset Quality – Consumer Portfolio

Consumer Net Charge-offs (\$MM)

Consumer 30+ Days Performing Past Due (\$B) ¹

- Consumer net charge-offs decreased \$41MM compared to 4Q15, driven by the absence of certain items, primarily collateral valuation adjustments on consumer real estate (\$119MM), partially offset by charge-offs on NPL sales
- Consumer provision decreased \$92MM compared to 4Q15, due to continued improvement in portfolio trends
- Consumer NPLs declined \$918MM compared to 4Q15, driven by consumer real estate NPL sales
 - 38% of consumer nonperforming loans are current
- \$6.8B of allowance for consumer loans and leases provides 1.51% coverage of loans and leases
 - Allowance covers 1.83x current period annualized net charge-offs compared to 1.94x in 4Q15

Asset Quality – Commercial Portfolio

Commercial Net Charge-offs (\$MM)

Utilized Energy Exposure (\$B)

- Commercial net charge-offs decreased \$35MM from 4Q15, driven primarily by non-Energy clients
 - Energy net charge-offs of \$102MM increased \$17MM
- Allowance for loans and leases increased from 4Q15, driven by an increase in Energy reserves of \$0.5B to \$1.0B, due primarily to increased allowance coverage for the higher risk sub-sectors (E&P and OFS)
- Utilized Energy exposure increased \$0.5B from 4Q15, due primarily to increases in refining & marketing, partially offset by a decline in higher risk sub-sectors
 - Exposure of \$7.7B to higher risk sub-sectors declined 7% and represents <1% of total loans and leases
 - 56% of this utilized exposure is criticized
- Reservable criticized exposure increased from 4Q15, driven primarily by a \$1.6B increase in Energy and \$0.2B increase in Metals & Mining
- NPLs increased \$0.4B from 4Q15, driven by increases in Energy

² Represents a non-GAAP financial measure. Reported NII was \$9.2B, \$9.8B, \$9.5B, \$10.5B and \$9.4B for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively.

³ Excludes market-related NII adjustments of premium amortization and hedge ineffectiveness of (\$1.2B), \$0.1B, (\$0.6B), \$0.7B and (\$0.5B) for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively, as well as previously announced \$0.6B reduction for certain subordinated notes related to trust preferred securities recorded in 4Q15. See note A on slide 28 for definition of market-related NII adjustments.

⁴ NII asset sensitivity excludes the impact of trading-related activities.

- Net interest income (NII) on an FTE basis of \$9.4B, which included negative market-related NII adjustments of \$1.2B
 - 1Q15 included negative market-related NII adjustments of \$0.5B
 - 4Q15 included positive market-related adjustments of \$0.1B as well as a negative adjustment related to certain trust preferred securities of \$0.6B
- Excluding market-related and other adjustments ³, NII of \$10.6B increased slightly from 4Q15, driven primarily by higher short-end rates, seasonal leasing benefits as well as deposit and commercial loan growth, partially offset by lower long-end rates, a reduction of dividends paid on FRB stock, as well as one less interest accrual day
 - Adjusted net interest yield improved 5 bps to 2.31%
- We remain well positioned for NII to benefit as rates move higher
 - +100 bps parallel shift in interest rate yield curve is estimated to benefit NII by \$6.0B over the next 12 months ⁴
 - Asset sensitivity increased from prior quarter, driven primarily by decreases in long-end rates

Expense Highlights

Noninterest Expense (\$B)

Full-time Equivalent Employees (FTEs, 000's)

- Total noninterest expense of \$14.8B in 1Q16 declined \$1.0B, or 6%, from 1Q15, driven by lower revenue-related incentives, progress made on LAS costs and the expiration of fully amortized advisor retention awards
- First quarter expenses included the following compensation costs:
 - Annual retirement-eligible incentive costs of \$0.9B and \$1.0B in 1Q16 and 1Q15
 - Seasonally elevated payroll tax costs of \$0.3B in both 1Q16 and 1Q15
- LAS expense, excluding litigation¹, declined to \$0.7B in 1Q16
- FTE headcount was down 3% from 1Q15, as continued progress in LAS and other reductions in support staff and operations more than offset increases in client-facing professionals

Note: Amounts may not total due to rounding.

¹ Represents a non-GAAP financial measure. Reported LAS noninterest expense was \$0.9B, \$1.1B and \$1.2B for 1Q16, 4Q15 and 1Q15, respectively.

¹ Regulatory capital ratios are preliminary. For important presentation information, see slide 30.

² Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements beginning in the fourth quarter of 2015. With the approval to exit parallel run, Bank of America is now required to report regulatory capital RWA and ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is to be used to assess capital adequacy, and was the Advanced approaches at March 31, 2016 and December 31, 2015. Prior to exiting parallel run, we were required to report regulatory capital under the Standardized approach only.

³ Basel 3 fully phased-in Advanced approaches estimates assume approval by U.S. banking regulators of our internal analytical models, including approval of the IMM. As of March 31, 2016, BAC did not have regulatory approval for the IMM model.

⁴ As previously disclosed, with the approval to exit parallel, U.S. banking regulators requested modifications to certain internal analytical models including the wholesale (e.g., commercial) credit models, which increased our risk-weighted assets under the Advanced approaches beginning in the fourth quarter of 2015.

Notes

^A Market-related NII adjustments include retrospective changes to debt security premium or discount amortization resulting from changes in estimated prepayments, due primarily to changes in interest rates, and hedge ineffectiveness. Amortization of premiums and accretion of discounts are included in interest income. When a change is made to the estimated lives of the securities, primarily as a result of changes in interest rates, the related premium or discount is adjusted, with a corresponding charge or benefit to interest income, to the appropriate amount had the current estimated lives been applied since the purchase of the securities. For more information, see Note 1 – Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2015 Annual Report on Form 10-K.

^B VaR model uses historical simulation approach based on three years of historical data and an expected shortfall methodology equivalent to a 99% confidence level. Using a 95% confidence level, average VaR was \$23MM, \$22MM, \$24MM, \$23MM and \$30MM for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively.

^C Global Excess Liquidity Sources include cash and high-quality, liquid, unencumbered securities, limited to U.S. government securities, U.S. agency securities, U.S. agency MBS, and a select group of non-U.S. government and supranational securities, and are readily available to meet funding requirements as they arise. It does not include Federal Reserve Discount Window or Federal Home Loan Bank borrowing capacity. Transfers of liquidity from the bank or other regulated entities are subject to certain regulatory restrictions.

^D Time to Required Funding (TRF) is a debt coverage measure and is expressed as the number of months unsecured holding company obligations of Bank of America Corporation can be met using only the BAC parent company's Global Excess Liquidity Sources without issuing debt or sourcing additional liquidity. We define unsecured contractual obligations for purposes of this metric as maturities of senior or subordinated debt issued or guaranteed by Bank of America Corporation. For periods shown in 2015, we have included in the amount of unsecured contractual obligations the liability, including estimated costs, for the previously announced BNY Mellon private-label securitization settlement. In 1Q16, settlement payment was made for \$8.5B.

^E The numerator of the SLR is quarter-end Basel 3 Tier 1 capital. The denominator is total leverage exposure based on the daily average of the sum of on-balance sheet exposures less permitted Tier 1 deductions, as well as the simple average of certain off-balance sheet exposures, as of the end of each month in a quarter. Off-balance sheet exposures primarily include undrawn lending commitments, letters of credit, potential future derivative exposures and repo-style transactions. Differences between fully phased-in and transitional supplementary leverage exposures are immaterial.

^F Revenue for all periods included net DVA on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Net DVA gains (losses) were \$154MM, (\$198MM), \$12MM, (\$199MM) and (\$401MM) for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively. Net DVA gains (losses) included in FICC revenue were \$140MM, (\$190MM), \$18MM, (\$199MM) and (\$392MM) for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively. Net DVA gains (losses) included in equities revenue were \$14MM, (\$8MM), (\$6MM), \$0 and (\$9MM) for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively.

Forward-Looking Statements

Bank of America and its management may make certain statements that constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as “anticipates,” “targets,” “expects,” “hopes,” “estimates,” “intends,” “plans,” “goals,” “believes,” “continue” and other similar expressions or future or conditional verbs such as “will,” “may,” “might,” “should,” “would” and “could.” Forward-looking statements represent Bank of America's current expectations, plans or forecasts of its future results and revenues, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond Bank of America's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of Bank of America's 2015 Annual Report on Form 10-K, and in any of Bank of America's subsequent Securities and Exchange Commission filings: the Company's ability to resolve representations and warranties repurchase and related claims, including claims brought by investors or trustees seeking to distinguish certain aspects of the ACE Securities Corp. v. DB Structured Products, Inc. (ACE) decision or to assert other claims seeking to avoid the impact of the ACE decision; the possibility that the Company could face increased servicing, securities, fraud, indemnity, contribution or other claims from one or more counterparties, including trustees, purchasers of loans, underwriters, issuers, other parties involved in securitizations, monolines or private-label and other investors; the possibility that future representations and warranties losses may occur in excess of the Company's recorded liability and estimated range of possible loss for its representations and warranties exposures; the possibility that the Company may not collect mortgage insurance claims; potential claims, damages, penalties, fines and reputational damage resulting from pending or future litigation and regulatory proceedings, including the possibility that amounts may be in excess of the Company's recorded liability and estimated range of possible loss for litigation exposures; the possible outcome of LIBOR, other reference rate and foreign exchange inquiries and investigations; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Company's exposures to such risks, including direct, indirect and operational; the impact of U.S. and global interest rates, currency exchange rates and economic conditions; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior and other uncertainties; the impact on the Company's business, financial condition and results of operations of a potential higher interest rate environment; the impact on the Company's business, financial condition and results of operations from a protracted period of lower oil prices; adverse changes to the Company's credit ratings from the major credit rating agencies; estimates of the fair value of certain of the Company's assets and liabilities; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements, including the potential adoption of total loss-absorbing capacity requirements; the potential for payment protection insurance exposure to increase as a result of Financial Conduct Authority actions; the impact of recent proposed U.K. tax law changes including a further limitation on how much net operating losses can offset annual profits and a reduction to the U.K. corporate tax rate which, if enacted, will result in a tax charge upon enactment; the possible impact of Federal Reserve actions on the Company's capital plans; the possible impact of regulatory determinations regarding the Company's Recovery and Resolution plans; the impact of implementation and compliance with new and evolving U.S. and international regulations, including, but not limited to, recovery and resolution planning requirements, the Volcker Rule, and derivatives regulations; a failure in or breach of the Company's operational or security systems or infrastructure, or those of third parties, including as a result of cyber attacks; and other similar matters.

Forward-looking statements speak only as of the date they are made, and Bank of America undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Important Presentation Information

- The information contained herein is preliminary and based on Company data available at the time of the earnings presentation. It speaks only as of the particular date or dates included in the accompanying slides. Bank of America does not undertake an obligation to, and disclaims any duty to, update any of the information provided.
- Certain prior period amounts have been reclassified to conform to current period presentation. Beginning in the first quarter of 2016, the Corporation classifies operating leases in other assets on the Consolidated Balance Sheet. For December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015, \$6.0B, \$5.6B, \$5.3B and \$5.2B, respectively, of operating leases were reclassified from loans and leases to other assets to conform to this presentation. Additionally, amounts related to these leases were reclassified from net interest income to other income and other general operating expenses on the Consolidated Statement of Income.
- Certain financial measures contained herein represent non-GAAP financial measures. For more information about the non-GAAP financial measures contained herein, please see the presentation of the most directly comparable financial measures calculated in accordance with GAAP and accompanying reconciliations in the earnings press release for the quarter ended March 31, 2016 and other earnings-related information available through the Bank of America Investor Relations web site at: <http://investor.bankofamerica.com>.
- The Company views net interest income and related ratios and analyses on a fully taxable-equivalent (FTE) basis, which when presented on a consolidated basis, are non-GAAP financial measures. The Company believes managing the business with net interest income on an FTE basis provides a more accurate picture of the interest margin for comparative purposes. The FTE adjustment was \$215MM, \$226MM, \$226MM, \$223MM and \$215MM for 1Q16, 4Q15, 3Q15, 2Q15 and 1Q15, respectively.
- The Company's fully phased-in Basel 3 estimates and the supplementary leverage ratio are based on the Standardized and Advanced approaches under Basel 3 and supplementary leverage ratio final rules. Under the Basel 3 Advanced approaches, risk-weighted assets are determined primarily for market risk and credit risk, similar to the Standardized approach, but also incorporate operational risk and a credit valuation adjustment component. Market risk capital measurements are consistent with the Standardized approach, except for securitization exposures, where the Supervisory Formula Approach is also permitted. Credit risk exposures are measured using internal ratings-based models to determine the applicable risk weight by estimating the probability of default, loss given default and, in certain instances, exposure at default. The internal analytical models primarily rely on internal historical default and loss experience. The calculations under Basel 3 require management to make estimates, assumptions and interpretations, including the probability of future events based on historical experience. Actual results could differ from those estimates and assumptions. Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements beginning in the fourth quarter of 2015. As previously disclosed, with the approval to exit parallel, U.S. banking regulators requested modifications to certain internal analytical models including the wholesale (e.g., commercial) credit models, which increased our risk-weighted assets under the Advanced approaches beginning in the fourth quarter of 2015. These Basel 3 fully phased-in Advanced approaches estimates assume approval by U.S. banking regulators of our internal analytical models, including approval of the internal models methodology (IMM). As of March 31, 2016, BAC did not have regulatory approval for the IMM model. Our estimates under the Basel 3 Advanced approaches may be refined over time as a result of further rulemaking or clarification by U.S. banking regulators.
- The Company allocates capital to its business segments using a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. The Company's internal risk-based capital models use a risk-adjusted methodology incorporating each segment's credit, market, interest rate, business and operational risk components. Allocated capital is reviewed periodically and refinements are made based on multiple considerations that include, but are not limited to, risk-weighted assets measured under Basel 3 Standardized and Advanced approaches, business segment exposures and risk profile and strategic plans. As a result of this process, in the first quarter 2016, the Company adjusted the amount of capital being allocated to its business segments.

⁽¹⁾ Regulatory capital ratios are preliminary and reflect the transition provisions of Basel 3.

⁽²⁾ Bank of America received approval to begin using the Advanced approaches capital framework to determine risk-based capital requirements in the fourth quarter of 2015. With the approval to exit parallel run, Bank of America is required to report regulatory capital risk-weighted assets and ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is to be used to assess capital adequacy, and was the Advanced approaches at March 31, 2016 and December 31, 2015. Prior to exiting parallel run, we were required to report regulatory capital under the Standardized approach only.

⁽³⁾ The numerator of the supplementary leverage ratio and Tier 1 leverage ratio is quarter-end Basel 3 Tier 1 capital reflective of Basel 3 numerator transition provisions. The denominator of supplementary leverage exposure is total leverage exposure based on the daily average of the sum of on-balance sheet exposures less permitted Tier 1 deductions, as well as the simple average of certain off-balance sheet exposures, as of the end of each month in a quarter. Off-balance sheet exposures primarily include undrawn lending commitments, letters of credit, potential future derivative exposures and repo-style transactions.

⁽⁴⁾ Tangible equity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. Tangible common equity ratio equals period-end tangible common shareholders' equity divided by period-end tangible assets. Tangible shareholders' equity and tangible assets are non-GAAP financial measures. We believe the use of these non-GAAP financial measures provides additional clarity in assessing the results of the Corporation. Other companies may define or calculate non-GAAP financial measures differently. (See Exhibit A: Non-GAAP Reconciliations - Reconciliation to GAAP Financial Measures on page40-43.)

⁽¹⁾ Yields on debt securities excluding the impact of market-related adjustments were 2.45 percent, 2.47 percent and 2.54 percent for the three months ended March 31, 2016, December 31, 2015 and March 31, 2015, respectively. Yields on debt securities excluding the impact of market-related adjustments are a non-GAAP financial measure. The Corporation believes the use of this non-GAAP financial measure provides additional clarity in assessing its results.

⁽²⁾ Nonperforming loans are included in the respective average loan balances. Income on these nonperforming loans is generally recognized on a cost recovery basis. Purchased credit-impaired loans were recorded at fair value upon acquisition and accrete interest income over the remaining life of the loan.

⁽³⁾ Beginning in the first quarter of 2016, the Corporation classifies operating leases in other assets on the Consolidated Balance Sheet. For the three months ended December 31, 2015 and March 31, 2015, \$5.7 billion and \$5.2 billion of operating leases were reclassified from loans and leases to other assets to conform to this presentation. Additionally, amounts related to these leases were reclassified from net interest income to other income and other general operating expenses on the Consolidated Statement of Income.

⁽⁴⁾ The impact of interest rate risk management derivatives on interest income is presented below. Interest income includes the impact of interest rate risk management contracts, which increased (decreased) interest income on:

⁽¹⁾ The yield on long-term debt excluding the adjustment on certain trust preferred securities was 1.15 percent for the three months ended December 31, 2015. The yield on long-term debt excluding the adjustment is a non-GAAP financial measure. The Corporation believes the use of this non-GAAP financial measure provides additional clarity in assessing its results.

⁽²⁾ The impact of interest rate risk management derivatives on interest expense is presented below. Interest expense includes the impact of interest rate risk management contracts, which increased (decreased) interest expense on:

⁽¹⁾ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Allocated capital and the related return are non-GAAP financial measures. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in assessing the results of the segments. Other companies may define or calculate these measures differently. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on pages 40-43.)

⁽²⁾ Total earning assets and total assets include asset allocations to match liabilities (i.e., deposits) and allocated shareholders' equity.

(1) Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Allocated capital and the related return are non-GAAP financial measures. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in assessing the results of the segments. Other companies may define or calculate these measures differently. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on pages 40-43.)

(2) For presentation purposes, in segments or businesses where the total of liabilities and equity exceeds assets, the Corporation allocates assets from *Other* to match the segments' and businesses' liabilities and allocated shareholders' equity. As a result, total earning assets and total assets of the businesses may not equal total *Consumer Banking*.

⁽¹⁾ Investment banking fees represent total investment banking fees for Global Banking inclusive of self-led deals and fees included within Business Lending.

⁽²⁾ Advisory includes fees on debt and equity advisory and mergers and acquisitions.

⁽³⁾ Investment banking fees represent only the fee component in Global Banking and do not include certain less significant items shared with the Investment Banking Group under internal revenue sharing agreements.

⁽⁴⁾ Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories defined by regulatory authorities. The reservable criticized exposure is on an end-of-period basis and is also shown as a percentage of total commercial utilized reservable criticized exposure, including loans and leases, standby letters of credit, financial guarantees, commercial letters of credit and bankers' acceptances.

⁽⁵⁾ Nonperforming loans, leases and foreclosed properties are on an end-of-period basis. The nonperforming ratio is nonperforming assets divided by loans, leases and foreclosed properties.

Certain prior period amounts have been reclassified among the segments to conform to current period presentation.

⁽¹⁾ Substantially all of *Global Markets* total revenue is sales and trading revenue and investment banking fees, with a small portion related to certain revenue sharing agreements with other business segments. For additional sales and trading revenue information, see page 27.

⁽²⁾ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Allocated capital and the related return are non-GAAP financial measures. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in assessing the results of the segments. Other companies may define or calculate these measures differently. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on pages 40-43.)

⁽³⁾ Trading-related assets include derivative assets, which are considered non-earning assets.

⁽¹⁾ Represents the net change in fair value of the mortgage servicing rights asset due to the recognition of modeled cash flows.

⁽²⁾ These amounts reflect the changes in modeled mortgage servicing rights fair value primarily due to observed changes in interest rates, volatility, spreads and the shape of the forward swap curve and periodic adjustments to valuation based on third-party price discovery. In addition, these amounts reflect periodic adjustments to the valuation model to reflect changes in the modeled relationship between inputs and their impact on projected cash flows, changes in certain cash flow assumptions such as cost to service and ancillary income per loan and the impact of periodic recalibrations of the model to reflect changes in the relationship between market interest rate spreads and projected cash flows.

⁽³⁾ Does not include certain non-U.S. residential mortgage MSR balances, which are recorded in *Global Markets*.

⁽⁴⁾ Includes gains and losses on sales of mortgage servicing rights.

⁽⁵⁾ Consists primarily of revenue from sales of repurchased loans that had returned to performing status.

(1) Includes loans and leases, standby letters of credit and financial guarantees, derivative assets, assets held-for-sale, commercial letters of credit, bankers' acceptances, securitized assets, foreclosed properties and other collateral acquired. Derivative assets are carried at fair value, reflect the effects of legally enforceable master netting agreements and have been reduced by cash collateral of \$42.4 billion, \$41.9 billion and \$52.7 billion at March 31, 2016, December 31, 2015 and March 31, 2015, respectively. Not reflected in utilized and committed exposure is additional non-cash derivative collateral held of \$22.3 billion, \$23.3 billion and \$21.8 billion which consists primarily of other marketable securities at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

(2) Total utilized and total committed exposure includes loans and letters of credit accounted for under the fair value option and are comprised of loans outstanding of \$6.3 billion, \$5.1 billion and \$6.4 billion and issued letters of credit at notional value of \$303 million, \$290 million and \$469 million at March 31, 2016, December 31, 2015 and March 31, 2015, respectively. In addition, total committed exposure includes unfunded loan commitments at notional value of \$9.3 billion, \$10.6 billion and \$8.4 billion at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

(3) Includes U.S. small business commercial exposure.

(4) Industries are viewed from a variety of perspectives to best isolate the perceived risks. For purposes of this table, the real estate industry is defined based on the borrowers' or counterparties' primary business activity using operating cash flows and primary source of repayment as key factors.

⁽¹⁾ Includes loans, leases, and other extensions of credit and funds, including letters of credit and due from placements, which have not been reduced by collateral, hedges or credit default protection. Funded loans and loan equivalents are reported net of charge-offs but prior to any allowance for loan and lease losses.

⁽²⁾ Net counterparty exposure includes the fair value of derivatives, including the counterparty risk associated with credit default swaps, and secured financing transactions. Derivative exposures are presented net of \$1.3 billion in collateral, which is predominantly cash, pledged under legally enforceable master netting agreements. Secured financing transaction exposures are presented net of eligible cash or securities pledged as collateral. The notional amount of reverse repurchase transactions was \$84.1 billion. Counterparty exposure is not presented net of hedges or credit default protection.

⁽³⁾ Long securities exposures are netted on a single-name basis to, but not below, zero by short exposures and net credit default swaps purchased, consisting of single-name and net indexed and tranch credit default swaps.

⁽⁴⁾ Represents credit default protection purchased, net of credit default protection sold, which is used to mitigate the Corporation's risk to country exposures as listed, consisting of net single-name and net indexed and tranch credit default swaps. Amounts are calculated based on the credit default swaps notional amount assuming a zero recovery rate less any fair value receivable or payable.

⁽⁵⁾ Represents country exposure less hedges and credit default protection purchased, net of credit default protection sold.

⁽¹⁾ Foreclosed property balances do not include properties insured by certain government-guaranteed loans, principally FHA-insured loans, that entered foreclosure of \$1.4 billion, \$1.4 billion, \$1.3 billion, \$1.3 billion and \$1.2 billion at March 31, 2016, December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015, respectively.

⁽²⁾ Balances do not include past due consumer credit card, consumer loans secured by real estate where repayments are insured by the Federal Housing Administration and individually insured long-term stand-by agreements (fully-insured home loans), and in general, other consumer and commercial loans not secured by real estate.

⁽³⁾ Balances do not include purchased credit-impaired loans even though the customer may be contractually past due. Purchased credit-impaired loans were recorded at fair value upon acquisition and accrete interest income over the remaining life of the loan.

⁽⁵⁾ Balances do not include loans held-for-sale past due 30 days or more and still accruing of \$3 million, \$24 million, \$73 million, \$42 million and \$125 million at March 31, 2016, December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015, respectively, and loans held-for-sale past due 90 days or more and still accruing of \$0, \$0, \$0, \$0 and \$44 million at March 31, 2016, December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015, respectively. At March 31, 2016, December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015, there were \$120 million, \$127 million, \$142 million, \$141 million and \$132 million, respectively, of loans accounted for under the fair value option past due 30 days or more and still accruing interest.

⁽⁶⁾ These balances are excluded from total nonperforming loans, leases and foreclosed properties.

⁽⁷⁾ Total assets and total loans and leases do not include loans accounted for under the fair value option of \$8.2 billion, \$6.9 billion, \$7.2 billion, \$7.6 billion and \$8.5 billion at March 31, 2016, December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015, respectively.

⁽⁸⁾ Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories defined by regulatory authorities. The reservable criticized exposure excludes loans held-for-sale, exposure accounted for under the fair value option and other nonreservable exposure.

⁽¹⁾ For amounts excluded from nonperforming loans, leases and foreclosed properties, see footnotes to Nonperforming Loans, Leases and Foreclosed Properties table on page 36.

⁽²⁾ Consumer loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection. Certain troubled debt restructurings are classified as nonperforming at the time of restructuring and may only be returned to performing status after considering the borrower's sustained repayment performance for a reasonable period, generally six months.

⁽³⁾ Our policy is not to classify consumer credit card and non-bankruptcy related consumer loans not secured by real estate as nonperforming; therefore, the charge-offs on these loans have no impact on nonperforming activity and, accordingly, are excluded from this table.

⁽⁴⁾ Includes U.S. small business commercial activity. Small business card loans are excluded as they are not classified as nonperforming.

⁽⁵⁾ Commercial loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection. Troubled debt restructurings are generally classified as performing after a sustained period of demonstrated payment performance.

⁽¹⁾ Ratios are calculated as allowance for loan and lease losses as a percentage of loans and leases outstanding excluding loans accounted for under the fair value option. Consumer loans accounted for under the fair value option included residential mortgage loans of \$1.6 billion, \$1.6 billion and \$1.9 billion and home equity loans of \$348 million, \$250 million and \$205 million at March 31, 2016, December 31, 2015 and March 31, 2015, respectively. Commercial loans accounted for under the fair value option included U.S. commercial loans of \$2.6 billion, \$2.3 billion and \$2.0 billion and non-U.S. commercial loans of \$3.7 billion, \$2.8 billion and \$4.5 billion at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

⁽²⁾ Total loans and leases do not include loans accounted for under the fair value option of \$8.2 billion, \$6.9 billion and \$8.5 billion at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

⁽³⁾ Includes allowance for loan and lease losses for U.S. small business commercial loans of \$480 million, \$507 million and \$533 million at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

⁽⁴⁾ Includes allowance for loan and lease losses for impaired commercial loans of \$285 million, \$217 million and \$155 million at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

⁽⁵⁾ Excludes valuation allowance on purchased credit-impaired loans of \$622 million, \$804 million and \$1.3 billion at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

⁽⁶⁾ Allowance for loan and lease losses includes \$4.1 billion, \$4.5 billion and \$5.5 billion allocated to products (primarily the Consumer Lending portfolios within *Consumer Banking* and purchased credit-impaired loans) that are excluded from nonperforming loans and leases at March 31, 2016, December 31, 2015 and March 31, 2015, respectively. Excluding these amounts, allowance for loan and lease losses as a percentage of total nonperforming loans and leases was 90 percent, 82 percent and 73 percent at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

⁽⁷⁾ Net charge-offs exclude \$105 million, \$82 million and \$288 million of write-offs in the purchased credit-impaired loan portfolio of \$1.3 billion at March 31, 2016, December 31, 2015 and March 31, 2015, respectively.

Exhibit A: Non-GAAP Reconciliations

Bank of America Corporation and Subsidiaries

Reconciliations to GAAP Financial Measures

(Dollars in millions)

The Corporation evaluates its business based on a fully taxable-equivalent basis, a non-GAAP financial measure. The Corporation believes managing the business with net interest income on a fully taxable-equivalent basis provides a more accurate picture of the interest margin for comparative purposes. Total revenue, net of interest expense, includes net interest income on a fully taxable-equivalent basis and noninterest income. The Corporation views related ratios and analyses (i.e., efficiency ratios and net interest yield) on a fully taxable-equivalent basis. To derive the fully taxable-equivalent basis, net interest income is adjusted to reflect tax-exempt income on an equivalent before-tax basis with a corresponding increase in income tax expense. For purposes of this calculation, the Corporation uses the federal statutory tax rate of 35 percent. This measure ensures comparability of net interest income arising from taxable and tax-exempt sources. The efficiency ratio measures the costs expended to generate a dollar of revenue, and net interest yield measures the basis points the Corporation earns over the cost of funds.

The Corporation also evaluates its business based on the following ratios that utilize tangible equity, a non-GAAP financial measure. Tangible equity represents an adjusted shareholders' equity or common shareholders' equity amount which has been reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible common shareholders' equity measures the Corporation's earnings contribution as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible shareholders' equity measures the Corporation's earnings contribution as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding. These measures are used to evaluate the Corporation's use of equity. In addition, profitability, relationship and investment models all use return on average tangible shareholders' equity as key measures to support our overall growth goals.

In addition, the Corporation periodically reviews capital allocated to its businesses and allocates capital annually during the strategic and capital planning processes. We utilize a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. The Corporation's internal risk-based capital models use a risk-adjusted methodology incorporating each segment's credit, market, interest rate, business and operational risk components. Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Allocated capital and the related return both represent non-GAAP financial measures. Allocated capital is reviewed periodically and refinements are made based on multiple considerations that include, but are not limited to, risk-weighted assets measured under Basel 3 Standardized and Advanced approaches, business segment exposures and risk profile, and strategic plans. As part of this process, in 2016, the Corporation adjusted the amount of capital being allocated to its business segments.

See the tables below and on pages 41-43 for reconciliations of these non-GAAP financial measures to financial measures defined by GAAP for the three months ended March 31, 2016, December 31, 2015, September 30, 2015, June 30, 2015 and March 31, 2015. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in assessing the results of the Corporation. Other companies may define or calculate supplemental financial data differently.
