Registrant's telephone number, including area code: (212) 449-1000

(Former name or former address, if changed since last report.)

Item 5. Other Events

Exhibits are filed herewith in connection with the Registration Statements on Form S-3 (File Nos. 333-97937 and 333-105098) filed by Merrill Lynch & Co., Inc. (the “Company”) with the Securities and Exchange Commission covering Senior Debt Securities issuable under an indenture dated as of April 1, 1983, as amended through the date hereof, between the Company and JPMorgan Chase Bank (as so amended, the “Indenture”). The Company will issue \$12,000,000 aggregate principal amount of Convertible Securities Exchangeable into Exxon Mobil Corporation Common Stock due October 3, 2008 under the Indenture. The exhibits consist of the form of Securities and an opinion of counsel relating thereto.

Item 7. Financial Statements, Pro Forma Financial Information and Exhibits

EXHIBITS

- (4) Instruments defining the rights of security holders, including indentures.

Form of Merrill Lynch & Co., Inc.’s Convertible Securities Exchangeable into Exxon Mobil Corporation Common Stock due October 3, 2008.
- (5) & (23) Opinion re: legality; consent of counsel.

Opinion of Sidley Austin Brown & Wood LLP relating to the Convertible Securities Exchangeable into Exxon Mobil Corporation Common Stock due October 3, 2008 (including consent for inclusion of such opinion in this report and in Merrill Lynch & Co., Inc.’s Registration Statement relating to such Securities).

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereto duly authorized.

No. R-
CUSIP 590188 P5 1

\$ 12,000,000 aggregate principal amount

MERRILL LYNCH & CO., INC.
Convertible Securities Exchangeable into
Exxon Mobil Corporation Common Stock
due October 3, 2008 (the "Notes")

Merrill Lynch & Co., Inc., a Delaware corporation (hereinafter referred to as the "Company", which term includes any successor corporation under the Indenture herein referred to), for value received, hereby promises to pay to CEDE & CO., or its registered assigns, on October 3, 2008 (the "Stated Maturity"), if not called or exchanged prior to such date, for each \$1,000 principal amount of Notes, an amount in cash equal to the greater of: (1) the product of the Exchange Ratio (as defined below) and the average Closing Market Price (as defined below) of one share of common stock of Exxon Mobil Corporation ("Exxon") (determined as provided below), or (2) \$1,000. If the Notes are called by the Company, the Company hereby promises to pay on the Call Date (as defined below) to CEDE & CO., or its registered assigns, for each \$1,000 principal amount of Notes an amount in cash equal to the greater of: (1) the product of the Exchange Ratio and the average Closing Market Price of one share of Exxon common stock (determined as provided below), or (2) \$1,000. If a Holder properly elects to exchange the Notes, the Company hereby promises to pay on the Exchange Date (as defined below) to CEDE & CO., or its registered assigns, for each \$1,000 principal amount of Notes a number of shares of

Exxon common stock equal to the Exchange Ratio (subject to adjustment for certain corporate events relating to Exxon, as described below), as determined on the Exchange Notice Date (as defined below).

Payment or delivery of any amounts payable at maturity, Exxon common stock, the Call Amount (as defined below) and any interest on any overdue amount thereof with respect to this Security shall be made at the office or agency of the Company maintained for that purpose in the Borough of Manhattan, The City of New York, in such coin or currency of the United States of America, if applicable, as at the time of payment is legal tender for payment of public and private debts.

Payment at the Stated Maturity

If the Company does not call the Notes on or prior to the Stated Maturity and the Holder has not elected to exchange the Notes, then at the Stated Maturity the Company shall pay, for each \$1,000 principal amount of Notes, an amount in cash equal to the greater of:

1. the product of the Exchange Ratio and the average Closing Market Price of Exxon common stock on the first five Calculation Days, as defined below, during the Calculation Period, as defined below; *provided, however*, that
 - if there are fewer than five Calculation Days during the Calculation Period, then the amount payable shall be calculated using the average on those Calculation Days,
 - if there is only one Calculation Day during the Calculation Period, then the amount payable shall be calculated using the Closing Market Price of Exxon common stock on that Calculation Day, and
 - if no Calculation Days occur during the Calculation Period with respect to Exxon common stock, then the amount payable shall be calculated using the Closing Market Price on the last scheduled Calculation Day in the Calculation Period regardless of whether a Market Disruption Event (as defined below) occurs on that date, or
2. \$1,000.

If the Stated Maturity is not a Business Day (as defined below), the Company shall pay the cash amount due at the Stated Maturity on the first Business Day following the Stated Maturity and no additional interest will accrue to such payment date.

“**Business Day**” means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close.

“Exchange Ratio” initially equals 22.86, but is subject to adjustment for certain events described below under “Exchange Ratio adjustments” and “Alternative Dilution and Reorganization Adjustments”.

“Calculation Period” means the period from and including the seventh scheduled Calculation Day immediately preceding the Stated Maturity to and including the second scheduled Calculation Day before the Stated Maturity.

“Calculation Day” means any Trading Day during the Calculation Period or the Call Calculation Period (as defined below) on which a Market Disruption Event has not occurred.

“Trading Day” means a day on which The New York Stock Exchange, the American Stock Exchange and The Nasdaq Stock Market are open for trading as determined by the Calculation Agent.

“Closing Market Price” means:

If Exxon common stock (or any other security for which a Closing Market Price must be determined for purposes of the Notes) is listed on a national securities exchange in the United States, is a Nasdaq National Market System (“Nasdaq NMS”) security or is included in the OTC Bulletin Board Service (“OTC Bulletin Board”) operated by the National Association of Securities Dealers, Inc. (the “NASD”), then the “Closing Market Price” for any date of determination on any Trading Day means for one share of Exxon common stock (or any other security for which a Closing Market Price must be determined for purposes of the Notes):

- the last reported sale price, regular way, on that day on the principal United States securities exchange registered under the Securities Exchange Act of 1934, as amended, on which that security is listed or admitted to trading (without taking into account any extended or after-hours trading session), or
- if not listed or admitted to trading on any such securities exchange or if the last reported sale price is not obtainable, the last reported sale price on the over-the-counter market as reported on the Nasdaq NMS or OTC Bulletin Board on that day (without taking into account any extended or after-hours trading session), or
- if the last reported sale price is not available for any reason, including, without limitation, the occurrence of a Market Disruption Event, the mean of the last reported bid and offer price of the principal trading session on the over-the-counter market as reported on The Nasdaq Stock Market or OTC Bulletin Board on that day as determined by the Calculation Agent or from as many dealers in such security, but not exceeding three, as have made the bid prices available to the Calculation Agent after 3:00 p.m., local time in the principal market, on that date (without taking into account any extended or after-hours trading session).

If Exxon common stock (or any other security for which a Closing Market Price must be determined for purposes of the Notes) is not listed on a national securities exchange in the United States, is not a Nasdaq NMS security or included in the OTC Bulletin Board Service operated by the NASD, then the Closing Market Price for any date of determination on any Trading Day means for one share of Exxon common stock (or any other security for which a Closing Market Price must be determined for purposes of the Notes) the last reported sale price on that day on the securities exchange on which that security is listed or admitted to trading with the greatest volume of trading for the calendar month preceding such Trading Day as determined by the Calculation Agent; *provided that* if the last reported sale price is for a transaction which occurred more than four hours prior to the close of that exchange, then the Closing Market Price shall mean the average (mean) of the last available bid and offer price on that exchange.

If Exxon common stock (or any other security for which a Closing Market Price must be determined for purposes of the Notes) is not listed or admitted to trading on any such securities exchange or if such last reported sale price or bid and offer are not obtainable, then the Closing Market Price shall mean the average (mean) of the last available bid and offer prices in such market of the three dealers which have the highest volume of transactions in that security in the immediately preceding calendar month as determined by the Calculation Agent based on information that is reasonably available to it.

“Market Disruption Event” means:

1. a suspension of, absence of, including the absence of an official closing price, or material limitation on trading of Exxon common stock on the primary market for Exxon common stock for more than two hours of trading or during the one-half hour period preceding the close of trading, as determined by the Calculation Agent in its sole discretion, or the suspension or material limitation on the primary market for trading in options contracts related to Exxon common stock, if available, during the one-half hour period preceding the close of trading in the applicable market, in each case as determined by the Calculation Agent in its sole discretion, and
2. a determination by the Calculation Agent in its sole discretion that the event described in clause (1) above materially interfered with the ability of the Company, Merrill Lynch, Pierce, Fenner & Smith Incorporated or any of their affiliates to unwind all or a material portion of the hedge with respect to the Notes.

For purposes of determining whether a Market Disruption Event has occurred:

- a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange,
- a decision to permanently discontinue trading in the relevant options contracts related to Exxon common stock will not constitute a Market Disruption Event,

- limitations pursuant to any rule or regulation enacted or promulgated by The New York Stock Exchange or The Nasdaq Stock Market or other regulatory organization with jurisdiction over The New York Stock Exchange or The Nasdaq Stock Market on trading during significant market fluctuations will constitute a suspension or material limitation of trading in Exxon common stock,
- a suspension of trading in an options contract on Exxon common stock by the primary securities market trading in the options contracts related to Exxon common stock, if available, by reason of:
 - a price change exceeding limits set by the securities exchange or market,
 - an imbalance of orders relating to options contracts on Exxon common stock, or
 - a disparity in bid and ask quotes relating to options contracts on Exxon common stock

will constitute a suspension or material limitation of trading in options contracts related to Exxon common stock, and

- a suspension, absence or material limitation of trading on the primary securities market on which options contracts related to Exxon common stock are traded will not include any time when that securities market is itself closed for trading under ordinary circumstances.

Call at the option of the Company

The Company, in its sole discretion, may call the Notes, in whole but not in part, on any Business Day beginning on October 3, 2005, to and including the Stated Maturity (the date on which the call, if any, occurs being the “Call Date”) by giving notice to the Trustee (as defined below) on any Business Day at least ten scheduled Business Days prior to the Call Date. Any date on which the Company gives notice to the Trustee that it is calling the Notes is referred to as the “Call Notice Date”. The notice to the Trustee will specify the Call Date. The Trustee will provide notice of the call election to the registered Holders of the Notes, specifying the Call Date.

If the Company calls the Notes, for each \$1,000 principal amount of the Notes, the Company will pay on the Call Date an amount in cash (the “Call Amount”) equal to the greater of:

1. the product of the Exchange Ratio and the average Closing Market Price of Exxon common stock on the first five Calculation Days during the Call Calculation Period; *provided, however*, that

- if there are fewer than five Calculation Days during the Call Calculation Period, then the amount payable shall be calculated using the average on those Calculation Days,
- if there is only one Calculation Day during the Call Calculation Period, then the amount payable upon such call shall be calculated using the Closing Market Price of Exxon common stock on that Calculation Day, and
- if no Calculation Days occur during the Call Calculation Period with respect to Exxon common stock, then the amount payable upon such call shall be calculated using the Closing Market Price on the last scheduled Calculation Day in the Call Calculation Period regardless of whether a Market Disruption Event occurs on that date, or

2. \$1,000.

“**Call Calculation Period**” means the period from and including the seventh scheduled Calculation Day immediately preceding the Call Date to and including the second scheduled Calculation Day before the Call Date.

The “**Calculation Agent**” for all purposes related to the Notes shall be Merrill Lynch, Pierce, Fenner & Smith Incorporated. All determinations made by the Calculation Agent shall be at the sole discretion of the Calculation Agent and, absent a determination by the Calculation Agent of a manifest error, shall be conclusive for all purposes and binding on the Company and the Holders and beneficial owners of the Notes.

Early exchange at Holder’s election

A Holder may elect to exchange all or a portion of the Notes by giving notice as described below on any Business Day which is also a Trading Day during the period beginning on October 3, 2003 and ending on the earlier of (i) the eighth scheduled Business Day before the Stated Maturity, or (ii) the Business Day before the Call Notice Date. Unless written notice shall have been given to the Calculation Agent and the Trustee by 3:00 p.m., New York City time on any Trading Day, such notice will be deemed to have been given on the following Trading Day. Any date on which such notice shall have been given or deemed to have been given, is referred to as the “Exchange Notice Date”.

If a Holder exercises the exchange right, then as of the applicable Exchange Notice Date, the Company may no longer call the Notes.

For each \$1,000 principal amount of the Notes for which an exchange notice shall have been duly given, the Company shall deliver to the Holder a number of shares of Exxon common stock equal to the Exchange Ratio (subject to adjustment for Reorganization Events, as defined below), as determined on the Exchange Notice Date.

Fractional Shares

The Company shall not distribute any fractional shares of Exxon common stock. The Company shall aggregate all amounts due on any delivery date, and in lieu of delivering a fractional share of Exxon common stock, the Company shall pay the cash value of the fractional share based on the Closing Market Price.

Exchange Ratio adjustments

No adjustments to the Exchange Ratio will be required unless the Exchange Ratio adjustment would require a change of at least 0.1% in the Exchange Ratio then in effect. The Exchange Ratio resulting from any of the adjustments specified in this section will be rounded to the nearest one thousandth with five ten-thousandths being rounded upward. The Calculation Agent will not be required to make any adjustments to the Exchange Ratio after the close of business on the eighth scheduled Business Day immediately prior to the Stated Maturity, the Call Date or the Exchange Date, as applicable.

No adjustments to the Exchange Ratio will be required other than those specified below. However, the Company may, at its sole discretion, cause the Calculation Agent to make additional adjustments to the Exchange Ratio to reflect changes occurring in relation to Exxon common stock or any other security received in a reorganization event in other circumstances where the Company determines that it is appropriate to reflect those changes.

The Calculation Agent shall be solely responsible for the determination and calculation of any adjustments to the Exchange Ratio and of any related determinations and calculations with respect to any distributions of stock, other securities or other property or assets, including cash, in connection with any corporate event described in this section, and its determinations and calculations shall be conclusive absent manifest error.

No adjustments will be made for certain other events, such as offerings of common stock by Exxon for cash or in connection with acquisitions or the occurrence of a partial tender or exchange offer for Exxon common stock by Exxon or any third party.

The Company will, within ten Business Days following the occurrence of an event that requires an adjustment to the Exchange Ratio, or if the Company is not aware of this occurrence, as soon as practicable after becoming so aware, provide written notice to the Trustee, which shall provide notice to the Holders of the Notes of the occurrence of this event and, if applicable, a statement in reasonable detail setting forth the adjusted Exchange Ratio.

Stock splits and reverse stock splits

If Exxon common stock is subject to a stock split or reverse stock split, then once any split has become effective, the Exchange Ratio relating to Exxon common stock will be adjusted to equal the product of the prior Exchange Ratio and the number of shares which a holder of one share of Exxon common stock before the effective date of that stock split or reverse stock split would have owned or been entitled to receive immediately following the applicable effective date.

Stock dividends

If Exxon common stock is subject to a (i) stock dividend, *i.e.*, issuance of additional shares of Exxon common stock, that is given ratably to all holders of shares of Exxon common stock, or (ii) distribution of shares of Exxon common stock as a result of the triggering of any provision of the corporate charter of Exxon, then, once the dividend has become effective and the shares are trading ex-dividend, the Exchange Ratio will be adjusted so that the new Exchange Ratio shall equal the prior Exchange Ratio plus the product of:

- the number of shares of Exxon common stock issued with respect to one share of Exxon common stock, and
- the prior Exchange Ratio.

Extraordinary Dividends

There will be no adjustments to the Exchange Ratio to reflect any cash dividends or cash distributions paid with respect to Exxon common stock other than Extraordinary Dividends, as defined below, and distributions described under the section entitled “Reorganization Events” below.

An “**Extraordinary Dividend**” means, with respect to a cash dividend or other distribution with respect to Exxon common stock, a dividend or other distribution which exceeds the immediately preceding non-Extraordinary Dividend for Exxon common stock (as adjusted for any subsequent corporate event requiring an adjustment as described herein) by an amount equal to at least 10% of the Closing Market Price of Exxon common stock on the Trading Day preceding the ex-dividend date with respect to the Extraordinary Dividend (the “ex-dividend date”). If an Extraordinary Dividend occurs with respect to Exxon common stock, the Exchange Ratio will be adjusted on the ex-dividend date with respect to the Extraordinary Dividend so that the new Exchange Ratio will equal the product of:

- the prior Exchange Ratio, and
- a fraction, the numerator of which is the Closing Market Price per share of Exxon common stock on the Trading Day preceding the ex-dividend date, and the denominator

of which is the amount by which the Closing Market Price on the Trading Day preceding the ex-dividend date exceeds the Extraordinary Dividend Amount.

The “**Extraordinary Dividend Amount**” with respect to an Extraordinary Dividend for Exxon common stock will equal:

- in the case of cash dividends or other distributions that constitute quarterly dividends, the amount per share of that Extraordinary Dividend minus the amount per share of the immediately preceding non-Extraordinary Dividend for those shares of Exxon common stock, or
- in the case of cash dividends or other distributions that do not constitute quarterly dividends, the amount per share of that Extraordinary Dividend.

To the extent an Extraordinary Dividend is not paid in cash, the value of the non-cash component will be determined by the Calculation Agent, whose determination shall be conclusive. A distribution on Exxon common stock described in clause (a), (d) or (e) of the section entitled “Reorganization Events” below that also constitutes an Extraordinary Dividend shall only cause an adjustment pursuant to clause (a), (d) or (e) under the section entitled “Reorganization Events”. A distribution on Exxon common stock described in the section entitled “*Issuance of transferable rights or warrants*” that also constitutes an Extraordinary Dividend shall only cause an adjustment pursuant to that section.

Issuance of transferable rights or warrants

If Exxon issues transferable rights or warrants to all holders of Exxon common stock to subscribe for or purchase Exxon common stock, including new or existing rights to purchase Exxon common stock pursuant to a shareholder’s rights plan or arrangement, then the Exchange Ratio will be adjusted on the Business Day immediately following the issuance of such transferable rights or warrants so that the new Exchange Ratio shall equal the prior Exchange Ratio plus the product of:

- the prior Exchange Ratio, and
- the number of shares of Exxon common stock that can be purchased with the cash value of such warrants or rights distributed on a single share of Exxon common stock.

The number of shares that can be purchased will be based on the Closing Market Price of Exxon common stock on the date the new Exchange Ratio is determined. The cash value of such warrants or rights, if the warrants or rights are traded on a national securities exchange, will equal the closing price of such warrant or right, or, if the warrants or rights are not traded on a national securities exchange, will be determined by the Calculation Agent and will equal the average (mean) of the bid prices obtained from three dealers at 3:00 p.m., New York City time, on the date the new Exchange Ratio is determined, provided that if only two such bid prices are available, then the cash value of such warrants or rights will equal the average (mean) of such

bids and if only one such bid is available, then the cash value of such warrants or rights will equal such bid.

Reorganization Events

If prior to the Stated Maturity of the Notes,

- (a) there occurs any reclassification or change of Exxon common stock, including, without limitation, as a result of the issuance of tracking stock by Exxon,
- (b) Exxon, or any surviving entity or subsequent surviving entity of Exxon (a “Successor Entity”), has been subject to a merger, combination or consolidation and is not the surviving entity,
- (c) any statutory exchange of securities of Exxon or any Successor Entity with another corporation occurs, other than pursuant to clause (b) above,
- (d) Exxon is liquidated or is subject to a proceeding under any applicable bankruptcy, insolvency or other similar law,
- (e) Exxon issues to all of its shareholders equity securities of an issuer other than Exxon, other than in a transaction described in clauses (b), (c) or (d) above (a “Spin-off Event”), or
- (f) a tender or exchange offer or going-private transaction is consummated for all the outstanding shares of Exxon (an event in clauses (a) through (f), a “Reorganization Event”),

then the method of determining the amount payable or deliverable on each Note will be adjusted as set forth below.

“Exchange Property” will consist of any Exxon common stock continued to be held by the holders of Exxon common stock, and any securities, cash or any other assets distributed to the holders of Exxon common stock in or as a result of the Reorganization Event. No interest will accrue on any Exchange Property.

For the purpose of all relevant calculations to be made under the Notes after the occurrence of a Reorganization Event, the Exchange Ratio shall be applied to an amount of Exchange Property equal to the amount of Exchange Property delivered with respect to one share of Exxon common stock at the time of the Reorganization Event.

If the Exchange Property consists solely of securities (including without limitation, securities of Exxon or securities of foreign issuers represented by American depositary receipts) traded on the New York Stock Exchange, American Stock Exchange or Nasdaq National Market (“Exchange Traded Securities”), then the method of determining the amount payable or

deliverable on each Note upon any call or exchange, or at the Stated Maturity, shall be unchanged except that the Exchange Ratio shall be applied to Exchange Property rather than to shares of Exxon common stock.

If the Exchange Property consists of cash, other property that is not Exchange Traded Securities or a combination thereof, the Calculation Agent shall liquidate all non-cash Exchange Property upon terms that it deems commercially reasonable, and the Exchange Property shall, after such liquidation, equal the aggregate cash amount, including the amount resulting from that liquidation. The aggregate cash amount attributable to Exchange Property delivered with respect to one share of Exxon common stock is the "Per Share Liquidation Value". Following a Reorganization Event of this sort, the method of determining the amount payable or deliverable on each Note upon any call or exchange, or at the Stated Maturity, shall be unchanged except that the Exchange Ratio shall be applied to the Per Share Liquidation Value rather than to shares of Exxon common stock.

If the Exchange Property consists of any other combination of Exchange Traded Securities, cash or other property that is not Exchange Traded Securities, the Calculation Agent shall liquidate all non-cash property that is not Exchange Traded Securities upon terms that it deems commercially reasonable. Following a Reorganization Event of this sort, the method of determining the amount payable or deliverable on each Note upon any call or exchange, or at the Stated Maturity, shall be unchanged except that the Exchange Ratio shall be applied to the sum of the Per Share Liquidation Value and the Exchange Traded Securities rather than to shares of Exxon common stock.

In the event Exchange Property consists of securities, those securities will, in turn, be subject to the antidilution adjustments set forth herein.

In the case of a consummated tender or exchange offer or going-private transaction involving Exchange Property of a particular type, Exchange Property shall be deemed to include the amount of cash or other property paid by the offer or in the tender or exchange offer with respect to such Exchange Property (in an amount determined on the basis of the rate of exchange in such tender or exchange offer or going-private transaction). In the event of a tender or exchange offer or a going-private transaction with respect to Exchange Property in which an offeree may elect to receive cash or other property, Exchange Property shall be deemed to include the kind and amount of cash and other property received by offerees who elect to receive cash.

The Calculation Agent shall be solely responsible for determination and calculation of the Exchange Property if a Reorganization Event occurs and the cash amount due upon exchange, including the determination of the cash value of any Exchange Property and the Per Share Liquidation Value, if necessary. Its determinations and calculations shall be conclusive absent manifest error.

Alternative Dilution and Reorganization Adjustments

The Calculation Agent may elect at its discretion to not make any of the adjustments to the Exchange Ratio or to the method of determining the amount payable on each Note described above under “Exchange Ratio adjustments” and “Reorganization Events”, but may instead make adjustments in its discretion to the Exchange Ratio or the method of determining the amount payable on each Note that will reflect the adjustments to the extent practicable made by the Options Clearing Corporation on option contracts on Exxon common stock or any successor common stock. The Company will provide notice of any such election to the Trustee not more than two Business Days following the date that the Options Clearing Corporation publishes notice of its adjustments relating to Exxon common stock and will detail in such notice the actual adjustment made to the Exchange Ratio or to the method of determining the amount payable on each Note.

General

This Note is one of a duly authorized issue of Securities of the Company, issued and to be issued under an Indenture, dated as of April 1, 1983, as amended and restated (herein referred to as the “Indenture”), between the Company and JPMorgan Chase Bank, as Trustee (herein referred to as the “Trustee”, which term includes any successor Trustee under the Indenture), to which Indenture and all indentures supplemental thereto reference is hereby made for a statement of the respective rights thereunder of the Company, the Trustee and the Holders of the Notes, and the terms upon which the Notes are, and are to be, authenticated and delivered.

The Company hereby covenants for the benefit of the Holders of the Notes, to the extent permitted by applicable law, not to claim voluntarily the benefits of any laws concerning usurious rates of interest against a Holder of the Notes.

As stated above, the Company, in its sole discretion, may call the Notes, in whole but not in part, on any Business Day beginning on October 3, 2005 to and including the Stated Maturity.

In case an Event of Default with respect to any Notes shall have occurred and be continuing, the amount payable to a Holder of a Note upon any acceleration permitted by the Notes, with respect to each \$1000 principal amount of Notes, will be equal to an amount as described under “Call at the option of the Company” above, calculated as though the date of default were the Call Notice Date for the Notes.

In case of default in payment of the Notes, whether at the Stated Maturity, the Call Date, the Exchange Date or upon acceleration, from and after that date the Notes will bear interest, payable upon demand of their beneficial owners, at the rate of 1.31% per annum (to the extent that payment of such interest shall be legally enforceable) on the unpaid amount due and payable on such date in accordance with the terms of the Notes to the date payment of such amount has been made or duly provided for.

The Indenture permits, with certain exceptions as therein provided, the amendment thereof and the modification of the rights and obligations of the Company and the rights of the Holders of the Securities of each series to be affected under the Indenture at any time by the

Company and the Trustee with the consent of the Holders of not less than 66²/₃% in aggregate original public offering price or principal amount, as the case may be, of the Securities at the time Outstanding of each series affected thereby. The Indenture also contains provisions permitting the Holders of specified percentages in aggregate original public offering price or principal amount, as the case may be, of the Securities of each series at the time Outstanding, on behalf of the Holders of all Securities of each series, to waive compliance by the Company with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by the Holder of this Note shall be conclusive and binding upon such Holder and upon all future Holders of this Note and of any Note issued upon the registration of transfer hereof or in exchange herefor or in lieu hereof whether or not notation of such consent or waiver is made upon this Note.

No reference herein to the Indenture and no provision of this Note or of the Indenture shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay any consideration due with respect to this Note and any interest on any overdue amount thereof at the time, place, and rate, and in the coin or currency herein prescribed.

As provided in the Indenture and subject to certain limitations set forth therein and on the first page hereof, the transfer of this Note may be registered on the Security Register of the Company, upon surrender of this Note for registration of transfer at the office or agency of the Company in the Borough of Manhattan, The City of New York, duly endorsed by, or accompanied by a written instrument of transfer in form satisfactory to the Company duly executed by, the Holder hereof or by his attorney duly authorized in writing, and thereupon one or more new Notes, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

The Notes are issuable only in registered form without coupons in denominations of \$1,000 and integral multiples of \$1,000 thereof. This Note shall remain in the form of a global security held by a Depository. Notwithstanding the foregoing, if (x) any Depository is at any time unwilling or unable to continue as Depository and a successor Depository is not appointed by the Company within 60 days, (y) the Company executes and delivers to the Trustee a Company Order to the effect that this Note shall be exchangeable or (z) an Event of Default has occurred and is continuing with respect to the Notes, this Note shall be exchangeable for Notes in definitive form of like tenor and of an equal aggregate principal amount per unit, in denominations of \$1,000 and integral multiples of \$1,000 thereof. Such definitive Notes shall be registered in such name or names as the Depository shall instruct the Trustee.

No service charge shall be made for any such registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or governmental charge payable in connection therewith.

Prior to due presentment of this Note for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name this

Note is registered as the owner hereof for all purposes, whether or not this Note be overdue, and neither the Company, the Trustee nor any such agent shall be affected by notice to the contrary.

All terms used in this Note which are defined in the Indenture but not in this Note shall have the meanings assigned to them in the Indenture.

Unless the certificate of authentication hereon has been executed by JPMorgan Chase Bank, the Trustee under the Indenture, or its successor thereunder, by the manual signature of one of its authorized officers, this Note shall not be entitled to any benefits under the Indenture or be valid or obligatory for any purpose.

IN WITNESS WHEREOF, the Company has caused this instrument to be duly executed under its corporate seal.

Dated: October 3, 2003

CERTIFICATE OF AUTHENTICATION

This is one of the Securities of the series
designated therein referred to in the
within-mentioned Indenture.

JPMorgan Chase Bank, as Trustee

Merrill Lynch & Co., Inc.
4 World Financial Center
New York, New York 10080

Ladies and Gentlemen:

As your counsel, we have examined a copy of the Restated Certificate of Incorporation, as amended, of Merrill Lynch & Co., Inc. (hereinafter called the "Company"), certified by the Secretary of State of the State of Delaware. We are familiar with the corporate proceedings had in connection with the proposed issuance and sale by the Company to the Underwriter named in the Terms Agreement referred to below, pursuant to an Underwriting Agreement dated August 5, 1998 (the "Underwriting Agreement"), between the Company and Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S"), as supplemented by the Terms Agreement dated September 30, 2003 (the "Terms Agreement") between the Company and

MLPF&S (the "Underwriter"), of \$12,000,000 aggregate principal amount of the Company's Convertible Securities Exchangeable into Exxon Mobil Corporation Common Stock due October 3, 2008 (the "Notes"). We have also examined a copy of the Indenture between the Company and JPMorgan Chase Bank as Trustee, dated as of April 1, 1983, as amended (the "Indenture"), and the Company's Registration Statements on Form S-3 (File Nos. 333-97937 and 333-105098) relating to the Securities (the "Registration Statement").

Based upon the foregoing and upon such further investigation as we deemed relevant in the premises, we are of the opinion that:

1. The Company has been duly incorporated under the laws of the State of Delaware.
2. The Notes have been duly and validly authorized by the Company and when the Notes have been duly executed and authenticated in accordance with the terms of the Indenture and delivered against payment therefor as set forth in the Underwriting Agreement, as supplemented by the Terms Agreement, the Notes will constitute valid and legally binding obligations of the Company, enforceable against the Company in accordance with their terms, except to the extent that enforcement thereof may be limited by bankruptcy, moratorium, insolvency, reorganization or similar laws relating to or affecting creditors' rights generally and except as enforcement thereof is subject to general principles at equity (regardless of whether enforcement is considered in a proceeding in equity or at law).

We consent to the filing of this opinion as an exhibit to the Registration Statement and as an exhibit to the Current Report of the Company on Form 8-K dated October 3, 2003. We also consent to the use of our name under the caption “United States Federal Income Taxation” in the prospectus supplement related to the offering of the Securities.

Very truly yours,

/S/ SIDLEY AUSTIN BROWN & WOOD LLP
