Bank of America Corporation (the "Corporation") and its management may make certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "hopes," "estimates," "intends," "plans," "goals," "believes," "continue" and other similar expressions or future or conditional verbs such as "will," "may," "might," "should," "would" and "could." Forward-looking statements represent the Corporation's current expectations, plans or forecasts of its future results, revenues, expenses, efficiency ratio, capital measures, strategy, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Corporation's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of our 2019 Annual Report on Form 10-K and in any of the Corporation's subsequent Securities and Exchange Commission filings: the Corporation's potential judgments, claims, damages, penalties, fines and reputational damage resulting from pending or future litigation and regulatory and government actions, including as a result of our participation in and execution of government programs related to the COVID-19 pandemic; the possibility that the Corporation's future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, regulatory, and representations and warranties exposures; the possibility that the Corporation could face increased servicing, fraud, indemnity, contribution or other claims from one or more counterparties, including trustees, purchasers of loans, underwriters, issuers, monolines, private-label and other investors, or other parties involved in securitizations: the Corporation's ability to resolve representations and warranties repurchase and related claims, including claims brought by investors or trustees seeking to avoid the statute of limitations for repurchase claims; the risks related to the discontinuation of the London InterBank Offered Rate and other reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Corporation's exposures to such risks, including direct, indirect and operational; the impact of U.S. and global interest rates, inflation, currency exchange rates, economic conditions, trade policies and tensions, including tariffs, and potential geopolitical instability: the impact of the interest rate environment on the Corporation's business, financial condition and

results of operations; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties; the Corporation's ability to achieve its expense targets and expectations regarding net interest income, provision for credit losses, net chargeoffs, effective tax rate, loan growth or other projections; adverse changes to the Corporation's credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Corporation's assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements and/or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Corporation's capital plans; the effect of regulations, other guidance or additional information on the impact from the Tax Cuts and Jobs Act; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including, but not limited to, recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards, derivatives regulations and the Coronavirus Aid, Relief, and Economic Security Act and any similar or related rules and regulations; a failure or disruption in or breach of the Corporation's operational or security systems or infrastructure, or those of third parties, including as a result of cyber attacks or campaigns; the impact on the Corporation's business, financial condition and results of operations from the United Kingdom's exit from the European Union; the impact of any future federal government shutdown and uncertainty regarding the federal government's debt limit; the emergence of widespread health emergencies or pandemics, including the magnitude and duration of the COVID-19 pandemic and its impact on the U.S. and/or global economy, financial market conditions and our business, results of operations and financial condition; the impact of natural disasters, military conflict, terrorism or other geopolitical events; and other matters

Forward-looking statements speak only as of the date they are made, and the Corporation undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Notes to the Consolidated Financial Statements referred to in Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) are incorporated by reference into the MD&A. Certain prior-period amounts have been reclassified to conform to current-period presentation. Throughout the MD&A, the Corporation uses certain acronyms and abbreviations which are defined in the Glossary.

Executive Summary

Business Overview

The Corporation is a Delaware corporation, a bank holding company (BHC) and a financial holding company. When used in this report, "the Corporation," "we," "us" and "our" may refer to Bank of America Corporation individually, Bank of America Corporation and its subsidiaries, or certain of Bank of America Corporation's subsidiaries or affiliates. Our principal executive offices are located in Charlotte, North Carolina. Through our banking and various nonbank subsidiaries throughout the U.S. and in international markets, we provide a diversified range of banking and nonbank financial services and products through four business segments: Consumer Banking, Global Wealth & Investment Management (GWIM), Global Banking and Global Markets, with the remaining operations recorded in All Other. We operate our banking activities primarily under the Bank of America, National Association (Bank of America, N.A. or BANA) charter. At March 31, 2020, the Corporation had \$2.6 trillion in assets and a headcount of approximately 209,000 employees.

As of March 31, 2020, we served clients through operations across the U.S., its territories and approximately 35 countries. Our retail banking footprint covers approximately 90 percent of the U.S. population, and we serve approximately66 million consumer and small business clients with approximately4,300 retail financial centers, approximately 16,900 ATMs, and leading digital banking platforms (www.bankofamerica.com) with more than 39 million active users, including approximately 30 million active mobile users. We offer industry-leading support to approximately three million small business owners. Our wealth management businesses, with client balances of \$2.7 trillion, provide tailored solutions to meet client needs through a full set of investment management, brokerage, banking, trust and retirement products. We are a global leader in corporate and investment banking and trading across a broad range of asset classes serving corporations, governments, institutions and individuals around the world.

Recent Developments

Capital Management

During the first quarter of 2020, we repurchased\$6.4 billion of common stock pursuant to the Board of Directors' (the Board) repurchase authorization under our 2019 Comprehensive Capital Analysis and Review (CCAR) plan, including repurchases to offset equity-based compensation awards.

As announced on March 15, 2020, due to the impact of the Coronavirus Disease 2019 (COVID-19) pandemic on the global economy, we temporarily suspended common stock repurchases from the date of the announcement through the end of the second quarter of 2020. We made this decision to enable us to provide maximum support to our customers and the broader economy through lending and other services. The suspension does not include repurchases to offset shares issued under equity compensation plans. As a well-capitalized financial institution, we may reinstate our repurchase program at such time as our Board deems advisable, taking into account economic conditions and other considerations. For more information on our capital resources, see Capital Management on page 18.

COVID-19 Pandemic 2020

In the first quarter of 2020, the World Health Organization declared the outbreak of COVID-19 a pandemic. The COVID-19 pandemic has resulted in authorities implementing numerous measures attempting to contain the spread and impact of COVID-19, such

as travel bans and restrictions, quarantines, shelter-in-place orders and limitations on business activity, including closures. These measures are, among other things, severely restricting global economic activity, which is disrupting global supply chains, lowering asset valuations, significantly increasing unemployment and underemployment levels, decreasing liquidity in markets for certain securities and causing significant volatility and disruptions in the financial, energy and commodity markets. These measures have also negatively impacted, and could continue to negatively impact businesses, market participants, our counterparties and clients, and the U.S. and/or global economy for a prolonged period of time.

To address the economic impact in the U.S., in March and April 2020, the President signed into law four economic stimulus packages to provide relief to businesses and individuals, including the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Among other measures, the CARES Act created funding for the Small Business Administration (SBA) Paycheck Protection Program (PPP), which provides loans to small businesses to keep their employees on payroll and make other eligible payments. The original funding for the PPP was fully allocated by mid-April 2020, with additional funding made available on April 24, 2020 under the Paycheck Protection Program and Health Care Enhancement Act

On April 9, 2020, the Board of Governors of the Federal Reserve System (Federal Reserve) took additional steps to bolster the economy by providing additional funding sources for small and mid-sized businesses as well as for state and local governments as they work through cash flow stresses caused by the COVID-19 pandemic. Additionally, the Federal Reserve has taken other steps to provide fiscal and monetary stimuli, including reducing the federal funds rate and the interest rate on the Federal Reserve's discount window, and implementing programs to promote liquidity in certain securities markets. The Federal Reserve, along with other U.S. banking regulators, has also issued interagency guidance to financial institutions that are working with borrowers affected by COVID-19.

In response to the pandemic, we have implemented protocols and processes to help protect our employees, community partners and clients. These measures include:

- •Operating our businesses from remote locations, leveraging our business continuity plans and capabilities that include having the majority of employees work from home, and other employees operating using pre-planned contingency strategies for critical site-based operations. These capabilities have allowed us to continue to service our clients. We will continue to manage the increased operational risk related to the execution of our business continuity plans in accordance with our Risk Framework and Operational Risk Management Program.
- Offering assistance to our commercial, consumer and small business clients affected by the COVID-19 pandemic, which includes payment deferrals, refunds of certain fees, pausing foreclosure sales, evictions and repossessions, participation in the CARES Act and Federal Reserve lending programs for businesses, including the SBA PPP, and continuing opprovide access to the important financial services on which our clients rely. For more information, see Credit Risk Management on page 25 and Note 1 Summary of Significant Accounting Principles to the Consolidated Financial Statements.
- Temporarily suspending common stock repurchases, except those offsetting shares issued under equity compensation plans, to maximize capital and liquidity resources. For more

information, see Capital Management on page 18, and Liquidity Risk on page

•Pledging \$100 million to local communities to purchase medical supplies, food and other priorities.

In connection with reviewing our financial condition in light of the pandemic, we evaluated our assets, including goodwill and other intangibles and equity investments, for potential impairment, and reviewed fair values of financial instruments that are carried at fair value. Based upon our review as of March 31, 2020, no impairments have been recorded and there have been no significant changes in fair value hierarchy classifications. We have also elected to delay for two years the phase-in of the capital impact from our adoption of the new accounting standard on credit losses. For more information, see Capital Management on page 18.

The Corporation has implemented various consumer and commercial loan modification programs to provide its borrowers

relief from the economic impacts of COVID-19. Based on guidance

in the CARES Act that the Corporation adopted, COVID-19 related modifications to consumer and commercial loans that were current as of December 31, 2019 are exempt from troubled debt

restructuring (TDR) classification under accounting principles generally accepted in the United States of America (GAAP). In addition, the bank regulatory agencies interagency guidance stating that COVID-19 related short-term modifications (i.e., six months or less) granted to consumer or commercial loans that were current as of the loan modification program implementation date are not TDRs. For more information, see Note 1 - Summary of Significant Accounting Principles and Note 5 - Outstanding Loans and Leases and Allowance for Credit Losses to the Consolidated Financial Statements.

The table below provides a summary of the percentage of our loans and loan balances that we have modified in response to COVID-19 under payment deferral or forbearance programs, none of which are classified as TDRs.

Table 1 Client Loan Modifications

	April 27	7, 2020	
	% of Accounts with Completed Modifications	% of Balances with Completed Modifications	Program Details
Consumer and Small Business Credit Card	4 %	8 %	Deferral of up to 90 days for Consumer and Small Business; interest continues to accrue and is added to principal balance each month
Small Business loans and lines of credit	19	41	Deferral of 90 days; for loans, interest continues to accrue and deferred payment is added to end of loan; for lines, interest continues to accrue and is added to principal balance when deferral ends
Mortgage and home equity lines of credit (1)	5	7	Deferral of 90 days; interest continues to accrue and deferred payment is added to end of loan
Consumer vehicle lending (2)	5	6	Deferral of 60 days for Consumer; deferral of 90 days for Small Business; interest continues to accrue and deferred payment is added to end of loan
Commercial loans (3)	3	1	Primarily deferral of up to 90 days; interest continues to accrue with various repayment options; may include short-term covenant waivers
Total	4 %	4 %	

- (1) Mortgage and home equity lines of credit includes loans that are held for investment (owned by Bank of America)
- (2) Vehicle lending includes both consumer and small
- business.

 (3) Statistics represent clients who have been given temporary deferment of principal and/or interest for a defined period of

Given the unprecedented uncertainty and rapidly evolving economic effects and social impacts of the COVID-19 pandemic, the future direct and indirect impact on our business, results of operations and financial condition are highly uncertain. Should current economic conditions persist or continue to deteriorate, we expect that this macroeconomic environment will have a continued adverse effect on our business and results of operations, which could include, but not be limited to: decreased demand for our products and services, protracted periods of lower interest rates, lower asset management fees, lower sales and trading revenue due to decreased market liquidity resulting from heightened volatility, increased noninterest expenses, including operational losses, and increased credit losses due to deterioration in the financial condition of our consumer and commercial borrowers, including declining asset and collateral values, which may continue to increase our provision for credit losses and net charge-offs. Our provision for credit losses and net charge-offs could also be impacted by continued volatility in the energy and commodity markets. For more information on how the risks related to COVID-19 may adversely affect our business, results of operations and financial condition, see Part II, Item 1A. Risk Factors on page 96.

LIBOR and Other Benchmark Rates

As previously disclosed, to facilitate an orderly transition from Interbank Offered Rates (IBORs) and other benchmark rates to

alternative reference rates (ARRs), the Corporation has established an enterprisewide program to identify, assess and monitor risks associated with the expected discontinuation or unavailability of benchmarks, including the London InterBank Offered Rate (LIBOR). As part of this program, the Corporation continues to identify, assess and monitor risks associated with the expected discontinuation or unavailability of LIBOR and other benchmarks, and evaluate and address documentation and contractual mechanics of outstanding IBOR-based products and contracts that mature after 2021 and new and potential future ARR-based products and contracts to achieve operational readiness. This program, which is led by the Corporation's Chief Operating Officer, includes active involvement of senior management and regular reports to the Enterprise Risk Committee. The program is structured to address the Corporation's industry and regulatory engagement, client and financial contract changes, internal and external communications, technology and operations modifications, introduction of new products, migration of existing clients, and program strategy and governance. As the markets for ARRs continue to grow, the Corporation continues to monitor the development and usage of ARRs, including the Secured Overnight Financing Rate. Additionally, any prolonged economic and market disruptions resulting from COVID-19 may have an adverse impact on the market and industry transition to ARRs, including the readiness of other market participants and third-party vendors, and the

Corporation's engagement with impacted clients and their operational readiness to transition to ARRs. For more information on the expected replacement of LIBOR and other benchmark rates, see Executive Summary - Recent Developments - LIBOR and Other

Benchmark Rates in the MD&A and Item 1A. Risk Factors - Other of the Corporation's 2019 Annual Report on Form 10-K. For more information about the Corporation's risks related to the COVID-19 pandemic, see Part II, Item 1A. Risk Factors on page 96.

Financial Highlights

Effective January 1, 2020, we adopted the new accounting standard on current expected credit losses (CECL), under which the allowance is measured based on management's best estimate of lifetime expected credit losses. Prior periods presented reflect measurement of the allowance based on management's estimate of probable incurred credit losses. For more information, see *Note 1 – Summary of Significant Accounting Principles* to the Consolidated Financial Statements.

Total liabilities		2,355,036		2,169,269
Total common shareholders' equity		241,491		241,409
Total shareholders' equity		264,918		264,810

⁽¹⁾ For definitions, see Key Metrics on page

Net income was \$4.0 billion, or \$0.40 per diluted share, for thethree months ended March 31, 2020 compared to \$7.3 billion, or \$0.70 per diluted share, for the same period in 2019. The decline in net income was largely due to an increase in the provision for credit losses primarily due to the deteriorating economic outlook related to COVID-19, and to a lesser extent, an increase in noninterest expense and lower revenue.

Total assets increased \$185.9 billion from December 31, 2019 to \$2.6 trillion primarily driven by higher cash and cash equivalents due to elevated deposit balances, an increase in loans and leases due to commercial credit line draws as clients secure liquidity under current market conditions, and residential mortgage loan growth, and an increase in federal funds sold and securities borrowed or purchased under agreements to resell as a result of

elevated deposit balances being deployed to short-term investments.

Total liabilities increased \$185.8 billion from December 31, 2019 to \$2.4 trillion primarily driven by higher deposits as a result of client responses to market volatility as well as tax refund inflows, an increase in derivative liabilities driven by lower interest rates, and an increase in long-term debt due to debt issuances and a debt basis adjustment primarily due to lower interest rates.

Shareholders' equity increased \$108 million from December 31, 2019 primarily due to market value increases on debt securities and net income, partially offset by returns of capital to shareholders through common stock repurchases and common and preferred stock dividends as well as the impact of the adoption of the new credit loss accounting standard.

^{20.2} Return on average tangible common shareholders' equity is a non-GAAP financial measure. For more information and a corresponding reconciliation to the most closely related financial measures defined by accounting principles generally accepted in the United States of America, see Non-GAAP Reconciliations on page 45.

Net Interest Income

Net interest income decreased \$245 million to \$12.1 billion for the three months ended March 31, 2020 compared to the same period in 2019. Net interest yield on a fully taxable-equivalent (FTE) basis decreased 18 basis points (bps) to 2.33 percent. The decrease in net interest income was primarily driven by lower interest rates, partially offset by one additional day of interest accruals and loan and deposit growth. Based on the forward interest rate curve and other relevant assumptions at March 31, 2020, we expect net interest income of approximately \$11 billion in the second quarter of 2020 which should begin to stabilize in the second half of 2020, assuming year-over-year average loan and deposit percentage growth in the mid-single digits across our businesses that would mitigate the impacts of longer-term asset repricing. For more information on net interest yield and the FTE basis, see Supplemental Financial Data on page 7, and for more information on interest rate risk management, see Interest Rate Risk Management for the Banking Book on page 41.

Noninterest Income

Table 3 Noninterest Income

	т	hree Months Ende	d March 31
(Dollars in millions)		2020	2019
Fees and commissions:			
Card income	\$	1,272 \$	1,375
Service charges		1,903	1,839
Investment and brokerage services		3,758	3,360
Investment banking fees		1,388	1,264
Total fees and commissions		8,321	7,838
Market making and similar activities		2,807	2,768
Other income		(491)	23
Total noninterest income	\$	10,637 \$	10,629

Noninterest income was relatively unchanged at\$10.6 billion for the three months ended March 31, 2020 compared to the same period in 2019. The following highlights the significant changes in the components of noninterest income.

- Card income decreased \$103 million primarily driven by higher points and rewards expense.
- Investment and brokerage services income increased \$398 million primarily
 driven by higher market valuations, positive assets under management (AUM)
 flows and transactional revenue, partially offset by declines in AUM pricing.
- Investment banking fees increased \$124 million due to higher debt and equity underwriting fees.
- Other income decreased \$514 million primarily due to unrealized losses in the fair value option and leveraged finance portfolios, partially offset by higher gains on sales of debt securities.

Provision for Credit Losses

The provision for credit losses increased \$3.7 billion to \$4.8 billion for the three months ended March 31, 2020 compared to the same period in 2019, primarily due to a deteriorating economic outlook related to COVID-19. For more information on the provision for credit losses, see Allowance for Credit Losses on page 38.

Noninterest Expense

Table 4 Noninterest Expense

	т	March 31		
(Dollars in millions)		2020		2019
Compensation and benefits	\$	8,341	\$	8,249
Occupancy and equipment		1,702		1,605
Information processing and communications		1,209		1,164
Product delivery and transaction related		777		662
Marketing		438		442
Professional fees		375		360
Other general operating		633		742
Total noninterest expense	\$	13,475	\$	13,224

Noninterest expense increased \$251 million to \$13.5 billion for the three months ended March 31, 2020 compared to the same period in 2019. The increase was primarily due to investments across the franchise including in client-facing associates, employee compensation programs, technology and real estate, and an increase in revenue-related expenses, which were partially offset by efficiency savings.

Income Tax Expense

Table 5 Income Tax Expense

		March 31				
(Dollars in millions)		2020	2019			
Income before income taxes	\$	4,531	\$	8,767		
Income tax expense		521		1,456		
Effective tax rate		11.5%		16.6 %		

The effective tax rates for the three months ended March 31, 2020 and 2019 were primarily driven by our recurring tax preference benefits and tax benefits from deductions associated with share-based compensation. The decline in the effective tax rate resulted from lower pretax income. We expect the effective tax rate for full-year 2020 to be approximately 14 to 15 percent, absent unusual items.

Supplemental Financial Data

Non-GAAP Financial Measures

In this Form 10-Q, we present certain non-GAAP financial measures. Non-GAAP financial measures exclude certain items or otherwise include components that differ from the most directly comparable measures calculated in accordance with GAAP. Non-GAAP financial measures are provided as additional useful information to assess our financial condition, results of operations (including period-to-period operating performance) or compliance with prospective regulatory requirements. These non-GAAP financial measures are not intended as a substitute for GAAP financial measures and may not be defined or calculated the same way as non-GAAP financial measures used by other companies.

We view net interest income and related ratios and analyses on an FTE basis, which when presented on a consolidated basis are non-GAAP financial measures. To derive the FTE basis, net interest income is adjusted to reflect tax-exempt income on an equivalent before-tax basis with a corresponding increase in income tax expense. For purposes of this calculation, we use the federal statutory tax rate of 21 percent and a representative state tax rate. Net interest yield, which measures the basis points we earn over the cost of funds, utilizes net interest income on an FTE basis. We believe that presentation of these items on an FTE basis allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices.

We may present certain key performance indicators and ratios excluding certain items (e.g., debit valuation adjustment (DVA) gains (losses)) which result in non-GAAP financial measures. We believe that the presentation of measures that exclude these items is useful because such measures provide additional information to assess the underlying operational performance and trends of our businesses and to allow better comparison of period-to-period operating performance.

We also evaluate our business based on certain ratios that utilize tangible equity, a non-GAAP financial measure. Tangible equity represents shareholders' equity or common shareholders' equity reduced by goodwill and intangible assets (excluding mortgage servicing rights (MSRs)), net of related deferred tax liabilities ("adjusted" shareholders' equity or common shareholders' equity). These measures are used to evaluate our use of equity. In addition, profitability, relationship and investment models use both return on average tangible common shareholders' equity and return on average tangible shareholders'

equity as key measures to support our overall growth goals. These ratios are as

- Return on average tangible common shareholders' equity measures our net income applicable to common shareholders as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total tangible assets.
- Return on average tangible shareholders' equity measures our net income as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total tangible
- Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding.

We believe that the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. Tangible book value per common share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock.

The aforementioned supplemental data and performance measures are presented in Tables 6 and 7.

For more information on the reconciliation of these non-GAAP financial measures to the corresponding GAAP financial measures, see Non-GAAP Reconciliations on page 45.

Key Performance Indicators

We present certain key financial and nonfinancial performance indicators (key performance indicators) that management uses when assessing our consolidated and/or segment results. We believe they are useful to investors because they provide additional information about our underlying operational performance and trends. These key performance indicators (KPIs) may not be defined or calculated in the same way as similar KPIs used by other companies. For information on how these metrics are defined, see Key Metrics on page 95.

Our consolidated key performance indicators, which include various equity and credit metrics, are presented in Table 2 on page 5 and/or Table 6 on page 8.

For information on key segment performance metrics, see Business Segment Operations on page 10.

(2) Nonperforming loans are included in the respective average loan balances. Income on these nonperforming loans is generally recognized on a cost recovery

basis.
(3) Includes non-U.S. consumer loans of \$2.9 billion and \$2.8 billion for the first quarter of 2020 and

<sup>2019.

(4)</sup> Includes U.S. commercial real estate loans of \$59.6 billion and \$56.4 billion, and non-U.S. commercial real estate loans of \$3.8 billion and \$4.5 billion for the first quarter of 2020 and

^{2019. (5)} Includes \$35.7 billion and \$31.4 billion of structured notes and liabilities for the first quarter of 2020 and

<sup>2019.

(6)</sup> Net interest income includes FTE adjustments of\$144 million and \$153 million for the first quarter of 2020 and 2019.

Business Segment Operations

Segment Description and Basis of Presentation

We report our results of operations through the following four business segments: Consumer Banking, GWIM, Global Bankinga n d Global Markets, with the remaining operations recorded in All Other. We manage our segments and report their results on an FTE basis. For more information, see Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K

We periodically review capital allocated to our businesses and allocate capital annually during the strategic and capital planning processes. We utilize a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. Our internal risk-based capital models use a risk-adjusted methodology incorporating each segment's credit, market, interest rate, business and operational risk components. For more information on the nature of these risks, see Managing Risk on page 18. The capital allocated to the business segments

is referred to as allocated capital. Allocated equity in the reporting units is comprised of allocated capital plus capital for the portion of goodwill and intangibles specifically assigned to the reporting unit. For more information, see *Note 7 – Goodwill and Intangible Assets* to the Consolidated Financial Statements.

For more information on our presentation of financial information on an FTE basis, see Supplemental Financial Data on page 7, and for reconciliations to consolidated total revenue, net income and period-end total assets, see *Note 17 – Business Segment Information* to the Consolidated Financial Statements.

Key Performance Indicators

We present certain key financial and nonfinancial performance indicators that management uses when evaluating segment results. We believe they are useful to investors because they provide additional information about our segments' operational performance, customer trends and business growth.

Consumer Banking, which is comprised of Deposits and Consumer Lending, offers a diversified range of credit, banking and investment products and services to consumers and small businesses. For more information about Consumer Banking, including our Deposits and Consumer Lending businesses, see

Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

Consumer Banking Results

Net income for Consumer Banking decreased \$1.4 billion to \$1.8 billion for the three months ended March 31, 2020 compared to

Only.

(2) In segments and businesses where the total of liabilities and equity exceeds assets, we allocate assets from (2) In segments and businesses' liabilities and allocated shareholders' equity. As a result, total earning assets and total assets of the businesses may not equal total Consumer Banking.

the same period in 2019 primarily due to an increase in the provision for credit losses and lower revenue.

Net interest income decreased \$244 million to \$6.9 billion primarily due to lower interest rates partially offset by higher deposit and loan balances in the quarter. Noninterest income decreased \$259 million to \$2.3 billion driven by lower other income due to the allocation of asset and liability management (ALM) results and a decline in card income.

The provision for credit losses increased \$1.3 billion to \$2.3 billion primarily due to the impact of COVID-19. Noninterest expense increased \$128 million to \$4.5 billion primarily driven by the cost of increased client activity and continued investments for business growth, partially offset by improved productivity and lower support costs

The return on average allocated capital was 19 percent, down from 36 percent, driven by lower net income and, to a lesser extent, an increase in allocated capital. For information on capital allocated to the business segments, see Business Segment Operations on page 10.

Deposits

Net income for Deposits decreased \$498 million to \$1.7 billion driven by lower net interest income and noninterest income. Net interest income declined \$359 million to \$3.9 billion primarily due to lower interest rates, partially offset by growth in deposits. Noninterest income decreased \$161 million to \$1.1 billion primarily driven by lower other income due to the allocation of ALM results and lower service charges.

The provision for credit losses increased \$69 million to \$115 million primarily due to the impact of COVID-19. Noninterest expense increased \$70 million to \$2.7 billion driven by continued investments in the business, partially offset by operating efficiencies

Average deposits increased \$39.0 billion to \$731.3 billion driven by strong organic growth. Growth in checking and time deposits of \$36.3 billion was coupled with growth in traditional savings and money market savings of \$2.6 billion.

The following table provides key performance indicators for Deposits. Management uses these metrics, and we believe they are useful to investors because they provide additional information to evaluate our deposit profitability and mobile/digital trends.

Key Statistics - Deposits

	Three Months Ended March 31								
		2020	2019						
Total deposit spreads (excludes noninterest costs) (1)		2.17 %		2.38 %					
Period End									
Consumer investment assets (in millions) (2)	\$	212,227	\$	210,930					
Active digital banking users (units in thousands) (3)		39,075		37,034					
Active mobile banking users (units in thousands) (4)		29,820		27,127					
Financial centers		4,297		4,353					
ATMs		16,855		16,378					

- Includes deposits held in Consumer Lending.
- (2) Includes client brokerage assets, deposit sweep balances and AUM in Consumer Banking
- (3) Active digital banking users represents mobile and/or online users over the last three
- (4) Active mobile banking users represents mobile users over the last three

Consumer investment assets increased \$1.3 billion driven by client flows offset by market performance. Active mobile banking users increased three million reflecting continuing changes in our customers' banking preferences. The number of financial centers declined by a net 56 reflecting changes in customer preferences

to self-service options as we continue to optimize our consumer banking network and improve our cost to serve.

Consumer Lending

Net income for Consumer Lending decreased \$948 million to \$139 million primarily due to an increase in the provision for credit losses. Revenue of \$4.1 billion was relatively unchanged.

Net interest income increased \$115 million to \$2.9 billion driven by loan growth. Noninterest income decreased \$98 million to \$1.2 billion primarily driven by lower card income.

The provision for credit losses increased \$1.2 billion to \$2.1 billion primarily due to the impact of COVID-19. Noninterest expense increased \$58 million to \$1.8 billion primarily driven by investments in the business.

Average loans increased \$24.6 billion to \$311.5 billion primarily driven by an increase in residential mortgages.

The following table provides key performance indicators for Consumer Lending. Management uses these metrics, and we believe they are useful to investors because they provide additional information about loan growth and profitability.

Key Statistics - Consumer Lending

	 Three Months End	nded March 31			
(Dollars in millions)	 2020	2019			
Total credit card (1)					
Gross interest yield (2)	10.49 %	10.80 %			
Risk-adjusted margin (3)	7.94	8.03			
New accounts (in thousands)	1,055	1,034			
Purchase volumes	\$ 64,379 \$	62,751			
Debit card purchase volumes	\$ 88,588 \$	85,030			

- (1) Includes GWIM's credit card
- portfolio.
 (2) Calculated as the effective annual percentage rate divided by average
- loans.

 (3) Calculated as the difference between total revenue less net credit losses divided by average loans.

During the three months ended March 31, 2020, the total credit card riskadjusted margin decreased 9 bps, primarily driven by a portfolio shift away from promotional-rate loans. Total credit card purchase volumes increased \$1.6 billion to \$64.4 billion, and debit card purchase volumesincreased \$3.6 billion to \$88.6 billion, reflecting higher levels of consumer spending.

Key Statistics - Loan Production (1)

	Three Months Ended March 31								
(Dollars in millions)		2020							
Consumer Banking:									
First mortgage	\$	12,881	\$	8,155					
Home equity	\$	2,641	\$	2,485					
Total (2):									
First mortgage	\$	18,938	\$	11,460					
Home equity		3,024		2,825					

- (1) The loan production amounts represent the unpaid principal balance of loans and, in the case of home equity, the principal amount of the total line of credit.
- (2) In addition to loan production in Consumer Banking, there is also first mortgage and home equity loan production in

First mortgage loan originations in Consumer Banking and for the total Corporation increased \$4.7 billion and \$7.5 billion for the three months ended March 31, 2020 compared to the same period in 2019 primarily driven by a lower interest rate environment driving higher first-lien mortgage refinances.

Home equity production in Consumer Banking and for the total Corporation increased \$156 million and \$199 million, primarily driven by higher demand.

Total assets

GWIM consists of two primary businesses: Merrill Lynch Global Wealth Management (MLGWM) and Bank of America Private Bank. For more information about *GWIM*, see Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

Net income for *GWIM* decreased \$177 million to \$866 million for the three months ended March 31, 2020 compared to the same period in2019 due to higher provision for credit losses, higher noninterest expense and lower net interest income, partially offset by higher noninterest income. The operating margin was 23 percent compared to 29 percent a year ago.

Net interest income decreased \$113 million to \$1.6 billion due to the impact of lower interest rates, partially offset by the impact of growth in loans and deposits.

Noninterest income, which primarily includes investment and brokerage services income, increased \$229 million to \$3.4 billion. The increase was primarily driven by higher market valuations, positive AUM flows and increased transactional revenue, partially

offset by declines in AUM pricing compared to the same period in 2019.

The provision for credit losses increased \$184 million to \$189 million primarily due to the impact of COVID-19. Noninterest expense increased \$166 million to \$3.6 billion, primarily due to higher revenue-related incentives along with investments for business growth.

323.866

282,395

299.770

263,113

8

The return on average allocated capital was 23 percent, down from 29 percent, due to lower net income and, to a lesser extent, a small increase in allocated capital.

MLGWM revenue of \$4.1 billion increased three percent primarily driven by higher market valuations, positive AUM flows and increased transactional revenue, partially offset by decreases in net interest income and AUM pricing.

Bank of America Private Bank revenue of\$863 million increased one percent primarily driven by higher market valuations partially offset by lower net interest income.

Global Banking, which includes Global Corporate Banking, Global Commercial Banking, Business Banking and Global Investment Banking, provides a wide range of lending-related products and services, integrated working capital management and treasury solutions, and underwriting and advisory services through our network of offices and client relationship teams. For more information about *Global Banking*, see Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

Net income for *Global Banking* decreased \$1.9 billion to \$136 million for the three months ended March 31, 2020 compared to the same period in2019 primarily driven by higher provision for credit losses, and to a lesser extent, lower revenue

Revenue decreased \$555 million to \$4.6 billion driven by lower net interest income and noninterest income. Net interest income decreased \$178 million to \$2.6 billion primarily due to the allocation of ALM results and spread compression, partially offset by growth in loan and deposit balances.

Noninterest income decreased \$377 million to \$2.0 billion primarily due to valuation adjustments on leveraged loans and the

fair value option loan portfolio, partially offset by higher investment banking fees.

477,108

The provision for credit losses increased \$2.0 billion to \$2.1 billion primarily due to the impact of COVID-19. Noninterest expense increased \$55 million primarily due to continued investment in the business, partially offset by lower revenue-related incentives.

The return on average allocated capital wasone percent in 2020 compared to 20 percent in 2019, due to lower net income and, to a lesser extent, an increase in allocated capital. For information on capital allocated to the business segments, see Business Segment Operations on page 10.

Global Corporate, Global Commercial and Business Banking

Business Lending revenue decreased \$159 million for the three months ended March 31, 2020 compared to the same period in 2019. The decrease was primarily driven by valuation adjustments on loans in the fair value option portfolio, partly offset by the impact of higher loan and lease balances.

Global Transaction Services revenue decreased \$159 million driven by the allocation of ALM results, partially offset by the impact of higher deposit balances.

Average loans and leases increased four percent driven by growth in the commercial and industrial loan portfolio. Average deposits increased 10 percent due to growth in domestic and international interest-bearing balances.

Global Investment Banking

Client teams and product specialists underwrite and distribute debt, equity and loan products, and provide advisory services and tailored risk management solutions. The economics of certain investment banking and underwriting activities are shared primarily between *Global Banking* and *Global Markets* under an internal revenue-sharing arrangement. *Global Banking* originates certain deal-related transactions with our corporate and commercial clients that are executed and distributed by *Global Markets*. To provide a complete discussion of our consolidated investment banking fees, the following table presents total Corporation

investment banking fees and the portion attributable to Global Banking.

Investment Banking Fees

Global Markets offers sales and trading services and research services to institutional clients across fixed-income, credit, currency, commodity and equity businesses. Global Markets product coverage includes securities and derivative products in both the primary and secondary markets. For more information about Global Markets, see Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

The following explanations for current period-over-period changes in results for *Global Markets*, including those disclosed under Sales and Trading Revenue, exclude net DVA, but the explanations would be the same if net DVA were included. Revenue amounts excluding net DVA are a non-GAAP financial measure. For more information on net DVA, see Supplemental Financial Data on page 7.

Net income for *Global Markets* increased \$670 million to \$1.7 billion for the three months ended March 31, 2020 compared to the same period in2019. Net DVA gains were \$300 million compared to losses of \$90 million during the same period in 2019. Excluding net DVA, net income increased \$374 million to \$1.5 billion. These increases were primarily driven by an increase in

revenue, partially offset by higher noninterest expense and an increase in the provision for credit losses.

Revenue increased \$1.0 billion to \$5.2 billion as sales and trading revenue increased \$1.2 billion, and excluding net DVA, increased \$782 million. These increases were driven by higher revenue across Equities and Fixed Income, Currencies and Commodities (FICC).

The provision for credit losses increased \$130 million primarily due to the impact of COVID-19. Noninterest expense increased \$58 million to \$2.8 billion primarily driven by higher revenue-related expenses.

Average total assets increased \$48.9 billion to \$713.0 billion for the three months ended March 31, 2020 compared to the same period in2019 primarily due to increased levels of inventory in FICC to facilitate expected client demand and higher client balances in Equities. Period-end total assets increased \$12.9 billion since December 31, 2019 to \$654.7 billion primarily driven by higher loan and derivative balances in FICC.

The return on average allocated capital was19 percent, up from 12 percent, reflecting higher net income, partially offset by a small increase in allocated capital. For more information on

capital allocated to the business segments, seeBusiness Segment Operations on page 10.

Sales and Trading Revenue

For a description of sales and trading revenue, see Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K The following table and related

discussion present sales and trading revenue, substantially all of which is in Global Markets, with the remainder in Global Banking. In addition, the following table and related discussion present sales and trading revenue, excluding net DVA, which is a non-GAAP financial measure. For more information on net DVA, see Supplemental Financial Data on page 7.

Sales and Trading Revenue (1, 2, 3)

	Three Months Ended March 3					
(Dollars in millions)		2020		2019		
Sales and trading revenue (2)						
Fixed-income, currencies and commodities	\$	2,945	\$	2,281		
Equities		1,690		1,182		
Total sales and trading revenue	\$	4,635	\$	3,463		
Sales and trading revenue, excluding net DVA (4)						
Fixed-income, currencies and commodities	\$	2,671	\$	2,360		
Equities		1,664		1,193		
Total sales and trading revenue, excluding net DVA	\$	4,335	\$	3,553		

- (1) For more information on sales and trading revenue, seeNote 3 Derivatives to the Consolidated Financial Statements
- (2) Includes FTE adjustments of \$62 million and \$48 million for the three months ended March 31, 2020 and
- (3) Includes Global Banking sales and trading revenue of \$228 million and \$118 million for the three months ended March 31, 2020 and
- 2019.
 (4) FICC and Equities sales and trading revenue, excluding net DVA, is a non-GAAP financial measure. FICC net DVAgains were \$274 million and losses of \$79 million for the three months ended March 31, 2020 and 2019. Equities net DVA gains were \$26 million and losses of \$11 million for the three months ended March 31, 2020 and 2019.

FICC revenue increased \$311 million for the three months ended March 31, 2020 compared to the same period in2019 driven by increased client activity and improved market making conditions across macro products, partially offset by weaker performances in credit sensitive businesses. Equities revenue increased \$471 million driven by increased client activity and a strong trading performance in the more volatile market environment.

Period end	March 31 2020	December 31 2019	% Change
Total loans and leases	\$ 36,045	\$ 37,156	(3)%
Total assets (1)	241,302	224,378	8
Total deposits	22,899	23,089	(1)

22,099 23,089 (1)

(1) In segments where the total of liabilities and equity exceeds assets, which are generally deposit-taking segments, we allocate assets from All Other to those segments to match liabilities (i.e., deposits) and allocated shareholders' equity. Average allocated assets were \$572.2 billion and \$542.5 billion and \$542.5 billion for the three months ended March 31, 2020 and 2019, and period-end allocated assets were \$65.8 billion and \$565.4 billion at March 31, 2020 and December 31, 2019.

n/m = not meaningful

All Other consists of ALM activities, equity investments, non-core mortgage loans and servicing activities, liquidating businesses and certain expenses not otherwise allocated to a business segment. ALM activities encompass certain residential mortgages, debt securities, and interest rate and foreign currency risk management activities. Substantially all of the results of ALM activities are allocated to our business segments. For more information on our ALM activities, see Note 17 - Business Segment

Information to the Consolidated Financial Statements. Equity investments include our merchant services joint venture, as well as a portfolio of equity, real estate and other alternative investments. For information on our merchant services joint venture, see Note 10 - Commitments and Contingencies to the Consolidated Financial Statements. For more information about All Other, see Business Segment Operations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

Residential mortgage loans that are held for ALM purposes, including interest rate or liquidity risk management, are classified as core and are presented on the balance sheet of *All Other*. During the three months ended March 31, 2020, residential mortgage loans held for ALM activities decreased \$416 million to \$21.3 billion primarily as a result of payoffs and paydowns. Non-core residential mortgage and home equity loans, which are principally runoff portfolios, are also held in *All Other*. During the three months ended March 31, 2020, total non-core loans decreased \$806 million to \$14.9 billion due primarily to payoffs and paydowns, as well as Federal Housing Administration (FHA) loan conveyances, partially offset by repurchases. For more information on the composition of the core and non-core portfolios, see Consumer Portfolio Credit Risk Management on page 25.

The net loss for *All Other* increased \$456 million, driven by lower revenue and higher provision for credit losses, partially offset by lower noninterest expense.

Revenue decreased \$348 million due primarily to certain valuation adjustments in poninterest income

Noninterest expense decreased \$156 million to \$246 million primarily due to lower incentive compensation.

The income tax benefit decreased \$96 million reflecting a lower level of tax preference benefits recognized in the quarter, partially offset by the impact of higher pretax losses. Both periods included income tax benefit adjustments to eliminate the FTE treatment of certain tax credits recorded in *Global Banking*.

Off-Balance Sheet Arrangements and Contractual Obligations

We have contractual obligations to make future payments on debt and lease agreements. Additionally, in the normal course of business, we enter into contractual arrangements whereby we commit to future purchases of products or services from unaffiliated parties. For more information on obligations and commitments, see *Note 10 – Commitments and Contingencies*to the Consolidated Financial Statements herein, as well as Off-Balance Sheet Arrangements and Contractual Obligations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K, and *Note 12 – Long-term Debt* and *Note 13 – Commitments and Contingencies* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Representations and Warranties Obligations

For more information on representations and warranties obligations in connection with the sale of mortgage loans, see *Note 13 – Commitments and Contingencies* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Managing Risk

Risk is inherent in all our business activities. The seven key types of risk faced by the Corporation are strategic, credit, market, liquidity, compliance, operational and reputational. Sound risk management enables us to serve our customers and deliver for our shareholders. If not managed well, risks can result in financial loss, regulatory sanctions and penalties, and damage to our reputation, each of which may adversely impact our ability to execute our business strategies. We take a comprehensive approach to risk management with a defined Risk Framework and an articulated Risk Appetite Statement which are approved annually by the Enterprise Risk Committee and the Board.

Our Risk Framework serves as the foundation for the consistent and effective management of risks facing the Corporation. The

Risk Framework sets forth clear roles, responsibilities and accountability for the management of risk and provides a blueprint for how the Board, through delegation of authority to committees and executive officers, establishes risk appetite and associated limits for our activities.

Our Risk Appetite Statement is intended to ensure that the Corporation maintains an acceptable risk profile by providing a common framework and a comparable set of measures for senior management and the Board to clearly indicate the level of risk the Corporation is willing to accept. Risk appetite is set at least annually and is aligned with the Corporation's strategic, capital and financial operating plans. Our line of business strategies and risk appetite are also similarly aligned.

For more information about the Corporation's risks related to the COVID-19 pandemic, see Part II, Item 1A. Risk Factors on page 96. These COVID-19 related risks are being managed within our Risk Framework and supporting risk management programs.

For more information on our Risk Framework, our risk management activities and the key types of risk faced by the Corporation, see the Managing Risk through Reputational Risk sections in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

Capital Management

The Corporation manages its capital position so that its capital is more than adequate to support its business activities and aligns with risk, risk appetite and strategic planning. For more information on capital management, including related regulatory requirements, see Capital Management in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

CCAR and Capital Planning

During the first quarter of 2020, we repurchased \$6.4 billion of common stock pursuant to the Board's authorization. For more information, see Capital Management -- CCAR and Capital Planning in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

As announced on March 15, 2020, due to the impact of the COVID-19 pandemic on the global economy, we temporarily suspended common stock repurchases from the date of the announcement through the end of the second quarter of 2020. We made this decision to enable us to provide maximum support to our customers and the broader economy through lending and other services. The suspension does not include repurchases to offset shares issued under equity compensation plans. As a well-capitalized financial institution, we may reinstate our repurchase program at such time as our Board deems advisable, taking into account economic conditions and other considerations.

At such time that we reinstate our stock repurchase program, our stock repurchases will be subject to various factors, including the Corporation's capital position, liquidity, financial performance and alternative uses of capital, stock trading price and general market conditions, and may be suspended at any time. The repurchases may be effected through open market purchases or privately negotiated transactions, including repurchase plans that satisfy the conditions of Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (Exchange Act).

The Federal Reserve requires BHCs to submit a capital plan and planned capital actions on an annual basis, consistent with the rules governing the CCAR capital plan. In April 2020, we submitted our 2020 CCAR capital plan and related supervisory stress tests. The Federal Reserve has announced that it will disclose CCAR capital plan supervisory stress test results by June 30, 2020. These results will determine the stress test depletion

used in the calculation of the Corporation's stress capital buffer under the final rule published by the Federal Reserve in March 2020. For more information, see Regulatory Developments in this section.

Regulatory Capital

As a financial services holding company, we are subject to regulatory capital rules, including Basel 3, issued by U.S. banking regulators. The Corporation's depository institution subsidiaries are also subject to the Prompt Corrective Action (PCA) framework. The Corporation and its primary affiliated banking entity, BANA, are Advanced approaches institutions under Basel 3 and are required to report regulatory risk-based capital ratios and risk-weighted assets under both the Standardized and Advanced approaches. The approach that yields the lower ratio is used to assess capital adequacy including under the PCA framework. As of March 31, 2020, the Common equity tier 1 (CET1) and Tier 1 capital ratios for the Corporation were lower under the Standardized approach whereas the Advanced approaches yielded a lower Total capital ratio.

Minimum Capital Requirements

In order to avoid restrictions on capital distributions and

discretionary bonus payments, the Corporation must meet risk-based capital ratio requirements that include a capital conservation buffer greater than 2.5 percent, plus any applicable countercyclical capital buffer and a global systemically important bank (G-SIB) surcharge. The buffers and surcharge must be comprised solely of CET1 capital.

The Corporation is also required to maintain a minimum supplementary leverage ratio (SLR) of 3.0 percent plus a leverage buffer of 2.0 percent in order to avoid certain restrictions on capital distributions and discretionary bonus payments. Our insured depository institution subsidiaries are required to maintain a minimum 6.0 percent SLR to be considered well capitalized under the PCA framework.

Capital Composition and Ratios

Table 8 presents Bank of America Corporation's capital ratios and related information in accordance with Basel 3 Standardized and Advanced approaches as measured at March 31, 2020 and December 31, 2019. For the periods presented herein, the Corporation met the definition of well capitalized under current regulatory requirements.

⁽¹⁾ As of March 31, 2020, capital ratios are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of

At March 31, 2020, CET1 capital was \$168.1 billion, an increase of \$1.4 billion from December 31, 2019, driven by earnings and net unrealized gains on available-for-sale (AFS) debt securities included in accumulated other comprehensive income (OCI), partially offset by common stock repurchases and dividends.

Total capital under the Advanced approaches increased \$7.9 billion primarily driven by the same factors as CET1 capital, increases in excess eligible credit reserves included in Tier 2 capital and issuance of preferred stock. Risk-weighted assets under the Standardized approach, which yielded the lower CET1

CECL.
(2) The capital conservation buffer and G-SIB surcharge were 2.5 percent at both March 31, 2020 and December 31, 2019. The countercyclical capital buffer for both periods waszero. The SLR minimum includes a leverage buffer of 2.0

percent.
(3) Total capital under the Advanced approaches differs from the Standardized approach due to differences in the amount permitted in Tier 2 capital related to the qualifying allowance for credit

⁽⁴⁾ Reflects total average assets adjusted for certain Tier 1 capital

Table 9 shows the capital composition at March 31, 2020 and December 31, 2019.

Table 9 **Capital Composition under Basel 3**

⁽¹⁾ As of March 31, 2020, capital ratios are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of CECL.

Total Loss-Absorbing Capacity Requirements

Total loss-absorbing capacity (TLAC) consists of the Corporation's Tier 1 capital and eligible long-term debt issued directly by the Corporation. Eligible long-term debt for TLAC ratios is comprised of unsecured debt that has a remaining maturity of at least one year and satisfies additional requirements as prescribed in the

TLAC final rule. As with the risk-based capital ratios and SLR, the Corporation is required to maintain TLAC ratios in excess of minimum requirements plus applicable buffers to avoid restrictions on capital distributions and discretionary bonus payments. Table 12 presents the Corporation's TLAC and long-term debt ratios and related information as of March 31, 2020.

Table 12 Bank of America Corporation Total Loss-Absorbing Capacity and Long-Term Debt

	 TLAC (1)	Regulatory Minimum (2)	L	∟ong-term Debt	Regulatory Minimum (3)
(Dollars in millions)		March	31, 2020	0	
Total eligible balance	\$ 383,281		\$	181,135	
Percentage of risk-weighted assets (4)	24.6 %	22.0 %		11.6%	8.5 %
Percentage of SLR leverage exposure	12.8	9.5		6.1	4.5
		Decembe	er 31, 20	019	
Total eligible balance	\$ 367,449		\$	171,349	
Percentage of risk-weighted assets (4)	24.6 %	22.0 %		11.5 %	8.5 %
Percentage of SLR leverage exposure	12.5	9.5		5.8	4.5

⁽²⁾ Circuit. The regulatory minimums at March 31, 2020 are the minimum ratios under Basel 3 including a capital conservation buffer of 2.5 percent. The regulatory minimums for the leverage ratios as of both period ends and risk-based capital ratios as

of December 31, 2019 are the percent required to be considered well capitalized under the PCA framework.

(3) Total capital under the Advanced approaches differs from the Standardized approach due to differences in the amount permitted in Tier 2 capital related to the qualifying allowance for credit

⁽⁴⁾ Reflects total average assets adjusted for certain Tier 1 capital

⁽¹⁾ As of March 31, 2020, TLAC ratios are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of CECL.

(2) The TLAC ratios are calculated using the regulatory capital rule that allows a five-year transition period related to the adoption of CECL.

(3) The LAC ratios are calculated using the regulatory minimum consists of 18.0 percent plus a TLAC risk-weighted assets regulatory minimum consists of 18.0 percent plus a TLAC risk-weighted assets buffer comprised of 2.5 percent plus the method 1 G-SIB surcharge of 1.5 percent. The countercyclical buffer is zero for both periods. The TLAC SIR leverage exposure regulatory minimum consists of 7.5 percent plus a 2.0 percent TLAC leverage buffer. The TLAC risk-weighted assets and leverage buffers must be comprised solely of CET1 capital and Tier 1 capital, respectively.

(3) The long-term debt risk-weighted assets regulatory minimum is comprised of 6.0 percent plus an additional 2.5 percent requirement based on the Corporation's method 2 G-SIB surcharge. The long-term debt leverage exposure regulatory minimum ist.5 percent.

(4) The approach that yields the higher risk-weighted assets is used to calculate TLAC and long-term debt ratios, which was the Standardized approach as offlarch 31, 2020 and December 31, 2019.

Regulatory Developments

The following supplements the disclosure in Capital Management – Regulatory Developments in the MD&A of the Corporation's 2019 Annual Report on Form 10-K

Revisions to Basel 3 to Address Current Expected Credit Loss Accounting

On January 1, 2020, the Corporation adopted the new accounting standard that requires the measurement of the allowance for credit losses to be based on management's best estimate of lifetime expected credit losses inherent in the Corporation's relevant financial assets. For more information, see Note 1 Summary of Significant Accounting Principles to the Consolidated Financial Statements. On March 27, 2020, in response to the COVID-19 pandemic, U.S. banking regulators issued an interim final rule that the Corporation adopted to delay for two years the initial adoption impact of CECL on regulatory capital, followed by a three-year transition period to phase out the aggregate amount of the capital benefit provided during 2020 and 2021 (i.e., a five-year transition period). During the two-year delay, the Corporation will add back to CET1 capital 100 percent of the initial adoption impact of CECL plus 25 percent of the cumulative quarterly changes in the allowance for credit losses (i.e., quarterly transitional amounts). After two years, starting on January 1, 2022, the quarterly transitional amounts along with the initial adoption impact of CECL will be phased out of CET1 capital over the three-year period.

Stress Capital Buffer

On March 4, 2020, the Federal Reserve issued a final rule that integrates the annual quantitative assessment of the CCAR program with the buffer requirements in the U.S. Basel 3 Final Rule. The new approach replaces the existing static 2.5 percent capital conservation buffer for Basel 3 Standardized approach requirements with a stress capital buffer, calculated as the decline in the CET1 capital ratio under the supervisory severely adverse scenario plus four quarters of planned common stock dividends, floored at 2.5 percent. The stress capital buffer requirement is effective October 1, 2020. The Corporation will receive its stress capital buffer in its 2020 CCAR results.

In conjunction with this new requirement, the Federal Reserve has removed the annual CCAR quantitative objection process beginning with CCAR 2020. While the final rule continues to require that the Corporation describe its planned capital distributions in its CCAR capital plan, the Corporation is no longer required to seek prior approval if it makes capital distributions in excess of those included in its CCAR capital plan. The Corporation is instead subject to automatic distribution limitations if its capital ratios fall below its buffer requirements, which include the stress capital buffer.

Eligible Retained Income

On March 17, 2020, in response to the economic impact of the COVID-19 pandemic, the Federal Reserve, the Office of the Comptroller of the Currency (OCC) and the Federal Deposit Insurance Corporation (FDIC) issued an interim final rule that revises the definition of eligible retained income to be based on average net income over the prior four quarters. This change would more gradually phase in automatic distribution restrictions to the extent capital buffers are breached.

Supplementary Leverage Ratio

On April 1, 2020, in response to the economic impact of the COVID-19 pandemic, the Federal Reserve issued an interim final rule to temporarily exclude the onbalance sheet amounts of U.S. Treasury securities and deposits at Federal Reserve Banks from the calculation of SLR leverage exposure for bank holding

companies. The rule is effective for June 30, 2020 through March 31, 2021 reports.

Paycheck Protection Program Loans

On April 9, 2020, in response to the economic impact of the COVID-19 pandemic, the Federal Reserve, OCC and FDIC issued an interim final rule that excludes loans pledged as collateral to the Federal Reserve's PPP Lending Facility from SLR leverage exposure, average total consolidated assets, and Advanced and Standardized risk-weighted assets. Additionally, PPP loans, which are guaranteed by the Small Business Administration, will receive a zero percent risk weight under the Basel 3 Advanced and Standardized approaches. For more information on the PPP, see Executive Summary - Recent Developments - COVID-19 Pandemic 2020 on page 3.

Volcker Rule

In 2019, U.S. financial regulators finalized certain changes to the Volcker Rule, including removing the requirement for banking organizations to deduct from Tier 1 capital ownership interests of covered funds acquired or retained under the underwriting or market-making exemptions of the Volcker Rule, which the banking entity did not organize or offer. This change became effective for the Corporation on January 1, 2020.

Regulatory Capital and Securities Regulation

The Corporation's principal U.S. broker-dealer subsidiaries are BofA Securities, Inc. (BofAS), Merrill Lynch Professional Clearing Corp. (MLPCC) and Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S). BofAS was formed as a result of the reorganization of MLPF&S which was completed in May 2019. The Corporation's principal European broker-dealer subsidiaries are Merrill Lynch International (MLI) and BofA Securities Europe SA (BofASE).

The U.S. broker-dealer subsidiaries are subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. BofAS computes its minimum capital requirements as an alternative net capital broker-dealer under Rule 15c3-1, and MLPCC and MLPF&S compute their minimum capital requirements in accordance with the alternative standard under Rule 15c3-1. BofAS and MLPCC are also registered as futures commission merchants and are subject to U.S. Commodity Futures Trading Commission (CFTC) Regulation 1.17.

BofAS provides institutional services, and in accordance with the alternative net capital requirements, is required to maintain tentative net capital in excess of \$1.0 billion and net capital in excess of the greater of \$500 million or a certain percentage of its reserve requirement. BofAS must also notify the Securities and Exchange Commission (SEC) in the event its tentative net capital is less than \$5.0 billion. BofAS is also required to hold a certain percentage of its risk-based margin in order to meet its CFTC minimum net capital requirement. At March 31, 2020, BofAS had tentative net capital of \$15.9 billion. BofAS also had regulatory net capital of \$12.0 billion which exceeded the minimum requirement of \$3.4 billion.

MLPCC is a fully-guaranteed subsidiary of BofAS and provides clearing and settlement services. At March 31, 2020, MLPCC's regulatory net capital of \$5.9 billion exceeded the minimum requirement of \$1.0 billion.

MLPF&S provides retail services. At March 31, 2020, MLPF&S' regulatory net capital was \$4.1 billion which exceeded the minimum requirement of \$102 million.

Our European broker-dealers are regulated by non-U.S. regulators. MLI, a U.K. investment firm, is regulated by the Prudential Regulation Authority and the Financial Conduct Authority

and is subject to certain regulatory capital requirements. AtMarch 31, 2020, MLI's capital resources were \$34.6 billion, which exceeded the minimum Pillar 1 requirement of \$14.6 billion. BofASE, a French investment firm, is regulated by the Autorité de Contrôle Prudentiel et de Résolution and the Autorité des Marchés Financiers, and is subject to certain regulatory capital requirements. At March 31, 2020, BofASE's capital resources were \$5.3 billion which exceeded the minimum Pillar 1 requirement of \$2.1 billion.

Liquidity Risk

Funding and Liquidity Risk Management

Our primary liquidity risk management objective is to meet expected or unexpected cash flow and collateral needs while continuing to support our businesses and customers under a range of economic conditions. To achieve that objective, we analyze and monitor our liquidity risk under expected and stressed conditions, maintain liquidity and access to diverse funding sources, including our stable deposit base, and seek to align liquidity-related incentives and risks. These liquidity risk management practices have allowed us to effectively manage the market stress that began in the first quarter of 2020 from the COVID-19 pandemic. For more information on the effects of the pandemic, see Executive Summary -Recent Developments - COVID-19 Pandemic 2020 on page 3.

We define liquidity as readily available assets, limited to cash and high-quality, liquid, unencumbered securities that we can use to meet our contractual and contingent financial obligations as those obligations arise. We manage our liquidity position through line of business and ALM activities, as well as through our legal entity funding strategy, on both a forward and current (including intraday) basis under both expected and stressed conditions. We believe that a centralized approach to funding and liquidity management enhances our ability to monitor liquidity requirements, maximizes access to funding sources, minimizes borrowing costs and facilitates timely responses to liquidity events. For more information regarding global funding and liquidity risk management, as well as liquidity sources, liquidity arrangements, contingency planning and credit ratings discussed below, see Liquidity Risk in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

NB Holdings Corporation

We have intercompany arrangements with certain key subsidiaries under which we transferred certain assets of Bank of America Corporation, as the parent company, which is a separate and distinct legal entity from our banking and nonbank subsidiaries, and agreed to transfer certain additional parent company assets not needed to satisfy anticipated near-term expenditures, to NB Holdings Corporation, a wholly-owned holding company subsidiary (NB Holdings). The parent company is expected to continue to have access to the same flow of dividends, interest and other amounts of cash necessary to service its debt, pay dividends and perform other obligations as it would have had if it had not entered into these arrangements and transferred any assets. These arrangements support our preferred single point of entry resolution strategy, under which only the parent company would be resolved under the U.S. Bankruptcy Code.

Global Liquidity Sources and Other Unencumbered Assets

Table 13 presents average Global Liquidity Sources (GLS) for thethree months ended March 31, 2020 and December 31, 2019.

Table 13 Average Global Liquidity Sources

	Three Mo	nths	Ended
(Dollars in billions)	March 31 2020		December 31 2019
Parent company and NB Holdings	\$ 50	\$	59
Bank subsidiaries	451		454
Other regulated entities	64		63
Total Average Global Liquidity Sources	\$ 565	\$	576

We maintain liquidity available to the Corporation, including the parent company and selected subsidiaries, in the form of cash and high-quality, liquid, unencumbered securities. Typically, parent company and NB Holdings liquidity is in the form of cash deposited with BANA.

Our bank subsidiaries' liquidity is primarily driven by deposit and lending activity, as well as securities valuation and net debt activity. Liquidity at bank subsidiaries excludes the cash deposited by the parent company and NB Holdings. Our bank subsidiaries can also generate incremental liquidity by pledging a range of unencumbered loans and securities to certain Federal Home Loan Banks (FHLBs) and the Federal Reserve Discount Window. The cash we could have obtained by borrowing against this pool of specifically-identified eligible assets was \$359 billion and \$372 billion at March 31, 2020 and December 31, 2019. We have established operational procedures to enable us to borrow against these assets, including regularly monitoring our total pool of eligible loans and securities collateral. Eligibility is defined in guidelines from the FHLBs and the Federal Reserve and is subject to change at their discretion. Due to regulatory restrictions, liquidity generated by the bank subsidiaries can generally be used only to fund obligations within the bank subsidiaries, and transfers to the parent company or nonbank subsidiaries may be subject to prior regulatory approval.

Liquidity held in other regulated entities, comprised primarily of broker-dealer subsidiaries, is primarily available to meet the obligations of that entity and transfers to the parent company or to any other subsidiary may be subject to prior regulatory approval due to regulatory restrictions and minimum requirements. Our other regulated entities also hold unencumbered investment-grade securities and equities that we believe could be used to generate additional liquidity.

Table 14 presents the composition of average GLS for thethree months ended March 31, 2020 and December 31, 2019.

Table 14 **Average Global Liquidity Sources Composition**

		Three M	onthe	s Ended
(Dollars in billions)		March 31 2020	December 31 2019	
Cash on deposit	\$	113	\$	103
U.S. Treasury securities		83		98
U.S. agency securities and mortgage-backed securities		354		358
Non-U.S. government securities		15		17
Total Average Global Liquidity Sources	\$	565	\$	576

Our GLS are substantially the same in composition to what qualifies as High Quality Liquid Assets (HQLA) under the final U.S. Liquidity Coverage Ratio (LCR) rules. However, HQLA for purposes of calculating LCR is not reported at market value, but at a lower value that incorporates regulatory deductions and the exclusion

of excess liquidity held at certain subsidiaries. The LCR is calculated as the amount of a financial institution's unencumbered HQLA relative to the estimated net cash outflows the institution could encounter over a 30-day period of significant liquidity stress, expressed as a percentage. Our average consolidated HQLA, on a net basis, was \$464 billion for both the three months ended March 31, 2020 and December 31, 2019. For the same periods, the average consolidated LCR was 115 percent and 116 percent. Our LCR fluctuates due to normal business flows from customer activity.

Liquidity Stress Analysis

We utilize liquidity stress analysis to assist us in determining the appropriate amounts of liquidity to maintain at the parent company and our subsidiaries to meet contractual and contingent cash outflows under a range of scenarios. For more information on our liquidity stress analysis, see Liquidity Risk - Liquidity Stress Analysis in the MD&A of the Corporation's 2019 Annual Report on Form 10-K

Diversified Funding Sources

We fund our assets primarily with a mix of deposits, and secured and unsecured liabilities through a centralized, globally coordinated funding approach diversified across products,

programs, markets, currencies and investor groups. We fund a substantial portion of our lending activities through our deposits, which were \$1.58 trillion and \$1.43 trillion at March 31, 2020 and December 31, 2019.

Our trading activities in other regulated entities are primarily funded on a secured basis through securities lending and repurchase agreements, and these amounts will vary based on customer activity and market conditions.

Long-term Debt

During the three months ended March 31, 2020, we issued \$18.7 billion of longterm debt consisting of \$15.9 billion of notes issued by Bank of America Corporation, substantially all of which was TLAC compliant, \$516 million of notes issued by Bank of America, N.A. and \$2.3 billion of other debt, substantially all of which was structured liabilities.

During the three months ended March 31, 2020, we had total long-term debt maturities and redemptions in the aggregate of \$7.6 billion consisting of \$2.1 billion for Bank of America Corporation, \$2.6 billion for Bank of America, N.A. and \$2.9 billion of other debt. Table 15 presents the carrying value of aggregate annual contractual maturities of long-term debt at March 31, 2020.

Table 15 Long-term Debt by Maturity

Total long-term debt	\$	19,912	\$ 26,85	i8	\$ 19,922	\$ 25,766	\$ 22,038	\$ 142,216	\$ 256,712

¹ Total includes \$126.4 billion of outstanding notes that are both TLAC eligible and callable one year before their stated maturities, including\$7.2 billion during the remainder of 2020, and \$11.6 billion, \$10.8 billion, \$10.8 billion and \$9.4 billion during each year of 2021 through 2024, respectively, and\$72.3 billion thereafter. The call features give us the flexibility to retire long-term notes before their final year outstanding, when they are no longer eligible to count toward TLAC requirements, and replace them with new TLAC-eligible debt, should we choose to do so.

(2) Represents liabilities of consolidated VIEs included in total long-term debt on the Consolidated Balance Sheet.

Table 16 presents our long-term debt by major currency atMarch 31, 2020 and December 31, 2019.

Long-term Debt by Major Currency Table 16

(Dollars in millions)	N	March 31 2020					
U.S. dollar	\$	207,035	\$	191,284			
Euro		33,782		32,781			
British pound		4,834		5,067			
Japanese yen		4,113		4,310			
Canadian dollar		3,979		3,857			
Australian dollar		1,664		1,957			
Other		1,305		1,600			
Total long-term debt	\$	256,712	\$	240,856			

Total long-term debt increased \$15.9 billion during three months ended March 31, 2020 primarily due to debt issuances and valuation adjustments, partially offset by maturities and redemptions. We may, from time to time, purchase outstanding debt instruments in various transactions, depending on market conditions, liquidity and other factors. Our other regulated entities may also make markets in our debt instruments to provide liquidity for investors.

We use derivative transactions to manage the duration, interest rate and currency risks of our borrowings, considering the characteristics of the assets they are funding. For more information on our ALM activities, see Interest Rate Risk Management for the Banking Book on page 41.

We may issue unsecured debt in the form of structured notes for client purposes, certain of which qualify as TLAC-eligible debt. During three months ended March 31, 2020, we issued \$4.6 billion

of structured notes, which are debt obligations that pay investors returns linked to other debt or equity securities, indices, currencies or commodities. We typically hedge the returns we are obligated to pay on these liabilities with derivatives and/or investments in the underlying instruments, so that from a funding perspective, the cost is similar to our other unsecured long-term debt. We could be required to settle certain structured note obligations for cash or other securities prior to maturity under certain circumstances, which we consider for liquidity planning purposes. We believe, however, that a portion of such borrowings will remain outstanding beyond the earliest put or redemption date.

Substantially all of our senior and subordinated debt obligations contain no provisions that could trigger a requirement for an early repayment, require additional collateral support, result in changes to terms, accelerate maturity or create additional financial obligations upon an adverse change in our credit ratings, financial ratios, earnings, cash flows or stock price. For more information on long-term debt funding, including issuances and maturities and redemptions, see Note 12 - Long-term Debt to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Credit Ratings

Credit ratings and outlooks are opinions expressed by rating agencies on our creditworthiness and that of our obligations or securities, including long-term debt, short-term borrowings, preferred stock and other securities, including asset securitizations. Table 17 presents the Corporation's current long-term/short-term senior debt ratings and outlooks expressed by the rating agencies.

On April 22, 2020, Fitch Ratings (Fitch) completed its review of the large, complex securities trading and universal banks in the U.S., including Bank of America, in response to declining economic activity from the COVID-19 pandemic. The agency affirmed the long-term and short-term senior debt ratings of the Corporation and all of its rated subsidiaries, except for select issuer and instrument level ratings that had previously been placed under criteria observation (UCO) on March 4, 2020, following changes in the agency's bank rating criteria on February 28 2020

Concurrently, Fitch reached a conclusion on select UCO designations for the Corporation and upgraded the long-term and short-term senior debt ratings of MLI and BofASE by one notch to AA-/F1+. The agency also upgraded the preferred stock rating of the Corporation by one notch to BBB and downgraded the subordinated debt rating of the Corporation by one notch to A-. According to Fitch, rating changes under UCO are the sole result of bank rating criteria change and do not reflect a change in the underlying fundamentals of the institution. Fitch's rating outlook for all our long-term ratings is currently Stable.

The ratings from Moody's Investors Service (Moody's) and Standard & Poor's Global Ratings (S&P) for the Corporation and its subsidiaries did not change from those disclosed in the Corporation's 2019 Annual Report on Form 10-K.

For more information on additional collateral and termination payments that could be required in connection with certain over-the-counter derivative contracts and other trading agreements in the event of a credit rating downgrade, see Note 3 - Derivatives to the Consolidated Financial Statements herein and Item 1A. Risk Factors of the Corporation's 2019 Annual Report on Form 10-K

Credit Risk Management

For information on our credit risk management activities, seeConsumer Portfolio Credit Risk Management below, Commercial Portfolio Credit Risk Management on page 31, Non-U.S. Portfolio on page 37, Allowance for Credit Losses on page 38, and Note 5 - Outstanding Loans and Leases and Allowance for Credit Losses to the Consolidated Financial Statements.

During the first quarter of 2020, the COVID-19 pandemic negatively impacted economic activity in the U.S. and around the world. While we did see increases in Commercial nonperforming loans and reservable criticized exposures, we did not see meaningful impacts to Consumer portfolio delinquencies, nonperforming loans or charge-offs as of and during the three months ended March 31, 2020. To provide relief to individuals and businesses in the U.S., in March and April 2020, the President signed into law four economic stimulus packages, including the CARES Act. U.S. bank regulatory agencies also issued interagency guidance to financial institutions that are working with borrowers affected by COVID-19.

To support our customers, we have implemented various loan modification programs and other forms of support, including offering loan payment deferrals, refunding certain fees and pausing foreclosure sales, evictions and repossessions. For a summary of the loan modification programs that we have implemented along with a summary of deferral requests that have been executed, see Executive Summary - Recent Developments - COVID-19 Pandemic 2020 on page 3.

For information on the accounting for loan modifications related to the COVID-19 pandemic, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements.

Consumer Portfolio Credit Risk Management

Credit risk management for the consumer portfolio begins with initial underwriting and continues throughout a borrower's credit cycle. Statistical techniques in conjunction with experiential judgment are used in all aspects of portfolio management including underwriting, product pricing, risk appetite, setting credit limits, and establishing operating processes and metrics to

quantify and balance risks and returns. Statistical models are built using detailed behavioral information from external sources such as credit bureaus and/or internal historical experience and are a component of our consumer credit risk management process. These models are used in part to assist in making both new and ongoing credit decisions, as well as portfolio management strategies, including authorizations and line management, collection practices and strategies, and determination of the allowance for loan and lease losses and allocated capital for credit risk

Consumer Credit Portfolio

Although COVID-19 is severely impacting economic activity, it did not have a meaningful impact on the consumer portfolio delinquencies, nonperforming loans or charge-offs as of and during the three months ended March 31, 2020 but there

impacts to credit quality metrics in future periods if negative economic conditions continue. Net charge-offs increased \$37 million to \$872 million for the three months ended March 31, 2020 driven by seasoning in the credit card portfolio.

The consumer allowance for loan and lease losses increased \$4.5 billion during the three months ended March 31, 2020 to \$9.1 billion due to the adoption of the new CECL accounting standard and deterioration in the economic outlook resulting from the impact of COVID-19. For more information, see Allowance for Credit Losses on page 38.

For more information on our accounting policies regarding delinquencies, nonperforming status, charge-offs and TDRs for the consumer portfolio, see Note 1 - Summary of Significant Accounting Principles and Note 5 - Outstanding Loans and Leases to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. For information on our interest accrual policies and delinquency status for loan modifications related to the COVID-19 pandemic, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements.

Table 18 presents our outstanding consumer loans and leases, consumer nonperforming loans and accruing consumer loans past due 90 days or more.

Table 18

Consumer Credit Quality

	Outstandings				Nonpe	erform	ing		Accruing Past Due 90 Days or More						
(Dollars in millions)	March 31 2020		December 31 2019		March 31 2020		December 31 2019		March 31 2020		December 31 2019

Percentage of outstanding consumer loans and leases (4)	n/a		n/a		0.47 %		0.44 %	% 0.			0.47 %				
Percentage of outstanding consumer loans and leases, excluding fully- insured loan portfolios (4)	n/a		n/a	0.49			0.46		0.23		0.24				

⁽¹⁾ Residential mortgage loans accruing past due 90 days or more are fully-insured loans. Affarch 31, 2020 and December 31, 2019, residential mortgage includes \$637 million and \$740 million of loans on which interest had been curtailed by the FHA, and therefore were no longer accruing interest, although principal was still insured, and \$314 million and \$348 million of loans on which interest was still accruing.

(2) Outstandings primarily include auto and specialty lending loans and leases of \$50.0 billion and \$50.4 billion, U.S. securities-based lending loans of \$36.4 billion and \$36.7 billion and non-U.S. consumer loans of \$3.0 billion and \$2.8 billion at March 31, 2020

Table 19 presents net charge-offs and related ratios for consumer loans and leases.

Table

19 Consumer Net Charge-offs and Related Ratios

	Net Charge-offs Net Charge-off Ratios (1)								
			Three Months Ende	ed March 31					
2	2020 2019 2020								
\$	(1)	\$	(16)	— %	(0.03)%				
	(11)	(0.11)	0.10						
	770		745	3.28	3.18				
	40		54	0.18	0.24				
	74 41 n/m								
\$	\$ 872 \$ 835 0.75								

⁽¹⁾ Net charge-off ratios are calculated as annualized net charge-offs divided by average outstanding loans and leases excluding loans accounted for under the fair value option. n/m = not meaningful

Table 20 presents outstandings, nonperforming balances, net charge-offs, allowance for credit losses and provision for credit losses for the core and non-core portfolios within the consumer real estate portfolio. We categorize consumer real estate loans

as core and non-core based on loan and customer characteristics such as origination date, product type, loan-to-value (LTV), Fair Isaac Corporation (FICO) score and delinquency status consistent with our current consumer and mortgage servicing

and December 31, 2019.

(3) Consumer loans accounted for under the fair value option include residential mortgage loans o \$231 million and \$257 million and home equity loans of \$325 million at March 31, 2020 and December 31, 2019. For more information on the fair value option, see Note 15 – Fair Value Option to the Consolidated Financial Statements.

(4) Excludes consumer loans accounted for under the fair value option. At bothMarch 31, 2020 and December 31, 2019, \$6 million of loans accounted for under the fair value option were past due 90 days or more and not accruing

strategy. Generally, loans that were originated after January 1, 2010, qualified under government-sponsored enterprise underwriting guidelines, or otherwise met our underwriting guidelines in place in 2015 are characterized as core loans. All other loans are generally characterized as non-core loans and represent runoff portfolios. Core loans as reported in Table 20

include loans held in the Consumer Banking and GWIM segments, as well as loans held for ALM activities in All Other.

As shown in Table 20, outstanding core consumer real estate loans increased \$7.5 billion during the three months ended March 31, 2020 driven by an increase of \$7.9 billion in residential mortgage, partially offset by a\$353 million decrease in home equity.

⁽¹⁾ Outstandings and nonperforming loans exclude loans accounted for under the fair value option. Consumer loans accounted for under the fair value option include residential mortgage loans \$231 million and \$257 million and \$25

We believe that the presentation of information adjusted to exclude the impact of the fully-insured loan portfolio and loans accounted for under the fair value option is more representative of the ongoing operations and credit quality of the business. As a result, in the following tables and discussions of the residential mortgage and home equity portfolios, we exclude loans accounted for under the fair value option and provide information that excludes the impact of the fullyinsured loan portfolio in certain credit quality statistics.

Residential Mortgage

The residential mortgage portfolio made up the largest percentage of our consumer loan portfolio at 52 percent of consumer loans and leases at March 31, 2020. Approximately 51 percent of the residential mortgage portfolio was in Consumer Banking and 36 percent was in GWIM. The remaining portion was in All Other and was comprised of loans used in our overall ALM activities,

delinquent FHA loans repurchased pursuant to our servicing agreements with the Government National Mortgage Association as well as loans repurchased related to our representations and warranties

Outstanding balances in the residential mortgage portfolio increased \$7.4 billion during the three months ended March 31, 2020 as retention of new originations was partially offset by runoff.

At March 31, 2020 and December 31, 2019, the residential mortgage portfolio included \$18.8 billion and \$18.7 billion of outstanding fully-insured loans, of which \$10.9 billion and \$11.2 billion had FHA insurance with the remainder protected by long-term standby agreements.

Table 21 presents certain residential mortgage key credit statistics on both a reported basis and excluding the fully-insured loan portfolio. The following discussion presents the residential mortgage portfolio excluding the fully-insured loan portfolio.

⁽³⁾ Home equity allowance includes a reserve for unfunded lending commitments of \$149 million atMarch 31,

⁽¹⁾ Outstandings, accruing past due, nonperforming loans and percentages of portfolio exclude loans accounted for under the fair value option. For information on our interest accrual policies and delinquency status for loan modifications related to the COVID-19 pandemic, see Note 1 – Summary of Significant Accounting Principles to the Consolidated Financial Statements.

Nonperforming outstanding balances in the residential mortgage portfolio increased \$110 million during the three months ended March 31, 2020 primarily driven by the inclusion of certain loans that were previously classified as purchased credit-impaired loans and accounted for under a pool basis. Upon adoption of the new credit loss standard, these loans are accounted for on an individual basis and, if applicable, included in nonperforming loans. Of the nonperforming residential mortgage loans at March 31, 2020, \$612 million, or 39 percent, were current on contractual payments. Loans accruing past due 30 days or more increased \$42 million.

Net charge-offs increased \$15 million to a net recovery of \$1 million for the three months ended March 31, 2020 compared to a net recovery of \$16 million for the same period in 2019, as the prior-year period included recoveries on sales of previously charged-off loans.

Of the \$224.7 billion in total residential mortgage loans outstanding at March 31, 2020, as shown in Table 21, 26 percent were originated as interest-only loans. The outstanding balance of interest-only residential mortgage loans that have entered the amortization period was \$7.0 billion, or 12 percent, at March 31, 2020. Residential mortgage loans that have entered the amortization period generally have experienced a higher rate of early stage delinquencies and nonperforming status compared to

the residential mortgage portfolio as a whole. At March 31, 2020, \$125 million, or two percent of outstanding interest-only residential mortgages that had entered the amortization period were accruing past due 30 days or more compared to \$1.3 billion, or one percent, for the entire residential mortgage portfolio. In addition, at March 31, 2020, \$287 million, or four percent, of outstanding interest-only residential mortgage loans that had entered the amortization period were nonperforming, of which \$115 million were contractually current, compared to \$1.6 billion, or one percent, for the entire residential mortgage portfolio. Loans that have yet to enter the amortization period in our interest-only residential mortgage portfolio are primarily well-collateralized loans to our wealth management clients and have an interest-only period of three to ten years. Approximately 95 percent of these loans that have yet to enter the amortization period will not be required to make a fully-amortizing payment until 2022 or later.

Table 22 presents outstandings, nonperforming loans and net charge-offs by certain state concentrations for the residential mortgage portfolio. The Los Angeles-Long Beach-Santa Ana Metropolitan Statistical Area (MSA) within California represented 16 percent of outstandings at bothMarch 31, 2020 and December 31, 2019. In the New York area, the New York-Northern New Jersey-Long Island MSA made up 13 percent of outstandings at both March 31, 2020 and December 31, 2019.

Home Equity

A t March 31, 2020, the home equity portfolio made upnine percent of the consumer portfolio and was comprised of home equity lines of credit (HELOCs), home equity loans and reverse mortgages. We no longer originate home equity loans or reverse mortgages.

At March 31, 2020, our HELOC portfolio had an outstanding balance of \$37.0 billion, or 94 percent of the total home equity

portfolio, compared to \$37.5 billion, or 93 percent, at December 31, 2019. HELOCs generally have an initial draw period of 10 years, and after the initial draw period ends, the loans generally convert to 15- or 20-year amortizing loans.

At both March 31, 2020 and December 31, 2019, our home equity loan portfolio had an outstanding balance of \$1.2 billion, or three percent of the total home equity portfolio. At March 31, 2020, our reverse mortgage portfolio had an outstanding balance

⁽²⁾ These vintages of loans accounted for \$440 million, or 28 percent, and \$365 million, or 25 percent, of nonperforming residential mortgage loans at March 31, 2020 and December 31,

of \$1.4 billion, or three percent of the total home equity portfolio, compared to \$1.5 billion, or four percent, at December 31, 2019.

At March 31, 2020, 80 percent of the home equity portfolio was in Consumer Banking, 12 percent was in All Other and the remainder of the portfolio was primarily in GWIM. Outstanding balances in the home equity portfoliodecreased \$641 million during the three months ended March 31, 2020 primarily due to paydowns outpacing new originations and draws on existing lines. Of the total home equity portfolio at March 31, 2020 and December 31, 2019, \$14.8 billion, or 37 percent, and \$15.0 billion, or 37 percent, were in first-lien positions. At March 31, 2020,

outstanding balances in the home equity portfolio that were in a second-lien or more junior-lien position and where we also held the first-lien loan totaled \$6.9 billion, or 17 percent of our total home equity portfolio.

Unused HELOCs totaled \$43.7 billion and \$43.6 billion at March 31, 2020 and December 31, 2019. The increase was primarily driven by new production partially offset by customers choosing to close accounts. The HELOC utilization rate was 46 percent at both March 31, 2020 and December 31, 2019.

Table 23 presents certain home equity portfolio key credit statistics.

Table 23 Home Equity – Key Credit Statistics (1)

(Dollars in millions)	 March 31 2020	De	cember 31 2019
Outstandings	\$ 39,567	\$	40,208
Accruing past due 30 days or more (2)	205		218
Nonperforming loans (2)	578		536

2006 and 2007 vintages (3)	17		18

- (1) Outstandings, accruing past due, nonperforming loans and percentages of the portfolio exclude loans accounted for under the fair value option. For information on our interest accrual policies and delinquency status for loan modifications related to the COVID-19 pandemic, see Note 1 Summary of Significant Accounting Principles to the Consolidated Financial Statements.

 (2) Accruing past due 30 days or more include\$29 million and \$30 million and nonperforming loans include\$59 million and \$57 million of loans where we serviced the underlying first lien atMarch 31, 2020 and December 31,
- 2019.

 30 These vintages of loans accounted for 35 percent and 34 percent of nonperforming home equity loans atMarch 31, 2020 and December 31, 2019.

Nonperforming outstanding balances in the home equity portfolio increased \$42 million during the three months ended March 31, 2020 primarily driven by the inclusion of certain loans that were previously classified as purchased creditimpaired loans and accounted for under a pool basis. Upon adoption of the new credit loss standard, these loans are accounted for on an individual basis and, if applicable, included in nonperforming loans. Of the nonperforming home equity loans at March 31, 2020, \$266 million, or 46 percent, were current on contractual payments. Nonperforming loans that are contractually current primarily consist of collateral-dependent TDRs, including those that have been discharged in Chapter 7 bankruptcy, junior-lien loans where the underlying first lien is 90 days or more past due, as well as loans that have not yet demonstrated a sustained period of payment performance following a TDR. In addition, \$173 million, or 30 percent of nonperforming home equity loans were 180 days or more past due and had been written down to the estimated fair value of the collateral, less costs to sell. Accruing loans that were 30 days or more past due decreased \$13 million during the three months ended March 31, 2020.

Net charge-offs decreased \$22 million to a net recovery of \$11 million for the three months ended March 31, 2020 compared to net charge-offs of \$11 million for the same period in 2019, as the prior-year period included charge-offs from home equity loan sales.

Of the \$39.6 billion in total home equity portfolio outstandings at March 31, 2020, as shown in Table 23, 16 percent require interest-only payments. The outstanding balance of HELOCs that have reached the end of their draw period and have entered the amortization period was \$11.0 billion at March 31, 2020. The HELOCs that have entered the amortization period have

experienced a higher percentage of early stage delinquencies and nonperforming status when compared to the HELOC portfolio as a whole. At March 31, 2020, \$144 million, or one percent of outstanding HELOCs that had entered the amortization period were accruing past due 30 days or more. In addition, at March 31, 2020, \$406 million, or four percent, were nonperforming. Loans that have yet to enter the amortization period in our interest-only portfolio are primarily post-2008 vintages and generally have better credit quality than the previous vintages that had entered the amortization period. We communicate to contractually current customers more than a year prior to the end of their draw period to inform them of the potential change to the payment structure before entering the amortization period, and provide payment options to customers prior to the end of the draw

Although we do not actively track how many of our home equity customers pay only the minimum amount due on their home equity loans and lines, we can infer some of this information through a review of our HELOC portfolio that we service and that is still in its revolving period. During the three months ended March 31, 2020, 21 percent of these customers with an outstanding balance did not pay any principal on their HELOCs.

Table 24 presents outstandings, nonperforming balances and net charge-offs by certain state concentrations for the home equity portfolio. In the New York area, the New York-Northern New Jersey-Long Island MSA made up 13 percent of the outstanding home equity portfolio at both March 31, 2020 and December 31, 2019. The Los Angeles-Long Beach-Santa Ana MSA within California made up 11 percent of the outstanding home equity portfolio at bothMarch 31, 2020 and December 31, 2019.

Credit Card

At March 31, 2020, 97 percent of the credit card portfolio was managed in Consumer Banking with the remainder in GWIM. Outstandings in the credit card portfolio decreased \$5.7 billion during the three months ended March 31, 2020 to \$91.9 billion due to a seasonal decline in purchase volumes. Net charge-offs increased \$25 million to \$770 million during the three months ended March 31, 2020 compared to \$745 million for the same period in 2019 due to portfolio seasoning. Credit card loans 30

days or more past due and still accruing interestdecreased \$135 million and loans 90 days or more past due and still accruing interest decreased \$51 million due to seasonal declines.

Unused lines of credit for credit card increased to\$345.0 billion at March 31, 2020 from \$336.9 billion at December 31, 2019 driven by seasonally lower purchase volumes.

Table 25 presents certain state concentrations for the credit card portfolio.

Direct/Indirect Consumer

At March 31, 2020, 56 percent of the direct/indirect portfolio was included in Consumer Banking (consumer auto and specialty lending - automotive, recreational vehicle, marine, aircraft and consumer personal loans) and 44 percent was included in GWIM (principally securities-based lending loans).

Outstandings of \$90.2 billion in the direct/indirect portfolio were relatively unchanged at March 31, 2020 compared to December 31, 2019.

Table 26 presents certain state concentrations for the direct/indirect consumer loan portfolio.

Table 26 Direct/Indirect State Concentrations

Nonperforming Consumer Loans, Leases and Foreclosed Properties Activity

Table 27 presents nonperforming consumer loans, leases and foreclosed properties activity for the three months ended March 31, 2020 and 2019 During the three months ended March 31, 2020, nonperforming consumer loans increased \$151 million to \$2.2 billion primarily driven by the inclusion of \$150 million of certain loans that were previously classified as purchased credit-impaired loans and accounted for under a pool basis.

At March 31, 2020, \$673 million, or 31 percent of nonperforming loans were 180 days or more past due and had been written down to their estimated property value less costs to sell. In addition, at March 31, 2020, \$921 million, or 42 percent of nonperforming consumer loans were modified and are now

current after successful trial periods, or are current loans classified as nonperforming loans in accordance with applicable policies.

Foreclosed properties decreased \$3 million during the three months ended March 31, 2020 to \$226 million as liquidations outpaced additions.

Nonperforming loans also include certain loans that have been modified in TDRs where economic concessions have been granted to borrowers experiencing financial difficulties. Nonperforming TDRs are included in Table 27. For more information on our loan modification programs offered in response to the COVIDpandemic, which are not TDRs, see Executive Summary - Recent Developments - COVID-19 Pandemic 2020 on page 3 and Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements.

Nonperforming consumer loans, leases and foreclosed properties as a percentage of outstanding consumer loans, leases and foreclosed properties (3)		0.52		0.86

⁽¹⁾ Consumer loans may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of

Table 28 presents TDRs for the consumer real estate portfolio. Performing TDR balances are excluded from nonperforming loans and leases in Table 27. For more information on our loan modification programs offered in response to the COVID-19 pandemic, which are not TDRs, see Executive Summary - Recent Developments -COVID-19 Pandemic 2020 on page 3.

Table 28 Consumer Real Estate Troubled Debt Restructurings

		March 31, 2020					December 31, 2019					
(Dollars in millions)	Non	performing		Performing		Total		Nonperforming		Performing		Total
Residential mortgage (1, 2)	\$	881	\$	3,654	\$	4,535	\$	921	\$	3,832	\$	4,753
Home equity (3)		250		941		1,191		252		977		1,229
Total consumer real estate troubled debt restructurings	\$	1,131	\$	4,595	\$	5,726	\$	1,173	\$	4,809	\$	5,982

⁽¹⁾ At both March 31, 2020 and December 31, 2019, residential mortgage TDRs deemed collateral dependent totaled\$1.2 billion, and included\$720 million and \$748 million of loans classified as nonperforming and\$455 million and \$468 million of loans classified as performing.

(2) At March 31, 2020 and December 31, 2019, residential mortgage performing TDRs include\$2.0 billion and \$2.1 billion of loans that were fully-

In addition to modifying consumer real estate loans, we work with customers who are experiencing financial difficulty by modifying credit card and other consumer loans. Credit card and other consumer loan modifications generally involve a reduction in the customer's interest rate on the account and placing the customer on a fixed payment plan not exceeding 60 months, all of which are considered TDRs (the renegotiated TDR portfolio).

Modifications of credit card and other consumer loans are made through renegotiation programs utilizing direct customer contact, but may also utilize external renegotiation programs. The

renegotiated TDR portfolio is excluded in large part from Table 27 as substantially all of the loans remain on accrual status until either charged off or paid in full. At March 31, 2020 and December

31, 2019, our renegotiated TDR portfolio was \$694 million and \$679 million, of which \$590 million and \$570 million were current or less than 30 days past due under the modified terms. The increase in the renegotiated TDR portfolio was primarily driven by new renegotiated enrollments outpacing runoff of existing portfolios.

Commercial Portfolio Credit Risk Management

Commercial credit risk is evaluated and managed with the goal that concentrations of credit exposure continue to be aligned with our risk appetite. We review, measure and manage concentrations of credit exposure by industry, product, geography, customer relationship and loan size. We also review, measure and manage

collection.
(2) Foreclosed property balances do not include properties insured by certain government-guaranteed loans, principally FHA-insured, of 224 million and \$400 million at March 31, 2020 and

⁽³⁾ Outstanding consumer loans and leases exclude loans accounted for under the fair value

insured.
(3) At March 31, 2020 and December 31, 2019, home equity TDRs deemed collateral dependent totaled\$427 million and \$442 million, and include\$207 million and \$209 million of loans classified as nonperforming and\$220 million and \$233 million of loans classified as performing.

commercial real estate loans by geographic location and property type. In addition, within our non-U.S. portfolio, we evaluate exposures by region and by country. Tables 33, 36 and 39 summarize our concentrations. We also utilize syndications of exposure to third parties, loan sales, hedging and other risk mitigation techniques to manage the size and risk profile of the commercial credit portfolio. For more information on our industry concentrations, see Commercial Portfolio Credit Risk Management – Industry Concentrations on page 35 and Table 36.

For more information on our accounting policies regarding delinquencies, nonperforming status, net charge-offs and TDRs for the commercial portfolio, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

For information on the accounting for loan modifications related to the COVID-19 pandemic, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements.

Commercial Credit Portfolio

During the three months ended March 31, 2020, commercial asset quality weakened as a result of the economic impact from COVID-19. Large corporate and commercial clients drew down on their existing lines of credit which contributed to a \$67.2 billion increase in commercial loans for the three months ended March 31, 2020. These draws were well diversified across industries and approximately 90 percent were investment grade or collateralized.

Credit quality of commercial real estate borrowers in most sectors remained stable but also began to experience varying degrees of strain as a result of COVID-19. Many real estate markets experienced disruption in demand, supply chain challenges and underlying tenant difficulties.

The commercial allowance for loan and lease losses increased \$1.8 billion during the three months ended March 31, 2020 to \$6.7 billion due to the deterioration in the economic outlook resulting from the impact of COVID-19. For more information, see Allowance for Credit Losses on page 38.

Total commercial utilized credit exposure increased \$84.6 billion during the three months ended March 31, 2020 to \$719.9 billion driven by higher loans and leases. The utilization rate for loans and leases, standby letters of credit (SBLCs) and financial quarantees, and commercial letters of credit, in the aggregate, was 64 percent at March 31, 2020 and 58 percent at December 31, 2019.

Table 29 presents commercial credit exposure by type for utilized, unfunded and total binding committed credit exposure. Commercial utilized credit exposure includes SBLCs and financial guarantees and commercial letters of credit that have been issued and for which we are legally bound to advance funds under prescribed conditions during a specified time period, and excludes exposure related to trading account assets. Although funds have not yet been advanced, these exposure types are considered utilized for credit risk management purposes.

Table 29 Commercial Credit Exposure by Type

	Commercial Utilized (1)			Commercial I	Unfun	ded (2, 3, 4)	Total Commercial Committed			
(Dollars in millions)	March 31 2020		December 31 2019	March 31 2020		December 31 2019		March 31 2020	D	ecember 31 2019

Operating leases	6,994		6,660	_		_		6,994		6,660
Commercial letters of credit	871		1,049	365		451		1,236		1,500
Other	665		800	_				665		800
Total	\$ 719,882	\$	635,306	\$ 360,862	\$	426,989	\$	1,080,744	\$	1,062,295

⁽¹⁾ Commercial utilized exposure includes loans of \$8.5 billion and \$7.7 billion and issued letters of credit with a notional amount of \$156 million and \$170 million accounted for under the fair value option atMarch 31, 2020 and December 31,

Outstanding commercial loans and leases increased \$67.2 billion during the three months ended March 31, 2020 primarily in the commercial and industrial portfolio. Nonperforming commercial loans increased \$353 million and commercial reservable criticized utilized exposure increased \$5.9 billion driven primarily by the impact of COVID-19 and was broad-based across industries. Table 30 presents our commercial loans and leases portfolio and related credit quality information at March 31, 2020 and December 31, 2019.

⁽²⁾ Commercial unfunded exposure includes commitments accounted for under the fair value option with a notional amount of 3.6 billion and \$4.2 billion at March 31, 2020 and December 31.

⁽³⁾ Excludes unused business card lines, which are not legally

binding.
(4) Includes the notional amount of unfunded legally binding lending commitments net of amounts distributed (i.e., syndicated or participated) to other financial institutions. The distributed amounts were\$10.5 billion and \$10.6 billion at March 31, 2020 and

December 31, 2019. Derivative assets are carried at fair value, reflect the effects of legally enforceable master netting agreements and have been reduced by cash collateral of \$3.4 billion and \$33.9 billion at March 31, 2020 and December 31, 2019. Not reflected in utilized and committed exposure is additional non-cash derivative collateral held of \$35.7 billion and \$35.7 billion and \$35.7 billion and \$35.2 billion at March 31, 2020 and December 31, 2019, which consists primarily of other marketable securities.

⁽¹⁾ Net charge-off ratios are calculated as net charge-offs divided by average outstanding loans and leases excluding loans accounted for under the fair value option.

Table 32 presents commercial reservable criticized utilized exposure by loan type. Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories as defined by regulatory authorities. Total commercial reservable criticized utilized exposure increased \$5.9 billion, or 52 percent, during the three months ended March 31, 2020 driven by the

impact of COVID-19 with increases spread across multiple industries including the energy sector, which was also impacted by the weakness in oil prices and oil price volatility in the quarter. At March 31, 2020 and December 31, 2019, 89 percent and 90 percent of commercial reservable criticized utilized exposure was secured.

Table 32 Commercial Reservable Criticized Utilized Exposure (1, 2)

Total commercial reservable criticized utilized exposure (1)	\$	17,400	2.84	\$ 11,452	2.09

⁽¹⁾ Total commercial reservable criticized utilized exposure includes loans and leases of \$16.5 billion and \$10.7 billion and commercial letters of credit of \$884 million and \$715 million at March 31, 2020 and December 31, 2019.

(2) Percentages are calculated as commercial reservable criticized utilized exposure divided by total commercial reservable utilized exposure for each exposure category.

Commercial and Industrial

Commercial and industrial loans include U.S. commercial and non-U.S. commercial portfolios.

U.S. Commercial

At March 31, 2020, 72 percent of the U.S. commercial loan portfolio, excluding small business, was managed in Global

⁽¹⁾ Includes card-related products.
(2) Commercial loans accounted for under the fair value option include U.S. commercial of\$5.1 billion and \$4.7 billion and \$4.7 billion and \$3.4 billion at March 31, 2020 and December 31, 2019. For more information on the fair value option, see Note 15 – Fair Value Option to the Consolidated Financial Statements.
(3) For information on our interest accrual policies and delinquency status for loan modifications related to the COVID-19 pandemic, seeNote 1 – Summary of Significant Accounting Principles to the Consolidated Financial

Banking, 15 percent in Global Markets, 12 percent in GWIM (generally businesspurpose loans for high net worth clients) and the remainder primarily in Consumer Banking. U.S. commercial loans increased \$51.5 billion during the three months ended March 31, 2020 across all lines of business. Reservable criticized utilized exposure increased \$4.9 billion, or 59 percent, driven by the impact of COVID-19 and was broad-based across industries.

Non-U.S. Commercial

At March 31, 2020, 83 percent of the non-U.S. commercial loan portfolio was managed in *Global Banking* a n d 17 percent in *Global Markets*. Non-U.S. commercial loans increased \$11.6 billion during the three months ended March 31, 2020, primarily in *Global Banking*. For information on the non-U.S. commercial portfolio, see Non-U.S. Portfolio on page 37.

Commercial Real Estate

Commercial real estate primarily includes commercial loans secured by non-owner-occupied real estate and is dependent on the sale or lease of the real estate as the primary source of repayment. Outstanding loans increased \$4.0 billion, or six percent, during the three months ended March 31, 2020to \$66.7

billion due to new originations and increased utilizations under existing credit facilities outpacing paydowns. The portfolio remains diversified across property types and geographic regions. California represented the largest state concentration at 23 percent and 24 percent of the commercial real estate portfolio at March 31, 2020 and December 31, 2019. The commercial real estate portfolio is predominantly managed in *Global Banking* and consists of loans made primarily to public and private developers, and commercial real estate firms.

For the three months ended March 31, 2020, we continued to see low default rates and solid credit quality although we began to see some developing weakness in the non-residential portfolio toward the end of the quarter. We use a number of proactive risk mitigation initiatives to reduce adversely rated exposure in the commercial real estate portfolio, including transfers of deteriorating exposures to management by independent special asset officers and the pursuit of loan restructurings or asset sales to achieve the best results for our customers and the Corporation.

Table 33 presents outstanding commercial real estate loans by geographic region, based on the geographic location of the collateral, and by property type.

Table 33 Outstanding Commercial Real Estate Loans

⁽¹⁾ Includes unsecured loans to real estate investment trusts and national home builders whose portfolios of properties span multiple geographic regions and properties in the states of Colorado, Utah, Hawaii, Wyoming and

U.S. Small Business Commercial

The U.S. small business commercial loan portfolio is comprised of small business card loans and small business loans managed in *Consumer Banking*. Credit card-related products were 52 percent of the U.S. small business commercial portfolio at both March 31, 2020 and December 31, 2019. Of the U.S. small business commercial net charge-offs, 90 percent and 95 percent were credit card-related products for the three months ended March 31, 2020 and 2019.

Nonperforming Commercial Loans, Leases and Foreclosed Properties

Table 34 presents the nonperforming commercial loans, leases and foreclosed properties activity during the three months ended

March 31, 2020 and 2019. Nonperforming loans do not include loans accounted for under the fair value option. During the three months ended March 31, 2020, nonperforming commercial loans and leases increased \$353 million to \$1.9 billion, driven primarily by the impact of COVID-19. At March 31, 2020, 92 percent of commercial nonperforming loans, leases and foreclosed properties were secured and 63 percent were contractually current. Commercial nonperforming loans were carried at 86 percent of their unpaid principal balance before consideration of the allowance for loan and lease losses as the carrying value of these loans has been reduced to the estimated collateral value less costs to sell.

Industry Concentrations

Table 36 presents commercial committed and utilized credit exposure by industry and the total net credit default protection purchased to cover the funded and unfunded portions of certain credit exposures. Our commercial credit exposure is diversified across a broad range of industries. Total commercial committed exposure increased \$18.4 billion, or two percent, during the three months ended March 31, 2020 to \$1.1 trillion. The increase in commercial committed exposure was concentrated in the Financial markets infrastructure, Capital goods, and Transportation industry sectors. Increases were partially offset by decreased exposure to the Utilities, Consumer services, and Commercial services and supplies industry sectors.

For information on industry limits, see Commercial Portfolio Credit Risk Management - Industry Concentrations in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

Asset managers and funds, our largest industry concentration with committed exposure of \$109.3 billion, decreased \$693 million, or one percent, during the three months ended March 31, 2020.

Real estate, our second largest industry concentration with committed exposure of \$95.5 billion, decreased \$875 million, or

one percent, during the three months ended March 31, 2020. For more information on the commercial real estate and related portfolios, see Commercial Portfolio Credit Risk Management - Commercial Real Estate on page 34.

Capital goods, our third largest industry concentration with committed exposure of \$85.5 billion, increased \$4.7 billion, or six percent, during the three months ended March 31, 2020 with the growth largely occurring in the aerospace and defense, and machinery and industrial conglomerates categories, partially offset by a decrease in building products.

Given the widespread impact the COVID-19 pandemic is having on the U.S. and global economy, a number of industries have been or will be adversely impacted. We continue to monitor all industries, particularly higher risk industries, that are experiencing or are expected to experience a more significant impact to their financial condition. In addition, we continue to assess potential mitigants such as the various stimulus programs designed to support these clients and industries through the COVID-19 pandemic. The impact of the COVID-19 pandemic has also placed significant stress on global demand for oil, resulting in a steep decline in prices. Our energy-related committed exposure increased \$1.7 billion, or five percent, during the three months ended March 31, 2020to \$38.0

⁽²⁾ Includes U.S. small business commercial activity. Small business card loans are excluded as they are not classified as

nonperforming.

(3) Commercial loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection. TDRs are generally classified as performing after a sustained period of demonstrated payment performance.

(4) Outstanding commercial loans exclude loans accounted for under the fair value

Risk Mitigation

We purchase credit protection to cover the funded portion as well as the unfunded portion of certain credit exposures. To lower the cost of obtaining our desired credit protection levels, we may add credit exposure within an industry, borrower or counterparty group by selling protection.

A t March 31, 2020 and December 31, 2019, net notional credit default protection purchased in our credit derivatives portfolio to hedge our funded and unfunded exposures for which we elected the fair value option, as well as certain other credit exposures, was \$6.5 billion and \$3.3 billion. We recorded net gains on these positions of \$229 million for the three months ended March 31, 2020 compared to net losses of \$65 million for the same period in 2019. The gains and losses on these instruments were offset by gains and losses on the related exposures. The Value-at-Risk

(VaR) results for these exposures are included in the fair value option portfolio information in Table 42. For more information, see Trading Risk Management on

Tables 37 and 38 present the maturity profiles and the credit exposure debt ratings of the net credit default protection portfolio at March 31, 2020 and December 31, 2019.

For more information on credit derivatives and counterparty credit risk valuation adjustments, see Note 3 - Derivatives to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Non-U.S. Portfolio

Our non-U.S. credit and trading portfolios are subject to country risk. We define country risk as the risk of loss from unfavorable economic and political conditions, currency fluctuations, social instability and changes in government policies. A risk management framework is in place to measure, monitor and manage non-U.S. risk and exposures. In addition to the direct risk of doing business in a country, we also are exposed to indirect country risks (e.g., related to the collateral received on secured financing transactions or related to client clearing activities). These indirect exposures are managed in the normal course of business through credit, market and operational risk governance, rather than through country risk governance.

Table 39 presents our 20 largest non-U.S. country exposures atMarch 31, 2020. These exposures accounted for 90 percent and 88 percent of our total non-U.S. exposure at March 31, 2020 and December 31, 2019. Net country exposure for these 20 countries increased \$43.9 billion in the three months ended March 31, 2020, primarily driven by increased sovereign and corporate exposure across multiple countries. The majority of the increase was due to higher deposits with non-U.S. central banks and increased counterparty exposure.

Ireland	2,756	930)	326	445		4,457	(15)	4,442	1,075
United Arab Emirates	3,179	160	1	374	62		3,778	(43)	3,735	148
Total top 20 non-U.S. countries exposure	\$ 199,830	\$ 51,985	\$	30,234	\$ 31,619	\$	313,668	\$ (13,024)	\$ 300,644	\$ 43,915

Our largest emerging market country exposure atMarch 31, 2020 was China, with net exposure of \$14.8 billion, concentrated in large state-owned companies, subsidiaries of multinational corporations and commercial banks.

Our largest non-U.S. country exposure atMarch 31, 2020 was the U.K. with net exposure of \$61.8 billion, which represents a \$6.0 billion increase from December 31, 2019. Our second largest non-U.S. country exposure was Germany with net exposure of \$44.9 billion at March 31, 2020, a \$14.1 billion increase from December 31, 2019. The increase in Germany was primarily driven by an increase

In light of the COVID-19 global pandemic, we are monitoring our non-U.S. exposure closely, particularly in countries where restrictions on certain activities, in an attempt to contain the spread and impact of the virus, have affected and will continue

to adversely affect economic activity. We are managing the impact to our international business operations as part of our overall response framework and are taking actions to manage exposure carefully in impacted regions while supporting the needs of our clients. The magnitude and duration of the COVID-19 pandemic and its full impact on the global economy is highly uncertain. The impact of the COVID-19 pandemic could have an adverse impact on the global economy for a prolonged period of time. For more information on how the COVID-19 pandemic may affect our operations, see Executive Summary - Recent Developments - COVID-19 Pandemic 2020 on page 3 and Part II, Item 1A. Risk Factors on page 96.

Allowance for Credit Losses

On January 1, 2020, the Corporation adopted the new accounting standard that requires the measurement of the allowance for credit losses to be based on management's best estimate of lifetime expected credit losses inherent in the Corporation's relevant financial assets. Upon adoption of the new accounting standard, the Corporation recorded a net increase of \$3.3 billion in the allowance for credit losses on January 1, 2020 which was comprised of a net increase of \$2.9 billion in the allowance for loan and lease losses and an increase of\$310 million in the reserve for unfunded lending commitments. The net increase was

primarily driven by a \$3.1 billion increase related to the credit card portfolio. The allowance for credit losses further increased by \$3.6 billion at March 31, 2020, which included a \$2.2 billion increase in the commercial portfolio and a \$774 million increase in the credit card portfolio. The increases were primarily due to the deterioration in the economic outlook resulting from the impact of COVID-19. The following table presents an allocation of the allowance for credit losses by product type for March 31, 2020, January 1, 2020 and December 31, 2019 (prior to the adoption of the CECL accounting standard).

Table 40 Allocation of the Allowance for Credit Losses by Product Type

⁽¹⁾ Ratios are calculated as allowance for loan and lease losses as a percentage of loans and lease soutstanding excluding loans accounted for under the fair value option. Consumer loans accounted for under the fair value option include residential mortgage loans of \$231 million at March 31, 2020 and \$257 million at January 1, 2020 and December 31, 2019 and home equity loans of \$325 million at March 31, 2020 and \$337 million at January 1, 2020 and December 31, 2019 and home equity loans of \$325 million at March 31, 2020 and \$337 million at January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020, January 1, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020 and December 31, 2019 and non-U.S. commercial loans of \$3.4 billion at March 31, 2020 and December 31, 2019 an

2019. n/m = not meaningful

Net charge-offs for the three months ended March 31, 2020 were \$1.1 billion compared to \$991 million for the same period in 2019 driven by increases in commercial losses. The provision for credit losses for the three months ended March 31, 2020 was \$4.8 billion which was \$3.7 billion higher than the same period in 2019. The provision for credit losses was \$3.6 billion higher than net charge-offs for the three months ended March 31, 2020, which was primarily due to the deterioration in the economic outlook resulting from the impact of COVID-19 on both the consumer and commercial portfolios. The provision for credit losses for the consumer portfolio, including unfunded lending commitments, increased \$1.3 billion to \$2.1 billion for the three months ended March 31, 2020 compared to the same period in 2019. The provision for credit losses for the commercial portfolio, including

unfunded lending commitments, increased \$2.5 billion to \$2.7 billion for the three months ended March 31, 2020 compared to the same period in 2019.

The following table presents a rollforward of the allowance for credit losses, including certain loan and allowance ratios for the three months ended March 31, 2020 and 2019, noting that measurement of the allowance for credit losses for 2019 was based on management's estimate of probable incurred losses. For more information on the Corporation's credit loss accounting policies and activity related to the allowance for credit losses, see Note 1 - Summary of Significant Accounting Principles and Note 5 - Outstanding Loans and Leases and Allowance for Credit Losses to the Consolidated Financial Statements.

⁽¹⁾ Includes U.S. small business commercial charge-offs of \$86 million and \$79 million for the three months ended March 31, 2020 and 2019.
(2) Includes U.S. small business commercial recoveries of \$11 million and \$11 million for the three months ended March 31, 2020 and 2019.

<sup>2019.

(</sup>S) Primarily represents write-offs of purchased credit-impaired (PCI) loans in 2019, and the net impact of portfolio sales, transfers to held for sale and transfers to foreclosed properties.

(4) Outstanding loan and lease balances and ratios do not include loans accounted for under the fair value option of 9.0 billion and \$6.2 billion at March 31, 2020 and 2019. Average loans accounted for under the fair value option were \$8.6 billion and \$5.0 billion and \$5.0 billion at March 31, 2020 and 2019.

(5) Excludes consumer loans accounted for under the fair value option of \$5.5 billion and \$5.5 billion and \$5.5 billion and \$5.0 billion and

Market Risk Management

For more information on our market risk management process, seeMarket Risk Management in the MD&A of the Corporation's 2019 Annual Report on Form 10-K

Market risk is the risk that changes in market conditions may adversely impact the value of assets or liabilities, or otherwise negatively impact earnings. This risk is inherent in the financial instruments associated with our operations, primarily within our Global Markets segment. We are also exposed to these risks in other areas of the Corporation (e.g., our ALM activities). In the event of market stress, these risks could have a material impact on our results.

We have been affected, and expect to continue to be affected, by market stress resulting from the COVID-19 pandemic that began in the first quarter of 2020. For more information on the effects of the pandemic, see Executive Summary - Recent Developments - COVID-19 Pandemic 2020 on page 3.

Trading Risk Management

To evaluate risks in our trading activities, we focus on the actual and potential volatility of revenues generated by individual positions as well as portfolios of positions. VaR is a common statistic used to measure market risk. Our primary VaR statistic is equivalent to a 99 percent confidence level, which means that for a VaR with a one-day holding period, there should not be losses in excess of VaR, on average, 99 out of 100 trading days.

Table 42 presents the total market-based portfolio VaR which is the combination of the total covered positions (and less liquid trading positions) portfolio and the fair value option portfolio. For more information on the market risk VaR for trading activities, see Trading Risk Management in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

The total market-based portfolio VaR results in Table 42 include market risk to which we are exposed from all business segments, excluding credit valuation adjustment (CVA), DVA and related hedges. The majority of this portfolio is within the Global Markets segment.

Table 42 presents year-end, average, high and low daily trading VaR for the three months ended March 31, 2020, December 31, 2019 and March 31, 2019 using a 99 percent confidence level. The amounts disclosed in Table 42 and Table 43 align to the view of covered positions used in the Basel 3 capital calculations. Foreign exchange and commodity positions are always considered covered positions, regardless of trading or banking treatment for the trade, except for structural foreign currency positions that are excluded with prior regulatory approval.

The average of total covered positions and less liquid trading positions portfolio VaR increased for the three months ended March 31, 2020 compared to the previous quarter primarily due to increased market volatility in March as a result of the effects of the COVID-19 pandemic, which heightened VaR for equity and credit risk factors.

Table 42

Market Risk VaR for Trading Activities

											Three M	onth:	s Ended

Fair value option hedges		13		11		16	9		10		11		15	8	4		10		17		4
Fair value option portfolio diversification		(13)		(11)		_	_		(9)		(8)		_	_	(6)		(9)		_		_
Total fair value option portfolio		75		16	_	75	9		9		13		16	9	5		9		16		5
Portfolio diversification		(21)		(11)	-	_	_		(5)		(11)		_	_	(4)		(6)		_		_
Total market-based portfolio	\$	152	\$	53	-	171	32	\$	45	\$	37		46	29	\$ 42	\$	40		56		30

(1) The high and low for each portfolio may have occurred on different trading days than the high and low for the components. Therefore the impact from less liquid exposures and the amount of portfolio diversification, which is the difference between the total portfolio and the sum of the individual components, is not relevant.

The graph below presents the daily covered positions and less liquid trading positions portfolio VaR for the previous five quarters, corresponding to the data in able 42. Peak VaR in mid-March was driven by increased market realized volatility and higher implied volatilities.

Additional VaR statistics produced within our single VaR model are provided inTable 43 at the same level of detail as inTable 42. Evaluating VaR with additional statistics allows for an increased understanding of the risks in the portfolio as the historical market data used in the VaR calculation does not necessarily follow a predefined statistical distribution. Table 43 presents average trading VaR statistics at 99 percent and 95 percent confidence levels for thethree months ended March 31, 2020, December 31, 2019 and March 31, 2019.

Table 43

Backtesting

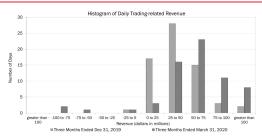

The accuracy of the VaR methodology is evaluated by backtesting, which compares the daily VaR results, utilizing a one-day holding period, against a comparable subset of trading revenue. For more information on our backtesting process, see Trading Risk Management — Backtesting in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

During the three months ended March 31, 2020, there were seven days where this subset of trading revenue had losses that exceeded our total covered portfolio VaR, utilizing a one-day holding period.

Total Trading-related Revenue

Total trading-related revenue, excluding brokerage fees, and CVA, DVA and funding valuation adjustment gains (losses), represents the total amount earned from trading positions, including market-based net interest income, which are taken in a diverse range of financial instruments and markets. For more information, see Trading Risk Management – Total Trading-related Revenue in the MD&A of the Corporation's 2019 Annual Report on Form 10-K

The following histogram is a graphic depiction of trading volatility and illustrates the daily level of trading-related revenue for the three months ended March 31, 2020 compared to the three months endedDecember 31, 2019. During the three months ended March 31, 2020, positive trading-related revenue was recorded for 94 percent of the trading days, of which 89 percent were daily trading gains of over \$25 million, and the largest loss was \$90 million. This compares to the three months ended December 31, 2019 where positive trading-related revenue was recorded for 98 percent of the trading days, of which 73 percent were daily trading gains of over \$25 million, and the largest loss was \$4 million.

Trading Portfolio Stress Testing

Because the very nature of a VaR model suggests results can exceed our estimates and it is dependent on a limited historical window, we also stress test our portfolio using scenario analysis. This analysis estimates the change in the value of our trading portfolio that may result from abnormal market movements. For more information, see Trading Risk Management – Trading Portfolio Stress Testing in the MD&A of the Corporation's 2019 Annual Report on Form 10-K

Interest Rate Risk Management for the Banking Book

The following discussion presents net interest income for banking book activities. For more information, see Interest Rate Risk Management for the Banking Bookin the MD&A of the Corporation's 2019 Annual Report on Form 10-K

Table 44 presents the spot and 12-month forward rates used in our baseline forecasts at March 31, 2020 and December 31, 2019.

Table 44 Forward Rates

		March 31, 2020	
	Federal Funds	Three-month LIBOR	10-Year Swap
Spot rates	0.25 %	1.45 %	0.72%
12-month forward rates	0.25	0.28	0.76
		December 31, 2019	
Spot rates	1.75 %	1.91 %	1.90 %
12-month forward rates	1.50	1.62	1.92

Table 45 shows the pretax impact to forecasted net interest income over the next 12 months from March 31, 2020 and December 31, 2019 resulting from instantaneous parallel and non-parallel shocks to the market-based forward curve. Periodically we evaluate the scenarios presented so that they are meaningful in the context of the current rate environment. The interest rate scenarios also assume U.S. dollar rates are floored at zero.

In the three months ended March 31, 2020, the asset sensitivity of our balance sheet increased primarily due to decreases in interest rates. We continue to be asset sensitive to a parallel move in interest rates with the majority of that impact coming from the short end of the yield curve. Additionally, higher interest rates impact the fair value of debt securities and, accordingly, for debt securities classified as AFS, may adversely affect OCI and thus capital levels under the Basel 3 capital rules. Under instantaneous upward parallel shifts, the near-term adverse impact to Basel 3 capital is reduced over time by offsetting positive impacts to net interest income. For more information on Basel 3, see Capital Management – Regulatory Capital on page 19.

Table 45 Estimated Banking Book Net Interest Income Sensitivity to Curve Changes

(Dollars in millions)	Short Rate (bps)	Long Rate (bps)	March 31 2020	December 31 2019
Parallel Shifts				
+100 bps instantaneous shift	+100	+100	\$ 7,205	\$ 4,190
-25 bps instantaneous shift	-25	-25	(2,285)	(1,500)
Flatteners				
Short-end instantaneous change	+100	_	4,533	2,641
Long-end instantaneous change	_	-25	(864)	(653)
Steepeners				
Short-end instantaneous change	-25	_	(1,418)	(844)
Long-end instantaneous change	_	+100	2,701	1,561

The sensitivity analysis in Table 45 assumes that we take no action in response to these rate shocks and does not assume any change in other macroeconomic variables normally correlated with changes in interest rates. As part of our ALM activities, we use securities, certain residential mortgages, and interest rate and foreign exchange derivatives in managing interest rate sensitivity.

The behavior of our deposits portfolio in the baseline forecast and in alternate interest rate scenarios is a key assumption in our projected estimates of net interest income. The sensitivity analysis in Table 45 assumes no change in deposit portfolio size or mix from the baseline forecast in alternate rate environments. In higher rate scenarios, any customer activity resulting in the replacement of low-cost or noninterest-bearing deposits with higher yielding deposits or market-based funding would reduce our benefit in those scenarios.

Interest Rate and Foreign Exchange Derivative Contracts

Interest rate and foreign exchange derivative contracts are utilized in our ALM activities and serve as an efficient tool to manage our interest rate and foreign exchange risk. We use derivatives to hedge the variability in cash flows or changes in fair value on our balance sheet due to interest rate and foreign exchange components. For more information on our hedging activities, see *Note 3 — Derivatives* to the Consolidated Financial Statements. For more information on interest rate contracts and risk management, see Interest Rate Risk Management for the Banking Book in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

We use interest rate derivative instruments to hedge the variability in the cash flows of our assets and liabilities and other forecasted transactions (collectively referred to as cash flow hedges). The net results on both open and terminated cash flow hedge derivative instruments recorded in accumulated OCI were a gain of \$39 million and a loss of \$496 million, on a pretax basis, atMarch 31, 2020 and December 31, 2019. These gains (losses) are expected to be reclassified into earnings in the same period as the hedged cash flows affect earnings and will decrease income or increase expense on the respective hedged cash flows. Assuming no change in open cash flow derivative hedge positions and no changes in prices or interest rates beyond what is implied in forward yield curves at March 31, 2020, the after-tax net losses are expected to be reclassified into earnings as follows: a gain of \$77 million within the next year, a gain of \$104 million in years two through five, a loss of \$100 million in years six through ten, with the remaining loss of \$64 million thereafter. For more information on derivatives designated as cash flow hedges, see Note 3 - Derivatives to the Consolidated Financial Statements.

We hedge our net investment in non-U.S. operations determined to have functional currencies other than the U.S. dollar using forward foreign exchange contracts that typically settle in less than 180 days, cross-currency basis swaps and foreign exchange options. We recorded net after-tax losses on derivatives in accumulated OCI associated with net investment hedges which were offset by gains on our net investments in consolidated non-U.S. entities at March 31, 2020.

Table 46 presents derivatives utilized in our ALM activities and shows the notional amount, fair value, weighted-average receive-fixed and pay-fixed rates, expected maturity and average estimated durations of our open ALM derivatives at March 31, 2020 and December 31, 2019. These amounts do not include derivative hedges on our MSRs. During the three months ended March 31, 2020, the fair value of receive-fixed interest rate swaps increased while pay-fixed interest swaps decreased, primarily driven by lower swap rates on hedges of U.S. dollar long-term debt.

Mortgage Banking Risk Management

We originate, fund and service mortgage loans, which subject us to credit, liquidity and interest rate risks, among others. We determine whether loans will be held for investment or held for sale at the time of commitment and manage credit and liquidity risks by selling or securitizing a portion of the loans we originate.

Changes in interest rates impact the value of interest rate lock commitments (IRLCs) and the related residential first mortgage loans held-for-sale (LHFS), as well as the value of the MSRs. Because the interest rate risks of these hedged items offset, we combine them into one overall hedged item with one combined economic hedge portfolio consisting of derivative contracts and securities. For more information on IRLCs and the related residential mortgage LHFS, see Mortgage Banking Risk Management in the MD&A of the Corporation's 2019 Annual Report on Form 10-K.

During the three months ended March 31, 2020 and 2019, we recorded gains of \$163 million and \$61 million related to the change in fair value of the MSRs, IRLCs and LHFS, net of gains and losses on the hedge portfolio.

Complex Accounting Estimates

Our significant accounting principles are essential in understanding the MD&A. Many of our significant accounting principles require complex judgments to estimate the values of assets and liabilities. We have procedures and processes in place to facilitate making these judgments. For more information, see Complex Accounting Estimates in the MD&A of the Corporation's 2019 Annual Report on Form 10-K and Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. Except as noted below under Allowance for Credit Losses, there have not been any material updates to our complex accounting estimates as disclosed in the MD&A of the Corporation's Annual Report on Form 10-K.

Allowance for Credit Losses

On January 1, 2020, the Corporation adopted the new accounting standard that requires the measurement of the allowance for credit losses, which includes the allowance for loan and lease losses and the reserve for unfunded lending commitments, to be based on management's best estimate of lifetime expected credit losses inherent in the Corporation's relevant financial assets.

The Corporation's estimate of lifetime expected credit losses includes the use of quantitative models that incorporate forwardlooking macroeconomic scenarios that are applied over the contractual life of the loan portfolios, adjusted for expected

prepayments and borrower controlled extension options. These

macroeconomic scenarios include variables that have historically been key drivers of increases and decreases in credit losses. These variables include, but are not limited to, unemployment rates, real estate prices, gross domestic product levels, corporate bond spreads and long-term interest rate forecasts. As any one economic outlook is inherently uncertain, the Corporation leverages multiple scenarios. The scenarios that are chosen each quarter and the amount of weighting given to each scenario depend on a variety of factors including recent economic events, leading economic indicators, views of internal as well as thirdparty economists and industry trends.

The Corporation also includes qualitative reserves to cover losses that are expected but, in the Corporation's assessment, may not be adequately represented in the economic assumptions described above. For example, factors that the Corporation considers include changes in lending policies and procedures, business conditions, the nature and size of the portfolio, portfolio concentrations, the volume and severity of past due loans and nonaccrual loans, the effect of external factors such as competition, and legal and regulatory requirements, among others. Further, the Corporation considers the inherent uncertainty in quantitative models that are built on historical data.

The allowance for credit losses can also be impacted by unanticipated changes in asset quality of the portfolio, such as increases in risk rating downgrades in our commercial portfolio, deterioration in borrower delinquencies or credit scores in our credit card portfolio or increases in LTVs in our consumer real estate portfolio. In addition, while we have incorporated our estimated impact of COVID-19 into our allowance for credit losses, the ultimate impact of COVID-19 is still unknown, including how long economic activities will be impacted and what effect the unprecedented levels of government fiscal and monetary actions will have on the economy and our credit losses.

As described above, the process to determine the allowance for credit losses requires numerous estimates and assumptions, some of which require a high degree of judgment and are often interrelated. Changes in the estimates and assumptions can result in significant changes in the allowance for credit losses. Our process for determining the allowance for credit losses is further discussed in Note 1 - Summary of Significant Accounting Principles and Note 5 - Outstanding Loans and Leases and Allowance for Credit Losses to the Consolidated Financial

Non-GAAP Reconciliations

<u>Item 3. Quantitative and Qualitative Disclosures about Market Risk</u>

See Market Risk Management on page 40 in the MD&A and the sections referenced therein for Quantitative and Qualitative Disclosures about Market Risk.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this report, the Corporation's management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness and design of the Corporation's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) of the Exchange Act). Based upon that evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures were effective, as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Corporation's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the months ended March 31, 2020, that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Bank of America Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 1 Summary of Significant Accounting Principles

Bank of America Corporation, a bank holding company and a financial holding company, provides a diverse range of financial services and products throughout the U.S. and in certain international markets. The term "the Corporation" as used herein may refer to Bank of America Corporation, individually, Bank of America Corporation and its subsidiaries, or certain of Bank of America Corporation's subsidiaries or affiliates.

Principles of Consolidation and Basis of Presentation

The Consolidated Financial Statements include the accounts of the Corporation and its majority-owned subsidiaries and those variable interest entities (VIEs) where the Corporation is the primary beneficiary. Intercompany accounts and transactions have been eliminated. Results of operations of acquired companies are included from the dates of acquisition, and for VIEs, from the dates that the Corporation became the primary beneficiary. Assets held in an agency or fiduciary capacity are not included in the Consolidated Financial Statements. The Corporation accounts for investments in companies for which it owns a voting interest and for which it has the ability to exercise significant influence over operating and financing decisions using the equity method of accounting. These investments are included in other assets. Equity method investments are subject to impairment testing, and the Corporation's proportionate share of income or loss is included in other income.

The preparation of the Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts and disclosures. Actual results could materially differ from those estimates and assumptions.

These unaudited Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

The nature of the Corporation's business is such that the results of any interim period are not necessarily indicative of results for a full year. In the opinion of management, all adjustments, which consist of normal recurring adjustments necessary for a fair statement of the interim period results, have been made. The Corporation evaluates subsequent events through the date of filing with the Securities and Exchange Commission. Certain prior-period amounts have been reclassified to conform to current period presentation.

New Accounting Standards

Reference Rate Reform

In March 2020, the FASB issued a new accounting standard related to contracts or hedging relationships that reference LIBOR or other reference rates that are expected to be discontinued due to reference rate reform. The new standard provides for optional expedients and other guidance regarding the accounting related to modifications of contracts, hedging relationships and other transactions affected by reference rate reform. The Corporation has elected to retrospectively adopt the new standard as of January 1, 2020 which resulted in no immediate impact. While reference rate reform is not expected to have a material accounting impact on the Corporation's consolidated financial position or results of operations, the standard will ease the

administrative burden in accounting for the future effects of reference rate reform.

Accounting for Financial Instruments -- Credit Losses

On January 1, 2020, the Corporation adopted the new accounting standard that requires the measurement of the allowance for credit losses to be based on management's best estimate of lifetime expected credit losses (ECL) inherent in the Corporation's relevant financial assets. Upon adoption of the standard on January 1, 2020, the Corporation recorded a \$3.3 billion, or 32 percent, increase to the allowance for credit losses. After adjusting for deferred taxes and other adoption effects, a \$2.4 billion decrease was recorded in retained earnings through a cumulative-effect adjustment.

Accounting Policies for Credit Losses

The following summarizes the Corporation's accounting policies for certain credit loss activities.

Allowance for Credit Losses

The allowance for credit losses includes both the allowance for loan and lease losses and the reserve for unfunded lending commitments and represents management's estimate of the ECL in the Corporation's loan and lease portfolio, excluding loans and unfunded lending commitments accounted for under the fair value option. The ECL on funded consumer and commercial loans and leases is referred to as the allowance for loan and lease losses and is reported separately as a contra-asset to loans and leases on the Consolidated Balance Sheet. The ECL for unfunded lending commitments, including home equity lines of credit (HELOCs), standby letters of credit (SBLCs) and binding unfunded loan commitments is reported on the Consolidated Balance Sheet in accrued expenses and other liabilities. The provision for credit losses related to the loan and lease portfolio and unfunded lending commitments is reported in the Consolidated Statement of Income.

For loans and leases, the ECL is typically estimated using quantitative methods that consider a variety of factors such as historical loss experience, the current credit quality of the portfolio as well as an economic outlook over the life of the loan. The life of the loan for closed-ended products is based on the contractual maturity of the loan adjusted for any expected prepayments. The contractual maturity includes any extension options that are at the sole discretion of the borrower. For open-ended products (e.g., lines of credit), the ECL is determined based on the maximum repayment term associated with future draws from credit lines unless those lines of credit are unconditionally cancellable (e.g., credit cards) in which case the Corporation does not record any allowance.

In its loss forecasting framework, the Corporation incorporates forward-looking information through the use of macroeconomic scenarios applied over the forecasted life of the assets. These macroeconomic scenarios include variables that have historically been key drivers of increases and decreases in credit losses. These variables include, but are not limited to, unemployment rates, real estate prices, gross domestic product levels, corporate bond spreads and long-term interest rate forecasts. As any one economic outlook is inherently uncertain, the Corporation leverages multiple scenarios. The scenarios that are chosen each quarter and the amount of weighting given to each scenario depend on a variety of factors including recent economic events, leading economic indicators, views of internal as well as third-party economists and industry trends.

The estimate of credit losses includes expected recoveries of amounts previously charged off (i.e., negative allowance). If a loan

has been charged off, the expected cash flows on the loan are not limited by the current amortized cost balance. Instead, expected cash flows can be assumed up to the unpaid principal balance immediately prior to the charge-off.

The allowance for loan and lease losses for troubled debt restructurings (TDR) is measured based on the present value of projected future lifetime principal and interest cash flows discounted at the loan's original effective interest rate, or in cases where foreclosure is probable or the loan is collateral dependent, at the loan's collateral value or its observable market price, if available. The measurement of expected credit losses for the renegotiated consumer credit card TDR portfolio is based on the present value of projected cash flows discounted using the average TDR portfolio contractual interest rate, excluding promotionally priced loans, in effect prior to restructuring. Projected cash flows for TDRs use the same economic outlook as discussed above. For purposes of computing this specific loss component of the allowance, larger impaired loans are evaluated individually and smaller impaired loans are evaluated as a pool.

Also included in the allowance for loan and lease losses are qualitative reserves to cover losses that are expected but, in the Corporation's assessment, may not be adequately represented in the quantitative methods or the economic assumptions described above. For example, factors that the Corporation considers include changes in lending policies and procedures, business conditions, the nature and size of the portfolio, portfolio concentrations, the volume and severity of past due loans and nonaccrual loans, the effect of external factors such as competition, and legal and regulatory requirements, among others. Further, the Corporation considers the inherent uncertainty in quantitative models that are built on historical data.

With the exception of the Corporation's credit card portfolio, the Corporation does not include reserves for interest receivable in the measurement of the allowance for credit losses as the Corporation generally classifies consumer loans as nonperforming at 90 days past due and reverses interest income for these loans at that time. For credit card loans, the Corporation reserves for interest and fees as part of the allowance for loan and lease losses. Upon charge-off of a credit card loan, the Corporation reverses the interest and fee income against the income statement line item where it was originally recorded.

The Corporation has identified the following three portfolio segments and measures the allowance for credit losses using the following methods.

Consumer Real Estate

To estimate ECL for consumer loans secured by residential real estate, the Corporation estimates the number of loans that will default over the life of the existing portfolio, after factoring in estimated prepayments, using quantitative modeling methodologies. The attributes that are most significant in estimating the Corporation's ECL include refreshed loan-to-value (LTV) or, in the case of a subordinated lien, refreshed combined LTV (CLTV), borrower credit score, months since origination and geography, all of which are further broken down by present collection status (whether the loan is current, delinquent, in default, or in bankruptcy). The estimates are based on the Corporation's historical experience with the loan portfolio, adjusted to reflect the economic outlook. The outlook on the unemployment rate and consumer real estate prices are key factors that impact the frequency and severity of loss estimates. The Corporation does not reserve for credit losses on the unpaid principal balance of loans insured by the Federal Housing Administration (FHA) and long-term standby loans, as these loans are fully insured. The Corporation records a reserve for unfunded lending commitments for the ECL associated with the undrawn

portion of the Corporation's HELOCs, which can only be canceled by the Corporation if certain criteria are met. The ECL associated with these unfunded lending commitments is calculated using the same models and methodologies noted above and incorporate utilization assumptions at time of default.

For loans that are more than 180 days past due and collateral-dependent TDRs, the Corporation bases the allowance on the estimated fair value of the underlying collateral as of the reporting date less costs to sell. The fair value of the collateral securing these loans is generally determined using an automated valuation model (AVM) that estimates the value of a property by reference to market data including sales of comparable properties and price trends specific to the Metropolitan Statistical Area in which the property being valued is located. In the event that an AVM value is not available, the Corporation utilizes publicized indices or if these methods provide less reliable valuations, the Corporation uses appraisals or broker price opinions to estimate the fair value of the collateral. While there is inherent imprecision in these valuations, the Corporation believes that they are representative of this portfolio in the aggregate.

For loans that are more than 180 days past due and collateral-dependent TDRs, with the exception of the Corporation's fully insured portfolio, the outstanding balance of loans that is in excess of the estimated property value after adjusting for costs to sell is charged off. If the estimated property value decreases in periods subsequent to the initial charge-off, the Corporation will record an additional charge-off; however, if the value increases in periods subsequent to the charge-off, the Corporation will adjust the allowance to account for the increase but not to a level above the cumulative charge-off amount.

Credit Cards and Other Consumer

Credit cards are revolving lines of credit without a defined maturity date. The estimated life of a credit card receivable is determined by estimating the amount and timing of expected future payments (e.g., borrowers making full payments, minimum payments or somewhere in between) that it will take for a receivable balance to pay off. The ECL on the future payments incorporates the spending behavior of a borrower through time using key borrower-specific factors and the economic outlook described above. The Corporation applies all expected payments in accordance with the Credit Card Accountability Responsibility and Disclosure Act of 2009 (i.e., paying down the highest interest rate bucket first). Then forecasted future payments are prioritized to pay off the oldest balance until it is brought to zero or an expected charge-off amount. Unemployment rate outlook, borrower credit score, delinquency status and historical payment behavior are all key inputs into the credit card receivable loss forecasting model. Future draws on the credit card lines are excluded from the ECL as they are unconditionally cancellable.

The ECL for the consumer vehicle lending portfolio is also determined using quantitative methods supplemented with qualitative analysis. The quantitative model estimates expected credit losses giving consideration to key borrower and loan characteristics such as delinquency status, borrower credit score, LTV ratio, underlying collateral type and collateral value.

Commercial

The ECL on commercial loans is forecasted using models that estimate credit losses over the loan's contractual life at an individual loan level. The models use the contractual terms to forecast future principal cash flows while also considering expected prepayments. For open-ended commitments such as revolving lines of credit, changes in funded balance are captured by forecasting a borrower's draw and payment behavior over the remaining life of the commitment. For loans collateralized with

commercial real estate and for which the underlying asset is the primary source of repayment, the loss forecasting models consider key loan and customer attributes such as LTV ratio, net operating income and debt service coverage, and captures variations in behavior according to property type and region. The commercial real estate model also utilizes key economic variables to forecast market indicators such as rent levels and vacancy rates, which impact the expected credit loss estimate. For all other commercial loans and leases, the loss forecasting model determines the probabilities of transition to different credit risk ratings or default at each point over the life of the asset based on the borrower's current credit risk rating, industry sector, size of the exposure and the geographic market. The severity of loss is determined based on the type of collateral securing the exposure, the size of the exposure, the borrower's industry sector, any guarantors and the geographic market. Assumptions of expected loss are conditioned to the economic outlook and the model considers key economic variables such as unemployment rate, gross domestic product, credit risk spreads, asset prices and equity market returns.

In addition to the allowance for loan and lease losses, the Corporation also estimates ECL related to unfunded lending commitments such as letters of credit, financial guarantees, unfunded bankers acceptances and binding loan commitments, excluding commitments accounted for under the fair value option. Reserves are estimated for the unfunded exposure using the same models and methodologies as the funded exposure and are reported as reserves for unfunded lending commitments.

Securities

The Corporation evaluates each available-for-sale (AFS) security where the value has declined below amortized cost. If the Corporation intends to sell or believes it is more likely than not that it will be required to sell the debt security, it is written down to fair value through earnings. For AFS debt securities the Corporation intends to hold, the Corporation evaluates the debt securities for expected credit losses except for debt securities that are guaranteed by the U.S. Treasury, U.S. government agencies or sovereign entities of high credit quality where the Corporation applies a zero credit loss assumption. For the remaining AFS debt securities, the Corporation considers qualitative parameters such as internal and external credit ratings and the value of underlying collateral. If an AFS debt security fails any of the qualitative parameters, a discounted cash flow analysis is used by the Corporation to determine if a portion of the unrealized loss is a result of a credit loss. Any credit losses determined are recognized as an increase to the allowance for credit losses through provision expense recorded in other income. Cash flows expected to be collected are estimated using all relevant information available such as, remaining payment terms, prepayment speeds, the financial condition of the issuer, expected defaults and the value of the underlying collateral. If any of the decline in fair value is related to market factors, that amount is recognized in accumulated other comprehensive income (OCI). In certain instances, the credit loss may exceed the total decline in

fair value, in which case, the allowance recorded is limited to the difference between the amortized cost and the fair value of the asset.

The Corporation separately evaluates its held-to-maturity (HTM) debt securities for any credit losses, of which substantially all qualify for the zero loss assumption. For the remaining securities, the Corporation performs a discounted cash flow analysis to estimate any credit losses which are then recognized as part of the allowance for credit losses.

Other Assets

For the Corporation's financial assets that are measured at amortized cost and are not included in debt securities or loans and leases on the Consolidated Balance Sheet, the Corporation evaluates these assets for expected credit losses using various techniques. For assets that are subject to collateral maintenance provisions, including federal funds sold and securities borrowed or purchased under agreements to resell, where the collateral consists of daily margining of liquid and marketable assets where the margining is expected to be maintained into the foreseeable future, the expected losses are assumed to be zero. For all other assets, the Corporation performs qualitative analyses, including consideration of historical losses and current economic conditions, to estimate any expected credit losses which are then included in a valuation account that is recorded as a contra-asset against the amortized cost basis of the financial asset.

Troubled Debt Restructurings

The Corporation has implemented various consumer and commercial loan modification programs to provide its borrowers relief from the economic impacts of COVID-19. In accordance with the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), the Corporation has elected to not apply troubled debt restructuring classification to any COVID-19 related loan modifications that were performed after March 1, 2020 to borrowers who were current as of December 31, 2019. Accordingly, these restructurings are not classified as TDRs. In addition, for loans modified in response to the COVID-19 pandemic that do not meet the above criteria (e.g., current payment status at December 31, 2019), the Corporation is applying the guidance included in an interagency statement issued by the bank regulatory agencies. This guidance states that loan modifications performed in light of the COVID-19 pandemic, including loan payment deferrals that are up to six months in duration, that were granted to borrowers who were current as of the implementation date of a loan modification program or modifications granted under government mandated modification programs, are not TDRs. For loan modifications that include a payment deferral and are not TDRs, the borrower's past due and nonaccrual status will not be impacted during the deferral period. Interest income will continue to be recognized over the contractual life of the loan. For more information on the Corporation's TDR accounting, see Note 1 Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

NOTE 2 Net Interest Income and Noninterest Income

The table below presents the Corporation's net interest income and noninterest income disaggregated by revenue source for thethree months ended March 31, 2020 and 2019. For more information, see *Note 1 – Summary of Significant Accounting Principles*to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. For a disaggregation of noninterest income by business segment and *All Other*, see *Note 17 – Business Segment Information*.

NOTE 3 Derivatives

Derivative Balances

Derivatives are entered into on behalf of customers, for trading or to support risk management activities. Derivatives used in risk management activities include derivatives that may or may not be designated in qualifying hedge accounting relationships. Derivatives that are not designated in qualifying hedge accounting relationships are referred to as other risk management derivatives. For more information on the Corporation's derivatives and hedging activities, see Note 1 -Summary of Significant Accounting

Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. The following tables present derivative instruments included on the Consolidated Balance Sheet in derivative assets and liabilities at March 31, 2020 and December 31, 2019. Balances are presented on a gross basis, prior to the application of counterparty and cash collateral netting. Total derivative assets and liabilities are adjusted on an aggregate basis to take into consideration the effects of legally enforceable master netting agreements and have been reduced by cash collateral received or paid.

Offsetting of Derivatives

The Corporation enters into International Swaps and Derivatives Association, Inc. (ISDA) master netting agreements or similar agreements with substantially all of the Corporation's derivative counterparties. For more information, see Note 3 -Derivatives to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

The following table presents derivative instruments included in derivative assets and liabilities on the Consolidated Balance Sheet at March 31, 2020 and December 31, 2019 by primary risk (e.g., interest rate risk) and the platform, where applicable, on

which these derivatives are transacted. Balances are presented on a gross basis, prior to the application of counterparty and cash collateral netting. Total gross derivative assets and liabilities are adjusted on an aggregate basis to take into consideration the effects of legally enforceable master netting agreements which include reducing the balance for counterparty netting and cash collateral received or paid.

For more information on offsetting of securities financing agreements, see Note 9 - Federal Funds Sold or Purchased, Securities Financing Agreements, Shortterm Borrowings and Restricted Cash.

⁽¹⁾ Represents the total contract/notional amount of derivative assets and liabilities outstanding.
(2) The net derivative asset (liability) and notional amount of written credit derivatives for which the Corporation held purchased credit derivatives with identical underlying referenced names wer62.8 billion and \$309.7 billion at December 31, 2019.

ALM and Risk Management Derivatives

The Corporation's asset and liability management (ALM) and risk management activities include the use of derivatives to mitigate risk to the Corporation including derivatives designated in qualifying hedge accounting relationships and derivatives used in other risk management activities. For more information on ALM and risk management derivatives, see *Note 3 – Derivatives* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

Derivatives Designated as Accounting Hedges

The Corporation uses various types of interest rate and foreign exchange derivative contracts to protect against changes in the fair value of its assets and liabilities due to fluctuations in interest

rates and exchange rates (fair value hedges). The Corporation also uses these types of contracts to protect against changes in the cash flows of its assets and liabilities, and other forecasted transactions (cash flow hedges). The Corporation hedges its net investment in consolidated non-U.S. operations determined to have functional currencies other than the U.S. dollar using forward exchange contracts and cross-currency basis swaps, and by issuing foreign currency-denominated debt (net investment hedges).

cleared through a clearinghouse. Exchange-traded derivatives include listed options transacted on an exchange.

(2) Consists of derivatives entered into under master netting agreements where the enforceability of these agreements is uncertain under bankruptcy laws in some countries or industries.

⁽³⁾ Amounts are limited to the derivative asset/liability balance and, accordingly, do not include excess collateral received/pledged. Financial instruments collateral includes securities collateral received or pledged and cash securities held and posted at third-party custodians that are not offset on the Consolidated Balance Sheet but shown as a reduction to derive net derivative assets and liabilities.

Gains and Losses on Derivatives Designated as Fair Value Hedges

Cash Flow and Net Investment Hedges

The following table summarizes certain information related to cash flow hedges and net investment hedges for the three months ended March 31, 2020 and 2019 Of the \$17 million after-tax net gain (\$23 million pretax) on derivatives in accumulated OCI at March 31, 2020, gains of \$77 million after-tax (\$102 million pretax) related to open cash flow hedges are expected to be

reclassified into earnings in the next 12 months. These net gains reclassified into earnings are expected to primarily increase net interest income related to the respective hedged items. For terminated cash flow hedges, the time period over which the majority of the forecasted transactions are hedged is approximately three years, with a maximum length of time for certain forecasted transactions of 16 vears.

Gains and Losses on Derivatives Designated as Cash Flow and Net Investment Hedges

Income.

(2) For the three months ended March 31, 2020 and 2019, the derivative amount includes gains (losses) of \$734\$ million and \$170\$ million in interest expense, \$(241)\$ million and \$(121)\$ million in market making and similar activities, and \$12\$ million and \$8\$ million in accumulated OCI. Line item totals are in the Consolidated Statement of Income and on the Consolidated Balance Sheet.

(3) Anounts are recorded in interest income in the Consolidated Statement of Income.

value. (2) At March 31, 2020 and December 31, 2019, the cumulative fair value adjustments remaining on long-term debt and AFS debt securities from discontinued hedging relationships resulted in a decrease in the related liability of 1.2 billion and \$1.3 billion and an increase in the related asset of \$22 million and \$8 million, which are being amortized over the remaining contractual life of the de-designated hedged items.

⁽¹⁾ Amounts reclassified from accumulated OCI are recorded in interest income in the Consolidated Statement of Income.
(2) Amounts reclassified from accumulated OCI are recorded in compensation and benefits expense in the Consolidated Statement of Income.

income. (3) Amounts reclassified from accumulated OCI are recorded in other income in the Consolidated Statement of Income. For thethree months ended March 31, 2020 and 2019, amounts excluded from effectiveness testing and recognized in market making and similar activities were gains of \$30 million and \$53 million.

Other Risk Management Derivatives

Other risk management derivatives are used by the Corporation to reduce certain risk exposures by economically hedging various assets and liabilities. The following table presents gains (losses) on these derivatives for the three months ended March 31, 2020 and 2019. These gains (losses) are largely offset by the income or expense recorded on the hedged item.

Gains and Losses on Other Risk Management Derivatives

	 Three Months E	March 31		
(Dollars in millions)	 2020		2019	
Interest rate risk on mortgage activities (1, 2)	\$ 379	\$	104	
Credit risk on loans (2)	88		(26)	
Interest rate and foreign currency risk on ALM activities (3)	1,528		1,229	
Price risk on certain compensation plans (4)	(757)		511	

- (1) Primarily related to hedges of interest rate risk on mortgage servicing rights and interest rate lock commitments to originate mortgage loans that will be held for sale. The net gains on interest rate lock commitments which are not included in the table but are considered derivative instruments, were \$48 million and \$12 million for the three months ended March 31, 2020 and 2019.
- (2) Gains (losses) on these derivatives are recorded in other
- (3) Gains (losses) on these derivatives are recorded in market making and similar activities
- (4) Gains (losses) on these derivatives are recorded in compensation and benefits expense

Transfers of Financial Assets with Risk Retained through Derivatives

The Corporation enters into certain transactions involving the transfer of financial assets that are accounted for as sales where substantially all of the economic exposure to the transferred financial assets is retained through derivatives (e.g., interest rate and/or credit), but the Corporation does not retain control over the assets transferred. As of March 31, 2020 and December 31, 2019, the Corporation had transferred \$4.9 billion and \$5.2 billion of non-U.S. government-guaranteed mortgage-backed securities (MBS) to a third-party trust and retained economic exposure to the transferred assets through derivative contracts. In connection with these transfers, the Corporation received gross cash proceeds of \$4.9 billion and \$5.2 billion at the transfer dates. At March 31, 2020 and December 31, 2019, the fair value of the transferred securities was \$4.6 billion and \$5.3 billion.

Sales and Trading Revenue

The Corporation enters into trading derivatives to facilitate client transactions and to manage risk exposures arising from trading account assets and liabilities. It is the Corporation's policy to include these derivative instruments in its trading activities which include derivatives and non-derivative cash instruments. The resulting risk from these derivatives is managed on a portfolio basis as part of the Corporation's *Global Markets* business segment. For more information on sales and trading revenue, see *Note 3 – Derivatives* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

The following table, which includes both derivatives and non-derivative cash instruments, identifies the amounts in the respective income statement line items attributable to the Corporation's sales and trading revenue in *Global Markets*, categorized by primary risk, for the three months ended March 31, 2020 and 2019 This table includes debit valuation adjustment (DVA) and funding valuation adjustment (FVA) gains (losses). *Global Markets* results in *Note 17 – Business Segment Information* are presented on a fully taxable-equivalent (FTE) basis. The table below is not presented on an FTE basis.

⁽¹⁾ Represents amounts in investment and brokerage services and other income that are recorded in Global Markets and included in the definition of sales and trading revenue. Includes investment and brokerage services revenue of \$557 million and \$433 million for the three months ended March 31, 2020 and 2019.

Credit Derivatives

The Corporation enters into credit derivatives primarily to facilitate client transactions and to manage credit risk exposures. Credit derivatives are classified as investment and non-investment grade based on the credit quality of the underlying referenced obligation. The Corporation considers ratings of BBB- or higher as investment grade. Non-investment grade includes non-rated credit derivative instruments. The Corporation discloses internal categorizations of investment grade and non-investment grade consistent with how risk is managed for these instruments. For more information on credit derivatives, see *Note* 3 – *Derivatives* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Credit derivative instruments where the Corporation is the seller of credit protection and their expiration at March 31, 2020 and December 31, 2019 are summarized in the following table.

Credit Derivative Instruments

The notional amount represents the maximum amount payable by the Corporation for most credit derivatives. However, the Corporation does not monitor its exposure to credit derivatives based solely on the notional amount because this measure does not take into consideration the probability of occurrence. As such, the notional amount is not a reliable indicator of the Corporation's exposure to these contracts. Instead, a risk framework is used to define risk tolerances and establish limits so that certain credit risk-related losses occur within acceptable, predefined limits.

Credit-related notes in the table above include investments in securities issued by collateralized debt obligation (CDO), collateralized loan obligation and credit-linked note vehicles. These instruments are primarily classified as trading securities. The carrying value of these instruments equals the Corporation's maximum exposure to loss. The Corporation is not obligated to make any payments to the entities under the terms of the securities owned.

Credit-related Contingent Features and Collateral

Certain of the Corporation's derivative contracts contain credit risk-related contingent features, primarily in the form of ISDA master netting agreements and credit support documentation that enhance the creditworthiness of these instruments compared to other obligations of the respective counterparty with whom the Corporation has transacted. These contingent features may be for the benefit of the Corporation as well as its counterparties with respect to changes in the Corporation's creditworthiness and the mark-to-market exposure under the derivative transactions. At March 31, 2020 and December 31, 2019, the Corporation held cash and securities collateral of \$108.0 billion and \$84.3 billion and posted cash and securities collateral of \$95.6 billion and \$69.1 billion in the normal course of business under derivative agreements, excluding cross-product margining agreements where clients are permitted to margin on a net basis for both derivative and secured financing arrangements.

In connection with certain over-the-counter derivative contracts and other trading agreements, the Corporation can be required to provide additional collateral or to terminate transactions with certain counterparties in the event of a downgrade of the senior debt ratings of the Corporation or certain subsidiaries. The amount of additional collateral required depends on the contract and is usually a fixed incremental amount and/or the market value of the exposure. For more information on credit-related contingent features and collateral, see *Note* 3 – *Derivatives* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

At March 31, 2020, the amount of collateral, calculated based on the terms of the contracts, that the Corporation and certain subsidiaries could be required to post to counterparties but had not yet posted to counterparties was \$2.8 billion, including \$1.2 billion for Bank of America, National Association.

Some counterparties are currently able to unilaterally terminate certain contracts, or the Corporation or certain subsidiaries may be required to take other action such as find a suitable replacement or obtain a guarantee. At March 31, 2020 and December 31, 2019, the liability recorded for these derivative contracts was not significant.

The following table presents the amount of additional collateral that would have been contractually required by derivative contracts and other trading agreements at March 31, 2020 if the rating agencies had downgraded their long-term senior debt ratings for the Corporation or certain subsidiaries by one incremental notch and by an additional second incremental notch.

Additional Collateral Required to be Posted Upon Downgrade at March 31, 2020

(Dollars in millions)	One incremental notch		Second incremental notch		
Bank of America Corporation	\$	519	\$	724	
Bank of America, N.A. and subsidiaries (1)		257		495	
(4)					

⁽¹⁾ Included in Bank of America Corporation collateral requirements in this table

The following table presents the derivative liabilities that would be subject to unilateral termination by counterparties and the amounts of collateral that would have been contractually required at March 31, 2020 if the long-term senior debt ratings for the Corporation or certain subsidiaries had been lower by one incremental notch and by an additional second incremental notch.

Derivative Liabilities Subject to Unilateral Termination Upon Downgrade at March 31, 2020

(Dollars in millions)	One incremental notch			Second incremental notch		
Derivative liabilities	\$	161	\$	1,498		
Collateral posted		144		1,098		

Valuation Adjustments on Derivatives

The table below presents credit valuation adjustment (CVA), DVA and FVA gains (losses) on derivatives (excluding the effect of any related hedge activities), which are recorded in market making and similar activities, for the three months ended March 31, 2020 and 2019. For more information on the valuation adjustments on derivatives, see *Note 3 – Derivatives* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Valuation Adjustments Gains (Losses) on Derivatives (1)

	Three Months Ended March 31				
	<u></u> :	2020	2019		
Derivative assets (CVA)	\$	(784) \$	66		
Derivative assets/liabilities (FVA)		(156)	7		
Derivative liabilities (DVA)		414	(81)		

⁽¹⁾ At March 31, 2020 and December 31, 2019, cumulative CVA reduced the derivative assets balance by\$1.3 billion and \$528 million, cumulative FVA reduced the net derivatives balance by\$309 million and \$133 million, and cumulative DVA reduced the derivative liabilities balance by\$699 million and \$258 million, respectively.

NOTE 4 Securities

The table below presents the amortized cost, gross unrealized gains and losses, and fair value of AFS debt securities, other debt securities carried at fair value and HTM debt securities at March 31, 2020 and December 31, 2019.

⁽¹⁾ At both March 31, 2020 and December 31, 2019, the underlying collateral type included approximately 49 percent prime, six percent Alt-A and 45 percent

A t March 31, 2020, the accumulated net unrealized gain on AFS debt securities, excluding the amount related to debt securities previously transferred to held to maturity, included in accumulated OCI was \$6.2 billion, net of the related income tax expense of \$2.0 billion. The Corporation had nonperforming AFS debt securities of \$8 million and \$9 million at March 31, 2020 and December 31, 2019.

Effective January 1, 2020, the Corporation adopted the new accounting standard for credit losses that requires evaluation of AFS and HTM debt securities for any expected losses with recognition of an allowance for credit losses, when applicable. For more information, see Note 1 - Summary of Significant Accounting Principles. At March 31, 2020, the Corporation had \$168.3 billion in AFS debt securities, which were primarily U.S. agency and U.S. Treasury securities that have a zero credit loss assumption. For

the remaining \$37.9 billion in AFS debt securities, the amount of expected credit losses was insignificant. Substantially all of the Corporation's HTM debt securities are U.S. agency and U.S. Treasury securities and have a zero credit loss assumption.

At March 31, 2020, the Corporation held equity securities at an aggregate fair value of \$835 million and other equity securities, as valued under the measurement alternative, at cost of \$222 million, both of which are included in other assets. At March 31, 2020, the Corporation also held equity securities at fair value of \$1.1 billion included in time deposits placed and other short-term investments

In the three months ended March 31, 2020, the Corporation recorded gross realized gains on sales of AFS debt securities of \$316 million and gross realized losses of \$1 million, resulting in a net gain of \$315 million, with \$79 million of income taxes

subprime. (2) Primarily includes non-U.S. securities used to satisfy certain international regulatory requirements. Any changes in value are reported in other income. For detail on the components, see/tote 14 - Fair Value

Measurements.
(3) During the three months ended March 31, 2020, the Corporation reclassified AFS debt securities with a fair value of\$44.4 billion to HTM. Additionally, the Corporation transferred \$11.1 billion of debt securities from its trading account inventory to its Banking Book with \$5.2 billion subsequently classified as AFS securities and \$5.9 billion classified in other debt securities carried at fair value.
(4) Includes securities pledged as collateral of\$71.4 billion and \$67.0 billion at March 31, 2020 and December 31,

<sup>2019.
(</sup>S) The Corporation held debt securities from Fannie Mae and Freddie Mac that each exceeded 10 percent of shareholders' equity, with an amortized cost of \$153.3 billion and \$58.8 billion, and a fair value of \$161.2 billion and \$61.7 billion at March 31, 2020, and an amortized cost of \$157.2 billion and \$54.1 billion, and a fair value of \$160.6 billion and \$55.1 billion at December 31, 2019.

attributable to the realized net gain on sales of these AFS debt securities. For the same period in 2019, the Corporation recorded gross realized gains of\$117 million and gross realized losses of \$111 million, resulting in a net gain of\$6 million with income taxes attributable to the realized net gain on sales of these AFS debt securities not being significant.

The table below presents the fair value and the associated gross unrealized losses on AFS debt securities and whether these securities have had gross unrealized losses for less than 12 months or for 12 months or longer at March 31, 2020 and December 31, 2019.

⁽¹⁾ Consumer real estate loans 30-59 days past due includes fully-insured loans of\$17 million and nonperforming loans of\$139 million. Consumer real estate loans 60-89 days past due includes fully-insured loans of\$130 million and nonperforming loans of\$130 million. Consumer real estate loans 60-89 days past due includes fully-insured loans of\$1.1 million. Consumer real estate loans current or less than 30 days past due includes\$456 million and direct/indirect consumer includes\$45 million of nonperforming loans.

The Corporation categorizes consumer real estate loans as core and non-core based on loan and customer characteristics such as origination date, product type, LTV, Fair Isaac Corporation (FICO) score and delinquency status consistent with its current consumer and mortgage servicing strategy. Generally, loans that were originated after January 1, 2010, qualified under government-sponsored enterprise (GSE) underwriting guidelines, or otherwise met the Corporation's underwriting guidelines in place in 2015 are characterized as core loans. All other loans are generally characterized as non-core loans and represent runoff portfolios.

The Corporation has entered into long-term credit protection agreements with Fannie Mae and Freddie Mac on loans totaling \$8.0 billion and \$7.5 billion at March 31, 2020 and December 31, 2019, providing full credit protection on residential mortgage loans that become severely delinquent. All of these loans are individually insured and therefore the Corporation does not record an allowance for credit losses related to these loans.

Nonperforming Loans and Leases

Commercial nonperforming loans increased to \$1.9 billion at March 31, 2020 from \$1.5 billion at December 31, 2019 with

broad-based increases across multiple industries. Weakness in consumer delinquencies and nonperforming loans was less observable in the three months ended March 31, 2020 as meaningful impacts from the COVID-19 pandemic were not experienced until late in the quarter and were mitigated to some extent by payment deferrals.

The table below presents the Corporation's nonperforming loans and leases including nonperforming TDRs, and loans accruing past due 90 days or more at March 31, 2020 and December 31, 2019. Nonperforming loans held-for-sale (LHFS) are excluded from nonperforming loans and leases as they are recorded at either fair value or the lower of cost or fair value. For information on the Corporation's interest accrual policies and delinquency status for loan modifications related to the COVID-19 pandemic, see Note 1 - Summary of Significant Accounting Principles. For more information on the criteria for classification as nonperforming, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

⁽²⁾ Total outstandings primarily includes auto and specialty lending loans and leases of \$50.4 billion, U.S. securities-based lending loans of \$36.7 billion and non-U.S. consumer loans of \$2.8

(1) For information on the Corporation's interest accrual policies and delinquency status for loan modifications related to the COVID-19 pandemic, see\text{Note 1 - Summary of Significant Accounting}

Nonperforming consumer loans now include certain loans that were previously classified as purchased credit-impaired loans and accounted for under a pool basis. Upon adoption of the new credit

loss standard, these loans are accounted for on an individual basis and, if applicable, included in nonperforming loans.

As a result, an additional \$130 million and \$20 million of residential mortgage and home equity loans were added to nonperforming loans as of March 31, 2020.

Credit Quality Indicators

The Corporation monitors credit quality within its Consumer Real Estate, Credit Card and Other Consumer, and Commercial portfolio segments based on primary credit quality indicators. For more information on the portfolio segments, see Note 1 - Summary of Significant Accounting Principles. Within the Consumer Real Estate portfolio segment, the primary credit quality indicators are refreshed LTV and refreshed FICO score. Refreshed LTV measures the carrying value of the loan as a percentage of the value of the property securing the loan, refreshed quarterly. Home equity loans are evaluated using CLTV which measures the carrying value of the Corporation's loan and available line of credit combined with any outstanding senior liens against the property as a percentage of the value of the property securing the loan, refreshed quarterly. FICO score measures the creditworthiness of the borrower based on the financial obligations of the borrower and the borrower's

credit history. FICO scores are typically refreshed quarterly or more frequently. Certain borrowers (e.g., borrowers that have had debts discharged in a bankruptcy proceeding) may not have their FICO scores updated. FICO scores are also a primary credit quality indicator for the Credit Card and Other Consumer portfolio segment and the business card portfolio within U.S. small business commercial. Within the Commercial portfolio segment, loans are evaluated using the internal classifications of pass rated or reservable criticized as the primary credit quality indicators. The term reservable criticized refers to those commercial loans that are internally classified or listed by the Corporation as Special Mention, Substandard or Doubtful, which are asset quality categories defined by regulatory authorities. These assets have an elevated level of risk and may have a high probability of default or total loss. Pass rated refers to all loans not considered reservable criticized. In addition to these primary credit quality indicators, the Corporation uses other credit quality indicators for certain types of loans.

The following tables present certain credit quality indicators for the Corporation's Consumer Real Estate, Credit Card and Other Consumer, and Commercial portfolio segments, by class of financing receivables and year of origination for term loan balances at March 31, 2020, including revolving loans that converted to term loans without an additional credit decision after origination or through a troubled debt restructuring.

As a result of the economic impact of COVID-19, commercial asset quality weakened during the three months ended March 31, 2020 reservable criticized utilized exposure increased to \$17.4 billion at March 31, 2020 from \$11.5 billion (to 2.84 percent from 2.09 percent of total commercial reservable utilized exposure) at December 31, 2019 with increases spread across multiple industries including the energy sector, which was also impacted by the weakness in oil prices and oil price volatility in the quarter.

Troubled Debt Restructurings

The Corporation began entering into loan modifications with borrowers in response to the COVID-19 pandemic, which have not been classified as TDRs, and therefore are not included in the discussion below. For more information on the criteria for classifying loans as TDRs, see Note 1 - Summary of Significant Accounting Principles.

Consumer Real Estate

Most modifications of consumer real estate loans meet the definition of a TDR and are classified as TDRs when a binding offer is extended to a borrower. Modifications of consumer real estate loans are done in accordance with government programs or the Corporation's proprietary programs. Concessions may include reductions in interest rates, capitalization of past due amounts, principal and/or interest forbearance, payment extensions, principal and/or interest forgiveness, or combinations thereof. Prior to permanently modifying a loan, the Corporation may enter

into trial modifications with certain borrowers under both government and proprietary programs. Trial modifications generally represent a three- to four-month period during which the borrower makes monthly payments under the anticipated modified payment terms. Upon successful completion of the trial period, the Corporation and the borrower enter into a permanent modification. Binding trial modifications are classified as TDRs when the trial offer is made and continue to be classified as TDRs regardless of whether the borrower enters into a permanent modification.

Consumer real estate loans of \$597 million that have been discharged in Chapter 7 bankruptcy with no change in repayment terms and not reaffirmed by the borrower were included in TDRs at March 31, 2020, of which \$99 million were classified as nonperforming and \$255 million were loans fully insured by the FHA.

Consumer real estate TDRs are measured primarily based on the net present value of the estimated cash flows discounted at the loan's original effective interest rate. If the carrying value of a TDR exceeds this amount, a specific allowance is recorded as a component of the allowance for loan and lease losses. Alternatively, consumer real estate TDRs that are considered to be dependent solely on the collateral for repayment (e.g., due to the lack of income verification) are measured based on the estimated fair value of the collateral and a charge-off is recorded if the carrying value exceeds the fair value of the collateral. Consumer real estate loans that reach 180 days past due prior to modification are charged off to their net realizable value, less

³⁰ Excludes U.S. Small Business Card loans of \$7.5 billion. Refreshed FICO scores for this portfolio are \$319 million for less than 620; \$749 million for greater than or equal to 620 and less than 680, \$2.2 billion for greater than or equal to 740; and \$4.3 billion greater than or equal to 740.

costs to sell, before they are modified as TDRs in accordance with established policy. Subsequent declines in the fair value of the collateral after a loan has reached 180 days past due are recorded as charge-offs. Fully-insured loans are protected against principal loss, and therefore, the Corporation does not record an allowance for loan and lease losses on the outstanding principal balance, even after they have been modified in a TDR.

At March 31, 2020 and December 31, 2019, remaining commitments to lend additional funds to debtors whose terms have been modified in a consumer real estate TDR were not significant. Consumer real estate foreclosed properties totaled \$226 million and \$229 million at March 31, 2020 and December 31, 2019. The carrying value of consumer real estate loans, including fully-insured loans, for which formal foreclosure proceedings were in process at March 31, 2020 was \$1.4 billion. During the three months ended March 31, 2020 and 2019 the

Corporation reclassified \$138 million and \$164 million of consumer real estate loans to foreclosed properties or, for properties acquired upon foreclosure of certain government-guaranteed loans (principally FHA-insured loans), to other assets. The reclassifications represent non-cash investing activities and, accordingly, are not reflected in the Consolidated Statement of Cash Flows.

The table below presents the March 31, 2020 and 2019 unpaid principal balance, carrying value, and average pre- and post-modification interest rates of consumer real estate loans that were modified in TDRs during the three months ended March 31, 2020 and 2019. The following Consumer Real Estate portfolio segment tables include loans that were initially classified as TDRs during the period and also loans that had previously been classified as TDRs and were modified again during the period.

Credit Card and Other Consumer

The Corporation seeks to assist customers that are experiencing financial difficulty by modifying loans while ensuring compliance with federal and local laws and guidelines. Credit card and other consumer loan modifications generally involve reducing the interest rate on the account, placing the customer on a fixed payment plan not exceeding 60 months and canceling the customer's available line of credit, all of which are considered TDRs. The Corporation makes loan modifications directly with borrowers for debt held only by the Corporation (internal programs). Additionally, the Corporation makes loan modifications for borrowers working with third-party renegotiation agencies that

provide solutions to customers' entire unsecured debt structures (external programs). The Corporation classifies other secured consumer loans that have been discharged in Chapter 7 bankruptcy as TDRs which are written down to collateral value and placed on nonaccrual status no later than the time of discharge.

The table below provides information on the Corporation's Credit Card and Other Consumer TDR portfolio including the March 31, 2020 and 2019 unpaid principal balance, carrying value, and average pre- and post-modification interest rates of loans that were modified in TDRs during the three months ended March 31, 2020 and 2019.

The table below presents the March 31, 2020 and 2019 carrying value for Credit Card and Other Consumer loans that were modified in a TDR during thethree months ended March 31, 2020 and 2019, by program type.

Credit Card and Other Consumer - TDRs by Program Type (1)

	TDR	s Entered into Du Ended	
(Dollars in millions)		2020	2019
Internal programs	\$	74	\$ 75
External programs		27	30
Other		9	10
Total	\$	110	\$ 115

⁽¹⁾ Includes accrued interest and fees. For more information on the Corporation's loan modification programs offered in response to the COVID-19 pandemic, which are not TDRs, seeNote 1 – Summary of Significant Accounting Principles.

Credit card and other consumer loans are deemed to be in payment default during the quarter in which a borrower misses the second of two consecutive payments. Payment defaults are one of the factors considered when projecting future cash flows in the calculation of the allowance for loan and lease losses for credit card and other consumer. Based on historical experience, the Corporation estimates that 14 percent of new credit card TDRs and 20 percent of new direct/indirect consumer TDRs may be in payment default within 12 months after modification.

Commercial Loans

Modifications of loans to commercial borrowers that are experiencing financial difficulty are designed to reduce the Corporation's loss exposure while providing the borrower with an opportunity to work through financial difficulties, often to avoid foreclosure or bankruptcy. Each modification is unique and reflects the individual circumstances of the borrower. Modifications that result in a TDR may include extensions of maturity at a concessionary (below market) rate of interest, payment forbearances or other actions designed to benefit the borrower while mitigating the Corporation's risk exposure. Reductions in

interest rates are rare. Instead, the interest rates are typically increased, although the increased rate may not represent a market rate of interest. Infrequently, concessions may also include principal forgiveness in connection with foreclosure, short sale or other settlement agreements leading to termination or sale of the loan.

At the time of restructuring, the loans are remeasured to reflect the impact, if any, on projected cash flows resulting from the modified terms. If a portion of the loan is deemed to be uncollectible, a charge-off may be recorded at the time of restructuring. Alternatively, a charge-off may have already been recorded in a previous period such that no charge-off is required at the time of modification. For more information on modifications for the U.S. small business commercial portfolio, see Credit Card and Other Consumer in this Note.

At March 31, 2020 and December 31, 2019, remaining commitments to lend additional funds to debtors whose terms have been modified in a commercial loan TDR were \$486 million and \$445 million. The balance of commercial TDRs in payment default was not significant at March 31, 2020 and December 31, 2019.

⁽²⁾ Includes accrued interest and fees.

Loans Held-for-sale

The Corporation had LHFS of \$7.9 billion and \$9.2 billion at March 31, 2020 and December 31, 2019. Cash and non-cash proceeds from sales and paydowns of loans originally classified as LHFS were \$7.5 billion and \$7.9 billion for the three months ended March 31, 2020 and 2019. Cash used for originations and purchases of LHFS totaled \$6.1 billion and \$3.6 billion for the three months ended March 31, 2020 and 2019.

Accrued Interest Receivable

Accrued interest receivable for loans and leases and loans held-for-sale at March 31, 2020 and December 31, 2019 was \$2.5 billion and \$2.6 billion and is reported in customer and other receivables on the Consolidated Balance Sheet.

Outstanding credit card loan balances include unpaid principal, interest and fees. Credit card loans are not classified as nonperforming but are charged-off no later than the end of the month in which the account becomes 180 days past due. within 60 days after receipt of notification of death or bankruptcy, or upon confirmation of fraud. During the three months ended March 31, 2020, the Corporation reversed \$165 million of interest and fee income against the income statement line item in which it was originally recorded upon charge-off of the principal balance of the loan.

For the outstanding residential mortgage, home equity, direct/indirect consumer and commercial loan balances classified as nonperforming during the three months ended March 31, 2020, the Corporation reversed \$10 million of interest and fee income at the time the loans were classified as nonperforming against the income statement line item in which it was originally recorded. For more information on the Corporation's nonperforming loan policies, see Note 1 -Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

Allowance for Credit Losses

On January 1, 2020, the Corporation adopted the new accounting standard that requires the measurement of the allowance for credit losses to be based on management's best estimate of lifetime expected credit losses inherent in the Corporation's relevant financial assets. Upon adoption of the new accounting standard, the Corporation recorded a \$3.3 billion, or 32 percent, increase in the allowance for credit losses on January 1, 2020, which was comprised of a net increase of \$2.9 billion in the allowance for loan and lease losses and a\$310 million increase in the reserve for unfunded lending commitments. The net increase in the allowance for loan and lease losses was primarily driven by a \$3.1 billion increase in credit card as the Corporation now reserves for the life of these

The reserve for unfunded lending commitments increased \$310 million to \$1.1 billion compared to \$813 million at December 31, 2019. The increase included \$119 million in the consumer portfolio for the undrawn portion of home equity lines of credit and \$191 million in the commercial portfolio.

The allowance for loan and lease losses at March 31, 2020 was \$15.8 billion, an increase of \$3.4 billion compared to January 1, 2020. The increase in the allowance for loan and lease losses was primarily driven by deterioration in the economic outlook resulting from the impact of COVID-19. The increase in the allowance for loan and lease losses was \$368 million in the consumer real estate portfolio, \$828 million in the credit card and other consumer portfolio, and \$2.2 billion in the commercial portfolio. The reserve for unfunded lending commitments

increased \$237 million from January 1, 2020 to \$1.4 billion at March 31, 2020.

The allowance for credit losses is estimated using quantitative methods that consider a variety of factors such as historical loss experience, the current credit quality of the portfolio as well as an economic outlook over the life of the loan. Also included in the allowance for loan and lease losses are qualitative reserves to cover losses that are expected but, in the Corporation's assessment, may not be adequately represented in the quantitative methods or the economic assumptions. In its loss forecasting framework, the Corporation incorporates forward-looking information through the use of macroeconomic scenarios applied over the forecasted life of the assets. The scenarios that are chosen each quarter and the amount of weighting given to each scenario depend on a variety of factors including recent economic events, leading economic indicators, views of internal as well as third-party economists and industry trends. For more information on the Corporation's credit loss accounting policies, including the allowance for credit losses, see Note 1 – Summary of Significant Accounting Principles

The lifetime estimate considers several traditional protracted recessionary scenarios that include deterioration in key economic variables such as gross domestic product, unemployment rate and home price index over longer time horizons. As of January 1, 2020, the Corporation's economic outlook was weighted to include a moderate potential of a recession with some expectation of tail risk similar to the severely adverse scenario used in stress testing. For the three months ended March 31, 2020, there was a significant change in the economic outlook impacting the allowance for credit losses, with key economic factors such as the unemployment rate and gross domestic product projected to deteriorate sharply in the second quarter of 2020 driven by the impact of COVID-19. In response to these changes, the Corporation reassessed the selection and probability weightings of the traditional protracted recessionary scenarios as well as analyzed various scenarios with immediate deterioration in economic variables followed by different recovery assumptions as part of the process for setting the allowance for credit loss reserve. Based on these analyses, the Corporation is now effectively fully weighted to a recessionary environment with an increased weighting for the expectation of a tail risk event. In addition, the allowance for credit losses at March 31, 2020 included qualitative reserves for certain segments that the Corporation views as higher risk that may not be fully recognized through its quantitative models such as leveraged loans and the energy portfolio. There are still many unknowns including the duration of the impact of COVID-19 on the economy and the results of the government fiscal and monetary actions along with recently implemented payment deferral programs, and the Corporation will continue to evaluate the allowance for credit losses and the related economic outlook each quarter.

Outstanding loans and leases excluding loans accounted for under the fair value option increased \$66.7 billion in the three months ended March 31, 2020, primarily driven by a significant increase in commercial draws from existing unfunded commitments, as many business operations were economically impacted by COVID-19. The draws were primarily domestic and well diversified across industries with approximately 90 percent either investment grade or collateralized. As these were draws on committed facilities, a portion of the expected loss content was already provided for as part of the Corporation's January 1, 2020 reserve for unfunded lending commitments and did not result in

a significant increase in the allowance for credit losses as ofMarch 31, 2020. Outstanding consumer loans and leases excluding loans accounted for under the fair value option increased slightly as growth in residential mortgage was partially offset by a decline in credit card. The growth in the residential mortgage portfolio was

well collateralized and therefore did not result in a meaningful increase in the allowance for credit losses as of March 31, 2020.

The table below summarizes the changes in the allowance for credit losses by portfolio segment for the three months ended March 31, 2020 and 2019

	 Consumer Real Estate		Card and Other Consumer		Commercial	Total

⁽¹⁾ Primarily represents write-offs of purchased credit-impaired loans in 2019, and the net impact of portfolio sales, transfers to held-for-sale and transfers to foreclosed proporties

The provision for credit losses, including unfunded lending commitments, increased \$3.7 billion to \$4.8 billion for the three months ended March 31, 2020 compared to the same period in 2019 driven by deterioration in the economic outlook resulting from the impact of COVID-19. At March 31, 2020, the allowance for credit losses for the Corporation's other relevant assets was insignificant.

NOTE 6 Securitizations and Other Variable Interest

Entities

The Corporation utilizes VIEs in the ordinary course of business to support its own and its customers' financing and investing needs. The tables in this Note present the assets, liabilities and maximum loss exposure of consolidated and unconsolidated VIEs at March 31, 2020 and December 31, 2019 in situations where the Corporation has continuing involvement with transferred assets or if the Corporation otherwise has a variable interest in the VIE. For more information on the Corporation's use of VIEs and related maximum loss exposure, see Note 1 – Summary of Significant Accounting Principles and Note 7 – Securitizations and Other Variable Interest Entities to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

The Corporation invests in ABS issued by third-party VIEs with which it has no other form of involvement and enters into certain

commercial lending arrangements that may also incorporate the use of VIEs, for example to hold collateral. These securities and loans are included in Note 4 – Securities or Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses.

The Corporation did not provide financial support to consolidated or unconsolidated VIEs during the three months ended March 31, 2020 or the year ended December 31, 2019 that it was not previously contractually required to provide, nor does it intend to do so.

The Corporation had liquidity commitments, including written put options and collateral value guarantees, with certain unconsolidated VIEs of \$933 million and \$1.1 billion at March 31, 2020 and December 31, 2019.

First-lien Mortgage Securitizations

As part of its mortgage banking activities, the Corporation securitizes a portion of the first-lien residential mortgage loans it originates or purchases from third parties. Except as described in *Note 10 – Commitments and Contingencies*, the Corporation does not provide guarantees or recourse to the securitization trusts other than standard representations and warranties.

The table below summarizes select information related to first-lien mortgage securitizations for the three months ended March 31, 2020 and 2019

First-lien Mortgage Securitizations

		Residential Mortgage - Agency Commercial Mortgage Three Months Ended March 31 2020 2019 2020 2019							
	2020 2019 2020 2019								
(Dollars in millions)	2020 2019 2020 20							2019

Gains on securitizations (2)		6		7		41		17	
Repurchases from securitization trusts (3)		128		244		_			

- (1) The Corporation transfers residential mortgage loans to securitizations sponsored primarily by the GSEs or Government National Mortgage Association (GNMA) in the normal course of business and primarily receives residential mortgage loans to securities are classified as Level 2 within the fair value hierarchy and are sold shortly after receipt.

 (2) A majority of the first-lien residential mortgage loans securitized are initially classified as LHFS and accounted for under the fair value option. Gains recognized on these LHFS prior to securitization, which totalest million and \$8 million, net of hedges, during the three months ended March 31, 2020 and 2019, are not included in the table above.

 (3) The Corporation may have the option to repurchase delinquent loans out of securitization trusts, which reduces the amount of servicing advances it is required to make. The Corporation may also repurchase loans from securitization trusts to perform modifications. Repurchased loans include FHA-insured mortgages collateralizing GNMA securities.

The Corporation recognizes consumer mortgage servicing rights (MSRs) from the sale or securitization of consumer real estate loans. The unpaid principal balance of loans serviced for investors, including residential mortgage and home equity loans, totaled \$182.9 billion and \$219.5 billion at March 31, 2020 and 2019. Servicing fee and ancillary fee income on serviced loans was \$128 million and \$148 million during the three months ended March 31, 2020 and 2019 Servicing advances on serviced loans, including loans serviced for others and loans held for investment, were \$2.1 billion and \$2.4 billion at March 31, 2020 and December 31, 2019. For more information on MSRs, seeNote 14 - Fair Value Measurements.

the three months ended March 31, 2019, the Corporation During deconsolidated agency residential mortgage securitization trusts with total assets of\$705 million. There were no significant deconsolidations during thethree months ended March 31, 2020.

The following table summarizes select information related to first-lien mortgage securitization trusts in which the Corporation held a variable interest at March 31, 2020 and December 31, 2019.

⁽¹⁾ For unconsolidated home equity loan VIEs, the maximum loss exposure includes outstanding trust certificates issued by trusts in rapid amortization, net of recorded reserves. For both consolidated and unconsolidated home equity loan VIEs, the maximum loss exposure excludes the reserve for representations and warranties obligations and corporate guarantees. For more information, see *Note 10 – Commitments and Contingencies*(2) At March 31, 2020 and December 31, 2019, loans and leases in the consolidated credit card trust included \$11.0 billion and \$10.5 billion of seller's

Home Equity Loans

The Corporation retains interests, primarily senior securities, in home equity securitization trusts to which it transferred home equity loans. In addition, the Corporation may be obligated to provide subordinate funding to the trusts during a rapid amortization event. This obligation is included in the maximum loss exposure in the table above. The charges that will ultimately be recorded as a result of the rapid amortization events depend on the undrawn portion of the HELOCs, performance of the loans, the amount of subsequent draws and the timing of related cash flows.

Credit Card Securitizations

The Corporation securitizes originated and purchased credit card loans. The Corporation's continuing involvement with the securitization trust includes servicing the receivables, retaining an undivided interest (seller's interest) in the receivables, and holding certain retained interests including subordinate interests in accrued interest and fees on the securitized receivables.

No new senior debt securities were issued to third-party investors from the credit card securitization trust during the three months ended March 31, 2020 and 2019

At March 31, 2020 and December 31, 2019, the Corporation held subordinate securities issued by the credit card securitization trust with a notional principal amount of \$7.0 billion and \$7.4 billion. These securities serve as a form of credit enhancement to the senior debt securities and have a stated interest rate of zero percent. No subordinate securities were issued by the credit card securitization trust during the three months ended March 31, 2020 and 2019

Resecuritization Trusts

The Corporation transfers securities, typically MBS, into resecuritization VIEs at the request of customers seeking

securities with specific characteristics. Generally, there are no significant ongoing activities performed in a resecuritization trust, and no single investor has the unilateral ability to liquidate the trust.

The Corporation resecuritized \$7.4 billion and \$4.4 billion of securities during the three months ended March 31, 2020 and 2019 Securities transferred into resecuritization VIEs were measured at fair value with changes in fair value recorded in market making and similar activities prior to the resecuritization and, accordingly, no gain or loss on sale was recorded. During the three months ended March 31, 2020 and 2019, resecuritization proceeds included securities with an initial fair value of \$526 million and \$1.3 billion. Substantially all of the other securities received as resecuritization proceeds were classified as trading securities and were categorized as Level 2 within the fair value hierarchy.

Municipal Bond Trusts

The Corporation administers municipal bond trusts that hold highly-rated, longterm, fixed-rate municipal bonds. The trusts obtain financing by issuing floatingrate trust certificates that reprice on a weekly or other short-term basis to thirdparty investors.

The Corporation's liquidity commitments to unconsolidated municipal bond trusts, including those for which the Corporation was transferor, totaled \$3.2 billion and \$3.7 billion at March 31, 2020 and December 31, 2019. The weighted-average remaining life of bonds held in the trusts at March 31, 2020 was 7.5 years. There were no significant write-downs or downgrades of assets or issuers during the three months ended March 31, 2020 and 2019

Other Variable Interest Entities

The table below summarizes select information related to other VIEs in which the Corporation held a variable interest at March 31, 2020 and December 31, 2019.

⁽³⁾ At March 31, 2020 and December 31, 2019, all other assets in the consolidated credit card trust included unbilled accrued inte

fees.

(4) The retained senior securities were valued using quoted market prices or observable market inputs (Level 2 of the fair value).

hierarchy). (5) Total assets of VIEs includes loans the Corporation transferred with which it has continuing involvement, which may include servicing the loan.

Customer VIEs

Customer VIEs include credit-linked, equity-linked and commodity-linked note VIEs, repackaging VIEs and asset acquisition VIEs, which are typically created on behalf of customers who wish to obtain market or credit exposure to a specific company, index, commodity or financial instrument.

The Corporation's maximum loss exposure to consolidated and unconsolidated customer VIEs totaled \$1.9 billion and \$2.2 billion at March 31, 2020 and December 31, 2019, including the notional amount of derivatives to which the Corporation is a counterparty, net of losses previously recorded, and the Corporation's investment, if any, in securities issued by the VIEs.

Collateralized Debt Obligation VIEs

The Corporation receives fees for structuring CDO VIEs, which hold diversified pools of fixed-income securities, typically corporate debt or ABS, which the CDO VIEs fund by issuing multiple tranches of debt and equity securities. CDOs are generally managed by third-party portfolio managers. The Corporation typically transfers assets to these CDOs, holds securities issued by the CDOs and may be a derivative counterparty to the CDOs. The Corporation's maximum loss exposure to consolidated and unconsolidated CDOs totaled \$209 million and \$304 million at March 31, 2020 and December 31, 2019.

Investment VIEs

The Corporation sponsors, invests in or provides financing, which may be in connection with the sale of assets, to a variety of investment VIEs that hold loans, real estate, debt securities or other financial instruments and are designed to provide the desired investment profile to investors or the Corporation. At March 31, 2020 and December 31, 2019, the Corporation's consolidated investment VIEs had total assets of \$595 million and \$104 million. The Corporation also held investments in unconsolidated VIEs with total assets of \$35.0 billion and \$32.4 billion at March 31, 2020 and December 31, 2019. The Corporation's maximum loss exposure associated with both consolidated and unconsolidated investment VIEs totaled \$6.6 billion and \$6.4 billion at March 31, 2020 and December 31, 2019 comprised primarily of on-balance sheet assets less non-recourse liabilities.

Leveraged Lease Trusts

The Corporation's net investment in consolidated leveraged lease trusts totaled \$1.7 billion at both March 31, 2020 and December 31, 2019. The trusts hold long-lived equipment such as rail cars, power generation and distribution equipment, and commercial

aircraft. The Corporation structures the trusts and holds a significant residual interest. The net investment represents the

Corporation's maximum loss exposure to the trusts in the unlikely event that the leveraged lease investments become worthless. Debt issued by the leveraged lease trusts is non-recourse to the Corporation.

Tax Credit VIEs

The Corporation holds investments in unconsolidated limited partnerships and similar entities that construct, own and operate affordable housing, wind and solar projects. An unrelated third party is typically the general partner or managing member and has control over the significant activities of the VIE. The Corporation earns a return primarily through the receipt of tax credits allocated to the projects. The maximum loss exposure included in the Other VIEs table was \$19.0 billion and \$18.9 billion at March 31, 2020 and December 31, 2019. The Corporation's risk of loss is generally mitigated by policies requiring that the project qualify for the expected tax credits prior to making its investment.

The Corporation's investments in affordable housing partnerships, which are reported in other assets on the Consolidated Balance Sheet, totaled \$10.0 billion, including unfunded commitments to provide capital contributions of \$4.3 billion at both March 31, 2020 and December 31, 2019. The unfunded commitments are expected to be paid over the next five years. During the three months ended March 31, 2020 and 2019, the Corporation recognized tax credits and other tax benefits from investments in affordable housing partnerships of \$268 million and \$280 million and reported pretax losses in other income of \$272 million and \$248 million. Tax credits are recognized as part of the Corporation's annual effective tax rate used to determine tax expense in a given quarter. Accordingly, the portion of a year's expected tax benefits recognized in any given quarter may differ from 25 percent. The Corporation may from time to time be asked to invest additional amounts to support a troubled affordable housing project. Such additional investments have not been and are not expected to be significant.

NOTE 7 Goodwill and Intangible Assets

Goodwill

The table below presents goodwill balances by business segment and All Other at March 31, 2020 and December 31, 2019. The reporting units utilized for goodwill impairment testing are the operating segments or one level below. For more information, see Note 7 – Goodwill and Intangible Assets to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

Goodwill

(Dollars in millions)	N	larch 31 2020	December 31 2019
Consumer Banking	\$	30,123	\$ 30,123
Global Wealth & Investment Management		9,677	9,677
Global Banking		23,923	23,923
Global Markets		5,182	5,182
All Other		46	46
Total goodwill	\$	68,951	\$ 68,951

Intangible Assets

At March 31, 2020 and December 31, 2019, the net carrying value of intangible assets was \$1.6 billion and \$1.7 billion. At March 31, 2020 and December 31, 2019, intangible assets included \$1.6 billion of intangible assets associated with trade names, substantially all of which had an indefinite life and, accordingly, are not being amortized. Amortization of intangibles expense was \$16 million and \$26 million for the three months ended March 31, 2020 and 2019.

NOTE 8 Leases

The Corporation enters into both lessor and lessee arrangements. For more information on lease accounting, see *Note 1 – Summary of Significant Accounting Principles* and *Note 9 – Leases* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. For more information on lease financing receivables, see *Note 5 – Outstanding Loans and Leases and Allowance for Credit Losses*.

Lessor Arrangements

The Corporation's lessor arrangements primarily consist of operating, sales-type and direct financing leases for equipment. Lease agreements may include options to renew and for the lessee to purchase the leased equipment at the end of the lease term

At March 31, 2020 and December 31, 2019, the total net investment in salestype and direct financing leases was \$21.3 billion and \$21.9 billion, comprised of \$18.8 billion and \$19.3 billion in lease receivables and \$2.5 billion and \$2.6 billion in unguaranteed residuals. In certain cases, the Corporation obtains third-party residual value insurance to reduce its residual asset risk. The carrying value of residual assets with third-party residual value insurance for at least a portion of the asset value was \$6.2 billion and \$5.8 billion at March 31, 2020 and December 31, 2010

For the three months ended March 31, 2020 and 2019 total lease income was \$440 million and \$426 million, consisting of \$197 million and \$205 million from sales-type and direct financing leases and \$243 million and \$221 million from operating leases.

Lessee Arrangements

The Corporation's lessee arrangements predominantly consist of operating leases for premises and equipment; the Corporation's financing leases are not significant. Right-of-use assets were \$10.1 billion and \$9.7 billion and lease liabilities were \$10.4 billion and \$10.1 billion at March 31, 2020 and December 31, 2019.

NOTE 9 Federal Funds Sold or Purchased, Securities Financing Agreements, Short-term Borrowings and Restricted

The table below presents federal funds sold or purchased, securities financing agreements (which include securities borrowed or purchased under agreements to resell and securities loaned or sold under agreements to repurchase) and short-term borrowings. The Corporation elects to account for certain securities financing agreements and short-term borrowings under the fair value option. For more information on the fair value option, see *Note 15 – Fair Value Option*.

Offsetting of Securities Financing Agreements

The Corporation enters into securities financing agreements to accommodate customers (also referred to as "matched-book transactions"), obtain securities to cover short positions and finance inventory positions. For more information on the securities financing agreements and the offsetting of securities financing transactions, see *Note 11 – Federal Funds Sold or Purchased, Securities Financing Agreements, Short-term Borrowings and Restricted Cash* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

The Securities Financing Agreements table presents securities financing agreements included on the Consolidated Balance Sheet in federal funds sold and securities borrowed or purchased under agreements to resell, and in federal funds purchased and securities loaned or sold under agreements to repurchase at March 31, 2020 and December 31, 2019. Balances are presented on a gross basis, prior to the application of counterparty netting. Gross assets and liabilities are adjusted on an aggregate basis to take into consideration the effects of legally enforceable master netting agreements. For more information on the offsetting of derivatives, see *Note 3 – Derivatives*.

Repurchase Agreements and Securities Loaned Transactions **Accounted for as Secured Borrowings**

The following tables present securities sold under agreements to repurchase and securities loaned by remaining contractual term to maturity and class of collateral pledged. Included in "Other" are transactions where the Corporation acts as the lender in a securities lending agreement and receives securities that can be pledged as collateral or sold. Certain agreements contain a right

to substitute collateral and/or terminate the agreement prior to maturity at the option of the Corporation or the counterparty. Such agreements are included in the table below based on the remaining contractual term to maturity. For more information on collateral requirements, see Note 11 – Federal Funds Sold or Purchased, Securities Financing Agreements, Short-term Borrowings and Restricted Cash to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Remaining Contractual Maturity

industries.
(2) Includes securities collateral received or pledged under repurchase or securities lending agreements where there is a legally enforceable master netting agreement. These amounts are not offset on the Consolidated Balance Sheet, but are shown as a reduction to derive a net asset or liability. Securities collateral received or pledged where the legal enforceability of the master netting agreements is uncertain is excluded from the table.
(3) Excludes repurchase activity of \$13.1 billion and \$12.9 billion reported in loans and leases on the Consolidated Balance Sheet atMarch 31, 2020 and December 31,

<sup>2019.

(4)</sup> Balance is reported in accrued expenses and other liabilities on the Consolidated Balance Sheet and relates to transactions where the Corporation acts as the lender in a securities lending agreement and receives securities that can be pledged as collateral or sold. In these transactions, the Corporation recognizes an asset at fair value, representing the securities received, and a liability, representing the obligation to return those securities.

Restricted Cash

At March 31, 2020 and December 31, 2019, the Corporation held restricted cash included within cash and cash equivalents on the Consolidated Balance Sheet of \$7.4 billion and \$24.4 billion, predominantly related to cash held on deposit with the Federal Reserve Bank and non-U.S. central banks to meet reserve requirements and cash segregated in compliance with securities regulations.

NOTE 10 Commitments and Contingencies

In the normal course of business, the Corporation enters into a number of off-balance sheet commitments. These commitments expose the Corporation to varying degrees of credit and market risk and are subject to the same credit and market risk limitation reviews as those instruments recorded on the Consolidated Balance Sheet. For more information on commitments and contingencies, see Note 13 – Commitments and Contingencies to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

Credit Extension Commitments

The Corporation enters into commitments to extend credit such as loan commitments, SBLCs and commercial letters of credit to meet the financing needs of its customers. The following table includes the notional amount of unfunded legally binding lending

commitments net of amounts distributed (i.e., syndicated or participated) to other financial institutions. The distributed amounts were \$10.5 billion and \$10.6 billion at March 31, 2020 and December 31, 2019. At March 31, 2020, the carrying value of these commitments, excluding commitments accounted for under the fair value option, was \$1.4 billion, including deferred revenue of \$18 million and a reserve for unfunded lending commitments of \$1.4 billion. At December 31, 2019, the comparable amounts were \$829 million, \$16 million and \$813 million, respectively. The carrying value of these commitments is classified in accrued expenses and other liabilities on the Consolidated Balance Sheet.

Legally binding commitments to extend credit generally have specified rates and maturities. Certain of these commitments have adverse change clauses that help to protect the Corporation against deterioration in the borrower's ability to pay.

The table below includes the notional amount of commitments of\$3.8 billion and \$4.4 billion at March 31, 2020 and December 31, 2019 that are accounted for under the fair value option. However, the table excludes cumulative net fair value of \$207 million and \$90 million at March 31, 2020 and December 31, 2019 on these commitments, which is classified in accrued expenses and other liabilities. For more information regarding the Corporation's loan commitments accounted for under the fair value option, see *Note* 15 – Fair Value Option.

⁽¹⁾ At March 31, 2020 and December 31, 2019, \$4.4 billion and \$5.1 billion of these loan commitments are held in the form of a

Other Commitments

At March 31, 2020 and December 31, 2019, the Corporation had commitments to purchase loans (e.g., residential mortgage and commercial real estate) of \$141 million and \$86 million, which upon settlement will be included in loans or LHFS, and commitments to purchase commercial loans of \$1.1 billion in both periods, which upon settlement will be included in trading account assets.

At March 31, 2020 and December 31, 2019, the Corporation had commitments to purchase commodities, primarily liquefied natural gas, of \$488 million and \$830 million, which upon settlement will be included in trading account assets.

At March 31, 2020 and December 31, 2019, the Corporation had commitments to enter into resale and forward-dated resale and securities borrowing agreements of \$81.6 billion and \$97.2 billion, and commitments to enter into forward-dated repurchase and securities lending agreements of \$33.3 billion and \$24.9 billion. These commitments expire primarily within the next 12 months.

At March 31, 2020 and December 31, 2019, the Corporation had a commitment to originate or purchase up to \$3.4 billion and \$3.3 billion on a rolling 12-month basis, of auto loans and leases from a strategic partner. This commitment extends through November 2022 and can be terminated with 12 months prior notice.

Other Guarantees

Bank-owned Life Insurance Book Value Protection

The Corporation sells products that offer book value protection to insurance carriers who offer group life insurance policies to corporations, primarily banks. At both March 31, 2020 and December 31, 2019, the notional amount of these guarantees totaled \$7.3 billion. At both March 31, 2020 and December 31, 2019, the Corporation's maximum exposure related to these guarantees totaled \$1.1 billion, with estimated maturity dates between 2033 and 2039.

Merchant Services

In accordance with credit and debit card association rules, the Corporation sponsors merchant processing servicers that process credit and debit card transactions on behalf of various merchants. If a merchant processor fails to meet its obligation regarding disputed transactions, then the Corporation could be held liable. For the three months ended March 31, 2020 and 2019 the sponsored entities processed \$203.7 billion and \$205.6 billion of transactions and recorded losses of \$7 million and \$4 million

At March 31, 2020 and December 31, 2019, the maximum potential exposure for sponsored transactions totaled \$365.7 billion and \$384.2 billion. However, the Corporation believes that the maximum potential exposure is not representative of the actual potential loss exposure.

A significant portion of the Corporation's merchant processing activity is performed by a joint venture, formed in 2009, in which the Corporation holds a 49 percent ownership interest. The carrying value of the Corporation's investment was \$649 million and \$640 million at March 31, 2020 and December 31, 2019. The joint venture is accounted for as an equity method investment and reported in All Other. On July 29, 2019, the Corporation gave notice to the joint venture partner of the termination of the joint venture upon the conclusion of its current term in June 2020. As a result, the Corporation incurred a non-cash, pretax impairment charge in 2019 of \$2.1 billion, included in other general operating expense.

Representations and Warranties Obligations and Corporate Guarantees

For more information on representations and warranties obligations and corporate quarantees, see Note 13 - Commitments and Contingencies to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

The reserve for representations and warranties obligations and corporate guarantees was \$1.4 billion and \$1.8 billion at March 31, 2020 and December 31, 2019 and is included in accrued

security.

(2)The notional amounts of SBLCs and financial guarantees classified as investment grade and non-investment grade based on the credit quality of the underlying reference name within the instrument wer\$27.2 billion and \$9 billion at March 31, 2020, and \$27.9 billion and \$8.6 billion at December 31, 2019. Amounts in the table include consumer SBLCs or\$439 million and \$413 million at March 31, 2020 and December 31, 2019.

(3) At March 31, 2020 and December 31, 2019, included are letters of credit of \$1.7 billion and \$1.4 billion related to certain liquidity commitments of VIEs. For more information, seeNote 6 – Securitizations and Other Variable Interest

⁽⁴⁾ Includes business card unused lines of credit.

expenses and other liabilities on the Consolidated Balance Sheet and the related provision is included in other income in the Consolidated Statement of Income. The representations and warranties reserve represents the Corporation's best estimate of probable incurred losses, is based on our experience in previous negotiations, and is subject to judgment, a variety of assumptions, and known or unknown uncertainties. Future representations and warranties losses may occur in excess of the amounts recorded for these exposures; however, the Corporation does not expect such amounts to be material to the Corporation's financial condition and liquidity. See Litigation and Regulatory Matters below for the Corporation's combined range of possible loss in excess of the reserve for representations and warranties and the accrued liability for litigation.

Fixed Income Clearing Corporation Sponsored Member Repo Program

The Corporation acts as a sponsoring member in a repo program whereby the Corporation clears certain eligible resale and repurchase agreements through the Government Securities Division of the Fixed Income Clearing Corporation on behalf of clients that are sponsored members in accordance with the Fixed Income Clearing Corporation's rules. As part of this program, the Corporation guarantees the payment and performance of its sponsored members to the Fixed Income Clearing Corporation. The Corporation's guarantee obligation is secured by a security interest in cash or high-quality securities collateral placed by clients with the clearinghouse and therefore, the potential for the Corporation to incur significant losses under this arrangement is remote. The Corporation's maximum potential exposure, without taking into consideration the related collateral, was \$5.4 billion and \$9.3 billion at March 31, 2020 and December 31, 2019.

Other Guarantees

The Corporation has entered into additional guarantee agreements and commitments, including sold risk participation swaps, liquidity facilities, lease-end obligation agreements, partial credit guarantees on certain leases, real estate joint venture guarantees, divested business commitments and sold put options that require gross settlement. The maximum potential future payments under these agreements are approximately \$8.8 billion and \$8.7 billion at March 31, 2020 and December 31, 2019. The estimated maturity dates of these obligations extend up to 2048. The Corporation has made no material payments under these guarantees. For more information on maximum potential future payments under VIE-related liquidity commitments, see *Note 6 – Securitizations and Other Variable Interest Entities*

In the normal course of business, the Corporation periodically guarantees the obligations of its affiliates in a variety of transactions including ISDA-related transactions and non-ISDA related transactions such as commodities trading, repurchase agreements, prime brokerage agreements and other transactions.

Guarantees of Certain Long-term Debt

The Corporation, as the parent company, fully and unconditionally guarantees the securities issued by BofA Finance LLC, a 100 percent owned finance subsidiary of the Corporation, and effectively provides for the full and unconditional guarantee of trust securities issued by certain statutory trust companies that are 100 percent owned finance subsidiaries of the Corporation.

Litigation and Regulatory Matters

The following disclosure supplements the disclosure in *Note 13 – Commitments and Contingencies* to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K (the prior commitments and contingencies disclosure).

In the ordinary course of business, the Corporation and its subsidiaries are routinely defendants in or parties to many pending and threatened legal, regulatory and governmental actions and proceedings. In view of the inherent difficulty of predicting the outcome of such matters, particularly where the claimants seek very large or indeterminate damages or where the matters present novel legal theories or involve a large number of parties, the Corporation generally cannot predict the eventual outcome of the pending matters, the timing of the ultimate resolution of these matters, or any eventual loss, fines or penalties related to each pending matter.

In accordance with applicable accounting guidance, the Corporation establishes an accrued liability when those matters present loss contingencies that are both probable and estimable. In such cases, there may be an exposure to loss in excess of any amounts accrued. As a matter develops, the Corporation, in conjunction with any outside counsel handling the matter, evaluates on an ongoing basis whether such matter presents a loss contingency that is probable and estimable. Once the loss contingency is deemed to be both probable and estimable, the Corporation will establish an accrued liability and record a corresponding amount of litigation-related expense. The Corporation continues to monitor the matter for further developments that could affect the amount of the accrued liability that has been previously established. Excluding expenses of internal and external legal service providers, litigation-related expense of \$24 million and \$73 million was recognized for the three months ended March 31, 2020 and 2019.

For a limited number of the matters disclosed in this Note, and in the prior commitments and contingencies disclosure, for which a loss, whether in excess of a related accrued liability or where there is no accrued liability, is reasonably possible in future periods, the Corporation is able to estimate a range of possible loss. In determining whether it is possible to estimate a range of possible loss, the Corporation reviews and evaluates these matters on an ongoing basis, in conjunction with any outside counsel handling the matter, in light of potentially relevant factual and legal developments. With respect to such matters, in cases in which the Corporation possesses sufficient appropriate information to estimate a range of possible loss, that estimate is aggregated and disclosed below. There may be other disclosed matters for which a loss is probable or reasonably possible but such an estimate of the range of possible loss may not be possible. For those disclosed matters where an estimate of the range of possible loss is possible, as well as for representations and warranties exposures, management currently estimates the aggregate range of reasonably possible loss for these exposures is \$0 to \$1.6 billion in excess of the accrued liability, if any.

The estimated range of possible loss, as well as the Corporation's accrued liability, is based upon currently available information and is subject to significant judgment, a variety of assumptions and known and unknown uncertainties. The matters underlying the estimated range of possible loss and liability accrual are unpredictable and will change from time to time, and actual losses may vary significantly from the current estimate or accrual. Therefore, this estimated range of possible loss represents what the Corporation believes to be an estimate of possible loss only for certain matters meeting these criteria. It does not represent the Corporation's maximum loss exposure.

Information is provided below, or in the prior commitments and contingencies disclosure regarding the nature of the litigation and, where specified, associated claimed damages. Based on current knowledge, and taking into account accrued liabilities, management does not believe that loss contingencies arising from pending matters, including the matter described below, and in the

prior commitments and contingencies disclosure, will have a material adverse effect on the consolidated financial condition or liquidity of the Corporation. However, in light of the significant judgment, variety of assumptions and uncertainties involved in these matters, some of which are beyond the Corporation's control, and the very large or indeterminate damages sought in some of these matters, an adverse outcome in one or more of these matters could be material to the Corporation's business or results of operations for any particular reporting period, or cause significant reputational harm.

Mortgage Appraisal Litigation

On March 30, 2020, the District Court granted preliminary approval of the settlement.

NOTE 11 Shareholders' Equity

Common Stock

Declared Quarterly Cash Dividends on Common Stock (1)

Declaration Date	Record Date	Payment Date	 dend Per Share
April 22, 2020	June 5, 2020	June 26, 2020	\$ 0.18
January 29, 2020	March 6, 2020	March 27, 2020	0.18

(1) In 2020, and through May 1,

During the three months ended March 31, 2020, the Corporation repurchased 200 million shares of common stock in connection with the Board's 2019 repurchase authorizations, which reduced shareholders' equity by \$6.4 billion.

During the three months ended March 31, 2020, in connection with employee stock plans, the Corporation issued 63 million shares of its common stock and, to satisfy tax withholding obligations, repurchased 24 million shares of its common stock. At March 31, 2020, the Corporation had reserved 517 million unissued shares of common stock for future issuances under employee stock plans, convertible notes and preferred stock.

Preferred Stock

During the three months ended March 31, 2020, the Corporation declared \$469 million of cash dividends on preferred stock. On January 24, 2020, the Corporation issued 44,000 shares of Fixed-to-Floating Rate Non-Cumulative Preferred Stock, Series MM for \$1.1 billion. Dividends are paid semi-annually during the fixed-rate

period commencing on July 28, 2020, then quarterly during the floating-rate period commencing April 28, 2025. The Series MM preferred stock has a liquidation preference of \$25,000 per share and is subject to certain restrictions in the event the Corporation fails to declare and pay full dividends. During the three months ended March 31, 2020, the Corporation fully redeemed Series Y preferred stock for \$1.1 billion. For more information on the Corporation's preferred stock, including liquidation preference, dividend requirements and redemption period, see Note 14 Shareholders' Equity to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Restricted Stock Units

During the three months ended March 31, 2020, the Corporation granted 86 million restricted stock unit (RSU) awards to certain employees under the Bank of America Corporation Key Employee Equity Plan. These RSUs were authorized to settle predominantly in shares of common stock of the Corporation. Certain RSUs will be settled in cash or contain settlement provisions that subject these awards to variable accounting whereby compensation expense is adjusted to fair value based on changes in the share price of the Corporation's common stock up to the settlement date. Of the RSUs granted during the three months ended March 31, 2020, 61 million will vest predominantly over three years with most vesting occurring in one-third increments on each of the first three anniversaries of the grant date provided that the employee remains continuously employed with the Corporation during that time, and will be expensed ratably over the vesting period, net of estimated forfeitures, for non-retirement eligible employees based on the grant-date fair value of the shares. For RSUs granted to employees who are retirement eligible, the awards are deemed authorized as of the beginning of the year preceding the grant date when the incentive award plans are generally approved. As a result, the estimated value is expensed ratably over the year preceding the grant date. Additionally, 25 million of the RSUs will vest predominantly over four years with most vesting occurring in one-fourth increments on each of the first four anniversaries of the grant date provided that the employee remains continuously employed with the Corporation during that time, and will be expensed ratably over the vesting period, net of estimated forfeitures, based on the grant-date fair value of the shares. For more information, see Note 19 - Stockbased Compensation Plans to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

NOTE 12 Earnings Per Common Share

The calculation of earnings per common share (EPS) and diluted EPS for thethree months ended March 31, 2020 and 2019 is presented below. For more information on the calculation of EPS, see Note 1 - Summary of Significant Accounting Principles to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

	Three Mo	Three Months Ended March					
(In millions, except per share information)	2020		2019				
Earnings per common share							
Net income	\$ 4,0	10 \$	7,311				
Preferred stock dividends	(4	69)	(442				
Net income applicable to common shareholders	\$ 3,5	41 \$	6,869				
Average common shares issued and outstanding	8,81	5.6	9,725.9				
Earnings per common share	\$ 0.	40 \$	0.71				
Diluted earnings per common share							
Net income applicable to common shareholders	\$ 3,5	41 \$	6,869				
Average common shares issued and outstanding	8,81	5.6	9,725.9				
Dilutive potential common shares (1)	4	'.1	61.4				
Total diluted average common shares issued and outstanding	8,86	2.7	9,787.3				
Diluted earnings per common share	\$ 0.	40 \$	0.70				

⁽¹⁾ Includes incremental dilutive shares from RSUs, restricted stock and warrants.

For both the three months ended March 31, 2020 and 2019 62 million average dilutive potential common shares associated with the Series L preferred stock were not included in the diluted share count because the result would have been antidilutive under the "if-converted" method. For the three months ended March 31, 2019, average warrants to purchase 14 million shares of common stock, were included in the diluted EPS calculation under the treasury stock method. Substantially all of these warrants were exercised on or before their expiration date of January 16, 2019.

NOTE 13 Accumulated Other Comprehensive Income (Loss)

The table below presents the changes in accumulated OCI after-tax for thethree months ended March 31, 2020 and 2019

(Dollars in millions)		Debt Securities	Debit Valuation Adjustments		Derivatives		Employee enefit Plans	Foreign Currency	Total	
Balance, December 31, 2018		(5,552)	\$ (531)	\$	(1,016)	\$	(4,304)	\$ (808)	\$ (12,211

NOTE 14 Fair Value Measurements

Under applicable accounting standards, fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Corporation determines the fair values of its financial instruments under applicable accounting standards and conducts a review of its fair value hierarchy classifications on a quarterly basis. Transfers into or out of fair value hierarchy classifications are made if the significant inputs used in the financial models measuring the fair values of the assets and liabilities become

unobservable or observable in the current marketplace. During thethree months ended March 31, 2020, there were no changes to valuation approaches or techniques that had, or are expected to have, a material impact on the Corporation's consolidated financial position or results of operations.

For more information regarding the fair value hierarchy, how the Corporation measures fair value and valuation techniques, see Note 1 - Summary of Significant Accounting Principles and Note 21 - Fair Value Measurements to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. The Corporation accounts for certain financial instruments under the fair value option. For more information, see Note 15 - Fair Value Option.

⁽¹⁾ Reclassifications of pretax debt securities, DVA and foreign currency (gains) losses are recorded in other income in the Consolidated Statement of Income.
(2) Reclassifications of pretax employee benefit plan costs are recorded in other general operating expense in the Consolidated Statement of

Recurring Fair Value

Assets and liabilities carried at fair value on a recurring basis atMarch 31, 2020 and December 31, 2019, including financial instruments that the Corporation accounts for under the fair value option, are summarized in the following tables.

⁽¹⁾ Amounts represent the impact of legally enforceable master netting agreements and also cash collateral held or placed with the same counterparties.
(2) In cl u de \$ \$2.50.7 billion of GSE obligations.
(3) Includes securities with a fair value of \$14.7 billion that were segregated in compliance with securities regulations or deposited with clearing organizations. This amount is included in the parenthetical disclosure on the Consolidated Balance Sheet.
(4) Includes MSRs of \$1.5 billion which are classified as Level 3 asserts

assets.

(5) Total recurring Level 3 assets were 0.42 percent of total consolidated assets, and total recurring Level 3 liabilities were 0.27 percent of total consolidated liabilities.

The following tables present a reconciliation of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the three months ended March 31, 2020 and 2019 including net realized and unrealized gains (losses) included in earnings and accumulated OCI. Transfers into Level 3 occur primarily due to decreased price

observability, and transfers out of Level 3 occur primarily due to increased price observability. Transfers occur on a regular basis for long-term debt instruments due to changes in the impact of unobservable inputs on the value of the embedded derivative in relation to the instrument as a whole.

Nonrecurring Fair Value

The Corporation holds certain assets that are measured at fair value only in certain situations (e.g., the impairment of an asset), and these measurements are referred to herein as nonrecurring. The amounts below represent assets still held as of the reporting date for which a nonrecurring fair value adjustment was recorded during the three months ended March 31, 2020 and 2019.

Assets Measured at Fair Value on a Nonrecurring Basis

		March	31, 20)20	Т	Three Months Ended March 31, 2020

⁽¹⁾ The weighted average is calculated based upon the fair value of the

NOTE 15 Fair Value Option

The Corporation elects to account for certain financial instruments under the fair value option. For more information on the primary financial instruments for which the fair value option elections have been made, see Note 22 - Fair Value Option to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. The following tables provide information about the fair

value carrying amount and the contractual principal outstanding of assets and liabilities accounted for under the fair value option at March 31, 2020 and December 31, 2019, and information about where changes in the fair value of assets and liabilities accounted for under the fair value option are included in the Consolidated Statement of Income for the three months ended March 31, 2020 and 2019.

¹⁰⁾ includes \$12 million and \$16 million or bases on hoars that were written down to a content available or 260 uning treatment millions caused water \$12 million and \$10 million or properties that were written down subsequent to their initial classification as foreclosed properties. Losses on foreclosed properties include losses recorded during the first 90 days after transfer of a loan to foreclosed properties include losses recorded during the first 90 days after transfer of a loan to foreclosed properties.

(3) Excludes \$224 million and \$400 million of properties acquired upon foreclosure of certain government-guaranteed loans (principally FHA-insured loans) atMarch 31, 2020 and 2019.

loans.
(2) Represents residential mortgages where the loan has been written down to the fair value of the underlying

collateral.

3) Reflects the measurement of the Corporation's merchant services equity method investment on which the Corporation recorded an impairment charge in 2019. For more information, se\(\text{Note}\) 13 — Commitments and Contingencies to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. The fair value of the merchant services joint venture was measured using a discounted cash flow method in which the two primary drivers of fair value were the customer attrition rate and certain costs to service the customers. The weighted averages are calculated based on variations of the attrition rates and costs to service the customers.

NOTE 16 Fair Value of Financial Instruments

The following disclosures include financial instruments that are not carried at fair value or only a portion of the ending balance is carried at fair value on the Consolidated Balance Sheet. Certain loans, deposits, long-term debt and unfunded lending commitments are accounted for under the fair value option. For more information, see Note 22 - Fair Value Option to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K

Fair Value of Financial Instruments

The carrying values and fair values by fair value hierarchy of certain financial instruments where only a portion of the ending balance was carried at fair value at March 31, 2020 and December 31, 2019 are presented in the following table.

outstanding.
(2) Includes structured liabilities with a fair value of \$31.8 billion and \$34.6 billion at March 31, 2020 and December 31, 2019, and contractual principal outstanding of \$35.3 billion at both

periods. n/a = not applicable

⁽¹⁾ The gains in market making and similar activities relate to the embedded derivatives in structured liabilities and are typically offset by (losses) gains on derivatives and securities that hedge these liabilities. For the cumulative impact of changes in the Corporation's own credit spreads and the amount recognized in accumulated OCI, see Note 13 – Accumulated Other Comprehensive Income (Loss) For more information on how the Corporation's own credit spread is determined, seeNote 21 – Fair Value Measurements to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K
(3) Includes gains (losses) on federal funds sold and securities borrowed or purchased under agreements to resell, LHFS, long-term deposits and federal funds purchased and securities loaned or sold under agreements to

NOTE 17 Business Segment Information

The Corporation reports its results of operations through the following four segments: Consumer Banking, Global Wealth & Investment Management, Global Banking and Global Markets, with the remaining operations recorded in All Other. For more information, see Note 24 - Business Segment Information to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K. The following table presents net income (loss) and the components thereto (with net interest

income on an FTE basis for the business segments, All Other and the total Corporation) for the three months ended March 31, 2020 and 2019, and total assets at March 31, 2020 and 2019 for each business segment, as well as All Other, including a reconciliation of the four business segments' total revenue, net of interest expense, on an FTE basis, and net income to the Consolidated Statement of Income, and total assets to the Consolidated Balance Sheet.

⁽¹⁾ Includes demand deposits of \$650.9 billion and \$545.5 billion with no stated maturities at March 31, 2020 and December 31, 2019.

(2) The carrying value of commercial unfunded lending commitments is included in accrued expenses and other liabilities on the Consolidated Balance Sheet. The Corporation does not estimate the fair value of consumer unfunded lending commitments because, in many instances, the Corporation can reduce or cancel these commitments by providing notice to the borrower. For more information on commitments, see Note 10 – Commitments and Contingencies

93 Bank of America

Glossary

Alt-A Mortgage – A type of U.S. mortgage that is considered riskier than A-paper, or "prime," and less risky than "subprime," the riskiest category. Typically, Alt-A mortgages are characterized by borrowers with less than full documentation, lower credit scores and higher LTVs.

Assets Under Management (AUM) – The total market value of assets under the investment advisory and/or discretion of *GWIM* which generate asset management fees based on a percentage of the assets' market values. AUM reflects assets that are generally managed for institutional, high net worth and retail clients, and are distributed through various investment products including mutual funds, other commingled vehicles and separate accounts.

Banking Book – All on- and off-balance sheet financial instruments of the Corporation except for those positions that are held for trading purposes.

Brokerage and Other Assets – Non-discretionary client assets which are held in brokerage accounts or held for safekeeping.

Committed Credit Exposure – Any funded portion of a facility plus the unfunded portion of a facility on which the lender is legally bound to advance funds during a specified period under prescribed conditions.

Credit Derivatives – Contractual agreements that provide protection against a specified credit event on one or more referenced obligations.

Credit Valuation Adjustment (CVA) – A portfolio adjustment required to properly reflect the counterparty credit risk exposure as part of the fair value of derivative instruments

Debit Valuation Adjustment (DVA) – A portfolio adjustment required to properly reflect the Corporation's own credit risk exposure as part of the fair value of derivative instruments and/or structured liabilities.

Funding Valuation Adjustment (FVA) – A portfolio adjustment required to include funding costs on uncollateralized derivatives and derivatives where the Corporation is not permitted to use the collateral it receives.

Interest Rate Lock Commitment (IRLC) – Commitment with a loan applicant in which the loan terms are guaranteed for a designated period of time subject to credit approval.

Letter of Credit – A document issued on behalf of a customer to a third party promising to pay the third party upon presentation of specified documents. A letter of credit effectively substitutes the issuer's credit for that of the customer.

Loan-to-value (LTV) – A commonly used credit quality metric. LTV is calculated as the outstanding carrying value of the loan divided by the estimated value of the property securing the loan.

Margin Receivable – An extension of credit secured by eligible securities in certain brokerage accounts.

Matched Book – Repurchase and resale agreements or securities borrowed and loaned transactions where the overall asset and liability position is similar in size and/or maturity. Generally, these are entered into to accommodate customers where the Corporation earns the interest rate spread.

Mortgage Servicing Rights (MSR) – The right to service a mortgage loan when the underlying loan is sold or securitized. Servicing includes collections for principal, interest and escrow payments from borrowers and accounting for and remitting principal and interest payments to investors.

Nonperforming Loans and Leases – Includes loans and leases that have been placed on nonaccrual status, including nonaccruing loans whose contractual terms have been restructured in a manner that grants a concession to a borrower experiencing financial difficulties.

Prompt Corrective Action (PCA) – A framework established by the U.S. banking regulators requiring banks to maintain certain levels of regulatory capital ratios, comprised of five categories of capitalization: "well capitalized," "adequately capitalized," "undercapitalized," "significantly undercapitalized" and "critically undercapitalized." Insured depository institutions that fail to meet certain of these capital levels are subject to increasingly strict limits on their activities, including their ability to make capital distributions, pay management compensation, grow assets and take other actions.

Subprime Loans – Although a standard industry definition for subprime loans (including subprime mortgage loans) does not exist, the Corporation defines subprime loans as specific product offerings for higher risk borrowers.

Troubled Debt Restructurings (TDRs) – Loans whose contractual terms have been restructured in a manner that grants a concession to a borrower experiencing financial difficulties. Certain consumer loans for which a binding offer to restructure has been extended are also classified as TDRs.

Value-at-Risk (VaR) – VaR is a model that simulates the value of a portfolio under a range of hypothetical scenarios in order to generate a distribution of potential gains and losses. VaR represents the loss the portfolio is expected to experience with a given confidence level based on historical data. A VaR model is an effective tool in estimating ranges of potential gains and losses on our trading portfolios.

Key Metrics

Active Digital Banking Users – Mobile and/or online users with activity over the last three months

Active Mobile Banking Users – Mobile users with activity over the last three months.

Book Value - Ending common shareholders' equity divided by ending common shares outstanding.

Deposit Spread – Annualized net interest income divided by average deposits.

Efficiency Ratio - Noninterest expense divided by total revenue, net of interest expense

Financial advisor productivity – Adjusted MLGWM annualized revenue divided by average financial advisors.

Gross Interest Yield – Effective annual percentage rate divided by average loans.

Net Interest Yield - Net interest income divided by average total interest-earning

Operating Margin – Income before income taxes divided by total revenue, net of interest expense.

Risk-adjusted Margin – Difference between total revenue, net of interest expense, and net credit losses divided by average loans.

Return on Average Allocated Capital – Adjusted net income divided by allocated capital.

Return on Average Assets – Net income divided by total average assets.

Return on Average Common Shareholders' Equity – Net income applicable to common shareholders divided by average common shareholders' equity.

Return on Average Shareholders' Equity – Net income divided by average shareholders' equity.

Part II. Other Information

Bank of America Corporation and Subsidiaries

Item 1. Legal Proceedings

See Litigation and Regulatory Matters in Note 10 - Commitments and Contingencies to the Consolidated Financial Statements, which is incorporated by reference in this Item 1, for litigation and regulatory disclosure that supplements the disclosure in Note 13 - Commitments and Contingencies to the Consolidated Financial Statements of the Corporation's 2019 Annual Report on Form 10-K.

Item 1A. Risk Factors

Our Annual Report on Form 10-K for the year ended December 31, 2019 (2019 Form 10-K) describes market, credit, geopolitical and business operations risk factors that could affect our businesses, results of operations or financial condition due to, among other things, "widespread health emergencies or pandemics." On March 11, 2020, the World Health Organization declared the outbreak of a strain of novel coronavirus disease, COVID-19, a global pandemic. As conditions and circumstances related to the COVID-19 pandemic have evolved subsequent to our 2019 Form 10-K filling, the following supplements the risk factors described in our 2019 Form 10-K.

Coronavirus Disease 2019

The COVID-19 pandemic has caused a significant global economic downturn which has adversely affected, and is expected to continue to adversely affect, the Corporation's business and results of operations, and the future impacts of the COVID-19 pandemic on the U.S. and/or global economy and the Corporation's business, results of operations and financial condition remain uncertain.

The COVID-19 pandemic has resulted in authorities implementing numerous measures attempting to contain the spread and impact of COVID-19, such as travel bans and restrictions, quarantines, shelter in place orders, and limitations on business activity, including closures. These measures are, among other things, severely restricting global economic activity, which is disrupting global supply chains, lowering asset valuations, significantly increasing unemployment and underemployment levels, decreasing liquidity in markets for certain securities and causing significant volatility and disruptions in the financial, energy and commodity markets. These measures have also negatively impacted, and could continue to negatively impact, businesses, market participants, our counterparties and clients, and the U.S. and/or global economy for a prolonged period of time.

Should current economic conditions persist or continue to deteriorate, we expect that this macroeconomic environment will have a continued adverse effect on our business and results of operations, which could include, but not be limited to: decreased demand for our products and services; protracted periods of lower interest rates; lower asset management fees; lower sales and trading revenue due to decreased market liquidity resulting from heightened volatility; increased noninterest expenses, including operational losses, and increased credit losses due to deterioration in the financial condition of our consumer and commercial borrowers, including declining asset and collateral values, which may continue to increase our provision for credit losses and net charge-offs. Our provision for credit losses and net charge-offs could also be impacted by continued volatility in the energy and commodity markets. Additionally, our liquidity and/or regulatory capital could be adversely impacted by customers' withdrawal of deposits, volatility and disruptions in the capital and

credit markets, volatility in foreign exchange rates and continued customer draws on lines of credit and potential downgrades to our credit ratings. If we become unable to successfully operate our business from remote locations including, for example, failure of our internal or external information technology infrastructure, increased rates of employee illness, or governmental restrictions placed on our employees or operations, this could also have an adverse effect on our business continuity status and result in disruption to our business. To the extent the COVID-19 pandemic continues to adversely affect the U.S. and/or global economy and/or adversely affects our business, results of operations or financial condition, it may also have the effect of increasing the likelihood and/or magnitude of other risks described in the section captioned "Risk Factors" in our 2019 Form 10-K or risks described in our other filings with the Securities and Exchange Commission.

In response to the economic and market conditions resulting from the COVID-19 pandemic, governments and regulatory authorities, including central banks, have acted to provide fiscal and monetary stimuli to support the global economy. In the U.S., the Board of Governors of the Federal Reserve System (Federal Reserve) has, among other things; lowered the federal funds rate and the interest rate on the Federal Reserve's discount window; implemented programs to promote liquidity in certain securities markets, including money markets, repurchase agreements, commercial paper, corporate debt securities, U.S. Treasury securities, and agency mortgage-backed securities; clarified supervisory expectations regarding loan modifications due to COVID-19 related non-payment: announced a program for lending directly to U.S. businesses; and clarified expectations for certain bank regulations related to counterparty credit risk and the current expected credit loss accounting standard. In addition, the President has signed into law four economic stimulus packages, including the Paycheck Protection Program and Health Care Enhancement Act. the \$2 trillion Coronavirus Aid, Relief, and Economic Security Act, the Families First Coronavirus Response and the Coronavirus Preparedness and Response Supplemental Appropriations Act. Similar actions have been taken or enacted by governments and central banks outside the U.S. However, there can be no assurance that these measures will stimulate the global economy or avert continued recessionary conditions in markets or economies in which we conduct operations. Our participation in and execution of these and other measures taken by governments and regulatory authorities could result in reputational harm and has resulted in, and may continue to result in, litigation, including class actions, or regulatory and government actions and proceedings. Such actions may result in judgments, settlements, penalties, and fines adverse to the Corporation.

We continue to closely monitor the COVID-19 pandemic and related risks as they evolve globally. The magnitude and duration of the current outbreak of COVID-19, the likelihood of further outbreaks of COVID-19, future actions taken by governmental authorities and/or other third parties in response to the COVID-19 pandemic, and its future direct and indirect effects on the global economy and our business and results of operation are highly uncertain. The COVID-19 pandemic may cause prolonged global or national recessionary economic conditions or longer lasting effects on economic conditions than currently exist, which could have a material adverse effect on our business, results of operations and financial

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below presents share repurchase activity for the three months ended March 31, 2020. The primary source of funds for cash distributions by the Corporation to its shareholders is dividends received from its banking subsidiaries. Each of the banking subsidiaries is subject to various regulatory policies and requirements relating to the payment of dividends, including requirements to maintain capital above regulatory minimums. All of the Corporation's preferred stock outstanding has preference over the Corporation's common stock with respect to payment of dividends.

(Dollars in millions, except per share information; shares in thousands)	Total Common Shares Repurchased (1)	hted-Average Per Share Price	Total Shares Purchased as Part of Publicly Announced Programs	aining Buyback hority Amounts (2)
January 1 - 31, 2020	70,677	\$ 35.09	70,668	\$ 13,091
February 1 - 29, 2020	95,679	34.10	72,704	10,626
March 1 - 31, 2020	56,969	25.57	55,602	9,209
Three months ended March 31, 2020	223.325	32.24	198.974	

The Corporation did not have any unregistered sales of equity securities during thethree months ended March 31, 2020.

⁽¹⁾ Includes 24.4 million shares of the Corporation's common stock acquired by the Corporation in connection with satisfaction of tax withholding obligations on vested restricted stock or restricted stock units and certain forfeitures and terminations of employment-related awards and for potential re-issuance to certain employees under equity incentive plans.

(2) On June 27, 2019, following the Board of Governors of the Federal Reserve System's non-objection to the Corporation's 2019 Comprehensive Capital Analysis and Review capital plan, the Board of Directors (Board) authorized the repurchase of approximately \$30.9 billion in common stock from July 1, 2019 through June 30, 2020, which includes approximately \$900 million to offset shares awarded under equity-based compensation plans during the same period. During the three months ended March 31, 2020, pursuant to the Board's authorization, the Corporation repurchaseds 4-billion of common stock which included common stock to offset equity-based compensation awards. For more information, see Capital Management - CCAR and Capital Planning in the MD&A on page 18 and Note 11 – Shareholders' Equity to the Consolidated Financial Statements.

Form of Time-Based Restricted Stock Units Award Agreement for Grants on or after February 14, 2020

Award Agreement

This document contains your Award Agreement under the Bank of America Corporation Key Employee Equity Plan.

What you need to do

- 1. Review the Award Agreement to ensure you understand its provisions. With each award you receive, provisions of your Award Agreement may change so it is important to review your Award Agreement.
- 2. Print the Award Agreement and file it with your important papers.
- 3. Accept your Award Agreement through the online acceptance process.*
- Designate your beneficiary on the Benefits OnLine® Beneficiary
- 5. More detailed information about competitive businesses can be found on HR Connect under Money / Pay / Incentive plans & awards / How Performance Plan awards are paid, to the extent that the competition restriction is applicable to you, as described in this Award Agreement.

*If you do not accept your Award Agreement through the online acceptance process by[date], or such other date that may be communicated, Bank of America will automatically accept the Award Agreement on your behalf.

Key Employee Equity Plan Restricted Stock Units Award Agreement Granted To: Grant Date:

Grant Type:

Grant Code:

Number Granted:

Note: The number of Restricted Stock Units is based on a "divisor price" of \$[price], which is the ten (10)-day average closing price of Bank of America Corporation common stock for the ten (10) business days immediately preceding and including [date].

This Restricted Stock Units Award Agreement and all Exhibits hereto (the "Agreement") is made between Bank of America Corporation, a Delaware corporation ("Bank of America"), and you, an employee of Bank of America or one of its Subsidiaries.

Bank of America sponsors the Bank of America Corporation Key Employee Equity Plan (the "Stock Plan"). A Prospectus describing the Stock Plan has been delivered to you. The Stock Plan itself is available upon

request, and its terms and provisions are incorporated herein by reference. When used herein, the terms which are defined in the Stock Plan shall have the meanings given to them in the Stock Plan, as modified herein (if applicable).

The Restricted Stock Units covered by this Agreement are being awarded to you in connection with your participation in the Performance Year [year] program and the Bank of America Corporation Executive Incentive Compensation Plan, subject to the following terms and provisions.

- Subject to the terms and conditions of the Stock Plan and this Agreement, Bank of America awards to you the number of Restricted Stock Units shown above. Each Restricted Stock Unit shall have a value equal to the Fair Market Value of one (1) share of Bank of America common stock.
- 2. You acknowledge having read the Prospectus and agree to be bound by all the terms and conditions of the Stock Plan and this Agreement.
- 3. The Restricted Stock Units covered by this Award shall become earned by, and payable to, you in accordance with the terms and conditions of the Stock Plan and this Agreement in the amounts and on the dates shown on the enclosed Exhibit A.
- 4. If a cash dividend is paid with respect to Bank of America common stock, a cash dividend equivalent equal to the total cash dividend you would have received had your Restricted Stock Units been actual Shares will be accumulated and paid in cash through payroll when the Restricted Stock Units become earned and payable. Dividend equivalents are credited with interest at the three (3)-year constant maturity Treasury rate in effect on the grant date noted above until the applicable payment date provided in Exhibit A.
- 5. You agree that you shall comply with (or provide adequate assurance as to future compliance with) all applicable securities laws, as determined by Bank of America, as a condition precedent to the delivery of any Shares pursuant to this Agreement. In addition, you agree that, upon request, you will furnish a letter agreement providing that you will (i) not distribute or resell any of said Shares in violation of the U.S. Securities Act of 1933, as amended, (ii) indemnify and hold Bank of America harmless against all liability for any such violation and (iii) accept all liability for any such violation.
- 6. You agree that the Award covered by this Agreement is subject to the Incentive Compensation Recoupment Policy set forth in the Bank of America Corporate Governance Guidelines. To the extent allowed by and consistent with applicable law and any applicable limitations period, if it is determined at any time that you have engaged in Detrimental Conduct or engaged in any hedging or derivative transactions involving Bank of America common stock in violation of the Bank of America Corporation Code of Conduct that would undermine the long-term performance incentives created by the Award, Bank of America will be entitled to recover from you in its sole discretion some or all of the Shares (and any related dividend equivalents) paid to you pursuant to this Agreement. You recognize that if you engage in Detrimental Conduct or any hedging or derivative transactions involving Bank of America common stock, the losses to Bank of America and/or its Subsidiaries may amount to the full value of any Shares (and any related dividend equivalents) paid to you pursuant to this Agreement. In addition, the Award is subject to the requirements of (i) Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (regarding recovery of

erroneously awarded compensation) and any implementing rules and regulations thereunder, (ii) similar rules under the laws of any other jurisdiction and (iii) any policies adopted by Bank of America to implement such requirements, all to the extent determined by Bank of America in its discretion to be applicable to you.

- 7. You may designate a beneficiary to receive payment in connection with the Restricted Stock Units awarded hereunder in the event of your death while in service with Bank of America or its Subsidiaries in accordance with Bank of America's beneficiary designation procedures, as in effect from time to time. Any beneficiary designation in effect at the time of your termination of employment with Bank of America and its Subsidiaries (other than a termination of employment due to your death) will remain in effect following your termination of employment unless you change your beneficiary designation or it otherwise ceases to be enforceable and/or valid in accordance with Bank of America's beneficiary designation procedures, as in effect from time to time. If you do not designate a beneficiary or if your designated beneficiary does not survive you, then your beneficiary will be your estate.
- 8. The existence of this Award shall not affect in any way the right or power of Bank of America or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in Bank of America's capital structure or its business, or any merger or consolidation of Bank of America, or any issue of bonds, debentures, preferred or prior preference stocks ahead of or convertible into, or otherwise affecting the Bank of America common stock or the rights thereof, or the dissolution or liquidation of Bank of America, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise.
- 9. Bank of America may, in its sole discretion, decide to deliver any documents related to this Award or future Awards that may be granted under the Stock Plan by electronic means or request your consent to participate in the Stock Plan by electronic means. You hereby consent to receive such documents by electronic delivery and, if requested, agree to participate in the Stock Plan through an online or electronic system established and maintained by Bank of America or a third party designated by Bank of America.
 - Any notice which either party hereto may be required or permitted to give to the other shall be in writing and may be delivered personally, by intraoffice mail, by fax, by electronic mail or other electronic means, or via a postal service, postage prepaid, to such electronic mail or postal address and directed to such person as Bank of America may notify you from time to time; and to you at your electronic mail or postal address as shown on the records of Bank of America from time to time or as otherwise determined appropriate by Bank of America, in its sole discretion, or at such other electronic mail or postal address as you, by notice to Bank of America, may designate in writing from time to time.
- 10. You acknowledge that Bank of America has not provided you with any legal advice and that you have the right to consult with your personal legal advisor prior to accepting this Agreement.
- 11. You acknowledge that, regardless of any action taken by Bank of America or your employer, the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax-related items (or, if applicable, your portion thereof) related to your participation in the Stock Plan ("Tax-Related Items") is and remains your responsibility

and may exceed the amount (if any) withheld by Bank of America or your employer. You further acknowledge that Bank of America and/or your employer (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Restricted Stock Units, including but not limited to the grant and vesting of the Restricted Stock Units, your satisfaction of any age and/or length of service criteria, the payment of any Restricted Stock Units, the subsequent sale of any Shares acquired upon the vesting of the Restricted Stock Units and the receipt of any dividends and/or dividend equivalents, (ii) do not commit to and are under no obligation to structure the terms of the Award or any aspect of the Restricted Stock Units to reduce or eliminate your liability for Tax-Related Items or achieve any specific tax result and (iii) do not commit to and are under no obligation to use a withholding method for Tax-Related Items which results in the most favorable or any particular tax treatment for you. Further, if you have become subject to Tax-Related Items in more than one jurisdiction, you acknowledge that Bank of America or your employer (or former employer, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

In the event Bank of America determines that it and/or your employer must withhold any Tax-Related Items, you agree as a condition of the grant of the Restricted Stock Units to make arrangements satisfactory to Bank of America and/or your employer to enable it to satisfy all withholding requirements by all legal means, including, but not limited to, withholding any applicable Tax-Related Items from the pay-out of the Restricted Stock Units. In addition, you authorize Bank of America and/or your employer to fulfill its withholding obligations by all legal means, including, but not limited to, withholding Tax-Related Items from your wages, salary or other cash compensation Bank of America or your employer pays to you, withholding Tax-Related Items from the cash proceeds, if any, received upon any sale of any Shares received in payment for your Restricted Stock Units and, at the time of payment, withholding Shares to meet withholding obligations for Tax-Related Items, in an amount which does not exceed the maximum statutory tax rates in the applicable jurisdictions. Bank of America may refuse to pay any earned Restricted Stock Units if you fail to comply with any obligations in connection with the Tax-Related Items.

- 12. The validity, construction and effect of this Agreement are governed by, and subject to, the laws of the State of Delaware and the laws of the United States, as provided in the Stock Plan, unless otherwise required by applicable law. For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this Award or this Agreement, the parties hereby submit to and consent to the exclusive jurisdiction of North Carolina and agree that such litigation shall be conducted solely in the courts of Mecklenburg County, North Carolina or the federal courts for the United States for the Western District of North Carolina, where this Award is made and/or to be performed, and no other courts, unless otherwise required by applicable law.
- 13. In the event any provision of this Agreement shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining parts of the Agreement, and the Agreement shall be construed and enforced as if the illegal or invalid provision had not been included. This Agreement constitutes the final understanding between you and Bank of America regarding the Restricted Stock Units. Any prior agreements, commitments or negotiations concerning the Restricted Stock Units are superseded. Subject to the terms of the Stock Plan, this Agreement may only be amended by a written instrument signed by both parties.

14. If you move to any country outside of the United States during the term of your Award, additional terms and conditions may apply to your Award. Bank of America reserves the right to impose other requirements on the Award to the extent Bank of America determines it is necessary or advisable for legal or administrative reasons and to require you to sign any additional agreements or undertakings that may be necessary to accomplish the foregoing.

IN WITNESS WHEREOF, Bank of America has caused this Agreement to be executed by its duly authorized officer, and you have hereunto set your hand, all effective as of the Grant Date listed above.

Brian T. Moynihan

Chairman and Chief Executive Officer

Bank of America Corporation Key Employee Equity Plan

PAYMENT OF RESTRICTED STOCK UNITS

(a) <u>PAYMENT SCHEDULE</u>. Subject to the provisions of paragraphs (b), (c), (d) and (e) below, the Restricted Stock Units (and any related dividend equivalents) shall be earned and payable in three (3) equal annual installments if you remain employed with Bank of America and its Subsidiaries through each of the payment dates as follows.

	Number of Restricted Stock Units That Become Earned and Payable
[date]	one-third (1/3) of Award
[date]	one-third (1/3) of Award
[date]	one-third (1/3) of Award

^{*}Payment will be made as soon as administratively practicable, generally within thirty (30) days after the payment date.

- (b) IMPACT OF TERMINATION OF EMPLOYMENT ON RESTRICTED STOCK UNITS. If your employment with Bank of America and its Subsidiaries terminates prior to any of the above payment dates, then any unearned Restricted Stock Units (and any related dividend equivalents) shall become earned and payable or be canceled depending on the reason for termination as follows.
- (i) <u>Death</u>. Any unearned Restricted Stock Units (and any related dividend equivalents) shall become immediately earned and payable as of the date of your termination of employment if your termination is due to your death. Payment will be made as soon as administratively practicable, generally within thirty (30) days after notification of termination from the payroll system.
- (ii) <u>Disability</u>. If your employment is terminated by your employer due to your Disability, then any unearned Restricted Stock Units (and any related dividend equivalents) shall continue to become earned and payable at such time as provided in the Payment Schedule described in paragraph (a) above (without regard to whether you are employed by Bank of America or its Subsidiaries), subject to your complying with the covenants set forth in paragraph (d) below and subject to the performance-based cancellation provision set forth in paragraph (e) below. Notwithstanding anything in this paragraph (b)(ii) to the contrary, upon your death following a termination of employment by your employer due to Disability, any unearned Restricted Stock Units (and any related dividend equivalents) that are continuing to become earned and payable in accordance with the provisions of this paragraph (b)(ii), but have not yet become earned and payable, shall become immediately earned and payable as of the date of your death, and payment will be made as soon as administratively practicable following your death.
- (iii) <u>Termination by your Employer with Cause</u>. If your employment is terminated by your employer with Cause, then any Restricted Stock Units (and any related dividend equivalents) that were not already earned and payable pursuant to paragraph (a) above as of the date of your termination of employment shall be canceled as of that date.
- (iv) Change in Control. Notwithstanding anything in this Agreement to the contrary, if (A) a Change in Control occurs and (B) on or after the Change in Control and on or before the second

anniversary of the Change in Control either (1) your employment is terminated without Cause or (2) you terminate your employment with Bank of America or its Subsidiaries for Good Reason, then any unearned Restricted Stock Units (and any related dividend equivalents) shall become immediately earned as of the date of such termination and shall be payable at such time as provided in the Payment Schedule described in paragraph (a) above, without regard to the covenants set forth in paragraph (d) below or the performance-based cancellation provision set forth in paragraph (e) below. Notwithstanding anything in this paragraph (b)(iv) to the contrary, upon your death following (A) a termination of your employment without Cause on or before the second anniversary of a Change in Control or (B) a termination of your employment with Bank of America or its Subsidiaries for Good Reason on or before the second anniversary of a Change in Control, any Restricted Stock Units (and any related dividend equivalents) that are continuing to become payable in accordance with the provisions of this paragraph (b)(iv), but have not yet become payable, shall become immediately payable as of the date of your death, and payment will be made as soon as administratively practicable following your death.

- (c) All Other Terminations. Unless your termination of employment is a Qualifying Termination as described below, in the case of All Other Terminations, any Restricted Stock Units (and any related dividend equivalents) that were not already earned and payable pursuant to paragraph (a) above as of the date of your termination of employment shall be canceled as of that date. [For Mr. Montag: Notwithstanding the foregoing or any other provision herein to the contrary, in accordance with the terms of your offer letter dated May 1, 2008, if your employment is terminated by Bank of America without "Cause" or you terminate your employment for "Good Reason" (as such terms are defined in your offer letter), then any unearned Restricted Stock Units (and any related dividend equivalents) shall continue to become earned and payable in accordance with the Payment Schedule set forth in paragraph (a) above (without regard to whether you are employed by Bank of America and its Subsidiaries), subject to your complying with the covenants set forth in paragraph (e) below and to the performance condition set forth in paragraph (f) below.]
- (d) QUALIFYING TERMINATION. If your employment terminates for any reason other than your death, your Disability, Cause or in connection with a Change in Control as described in paragraph (b)(iv) above and your termination of employment is a Qualifying Termination, then any unearned Restricted Stock Units (and any related dividend equivalents) shall continue to become earned and payable in accordance with the Payment Schedule set forth in paragraph (a) above subject to the performance-based cancellation provision set forth in paragraph (e) below, provided that (i) to the extent permissible under applicable law, you do not engage in Competition during such period, (ii) you comply with the covenants described in paragraph (d) below and (iii) prior to each payment date, you provide Bank of America with a certification that you have not engaged in Competition to the extent the Competition restriction in (i) above is applicable.

To be effective, such certification must be provided on such form, at such time and pursuant to such procedures as Bank of America shall establish from time to time. If Bank of America determines in its reasonable business judgment that you have failed to satisfy any of the foregoing requirements, then any unearned Restricted Stock Units (and any related dividend equivalents) shall be immediately canceled as of the date of such determination. In addition, from time to time following your Qualifying Termination, Bank of America may require you to further certify that you are not engaging in Competition, and if you fail to fully cooperate with any such requirement Bank of America may determine that you are engaging in Competition. Notwithstanding anything in this paragraph (c) to the contrary, upon your death following a Qualifying Termination, any unearned Restricted Stock Units (and any related dividend equivalents) that are continuing to become earned and payable in accordance with the provisions of this

paragraph (c), but have not yet become earned and payable, shall become immediately earned and payable as of the date of your death, and payment will be made as soon as administratively practicable following your death. Notwithstanding anything in this Agreement to the contrary:

- (i) if you are a permanent resident of California or you are a tax resident of California who is assigned to perform services for Bank of America or any Subsidiary from an office located in California, the Competition restriction and the certification requirement described in this paragraph (c) will not apply to this Award;
- (ii) if you live or work in Massachusetts, the Competition restriction and the certification requirement described in this paragraph (c) will apply for no more than one year following the date of your termination of employment; and
- (iii) if you live or work in Washington State, the Competition restriction and the certification requirement described in this paragraph (c) will apply for no more than eighteen (18) months following the date of your termination of employment.

(e) <u>COVENANTS</u>.

- (i) Non-Solicitation. You agree that during any period in which Restricted Stock Units (and any related dividend equivalents) remain payable, (A) you will not directly or indirectly solicit or recruit for employment or encourage to leave employment with Bank of America or its Subsidiaries, on your own behalf or on behalf of any other person or entity other than Bank of America or its Subsidiaries, any person who is an employee of Bank of America or its Subsidiaries and (B) to the extent permissible under applicable law, you will not, directly or indirectly, on your own behalf or on behalf of any other person or entity other than Bank of America or its Subsidiaries, solicit any client or customer of Bank of America or its Subsidiaries which you actively solicited or with whom you worked or otherwise had material contact in the course of your employment with Bank of America and its Subsidiaries. Notwithstanding anything in this Agreement to the contrary, if (1) you are a permanent resident of California or you are a tax resident of California who is assigned to perform services for Bank of America or any Subsidiary from an office located in California, the solicitation restriction described in (B) above shall only apply in relation to your employer.
- (ii) <u>Detrimental Conduct</u>. You agree that during any period in which Restricted Stock Units (and any related dividend equivalents) remain payable, you will not engage in Detrimental Conduct.
- (iii) <u>Hedging or Derivative Transactions</u>. You agree that during any period in which Restricted Stock Units (and any related dividend equivalents) remain payable, you will not engage in any hedging or derivative transactions involving Bank of America common stock in violation of the Bank of America Corporation Code of Conduct that would undermine the long-term performance incentive created by the Restricted Stock Units.
- (iv) <u>Remedies</u>. Payment of Restricted Stock Units (and any related dividend equivalents) in accordance with the Payment Schedule set forth in paragraph (a) above is specifically conditioned on the requirement that at all times prior to each payment, you do not engage in solicitation, Detrimental Conduct or hedging or derivative transactions, as described in paragraphs (d)(i), (ii) and (iii), during such period. If Bank of America determines in its reasonable business judgment that you have failed to satisfy

such requirements, then any Restricted Stock Units (and any related dividend equivalents) that have not yet been paid as of the date of such determination shall be canceled as of such date of determination.

[For Non-GBAM:

- (f) PERFORMANCE-BASED CANCELLATION PROVISION. In order to appropriately balance risk and reward, unpaid Restricted Stock Units (and any related dividend equivalents) may be canceled if a loss occurs outside of the ordinary course of business. For Bank of America or a line of business, a "loss" means a pre-tax loss for a fiscal year (as determined under U.S. generally accepted accounting principles in effect as of the close of such fiscal year). A loss in the "ordinary course of business" means a loss resulting from a planned winding down of a business or legacy position. A loss outside of the ordinary course includes (without limitation) losses such as those resulting from risk or compliance violations, deliberate or grossly negligent failures to perform your job duties, or any loss that materially impairs Bank of America's solvency, liquidity, or capital distribution plans. If a loss outside of the ordinary course of business occurs:
- (i) at Bank of America, if you are the Chief Executive Officer, Chief Financial Officer, any Chief Executive Officer direct report who does not lead a line of business, or are any employee who is part of a staff (such as global technology operations, global strategy and marketing, etc.) or key control function (such as audit, compliance, human resources, legal, risk, etc.);
- (ii) at Bank of America or your line of business, if you are a senior leader who leads a line of business (e.g., are president or head of such line of business); or
 - (iii) at your line of business, if you are any employee other than a senior leader who leads a line of business;

then your accountability for such loss will be determined, taking into account such factors as (i) the magnitude of the loss (including positive or negative variance from plan); (ii) your degree of involvement (including such factors as your current or former leadership role within Bank of America or the line of business, and the degree to which you were involved in decisions that are determined to have contributed to the loss); (iii) your performance; and (iv) such other factors as deemed appropriate. The Compensation and Benefits Committee (for executive officers), Management Compensation Committee (for Band 1 employees) or other management team designated for such purpose, together with key control functions, will review the loss and your accountability. The Compensation and Benefits Committee (for executive officers), Management Compensation Committee (for Band 1 employees) or other management team designated for such purpose will then make a final determination to either take no action or to cancel some or all of your Award. All such determinations will be final and binding.

[For GBAM:

(f) <u>PERFORMANCE-BASED CANCELLATION PROVISION</u>. In order to appropriately balance risk and reward, unpaid Restricted Stock Units (and any related dividend equivalents) may be canceled if a loss occurs outside of the ordinary course of business. For a line of business, sub-line of business or division, a "loss" means a pre-tax loss for a fiscal year (as determined under U.S. generally accepted accounting principles in effect as of the close of such fiscal year). For an individual, a "loss" means that the aggregate profit and loss attributable to your activities is negative. A loss in the "ordinary course of business" means a loss resulting from a planned winding down of a business or legacy position, or a loss that is de

minimis (e.g., a loss from a short-dated trading position that is within desk strategy and risk limits and which, aggregated with losses across all positions, is less than \$1 million). A loss outside of the ordinary course includes (without limitation) losses such as those resulting from complex or high-risk trading strategies, risk or compliance violations, deliberate or grossly negligent failures to perform your job duties, or any loss that materially impairs Bank of America's solvency, liquidity, or capital distribution plans. If a loss outside of the ordinary course of business occurs:

- (i) at Global Banking and Markets, Global Markets, or Global Banking, if you are a senior business leader within the applicable group;
- (ii) at a sub-line of business (e.g., Global Corporate and Investment Banking, FICC Trading) or division (e.g., Global Rates, Global Credit and Special Situations) within Global Banking and Markets, if you are a manager within the applicable sub-line of business or division; or

(iii) at your individual level;

then your accountability for such loss will be determined, taking into account such factors as (i) the magnitude of the loss (including positive or negative variance from plan); (ii) your degree of involvement (including such factors as your current or former leadership role within Global Banking and Markets, and the degree to which you were involved in decisions that are determined to have contributed to the loss); (iii) your performance; and (iv) such other factors as deemed appropriate. The management team designated for such purpose, together with key control functions, will review the loss and your accountability. The management team designated for such purpose will then make a final determination to either take no action or to cancel some or all of your Award. All such determinations will be final and binding.]

- (g) <u>FORM OF PAYMENT</u>. Payment of Restricted Stock Units shall be made in the form of one (1) share of Bank of America common stock for each Restricted Stock Unit that is payable.
 - (h) <u>DEFINITIONS</u>. For purposes hereof, the following terms shall have the following meanings.

All Other Terminations means any termination of your employment with Bank of America and its Subsidiaries, whether initiated by you or your employer, other than (i) a Qualifying Termination, (ii) a termination due to your death or Disability, (iii) a termination with Cause and (iv) a termination in connection with a Change in Control as described in paragraph (b)(iv) above.

<u>Cause</u> shall be defined as that term is defined in your offer letter or other applicable employment agreement; or, if there is no such definition, "Cause" means a termination of your employment with Bank of America and its Subsidiaries if it occurs in conjunction with a determination by your employer that you have (i) committed an act of fraud or dishonesty in the course of your employment; (ii) been convicted of (or plead no contest with respect to) a crime constituting a felony or a crime of comparable magnitude under applicable law (as determined by Bank of America in its sole discretion); (iii) committed an act or omission which causes you or Bank of America or its Subsidiaries to be in violation of federal or state securities laws, rules or regulations, and/or the rules of any exchange or association of which Bank of America or its Subsidiaries is a member, including statutory disqualification; (iv) failed to perform your job duties where such failure is injurious to Bank of America or any Subsidiary,

or to Bank of America's or such Subsidiary's business interests or reputation; (v) materially breached any written policy applicable to your employment with Bank of America or any of its Subsidiaries including, but not limited to, the Bank of America Corporation Code of Conduct and General Policy on Insider Trading; or (vi) made an unauthorized disclosure of any confidential or proprietary information of Bank of America or its Subsidiaries or have committed any other material violation of Bank of America's written policy regarding Confidential and Proprietary Information.

<u>Competition</u> means your being engaged, directly or indirectly, whether as a director, officer, employee, consultant, agent or otherwise, with a business entity that is or later becomes designated as a "Competitive Business" based on the criteria effective as of the date of your termination of employment. If you live or work in Massachusetts, the scope of Competition will be as broad as necessary to protect the legitimate business interests of Bank of America and its Subsidiaries. If you live or work in Washington State, the scope of Competition will only be as broad as allowed by applicable law.

Detrimental Conduct means your serious misconduct or unethical behavior, including any one of the following: (i) any conduct that would constitute Cause; (ii) the commission of a criminal act by you, whether or not performed in the workplace, that subjects, or if generally known, would subject Bank of America or its Subsidiaries to public ridicule or embarrassment, or other improper or intentional conduct causing reputational harm to Bank of America, its Subsidiaries, or a client of Bank of America or its Subsidiaries; (iii) the breach of a fiduciary duty owed to Bank of America or its Subsidiaries or a client or former client of Bank of America or its Subsidiaries; (iv) intentional violation, or grossly negligent disregard, of Bank of America's or its Subsidiaries' policies, rules and procedures, specifically including, but not limited to any of your obligations under the Bank of America Corporation Code of Conduct and workplace policies; or (v) you taking or maintaining trading positions that result in a need to restate financial results in a subsequent reporting period or that result in a significant financial loss to Bank of America or its Subsidiaries during or after the performance year.

<u>Disability</u> is as defined in the Stock Plan.

Good Reason means, provided that you have complied with the Good Reason Process, the occurrence of any of the following events without your consent: (i) a material diminution in your responsibility, authority or duty; (ii) a material diminution in your base salary except for across-the-board salary reductions based on Bank of America and its Subsidiaries' financial performance similarly affecting all or substantially all management employees of Bank of America and its Subsidiaries; or (iii) the relocation of the office at which you were principally employed immediately prior to a Change in Control to a location more than fifty (50) miles from the location of such office, or your being required to be based anywhere other than such office, except to the extent you were not previously assigned to a principal location and except for required travel on your employer's business to an extent substantially consistent with your business travel obligations at the time of the Change in Control.

Good Reason Process means that (i) you reasonably determine in good faith that a Good Reason condition has occurred; (ii) you notify Bank of America and its Subsidiaries in writing of the occurrence of the Good Reason condition within sixty (60) days of such occurrence; (iii) you cooperate in good faith with Bank of America and its Subsidiaries' efforts, for a period of not less than thirty (30) days following such notice (the "Cure Period"), to remedy the condition; (iv) notwithstanding such efforts, the Good Reason condition continues to exist following the Cure Period; and (v) you terminate your employment for Good Reason within sixty (60) days after the end of the Cure Period. If Bank of America or its Subsidiaries cures the Good Reason condition during the Cure Period, and you terminate your employment with Bank of America and its Subsidiaries due to such condition (notwithstanding its cure), then you will not be deemed to have terminated your employment for Good Reason.

Qualifying Termination means your termination of employment with Bank of America and its Subsidiaries after you have (i) a length of service of at least ten (10) years and (ii) a combined age and length of service equal to at least sixty (60). Your length of service will be determined by Bank of America, in its sole discretion, and, in that regard if you participate in a tax-qualified 401(k) plan sponsored by Bank of America or its Subsidiaries, your length of service shall be your "Vesting Service" under the tax-qualified 401(k) plan in which you participate. [For Mr. Montag: Notwithstanding the foregoing, your termination of employment shall be deemed a Qualifying Termination if it occurs on or after the third anniversary of your date of hire.]

Key Employee Equity Plan Performance Restricted Stock Units Award Agreement

<u>Note:</u> The number of Restricted Stock Units is based on a "divisor price" of \$price], which is the ten (10)-day average closing price of Bank of America Corporation common stock for the ten (10) business days immediately preceding and including [date].

This Performance Restricted Stock Units Award Agreement and all Exhibits hereto (the "Agreement") is made between Bank of America Corporation, a Delaware corporation ("Bank of America"), and you, an employee of Bank of America or one of its Subsidiaries.

Bank of America sponsors the Bank of America Corporation Key Employee Equity Plan (the "Stock Plan"). A Prospectus describing the Stock Plan has been delivered to you. The Stock Plan itself is available upon request, and its terms and provisions are incorporated herein by reference. When used herein, the terms which are defined in the Stock Plan shall have the meanings given to them in the Stock Plan, as modified herein (if applicable).

The Restricted Stock Units covered by this Agreement are being awarded to you in connection with your participation in the Performance Year [year] program and the Bank of America Corporation Executive Incentive Compensation Plan, subject to the following terms and provisions.

- 1. Subject to the terms and conditions of the Stock Plan and this Agreement, Bank of America awards to you the number of Restricted Stock Units shown above. Each Restricted Stock Unit shall have a value equal to the Fair Market Value of one (1) share of Bank of America common stock.
- You acknowledge having read the Prospectus and agree to be bound by all the terms and conditions of the Stock Plan and this Agreement.
- 3. The Restricted Stock Units covered by this Award shall become earned by, and payable to, you in accordance with the terms and conditions of the Stock Plan and this Agreement in the amounts and on the dates shown on the enclosed Exhibit A.
- 4. If a cash dividend is paid with respect to Bank of America common stock, a cash dividend equivalent equal to the total cash dividend you would have received had your Restricted Stock Units been actual Shares will be accumulated and paid in cash through payroll when the Restricted Stock Units become earned and payable. Dividend equivalents are credited with interest at the three (3)-year constant maturity Treasury rate in effect on the grant date noted above until the applicable payment date provided in Exhibit A.
- 5. You agree that you shall comply with (or provide adequate assurance as to future compliance with) all applicable securities laws, as determined by Bank of America, as a condition precedent to the delivery of any Shares pursuant to this Agreement. In addition, you agree that, upon request, you will furnish a letter agreement providing that you will (i) not distribute or resell any of said Shares in violation of the U.S. Securities Act of 1933, as amended, (ii) indemnify and hold Bank of America harmless against all liability for any such violation and (iii) accept all liability for any such violation.
- 6. You agree that the Award covered by this Agreement is subject to the Incentive Compensation Recoupment Policy set forth in the Bank of America Corporate Governance Guidelines. To the extent allowed by and consistent with applicable law and any applicable limitations period, if it is determined at any time that you have engaged in Detrimental Conduct or engaged in any hedging or derivative transactions involving Bank of America common stock in violation of the Bank of America Corporation Code of Conduct that would undermine the long-term performance incentives created by the Award, Bank of America will be entitled to recover from you in its sole discretion some or all of the Shares (and any related dividend equivalents) paid to you pursuant to this Agreement. You recognize that if you engage in Detrimental Conduct or any hedging or derivative transactions involving Bank of America common stock, the losses to Bank of America and/or its Subsidiaries may amount to the full value of any Shares (and any related dividend equivalents) paid to you pursuant to

this Agreement. In addition, the Award is subject to the requirements of (i) Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (regarding recovery of erroneously awarded compensation) and any implementing rules and regulations thereunder, (ii) similar rules under the laws of any other jurisdiction and (iii) any policies adopted by Bank of America to implement such requirements, all to the extent determined by Bank of America in its discretion to be applicable to you.

- 7. You may designate a beneficiary to receive payment in connection with the Restricted Stock Units awarded hereunder in the event of your death while in service with Bank of America or its Subsidiaries in accordance with Bank of America's beneficiary designation procedures, as in effect from time to time. Any beneficiary designation in effect at the time of your termination of employment with Bank of America and its Subsidiaries (other than a termination of employment due to your death) will remain in effect following your termination of employment unless you change your beneficiary designation or it otherwise ceases to be enforceable and/or valid in accordance with Bank of America's beneficiary designation procedures, as in effect from time to time. If you do not designate a beneficiary or if your designated beneficiary does not survive you, then your beneficiary will be your estate.
- 8. The existence of this Award shall not affect in any way the right or power of Bank of America or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in Bank of America's capital structure or its business, or any merger or consolidation of Bank of America, or any issue of bonds, debentures, preferred or prior preference stocks ahead of or convertible into, or otherwise affecting the Bank of America common stock or the rights thereof, or the dissolution or liquidation of Bank of America, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise.
- 9. Bank of America may, in its sole discretion, decide to deliver any documents related to this Award or future Awards that may be granted under the Stock Plan by electronic means or request your consent to participate in the Stock Plan by electronic means. You hereby consent to receive such documents by electronic delivery and, if requested, agree to participate in the Stock Plan through an online or electronic system established and maintained by Bank of America or a third party designated by Bank of America.
 - Any notice which either party hereto may be required or permitted to give to the other shall be in writing and may be delivered personally, by intraoffice mail, by fax, by electronic mail or other electronic means, or via a postal service, postage prepaid, to such electronic mail or postal address and directed to such person as Bank of America may notify you from time to time; and to you at your electronic mail or postal address as shown on the records of Bank of America from time to time or as otherwise determined appropriate by Bank of America, in its sole discretion, or at such other electronic mail or postal address as you, by notice to Bank of America, may designate in writing from time to time.
- 10. You acknowledge that Bank of America has not provided you with any legal advice and that you have the right to consult with your personal legal advisor prior to accepting this Agreement.
- 11. You acknowledge that, regardless of any action taken by Bank of America or your employer, the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax,

payment on account or other tax-related items (or, if applicable, your portion thereof) related to your participation in the Stock Plan ("Tax-Related Items") is and remains your responsibility and may exceed the amount (if any) withheld by Bank of America or your employer. You further acknowledge that Bank of America and/or your employer (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Restricted Stock Units, including but not limited to the grant and vesting of the Restricted Stock Units, your satisfaction of any age and/or length of service criteria, the payment of any Restricted Stock Units, the subsequent sale of any Shares acquired upon the vesting of the Restricted Stock Units and the receipt of any dividends and/or dividend equivalents, (ii) do not commit to and are under no obligation to structure the terms of the Award or any aspect of the Restricted Stock Units to reduce or eliminate your liability for Tax-Related Items or achieve any specific tax result and (iii) do not commit to and are under no obligation to use a withholding method for Tax-Related Items which results in the most favorable or any particular tax treatment for you. Further, if you have become subject to Tax-Related Items in more than one jurisdiction, you acknowledge that Bank of America or your employer (or former employer, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

In the event Bank of America determines that it and/or your employer must withhold any Tax-Related Items, you agree as a condition of the grant of the Restricted Stock Units to make arrangements satisfactory to Bank of America and/or your employer to enable it to satisfy all withholding requirements by all legal means, including, but not limited to, withholding any applicable Tax-Related Items from the pay-out of the Restricted Stock Units. In addition, you authorize Bank of America and/or your employer to fulfill its withholding obligations by all legal means, including, but not limited to, withholding Tax-Related Items from your wages, salary or other cash compensation Bank of America or your employer pays to you, withholding Tax-Related Items from the cash proceeds, if any, received upon any sale of any Shares received in payment for your Restricted Stock Units and, at the time of payment, withholding Shares to meet withholding obligations for Tax-Related Items, in an amount which does not exceed the maximum statutory tax rates in the applicable jurisdictions. Bank of America may refuse to pay any earned Restricted Stock Units if you fail to comply with any obligations in connection with the Tax-Related Items.

- 12. The validity, construction and effect of this Agreement are governed by, and subject to, the laws of the State of Delaware and the laws of the United States, as provided in the Stock Plan, unless otherwise required by applicable law. For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this Award or this Agreement, the parties hereby submit to and consent to the exclusive jurisdiction of North Carolina and agree that such litigation shall be conducted solely in the courts of Mecklenburg County, North Carolina or the federal courts for the United States for the Western District of North Carolina, where this Award is made and/or to be performed, and no other courts, unless otherwise required by applicable law.
- 13. In the event any provision of this Agreement shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining parts of the Agreement, and the Agreement shall be construed and enforced as if the illegal or invalid provision had not been included. This Agreement constitutes the final understanding between you and Bank of America regarding the Restricted Stock Units. Any prior agreements, commitments or negotiations concerning the Restricted Stock Units are superseded. Subject to the terms of

the Stock Plan, this Agreement may only be amended by a written instrument signed by both parties.

14. If you move to any country outside of the United States during the term of your Award, additional terms and conditions may apply to your Award. Bank of America reserves the right to impose other requirements on the Award to the extent Bank of America determines it is necessary or advisable for legal or administrative reasons and to require you to sign any additional agreements or undertakings that may be necessary to accomplish the foregoing.

IN WITNESS WHEREOF, Bank of America has caused this Agreement to be executed by its duly authorized officer, and you have hereunto set your hand, all effective as of the Grant Date listed above.

Brian T. Moynihan

Chairman and Chief Executive Officer

Bank of America Corporation Key Employee Equity Plan

PAYMENT OF PERFORMANCE RESTRICTED STOCK UNITS

(a) PERFORMANCE VESTING SCHEDULE AND SETTLEMENT DATE

(i) <u>Performance Vesting Schedule and Settlement Date</u>. Subject to the additional conditions set forth in paragraph (a)(iv) below, the number of Restricted Stock Units that are earned for the Performance Period with respect to each metric equals (A) the total number of Restricted Stock Units granted times (B) the applicable weighting times (C) the percentage earned in accordance with the following table, rounded down to the next whole unit.

		Three-year Average Growth in			
Three-year Average ROA		Adjusted TBV			
(50% Weighting)		(50% Weighting)			
Standard	% Earned	Standard	% Earned		
<60 bps	0%	<5.25%	0%		
60 bps	33-1/3%	5.25%	33-1/3%		
80 bps	66-2/3%	7.00%	66-2/3%		
≥100 bps	100%	≥8.50%	100%		

The Three-year Average ROA and the Three-year Average Growth in Adjusted TBV will be determined in accordance with conventional rounding principles to the nearest basis point (for Three-year Average ROA) and the nearest one-hundredth of a percent (for Three-year Average Growth in Adjusted TBV) (e.g., 60.4 bps will be rounded down to 60 bps for Three-year Average ROA and 5.256% will be rounded up to 5.26% for Three-year Average Growth in Adjusted TBV). The percentage earned for performance between levels at or above the threshold level (i.e., sixty (60) bps for Three-year Average ROA and 5.25% for Three-year Average Growth in Adjusted TBV) shall be interpolated on a straight line basis. No interpolation shall apply for performance below the threshold level.

- (ii) <u>Determination</u>. The determination as to whether, and the extent to which, the performance vesting requirements of this paragraph (a) have been satisfied for the Performance Period shall be made as soon as practicable after the end of the Performance Period with an effective date of [date], and such results must be certified in writing by the Committee before settlement.
- (iii) <u>Settlement Date</u>. The "Settlement Date" for any portion of the Award that satisfies the performance vesting requirements under this paragraph (a) shall be [date], provided, however, that in case of termination of employment due to your death as set forth in paragraph (b)(i) below, or in the case of your death following termination of employment as set forth in paragraph (b)(ii), (b)(iv) or (c) below, the "Settlement Date" shall be the date of your death. On the Settlement Date, to the extent earned, the Restricted Stock Units payable as of the Settlement Date shall be settled 100% in Shares. Settlement shall occur as soon as administratively practicable after the Settlement Date, generally within thirty (30) days.
- (iv) <u>Additional Conditions</u>. For any portion of the Award payable as of the Settlement Date, you must remain employed with Bank of America and its Subsidiaries through the Settlement Date

except as otherwise provided in paragraphs (b) and (c) below. In addition, payment as of the Settlement Date is subject to your complying with the covenants set forth in paragraph (d) below and the additional performance-based cancellation provision set forth in paragraph (e) below.

- (b) IMPACT OF TERMINATION OF EMPLOYMENT ON RESTRICTED STOCK UNITS. If your employment with Bank of America and its Subsidiaries terminates prior to the Settlement Date, then the Restricted Stock Units (together with any related dividend equivalents) shall become earned and payable or be canceled depending on the reason for termination as follows.
- (i) <u>Death</u>. The Restricted Stock Units (and any related dividend equivalents) shall become immediately earned and payable as of the date of your termination of employment if your termination is due to your death. Payment will be made as soon as administratively practicable, generally within thirty (30) days after notification of termination from the payroll system.
- (ii) <u>Disability</u>. If your employment is terminated by Bank of America or its Subsidiaries due to your Disability, then the Restricted Stock Units (and any related dividend equivalents) shall continue to become earned and payable in accordance with paragraph (a) above (without regard to whether you are employed by Bank of America or its Subsidiaries as of the Settlement Date), subject to your complying with the covenants set forth in paragraph (d) below and to the additional performance-based cancellation provision set forth in paragraph (e) below. Notwithstanding anything in this paragraph (b)(ii) to the contrary, upon your death following a termination of employment by Bank of America or its Subsidiaries due to your Disability, the Restricted Stock Units (and any related dividend equivalents) that are continuing to become earned and payable in accordance with the provisions of this paragraph (b)(ii), but have not yet become earned and payable, shall become immediately earned and payable as of the date of your death, and payment will be made as soon as administratively practicable following your death.
- (iii) <u>Termination by your Employer with Cause</u>. If your employment is terminated by your employer with Cause, then the Restricted Stock Units (and any related dividend equivalents) shall be immediately canceled as of the date of your termination of employment.
- (iv) Change in Control. Notwithstanding anything in this Agreement to the contrary, if (A) a Change in Control occurs and (B) on or after the Change in Control and on or before the second anniversary of the Change in Control either (1) your employment is terminated without Cause or (2) you terminate your employment with Bank of America or its Subsidiaries for Good Reason, then the Restricted Stock Units (and any related dividend equivalents) shall become immediately earned as of the date of such termination and shall be payable as of the Settlement Date, without regard to the covenants set forth in paragraph (d) below, but subject to the additional performance-based cancellation provision set forth in paragraph (e) below. Notwithstanding anything in this paragraph (b)(iv) to the contrary, upon your death following (A) a termination of your employment without Cause on or before the second anniversary of a Change in Control or (B) a termination of your employment with Bank of America or its Subsidiaries for Good Reason on or before the second anniversary of a Change in Control, the Restricted Stock Units (and any related dividend equivalents) that are continuing to become payable in accordance with the provisions of this paragraph (b)(iv), but have not yet become payable, shall become immediately payable as of the date of your death, and payment will be made as soon as administratively practicable following your death.
- (v) All Other Terminations. In case of All Other Terminations, unless your termination of employment is a Qualifying Termination as described below, the Restricted Stock Units (and any related

dividend equivalents) shall be immediately canceled as of the date of your termination of employment. [For Mr. Montag: Notwithstanding the foregoing or any other provision herein to the contrary, in accordance with the terms of your offer letter dated May 1, 2008, if your employment is terminated by Bank of America without "Cause" or you terminate your employment for "Good Reason" (as such terms are defined in your offer letter), then the Restricted Stock Units (and any related dividend equivalents) shall continue to become earned and payable in accordance with paragraph (a) above (without regard to whether you are employed by Bank of America and its Subsidiaries as of the Settlement Date), subject to your complying with the covenants set forth in paragraph (d) below and to the additional performance-based cancellation provision set forth in paragraph (e) below.]

QUALIFYING TERMINATION. If your employment terminates for any reason other than your death, your Disability, Cause or in connection with a Change in Control as described in paragraph (b)(iv) above and your termination of employment is a Qualifying Termination, then the Restricted Stock Units (and any related dividend equivalents) shall continue to become earned and payable in accordance with paragraph (a) above (without regard to whether you are employed by Bank of America and its Subsidiaries as of the Settlement Date), subject to the performance-based cancellation provision set forth in paragraph (e) below, provided that (i) to the extent permissible under applicable law, you do not engage in Competition during such period, (ii) you comply with the covenants described in paragraph (d) below and (iii) prior to March 1 of each year during which your Restricted Stock Units remain payable, you provide Bank of America with a certification that you have not engaged in Competition to the extent the Competition restriction in (i) above is applicable.

To be effective, such certification must be provided on such form, at such time and pursuant to such procedures as Bank of America shall establish from time to time. If Bank of America determines in its reasonable business judgment that you have failed to satisfy any of the foregoing requirements, then the Restricted Stock Units (and any related dividend equivalents) shall be immediately canceled as of the date of such determination. In addition, from time to time following your Qualifying Termination, Bank of America may require you to further certify that you are not engaging in Competition, and if you fail to fully cooperate with any such requirement Bank of America may determine that you are engaging in Competition. Notwithstanding anything in this paragraph (c) to the contrary, upon your death following a Qualifying Termination, the Restricted Stock Units (and any related dividend equivalents) that are continuing to become earned and payable in accordance with the provisions of this paragraph (c), but have not yet become earned and payable, shall become immediately earned and payable as of the date of your death, and payment will be made as soon as administratively practicable following your death. Notwithstanding anything in this Agreement to the contrary:

- (i) if you are a permanent resident of California or you are a tax resident of California who is assigned to perform services for Bank of America or any Subsidiary from an office located in California, the Competition restriction and the certification requirement described in this paragraph (c) will not apply to this Award;
- (ii) if you live or work in Massachusetts, the Competition restriction and the certification requirement described in this paragraph (c) will apply for no more than one year following the date of your termination of employment; and
- (iii) if you live or work in Washington State, the Competition restriction and the certification requirement described in this paragraph (c) will apply for no more than eighteen (18) months following the date of your termination of employment.

(d) <u>COVENANTS</u>.

- (i) Non-Solicitation. You agree that during any period in which Restricted Stock Units (and any related dividend equivalents) remain payable, (A) you will not directly or indirectly solicit or recruit for employment or encourage to leave employment with Bank of America or its Subsidiaries, on your own behalf or on behalf of any other person or entity other than Bank of America or its Subsidiaries, any person who is an employee of Bank of America or its Subsidiaries and (B) to the extent permissible under applicable law, you will not, directly or indirectly, on your own behalf or on behalf of any other person or entity other than Bank of America or its Subsidiaries, solicit any client or customer of Bank of America or its Subsidiaries which you actively solicited or with whom you worked or otherwise had material contact in the course of your employment with Bank of America and its Subsidiaries. Notwithstanding anything in this Agreement to the contrary, if (1) you are a permanent resident of California or you are a tax resident of California who is assigned to perform services for Bank of America or any Subsidiary from an office located in California, the solicitation restriction described in (B) above shall only apply in relation to your employer.
- (ii) <u>Detrimental Conduct</u>. You agree that during any period in which Restricted Stock Units (and any related dividend equivalents) remain payable, you will not engage in Detrimental Conduct.
- (iii) <u>Hedging or Derivative Transactions</u>. You agree that during any period in which Restricted Stock Units (and any related dividend equivalents) remain payable, you will not engage in any hedging or derivative transactions involving Bank of America common stock in violation of the Bank of America Corporation Code of Conduct that would undermine the long-term performance incentive created by the Restricted Stock Units.
- (iv) <u>Remedies</u>. Payment of Restricted Stock Units (and any related dividend equivalents) on the Settlement Date is specifically conditioned on the requirement that at all times prior to such Settlement Date, you do not engage in solicitation, Detrimental Conduct or hedging or derivative transactions, as described in paragraphs (d)(i), (ii) and (iii), during such period. If Bank of America determines in its reasonable business judgment that you have failed to satisfy such requirements, then the Restricted Stock Units (and any related dividend equivalents) as of the date of such determination shall be canceled as of such date of determination.
- (e) PERFORMANCE-BASED CANCELLATION PROVISION. In order to appropriately balance risk and reward, unpaid Restricted Stock Units (and any related dividend equivalents) may be canceled if a loss occurs outside of the ordinary course of business. For Bank of America or a line of business, a "loss" means a pre-tax loss for a fiscal year (as determined under U.S. generally accepted accounting principles in effect as of the close of such fiscal year). A loss in the "ordinary course of business" means a loss resulting from a planned winding down of a business or legacy position. A loss outside of the ordinary course includes (without limitation) losses such as those resulting from risk or compliance violations, deliberate or grossly negligent failures to perform your job duties, or any loss that materially impairs Bank of America's solvency, liquidity, or capital distribution plans. If a loss outside of the ordinary course of business occurs:
- (i) at Bank of America, if you are the Chief Executive Officer, Chief Financial Officer, any Chief Executive Officer direct report who does not lead a line of business, or are any employee who is part of a staff (such as global technology operations, global strategy and marketing, etc.) or key control function (such as audit, compliance, human resources, legal, risk, etc.);

- (ii) at Bank of America or your line of business, if you are a senior leader who leads a line of business (e.g., are president or head of such line of business); or
 - (iii) at your line of business, if you are any employee other than a senior leader who leads a line of business;

then your accountability for such loss will be determined, taking into account such factors as (i) the magnitude of the loss (including positive or negative variance from plan); (ii) your degree of involvement (including such factors as your current or former leadership role within Bank of America or the line of business, and the degree to which you were involved in decisions that are determined to have contributed to the loss); (iii) your performance; and (iv) such other factors as deemed appropriate. The Compensation and Benefits Committee (for executive officers), Management Compensation Committee (for Band 1 employees) or other management team designated for such purpose, together with key control functions, will review the loss and your accountability. The Compensation and Benefits Committee (for executive officers), Management Compensation Committee (for Band 1 employees) or other management team designated for such purpose will then make a final determination to either take no action or to cancel some or all of your Award. All such determinations will be final and binding.

(f) <u>DEFINITIONS</u>. For purposes hereof, the following terms shall have the following meanings.

All Other Terminations means any termination of your employment with Bank of America and its Subsidiaries, whether initiated by you or your employer, other than (i) a Qualifying Termination, (ii) a termination due to your death or Disability, (iii) a termination with Cause and (iv) a termination in connection with a Change in Control as described in paragraph (b)(iv) above.

Cause shall be defined as that term is defined in your offer letter or other applicable employment agreement; or, if there is no such definition, "Cause" means a termination of your employment with Bank of America and its Subsidiaries if it occurs in conjunction with a determination by your employer that you have (i) committed an act of fraud or dishonesty in the course of your employment; (ii) been convicted of (or plead no contest with respect to) a crime constituting a felony or a crime of comparable magnitude under applicable law (as determined by Bank of America in its sole discretion); (iii) committed an act or omission which causes you or Bank of America or its Subsidiaries to be in violation of federal or state securities laws, rules or regulations, and/or the rules of any exchange or association of which Bank of America or its Subsidiaries is a member, including statutory disqualification; (iv) failed to perform your job duties where such failure is injurious to Bank of America or any Subsidiary, or to Bank of America's or such Subsidiary's business interests or reputation; (v) materially breached any written policy applicable to your employment with Bank of America or any of its Subsidiaries including, but not limited to, the Bank of America Corporation Code of Conduct and General Policy on Insider Trading; or (vi) made an unauthorized disclosure of any confidential or proprietary information of Bank of America's written policy regarding Confidential and Proprietary Information.

<u>Competition</u> means your being engaged, directly or indirectly, whether as a director, officer, employee, consultant, agent or otherwise, with a business entity that is or later becomes designated as a "Competitive Business" based on the criteria effective as of the date of your termination of employment. If you live or work in Massachusetts, the scope of Competition will be as broad as necessary to protect the legitimate business interests of Bank of America and its Subsidiaries. If you live or work in Washington State, the scope of Competition will only be as broad as allowed by applicable law.

Detrimental Conduct means your serious misconduct or unethical behavior, including any one of the following: (i) any conduct that would constitute Cause; (ii) the commission of a criminal act by you, whether or not performed in the workplace, that subjects, or if generally known, would subject Bank of America or its Subsidiaries to public ridicule or embarrassment, or other improper or intentional conduct causing reputational harm to Bank of America, its Subsidiaries, or a client of Bank of America or its Subsidiaries; (iii) the breach of a fiduciary duty owed to Bank of America or its Subsidiaries or a client or former client of Bank of America or its Subsidiaries; (iv) intentional violation, or grossly negligent disregard, of Bank of America's or its Subsidiaries' policies, rules and procedures, specifically including, but not limited to any of your obligations under the Bank of America Corporation Code of Conduct and workplace policies; or (v) you taking or maintaining trading positions that result in a need to restate financial results in a subsequent reporting period or that result in a significant financial loss to Bank of America or its Subsidiaries during or after the performance year.

Disability is as defined in the Stock Plan.

Good Reason means, provided that you have complied with the Good Reason Process, the occurrence of any of the following events without your consent: (i) a material diminution in your responsibility, authority or duty; (ii) a material diminution in your base salary except for across-the-board salary reductions based on Bank of America and its Subsidiaries' financial performance similarly affecting all or substantially all management employees of Bank of America and its Subsidiaries; or (iii) the relocation of the office at which you were principally employed immediately prior to a Change in Control to a location more than fifty (50) miles from the location of such office, or your being required to be based anywhere other than such office, except to the extent you were not previously assigned to a principal location and except for required travel on your employer's business to an extent substantially consistent with your business travel obligations at the time of the Change in Control.

Good Reason Process means that (i) you reasonably determine in good faith that a Good Reason condition has occurred; (ii) you notify Bank of America and its Subsidiaries in writing of the occurrence of the Good Reason condition within sixty (60) days of such occurrence; (iii) you cooperate in good faith with Bank of America and its Subsidiaries' efforts, for a period of not less than thirty (30) days following such notice (the "Cure Period"), to remedy the condition; (iv) notwithstanding such efforts, the Good Reason condition continues to exist following the Cure Period; and (v) you terminate your employment for Good Reason within sixty (60) days after the end of the Cure Period. If Bank of America or its Subsidiaries cures the Good Reason condition during the Cure Period, and you terminate your employment with Bank of America and its Subsidiaries due to such condition (notwithstanding its cure), then you will not be deemed to have terminated your employment for Good Reason.

Performance Period means the three (3) calendar year period beginning [date] and ending [date].

Qualifying Termination means your termination of employment with Bank of America and its Subsidiaries after you have (i) a length of service of at least ten (10) years and (ii) a combined age and length of service equal to at least sixty (60). Your length of service will be determined by Bank of America, in its sole discretion, and, in that regard if you participate in a tax-qualified 401(k) plan sponsored by Bank of America or its Subsidiaries, your length of service shall be your "Vesting Service" under the tax-qualified 401(k) plan in which you participate. [For Mr. Montag: Notwithstanding the foregoing, your termination of employment shall be deemed a Qualifying Termination if it occurs on or after the third anniversary of your date of hire.]

Three-year Average Growth in Adjusted TBV means the average year-over-year percentage change in "adjusted tangible book value" for the three (3) calendar years in the Performance Period. For this purpose, "adjusted tangible book value" for each year will equal Bank of America's total common shareholders' equity, less (i) the impact of any capital actions approved (or not objected to) by the Federal Reserve Board and/or approved by the Board, and less (ii) the sum of the carrying value of (A) goodwill and (B) intangible assets excluding mortgage servicing rights, adjusted for (C) deferred tax liabilities directly related to (A) and (B). Each year-over-year percentage change is measured after the conclusion of each calendar year using the beginning balance as of January 1 and the ending balance as of December 31 of that year.

<u>Three-year Average ROA</u> means the average "return on assets" for the three (3) calendar years in the Performance Period. For this purpose, "return on assets" will be based on generally accepted accounting principles ("GAAP") at the conclusion of each year.

2020 EIC BTM Direct Performance RSU Award Agreement 20PEIC-20PEICCA-20PEICMA

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002 FOR THE CHIEF EXECUTIVE OFFICER

I, Brian T. Moynihan, certify that:

- I have reviewed this Quarterly Report on Form 10-Q of Bank of America Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure
 that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities,
 particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: May 1, 2020

Chief Executive Officer

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002 FOR THE CHIEF FINANCIAL OFFICER

I, Paul M. Donofrio, certify that:

- I have reviewed this Quarterly Report on Form 10-Q of Bank of America Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure
 that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities,
 particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

I, Brian T. Moynihan, state and attest that:

- I am the Chief Executive Officer of Bank of America Corporation (the registrant).
- I hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:
 - the Quarterly Report on Form 10-Q of the registrant for the quarter endedMarch 31, 2020 (the periodic report) containing financial statements fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)); and
 - the information contained in the periodic report fairly presents, in all material respects, the financial condition and results of operations of the registrant.

Date: May 1, 2020
