(Footnotes on next page)

(Footnotes from previous page)

- (1) This Registration Statement also registers delayed delivery contracts which may be issued by Merrill Lynch & Co., Inc. (the "Company") under which the counterparty may be required to purchase Debt Securities, Preferred Stock, Depositary Shares and/or Warrants. Such contracts would be issued with the Debt Securities, Preferred Stock, Depositary Shares and/or Warrants covered hereby. In addition, securities registered hereunder may be sold separately, together or as units with other securities registered hereunder.
- (2) Such amount shall be increased, if any Debt Securities are issued at an original issue discount, by an amount such that the net proceeds to be received by the Company shall be equal to the above amount to be registered. Any offering of securities denominated other than in U.S. dollars will be treated as the equivalent in U.S. dollars based on the official exchange rate applicable to the purchase of such securities from the Company. Pursuant to Rule 429 under the Securities Act of 1933, as amended (the "Securities Act"), the Prospectus included in this Registration Statement also relates to the remaining unsold securities which were previously registered by the Registrants under Registration Statement No. 333-38792 on Form S-3. The following registration statements, each having the original effective date indicated parenthetically, are amended hereby (the number of such post-effective amendments applicable to a registration statement being also indicated parenthetically), all as follows: 2-78338 (July 23, 1982-No. 27); 2-83477 (May 9, 1983-No. 26); 2-89519 (February 23, 1984-No. 25); 2-96315 (March 20, 1985-No. 23); 33-03079 (February 6, 1986-No. 22); 33-03602 (April 15, 1986-No. 19); 33-05125 (April 28, 1986-No. 11); 33-09910 (November 5, 1986-No. 20); 33-16165 (August 11, 1987-No. 19); 33-17965 (November 5, 1987-No. 17); 33-19820 (January 29, 1988-No. 17); 33-23605 (August 16, 1988-No. 16); 33-27512 (March 20, 1989-No. 15); 33-27594 (March 20, 1989-No. 16); 33-35456 (August 10, 1990-No. 16); 33-38879 (February 12, 1991-No. 15); 33-42041 (August 16, 1991-No. 15); 33-45327 (February 12, 1992-No. 14); 33-54218 (November 19, 1992-No. 13); 33-49947 (August 25, 1993-No. 12); 33-51489 (January 14, 1994-No. 11); 33-52647 (March 22, 1994-No. 10); 33-61559 (August 23, 1995-No. 7); 33-65135 (January 12, 1996-No. 12); 333-13649 (November 25, 1996-No. 4); 333-25255 (April 30, 1997-No. 6); 333-28537 (June 13, 1997-No. 5); 333-44173 (January 28, 1998-No. 4); 333-59997 (July 30, 1998-No. 3); 333-68747 (May 6, 1999-No. 2); and 333-38792 (June 15, 2000-No. 1). Each such post-effective amendment shall hereafter become effective concurrently with the effectiveness of this Registration Statement in accordance with Section 8(c) of the Securities Act.
- (3) This Registration Statement also registers, where required, an indeterminate amount of securities to be sold by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated in market-making

transactions.

- (4) Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457. The proposed maximum offering price per unit will be determined from time to time by the Registrants in connection with the issuance of securities registered hereunder or previously registered under the Securities Act. No separate consideration will be received for Common Stock, Preferred Stock, Debt Securities or Warrants that are issued upon conversion or exchange of Debt Securities, Preferred Stock, Depositary Shares or Warrants, nor will any separate consideration be received for the Guarantees or the Subordinated Debentures registered hereunder. The Subordinated Debentures and the Affiliate Debentures will be purchased by the Partnership with proceeds of the sale of the Partnership Preferred Securities, together with a capital contribution from the Company.
- (5) There is also registered hereunder such indeterminate amount of Debt Securities and an indeterminate number of shares of Preferred Stock as may from time to time be issued upon conversion, exercise or exchange of Debt Securities, Preferred Stock or Warrants registered hereunder.
- (6) To be represented by Depositary Receipts representing an interest in all or a specified portion of a share of Preferred Stock.
- (7) The aggregate amount of Common Stock of the Company registered hereunder is limited to that which is permissible under Rule 415(a)(4) under the Securities Act. There is also registered hereunder such indeterminate number of shares of Common Stock as may from time to time be issued upon conversion, exercise or exchange of Debt Securities, Preferred Stock or Warrants registered hereunder.
- (8) Prior to the occurrence of certain events, the preferred share purchase Rights will not be evidenced separately from the Common Stock. The value attributable to such Rights, if any, is reflected in the market price of the Common Stock.
- (9) The Partnership Preferred Securities will be purchased by the Trust with the proceeds of the sale of the Trust Preferred Securities, together with the proceeds received from the Company in respect of the common securities to be issued by the Trust. No separate consideration will be received for the Partnership Preferred Securities.

-----

The Registrants hereby amend this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrants shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until this Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

PROSPECTUS

- -----

[LOGO]

Merrill Lynch & Co., Inc.  
Debt Securities, Warrants, Preferred Stock,  
Depositary Shares and Common Stock

We may offer from time to time in one or more series, together or separately:

- . debt securities;
- . warrants;
- . common stock;
- . preferred stock; and
- . depositary shares.

When we offer securities, we will provide you with a prospectus supplement or term sheet describing the terms of the specific issue of securities including the offering price of the securities.

-----

You should read this prospectus and the prospectus supplement or the term sheet relating to the specific issue of securities carefully before you invest.

-----

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

-----

The date of this prospectus is .

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;

- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related record keeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of all the securities offered under this prospectus.

#### USE OF PROCEEDS

We intend to use the net proceeds from the sale of the securities for general corporate purposes, unless otherwise specified in the prospectus supplement or term sheet relating to a specific issue of securities. Our general corporate purposes may include financing the activities of our subsidiaries, financing our assets and those of our subsidiaries, lengthening the average maturity of our borrowings and financing acquisitions. Until we use the net proceeds from the sale of any of our securities for general corporate purposes, we will use the net proceeds to reduce our short-term indebtedness or for temporary investments. We expect that we will, on a recurrent basis, engage in additional financings as the need arises to finance our growth, through acquisitions or otherwise, or to lengthen the average maturity of our borrowings. To the extent that securities being purchased for resale by our subsidiary Merrill Lynch, Pierce, Fenner & Smith Incorporated, referred to in this prospectus as MLPF&S, are not resold, the aggregate proceeds that we and our subsidiaries would receive would be reduced.

2

#### RATIO OF EARNINGS TO FIXED CHARGES AND RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges and ratios of earnings to combined fixed charges and preferred stock dividends for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3
Ratio of earnings to combined fixed charges and preferred stock dividends.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

## THE SECURITIES

ML&Co. intends to sell its securities from time to time. These securities may include the following, in each case, as specified by ML&Co. at the time of offering:

- . common stock;
- . preferred stock which may be:
  - . convertible into preferred stock or common stock;
  - . exchangeable for debt securities, preferred stock or depository shares representing preferred stock.
- . depository shares representing preferred stock;
- . debt securities, comprising senior debt securities and subordinated debt securities, each of which may be convertible into common stock or preferred stock;
- . warrants to purchase debt securities;
- . warrants to purchase shares of common stock;
- . warrants to purchase shares of preferred stock;
- . warrants entitling the holders to receive from ML&Co. a payment or delivery determined by reference to decreases or increases in the level of an index or portfolio ("Index Warrants") based on:
  - . one or more equity or debt securities;
  - . any statistical measure of economic or financial performance such as a currency or a consumer price or mortgage index; or
- . the price or value of any commodity or any other item or index; and
- . warrants to receive from ML&Co. the cash value in U.S. dollars of the right to purchase ("Currency Call Warrants") or to sell ("Currency Put Warrants" and, together with the Currency Call Warrants, the "Currency Warrants") specified foreign currencies or units of two or more specified foreign currencies.

3

We may offer the securities independently or together with other securities and the securities may be attached to, or separate from other securities. We will offer the securities to the public on terms determined by market conditions at the time of sale and set forth in a prospectus supplement or term sheet relating to the specific issue of securities.

ML&Co. will offer up to \$ aggregate public offering price of the securities or its equivalent in foreign currencies or units of two or more currencies, based on the applicable exchange rate at the time of offering, as shall be designated by ML&Co. at the time of offering, subject to reduction on account of the sale of other securities under the registration statement of which this prospectus is a part.

## DESCRIPTION OF DEBT SECURITIES

Unless otherwise specified in a prospectus supplement, the senior debt securities are to be issued under an indenture (the "1983 Indenture"), dated as of April 1, 1983, as amended and restated through the date of this prospectus and as it may be further amended in the future, between ML&Co. and The Chase Manhattan Bank, as trustee, or issued under an indenture (the "1993 Indenture"), dated as of October 1, 1993, as amended through the date of this prospectus and as it may be further amended in the future, between ML&Co. and The Chase Manhattan Bank, as trustee (each, a "Senior Debt Trustee"). The 1983 Indenture and the 1993 Indenture are referred to as the "Senior Indentures". Unless otherwise specified in a prospectus supplement, the subordinated debt securities are to be issued under an indenture (the "Subordinated Indenture"), between ML&Co. and The Chase Manhattan Bank, as trustee (the "Subordinated Debt Trustee"). The Senior Debt Securities and Subordinated Debt Securities may also be issued under one or more other indentures (each, a "Subsequent Indenture") and have one or more other trustees (each, a "Subsequent Trustee"). Any Subsequent Indenture relating to senior debt securities will have terms and conditions identical in all material respects to the above-referenced Senior Indentures and any Subsequent Indenture relating to subordinated debt securities will have terms and conditions identical in all material respects to the above-referenced Subordinated Indenture, including, but not limited to, the applicable terms and conditions described below. Any Subsequent Indenture relating to a series of debt securities, and the applicable trustee, will be

identified in the applicable prospectus supplement or term sheet. A copy of each indenture is filed, or, in the case of a Subsequent Indenture, will be filed, as an exhibit to the registration statement relating to the securities. The following summaries of the material provisions of the indentures are not complete and are subject to, and are qualified in their entirety by reference to, all provisions of the respective indentures, including the definitions of terms.

#### Terms of the Debt Securities

ML&Co. may issue the debt securities from time to time, without limitation as to aggregate principal amount and in one or more series. ML&Co. may issue debt securities upon the satisfaction of conditions, including the delivery to the applicable Trustee of a resolution of the Board of Directors of ML&Co., or a committee of the Board of Directors, or a certificate of an officer of ML&Co. who has been authorized by the Board of Directors to take that kind of action, which fixes or establishes the terms of the debt securities being issued. Any resolution or officer's certificate approving the issuance of any issue of debt securities will include the terms of that issue of debt securities, including:

- . the aggregate principal amount and whether there is any limit upon the aggregate principal amount that ML&Co. may subsequently issue;
  - . the stated maturity date;
- 4
- . the principal amount payable whether at maturity or upon earlier acceleration, and whether the principal amount will be determined with reference to an index, formula or other method;
  - . any fixed or variable interest rate or rates per annum and any contingencies relating to changes in any applicable interest rate;
  - . any interest payment dates;
  - . any provisions for redemption, the redemption price and any remarketing arrangements;
  - . any sinking fund requirements;
  - . whether the debt securities are denominated or payable in United States dollars or a foreign currency or units of two or more foreign currencies;
  - . the form in which ML&Co. will issue the debt securities, whether registered, bearer or both, and any restrictions applicable to the exchange of one form for another and to the offer, sale and delivery of the debt securities in either form;
  - . whether and under what circumstances ML&Co. will pay additional amounts ("Additional Amounts") under any debt securities held by a person who is not a U.S. person for specified taxes, assessments or other governmental charges and whether ML&Co. has the option to redeem the affected debt securities rather than pay any Additional Amounts;
  - . whether the debt securities are to be issued in global form;
  - . the title and series designation;
  - . the minimum denominations;
  - . whether, and the terms and conditions relating to when, ML&Co. may satisfy all or part of its obligations with regard to payment upon maturity, or any redemption or required repurchase or in connection with any exchange provisions by delivering to the holders of the debt securities, other securities, which may or may not be issued by or be obligations of ML&Co., or a combination of cash, other securities and/or property ("Maturity Consideration");
  - . any additions or deletions in the terms of the debt securities with respect to the Events of Default set forth in the respective indentures;
  - . the terms, if any, upon which the debt securities are convertible into common stock or preferred stock of ML&Co. and the terms and conditions upon which any conversion will be effected, including the initial conversion price or rate, the conversion period and any other provisions in addition to or instead of those described in this prospectus;
  - . whether, and the terms and conditions relating to when, holders may transfer the debt securities separately from warrants if the debt securities and warrants are issued together; and
  - . any other terms of the debt securities which are not inconsistent with the provisions of the applicable indenture.

Please see the accompanying prospectus supplement or the terms sheet you have received or will receive for the terms of the specific debt securities being offered. ML&Co. may deliver this prospectus before or concurrently with the delivery of a terms sheet. ML&Co. may issue debt securities under the indentures upon the exercise of warrants to purchase debt securities. See "Description of Debt Warrants". Nothing in the indentures or in the terms of the debt securities will prohibit the issuance of securities representing subordinated indebtedness that is senior or junior to the subordinated debt securities.

Prospective purchasers of debt securities should be aware that special U.S. Federal income tax, accounting and other considerations may be applicable to instruments such as the debt securities. The prospectus supplement relating to an issue of debt securities will describe these considerations, if they apply.

5

ML&Co. will issue each series of debt securities, as described in the prospectus supplement, in fully registered form without coupons, and/or in bearer form with or without coupons, and in denominations set forth in the prospectus supplement. There will be no service charge for any registration of transfer of registered debt securities or exchange of debt securities, but ML&Co. may require payment of a sum sufficient to cover any tax or other governmental charges imposed in connection with any registration of transfer or exchange. Each indenture provides that ML&Co. may issue debt securities in global form. If any series of debt securities is issued in global form, the applicable prospectus supplement will describe the circumstances, if any, under which beneficial owners of interests in any of those global debt securities may exchange their interests for debt securities of that series and of like tenor and principal amount in any authorized form and denomination.

The provisions of the indentures permit ML&Co. , without the consent of holders of any debt securities, to issue additional debt securities with terms different from those of debt securities previously issued and to reopen a previous series of debt securities and issue additional debt securities of that series.

The senior debt securities will be unsecured and will rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. The subordinated debt securities will be unsecured and will be subordinated to all existing and future senior indebtedness of ML&Co. Because ML&Co. is a holding company, the right of ML&Co. and its creditors, including the holders of the debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize the claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Securities Exchange Act of 1934, as amended, and under rules of certain exchanges and other regulatory bodies.

ML&Co. will pay or deliver principal and any premium, Additional Amounts, Maturity Consideration and interest in the manner, at the places and subject to the restrictions set forth in the applicable indenture, the debt securities and the applicable prospectus supplement. However, at its option, ML&Co. may pay any interest and any Additional Amounts by check mailed to the holders of registered debt securities at their registered addresses.

Holder may present debt securities for exchange, and registered debt securities for registration of transfer, in the manner, at the places and subject to the restrictions set forth in the applicable indenture, the debt securities and the applicable prospectus supplement. Holders may transfer debt securities in bearer form and the coupons, if any, pertaining to the debt securities by delivery. There will be no service charge for any registration of transfer or exchange of debt securities, but ML&Co. may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

Unless otherwise indicated in the applicable prospectus supplement, ML&Co. will issue the debt securities under the indentures. If so specified in a prospectus supplement, ML&Co. may issue subordinated debt securities under a separate indenture which provides for a single issue of zero coupon convertible subordinated debt securities, a form of which is filed as an exhibit to the registration statement of which this prospectus is a part. If ML&Co. issues debt securities under any indenture, the applicable prospectus supplement will set forth the terms of the debt securities and will identify the applicable indenture and trustee.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation, and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:

6

- . pay or deliver the principal of, and any premium, Additional Amounts, Maturity Consideration or interest on, the debt securities; and
- . perform and observe all of ML&Co.'s other obligations under the indentures, and
- . ML&Co. or any successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the indentures.

#### Modification and Waiver

Each indenture may be modified and amended by ML&Co. and the applicable trustee with the consent of holders of at least 66 2/3% in principal amount or aggregate issue price of each series of debt securities affected. However, without the consent of each holder of any debt security affected, no amendment or modification to any indenture may:

- . change the stated maturity of the principal or Maturity Consideration of, or any installment of interest or Additional Amounts on, any debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, or reduce the amount or change the type of Maturity Consideration deliverable on, any debt security or reduce the amount of principal or Maturity Consideration which could be declared due and payable before the stated maturity;
- . change the place or currency of any delivery or payment of principal or Maturity Consideration of, or any premium, interest or Additional Amounts on any debt security;
- . impair the right to institute suit for the enforcement of any delivery or payment on any debt security;
- . reduce the percentage in principal amount or aggregate issue price of the outstanding debt securities of any series, the consent of whose holders is required to modify or amend the applicable indenture; or
- . modify the foregoing requirements or reduce the percentage in principal amount or aggregate issue price of outstanding debt securities necessary to waive any past default to less than a majority.

No modification or amendment of the Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount or aggregate issue price of the outstanding debt securities of any series may, with respect to that series, waive past defaults under the applicable indenture and waive compliance by ML&Co. with certain provisions of that indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be an Event of Default with respect to each series of debt securities issued under each indenture:

- . default in the payment of any interest or Additional Amounts when due, and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the delivery or payment of the Maturity Consideration when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the applicable indenture for the benefit of that series or in the debt securities of that series, and continuing for 60 days after written notice as provided in the applicable indenture;

7

- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and

- . any other Event of Default provided with respect to debt securities of that series.

If an Event of Default occurs and is continuing for any series of debt securities, the applicable trustee or the holders of at least 25% in principal amount or aggregate issue price of the outstanding debt securities of that series may declare all amounts, or any lesser amount provided for in the debt securities of that series, due and payable or deliverable immediately. At any time after the applicable trustee or the holders have made a declaration of acceleration with respect to the debt securities of any series but before the applicable trustee has obtained a judgment or decree for payment of money due, the holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of that series may rescind any declaration of acceleration and its consequences, provided that all payments and/or deliveries due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series may waive an Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation of ML&Co. contained in, or a provision of, any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the applicable trustee or exercising any trust or power conferred on the trustee with respect to debt securities of that series, provided that any direction is not in conflict with any rule of law or the applicable indenture. Subject to the provisions of each indenture relating to the duties of the appropriate trustee, before proceeding to exercise any right or power under an indenture at the direction of the holders, the applicable trustee is entitled to receive from those holders reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

Unless otherwise stated in the applicable prospectus supplement, any series of debt securities issued under any indenture will not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. will be required to furnish to each trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the applicable indenture.

#### Special Terms Relating to the Senior Debt Securities

##### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than any lien specifically permitted by the Senior Indentures, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the Senior Indentures as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the Senior Indentures, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

8

##### Limitations on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to the transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the Senior Indentures to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Special Terms Relating to the Subordinated Debt Securities

Upon any distribution of assets of ML&Co. resulting from any dissolution, winding up, liquidation or reorganization, payments on subordinated debt securities are subordinated to the extent provided in the Subordinated Indenture in right of payment to the prior payment in full of all senior indebtedness, but the obligation of ML&Co. to make payments on the subordinated debt securities will not otherwise be affected. ML&Co. may not make any payment on subordinated debt securities at any time when there is a default in the payment or delivery of any amounts due on any senior indebtedness, including payment of any sinking fund. Because the subordinated debt securities are subordinated in right of payment to any senior indebtedness, in the event of a distribution of assets upon insolvency, some creditors of ML&Co. may recover more, ratably, than holders of subordinated debt securities. Holders of subordinated debt securities will be subrogated to the rights of holders of senior indebtedness to the extent of payments made on senior indebtedness upon any distribution of assets in any proceedings in respect of subordinated debt securities.

As of September 29, 2000, a total of approximately \$80 billion of ML&Co.'s indebtedness was senior indebtedness.

Special Terms Relating to Convertible Debt Securities

The following provisions will apply to debt securities that will be convertible into common stock or preferred stock of ML&Co. unless otherwise provided in the prospectus supplement relating to the specific issue of debt securities.

The holder of any convertible debt securities will have the right, exercisable at any time during the time period specified in the applicable prospectus supplement, unless previously redeemed, to convert convertible debt securities into shares of common stock or preferred stock of ML&Co. as specified in the prospectus supplement, at the conversion rate per principal amount of convertible debt securities set forth in the applicable prospectus supplement. In the case of convertible debt securities called for redemption, conversion rights will expire at the close of business on the date fixed for the redemption specified in the applicable prospectus supplement, except that, in the case of redemption at the option of the holder, if applicable, the conversion right will terminate upon receipt of written notice of the exercise of the option.

For each series of convertible debt securities, the conversion price or rate will be subject to adjustment as contemplated in the applicable indenture. Unless otherwise provided in the applicable prospectus supplement, these adjustments may occur as a result of:

- . the issuance of shares of ML&Co. common stock as a dividend;
- . subdivisions and combinations of ML&Co. common stock;

9

- . the issuance to all holders of ML&Co. common stock of rights or warrants entitling holders to subscribe for or purchase shares of ML&Co. common stock at a price per share less than the current market price per share; and
- . the distribution to all holders of ML&Co. common stock of:
  - . shares of ML&Co. capital stock other than common stock;
  - . evidences of indebtedness of ML&Co. or assets other than cash dividends paid from retained earnings and dividends payable in common stock referred to above; or
  - . subscription rights or warrants other than those referred to above.

In any case, no adjustment of the conversion price or rate will be required unless an adjustment would require a cumulative increase or decrease of at least 1% in such price or rate. ML&Co. will not issue any fractional shares of ML&Co. common stock upon conversion, but, instead, ML&Co. will pay a cash adjustment. If indicated in the applicable prospectus supplement, convertible debt securities convertible into common stock of ML&Co. which are surrendered for conversion between the record date for an interest payment, if any, and the interest payment date, other than convertible debt securities called for redemption on a redemption date during that period, must be accompanied by payment of an amount equal to interest which the registered holder is entitled to receive.

ML&Co. will determine the adjustment provisions for convertible debt securities at the time of issuance of each series of convertible debt securities. These adjustment provisions will be described in the applicable prospectus supplement.

Except as set forth in the applicable prospectus supplement, any convertible debt securities called for redemption, unless surrendered for conversion on or before the close of business on the redemption date, are subject to being purchased from the holder of the convertible debt securities by one or more investment banking firms or other purchasers who may agree with ML&Co. to purchase convertible debt securities and convert them into common stock or preferred stock of ML&Co., as the case may be.

#### Governing Law

The indentures and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York.

#### DESCRIPTION OF DEBT WARRANTS

ML&Co. may issue warrants for the purchase of debt securities ("Debt Warrants"). The Debt Warrants are to be issued under debt warrant agreements to be entered into between ML&Co. and a bank or trust company, as debt warrant agent as set forth in the prospectus supplement relating to the specific issue of Debt Warrants being offered. We have filed a copy of the form of debt warrant agreement, including the form of warrant certificates representing the Debt Warrants, reflecting the alternative provisions to be included in the debt warrant agreements that will be entered into with respect to particular offerings of Debt Warrants, as an exhibit to the registration statement of which this prospectus is a part. The following summaries of the material provisions of the debt warrant agreement and the debt warrant certificates are not complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the debt warrant agreement and the debt warrant certificates, respectively, including the definitions of terms.

#### Terms of the Debt Warrants

The applicable prospectus supplement will describe the terms of the specific issue of Debt Warrants being offered, the debt warrant agreement relating to the Debt Warrants and the debt warrant certificates representing the Debt Warrants, including the following:

10

- . the designation and aggregate principal amount of the debt securities that the holder of a Debt Warrant may purchase upon exercise of the Debt Warrant and the price at which the purchase may be made;
- . the designation and terms of any debt securities issued with or purchasable upon exercise of the Debt Warrants, including whether the debt securities will be senior debt securities or subordinated debt securities and under which indenture the debt securities will be issued;
- . the procedures and conditions relating to the exercise of the Debt Warrants;
- . the number of Debt Warrants issued with each debt security;
- . any date on and after which the Debt Warrants and any related debt securities are separately transferable;
- . the date on which the right to exercise the Debt Warrants begins and expires;
- . whether the Debt Warrants represented by the debt warrant certificates will be issued in registered or bearer form, and, if registered, where they may be transferred and registered;
- . any circumstances which will cause the Debt Warrants to be deemed to be automatically exercised;
- . the identity of the debt warrant agent; and
- . any other terms of the Debt Warrants which are not inconsistent with the provisions of the debt warrant agreement.

Holder may exchange debt warrant certificates for new debt warrant certificates of different denominations. Holders may exercise Debt Warrants at the corporate trust office of the debt warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of their Debt Warrants, holders of Debt Warrants will not have any of the rights of holders of the debt securities that may be purchased upon exercise of the Debt Warrants and will not be entitled to payment or delivery of any amounts which may be due on the debt securities purchasable upon exercise of the Debt

## Warrants.

Prospective purchasers of Debt Warrants should be aware that special U.S. Federal income tax, accounting and other considerations may be applicable to instruments such as Debt Warrants and to the debt securities purchasable upon exercise of the Debt Warrants. The prospectus supplement relating to any issue of Debt Warrants will describe these considerations.

## Ranking

The Debt Warrants are unsecured contractual obligations of ML&Co. and will rank equally with its other unsecured contractual obligations and with its unsecured and unsubordinated debt. Because ML&Co. is a holding company, the right of ML&Co. and its creditors, including the debt warrant holders, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act and under rules of certain exchanges and other regulatory bodies.

## Book-Entry Procedures

Except as may otherwise be provided in the applicable prospectus supplement, the Debt Warrants will be issued in the form of global debt warrant certificates, registered in the name of a depository or its nominee.

11

Except as may otherwise be provided in the applicable prospectus supplement, beneficial owners will not be entitled to receive definitive certificates representing Debt Warrants unless the depository is unwilling or unable to continue as depository or ML&Co. decides to have the Debt Warrants represented by definitive certificates. A beneficial owner's interest in a Debt Warrant will be recorded on or through the records of the brokerage firm or other entity that maintains the beneficial owner's account. In turn, the total number of Debt Warrants held by an individual brokerage firm for its clients will be maintained on the records of the depository in the name of the brokerage firm or its agent. Transfer of ownership of any Debt Warrant will be effected only through the selling beneficial owner's brokerage firm.

## Exercise of Debt Warrants

Each Debt Warrant will entitle the holder to purchase for cash a principal amount of debt securities at the exercise price set forth in, or determined in the manner set forth in, the applicable prospectus supplement. Holders may exercise Debt Warrants at any time up to the close of business on the expiration date set forth in the applicable prospectus supplement. After the close of business on the expiration date, unexercised Debt Warrants will become void.

Holders may exercise Debt Warrants in the manner described in the applicable prospectus supplement. Upon receipt of payment and properly completed and duly executed debt warrant certificate at the corporate trust office of the debt warrant agent or any other office indicated in the applicable prospectus supplement, ML&Co. will, as soon as practicable, forward the debt securities purchased. If less than all of the Debt Warrants represented by any debt warrant certificate are exercised, a new debt warrant certificate will be issued for the remaining amount of Debt Warrants.

## Listing

ML&Co. may list an issue of Debt Warrants on a national securities exchange. Any listing will be specified in the applicable prospectus supplement.

## DESCRIPTION OF CURRENCY WARRANTS

ML&Co. may issue Currency Warrants either in the form of:

- . Currency Put Warrants entitling the holders to receive from ML&Co. the cash settlement value in U.S. dollars of the right to sell a specified amount of a specified foreign currency or currency units for a specified amount of U.S. dollars, or
- . Currency Call Warrants entitling the holders to receive from ML&Co. the cash settlement value in U.S. dollars of the right to purchase a specified amount of a specified foreign currency or units of two or more currencies for a specified amount of U.S. dollars.

ML&Co. may issue the Currency Warrants under a currency put warrant agreement or a currency call warrant agreement, as applicable, to be entered into between ML&Co. and a bank or trust company, as currency warrant agent as set forth in the applicable prospectus supplement relating to Currency Warrants being offered. Copies of the forms of currency put warrant agreement and

currency call warrant agreement, including the forms of certificates representing the Currency Put Warrants and Currency Call Warrants, reflecting the provisions to be included in the currency warrant agreements that will be entered into with respect to particular offerings of Currency Warrants, are filed as exhibits to the registration statement of which this prospectus is a part. The following summaries of the material provisions of the currency warrant agreements and the currency warrant certificates are not complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the currency warrant agreements and the currency warrant certificates, respectively, including the definitions of terms.

12

#### Terms of the Currency Warrants

The applicable prospectus supplement will describe the terms of the specific issue of Currency Warrants being offered, the currency warrant agreement relating to the Currency Warrants and the currency warrant certificates representing the Currency Warrants, including the following:

- . whether the Currency Warrants are Currency Put Warrants, Currency Call Warrants, or both;
- . the formula for determining the cash settlement value of each Currency Warrant;
- . the procedures and conditions relating to the exercise of the Currency Warrants;
- . any circumstances other than those described below under "--Exercise of Currency Warrants" and "--Listing" that will cause the Currency Warrants to be deemed to be automatically exercised;
- . any minimum number of Currency Warrants which must be exercised at any one time, other than upon automatic exercise;
- . the date on which the right to exercise the Currency Warrants begins and expires;
- . the identity of the currency warrant agent; and
- . any other terms of the Currency Warrants that are not inconsistent with the provisions of the applicable currency warrant agreement.

Prospective purchasers of Currency Warrants should be aware that special U.S. Federal income tax, accounting and other considerations may be applicable to instruments such as Currency Warrants. The prospectus supplement relating to any issue of Currency Warrants will describe these considerations, if they apply.

#### Ranking

The Currency Warrants are unsecured contractual obligations of ML&Co. and will rank equally with its other unsecured contractual obligations and with its unsecured and unsubordinated debt. Because ML&Co. is a holding company, the right of ML&Co. and its creditors, including the currency warrant holders, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act and under rules of certain exchanges and other regulatory bodies.

#### Book-Entry Procedures

Except as may otherwise be provided in the applicable prospectus supplement, the Currency Warrants will be issued in the form of global currency warrant certificates, registered in the name of a depositary or its nominee. In that case, beneficial owners will not be entitled to receive definitive certificates representing Currency Warrants unless the depositary is unwilling or unable to continue as depositary or ML&Co. decides to have the Currency Warrants represented by definitive certificates. A beneficial owner's interest in a Currency Warrant will be recorded on or through the records of the brokerage firm or other entity that maintains a beneficial owner's account. In turn, the total number of Currency Warrants held by an individual brokerage firm for its clients will be maintained on the records of the depositary in the name of the brokerage firm or its agent. Transfer of ownership of any Currency Warrant will be effected only through the selling beneficial owner's brokerage firm.

13

#### Exercise of Currency Warrants

Each Currency Warrant will entitle the holder to the cash settlement value of that Currency Warrant on the applicable exercise date as described in the applicable prospectus supplement. If a Currency Warrant has more than one exercise date and is not exercised before the time specified in the applicable prospectus supplement, on the fifth business day preceding the expiration date, the Currency Warrants will be deemed automatically exercised.

#### Listing

ML&Co. will apply to list each issue of Currency Warrants on a national securities exchange. In the event that the Currency Warrants are delisted from, or permanently suspended from trading on, any exchange, the expiration date for the exercise of the Currency Warrants will be the date the delisting or trading suspension becomes effective and Currency Warrants not previously exercised will be deemed automatically exercised on the business day immediately preceding the expiration date. Under the applicable currency warrant agreement, ML&Co. will agree not to seek delisting of the Currency Warrants, or suspension of their trading, on any exchange.

#### DESCRIPTION OF INDEX WARRANTS

ML&Co. may issue from time to time Index Warrants consisting of index put warrants or index call warrants. Subject to applicable law, ML&Co. will pay or deliver consideration on each Index Warrant in an amount determined by reference to the level or value of an index such as:

- . an equity or debt security, or a portfolio or basket of indices or securities, which may include the price or yield of securities;
- . any statistical measure of economic or financial performance, which may include any currency or consumer price, or mortgage index; or
- . the price or value of any commodity or any other item or index or any combination.

The payment or delivery of any consideration on any index put warrant will be determined by the decrease in the level or value of the applicable index and the payment or delivery of any consideration on any index call warrant will be determined by the increase in the level or value of the applicable Index.

#### Method of Issuance

Index Warrants issued without a Minimum Expiration Value will be issued under one or more index warrant agreements to be entered into between ML&Co. and a bank or trust company, as index warrant agent, all as described in the prospectus supplement relating to the specific issue of Index Warrants. The index warrant agent will act solely as the agent of ML&Co. under the applicable index warrant agreement and will not assume any obligation or relationship of agency or trust for or with any index warrant holders. A single bank or trust company may act as index warrant agent for more than one issue of Index Warrants.

Index Warrants issued with a Minimum Expiration Value will be issued under one or more index warrant trust indentures to be entered into between ML&Co. and a corporation or other person permitted by the Trust Indenture Act of 1939, as amended from time to time, to act as index warrant trustee, all as described in the prospectus supplement relating to the Index Warrants. Any index warrant trust indenture will be qualified under the Trust Indenture Act. To the extent allowed by the Trust Indenture Act, a single qualified corporation may act as index warrant trustee for more than one issue of Index Warrants.

ML&Co. has filed forms of index warrant agreement and index warrant trust indenture and the related global index warrant certificates as exhibits to the registration statement of which this prospectus is a part. The summaries set forth in this section of the material provisions of the index warrant agreement, the index warrant trust indenture and global index warrant certificates are not complete, are subject to, and are qualified in their entirety by reference to, all the provisions of the index warrant agreement, the index warrant trust indenture and global index warrant certificates, respectively.

Unless otherwise specified in the accompanying prospectus supplement, payments, if any, upon exercise of the Index Warrants will be made in U.S. dollars. The Index Warrants will be offered on terms to be determined at the time of sale. ML&Co. will have the right to reopen a previous issue of Index Warrants and to issue additional Index Warrants of that issue without the consent of any index warrant holder.

#### Terms of the Index Warrants

The applicable prospectus supplement will describe the specific issue of Index Warrants being offered, the indenture or agreement under which the Index

Warrants will be issued, as the case may be, and the index warrant certificates representing the Index Warrants, including the following:

- . whether the Index Warrants to be issued will be Index Put Warrants, Index Call Warrants or both;
- . the aggregate number and initial public offering price or purchase price;
- . the applicable index;
- . whether the Index Warrants will be deemed automatically exercised as of a specified date or whether the Index Warrants may be exercised during a period and the date on which the right to exercise the Index Warrants commences and expires;
- . the manner in which the Index Warrants may be exercised and any restrictions on, or other special provisions relating to, the exercise of the Index Warrants;
- . any minimum number of the Index Warrants exercisable at any one time;
- . any maximum number of the Index Warrants that may, subject to ML&Co.'s election, be exercised by all index warrant holders, or by any person or entity, on any day;
- . any provisions permitting an index warrant holder to condition an exercise notice on the absence of certain specified changes in the level of the applicable index after the exercise date, any provisions permitting ML&Co. to suspend exercise of the Index Warrants based on market conditions or other circumstances and any other special provision relating to the exercise of the Index Warrants;
- . any provisions for the automatic exercise of the Index Warrants other than at the expiration date;
- . any provisions permitting ML&Co. to cancel the Index Warrants upon the occurrence of certain events;
- . any additional circumstances that would constitute an Event of Default under the Index Warrants;
- . the method of determining:
  - . the payment or delivery, if any, to be made in connection with the exercise or deemed exercise of the Index Warrants (the "Settlement Value");
  - . the minimum payment or delivery, if any, to be made upon expiration of the Index Warrants (the "Minimum Expiration Value");
  - . the payment or delivery to be made upon the exercise of any right which ML&Co. may have to cancel the Index Warrants; and
  - . the value of the index;

15

- . in the case of Index Warrants relating to an index for which the trading prices of underlying securities, commodities or rates are expressed in a foreign currency, the method of converting amounts in the relevant foreign currency or currencies into U.S. dollars, or any other currency or composite currency in which the Index Warrants are payable;
- . any method of providing for a substitute index or otherwise determining the payment or delivery to be made in connection with the exercise of the Index Warrants if the index changes or ceases to be made available by its publisher;
- . any time or times at which ML&Co. will make payment or delivery on the Index Warrants following exercise or automatic exercise;
- . any provisions for issuing the Index Warrants in other than book-entry form;
- . if the Index Warrants are not issued in book-entry form, any place or places at which ML&Co. will make payment or delivery on cancellation and any Minimum Expiration Value of the Index Warrants;
- . any circumstances that will cause the Index Warrants to be deemed to be automatically exercised;
- . any material risk factors relating to the Index Warrants;

- . the identity of the Index Warrant Agent; and
- . any other terms of the Index Warrants which are not inconsistent with the provisions of the index warrant agreement.

Prospective purchasers of Index Warrants should be aware that special U.S. Federal income tax, accounting and other considerations may be applicable to instruments such as the Index Warrants. The prospectus supplement relating to any issue of Index Warrants will describe these considerations, if they apply.

#### Ranking

The Index Warrants are unsecured contractual obligations of ML&Co. and will rank equally with its other unsecured contractual obligations and with its unsecured and unsubordinated debt. Because ML&Co. is a holding company, the right of ML&Co. and its creditors, including the index warrant holders, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act and under rules of certain exchanges and other regulatory bodies.

#### Payment and Delivery

If specified, and under the circumstances described in the prospectus supplement:

- . ML&Co. will pay or deliver to each index warrant holder an amount equal to the greater of the applicable Settlement Value and a Minimum Expiration Value of the Index Warrants;
- . upon cancellation of the Index Warrants by ML&Co. which may occur upon specified events, ML&Co. will pay or deliver to each index warrant holder an amount specified in the prospectus supplement; and
- . following the occurrence of an extraordinary event, the Settlement Value of an Index Warrant may, at the option of ML&Co., be determined on a different basis, including in connection with automatic exercise at expiration.

16

Unless otherwise specified in the related prospectus supplement, the Index Warrants will be deemed to be automatically exercised upon expiration or any earlier date that may be specified. Upon any automatic exercise, ML&Co. will deliver or pay to each index warrant holder an amount equal to the Settlement Value of the Index Warrants, except that holders of Index Warrants having a Minimum Expiration Value will be entitled to receive a payment or delivery equal to the greater of the Settlement Value and the applicable Minimum Expiration Value. The Minimum Expiration Value may be either a predetermined payment or delivery or a payment or delivery that varies during the term of the Index Warrants in accordance with a schedule or formula. Any Minimum Expiration Value applicable to an issue of Index Warrants, as well as any additional circumstances resulting in the automatic exercise of the Index Warrants, will be specified in the applicable prospectus supplement.

#### Cancellation or Postponement

If so specified in the applicable prospectus supplement, ML&Co. may cancel the Index Warrants. In addition, ML&Co. may delay or postpone the exercise or valuation of, or payment or delivery for, the Index Warrants upon the occurrence of an extraordinary event. Any extraordinary events relating to an issue of Index Warrants will be described in the applicable prospectus supplement. Upon cancellation, the related index warrant holders will be entitled to receive only the applicable payment or delivery on cancellation specified in the applicable prospectus supplement. The amount payable or deliverable upon cancellation may be either a predetermined amount or an amount that varies during the term of the Index Warrants in accordance with a schedule or formula.

#### Waiver of Default

If ML&Co. defaults with respect to any of its obligations under any Index Warrants issued with a Minimum Expiration Value under an index warrant trust indenture, the index warrant holders of a majority in interest of all outstanding Index Warrants may waive a default, except a default:

- . in the payment or delivery of the Settlement Value, Minimum Expiration Value or payment or delivery of any amount upon cancellation of the Index Warrants; or
- . in respect of a covenant or provision of the applicable index warrant trust indenture which cannot be modified or amended without the consent

of each index warrant holder of each outstanding Index Warrant affected.

#### Modification

ML&Co. and the index warrant agent or index warrant trustee, as the case may be, may amend any index warrant agreement or index warrant indenture and the terms of the related Index Warrants by a supplemental agreement or supplemental indenture (each, a "Supplemental Agreement"), without the consent of the holders of any Index Warrants, for the purpose of:

- . curing any ambiguity, or of curing, correcting or supplementing any defective or inconsistent provision, or of making any other provisions with respect to matters or questions arising under the index warrant agreement or index warrant trust indenture, as the case may be, which are not inconsistent with the provisions of the respective agreement or indenture or of the Index Warrants;
- . evidencing the succession to ML&Co. and the assumption by the successor of ML&Co.'s covenants contained in the index warrant agreement or the index warrant trust indenture, as the case may be, and the Index Warrants;
- . appointing a successor depositary;
- . evidencing and providing for the acceptance of appointment by a successor index warrant agent or index warrant trustee with respect to the Index Warrants, as the case may be;

17

- . adding to the covenants of ML&Co., for the benefit of the index warrant holders or surrendering any right or power conferred upon ML&Co. under the index warrant agreement or index warrant trust indenture, as the case may be;
- . issuing Index Warrants in definitive form; or
- . amending the index warrant agreement or index warrant trust indenture, as the case may be, in any manner which ML&Co. may deem to be necessary or desirable and which will not materially and adversely affect the interests of the index warrant holders.

ML&Co. and the index warrant agent may also amend any index warrant agreement or index warrant trust indenture, as the case may be, and the terms of the related Index Warrants, by a Supplemental Agreement, with the consent of the index warrant holders holding not less than 66 2/3% in number of the then outstanding unexercised Index Warrants affected by the amendment, for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the index warrant agreement or index warrant trust indenture, as the case may be, or of modifying in any manner the rights of the index warrant holders. However, without the consent of each index warrant holder affected, no amendment may be made that:

- . changes the determination, or any aspects of the determination, of the Settlement Value or any payment or delivery to be made on cancellation, or any Minimum Expiration Value of the Index Warrants so as to reduce the payment or delivery to be made upon exercise or deemed exercise,
- . shortens the period of time during which the Index Warrants may be exercised, or otherwise materially and adversely affects the exercise rights of the index warrant holders, or
- . reduces the number of outstanding Index Warrants, the consent of whose holders is required for amendment of the index warrant agreement, the index warrant trust indenture or the terms of the related Index Warrants.

#### Events of Default

Specified events in bankruptcy, insolvency or reorganization of ML&Co. will constitute Events of Default with respect to Index Warrants having a Minimum Expiration Value which are issued under an index warrant trust indenture. Upon the occurrence of an Event of Default, the holders of 25% of unexercised Index Warrants may elect to receive a settlement payment or delivery for any unexercised Index Warrants. Any settlement payment or delivery will immediately become due to the index warrant holders upon any election. Assuming ML&Co. is able to satisfy its obligations when due under the Index Warrants, the settlement payment or delivery will be an amount equal to the market value of the Index Warrants as of the date ML&Co. is notified of the intended liquidation. The market value of the Index Warrants will be determined by a nationally recognized securities broker-dealer unaffiliated with ML&Co. and mutually selected by ML&Co. and the index warrant trustee.

#### Merger, Consolidation, Sale, Lease or Other Dispositions

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay or deliver the Settlement Value, any Minimum Expiration Value or any consideration payable or deliverable upon cancellation, if applicable with respect to all the unexercised Index Warrants; and
  - . perform and observe all of the obligations and conditions of the index warrant agreement or index warrant trust indenture, as the case may be, to be performed or observed by ML&Co.; and

18

- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any merger or consolidation, in default under the index warrant agreement or index warrant trust indenture, as the case may be.

#### Enforceability of Rights by Index Warrantholders

Any index warrantholder may, without the consent of the related index warrant agent, enforce by appropriate legal action, in and for its own behalf, its right to exercise, and receive payment or delivery for, its Index Warrants.

#### Book-Entry Procedures

Except as may otherwise be provided in the applicable prospectus supplement, the Index Warrants will be issued in book-entry form and represented by global Index Warrants, registered in the name of a depository or its nominee. In that case, index warrantholders will not be entitled to receive definitive certificates representing Index Warrants, unless the depository is unwilling or unable to continue as depository or ML&Co. decides to have the Index Warrants represented by definitive certificates. A beneficial owner's interest in an Index Warrant represented by a global Index Warrant will be recorded on or through the records of the brokerage firm or other entity that maintains the beneficial owner's account. In turn, the total number of Index Warrants held by an individual brokerage firm or other entity for its clients will be maintained on the records of the depository in the name of the brokerage firm or other entity or its agent. Transfer of ownership of any Index Warrant will be effected only through the selling beneficial owner's brokerage firm.

#### Listing

ML&Co. may list an issue of Index Warrants on a national securities exchange. Any listing will be specified in the applicable prospectus supplement.

#### DESCRIPTION OF PREFERRED STOCK

The following description sets forth certain general terms of preferred stock which ML&Co. may issue. The terms of any series of the preferred stock will be described in the applicable prospectus supplement relating to the preferred stock being offered. The description set forth below and in any prospectus supplement is not complete, and is subject to, and qualified in its entirety by reference to, ML&Co.'s restated certificate of incorporation, as amended, which is filed as an exhibit to the registration statement of which this prospectus is a part, and the certificate of designations relating to each particular series of the preferred stock, which was or will be filed with the SEC at or before the issuance of the series of preferred stock.

#### Terms of the Preferred Stock

Under ML&Co.'s restated certificate of incorporation, ML&Co. is authorized to issue up to 25,000,000 shares of preferred stock, par value \$1.00 per share. The Board of Directors of ML&Co. has the authority, without approval of the stockholders, to issue all of the shares of preferred stock which are currently authorized in one or more series and to fix the number of shares and the rights, preferences, privileges, qualifications, restrictions and limitations of each series. As of September 29, 2000, ML&Co. had 24,957,500 shares of preferred stock available for issuance.

ML&Co. has authorized the issuance of shares of Series A junior preferred stock, par value \$1.00 per share, of ML&Co. upon exercise of preferred share purchase rights associated with each share of common stock outstanding. See "Description of Common Stock--Rights to Purchase Series A Junior Preferred Stock".

19

In addition, as described under "Description of Depositary Shares", ML&Co., at its option, instead of offering full shares of any series of preferred stock, may offer depositary shares evidenced by depositary receipts, each representing a fraction of a share of the particular series of preferred stock issued and deposited with a depositary. The fraction of a share of preferred stock which each depositary share represents will be set forth in the prospectus supplement relating to the depositary shares.

The applicable prospectus supplement will describe the terms of each series of preferred stock, including, where applicable, the following:

- . the designation, stated value, liquidation preference and number of shares offered;
- . the offering price or prices;
- . the dividend rate or rates, or method of calculation, the dividend periods, the date on which dividends shall be payable and whether dividends are cumulative or noncumulative and, if cumulative, the dates from which dividends begin to cumulate;
- . any redemption or sinking fund provisions;
- . any conversion or exchange provisions;
- . any voting rights;
- . whether the preferred stock will be issued in certificated or book-entry form;
- . whether the preferred stock will be listed on a national securities exchange;
- . information with respect to any book-entry procedures; and
- . any additional rights, preferences, privileges, limitations and restrictions of the preferred stock which are not inconsistent with the provisions of the certificate of incorporation.

The preferred stock will be, when issued against payment, fully paid and nonassessable. Holders will have no preemptive rights to subscribe for any additional securities which ML&Co. may issue. Unless otherwise specified in the applicable prospectus supplement, the shares of each series of preferred stock will rank equally with all other outstanding series of preferred stock issued by ML&Co. as to payment of dividends, other than with respect to cumulation of dividends, and as to the distribution of assets upon liquidation, dissolution, or winding up of ML&Co. As of September 29, 2000, there were 42,500 shares of ML&Co.'s 9% Cumulative Preferred Stock, Series A (the "9% Preferred Stock") represented by 17,000,000 depositary shares and one Special Voting Share outstanding. See "--Outstanding Preferred Stock". Each series of preferred stock will rank senior to the common stock, and any other stock of ML&Co. that is expressly made junior to that series of preferred stock.

Unless otherwise specified in the applicable prospectus supplement, Citibank, N.A., will be the transfer agent, dividend disbursing agent and registrar for the shares of the preferred stock.

Because ML&Co. is a holding company, its rights and the rights of holders of its securities, including the holders of preferred stock, to participate in the distribution of assets of any subsidiary of ML&Co. upon its liquidation or recapitalization will be subject to the prior claims of the subsidiary's creditors and preferred stockholders, except to the extent ML&Co. may itself be a creditor with recognized claims against the subsidiary or a holder of preferred stock of the subsidiary.

#### Dividends and Distributions

Holders of shares of the preferred stock will be entitled to receive, as, if and when declared by the Board of Directors of ML&Co., or a duly authorized committee of the Board of Directors, out of funds legally available for the payment of dividends, cash dividends at the rate set forth in, or calculated in accordance with the formula set forth in, the prospectus supplement relating to the preferred stock being offered.

Dividends on the preferred stock may be cumulative or noncumulative as provided in the applicable prospectus supplement. Dividends on the cumulative preferred stock will accumulate from the date of original issue and will be payable quarterly in arrears on the dates specified in the applicable prospectus supplement. If any date so specified as a dividend payment date is not a business day, declared dividends on the preferred stock will be paid on the immediately succeeding business day, without interest. The applicable prospectus supplement will set forth the applicable dividend period with respect to a dividend payment date. If the Board of Directors of ML&Co. or a

duly authorized committee of the Board of Directors, fails to declare a dividend on any series of noncumulative preferred stock for any dividend period, ML&Co. will have no obligation to pay a dividend for that period, whether or not dividends on that series of noncumulative preferred stock are declared for any future dividend period. Unless otherwise specified in the applicable prospectus supplement, dividends on the preferred stock will be payable to record holders as they appear on the stock books of ML&Co. on each record date, not more than 30 nor less than 15 days preceding the applicable payment date, as shall be fixed by the Board of Directors of ML&Co. or a duly authorized committee of the Board of Directors.

No dividends will be declared or paid or set apart for payment on the preferred stock of any series ranking, as to dividends, equally with or junior to any other series of preferred stock for any period unless dividends have been or are contemporaneously declared and paid or declared and a sum sufficient for the payment of those dividends has been set apart for,

- . in the case of cumulative preferred stock, all dividend periods terminating on or before the date of payment of full cumulative dividends, or
- . in the case of noncumulative preferred stock, the immediately preceding dividend period.

When dividends are not paid in full upon any series of preferred stock, and any other preferred stock ranking equally as to dividends with that series of preferred stock, all dividends declared upon shares of that series of preferred stock and any other preferred stock ranking equally as to dividends will be declared pro rata so that the amount of dividends declared per share on that series of preferred stock and any other preferred stock ranking equally as to dividends will in all cases bear to each other the same ratio that accrued dividends per share on the shares of that series of preferred stock and the other preferred stock bear to each other. In the case of noncumulative preferred stock, any accrued dividends described in the immediately preceding paragraph will not include any cumulation in respect of unpaid dividends for prior dividend periods.

Except as provided in the immediately preceding paragraph, unless full dividends on all outstanding shares of any series of preferred stock have been declared and paid,

- . in the case of a series of cumulative preferred stock, for all past dividend periods, or
- . in the case of noncumulative preferred stock, for the immediately preceding dividend period,

then:

- . ML&Co. may not declare dividends or pay or set aside for payment or other distribution on any of its capital stock ranking junior to or equally with that series of preferred stock as to dividends or upon liquidation, other than dividends or distributions paid in shares of, or options, warrants or rights to subscribe for or purchase shares of, the common stock of ML&Co. or other capital stock of ML&Co. ranking junior to that series of preferred stock as to dividends and upon liquidation, and
- . other than in connection with the distribution or trading of any of its capital stock, ML&Co. may not redeem, purchase or otherwise acquire any of its capital stock ranking junior to or equally with that series of preferred stock as to dividends or upon liquidation, for any consideration or any moneys paid to or made available for a sinking fund for the redemption of any shares of any of its capital stock, except by conversion or exchange for capital stock of ML&Co. ranking junior to that series of preferred stock as to dividends and upon liquidation.

Unless otherwise specified in the applicable prospectus supplement, the amount of dividends payable for any period shorter than a full dividend period shall be computed on the basis of twelve 30-day months, a 360-day year and the actual number of days elapsed in any period of less than one month.

As of September 29, 2000, subsidiaries of ML&Co. had outstanding approximately \$2.7 billion of perpetual Trust Originated Preferred Securities SM ("TOPrS"). In connection with the issuance of the TOPrS, ML&Co. has agreed, among other things, that if full distributions on the TOPrS have not been paid or set apart for payment or if ML&Co. is in default of their related guarantee obligations, ML&Co., with certain exceptions, will not declare or pay dividends, make distributions with respect to, or redeem, purchase or acquire, or make a liquidation payment with respect to any of its capital stock, including the preferred stock.

## Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding up of ML&Co., the holders of the preferred stock will have preference and priority over the common stock of ML&Co. and any other class of stock of ML&Co. ranking junior to the preferred stock upon liquidation, dissolution or winding up, for payments out of or distributions of the assets of ML&Co. or proceeds from any liquidation, whether from capital or surplus, of the amount per share set forth in the applicable prospectus supplement plus all accrued and unpaid dividends, whether or not earned or declared, to the date of final distribution to such holders. After any liquidating payment, the holders of preferred stock will be entitled to no other payments. If, in the case of any liquidation, dissolution or winding up of ML&Co., the assets of ML&Co. or the proceeds from any liquidation should be insufficient to make the full liquidation payment in the amount per share set forth in the applicable prospectus supplement relating to a series of preferred stock, plus all accrued and unpaid dividends on that preferred stock, and liquidating payments on any other preferred stock ranking as to liquidation, dissolution or winding up equally with that preferred stock, then any assets and proceeds will be distributed among the holders of the preferred stock and any other preferred stock ratably in accordance with the respective amounts which would be payable on those shares of preferred stock and any other preferred stock if all amounts payable were paid in full. In the case of noncumulative preferred stock, accrued and unpaid dividends will not include cumulation of unpaid dividends from prior dividend periods. A consolidation or merger of ML&Co. with one or more corporations will not be deemed to be a liquidation, dissolution or winding up, voluntary or involuntary, of ML&Co.

## Redemption

If specified in the prospectus supplement relating to a series of preferred stock being offered, ML&Co. may, at its option, at any time or from time to time on not less than 30 nor more than 60 days notice, redeem that series of preferred stock in whole or in part at the redemption prices and on the dates set forth in the applicable prospectus supplement.

If less than all outstanding shares of a series of preferred stock are to be redeemed, the selection of the shares to be redeemed shall be determined by lot or pro rata as may be determined by the Board of Directors of ML&Co. or a duly authorized committee of the Board of Directors to be equitable. From and after the redemption date, unless ML&Co. is in default in providing for the payment of the redemption price, dividends shall cease to accrue on the shares of that series of preferred stock called for redemption and all rights of the holders shall cease, other than the right to receive the redemption price.

## Voting Rights

Unless otherwise described in the applicable prospectus supplement, holders of the preferred stock will have no voting rights except as set forth below or as otherwise required by law.

SM Service mark of Merrill Lynch & Co., Inc.

Whenever dividends payable on the preferred stock are in arrears for a number of dividend periods, whether or not consecutive, which in the aggregate is equivalent to six calendar quarters, the holders of outstanding shares of the preferred stock, voting as a class with holders of shares of all other series of preferred stock ranking equally with the preferred stock either as to dividends or the distribution of assets upon liquidation, dissolution or winding up and upon which like voting rights have been conferred and are exercisable, will be entitled to vote for the election of two additional directors on the terms set forth below. These voting rights will continue, in the case of any series of cumulative preferred stock, until all past dividends accumulated on shares of cumulative preferred stock are paid in full and, in the case of noncumulative preferred stock, until all dividends on shares of noncumulative preferred stock are paid in full for at least one calendar year. Upon payment in full of these dividends, the voting rights will terminate except as expressly provided by law. These voting rights are subject to re-vesting in the event of each and every subsequent default in the payment of dividends. Holders of all series of preferred stock which are granted these voting rights and which rank equally with the preferred stock will vote as a class, and, unless otherwise specified in the applicable prospectus supplement, each holder of shares of the preferred stock will have one vote for each share of stock held and each other series will have the number of votes, if any, for each share of stock held as may be granted to them. In the event that the holders of shares of the preferred stock are entitled to vote as described in this paragraph, the Board of Directors of ML&Co. will be increased by two directors, and the holders of the preferred stock will have the exclusive right as members of that class, as outlined above, to elect two directors at the next annual meeting of stockholders.

Upon termination of the right of the holders of the preferred stock to vote for directors as discussed in the preceding paragraph, the term of office of

all directors then in office elected by those holders will terminate immediately. Whenever the term of office of the directors elected by those holders ends and the related special voting rights expire, the number of directors will automatically be decreased to the number of directors as would otherwise prevail.

So long as any shares of preferred stock remain outstanding, ML&Co. shall not, without the affirmative vote or consent of the holders of at least two-thirds of the shares of the preferred stock outstanding at the time, voting as a class with all other series of preferred stock ranking equally with the preferred stock either as to dividends or the distribution of assets upon liquidation, dissolution or winding up and upon which like voting rights have been conferred and are exercisable, given in person or by proxy, either in writing or at a meeting:

- . authorize, create or issue, or increase the authorized or issued amount of, any class or series of stock ranking senior to the preferred stock with respect to payment of dividends or the distribution of assets upon liquidation, dissolution or winding up of ML&Co.; or
- . amend, alter or repeal, whether by merger, consolidation or otherwise, the provisions of ML&Co.'s restated certificate of incorporation or the certificate of designations of the preferred stock so as to materially and adversely affect any right, preference, privilege or voting power of the preferred stock or the holders of the preferred stock;

provided, however, that any increase in the amount of authorized preferred stock or the creation and issuance, or an increase in the authorized or issued amount, of other series of preferred stock, or any increase in the amount of authorized shares of preferred stock, in each case ranking equally with or junior to the preferred stock with respect to the payment of dividends and the distribution of assets upon liquidation, dissolution or winding of ML&Co. up will not be deemed to materially and adversely affect these rights, preferences, privileges or voting powers.

The foregoing voting provisions will not apply if all outstanding shares of preferred stock have been redeemed or sufficient funds have been deposited in trust to effect such a redemption which is scheduled to be consummated within three months after the time that such rights would otherwise be exercisable.

23

#### Conversion or Exchange Rights

The prospectus supplement relating to a series of preferred stock that is convertible or exchangeable will state the terms on which shares of that series are convertible or exchangeable into common stock, another series of preferred stock or debt securities.

#### Outstanding Preferred Stock

At September 29, 2000, there were 42,500 shares of 9% Preferred Stock represented by 17,000,000 depository shares and one Special Voting Share outstanding.

#### 9% Preferred Stock

The 9% Preferred Stock has preference over ML&Co.'s common stock and the Series A junior preferred stock issuable under the Rights Plan described under "Description of Common Stock" with respect to the payment of dividends and the distribution of assets in the event of liquidation, dissolution or winding up of ML&Co. Holders of the 9% Preferred Stock do not have any preemptive rights to subscribe for any additional securities which may be issued by ML&Co. Dividends on the 9% Preferred Stock are cumulative and payable quarterly at the rate per annum of 9% of the \$10,000 liquidation preference per share. Holders of the 9% Preferred Stock have no voting rights except as set forth above under "--Voting Rights" above. In the event of any voluntary or involuntary liquidation, dissolution or winding up of ML&Co., the holders of outstanding shares of 9% Preferred Stock are entitled to receive out of assets of ML&Co. available for distribution to stockholders a distribution of \$10,000 per share, plus accumulated and unpaid dividends, if any. The 9% Preferred Stock is not redeemable before December 30, 2004. On and after that date, the 9% Preferred Stock is redeemable at the option of ML&Co., in whole at any time or from time to time in part, upon not less than 30 nor more than 60 days notice, at a redemption price of \$10,000 per share, plus accumulated and unpaid dividends, if any.

#### Special Voting Share

In connection with the acquisition of Midland Walwyn Inc. by ML&Co. in August 1998, ML&Co. issued a single share of preferred stock with special voting rights (the "Special Voting Share"), under the terms of a Voting and Exchange Trust Agreement entered into by Merrill Lynch & Co., Canada Ltd. ("ML Canada"), ML&Co. and Montreal Trust Company of Canada, as trustee (the "Voting

Trust Agreement"). The Special Voting Share possesses a number of votes equal to the number of exchangeable shares of ML Canada (the "Exchangeable Shares") issued and outstanding from time to time that are not owned by ML&Co. or its affiliates, which votes may be exercised for the election of directors and on all other matters submitted to a vote of ML&Co.'s stockholders. The holders of ML&Co.'s common stock and the holder of the Special Voting Share vote together as a class on all matters. See "Description of Common Stock--Voting Rights". The Special Voting Share was issued to the trustee under the Voting Trust Agreement. The holder of the Special Voting Share is not entitled to receive dividends, and, in the event of any liquidation, dissolution or winding up of ML&Co., will receive an amount equal to the par value of the Special Voting Share. When the Special Voting Share has no votes attached to it because there are no Exchangeable Shares outstanding not owned by ML&Co. or any of its affiliates, the Special Voting Share will cease to have any rights.

#### DESCRIPTION OF DEPOSITARY SHARES

ML&Co. may issue depositary receipts evidencing depositary shares, each of which will represent a fraction of a share of preferred stock. ML&Co. will deposit shares of preferred stock of each class or series represented by depositary shares under deposit agreements to be entered into among ML&Co., a bank or trust company, as depositary, and the holders from time to time of the depositary receipts. A copy of the form of deposit agreement, including the form of certificates representing the depositary receipts, is filed as an exhibit to the registration statement of which this prospectus is a part. The following summaries of the material

24

provisions of the deposit agreements and the depositary receipt certificates are not complete, are subject to, and are qualified in their entirety by reference to, all the provisions of the deposit agreement and the depositary receipt certificates, respectively, including the definitions of terms.

#### Terms of the Depositary Shares

Depositary receipts issued under the applicable deposit agreement will evidence the depositary shares. Immediately following the issuance and delivery of the preferred stock by ML&Co. to the depositary, ML&Co. will cause the depositary to issue, on behalf of ML&Co., the depositary receipts. Subject to the terms of the applicable deposit agreement, each holder of a depositary receipt will be entitled, in proportion to the fraction of a share of preferred stock represented by the applicable depositary shares, to all the rights and preferences of the preferred stock being represented, including dividend, voting, conversion, redemption and liquidation rights, all as will be set forth in the prospectus supplement relating to the depositary shares being offered.

The depositary shares will have the dividend, liquidation, redemption, voting and conversion or exchange rights set forth below unless otherwise specified in the applicable prospectus supplement. The applicable prospectus supplement will describe the terms of the specific issue of the depositary shares being offered, the deposit agreement relating to the depositary shares and the depositary receipts evidencing the depositary shares, including the following:

- . the designation, stated value and liquidation preference of the depositary shares and the number of shares offered;
- . the offering price or prices;
- . the dividend rate or rates, or method of calculation, the dividend periods, the dates on which dividends will be payable and whether dividends are cumulative or noncumulative and, if cumulative, the dates from which dividends will begin to cumulate;
- . any redemption or sinking fund provisions;
- . any conversion or exchange provisions;
- . any material risk factors relating to the depositary shares;
- . the identity of the depositary; and
- . any other terms of the depositary shares which are not inconsistent with the provisions of the deposit agreement.

#### Book-Entry Procedures

Except as may otherwise be provided in the applicable prospectus supplement, the depositary shares will be evidenced by global depositary receipts, registered in the name of a depositary or its nominee. In that case, beneficial owners will not be entitled to receive depositary receipts evidencing their depositary shares unless the depositary is unwilling or unable to continue as depositary or ML&Co. decides to have the depositary shares represented by separate depositary receipts. A beneficial owner's interest in depositary

shares will be recorded on or through the records of the brokerage firm or other entity that maintains the beneficial owner's account. In turn, the total number of depositary shares held by an individual brokerage firm for its clients will be maintained on the records of the depositary in the name of the brokerage firm or its agent. Transfer of ownership of depositary shares will be effected only through the selling beneficial owner's brokerage firm.

#### Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the preferred stock to the record holders of depositary receipts in proportion to the number of depositary shares owned by those holders, subject to the obligations of holders to file proofs, certificates and other information and to pay certain charges and expenses to the depositary.

25

In the event of a distribution in respect of the preferred stock other than in cash, the depositary will distribute property it receives to the record holders of the depositary shares, subject to certain obligations of holders to file proofs, certificates and other information and to pay certain charges and expenses to the depositary, unless the depositary, after consultation with ML&Co., determines that it is not feasible to make the distribution, in which case the depositary may, with the approval of ML&Co., sell any property and distribute the net proceeds from the sale to the holders.

#### Withdrawal of Stock

Unless the related depositary shares have been previously called for redemption, upon surrender of the depositary receipts at the corporate trust office of the depositary, the holder of the depositary shares will be entitled to delivery, at the corporate trust office of the depositary to or upon his or her order, of the number of whole shares of the preferred stock and any money or other property represented by the depositary shares. If the depositary receipts delivered by the holder evidence a number of depositary shares in excess of the number of depositary shares representing the number of whole shares of preferred stock to be withdrawn, the depositary will deliver to the holder at the same time a new depositary receipt evidencing the excess number of depositary shares. In no event will the depositary deliver fractional shares of preferred stock upon surrender of depositary receipts.

#### Redemption of Depositary Shares

Whenever ML&Co. redeems shares of preferred stock held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares representing shares of the preferred stock so redeemed, provided ML&Co. has paid in full to the depositary the redemption price of the preferred stock to be redeemed plus an amount equal to any accumulated and unpaid dividends on the preferred stock to the date fixed for redemption. The redemption price per depositary share will be equal to the redemption price and any other amounts per share payable with respect to the preferred stock multiplied by the fraction of a share of preferred stock represented by one depositary share. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by the lot or pro rata as may be determined by the depositary.

After the date fixed for redemption, depositary shares called for redemption will no longer be deemed to be outstanding and all rights of the holders of depositary shares called for redemption will cease, except the right to receive any moneys payable upon redemption and any money or other property to which the holders of the depositary shares were entitled upon redemption upon surrender to the depositary of the depositary receipts evidencing the depositary shares.

#### Voting the Preferred Stock

Upon receipt of notice of any meeting at which the holders of the preferred stock are entitled to vote, the depositary will mail the information contained in the notice of meeting to the record holders of the depositary receipts relating to that preferred stock. The record date for the depositary receipts relating to the preferred stock will be the same date as the record date for the preferred stock. Each record holder of the depositary shares on the record date will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the amount of preferred stock represented by that holder's depositary shares. The depositary will endeavor, insofar as practicable, to vote the amount of preferred stock represented by the depositary shares in accordance with those instructions, and ML&Co. will agree to take all reasonable action which may be deemed necessary by the depositary in order to enable the depositary to do so. The depositary will not vote any shares of preferred stock except to the extent it receives specific instructions from the holders of depositary shares representing that number of shares of preferred stock.

26

## Exchange of Preferred Stock

Whenever ML&Co. exchanges all of the shares of a series of preferred stock held by the depositary for debt securities, common stock or other shares of preferred stock, the depositary will exchange as of the same exchange date the number of depositary shares representing all of the shares of the preferred stock so exchanged for debt securities, common stock or other shares of preferred stock, provided ML&Co. has issued and deposited with the depositary, debt securities, common stock or other shares of preferred stock, as applicable, for all of the shares of the preferred stock to be exchanged. The exchange rate per depositary share will be equal to the exchange rate per share of preferred stock multiplied by the fraction of a share of preferred stock represented by one depositary share, plus all money and other property, if any, represented by those depositary shares, including all amounts paid by ML&Co. in respect of dividends which on the exchange date have accumulated on the shares of preferred stock to be so exchanged and have not already been paid.

## Conversion of Preferred Stock

The depositary shares are not convertible or exchangeable into common stock or any other securities or property of ML&Co. Nevertheless, if so specified in the applicable prospectus supplement, each depositary receipt may be surrendered by its holder to the depositary with written instructions to the depositary to instruct ML&Co. to cause conversion or exchange of the preferred stock represented by the depositary shares evidenced by that depositary receipt into whole shares of common stock, other shares of preferred stock or debt securities of ML&Co. ML&Co. has agreed that upon the receipt of any instructions to convert or exchange any depositary shares and the payment of any fees or other amounts applicable to any conversion or exchange, it will convert or exchange the depositary shares using the same procedures as those provided for delivery of preferred stock to effect conversions or exchange. If the depositary shares represented by a depositary receipt are converted in part only, a new depositary receipt or receipts will be issued for any depositary shares not converted or exchanged.

## Amendment and Termination of the Deposit Agreement

The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may at any time be amended by agreement between ML&Co. and the depositary. However, any amendment that materially and adversely alters the rights of the holders of depositary receipts will not be effective unless it has been approved by the holders of at least a majority of the depositary shares then outstanding. No amendment to the form of depositary receipt or any provision of the deposit agreement relating to or affecting rights to receive dividends or distributions or voting, redemption or conversion rights will be effective unless approved by the holders of at least two-thirds of the depositary shares then outstanding.

ML&Co. may terminate the deposit agreement at any time upon 60 days prior written notice to the depositary, in which case the depositary will deliver to the record holders, upon surrender of the depositary receipts, the number of whole or fractional shares of preferred stock as is represented by those depositary receipts. The deposit agreement will automatically terminate if:

- . all outstanding depositary shares have been redeemed,
- . all shares of preferred stock deposited with the depositary in accordance with the terms of the deposit agreement and all money and other property relating to those shares of preferred stock have been withdrawn in accordance with the terms of the deposit agreement, or
- . there has been a final distribution in respect of the preferred stock in connection with any liquidation, dissolution or winding up of ML&Co. and the distribution has been distributed to the holders of depositary receipts.

## Charges of Depositary

ML&Co. will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. ML&Co. will pay the fees and expenses of the depositary in connection with the performance of its duties under the deposit agreement. Holders of depositary receipts will pay transfer and other taxes and governmental charges and any other charges that are expressly provided in the deposit agreement to be for their accounts. The depositary may refuse to effect any transfer of a depositary receipt or any withdrawals of preferred stock evidenced by a depositary receipt until all taxes and charges with respect to the depositary receipt or preferred stock are paid by their holders.

## Resignation and Removal of Depositary

The depositary may resign at any time by delivering to ML&Co. notice of its

election to do so, and ML&Co. may remove the depositary at any time. Any resignation or removal of the depositary will take effect upon ML&Co.'s appointment of a successor depositary, which must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000.

#### Notices

The depositary will forward to holders of depositary receipts all reports and communications received from ML&Co. and the depositary and which ML&Co. is required to furnish to holders of the related underlying preferred stock. The depositary will also, promptly after its receipt, transmit to the holders of depositary receipts, copies of all notices and reports required by law, the rules of any national securities exchange or ML&Co.'s restated certificate of incorporation to be furnished to the record holders of depositary receipts.

#### Limitation of Liability

Neither the depositary nor ML&Co. will assume any obligation or be subject to any liability under the deposit agreement to holders of depositary receipts other than for negligence, willful misconduct or bad faith.

The depositary will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or any shares of preferred stock unless it is furnished with satisfactory indemnification. ML&Co. and the depositary may rely on written advice of counsel or accountants, or information provided by persons presenting shares of preferred stock for deposit, holders of depositary receipts or other persons believed to be competent and on documents believed to be genuine. Neither the depositary nor ML&Co. will be liable if it is prevented from or delayed, by law, by provision of ML&Co.'s restated certificate of incorporation or any circumstances beyond its control, in performing its obligations under the deposit agreement.

#### DESCRIPTION OF PREFERRED STOCK WARRANTS

ML&Co. may issue warrants for the purchase of preferred stock ("Preferred Stock Warrants"). Each series of Preferred Stock Warrants is to be issued under a preferred stock warrant agreement to be entered into between ML&Co. and a bank or trust company, as preferred stock warrant agent, as described in the applicable prospectus supplement relating to the Preferred Stock Warrants being offered. A copy of the form of preferred stock warrant agreement, including the form of warrant certificates representing the Preferred Stock Warrants, is filed as an exhibit to the registration statement of which this prospectus is a part. The following summaries of the material provisions of the preferred stock warrant agreement and preferred stock warrant certificates are not complete and are subject to and are qualified in their entirety by reference to, all the provisions of the preferred stock warrant agreement and the preferred stock warrant certificates, respectively, including the definitions of terms.

28

#### Terms of the Preferred Stock Warrants

The applicable prospectus supplement will describe the terms of the specific issue of Preferred Stock Warrants being offered, the preferred stock warrant agreement relating to the Preferred Stock Warrants and the preferred stock warrant certificates representing the Preferred Stock Warrants, including the following:

- . the offering price or prices;
- . designation, aggregate number and terms of the series of preferred stock that may be purchased upon exercise of the Preferred Stock Warrants and the minimum number of Preferred Stock Warrants that are exercisable;
- . any designation and terms of the securities with which the Preferred Stock Warrants are being offered and the number of Preferred Stock Warrants being offered with each Security;
- . any date on and after which the Preferred Stock Warrants and the related securities will be transferable separately;
- . the number and stated values of the series of preferred stock that may be purchased upon exercise of each Preferred Stock Warrant and the price at which the shares of preferred stock of that series may be purchased upon exercise, and events or conditions under which the number of shares that may be purchased may be adjusted;
- . the date on which the right to exercise the Preferred Stock Warrants will begin and the date on which the right to exercise will expire;
- . any circumstances that will cause the Preferred Stock Warrants to be deemed to be automatically exercised;

- . any material risk factors relating to the Preferred Stock Warrants;
- . the identity of the preferred stock warrant agent; and
- . any other terms of the Preferred Stock Warrants which are not inconsistent with the provisions of the preferred stock warrant agreement.

Holders may exchange preferred stock warrant certificates for new preferred stock warrant certificates of different denominations, may, if in registered form, present for registration of transfer, and exercise the Preferred Stock Warrants at the corporate trust office of the preferred stock warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of any Preferred Stock Warrant, a holder will not have the rights of a holder of shares of the preferred stock that may be purchased upon exercise of the Preferred Stock Warrant, including the right to receive payment of dividends, if any, on the underlying preferred stock or the right to vote the underlying preferred stock.

Prospective purchasers of Preferred Stock Warrants should be aware that special U.S. Federal income tax, accounting and other considerations may be applicable to instruments such as Preferred Stock Warrants. The prospectus supplement relating to any issue of Preferred Stock Warrants will describe these considerations.

#### Book-Entry Procedures

Except as may otherwise be provided in the applicable prospectus supplement, the Preferred Stock Warrants will be issued in the form of global preferred stock warrant certificates, registered in the name of a depository or its nominee. In that case, beneficial owners will not be entitled to receive definitive certificates representing Preferred Stock Warrants unless the depository is unwilling or unable to continue as depository, specified events of bankruptcy or insolvency occur with respect to ML&Co. or ML&Co. decides to have the Preferred Stock Warrants represented by definitive certificates. A beneficial owner's interest in a Preferred Stock Warrant will be recorded on or through the records of the brokerage firm or other entity that maintains the beneficial owner's account. In turn, the total number of Preferred Stock Warrants held by an individual brokerage firm for its clients will be maintained on the records of the depository in the name of the brokerage firm or its agent. Transfer of ownership of any Preferred Stock Warrant will be effected only through the selling beneficial owner's brokerage firm.

29

#### Exercise of Preferred Stock Warrants

Each Preferred Stock Warrant will entitle its holder to purchase a number of shares of preferred stock at the exercise price described in the applicable prospectus supplement. After the close of business on the date the right to exercise the Preferred Stock Warrants expires, or any later date if extended by ML&Co., unexercised Preferred Stock Warrants will become void.

Holders may exercise the Preferred Stock Warrants in the manner set forth in the applicable prospectus supplement. Upon receipt of payment and a properly completed and duly executed preferred stock warrant certificate at the corporate trust office of the preferred stock warrant agent or any other office indicated in the applicable prospectus supplement, ML&Co. will, as soon as practicable, issue and deliver the shares of preferred stock purchased upon exercise. If less than all of the Preferred Stock Warrants represented by any preferred stock warrant certificate are exercised, ML&Co. will issue a new preferred stock warrant certificate for the remaining number of Preferred Stock Warrants.

#### Listing

ML&Co. may list an issue of Preferred Stock Warrants on a national securities exchange. Any listing will be specified in the applicable prospectus supplement.

#### Modifications

ML&Co. and the preferred stock warrant agent may amend any preferred stock warrant agreement and the terms of the related Preferred Stock Warrants, without the consent of the holders of the Preferred Stock Warrants, for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective or inconsistent provision, or in any other manner which ML&Co. may deem necessary or desirable and which will not materially and adversely affect the interests of the preferred stock warrant holders.

ML&Co. and the preferred stock warrant agent also may amend any preferred stock warrant agreement and the terms of the related Preferred Stock Warrants, with the consent of the holders of not less than a majority in number of the then outstanding unexercised Preferred Stock Warrants affected by the

amendment. However, without the consent of each of the preferred stock warrant holders affected, no amendment will be effective that:

- . shortens the period of time during which the Preferred Stock Warrants may be exercised;
- . otherwise materially and adversely affects the exercise rights of the preferred stock warrant holders; or
- . reduces the number of outstanding Preferred Stock Warrants the consent of whose holders is required to approve an amendment of the preferred stock warrant agreement or the terms of the related Preferred Stock Warrants.

#### Enforceability of Rights by Preferred Stock Warrant holders

Any preferred stock warrant holder may, without the consent of the related preferred stock warrant agent, enforce by appropriate legal action, in and of its own behalf, its right to exercise its Preferred Stock Warrants.

#### DESCRIPTION OF COMMON STOCK

The following description sets forth the general terms of common stock which ML&Co. may issue. The description set forth below and in any prospectus supplement is not complete, is subject to, and is qualified in its entirety by reference to, ML&Co.'s restated certificate of incorporation which is filed as an exhibit to the registration statement of which this prospectus is a part.

30

#### Terms of the Common Stock

Under ML&Co.'s restated certificate of incorporation, ML&Co. is authorized to issue up to 1,000,000,000 shares of common stock, par value \$1.33 1/3 per share. As of December 1, 2000, there were 806,487,749 shares of common stock and 4,752,366 Exchangeable Shares outstanding. The Exchangeable Shares are exchangeable at any time into common stock on a one-for-one basis and entitle holders to dividend, voting and other rights equivalent to common stock. The common stock is traded on the New York Stock Exchange under the symbol "MER" and also on the Chicago Stock Exchange, the Pacific Exchange, the Paris Bourse, the London Stock Exchange and the Tokyo Stock Exchange.

The common stock has the dividend, voting, liquidation and preemptive rights set forth below unless otherwise specified in the prospectus supplement being used to offer the common stock. The applicable prospectus supplement will describe the terms of the common stock including, where applicable, the following:

- . the number of shares to be offered;
- . the offering price or prices;
- . to the extent permitted by applicable law, whether the common stock will be issued in certificated or book-entry form;
- . information with respect to any book-entry procedures; and
- . any additional terms of the common stock which are not inconsistent with the provisions of ML&Co.'s restated certificate of incorporation.

The common stock will be, when issued against payment therefor, fully paid and nonassessable. Holders of the common stock will have no preemptive rights to subscribe for any additional securities which may be issued by ML&Co. The rights of holders of common stock will be subject to, and may be adversely affected by, the rights of holders of any preferred stock that has been issued and may be issued in the future. As of September 29, 2000, 17,000,000 depositary shares, each representing a one-four-hundredth interest in a share of 9% Preferred Stock, and one Special Voting Share were outstanding. See "Description of Preferred Stock--Outstanding Preferred Stock" for a description of that preferred stock. The Board of Directors of ML&Co. may issue additional shares of preferred stock to obtain additional financing, in connection with acquisitions, to officers, directors and employees of ML&Co. and its subsidiaries pursuant to benefit plans or otherwise and for other proper corporate purposes.

ML&Co. is the principal transfer agent for the common stock.

Because ML&Co. is a holding company, its rights, and the rights of holders of its securities, including the holders of common stock, to participate in the distribution of assets of any subsidiary of ML&Co. upon the subsidiary's liquidation or recapitalization will be subject to the prior claims of the subsidiary's creditors and preferred stockholders, except to the extent ML&Co. may itself be a creditor with recognized claims against the subsidiary or a holder of preferred stock of the subsidiary.

## Dividends

ML&Co. may pay dividends on the common stock out of funds legally available for the payment of dividends as, if and when declared by the Board of Directors of ML&Co. or a duly authorized committee of the Board of Directors.

As of September 29, 2000, subsidiaries of ML&Co. had outstanding approximately \$2.7 billion of perpetual TOPrS. In connection with the issuance of the TOPrS, ML&Co. has agreed, among other things, that if full distributions on the TOPrS have not been paid or set apart for payment or ML&Co. is in default of its related guarantee obligations, ML&Co., with certain exceptions, will not declare or pay dividends, make distributions with respect to, or redeem, purchase or acquire, or make a liquidation payment with respect to any of its capital stock, including the common stock.

31

## Liquidation Rights

Upon any voluntary or involuntary liquidation, dissolution, or winding up of ML&Co., the holders of its common stock will be entitled to receive, after payment of all of its debts, liabilities and of all sums to which holders of any preferred stock may be entitled, all of the remaining assets of ML&Co.

## Voting Rights

Except as described under "Description of Preferred Stock--Outstanding Preferred Stock", the holders of the common stock currently possess exclusive voting rights in ML&Co. The Board of Directors of ML&Co. may, however, give voting power to any preferred stock which may be issued in the future. Each holder of common stock is entitled to one vote per share with respect to all matters. There is no cumulative voting in the election of directors. Actions requiring approval of stockholders generally require approval by a majority vote of outstanding shares.

The Board of Directors of ML&Co. is currently comprised of 13 directors, divided into three classes, the precise number of members to be fixed from time to time by the Board of Directors. The directors of the class elected at each annual election hold office for a term of three years, with the term of each class expiring at successive annual meetings of stockholders.

## Rights to Purchase Series A Junior Preferred Stock

Under the Amended and Restated Rights Agreement, adopted on December 2, 1997 (the "Rights Agreement"), preferred purchase rights were distributed to holders of common stock. The preferred purchase rights are attached to each outstanding share of common stock and will attach to all subsequently issued shares, including common stock that may be offered by ML&Co. pursuant to an applicable prospectus supplement. The preferred purchase rights entitle the holder to purchase fractions of a share ("Units") of Series A junior preferred stock at an exercise price of \$300 per Unit, subject to adjustment from time to time as provided in the Rights Agreement. The exercise price and the number of Units issuable are subject to adjustment to prevent dilution.

The preferred purchase rights will separate from the common stock ten days following the earlier of:

- . an announcement of an acquisition by a person or group of 15% or more of the outstanding common stock of ML&Co.; or
- . the commencement of a tender or exchange offer for 15% or more of the shares of common stock of ML&Co. outstanding.

If, after the preferred purchase rights have separated from the common stock,

- . ML&Co. is the surviving corporation in a merger with an acquiring party,
- . a person becomes the beneficial owner of 15% or more of the common stock,
- . an acquiring party engages in one or more defined "self-dealing" transactions, or
- . an event occurs which results in such acquiring party's ownership interest being increased by more than 1%,

then, in each case, each holder of a preferred purchase right will have the right to purchase Units of Series A junior preferred stock having a value equal to two times the exercise price of the preferred purchase right. In addition, preferred purchase rights held by or transferred in certain circumstances by an acquiring party may immediately become void.

In the event that, at any time,

- . ML&Co. is acquired in a merger or other business combination transaction and ML&Co. is not the surviving corporation,
- . any person consolidates or merges with ML&Co. and all or part of ML&Co.'s common stock is converted or exchanged for securities, cash or property of any other person or
- . 50% or more of ML&Co.'s assets or earning power is sold or transferred,

each holder of a right will have the right to purchase common stock of the acquiring party having a value equal to two times the exercise price of the preferred purchase right.

The preferred purchase rights expire on December 2, 2007. The preferred purchase rights are redeemable at the option of a majority of the independent directors of ML&Co. at \$.01 per right at any time until the tenth day following an announcement of the acquisition of 15% or more of the common stock.

The foregoing provisions of the Rights Agreement may have the effect of delaying, deferring or preventing a change in control of ML&Co.

The certificate of designations of the Series A junior preferred stock provides that the holders of Units of the Series A junior preferred stock will be entitled to receive quarterly dividends in an amount to be determined in accordance with the formula set forth in the certificate of designations. These dividend rights are cumulative. The Series A junior preferred stock rank junior in right of payment of dividends to the 9% Preferred Stock and to all other preferred stock issued by ML&Co., unless the terms of any other preferred stock provide otherwise. The holders of Units of the Series A junior preferred stock will have one vote per Unit on all matters submitted to the stockholders of ML&Co., subject to adjustment. If at any time dividends on any Units of the Series A junior preferred stock are in arrears for a number of periods, whether or not consecutive, which in the aggregate is equivalent to six calendar quarters, then during that period of default, the holders of all Units, voting separately as a class, will have the right to elect two directors to the Board of Directors of ML&Co. Additionally, whenever quarterly dividends or other dividends or distributions payable on the Series A junior preferred stock are in arrears, ML&Co. shall not, among other things, declare or pay dividends on or make any other distributions on, or redeem or purchase or otherwise acquire for consideration any shares or capital stock of ML&Co. which ranks junior in right of payment to the Series A junior preferred stock, including the common stock. In the event of any voluntary or involuntary liquidation, dissolution or winding up of ML&Co., the holders of outstanding Units of the Series A junior preferred stock will be entitled to receive a distribution in an amount to be determined in accordance with the formula set forth in the certificate of designations before the payment of any distribution to the holders of common stock. The Units of Series A junior preferred stock are not redeemable. As of the date of this prospectus, there are no shares of Series A junior preferred stock outstanding.

#### Material Charter Provisions

ML&Co.'s restated certificate of incorporation provides that, except under specified circumstances, ML&Co. may not merge or consolidate with any one or more corporations, joint-stock associations or non-stock corporations; sell, lease or exchange all or substantially all of its property and assets or dissolve without the affirmative vote of two-thirds of the entire Board of Directors of ML&Co. and the holders of a majority of the outstanding shares of common stock entitled to vote. Additionally, ML&Co.'s restated certificate of incorporation provides that specified business combinations involving ML&Co. and an interested stockholder or an affiliate or associate of that stockholder must be approved by 80% of the voting power of the outstanding shares of capital stock of ML&Co. entitled to vote generally in the election of directors. The vote of 80% of the voting power of the voting stock referred to in the immediately preceding sentence is required for amendment of these provisions. ML&Co.'s restated certificate of incorporation also provides that only the Board of Directors of ML&Co. has the authority to call special stockholder meetings.

The foregoing provisions of ML&Co.'s restated certificate of incorporation may have the effect of delaying, deferring or preventing a change in control of ML&Co.

#### DESCRIPTION OF COMMON STOCK WARRANTS

ML&Co. may issue warrants for the purchase of common stock ("Common Stock Warrants"). Each series of Common Stock Warrants will be issued under a common stock warrant agreement to be entered into between ML&Co. and a bank or trust company, as common stock warrant agent, all as set forth in the applicable

prospectus supplement. A copy of the form of common stock warrant agreement, including the form of warrant certificates representing the Common Stock Warrants, reflecting the provisions to be included in the common stock warrant agreements that will be entered into with respect to particular offerings of Common Stock Warrants, is filed as an exhibit to the registration statement of which this prospectus is a part. The following summaries of the material provisions of the common stock warrant agreement and common stock warrant certificates are not complete, are subject to, and are qualified in their entirety by reference to, all of the provisions of the common stock warrant agreement and the common stock warrant certificates, including the definitions of terms.

#### Terms of the Common Stock Warrants

The applicable prospectus supplement will describe the terms of the Common Stock Warrants being offered, the common stock warrant agreement relating to the Common Stock Warrants and the common stock warrant certificates, including the following:

- . the offering price or prices;
- . the aggregate number of shares of common stock that may be purchased upon exercise of the Common Stock Warrants and minimum number of Common Stock Warrants that are exercisable;
- . the number of securities, if any, with which the Common Stock Warrants are being offered and the number of the Common Stock Warrants being offered with each security;
- . the date on and after which the Common Stock Warrants and the related securities, if any, will be transferable separately;
- . the number of shares of common stock purchasable upon exercise of each Common Stock Warrant, the price at which the common stock may be purchased, and events or conditions under which the number of shares purchasable may be adjusted;
- . the date on which the right to exercise the Common Stock Warrants will begin and the date on which the right to exercise will expire;
- . the circumstances, if any, which will cause the Common Stock Warrants to be deemed to be automatically exercised;
- . any material risk factors relating to the Common Stock Warrants;
- . the identity of the common stock warrant agent; and
- . any other terms of the Common Stock Warrants which are not inconsistent with the provisions of the common stock warrant agreement.

Holders may exchange common stock warrant certificates for new common stock warrant certificates of different denominations, if in registered form, may present for registration of transfer, and may exercise the Common Stock Warrants, at the corporate trust office of the common stock warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of any Common Stock Warrants to

34

purchase common stock, holders of the Common Stock Warrants will not have any rights of holders of common stock purchasable upon exercise of the Common Stock Warrants, including the right to receive payments of dividends, if any, on the common stock purchasable upon any exercise or the right to vote the underlying common stock.

Prospective purchasers of Common Stock Warrants should be aware that special U.S. Federal income tax, accounting and other considerations may be applicable to instruments such as Common Stock Warrants. The prospectus supplement relating to any issue of Common Stock Warrants will describe these considerations.

#### Book-Entry Procedures

Except as may otherwise be provided in the applicable prospectus supplement, the Common Stock Warrants will be issued in the form of global common stock warrant certificates, registered in the name of a depositary or its nominee. In that case, beneficial owners will not be entitled to receive definitive certificates representing Common Stock Warrants unless the depositary is unwilling or unable to continue as depositary, certain specified events of bankruptcy or insolvency occur with respect to ML&Co. or ML&Co. decides to have the Common Stock Warrants represented by definitive certificates. A beneficial owner's interest in a Common Stock Warrant will be recorded on or through the records of the brokerage firm or other entity that maintains a beneficial owner's account. In turn, the total number of Common Stock Warrants held by an

individual brokerage firm for its clients will be maintained on the records of the depository in the name of the brokerage firm or its agent. Transfer of ownership of any Common Stock Warrant will be effected only through the selling beneficial owner's brokerage firm.

#### Exercise of Common Stock Warrants

Each Common Stock Warrant will entitle its holder to purchase a specific number of shares of common stock at the exercise price described in the applicable prospectus supplement. After the close of business on the date the right to exercise the Common Stock Warrants expires, or any later date if extended by ML&Co., unexercised Common Stock Warrants will become void.

Common Stock Warrants may be exercised as set forth in the applicable prospectus supplement. Upon receipt of payment and a properly completed and duly executed common stock warrant certificate at the corporate trust office of the common stock warrant agent or any other office indicated in the applicable prospectus supplement, ML&Co. will, as soon as practicable, issue and deliver the shares of common stock purchased upon exercise. If less than all of the Common Stock Warrants represented by any common stock warrant certificate are exercised, a new common stock warrant certificate will be issued for the remaining Common Stock Warrants.

#### Listing

ML&Co. may list an issue of Common Stock Warrants on a national securities exchange. Any listing will be specified in the applicable prospectus supplement.

#### Modifications

ML&Co. and the common stock warrant agent may amend any common stock warrant agreement and the terms of the related Common Stock Warrants, without the consent of the holders of the Common Stock Warrants, for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective or inconsistent provision, or in any other manner which ML&Co. may deem necessary or desirable and which will not materially and adversely affect the interests of the common stock warrant holders.

ML&Co. and the common stock warrant agent also may amend any common stock warrant agreement and the terms of the related Common Stock Warrants, with the consent of the holders of not less than a majority in

35

number of the then outstanding unexercised Common Stock Warrants affected by amendment. However, without the consent of each of the common stock warrant holders affected, no amendment will be effective that:

- . shortens the period of time during which the Common Stock Warrants may be exercised;
- . otherwise materially and adversely affects the exercise rights of the common stock warrant holders; or
- . reduces the number of outstanding Common Stock Warrants the consent of whose holders is required to approve an amendment of the common stock warrant agreement or the terms of the related Common Stock Warrants.

#### Enforceability of Rights by common stock warrant holders

Any common stock warrant holder may, without the consent of the related common stock warrant agent, enforce by appropriate legal action, in and for its own behalf, its right to exercise its Common Stock Warrant.

#### PLAN OF DISTRIBUTION

ML&Co. may sell securities:

- . to the public through MLPF&S, or through a group of underwriters managed or co-managed by, one or more underwriters, including MLPF&S,
- . through MLPF&S as agent, or
- . directly to purchasers.

The prospectus supplement with respect to the securities of a particular series describes the terms of the offering of the securities, including the name of the agent or the name or names of any underwriters, the public offering or purchase price, any discounts and commissions to be allowed or paid to the agent or underwriters, all other items constituting underwriting compensation, any discounts and commissions to be allowed or paid to dealers and any exchanges on which the securities will be listed. Only the agents or underwriters so named in the prospectus supplement are agents or underwriters in connection with the securities being offered. Under certain circumstances,

ML&Co. may repurchase securities and reoffer them to the public as set forth above. ML&Co. may also arrange for repurchases and resales of the securities by dealers.

If so indicated in the prospectus supplement, ML&Co. will authorize underwriters to solicit offers by certain institutions to purchase debt securities from ML&Co. pursuant to delayed delivery contracts providing for payment and delivery on the date stated in the prospectus supplement. Each contract will be for an amount not less than, and, unless ML&Co. otherwise agrees, the aggregate principal amount of debt securities sold pursuant to the contracts shall not be more than, the respective amounts stated in the prospectus supplement. Institutions with whom the contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions, and other institutions, but shall in all cases be subject to the approval of ML&Co. Delayed delivery contracts will not be subject to any conditions except that the purchase by an institution of the debt securities covered under that contract shall not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which that institution is subject.

ML&Co. has agreed to indemnify any agent or underwriters against certain civil liabilities, including liabilities under the Securities Act or contribute to payments any agent or underwriters may be required to make.

The distribution of securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the National Association of Securities Dealers, Inc.

36

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the securities and other securities. For further information on ML&Co. and the securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Section 13(a) and (c) of the Exchange Act;

- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

37

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone (212) 670-0432.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

#### USE OF PROCEEDS

We intend to use the net proceeds from the sale of the STRYPES for general corporate purposes, unless otherwise specified in the prospectus supplement relating to a specific issue of STRYPES. Our general corporate purposes may include financing the activities of our subsidiaries, financing our assets and those of our subsidiaries, lengthening the average maturity of our borrowings and financing acquisitions. Until we use the net proceeds from the sale of any of our securities for general corporate purposes, we will use the net proceeds

to reduce our short-term indebtedness or for temporary investments. We expect that we will, on a recurrent basis, engage in additional financings as the need arises to finance our growth, through acquisitions or otherwise, or to lengthen the average maturity of our borrowings. To the extent that STRYPES being purchased for resale by our subsidiary Merrill Lynch, Pierce, Fenner & Smith Incorporated, referred to in this prospectus as MLPF&S, are not resold, the aggregate proceeds that we and our subsidiaries would receive would be reduced.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following tables sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE STRYPES

Each issue of STRYPES will be a series of senior debt securities of ML&Co. to be issued under an indenture (the "1983 Indenture"), dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. For each series of STRYPES, ML&Co. and the trustee will enter into a supplemental indenture which will further amend and supplement the 1983 Indenture. Any supplemental indenture relating to a specific series of STRYPES and the 1983 Indenture are collectively referred to as the indenture. The following summary of the material provisions of the indenture is not complete and is qualified in its entirety by reference to the indenture.

Terms of the STRYPES

The supplemental indenture will provide that ML&Co. may issue STRYPES of the related series from time to time under the indenture, up to a specified aggregate issue price, upon the satisfaction of certain conditions before issuance. The supplemental indenture will establish the terms of the related series of STRYPES, including:

- . the issue price per STRYPES;
- . the date on which the STRYPES will mature;
- . the consideration deliverable or payable with respect to each STRYPES, whether at maturity or upon earlier acceleration, and the formula or other method by which the amount of any consideration deliverable or payable will be determined;

- . any fixed or variable rate or rates per annum;
- . the interest payment dates;
- . any provisions for redemption, the redemption price and any remarketing arrangements;
- . any sinking fund requirements;
- . whether the STRYPES are denominated or provide for payment in United

States dollars or a foreign currency or units of two or more foreign currencies;

- . whether and under what circumstances ML&Co. will pay additional amounts ("Additional Amounts") under any STRYPES held by a person who is not a U.S. person for specified taxes, assessments or other governmental charges and whether ML&Co. has the option to redeem the affected STRYPES rather than pay any Additional Amounts;
- . the title and series designation;
- . whether the STRYPES are to be issued in global form;
- . the obligation of ML&Co. to pay and discharge the STRYPES at maturity by delivery of a number of shares of common stock or other securities or property (the "Underlying Securities") of an unaffiliated corporation or cash or a combination of cash and Underlying Securities with an equal value;
- . the formula or other method by which the consideration deliverable or payable at maturity of the STRYPES or any earlier date will be determined and the terms and conditions upon which any payment and discharge of the STRYPES will be effected.

The terms of the specific series of STRYPES being offered will be described in the applicable prospectus supplement.

Under the indenture, ML&Co., without the consent of holders of any STRYPES, is permitted to issue STRYPES with terms different from those of STRYPES previously issued and to reopen a previous series of STRYPES and issue additional STRYPES of that series.

Issue price and interest, premium and Additional Amounts, if any, and Underlying Securities will be payable or deliverable in the manner, at the places and subject to the restrictions set forth in the indenture, the applicable supplemental indenture, the form of the STRYPES and the applicable prospectus supplement, provided that payment of any interest and any Additional Amounts may be made at the option of ML&Co. by check mailed to the holders of registered STRYPES at their registered addresses.

Holders may present the STRYPES for exchange, and may present registered STRYPES for registration of transfer, in the manner, at the places and subject to the restrictions set forth in the indenture, the applicable supplemental indentures the form of the STRYPES and the applicable prospectus supplement. There will be no service charge for any registration of transfer or exchange of STRYPES, but ML&Co. may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

#### Ranking

The STRYPES will be unsecured obligations and will rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. Because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of the STRYPES, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize the claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries,

4

including MLPF&S, to ML&Co. are restricted by net capital requirements under the Securities Exchange Act of 1934 and under rules of exchanges and other regulatory bodies.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay or deliver the Underlying Securities, cash with an equal value or a combination of both in respect of, any interest and Additional Amounts on, and any other amounts payable with respect to, the STRYPES of each series; and
  - . perform and observe all of ML&Co.'s obligations under the indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not,

immediately after any consolidation or merger, in default under the indenture.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than any liens specifically permitted by the indenture, on the voting stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding STRYPES are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitations on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to the transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Events of Default

Unless otherwise specified in a prospectus supplement, each of the following will be an Event of Default under the indenture with respect to each series of STRYPES:

- . failure to pay and discharge the STRYPES of that series with the Underlying Securities or, if ML&Co. so elects, to pay an equivalent amount in cash instead of Underlying Securities when due;
- 5
- . failure to pay the redemption price or any redemption premium with respect to any STRYPES of that series when due;
  - . failure to deposit any sinking fund payment, when and as due by the terms of any STRYPES of that series;
  - . failure to pay any interest on or any Additional Amounts in respect of any STRYPES of that series when due, and continuing for 30 days;
  - . failure to perform any other obligation of ML&Co. contained in the indenture for the benefit of that series or in the STRYPES of that series, continuing for 60 days after written notice has been given to ML&Co. by the trustee, or to ML&Co. and the trustee by the holders of at least 10% of the aggregate issue price of the outstanding STRYPES of that series, as provided in the indenture;
  - . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
  - . any other Event of Default provided with respect to STRYPES of that series.

Unless otherwise specified in a prospectus supplement, if an Event of Default occurs and is continuing for any series of STRYPES, the trustee or the holders of at least 25% in aggregate issue price of the outstanding STRYPES of that series, by notice as provided in the indenture, may declare an amount equal to the aggregate issue price of all the STRYPES of that series, the accrued interest on the STRYPES and all Additional Amounts payable with respect to the STRYPES of that series immediately due and payable in cash. The trustee or the holders of at least 25% in aggregate issue price of the outstanding STRYPES may declare these amounts due immediately as described in the preceding sentence without any other declaration or other action by the trustee or any

holder. At any time after a declaration of acceleration, but before the trustee has obtained a judgment or decree based on acceleration, the holders of a majority of the aggregate issue price of the outstanding STRYPES of that series may, under certain circumstances, rescind and annul any acceleration if all Events of Default, other than the non-payment of the amount equal to the aggregate issue price of all the STRYPES of that series due by reason of acceleration, have been cured or waived as provided in the indenture. See "Modification and Waiver" below.

The holders of a majority in aggregate issue price of the outstanding STRYPES of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust power conferred on the trustee with respect to the STRYPES of that series, provided that any direction is not in conflict with any rule of law or the indenture. Subject to the provisions of the indenture relating to the duties of the trustee, in case an Event of Default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of STRYPES of any series, unless the holders of that series shall have offered to the trustee reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with any request or direction.

Unless otherwise described in the applicable prospectus supplement, the STRYPES and other series of senior debt securities issued under the indenture will not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. will be required to furnish to the trustee annually a statement as to the fulfillment by ML& Co. of its obligations under the indenture.

#### Modification and Waiver

Unless otherwise specified in a prospectus supplement, ML&Co. and the trustee may modify and amend provisions in the indenture affecting a series of STRYPES with the consent of holders of at least 66 2/3% in

6

aggregate issue price of the series of STRYPES affected. However, without the consent of each holder of any STRYPES affected, no amendment or modification to any indenture may:

- . change the maturity date or the stated maturity date or any installment of interest or Additional Amounts on any STRYPES or any premium payable on redemption, or change the redemption price,
- . reduce the amount of Underlying Securities payable with respect to any STRYPES or reduce the amount of cash, or cash and Underlying Securities, payable instead of Underlying Securities,
- . reduce the amount of interest or Additional Amounts payable on any STRYPES or reduce the amount of cash payable with respect to any STRYPES upon acceleration,
- . change the place or currency of payment of interest or Additional Amounts on, or any amount of cash payable with respect to, any STRYPES,
- . impair the right to institute suit for the enforcement of any payment on any STRYPES, including the payment of Underlying Securities with respect to any STRYPES,
- . reduce the percentage of the aggregate issue price of outstanding STRYPES of that series, the consent of whose holders is required to modify or amend the indenture,
- . reduce the percentage of the aggregate issue price of outstanding STRYPES of that series necessary for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults or
- . modify the provisions with respect to modification and waiver.

Except as provided in the indenture, no modification of or amendment to the indenture may adversely affect the rights of a holder of any other senior debt security without the consent of each holder affected.

The holders of a majority of the aggregate issue price of each series of STRYPES may waive compliance by ML&Co. with certain restrictive provisions of the indenture. Any past default with respect to any series of STRYPES may be waived by the holders of a majority in aggregate issue price of the outstanding STRYPES of any series may waive any past default with respect to that series, except a default:

- . in the payment of the Underlying Securities or any other amounts due and payable or deliverable under the STRYPES of that series; or

- . in respect of an obligation of ML & Co. contained in, or a provision of, the indenture which cannot be modified under the terms of that indenture without the consent of each holder of each outstanding series of STRYPES affected.

#### Governing Law

The indenture and the STRYPES will be governed by, and construed in accordance with, the laws of the State of New York.

#### PLAN OF DISTRIBUTION

ML&Co. may sell STRYPES to the public solely through MLPF&S or through a syndicate of underwriters of which MLPF&S is a member. The accompanying prospectus supplement describes the terms of the STRYPES being offered, including the public offering or purchase price, any discounts and commissions to be allowed or paid, all other items constituting underwriting compensation, the discounts and commissions to be allowed or paid to dealers, if any, and the exchanges, if any, on which the STRYPES will be listed. Under certain circumstances, ML&Co. may repurchase STRYPES and reoffer them to the public as set forth above. ML&Co. may also arrange for repurchases and resales of the STRYPES by dealers.

The underwriting of STRYPES will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the National Association of Securities Dealers, Inc.

7

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the STRYPES and other securities. For further information on ML&Co. and the STRYPES, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;

- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from the prospectus to help you understand the TOPrS. This summary may not contain all the information that may be important to you. You should carefully read this prospectus to fully understand the terms of the TOPrS, as well as the tax and other considerations that should be important to you in making a decision about whether to invest in the TOPrS. You should pay special attention to the "Risk Factors" section to determine whether an investment in the TOPrS is appropriate for you.

In this prospectus:

- . references to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.,
- . references to "ML Trust " are to Merrill Lynch Capital Preferred Trust VI, and
- . references to "ML Partnership " are to Merrill Lynch Preferred Funding VI, L.P.

What are the TOPrS?

Each TOPrS is a preferred interest in the assets of ML Trust. We will own all of the common securities of ML Trust. The sole assets of ML Trust will be the partnership preferred securities issued by ML Partnership, which represent preferred ownership interests in the assets of ML Partnership. ML Partnership will use substantially all of the proceeds from the sale of its partnership preferred securities and our capital contribution as general partner of ML Partnership to purchase debentures from us and one or more of our affiliates.

What is the ML Trust?

ML Trust is a business trust established under Delaware law that exists for the sole purpose of issuing the TOPrS and investing the proceeds and engaging in incidental activities.

What is ML Partnership?

ML Partnership is a limited partnership established under Delaware law. The assets of ML Partnership will be:

- . the debentures issued by us and our affiliates; and
- . cash and securities not issued by us or our affiliates.

We are the general partner of ML Partnership.

What distributions will I receive on the TOPrS?

The TOPrS provide for a quarterly cash distribution at the rate of % or \$ per year for each TOPrS you own. Distributions are payable on each , , and , beginning , . Distributions will accumulate from the date ML Trust originally issues the TOPrS. Because the sole assets of ML Trust will be the partnership preferred securities of ML Partnership and substantially all of ML Partnership's assets will be the debentures issued by us and our affiliates, ML Trust's ability to pay distributions on the TOPrS is ultimately dependent upon our and our affiliates' ability to make interest payments on those debentures. If we or our affiliates exercise our right to defer making an interest payment on our debentures then held by ML Partnership, ML Partnership will not be able to pay any distributions on its preferred partnership securities and ML Trust will not be able to pay quarterly distributions to you until we resume making interest payments on those debentures.

In addition, ML Partnership is required to pay dividends on its partnership preferred securities only if they are declared by us as general partner of ML Partnership. As a result, you may not receive any distributions on your TOPrS if ML Trust does not receive dividends on the partnership preferred securities.

What are the debentures?

The debentures are long term loans made by ML Partnership to us or our affiliates from time to time. These debentures will be substantially all of ML Partnership's assets. The debentures that we issue to ML Partnership will be subordinated unsecured obligations of ours and will rank equally with all of our other subordinated unsecured

3

obligations. The debentures issued by our affiliates to ML Partnership will be unsecured obligations of our affiliates and we will guarantee those obligations on a subordinated basis. We and our affiliates may exercise our right to defer interest payments on the debentures for a period of not more than six consecutive calendar quarters.

Can the TOPrS be redeemed?

Yes. If ML Partnership redeems the partnership preferred securities, each TOPrS will be redeemed for \$25 plus any accumulated and unpaid distributions to the date of redemption. ML Partnership can redeem the partnership preferred securities in whole or in part from time to time on or after .

The trustees of ML Trust can elect to liquidate ML Trust and distribute the partnership preferred securities to you if at any time the specified changes in U.S. tax law or U.S. investment company law described in this prospectus occur.

Additionally, we, as general partner of ML Partnership, have the right to redeem the partnership preferred securities and you will receive cash from the subsequent automatic redemption of the TOPrS if at any time the specified changes in U.S. tax law or U.S. investment company law described in this prospectus occur.

Neither the partnership preferred securities nor the TOPrS can be redeemed at any time at the option of their holders. Neither the TOPrS nor the partnership preferred securities have any scheduled maturity.

Are there any risks associated with my investment?

Yes, an investment in the TOPrS is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus for a description of these risks.

What happens if ML Trust doesn't pay distributions on the TOPrS?

If you have not received a distribution on the TOPrS for six consecutive calendar quarters, during that period until all scheduled quarterly distributions are paid or set aside for payment to you, we may not declare or pay dividends on, acquire, or make a liquidation payment with respect to, any of our outstanding capital stock. In addition, we will not permit any of our finance subsidiaries to make any dividend payment on, any distribution with respect to, any acquisition of or any liquidation payment with respect to, any of their outstanding preferred securities.

This limitation prevents us from paying cash or other dividends to the shareholders of our capital stock if payments are not being made on the TOPrS, any debenture issued by us or our affiliates and held by ML Partnership or the guarantees. However, these provisions will not restrict:

- . our ability to pay dividends or distributions on our capital stock in shares of, or options, warrants or rights to subscribe for or purchase shares of our capital stock;
- . our ability to convert or exchange our common stock of one class into our common stock of another class;
- . our ability to redeem or purchase any rights under a rights agreement described in this prospectus or issue preferred stock under those rights; and
- . the ability of us and our affiliates to purchase our capital stock in connection with transactions for the account of customers of ours or our affiliates or in connection with the distribution or trading of our capital stock.

What are the guarantees?

We will guarantee, to the extent described in this prospectus:

- . declared distributions by ML Partnership to ML Trust and distribution of quarterly payments on the TOPrS by ML Trust to you to the extent ML Trust receives distributions on the partnership preferred securities;
- . the redemption amount due to you if ML Trust redeems the TOPrS;
- . the liquidation amount of the TOPrS if ML Trust is liquidated; and

4

- . interest payments on debentures issued by our affiliates and held by ML Partnership.

However, these guarantees do not apply to either:

- . current distributions on the partnership preferred securities unless and until ML Partnership declares distributions out of funds legally available for payment; or
- . liquidating distributions on the partnership preferred securities unless ML Partnership has assets available for payment.

If ML Partnership does not declare distributions on the partnership preferred securities, ML Trust will not have sufficient funds to pay distributions on the TOPrS. In that case, you will have no right to receive those distributions because our guarantee does not cover the non-payment of distributions on the partnership preferred securities unless the distributions are declared.

Our obligations under the guarantees are subordinate and junior in right of payment to all other of our liabilities and rank equally with our most senior preferred stock and similar guarantees of ours with respect to previous and future issues of TOPrS and other preferred stock by any other of our finance subsidiaries.

What happens if ML Trust is liquidated?

If ML Trust is liquidated, other than in connection with any change in U.S. tax or investment company law described above, for each TOPrS you own, you will be entitled to receive \$25 plus any accumulated and unpaid distributions per TOPrS.

Do I have voting rights?

Generally, you will not have any voting rights, except under the limited circumstances described below. The holders of a majority of the TOPrS, however, subject to certain requirements, have the right to direct the time, method and place of conducting any proceeding for any remedy available to the property trustee, or direct the exercise of any trust or power conferred upon the property trustee.

In what form will the TOPrS be issued?

The TOPrS will be issued in the form of a global certificate or certificates registered in the name of Cede & Co., as nominee for The Depository Trust Company also known as DTC. This means you will not receive a certificate for your TOPrS. Your interests in the TOPrS will be evidenced by, and transfers of the TOPrS will be effected only through, records maintained by the participants in DTC.

Can you tell me more about ML&Co.?

Merrill Lynch & Co., Inc. is a holding company. Our subsidiary and affiliated companies provide investment, financing, insurance and related products on a global basis. Our principal executive offices are located at 4 World Financial Center, New York, New York 10080. Our telephone number is (212) 449-1000. For information about us, see the section "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Will the TOPrS be listed on an exchange?

ML Trust has applied to list the TOPrS on the NYSE under the trading symbol " ". If approved for listing, trading on the NYSE will begin within 30 days after ML Trust issues the TOPrS. The listing of the TOPrS will not necessarily ensure that a liquid trading market will be available for the TOPrS.

5

#### RISK FACTORS

Your investment in the TOPrS will involve risks. You should carefully consider the following discussion of risks before deciding whether an

investment in the TOPrS is suitable for you.

You will only receive distributions if distributions on the partnership preferred securities are declared

ML Trust's ability to pay distributions on the TOPrS to you is dependent upon its receipt of distributions on the partnership preferred securities. If we or our affiliates defer or fail to make interest or principal payments on the debentures and we fail to make guarantee payments on the guarantees, ML Partnership will lack the funds necessary to pay distributions on the partnership preferred securities. If ML Partnership does not pay current distributions on the partnership preferred securities, either because we, as the general partner, did not declare distributions to be made or because ML Partnership lacks sufficient funds, ML Trust will not have funds to make current distributions on the TOPrS. If ML Trust does not make payments to you on the TOPrS, we will be restricted from, among other things, paying cash or certain other dividends on our capital stock.

There may be tax consequences to you if we fail to pay you distributions

As a holder of the TOPrS, each of which represents a preferred ownership interest in the assets of ML Trust, even if ML Partnership fails to pay current distributions on the partnership preferred securities, you will be required to accrue income, for U.S. federal income tax purposes, on the cumulative deferred distributions and accumulated interest allocable to your proportionate share of the partnership preferred securities held by ML Trust. As a result, you will recognize income for U.S. federal income tax purposes in advance of the receipt of cash and will not receive the cash from ML Trust related to that distribution if you dispose of your TOPrS before the record date for the date on which those distributions are made.

You may not receive full distributions if ML Partnership has insufficient income or assets

You are subject to the risk that the quarterly or liquidating distributions paid on the TOPrS will not match the rate paid on the assets held by ML Partnership, including the debentures and any other securities acquired by ML Partnership in the future.

This mismatch could occur if:

- . we, as the general partner of ML Partnership, in our sole discretion, do not declare distributions on the partnership preferred securities or if ML Partnership receives insufficient amounts from its investments to pay the additional compounded distributions that will accumulate on any unpaid distributions,
- . ML Partnership reinvests the proceeds received from the assets it initially holds upon their retirement or at their maturities in other assets which do not generate income sufficient to pay full dividends in respect of the partnership preferred securities at a rate of % per annum, or
- . ML Partnership invests in assets that are not guaranteed by us and that cannot be liquidated by ML Partnership for an amount sufficient to pay any distributions on the partnership preferred securities in full or if ML Partnership does not make any distributions.

ML Trust will not have sufficient funds available to pay you full quarterly or liquidating distributions on the TOPrS if ML Partnership lacks sufficient funds to make quarterly or liquidating distributions on the partnership preferred securities in full.

6

Our obligations under the guarantees and our debentures are subordinated

Our obligations under the guarantees are unsecured and will rank in priority of payment:

- . subordinate and junior in right of payment to all of our other liabilities; and
- . equally with:
  - . any of our most senior preferred stock issued from time to time, and
  - . similar guarantees of ours with respect to previous and future issues of TOPrS and other series of preferred stock by any of our finance subsidiaries.

This means that our obligations under the guarantees will not be paid unless we can satisfy in full all of our other obligations ranking senior to the guarantees.

Our obligations under our debentures issued to ML Partnership are subordinate and junior in right of payment to all of our senior indebtedness. At , we had outstanding senior indebtedness aggregating approximately \$ billion which would have ranked senior to our obligations under the guarantees and our debentures.

There are no terms in the TOPrS, the partnership preferred securities, the guarantees or the debentures that limit our ability to incur additional indebtedness, including indebtedness that ranks senior to the guarantees.

ML Trust's and ML Partnership's investments are not diversified

Because the investments of ML Trust and ML Partnership are not diversified, you are subject to a greater risk that their assets will not generate sufficient income to pay current and liquidating distributions on the TOPrS and the partnership preferred securities than you would with a vehicle whose investments were diversified and less exposed to the risk that non-payment on any particular investment asset would impair its ability to pay distributions to holders of its capital stock.

Redemption of the TOPrS or the partnership preferred securities may affect your return

If your TOPrS are exchanged for the partnership preferred securities,

- . the trading value of the partnership preferred securities may be lower than the trading value of the TOPrS which may result in a lower return upon your sale of the partnership preferred securities; and
- . you may incur an additional tax liability in excess of what you originally contemplated.

Your TOPrS may be redeemed for cash or you may receive the partnership preferred securities in exchange for your TOPrS in the event that:

(1) a change in U.S. tax law occurs which causes:

- . ML Trust to be subject to U.S. federal income tax on the distributions it receives or accrues on the partnership preferred securities;
- . ML Partnership to be subject to U.S. federal income tax on the income or interest payments it receives or accrues on the investments it holds;
- . ML Trust or ML Partnership to be subject to more than a minimal amount of other taxes, duties or governmental charges; or

7

- . interest payable by us or any of our affiliates on the debentures then held by ML Partnership to not be deductible for U.S. federal income tax purposes; or

(2) a change in U.S. investment company law occurs which requires ML Trust or ML Partnership to register as an investment company.

Because you may receive partnership preferred securities upon the occurrence of one of the events described above, in connection with your investment decision with regard to the TOPrS, you are also making an investment decision with regard to the partnership preferred securities. You should carefully review all the information regarding the partnership preferred securities contained in this prospectus.

Enforcement of certain rights by or on your behalf is limited

The special representative's ability to take action on your behalf under our guarantee of the partnership preferred securities is limited, and it is uncertain that you would receive a distribution on the TOPrS even if the special representative took any action or was successful in recovering funds under our guarantee. This is because under no circumstances will the special representative have authority to cause the general partner to declare distributions on the partnership preferred securities. As a result, although the special representative may be able to enforce ML Partnership's creditors' rights to accelerate and receive payments in respect of our and our affiliates' debenture and our guarantee of those debentures, rather than being required to declare and make distributions on the partnership preferred securities, ML Partnership would be entitled to reinvest those payments in additional debentures of ours and our affiliates, subject to satisfying the reinvestment criteria.

If at any time:

- . you have not received a distribution on the TOPrS for six

consecutive calendar quarters;

- . an event of default occurs and is continuing on any debenture issued by us or our affiliates and then held by ML Partnership; and
- . we default on our obligations under our guarantee of the TOPrS or the partnership preferred securities;

then:

- . you would rely on the enforcement by the property trustee of its rights, as a holder of the partnership preferred securities, against us, as guarantor of the partnership preferred securities, including the right to direct the special representative to enforce
  - (1) ML Partnership's creditors' rights and other rights with respect to our and our affiliate's debentures and our guarantee of those debentures,
  - (2) the rights of the holders of the partnership preferred securities under our guarantee of the partnership preferred securities, and
  - (3) the rights of the holders of the partnership preferred securities to receive distributions, only if and to the extent declared out of funds legally available for payment, on the partnership preferred securities, and
- . ML Trustee under our guarantee of the TOPrS will have the right to enforce the terms of the guarantee.

You have limited voting rights

As a holder of the TOPrS you will have limited voting rights and will not be entitled to vote to appoint, change, or to increase or decrease the number of trustees of ML Trust. As holder of all of ML Trust's common securities, those rights are ours exclusively.

8

There is no prior market for the TOPrS

This series of TOPrS constitutes a new issue of securities with no established trading market. ML Trust has applied to list the TOPrS on the NYSE. There can be no assurance that an active market for the TOPrS will develop or be sustained in the future on the NYSE. Although the underwriters have indicated to us that they intend to make a market in the TOPrS, as permitted by applicable laws and regulations, they are not obligated to do so and may discontinue any market-making activities at any time without notice. Accordingly, there is no assurance that a trading market for the TOPrS will exist and no assurance as to the liquidity of any trading market.

We will only sell the TOPrS to those investors for whom the TOPrS are considered suitable in light of their particular circumstances.

9

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;

- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

#### USE OF PROCEEDS

ML Trust will use the proceeds that it receives from the sale of the TOPrS and its common securities to purchase the partnership preferred securities, and those proceeds will be used by ML Partnership to invest in debentures and other permitted investments. See "Description of the Partnership Preferred Securities--Partnership Investments". We and our affiliates, the issuers of the debentures, intend to use the net proceeds from the sale of the debentures for general corporate purposes. Our general corporate purposes may include financing the activities of our subsidiaries, financing our assets and those of our subsidiaries, lengthening the average maturity of our borrowings and financing acquisitions. Until we use the net proceeds from the sale of any of our securities for general corporate purposes, we will use the net proceeds to reduce our short-term indebtedness or for temporary investments. We expect that we will, on a recurrent basis, engage in additional financings as the need arises to finance our growth, through acquisitions or otherwise, or to lengthen the average maturity of our borrowings. To the extent that TOPrS being purchased for resale by MLPF&S are not resold, the aggregate proceeds that we and our subsidiaries would receive would be reduced.

10

#### RATIO OF EARNINGS TO FIXED CHARGES AND RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges and ratios of earnings to combined fixed charges and preferred stock dividends for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3
Ratio of earnings to combined fixed charges and preferred stock dividends.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

11

#### MERRILL LYNCH PREFERRED CAPITAL TRUST VI

Merrill Lynch Preferred Capital Trust VI is a statutory business trust formed under the Delaware Business Trust Act, as amended, pursuant to a declaration of trust and the filing of a certificate of trust with the

Secretary of State of the State of Delaware on December 7, 1998; the declaration will be amended and restated in its entirety substantially in the form filed as an exhibit to the registration statement of which this prospectus is a part. The declaration will be qualified as an indenture under the Trust Indenture Act of 1939, as amended. Upon issuance of the TOPrS, the purchasers of the TOPrS will own all the TOPrS issued by ML Trust. See "Description of the TOPrS". ML&Co. will acquire ML Trust's common securities in an amount equal to at least 3% of the total capital of ML Trust. ML Trust will use all the proceeds derived from the issuance of the TOPrS and the common securities (collectively, the "Trust Securities") to purchase the partnership preferred securities from ML Partnership and, accordingly, the assets of ML Trust will consist solely of the partnership preferred securities. ML Trust exists for the exclusive purpose of:

- . issuing the Trust Securities representing undivided beneficial ownership interests in the assets of ML Trust,
- . investing the gross proceeds of the Trust Securities in the partnership preferred securities, and
- . engaging in only those other activities necessary or incidental to the foregoing purposes.

Under the declaration, there will initially be four trustees for ML Trust.

- . Two regular trustees who will be individuals who are employees or officers of or who are affiliated with ML&Co.
- . A property trustee who will be a financial institution that is unaffiliated with ML&Co. and is the indenture trustee for purposes of compliance with the provisions of the Trust Indenture Act.
- . The Delaware trustee who will be an entity that maintains its principal place of business in the State of Delaware.

Initially, The Chase Manhattan Bank, a New York banking corporation, will act as property trustee, and its affiliate, Chase Manhattan Bank Delaware, a Delaware corporation, will act as Delaware trustee until, in each case, removed or replaced by the holder of the common securities. For purposes of compliance with the Trust Indenture Act, The Chase Manhattan Bank will also act as trustee under the Trust Guarantee, as defined in this prospectus, as property trustee under the declaration and as trustee under the indenture under which the ML&Co. Debenture, as defined in this prospectus, is issued.

The property trustee will hold title to the partnership preferred securities for the benefit of the holders of the Trust Securities, and the property trustee will have the power to exercise all rights, powers and privileges with respect to the partnership preferred securities under the Amended and Restated Agreement of Limited Partnership to be entered into by ML&Co. and ML Trust as the holder of the partnership preferred securities. In addition, the property trustee will maintain exclusive control of the property account which is a segregated non-interest bearing bank account to hold all payments made in respect of the partnership preferred securities for the benefit of the holders of the Trust Securities. The trust guarantee trustee will hold the Trust Guarantee for the benefit of the holders of the TOPrS. ML&Co., as the holder of all the common securities, will have the right to appoint, remove or replace any of the trustees and to increase or decrease the number of trustees, provided that at least one trustee shall be a Delaware trustee, at least one trustee shall be the property trustee and at least one trustee shall be a regular trustee. ML&Co. will pay all fees and expenses related to the organization and operations of ML Trust, including any taxes, duties, assessments or governmental charges of whatever nature imposed by the United States or any other domestic taxing authority upon ML Trust, other

12

than withholding taxes, and the offering of the TOPrS and be responsible for all debts and obligations of ML Trust, other than those obligations with respect to the Trust Securities.

For so long as the TOPrS remain outstanding, ML&Co. will be obligated to:

- . maintain 100% direct ownership of the common securities,
- . cause ML Trust to remain a statutory business trust and not to voluntarily dissolve, wind-up, liquidate or be terminated, except as permitted by the declaration, and
- . use its commercially reasonable efforts to ensure that ML Trust will not be

(A) an investment company for purposes of the Investment Company Act of 1940, as amended, or

(B) classified as other than a grantor trust for United States Federal income tax purposes.

The rights of the holders of the TOPrS, including economic rights, rights to information and voting rights, are as set forth in the declaration and the Delaware Trust Act. See "Description of the TOPrS". The declaration and the Trust Guarantee also incorporate by reference the terms of the Trust Indenture Act.

The location of the principal executive office of ML Trust is c/o Merrill Lynch & Co., Inc., 4 World Financial Center, New York, New York 10080, and its telephone number is (212) 449-1000.

13

MERRILL LYNCH PREFERRED FUNDING VI, L.P.

Merrill Lynch Preferred Funding VI, L.P. is a limited partnership that was formed under the Delaware Revised Uniform Limited Partnership Act, as amended, on December 7, 1998 for the exclusive purposes of purchasing debt securities of ML&Co. and wholly-owned subsidiaries of ML&Co. (the "Affiliate Investment Instruments") and other permitted investments, with the proceeds from the sale of partnership preferred securities to ML Trust and a capital contribution from ML&Co. in exchange for the general partner interest in ML Partnership. Under the certificate of limited partnership, as amended, and the limited partnership agreement, ML&Co. is the sole general partner of ML Partnership. Upon the issuance of the partnership preferred securities, which securities represent limited partner interests in ML Partnership, ML Trust will be the sole limited partner of ML Partnership. Contemporaneously with the issuance of the partnership preferred securities, ML&Co. as general partner will contribute capital to ML Partnership in an amount sufficient to establish its initial capital account at an amount equal to at least 15% of the total capital of ML Partnership.

ML Partnership is managed by ML&Co. as general partner and exists for the sole purpose of:

- . issuing its partnership interests,
- . investing the proceeds from the sale of the partnership preferred securities in Affiliate Investment Instruments and other eligible debt securities, as described in this prospectus, and
- . engaging in only those other activities necessary or incidental for these purposes.

To the extent that aggregate payments to ML Partnership on its investments exceed distributions accumulated or payable with respect to the partnership preferred securities, ML Partnership may at times have excess funds which shall be allocated to and may, in ML&Co.'s sole discretion, be distributed to ML&Co.

For so long as the partnership preferred securities remain outstanding, ML&Co. will be obligated under the limited partnership agreement:

- . to remain the sole general partner of ML Partnership and to maintain 100% direct ownership of the general partner's interest in ML Partnership, which interest will at all times represent at least 1% of the total capital of ML Partnership,
- . to cause ML Partnership to remain a limited partnership and not to voluntarily dissolve, liquidate, wind-up or be terminated, except as permitted by the limited partnership agreement, and
- . to use its commercially reasonable efforts to ensure that ML Partnership will not be,
  - . an investment company for purposes of the Investment Company Act or
  - . an association or a publicly traded partnership taxable as a corporation for United States Federal income tax purposes.

ML&Co. or the then general partner may transfer its obligations as general partner to a wholly-owned direct or indirect subsidiary of ML&Co. provided that:

- . the successor entity expressly accepts the transfer of the obligations as general partner, and
- . before any transfer, ML&Co. has received an opinion of nationally recognized independent counsel to ML Partnership experienced in these matters to the effect that:

(A) ML Partnership will be treated as a partnership for United States

Federal income tax purposes;

- (B) any transfer would not cause ML Trust to be classified as an association taxable as a corporation for United States Federal income tax purposes;

14

- (C) following any transfer, ML&Co. and the successor entity will be in compliance with the Investment Company Act without being subject to registration as an investment company; and
- (D) any transfer will not adversely affect the limited liability of the holders of the partnership preferred securities.

The rights of the holders of the partnership preferred securities, including economic rights, rights to information and voting rights, are set forth in the limited partnership agreement and the Delaware Limited Partnership Act. See "Description of the Partnership Preferred Securities".

The limited partnership agreement provides that the general partner will have liability for the fees and expenses of ML Partnership, including any taxes, duties, assessments or governmental charges of whatever nature imposed by the United States or any other domestic taxing authority upon ML Partnership, other than withholding taxes, and be responsible for all debts and obligations of ML Partnership, other than with respect to the partnership preferred securities. Under Delaware law, assuming a limited partner in a Delaware limited partnership such as ML Partnership, i.e., a holder of the partnership preferred securities, does not participate in the control of the business of the limited partnership, that limited partner will not be personally liable for the debts, obligations and liabilities of the limited partnership, whether arising in contract, tort or otherwise, solely by reason of being a limited partner of the limited partnership, subject to any obligation such limited partner may have to repay any funds that may have been wrongfully distributed to it. ML Partnership's business and affairs will be conducted by ML&Co. as general partner.

The location of the principal executive offices of ML Partnership is c/o Merrill Lynch & Co., Inc., 4 World Financial Center, New York, New York 10080 and its telephone number is (212) 449-1000.

15

#### DESCRIPTION OF THE TOPrS

The TOPrS will be issued under the terms of the declaration. The declaration will be qualified as an indenture under the Trust Indenture Act. The property trustee, The Chase Manhattan Bank, will act as trustee for the TOPrS under the declaration for purposes of compliance with the provisions of the Trust Indenture Act. The terms of the TOPrS will include those stated in the declaration and those made part of the declaration by the Trust Indenture Act. The following summary of the material terms and provisions of the TOPrS is not complete and is subject to, and qualified in its entirety by reference to, the declaration, a copy of which is filed as an exhibit to the registration statement of which this prospectus is a part, the Delaware Trust Act and the Trust Indenture Act.

The TOPrS will be issued in fully registered form without coupons. The TOPrS will not be issued in bearer form. See "--Book-Entry Only Issuance--The Depository Trust Company".

The declaration authorizes the regular trustees of ML Trust to issue the Trust Securities, which represent undivided beneficial ownership interests in the assets of ML Trust. Title to the partnership preferred securities will be held by the property trustee for the benefit of the holders of the Trust Securities.

The declaration does not permit ML Trust to:

- . acquire any assets other than the partnership preferred securities,
- . issue any securities other than the Trust Securities, or
- . incur any indebtedness.

The payment of distributions out of money held by ML Trust, and payments out of money held by ML Trust upon redemption of the TOPrS or liquidation of ML Trust, are guaranteed by ML&Co. to the extent described under "Description of the Trust Guarantee".

The Trust Guarantee will be held by The Chase Manhattan Bank, the trust guarantee trustee, for the benefit of the holders of the TOPrS. The Trust Guarantee does not cover payment of distributions when ML Trust does not have sufficient available funds to pay such distributions. In any event of non-payment, holders of the TOPrS will have the remedies described below under "--

Trust Enforcement Events".

#### Distributions

The distribution rate on the TOPrS will be fixed at a rate per annum of % of the stated liquidation amount of \$25 per TOPrS and will be paid if, as and when ML Trust has funds available for distribution. Distributions not paid on the scheduled payment date will accumulate and compound quarterly at a rate per annum equal to %. The term "distribution" as used in this prospectus includes any compounded amounts unless otherwise stated or the context otherwise requires. The amount of distributions payable for any period will be computed on the basis of a 360-day year of twelve 30-day months.

Distributions on the TOPrS will be cumulative, will accumulate from the date of initial issuance and will be payable quarterly in arrears on each , , and , commencing , if, as and when available for payment, by the property trustee, except as otherwise described below. If distributions are not paid when scheduled, the accumulated distributions shall be paid to the holders of record of the TOPrS as they appear on the books and records of ML Trust on the record date with respect to the payment date for the TOPrS which corresponds to the payment date fixed by ML Partnership with respect to the payment of cumulative distributions on the partnership preferred securities.

Distributions on the TOPrS will be made to the extent that ML Trust has funds available for the payment of the distributions in the property account. Amounts available to ML Trust for distribution to the

16

holders of the TOPrS will be limited to payments received by ML Trust from ML Partnership with respect to the partnership preferred securities or from ML&Co. on ML&Co.'s guarantee on the TOPrS (the "Trust Guarantee") or its guarantee on the partnership preferred securities (the "Partnership Guarantee") as described in this prospectus. Distributions on the partnership preferred securities will be paid only if, as and when declared in the sole discretion of ML&Co., as the general partner of ML Partnership. Under the limited partnership agreement, ML&Co. is not obligated to declare distributions on the partnership preferred securities at any time, including upon or following a Partnership Enforcement Event. See "Description of Partnership Preferred Securities--Partnership Enforcement Events".

The assets of ML Partnership will consist only of Affiliate Investment Instruments, which initially will be the debentures issued by ML&Co. and another wholly-owned subsidiary of ML&Co., and other eligible debt securities. To the extent that the issuers and, where applicable, ML&Co., as guarantor, of the securities in which ML Partnership invests defer or fail to make any payment in respect of the securities or, if applicable, the guarantees, ML Partnership will not have sufficient funds to pay and will not declare or pay distributions on the partnership preferred securities. If ML Partnership does not declare and pay distributions on the partnership preferred securities out of funds legally available for distribution, ML Trust will not have sufficient funds to make distributions on the TOPrS, in which event the Trust Guarantee will not apply to those distributions until ML Trust has sufficient funds available to pay those distributions. See "Description of the Partnership Preferred Securities--Distributions" and "Description of The Trust Guarantee". In addition, ML Partnership may not have sufficient funds to pay current or liquidating distributions on the partnership preferred securities if:

- . at any time that ML Partnership is receiving current payments in respect of the securities held by ML Partnership, including the debentures, ML&Co, in its sole discretion, does not declare distributions on the partnership preferred securities and ML Partnership receives insufficient amounts to pay the additional compounded distributions that will accumulate in respect of the partnership preferred securities,
- . ML Partnership reinvests the proceeds received in respect of the debentures upon their retirement or at their maturities in Affiliate Investment Instruments that do not generate income in an amount that is sufficient to pay full distributions in respect of the partnership preferred securities, or
- . ML Partnership invests in debt securities of Investment Affiliates, as defined below, that are not guaranteed by ML&Co. and that cannot be liquidated by ML Partnership for an amount sufficient to pay the distributions in full.

Distributions on the TOPrS will be payable to their holders as they appear on the books and records of ML Trust on the relevant record dates, which will be one Business Day, as defined below, before the relevant payment dates. These distributions will be paid through the property trustee who will hold amounts received in respect of the partnership preferred securities in the property account for the benefit of the holders of the Trust Securities. Subject to any applicable laws and regulations and the provisions of the declaration, each payment will be made as described under "--Book-Entry Only

Issuance--The Depository Trust Company" below. In the event that the TOPrS do not remain in book-entry only form, the relevant record dates shall be the 15th day of the month of the relevant payment dates. In the event that any date on which distributions are payable on the TOPrS is not a Business Day, payment of the distribution payable on that date will be made on the next succeeding day which is a Business Day, without any interest or other payment in respect of the distribution subject to delay, except that, if that Business Day falls in the next succeeding calendar year, the relevant payment shall be made on the immediately preceding Business Day, in each case with the same force and effect as if made on that date. A "Business Day" shall mean any day other than a day on which banking institutions in The City of New York are authorized or required by law to close.

17

#### Trust Enforcement Events

The occurrence, at any time, of:

- . the non-payment of distributions on the TOPrS for six consecutive quarterly distribution periods,
- . a default by ML&Co. in respect of any of its obligations under the Trust Guarantee, or
- . a Partnership Enforcement Event under the limited partnership agreement,

will constitute an enforcement event under the declaration with respect to the Trust Securities (a "Trust Enforcement Event"); provided, that under the declaration, the holder of the common securities will be deemed to have waived any Trust Enforcement Event with respect to the common securities until all Trust Enforcement Events with respect to the TOPrS have been cured, waived or otherwise eliminated. Until any Trust Enforcement Event with respect to the TOPrS have been so cured, waived or otherwise eliminated, the property trustee will be deemed to be acting solely on behalf of the holders of the TOPrS and only the holders of the TOPrS will have the right to direct the property trustee with respect to certain matters under the declaration and, in the case of a Partnership Enforcement Event, the special representative with respect to certain matters under the limited partnership agreement. See "Description of the Partnership Preferred Securities--Partnership Enforcement Events" for a description of the events which will trigger the occurrence of a Partnership Enforcement Event.

Upon the occurrence of a Trust Enforcement Event,

- . the property trustee, as the holder of the partnership preferred securities, shall have the right to enforce the terms of the partnership preferred securities, including the right to direct the special representative to enforce:
  - . ML Partnership's creditors' rights and other rights with respect to the Affiliate Investment Instruments and ML&Co.'s guarantee of the Affiliate Investment Instruments (the "Investment Guarantees", and together with the Trust Guarantee and the Partnership Guarantee, the "Guarantees"),
  - . the rights of the holders of the partnership preferred securities under the Partnership Guarantee, and
  - . the rights of the holders of the partnership preferred securities to receive distributions on the partnership preferred securities, only if and to the extent declared out of funds legally available for the payment of distributions, and
- . the trust guarantee trustee shall have the right to enforce the terms of the Trust Guarantee, including the right to enforce the restriction on the payment of distributions by ML&Co. and its finance subsidiaries on its securities as described in the Trust Guarantee.

If the property trustee fails to enforce its rights under the partnership preferred securities after a holder of the TOPrS has made a written request, that holder may directly institute a legal proceeding against ML Partnership and the special representative to enforce the property trustee's rights under the partnership preferred securities without first instituting any legal proceeding against the property trustee, ML Trust or any other person or entity. In addition, for so long as ML Trust holds any partnership preferred securities, if the special representative fails to enforce its rights on behalf of ML Partnership under the Affiliate Investment Instruments after a holder of the TOPrS has made a written request, any holder may on behalf of ML Partnership directly institute a legal proceeding against the Investment Affiliates under the Affiliate Investment Instruments, without first instituting any legal proceeding against the property trustee, ML Trust, the special representative or ML Partnership. In any event, for so long as ML Trust is the holder of any partnership preferred securities, if a Trust Enforcement

Event has occurred and is continuing and such event is attributable to the failure of an

18

Investment Affiliate to make any required payment when due on any Affiliate Investment Instrument or the failure of ML&Co. to make any required payment when due on any Investment Guarantee, then a holder of the TOPrS may on behalf of ML Partnership directly institute a proceeding against the Investment Affiliate with respect to any Affiliate Investment Instrument or against ML&Co. with respect to any the Investment Guarantee, in each case for enforcement of payment.

Under no circumstances, however, shall the special representative have authority to cause ML&Co to declare distributions on the partnership preferred securities. As a result, although the special representative may be able to enforce ML Partnership's creditors' rights to accelerate and receive payments in respect of the Affiliate Investment Instruments and the Investment Guarantees, subject to satisfying the reinvestment criteria described under "Description of the Partnership Preferred Securities--Partnership Investments", ML Partnership would be entitled to reinvest any payments in additional Affiliate Investment Instruments and other eligible debt securities, rather than declaring and making distributions on the partnership preferred securities.

ML&Co. and ML Trust are each required to file annually with the property trustee an officer's certificate as to its compliance with all conditions and obligations under the declaration.

#### Mandatory Redemption

At the option of ML&Co., ML Partnership may redeem the partnership preferred securities, in whole or in part, at any time on or after , or at any time in certain circumstances upon the occurrence of a Partnership Special Event. Upon the redemption of the partnership preferred securities either at the option of ML&Co. or under to a Partnership Special Event, the proceeds from the repayment shall simultaneously be applied to redeem Trust Securities having an aggregate liquidation amount equal to the partnership preferred securities so redeemed at an amount per Trust Security equal to \$25 plus accumulated and unpaid distributions; provided, that holders of the Trust Securities shall be given not less than 30 nor more than 60 days notice of any redemption. See "Description of the Partnership Preferred Securities--General" and "--Optional Redemption".

#### Trust Special Event Redemption or Distribution

If, at any time, a Trust Tax Event or a Trust Investment Company Event (each as defined below, and each, a "Trust Special Event") occurs and is continuing, the regular trustees shall, unless the partnership preferred securities are redeemed in the limited circumstances described below, within 90 days following the occurrence of such Trust Special Event elect to either:

- (1) dissolve ML Trust upon not less than 30 nor more than 60 days notice with the result that, after satisfaction of creditors of ML Trust, if any, partnership preferred securities would be distributed on a pro rata basis to the holders of the TOPrS and the common securities in liquidation of the holders' interests in ML Trust; provided, however, that if at the time there is available to ML Trust the opportunity to eliminate, within the 90-day period, the Trust Special Event by taking some ministerial action, such as filing a form or making an election, or pursuing some other similar reasonable measure which in the sole judgment of ML&Co. has or will cause no adverse effect on ML Trust, ML Partnership, ML&Co. or the holders of the Trust Securities and will involve no material cost, ML Trust will pursue that measure in lieu of dissolution or
- (2) cause the TOPrS to remain outstanding, provided that in the case of this clause (2), ML&Co. shall pay any and all expenses incurred by or payable by ML Trust attributable to ML Trust Special Event.

Furthermore, if in the case of the occurrence of a Trust Tax Event, the regular trustees have received an opinion of nationally recognized independent tax counsel experienced in these matters that there is more than an insubstantial risk that interest payable by one or more of the Investment Affiliates with respect to the debentures issued by any Investment Affiliate is not, or will not be, deductible by any Investment Affiliate for

19

United States Federal income tax purposes even if the partnership preferred securities were distributed to the holders of the Trust Securities in liquidation of the holders' interests in ML Trust as described above, then ML&Co. shall have the right, within 90 days following the occurrence of the Trust Tax Event, to elect to cause ML Partnership to redeem the partnership preferred securities in whole, but not in part, for cash upon not less than 30

nor more than 60 days notice and promptly following any redemption, the Trust Securities will be redeemed by ML Trust at the redemption price.

"Trust Tax Event" means that ML&Co. shall have requested and received and shall have delivered to the Regular Trustees an opinion of nationally recognized independent tax counsel experienced in these matters to the effect that there has been:

- . an amendment to, change in or announced proposed change in the laws, or any regulations under those laws of the United States or any political subdivision or taxing authority of that jurisdiction,
- . a judicial decision interpreting, applying, or clarifying these laws or regulations,
- . an administrative pronouncement or action that represents an official position, including a clarification of an official position, of the governmental authority or regulatory body making the administrative pronouncement or taking any action, or
- . a threatened challenge asserted in connection with an audit of ML&Co. or any of its subsidiaries, ML Partnership, or ML Trust, or a threatened challenge asserted in writing against any other taxpayer that has raised capital through the issuance of securities that are substantially similar to the debentures, the partnership preferred securities, or the TOPrS, which amendment or change is adopted or which proposed change, decision or pronouncement is announced or which action, clarification or challenge occurs on or after the date of this prospectus (collectively a "Tax Action"), which Tax Action relates to any of the items described in (1) through (3) below, and that following the occurrence of any Tax Action there is more than an insubstantial risk that:
  - (1) ML Trust is, or will be, subject to United States Federal income tax with respect to income accrued or received on the partnership preferred securities,
  - (2) ML Trust is, or will be, subject to more than a minimal amount of other taxes, duties or other governmental charges or
  - (3) interest payable by an Investment Affiliate with respect to the Affiliate Investment Instrument issued by the Investment Affiliate is not, or will not be, deductible by the Investment Affiliate for United States Federal income tax purposes.

Recently, the Internal Revenue Service asserted that the interest payable on a security issued in circumstances with certain similarities to the issuance of the debentures issued by the Investment Affiliates to ML Partnership was not deductible for United States Federal income tax purposes. The taxpayer in that case has filed a petition in the United States Tax Court challenging the IRS's position on this matter. If this matter were to be litigated and the Tax Court were to sustain the IRS's position on this matter, the judicial decision could constitute a Trust Tax Event, which could result in an early redemption of the TOPrS.

"Trust Investment Company Event" means that ML&Co. shall have requested and received and shall have delivered to the regular trustees an opinion of nationally recognized independent legal counsel experienced in these matters to the effect that as a result of the occurrence on or after the date of this prospectus of a change in law or regulation or a change in interpretation or application of law or regulation by any legislative body, court, governmental agency or regulatory authority (a "Change in Investment Company Act Law"), ML Trust is or will be considered an investment company which is required to be registered under the Investment Company Act.

20

If the partnership preferred securities are distributed to the holders of the TOPrS, ML&Co. will use its best efforts to cause the partnership preferred securities to be listed on the NYSE or on any other national securities exchange or similar organization as the TOPrS are then listed or quoted.

On the date fixed for any distribution of partnership preferred securities, upon dissolution of ML Trust,

- . the Trust Securities will no longer be deemed to be outstanding, and
- . certificates representing the Trust Securities will be deemed to represent the partnership preferred securities having a liquidation preference equal to the stated liquidation amount of the Trust Securities until the certificates are presented to ML&Co. or its agent for transfer or reissuance.

There can be no assurance as to the market price for the partnership preferred securities which may be distributed in exchange for TOPrS if a

dissolution and liquidation of ML Trust were to occur. Accordingly, the partnership preferred securities which an investor may subsequently receive on dissolution and liquidation of ML Trust may trade at a discount to the price of the TOPrS exchanged.

#### Redemption Procedures

ML Trust may not redeem fewer than all of the outstanding TOPrS unless all accumulated and unpaid distributions have been paid on all TOPrS for all quarterly distribution periods terminating on or before the date of redemption.

If ML Trust gives a notice of redemption in respect of the TOPrS, which notice will be irrevocable, and if ML&Co. has paid to the property trustee a sufficient amount of cash in connection with the related redemption of the partnership preferred securities, then, by 12:00 noon, New York City time, on the redemption date, ML Trust will irrevocably deposit with DTC funds sufficient to pay the amount payable on redemption of all book-entry certificates and will give DTC irrevocable instructions and authority to pay the redemption amount to holders of the TOPrS. See "--Book-Entry Only Issuance--The Depository Trust Company". If notice of redemption shall have been given and funds are deposited as required, then upon the date of deposit, all rights of holders of any TOPrS so called for redemption will cease, except the right of the holders of those TOPrS to receive the redemption price, but without interest. In the event that any date fixed for redemption of the TOPrS is not a Business Day, then payment of the amount payable on that date will be made on the next succeeding day which is a Business Day, without any interest or other payment in respect of the amount payable subject to delay, except that, if that Business Day falls in the next calendar year, the payment will be made on the immediately preceding Business Day. In the event that payment of the redemption price in respect of the TOPrS is improperly withheld or refused and not paid either by ML Trust or by ML&Co. under the Trust Guarantee described under "Description of the Trust Guarantee", distributions on the TOPrS will continue to accumulate from the original redemption date to the date of payment.

In the event that fewer than all of the outstanding TOPrS are to be redeemed, the TOPrS will be redeemed in accordance with the procedures of DTC. See "--Book-Entry Only Issuance--The Depository Trust Company". In the event that the TOPrS do not remain in book-entry only form and fewer than all of the outstanding TOPrS are to be redeemed, the TOPrS shall be redeemed on a pro rata basis or pursuant to the rules of any securities exchange on which the TOPrS are listed.

Subject to the foregoing and applicable law, including, without limitation, United States Federal securities laws, ML&Co. or its subsidiaries may at any time and from time to time purchase outstanding TOPrS by tender, in the open market or by private agreement.

21

#### Subordination of the Common Securities

Payment of amounts upon liquidation of the Trust Securities shall be made pro rata based on the liquidation amount of the Trust Securities; provided, however, that upon:

- . the occurrence of an event of default by an Investment Affiliate, including ML&Co., under any Affiliate Investment Instrument, or
- . default by ML&Co. on any of its obligations under any guarantee described in this prospectus, the holders of the TOPrS will have a preference over the holders of the common securities with respect to payments upon liquidation of ML Trust.

In the case of any Trust Enforcement Event, the holder of the common securities will be deemed to have waived the Trust Enforcement Event until all Trust Enforcement Events with respect to the TOPrS have been cured, waived or otherwise eliminated. Until all Trust Enforcement Events with respect to the TOPrS have been so cured, waived or otherwise eliminated, the property trustee shall act solely on behalf of the holders of the TOPrS and not on behalf of the holder of the common securities, and only the holders of the TOPrS will have the right to direct the property trustee to act on their behalf.

#### Liquidation Distribution Upon Dissolution

In the event of any voluntary or involuntary liquidation, dissolution, winding-up or termination of ML Trust, the holders of the TOPrS will be entitled to receive out of the assets of ML Trust, after satisfaction of liabilities to creditors, distributions in cash or other immediately available funds in an amount equal to the aggregate of the stated liquidation amount of \$25 per TOPrS plus accumulated and unpaid distributions to the date of payment, unless, in connection with ML Trust's liquidation, partnership preferred securities have been distributed on a pro rata basis to the holders of the Trust Securities.

If, upon ML Trust's liquidation, the liquidation distribution can be paid only in part because ML Trust has insufficient assets available to pay in full the aggregate liquidation distribution, then the amounts payable directly by ML Trust on the TOPrS shall be paid on a pro rata basis. The holders of the common securities will be entitled to receive distributions upon liquidation pro rata with the holders of the TOPrS, except in the limited circumstances described above under "--Subordination of the Common Securities".

Under to the declaration, ML Trust shall terminate:

- (1) upon the bankruptcy of ML&Co.,
- (2) upon the filing of a certificate of dissolution or the equivalent with respect to ML&Co., the filing of a certificate of cancellation with respect to ML Trust after having obtained the consent of at least a majority in liquidation amount of the Trust Securities, voting together as a single class, to file such certificate of cancellation, or the revocation of the charter of ML&Co. and the expiration of 90 days after the date of revocation without reinstatement,
- (3) upon the distribution of all of the partnership preferred securities upon the occurrence of a Trust Special Event,
- (4) upon the entry of a decree of a judicial dissolution of ML&Co. or ML Trust, or
- (5) upon the redemption of all the Trust Securities.

#### Voting Rights

Except as described in this prospectus, under the Delaware Trust Act, the Trust Indenture Act and under "Description of The Trust Guarantee--Amendments and Assignment", and as otherwise required by law and the declaration, the holders of the TOPrS will have no voting rights.

22

Subject to the requirement of the property trustee obtaining a tax opinion as set forth in the last sentence of this paragraph, the holders of a majority in liquidation amount of the TOPrS have the right to direct the time, method and place of conducting any proceeding for any remedy available to the property trustee, or direct the exercise of any trust or power conferred upon the property trustee under the declaration, including the right to direct the property trustee, as holder of the partnership preferred securities, to:

- . exercise the remedies available to it under the limited partnership agreement as a holder of the partnership preferred securities, including the right to direct the special representative to exercise its rights in the manner described above under "--Trust Enforcement Events", and
- . consent to any amendment, modification, or termination of the limited partnership agreement or the partnership preferred securities where consent is required; provided, however, that where a consent or action under the limited partnership agreement would require the consent or act of the holders of more than a majority of the aggregate liquidation preference of partnership preferred securities affected, only the holders of the percentage of the aggregate stated liquidation amount of the Trust Securities which is at least equal to the percentage required under the limited partnership agreement may direct the property trustee to give consent or take action on behalf of ML Trust. See "Description of the Partnership Preferred Securities--Voting Rights".

The property trustee shall notify all holders of the TOPrS of any notice of any Partnership Enforcement Event received from ML&Co., as general partner with respect to the partnership preferred securities and the Affiliate Investment Instruments. The notice shall state that the Partnership Enforcement Event also constitutes a Trust Enforcement Event. Except with respect to directing the time, method, and place of conducting a proceeding for a remedy as described above, the property trustee shall be under no obligation to take any of the actions described in immediately preceding clauses above unless the property trustee has obtained an opinion of independent tax counsel to the effect that as a result of that action, ML Trust will not fail to be classified as a grantor trust for United States Federal income tax purposes and that after that action each holder of Trust Securities will continue to be treated as owning an undivided beneficial ownership interest in the partnership preferred securities.

A waiver of a Partnership Enforcement Event with respect to the partnership preferred securities held by the property trustee will constitute a waiver of the corresponding Trust Enforcement Event.

Any required approval or direction of holders of the TOPrS may be given at a separate meeting of holders of the TOPrS convened for that purpose, at a meeting of all of the holders of Trust Securities or pursuant to written consent. The regular trustees will cause a notice of any meeting at which holders of the TOPrS are entitled to vote, or of any matter upon which action by written consent of the holders is to be taken, to be mailed to each holder of record of the TOPrS. Each notice will include a statement setting forth the following information:

- (1) the date of the meeting or the date by which any action is to be taken;
- (2) a description of any resolution proposed for adoption at the meeting on which the holders are entitled to vote or of the matter upon which written consent is sought; and
- (3) instructions for the delivery of proxies or consents.

No vote or consent of the holders of the TOPrS will be required for ML Trust to redeem and cancel the TOPrS or distribute partnership preferred securities in accordance with the declaration.

Notwithstanding that holders of the TOPrS are entitled to vote or consent under any of the circumstances described above, any of the Trust Securities that are beneficially owned at that time by ML&Co. or any entity directly or indirectly controlled by, or under direct or indirect common control with, ML&Co., except for TOPrS purchased or acquired by ML&Co. or its affiliates in connection with transactions effected by

23

or for the account of customers of ML&Co. or any of its subsidiaries or in connection with the distribution or trading of the TOPrS, shall not be entitled to vote or consent and shall, for purposes of any vote or consent, be treated as if the Trust Securities were not outstanding; provided, however, that persons, other than affiliates of ML&Co., to whom ML&Co. or any of its subsidiaries have pledged the TOPrS may vote or consent with respect to the pledged TOPrS pursuant to the terms of the pledge.

The procedures by which holders of the TOPrS represented by the global certificates may exercise their voting rights are described below. See "--Book-Entry Only Issuance--The Depository Trust Company".

Holders of the TOPrS will have no rights to appoint or remove the trustees, who may be appointed, removed or replaced solely by ML&Co., as the holder of all of the common securities.

#### Merger, Consolidation or Amalgamation of ML Trust

ML Trust may not consolidate, amalgamate, merge with or into, or be replaced by, or convey, transfer or lease its properties and assets substantially as an entirety to, any corporation or other entity, except as described below. ML Trust may, with the consent of a majority of the regular trustees and without the consent of the holders of the Trust Securities, the property trustee or the Delaware trustee consolidate, amalgamate, merge with or into, or be replaced by a trust organized as such under the laws of any State of the United States; provided, that:

- (1) if ML Trust is not the surviving entity, the successor entity either:
  - . expressly assumes all of the obligations of ML Trust under the Trust Securities, or
  - . substitutes for the TOPrS other securities having substantially the same terms as the TOPrS, so long as the successor securities rank the same as the Trust Securities rank with respect to distributions, assets and payments,
- (2) ML&Co. expressly acknowledges a trustee of the successor entity possessing the same powers and duties as the property trustee as the holder of the partnership preferred securities,
- (3) the TOPrS or any successor securities are listed, or any successor securities will be listed upon notification of issuance, on any national securities exchange or with another organization on which the TOPrS are then listed or quoted,
- (4) any merger, consolidation, amalgamation or replacement does not cause the TOPrS, including any successor securities, to be downgraded by any nationally recognized statistical rating organization,
- (5) any merger, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the

holders of the TOPRS, including any successor securities, in any material respect,

- (6) the successor entity has a purpose substantially identical to that of ML Trust,
- (7) ML&Co. guarantees the obligations of the successor entity under the successor securities to the same extent as provided by the Trust Guarantee and
- (8) before any merger, consolidation, amalgamation or replacement, ML&Co. has received an opinion of a nationally recognized independent counsel to ML Trust experienced in these matters to the effect that:
  - . any merger, consolidation, amalgamation or replacement will not adversely affect the rights, preferences and privileges of the holders of the TOPRS, including any successor securities, in any material respect, other than with respect to any dilution of the holders' interest in the new entity,

24

- . following any merger, consolidation, amalgamation or replacement, neither ML Trust nor the successor entity will be required to register as an investment company under the Investment Company Act,
- . following any merger, consolidation, amalgamation or replacement, ML Trust, or any successor trust, will not be classified as an association or a publicly traded partnership taxable as a corporation for United States Federal income tax purposes, and
- . following any merger, consolidation, amalgamation or replacement, ML Partnership will not be classified as an association or a publicly traded partnership taxable as a corporation for United States Federal income tax purposes.

Notwithstanding the foregoing, ML Trust shall not, except with the consent of holders of 100% in liquidation amount of the TOPRS, consolidate, amalgamate, merge with or into, or be replaced by any other entity or permit any other entity to consolidate, amalgamate, merge with or into, or replace it, if any consolidation, amalgamation, merger or replacement would cause ML Trust or the successor entity to be classified as an association or a publicly traded partnership taxable as a corporation for United States Federal income tax purposes.

#### Modification of the Declaration

The declaration may be modified and amended if approved by a majority of the regular trustees, and in the circumstances described in the declaration, the property trustee and the Delaware trustee. However, if any proposed amendment provides for, or the regular trustees otherwise propose to effect,

- (1) any action that would adversely affect the powers, preferences or special rights of the Trust Securities, whether by way of amendment to the declaration or otherwise, or
- (2) the dissolution, winding-up or termination of ML Trust other than under the terms of the declaration,

then, in each case, the holders of the Trust Securities voting together as a single class will be entitled to vote on the amendment or proposal and the amendment or proposal shall not be effective except with the approval of at least a majority in liquidation amount of the Trust Securities affected; provided, further that if any amendment or proposal referred to in clause (2) above would adversely affect only the TOPRS or the common securities, then only the affected class will be entitled to vote on the amendment or proposal and the amendment or proposal shall not be effective except with the approval of a majority in liquidation amount of that class of Trust Securities.

The declaration may be amended without the consent of the holders of the Trust Securities to:

- . cure any ambiguity,
- . correct or supplement any provision in the declaration that may be defective or inconsistent with any other provision of the declaration,
- . add to the restrictions or obligations of the sponsor,
- . conform to any change in the Investment Company Act, the Trust Indenture Act or the rules or regulations under either law and

- . modify, eliminate and add to any provision of the declaration to the extent as may be necessary or desirable;

provided that no amendment shall have a material adverse effect on the rights, preferences or privileges of the holders of the Trust Securities.

25

Notwithstanding the foregoing, no amendment or modification may be made to the declaration if the amendment or modification would

- . cause ML Trust to fail to be classified as a grantor trust for United States Federal income tax purposes,
- . cause ML Partnership to be classified as an association or publicly traded partnership taxable as a corporation for those purposes,
- . reduce or otherwise adversely affect the powers of the property trustee, or
- . cause ML Trust or ML Partnership to be deemed an investment company which is required to be registered under the Investment Company Act.

Book-Entry Only Issuance--The Depository Trust Company

#### Description of the Global Certificates

DTC will act as securities depository for the TOPrS and, to the extent distributed to the holders of the TOPrS, the partnership preferred securities. The TOPrS will be issued only as fully-registered securities registered in the name of Cede & Co. (DTC's nominee). One or more fully-registered global certificates, representing the total aggregate number of TOPrS, will be issued and will be deposited with DTC.

#### DTC Procedures

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its participants and by the NYSE, the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the TOPrS within the DTC system must be made by or through participants, which will receive a credit for the TOPrS on DTC's records. The ownership interest of each beneficial owner of the TOPrS is in turn to be recorded on the participants' and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchases, but beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the participants or indirect participants through which the beneficial owners purchased TOPrS. Transfers of ownership interests in the TOPrS are to be accomplished by entries made on the books of participants and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the TOPrS, except in the event that use of the book-entry system for the TOPrS is discontinued.

DTC has no knowledge of the actual beneficial owners of the TOPrS; DTC's records reflect only the identity of the participants to whose accounts the TOPrS are credited, which may or may not be the beneficial owners. The participants and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

26

So long as DTC, or its nominee, is the registered owner or holder of a global certificate, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the TOPrS being represented for all purposes under the declaration and the TOPrS. No beneficial owner of an interest in a global certificate will be able to transfer that interest except in accordance with

DTC's applicable procedures, in addition to those provided for under the declaration.

DTC has advised ML&Co. that it will take any action permitted to be taken by a holder of the TOPrS, including the presentation of the TOPrS for exchange as described below, only at the direction of one or more participants to whose account the DTC interests in the global certificates are credited and only in respect of such portion of the aggregate liquidation amount of the TOPrS as to which the participant or participants has or have given the direction. Also, if there is a Trust Enforcement Event under the TOPrS, DTC will exchange the global certificates for certificated securities, which it will distribute to its participants in accordance with its customary procedures.

Conveyance of notices and other communications by DTC to participants, by participants to indirect participants, and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices in respect of the TOPrS held in book-entry form will be sent to Cede & Co. If less than all of the TOPrS are being redeemed, DTC will determine the amount of the interest of each participant to be redeemed in accordance with its procedures.

Although voting with respect to the TOPrS is limited, in those cases where a vote is required, neither DTC nor Cede & Co. will itself consent or vote with respect to the TOPrS. Under its usual procedures, DTC would mail an omnibus proxy to ML Trust as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those participants to whose accounts the TOPrS are allocated on the record date identified in a listing attached to the omnibus proxy.

Distributions on the TOPrS held in book-entry form will be made to DTC in immediately available funds. DTC's practice is to credit participants' accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payments on the payment date. Payments by participants and indirect participants to beneficial owners will be governed by standing instructions and customary practices and will be the responsibility of the participants and indirect participants and not of DTC, ML Trust or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of any distributions to DTC is the responsibility of ML Trust, disbursement of those payments to participants is the responsibility of DTC, and disbursement of those payments to the beneficial owners is the responsibility of participants and indirect participants.

Except as described, a beneficial owner of an interest in a global certificate will not be entitled to receive physical delivery of the TOPrS. Accordingly, each beneficial owner must rely on the procedures of DTC to exercise any rights under the TOPrS.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the global certificates among participants of DTC, DTC is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither ML&Co. nor ML Trust will have any responsibility for the performance by DTC or its participants or indirect participants under the rules and procedures governing DTC. DTC may discontinue providing its services as securities depository with respect to the TOPrS at any time by giving notice to ML Trust. Under these circumstances, in the event that a successor securities depository is not obtained, the TOPrS certificates are required to be printed and delivered to the property trustee. Additionally, ML Trust, with the consent of ML&Co., may decide to discontinue use of the system of book-entry transfers through DTC or any successor depository. In that event, certificates for the TOPrS will be printed and delivered to the property trustee. In each of the above circumstances, ML&Co. will appoint a paying agent with respect to the TOPrS.

27

The laws of some jurisdictions require that certain purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer beneficial interests in the global TOPrS as represented by a global certificate.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for the accuracy of the information.

#### Payment

Payments in respect of the TOPrS represented by the global certificates shall be made to DTC, which shall credit the relevant accounts at DTC on the scheduled payment dates or, in the case of certificated securities, if any, payments shall be made by check mailed to the address of the holder entitled to receive the payment as the holder's address shall appear on the register. The

paying agent shall be permitted to resign as paying agent upon 30 days written notice to the regular trustees. In the event that The Chase Manhattan Bank shall no longer be the paying agent, the regular trustees shall appoint a successor to act as paying Agent which shall be a bank or trust company.

Registrar, Transfer Agent, and Paying Agent

The property trustee will act as registrar, transfer Agent and paying agent for the TOPRS.

Registration of transfers of the TOPRS will be effected without charge by or on behalf of ML Trust, but upon payment and with the giving of any indemnity as ML Trust or ML&Co. may require, in respect of any tax or other government charges which may be imposed in relation to it.

ML Trust will not be required to register or cause to be registered the transfer of the TOPRS after the TOPRS have been called for redemption.

Information Concerning the Property Trustee

The property trustee, before the occurrence of a default with respect to the Trust Securities, undertakes to perform only the duties as are specifically set forth in the declaration and, after default, shall exercise the same degree of care as a prudent individual would exercise in the conduct of his or her own affairs. Subject to these provisions, the property trustee is under no obligation to exercise any of the powers vested in it by the declaration at the request of any holder of the TOPRS, unless offered reasonable indemnity by the holder against the costs, expenses and liabilities which might be incurred in connection with the exercise of any powers. The holders of the TOPRS will not be required to offer any indemnity in the event the holders, by exercising their voting rights, direct the property trustee to take any action following a Trust Enforcement Event.

Governing Law

The declaration and the TOPRS will be governed by, and construed in accordance with, the internal laws of the State of Delaware.

Miscellaneous

The regular trustees are authorized and directed to conduct the affairs of and to operate ML Trust in such a way that ML Trust will not be deemed to be an investment company required to be registered under the Investment Company Act or characterized as other than a grantor trust for United States Federal income tax purposes. In this connection, the regular trustees are authorized to take any action, not inconsistent with applicable law, the certificate of trust or the declaration that the regular trustees determine in their discretion to be necessary or desirable for those purposes as long as such action does not adversely affect the interests of the holders of the TOPRS.

Holders of the TOPRS have no preemptive rights.

28

#### DESCRIPTION OF THE TRUST GUARANTEE

Set forth below is a summary of material information concerning the Trust Guarantee which will be executed and delivered by ML&Co. for the benefit of the holders from time to time of the TOPRS. The summary is not complete and is subject in all respects to the provisions of, and is qualified in its entirety by reference to, the Trust Guarantee, which is filed as an exhibit to the registration statement of which this prospectus is a part. The Trust Guarantee incorporates by reference the terms of, and will be qualified as an indenture under, the Trust Indenture Act. The Chase Manhattan Bank, as the trust guarantee trustee, will hold the Trust Guarantee for the benefit of the holders of the TOPRS and will act as indenture trustee for the purposes of compliance with the Trust Indenture Act.

Under the Trust Guarantee, ML&Co. will irrevocably agree, on a subordinated basis and to the extent set forth in the Trust Guarantee, to pay in full to the holders of the TOPRS, except to the extent paid by ML Trust, as and when due, regardless of any defense, right of set off or counterclaim which ML Trust may have or assert, the following payments (the "Trust Guarantee Payments"), without duplication:

- . any accumulated and unpaid distributions on the TOPRS to the extent ML Trust has funds available for distribution,
- . the redemption price with respect to any TOPRS called for redemption by ML Trust, to the extent ML Trust has funds available for payment, and
- . upon a voluntary or involuntary dissolution, winding-up or termination of ML Trust, other than in connection with the distribution of partnership preferred securities to the holders of

the TOPrS or the redemption of all of the TOPrS, the lesser of:

- (1) the aggregate of the liquidation amount and all accumulated and unpaid distributions on the TOPrS and
- (2) the amount of assets of ML Trust remaining available for distribution to holders of the TOPrS upon the liquidation of ML Trust.

ML&Co.'s obligation to make a Trust Guarantee Payment may be satisfied by direct payment of the required amounts by ML&Co. to the holders of the TOPrS or by causing ML Trust to pay these amounts to holders.

The Trust Guarantee will be a guarantee on a subordinated basis with respect to the TOPrS from the time of issuance of the TOPrS but will only apply to any payment of distributions or the redemption price, or to payments upon the dissolution, winding-up or termination of ML Trust, to the extent ML Trust shall have funds available. If ML Partnership fails to declare distributions on the partnership preferred securities, ML Trust would lack available funds for the payment of distributions or amounts payable on redemption of the TOPrS or otherwise, and in such event holders of the TOPrS would not be able to rely upon the Trust Guarantee for payment of these amounts. Instead, holders of the TOPrS will have the remedies described under "Description of the TOPrS--Trust Enforcement Events", including the right to direct the trust guarantee trustee to enforce the restriction of payments by ML&Co. and its finance subsidiaries on its capital stock. See "--Obligations of ML&Co." below.

The Guarantees, when taken together with the debentures issued by ML&Co. and ML&Co.'s obligations to pay all fees and expenses of ML Trust and ML Partnership, constitute a guarantee to the extent set forth in this prospectus by ML&Co. of the distribution, redemption and liquidation payments payable to the holders of the TOPrS. The Guarantees do not apply, however, to current distributions by ML Partnership unless and until these distributions are declared by ML Partnership out of funds legally available for payment or to liquidating distributions unless there are assets available for payment in ML Partnership, each as more fully described under "Risk Factors--Insufficient Income or Assets Available to Partnership".

29

#### Obligations of ML&Co.

Under the Trust Guarantee, ML&Co. will agree that, if

- . for any distribution period, full distributions on a cumulative basis on any TOPrS have not been paid,
- . an event of default by any Investment Affiliate in respect of any Affiliate Investment Instrument has occurred and is continuing, or
- . it is in default of its obligations under the Trust Guarantee, the Partnership Guarantee or any Investment Guarantee,

then, during that period:

- . it may not declare or pay dividends on, make distributions with respect to, or redeem, purchase or acquire, or make a liquidation payment with respect to, any of its capital stock or comparable equity interest, except for:
  - (1) dividends or distributions in shares of, or options, warrants or rights to subscribe for or purchase shares of, its capital stock, and conversions or exchanges of common stock of one class into common stock of another class,
  - (2) redemptions or purchases of any rights pursuant to the rights agreement dated as of December 2, 1997 between ML&Co. and The Chase Manhattan Bank (the "Rights Agreement") and the issuance of preferred stock under those rights and
  - (3) purchases or acquisitions by ML&Co. or its affiliates in connection with transactions effected by or for the account of customers of ML&Co. or any of its subsidiaries or in connection with the distribution or trading of its capital stock or comparable equity interest; and
- . it may not make, permit any finance subsidiary to make, or make any payments that would enable any finance subsidiary to make, any payment of any dividends on, any distribution with respect to, or any redemption, purchase or other acquisition of, or any liquidation payment with respect to, any preferred security or comparable equity interest of any finance subsidiary.

An event of default under the Trust Guarantee will occur upon the failure of ML&Co. to perform any of its payment or other obligations set forth in the Trust Guarantee.

The holders of a majority in liquidation amount of the TOPrS have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trust guarantee trustee or to direct the exercise of any trust or power conferred upon the trust guarantee trustee under the trust guarantee. If the trust guarantee trustee fails to enforce its rights under the Trust Guarantee after a holder of the TOPrS has made a written request, the holder may institute a legal proceeding directly against ML&Co. to enforce the trust guarantee trustee's rights under the Trust Guarantee, without first instituting a legal proceeding against ML Trust, the trust guarantee trustee or any other person or entity. In any event, if ML&Co. has failed to make a guarantee payment under the Trust Guarantee, a holder of the TOPrS may directly institute a proceeding in the holder's own name against ML&Co. for enforcement of the Trust Guarantee for payment.

#### Status of the Trust Guarantee; Subordination

The Trust Guarantee will constitute an unsecured obligation of ML&Co. and will rank subordinate and junior in right of payment to all other liabilities of ML&Co. and will rank equally with the most senior

30

preferred stock, if any, issued from time to time by ML&Co., with similar guarantees issued by ML&Co. in connection with:

- . the \$275,000,000 aggregate liquidation amount of 7 3/4% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust I,
- . the \$300,000,000 aggregate liquidation amount of 8% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust II,
- . the \$750,000,000 aggregate liquidation amount of 7% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust III,
- . the \$400,000,000 aggregate liquidation amount of 7.12% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust IV,
- . the \$850,000,000 aggregate liquidation amount of 7.28% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust V,
- . the (Yen)10,000,000,000 aggregate liquidation amount of Trust Originated Preferred Securities issued by Merrill Lynch Yen TOPrS Trust I, and
- . with any guarantee now or hereafter entered into by ML&Co. in respect of any preferred stock of any other Finance Subsidiary.

"Finance Subsidiary" means Merrill Lynch Preferred Capital Trust I, Merrill Lynch Preferred Capital Trust II, Merrill Lynch Preferred Capital Trust III, Merrill Lynch Preferred Capital Trust IV, Merrill Lynch Preferred Capital Trust V, Merrill Lynch Yen TOPrS Trust I and any other wholly-owned subsidiary of ML&Co. the principal purpose of which is to raise capital for ML&Co. by issuing securities that are guaranteed by ML&Co. and the proceeds of which are loaned to or invested in ML&Co. or one or more of its affiliates.

Accordingly, the rights of the holders of the TOPrS to receive payments under the Trust Guarantee will be subject to the rights of the holders of any obligations of ML&Co. that are senior in priority to the obligations under the Trust Guarantee. Furthermore, the holders of obligations of ML&Co. that are senior to the obligations under the Trust Guarantee, including, but not limited to, obligations constituting senior indebtedness of ML&Co., will be entitled to the same rights upon payment default or dissolution, liquidation and reorganization in respect of the Trust Guarantee that inure to the holders of senior indebtedness as against the holders of the ML&Co. Debenture. The terms of the TOPrS that each holder of the TOPrS, by acceptance, agrees to the subordination provisions and other terms of the Trust Guarantee.

The Trust Guarantee will constitute a guarantee of payment and not of collection. That is, the guaranteed party may directly institute a legal proceeding against ML&Co. to enforce its rights under the Trust Guarantee without instituting a legal proceeding against any other person or entity.

#### Amendments and Assignment

Except with respect to any changes that do not materially adversely

affect the rights of holders of the TOPrS, in which case no vote will be required, the Trust Guarantee may be amended only with the prior approval of the holders of at least a majority in liquidation amount of all the outstanding TOPrS. The manner of obtaining any approval of holders of the TOPrS will be as set forth under "Description of the TOPrS--Voting Rights". All guarantees and agreements contained in the Trust Guarantee shall bind the successors, assigns, receivers, trustees and representatives of ML&Co. and shall inure to the benefit of the holders of the TOPrS then outstanding. Except in connection with permitted merger or consolidation of ML&Co. with or into another entity or permitted sale, transfer or lease of ML&Co.'s assets to another entity in which the surviving corporation, if other than ML&Co., assumes ML&Co.'s obligations under the Trust Guarantee, ML&Co. may not assign its rights or delegate its obligations under the Trust Guarantee without the prior approval of the holders of at least a majority of the aggregate stated liquidation amount of the TOPrS then outstanding.

31

#### Termination of The Trust Guarantee

The Trust Guarantee will terminate as to each holder of the TOPrS upon:

- . full payment of the redemption price of all the TOPrS,
- . distribution of the partnership preferred securities held by ML Trust to the holders of the TOPrS or
- . full payment of the amounts payable in accordance with the declaration upon liquidation of ML Trust.

The Trust Guarantee will continue to be effective or will be reinstated, as the case may be, if at any time any holder of the TOPrS must restore payment of any sum paid under the TOPrS or the Trust Guarantee.

#### Information Concerning the Trust Guarantee Trustee

The trust guarantee trustee, before the occurrence of a default with respect to the Trust Guarantee, undertakes to perform only those duties as are specifically set forth in the Trust Guarantee and, after default with respect to the Trust Guarantee, shall exercise the same degree of care as a prudent man would exercise in the conduct of his own affairs. Subject to that provision, the trust guarantee trustee is under no obligation to exercise any of the powers vested in it by the Trust Guarantee at the request of any holder of TOPrS unless it is offered reasonable indemnity against the costs, expenses and liabilities that might be incurred in connection with the exercise of those powers.

#### Governing Law

The Trust Guarantee will be governed by, and construed in accordance with, the internal laws of the State of New York.

32

#### DESCRIPTION OF THE PARTNERSHIP PREFERRED SECURITIES

All of the partnership interests in ML Partnership, other than the partnership preferred securities acquired by ML Trust, are owned directly by ML&Co. Initially, ML&Co. will be the sole general partner of ML Partnership. The limited partnership agreement authorizes and creates the partnership preferred securities, which represent limited partner interests in ML Partnership. The limited partner interests represented by the partnership preferred securities will have a preference with respect to distributions and amounts payable on redemption or liquidation over ML&Co.'s interest in ML Partnership.

Except as otherwise described in this prospectus or provided in the limited partnership agreement, the limited partnership agreement does not permit ML Partnership to issue any additional partnership interests or to incur any indebtedness.

The summary of certain material terms and provisions of the partnership preferred securities set forth below does not purport to be complete and is subject to, and qualified in its entirety by reference to, the limited partnership agreement, which is filed as an exhibit to the registration statement of which this prospectus is a part, and the Delaware Limited Partnership Act.

#### Distributions

Holders of partnership preferred securities will be entitled to receive cumulative cash distributions, if, as and when declared by ML&Co., as general partner, in its sole discretion out of assets of ML Partnership legally available for payment. The distributions payable on each partnership preferred security will be fixed at a rate per annum of % of the stated liquidation

preference of \$25 per partnership preferred security. Distributions not paid on the scheduled payment date will accumulate and compound quarterly at the rate per annum equal to %. The amount of distributions payable for any period will be computed on the basis of a 360-day year of twelve 30-day months.

Distributions on the partnership preferred securities will be payable quarterly in arrears on , , and of each year, commencing , . If distributions are not declared and paid when scheduled, the accumulated distributions shall be paid to the holders of record of partnership preferred securities as they appear on the books and records of ML Partnership on the record date with respect to the payment date for the partnership preferred securities.

ML Partnership's earnings available for distribution to the holders of the partnership preferred securities will be limited to payments made on the Affiliate Investment Instruments and Investment Guarantees and payments on other eligible debt securities in which ML Partnership has invested from time to time. See "--Partnership Investments". To the extent that the issuers and, where applicable, ML&Co., as guarantor, of the securities in which ML Partnership invests fail to make any payment in respect of the securities or, if applicable, the guarantees, ML Partnership will not have sufficient funds to pay and will not declare or pay distributions on the partnership preferred securities, in which event the Partnership Guarantee will not apply to those distributions until ML Partnership has sufficient funds available for distribution. See "Description of the Partnership Guarantee". In addition, distributions on the partnership preferred securities may be declared and paid only as determined in the sole discretion of ML&Co. as general partner of ML Partnership. If ML Partnership fails to declare and pay distributions on the partnership preferred securities out of funds legally available for distribution, ML Trust will not have sufficient funds to make distributions on the TOPrS, in which event the Trust Guarantee will not apply to those distributions until ML Trust has sufficient funds available. In addition, ML Partnership may not have sufficient funds to pay current or liquidating distributions on the partnership preferred securities if:

- . at any time that ML Partnership is receiving current payments in respect of the securities held by ML Partnership including the debentures, ML&Co., in its sole discretion, does not declare distributions on the partnership preferred securities and ML Partnership receives insufficient

33

amounts to pay the additional compounded distributions that will accumulate in respect of the partnership preferred securities,

- . ML Partnership reinvests the proceeds received in respect of the debentures upon their retirement or at their maturities in Affiliate Investment Instruments that do not generate income in an amount that is sufficient to pay full distributions in respect of the partnership preferred securities, or
- . ML Partnership invests in debt securities of Investment Affiliates that are not guaranteed by ML&Co. and that cannot be liquidated by ML Partnership for an amount sufficient to pay any distributions in full.

Distributions on the partnership preferred securities will be payable to holders as they appear on the books and records of ML Partnership on the relevant record dates, which, as long as the TOPrS remain or, in the event that ML Trust is liquidated in connection with a Trust Special Event, as long as the partnership preferred securities remain, in book-entry only form, will be one Business Day before the relevant payment dates. In the event the TOPrS, or in the event that ML Trust is liquidated in connection with a Trust Special Event, the partnership preferred securities, shall not continue to remain in book-entry only form, the relevant record dates shall be the 15th day of the month of the relevant payment dates. In the event that any date on which distributions are payable on the partnership preferred securities is not a Business Day, then payment of the distribution payable on that date will be made on the next succeeding day that is a Business Day and without any interest or other payment in respect of any delay, except that, if that Business Day is in the next succeeding calendar year, that payment shall be made on the immediately preceding Business Day, in each case with the same force and effect as if made on that date.

#### Partnership Enforcement Events

If one or more of the following events shall occur and be continuing (each a "Partnership Enforcement Event"):

- . The non-payment of distributions on the partnership preferred securities for six consecutive quarterly periods,
- . ML&Co. is in default on any of its obligations under the Partnership Guarantee or any Investment Guarantee or

- . an Investment Event of Default occurs and is continuing on any Affiliate Investment Instrument,

then the property trustee, for so long as the partnership preferred securities are held by the property trustee, will have the right, or holders of the partnership preferred securities will be entitled by the vote of a majority in aggregate liquidation preference of the holders:

- . under the limited partnership agreement to enforce the terms of the partnership preferred securities, including the right to appoint and authorize a special representative of ML Partnership and the limited partners to enforce:
  - (1) ML Partnership's creditors' rights and other rights with respect to the Affiliate Investment Instruments and the Investment Guarantees,
  - (2) the rights of the holders of the partnership preferred securities under the Partnership Guarantee and
  - (3) the rights of the holders of the partnership preferred securities to receive distributions on the partnership preferred securities, only if and to the extent declared out of funds legally available for distribution, and
- . under the Partnership Guarantee to enforce the terms of the Partnership Guarantee, including the right to enforce the covenant restricting certain payments by ML&Co. and Finance Subsidiaries.

34

If the special representative fails to enforce its rights under the Affiliate Investment Instruments after a holder of partnership preferred securities has made a written request, the holder of record of partnership preferred securities may directly institute a legal proceeding against ML&Co. to enforce the rights of the special representative and ML Partnership under the Affiliate Investment Instruments without first instituting any legal proceeding against the special representative, ML Partnership or any other person or entity. In any event, if a Partnership Enforcement Event has occurred and is continuing and this event is attributable to the failure of an Investment Affiliate to make any required payment when due on any Affiliate Investment Instrument, then a holder of partnership preferred securities may on behalf of ML Partnership directly institute a proceeding against the Investment Affiliate with respect to the Affiliate Investment Instrument for enforcement of payment. A holder of partnership preferred securities may also bring a direct action against ML&Co. to enforce the holder's right under the Partnership Guarantee. See "Description of the Partnership Guarantee--Events of Default; Enforcement of Partnership Guarantee".

Under no circumstances, however, shall the special representative have authority to cause ML&Co. to declare distributions on the partnership preferred securities. As a result, although the special representative may be able to enforce ML Partnership's creditors' rights to accelerate and receive payments in respect of the Affiliate Investment Instruments and the Investment Guarantees, ML Partnership would be entitled to reinvest those payments in additional Affiliate Investment Instruments, subject to satisfying the reinvestment criteria described under "--Partnership Investments", and Eligible Debt Securities, rather than declaring and making distributions on the partnership preferred securities. The special representative shall not, by virtue of acting in such capacity, be admitted as a general partner in ML Partnership or otherwise be deemed to be a general partner in ML Partnership and shall have no liability for the debts, obligations or liabilities of ML Partnership.

#### Partnership Investments

ML Partnership will use approximately 99% of the proceeds from the issuance of the partnership preferred securities and ML&Co.'s contemporaneous capital contribution to purchase the debentures and the remaining 1% of the initial partnership proceeds will be used to purchase Eligible Debt Securities. ML Partnership's purchase of the debentures will occur contemporaneously with the issuance of the partnership preferred securities.

The initial Affiliate Investment Instruments purchased by the Partnership will consist of two or more debt instruments. ML&Co. anticipates that approximately 85% of the Initial Partnership Proceeds will be used to purchase a debenture of ML&Co. (the "ML&Co. Debenture"), and approximately 14% of the initial partnership proceeds will be used to purchase debentures of one or more eligible controlled affiliates of ML&Co. Each debenture is expected to have a term of 20 years and to provide for interest payable on , , and of each year, commencing , at market rates for the debentures. The debentures will be general unsecured debt obligations of the relevant issuer, except that the ML&Co. Debenture will rank subordinate and junior to all senior indebtedness of ML&Co.

The payment of interest on each of the debentures may be deferred at any time, and from time to time, by the relevant issuer for a period not exceeding six consecutive quarters. If an issuer were to defer the payment of interest, interest would continue to accrue and compound at the stated interest rate on the applicable debenture. The debentures will contain covenants appropriate for unsecured debt securities issued or guaranteed by similar borrowers pursuant to a public offering or private placement under Rule 144A of the Securities Act of a comparable debt security, including a limitation on consolidation, merger and sale or conveyance of assets. The debentures will contain redemption provisions that correspond to the redemption provisions applicable to the partnership preferred securities, including an option to redeem the debentures by the relevant issuer, in whole or in part, from time to time, on or after , , and following the occurrence of a Partnership Special Event, in each case, in the same manner described under "Optional Redemption" and "Partnership Special Event Redemption". The debentures, and any other Affiliate Investment Instruments that are debt instruments acquired by ML Partnership in the future, will also contain customary events of default, including:

35

- . events of default for defaults in payments on the securities when due, provided that no default shall occur upon a valid deferral of an interest payment by an issuer,
- . defaults in the performance of the relevant issuer's obligations under its debenture or Affiliate Investment Instruments, as the case may be, and
- . certain bankruptcy, insolvency or reorganization events, subject to customary exceptions and grace periods.

The payment of interest and principal when due and other payment terms of the debentures other than the ML&Co. Debenture, will be guaranteed to the extent described in this prospectus (each, an "Investment Guarantee") by ML&Co. for the benefit of the holders of partnership preferred securities. See "--Investment Guarantees".

ML Partnership will invest approximately 1% of the initial partnership proceeds in eligible debt securities. These eligible debt securities will comprise cash or book-entry securities, negotiable instruments, or other securities of entities not affiliated with ML&Co. which evidence any of the following:

- . any security issued or guaranteed as to principal or interest by the United States, or by a person controlled or supervised by and acting as an instrumentality of the Government of the United States pursuant to authority granted by the Congress of the United States, or any certificate of deposit for any of the foregoing;
- . commercial paper issued pursuant to Section 3(a)(3) of the Securities Act and having, at the time of the investment or contractual commitment to invest therein, a rating from each of Standard & Poor's Ratings Services, a division of the McGraw-Hill Companies, Inc. ("S&P") and Moody's Investors Service, Inc. ("Moody's") in the highest investment rating category granted by such rating agency and having a maturity not in excess of nine months;
- . demand deposits, time deposits and certificates of deposit which are fully insured by the Federal Deposit Insurance Corporation;
- . repurchase obligations with respect to any security that is a direct obligation of, or fully guaranteed by, the Government of the United States of America or any agency or instrumentality thereof, the obligations of which are backed by the full faith and credit of the United States of America, in either case entered into with a depository institution or trust company which is an Eligible Institution and the deposits of which are insured by the FDIC; and
- . any other security which is identified as a permitted investment of a finance subsidiary pursuant to Rule 3a-5 under the Investment Company Act at the time it is acquired by ML Partnership.

"Eligible Institution" means, a depository institution organized under the laws of the United States or any one of the states thereof or the District of Columbia, or any domestic branch of a foreign bank, which has either:

- . a long-term unsecured debt rating of AA or better by S&P and Aa or better by Moody's or
- . a short-term unsecured debt rating or a certificate of deposit rating of A-1+ by S&P and P-1 by Moody's,

and whose deposits are insured by the FDIC or whose the parent has a long-term or short-term unsecured debt rating which signifies investment grade and whose

deposits are insured by the FDIC.

ML Partnership may, from time to time and subject to the restrictions described below, reinvest payments received with respect to the Affiliate Investment Instruments and the eligible debt securities in additional Affiliate Investment Instruments and eligible debt securities. As of the date of this prospectus,

36

ML&Co., as the General Partner, does not intend to cause ML Partnership to reinvest regularly scheduled, periodic payments of interest or dividends received by ML Partnership in the manner described below, although there can be no assurance that ML&Co.'s intention in respect of any reinvestments will not change in the future.

The fairness of specific terms of all Affiliate Investment Instruments will be passed upon by an independent financial advisor which will be a nationally recognized accounting firm, bank or investment banking firm that does not, and whose directors, officers, employees and affiliates do not, have a direct or indirect material equity interest in ML&Co. or any of its subsidiaries.

ML Partnership may reinvest in additional Affiliate Investment Instruments only if certain procedures and criteria are satisfied with respect to each Affiliate Investment Instrument, including the satisfaction of the following conditions:

- (1) ML Partnership did not hold debt securities of the issuer of the proposed Affiliate Investment Instrument within the three-year period ending on the date of proposed investment;
- (2) there was never a default on any debt obligation of, or arrearages of dividends on preferred stock issued by, the issuer of the proposed Affiliate Investment Instrument that was previously or is currently owned by ML Partnership;
- (3) the applicable terms and provisions with respect to the proposed Affiliate Investment Instrument have been determined by the independent financial advisor to be at least as favorable as terms which could be obtained by ML Partnership in a public offering or private placement under Rule 144A of the Securities Act of a comparable security issued by the relevant Investment Affiliate and guarantees, if any; and
- (4) the requesting Investment Affiliate shall not be deemed to be an investment company by reason of Section 3(a) or 3(b) of the Investment Company Act or is otherwise an eligible recipient of funds directly or indirectly from ML Trust pursuant to an order issued by the SEC.

The term "Investment Affiliate" means ML&Co. or any corporation, partnership, limited liability company or other entity that is controlled by ML&Co., other than ML Partnership or ML Trust. If ML Partnership is unable to reinvest payments and proceeds from Affiliate Investment Instruments in additional Affiliate Investment Instruments meeting the above criteria, ML Partnership may only invest those funds in eligible debt securities, subject to restrictions of applicable law, including the Investment Company Act.

#### Investment Guarantees

ML&Co. will agree to execute and deliver an Investment Guarantee, on a subordinated basis, for the benefit of the holders of partnership preferred securities with respect to each debenture issued by an Investment Affiliate, other than the ML&Co. Debenture, to the extent set forth below. The Investment Guarantees shall be enforceable regardless of any defense, right of set-off or counterclaim that ML&Co. may have or assert. The Investment Guarantees will be full and unconditional guarantees, to the extent set forth in this prospectus, with respect to the applicable Debentures from the time of issuance. To the extent that, as described above, ML Partnership invests in additional Affiliate Investment Instruments, the determination as to whether the Affiliate Investment Instrument will contain an Investment Guarantee will be made at the date of its issuance and will be based, among other things, upon its approval by the independent financial advisor in accordance with the reinvestment criteria described above.

The Investment Guarantees will constitute guarantees of payment and not of collection. That is, the guaranteed party may directly institute a legal proceeding against ML&Co. to enforce its rights under the applicable Investment Guarantee without instituting a legal proceeding against any other person or entity. If no special representative has been appointed to enforce any Investment Guarantee, ML&Co. as general partner has

37

the right to enforce the Investment Guarantee on behalf of the holders of the partnership preferred securities. The holders of not less than a majority in aggregate liquidation preference of the partnership preferred securities have the right to direct the time, method and place of conducting any proceeding for any remedy available in respect of any Investment Guarantee, including the giving of directions to ML&Co. as general partner or the special representative, as the case may be. If ML&Co. or the special representative fails to enforce any Investment Guarantee as above provided, any holder of the TOPrS may institute its own legal proceeding to enforce that Investment Guarantee. No Investment Guarantee will be discharged except by payment in full of all amounts guaranteed by such Investment Guarantee, without duplication of amounts previously paid by the relevant Investment Affiliate.

#### Amendments and Assignment

Except with respect to any changes that do not adversely affect the rights of holders of partnership preferred securities, in which case no consent will be required, the Investment Guarantees may be amended only with the prior approval of the holders of not less than a majority in liquidation preference of the outstanding partnership preferred securities, provided that for so long as the property trustee of ML Trust is the holder of the partnership preferred securities, no amendment will be effective without the prior written approval of a majority in liquidation amount of the outstanding TOPrS. All guarantees and agreements contained in the Investment Guarantees shall bind the successors, assigns, receivers, trustees and representatives of ML&Co. and shall inure to the benefit of the holders of partnership preferred securities. Except in connection with any permitted merger or consolidation of ML&Co. with or into another entity or any permitted sale, transfer or lease of ML&Co.'s assets to another entity in which the surviving corporation, if other than ML&Co., assumes ML&Co.'s obligations under the Investment Guarantees, ML&Co. may not assign its rights or delegate its obligations under the Investment Guarantees without the prior approval of the holders of at least a majority of the aggregate stated liquidation preference of the partnership preferred securities then outstanding.

#### Status of the Investment Guarantees

ML&Co.'s obligations under the Investment Guarantees will constitute unsecured obligations of ML&Co. and will rank subordinate and junior in right of payment to all other liabilities of ML&Co. and will rank equally with the most senior preferred stock, if any, issued from time to time by ML&Co., with similar guarantees issued by ML&Co. in connection with:

- . the \$275,000,000 aggregate liquidation amount of 7 3/4% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust I,
- . the \$300,000,000 aggregate liquidation amount of 8% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust II,
- . the \$750,000,000 aggregate liquidation amount of 7% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust III,
- . the \$400,000,000 aggregate liquidation amount of 7.12% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust IV,
- . the \$850,000,000 aggregate liquidation amount of 7.28% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust V,
- . the (Yen)10,000,000,000 aggregate liquidation amount of Trust Originated Preferred Securities issued by Merrill Lynch Yen TOPrS Trust I, and
- . with any guarantee now or hereafter entered into by ML&Co. in respect of any preferred stock of any other Finance Subsidiary.

Accordingly, the rights of the holders of the debentures to receive payments under the Investment Guarantees will be subject to the rights of the holders of any obligations that are senior in priority to the obligations under the Investment Guarantees. Furthermore, the holders of obligations of ML&Co. that are senior to the obligations under the Investment Guarantees, including, but not limited to, obligations constituting

Senior Indebtedness, will be entitled to the same rights upon payment default or dissolution, liquidation and reorganization in respect of the Investment Guarantees that inure to the holders of senior indebtedness as against the holders of the ML&Co. Debenture. The terms of the debentures provide that each holder of debentures, by acceptance thereof, agrees to the subordination provisions and other terms of the Investment Guarantees.

#### Governing Law

The Investment Guarantees will be governed by and construed in accordance with the laws of the State of New York.

## Optional Redemption

The partnership preferred securities are redeemable, at the option of ML&Co., as general partner, in whole or in part, from time to time, on or after , , upon not less than 30 nor more than 60 days notice, at an amount per partnership preferred security equal to \$25 plus accumulated and unpaid distributions. If ML Partnership redeems partnership preferred securities in accordance with their terms, ML Trust will redeem the Trust Securities at the redemption price. If:

- . a partial redemption would result in the delisting of the TOPrS,
- . ML Trust is liquidated in connection with a Trust Special Event, or
- . a partial redemption would result in the delisting of the partnership preferred securities,

then, in each case, ML Partnership may only redeem the partnership preferred securities in whole.

## Partnership Special Event Redemption

If, at any time, a Partnership Tax Event or a Partnership Investment Company Event (each as defined below, and each a "Partnership Special Event") occurs and is continuing, ML&Co. shall, within 90 days following the occurrence of such Partnership Special Event, elect to either:

- . redeem the partnership preferred securities in whole, but not in part, upon not less than 30 or more than 60 days notice at the redemption price, provided that, if at the time there is available to ML Partnership the opportunity to eliminate, within the 90-day period, the Partnership Special Event by taking some ministerial action, such as filing a form or making an election, or pursuing some other similar reasonable measure that in the sole judgment of ML&Co. has or will cause no adverse effect on ML Partnership, ML Trust or ML&Co., ML&Co. will pursue that measure in lieu of redemption; or
- . cause the partnership preferred securities to remain outstanding, provided that in the case of this clause, the ML&Co. shall pay any and all costs and expenses incurred by or payable by ML Partnership attributable to the Partnership Special Event.

"Partnership Tax Event" means that ML&Co. shall have requested and received an opinion of nationally recognized independent tax counsel experienced in these matters to the effect that there has been a Tax Action which affects any of the events described in (1) through (3) below and that there is more than an insubstantial risk that:

- (1) ML Partnership is, or will be, subject to United States Federal income tax with respect to income accrued or received on the Affiliate Investment Instruments or the eligible debt securities,
- (2) ML Partnership is, or will be, subject to more than a minimal amount of other taxes, duties or other governmental charges or

39

- (3) interest payable by an Investment Affiliate with respect to the Affiliate Investment Instrument issued by that Investment Affiliate to ML Partnership is not, or will not be, deductible by the Investment Affiliate for United States Federal income tax purposes.

Recently, the IRS asserted that the interest payable on a security issued in similar circumstances as the issuance of the debentures by the Investment Affiliates to ML Partnership was not deductible for United States Federal income tax purposes. The taxpayer in that case has filed a petition in the United States Tax Court challenging the IRS's position on this matter. If this matter were to be litigated and the Tax Court were to sustain the IRS's position on this matter, the judicial decision could constitute a Partnership Tax Event, which could result in an early redemption of the partnership preferred securities.

"Partnership Investment Company Event" means that ML&Co. shall have requested and received an opinion of nationally recognized independent legal counsel experienced in these matters to the effect that as a result of the occurrence on or after the date of this prospectus of a Change in Investment Company Act Law, ML Partnership is or will be considered an investment company which is required to be registered under the Investment Company Act.

## Redemption Procedures

ML Partnership may not redeem fewer than all the outstanding partnership preferred securities unless all accumulated and unpaid distributions have been paid on all partnership preferred securities for all quarterly distribution periods terminating on or before the date of redemption.

If ML Partnership gives a notice of redemption in respect of partnership preferred securities, which notice will be irrevocable, then, by 12:00 noon, New York City time, on the redemption date, ML Partnership:

- . if the partnership preferred securities are in book entry form with DTC, will deposit irrevocably with DTC funds sufficient to pay the applicable redemption price and will give DTC irrevocable instructions and authority to pay the redemption price in respect of the partnership preferred securities held through DTC in global form, or
- . if the partnership preferred securities are held in certificated form, will deposit with the paying agent for the partnership preferred securities funds sufficient to pay any amount in respect of any partnership preferred securities in certificated form and will give the paying agent irrevocable instructions and authority to pay these amounts to the holders of partnership preferred securities upon surrender of their certificates.

See "Description of the TOPRS--Book-Entry Only Issuance--The Depository Trust Company".

If notice of redemption shall have been given and funds deposited as required, then upon the date of the deposit, all rights of holders of such partnership preferred securities so called for redemption will cease, except the right of the holders of such partnership preferred securities to receive the redemption price, but without interest on that redemption price. In the event that any date fixed for redemption of partnership preferred securities is not a Business Day, then payment of the redemption price payable on that date will be made on the next succeeding day that is a Business Day, and without any interest or other payment in respect of any delay, except that, if that Business Day falls in the next calendar year, the payment will be made on the immediately preceding Business Day, in each case with the same force and effect as if made on the date fixed for redemption. In the event that payment of the redemption price in respect of partnership preferred securities is improperly withheld or refused and not paid either by ML Partnership or by ML&Co. under the Partnership Guarantee described under "Description of the Partnership Guarantee," distributions on the partnership preferred securities will continue to accumulate, from the original redemption date to the date of payment.

40

Subject to the foregoing and applicable law, including, without limitation, United States Federal securities laws, ML&Co. or any of its subsidiaries may at any time and from time to time purchase outstanding partnership preferred securities by tender, in the open market or by private agreement.

#### Liquidation Distribution Upon Dissolution

In the event of any voluntary or involuntary dissolution, winding-up or termination of ML Partnership, the holders of the partnership preferred securities at the time will be entitled to receive out of the assets of ML Partnership available for distribution to partners after satisfaction of liabilities of creditors as required by the Delaware Partnership Act, before any distribution of assets is made to ML&Co. as General Partner, an amount equal to, in the case of holders of partnership preferred securities, the aggregate of the stated liquidation preference of \$25 per partnership preferred security plus accumulated and unpaid distributions on the partnership preferred securities to the date of payment.

Under the Limited Partnership Agreement, ML Partnership shall be dissolved and its affairs shall be wound up:

- . upon the bankruptcy of ML&Co.,
- . upon the assignment by ML&Co. of its entire interest in ML Partnership when the assignee is not admitted to ML Partnership as a general partner of ML Partnership in accordance with the limited partnership agreement, or the filing of a certificate of dissolution or its equivalent with respect to ML&Co., or the revocation of ML&Co.'s charter and the expiration of 90 days after the date of notice to ML&Co. of revocation without a reinstatement of its charter, or if any other event occurs that causes the General Partner to cease to be a general partner of ML Partnership under the Delaware Limited Partnership Act, unless the business of ML Partnership is continued in accordance with the Delaware Limited Partnership Act,
- . if ML Partnership has redeemed or otherwise purchased all the partnership preferred securities,
- . upon the entry of a decree of judicial dissolution or
- . upon the written consent of all partners of ML Partnership.

## Voting Rights

Except as provided below and under "Description of the Partnership Guarantee--Amendments and Assignment" and as otherwise required by law and the Limited Partnership Agreement, the holders of the partnership preferred securities will have no voting rights.

Not later than 30 days after any Partnership Enforcement Event occurs, ML&Co. will convene a meeting for the purpose of appointing a special representative. If ML&Co. fails to convene a meeting within the 30-day period, the holders of 10% in liquidation preference of the outstanding partnership preferred securities will be entitled to convene a meeting. The provisions of the limited partnership agreement relating to the convening and conduct of the meetings of the partners will apply with respect to any meeting. In the event that, at any meeting, holders of less than a majority in aggregate liquidation preference of partnership preferred securities entitled to vote for the appointment of a special representative vote for the appointment, no special representative shall be appointed. Any special representative appointed shall cease to be a special representative of ML Partnership and the limited partners if:

- . ML Partnership, or ML&Co. pursuant to the Partnership Guarantee, shall have paid in full all accumulated and unpaid distributions on the partnership preferred securities,
- . any event of default under any Affiliate Investment Instruments shall have been cured, and

41

- . ML&Co. is in compliance with all its obligations under the Partnership Guarantee and ML&Co., in its capacity as the general partner, shall continue the business of ML Partnership without dissolution.

Notwithstanding the appointment of the special representative, ML&Co. shall continue as General Partner and shall retain all rights under the limited partnership agreement, including the right not to declare, in its sole discretion, the payment of distributions on the partnership preferred securities, for which the failure to declare distributions would not constitute a default under the limited partnership agreement.

If any proposed amendment to the limited partnership agreement provides for, or ML&Co. otherwise proposes to effect,

- . any action that would adversely affect the powers, preferences or special rights of the partnership preferred securities, whether by way of amendment to the limited partnership agreement or otherwise, including, without limitation, the authorization or issuance of any limited partner interests in ML Partnership ranking, as to participation in the profits or distributions or in the assets of ML Partnership, senior to the partnership preferred securities, or
- . the dissolution, winding-up or termination of ML Partnership, other than:
  - (A) in connection with the occurrence of a Partnership Special Event or
  - (B) as described under "Merger, Consolidation or Amalgamation of the Partnership" below,

then the holders of outstanding partnership preferred securities will be entitled to vote on any amendment or proposal of ML&Co., but not on any other amendment or proposal, as a class, and no amendment or proposal shall be effective without the approval of the holders of a majority in liquidation preference of the outstanding partnership preferred securities having a right to vote on the matter; provided, however, that if the property trustee on behalf of ML Trust is the holder of the partnership preferred securities, any amendment or proposal not excepted by clauses (A) and (B) above shall not be effective without the prior or concurrent approval of the holders of a majority in liquidation amount of the outstanding TOPrs having a right to vote on the matters.

ML&Co. shall not

- . direct the time, method and place of conducting any proceeding for any remedy available,
- . waive any event of default that is waivable under the Affiliate Investment Instruments,
- . exercise any right to rescind or annul a declaration that the principal of any Affiliate Investment Instruments shall be due and

payable,

- . waive the breach of the obligation by ML&Co. to restrict certain payments by ML&Co., or
- . consent to any amendment, modification or termination of any Affiliate Investment Instrument, where such consent shall be required from the investor,

without, in each case, obtaining the prior approval of the holders of at least a majority in liquidation preference of the partnership preferred securities; provided, however, that if the property trustee on behalf of ML Trust is the holder of the partnership preferred securities, any waiver, consent or amendment or other action shall not be effective without the prior or concurrent approval of at least a majority in liquidation amount of the outstanding TOPrS having a right to vote on these matters. ML&Co. shall not revoke any action previously authorized or approved by a vote of the holders of the partnership preferred securities without the approval of the revocation by a majority in liquidation preference of the outstanding partnership preferred securities. ML&Co. shall notify all holders of the partnership preferred securities of any notice of an event of default received with respect to any Affiliate Investment Instrument.

42

Any required approval of holders of partnership preferred securities may be given at a separate meeting of holders of partnership preferred securities convened for that purpose, at a meeting of all of the partners in ML Partnership or pursuant to written consent. ML Partnership will cause a notice of any meeting at which holders of partnership preferred securities are entitled to vote, or of any matter upon which action by written consent of the holders is to be taken, to be mailed to each holder of record of partnership preferred securities. Each notice will include a statement setting forth

- . the date of the meeting or the date by which action is to be taken,
- . a description of any resolution proposed for adoption at the meeting on which holders are entitled to vote or of the matters upon which written consent is sought and
- . instruction for the delivery of proxies or consents.

No vote or consent of the holders of partnership preferred securities will be required for ML Partnership to redeem and cancel partnership preferred securities in accordance with the limited partnership agreement.

Notwithstanding that holders of partnership preferred securities are entitled to vote or consent under any of the circumstances described above, any of the partnership preferred securities at such time that are beneficially owned by ML&Co. or by any entity directly or indirectly controlled by, or under direct or indirect common control with, ML&Co., except for partnership preferred securities purchased or acquired by ML&Co. or its affiliates in connection with transactions effected by or for the account of customers of ML&Co. or any of its subsidiaries or in connection with the distribution or trading of such partnership preferred securities; shall not be entitled to vote or consent and shall, for purposes of any vote or consent, be treated as if they were not outstanding, provided, however, that persons, other than affiliates of ML&Co., to whom ML&Co. or any of its subsidiaries have pledged partnership preferred securities may vote or consent with respect to the pledged partnership preferred securities under the terms of the pledge.

Holders of the partnership preferred securities will have no rights to remove or replace ML&Co. as general partner.

#### Merger, Consolidation or Amalgamation of ML Partnership

ML Partnership may not consolidate, amalgamate, merge with or into, or be replaced by, or convey, transfer or lease its properties and assets substantially as an entirety to, any corporation or other body, except as described below. ML Partnership may, without the consent of the holders of the partnership preferred securities, consolidate, amalgamate, merge with or into, or be replaced by a limited partnership, limited liability company or trust organized as such under the laws of any state of the United States of America, provided that:

- . the successor entity either:
  - (A) expressly assumes all of the obligations of ML Partnership under the partnership preferred securities or
  - (B) substitutes for the partnership preferred securities other securities having substantially the same terms as the partnership preferred securities so long as the partnership successor securities are not junior to any other equity securities of the successor entity, with respect to participation in the profits

and distributions, and in the assets, of the successor entity,

- . the Investment Affiliates expressly acknowledge the successor entity as the holder of the Affiliate Investment Instruments,
- . the partnership preferred securities or any partnership successor securities are listed, or any partnership successor securities will be listed upon notification of issuance, on any national securities exchange or other organization on which the partnership preferred securities, if so listed, are then listed,

43

- . the merger, consolidation, amalgamation or replacement does not cause the TOPrS or, in the event that ML Trust is liquidated in connection with a Trust Special Event, the partnership preferred securities or any partnership successor securities, to be downgraded by any nationally recognized statistical rating organization,
- . the merger, consolidation, amalgamation or replacement does not adversely affect the powers, preferences and other special rights of the holders of the TOPrS or partnership preferred securities, including any partnership successor securities, in any material respect, other than, in the case of the partnership preferred securities, with respect to any dilution of the holders' interest in the new resulting entity,
- . the successor entity has a purpose substantially identical to that of ML Partnership,
- . before the merger, consolidation, amalgamation or replacement, ML&Co. has received an opinion of nationally recognized independent counsel to ML Partnership experienced in these matters to the effect that:
  - (A) the successor entity will be treated as a partnership for United States Federal income tax purposes,
  - (B) the merger, consolidation, amalgamation or replacement would not cause ML Trust to be classified as an association taxable as a corporation for United States Federal income tax purposes,
  - (C) following the merger, consolidation, amalgamation or replacement, ML&Co. and such successor entity will be in compliance with the Investment Company Act without registering as an investment company, and
  - (D) the merger, consolidation, amalgamation or replacement will not adversely affect the limited liability of the holders of the partnership preferred securities and
- . ML&Co. guarantees the obligations of the successor entity under the partnership successor securities at least to the extent provided by the Partnership Guarantee.

#### Book-Entry and Settlement

If the partnership preferred securities are distributed to holders of the TOPrS in connection with the involuntary or voluntary dissolution, winding-up or liquidation of ML Trust as a result of the occurrence of a Trust Special Event, the partnership preferred securities will be issued in the form of one or more global partnership securities registered in the name of DTC as the depository or its nominee. For a description of DTC and the specific terms of the Depository arrangements, see "Description of the TOPrS--Book-Entry Only Issuance--The Depository Trust Company". As of the date of this prospectus, the description therein of DTC's book-entry system and DTC's practices as they relate to purchases, transfers, notices and payments with respect to the TOPrS apply in all material respects to any partnership preferred securities represented by one or more global partnership securities.

#### Registrar, Transfer Agent and Paying Agent

ML&Co. will act as registrar, transfer agent and paying agent for the partnership preferred securities for so long as the partnership preferred securities are held by ML Trust or, if ML Trust is liquidated in connection with a Trust Special Event, for so long as the partnership preferred securities remain in book-entry only form. In the event the partnership preferred securities are distributed in connection with a Trust Special Event and the book-entry system for the partnership preferred securities is discontinued, it is anticipated that The Chase Manhattan Bank or one of its affiliates will act as registrar, transfer agent and paying agent for the partnership preferred securities.

Registration of transfers of partnership preferred securities will be effected without charge by or on behalf of ML Partnership, but upon payment, with the giving of such indemnity as ML Partnership or ML&Co. may require, in

respect of any tax or other governmental charges that may be imposed in relation to it.

44

ML Partnership will not be required to register or cause to be registered the transfer of partnership preferred securities after such partnership preferred securities have been called for redemption.

#### Miscellaneous

ML&Co. is authorized and directed to conduct its affairs and to operate ML Partnership in such a way that:

- . ML Partnership will not be deemed to be an investment company required to be registered under the Investment Company Act or characterized as an association taxable as a corporation for United States Federal income tax purposes,
- . the Affiliate Investment Instruments will be treated as indebtedness of their respective issuers for United States Federal income tax purposes and
- . ML Partnership will not be treated as an association or as a publicly traded partnership, within the meaning of Section 7704 of the Code, taxable as a corporation.

In this connection, ML&Co. as general partner is authorized to take any action, not inconsistent with applicable law, the certificate of limited partnership of ML Partnership or the limited partnership agreement, that it determines in its discretion to be necessary or desirable for the foregoing purposes as long as any action does not adversely affect the interests of the holders of the partnership preferred securities.

45

#### DESCRIPTION OF THE PARTNERSHIP GUARANTEE

Set forth below is a summary of the material information concerning the Partnership Guarantee (the "Partnership Guarantee") that will be executed and delivered by ML&Co. for the benefit of the holders from time to time of partnership preferred securities. The summary is not complete and is subject in all respects to the provisions of, and is qualified in its entirety by reference to, the Partnership Guarantee, which is filed as an exhibit to the registration statement of which this prospectus is a part. ML&Co. will hold the Partnership Guarantee for the benefit of the holders of the partnership preferred securities.

#### Terms of the Partnership Guarantee

Under the Partnership Guarantee, ML&Co. will irrevocably agree, on a subordinated basis to the extent set forth in this prospectus, to pay in full to the holders of the partnership preferred securities, without duplication of amounts previously paid by ML Partnership, as and when due, regardless of any defense, right of set-off or counterclaim that ML Partnership may have or assert, the following payments (the "Partnership Guarantee Payments"):

- . any accumulated and unpaid distributions that previously have been declared on ML Partnership preferred securities out of funds legally available for distribution,
- . the redemption price with respect to any partnership preferred securities called for redemption by ML Partnership out of funds legally available for that purpose, and
- . upon a liquidation of ML Partnership, the lesser of:
  - (A) the aggregate of the liquidation preference and all accumulated and unpaid distributions on the partnership preferred securities to the date of payment and
  - (B) the amount of assets of ML Partnership, after satisfaction of all liabilities, remaining available for distribution to holders of partnership preferred securities in liquidation of ML Partnership.

ML&Co.'s obligation to make a Partnership Guarantee Payment may be satisfied by direct payment of the required amounts by ML&Co. to the holders of partnership preferred securities or by causing ML Partnership to pay these amounts to holders.

The Partnership Guarantee will be a guarantee on a subordinated basis with respect to the partnership preferred securities from the time of issuance of the partnership preferred securities but will not apply to any payment of distributions or the redemption price, or to payments upon the dissolution,

winding-up or termination of ML Trust, except to the extent ML Partnership shall have funds available for these purposes. If Investment Affiliates, including, where applicable, ML&Co., as guarantor, of the Affiliate Investment Instruments in which ML Partnership invests fail to make any payment in respect of the securities or, if applicable, guarantees, ML Partnership may not declare or pay dividends on the partnership preferred securities. In such event, holders of the partnership preferred securities would not be able to rely upon the Partnership Guarantee for payment of these amounts. Instead, holders of the partnership preferred securities will have the remedies described in this prospectus under "Description of the Partnership Preferred Securities-- Partnership Enforcement Events", including the right to direct ML&Co. or the special representative, as the case may be, to enforce the covenant restricting certain payments by ML&Co. and Finance Subsidiaries. See "--Covenants of ML&Co." below.

The Guarantees, when taken together with the ML&Co. Debenture and ML&Co.'s obligations to pay all fees and expenses of ML Trust and ML Partnership, constitute a guarantee to the extent set forth in this prospectus by ML&Co. of the distribution, redemption and liquidation payments payable to the holders of the TOPrS. The Guarantees do not apply, however, to current distributions by ML Partnership unless and until

46

distributions are declared by ML Partnership out of funds legally available for payment or to liquidating distributions unless there are assets available for payment in ML Partnership.

Obligations of ML&Co.

Under the Partnership Guarantee, ML&Co. will agree that if:

- . for any distribution period, full distributions on a cumulative basis on any partnership preferred securities have not been paid or declared and set apart for payment,
- . an event of default by any Investment Affiliate in respect of any Affiliate Investment Instrument has occurred and is continuing, or
- . ML&Co. is in default of its obligations under any Guarantee,

then, during that period,

- . ML&Co. may not declare or pay dividends on, make distributions with respect to, or redeem, purchase or acquire, or make a liquidation payment with respect to, any of its capital stock or comparable equity interest, except for:
  - . dividends or distributions in shares of, or options, warrants or rights to subscribe for or purchase shares of, its capital stock, and conversions or exchanges of common stock of one class into common stock of another class,
  - . redemptions or purchases of any rights under the Rights Agreement and the issuance of preferred stock pursuant to those rights and
  - . purchases or acquisitions by ML&Co. or its affiliates in connection with transactions effected by or for the account of customers of ML&Co. or any of its subsidiaries or in connection with the distribution or trading of such capital stock or comparable equity interest and
- . ML&Co. may not make, permit any Finance Subsidiary to make, or make any payments that would enable any Finance Subsidiary to make, any payment of any dividends on, any distribution with respect to, or any redemption, purchase or other acquisition of, or any liquidation payment with respect to, any preferred security or comparable equity interest of any Finance Subsidiary.

Events of Default; Enforcement of Partnership Guarantee

An event of default under the Partnership Guarantee will occur upon the failure of ML&Co. to perform any of its payment or other obligations thereunder.

The holders of a majority in liquidation amount of the partnership preferred securities have the right to direct the time, method and place of conducting any proceeding for any remedy available to the special representative in respect of the Partnership Guarantee or to direct the exercise of any trust or power conferred upon the special representative under the Partnership Guarantee. If the special representative fails to enforce its rights under the Partnership Guarantee, after a holder of partnership preferred securities has made a written request, such holder of partnership preferred securities may institute a legal proceeding directly against ML&Co. to enforce the special representative's rights under the Partnership Guarantee without

first instituting a legal proceeding against ML Partnership, the special representative or any other person or entity. Notwithstanding the foregoing, if ML&Co. has failed to make a guarantee payment, a holder of partnership preferred securities may directly institute a proceeding against ML&Co. for enforcement of the Partnership Guarantee for the payment.

47

#### Status of the Partnership Guarantee; Subordination

The Partnership Guarantee will constitute an unsecured obligation of ML&Co. and will rank subordinate and junior in right of payment to all other liabilities of ML&Co. and will rank equally with the most senior preferred stock issued from time to time by ML&Co., with similar guarantees issued by ML&Co. in connection with

- . the \$275,000,000 aggregate liquidation amount of 7 3/4% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust I,
- . the \$300,000,000 aggregate liquidation amount of 8% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust II,
- . the \$750,000,000 aggregate liquidation amount of 7% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust III,
- . the \$400,000,000 aggregate liquidation amount of 7.12% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust IV,
- . the \$850,000,000 aggregate liquidation amount of 7.28% Trust Originated Preferred Securities issued by Merrill Lynch Preferred Capital Trust V,
- . the (Yen)10,000,000,000 aggregate liquidation amount of Trust Originated Preferred Securities issued by Merrill Lynch Yen TOPrS Trust I, and
- . with any guarantee now or hereafter entered into by ML&Co. in respect of any preferred stock of any other Finance Subsidiary.

Accordingly, the rights of the holders of partnership preferred securities to receive payments under the Partnership Guarantee will be subject to the rights of the holders of any obligations of ML&Co. that are senior in priority to the obligations under the Partnership Guarantee. Furthermore, the holders of obligations of ML&Co. that are senior to the obligations under the Partnership Guarantee, including, but not limited to, obligations constituting senior indebtedness, will be entitled to the same rights upon payment default or dissolution, liquidation and reorganization in respect of the Partnership Guarantee that inure to the holders of senior indebtedness as against the holders of the ML&Co. Debenture. The limited partnership agreement provides that each holder of partnership preferred securities, by their acceptance, agrees to the subordination provisions and other terms of the Partnership Guarantee.

The Partnership Guarantee will constitute a guarantee of payment and not of collection. That is, the guaranteed party may directly institute a legal proceeding against ML&Co. to enforce its rights under the Partnership Guarantee without instituting a legal proceeding against any other person or entity.

The Partnership Guarantee will be deposited with ML&Co. to be held for the benefit of the holders of the partnership preferred securities. In the event of the appointment of a special representative to, among other things, enforce the Partnership Guarantee, the special representative may take possession of the Partnership Guarantee for that purpose. If no special representative has been appointed to enforce the Partnership Guarantee, ML&Co. has the right to enforce the Partnership Guarantee on behalf of the holders of the partnership preferred securities.

#### Amendments and Assignment

Except with respect to any changes that do not adversely affect the rights of holders of partnership preferred securities, in which case no consent will be required, the Partnership Guarantee may be amended only with the prior approval of the holders of not less than a majority in liquidation preference of the outstanding partnership preferred securities. All guarantees and agreements contained in the Partnership Guarantee shall bind the successors, assigns, receivers, trustees and representatives of ML&Co. and shall inure to the benefit of

48

the holders of the partnership preferred securities then outstanding. Except in

connection with any permitted merger or consolidation of ML&Co. with or into another entity or any permitted sale, transfer or lease of ML&Co.'s assets to another entity in which the surviving corporation, if other than ML&Co., assumes ML&Co.'s obligations under the Partnership Guarantee, ML&Co. may not assign its rights or delegate its obligations under the Partnership Guarantee without the prior approval of the holders of at least a majority of the aggregate stated liquidation preference of the partnership preferred securities then outstanding.

#### Termination of the Partnership Guarantee

The Partnership Guarantee will terminate and be of no further force and effect as to the partnership preferred securities upon:

- . full payment of the redemption price of all partnership preferred securities, or
- . full payment of the amounts payable in accordance with the Limited Partnership Agreement upon liquidation of ML Partnership.

The Partnership Guarantee will continue to be effective or will be reinstated, as the case may be, if at any time any holder of partnership preferred securities must in accordance with the Delaware Limited Partnership Act restore payment of any sums paid under the partnership preferred securities or the Partnership Guarantee. The Delaware Limited Partnership Act provides that a limited partner of a limited partnership who wrongfully receives a distribution may be liable to the limited partnership for the amount of such distribution.

#### Governing Law

The Partnership Guarantee will be governed by and construed in accordance with the internal laws of the State of New York.

#### UNITED STATES FEDERAL INCOME TAXATION

In the opinion of Brown & Wood llp, tax counsel to ML&Co., ML Trust and ML Partnership ("Tax Counsel"), the following summary accurately describes the material United States Federal income tax consequences that may be relevant to the purchase, ownership and disposition of the TOPrS. Unless otherwise stated, this summary deals only with the TOPrS held as capital assets by United States Persons who purchase the TOPrS upon original issuance and does not purport to deal with persons in special tax situations, such as financial institutions, insurance companies, regulated investment companies, dealers in securities or currencies, persons holding the TOPrS as a hedge against currency risks or as a position in a "straddle" for tax purposes, or persons whose functional currency is not the United States dollar. As used in this prospectus, a "United States Person" means a person that is for Federal United States income tax purposes a (1) citizen or resident of the United States, (2) a corporation or a partnership (including an entity treated as a corporation or partnership for United States Federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia (unless, in the case of a partnership, Treasury regulations are adopted that provide otherwise), (3) an estate whose income is subject to United States Federal income tax regardless of its source, or (4) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust. Notwithstanding clause (4) of the previous sentence, to the extent provided in Treasury regulations, certain trusts in existence on August 20, 1996, and treated as United States persons prior to such date, that elect to continue to be treated as United States persons will also be United States Persons. Moreover, as used herein, the term United States Person includes any holder of a TOPrS whose income or gain in respect to its investment in a TOPrS is effectively connected with the conduct of a U.S. trade or business. The tax treatment of a holder may vary depending on its particular situation.

49

This summary does not address all the tax consequences that may be relevant to holders who may be subject to special tax treatment, such as banks, real estate investment trusts, regulated investment companies, insurance companies, dealers in securities or currencies, tax-exempt investors, or foreign investors. This summary does not include any description of any alternative minimum tax consequences or the tax laws of any state or local government or of any foreign government that may be applicable to the TOPrS. This summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), the Treasury regulations promulgated under the Code and administrative and judicial interpretations of the Code, as of the date of this prospectus, all of which are subject to change, possibly on a retroactive basis.

The TOPrS are not being marketed to persons that are not United States Persons ("non-United States Persons") and, consequently, the following discussion does not discuss the tax consequences that might be relevant to non-United States Persons. Moreover, in order to protect ML Trust and ML

Partnership from potential adverse consequences, non-United States Persons will be subject to withholding on distributions on the TOPrS at a rate of 30%. In determining a holder's status, the United States entity otherwise required to withhold taxes may rely on an IRS Form W-8BEN, an IRS Form W-8ECI, an IRS Form W-9, or a holder's certification of its non-foreign status signed under penalty of perjury. Non-United States Persons should consult their tax advisors as to the specific United States Federal income tax consequences of the purchase, ownership, and disposition of TOPrS.

Tax Counsel has advised that there is no authority directly on point dealing with securities similar to the TOPrS or transactions of the type described in this prospectus and that the opinions of Tax Counsel are not binding on the IRS or the courts, either of which could take a contrary position. No rulings have been or will be sought from the IRS. Accordingly, there can be no assurance that the IRS will not challenge the opinions expressed in this tax section or that a court would not sustain a challenge to these opinions. Nevertheless, Tax Counsel has advised that it is of the view that, if challenged, the opinions expressed in this tax section would be sustained by a court with jurisdiction in a properly presented case.

Persons considering the purchase of the TOPrS should consult their tax advisors with respect to the tax consequences to them of the purchase, ownership and disposition of the TOPrS, including the tax consequences under state, local, foreign, and other tax laws and the possible effects of changes in United States Federal or other tax laws. For a discussion of the possible redemption of the TOPrS or redemption of the partnership preferred securities upon the occurrence of certain tax events see "Description of the TOPrS--Trust Special Event Redemption or Distribution" and "Description of the Partnership Preferred Securities--Partnership Special Event Redemption" respectively.

#### Classification of ML Trust

Tax Counsel is of the opinion that, under current law, and based on certain representations made by ML Trust as well as certain facts and assumptions with respect to the transaction described in this prospectus, ML Trust will be classified for United States Federal income tax purposes as a grantor trust and not as an association taxable as a corporation. Accordingly, for United States Federal income tax purposes, each holder of the TOPrS will be considered the owner of an undivided interest in the partnership preferred securities held by ML Trust. As a result of this treatment, each holder of the TOPrS will be required to include in its gross income its distributive share of income attributable to ML Partnership. This amount will generally be equal to a holder's allocable share of amounts accrued on the partnership preferred securities. No amount included in income with respect to the TOPrS will be eligible for the corporate dividends-received deduction.

#### Classification of the Partnership

Tax Counsel is of the opinion that under current law, and based on certain representations made by the ML Trust as well as certain facts and assumptions with respect to the transaction described in this prospectus, ML Partnership will be classified for United States Federal income tax purposes as a partnership and not as an association or publicly traded partnership taxable as a corporation.

50

Tax Counsel's opinion is based on certain factual assumptions relating to the organization and operation of ML Partnership and is conditioned upon certain representations made by ML&Co., as General Partner, and ML Partnership as to factual matters, including the organization and the operation of ML Partnership and the type and frequency of investments made by ML Partnership.

ML&Co., as General Partner, has represented that it intends to operate ML Partnership in a manner that will enable ML Partnership to be classified as a partnership for all future taxable periods in which any partnership preferred securities remain outstanding. In particular, under the limited partnership agreement, the general partner cannot take any action that would cause ML Partnership to constitute a "publicly traded partnership" taxable as a corporation. Accordingly, it is expected that ML Partnership will continue to qualify as a partnership and, therefore, will not constitute a publicly traded partnership taxable as a corporation for all taxable years in which any partnership preferred securities remain outstanding.

#### Classification of the Debentures

ML Partnership, ML&Co., the relevant Investment Affiliates and the holders of the Trust Securities (by acceptance of a beneficial interest in a Trust Security) will agree to treat the debentures as indebtedness of the relevant issuer for all United States Federal income tax purposes. In connection with the issuance of the debentures, Tax Counsel will issue its opinion that, under current law, and based on certain representations, facts and assumptions to be set forth in such opinion, the debentures will be classified as indebtedness of the relevant issuer for United States Federal income tax purposes.

## Income and Deductions

Because ML Trust will be classified as a grantor trust for United States Federal income tax purposes, holders of TOPrS will be considered to own an undivided interest in the partnership preferred securities held by ML Trust. As a result of this treatment, a holder of TOPrS will be required to take into income its proportionate share of income attributable to ML Partnership. A holder's distributive share of income attributable to ML Partnership generally will be substantially equal to the amount of the cash distributions that accumulate with respect to the TOPrS it holds. Accordingly, if quarterly distributions on the TOPrS are paid currently, the amount of income recognized by a holder during a taxable year generally will be substantially equal to the cash distributions received by the holder of the TOPrS.

The nature and timing of the income that is allocated to holders of the TOPrS will, however, depend on the United States Federal income tax characterization of the investments held by ML Partnership during the relevant period. Because ML Partnership will be an accrual basis taxpayer for United States Federal income tax purposes, income will accrue on the TOPrS and will be allocated to holders of the TOPrS on a daily accrual basis, generally at a rate that is expected to be equal to (and that will not be greater than) the distribution rate on the TOPrS, regardless of the holders' method of accounting. Actual cash distributions on the TOPrS will not, however, be separately reported as taxable income to the holders at the time they are received.

If distributions on the partnership preferred securities are not made currently, the corresponding distributions on the TOPrS will not be made currently. Because ML Partnership is an accrual basis taxpayer, it can be expected that during a period in which interest payments on the debentures or distributions on the partnership preferred securities are deferred (for whatever reason), holders will generally recognize income in advance of their receipt of any cash distributions with respect to their TOPrS. The amount of income that will be allocated to holders of TOPrS during any such deferral period will equal their pro rata share of the amount of distributions accruing on the partnership preferred securities during the deferral period.

ML Partnership does not presently intend to make a Section 754 election. Accordingly, a subsequent purchaser of the TOPrS who does not purchase the TOPrS at initial issuance will not be permitted to adjust the tax basis in its allocable share of ML Partnership's assets so as to reflect any difference between its purchase price for the TOPrS and its share of ML Partnership's underlying tax basis in its assets. As a result, a holder of the TOPrS may be required to report a larger or smaller amount of income from holding the TOPrS than would otherwise be appropriate based upon the holder's purchase price for the TOPrS.

51

## Receipt of Partnership Preferred Securities Upon Liquidation of ML Trust

Under certain circumstances, as described under the caption "Description of the TOPrS--Trust Special Event Redemption or Distribution", partnership preferred securities may be distributed to holders of the TOPrS in exchange for their TOPrS and in liquidation of ML Trust. Unless the liquidation of ML Trust occurs as a result of ML Trust being subject to United States Federal income tax with respect to income accrued or received on the partnership preferred securities, a distribution to holders under these circumstances would, for United States Federal income tax purposes, be treated as a nontaxable event to each holder. Each holder would receive an aggregate tax basis in the partnership preferred securities equal to the holder's aggregate tax basis in its TOPrS with a holding period in the partnership preferred securities so received in liquidation of ML Trust that would include the period during which the TOPrS were held. If, however, the liquidation of ML Trust were to occur because ML Trust is subject to United States Federal income tax with respect to income accrued or received on the partnership preferred securities, the distribution of partnership preferred securities to holders by ML Trust would likely be a taxable event to each holder, and a holder would recognize gain or loss as if the holder had exchanged its TOPrS for the partnership preferred securities it received upon the liquidation of ML Trust. Gain or loss to each holder would be equal to the difference between the holder's aggregate tax basis in its TOPrS surrendered in the exchange and the aggregate fair market value of the partnership preferred securities received in the exchange.

## Redemption of TOPrS for Cash

Under certain circumstances, as described under the caption "Description of the TOPrS--Mandatory Redemption", "Description of the TOPrS--Trust Special Event Redemption or Distribution" and "Description of the Partnership Preferred Securities--Partnership Special Event Redemption", the General Partner may cause ML Partnership to redeem the partnership preferred securities for cash, in which event ML Trust shall simultaneously apply the cash received to redeem the TOPrS. Under current law, this redemption of the

TOPrS would constitute, for United States Federal income tax purposes, a taxable disposition, and a holder would recognize gain or loss as if the holder had sold its proportionate interest in the redeemed partnership preferred securities for an amount of cash equal to the proceeds received upon redemption. See "--Disposition of TOPrS".

#### Disposition of TOPrS

A holder that sells TOPrS will recognize gain or loss equal to the difference between the amount realized on the sale of the TOPrS and the holder's adjusted tax basis in the TOPrS sold. Gain or loss to the seller will be a capital gain or loss and will be a long-term capital gain or loss if the TOPrS have been held for more than one year at the time of the sale. A holder will be required to include accumulated but unpaid distributions on the partnership preferred securities through the date of disposition in income as ordinary income, and to add this amount to the adjusted tax basis of its TOPrS.

A holder's tax basis in its TOPrS generally will equal the amount paid by the holder for its TOPrS,

- . increased by the amount includible in income by the holder with respect to its TOPrS, and
- . reduced by the amount of cash or other property distributed to the holder with respect to its TOPrS.

A holder who acquires TOPrS at different prices may be required to maintain a single aggregate adjusted tax basis in all of its TOPrS and, upon sale or other disposition of some of its TOPrS, to allocate a pro rata portion of such aggregate tax basis to the TOPrS sold, rather than maintaining a separate tax basis in each TOPrS for purposes of computing gain or loss on a sale of that TOPrS.

#### Other Partnership Provisions

Section 708. Under Section 708 of the Code, ML Partnership will be deemed to terminate for United States Federal income tax purposes if 50% or more of the capital and profits interests in ML Trust are sold or exchanged within a 12-month period. Pursuant to final Treasury regulations issued on May 9, 1997, if a deemed termination under Section 708 were to occur, ML Partnership would be considered to have contributed

52

its assets to a new partnership in return for partnership interests therein and then to have distributed those new partnership interests to the partners of the old partnership in liquidation thereof.

Section 701. The Department of Treasury has promulgated regulations under Section 701 of the Code that generally permit it to recast a transaction or disregard a partnership if a partnership is formed or availed of in connection with a transaction a principal purpose of which is to reduce substantially the present value of the partners' aggregate Federal tax liability in a manner that is inconsistent with the intent of the partnership provisions of the Code or to treat a partnership as an aggregate of its partners as appropriate to carry out the purpose of any provision of the Code or the Treasury regulations thereunder. ML Partnership has been formed for, and will engage in, activities typical for partnerships. Although there is no precedent that applies to the transactions contemplated herein, Tax Counsel believes that ML Partnership is not of the type intended to fall within the scope of these regulations.

#### Information Reporting and Backup Withholding

Income on the TOPrS will be reported to holders on an IRS Form 1099, which form should be mailed to holders of TOPrS by January 31 following each calendar year. Payments made on and proceeds from the sale of TOPrS may be subject to a "back-up" withholding tax of 31% unless the holder complies with certain identification requirements. Any withheld amount generally will be allowed as a credit against the holder's United States Federal income tax, provided the required information is timely filed with the IRS.

#### New Withholding Regulations

The Treasury Department has issued new regulations (the "New Regulations") which make certain modifications to the back-up withholding and information reporting rules described above. The New Regulations attempt to unify certification requirements and modify reliance standards. The New Regulations will generally be effective for payments made after December 31, 2000, subject to certain transition rules. Prospective investors are urged to consult their own tax advisors regarding the New Regulations.

53

UNDERWRITING

Subject to the terms and conditions set forth in a purchase agreement, ML Trust has agreed to sell to each of the underwriters named below, and each of the underwriters, for whom MLPF&S and are acting as representatives, has severally agreed to purchase the number of TOPrS set forth opposite its name below. In the purchase agreement, the several underwriters have agreed, subject to the terms and conditions set forth therein, to purchase all the TOPrS offered by this prospectus if any of the TOPrS are purchased. In the event of default by an underwriter, the purchase agreement provides that, in certain circumstances, the purchase commitments of the non-defaulting underwriters may be increased or the purchase agreement may be terminated.

<TABLE>  
<CAPTION>

Underwriters -----	Number of TOPrS -----
<S>	<C>
Merrill Lynch, Pierce, Fenner & Smith Incorporated.....	-----
Total.....	=====

</TABLE>

Commission and Discounts

The underwriters propose to offer the TOPrS to the public at the public offering price set forth on the cover page of this prospectus, and, to certain dealers at that price less a concession not in excess of \$ per TOPrS; provided, that the concession for sales of 10,000 or more TOPrS to any single purchaser will be \$ per TOPrS. The underwriters may allow, and such dealers may reallow, a discount not in excess of \$ per TOPrS to certain brokers and dealers. After the TOPrS are released for sale to the public, the offering price, concession and discount may be changed. Proceeds to be received by ML&Co. will be net of the underwriting discount and expenses payable by ML&Co.

In view of the fact that the proceeds of the sale of the TOPrS will ultimately be used to purchase the investment instruments of ML&Co. and its subsidiaries, the purchase agreement provides that ML&Co. will pay as compensation to the underwriters, an amount in immediately available funds of \$ per TOPrS (or \$ in the aggregate) for the accounts of the several underwriters; provided that, such compensation in respect of sales by any underwriter of 10,000 or more TOPrS to any single purchaser will be \$ per TOPrS. Therefore, to the extent of any such sales, the actual amount of underwriters' compensation will be less than the aggregate amount specified in the preceding sentence.

Listing

Application will be made to list the TOPrS on the NYSE. Trading of the TOPrS on the NYSE is expected to commence within a 30-day period after the initial delivery of the TOPrS. The representatives have advised ML Trust that they intend to make a market in the TOPrS prior to the commencement of trading on the NYSE. The representatives will have no obligation to make a market in the TOPrS, however, and may cease market making activities, if commenced, at any time.

Before this offering there has been no public market for the TOPrS. In order to meet one of the requirements for listing the TOPrS on the NYSE, the underwriters will undertake to sell lots of 100 or more TOPrS to a minimum of 400 beneficial holders, that there will be at least one million units of TOPrS outstanding and that the TOPrS will have a minimum market value of \$4,000,000.

Price Stabilization, Short Positions and Penalty Bids

In connection with the offering, the underwriters are permitted to engage in certain transactions that stabilize the market price of the TOPrS. Such transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the market price of the TOPrS. If the underwriters create a short position in the TOPrS in connection with the offering, i.e., if they sell more TOPrS than are set forth on the cover page of this prospectus, the underwriters may reduce that short position by purchasing TOPrS in the open market. Because the underwriters have no overallotment options with respect to the TOPrS, they would be required to close out a short position in the TOPrS by purchasing TOPrS in the open market. In general, purchases of a security in the open market for the purpose of stabilization or to reduce a short position could have the effect of raising or maintaining the market price of the security or preventing or retarding a decline in the market price of the security.

The underwriters may also impose a penalty bid on certain underwriters and selling group members. This means that if an underwriter purchases TOPrS in the open market to reduce the underwriters' short position or to stabilize the

price of the TOPrS, that underwriter may reclaim the amount of the selling concession from the underwriters and selling group members who sold those TOPrS as part of the offering. The imposition of a penalty bid might have an effect on the price of a security to the extent that it were to discourage resales of the security.

Neither ML&Co. nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the TOPrS. In addition, neither ML&Co. nor any of the underwriters makes any representation that the underwriters will engage in such transactions or that such transactions, once commenced, will not be discontinued without notice.

#### Miscellaneous

ML Trust, ML&Co., and ML Partnership have agreed to indemnify the underwriters against, or contribute to payments that the underwriters may be required to make in respect of, certain liabilities, including liabilities under the Securities Act.

Because MLPF&S, one of the underwriters in the offering, is an affiliate of ML&Co. and a member of the National Association of Securities Dealers, Inc., the offering of TOPrS will be conducted pursuant to the applicable sections of Rule 2810 of the Conduct Rules of the NASD. The underwriters may not confirm sales to any discretionary account without the prior specific written approval of the customer.

Certain of the underwriters and their affiliates engage in transactions with, and perform services for, ML&Co. in the ordinary course of business and have engaged, and may in the future engage, in commercial banking and investment banking transactions with ML&Co. MLPF&S may use this prospectus for offers and sales related to market-making transactions in the TOPrS. MLPF&S may act as principal or agent in these transactions, and the sales will be made at prices related to prevailing market prices at the time of sale.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

55

We have filed a registration statement on Form S-3 with the SEC covering the TOPrS and other securities. For further information on ML&Co. and the TOPrS, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

LEGAL MATTERS

Certain matters of Delaware law relating to the legality of the TOPrS, the validity of ML Trust Agreement, the formation of ML Trust and ML Partnership and the legality under state law of the TOPrS and the partnership preferred securities are being passed upon by Skadden, Arps, Slate, Meagher & Flom (Delaware), special Delaware counsel to ML Trust, the Partnership and ML&Co. The legality under state law of The Trust Guarantee, the Partnership Guarantee, the ML&Co. Debenture and the Investment Guarantees with respect to the Affiliate Debentures will be passed upon on behalf of ML Trust, ML Partnership and ML&Co. by Brown & Wood LLP, New York, New York. The validity of the TOPrS, the partnership preferred securities and the Trust Guarantee and the Partnership Guarantee will be passed upon on behalf of the underwriters by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York, counsel to the underwriters.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing. The balance sheets of Merrill Lynch Preferred Funding VI, L.P. and Merrill Lynch Preferred Capital Trust VI as of December 31, 1999 included in this prospectus have also been audited by Deloitte & Touche LLP, as stated in their reports appearing herein, and have been so included in reliance upon such reports of Deloitte & Touche LLP given upon their authority as experts in accounting and auditing.

INDEPENDENT AUDITORS' REPORT

To the General Partner and Initial Limited Partner of  
Merrill Lynch Preferred Funding VI, L.P.

We have audited the accompanying balance sheet of Merrill Lynch Preferred Funding VI, L.P. (the "Partnership") as of December 31, 1999. This balance sheet is the responsibility of the Partnership's management. Our responsibility is to express an opinion on this balance sheet based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall balance sheet presentation. We believe that our audit of the balance sheet provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of the Partnership as of December 31, 1999, in conformity with generally accepted accounting principles.

NOTE TO BALANCE SHEET OF MERRILL LYNCH PREFERRED FUNDING VI, L.P.

Merrill Lynch Preferred Funding VI, L.P. (the "Partnership") is a limited partnership that was formed under the Delaware Revised Uniform Limited Partnership Act on December 7, 1998 for the exclusive purposes of purchasing certain eligible debt instruments of Merrill Lynch & Co., Inc. ("ML&Co.") and wholly owned subsidiaries of ML&Co. (the "Affiliate Investment Instruments") with the proceeds from the sale of Partnership Preferred Securities (the "Partnership Preferred Securities") to Merrill Lynch Preferred Capital Trust VI (the "Trust") and a capital contribution from ML&Co. in exchange for the general partnership interest in the Partnership (collectively, the "Partnership Proceeds"). The Partnership Proceeds will be used initially to purchase debt instruments from ML&Co. and certain domestic wholly owned subsidiaries of ML&Co., retaining 1% in unaffiliated debt securities. The Partnership shall have a perpetual existence subject to certain termination events.

The Partnership Preferred Securities will be redeemable for cash, at the option of the Partnership, in whole or in part, from time to time, after a certain date to be determined. Except as provided in the Limited Partnership Agreement and Partnership Preferred Securities Guarantee Agreement, and as otherwise provided by law, the holders of the Partnership Preferred Securities will have no voting rights.

ML&Co. serves as the sole general partner of the Partnership. ML&Co., in its capacity as General Partner of the Partnership, has agreed to pay all fees and expenses related to the organization and operations of the Partnership (including any taxes, duties, assessments or government charges of whatever nature (other than withholding taxes) imposed by the United States or any other domestic taxing authority upon the Partnership) and the offering of the Partnership Preferred Securities and be responsible for all debts and other obligations of the Partnership (other than with respect to the Partnership Preferred Securities). The General Partner has agreed to indemnify certain officers and agents of the Partnership.

MERRILL LYNCH PREFERRED CAPITAL TRUST VI

December 31, 1999

<TABLE>	
<S>	<C>
Assets.....	\$ 0
	===
Trust securities.....	\$ 0
	===
</TABLE>	

NOTE TO BALANCE SHEET OF MERRILL LYNCH PREFERRED CAPITAL TRUST VI

Merrill Lynch Preferred Capital Trust VI (the "Trust") is a statutory business trust formed on December 7, 1998 under the laws of the State of Delaware for the exclusive purposes of (i) issuing the Trust Originated Preferred Securities (the "TOPrS") and the common securities (together with the TOPrS, the "Trust Securities") representing undivided beneficial ownership interests in the assets of the Trust, (ii) purchasing Partnership Preferred Securities (the "Partnership Preferred Securities") representing the limited partnership interests of Merrill Lynch Preferred Funding VI, L.P. (the "Partnership") with the proceeds from the sale of the Trust Securities, and (iii) engaging in only those other activities necessary or incidental thereto. The Trust has a perpetual existence, subject to certain termination events as provided in the Declaration of Trust under which it was formed. Subsequent to December 31, 1999, the Trust intends to issue and sell its TOPrS in a public offering and to issue and sell its common securities to Merrill Lynch & Co.,

Inc. ("ML&Co"). No TOPrS have been issued as of December 31, 1999.

The proceeds from the Trust's sale of the Trust Securities will be used to purchase the Partnership Preferred Securities from the Partnership. The Partnership Preferred Securities will be redeemable for cash, at the option of the Partnership, in whole or in part, from time to time, after a certain date to be determined. Upon any redemption of the Partnership Preferred Securities, the TOPrS will be redeemed, in whole or in part, as applicable. Holders of the TOPrS will have limited voting rights and will not be entitled to vote to appoint, remove or replace, or to increase or decrease the number of, trustees, which voting rights are vested exclusively in the holder of the common securities.

ML&Co. will be obligated to pay compensation to the underwriters of the offering of the TOPrS. ML&Co. will pay all fees and expenses related to the organization and operations of the Trust (including any taxes, duties, assessments or governmental charges of whatever nature (other than withholding taxes) imposed by the United States or any other domestic taxing authority upon the Trust) and the offering of the TOPrS and be responsible for all debts and other obligations of the Trust (other than the Trust Securities). ML&Co. has also agreed to indemnify the Trustees and certain other persons.

The proceeds from the Trust's sale of the Trust Securities will be used to purchase the Partnership Preferred Securities from the Partnership. The Partnership Preferred Securities will be redeemable for cash, at the option of the Partnership, in whole or in part, from time to time, after a certain date to be determined. Upon any redemption of the Partnership Preferred Securities, the TOPrS will be redeemed, in whole or in part, as applicable. Holders of the TOPrS will have limited voting rights and will not be entitled to vote to appoint, remove or replace, or to increase or decrease the number of, trustees, which voting rights are vested exclusively in the holder of the common securities.

ML&Co. will be obligated to pay compensation to the underwriters of the offering of the TOPrS. ML&Co. will pay all fees and expenses related to the organization and operations of the Trust (including any taxes, duties, assessments or governmental charges of whatever nature (other than withholding taxes) imposed by the United States or any other domestic taxing authority upon the Trust) and the offering of the TOPrS and be responsible for all debts and other obligations of the Trust (other than the Trust Securities). ML&Co. has also agreed to indemnify the Trustees and certain other persons.

PROSPECTUS SUPPLEMENT  
 (To prospectus dated , 2000) \$

[LOGO]

Merrill Lynch & Co., Inc.  
 Medium-Term Notes, Series B  
 Due Nine Months or More from Date of Issue

The notes:

- . We will offer notes from time to time and specify the terms and conditions of each issue of notes in a pricing supplement.
- . The notes may bear interest at fixed or floating rates or may not bear any interest.
- . If the notes bear interest at a floating rate, the floating rate may be based on one or more indices or formulas plus or minus a fixed amount or multiplied by a factor.
- . The notes will be senior unsecured debt securities of ML&Co.
- . The notes will have stated maturities of nine months or more from the date they are originally issued.
- . We will specify whether the notes can be redeemed or repaid before their maturity and whether they are subject to mandatory redemption, redemption at the option of ML&Co. or repayment at the option of the holder of the notes.
- . We will pay amounts due on the notes in U.S. dollars or any other consideration described in the applicable pricing supplement.

Investing in the notes involves risks that are described in the "Risk Factors" section beginning on page S-3 of this prospectus supplement.

S-2

RISK FACTORS

Your investment in the notes involves certain risks. In consultation with your own financial and legal advisers, you should carefully consider, among other matters, the following discussion of risks before deciding whether an investment in the notes is suitable for you. The notes are not an appropriate investment for you if you are unsophisticated with respect to their significant components and interrelationships.

Structure Risks of Notes Indexed to Interest Rate, Currency or Other Indices or Formulas

If you invest in notes indexed to one or more interest rate, currency or other indices or formulas, there will be significant risks not associated with a conventional fixed rate or floating rate debt security. These risks include

fluctuation of the indices or formulas and the possibility that you will receive a lower, or no, amount of principal, premium or interest and at different times than you expected. We have no control over a number of matters, including economic, financial and political events, that are important in determining the existence, magnitude and longevity of these risks and their results. In addition, if an index or formula used to determine any amounts payable in respect of the notes contains a multiplier or leverage factor, the effect of any change in that index or formula will be magnified. In recent years, values of certain indices and formulas have been volatile and volatility in those and other indices and formulas may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future.

#### Redemption May Adversely Affect Your Return on the Notes

If your notes are redeemable at our option we may choose to redeem your notes at times when prevailing interest rates are relatively low. In addition, if your notes are subject to mandatory redemption, we may be required to redeem your notes at times when prevailing interest rates are also relatively low. As a result, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the notes.

#### There May Not Be Any Trading Market for Your Notes; Many Factors Affect the Trading Market and Value of Your Notes

We cannot assure you a trading market for your notes will ever develop or be maintained. In addition to our own creditworthiness, many other factors may affect the trading market value of, and trading market for, your notes. These factors include:

- . the complexity and volatility of the index or formula applicable to your notes,
- . the method of calculating the principal, premium and interest in respect of your notes,
- . the time remaining to the maturity of your notes,
- . the outstanding amount of your notes,
- . any redemption features of your notes,
- . the amount of other securities linked to the index or formula applicable to your notes, and
- . the level, direction and volatility of market interest rates generally.

In addition, notes that are designed for specific investment objectives or strategies often experience a more limited trading market and more price volatility. There may be a limited number of buyers when you decide to sell your notes. This may affect the price you receive for your notes or your ability to sell your notes at all. You should not purchase notes unless you understand and know you can bear all of the investment risks related to your notes.

S-3

#### Our Credit Ratings May Not Reflect All Risks of an Investment in the Notes

Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of your notes. Our credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors discussed above on the value of your notes.

#### DESCRIPTION OF THE NOTES

The notes will be issued as a series of debt securities under a senior indenture, dated as of October 1, 1993, as amended (the "1993 Indenture"), between ML&Co. and The Chase Manhattan Bank, as trustee. The term "senior debt securities," as used in this prospectus supplement, refers to all securities issued and issuable from time to time under ML&Co.'s senior indentures and includes the notes. The senior debt securities and ML&Co.'s senior indentures are more fully described in the accompanying prospectus. The following summary of the material provisions of the notes and of the 1993 Indenture is not complete and is qualified in its entirety by reference to the 1993 Indenture, a copy of which has been filed as an exhibit to the registration statement of which this prospectus supplement and the accompanying prospectus are a part.

You should rely only on the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus and any pricing supplement. Neither we nor MLPF&S has authorized any other person to provide you with different or additional information. If anyone provides you

with different or additional information, you should not rely on it. Neither we nor MLPF&S is making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus and any pricing supplement is accurate only as of the date on the front cover of the applicable pricing supplement.

The following description of notes will apply unless otherwise specified in an applicable pricing supplement.

#### Terms of the Notes

All senior debt securities, including the notes, issued and to be issued under ML&Co.'s senior indentures will be unsecured general obligations of ML&Co. and will rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. from time to time outstanding. Because ML&Co. is a holding company, the right of ML&Co. and its creditors, including the holders of the notes, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of that subsidiary, except to the extent that a bankruptcy court may recognize the claims of ML&Co. itself as a creditor of that subsidiary. In addition, dividends, loans and advances to ML&Co. from certain subsidiaries, including MLPF&S, are restricted by net capital requirements under the Securities Exchange Act of 1934, as amended, and under rules of certain exchanges and other regulatory bodies.

ML&Co.'s senior indentures do not limit the aggregate principal amount of senior debt securities which ML&Co. may issue. ML&Co. may issue its senior debt securities from time to time as a single series or in two or more separate series up to the aggregate principal amount from time to time authorized by ML&Co. for each series. ML&Co. may, from time to time, without the consent of the holders of the notes, provide for the issuance of notes or other senior debt securities under its senior indentures in addition to the \$ aggregate principal amount of notes offered by this prospectus supplement. As of , ML&Co. had approximately \$ billion aggregate principal amount of notes issued and outstanding. The aggregate principal amount of notes which may be offered and sold by this prospectus supplement may be reduced by the sale by ML&Co. of other securities under the registration statement of which this prospectus supplement and the accompanying prospectus are a part.

S-4

The notes will be offered on a continuing basis and will mature on a day nine months or more from the date of their issue (the "stated maturity date"), as selected by the purchaser and agreed to by ML&Co., or on any date before the stated maturity date on which the principal or an installment of principal of a note becomes due and payable, whether by the declaration of acceleration, call for redemption at the option of ML&Co., notice of repayment at the option of the holder or otherwise (the stated maturity date or such prior date, as the case may be, is referred to as, a "Maturity"). Interest-bearing notes will bear interest at either fixed or floating rates as specified in the applicable pricing supplement. Some notes may not bear interest. In addition, notes may be issued at significant discounts from their principal amount payable at Maturity.

Unless otherwise specified in the applicable pricing supplement, the notes will be denominated in United States dollars and ML&Co. will make payments of principal of, and premium, if any, and interest on, the notes in United States dollars.

Interest rates offered by ML&CO. with respect to the notes may differ depending upon, among other factors, the aggregate principal amount of notes purchased in any single transaction. ML&Co. may offer notes with similar variable terms but different interest rates concurrently at any time. ML&Co. also may concurrently offer notes having different variable terms to different investors. Interest rates, interest rate formulae and other variable terms of the notes are subject to change by ML&Co. from time to time, but no change will affect any note already issued or as to which ML&Co. has accepted an offer to purchase.

Each note will be issued in fully registered book-entry form or certificated form, in denominations of \$1,000 and integral multiples of \$1,000. Notes in book-entry form may be transferred or exchanged only through a participating member of The Depository Trust Company, also known as DTC, or any other depository as is identified in an applicable pricing supplement. See "--Book-Entry Notes". Registration of transfer of notes in certificated form will be made at the corporate trust office of the trustee. There will be no service charge for any registration of transfer or exchange of notes, but ML&Co. may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with any transfer or exchange, other than exchanges pursuant to the 1993 Indenture not involving any transfer.

ML&Co. will make payments of principal of, and premium and interest, if any, on notes in book-entry form through the trustee to the depository or its nominee. See "--Book-Entry Notes". Unless otherwise specified in the applicable

pricing supplement, a beneficial owner of notes in book-entry form that are denominated in a currency other than United States dollars (a "Specified Currency") electing to receive payments of principal or any premium or interest in that Specified Currency must notify the participant of DTC through which its interest is held on or before the applicable regular record date, in the case of a payment of interest, and on or before the sixteenth day, whether or not a Business Day, as defined below, before its stated maturity date, in the case of principal or premium, of the beneficial owner's election to receive all or a portion of any payment in a Specified Currency. The participant must notify the depository of any election on or before the third Business Day after the regular record date. The depository will notify the paying agent of the election on or before the fifth Business Day after the regular record date. If complete instructions are received by the participant and forwarded to the depository, and forwarded by the depository to the paying agent, on or before the relevant dates, the beneficial owner of the notes in book-entry form will receive payments in the Specified Currency.

In the case of notes in certificated form, ML&Co. will make payment of principal or premium, if any, due at Maturity of each note in immediately available funds upon presentation of the note and, in the case of any repayment on an optional repayment date, upon submission of a duly completed election form if and as required by the provisions described below, at the corporate trust office of the trustee in the Borough of Manhattan, The City of New York, or at any other place as ML&Co. may designate. Payment of interest due at Maturity of the notes in certificated form will be made to the person to whom payment of the principal thereof will be made. Payment of interest due on notes in certificated form other than at Maturity will be made at the corporate trust office of the trustee or, at the option of ML&Co., may be made by check mailed to the address

S-5

of the person entitled to receive payment as the address shall appear in the security register. Notwithstanding the immediately preceding sentence, a holder of \$1,000,000 or more in aggregate principal amount of notes in certificated form, whether having identical or different terms and provisions will, at the option of ML&Co., be entitled to receive interest payments, other than at Maturity, by wire transfer of immediately available funds if appropriate wire transfer instructions have been received in writing by the trustee not less than 15 days prior to the applicable interest payment date. Any wire instructions received by the trustee shall remain in effect until revoked by the applicable holder.

"Business Day" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in The City of New York; provided, however, that, with respect to non-United States dollar-denominated notes, the day is also not a day on which commercial banks are authorized or required by law, regulation or executive order to close in the Principal Financial Center, as defined below, of the country issuing the Specified Currency or, if the Specified Currency is Euro, the day is also a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET) System is open; provided, further, that, with respect to notes as to which LIBOR is an applicable Interest Rate Basis, the day is also a London Banking Day. "London Banking Day" means a day on which commercial banks are open for business, including dealings in the LIBOR Currency, as defined below, in London.

"Principal Financial Center" means:

- (1) the capital city of the country issuing the Specified Currency, except that with respect to United States dollars, Australian dollars, Canadian dollars, Deutsche marks, Dutch guilders, Italian lire, South African rand and Swiss francs, the "Principal Financial Center" will be The City of New York, Sydney and Melbourne, Toronto, Frankfurt, Amsterdam, Milan, Johannesburg and Zurich, respectively, or
- (2) the capital city of the country to which the LIBOR Currency relates, except that with respect to United States dollars, Australian dollars, Canadian dollars, Deutsche marks, Dutch guilders, Italian lire, Portuguese escudos, South African rand and Swiss francs, the "Principal Financial Center" will be The City of New York, Sydney, Toronto, Frankfurt, Amsterdam, Milan, London, Johannesburg and Zurich, respectively.

Redemption at the Option of ML&Co.

The notes will not be subject to any sinking fund. ML&Co. may redeem the notes at its option before their stated maturity date only if an initial redemption date is specified in the applicable pricing supplement. If so indicated in the applicable pricing supplement, ML&Co. may redeem the notes at its option on any date on and after the applicable initial redemption date specified in the applicable pricing supplement. On and after the initial redemption date, if any, ML&Co. may redeem the related note at any time in

whole or from time to time in part at its option at the applicable redemption price referred to below together with interest on the principal of the applicable note payable to the redemption date, on notice given, unless otherwise specified in the applicable pricing supplement, not more than 60 nor less than 30 days before the redemption date. ML&Co. will redeem the notes in increments of \$1,000, provided that any remaining principal amount will be an authorized denomination of the applicable note. Unless otherwise specified in the applicable pricing supplement, the redemption price with respect to a note will initially mean a percentage, the initial redemption percentage, of the principal amount of the note to be redeemed specified in the applicable pricing supplement and shall decline at each anniversary of the initial redemption date by a percentage specified in the applicable pricing supplement, of the principal amount to be redeemed until the redemption price is 100% of the principal amount.

#### Repayment at the Option of the Holder

If so indicated in an applicable pricing supplement, ML&Co. will repay the notes in whole or in part at the option of the holders of the notes on any optional repayment date specified in the applicable pricing

S-6

supplement. If no optional repayment date is indicated with respect to a note, it will not be repayable at the option of the holder before its stated maturity date. Any repayment in part will be in an amount equal to \$1,000 or integral multiples of \$1,000, provided that any remaining principal amount will be an authorized denomination of the applicable note. The repurchase price for any note repurchased will be 100% of the principal amount to be repaid, together with interest on the principal of the applicable note payable to the date of repayment. For any note to be repaid, the trustee must receive, at its office maintained for such purpose in the Borough of Manhattan, The City of New York, currently the corporate trust office of the trustee, not more than 60 nor less than 30 days before the optional repayment date, the particular note being repaid:

- . in the case of a note in certificated form, the form entitled "Option to Elect Repayment" duly completed, or
- . in the case of a note in book-entry form, instructions to that effect from the applicable beneficial owner thereof to the depository and forwarded by the depository.

Notices of elections from a holder to exercise the repayment option must be received by the trustee by 5:00 p.m., New York City time, on the last day for giving notice. Exercise of the repayment option by the holder of a note will be irrevocable.

Only the depository may exercise the repayment option in respect of global securities representing notes in book-entry form. Accordingly, beneficial owners of global securities that desire to have all or any portion of the notes in book-entry form represented by global securities repaid must instruct the participant through which they own their interest to direct the depository to exercise the repayment option on their behalf by forwarding the repayment instructions to the trustee as discussed above. In order to ensure that the instructions are received by the trustee on a particular day, the applicable beneficial owner must so instruct the participant through which it owns its interest before that participant's deadline for accepting instructions for that day. Different firms may have different deadlines for accepting instructions from their customers. Accordingly, beneficial owners of notes in book-entry form should consult the participants through which they own their interest for the respective deadlines. All instructions given to participants from beneficial owners of notes in book-entry form relating to the option to elect repayment will be irrevocable. In addition, at the time instructions are given, each beneficial owner will cause the participant through which it owns its interest to transfer its interest in the global security or securities representing the related notes in book-entry form, on the depository's records, to the trustee. See "--Book-Entry Notes".

If applicable, ML&Co. will comply with the requirements of Section 14(e) of the Exchange Act and the rules promulgated thereunder and any other securities laws or regulations in connection with any repayment at the option of the holder.

ML&Co. may at any time purchase notes at any price or prices in the open market or otherwise. Notes so purchased by ML&Co. may, at the discretion of ML&Co., be held, resold or surrendered to the trustee for cancellation.

#### Interest

Each interest-bearing note will bear interest from the date of issue at the rate per annum, in the case of a fixed rate note, or pursuant to the interest rate formula, in the case of a floating rate note, in each case as stated in the applicable pricing supplement until the principal of the note is paid or made available for payment. Interest will be payable in arrears on each

interest payment date specified in the applicable pricing supplement on which an installment of interest is due and payable and at Maturity. The first payment of interest on any note originally issued between a regular record date and the related interest payment date will be made on the interest payment date immediately following the next succeeding regular record date to the holder on the next succeeding regular record date. The regular record date will be the fifteenth calendar day, whether or not a Business Day, immediately preceding the related interest payment date.

S-7

#### Fixed Rate Notes

Each fixed rate note will bear interest from, and including, the date of issue, at the rate per annum stated on the face of the note until the principal amount of the note is paid or made available for payment. Interest payments on fixed rate notes will equal the amount of interest accrued from and including the immediately preceding interest payment date in respect of which interest has been paid or from, and including, the date of issue, if no interest has been paid with respect to the applicable fixed rate notes, to, but excluding, the applicable interest payment date or Maturity, as the case may be. Unless otherwise specified in the applicable pricing supplement, interest on fixed rate notes will be computed on the basis of a 360-day year of twelve 30-day months.

Interest on fixed rate notes will be payable semiannually on May 15 and November 15 of each year and at Maturity. If any interest payment date or the Maturity of a fixed rate note falls on a day that is not a Business Day, the related payment of principal, premium, if any, or interest will be made on the next succeeding Business Day as if made on the date the applicable payment was due, and no interest will accrue on the amount payable for the period from and after the interest payment date or Maturity, as the case may be.

#### Floating Rate Notes

Interest on floating rate notes will be determined by reference to the applicable Interest Rate Basis or Interest Rate Bases, which may be one or more of:

- . the CD Rate,
- . the CMT Rate,
- . the Commercial Paper Rate,
- . the Eleventh District Cost of Funds Rate,
- . the Federal Funds Rate,
- . LIBOR,
- . the Prime Rate,
- . the Treasury Rate, or
- . any other Interest Rate Basis or interest rate formula that is specified in the applicable pricing supplement.

A floating rate note may bear interest with respect to two or more Interest Rate Bases.

Each applicable pricing supplement will specify certain terms of the floating rate note being delivered, including:

- . whether the floating rate note is
  - . a "Regular Floating Rate Note",
  - . a "Inverse Floating Rate Note" or
  - . a "Floating Rate/Fixed Rate Note",
- . the Interest Rate Basis or Bases,
- . the Initial Interest Rate,
- . the Interest Reset Dates,
- . the interest payment dates,

S-8

- . the period to maturity of the instrument or obligation with respect

to which the Interest Rate Basis or Bases will be calculated (the "Index Maturity"),

- . the Maximum Interest Rate and Minimum Interest Rate, if any,
- . the number of basis points to be added to or subtracted from the related Interest Rate Basis or Bases (the "Spread"),
- . the percentage of the related Interest Rate Basis or Bases by which the Interest Rate Basis or Bases will be multiplied to determine the applicable interest rate (the "Spread Multiplier"), and
- . if one or more of the specified Interest Rate Bases is LIBOR, the LIBOR Currency and the LIBOR Page.

The interest rate borne by the floating rate notes will be determined as follows:

Regular Floating Rate Notes. Unless a floating rate note is designated as a Floating Rate/Fixed Rate Note or an Inverse Floating Rate Note or as having an Addendum attached or as having "Other Provisions" apply relating to a different interest rate formula, it will be a "Regular Floating Rate Note" and will bear interest at the rate determined by reference to the applicable Interest Rate Basis or Bases:

- . plus or minus the applicable Spread, if any, and/or
- . multiplied by the applicable Spread Multiplier, if any.

Commencing on the first Interest Reset Date, the rate at which interest on the Regular Floating Rate Note will be payable will be reset as of each Interest Reset Date; provided, however, that the interest rate in effect for the period from the date of issue to the first Interest Reset Date will be the Initial Interest Rate.

Floating Rate/Fixed Rate Notes. If a floating rate note is designated as a "Floating Rate/Fixed Rate Note", it will bear interest at the rate determined by reference to the applicable Interest Rate Basis or Bases:

- . plus or minus the applicable Spread, if any, and/or
- . multiplied by the applicable Spread Multiplier, if any.

Commencing on the first Interest Reset Date, the rate at which interest on the Floating Rate/Fixed Rate Note will be payable will be reset as of each Interest Reset Date; provided, however, that:

- . the interest rate in effect for the period from the date of issue to the first Interest Reset Date will be the Initial Interest Rate, and
- . the interest rate in effect commencing on, and including, the date on which interest begins to accrue on a fixed rate basis to Maturity will be the Fixed Interest Rate, if the rate is specified in the applicable pricing supplement, or if no Fixed Interest Rate is specified, the interest rate in effect on the Floating Rate/Fixed Rate Note on the day immediately preceding the date on which interest begins to accrue on a fixed rate basis.

Inverse Floating Rate Notes. If a floating rate note is designated as an "Inverse Floating Rate Note" it will bear interest equal to the Fixed Interest Rate specified in the related pricing supplement minus the rate determined by reference to the applicable Interest Rate Basis or Bases:

- . plus or minus the applicable Spread, if any, and/or
- . multiplied by the applicable Spread Multiplier, if any;

provided, however, that the interest rate on the applicable Inverse Floating Rate Note will not be less than zero percent. Commencing on the first Interest Reset Date, the rate at which interest on the Inverse Floating Rate

S-9

Note is payable will be reset as of each Interest Reset Date; provided, however, that the interest rate in effect for the period from the date of issue to the first Interest Reset Date will be the Initial Interest Rate.

The interest rate derived from an Interest Rate Basis will be determined in accordance with the applicable provisions below. The interest rate in effect on each day will be based on:

- . if the day is an Interest Reset Date, the interest rate determined as of the Interest Determination Date, as defined below, immediately preceding the applicable Interest Reset Date, or

- . if the day is not an Interest Reset Date, the interest rate determined as of the Interest Determination Date immediately preceding the most recent Interest Reset Date.

Interest Reset Dates. The applicable pricing supplement will specify the dates on which the interest rate on the related floating rate note will be reset, each, an "Interest Reset Date". The Interest Reset Date will be, in the case of floating rate notes which reset:

- . daily--each Business Day;
- . weekly--the Wednesday of each week, with the exception of weekly reset Floating Rate Notes as to which the Treasury Rate is an applicable Interest Rate Basis, which will reset the Tuesday of each week, except as described below under "--Interest Determination Dates";
- . monthly--the third Wednesday of each month, with the exception of monthly reset Floating Rate Notes as to which the Eleventh District Cost of Funds Rate is an applicable Interest Rate Basis, which will reset on the first calendar day of the month;
- . quarterly--the third Wednesday of March, June, September and December of each year;
- . semiannually--the third Wednesday of the two months specified in the applicable pricing supplement; and
- . annually--the third Wednesday of the month specified in the applicable pricing supplement;

provided, however, that with respect to Floating Rate/Fixed Rate Notes, the rate of interest will not reset after the applicable date on which interest on a fixed rate basis begins to accrue.

If any Interest Reset Date for any floating rate note would otherwise be a day that is not a Business Day, the applicable Interest Reset Date will be postponed to the next succeeding day that is a Business Day, except that in the case of a floating rate note as to which LIBOR is an applicable Interest Rate Basis, if the Business Day falls in the next succeeding calendar month, then the applicable Interest Reset Date will be the immediately preceding Business Day. In addition, in the case of a floating rate note for which the Treasury Rate is an applicable Interest Rate Basis, if the Interest Determination Date would otherwise fall on an Interest Reset Date, then the applicable Interest Reset Date will be postponed to the next succeeding Business Day.

Maximum and Minimum Interest Rates. A floating rate note may also have either or both of the following:

- . a maximum numerical limitation, or ceiling, on the rate at which interest may accrue during any interest period (a "Maximum Interest Rate"), and
- . a minimum numerical limitation, or floor, on the rate at which interest may accrue during any period (a "Minimum Interest Rate").

The 1993 Indenture is, and any notes issued under the 1993 Indenture will be, governed by and construed in accordance with the laws of the State of New York. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to securities in which \$2,500,000 or more has been invested. While ML&Co. believes that New York law would be given effect by a

S-10

state or federal court sitting outside of New York, state laws frequently regulate the amount of interest that may be charged to and paid by a borrower, including, in some cases, corporate borrowers. It is suggested that prospective investors consult their personal advisors with respect to the applicability of these laws. ML&Co. has agreed for the benefit of the beneficial owners of the notes, to the extent permitted by law, not to claim voluntarily the benefits of any laws concerning usurious rates of interest against a beneficial owner of the notes.

Interest Payments. Each applicable pricing supplement will specify the dates on which interest will be payable. Each floating rate note will bear interest from the date of issue at the rates specified in the applicable floating rate note until the principal of the applicable note is paid or otherwise made available for payment. The interest payment dates with respect to floating rate notes will be, in the case of floating rate notes which reset:

- . daily, weekly or monthly--the third Wednesday of each month or on the third Wednesday of March, June, September and December of each year, as specified in the applicable pricing supplement;

- . quarterly--the third Wednesday of March, June, September and December of each year;
- . semiannually--the third Wednesday of the two months of each year specified in the applicable pricing supplement;
- . annually--the third Wednesday of the month of each year specified in the applicable pricing supplement; and
- . at Maturity.

If any interest payment date for any floating rate note, other than an interest payment date at Maturity, would otherwise be a day that is not a Business Day, the interest payment date will be postponed to the next succeeding day that is a Business Day except that in the case of a floating rate note as to which LIBOR is an applicable Interest Rate Basis, if the Business Day falls in the next succeeding calendar month, the applicable interest payment date will be the immediately preceding Business Day. If the Maturity of a floating rate note falls on a day that is not a Business Day, we will make the required payment of principal, premium, if any, and interest on the next succeeding Business Day, and no additional interest on such payment will accrue for the period from and after the Maturity.

All percentages resulting from any calculation on floating rate notes will be rounded to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upwards. For example, 9.876545%, or .09876545, would be rounded to 9.87655%, or .0987655. All dollar amounts used in or resulting from any calculation on floating rate notes will be rounded to the nearest cent with one-half cent being rounded upward.

Interest payments on floating rate notes will equal the amount of interest accrued from and including the immediately preceding interest payment date in respect of which interest has been paid or from and including the date of issue, if no interest has been paid, to but excluding the related interest payment date or Maturity.

With respect to each floating rate note, accrued interest is calculated by multiplying its principal amount by an accrued interest factor. The accrued interest factor is computed by adding the interest factor calculated for each day in the period for which accrued interest is being calculated.

- . In the case of notes for which the Interest Rate Basis is the CD Rate, the Commercial Paper Rate, the Eleventh District Cost of Funds Rate, the Federal Funds Rate, LIBOR or the Prime Rate, the interest factor for each day will be computed by dividing the interest rate applicable to each day by 360.

S-11

- . In the case of notes for which the Interest Rate Basis is the CMT Rate or the Treasury Rate, the interest factor for each day will be computed by dividing the interest rate applicable to each day by the actual number of days in the year.
- . The interest factor for notes for which the interest rate is calculated with reference to two or more Interest Rate Bases will be calculated in each period in the same manner as if only one of the applicable Interest Rate Bases applied.

Interest Determination Dates. The interest rate applicable to each interest reset period commencing on the Interest Reset Date with respect to that interest reset period will be the rate determined as of the applicable "Interest Determination Date".

- . The Interest Determination Date with respect to the Federal Funds Rate and the Prime Rate will be the Business Day immediately preceding the related Interest Reset Date.
- . The Interest Determination Date with respect to the CD Rate, the CMT Rate and the Commercial Paper Rate will be the second Business Day preceding the related Interest Reset Date.
- . The Interest Determination Date with respect to the Eleventh District Cost of Funds Rate will be the last working day of the month immediately preceding the related Interest Reset Date on which the Federal Home Loan Bank of San Francisco publishes the Index, as defined below.
- . The Interest Determination Date with respect to LIBOR will be the second London Banking Day preceding the related Interest Reset Date.
- . The Interest Determination Date with respect to the Treasury Rate will be the day in the week in which the related Interest Reset Date falls on which day Treasury Bills, as defined below, are normally auctioned. Treasury Bills are normally sold at auction on Monday of

each week, unless that day is a legal holiday, in which case the auction is normally held on the following Tuesday, except that the auction may be held on the preceding Friday; provided, however, that if an auction is held on the Friday of the week preceding the Interest Reset Date, the related Interest Determination Date will be the preceding Friday.

- . The Interest Determination Date pertaining to a floating rate note the interest rate of which is determined with reference to two or more Interest Rate Bases will be the latest Business Day which is at least two Business Days before the related Interest Reset Date for the applicable floating rate note on which each Interest Reset Basis is determinable. Each Interest Rate Basis will be determined on the Interest Determination Date, and the applicable interest rate will take effect on the related Interest Reset Date.

Calculation Date. MLPF&S will be the calculation agent. Upon the request of the holder of any floating rate note, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective as a result of a determination made for the next Interest Reset Date with respect to that floating rate note. Unless otherwise specified in the applicable pricing supplement, the calculation date, if applicable, pertaining to any Interest Determination Date will be the earlier of:

- . the tenth calendar day after the applicable Interest Determination Date, or, if the tenth calendar day is not a Business Day, the next succeeding Business Day, or
- . the Business Day preceding the applicable Interest Payment Date or Maturity, as the case may be.

S-12

CD Rate. "CD Rate" means:

- (1) the rate on the particular Interest Determination Date for negotiable United States dollar certificates of deposit having the Index Maturity specified in the applicable pricing supplement as published in H.15(519), as defined below, under the caption "CDs (secondary market)", or
- (2) if the rate referred to in clause (1) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date for negotiable United States dollar certificates of deposit of the particular Index Maturity as published in H.15 Daily Update, as defined below, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption "CDs (secondary market)", or
- (3) if the rate referred to in clause (2) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date calculated by the calculation agent as the arithmetic mean of the secondary market offered rates as of 10:00 A.M., New York City time, on that Interest Determination Date, of three leading non-bank dealers in negotiable United States dollar certificates of deposit in The City of New York, which may include the agent or its affiliates, selected by the calculation agent for negotiable United States dollar certificates of deposit of major United States money market banks for negotiable United States certificates of deposit with a remaining maturity closest to the particular Index Maturity in an amount that is representative for a single transaction in that market at that time, or
- (4) if the dealers selected by the calculation agent are not quoting as mentioned in clause (3), the CD Rate in effect on the particular Interest Determination Date.

"H.15(519)" means the weekly statistical release designated as H.15(519), or any successor publication, published by the Board of Governors of the Federal Reserve System.

"H.15 Daily Update" means the daily update of H.15(519), available through the world-wide-web site of the Board of Governors of the Federal Reserve System at <http://www.bog.frb.fed.us/releases/h15/update>, or any successor site or publication.

CMT Rate. "CMT Rate" means:

- (1) if CMT Telerate Page 7051 is specified in the applicable pricing supplement:
  - (a) the percentage equal to the yield for United States Treasury securities at "constant maturity" having the Index Maturity

specified in the applicable pricing supplement as published in H.15(519) under the caption "Treasury Constant Maturities", as the yield is displayed on Bridge Telerate, Inc., or any successor service, on page 7051, or any other page as may replace page 7051 on that service ("Telerate Page 7051"), for the particular Interest Determination Date, or

- (b) if the rate referred to in clause 1(a) does not appear on Telerate Page 7051, the percentage equal to the yield for United States Treasury securities at "constant maturity" having the particular Index Maturity and for the particular Interest Determination Date as published in H.15(519) under the caption "Treasury Constant Maturities", or
- (c) if the rate referred to in clause 1(b) does not appear in H.15(519), the rate on the particular Interest Determination Date for the period of the particular Index Maturity as may then be published by either the Federal Reserve System Board of Governors or the United States Department of the Treasury that the calculation agent determines to be comparable to the rate which would otherwise have been published in H.15(519), or

S-13

- (d) if the rate referred to in clause 1(c) is not published, the rate on the particular Interest Determination Date calculated by the calculation agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that Interest Determination Date of three leading primary United States government securities dealers in The City of New York, which may include the agent or its affiliates (each, a "Reference Dealer"), selected by the calculation agent from five Reference Dealers selected by the calculation agent and eliminating the highest quotation or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Index Maturity, a remaining term to maturity no more than 1 year shorter than that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or
- (e) if fewer than five but more than two of the prices referred to in clause 1(d) are provided as requested, the rate on the particular Interest Determination Date calculated by the calculation agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations will be eliminated, or
- (f) if fewer than three prices referred to in clause 1(d) are provided as requested, the rate on the particular Interest Determination Date calculated by the calculation agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the calculation agent from five Reference Dealers selected by the calculation agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Index Maturity, a remaining term to maturity closest to that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or
- (g) if fewer than five but more than two prices referred to in clause 1(f) are provided as requested, the rate on the particular Interest Determination Date calculated by the calculation agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations will be eliminated, or
- (h) if fewer than three prices referred to in clause 1(f) are provided as requested, the CMT Rate in effect on the particular Interest Determination Date.

(2) if CMT Telerate Page 7052 is specified in the applicable pricing supplement:

- (a) the percentage equal to the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at "constant maturity"

having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) opposite the caption "Treasury Constant Maturities", as the yield is displayed on Bridge Telerate, Inc., or any successor service, on page 7052, or any other page as may replace page 7052 on that service ("Telerate Page 7052"), for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular Interest Determination Date falls, or

- (b) if the rate referred to in clause 2(a) does not appear on Telerate Page 7052, the percentage equal to the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at "constant maturity" having the particular Index Maturity and for the week or month, as applicable, preceding the particular Interest Determination Date as published in H.15(519) opposite the caption "Treasury Constant Maturities," or

S-14

- (c) if the rate referred to in clause 2(b) does not appear in H.15(519), the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at "constant maturity" having the particular Index Maturity as otherwise announced by the Federal Reserve Bank of New York for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular Interest Determination Date falls, or
- (d) the rate referred to in clause 2(c) is not published, the rate on the particular Interest Determination Date calculated by the calculation agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the calculation agent from five Reference Dealers selected by the calculation agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Index Maturity, a remaining term to maturity no more than 1 year shorter than that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or
- (e) if fewer than five but more than two of the prices referred to in clause 2(d) are provided as requested, the rate on the particular Interest Determination Date calculated by the calculation agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations will be eliminated, or
- (f) if fewer than three prices referred to in clause 2(d) are provided as requested, the rate on the particular Interest Determination Date calculated by the calculation agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the calculation agent from five Reference Dealers selected by the calculation agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Index Maturity, a remaining term to maturity closest to that Index Maturity and in a principal amount that is representative for a single transaction in the securities in that market at that time, or
- (g) if fewer than five but more than two prices referred to in clause 2(f) are provided as requested, the rate on the particular Interest Determination Date calculated by the calculation agent based on the arithmetic mean of the bid prices obtained and neither the highest or the lowest of the quotations will be eliminated, or
- (h) if fewer than three prices referred to in clause 2(f) are provided as requested, the CMT Rate in effect on the particular Interest Determination Date.

If two United States Treasury securities with an original maturity greater than the Index Maturity specified in the applicable pricing supplement have remaining terms to maturity equally close to the particular Index Maturity, the quotes for the United States Treasury security with the shorter

original remaining term to maturity will be used.

Commercial Paper Rate. "Commercial Paper Rate" means:

- (1) the Money Market Yield, as defined below, on the particular Interest Determination Date of the rate for commercial paper having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) under the caption "Commercial Paper-Nonfinancial", or
- S-15
- (2) if the rate referred to in clause (1) is not published by 3:00 P.M., New York City time, on the related calculation date, the Money Market Yield of the rate on the particular Interest Determination Date for commercial paper having the particular Index Maturity as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption "Commercial Paper--Nonfinancial", or
  - (3) if the rate referred to in clause (2) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date calculated by the calculation agent as the Money Market Yield of the arithmetic mean of the offered rates at approximately 11:00 A.M., New York City time, on that Interest Determination Date of three leading dealers of United States dollar commercial paper in The City of New York, which may include the agent and its affiliates, selected by the calculation agent for commercial paper having the particular Index Maturity placed for industrial issuers whose bond rating is "Aa", or the equivalent, from a nationally recognized statistical rating organization, or
  - (4) if the dealers selected by the calculation agent are not quoting as mentioned in clause (3), the Commercial Paper Rate in effect on the particular Interest Determination Date.

"Money Market Yield" means a yield calculated in accordance with the following formula and expressed as a percentage:

<TABLE>

<S>	<C>	<C>	<C>	<C>
Money Market Yield	=	D X 360	-----	X 100
			360-(D X M)	

</TABLE>

where "D" refers to the applicable per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal, and "M" refers to the actual number of days in the applicable interest period.

Eleventh District Cost of Funds Rate. "Eleventh District Cost of Funds Rate" means:

- (1) the rate equal to the monthly weighted average cost of funds for the calendar month immediately preceding the month in which the particular Interest Determination Date falls as set forth under the caption "11th District" on the display on Bridge Telerate, Inc., or any successor service, on page 7058 or any other page as may replace page 7058 on that service ("Telerate Page 7058") as of 11:00 A.M., San Francisco time, on that Interest Determination Date, or
- (2) if the rate referred to in clause (1) does not appear on Telerate Page 7058, the monthly weighted average cost of funds paid by member institutions of the Eleventh Federal Home Loan Bank District that was most recently announced (the "Index") by the Federal Home Loan Bank of San Francisco as the cost of funds for the calendar month immediately preceding that Interest Determination Date, or
- (3) if the Federal Home Loan Bank of San Francisco fails to announce the Index on or prior to the particular Interest Determination Date for the calendar month immediately preceding that Interest Determination Date, the Eleventh District Cost of Funds Rate in effect on the particular Interest Determination Date.

Federal Funds Rate. "Federal Funds Rate" means:

- (1) the rate on the particular Interest Determination Date for United States dollar federal funds as published in H.15(519) under the caption "Federal Funds (Effective)" and displayed on Bridge Telerate, Inc. or any successor service on page 120 or any other page as may replace page 120 on that service ("Telerate Page

- (2) if the rate referred to in clause (1) does not appear on Telerate Page 120 or is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date for United States dollar federal funds as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption "Federal Funds (Effective)", or
- (3) if the rate referred to in clause (2) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date calculated by the calculation agent as the arithmetic mean of the rates for the last transaction in overnight United States dollar federal funds arranged by three leading brokers of United States dollar federal funds transactions in The City of New York, which may include the agent or its affiliates, selected by the calculation agent prior to 9:00 A.M., New York City time, on that Interest Determination Date, or
- (4) if the brokers selected by the calculation agent are not quoting as mentioned in clause (3), the Federal Funds Rate in effect on the particular Interest Determination Date.

LIBOR. "LIBOR" means:

- (1) if "LIBOR Telerate" is specified in the applicable pricing supplement or if neither "LIBOR Reuters" nor "LIBOR Telerate" is specified in the applicable pricing supplement as the method for calculating LIBOR, the rate for deposits in the LIBOR Currency, as defined below, having the Index Maturity specified in the applicable pricing supplement, commencing on the related Interest Reset Date, that appears on the LIBOR Page, as defined below, as of 11:00 A.M., London time, on the particular Interest Determination Date, or
- (2) if "LIBOR Reuters" is specified in the applicable pricing supplement, the arithmetic mean of the offered rates calculated by the calculation agent, or the offered rate if the LIBOR Page by its terms provides only for a single rate, for deposits in the LIBOR Currency having the particular Index Maturity, commencing on the related Interest Reset Date, that appear or appears, as the case may be, on the LIBOR Page as of 11:00 A.M., London time, on the particular Interest Determination Date, or
- (3) if fewer than two offered rates appear, or no rate appears, as the case may be, on the particular Interest Determination Date on the LIBOR Page as specified in clause (1) or (2), as applicable, the rate calculated by the calculation agent of at least two offered quotations obtained by the calculation agent after requesting the principal London offices of each of four major reference banks, which may include affiliates of the agent, in the London interbank market to provide the calculation agent with its offered quotation for deposits in the LIBOR Currency for the period of the particular Index Maturity, commencing on the related Interest Reset Date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on that Interest Determination Date and in a principal amount that is representative for a single transaction in the LIBOR Currency in that market at that time, or
- (4) if fewer than two offered quotations referred to in clause (3) are provided as requested, the rate calculated by the calculation agent as the arithmetic mean of the rates quoted at approximately 11:00 A.M., in the applicable Principal Financial Center, on the particular Interest Determination Date by three major banks, which may include affiliates of the agent, in that Principal Financial Center selected by the calculation agent for loans in the LIBOR Currency to leading European banks, having the particular Index Maturity and in a principal amount that is representative for a single transaction in the LIBOR Currency in that market at that time, or
- (5) if the banks selected by the calculation agent are not quoting as mentioned in clause (4), LIBOR in effect on the particular Interest Determination Date.

"LIBOR Currency" means the currency specified in the applicable pricing supplement as to which LIBOR will be calculated or, if no currency is specified in the applicable pricing supplement, United States dollars.

"LIBOR Page" means either:

- . if "LIBOR Telerate" is specified in the applicable pricing supplement or neither "LIBOR Reuters" nor "LIBOR Telerate" is specified in the applicable pricing supplement as the method for calculating LIBOR, the display on Bridge Telerate, Inc. or any successor service on the page specified in the pricing supplement or any page as may replace the specified page on that service for the purpose of displaying the London interbank rates of major banks for the LIBOR Currency, or
- . if "LIBOR Reuters" is specified in the applicable pricing supplement, the display on the Reuter Monitor Money Rates Service or any successor service on the page specified in the applicable pricing supplement or any other page as may replace the specified page on that service for the purpose of displaying the London interbank rates of major banks for the LIBOR Currency.

Prime Rate. "Prime Rate" means:

- (1) the rate on the particular Interest Determination Date as published in H.15(519) under the caption "Bank Prime Loan", or
- (2) if the rate referred to in clause (1) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption "Bank Prime Loan", or
- (3) if the rate referred to in clause (2) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date calculated by the calculation agent as the arithmetic mean of the rates of interest publicly announced by each bank that appears on the Reuters Screen US PRIME 1 Page, as defined below, as the applicable bank's prime rate or base lending rate as of 11:00 A.M., New York City time, on that Interest Determination Date, or
- (4) if fewer than four rates referred to in clause (3) are published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date calculated by the calculation agent as the arithmetic mean of the prime rates or base lending rates quoted on the basis of the actual number of days in the year divided by a 360-day year as of the close of business on that Interest Determination Date by three major banks, which may include affiliates of the agent, in The City of New York selected by the calculation agent, or
- (5) if the banks selected by the calculation agent are not quoting as mentioned in clause (4), the Prime Rate in effect on the particular Interest Determination Date.

"Reuters Screen US PRIME 1 Page" means the display on the Reuter Monitor Money Rates Service or any successor service on the "US PRIME 1" Page or other page as may replace that page on that service for the purpose of displaying prime rates or base lending rates of major United States banks.

Treasury Rate. "Treasury Rate" means:

- (1) the rate from the auction held on the particular Interest Determination Date (the "Auction") of direct obligations of the United States ("Treasury Bills") having the Index Maturity specified in the applicable pricing supplement under the caption "INVESTMENT RATE" on the

S-18

display on Bridge Telerate, Inc. or any successor service on page 56 or any other page as may replace page 56 on that service ("Telerate Page 56") or page 57 or any other page as may replace page 57 on that service ("Telerate Page 57"), or

- (2) if the rate referred to in clause (1) is not published by 3:00 P.M., New York City time, on the related calculation date, the Bond Equivalent Yield, as defined below, of the rate for the applicable Treasury Bills as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption "U.S. Government Securities/Treasury Bills/Auction High", or
- (3) if the rate referred to in clause (2) is not published by 3:00 P.M., New York City time, on the related calculation date, the

Bond Equivalent Yield of the auction rate of the applicable Treasury Bills as announced by the United States Department of the Treasury, or

- (4) if the rate referred to in clause (3) is not announced by the United States Department of the Treasury, or if the Auction is not held, the Bond Equivalent Yield of the rate on the particular Interest Determination Date of the applicable Treasury Bills as published in H.15(519) under the caption "U.S. Government Securities/Treasury Bills/Secondary Market", or
- (5) if the rate referred to in clause (4) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date of the applicable Treasury Bills as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption "U.S. Government Securities/Treasury Bills/Secondary Market", or
- (6) if the rate referred to in clause (5) is not published by 3:00 P.M., New York City time, on the related calculation date, the rate on the particular Interest Determination Date calculated by the calculation agent as the Bond Equivalent Yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 P.M., New York City time, on that Interest Determination Date, of three primary United States government securities dealers, which may include the agent or its affiliates, selected by the calculation agent, for the issue of Treasury Bills with a remaining maturity closest to the particular Index Maturity, or
- (7) if the dealers selected by the calculation agent are not quoting as mentioned in clause (6), the Treasury Rate in effect on the particular Interest Determination Date.

"Bond Equivalent Yield" means a yield calculated in accordance with the following formula and expressed as a percentage:

```
<TABLE>
<S>          <C>  <C>          <C> <C>
Bond Equivalent Yield =  D X N
                        ----- X 100
                        360-(D X M)
</TABLE>
```

where "D" refers to the applicable per annum rate for Treasury Bills quoted on a bank discount basis and expressed as a decimal, "N" refers to 365 or 366, as the case may be, and "M" refers to the actual number of days in the applicable interest period.

#### Other Provisions; Addenda

Any provisions with respect to an issue of notes, including the determination of one or more Interest Rate Bases, the specification of one or more Interest Rate Bases, the calculation of the interest rate applicable to a floating rate note, the applicable interest payment dates, the stated maturity date, any redemption or repayment provisions or any other matter relating to the applicable notes may be modified by the terms as specified under "Other Provisions" on the face of the applicable notes or in an Addendum relating to the applicable notes, if so specified on the face of the applicable notes and in the applicable pricing supplement.

S-19

#### Original Issue Discount Notes

ML&Co. may from time to time offer notes at a price less than their redemption price at Maturity, resulting in the applicable notes being treated as if they were issued with original issue discount for federal income tax purposes ("Original Issue Discount Notes"). Original Issue Discount Notes may currently pay no interest or interest at a rate which at the time of issuance is below market rates. Additional considerations relating to any Original Issue Discount Notes will be specified in the applicable pricing supplement.

#### Amortizing Notes

ML&Co. may from time to time offer notes ("Amortizing Notes"), with amounts of principal and interest payable in installments over the term of the notes. Unless otherwise specified in the applicable pricing supplement, interest on each Amortizing Note will be computed on the basis of a 360-day year of twelve 30-day months. Payments with respect to Amortizing Notes will be applied first to interest due and payable on the Amortizing Notes and then to the reduction of the unpaid principal amount of the Amortizing Notes. Further information concerning additional terms and conditions of any issue of Amortizing Notes will be specified in the applicable pricing supplement. A

table setting forth repayment information in respect of each Amortizing Note will be specified in the applicable pricing supplement.

#### Linked Notes

ML&Co. may from time to time offer notes ("Linked Notes") the principal value of which at Maturity will be determined by reference to:

- (a) one or more equity or debt securities, including, but not limited to, the price or yield of such securities,
- (b) any statistical measure of economic or financial performance, including, but not limited to, any currency, consumer price or mortgage index, or
- (c) the price or value of any commodity or any other item or index or any combination,

(collectively, the "Linked Securities"). The payment or delivery of any consideration on any Linked Note at Maturity will be determined by the decrease or increase, as applicable, in the price or value of the applicable Linked Securities. The terms of and any additional considerations, including any material tax consequences, relating to any Linked Notes will be specified in the applicable pricing supplement.

#### Extendible Maturity Notes

ML&Co. may from time to time offer notes ("Extendible Maturity Notes") with the option to extend the maturity of the notes to one or more dates indicated in the notes and the applicable pricing supplement. The terms of and any additional considerations relating to any Extendible Maturity Notes will be specified in the applicable pricing supplement.

#### Book-Entry Notes

##### Description of the Global Securities

Upon issuance, all notes in book-entry form having the same date of issue, Maturity and otherwise having identical terms and provisions will be represented by one or more fully registered global notes (the "Global Notes"). Each Global Note will be deposited with, or on behalf of, The Depository Trust Company as depository registered in the name of the depository or a nominee of the depository. Unless and until it is exchanged in whole or in part for notes in certificated form, no Global Note may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of the successor.

S-20

##### DTC Procedures

The following is based on information furnished by the depository:

The depository will act as securities depository for the notes in book-entry form. The notes in book-entry form will be issued as fully registered securities registered in the name of Cede & Co., the depository's partnership nominee. One fully registered Global Note will be issued for each issue of notes in book-entry form, each in the aggregate principal amount of the issue, and will be deposited with the depository. If, however, the aggregate principal amount of any issue exceeds \$400,000,000, one Global Note will be issued with respect to each \$400,000,000 of principal amount and an additional Global Note will be issued with respect to any remaining principal amount of the issue.

The depository is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. The depository holds securities that its participants deposit with the depository. The depository also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of the depository include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. The depository is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to the depository's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to the depository and its participants are on file with the SEC.

Purchasers of notes in book-entry form under the depository's system must be made by or through direct participants, which will receive a credit for those notes in book-entry form on the depository's records. The ownership interest of each actual purchaser of each note in book-entry form represented by a Global Note is, in turn, to be recorded on the records of direct participants and indirect participants. Beneficial owners of notes in book-entry form will not receive written confirmation from the depository of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in a Global Note representing notes in book-entry form are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners of a Global Note representing notes in book-entry form will not receive notes in certificated form representing their ownership interests therein, except in the event that use of the book-entry system for such notes in book-entry form is discontinued.

To facilitate subsequent transfers, all Global Notes representing notes in book-entry form which are deposited with, or on behalf of, the depository are registered in the name of the depository's nominee, Cede & Co. The deposit of Global Notes with, or on behalf of, the depository and their registration in the name of Cede & Co. effect no change in beneficial ownership. The depository has no knowledge of the actual beneficial owners of the Global Notes representing the notes in book-entry form; the depository's records reflect only the identity of the direct participants to whose accounts such notes in book-entry form are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by the depository to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners, will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

S-21

Neither the depository nor Cede & Co. will consent or vote with respect to the Global Notes representing the notes in book-entry form. Under its usual procedures, the depository mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants, identified in a listing attached to the omnibus proxy, to whose accounts the notes in book-entry form are credited on the applicable record date.

ML&Co. will make principal, premium, if any, and/or interest, if any, payments on the Global Notes representing the notes in book-entry form in immediately available funds to the depository. The depository's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless the depository has reason to believe that it will not receive payment on the applicable payment date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the applicable participant and not of the depository, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to the depository is the responsibility of ML&Co. and the trustee, disbursement of payments to direct participants will be the responsibility of the depository, and disbursement of payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

If applicable, redemption notices shall be sent to Cede & Co. If less than all of the notes in book-entry form of like tenor and terms are being redeemed, the depository's practice is to determine by lot the amount of the interest of each direct participant in the issue to be redeemed.

A beneficial owner will give notice of any option to elect to have its notes in book-entry form repaid by ML&Co., through its participant, to the trustee, and will effect delivery of the applicable notes in book-entry form by causing the direct participant to transfer the participant's interest in the Global Note representing notes in book-entry form, on the depository's records, to the trustee. The requirement for physical delivery of notes in book-entry form in connection with a demand for repayment will be deemed satisfied when the ownership rights in the Global Note or Notes representing such notes in book-entry form are transferred by direct participants on the depository's records.

The depository may discontinue providing its services as securities depository with respect to the notes in book-entry form at any time by giving reasonable notice to ML&Co. or the trustee. In the event that a successor securities depository is not obtained, notes in certificated form are required

to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository or a successor securities depository. In that event, notes in certificated form will be printed and delivered.

The laws of some states may require that certain purchasers of securities take physical delivery of securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in Global Notes.

So long as the depository, or its nominee, is the registered owner of a Global Note, the depository or its nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such Global Note for all purposes under the 1993 Indenture. Except as provided below, beneficial owners of a Global Note will not be entitled to have the notes represented by a Global Note registered in their names, will not receive or be entitled to receive physical delivery of the notes in definitive form and will not be considered the owners or holders thereof under the 1993 Indenture. Accordingly, each person owning a beneficial interest in a Global Note must rely on the procedures of the depository and, if that person is not a participant, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1993 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a Global Note desires to give or take any action which a holder is entitled to give or take under the 1993 Indenture, the depository

S-22

would authorize the participants holding the relevant beneficial interests to give or take the desired action, and the participants would authorize beneficial owners owning through the participants to give or take the desired action or would otherwise act upon the instructions of beneficial owners.

#### Exchange for Notes in Certificated Form

If:

- (a) the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the Global Notes shall be exchangeable, or
- (c) an Event of Default has occurred and is continuing with respect to the notes,

the Global Note or Global Notes will be exchangeable for notes in certificated form of like tenor and of an equal aggregate principal amount, in denominations of \$1,000 and integral multiples of \$1,000. The certificated notes will be registered in the name or names as the depository instructs the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in Global Notes.

The information in this section concerning the depository and the depository's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for the accuracy of the information.

#### UNITED STATES FEDERAL INCOME TAXATION

The following summary of certain United States Federal income tax consequences of the purchase, ownership and disposition of the notes is based upon laws, regulations, rulings and decisions now in effect, all of which are subject to change, including changes in effective dates, or possible differing interpretations. It deals only with notes held as capital assets and does not purport to deal with persons in special tax situations, such as financial institutions, insurance companies, regulated investment companies, dealers in securities or currencies, persons holding notes as a hedge against currency risks or as a position in a "straddle" for tax purposes, or persons whose functional currency is not the United States dollar. It also does not deal with holders other than original purchasers, except where otherwise specifically noted. Persons considering the purchase of the notes should consult their own tax advisors concerning the application of United States Federal income tax laws to their particular situations as well as any consequences of the purchase, ownership and disposition of the notes arising under the laws of any other taxing jurisdiction.

As used in this prospectus, the term "U.S. Holder" means a beneficial owner of a note that is for United States Federal income tax purposes:

- (1) a citizen or resident of the United States,

- (2) a corporation or a partnership (including an entity treated as a corporation or a partnership for United States Federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia (unless, in the case of a partnership, Treasury regulations are adopted that provide otherwise),
- (3) an estate whose income is subject to United States Federal income tax regardless of its source,
- (4) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust, or

S-23

- (5) any other person whose income or gain in respect of a note is effectively connected with the conduct of a United States trade or business.

Certain trusts not described in clause (4) above in existence on August 20, 1996 that elect to be treated as a United States person will also be a U.S. Holder for purposes of the following discussion. As used herein, the term "non-U.S. Holder" means a beneficial owner of a note that is not a U.S. Holder.

#### U.S. Holders

**Payments of Interest.** Payments of interest on a note generally will be taxable to a U.S. Holder as ordinary interest income at the time such payments are accrued or are received (in accordance with the U.S. Holder's regular method of tax accounting).

**Original Issue Discount.** The following summary is a general discussion of the United States Federal income tax consequences to U.S. Holders of the purchase, ownership and disposition of notes issued with original issue discount ("Discount Notes"). The following summary is based upon final Treasury regulations (the "OID Regulations") released by the Internal Revenue Service on January 27, 1994, as amended on June 11, 1996, under the original issue discount provisions of the Code.

For United States Federal income tax purposes, original issue discount is the excess of the stated redemption price at maturity of a note over its issue price, if such excess equals or exceeds a de minimis amount (generally 1/4 of 1% of the note's stated redemption price at maturity multiplied by the number of complete years to its maturity from its issue date or, in the case of a note providing for the payment of any amount other than qualified stated interest (as defined below) prior to maturity, multiplied by the weighted average maturity of the note). The issue price of each note of an issue of notes equals the first price at which a substantial amount of the notes has been sold (ignoring sales to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers). The stated redemption price at maturity of a note is the sum of all payments provided by the note other than "qualified stated interest" payments. The term "qualified stated interest" generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually at a single fixed rate. In addition, under the OID Regulations, if a note bears interest for one or more accrual periods at a rate below the rate applicable for the remaining term of the note (e.g., notes with teaser rates or interest holidays), and if the greater of either the resulting foregone interest on the note or any "true" discount on the note (i.e., the excess of the note's stated principal amount over its issue price) equals or exceeds a specified de minimis amount, then the stated interest on the note would be treated as original issue discount rather than qualified stated interest.

Payments of qualified stated interest on a note are taxable to a U.S. Holder as ordinary interest income at the time such payments are accrued or are received (in accordance with the U.S. Holder's regular method of tax accounting). A U.S. Holder of a Discount Note must include original issue discount in income as ordinary interest for United States Federal income tax purposes as it accrues under a constant yield method in advance of receipt of the cash payments attributable to such income, regardless of the U.S. Holder's regular method of tax accounting. In general, the amount of original issue discount included in income by the initial U.S. Holder of a Discount Note is the sum of the daily portions of original issue discount with respect to the Discount Note for each day during the taxable year (or portion of the taxable year) on which the U.S. Holder held the Discount Note. The "daily portion" of original issue discount on any Discount Note is determined by allocating to each day in any accrual period a ratable portion of the original issue discount allocable to that accrual period. An "accrual period" may be of any length and the accrual periods may vary in length over the term of the Discount Note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the final day of an accrual

accrual period. The amount of original issue discount allocable to each accrual period is generally equal to the difference between

- . the product of the Discount Note's adjusted issue price at the beginning of such accrual period and its yield to maturity (determined on the basis of compounding at the close of each accrual period and appropriately adjusted to take into account the length of the particular accrual period) and
- . the amount of any qualified stated interest payments allocable to such accrual period.

The "adjusted issue price" of a Discount Note at the beginning of any accrual period is the sum of the issue price of the Discount Note plus the amount of original issue discount allocable to all prior accrual periods minus the amount of any prior payments on the Discount Note that were not qualified stated interest payments. Under these rules, U.S. Holders generally will have to include in income increasingly greater amounts of original issue discount in successive accrual periods.

A U.S. Holder who purchases a Discount Note for an amount that is greater than its adjusted issue price as of the purchase date and less than or equal to the sum of all amounts payable on the Discount Note after the purchase date other than payments of qualified stated interest, will be considered to have purchased the Discount Note at an "acquisition premium". Under the acquisition premium rules, the amount of original issue discount which such U.S. Holder must include in its gross income with respect to such Discount Note for any taxable year (or portion thereof in which the U.S. Holder holds the Discount Note) will be reduced (but not below zero) by the portion of the acquisition premium properly allocable to the period.

Under the OID Regulations, Floating Rate Notes and Indexed Notes (hereinafter "Variable Notes") are subject to special rules whereby a Variable Note will qualify as a "variable rate debt instrument" if

- . its issue price does not exceed the total noncontingent principal payments due under the Variable Note by more than a specified de minimis amount and
- . it provides for stated interest, paid or compounded at least annually, at current values of:
  - . one or more qualified floating rates,
  - . a single fixed rate and one or more qualified floating rates,
  - . a single objective rate, or
  - . a single fixed rate and a single objective rate that is a qualified inverse floating rate.

A "qualified floating rate" is any variable rate where variations in the value of such rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Note is denominated. Although a multiple of a qualified floating rate will generally not itself constitute a qualified floating rate, a variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than .65 but not more than 1.35 will constitute a qualified floating rate. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than .65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, under the OID Regulations, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Note (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Note's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate under the OID Regulations unless such cap or floor is fixed throughout the term of the note. An "objective rate" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula that is based on objective financial or economic

information. A rate will not qualify as an objective rate if it is based on information that is within the control of the issuer (or a related party) or that is unique to the circumstances of the issuer (or a related party), such as

dividends, profits, or the value of the issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the issuer). A "qualified inverse floating rate" is any objective rate where such rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. The OID Regulations also provide that if a Variable Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate and if the variable rate on the Variable Note's issue date is intended to approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

If a Variable Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a "variable rate debt instrument" under the OID Regulations, and if the interest on a Variable Note is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually, then all stated interest on the Variable Note will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a "variable rate debt instrument" under the OID Regulations will generally not be treated as having been issued with original issue discount unless the Variable Note is issued at a "true" discount (i.e., at a price below the Variable Note's stated principal amount) in excess of a specified de minimis amount. The amount of qualified stated interest and the amount of original issue discount, if any, that accrues during an accrual period on such a Variable Note is determined under the rules applicable to fixed rate debt instruments by assuming that the variable rate is a fixed rate equal to

- (1) in the case of a qualified floating rate or qualified inverse floating rate, the value as of the issue date, of the qualified floating rate or qualified inverse floating rate, or
- (2) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Note.

The qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest assumed to be paid during the accrual period pursuant to the foregoing rules.

In general, any other Variable Note that qualifies as a "variable rate debt instrument" will be converted into an "equivalent" fixed rate debt instrument for purposes of determining the amount and accrual of original issue discount and qualified stated interest on the Variable Note. The OID Regulations generally require that such a Variable Note be converted into an "equivalent" fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Note's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Note. In the case of a Variable Note that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Note provides for a qualified inverse floating rate). Under such circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Note as of the Variable Note's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate

S-26

into either a qualified floating rate or a qualified inverse floating rate, the Variable Note is then converted into an "equivalent" fixed rate debt instrument in the manner described above.

Once the Variable Note is converted into an "equivalent" fixed rate debt instrument pursuant to the foregoing rules, the amount of original issue discount and qualified stated interest, if any, are determined for the "equivalent" fixed rate debt instrument by applying the general original issue discount rules to the "equivalent" fixed rate debt instrument and a U.S. Holder of the Variable Note will account for such original issue discount and qualified stated interest as if the U.S. Holder held the "equivalent" fixed rate debt instrument. Each accrual period appropriate adjustments will be made

to the amount of qualified stated interest or original issue discount assumed to have been accrued or paid with respect to the "equivalent" fixed rate debt instrument in the event that such amounts differ from the actual amount of interest accrued or paid on the Variable Note during the accrual period.

If a Variable Note does not qualify as a "variable rate debt instrument" under the OID Regulations, then the Variable Note would be treated as a contingent payment debt obligation. On June 11, 1996, the Treasury Department issued final regulations (the "CPDI Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments. In general, the CPDI Regulations would cause the timing and character of income, gain or loss reported on a contingent payment debt instrument to substantially differ from the timing and character of income, gain or loss reported on a contingent payment debt instrument under general principles of current United States Federal income tax law. Specifically, the CPDI Regulations generally require a U.S. Holder of such an instrument to include future contingent and noncontingent interest payments in income as such interest accrues based upon a projected payment schedule. Moreover, in general, under the CPDI Regulations, any gain recognized by a U.S. Holder on the sale, exchange, or retirement of a contingent payment debt instrument will be treated as ordinary income and all or a portion of any loss realized could be treated as ordinary loss as opposed to capital loss (depending upon the circumstances). The CPDI Regulations apply to debt instruments issued on or after August 13, 1996. The proper United States Federal income tax treatment of Variable Notes that are treated as contingent payment debt obligations will be more fully described in the applicable pricing supplement. Furthermore, any other special United States Federal income tax considerations, not otherwise discussed herein, which are applicable to any particular issue of notes will be discussed in the applicable pricing supplement.

ML&Co. may issue notes which;

- . may be redeemable at the option of ML&Co. prior to their stated maturity (a "call option") and/or
- . may be repayable at the option of the holder prior to their stated maturity (a "put option").

Notes containing such features may be subject to rules that differ from the general rules discussed above. Investors intending to purchase notes with such features should consult their own tax advisors, since the original issue discount consequences will depend, in part, on the particular terms and features of the purchased notes.

U.S. Holders may generally, upon election, include in income all interest (including stated interest, acquisition discount, original issue discount, de minimis original issue discount, market discount, de minimis market discount, and unstated interest, as adjusted by any amortizable bond premium or acquisition premium) that accrues on a debt instrument by using the constant yield method applicable to original issue discount, subject to certain limitations and exceptions.

Foreign-Currency Notes. The United States Federal income tax consequences of the purchase, ownership and disposition of notes providing for payments denominated in a currency other than U.S. dollars will be more fully described in the applicable pricing supplement.

S-27

Short-Term Notes. Notes that have a fixed maturity of one year or less ("Short-Term Notes") will be treated as having been issued with original issue discount. In general, an individual or other cash method U.S. Holder is not required to accrue such original issue discount unless the U.S. Holder elects to do so. If such an election is not made, any gain recognized by the U.S. Holder on the sale, exchange or maturity of the Short-Term Note will be ordinary income to the extent of the original issue discount accrued on a straight-line basis, or upon election under the constant yield method (based on daily compounding), through the date of sale or maturity, and a portion of the deductions otherwise allowable to the U.S. Holder for interest on borrowings allocable to the Short-Term Note will be deferred until a corresponding amount of income is realized. U.S. Holders who report income for United States Federal income tax purposes under the accrual method, and certain other holders including banks and dealers in securities, are required to accrue original issue discount on a Short-Term Note on a straight-line basis unless an election is made to accrue the original issue discount under a constant yield method (based on daily compounding).

Market Discount. If a U.S. Holder purchases a note, other than a Discount Note, for an amount that is less than its issue price (or, in the case of a subsequent purchaser, its stated redemption price at maturity) or, in the case of a Discount Note, for an amount that is less than its adjusted issue price as of the purchase date, such U.S. Holder will be treated as having purchased the note at a "market discount", unless such market discount is less than a specified de minimis amount.

Under the market discount rules, a U.S. Holder will be required to treat any partial principal payment (or, in the case of a Discount Note, any payment that does not constitute qualified stated interest) on, or any gain realized on the sale, exchange, retirement or other disposition of, a note as ordinary income to the extent of the lesser of:

- . the amount of such payment or realized gain or
- . the market discount which has not previously been included in income and is treated as having accrued on the note at the time of such payment or disposition.

Market discount will be considered to accrue ratably during the period from the date of acquisition to the maturity date of the note, unless the U.S. Holder elects to accrue market discount on the basis of semiannual compounding.

A U.S. Holder may be required to defer the deduction of all or a portion of the interest paid or accrued on any indebtedness incurred or maintained to purchase or carry a note with market discount until the maturity of the Note or certain earlier dispositions, because a current deduction is only allowed to the extent the interest expense exceeds an allocable portion of market discount. A U.S. Holder may elect to include market discount in income currently as it accrues (on either a ratable or semiannual compounding basis), in which case the rules described above regarding the treatment as ordinary income of gain upon the disposition of the note and upon the receipt of certain cash payments and regarding the deferral of interest deductions will not apply. Generally, such currently included market discount is treated as ordinary interest for United States Federal income tax purposes. Such an election will apply to all debt instruments acquired by the U.S. Holder on or after the first day of the taxable year to which such election applies and may be revoked only with the consent of the IRS.

Premium. If a U.S. Holder purchases a note for an amount that is greater than the sum of all amounts payable on the note after the purchase date other than payments of qualified stated interest, the U.S. Holder will be considered to have purchased the note with "amortizable bond premium" equal in amount to such excess. A U.S. Holder may elect to amortize such premium using a constant yield method over the remaining term of the note and may offset interest otherwise required to be included in respect of the note during any taxable year by the amortized amount of such excess for the taxable year. However, if the note may be optionally redeemed after the U.S. Holder acquires it at a price in excess of its stated redemption price at maturity, special rules would apply which could result in a deferral of the amortization of some bond premium

S-28

until later in the term of the note. Any election to amortize bond premium applies to all taxable debt obligations then owned and thereafter acquired by the U.S. Holder and may be revoked only with the consent of the IRS.

Disposition of a Note. Except as discussed above, upon the sale, exchange or retirement of a note, a U.S. Holder generally will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or retirement (other than amounts representing accrued and unpaid interest) and the U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will equal the U.S. Holder's initial investment in the note increased by any original issue discount included in income (and accrued market discount, if any, if the U.S. Holder has included such market discount in income) and decreased by the amount of any payments, other than qualified stated interest payments, received and amortizable bond premium taken with respect to the note. Such gain or loss generally will be long-term capital gain or loss if the note were held for more than one year. Long-term capital gains of individuals are subject to reduced capital gain rates while short-term capital gains are subject to ordinary income rates. The deductibility of capital losses is subject to certain limitations. Prospective investors should consult their own tax advisors concerning these tax law provisions.

#### Non-U.S. Holders

A non-U.S. Holder will not be subject to United States Federal income taxes on payments of principal, premium (if any) or interest (including original issue discount, if any) on a note, unless such non-U.S. Holder is a direct or indirect 10% or greater shareholder of ML&Co., a controlled foreign corporation related to ML&Co. or a bank receiving interest described in section 881(c)(3)(A) of the Code. To qualify for the exemption from taxation, the last United States payor in the chain of payment prior to payment to a non-U.S. Holder (the "Withholding Agent") must have received in the year in which a payment of interest or principal occurs, or in either of the two preceding calendar years, a statement that (1) is signed by the beneficial owner of the note under penalties of perjury, (2) certifies that such owner is not a U.S. Holder and (3) provides the name and address of the beneficial owner. The statement may be made on an IRS Form W-8, IRS Form W-8 BEN or a substantially similar form, and the beneficial owner must inform the Withholding Agent of any change in the information on the statement within 30 days of such change. If a note is held through a securities clearing organization or certain other

financial institutions, the organization or institution may provide a signed statement to the Withholding Agent. However, in such case, the signed statement must be accompanied by a copy of the IRS Form W-8 BEN or the substitute form provided by the beneficial owner to the organization or institution. The Treasury Department is considering implementation of further certification requirements aimed at determining whether the issuer of a debt obligation is related to holders thereof. To claim an exemption from United States withholding for interest or proceeds from sale paid after December 31, 2000, a non-U.S. Holder may no longer use the IRS Form W-8 to certify its status as a non-U.S. Holder.

The Treasury has issued new regulations (the "New Regulations") which make certain modifications to the withholding, backup withholding and information reporting rules. The New Regulations attempt to unify certification requirements and modify reliance standards. The New Regulations will generally be effective for payments made after December 31, 2000, subject to certain transition rules. Prospective investors are urged to consult their own tax advisors regarding the New Regulations. After December 31, 2000, interest accrued under the OID Regulations will not be subject to withholding upon sale or exchange (other than a redemption) of a note unless the Withholding Agent knows or has reason to know that such instrument was sold with the principal purpose of avoiding tax.

Generally, a non-U.S. Holder will not be subject to United States Federal income taxes on any amount which constitutes capital gain upon retirement or disposition of a note, provided the gain is not effectively connected with the conduct of a trade or business in the United States by the non-U.S. Holder. Certain other exceptions may be applicable, and a non-U.S. Holder should consult its tax advisor in this regard.

S-29

The notes will not be includible in the estate of a non-U.S. Holder unless the individual is a direct or indirect 10% or greater shareholder of ML&Co. or, at the time of such individual's death, payments in respect of the notes would have been effectively connected with the conduct by such individual of a trade or business in the United States.

#### Backup Withholding

Backup withholding of United States Federal income tax at a rate of 31% may apply to payments made in respect of the notes to registered owners who are not "exempt recipients" and who fail to provide certain identifying information, such as the registered owner's taxpayer identification number, in the required manner.

Generally, individuals are not exempt recipients, whereas corporations and certain other entities generally are exempt recipients. Payments made in respect of the notes to a U.S. Holder must be reported to the IRS, unless the U.S. Holder is an exempt recipient or establishes an exemption. Compliance with the identification procedures described in the preceding section would establish an exemption from backup withholding for those non-U.S. Holders who are not exempt recipients.

In addition, upon the sale of a note to (or through) a broker, the broker must withhold 31% of the entire purchase price, unless either:

- . the broker determines that the seller is a corporation or other exempt recipient or
- . the seller provides, in the required manner, certain identifying information and, in the case of a non-U.S. Holder, certifies that such seller is a non-U.S. Holder (and certain other conditions are met).

Such a sale must also be reported by the broker to the IRS, unless either:

- . the broker determines that the seller is an exempt recipient or
- . the seller certifies its non-U.S. status (and certain other conditions are met).

After December 31, 2000, interest accrued under the OID Regulations will not be subject to withholding upon sale or exchange (other than a redemption) of a note unless the Withholding Agent knows or has reason to know that such instrument was sold with the principal purpose of avoiding tax. Certification of the registered owner's non-U.S. status would be made normally on an IRS Form W-8 BEN under penalties of perjury, although in certain cases it may be possible to submit other documentary evidence. After December 31, 2000, a registered owner may no longer use an IRS Form W-8 to certify to its non-U.S. status. In addition, prospective U.S. Holders are strongly urged to consult their own tax advisors with respect to the New Withholding Regulations. See "United States Federal Income Taxation--Non-U.S. Holders".

Any amounts withheld under the backup withholding rules from a payment to a beneficial owner would be allowed as a refund or a credit against such beneficial owner's United States Federal income tax provided the required information is furnished to the IRS.

#### PLAN OF DISTRIBUTION

ML&Co. is offering the notes for sale on a continuing basis through the agent, MLPF&S, who will purchase the notes, as principal, from ML&Co., for resale to investors and other purchasers at varying prices relating to prevailing market prices at the time of resale as determined by the agent, or, if so specified in an applicable pricing supplement, for resale at a fixed public offering price. Unless otherwise specified in an applicable pricing supplement, any note sold to the agent as principal will be purchased by the agent at a price equal to 100% of the principal amount of the note less a percentage of the principal amount equal to the

S-30

commission applicable to an agency sale as described below of a note of identical maturity. If agreed to by ML&Co. and the agent, the agent may utilize its reasonable efforts on an agency basis to solicit offers to purchase the notes at 100% of the principal amount of the notes, unless otherwise specified in an applicable pricing supplement. ML&Co. will pay a commission to the agent, ranging from .050% to .600% of the principal amount of a note, depending upon its stated maturity or, with respect to a note for which the stated maturity is in excess of 30 years, a commission as agreed upon by ML&Co. and the agent at the time of sale, sold through the agent.

The agent may sell notes it has purchased from ML&Co. as principal to other dealers for resale to investors, and may allow any portion of the discount received in connection with such purchases from ML&Co. to such dealers. After the initial public offering of notes, the public offering price, in the case of notes to be resold at a fixed public offering price, the concession and the discount allowed to dealers may be changed.

ML&Co. reserves the right to withdraw, cancel or modify the offer made by this prospectus supplement without notice and may reject orders, in whole or in part, whether placed directly with ML&Co. or through the agent. The agent will have the right, in its discretion reasonably exercised, to reject in whole or in part any offer to purchase notes received by the agent.

Unless otherwise specified in an applicable pricing supplement, payment of the purchase price of the notes will be required to be made in immediately available funds in United States dollars or the Specified Currency, as the case may be, in The City of New York on the date of settlement.

No Note will have an established trading market when issued. Unless specified in the applicable pricing supplement, ML&Co. will not list the notes on any securities exchange. The agent may from time to time purchase and sell notes in the secondary market, but the agent is not obligated to do so, and there can be no assurance that there will be a secondary market for the notes or liquidity in the secondary market if one develops. From time to time, the agent may make a market in the notes.

The agent may be deemed to be an "underwriter" within the meaning of the Securities Act of 1933, as amended. ML&Co. has agreed to indemnify the agent against or to make contributions relating to certain civil liabilities, including liabilities under the Securities Act, or to contribute to payments the agent may be required to make in respect thereof. ML&Co. has agreed to reimburse the agent for certain expenses.

From time to time, ML&Co. may issue and sell other securities described in the accompanying prospectus, and the amount of notes that ML&Co. may offer and sell under this prospectus supplement may be reduced as a result of such sales.

In connection with the offering of notes purchased by the agent as principal on a fixed price basis, the agent is permitted to engage in certain transactions that stabilize the price of the notes. These transactions may consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the notes. If the agent creates a short position in the notes in connection with the offering, i.e., if it sells more notes than are set forth on the cover page of this prospectus supplement, the agent may reduce that short position by purchasing notes in the open market. In general, purchases of a security for the purpose of stabilization or to reduce a short position could have the effect of raising or maintaining the market price of the security or preventing or retarding a decline in the market price of the security. "Naked" short sales are sales in excess of the agent's overallotment option. Because the agent has no overallotment option with respect to the notes, it would be required to close out a short position in the notes by purchasing notes in the open market.

Neither ML&Co. nor the agent make any representation or prediction as to the direction or magnitude of any effect that the transactions described above

may have on the price of the notes. In addition, neither ML&Co. nor the agent makes any representation that the agent will engage in any such transactions or that such transactions, once commenced, will not be discontinued without notice.

S-31

The distribution of the notes will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

VALIDITY OF THE NOTES

The validity of the notes will be passed upon for ML&Co. and the agent by Brown & Wood LLP, New York, New York.

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the senior debt securities described in this prospectus.

3

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
	---	---	---	---	---	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

4

#### DESCRIPTION OF SENIOR DEBT SECURITIES

The senior debt securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the senior debt securities of which this prospectus is a part. The following summaries of certain provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and each series of the senior debt securities are governed by and construed in accordance with the laws of the State of New York.

Under present New York law the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to senior debt securities in which \$2,500,000 or more has been invested. While ML&Co. believes that New York law would be given effect by a state or Federal court sitting outside of New York, state laws frequently regulate the amount of interest that may be charged to and paid by a borrower, including, in some cases, corporate borrowers. ML&Co. agrees for the benefit of the holders of its senior debt securities, to the extent permitted by law, not to claim voluntarily the benefits of any laws concerning usurious rates of interest against a holder of senior debt securities.

Outstanding senior debt securities are issuable only in fully registered form without coupons, in denominations of \$1,000 and integral multiples of \$1,000, unless otherwise indicated. No service charge will be made for any registration of transfer or exchange of senior debt securities, but ML&Co. may require payment of a sum sufficient to cover any tax or other governmental charges that may be imposed in connection with any registration, transfer or

exchange.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

Principal, premium and interest on the senior debt securities will be payable at the office of the trustee in New York City so designated, provided that, unless otherwise set forth below, payment of interest may be made at the option of ML&Co. by check mailed to the address of the person entitled to that payment as shown on the security register. In addition, the transfer of the senior debt securities is and will be registrable, and senior debt securities are and will be exchangeable at the trustee's designated office.

Unless otherwise specified with respect to a particular series of senior debt securities, the senior debt securities are not subject to any sinking fund and are not redeemable before maturity.

5

#### Book-Entry Securities

Specified series of the senior debt securities have been issued in global form and are considered book-entry securities. Beneficial owners of these senior debt securities will not receive physical delivery of these securities nor may they be entitled to have these securities registered in their name. These book-entry securities are represented by one or more fully registered global securities. Each global security has been deposited with, or on behalf of, The Depository Trust Company, also known as DTC, as depository, registered in the name of DTC or its nominee. Unless and until it is exchanged in whole or in part for senior debt securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

In some cases, investors of outstanding senior debt securities have elected to hold interests in the global notes through either the depository in the United States or Clearstream Banking, societe anonyme (referred to as "Clearstream, Luxembourg"), and Morgan Guaranty Trust Company of New York, Brussels Office, as operator of the Euroclear System, if they are participants in these systems, or indirectly through organizations which are participants in these systems. Clearstream, Luxembourg and Euroclear hold interests on behalf of their participants through customers' securities accounts in Clearstream, Luxembourg's and Euroclear's names on the books of their respective depositories, which in turn will hold these interests in customers' securities accounts in the depositories' names on the books of the depository. Citibank, N.A. acts as depository for Clearstream, Luxembourg and The Chase Manhattan Bank acts as depository for Euroclear.

#### DTC Procedures

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange Inc. and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of securities under DTC's system must be made by or through direct participants, which will receive a credit for the securities on DTC's

records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the securities; DTC's records reflect only the identity of the direct participants to whose accounts the securities are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

6

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments on the senior debt securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the Depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of these payments to direct participants is the responsibility of DTC, and disbursement of these payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If the depository is at any time unwilling or unable to continue as depository and

- (a) a successor depository is not appointed by ML&Co. within 60 days,
- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the global notes shall be exchangeable, and
- (c) an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the senior debt securities,

the global notes will be exchangeable for senior debt securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$1,000 and integral multiples of \$1,000. The definitive securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that these instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global notes.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, senior debt securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

Clearstream, Luxembourg

Clearstream, Luxembourg has advised ML&Co. that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations and facilitates the clearance and settlement of securities transactions between Clearstream,

Luxembourg participants through electronic book-entry changes in accounts of Clearstream, Luxembourg participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to its

7

participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Monetary Institute. Clearstream, Luxembourg participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg participant either directly or indirectly.

Distributions with respect to the book-entry securities held beneficially through Clearstream, Luxembourg are credited to cash accounts of Clearstream, Luxembourg participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream, Luxembourg.

#### Euroclear

Euroclear has advised ML&Co. that it was created in 1968 to hold securities for participants of Euroclear and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by the Brussels, Belgium office of Morgan Guaranty Trust Company of New York (the "Euroclear Operator"), under contract with Euro-clear Clearance Systems S.C., a Belgian cooperative corporation (the "Cooperative"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear participants. Euroclear participants include banks, central banks, securities brokers and dealers and other professional financial intermediaries. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

The Euroclear Operator is the Belgian branch of a New York banking corporation which is a member bank of the Federal Reserve System. As such, it is regulated and examined by the Board of Governors of the Federal Reserve System and the New York State Banking Department, as well as the Belgian Banking Commission.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "Terms and Conditions"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without Terms and Conditions only on behalf of Euroclear participants, and has no record of or relationship with persons holding through Euroclear participants.

Distributions with respect to book-entry securities held beneficially through Euroclear are credited to the cash accounts of Euroclear participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

#### Clearance and Settlement Procedures

Secondary market trading between DTC participants will occur in the ordinary way in accordance with the depository's rules and will be settled in immediately available funds using the depository's Same-Day Funds Settlement System. Secondary market trading between Clearstream, Luxembourg participants and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating

8

procedures of Clearstream, Luxembourg and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through the depository on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear participants, on the other, will be effected in the depository in accordance with the depository's rules on behalf

of the relevant European international clearing system by its U.S. depositary; however, any cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in that system in accordance with its rules and procedures and within its established deadlines. The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depositary to take action to effect final settlement on its behalf by delivering or receiving book-entry securities in the depositary, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to the depositary. Clearstream, Luxembourg and Euroclear participants may not deliver instructions directly to the depositary.

Because of time-zone differences, credits of book-entry securities received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and will be credited on the business day following the depositary settlement date. Any credits or transactions in book-entry securities settled during processing will be reported to the relevant Euroclear or Clearstream, Luxembourg participants on that business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of securities by or through a Clearstream, Luxembourg participant or a Euroclear participant to a DTC participant will be received with value on the depositary settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in the depositary.

Although the depositary, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of book-entry securities among participants of the depositary, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform these procedures and these procedures may be discontinued at any time.

#### Notices

Notices to holders of outstanding senior debt securities will be sent by mail to the registered holders and will be published, whether the securities are in global or definitive form, and so long as the securities are listed on the Luxembourg Stock Exchange, in a daily newspaper of general circulation in Luxembourg. It is expected that publication will be made in Luxembourg in the Luxembourg Wort. Any notice shall be deemed to have been given on the date of publication or, if published more than once, on the date of the first publication. So long as senior debt securities are listed on the Luxembourg Stock Exchange, any change in the Luxembourg Paying Agent and Transfer Agent will be published in Luxembourg in the manner set forth above.

#### Further Issues

ML&Co. may from time to time, without notice to or the consent of the registered holders of any series of outstanding senior debt securities, create and issue additional senior debt securities ranking equally with the original series of senior debt securities in all respects other than the payment of interest accruing before the originally issue date of the additional senior debt securities. The new issue of senior debt securities may be consolidated and form a single series with the original issue of the securities of that series and have the same terms as to status, redemption or otherwise as the senior debt securities of the original series.

9

#### Payment of Additional Amounts

Unless otherwise stated, ML&Co. will, subject to the exceptions and limitations set forth below, pay as additional interest on the senior debt securities, additional amounts in order for the net payment of the principal of and interest on the senior debt securities to a holder who is a non-United States person, after deduction for any present or future tax, assessment or other governmental charge of the United States of a political subdivision or taxing authority in or of any United States political subdivision, imposed by withholding with respect to the payment, will not be less than the amount provided in the senior debt securities to be then due and payable; provided, however, that the foregoing obligation to pay additional amounts shall not apply:

(1) to any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the holder, or a fiduciary, settlor, beneficiary, member or shareholder of the holder if the holder is an estate, trust, partnership or corporation, or a person holding a power over an estate or trust administered by a fiduciary holder, being considered as:

(a) being or having been present or engaged in a trade or business in the United States or having had a permanent establishment in the United States;

(b) having a current or former relationship with the United States, including a relationship as a citizen or resident of the

United States;

(c) being or having been a foreign or domestic personal holding company, a passive foreign investment company or a controlled foreign corporation with respect to the United States or a corporation that has accumulated earnings to avoid United States federal income tax;

(d) being or having been a "10-percent shareholder" of ML&Co. as defined in section 871 (h) (3) of the United States Internal Revenue Code or any successor provisions; or

(e) being a bank receiving payments on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business.

(2) to any holder that is not the sole beneficial owner of the securities, or any portion of the securities, or that is a fiduciary or partnership, but only to the extent that a beneficiary or settlor with respect to the fiduciary, a beneficial owner or member of the partnership would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment;

(3) to any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the failure of the holder or any other person to comply with certification, identification or information reporting requirements concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of the security, if compliance is required by statute, by regulation of the United States Treasury Department or by an applicable income tax treaty to which the United States is a party as a precondition to exemption from tax, assessment or other governmental charge;

(4) to any tax, assessment or other governmental charge that is imposed otherwise than by withholding by ML&Co. or a paying agent from the payment;

(5) to any tax, assessment or other governmental charge that is imposed or withheld solely by reason of a change in law, regulation, or administrative or judicial interpretation that

10

becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later;

(6) to any estate, inheritance, gift, sales, excise, transfer, wealth or personal property tax or similar tax, assessment or other governmental charge;

(7) to any tax, assessment or other governmental charge required to be withheld by any payment agent from any payment of principal of or interest on any senior debt security, if that payment can be made without any withholding by any other payment agent; or

(8) in the case of any combination of items (1), (2), (3), (4), (5), (6) and (7).

Some of the outstanding senior debt securities are subject in all cases to any tax, fiscal or other law or regulation or administrative or judicial interpretation applicable to the payments due and payable. Except as specifically provided under this heading "--Payment of Additional Amounts" and under the heading "--Redemption for Tax Reasons", ML&Co. will not be required to make any payment with respect to any tax, assessment or other governmental charge imposed by any government or a political subdivision or taxing authority.

As used under this heading "--Payment of Additional Amounts" and "--Redemption for Tax Reasons", the term "United States" means the United States of America, including the States and the District of Columbia, and its territories, its possessions and other areas subject to its jurisdiction.

"United States person" means any individual who is a citizen or resident of the United States, a corporation, partnership or other entity created or organized in or under the laws of the United States, any state of the United States or the District of Columbia, other than a partnership that is not treated as a United States person under any applicable Treasury regulations, any estate the income of which is subject to United States federal income taxation regardless of its source, or any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decision of the trust. Notwithstanding the preceding sentence, to the extent provided in the Treasury regulations, certain trusts in existence on August 20, 1996, and treated as United States persons before that date that elect to continue to be treated as United States persons will also be a United States person.

"Non-United States person" means a person who is not a United States person.

#### Redemption for Tax Reasons

As designated, some of the outstanding senior debt securities provide that, if, as a result of any change in, or amendment to, the laws, or any regulations or rulings promulgated under those laws, of the United States or any political subdivision or taxing authority in or of the United States, or any change in, or amendments to, an official position regarding the applicable or interpretation of those laws, regulations or rulings, which change or amendment is announced or becomes effective on or after the date the applicable series of senior debt securities were initially issued, ML&Co. becomes or, based upon a written opinion of independent counsel selected by ML&Co., will become obligated to pay additional amounts as described in this prospectus under the heading "--Payment of Additional Amounts" with respect to those securities, then ML&Co. may, at its option redeem, as a whole, but not in part, the securities on not less than 30 nor more than 60 days prior notice, at a redemption price equal to 100% of their principal amount, together with interest accrued but unpaid to the date fixed for redemption.

11

#### Tax Considerations

It is suggested that you should reach an investment decision regarding the senior debt securities only after carefully considering the suitability of the senior debt securities in the light of your particular circumstances.

You should also consider the tax consequences, if any, of investing in the Securities and should consult your tax advisor.

#### Redeemable Notes

##### Terms and Provisions Applicable to Each Series of Redeemable Notes

The specific terms and provisions applicable to each series of redeemable notes of ML&Co. are described below. The title of each series of the redeemable notes designates the interest rate and maturity date of that series of notes.

Each series of redeemable notes bears interest at a specified rate payable through their stated maturity date to the persons in whose names the notes are registered on the record date preceding each interest payment date as indicated below. If any interest payment date or the stated maturity date falls on a day that is not a Business Day, as defined below, the related payment of principal or interest will be made on the next succeeding Business Day as if made on the date the payment was due, and no interest will accrue on the amount so payable for the period from and after that interest payment date or stated maturity date, as the case may be. Unless otherwise stated below, "Business Day" with respect to any place of payment means each Monday, Tuesday, Wednesday, Thursday and Friday which is not a day on which banking institutions in that place of payment are authorized or obligated by law to close.

The redeemable notes are subject to redemption by ML&Co. or repayment at the option of their holders before their stated maturity dates as indicated below. Beneficial interests in any redeemable notes that are book-entry securities may be acquired, or subsequently transferred, only in denominations of \$1,000 and integral multiples of \$1,000.

##### Terms and Provisions of 6% Notes due February 12, 2003

The stated maturity date for the 6% Notes due February 12, 2003 is February 12, 2003.

These notes of this series bear interest from February 12, 1998 and are payable semiannually on February 12 and August 12 of each year and at maturity, to the persons in whose names the notes are registered on the preceding July 29 and January 29, respectively.

The notes of this series are not subject to redemption by ML&Co. before maturity unless the events described under the section entitled "--Redemption for Tax Reasons" occur.

In the event definitive notes are issued, the holders of these notes will be able to receive payments on the notes and effect transfers of the notes at the offices of Chase Manhattan Bank Luxembourg S.A. or its successor as paying agent in Luxembourg.

ML&Co. has appointed Chase Manhattan Bank Luxembourg S.A. as a paying agent in Luxembourg with respect to this series of notes, and as long as these notes are listed on the Luxembourg Stock Exchange, ML&Co. will maintain a paying agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg. See "--Notices".

## Terms and Provisions of Floating Rate Notes due June 24, 2003

The Floating Rate Notes due June 24, 2003 will mature on June 24, 2003.

The notes of this series are not subject to redemption by ML&Co. before maturity unless the events described in the section entitled "--Redemption for Tax Reasons" occur.

In the event definitive notes are issued, the holders of these notes will be able to receive payments on the notes and effect transfers of the notes at the offices of Chase Manhattan Bank Luxembourg S.A. or its successor as paying agent in Luxembourg.

ML&Co. has appointed Chase Manhattan Bank Luxembourg S.A. as a paying agent in Luxembourg with respect to notes, and as long as the notes are listed on the Luxembourg Stock Exchange, ML&Co. will maintain a paying agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg. See "--Notices".

This series of notes bear interest from June 24, 1998 until their maturity, payable in arrears on March 24, June 24, September 24 and December 24 of each year and at maturity, to the persons in whose names the Notes are registered on the preceding March 9, June 9, September 9 and December 9, respectively; provided, however, that interest payable at maturity will be payable to the person to whom principal shall be payable. Interest payable on each interest payment date will include interest accrued from and including the first day of the interest period relating to that interest payment date to and including the last day of that interest period. Each interest period comprises the period beginning on and including June 24, 1998 and ending on and including the day preceding the first interest payment date, and, thereafter, each successive period beginning on and including each interest payment date and ending on and including the day preceding the next succeeding interest payment date.

With respect to this series of notes, "Business Day", with respect to any place of payment, means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions in that place of payment are authorized or required by law, regulation or executive order to close, and which day is also a London Business Day.

"London Business Day" means any day, other than a Saturday or a Sunday, on which commercial banks and foreign exchange markets settle payments in London, England.

The per annum rate of interest with respect to this series of notes will be reset on each interest reset date and will be LIBOR plus 0.15%. Each interest payment date will be an interest reset date.

The interest rate applicable to each interest period will be the rate determined on the interest determination date applicable to that interest period. The interest determination date applicable to any interest reset date will be the second London Business Day preceding that interest reset date.

With respect to each interest reset date, "LIBOR" will be determined by MLPF&S as the calculation agent for an interest determination date and will be the rate for deposits in United States dollars having a maturity of three months beginning on the second London Business Day immediately following that interest determination date that appears on Telerate Page 3750 as of 11:00 A.M., London time, on that interest determination date.

If fewer than two offered rates appear, or no rate appears, as applicable, the calculation agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the calculation agent, to provide the Calculation Agent with its offered quotation for deposits in United States dollars having a maturity of three months beginning on the second London Business Day immediately following that interest determination date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on that interest determination date and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If at least two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of the rates quoted at approximately 11:00 A.M., in The City of New York, on that interest determination date by three major banks in The City of New York selected by the calculation agent for loans in United States dollars to leading European banks, having a maturity of three months and in a principal amount that is representative for a single transaction in United States dollars in that market at that time; provided, however, that if the banks so selected by the calculation agent are not quoting as mentioned in this sentence, LIBOR determined on that interest determination date will be LIBOR in effect on that interest determination date.

"Telerate Page 3750" means page 3750 on the Bridge Telerate, or any other service or services as may be nominated by the British Bankers' Association for the purpose of displaying London interbank offered rates for United States dollars, for the purpose of displaying the London interbank rates of major banks for United States dollars.

Interest on this series of notes will be computed and paid on the basis of the actual number of days for which interest accrues in each interest period divided by 360.

All percentages resulting from any calculation on the notes will be rounded to the nearest one hundred-thousandth of a percentage point, with five one millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545)) would be rounded to 9.87655% (or .0987655), and all dollar amounts used in or resulting from any calculation on the notes will be rounded to the nearest cent, with one-half cent being rounded upward.

ML&Co. will notify the Luxembourg Stock Exchange or will cause the Luxembourg Stock Exchange to be notified of the interest rate, the interest amount that will accrue, and commencement and ending dates for each interest period as soon as practicable after the determination is made.

Terms and Provisions of 6% Notes due November 15, 2004

The 6% Notes due November 15, 2004 will mature on November 15, 2004.

The notes of this series bear interest and are payable semiannually on May 15 and November 15 of each year and at maturity, to the persons in whose names the notes are registered on the preceding May 1 and November 1, respectively.

14

The notes of this series are not subject to redemption by ML&Co. before maturity unless the events described in the section entitled "--Redemption for Tax Reasons" occur.

In the event definitive notes are issued, the holders will be able to receive payments on the notes and effect transfers of the notes at the offices of Chase Manhattan Bank Luxembourg S.A. or its successor as paying agent in Luxembourg with respect to the notes.

ML&Co. has appointed Chase Manhattan Bank Luxembourg S.A. as a paying agent in Luxembourg with respect to the notes, and as long as the notes are listed on the Luxembourg Stock Exchange, ML&Co. will maintain a paying agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg. See "--Notices".

Terms and Provisions of 6% Notes due July 15, 2005

The 6% Notes due July 15, 2005 will mature at par on July 15, 2005.

The notes of this series bear interest and are payable semiannually on January 15 and July 15 of each year and at maturity, to the persons in whose names the notes are registered on the preceding December 31 and June 30, respectively.

The notes of this series are not subject to redemption by ML&Co. before maturity unless the events described in the section entitled "--Redemption for Tax Reasons" occur.

In the event definitive notes are issued, the holders will be able to receive payments on the notes and effect transfers of the notes at the offices of Chase Manhattan Bank Luxembourg S.A. or its successor as paying agent in Luxembourg with respect to the notes.

ML&Co. has appointed Chase Manhattan Bank Luxembourg S.A. as a paying agent in Luxembourg with respect to the notes, and as long as the notes are listed on the Luxembourg Stock Exchange, ML&Co. will maintain a paying agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg. See "--Notices".

Terms and Provisions of 6 3/8% Notes due September 8, 2006

The 6 3/8% Notes due September 8, 2006 will mature on September 8, 2006 unless redeemed earlier as provided below.

The notes of this series bear interest and are payable semiannually on each March 8 and September 8 to the persons in whose names the notes are registered on the preceding February 23 and August 23, respectively.

The notes are subject to redemption at the option of ML&Co. on or after September 8, 2003, in whole or in part in increments of \$1,000, at a redemption price of 100% of the principal amount of the notes to be redeemed plus accrued interest to but excluding the date of redemption. Notice of redemption of the

notes shall be given not less than 30 or more than 60 days before the date of redemption to each holder of the notes to be redeemed.

#### Terms and Provisions of 6 1/2% Notes due July 15, 2018

The 6 1/2% Notes due July 15, 2018 will mature on July 15, 2018.

15

The notes of this series bear interest and are payable semiannually on January 15 and July 15 of each year and at maturity, to the persons in whose names the notes are registered on the preceding December 31 and June 30, respectively.

The notes of this series are not subject to redemption by ML&Co. before maturity unless the events described in the section entitled "--Redemption for Tax Reasons" occur.

In the event definitive notes are issued, the holders will be able to receive payments on the notes and effect transfers of the notes at the offices of Chase Manhattan Bank Luxembourg S.A. or its successor as paying agent in Luxembourg with respect to the notes.

ML&Co. has appointed Chase Manhattan Bank Luxembourg S.A. as a paying agent in Luxembourg with respect to the notes, and as long as the notes are listed on the Luxembourg Stock Exchange, ML&Co. will maintain a paying agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg. See "--Notices".

#### Terms and Provisions of 6 7/8% Notes due November 15, 2018

The 6 7/8% Notes due November 15, 2018 will mature on November 15, 2018.

The notes of this series bear interest and are payable semiannually on May 15 and November 15 of each year and at maturity, to the persons in whose names the notes are registered on the preceding May 1 and November 1, respectively.

The notes of this series are not subject to redemption by ML&Co. before maturity unless the events described in the section entitled "--Redemption for Tax Reasons" occur.

In the event definitive notes are issued, the holders will be able to receive payments on the notes and effect transfers of the notes at the offices of Chase Manhattan Bank Luxembourg S.A. or its successor as paying agent in Luxembourg with respect to the notes.

ML&Co. has appointed Chase Manhattan Bank Luxembourg S.A. as a paying agent in Luxembourg with respect to the notes, and as long as the notes are listed on the Luxembourg Stock Exchange, ML&Co. will maintain a paying agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg. See "--Notices".

#### Terms and Provisions of 8.40% Notes due November 1, 2019

The 8.40% Notes due November 1, 2019 will mature on November 1, 2019.

The notes of this series bear interest and are payable semiannually on each May 1 and November 1 to the persons in whose names the notes are registered on the preceding April 15 and October 15, respectively.

The notes are not redeemable by ML&Co. before maturity unless \$20,000,000 or less of aggregate principal amount of the notes are outstanding, in which case the notes are redeemable at any time on or after November 1, 1994, in whole but not in part, on at least 15 days and not more than 60 days prior notice at a redemption price of 100% of principal amount of the notes plus accrued interest to the date of redemption.

16

#### Non-Redeemable Notes

Each series of Non-Redeemable Notes bears interest at a specified rate payable semiannually through maturity to the persons in whose names the notes are registered on the regular record date preceding each interest payment date. The Non-Redeemable Notes are not subject to redemption by ML&Co. or repayment at the option of their holders before their stated maturity dates, and are issuable and transferable in denominations of \$1,000 and any integral multiple of \$1,000. Beneficial interests in Non-Redeemable Notes that are book-entry securities may be acquired, or subsequently transferred, only in denominations of \$1,000 and integral multiples of \$1,000. The title of each series of Non-Redeemable Notes designates the interest rate or interest rate basis and maturity date of that series of notes.

#### Non-Redeemable Fixed Rate Notes

<TABLE>

\*Book-Entry Securities

Non-Redeemable Floating Rate Notes due February 4, 2003

The Floating Rate Notes due February 4, 2003 will mature on February 4, 2003.

17

The notes of this series are not subject to redemption by ML&Co. before their maturity.

The notes bear interest payable in arrears on February 4, May 4, August 4 and November 4 of each year until maturity. Interest payable on each interest payment date will include interest accrued from and including the first day of the interest period relating to that interest payment date to and including the last day of that interest period. Each interest period comprises the period beginning on and including the original issue date of the notes and ending on and including the day preceding the first interest payment date, and, thereafter, each successive period beginning on and including each interest payment date and ending on and including the day preceding the next succeeding interest payment date.

With respect to this series of notes, "Business Day", with respect to any place of payment, means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions in that place of payment are authorized or required by law, regulation or executive order to close, and which day is also a London Business Day.

"London Business Day" means any day, other than a Saturday or a Sunday, on which commercial banks and foreign exchange markets settle payments in London, England.

The per annum rate of interest with respect to this series of notes will be reset on each interest reset date and will be LIBOR plus 0.2%. Each interest payment date will be an interest reset date.

The interest rate applicable to each interest period will be the rate determined on the interest determination date applicable to that interest period. The interest determination date applicable to any interest reset date will be the second London Business Day preceding that interest reset date.

With respect to each interest reset date, "LIBOR" will be determined by MLPF&S as the calculation agent for an interest determination date and will be the rate for deposits in United States dollars having a maturity of three months beginning on the second London Business Day immediately following that interest determination date that appears on Telerate Page 3750 as of 11:00 A.M., London time, on that interest determination date.

If fewer than two offered rates appear, or no rate appears, as applicable, the calculation agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the calculation agent, to provide the Calculation Agent with its offered quotation for deposits in United States dollars having a maturity of three months

beginning on the second London Business Day immediately following that interest determination date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on that interest determination date and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If at least two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of the rates quoted at approximately 11:00 A.M., in The City of New York, on that interest determination date by three major banks in The City of New York selected by the calculation agent for loans in United States dollars to leading European banks, having a maturity of three months and in a principal amount that is representative for a single transaction in United States dollars in that market at that time; provided, however, that if the banks so selected by the calculation agent are not quoting as mentioned in this sentence, LIBOR determined on that interest determination date will be LIBOR in effect on that interest determination date.

"Telerate Page 3750" means page 3750 on the Bridge Telerate, or any other service or services as may be nominated by the British Bankers' Association for the purpose of displaying London interbank offered rates for United States dollars, for the purpose of displaying the London interbank rates of major banks for United States dollars.

18

Interest on this series of notes will be computed and paid on the basis of the actual number of days for which interest accrues in each interest period divided by the actual number of days in the relevant year.

All percentages resulting from any calculation on the notes will be rounded to the nearest one hundred-thousandth of a percentage point, with five one millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545)) would be rounded to 9.87655% (or .0987655), and all dollar amounts used in or resulting from any calculation on the notes will be rounded to the nearest cent, with one-half cent being rounded upward.

19

#### OTHER TERMS

##### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

##### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

##### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

20

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

21

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in

principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

Any Event of Default with respect to any series of debt securities may be waived by the holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

22

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the senior debt securities. For further information on ML&Co. and the senior debt securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly report on Form 10-Q for the period ended March 31, 2000, June 30, 2000 and September 29, 2000; and

- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

23

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the senior debt securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the senior debt securities.

MLPF&S may act as principal or agent in these market-making transactions.

The distribution of the senior debt securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Merrill Lynch & Co., Inc.  
Medium-Term Notes

Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated,  
our wholly-owned subsidiary, will use this prospectus when making offers and  
sales related to market-making transactions in the following securities.

<TABLE>	<C>
<S>	
. The final terms and conditions of each issue of notes are specified in the applicable pricing supplement.	. The notes bear interest at fixed or floating rates or may not bear any interest. If the notes bear interest at a floating rate, the floating rate is based on one or more indices or formulas plus or minus a fixed amount or multiplied by a factor.
. The notes are senior unsecured debt securities of ML&Co.	
. The notes have stated maturities of nine months or more from the date they were originally issued.	. Whether the notes are redeemable or repayable before their maturity and whether they are subject to mandatory redemption, redemption at the option of ML&Co. or repayment at the option of the holder of the notes is specified in the applicable pricing supplement.
. We will pay amounts due on the notes in U.S. dollars or any other consideration described in the applicable pricing supplement.	

Investing in the notes involves certain risks.  
See "Risk Factors" on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the notes will be the prevailing market price at the time of sale.

Your investment in the notes will include certain risks. In consultation with your own financial and legal advisers, you should carefully consider, among other matters, the following discussion of risks before deciding whether an investment in the notes is suitable for you. The notes are not an appropriate investment for you if you are unsophisticated with respect to the significant components of their relationship.

#### Structure Risks of Notes Indexed to Interest Rate, Currency or Other Indices or Formulas

If you invest in notes indexed to one or more interest rate, currency or other indices or formulas, there will be significant risks not associated with a conventional fixed rate or floating rate debt security. These risks include fluctuation of the indices or formulas and the possibility that you will receive a lower, or no, amount of principal, premium or interest and at different times than you expected. We have no control over a number of matters, including economic, financial and political events, that are important in determining the existence, magnitude and longevity of these risks and their results. In addition, if an index or formula used to determine any amounts payable in respect of the notes contains a multiplier or leverage factor, the effect of any change in that index or formula will be magnified. In recent years, values of certain indices and formulas have been volatile and volatility in those and other indices and formulas may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future.

#### Redemption May Adversely Affect Your Return on the Notes

If your notes are redeemable at our option or are otherwise subject to mandatory redemption, we may, in the case of optional redemption, or must, in the case of mandatory redemption, choose to redeem your notes at times when prevailing interest rates may be relatively low. Accordingly, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the notes.

#### There May Be an Uncertain Trading Market for Your Notes; Many Factors Affect the Trading Value of Your Notes

We cannot assure you a trading market for your notes will continue to exist. Many factors independent of our creditworthiness may affect the trading market of your notes. These factors include:

- . the complexity and volatility of the index or formula applicable to the notes,
- . the method of calculating the principal, premium and interest in respect of the notes,
- . the time remaining to the maturity of the notes,
- . the outstanding amount of the notes,
- . the redemption features of the notes,
- . the amount of other securities linked to the index or formula applicable to the notes, and
- . the level, direction and volatility of market interest rates generally.

In addition, because some notes were designed for specific investment objectives or strategies, these notes will have a more limited trading market and experience more price volatility. There may be a limited number of buyers for these notes. This may affect the price you receive for these notes or your ability to sell these notes at all. You should not purchase notes unless you understand and know you can bear the related investment risks.

3

#### Our Credit Ratings May Not Reflect All Risks of an Investment in the Notes

Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of your notes. Our credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors discussed above on the value of your notes.

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the notes described in this prospectus.

4

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

5

#### DESCRIPTION OF NOTES

##### Terms of the Notes

"Pricing supplement", as used herein, means a prospectus supplement relating to an individual issue of the notes, as filed with the SEC.

The terms and conditions described below apply to each note unless otherwise specified in the applicable pricing supplement.

Except as provided in the applicable pricing supplement, the notes are

denominated in U.S. dollars. If provided in the applicable pricing supplement, notes may be denominated in a foreign currency or in units of two or more currencies ("Multi-Currency Notes").

Except as provided in the applicable pricing supplement:

- . the notes were issued only in fully registered form without coupons;
- . floating rate notes and Zero Coupon Notes, as defined, were issued in denominations of \$25,000 or any amount in excess of \$25,000 which is an integral multiple of \$1,000; and
- . fixed rate notes were issued in denominations of \$1,000 or any integral multiple in excess of \$1,000.

Unless otherwise specified in the applicable pricing supplement:

- . principal and interest, if any, is payable,
- . the transfer of the notes is registrable, and
- . the notes are exchangeable for notes bearing identical terms and provisions,

at the office of the trustee in The City of New York designated for such purpose, provided that ML&Co., at its option, may pay interest, other than interest payable at maturity or on any date of redemption or repayment, by check mailed to the address of the person entitled to receive payment as shown on the security register. ML&Co. will pay the principal and interest payable at maturity or the date of redemption or repayment on each note upon maturity, redemption or repayment, as the case may be, in immediately available funds against presentation of the note at the office of the trustee maintained for that purpose.

Notwithstanding the preceding two sentences, ML&Co. may pay interest on a note which bears interest at a floating rate at maturity or earlier redemption or repayment by wire transfer of immediately available funds to a designated account maintained in the United States upon:

- (1) receipt of written notice by the trustee from the holder of the applicable note not less than one Business Day before the due date of the relevant principal payment; and
- (2) presentation of the note at the corporate trust office of the trustee in the Borough of Manhattan, The City of New York, or at any other place as ML&Co. may designate.

A holder of not less than \$1,000,000 aggregate principal amount of floating rate notes may by written notice to the trustee at the corporate trust office or at such other address as ML&Co. will give notice in writing not less than 15 days before an interest payment date, arrange to have the interest payable on all notes held by that holder on the relevant interest payment date, and all subsequent interest payment dates until written notice to the contrary is given

6

to the trustee, made by wire transfer of immediately available funds to a designated account maintained in the United States.

Except as provided in the applicable pricing supplement, "Business Day" means any day that is not a Saturday or Sunday and that, in The City of New York, is neither a legal holiday nor a day on which banking institutions are authorized or obligated by law or regulation to close.

#### Repayment at Option of Holder

If so indicated in an applicable pricing supplement, notes are repayable by ML&Co. in whole or in part at the option of the holders of the notes on their respective optional repayment dates specified in the applicable pricing supplement. If no optional repayment date is indicated with respect to a note, that note is not repayable at the option of the holder before maturity. Any repayment in part will be in increments of \$1,000 provided that any remaining principal amount of the applicable note will be an authorized denomination of the applicable note. The repurchase price for any note repurchased is 100% of the principal amount to be repaid, together with interest payable to the date of repayment.

Notwithstanding anything to the contrary in this prospectus, if repayable at the option of the holder, a note is repayable only on an interest payment date. If any optional repayment date specified with respect to a note is not an interest payment date, whether because the payment date is not a Business Day or otherwise, the applicable repayment date will, instead of being the date specified, be the interest payment date nearest the specified optional repayment date whether the applicable interest payment date precedes or succeeds the specified optional repayment date. In the event that an equal number of days

separates a specified optional repayment date and the preceding interest payment date, on the one hand, and the succeeding interest payment date, on the other hand, the optional repayment date will be the succeeding interest payment date.

In order for a note which is by its terms repayable at the option of the holder to be repaid before maturity, ML&Co. must receive at the corporate trust office of the trustee, or at any other address of which ML&Co. will from time to time notify the holders of the notes, during the period from and including the 20th Business Day preceding the applicable optional repayment date up to and including the close of business on the 16th Business Day preceding the applicable optional repayment date:

- (1) the applicable note with the information under the caption "option to elect repayment" duly completed, or
- (2) a telegram, telex, facsimile transmission or letter from a member of a national securities exchange or the National Association of Securities Dealers, Inc. or a commercial bank or a trust company in the United States of America dated no later than the 16th Business Day preceding the applicable optional repayment date and setting forth the name of the holder of the note, the principal amount of the note, the amount of the note to be repaid, a statement that the option to elect repayment is being exercised and a guarantee that the note with the information required under the caption "option to elect repayment" duly completed will be received at the above-mentioned office of the trustee, not later than the 5th Business Day after the date of the telegram, telex, facsimile transmission or letter and note, duly completed, is received at the office of the trustee by the 5th Business Day.

A holder's effective exercise of the repayment option will be irrevocable. A holder of a note will not be permitted to transfer or exchange that note or, in the event that a note is to be repaid in part, that portion of the note to be repaid, after exercise of the repayment option. ML&Co. will make all determinations with respect to all questions as to the validity, eligibility, including time of receipt and acceptance of any note for repayment. All such determinations will be final, binding and non-appealable. ML&Co. has the right to offer for resale any note acquired by it pursuant to the foregoing arrangements. Accordingly, ML&Co. may not satisfy the indebtedness evidenced by any note repurchased by it by such repurchase.

7

#### Redemption at Option of ML&Co.

The notes do not have a sinking fund but are redeemable at the option of ML&Co. if a redemption date is specified in the applicable notes and in the applicable pricing supplement. If indicated in an applicable pricing supplement, the notes are subject to redemption by ML&Co. on and after their respective redemption dates specified in the applicable pricing supplement. On and after the redemption date, if any, the related note is redeemable in whole or in part at the option of ML&Co. on notice given not more than 60 nor less than 30 days before the date of redemption in the case of fixed rate notes, or on notice given not more than 30 nor less than 15 days before the date of redemption in the case of floating rate notes. Any redemption in part will be in increments of \$1,000 provided that any remaining principal amount of the applicable note will be an authorized denomination of the applicable note. The redemption price is equal to 100% of the principal amount to be redeemed, together with interest payable to the date of redemption. Notwithstanding the above, however, floating rate notes, if redeemable at the option of ML&Co., are redeemable only on interest payment dates occurring on or after the applicable redemption dates.

#### Interest Rate

Each note bears interest at the rate per annum, or pursuant to the interest rate formula, stated in the applicable note and in the applicable pricing supplement until the principal of the note is paid or made available for payment. Interest is payable on each interest payment date and at maturity or, if applicable, upon redemption or repayment. Interest is payable to the person in whose name a note is registered at the close of business on the regular record date next preceding each interest payment date; provided, however, interest payable at maturity or, if applicable, upon redemption or repayment will be payable to the person to whom principal will be payable. Except as provided in the applicable pricing supplement, Merrill Lynch, Pierce, Fenner & Smith Incorporated, referred to in this prospectus as MLPF&S, is the calculation agent with respect to floating rate notes.

Each floating rate note bears interest at rates determined by reference to an interest rate formula, which may be adjusted by a Spread or Spread Multiplier, each as defined below, unless otherwise specified in the applicable note. A floating rate note may also have either or both of the following:

- . a maximum limitation, or ceiling, on the rate at which interest which may accrue during any interest period; and

- . a minimum limitation, or floor, on the rate at which interest which may accrue during any interest period.

The applicable pricing supplement designates either a fixed rate of interest per annum payable on the applicable note, in which case the note is a fixed rate note, or one of the following base rates, as applicable to the relevant floating rate note:

- . the commercial paper index rate, in which case the note is a Commercial Paper Index Rate Note,
- . the federal funds rate, in which case the note is a Federal Funds Rate Note,
- . the prime rate, in which case the note is a Prime Rate Note,
- . the treasury index rate, in which case the note is a Treasury Index Rate Note,
- . LIBOR, in which case the note is a LIBOR Note, or
- . such other interest rate formula as is set forth in the applicable pricing supplement.

Except as specified in the applicable pricing supplement, floating rate notes have daily, weekly, monthly, quarterly, semiannual or annual resets of the rate of interest.

8

#### Fixed Rate Notes

Each fixed rate note bears interest at the rate per annum stated on the face of the applicable note until the principal of the note is paid or made available for payment. Except as provided in the applicable pricing supplement, interest is payable semi-annually on May 15 and November 15 of each year and at maturity, or on the date of redemption or repayment if a fixed rate note is redeemed by ML&Co. or repaid at the holder's option prior to maturity. Interest is computed on the basis of a 360-day year of twelve 30-day months. Interest is payable to the person in whose name a fixed rate note is registered at the close of business on the May 1 or November 1 regular record date next preceding the May 15 or November 15 interest payment date. Interest rates are subject to change by ML&Co. from time to time, but no change will affect any fixed rate note previously issued or as to which ML&Co. has accepted an offer to purchase.

Any payment of principal or interest required to be made on an interest payment date, at maturity or earlier redemption or repayment of a fixed rate note which is not a Business Day need not be made on that day, but may be made on the next succeeding Business Day with the same force and effect as if made on the interest payment date, maturity date or date of redemption or repayment, as the case may be. No interest will accrue with respect to the payment for the period from and after the applicable interest payment date, maturity date or date of redemption or repayment.

#### Floating Rate Notes

The applicable pricing supplement specifies:

- . the base rate or other interest rate formula,
- . the Spread, or Spread Multiplier, if any, and
- . the maximum or minimum interest rate limitation, if any, applicable to each floating rate note.

In addition, the pricing supplement specifies for each floating rate note the following terms, if applicable: the initial interest rate, the interest payment dates, the Index Maturity, Interest Reset Dates, optional repayment dates, redemption date and any other variable term applicable to the note.

The interest rate on each floating rate note is calculated by reference to the specified interest rate formula:

- (1) plus or minus the number of basis points specified in the applicable pricing supplement as being applicable to the interest rate for the relevant floating rate note (the "Spread"), if any, or
- (2) multiplied by the percentage of the base rate applicable to the interest rate for the applicable floating rate note (the "Spread Multiplier"), if any.

"Index Maturity" means, the period to maturity of the instrument or obligation on which the interest rate formula is based, as specified in the applicable pricing supplement.

"Regular record date" with respect to floating rate notes means the 15th day, whether or not a Business Day, before the applicable interest payment date.

The "calculation date", if applicable, with respect to any Interest Determination Date as specified with respect to each base rate is the earlier of:

- . the tenth calendar day after the Interest Determination Date or, if the tenth calendar day is not a Business Day, the next succeeding Business Day, or
- . the Business Day before the interest payment date on which the accrued interest will be payable.

9

Except as otherwise provided herein with respect to LIBOR Notes or in the applicable pricing supplement, if any Interest Reset Date for any floating rate note would otherwise be a day that is not a Business Day, that Interest Reset Date will be postponed to the next succeeding day that is a Business Day.

Each floating rate note bears interest from the date of issue at the rates determined as described below until the principal of the note is paid or otherwise made available for payment. The rate of interest on a floating rate note is reset each Interest Reset Date applicable to the note; provided, however, that except in the case of floating rate notes which reset daily, the interest rate in effect for the ten days immediately before maturity, redemption or repayment, as the case may be, will be the interest rate in effect on the tenth day preceding such maturity, redemption or repayment, as the case may be. Except as otherwise provided herein or in the applicable pricing supplement, the rate of interest determined on an Interest Reset Date with respect to a floating rate note will be applicable on and after the applicable Interest Reset Date to, but not including, the next succeeding Interest Reset Date, or until the date of maturity or date of redemption or repayment, as the case may be.

If an interest payment date with respect to any floating rate note falls on a day that is not a Business Day with respect to the note, that interest payment date will be the following day that is a Business Day, except that in the case of a LIBOR Note, if such day falls in the next calendar month, the interest payment date will be the preceding day that is a Business Day. If the maturity date or date of redemption or repayment of any floating rate note falls on a day that is not a Business Day, the payment of interest and principal may be made on the next succeeding Business Day, and no interest on that payment will accrue for the period from and after the maturity date or the date of redemption or repayment.

Except as provided in the applicable pricing supplement, interest payments on floating rate notes will be the amount of interest accrued from, and including, the next preceding interest payment date in respect of which interest has been paid to, but excluding, the interest payment date. With respect to a floating rate note, accrued interest from the last date to which interest has been paid is calculated by multiplying the principal amount of the applicable floating rate note by an accrued interest factor. The accrued interest factor is computed by adding the interest factors, calculated for each day, from the last date to which interest has been paid, to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to each day by 360, in the case of Commercial Paper Index Rate Notes, Federal Funds Rate Notes, Prime Rate Notes and LIBOR Notes, or by the actual number of days in the year, in the case of Treasury Index Rate Notes.

All percentages resulting from any calculation on floating rate notes will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upward. For example, 9.876545% or .09876545 would be rounded to 9.87655% or .0987655. All dollar amounts used in or resulting from calculations on floating rate notes will be rounded to the nearest cent with one-half cent being rounded upward.

Upon the request of the holder of any floating rate note, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate which will become effective as a result of a determination made with respect to the most recent Interest Determination Date with respect to the applicable note.

#### Commercial Paper Index Rate Notes

Commercial Paper Index Rate Notes bear interest at the interest rates, calculated with reference to the Commercial Paper Index Rate and the Spread or Spread Multiplier, if any, specified in the applicable pricing supplement.

Unless otherwise indicated in the applicable pricing supplement, "Commercial Paper Index Rate" means, with respect to any Interest Determination Date relating to a Commercial Paper Index Rate Note, the Money Market Yield calculated as described below of the rate on that date for commercial paper having the Index Maturity specified in the applicable pricing supplement as such

rate is published by the Board of Governors of the Federal Reserve System in "Statistical Release H.15(519), Selected Interest Rates" or any successor publication of the Board of Governors of the Federal Reserve System ("H.15(519)"), under the heading "Commercial Paper". In the event that such rate is not published by 9:00 A.M. New York City time on the calculation date pertaining to the applicable Interest Determination Date, then the Commercial Paper Index Rate will be the Money Market Yield of the rate on

10

that Interest Determination Date for commercial paper having the Index Maturity as published by the Federal Reserve Bank of New York in its daily statistical release, "Composite 3:30 P.M. Quotations for U.S. Government Securities" ("Composite Quotations") under the heading "Commercial Paper". If by 3:00 P.M., New York City time, on the applicable calculation date such rate is not yet published in either H.15(519) or Composite Quotations, the Commercial Paper Index Rate for that Interest Determination Date will be calculated by the calculation agent and will be the Money Market Yield of the arithmetic mean of the offered rates of three leading dealers of commercial paper in The City of New York selected by the calculation agent as of 11:00 A.M., New York City time, on that Interest Determination Date for commercial paper having the specified Index Maturity placed for an industrial issuer whose bond rating is "AA" or the equivalent from a nationally recognized rating agency. If the dealers selected by the calculation agent are not quoting as mentioned in the preceding sentence, the Commercial Paper Index Rate will be the Commercial Paper Index Rate in effect on such Interest Determination Date.

"Money Market Yield" means the yield calculated in accordance with the following formula and expressed as a percentage:

$$\text{Money Market Yield} = \frac{D \times 360}{360 - (D \times X \times M)} \times 100$$

where "D" refers to the per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal; and "M" refers to the actual number of days in the interest period for which interest is being calculated.

The Interest Determination Date pertaining to an Interest Reset Date on a Commercial Paper Index Rate Note is the Business Day before the Interest Reset Date.

#### Federal Funds Rate Notes

Federal Funds Rate Notes bear interest at the interest rates, calculated with reference to the Federal Funds Rate and the Spread, or Spread Multiplier, if any, specified in the applicable pricing supplement.

Unless otherwise indicated in the applicable pricing supplement, "Federal Funds Rate" means, with respect to any Interest Determination Date relating to a Federal Funds Rate Note, the rate on that date for Federal Funds as published by the Board of Governors of the Federal Reserve System in "Statistical Release H.15(519), Selected Interest Rates" ("H.15(519)") or any successor publication under the heading "Federal Funds (Effective)" or, if not so published by 9:00 A.M., New York City time, on the calculation date pertaining to the applicable Interest Determination Date, the Federal Funds Rate will be the interest rate on the Interest Determination Date as published by the Federal Reserve Bank of New York in its daily statistical release, "Composite 3:30 P.M. Quotations for U.S. Government Securities" ("Composite Quotations") under the heading "Federal Funds/Effective Rate". If such rate is not yet published by 9:00 A.M. on the calculation date pertaining to the applicable Interest Determination Date, the Federal Funds Rate for the applicable Interest Determination Date will be the rate on the applicable Interest Determination Date made publicly available by the Federal Reserve Bank of New York which is equivalent to the rate which appears in H.15(519) under the heading "Federal Funds (Effective)". If the rate described in the preceding sentence is not made publicly available by the Federal Reserve Bank of New York by 9:00 A.M. on the calculation date, the Federal Funds Rate will be the last Federal Funds Rate in effect before the applicable Interest Determination Date.

The rate of interest on a Federal Funds Rate Note is reset on each Interest Reset Date applicable to the note. Unless otherwise specified in the applicable pricing supplement, with respect to Federal Funds Rate Notes, each Business Day is an Interest Reset Date. The Interest Determination Date pertaining to an Interest Reset Date on a Federal Funds Rate Note is the Business Day before the applicable Interest Reset Date.

#### Prime Rate Notes

Prime Rate Notes bear interest at the interest rates, calculated with reference to the Prime Rate and the Spread, or Spread Multiplier, if any, specified in the applicable pricing supplement.

11

Unless otherwise indicated in the applicable pricing supplement, "Prime Rate" means, with respect to any Interest Determination Date relating to a Prime Rate Note, the arithmetic mean of the prime rates quoted on the basis of the actual number of days in the year divided by a 360-day year as of the close of business on the Interest Determination Date by three major money center banks in The City of New York selected by the calculation agent. If fewer than three quotations are provided, the Prime Rate will be calculated by the calculation agent and will be determined as the arithmetic mean on the basis of the prime rates quoted in The City of New York on the calculation date by three substitute banks or trust companies organized and doing business under the laws of the United States, or any State thereof, and unaffiliated with ML&Co., having total equity capital of at least \$500 million and being subject to supervision or examination by a Federal or State authority, selected by the calculation agent. If the substitute banks or trust companies selected by the calculation agent are not quoting as mentioned in the preceding sentence, the Prime Rate will be the Prime Rate in effect on such Interest Determination Date relating to a Prime Rate Note.

The Interest Determination Date pertaining to an Interest Reset Date on a Prime Rate Note is the Business Day before the applicable Interest Reset Date.

#### LIBOR Notes

LIBOR Notes bear interest at the interest rates calculated with reference to LIBOR and the Spread or Spread Multiplier, if any, specified in the applicable pricing supplement.

Unless otherwise indicated in the applicable pricing supplement, LIBOR, with respect to any Interest Determination Date relating to a LIBOR Note will equal the arithmetic mean as determined by the calculation agent of the offered rates which appear as of 11:00 A.M., London time, on the Reuters Screen LIBOR Page on the Reuter Monitor Money Rates Service for deposits in United States dollars for the period of the Index Maturity specified in the applicable pricing supplement commencing on the second day on which dealings in deposits in United States dollars are transacted in the London interbank market (a "London Banking Day") immediately following the applicable Interest Determination Date; provided, however, that if fewer than two quotations appear, the calculation agent will request the principal London office of four major banks in the London interbank market selected by the calculation agent to provide the calculation agent with a quotation of their offered rates at approximately 11:00 A.M., London time, on the applicable Interest Determination Date for deposits in United States dollars for the period of the applicable Index Maturity and in a principal amount equal to an amount that is representative for a single transaction in such market at such time commencing on the second London Banking Day immediately following the applicable Interest Determination Date. If at least two quotations are provided, LIBOR for the applicable Interest Determination Date will equal the arithmetic mean of the quotations. If fewer than two quotations are provided, LIBOR for the applicable Interest Determination Date will equal the arithmetic mean of the rates quoted by three major banks in The City of New York, as selected by the calculation agent, at approximately 11:00 A.M., New York City time, on the applicable Interest Determination Date for loans to leading European banks in United States dollars for the period of the applicable Index Maturity and in a principal amount equal to an amount that is representative for a single transaction in such market at such time commencing on the second London Banking Day following the Interest Determination Date. If the banks selected by the calculation agent are not quoting as mentioned in the preceding sentence, LIBOR for the applicable Interest Determination Date will be LIBOR in effect on such Interest Determination Date.

The Interest Determination Date pertaining to an Interest Reset Date on a LIBOR Note is the second London Banking Day next preceding the applicable Interest Reset Date.

#### Treasury Index Rate Notes

Treasury Index Rate Notes bear interest at the interest rates, calculated with reference to the Treasury Index Rate and the Spread or Spread Multiplier, if any, specified in the applicable pricing supplement.

Unless otherwise indicated in the pricing supplement, "Treasury Index Rate" means, with respect to any Interest Determination Date relating to a Treasury Index Rate Note, the per annum discount rate for direct obligations of the United States with a maturity of thirteen weeks ("91-day Treasury bills"), expressed as a bond equivalent on the basis of a year of 365 or 366 days, at the 91-day Treasury bill auction occurring on the applicable

Treasury bills are usually sold at auction on Monday of each week unless that day is a legal holiday in which case the auction is usually held on the following Tuesday, except that the auction may be held on the preceding Friday.

The day of each auction of 91-day Treasury bills, unless otherwise specified in the pricing supplement, is an Interest Determination Date provided that the results of the auction are published or reported, and each Business Day following such an Interest Determination Date is a Treasury Index Rate Note Interest Reset Date. The rate of interest applicable to Treasury Index Rate Notes will therefore not be reset during any period in which auctions are not held or the results of auctions are not so published or reported.

#### Zero Coupon Notes

Notes which do not bear interest ("Zero Coupon Notes") were initially offered at a substantial discount from their principal amount at maturity. There are no periodic payments of interest. The calculation of the accrual of Original Issue Discount, as defined below, in the period during which a Zero Coupon Note remains outstanding, is on a semiannual bond equivalent basis using a year composed of twelve 30-day months. Upon maturity, Original Issue Discount will cease to accrue on a Zero Coupon Note.

Limitation of Claims in Bankruptcy: If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the holder of a Zero Coupon Note with respect to the principal amount thereof may, under Section 502(b)(2) of Title 11 of the United States Code, be limited to the issue price of the Zero Coupon Note plus that portion of the Original Issue Discount that is amortized from the date of issue to the commencement of the proceeding.

#### OTHER TERMS

ML&Co. issued the notes as a series of securities under an Indenture, dated as of April 1, 1983, as amended and restated (the "1983 Indenture"), between ML&Co. and The Chase Manhattan Bank, as trustee. All of the securities issued under the 1983 Indenture are referred to in this prospectus as the "senior debt securities". A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the notes of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definition of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon such terms as ML&Co. may establish under to the provisions of the 1983 Indenture.

The 1983 Indenture and the notes are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and reopen a previously issued series of senior debt securities and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co.. However, since ML&Co. is a holding company, the right of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted

13

by net capital requirements under the Securities Exchange Act of 1934, as amended, and under rules of certain exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a

corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

14

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

## Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if

15

all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of the 1983 Indenture without the consent of each holder of each outstanding security of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The notes and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

16

## WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the notes. For further information on ML&Co. and the notes, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly report on Form 10-Q for the period ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and

17

MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the notes and is to be used by MLPF&S when making offers and sales related to market-making transactions in the notes.

MLPF&S may act as principal or agent in these market-making transactions.

The distribution of the notes will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended

December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Subject to Completion  
Preliminary Prospectus dated December 27, 2000

PROSPECTUS  
- -----

Merrill Lynch & Co., Inc.  
AMEX Oil Index(SM)  
Stock Market Annual Reset Term(SM) Notes  
due December 29, 2000  
"SMART Notes(SM) "

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the SMART Notes.

The SMART Notes:

- . 100% principal protection at maturity
- . Interest payment on each June 30 and December 30
- . We will pay interest on the SMART Notes at a rate equal to the product of 85% and the percentage increase, if any, in the AMEX Oil Index
- . For each \$1,000 principal amount of the SMART Notes that you own, you will receive not less than \$20 per year
- . The SMART Notes are listed on the American Stock Exchange under the symbol "MOI.F"

Investing in the SMART Notes involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the SMART Notes will be the prevailing market price at the time of sale.

---

Merrill Lynch & Co.

---

The date of this prospectus is , .

(SM) "SMART Notes" and "Stock Market Annual Reset Term" are service marks of Merrill Lynch & Co., Inc.

(SM) "Oil Index" is a registered service mark of the American Stock Exchange, Inc.

### RISK FACTORS

Your investment in the SMART Notes will involve risks. You should carefully consider the following discussion of risks before investing in the SMART Notes. In addition, you should reach an investment decision with regard to the SMART Notes only after consulting with your legal and tax advisers and considering the suitability of the SMART Notes in the light of your particular circumstances.

You may not earn a return on your investment

If the arithmetic mean of the quarterly closing values of the AMEX Oil Index applicable to each December payment date, determined in the manner set forth in this prospectus, does not exceed the closing value of the AMEX Oil Index on the last business day of the immediately preceding calendar year by more than approximately 2.35%, at maturity you receive no more than \$20 for each \$1,000 principal amount of your SMART Notes on that December payment date. This will be true even if at some point during the time the calculation agent determines the interest payable on the SMART Notes for each December payment date, the arithmetic mean of the quarterly closing values of the AMEX Oil Index for that year exceeded the closing value of the AMEX Oil Index on the last business day of the immediately preceding calendar year by more than 2.35%.

You will receive no less than \$20 for each \$1,000 principal amount of your SMART Notes and we will repay you 100% of the principal amount of your SMART Notes at maturity. Therefore, the amount that we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

The amount payable on the SMART Notes based on the AMEX Oil Index will not produce the same return as if you purchased the stocks underlying the AMEX Oil Index and held them for a similar period because of the following:

- . the AMEX Oil Index does not reflect the payment of dividends on the stocks underlying it,
- . the annual amount payable is limited to 85% multiplied by the percentage increase in the AMEX Oil Index during any relevant period, but will not be less than \$20 per \$1,000 principal amount of the SMART Notes,
- . the arithmetic mean of the quarterly closing values of the AMEX Oil Index for each calendar year may not reflect the full percentage increase in the AMEX Oil Index during any relevant period because it is an average of the AMEX Oil Index at various points in time, and
- . the amounts payable on the SMART Notes do not reflect changes in the AMEX Oil Index for the period between the determination of the arithmetic mean of the quarterly closing values of the AMEX Oil Index applicable to each December payment date and the determination of the closing value of the AMEX Oil Index on the last business day of the preceding calendar year for the next December payment date.

There may be an uncertain trading market for the SMART Notes in the future

Although the SMART Notes are listed on the AMEX under the symbol "MOI.F," you cannot assume that a trading market will continue to exist for the SMART Notes. If a trading market does continue to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the SMART Notes will depend on our financial performance, and other factors, such as the increase, if any, in the value of the index. We expect that the secondary market for the SMART Notes, including prices in that market, will likely be affected by our creditworthiness and by a number of other factors. It is possible to view the SMART Notes as the economic equivalent of a debt obligation plus a series of cash settlement options; however, the SMART Notes may

3

trade in the secondary market at a discount from the aggregate value of these economic components, if these economic components were valued and capable of being traded separately.

If the trading market for the SMART Notes is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your SMART Notes. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the SMART Notes; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the SMART Notes will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the SMART Notes caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the SMART Notes caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the SMART Notes attributable to another factor, such as an increase in the value of the index.

Relative level of the AMEX Oil Index. We expect that the trading value of the SMART Notes will depend significantly on the extent of the excess of the expected average of the quarterly closing values of the AMEX Oil Index for a calendar year over the closing value of the AMEX Oil Index on the last business day of the preceding calendar year. If, however, you sell your SMART Notes at a time when this excess exists, the price you receive may nevertheless be at a discount from the amount expected to be payable if this excess were to prevail until the next December payment date. Furthermore, the price at which you will be able to sell SMART Notes before a December payment date may be at a discount, which could be substantial, from the principal amount of your SMART Notes, if, at that time, the AMEX Oil Index is below, equal to or not sufficiently above the closing value of the AMEX Oil Index on the last business day of the immediately preceding calendar year before that December payment date. The level of the AMEX Oil Index will depend on the prices of the stocks underlying the AMEX Oil Index which, in turn, will be affected by factors affecting the oil industry, see "The AMEX Oil Index--Oil Industry Sector".

Changes in the volatility of the index are expected to affect the trading value of the SMART Notes. If the volatility of the AMEX Oil Index increases, we expect the trading value of the SMART Notes to increase. If the volatility of the AMEX Oil Index decreases, we expect the trading value of the SMART Notes to decrease.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the SMART Notes. In general, if U.S. interest rates increase, we expect the value of the SMART Notes to decrease. If U.S. interest rates decrease, we expect the value of the SMART Notes to increase. Interest rates may also affect the U.S. economy, and, in turn, the level of the AMEX Oil Index. Rising interest rates may lower the level of the AMEX Oil Index and, thus, the value of the SMART Notes. Falling interest rates may increase the level of the AMEX Oil Index and, thus, may increase the value of the SMART Notes.

Time remaining to December payment dates. We anticipate that before each December payment date, the SMART Notes may trade at a value above which may be inferred from the level of U.S. interest rates and the AMEX Oil Index. This difference will reflect a "time premium" due to expectations concerning the level of the AMEX Oil Index during the period before each December payment date. As the time remaining to each December payment date decreases, however, this time premium may decrease, thus decreasing the trading value of the SMART Notes.

As the time remaining to maturity of the SMART Notes decreases, the "time premium" associated with the SMART Notes will decrease. As the number of remaining December payment dates decreases, the cumulative value of all the annual rights to receive an amount that reflects participation in the payments in excess of the minimum annual interest payment of \$20 per \$1,000 principal amount will decrease, thus decreasing the value of the SMART Notes.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the SMART Notes. A number of complex relationships between the relative values of the SMART Notes and

4

dividend rates are likely to exist. If dividend rates on the stocks comprising the AMEX Oil Index increase, the value of the annual right to receive an amount that reflects participation in the average appreciation of the AMEX Oil Index above the annual starting value is expected to decrease, and consequently, we expect the value of the SMART Notes to decrease. Conversely, if dividend rates on the stocks comprising the AMEX Oil Index decrease, the value of the annual right to receive such an amount is expected to increase and, therefore, the value of the SMART Notes is expected to increase. In general, however, because the majority of issuers of stocks underlying the AMEX Oil Index are organized in the United States, rising U.S. corporate dividend rates may increase the AMEX Oil Index and, in turn, increase the value of the SMART Notes. Conversely, falling U.S. dividend rates may decrease the AMEX Oil Index and, in turn, decrease the value of the SMART Notes.

Changes in our credit ratings may affect the trading value of the SMART Notes. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the SMART Notes. However, because your return on your SMART Notes is dependent upon factors in addition to our ability to pay our obligations under the SMART Notes, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the SMART Notes.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the SMART Notes of a given change in most of the factors listed above will be less if it occurs later in the term of the SMART Notes than if it occurs earlier in the term of the SMART Notes. However, we expect that the effect on the trading value of the SMART Notes of a given increase in the value of the index will be greater if it occurs later in the term of the SMART Notes than if it occurs earlier in the term of the SMART Notes.

Amounts payable on the MITTS Securities may be limited by state law

The indenture under which the SMART Notes are issued is governed by New York State law. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the SMART Notes. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the SMART Notes, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services ;
- . insurance sales and underwriting services; and

. investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the SMART Notes described in this prospectus.

6

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
	-----	-----	-----	-----	-----	September 29, 2000
	-----	-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

7

#### DESCRIPTION OF THE SMART NOTES

The SMART Notes were issued as a series of Senior Debt Securities under the 1983 Indenture which is more fully described in this prospectus.

The SMART Notes will mature, and the principal of the SMART Notes will be repayable at par, on December 29, 2000.

The SMART Notes are not subject to redemption before maturity by ML&Co. or at the option of any beneficial owner. Upon the occurrence of an Event of Default with respect to the SMART Notes, however, beneficial owners of the SMART Notes or the Trustee may accelerate the maturity of the SMART Notes, as described under "Description of SMART Notes--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

The SMART Notes are transferable in denominations of \$1,000 and integral multiples of \$1,000.

#### Interest Payments

For each full calendar year, ML&Co. will pay interest in an amount equal to the following for each \$1,000 principal amount of SMART Notes:

$\$1,000 \times \text{Average Percent Change} \times \text{Participation Rate}$

provided, however, that the per annum amount payable as a result of the foregoing on the SMART Notes will not be less than the Minimum Annual Payment of \$20 per \$1,000 principal amount of SMART Notes on a per annum basis or 2% per annum.

The "Participation Rate" equals 85%.

The "Average Percent Change" applicable to the determination of the amount

payable in any calendar year will equal:

$$\frac{\text{Ending Average Value} - \text{Starting Annual Value}}{\text{Starting Annual Value}}$$

The "Starting Annual Value" applicable to the determination of the amount payable in a calendar year will equal the closing value of the AMEX Oil Index on the last AMEX Business Day in the immediately preceding calendar year as determined by State Street Bank and Trust Company or the calculation agent.

The "Ending Average Value" applicable to the determination of the amount payable in a calendar year will equal the arithmetic average or arithmetic mean of the Quarterly Values of the AMEX Oil Index for each calendar quarter during such year as determined by the calculation agent.

The "Quarterly Value" for any of the first three calendar quarters in a calendar year will be the closing value of the AMEX Oil Index on the last scheduled AMEX Business Day in any such calendar quarter; provided, however, that if a Market Disruption Event has occurred on the last scheduled AMEX Business Day in that calendar quarter, the Quarterly Value for that calendar quarter will be the closing value of the AMEX Oil Index on the next succeeding scheduled AMEX Business Day regardless of whether a Market Disruption Event occurs on that day.

The "Quarterly Value" for the fourth calendar quarter in a calendar year will be the closing value of the AMEX Oil Index on the seventh scheduled AMEX Business Day preceding the end of that calendar quarter; provided, however, that if a Market Disruption Event has occurred on the seventh scheduled AMEX Business Day, the Quarterly Value for that calendar quarter will be the closing value of the AMEX Oil Index on the sixth scheduled AMEX Business Day preceding the end of that calendar quarter regardless of whether a Market Disruption Event occurs on that day. The calculation agent will determine scheduled AMEX Business Days.

8

If the Ending Average Value applicable to the applicable December payment date does not exceed the Annual Starting Value by more than approximately 2.35%, beneficial owners of the SMART Notes will receive only the Minimum Annual Payment on that December payment date, even if the value of the AMEX Oil Index at some point between the determination of the applicable Starting Annual Value and the determination of the applicable Ending Average Value exceeded that Starting Annual Value by more than approximately 2.35%.

"Calculation Day" is any day on which a Starting Annual Value or a closing value of the AMEX Oil Index for a calendar quarter is required to be calculated.

An "AMEX Business Day" is a day on which the AMEX is open for trading. All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, in the absence of manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the SMART Notes.

All percentages resulting from any calculation on the SMART Notes will be rounded to the nearest one hundred-thousandth of a percentage point, with five one millionths of a percentage point rounded upwards, e.g., 9.876545% or .09876545 would be rounded to 9.87655% or .0987655, and all dollar amounts used in or resulting from any calculation will be rounded to the nearest cent with one-half cent being rounded upwards.

#### Adjustments to the Index; Market Disruption Event

If at any time the method of calculating the AMEX Oil Index, or its value, is changed in a material respect, or if the AMEX Oil Index is in any other way modified so that the index does not, in the opinion of the calculation agent, fairly represent the value of the AMEX Oil Index had no changes or modifications been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each Calculation Day, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the AMEX Oil Index as if no changes or modifications had been made, and calculate the closing value with reference to the AMEX Oil Index, as adjusted. Accordingly, if the method of calculating the AMEX Oil Index is modified so that the value of the index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split in the index, then the calculation agent shall adjust the index in order to arrive at a value of the AMEX Oil Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- (a) the suspension or material limitation on trading during the last half hour of trading in any of the component stocks, or depository receipts representing those stocks, included in the AMEX Oil Index on any national securities exchange in the United

States, or

- (b) the suspension or material limitation, in each case during the last half hour of trading whether by reason of movements in price exceeding levels permitted by the relevant exchange or otherwise, in:
  - . futures contracts related to the AMEX Oil Index which are traded on any exchange or board of trade in the United States, or
  - . option contracts related to the AMEX Oil Index which are traded on the AMEX.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE, the AMEX or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered 'material'.

For the purposes of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

9

#### Interest Payment Dates

ML&Co. will make semiannual interest payments on the SMART Notes on June 30 of each year ("June Payment Dates") and December 31 of each year and at maturity ("December Payment Dates"), except as described in this prospectus, to the persons in whose names the SMART Notes are registered on the immediately preceding June 29 or December 30, and, at maturity, to the person to whom the principal is payable. For each Note, ML&Co. will pay half of the Minimum Annual Payment for each calendar year on the June Payment Date, and will pay the balance of the annual amount payable on each Note for that year on the December Payment Date.

Notwithstanding the foregoing, if it is known at least three Business Days before December 31 that December 31 will not be a Business Day, the amount payable by ML&Co. with respect to a December Payment Date for the SMART Notes will be made on the Business Day immediately preceding that December 31 to the persons in whose names the SMART Notes are registered on the second Business Day immediately preceding that December 31.

#### Discontinuance of the AMEX Oil Index

If the AMEX discontinues publication of the AMEX Oil Index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the AMEX Oil Index (a "Successor Index"), then, upon the calculation agent's notification of any determination to the Trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by the AMEX or any other entity for the AMEX Oil Index and calculate the annual amount payable as described above under "Interest Payments". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the SMART Notes.

If the AMEX discontinues publication of the AMEX Oil Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the AMEX Oil Index for any Calculation Day used to calculate the annual amount payable will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the AMEX Oil Index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the AMEX Oil Index the Successor Index or value shall be substituted for the AMEX Oil Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the AMEX discontinues publication of the AMEX Oil Index before the period during which the amount payable with respect to any year is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each AMEX Business Day until the earlier to occur of:

- (a) the determination of the amount payable with respect to that year or
- (b) a determination by the calculation agent that a Successor Index is available, the calculation agent shall determine the value that would be used in computing the amount payable with respect to that year as described in the preceding paragraph as if that day were a Calculation Day.

The calculation agent will cause notice of each such value to be published not less often than once each month in The Wall Street Journal, or another newspaper

of general circulation, and arrange for information with respect to these values to be made available by telephone. Notwithstanding these alternative arrangements, discontinuance of the publication of the AMEX Oil Index may adversely affect trading in the SMART Notes.

#### Events of Default and Acceleration

In case an Event of Default with respect to any SMART Notes shall have occurred and be continuing, the amount payable to a beneficial owner of a Note upon any acceleration permitted by the SMART Notes, will equal:

- (a) the principal amount of each SMART Note, plus

10

- (b) an additional amount, if any, of interest calculated as though the date of early repayment were a December Payment Date and prorated through the date of early repayment on the basis of a year consisting of 360 days of twelve 30-day months.

If Quarterly Values have been calculated before the early redemption date for the calendar year in which any early redemption date occurs, these Quarterly Values shall be averaged with the value of the AMEX Oil Index determined with respect to that date of early redemption. If no Quarterly Values have been calculated before the early redemption date for the calendar year in which the early redemption date occurs, the Ending Average Value for that calendar year will be the value of the AMEX Oil Index determined with respect to the date of early redemption. The Minimum Supplemental Redemption Amount with respect to any early redemption date will be an amount equal to the interest which would have accrued on the SMART Notes from and including January 1 in the calendar year in which the early redemption date occurs, to but excluding the date of early redemption at an annualized rate of 2%, calculated on a semiannual bond equivalent basis.

If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Note may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Note plus an additional amount, if any, of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the SMART Notes.

In case of default in payment at the maturity date of the SMART Notes whether at their stated maturity or upon acceleration, from and after the maturity date the SMART Notes shall bear interest, payable upon demand of the holders, at the rate of 7% per annum to the extent that payment of interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the SMART Notes to the date payment of that amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities.

Beneficial owners of the SMART Notes may not receive physical delivery of the securities nor may they be entitled to have the securities registered in their names. The SMART Notes are represented by one or more fully registered global securities. Each global security has been deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for SMART Notes in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to such depository or another nominee of the depository or by the depository or any nominee to a successor of such depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the SMART Notes represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the securities represented by a global security are not entitled to have the SMART Notes represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the SMART Notes in definitive form and are not considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take action, and those participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act

upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

11

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the securities. The securities have been issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One or more fully registered global securities have been issued for the SMART Notes in the aggregate principal amount of that issue, and has been deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of securities under DTC's system must be made by or through direct participants, which will receive a credit for the securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such beneficial owner entered into the transaction. Transfers of ownership interests in the securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the securities; DTC's records reflect only the identity of the direct participants to whose accounts such securities are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments on the SMART Notes will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on such date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of such payments to direct participants is the responsibility of DTC, and disbursement of such payments to the beneficial owners is the responsibility of direct and

indirect participants.

12

#### Exchange for Certificated Securities

If

- (a) the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, and
- (c) an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the securities,

the global securities will be exchangeable for securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$1,000 and integral multiples of \$1,000. The definitive securities will be registered in such name or names as the depository shall instruct the trustee. It is expected that such instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, SMART Notes in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### THE AMEX OIL INDEX

The AMEX Oil Index is a price-weighted stock index, i.e., an Underlying Stock's weight in the index is based on its price per share rather than the total market capitalization of the issuer, calculated, published and disseminated by the AMEX that measures the composite price performance of selected common stocks of widely-held corporations involved in various segments of the oil industry. The AMEX Oil Index was originally published by the AMEX as the Oil and Gas Index. In September 1984, the AMEX changed the Oil and Gas Index from a market-weighted index to a price-weighted index and deleted all companies engaged exclusively in gas exploration and production activities. The Oil and Gas Index was then renamed the Oil Index. At March 24, 1994, the calculation of the value of the AMEX Oil Index was based on the relative value of the aggregate market price of the common stocks of sixteen companies engaged in various segments of the oil industry.

The AMEX may from time to time, with approval of the SEC, add companies to, or delete companies from, the AMEX Oil Index to fulfill the above-stated intention of providing an indication of price movements of common stock of corporations engaged in various segments of the oil industry. The level of the AMEX Oil Index is calculated once per day using last sale prices only, i.e., not special "bid quotes" or special "ask quotes" which are used in connection with other stock indices.

The level of the AMEX Oil Index is disseminated via the Consolidated Tape Authority Network-B also known as the "AMEX Tape". The AMEX Tape Symbol for the AMEX Oil Index is "XOI".

#### Computation of the AMEX Oil Index

At March 24, 1994, the AMEX computed the AMEX Oil Index as of a particular time as follows:

- (a) the market price of one share of each component stock is determined as of such time;
- (b) the market prices of all component stocks as of such time (as determined under clause (a) above) are aggregated;
- (c) the aggregate amount (as determined under clause (b) above) is divided by 3.47874.

13

While the AMEX employed the above methodology to calculate the AMEX Oil Index at March 24, 1994, no assurance can be given that the AMEX will not modify or change such methodology in a manner that may affect the amounts payable on any December Payment Date to beneficial owners of the SMART Notes.

In order to maintain continuity in the level of the AMEX Oil Index in the event of certain changes due to non-market factors affecting the Underlying

Stocks, such as the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the AMEX Oil Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the AMEX Oil Index. Thereafter, the divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each such change affecting any component stock, the divisor is adjusted in such a way that the level of the AMEX Oil Index immediately after any change will equal the level of the AMEX Oil Index immediately prior to the change.

Component stocks may be deleted or added by the AMEX with approval of the SEC. However, to maintain continuity in the AMEX Oil Index, the policy of the AMEX is generally not to alter the composition of the component stocks except when a component stock is deleted due to:

- (a) bankruptcy of the issuer,
- (b) merger of the issuer with, or acquisition of the issuer by, another company,
- (c) delisting of such stock, or
- (d) failure of such stock to meet, upon periodic review by the AMEX, market value and trading volume criteria established by the AMEX (as such may change from time to time).

Upon deletion of a stock from the component stocks, the AMEX may select a suitable replacement for such deleted component stock. The policy of the AMEX is to announce any such change in advance via distribution of an information circular.

The use of and reference to the AMEX Oil Index in connection with the SMART Notes has been consented to by the AMEX, the publisher of the AMEX Oil Index and, in connection with that consent, the AMEX has requested that the following information appear in this prospectus. The AMEX is under no obligation to continue the calculation and dissemination of the AMEX Oil Index. The SMART Notes are not sponsored, endorsed, sold or promoted by the AMEX. No inference should be drawn from the information contained in this prospectus that the AMEX makes any representation or warranty, implied or express, to ML&Co., beneficial owners of the SMART Notes or any member of the public regarding the advisability of investing in securities generally or in the SMART Notes in particular or the ability of the AMEX Oil Index to track general stock market performance. The AMEX has no obligation to take the needs of ML&Co. or beneficial owners of the SMART Notes into consideration in determining, composing or calculating the AMEX Oil Index. The AMEX is not responsible for, and has not participated, in the determination or calculation of the equation by which the SMART Notes with respect to the annual payments will be determined. The AMEX has no obligation or liability in connection with the administration, marketing or trading of the SMART Notes. The AMEX disclaims all responsibility for any errors or omissions in the calculation and dissemination of the AMEX Oil Index or the manner in which the index is applied in determining the annual payments with respect to the SMART Notes.

None of ML&Co., the calculation agent, MLPF&S nor the trustee accepts any responsibility for the calculation, maintenance or publication of the AMEX Oil Index or any Successor Index.

You should review the historical prices of the securities underlying the Amex Oil Index. The historical prices of the securities should not be taken as an indication of future performance, and no assurance can be given that the prices of the securities will increase sufficiently to cause the beneficial owners of the SMART Notes to

14

receive an amount in excess of the Minimum Annual Payment on any December Payment Date and at the maturity of the SMART Notes.

#### Oil Industry Sector

The oil industry is subject to varying degrees of regulatory, political and economic risk which may affect the price of the stocks of the companies in the industry. These risks depend on a number of factors including the countries in which a particular company conducts its activities, evolving levels of governmental regulation, and litigation with respect to environmental and other matters. All segments of the oil industry are competitive, including manufacturing, distribution and marketing of petroleum products and petrochemicals. In addition, the oil industry competes with other industries in supplying the energy needs of various types of consumers. Refining margins or the difference between the price of products and the price of crude oil, and marketing margins or the difference between the wholesale and retail price of petroleum products, also affect companies engaged in the oil industry.

The profitability of companies engaged in the oil industry is directly affected by the worldwide price of oil and related petroleum products which, in

turn, depends upon the worldwide demand for oil and related petroleum products.

Environmental regulation is a significant factor affecting profitability of companies engaged in the oil industry. In the U.S., companies engaged in the oil industry are subject to substantial environmental regulation by federal, state, and local authorities. Federal regulations include the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended or also known as CERCLA or Superfund, the Superfund Amendments and Reauthorizations Act of 1986, and the Resource Conservation Recovery Act of 1976.

In the United States and elsewhere, various laws and regulations are either now in force, in standby status or under consideration, with respect to such matters as price controls, crude oil and refined product allocations, refined product specifications, environmental, health and safety regulations, retroactive and prospective tax increases, cancellation of contract rights, expropriation of property, divestiture of certain operations, foreign exchange rate restrictions as to the convertibility of currencies, tariffs and other international trade restrictions. Other regulations such as the U.S. Federal Clean Air Act Amendments of 1990 may have a substantial impact on companies engaged in the oil industry despite the fact that they do not impose direct regulations. Finally, regional regulations like those proposed by California's South Coast Air Quality Management District may have substantial effects on the oil industry as well.

#### OTHER TERMS

The SMART Notes were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the SMART Notes of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the SMART Notes are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

#### 15

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting

Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

16

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable

when due and continuing for 30 days;

- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal

17

amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of senior debt securities may waive an Event of Default for that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the Holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The SMART Notes and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

18

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the SMART Notes and other securities. For further information on ML&Co. and the SMART Notes, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information

that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and

19

MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the SMART Notes and is to be used by MLPF&S when making offers and sales related to market-making transactions in the SMART Notes.

MLPF&S may act as principal or agent in these market-making transactions.

The SMART Notes may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the SMART Notes will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an

explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may not sell these securities until the registration statement filed with +  
+ the Securities and Exchange Commission is effective. This prospectus is not +  
+ an offer to sell these securities and it is not soliciting an offer to buy +  
+ these securities in any state where the offer and sale is not permitted. +

Subject to Completion  
Preliminary Prospectus dated December 27, 2000

PROSPECTUS  
- -----

Merrill Lynch & Co., Inc.  
S&P 500 Market Index Target-Term Securities(R)  
due May 10, 2001  
"MITTS(R) Securities"  
\$10 principal amount

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
<CAPTION>

The MITTS Securities:  
<S>

- . 100% principal protection at maturity.
- . No payments before the maturity date.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the S&P 500 Index.
- . The MITTS Securities are listed on the New York Stock Exchange under the symbol "MIX".

Payment at Maturity:  
<C>

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the index, adjusted as described in this prospectus.
- . You will receive no less than the principal amount of your MITTS Securities.

</TABLE>

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

2

RISK FACTORS

Your investment in MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 638.26, the value of the index on the date the MITTS Securities were priced. This will be true even if at some time during the life of the MITTS Securities, the value of the index, as adjusted, was higher than 638.26 but later falls below 638.26.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index

Your return will not reflect the return you would realize if you actually owned the stock underlying the index and received the dividends paid on those stocks because the index does not reflect the payment of dividends on the stocks underlying it.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the NYSE under the symbol "IX," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected effect on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant:

3

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect the trading value of the MITTS Securities will likely be affected by changes in interest rates. In general, we anticipate that if U.S. interest rates increase, the trading value of the MITTS Securities will decrease. If U.S. interest rates decrease, we expect the trading value of the MITTS Securities to increase. Interest rates may also affect the U.S. economy, and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. If the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We believe that before maturity the MITTS Securities may trade at a value above that which you may expect based upon the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. As the time remaining to maturity of the MITTS Securities decreases, however, we expect this time premium to decrease, thus decreasing the trading value of the MITTS Securities. In addition, the price at which you may be able to sell MITTS Securities prior to maturity may be at a discount, which may be substantial, from the principal amount of the MITTS Securities if the value of the index is below, equal to, or not sufficiently above 638.26.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend rates on the stocks included in the index increase, we expect the value of the MITTS Securities to decrease. Conversely, if dividend rates on the stocks included in the index decrease, we expect the value of the MITTS Securities to increase. However, in general, rising U.S. corporate dividend rates may increase the value of the index and, in turn, increase the value of the MITTS Securities. Conversely, falling U.S. dividend rates may decrease the value of the index and, in turn, decrease the value of the MITTS Securities.

In general, assuming all relevant factors are held constant, the effect on the trading value of the MITTS Securities of a given change in interest rates, index volatility and/or dividend rates of stocks comprising the index is expected to be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. We expect that the effect on the trading value of the MITTS Securities of a given appreciation of the index in excess of 638.26 to be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities, assuming all other relevant factors are held constant.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for your benefit, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Political, economic and other developments that affect the stocks included in the index may adversely affect the value of the index and therefore the value of the MITTS Securities.

4

Potential conflicts

Our wholly-owned subsidiary, Merrill Lynch, Pierce, Fenner & Smith or MLPF&S, or its affiliates may from time to time engage in transactions involving the stocks underlying the index for their proprietary accounts and for other accounts under their management, which may influence the value of these stocks and therefore the value of the MITTS Securities. MLPF&S and its affiliates will also be the counterparties to the hedge of ML&Co.'s obligations under the MITTS Securities. Accordingly, under some circumstances, conflicts of interest may arise between MLPF&S's responsibilities as calculation agent with respect to the MITTS Securities and its obligations under its hedge and its status as a subsidiary of ML&Co. Under some circumstances, the duties of MLPF&S as calculation agent could conflict with the interests of MLPF&S as an affiliate of the issuer of the MITTS Securities, Merrill Lynch & Co., Inc., and with the interests of the holders of the MITTS Securities.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

6

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On May 13, 1996, ML&Co. issued \$110,000,000 aggregate principal amount of S&P 500 MITTS Securities due May 10, 2001. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on May 10, 2001.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Index Value does not exceed the Starting Index Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<S>	<C>	<C>
Principal Amount	X	Ending Index Value--Starting Index Value
		-----
		Starting Index Value

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Index Value" equals 638.26, which was the closing value of the S&P 500 Index (the "Index") on the date the MITTS Securities were priced by ML&Co. for initial sale to the public (the "Pricing Date").

The "Participation Rate" equals 110%.

The "Ending Index Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Index Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days. If there is only one Calculation Day, then the Ending Index Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrences of a Market Disruption Event

on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

8

For purposes of determining the Ending Index Value, an "Index Business Day" is a day on which the New York Stock Exchange and the American Stock Exchange are open for trading and the Index or any Successor Index, as defined below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purpose and binding on ML&Co. and beneficial owners of the MITTS Securities.

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values,

- . the total amount payable at maturity for each \$10 principal amount of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks underlying the Index, which includes an assumed aggregate dividend yield of 2.20% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Hypothetical Ending Index Value	Percentage Change Over the Starting Index Value	Total Amount Payable at Maturity Per \$10 Principal Amount of Securities	Pretax Annualized Rate of Return on the Securities(1)	Pretax Annualized Rate of Return of Stocks Underlying the Index(1) (2)
-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>
319.13	-50%	\$10.00	0.00%	-11.41%
382.96	-40%	\$10.00	0.00%	-7.89%
446.78	-30%	\$10.00	0.00%	-4.89%
510.61	-20%	\$10.00	0.00%	-2.25%
574.43	-10%	\$10.00	0.00%	0.09%
638.26(3)	0%	\$10.00	0.00%	2.21%
702.09	10%	\$11.10	2.10%	4.15%
765.91	20%	\$12.20	4.02%	5.94%
829.74	30%	\$13.30	5.80%	7.61%
893.56	40%	\$14.40	7.44%	9.16%
957.39	50%	\$15.50	8.97%	10.62%
1,021.22	60%	\$16.60	10.42%	12.00%
1,085.04	70%	\$17.70	11.77%	13.30%
1,148.87	80%	\$18.80	13.05%	14.54%
1,212.69	90%	\$19.90	14.27%	15.72%
1,276.52	100%	\$21.00	15.43%	16.84%
1,340.35	110%	\$22.10	16.53%	17.92%
1,404.17	120%	\$23.20	17.59%	18.95%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes

- . an investment of a fixed amount in the stocks underlying the Index with the allocation of the amount reflecting the current relative weights of the stocks in the Index;
- . a percentage change in the aggregate price of the stocks that equals the percentage change in the Index from the Starting Index Value to the relevant hypothetical Ending Index Value;
- . a constant dividend yield of 2.20% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming the value increases or decreases linearly from the Starting Index Value to the applicable hypothetical Ending Index Value;
- . no transaction fees or expenses;

. a term for the MITTS Securities from May 13, 1996 to May 10, 2001; and  
. a final Index value equal to the Ending Index Value. The aggregate dividend yield of the stocks underlying the Index as of May 7, 1996 was approximately 2.20%.

(3) The Starting Index Value.

9

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had these changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if the changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

(a) the suspension or material limitation in trading for more than two hours of trading in 100 or more of the securities included in the S&P 500 Index, or

(b) the suspension or material limitation on trading for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in

- (1) futures contracts related to the Index which are traded on the Chicago Mercantile Exchange or
- (2) option contracts related to the Index which are traded on the Chicago Board Options Exchange, Inc.

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the Index

If S&P discontinues publication of the Index and S&P or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (any successor or substitute index is referred to as a "Successor Index"), then, upon the calculation agent's notification of the determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by S&P or any other entity for the Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If S&P discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute

10

for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of

determining whether a Market Disruption Event exists.

If S&P discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Index Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to the values to be made available by telephone.

Despite these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the initial issue price (\$10) per unit and an additional amount of contingent interest calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "- Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 8% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, DTC together with any successor thereto, being a "depository", as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities

represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize

beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

12

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if

any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

All payments of principal and the Supplemental Redemption Amount, if any, will be made by ML&Co. in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

13

#### THE INDEX

Standard & Poor's publishes the Index. The Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the Index to achieve the objectives stated above.

The Index does not reflect the payment of dividends on the stocks included in the Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same that you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the Index

Standard & Poor's currently computes the Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base

period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;

- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as:

- . the issuance of stock dividends,
  - . the granting to shareholders of rights to purchase additional shares of stock,
- 14
- . the purchase of shares by employees pursuant to employee benefit plans,
  - . consolidations and acquisitions,
  - . the granting to shareholders of rights to purchase other securities of ML&Co.,
  - . the substitution by Standard & Poor's of particular component stocks in the Index, and
  - . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{Old Base Value X } \frac{\text{New Market Value}}{\text{Old Market Value}} = \text{New Base Value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the Index.

15

OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other

unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

16

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;

- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

17

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities,

provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

18

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
 + The information in this prospectus is not complete and may be changed. We +  
 + may not sell these securities until the registration statement filed with the +  
 + Securities and Exchange Commission is effective. This prospectus is not an +  
 + offer to sell these securities and it is not soliciting an offer to buy these +  
 + securities in any state where the offer and sale is not permitted. +  
 +++++

Subject to Completion  
 Preliminary Prospectus dated December 27, 2000

PROSPECTUS  
 - - - - -

Merrill Lynch & Co., Inc.

6 1/4% STRUCTURED YIELD PRODUCT EXCHANGEABLE FOR STOCK(SM) due July 1, 2001  
 "STRYPES (SM)"  
 Payable with Shares of Common Stock of IMC Global Inc.  
 or an equivalent amount in cash

sales related to market-making transactions in the STRYPES.

The issue price of each STRYPES was \$38.25, which was the last sale price of one share of common stock, par value \$1.00 per share, of IMC on July 2, 1996, as reported on the New York Stock Exchange. The STRYPES will mature on July 1, 2001.

What you will receive before July 1, 2001:

- . On each January 1, April 1, July 1 and October 1, beginning October 1, 1996, we will pay you interest on the STRYPES in cash at the rate of 6 1/4% per year.
- . We may not redeem the STRYPES at any time before July 1, 2001.

What you will receive on July 1, 2001:

- . For each STRYPES you own, you will receive a percentage of each type of reference property or an equivalent amount in cash. The reference property will initially be one share of common stock of IMC, which may be adjusted before July 1, 2001. The adjustments that may be made to the reference property are more fully described in this prospectus.

<TABLE>	
<CAPTION>	
If the value of the reference property is:	You will receive:
<S>	<C>
(a) greater than or equal to \$46.28	82.65% of each type of reference property
(b) less than \$46.28 but greater than \$38.25	a percentage of each type of reference property equal to \$38.25
(c) less than or equal to \$38.25	100% of each type of reference property
</TABLE>	

Investing in the STRYPES involves risks, including the risk that your investment may result in a loss. See "Risk Factors" beginning on page 3.

The STRYPES are listed on the NYSE under the symbol "IGL".

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the STRYPES will be the prevailing price at the time of sale.

RISK FACTORS

Your investment in the STRYPES will involve risks. You should carefully consider the following discussion of risks before investing in the STRYPES. In addition, you should reach an investment decision with regard to the STRYPES only after consulting with your legal and tax advisors and considering the suitability of the STRYPES in the light of your particular circumstances.

You may suffer a loss on your investment

You should be aware that at maturity the amount you will receive may be

less than the amount you paid for the STRYPES, which was \$38.25 per STRYPES. If the value of the reference property is less than \$38.25, the amount you will receive will be less than the amount you paid for the STRYPES and, therefore, your investment in the STRYPES will result in a loss to you. When you invest in the STRYPES, you assume the risk that the market value of the reference property may decline, and that the decline could be substantial. You should review the prospectus of IMC, which is attached to this prospectus. The prospectus of IMC describes the shares of common stock of IMC, including the preferred stock purchase rights associated with the shares, that you may receive as a holder of the STRYPES on the maturity date.

Your investment in the STRYPES may differ from an investment in other debt securities

The terms of the STRYPES differ from those of ordinary debt securities because the value of the reference property or the equivalent amount in cash that you will receive on the maturity date is not fixed, but is based on the value of the reference property. Please review the section entitled "Description of the STRYPES".

There may be a limited opportunity for equity appreciation

Your opportunity for equity appreciation may be greater if you made a direct investment in the common stock of IMC because the value of the reference property is subject to market fluctuations. The amount you will receive on the maturity date will only exceed the amount you paid for the STRYPES, which was \$38.25 per STRYPES, if the value of the reference property exceeds the threshold appreciation price of \$46.28. The threshold appreciation price of \$46.28 represents an appreciation of 21% over the initial price of \$38.25. In addition, you will only be entitled to receive on the maturity date 82.65%, which is the percentage equal to the initial price of \$38.25 divided by the threshold appreciation price of \$46.28, of any appreciation of the value of the reference property in excess of the threshold appreciation price of \$46.28. Please review the section entitled "Description of the STRYPES".

There are many factors affecting the trading prices of the STRYPES

The trading prices of the STRYPES in the secondary market will be directly affected by the trading prices of the common stock of IMC in the secondary market. It is impossible to predict whether the price of the common stock of IMC will rise or fall because several factors may influence the trading prices of the common stock of IMC. These factors include:

- . IMC's operating results and prospects;
- . complex and interrelated political, economic, financial and other factors and market conditions that can affect (1) the capital markets generally, (2) the market segment of which IMC is a part, or (3) the NYSE, on which the common stock of IMC is traded, including the level of, and fluctuations in, the trading prices of stocks generally and sales of substantial amounts of the common stock of IMC in the market subsequent to the offering of the STRYPES or the perception that these sales could occur; and

3

- . other events that are difficult to predict and are beyond our control.

Investing in the STRYPES may affect the market for the common stock of IMC

Any market that develops for the STRYPES is likely to influence and be influenced by the market for common stock of IMC. For example, the price of common stock of IMC could become more volatile and could be depressed:

- . by investors' anticipation of the potential distribution into the market of substantial amounts of common stock of IMC on the maturity date,
- . by possible sales of common stock of IMC by investors who view the STRYPES as a more attractive means of equity participation in IMC, and
- . by hedging or arbitrage trading activity that may develop involving the STRYPES and the common stock of IMC.

There may be illiquidity of the STRYPES in the secondary market

It is not possible to predict how the STRYPES will trade in the secondary market or whether the secondary market for the STRYPES will be liquid or illiquid. The STRYPES are novel securities and there is currently no secondary market for the STRYPES. Although the STRYPES are listed on the NYSE under the symbol "IGL", you cannot assume (1) that an active trading market for the STRYPES will develop, (2) that listing on the NYSE will provide you with liquidity of investment, (3) that the STRYPES will not later be delisted or (4) that trading of the STRYPES on the NYSE will not be suspended. If the NYSE delists the STRYPES or suspends the trading of the STRYPES, we will apply for listing of the STRYPES on another national securities exchange or for quotation

on another trading market. If the STRYPES are not listed or traded on any securities exchange or trading market, or if trading of the STRYPES is suspended, pricing information for the STRYPES may be more difficult to obtain and the liquidity of the STRYPES may be adversely affected.

As a holder of STRYPES, you have no stockholder's rights with respect to the common stock of IMC or the reference property

You will not be entitled to any rights, including voting rights and rights to receive any dividends, interest or other distributions, with respect to the common stock of IMC or the reference property until we have delivered the reference property on the maturity date. In addition, you will not be entitled to any rights if the applicable record date for the exercise of any rights occurs before we deliver the reference property. For example, if an amendment is proposed to the restated certificate of incorporation of IMC and the record date for determining the stockholders of record entitled to vote on the amendment occurs before we deliver the reference property, you, as a holder of the STRYPES, will not be entitled to vote on the proposed amendment.

IMC has no obligations with respect to the STRYPES

We are not affiliated with IMC. IMC has no obligations with respect to the STRYPES or amounts to be paid to you, including any obligation to take our needs or yours, as a holder of the STRYPES, into consideration for any reason. IMC will not receive any of the proceeds of this offering of the STRYPES. IMC is not responsible for, and has not participated in, the determination of the timing of, prices for or quantities of the STRYPES to be issued, or the determination or calculation of the amount receivable by holders of the STRYPES on the maturity date. In addition, IMC is not involved with the administration or trading of the STRYPES.

4

There may be a dilution of common stock of IMC

The reference property or the equivalent amount of cash that you are entitled to receive on the maturity date is subject to adjustment for events such as:

- . a merger or consolidation in which IMC is not the surviving or resulting corporation,
- . the liquidation, dissolution, winding up or bankruptcy of IMC,
- . stock splits and combinations, stock dividends, and
- . other actions of IMC that modify its capital structure.

Please review the section entitled "Description of the STRYPES--Reference Property Adjustments".

The reference property or equivalent amount of cash that you may receive on the maturity date will not be adjusted for other events, such as offerings of common stock of IMC for cash or in connection with acquisitions. IMC is not restricted from issuing additional shares of common stock of IMC during the term of the STRYPES and has no obligation to consider the interests of the holders of the STRYPES for any reason. Additional issuances may materially and adversely affect the price of the common stock of IMC. Because of the relationship of the amount of the reference property or cash to be received on maturity to the price of the common stock of IMC, other events may adversely affect the trading price of the STRYPES.

The tax treatment of STRYPES is uncertain

Because of an absence of authority as to the proper characterization of the STRYPES, their ultimate tax treatment is uncertain. Accordingly, you cannot assume that any particular characterization and treatment of the STRYPES will be accepted by the Internal Revenue Service or upheld by a court. However, it is the opinion of Brown & Wood LLP, counsel to ML&Co., that the characterization and tax treatment of the STRYPES described in this prospectus, while not the only reasonable characterization and tax treatment, is based on reasonable interpretations of law currently in effect and, even if successfully challenged by the IRS, will not result in the imposition of penalties.

The 1983 indenture, which is more fully described in this prospectus, will require that if you are subject to U.S. Federal income tax, that you include currently in income, for U.S. Federal income tax purposes, payments denominated as interest that are made with respect to a STRYPES in accordance with your regular method of tax accounting. The 1983 indenture also requires ML&Co. and holders to treat each STRYPES for tax purposes as a unit consisting of:

- . a debt instrument with a fixed principal amount unconditionally payable on the maturity date equal to the issue price of the STRYPES and bearing interest at the stated interest rate on the STRYPES, and

- . a forward purchase contract under which you agree to use the principal payment due on the debt instrument to purchase on the maturity date the reference property which ML&Co. is obligated under the STRYPES to deliver at that time, subject to ML&Co.'s right to deliver cash instead of the reference property.

The 1983 indenture also requires that upon the acquisition of a STRYPES and upon your sale or other disposition of a STRYPES before the maturity date, the amount paid or realized by you be allocated between the debt instrument and the forward purchase contract based upon their relative fair market values, as determined on the date of acquisition or disposition. For these purposes, with respect to acquisitions of STRYPES in connection with the original issuance of the STRYPES, ML&Co. and you agree to allocate

5

\$37.045 of the entire initial purchase price of a STRYPES to the debt instrument and to allocate the remaining \$1.205 of the entire initial purchase price of a STRYPES to the forward purchase contract. As a result of this allocation, the debt instrument will be treated as having been issued with original issue discount for U.S. Federal income tax purposes.

The appropriate character and timing of income, gain or loss to be recognized on a STRYPES is uncertain. You should consult your own tax adviser concerning the application of the U.S. federal income tax laws to your particular situation and any consequences of the purchase, ownership and disposition of the STRYPES arising under the laws of any other taxing jurisdiction.

Our holding company structure may affect your right to participate in any distribution of assets of any subsidiary

Since we are a holding company, our right and the right of our creditors, including you, as a holder of STRYPES, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent a bankruptcy court may recognize our claims as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to us are restricted by net capital requirements under the Exchange Act and under rules of exchanges and other regulatory bodies.

6

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the STRYPES described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
						September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

#### IMC GLOBAL INC.

IMC is one of the world's leading producers of crop nutrients for the international agricultural community. It is also one of the largest distributors in the United States of crop nutrients and related products through its retail and wholesale distribution networks. IMC mines, processes and distributes potash in the United States and Canada, and is a joint venture partner in IMC-Agrico Company, a leading producer, marketer and distributor of phosphate crop nutrients and a leading producer and marketer of animal feed ingredients. IMC's retail distribution network, which extends principally to corn and soybean farmers in the Midwestern and Southeastern United States, is one of the largest distributors of crop nutrients and related products in the United States. IMC also manufactures nitrogen-based and other high-value crop nutrients which are marketed on a wholesale basis principally in the Midwestern and Southeastern United States. In addition, IMC sells specialty lawn and garden, turf, and nursery products on a national basis and ice-melter products in the Midwest and Eastern snow-belt states.

IMC is subject to the informational requirements of the Exchange Act. Accordingly, IMC files reports, proxy and information statements and other information with the SEC. Copies of these materials can be inspected and copied at the public reference facilities maintained by the SEC at the addresses specified under "Where You Can Find More Information". Reports, proxy and information statements and other information concerning IMC may also be inspected at the offices of the NYSE.

ML&Co. is not affiliated with IMC, and IMC has no obligations with respect to the STRYPES. This prospectus relates only to the STRYPES offered hereby and does not relate to IMC or the common stock of IMC. IMC has filed a registration statement on Form S-3 with the SEC covering the shares of common stock of IMC that may be received by a holder of STRYPES on the maturity date. The prospectus of IMC constituting a part of the registration statement includes information relating to IMC and the common stock of IMC, including risk factors relevant to an investment in the common stock of IMC. The prospectus of IMC does not constitute a part of this prospectus, nor is it incorporated by reference herein.

#### DESCRIPTION OF THE STRYPES

ML&Co. issued the STRYPES as a series of senior debt securities under the 1983 indenture, which is more fully described in this prospectus. The following summary of material provisions of the 1983 indenture does not purport to be complete and is qualified in its entirety by reference to the 1983 indenture. A copy of the 1983 indenture is filed as an exhibit to the registration statement

of which this prospectus is a part.

Each STRYPES, was issued at a price of \$38.25 (the "Initial Price"), bears interest at the rate of 6 1/4% of the issue price per annum, or \$2.3908 per annum, from July 9, 1996, or from the most recent Interest Payment Date to which interest has been paid or provided for, until the maturity date or the earlier date on which the STRYPES are repaid under the terms of the STRYPES. Interest on the STRYPES is payable in cash quarterly in arrears on January 1, April 1, July 1 and October 1, beginning October 1, 1996, and on the maturity date (each, an "Interest Payment Date"), to the persons in whose names the STRYPES are registered at the close of business on the fifteenth calendar day, whether or not a Business Day, immediately preceding the Interest Payment Date. Interest on the STRYPES will be computed on the basis of a 360-day year of twelve 30-day months. If an Interest Payment Date falls on a day that is not a Business Day, the interest payment to be made on the Interest Payment Date will be made on the next succeeding Business Day with the same force and effect as if made on the Interest Payment Date, and no additional interest will accrue as a result of the delayed payment.

The maturity date of the STRYPES is July 1, 2001. On the maturity date, ML&Co. will pay and discharge each STRYPES by delivering to the holder of the STRYPES a percentage of each type of Reference Property determined in accordance with the formula described below. ML&Co. will have the right to deliver,

9

with respect to all, but not less than all, Reference Property deliverable on the maturity date, cash with an equal value.

- (a) If the Reference Property Value (as defined below) is greater than or equal to \$46.28 (the "Threshold Appreciation Price"), the holder of the STRYPES will receive 82.65% of each type of Reference Property;
- (b) If the Reference Property Value is less than the Threshold Appreciation Price but is greater than the Initial Price, the holder of the STRYPES will receive a percentage of each type of Reference Property, allocated as proportionately as practicable, so that the aggregate value of the Reference Property is equal to the Initial Price; and
- (c) If the Reference Property Value is less than or equal to the Initial Price, the holder of the STRYPES will receive 100% of each type of Reference Property.

Accordingly, there can be no assurance that the amount receivable by holders of the STRYPES on the maturity date will be equal to or greater than the issue price of the STRYPES. If the Reference Property Value is less than the Initial Price, the amount receivable on the maturity date will be less than the issue price paid for the STRYPES, in which case an investment in STRYPES will result in a loss.

Notwithstanding the foregoing, ML&Co. may, in lieu of delivering the applicable percentage of each type of Reference Property, deliver cash in an amount equal to the sum of:

- (a) for any portion of the Reference Property consisting of cash that is otherwise deliverable on the maturity date, the amount of cash, without interest thereon,
- (b) for any portion of the Reference Property consisting of property other than cash or Reference Securities that is otherwise deliverable on the maturity date, the fair market value, as determined by a nationally recognized independent investment banking firm retained for this purpose by ML&Co., as of the third Trading Day preceding the maturity date of the property, and
- (c) for any portion of the Reference Property consisting of a Reference Security (as defined below) that is otherwise deliverable on the maturity date, except as described under "Reference Property Adjustments" below, an amount equal to the average Closing Price (as defined below) per unit of the Reference Security on the 20 Trading Days immediately before, but not including, the second Trading Day preceding the maturity date multiplied by the number of units of the Reference Security constituting part of the Reference Property, subject to ML&Co.'s agreement contained in the Purchase Agreement to deliver on the maturity date the form of consideration that the ML&Co. Subsidiary (as defined below) receives from GVI.

The right to deliver cash, if exercised by ML&Co., must be exercised with respect to all Reference Property otherwise deliverable on the maturity date in payment of all outstanding STRYPES. On or before the sixth Business Day before the maturity date, ML&Co. will notify The Depository Trust Company and the trustee and publish a notice in The Wall Street Journal or another daily newspaper of national circulation stating whether the STRYPES will be paid and

discharged by delivery of the applicable percentage of each type of Reference Property or cash. At the time the notice is published, the Reference Property Value will not have been determined. If ML&Co. elects to deliver Reference Property, holders of the STRYPES will be responsible for the payment of any and all brokerage costs upon the subsequent sale of Reference Property.

The term "Reference Property" initially means one share of common stock of IMC and shall be subject to adjustment from time to time before the maturity date to reflect the addition or substitution of any cash, securities and/or other property resulting from the application of the adjustment provisions described herein. See "--Reference Property Adjustments" below. The term "Reference Security" means, at any time, any security (as defined in Section 2(1) of the Securities Act) then constituting part of the Reference Property.

10

The term "Reference Property Value" means, subject to the adjustment provisions described below, the sum of

- (a) for any portion of the Reference Property consisting of cash, the amount of cash,
- (b) for any portion of the Reference Property consisting of property other than cash or Reference Securities, the fair market value, which will be determined by a nationally recognized independent investment banking firm retained for this purpose by ML&Co., as of the third Trading Day preceding the maturity date of the property, and
- (c) for any portion of the Reference Property consisting of a Reference Security, an amount equal to the average Closing Price per unit of the Reference Security on the 20 Trading Days immediately before, but not including, the second Trading Day preceding the maturity date multiplied by the number of units of the Reference Security constituting part of the Reference Property.

The "Closing Price" of any Reference Security on any date of determination means (1) the closing sale price or, if no closing price is reported, the last reported sale price of the Reference Security on the NYSE on the date of determination or, (2) if the Reference Security is not listed for trading on the NYSE on any date, as reported in the composite transactions for the principal United States securities exchange on which the Reference Security is so listed, or (3) if the Reference Security is not so listed on a United States national or regional securities exchange, as reported by the National Association of Securities Dealers, Inc. Automated Quotation System, or (4) if the Reference Security is not so reported, the last quoted bid price for the Reference Security in the over-the-counter market as reported by the National Quotation Bureau or similar organization, or (5) if a bid price is not available, the market value of the Reference Security on a date as determined by a nationally recognized independent investment banking firm retained for this purpose by ML&Co.

A "Trading Day" is defined as a day on which the Reference Security the Closing Price of which is being determined (A) is not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business and (B) has traded at least once on the national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of the Reference Security.

For illustrative purposes only, the following table shows the number of shares of common stock of IMC or the amount of cash that a holder of STRYPES would receive for each STRYPES at various Reference Property Values. The table assumes that there will be no Reference Property adjustments as described below and, accordingly, that on the maturity date the Reference Property will consist of one share of common stock of IMC. There can be no assurance that the Reference Property Value will be within the range set forth below. Given the Initial Price of \$38.25 and the Threshold Appreciation Price of \$46.28, a STRYPES holder would receive on the maturity date the following number of shares of common stock of IMC per STRYPES or, if ML&Co. elects to pay and discharge the STRYPES with cash, the amount of cash per STRYPES:

Reference Property Value	Number of Shares of IMC Common Stock	Amount of Cash
\$35.00	1.0000	\$35.00
38.25	1.0000	38.25
42.00	0.9107	38.25
46.28	0.8265	38.25
50.00	0.8265	41.33

11

#### Reference Property Adjustments

The Reference Property is subject to adjustment if an issuer of a Reference

Security shall:

- (1) subdivide or split the outstanding units of the Reference Security into a greater number of units;
- (2) combine the outstanding units of the Reference Security into a smaller number of units;
- (3) issue by reclassification of units of the Reference Security any units of another security of the issuer;
- (4) issue rights or warrants to all holders of the Reference Security entitling them, for a period expiring before the fifteenth calendar day following the maturity date, to subscribe for or purchase any of its securities or other property, other than rights to purchase units of the Reference Security pursuant to a plan for the reinvestment of dividends or interest; or
- (5) pay a dividend or make a distribution to all holders of the Reference Security of cash, securities or other property, excluding any cash dividend on any Reference Security consisting of capital stock that does not constitute an Extraordinary Cash Dividend (as defined below), excluding any payment of interest on any Reference Security consisting of an evidence of indebtedness and excluding any dividend or distribution referred to in clause (1), (2), (3) or (4) above), or issue to all holders of the Reference Security rights or warrants to subscribe for or purchase any of its securities or other property (other than those referred to in clause (4) above). Any of the foregoing cash, securities or other property or rights or warrants are referred to in this prospectus as the "Distributed Assets".

In the case of the events referred to in clauses (1), (2) and (3) above, the Reference Property shall be adjusted to include the number of units of the Reference Security and/or other security of the issuer which a holder of units of the Reference Security would have owned or been entitled to receive immediately following any event had a holder held, immediately before the event, the number of units of the Reference Security constituting part of the Reference Property immediately before the event. Each adjustment shall become effective immediately after the effective date for subdivision, split, combination or reclassification, as the case may be. Each adjustment shall be made successively.

In the case of the event referred to in clause (4) above, the Reference Property shall be adjusted to include an amount in cash equal to the fair market value, which shall be determined in the manner described below, as of the fifth Business Day, except as provided below, following the date on which rights or warrants are received by securityholders entitled thereto (the "Receipt Date"), of each right or warrant multiplied by the product of (A) the number of rights or warrants issued for each unit of the Reference Security and (B) the number of units of the Reference Security constituting part of the Reference Property on the date of issuance of the rights or warrants, immediately before issuance, without interest thereon. For purposes of the foregoing, the fair market value of each right or warrant shall be the quotient of:

- (1) the highest net bid, as of approximately 10:00 A.M., New York City time, on the fifth Business Day following the Receipt Date for settlement three Business Days later, by a recognized securities dealer in The City of New York selected by or on behalf of ML&Co., from three or a fewer number of dealers as may be providing bids, recognized dealers selected by or on behalf of ML&Co., for the purchase by a quoting dealer of the number of rights or warrants (the "Aggregate Number") that a holder of the Reference Security would receive if the holder held, as of the record date for determination of stockholders entitled to receive rights or warrants, a number of units of the Reference Security equal to the product of
  - (A) the aggregate number of Outstanding STRYPES as of a record date and (B) the number of units of the Reference Security constituting part of the Reference Property, divided by

12

- (2) the Aggregate Number.

Each adjustment shall become effective on the fifth Business Day following the Receipt Date of the rights or warrants. If for any reason ML&Co. is unable to obtain the required bid on the fifth Business Day following the Receipt Date, it shall attempt to obtain the bid at successive intervals of three months and on the third Trading Day before the maturity date until it is able to obtain the required bid. From the date of issuance of the rights or warrants until the required bid is obtained, the Reference Property shall include the number of rights or warrants issued for each unit of the Reference Security multiplied by the number of units of the Reference Security constituting part of the Reference Property on the date of issuance of the rights or warrants, immediately before the issuance, and the rights or warrants constituting part of the Reference

Property shall be deemed for all purposes hereof to have a fair market value of zero.

In the case of the event referred to in clause (5) above, the Reference Property shall be adjusted to include, from and after a dividend, distribution or issuance, (a) in respect of that portion, if any, of the Distributed Assets consisting of cash, the amount of Distributed Assets consisting of cash received for each unit of the Reference Security multiplied by the number of units of the Reference Security constituting part of the Reference Property on the date of a dividend, distribution or issuance, immediately before a dividend, distribution or issuance, without interest thereon, plus (b) in respect of that portion, if any, of the Distributed Assets which are other than cash, the number or amount of each type of Distributed Assets other than cash received with respect to each unit of the Reference Security multiplied by the number of units of the Reference Security constituting part of the Reference Property on the date of a dividend, distribution or issuance, immediately before the dividend, distribution or issuance.

An "Extraordinary Cash Dividend" means, with respect to any consecutive 12-month period, the amount, if any, by which the aggregate amount of all cash dividends on any Reference Security consisting of capital stock occurring in a 12-month period or, if the Reference Security was not outstanding at the commencement of the 12-month period, occurring in a shorter period during which the Reference Security was outstanding, exceeds on a per share basis 12% of the average of the Closing Prices per share of the Reference Security over a 12-month period or a shorter period during which the Reference Security was outstanding; provided that, for purposes of this definition, the amount of cash dividends paid on a per share basis will be appropriately adjusted to reflect the occurrence during the period of any stock dividend or distribution of shares of capital stock of the issuer of the Reference Security or any subdivision, split, combination or reclassification of shares of the Reference Security.

In the event of a "Reorganization Event", which is:

- (A) any consolidation or merger of an issuer of a Reference Security with or into another entity, except for a merger or consolidation in which the issuer is the continuing corporation and in which the Reference Security outstanding immediately before the merger or consolidation is not exchanged for cash, securities or other property of the issuer or another entity,
- (B) any statutory exchange of securities of an issuer of a Reference Security with another entity, except in connection with a merger or acquisition, or
- (C) any liquidation, dissolution, winding up or bankruptcy of an issuer of a Reference Security, excluding any distribution in the event referred to in clause (5) above,

the Reference Property shall be adjusted to include, from and after the effective date for a Reorganization Event, in lieu of the number of units of the Reference Security constituting part of the Reference Property immediately before the effective date for a Reorganization Event, the amount or number of any cash, securities and/or other property owned or received in a Reorganization Event with respect to each unit of the Reference Security multiplied by the number of units of the Reference Security constituting part of the Reference Property immediately before the effective date for a Reorganization Event.

13

No adjustments will be made for other events, such as offerings of common stock of IMC by IMC for cash or in connection with acquisitions. Likewise, no adjustments will be made for any sales of common stock of IMC by GVI.

ML&Co. is required, within ten Business Days following the occurrence of an event that requires an adjustment to the Reference Property (or if ML&Co. is not aware of the occurrence of an event, as soon as practicable after becoming so aware), to provide written notice to the trustee and to the holders of the STRYPES of the occurrence of an event and a statement in reasonable detail setting forth the amount or number of each type of Reference Security and other property then constituting part of the Reference Property.

#### Fractional Interests

No fractional units of any Reference Security will be delivered if ML&Co. pays and discharges the STRYPES by delivering Reference Property. In lieu of any fractional unit otherwise deliverable in respect of all STRYPES of any holder on the maturity date, a holder shall be entitled to receive an amount in cash equal to the value of a fractional unit based on the average Closing Price per unit of the Reference Security on the 20 Trading Days immediately before, but not including, the second Trading Day preceding the maturity date.

To the extent practicable, ML&Co. will deliver fractional interests of any Reference Property other than cash or a Reference Security if ML&Co. pays and discharges the STRYPES by delivering Reference Property. If a delivery of

fractional interests is not practicable, in lieu of delivering any fractional interest otherwise deliverable in respect of all STRYPES to any holder on the maturity date, ML&Co. will deliver holder shall be entitled to receive an amount in cash equal to the value of the fractional interest based on the fair market value (as determined by a nationally recognized independent investment banking firm retained for this purpose by ML&Co.) as of the third Trading Day preceding the maturity date of the Reference Property other than cash or a Reference Security.

#### Redemption, Sinking Fund and Payment Before Maturity

The STRYPES are not subject to redemption by ML&Co. before the maturity date and do not contain sinking fund or other mandatory redemption provisions. The STRYPES are not subject to payment before the maturity date at the option of the holder.

#### Ranking

The STRYPES are unsecured obligations and will rank equally with all other unsecured and unsubordinated indebtedness of ML&Co.

There are no contractual restrictions on the ability of ML&Co. or its subsidiaries to incur additional secured or unsecured debt. However, borrowings by certain subsidiaries, including MLPF&S, are restricted by net capital requirements under the Exchange Act and under rules of certain exchanges and other regulatory bodies.

#### Purchase Agreement

GVI is obligated, under the Purchase Agreement described in "Certain Arrangements with GVI", to deliver to the ML&Co. Subsidiary (as defined below) immediately before the maturity date the Reference Property required by ML&Co. to pay and discharge all of the STRYPES, including any STRYPES issued pursuant to the over-allotment option granted by ML&Co. to MLPF&S. In lieu of delivering the Reference Property immediately before the maturity date, GVI has the right to satisfy its obligation under the Purchase Agreement by delivering cash in an amount equal to the value of the Reference Property immediately before the maturity date. The right to deliver cash, if exercised by GVI, must be exercised with respect to all of the Reference Property deliverable under the Purchase Agreement.

14

#### Securities Depository

##### Description of the Global Securities

The STRYPES are represented by one or more fully registered global securities. Each global security has been deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for STRYPES in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the STRYPES represented by a global security for all purposes under the 1983 indenture. Except as provided below, the beneficial owners of the STRYPES represented by a global security are not entitled to have the STRYPES represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the STRYPES in definitive form and are not considered the owners or holders thereof under the 1983 indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if the person is not a participant of DTC on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the 1983 indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take action, and those participants would authorize beneficial owners owning through such participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

##### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the STRYPES. The STRYPES have been issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One or more fully registered global securities have been issued for the STRYPES in the aggregate principal amount of such issue, and has been deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the 1934 Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

15

Purchases of STRYPES under DTC's system must be made by or through direct participants, which will receive a credit for the STRYPES on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such beneficial owner entered into the transaction. Transfers of ownership interests in the STRYPES are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all STRYPES deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of STRYPES with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the STRYPES; DTC's records reflect only the identity of the direct participants to whose accounts such STRYPES are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the STRYPES. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the STRYPES are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments on the STRYPES will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on such date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of such payments to direct participants is the responsibility of DTC, and disbursement of such payments to the beneficial owners is the responsibility of direct and indirect participants.

Exchange for Certificated Securities

If

(a) the depository is at any time unwilling or unable to continue as

depository and a successor depository is not appointed by ML&Co. within 60 days,

- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, and
- (c) an Event of Default under the 1983 indenture has occurred and is continuing with respect to the STRYPES,

the global securities will be exchangeable for STRYPES in definitive form of like tenor and of an equal aggregate principal amount. The definitive STRYPES will be registered in such name or names as the depository shall instruct the trustee. It is expected that such instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

16

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, STRYPES in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Governing Law

The 1983 indenture and the STRYPES will be governed by, and construed in accordance with, the laws of the State of New York.

#### Listing

The STRYPES have been listed on the NYSE under the symbol "IGL".

#### OTHER TERMS

ML&Co. issued the STRYPES as a series of senior debt securities under the 1983 indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 indenture is filed as an exhibit to the registration statement relating to the STRYPES of which this prospectus is a part. The following summaries of the material provisions of the 1983 indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 indenture, including the definitions of terms in the 1983 indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 indenture.

The 1983 indenture and the STRYPES are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

17

"Voting Stock" is defined in the 1983 Indenture as the stock of the class

or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
  - . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- 18
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
  - . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
  - . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 indenture; or
  - . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated indenture or any Subsequent indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of

outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 indenture and waive compliance by ML&Co. with provisions in the 1983 indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of that series may waive any Event of Default with respect to that series, except a default:

19

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 indenture. Before proceeding to exercise any right or power under the 1983 indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The STRYPES and other series of senior debt securities issued under the 1983 indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 indenture.

#### CERTAIN ARRANGEMENTS WITH GVI

ML&Co., Merrill Lynch Mortgage Capital Inc., our wholly-owned subsidiary (the "ML&Co. Subsidiary"), and GVI have entered into a purchase agreement (the "Purchase Agreement"). Under the Purchase Agreement, GVI is obligated to deliver to the ML&Co. Subsidiary immediately before the maturity date the Reference Property required by ML&Co. to pay and discharge all of the STRYPES. In lieu of delivering the Reference Property immediately before the maturity date, GVI has the right to satisfy its obligation under the Purchase Agreement by delivering cash in an amount equal to the value of the Reference Property immediately before the maturity date. The right to deliver cash, if exercised

by GVI, must be exercised with respect to all of the Reference Property deliverable under the Purchase Agreement. Under the Purchase Agreement, ML&Co. has agreed to pay and discharge the STRYPES by delivering to the holders of the STRYPES on the maturity date the form of consideration that the ML&Co. Subsidiary receives from GVI. The consideration to be paid by the ML&Co. Subsidiary under the Purchase Agreement is \$153,382,017 in the aggregate, which was paid to GVI on July 9, 1996. No other consideration is payable by the ML&Co. Subsidiary to GVI in connection with its acquisition of the Reference Property under the Purchase Agreement or the performance of the Purchase Agreement by GVI. ML&Co. has agreed with GVI that, without the prior consent of GVI, it will not amend the 1983 indenture in any respect that would adversely affect any obligation of GVI under the Purchase Agreement, including, without limitation, increasing the consideration that GVI is obligated to deliver under the Purchase Agreement.

Until such time, if any, as GVI shall have delivered the Reference Property to the ML&Co. Subsidiary under the terms of the Purchase Agreement, GVI will retain all ownership rights with respect to the Reference Property held by it (including, without limitation, voting rights and rights to receive any dividends, interest or other distributions in respect thereof).

GVI has no obligations with respect to the STRYPES or amounts to be paid to holders of the STRYPES, including any obligation to take our needs or yours, as holders of the STRYPES, into consideration in determining whether to deliver the Reference Property or cash or for any other reason. The Purchase Agreement among ML&Co., the ML&Co. Subsidiary and GVI is a commercial transaction and does not create any rights in, or for the benefit of, any holder of STRYPES.

20

In the event GVI does not perform under the Purchase Agreement, ML&Co. will be required to otherwise acquire the Reference Property for delivery to the holders of the STRYPES on the maturity date, unless it elects to exercise its option to deliver cash with an equal value.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the STRYPES and other securities. For further information on ML&Co. and the STRYPES, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we

will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

21

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the STRYPES and is to be used by MLPF&S when making offers and sales related to market-making transactions in the STRYPES.

MLPF&S may act as principal or agent in these market-making transactions.

The STRYPES may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the STRYPES will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

PROSPECTUS  
-----

Merrill Lynch & Co., Inc.  
Top Ten Yield Market Index Target-Term Securities(R)  
due August 15, 2006  
"MITTS(R) Securities"  
\$10 principal amount per unit

Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, will use this prospectus when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>	
<CAPTION>	
The MITTS Securities:	Payment at Maturity:
<S>	<C>
. 100% principal protection at maturity.	. On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the index as described in this prospectus.
. No payments before the maturity date.	
. Senior unsecured debt securities of Merrill Lynch & Co., Inc.	
. Linked to the value of the Top Ten Yield Index.	
. The MITTS Securities are listed on the American Stock Exchange under the symbol "MTT".	. You will receive the principal amount of your MITTS Securities, plus an amount no less than \$2.40 per unit, representing a minimum yield-to-maturity of 2.16% per year.
</TABLE>	

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

## RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You may not earn a return on your investment. You should be aware that at maturity if the average value of the index over five trading days shortly before the maturity date does not exceed 100 by more than 24%, we will pay you no more than \$10 plus \$2.40 for each unit of your MITTS Securities. This will be true even if, at some time during the life of the MITTS Securities the value of the index exceeded 124.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable Merrill Lynch & Co., Inc. debt security with the same maturity. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index

While the index does reflect the payment of dividends on the stocks underlying the index as described in more detail below, the yield based on the index to the maturity of the MITTS Securities will not produce the same yield as if you purchased the underlying stocks and held them for a similar period. At the end of each calendar quarter, the dividends accrued on the stocks underlying the index will be incorporated into the index by adjusting the share multipliers of these stocks and these amounts will then be subject to the price movements of the stocks. In addition, as described in more detail below, at the end of each calendar quarter, an amount equal to 0.4375% of the current value of the index will be deducted from the value of the index, provided that:

- . there was no deduction at the end of the calendar quarter ending in September 1996 and the deduction at the end of the calendar quarter ending in December 1996 was increased to reflect the quarterly rate of 0.4375% prorated for the period from the date of the issuance of the MITTS Securities through the end of the calendar quarter in December 1996, and
- . there will be a prorated amount deducted on July 31, 2006 equal to 0.1507% of the then current index value to reflect the quarterly rate of 0.4375% for the period from July 1, 2006 through July 31, 2006.

Although the index is based on stocks that are selected based on dividends paid, you will not receive any interest, periodic or otherwise, on the MITTS Securities before their maturity.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the NYSE under the symbol "MTT," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by

another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the index exceeds the starting index value. If you choose to sell your MITTS Securities when the value of the index exceeds the starting index value, you may receive substantially less than the amount that would be payable at maturity based on that index value because of the expectation that the index will continue to fluctuate until the ending index value is determined. If you choose to sell your MITTS Securities when the value of the index is below the starting index value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising Japanese dividend rates, or dividends per share, may increase the value of the index while falling Japanese dividend rates may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of the MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy, and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, may decrease the trading value of the MITTS Securities. Falling interest rates may increase the value of the index, and, thus may increase the trading value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before the maturity of the MITTS Securities, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks comprising the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stocks comprising the index decrease, we expect that the value of the MITTS Securities will increase.

4

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities except that we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS.

Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS. These transactions could affect the price of these stocks and the value of the index in a manner that be adverse to your investment in the MITTS Securities.

Potential conflicts of interest

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated, or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
	-----					September 29, 2000
	----	----	----	----	----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On August 26, 1996, ML&Co. issued \$35,000,000 aggregate principal amount, or 3,500,000 units of the MITTS Securities.

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on August 15, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of each MITTS Security plus the Supplemental Redemption Amount described below, if any, ML&Co. will make no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before to maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus a supplemental redemption amount as provided below. If the ending index value does not exceed the starting index value by more than 24%, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities and the minimum supplemental redemption amount.

The "Index" is the Top Ten Yield Index, described more fully on pages 15-19.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

$$\text{Principal Amount} \times \frac{\text{Ending Index Value} - \text{Starting Index Value}}{\text{Starting Index Value}}$$

provided, however, that in no event will the Supplemental Redemption Amount be less than \$2.40 per \$10 principal amount of the MITTS Securities.

The "Starting Index Value" was set at 100.

The "Minimum Supplemental Redemption Amount" is equivalent to a rate of return of 2.16% per annum calculated on a semi-annual bond equivalent basis.

The "Ending Index Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Index Value will equal the average, or arithmetic mean, of the closing values of the Index on these Calculation Days, and if there is only one Calculation Day, then the Ending Index Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

8

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the index or any successor index, as defined on page 11 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values:

- . the percentage change from the Starting Index Value to the Ending Index Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of an investment in the stocks underlying the Index, as adjusted from time to time, that experience the same price changes and dividend payments necessary to produce the indicated hypothetical ending index value, which reflects a deduction from the value of the Index at the end of each calendar quarter equal to 0.4375% of the then current Index value.

The pretax annualized rate of return of the stocks underlying the Index illustrated below is intended to reflect the return that might be earned by an investor who seeks to replicate the Index return by trading in the actual stocks underlying the Index and differs from the pretax annualized rate of return on the MITTS Securities because of the percentage deducted from the value of the Index each calendar quarter equal to 0.4375% of the then current Index value. Investors seeking to replicate the Index return by trading in the actual underlying stocks would not incur this periodic deduction although they might incur commissions and other transaction-related costs.

9

400	300%	\$40.00	14.34%	16.17%

</TABLE>

- 
- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
  - (2) This rate of return assumes, in addition to the price changes and dividend payments described above:
    - (a) an initial investment of a fixed amount in the Top Ten Yield Stocks with the allocation of this amount reflecting an equal dollar-weighted portfolio of the stocks in the Index;
    - (b) a reconstruction of this portfolio investment on each Anniversary Date so as to be an equal-dollar weighted portfolio of the ten common stocks in the DJIA having the highest Dividend Yield on the second scheduled Index Business Day prior to each Anniversary Date,
    - (c) a compounded quarterly rate of return on the stocks which is greater than the compounded quarterly return on the Index by 0.4375%, the amount of the quarterly deduction applied to the Index, with dividends being reinvested on a quarterly basis
    - (d) no transaction fees or expenses;
    - (e) an investment term equal to the term of the securities; and
    - (f) a final Index value equal to the Ending Index Value.
  - (3) The Starting Index Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the pretax annualized rate of return resulting therefrom will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus. Historical data regarding the Index is included in this prospectus under "The Index--Historical Data on the Index".

10

#### Adjustments to the Index; Market Disruption Events

If at any time the AMEX changes its method of calculating the Index, or the Index's value changes in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had these changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if any changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- (a) the suspension or material limitation on trading for more than two hours of trading or during the period one-half hour prior to the close of trading, or
- (b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in
  - (1) futures contracts related to the Index, or options on futures contracts, which traded on any major U.S. exchange, or
  - (2) option contracts related to the Index which are traded on any major U.S. exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

In some circumstances, the duties of MLPF&S as calculation agent in determining the existence of Market Disruption Events could conflict with the interests of MLPF&S as a subsidiary of ML&Co.

#### Discontinuance of the Index

If the AMEX discontinues publication of the Index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (that index being referred to as a "Successor Index"), then, upon the calculation agent's notification of its determination to the Trustee, as defined below, and ML&Co., the calculation agent will substitute the Successor Index as calculated by the AMEX or other entity for the Index and calculate the Ending Index Value as described above under "Payment at Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice thereof to be given to Holders of the MITTS Securities.

If the AMEX discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index prior to any discontinuance. If a Successor Index is selected or the calculation agent

11

calculates a value as a substitute for the Index as described below, that Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the AMEX discontinues publication of the Index prior to the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- (a) the determination of the Ending Index Value, and
- (b) a determination by the calculation agent that a Successor Index is available.

The calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, (the "WSJ"), and arrange for information with respect to these values to be made available by telephone. Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

If an event of default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the

commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 7.76% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, together with any successor, (being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

12

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

##### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

13

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the Trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

14

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

## Same-Day Settlement and Payment

All payments of principal and the Supplemental Redemption Amount, if any, will be made by ML&Co. in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

## THE INDEX

### Top Ten Yield Index

AMEX will calculate and disseminate the value of the Index on any Index Business Day; the Index will equal the Top Ten Yield Portfolio Value plus the Current Quarter Dividends (as defined below) as of that Index Business Day. The Top Ten Yield Portfolio Value will equal the sum of the products of the most recently available market price and the applicable Share Multiplier for each Top Ten Yield Stock. The AMEX will generally calculate and disseminate the value of the Index based on the most recently reported prices of the stocks underlying the Index, as reported by the exchange or trading system on which the underlying stocks are listed or traded, at approximately 15-second intervals during the AMEX's business hours and the end of each Index Business Day via the Consolidated Tape Association's Network B.

The "Dividend Yield" for each common stock is determined by the AMEX by annualizing the last quarterly or semi-annual ordinary cash dividend for which the ex-dividend date has occurred, excluding any extraordinary dividend as determined by the AMEX in its sole discretion, and dividing the result by the last available sale price for each stock on its primary exchange on the date the Dividend Yield is to be determined.

### Annual Top Ten Yield Portfolio Reconstitution

As of the close of business on each Anniversary Date, as defined below, through the applicable Anniversary Date in 2005, the content of the Top Ten Yield Portfolio shall be reconstituted to include the ten common stocks in the DJIA having the highest Dividend Yield (the "New Stocks") on the second scheduled Index Business Day prior to the Anniversary Date (the "Annual Determination Date"), provided, however, that the AMEX will only add a stock having characteristics as of the Annual Determination Date that will permit the Index to remain within the criteria specified in the AMEX rules and within the applicable rules of the Securities and Exchange Commission. These criteria and rules will apply only on an Annual Determination Date to exclude a proposed New Stock. If a proposed New Stock does not meet these criteria or rules, the AMEX will replace it with the common stock in the DJIA with the next highest Dividend Yield which does meet these criteria and rules. These criteria currently provide, among other things:

- . that each component stock must have a minimum market value of at least \$75 million, except that up to 10% of the component securities in the Index may have a market value of \$50 million;
- . that each component stock must have an average monthly trading volume in the preceding six months of not less than 1,000,000 shares, except that up to 10% of the component stocks in the Index may have an average monthly trading volume of 500,000 shares or more in the last six months;
- . 90% of the Index's numerical Index value and at least 80% of the total number of component stocks will meet the then current criteria for standardized option trading set forth in the rules of the AMEX; and

15

- . all component stocks will either be listed on the AMEX, the NYSE, or traded through the facilities of the National Association of Securities Dealers Automated Quotation System and reported as National Market System securities.

The AMEX will determine the Share Multiplier for each New Stock and will indicate the number of shares of each New Stock, given the closing market price of the New Stock on the Anniversary Date, required to be included in the calculation of the Top Ten Yield Portfolio Value so that each New Stock represents approximately an equal percentage of a value equal to the Index in effect at the close of business on the Anniversary Date. As an example, if the Index in effect at the close of business on an Anniversary Date equaled 200, then each of the ten New Stocks relating to the Anniversary Date would be allocated a portion of the value of the Index equal to 20 and if the closing market price of one the New Stock on the Anniversary Date was 40, the applicable Share Multiplier would be 0.5. If the Index equaled 80, then each of the ten New Stocks would be allocated a portion of the value of the Index equal to 8 and if the closing market price of one New Stock on the Anniversary Date was 40, the applicable Share Multiplier would be 0.2. The last Anniversary Date on which this reconstitution will occur will be the Anniversary Date in 2005, which will be approximately one year prior to the maturity date of the MITTS Securities. "Anniversary Date" shall mean the anniversary date of the date the MITTS

Securities are initially issued; provided, however, that if this date is not an Index Business Day or a Market Disruption Event occurs on that date, then the Anniversary Date for that year shall mean the immediately succeeding Index Business Day on which a Market Disruption Event does not occur. "Top Ten Yield Stock" at any time shall mean the stocks contained in the Top Ten Yield Portfolio at that time.

#### Dow Jones Industrial Average

The DJIA is comprised of 30 common stocks chosen by the editors of the WSJ as representative of the broad market of American industry generally. The companies are major factors in their industries and their stocks are typically widely held by individuals and institutional investors. Changes in the composition of the DJIA are made entirely by the editors of the WSJ without consultation with the companies, the stock exchange or any official agency or ML&Co. For the sake of continuity, changes are made infrequently. Most substitutions have result from mergers, but from time to time, changes may be made to achieve a better representation. The components of the DJIA may be changed at any time for any reason. Dow Jones & Company, Inc., publisher of the WSJ, is not affiliated with ML&Co, has not participated in any way in the creation of the MITTS Securities or in the selection of stocks to be included in the Top Ten Yield Portfolio and has not reviewed or approved any information included in this prospectus.

The first DJIA, consisting of 12 stocks, was published in the WSJ in 1896. The list grew to 20 stocks in 1916 and to 30 stocks on October 1, 1928. For two periods of 17 consecutive years each, there were no changes to the list; March 15, 1939-July 2, 1956 and June 2, 1959-August 8, 1976.

ML&Co or its affiliates may presently or from time to time engage in business with one or more of the issuers of the Top Ten Yield Portfolio stocks, including extending loans to, or making equity investments in, these issuers or providing advisory services to these issuers, including merger and acquisition advisory services. In the course of this business, ML&Co or its affiliates may acquire non-public information with respect to these issuers and, in addition, one or more affiliates of ML&Co may publish research reports with respect to these issuers. ML&Co does not make any representation to any purchaser of MITTS Securities with respect to any matters whatsoever relating to these issuers. Any prospective purchaser of MITTS Securities should undertake an independent investigation of the issuers of the Top Ten Yield Portfolio stocks as in its judgment is appropriate to make an informed decision with respect to an investment in the MITTS Securities. The composition of the Index does not reflect any investment or sell recommendations of ML&Co or its affiliates.

16

#### Cash Dividends

##### Current Quarter Dividend

As described above, the value of the Index will include an amount reflecting Current Quarter Dividends. "Current Quarter Dividends" for any day will be determined by the AMEX and will equal the sum of the Dividend Payment for each Top Ten Yield Stock. The "Dividend Payment" with respect to a Top Ten Yield Stock for any day will equal the sum of the products of:

- . each dividend paid by the issuer of that Top Ten Yield Stock on one share of that Top Ten Yield Stock during the Current Quarter, not including any reinvestment thereof, multiplied by
- . the Share Multiplier applicable to that Top Ten Yield Stock at the time each dividend is paid. A dividend will be considered paid by an issuer at the open of business on the ex-dividend date, generally, the trading day on which the market price of the stock reflects the payment of the dividend. "Current Quarter" shall mean the period from and including August 9, 1996 through December 31, 1996, and after December 31, 1996, from and including the first day of the then current calendar quarter containing the day on which the applicable Dividend Payment is being determined to and including the day on which the applicable Dividend Payment is being determined.

##### Quarterly Stock Dividend

As of the first day of the start of each calendar quarter, the AMEX will allocate the Current Quarter Dividends as of the end of the immediately preceding calendar quarter to each then outstanding Top Ten Yield Stock. The amount of the Current Quarter Dividends allocated to each Top Ten Yield Stock will equal the percentage of the value of that Top Ten Yield Stock contained in the Top Ten Yield Portfolio relative to the value of the entire Top Ten Yield Portfolio based on the closing market price on the last Index Business Day in the immediately preceding calendar quarter. The AMEX will increase the Share Multiplier of each outstanding Top Ten Yield Stock to reflect the number of shares, or portion of a share, that the amount of the Current Quarter Dividend allocated to that Top Ten Yield Stock can purchase of each Top Ten Yield Stock based on the closing market price on the last Index Business Day in the

immediately preceding calendar quarter.

#### Quarterly Deduction

At the end of each calendar quarter, the Index will be reduced by a value equal to 0.4375% of the then current Index, provided that:

- . there was no deduction at the end of the calendar quarter ending in September 1996 and the deduction at the end of the calendar quarter ending in December 1996 was increased to reflect the quarterly rate of 0.4375% prorated for the period from the date of the issuance of the MITTS Securities through the end of the calendar quarter in December 1996, and
- . the Index will be reduced at the close of business on July 31, 2006 by a value equal to 0.1507% of the closing value of the Index on that date. With respect to the period ending December 31, 1996, the quarterly rate of 0.4375% will be prorated by multiplying it by a factor equal to the result of dividing the number of days in the period from the date the MITTS Securities are issued through the calendar quarter ending in December 1996 by 90.

17

#### Adjustments to the Share Multiplier and Top Ten Yield Portfolio

The Share Multiplier with respect to any Top Ten Yield Stock and the Top Ten Yield Portfolio will be adjusted as follows:

1. If a Top Ten Yield Stock is subject to a stock split or reverse stock split, then once the split has become effective, the Share Multiplier relating to that Top Ten Yield Stock will be adjusted to equal the product of the number of shares issued with respect to one share of that Top Ten Yield Stock and the prior multiplier.
2. If a Top Ten Yield Stock is subject to a stock dividend, defined as an issuance of additional shares of the Top Ten Yield Stock, that is given equally to all holders of shares of the issuer of that Top Ten Yield Stock, then once the dividend has become effective and that Top Ten Yield Stock is trading ex-dividend, AMEX will adjust the Share Multiplier so that the new Share Multiplier shall equal the former Share Multiplier plus the product of the number of shares of that Top Ten Yield Stock issued with respect to one share of that Top Ten Yield Stock and the prior multiplier.
3. If the issuer of a Top Ten Yield Stock is being liquidated or is subject to a proceeding under any applicable bankruptcy, insolvency or other similar law, that Top Ten Yield Stock will continue to be included in the Top Ten Yield Portfolio so long as a Market Price for that Top Ten Yield Stock is available. If a market price is no longer available for a Top Ten Yield Stock for whatever reason, including the liquidation of the issuer of Top Ten Yield Stock or the subjection of the issuer of that Top Ten Yield Stock to a proceeding under any applicable bankruptcy, insolvency or other similar law, then the value of that Top Ten Yield Stock will equal zero in connection with calculating the Top Ten Yield Portfolio Value for so long as no market price is available, and no attempt will be made to immediately find a replacement stock or increase the value of the Top Ten Yield Portfolio to compensate for the deletion of that Top Ten Yield Stock. If a market price is no longer available for a Top Ten Yield Stock as described above, the Top Ten Yield Portfolio Value will be computed based on the remaining Top Ten Yield Stocks for which market prices are available and no new stock will be added to the Top Ten Yield Portfolio until the annual reconstitution of the Top Ten Yield Portfolio. As a result, there may be periods during which the Top Ten Yield Portfolio contains fewer than ten Top Ten Yield Stocks.
4. If the issuer of a Top Ten Yield Stock has been subject to a merger or consolidation and is not the surviving entity or is nationalized, then a value for that Top Ten Yield Stock will be determined at the time the issuer is merged or consolidated or nationalized and will equal the last available market price for that Top Ten Yield Stock and that value will be constant until the Top Ten Yield Portfolio is reconstituted. At that time, no adjustment will be made to the Share Multiplier of that Top Ten Yield Stock.
5. If the issuer of a Top Ten Yield Stock issues to all of its shareholders equity securities that are publicly traded of an issuer other than the issuer of the Top Ten Yield Stock, then the new equity securities will be added to the Top Ten Yield Portfolio as a new Top Ten Yield Stock. The Share Multiplier for that new Top Ten Yield Stock will equal the product of the original Share Multiplier with respect to the Top Ten Yield Stock for which the new Top Ten Yield Stock is being issued (the "Original Top Ten Yield Stock") and the number of shares of the new Top Ten Yield Stock issued with respect to one share of the Original Top Ten Yield Stock.

No adjustments of any Share Multiplier of a Top Ten Yield Stock will be required unless the adjustment would require a change of at least 1% in the Share Multiplier then in effect. The Share Multiplier resulting from any of the

adjustments specified above will be rounded to the nearest ten-thousandth with five hundred-thousandths being rounded upward.

The AMEX expects that no adjustments to the Share Multiplier of any Top Ten Yield Stock or to the Top Ten Yield Portfolio will be made other than those specified above, however, the AMEX may at its

18

discretion make adjustments to maintain the value of the Index if events would otherwise alter the value of the Index despite no change in the market prices of the Top Ten Yield Stocks.

#### Historical Performance of the Index

You should review the historical performance of the Index. The historical performance of the Index should not be taken as an indication of future performance, and no assurance can be given that the Index will increase sufficiently to cause the beneficial owners of the MITTS Securities to receive an amount in excess of the principal amount at the maturity of the MITTS Securities.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

19

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a

Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;

20

- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;

- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

21

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

## INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

22

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

## PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

## EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts

in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

+++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may not sell these securities until the registration statement filed with +  
+ the Securities and Exchange Commission is effective. This prospectus is not +  
+ an offer to sell these securities and it is not soliciting an offer to buy +  
+ these securities in any state where the offer and sale is not permitted. +

Merrill Lynch & Co., Inc.  
Technology Market Index Target-Term Securities (R)  
due August 15, 2001  
"MITTS (R) Securities"  
\$10 principal amount

<TABLE>  
<CAPTION>

The MITTS Securities:

Payment at Maturity:

<S>

<C>

- . 100% principal protection at maturity.
- . No payments before the maturity date.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the Chicago Board of Options Exchange Technology Index, as further described in this prospectus.
- . The MITTS Securities are listed on the Chicago Board of Options Exchange and the New York Stock Exchange under the symbol "TKM".

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the index, adjusted as described in this prospectus.
- . At maturity you will receive no less than the principal amount of your MITTS Securities and no more than \$20.

</TABLE>

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 189.48.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Yield on the MITTS Securities is subject to a maximum amount

Because the amount, in addition to the principal amount of the MITTS Securities, if any, we will pay you at maturity, will not exceed \$10 per unit of MITTS Securities, you will not benefit from index increases in excess of approximately 125% of the closing index value on the date the MITTS Securities were priced for initial sale to the public.

Your return will not reflect the return of owning the stocks included in the index

The index does not reflect the payment of dividends on the stocks underlying it and therefore the yield based on the index to the maturity of the MITTS Securities will not produce the same yield as if you purchased the underlying stocks and held them for a similar period.

There may be an uncertain trading market for the MITTS Securities

ML&Co. has listed the MITTS Securities on the Chicago Board of Options Exchange and the NYSE under the trading symbol "TKM". You cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the index.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities is expected to depend substantially on the extent of the appreciation, if any, of the index over 189.48. If, however, you sell your MITTS Securities prior to the maturity date at a time when the index exceeds 189.48, the price you receive may be at a substantial discount from the amount expected to be payable if the excess of the index over 189.48 were to prevail until maturity of the MITTS Securities because of the possible fluctuation of the index between the time of the sale and the time that the MITTS Securities mature. Furthermore, the price at which you will be able to sell the MITTS Securities prior to maturity may be at a discount, which could be substantial, from the principal amount thereof, if, at that time, the index is below, equal to, or not sufficiently above 189.48. The \$20 limitation on

3

payment at maturity of the MITTS Securities may adversely affect the secondary market value of the MITTS Securities. A discount could also result from rising interest rates.

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect the trading value of the MITTS Securities will likely be affected by changes in interest rates. In general, we anticipate that if U.S. interest rates increase, the trading value of the MITTS Securities is expected to decrease. Conversely, if U.S. interest rates decrease, the trading value of the MITTS Securities is expected to increase. Interest rates may also affect the U.S. economy, and, in turn, the value of the Index. Rising interest rates may lower the value of the index and, thus, may decrease the trading value of the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the trading value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. If the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We believe that before maturity the MITTS Securities may trade at a value above that which you may expect from the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. As the time remaining to maturity of the MITTS Securities decreases, however, we expect this time premium to decrease, thus decreasing the trading value of the MITTS Securities. In addition, the price at which you may be able to sell your MITTS Securities prior to maturity may be at a discount, which may be substantial, from the principal amount of the MITTS Securities if the value of the index is below, equal to, or not sufficiently above 189.48.

Changes in dividend yields of the stocks included in the portfolio are expected to affect the trading value of the MITTS Securities. If dividend rates on the stocks included in the index increase, we expect the trading value of the MITTS Securities to decrease. Conversely, if dividend rates on the stocks included in the index decrease, we expect the value of the MITTS Securities to increase. However, in general, rising U.S. corporate dividend rates may increase the value of the index and, in turn, increase the trading value of the MITTS Securities. Conversely, falling U.S. corporate dividend rates may decrease the value of the index and, in turn, decrease the trading value of the MITTS Securities.

The impact of the factors specified above, excluding the value of the index, may offset, partially or in whole, any increase in the trading value of the MITTS Securities that is attributable to an increase in the value of the index. For example, an increase in U.S. interest rates may cause the MITTS Securities to trade at a discount from their initial offering price, even if the index has appreciated significantly. In addition, the impact of a given factor

may change depending on the prevailing value of the index relative to 189.48 and on the time remaining to maturity. In general, assuming all relevant factors are held constant, the effect on the trading value of the MITTS Securities of a given change in interest rates, index volatility and/or dividend rates of stocks comprising the index is expected to be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. We expect that the effect on the trading value of the MITTS Securities of a given appreciation of the index in excess of value of the MITTS Securities to be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities, assuming all other relevant factors are held constant.

4

Many factors affect the value of the index

Political, economic and other developments that affect the stocks included in the index may adversely affect the value of the index and the value of the MITTS Securities. Since the stocks included in the index are of companies involved in various aspects of the high technology industry segment, factors affecting this industry segment may affect the value of the index and therefore the trading value of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest chargeable to and payable by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Potential conflicts

Our wholly-owned subsidiary, Merrill Lynch, Pierce, Fenner and Smith, or MLPF&S, or its affiliates may from time to time engage in transactions involving the stocks underlying the index for their proprietary accounts and for other accounts under their management, which may influence the value of the stocks and therefore the value of the MITTS Securities. MLPF&S and its affiliates will also be the counterparties to the hedge of ML&Co.'s obligations under the MITTS Securities. Accordingly, in some circumstances, conflicts of interest may arise between MLPF&S's responsibilities as calculation agent with respect to the MITTS Securities and its obligations under its hedge and its status as a subsidiary of ML&Co. In some circumstances, the duties of MLPF&S as calculation agent could conflict with the interests of MLPF&S as an affiliate of the issuer of the MITTS Securities, Merrill Lynch & Co., Inc., and with the interests of the holders of the MITTS Securities.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and

. investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

6

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
	-----	-----	-----	-----	-----	September 29, 2000
	----	----	----	----	----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

7

#### DESCRIPTION OF SECURITIES

On August 12, 1996, ML&Co. issued \$25,000,000 aggregate principal amount of Technology MITTS Securities due August 15, 2001. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on August 15, 2001.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of that MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "-- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be

entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Index Value does not exceed the Benchmark Index Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>			
<S>		<C>	
	Principal Amount	X	$\frac{\text{Ending Index Value} - \text{Benchmark Index Value}}{\text{Benchmark Index Value}}$
</TABLE>			

provided, however, that in no event will the Supplemental Redemption Amount be less than zero or more than \$10 per \$10 principal amount of MITTS Securities.

The "Benchmark Index Value" equals 189.48. The Benchmark Index Value was determined on the date the MITTS Securities were priced for initial sale to the public (the "Pricing Date") by multiplying the closing value of the CBOE Technology Index (the "Index") on the Pricing Date by a factor equal to 112.5%.

The "Ending Index Value" will be determined by calculation agent and will equal the average or arithmetic mean of the closing values of the Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Index Value will equal the average or arithmetic mean of the closing values of the Index on those Calculation Days. If there is only one Calculation Day, then the Ending Index Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

For purposes of determining the Ending Index Value, an "Index Business Day" is a day on which the NYSE is open for trading and trading generally occurs in the over-the-counter market for equity securities and the Index or any Successor Index, as defined on page 10 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values,

- . the total amount payable at maturity for each \$10 principal amount of MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks underlying the Index, which includes an assumed aggregate dividend yield of 0.20% per annum, as more fully described below.

<TABLE>

</TABLE>

- 
- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes
- an investment of a fixed amount in the stocks underlying the Index with the allocation of that amount reflecting the relative weights of the stocks in the Index;
  - a percentage change in the aggregate price of the stocks that equals the percentage change in the Index from the closing value of the Index on the Pricing Date to the relevant hypothetical Ending Index Value;
  - a constant dividend yield of 0.20% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming the value increases or decreases linearly from the closing value of the Index on the Pricing Date to the applicable hypothetical
- 9
- Ending Index Value;
  - no transaction fees or expenses;
  - an investment term equal to the term of the MITTS Securities; and
  - a final Index value equal to the Ending Index Value. The aggregate dividend yield of the stocks underlying the Index as of August 7, 1996 was approximately 0.20%.
- (3) The closing value of the Index on the Pricing Date.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating its Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had the changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect

to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if the changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

(a) the suspension or material limitation on trading for more than two hours of trading in 5 or more of the securities included in the Index, or

(b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts on the Index which are traded on the Chicago Board Options Exchange, Inc.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

For the purposes of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

#### Discontinuance of the Index

If the CBOE discontinues publication of the Index and the CBOE or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (a "Successor Index"), then, upon the calculation agent's notification of the determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by the CBOE or any other entity for the Index and calculate the Ending Index Value as described above under "Payment at Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If the CBOE discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index

10

before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the CBOE discontinues publication of the Index before the period during which the calculation agent is to calculate the Supplemental Redemption Amount and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of the determination of the Ending Index Value and a determination by the calculation agent that a Successor Index is available, the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone. Despite these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities shall have occurred and be continuing, the amount payable to a beneficial owner of a Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount thereof, will be equal to the principal amount plus an additional amount of contingent interest calculated as though the date of early repayment were the maturity date of the MITTS Securities. See "Description of Securities--Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner

of a Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 7.76%, per annum to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor, a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or Holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of Holders or that an owner of a beneficial interest in a global security desires to

11

give or take any action which a Holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

##### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National

Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

12

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Unless otherwise stated, all information in this prospectus on the Index is derived from the CBOE or other publicly available sources. This information reflects the policies of the CBOE as stated in those sources and the policies are subject to change by the CBOE.

The Index is a price-weighted stock index designed, developed, maintained and operated by, and is a service mark of, the CBOE. The Index is designed to provide an indication of the composite price performance of the common stocks of companies involved in the U.S. high technology industry segment for example, companies involved in the design and manufacture of high technology components and systems.

The value of the Index is reported on the AMEX and Bloomberg under the symbol "TXX" and on Reuters under the symbol ".TXX".

The Index consists of the stocks of issuers involved in various aspects of the high technology industry segment, including:

13

- . computer services,
- . telecommunications equipment,
- . server software and hardware,
- . design software,
- . PC software and hardware,
- . networking, peripherals, and
- . semiconductors.

The CBOE selects companies for inclusion in the Index with the aim of representing the spectrum of companies that develop components and systems that define high technology. Relevant criteria employed by the CBOE include:

- . the viability of the particular company,
- . the extent to which that company represents the high technology sector,
- . the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the technology sector, and
- . the market value and trading activity of the common stock of that company.

#### Computation of the Index

The Index is a price-weighted index for example, the weight in the Index of a stock underlying the Index (an "Underlying Stock") is based on its price per share rather than the total market capitalization of the issuer of that stock, and reflects changes in the prices of the Underlying Stocks relative to the index base date, January 3, 1995, when the Index equaled 100.00. Specifically, the Index value is calculated by:

- . totaling the prices of a single share of each of the Underlying Stocks (the "Market Price Aggregate"), and
- . dividing the Market Price Aggregate by the Index Divisor.

The Index Divisor was originally chosen to result in an Index value of 100 on January 3, 1995, and is subject to periodic adjustments as set forth below. The stock prices used to calculate the Index are those reported by a primary market for the Underlying Stocks.

The CBOE adjusts the foregoing Index Divisor to negate the effects of changes in the price of an Underlying Stock that are determined by the CBOE to be arbitrary and not due to market fluctuations. These adjustments may result

from stock splits, consolidations and acquisitions, the grant to shareholders of the right to purchase other securities of the issuer for example, spinoffs and rights issuances. The CBOE may also adjust the Index Divisor because of the substitution of an Underlying Security. The CBOE first recalculates the Market Price Aggregate and then determines a new Index Divisor based on the following formula:

$$\text{Old Divisor} \times \frac{\text{New Market Price Aggregate}}{\text{Old Market Price Aggregate}} = \text{New Divisor}$$

14

The Index will be maintained by the CBOE. The Index is reviewed on approximately a monthly basis by the CBOE staff. The CBOE may change the composition of the Index at any time to reflect changes affecting the components of the Index or the technology industry generally. If it becomes necessary to remove a stock from the Index for example, because of a takeover or merger, the CBOE will only add a stock having characteristics that will permit the Index to remain within the maintenance criteria specified in CBOE Rules and within the applicable rules of the Commission.

Additionally, as of the first trading day of each January and July, no single security may account for over 25% of the weight of the Index and no five securities may account for over 50% of the weight of the Index. Furthermore, each component security must be a reported security as defined in Rule 11Aa3-1 of the Exchange Act. Finally, at least 90% of the weight of the Index and 80% of the number of components in the Index must be eligible for standardized options trading pursuant to CBOE Rules or, if currently listed for options trading, must meet the applicable maintenance standards specified in CBOE Rules. The CBOE will also take into account the capitalizations, liquidity, volatility, and name recognition of any proposed replacement stock.

Absent prior approval of the SEC, the CBOE will not increase to more than 40, or decrease to fewer than 20, the number of stocks in the Index. Additionally, the CBOE will not make any change in the composition of the Index that would cause fewer than 90% of the stocks by weight, or fewer than 80% of the total number of stocks in the index, to qualify as stocks eligible for equity options trading under CBOE rules.

The CBOE is under no obligation to continue the calculation and dissemination of the Index and the method by which the Index is calculated and the name "CBOE Technology Index" may be changed at the discretion of the CBOE. The MITTS Securities are not sponsored, endorsed, sold or promoted by the CBOE. No inference should be drawn from the information contained in this prospectus that the CBOE makes any representation or warranty, implied or express, to ML&Co., the beneficial owners of MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Index to track general stock market performance. The CBOE has no obligation to take the needs of ML&Co. or the beneficial owners of MITTS Securities into consideration in determining, composing or calculating the Index. The CBOE is not responsible for, and has not participated in the determination of the timing of prices for or quantities of, the MITTS Securities to be issued or in the determination or calculation of the equation by which the Supplemental Redemption Amount is determined. The CBOE has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

The use of and reference to the Index in connection with the MITTS Securities have been consented to by the CBOE.

Except in the limited circumstance described in this prospectus, none of ML&Co., the trustee, the calculation agent or the underwriter has undertaken independent diligence of the calculation, maintenance or publication of the Index or any Successor Index. The CBOE disclaims all responsibility for any inaccuracies in the data on which the Index is based and any mistakes or errors or omissions in the calculation or dissemination of the Index and for the manner in which the Index is used in determining the Supplemental Redemption Amount, if any.

A potential investor should review the historical performance of the Index. The historical performance of the Index should not be taken as an indication of future performance, and no assurance can be given that the Index will increase sufficiently to cause the beneficial owners of the MITTS Securities to receive an amount in excess of the principal amount at the maturity of the MITTS Securities.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of

the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

15

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, LPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:

16

- . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
- . perform and observe all of ML&Co.'s obligations under the 1983

Indenture, and

- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;

17

- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as

a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

18

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we

will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

19

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the CBOE or NYSE or off the exchanges in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Merrill Lynch & Co., Inc.  
Healthcare/Biotechnology Portfolio  
Market Index Target-Term Securities(R)  
due October 31, 2001  
"MITTS(R) Securities"  
\$10 principal amount

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
<CAPTION>

The MITTS Securities:

Payment at Maturity:

<S>

<C>

- . 100% principal protection at maturity.
- . No payments before the maturity date.
- . Senior unsecured debt securities Merrill Lynch & Co., Inc.
- . Linked to the value of the Healthcare/Biotechnology Portfolio, as described in this prospectus.
- . The MITTS Securities are listed on the American Stock Exchange under the symbol "MLH".

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the portfolio, adjusted as described in this prospectus.
- . You will receive no less than the principal amount of your MITTS Securities.

</TABLE>

Investing in the MITTS Securities involves risks.

See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

</TABLE>

RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the portfolio over five trading days shortly before the maturity date is less than 115. This will be true even if at some time during the life of the MITTS Securities, the value of the portfolio was higher than 115 but later falls below 115.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the portfolio

The portfolio does not reflect the payment of dividends on the stocks underlying it. Therefore your yield you receive based on the value of portfolio at the maturity of the MITTS Securities will not be the same as the yield you would receive if you had purchased the underlying stocks and held them for a similar period.

There may be an uncertain trading market for the MITTS Securities

ML&Co. has listed the MITTS Securities on the AMEX under the trading symbol "MLH". You cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the portfolio.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the portfolio. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of the MITTS Securities at maturity, changes in interest rates will likely affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect the trading value of the MITTS Securities to decrease. Conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities to increase. Interest rates may

3

also affect the U.S. economy, and, in turn, the value of the portfolio. Rising interest rates may lower the value of the portfolio and, thus, may decrease the trading value of the MITTS Securities. Falling interest rates may increase the value of the portfolio and, thus, may increase the trading value of the MITTS Securities.

Changes in the volatility of the portfolio are expected to affect the trading value of the MITTS Securities. If the volatility of the portfolio value increases, we expect the trading value of the MITTS Securities to increase. If the volatility of the portfolio value decreases, we expect the trading value of the MITTS Securities to decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that prior to maturity the MITTS Securities may trade at a value above that which you may expect based on the level of interest rates and the portfolio. This difference will reflect a "time premium" due to expectations

concerning the value of the portfolio during the period prior to maturity of the MITTS Securities. As the time remaining to maturity of the MITTS Securities decreases, however, this time premium is expected to decrease, thus decreasing the trading value of the MITTS Securities. In addition, the price at which you may be able to sell the MITTS Securities prior to maturity may be at a discount, which may be substantial, from the principal amount of the MITTS Securities if the value of the portfolio is below, equal to, or not sufficiently above 115.

Changes in dividend yields of the stocks included in the portfolio are expected to affect the trading value of the MITTS Securities. If dividend rates on the stocks included in the portfolio increase, we expect the trading value of the MITTS Securities to decrease. Conversely, if dividend rates on the stocks included in the portfolio decrease, we expect the value of the MITTS Securities to increase. However, in general, rising U.S. corporate dividend rates may increase the value of the portfolio and, in turn, increase the trading value of the MITTS Securities. Conversely, falling U.S. corporate dividend rates may decrease the value of the portfolio and, in turn, decrease the trading value of the MITTS Securities.

In general, assuming all relevant factors are held constant, the effect on the trading value of the MITTS Securities of a given change in interest rates, portfolio volatility and/or dividend rates of stocks comprising the portfolio is expected to be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, the effect on the trading value of the MITTS Securities of a given appreciation of the portfolio in excess 115 is expected to be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities, assuming all other relevant factors are held constant.

Many factors affecting the stocks in the portfolio value will affect your return

Political, economic and other developments that affect the stocks underlying the portfolio may adversely affect the value of the portfolio and the value of the MITTS Securities. Since the stocks underlying the portfolio are of companies involved in various segments of the healthcare industry and the biotechnology industry, factors affecting these industries may affect the value of the portfolio and therefore the trading value of the MITTS Securities. See "The Portfolio--Healthcare and Biotechnology Industries".

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for your benefit, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

4

#### Potential Conflicts

Our wholly-owned subsidiary, Merrill Lynch, Pierce, Fenner and Smith Incorporated, or MLPF&S, or its affiliates may from time to time engage in transactions involving the stocks included in the portfolio for their proprietary accounts and for other accounts under their management, which may influence the value of these stocks and therefore the value of the MITTS Securities. MLPF&S and its affiliates will also be the counterparties to the hedge of ML&Co.'s obligations under the MITTS Securities. Accordingly, in some circumstances, conflicts of interest may arise between MLPF&S's responsibilities as calculation agent for the MITTS Securities and its obligations under its hedge and its status as a subsidiary of ML&Co. At times, the duties of MLPF&S as calculation agent could conflict with the interests of MLPF&S as an affiliate of the issuer of the MITTS Securities, Merrill Lynch & Co., Inc., and with the interests of the holders of the MITTS Securities.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

6

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

7

#### DESCRIPTION OF SECURITIES

On October 30, 1996, ML&Co. issued \$15,000,000 aggregate principal amount of Healthcare/Biotechnology MITTS Securities due October 31, 2001. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on October 31, 2001.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default, as defined below, with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Portfolio Value does not exceed the Benchmark Portfolio Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<CAPTION>  
<S>

		<C>	( Ending Portfolio Value-Benchmark Portfolio Value )
Principal Amount (\$10 per unit)	X	( ----- )	
		( Benchmark Portfolio Value )	

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Portfolio" means the Healthcare/Biotechnology Portfolio.

The "Benchmark Portfolio Value" equals 115. The Benchmark Portfolio Value was determined on the date the MITTS securities were priced for initial sale to the public (the "Pricing Date"), by multiplying the Starting Portfolio Value by a factor equal to 115%. Based on the individual prices of the stocks included in the Portfolio (the "Portfolio Securities") on the Pricing Date, the Multiplier for each Portfolio Security was initially set by the AMEX so that, on the Pricing Date, the Portfolio Securities were equally dollar-weighted in the Portfolio and the Portfolio Value equaled 100 (the "Starting Portfolio Value").

The "Ending Portfolio Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Portfolio determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Portfolio Value will equal the average or arithmetic mean of the closing values of the Portfolio on those Calculation Days. If there is only one Calculation Day, then the Ending Portfolio Value will equal the closing value of the Portfolio on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Portfolio Value will equal the closing value of the Portfolio determined on

8

the last scheduled Portfolio Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Portfolio Business Day prior to the maturity date to and including the second scheduled Portfolio Business Day prior to the maturity date.

"Calculation Day" means any Portfolio Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

For purposes of determining the Ending Portfolio Value, a "Portfolio Business Day" is a day on which the AMEX is open for trading and trading generally occurs in the over-the-counter market for equity securities and the Portfolio or any Successor Portfolio, as defined below on page 10, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

9

The following table illustrates, for a range of hypothetical Ending Portfolio Values:

- . the total amount payable at maturity for each \$10 principal amount of MITTS Securities, based on the Benchmark Portfolio Value, which equals 115% of the Starting Portfolio Value;
- . the pretax annualized rate of return to beneficial owners of MITTS Securities; and
- . the pretax annualized rate of return of an investment in the stocks underlying the Portfolio, which includes an assumed aggregate dividend yield of 0.23% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Hypothetical Ending Portfolio Value	Percentage Change Over the Starting Portfolio Value	Total Amount Payable at Maturity(1)	Pretax Annualized Rate of Return on the Securities(2)	Pretax Annualized Rate of Return of Stock Underlying the Portfolio(2) (3)
<S>	<C>	<C>	<C>	<C>
50	-50%	\$10.00	0.00%	-13.09%
60	-40%	\$10.00	0.00%	-9.66%
70	-30%	\$10.00	0.00%	-6.71%
80	-20%	\$10.00	0.00%	-4.11%
90	-10%	\$10.00	0.00%	-1.79%
100(4)	0%	\$10.00	0.00%	0.23%
110	10%	\$10.00	0.00%	2.23%
120	20%	\$10.43	0.85%	4.00%
130	30%	\$11.30	2.47%	5.64%
140	40%	\$12.17	3.97%	7.17%
150	50%	\$13.04	5.39%	8.60%
160	60%	\$13.91	6.72%	9.96%
170	70%	\$14.78	7.97%	11.23%
180	80%	\$15.65	9.16%	12.45%
190	90%	\$16.52	10.30%	13.60%
200	100%	\$17.39	11.38%	14.70%
210	110%	\$18.26	12.41%	15.75%
220	120%	\$19.13	13.40%	16.76%
230	130%	\$20.00	14.35%	17.77%
240	140%	\$20.87	15.27%	18.66%
250	150%	\$21.74	16.15%	19.56%

</TABLE>

- (1) The total amount payable at maturity is based on the Benchmark Portfolio Value, which equals 115% of the Starting Portfolio Value.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes:
- . an investment of a fixed amount in the stocks underlying the Portfolio with the allocation of that amount reflecting the relative weights of the stocks in the Portfolio;
  - . a percentage change in the aggregate price of the stocks that equals the percentage change in the Portfolio from the Starting Portfolio Value to the relevant hypothetical Ending Portfolio Value;
  - . a constant dividend yield of 0.23% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Portfolio at the end of each quarter assuming this

10

- . value increases or decreases linearly from the Starting Portfolio Value to the applicable hypothetical Ending Portfolio Value;
- . no transaction fees or expenses;
- . a five year maturity of the MITTS Securities from the date of issuance; and
- . a final Portfolio value equal to the Ending Portfolio Value. The aggregate dividend yield of the stocks underlying the Portfolio as of October 24, 1996 was approximately 0.23% per annum.

- (4) The Starting Portfolio Value was set at 100 based on the closing prices on the Pricing Date.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting pretax annualized rate of return will depend entirely on the actual Ending Portfolio Value determined by the calculation agent as provided in this prospectus.

Adjustments to the Portfolio; Market Disruption Events

If at any time the method of calculating the Portfolio Value is changed in

any material respect, or if the Portfolio is in any other way modified so that the Portfolio Value does not, in the opinion of the calculation agent, fairly represent the Portfolio Value had these changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Portfolio Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Portfolio Value as if any changes or modifications had not been made, and calculate the closing value with reference to the Portfolio Value, as adjusted. Accordingly, if the method of calculating the Portfolio Value is modified so that the Portfolio Value is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the Portfolio Value, then the calculation agent shall adjust the Portfolio Value in order to arrive at a Portfolio Value as if it had not been modified, for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

(a) the suspension or material limitation on the trading of three or more of the Portfolio Securities on any exchange in the United States or in the over-the-counter market for more than two hours of trading or during the period one-half hour prior to the close of trading, or

(b) the suspension or material limitation, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in the trading of option contracts related to three or more of the Portfolio Securities traded on any exchange for more than two hours of trading or during the period one-half hour prior to the close of trading.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

For the purposes of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

Discontinuance of the Portfolio

If the AMEX discontinues publication of the Portfolio Value and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be

11

comparable to the Portfolio Value (the "Successor Portfolio Value"), then, upon the calculation agent's notification of this determination to the trustee and ML&Co., the calculation agent will substitute the Successor Portfolio Value as calculated by the AMEX or any other entity for the Portfolio Value and calculate the Ending Portfolio Value as described above under "Payment at Maturity". Upon any selection by the calculation agent of a Successor Portfolio Value, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If the AMEX discontinues publication of the Portfolio Value and a Successor Portfolio Value is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Portfolio Value for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Portfolio Value prior to any discontinuance. If a Successor Portfolio Value is selected or the calculation agent calculates a value as a substitute for the Portfolio Value as described below, the Successor Portfolio Value or value calculated by the calculation agent shall be substituted for the Portfolio Value for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the AMEX discontinues publication of the Portfolio Value prior to the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Portfolio Value is available at that time, then on each Business Day until the earlier to occur of

- . the determination of the Ending Portfolio Value and
- . a determination by the calculation agent that a Successor Portfolio Value is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street

Journal or another newspaper of general circulation, and arrange for information to be made available by telephone.

Despite these alternative arrangements, discontinuance of the publication of the Portfolio Value may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount, will be equal to: the principal amount plus an additional amount of contingent interest calculated as though the date of early repayment were the maturity date of the MITTS Securities. See "Description of Securities--Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 6.61% per annum to the extent that payment of the interest shall be legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

12

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or Holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of Holders or that an owner of a beneficial interest in a global security desires to give or take any action which a Holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

##### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to

13

the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or

- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&CO. will make all payments of principal and the Supplemental Redemption Amount, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE PORTFOLIO

While the Portfolio consists of stocks of companies involved in various segments of the healthcare industry and the biotechnology industry, the Portfolio is not intended to provide an indication of the pattern of price movements of common stocks of healthcare and biotechnology corporations generally. All of the Portfolio Securities are registered under the Exchange Act. Companies with securities registered under the Exchange Act are required to file periodically financial and other information specified by the SEC. Information provided to or filed with the SEC is available at the offices of the SEC. Neither ML&Co. nor MLPF&S makes any representation or warranty as to the accuracy or completeness of the reports. The inclusion of a Portfolio Security in the Portfolio is not a recommendation to buy or sell that Portfolio Security and neither ML&Co. nor any of its affiliates make any representation to any purchaser of MITTS Securities as to the performance of the Portfolio.

The value of the Portfolio is reported on the AMEX and Bloomberg under the symbol "MXH" and on Reuters under the symbol ".MXH".

ML&Co. or its affiliates may presently or from time to time engage in business with one or more of the issuers of the Portfolio Securities, including extending loans to, or making equity investments in, these issuers or providing advisory services to these issuers, including merger and acquisition advisory services. In the course of business, ML&Co. or its affiliates may acquire non-public information about the issuers and, in addition, one or more affiliates of ML&Co. may publish research reports about the issuers. ML&Co. does not make any representation to any purchaser of MITTS Securities with respect to any matters whatsoever relating to these issuers. Any prospective purchaser of a MITTS Security should undertake an independent investigation of the issuers of the Portfolio Securities as in its judgment is appropriate to make an informed decision about an investment in the MITTS Securities.

#### Healthcare and Biotechnology Industries

The healthcare industry is subject to various federal, state and local laws and regulations which are frequently subject to change in many ways that can affect the price of the stocks of companies involved in the industry.

The biotechnology industry segment is subject to many of the same factors that affect the healthcare industry. In addition, the products produced by biotechnology companies often entail costly research and development and can be subject to extensive regulatory review prior to approval for sale.

#### Computation of the Portfolio Value

The AMEX will generally calculate and disseminate the value of the Portfolio based on the most recently reported prices of the Portfolio Securities, as reported by the Exchanges, at approximately 15-second intervals during the AMEX's business hours and at the end of each Portfolio Business Day via the Consolidated Tape Association's Network B. The Portfolio Value, at any time, will equal the sum of the products of these prices and the applicable Multipliers for the Portfolio Securities. The Ending Portfolio Value, however, is calculated by the calculation agent based on averaging the Portfolio Values reported by the AMEX at the end of particular Portfolio Business Days. See "Description of Securities--Payment at Maturity". The securities listed below are the Portfolio Securities and will be used to calculate the value of the

Portfolio. Holders of the MITTS will not have any right to receive the Portfolio Securities.

The initial Multiplier relating to each Portfolio Security indicates the number of shares of the Portfolio Security, given the market price of the Portfolio Security, required to be included in the calculation of the Starting Portfolio Value so that each Portfolio Security represents an equal percentage of the Starting Portfolio Value. The price of each Portfolio Security used to calculate the initial Multiplier relating to each Portfolio Security was the closing price of the Portfolio Security on the Pricing Date. The respective Multipliers will remain constant for the term of the MITTS Securities unless adjusted for particular corporate events, as described below.

#### Adjustments to the Multiplier and Portfolio

The AMEX will adjust the Multiplier with respect to any Portfolio Security and the Portfolio as follows:

1. If a Portfolio Security is subject to a stock split or reverse stock split, then once the split has become effective, the Multiplier relating to the Portfolio Security will be adjusted to equal the product of the number of shares issued with respect to one share of the Portfolio Security and the prior multiplier.

2. If a Portfolio Security is subject to a stock dividend, issuance of additional shares of the Portfolio Security, that is given equally to all holders of shares of the issuer of that Portfolio Security, then once the dividend has become effective and that Portfolio Security is trading ex-dividend, the Multiplier will be adjusted so that the new Multiplier shall equal the former Multiplier plus the product of the number of shares of that Portfolio Security issued with respect to one share of that Portfolio Security and the prior multiplier.

3. There will be no adjustments to the Multipliers to reflect cash dividends or distributions paid on a Portfolio Security other than for Extraordinary Dividends as described below. A cash dividend with respect to a Portfolio Security will be deemed to be an "Extraordinary Dividend" if that dividend exceeds the immediately preceding non-Extraordinary Dividend for the Portfolio Security by an amount equal to at least 10% of the market price on the Portfolio Business Day preceding the record day for the payment of the Extraordinary Dividend (the "ex-dividend date"). If an Extraordinary Dividend occurs with respect to a Portfolio Security, the Multiplier of the Portfolio Security will be adjusted on the ex-dividend date with respect to that Extraordinary Dividend so that the new Multiplier will equal the product of the then current Multiplier and a fraction, the numerator of which is the sum of the Extraordinary Dividend Amount and the market price on the Trading Day preceding the ex-dividend date, and the denominator of which is the market price on the Trading Day preceding the ex-dividend date. The "Extraordinary Dividend Amount" with respect to an Extraordinary Dividend for a Portfolio Security will equal the Extraordinary Dividend minus the amount of the immediately preceding non-Extraordinary Dividend for that Portfolio Security.

16

4. If the issuer of a Portfolio Security is being liquidated or is subject to a proceeding under any applicable bankruptcy, insolvency or other similar law, the Portfolio Security will continue to be included in the Portfolio so long as a market price for the Portfolio Security is available. If a market price is no longer available for a Portfolio Security for whatever reason, including the liquidation of the issuer of the Portfolio Security or the subjection of the issuer of the Portfolio Security to a proceeding under any applicable bankruptcy, insolvency or other similar law, then the value of that Portfolio Security will equal zero in connection with calculating the Portfolio Value and the Ending Portfolio Value for so long as no market price is available, and no attempt will be made to find a replacement stock or increase the value of the Portfolio to compensate for the deletion of the Portfolio Security.

5. If the issuer of a Portfolio Security has been subject to a merger or consolidation and is not the surviving entity or is nationalized, then a value for that Portfolio Security will be determined at the time the issuer is merged or consolidated or nationalized and will equal the last available market price for the Portfolio Security and that value will be constant for the remaining term of the MITTS Securities. At that time, no adjustment will be made to the Multiplier of the Portfolio Security. ML&Co. may at its sole discretion increase the last available market price to reflect payments or dividends of cash, securities or other consideration to holders of the Portfolio Security in connection with the merger or consolidation which may not be reflected in the last available market price.

6. If the issuer of a Portfolio Security issues to all of its shareholders equity securities that are publicly traded of an issuer other than the issuer of the Portfolio Security, then the new equity securities will be added to the Portfolio as a new Portfolio Security. The Multiplier for the new Portfolio Security will equal the product of the original Multiplier of the Portfolio

Security for which the new Portfolio Security is being issued (the "Original Portfolio Security") and the number of shares of the new Portfolio Security issued with respect to one share of the Original Portfolio Security.

No adjustments of any Multiplier of a Portfolio Security will be required unless the adjustment would require a change of at least 1% in the Multiplier then in effect. The Multiplier resulting from any of the adjustments specified above will be rounded to the nearest one thousandth with five ten-thousandths being rounded upward.

The AMEX expects that no adjustments to the Multiplier of any Portfolio Security or to the Portfolio will be made other than those specified above, however, the AMEX may at its discretion make adjustments to maintain the economic intent of the Portfolio.

A potential investor should review the historical performance of the Portfolio. The historical performance of the Portfolio should not be taken as an indication of future performance, and no assurance can be given that the Portfolio will increase sufficiently to cause the beneficial owners of the MITTS Securities to receive an amount in excess of the principal amount at the maturity of the MITTS Securities.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

17

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

18

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;

19

- . default in the payment of any principal or premium, when due;

- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying final Treasury regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a Supplemental Redemption Amount equal to \$3.8425 per unit. This represents an estimated yield on the MITTS Securities equal to 6.61% per annum (compounded semiannually).

The projected payment schedule (including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is not a prediction of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities (including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.61% per annum (compounded semiannually)) as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on Securities as of End of Accrual Period (per unit) -----
<S>	<C>	<C>
October 30, 1996 through April 30, 1997.....	\$0.3305	\$0.3305
May 1, 1997 through October 31, 1997.....	\$0.3414	\$0.6719
November 1, 1997 through April 30, 1998.....	\$0.3527	\$1.0246
May 1, 1998 through October 31, 1998.....	\$0.3644	\$1.3890
November 1, 1998 through April 30, 1999.....	\$0.3764	\$1.7654
May 1, 1999 through October 31, 1999.....	\$0.3888	\$2.1542
November 1, 1999 through April 30, 2000.....	\$0.4017	\$2.5559
May 1, 2000 through October 31, 2000.....	\$0.4150	\$2.9709
November 1, 2000 through April 30, 2001.....	\$0.4287	\$3.3996
May 1, 2001 through October 31, 2001.....	\$0.4429	\$3.8425

</TABLE>

Projected Supplemental Redemption Amount = \$3.8425 per unit

Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for the information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public

21

reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we

will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

"MITTS(R) Securities"  
\$10 principal amount

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
<CAPTION>

The MITTS Securities:  
<S>

- . 100% principal protection at maturity.
- . No payments before the maturity date.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the S&P 500 Index.
- . The MITTS Securities are listed on the New York Stock Exchange under the symbol "MIM".

Payment at Maturity:  
<C>

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the index, adjusted as described in this prospectus.
- . You will receive no less than the principal amount of the MITTS Securities.

</TABLE>

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

## RISK FACTORS

Your investment in MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 813.65, the value of the index on the date the MITTS Securities were priced. This will be true even if at some time during the life of the MITTS Securities, the value of the index was higher than 813.65 but later falls below 813.65.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

The yield on the MITTS Securities will not reflect the dividends on the stocks included in the index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks because the index does not reflect the payment of dividends on the stocks underlying it.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the NYSE under the symbol "MIM," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect the trading value of the MITTS Securities will likely be affected by changes in interest rates. In general, we

anticipate that if U.S. interest rates increase, the trading value of the MITTS Securities will decrease. If U.S. interest rates decrease, we expect the trading value of the MITTS Securities to increase. Interest rates may also affect the U.S. economy, and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. If the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We believe that before maturity the MITTS Securities may trade at a value above that which may be inferred from the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. As the time remaining to maturity of the MITTS Securities decreases, however, we expect this time premium to decrease, thus decreasing the trading value of the MITTS Securities. In addition, the price at which you may be able to sell MITTS Securities prior to maturity may be at a discount, which may be substantial, from the principal amount of the MITTS Securities if the value of the index is below, equal to, or not sufficiently above 813.65.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend rates on the stocks included in the index increase, we expect the value of the MITTS Securities to decrease. Conversely, if dividend rates on the stocks included in the index decrease, we expect the value of the MITTS Securities to increase. However, in general, rising U.S. corporate dividend rates may increase the value of the index and, in turn, increase the value of the MITTS Securities. Conversely, falling U.S. dividend rates may decrease the value of the index and, in turn, decrease the value of the MITTS Securities.

In general, assuming all relevant factors are held constant, the effect on the trading value of the MITTS Securities of a given change in interest rates, index volatility and/or dividend rates of stocks comprising the index is expected to be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. We expect that the effect on the trading value of the MITTS Securities of a given appreciation of the index value in excess of 813.65 to be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities, assuming all other relevant factors are held constant.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for your benefit, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

The S&P 500 Index

Political, economic and other developments that affect the stocks underlying the index may adversely affect the value of the index and therefore the value of the MITTS Securities.

Potential conflicts

Our wholly-owned subsidiary, Merrill Lynch, Pierce, Fenner & Smith or MLPF&S, or its affiliates may from time to time engage in transactions involving the stocks underlying the index for their proprietary accounts and

4

for other accounts under their management, which may influence the value of those stocks and therefore the value of the MITTS Securities. MLPF&S and its affiliates will also be the counterparties to the hedge of ML&Co.'s obligations under the MITTS Securities. Accordingly, under some circumstances, conflicts of interest may arise between MLPF&S's responsibilities as calculation agent with respect to the MITTS Securities and its obligations under its hedge and its status as a subsidiary of ML&Co. Under some circumstances, the duties of MLPF&S as calculation agent could conflict with the interests of MLPF&S as an affiliate of the issuer of the MITTS Securities, Merrill Lynch & Co., Inc., and with the interests of the holders of the MITTS Securities.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries

and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
						September 29, 2000
	-----					-----
	1995	1996	1997	1998	1999	September 29, 2000
	----	----	----	----	----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On March 14, 1997, ML&Co. issued \$175,000,000 aggregate principal amount of

S&P 500 MITTS Securities due September 16, 2002. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on September 16, 2002.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of that MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Index Value does not exceed the Starting Index Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>

<S>		<C>		<C>
Principal Amount	X	Ending Index Value - Starting Index Value	X	Participation Rate
		-----		
		Starting Index Value		

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Index Value" equals 813.65, which was the closing value of the S&P 500 Index (the "Index") on the date the MITTS Securities were priced by ML&Co. for initial sale to the public (the "Pricing Date").

The "Participation Rate" equals 101%.

The "Ending Index Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five but more than one Calculation Days, then the Ending Index Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days. If there is only one Calculation Day, then the Ending Index Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

For purposes of determining the Ending Index Value, an "Index Business Day" is a day on which the NYSE and the American Stock Exchange are open for trading and the Index or any Successor Index, as defined on page 10 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

The following table illustrates, for a range of hypothetical Ending Index Values:

- . the total amount payable at maturity for each \$10 principal amount of MITTS Securities,

- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.80% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Return	Percentage Change Over the Starting Index Value	Total Amount Payable at Maturity Per \$10 Principal Amount of MITTS Securities	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities (1)	Pretax Annualized Rate of Return of Stocks Underlying Index (1)
406.83	-50%	\$10.00	0.00%	0.00%	-10.43%
488.19	-40%	\$10.00	0.00%	0.00%	-7.30%
569.56	-30%	\$10.00	0.00%	0.00%	-4.60%
650.92	-20%	\$10.00	0.00%	0.00%	-2.23%
732.29	-10%	\$10.00	0.00%	0.00%	-0.12%
813.65(3)	0%	\$10.00	0.00%	0.00%	1.80%
895.02	10%	\$11.01	10.10%	1.76%	3.56%
976.38	20%	\$12.02	20.20%	3.37%	5.18%
1,057.75	30%	\$13.03	30.30%	4.87%	6.69%
1,139.11	40%	\$14.04	40.40%	6.26%	8.10%
1,220.48	50%	\$15.05	50.50%	7.56%	9.41%
1,301.84	60%	\$16.06	60.60%	8.79%	10.66%
1,383.21	70%	\$17.07	70.70%	9.95%	11.83%
1,464.57	80%	\$18.08	80.80%	11.05%	12.95%
1,545.94	90%	\$19.09	90.90%	12.10%	14.01%
1,627.30	100%	\$20.10	101.00%	13.09%	15.02%
1,708.67	110%	\$21.11	111.10%	14.04%	16.00%
1,790.03	120%	\$22.12	121.20%	14.95%	16.83%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes

- . an investment of a fixed amount in the stocks underlying the Index with the allocation of that amount reflecting the current relative weights of the stocks in the Index;
- . a percentage change in the aggregate price of the stocks that equals the percentage change in the Index from the Starting Index Value to the relevant hypothetical Ending Index Value;
- . a constant dividend yield of 1.80% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming the value

9

increases or decreases linearly from the Starting Index Value to the applicable hypothetical Ending Index Value;

- . no transaction fees or expenses;
- . a term for the MITTS Securities from March 14, 1997 to September 16, 2002; and
- . a final Index value equal to the Ending Index Value. The aggregate dividend yield of the stocks included in the Index as of March 10, 1997 was approximately 1.80%.

(3) This is the Starting Index Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had any changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if the changes or modifications had not been made, and calculate the closing

value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, for example, as if a split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

(a) the suspension or material limitation for more than two hours of trading in 100 or more of the securities included in the S&P 500 Index, or

(b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in

- (1) futures contracts related to the Index which are traded on the Chicago Mercantile Exchange or
- (2) option contracts related to the Index which are traded on the Chicago Board Options Exchange, Inc.

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the Index

If S&P discontinues publication of the Index and S&P or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index, any successor or substitute index is referred to as a "Successor Index", then, upon the calculation agent's notification of the determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by S&P or any other entity for the Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

10

If S&P discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If S&P discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Index Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to the values to be made available by telephone.

Despite these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the initial issue price (\$10) per unit and an additional amount of contingent interest calculated as though the date of early repayment were the stated maturity date of the MITTS

Securities. See "- Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 6.75% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

11

## Global Securities

### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, together with any successor thereto, being a "depository", as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also

available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

12

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

13

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in

definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Standard & Poor's publishes the Index. The Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of the common stock of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the Index to achieve the objectives stated above.

The Index does not reflect the payment of dividends on the stocks included in the Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same that you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the Index

Standard & Poor's currently computes the Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the

Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,

- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by Standard & Poor's of particular component stocks in the Index, and
- . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{Old Base Value} \quad \times \quad \frac{\text{New Market Value}}{\text{Old Market Value}} = \text{New Base Value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the Index.

#### License Agreement

Standard & Poor's ("S&P") does not guarantee the accuracy and/or the completeness of the Index or any data included in the Index. S&P makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P Index or any data included in the Index in connection with the rights licensed under the license agreement described in this prospectus or for any other use. S&P makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P Index or any data included in the Index. Without limiting any of the above information, in no event shall S&P have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

S&P and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by S&P in connection with some securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee of Merrill Lynch Capital Services, Inc.

The license agreement between S&P and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public

15

regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the Index to track general stock market performance. S&P's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of S&P and of the Index which is determined, composed and calculated by S&P without regard to ML&Co. or the MITTS Securities. S&P has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the Index. S&P is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

16

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

## Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or

17

- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

## Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the

debt securities of that series; or

- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders

reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying final Treasury regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a Supplemental Redemption Amount equal to \$4.3254 per unit. This represents an estimated yield on the MITTS Securities equal to 6.64% per annum (compounded semiannually).

The projected payment schedule (including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is not a prediction of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities (including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.64% per annum (compounded semiannually)) as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on Securities as of End of Accrual Period (per unit) -----
<S> March 14, 1997 through March 16, 1997.....	<C> \$0.0018	<C> \$0.0018
March 17, 1997 through September 16, 1997.....	\$0.3338	\$0.3356
September 17, 1997 through March 16, 1998.....	\$0.3413	\$0.6769
March 17, 1998 through September 16, 1998.....	\$0.3545	\$1.0314
September 17, 1998 through March 16, 1999.....	\$0.3662	\$1.3976
March 17, 1999 through September 16, 1999.....	\$0.3785	\$1.7761
September 17, 1999 through March 16, 2000.....	\$0.3909	\$2.1670
March 17, 2000 through September 16, 2000.....	\$0.4040	\$2.5710
September 17, 2000 through March 16, 2001.....	\$0.4173	\$2.9883
March 17, 2001 through September 16, 2001.....	\$0.4312	\$3.4195

September 17, 2001 through March 16, 2002.....	\$0.4456	\$3.8651
March 17, 2002 through September 16, 2002.....	\$0.4603	\$4.3254

</TABLE>

Projected Supplemental Redemption Amount = \$4.3254 per unit

Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th/ Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction

where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+The information in this prospectus is not complete and may be changed. We may +  
+not sell these securities until the registration statement filed with the +

Merrill Lynch & Co., Inc.  
Nikkei 225 Market Index Target-Term Securities (R)  
due June 14, 2002  
"MITTS (R) Securities"  
\$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
<CAPTION>

The MITTS Securities:

- <S>
- . 100% principal protection at maturity.
- . No payments before maturity.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the Nikkei Stock Average.
- . The MITTS Securities are listed on the New York Stock Exchange under the symbol "MLN".

Payment at Maturity:

- <C>
- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the product of the percentage change in the value of the index and 140%.
- . You will receive no less than the principal amount of your MITTS Securities.

</TABLE>

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

RISK FACTORS

Your investment in MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment.

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 20,351.34, the value of the index on the date the MITTS Securities were priced. This will be true even if at some time during the life of the MITTS Securities, the value of the index, as adjusted, was higher than 20,351.34 but later falls below 20,351.34.

Your yield may be lower than the yield on a standard debt security of comparable maturity.

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you consider inflation or other factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index.

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks. This is because the value of the index is calculated by reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

Your return will be affected by currency exchange rates.

Although the stocks included in the index are traded in Japanese Yen and the MITTS Securities are denominated in U.S. Dollars, we will not adjust any amounts payable on the MITTS Securities for the currency exchange rate in effect at maturity. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the index. Changes in the exchange rate, however, may reflect changes in the Japanese economy that may affect the value of the index and the MITTS Securities.

Your return may be affected by factors affecting the value of Japanese stocks.

Because the underlying stocks included in the index have been issued by Japanese companies, risks relating to an investment in Japanese equity securities may affect the return on your MITTS Securities. The Japanese securities markets may be more volatile than U.S. or other securities markets and market developments can affect the Japanese markets in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize the Japanese securities markets and cross-shareholdings in Japanese companies on those markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about Japanese companies than about those U.S. companies that are subject to the reporting requirements of the U.S. Securities and Exchange Commission, and Japanese companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in Japan are subject to political, economic, financial and social factors that apply in Japan. In addition, recent or future changes in the Japanese government's economic and fiscal policies, the

3

possible imposition of, or changes in, currency exchange laws or other Japanese laws or restrictions applicable to Japanese companies or investments in Japanese equity securities and fluctuations in the rate of exchange between currencies may negatively affect the Japanese securities markets. Moreover, the Japanese economy may differ favorably or unfavorably from the U.S. economy in economic factors such as growth in gross national product, rates of inflation, capital reinvestment, resources and self-sufficiency.

There may be an uncertain trading market for the MITTS Securities in the future.

Although the MITTS Securities are listed on the NYSE under the symbol "MLN," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor.

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following

paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the index exceeds 20,351.34. If you choose to sell your MITTS Securities when the value of the Index exceeds 20,351.34, you may receive substantially less than the amount that would be payable at maturity based on that index value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index over five trading days is determined. If you choose to sell your MITTS Securities when the value of the index is below 20,351.34, you may receive less than the \$10 principal amount per Unit of MITTS Securities. In general, rising Japanese dividend rates, or dividends per share, may increase the value of the index while falling Japanese dividend rates may decrease the value of the Index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of the MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. In general, if interest rates in Japan increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in Japan decrease, we expect the trading value of the MITTS Securities will decrease. However, interest rates in Japan may also affect the Japanese economy and, in turn, the value of the index. Rising interest rates in Japan may lower the value of the Index and the MITTS Securities. Falling interest rates in Japan may increase the value of the Index and the value of the MITTS Securities.

4

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the Index increases, we expect that the trading value of the Securities will increase. If the volatility of the Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that prior to the maturity of the MITTS Securities, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks comprising the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stocks comprising the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities except that we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law.

New York State laws govern the indenture under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per

annum on a simple interest basis. This limit may not apply to debt securities in which 2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that chargeable to and payable by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return.

We, MLPF&S, and our affiliates may from time to time buy or sell the stocks underlying the index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

5

Potential conflicts of interest

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities-- Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

6

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information

We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

7

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

DESCRIPTION OF THE MITTS SECURITIES

On June 3, 1997, ML&Co., Inc. issued an aggregate principal amount of \$255,000,000 or 25,500,000 units of the MITTS Securities.

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on June 14, 2002.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

ML&Co., or any beneficial owner, may not redeem the MITTS Securities before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>

<S>	<C>	<C>
Principal Amount of each MITTS Security (\$10 per Unit) X	Ending Index Value - Starting Index Value	X
Participation Rate	Starting Index Value	

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Index Value" equals 20,351.34, the closing value of the Index on the Pricing Date.

The "Ending Index Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index (the "Index") determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Participation Rate" equals 140%.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

9

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Index or any Successor Index, as defined on page 12 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

10

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values:

- . the percentage change from the Starting Index Value to the Ending Index Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of .75% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Annualized Return	Percentage Change Over the Starting Index Value	Total Amount Payable at Maturity	Total Rate of Return on the MITTS Securities	Pretax	Pretax
		Per \$10 Principal Amount of MITTS Securities		Annualized Rate of Return on the MITTS Securities(1)	Rate of of Stocks Underlying Index(1)
<S>	<C>	<C>	<C>	<C>	<C>
8,140.54	-60%	\$10.00	0.00%	0.00%	-17.13%
10,175.67	-50%	\$10.00	0.00%	0.00%	-12.86%
12,210.80	-40%	\$10.00	0.00%	0.00%	-9.33%
14,245.94	-30%	\$10.00	0.00%	0.00%	-6.32%
16,281.07	-20%	\$10.00	0.00%	0.00%	-3.69%
18,316.21	-10%	\$10.00	0.00%	0.00%	-1.35%
20,351.34(3)	0%	\$10.00	0.00%	0.00%	0.75%
22,386.47	10%	\$11.40	14.00%	2.62%	2.66%
24,421.61	20%	\$12.80	28.00%	4.97%	4.42%

26,456.74	30%	\$14.20	42.00%	7.09%	6.04%
28,491.88	40%	\$15.60	56.00%	9.04%	7.55%
30,527.01	50%	\$17.00	70.00%	10.83%	8.96%
32,562.14	60%	\$18.40	84.00%	12.50%	10.29%
34,597.28	70%	\$19.80	98.00%	14.05%	11.54%
36,632.41	80%	\$21.20	112.00%	15.51%	12.72%
38,667.55	90%	\$22.60	126.00%	16.88%	13.84%
40,702.68	100%	\$24.00	140.00%	18.18%	14.91%
42,737.81	110%	\$25.40	154.00%	19.42%	15.92%
44,772.95	120%	\$26.80	168.00%	20.59%	16.90%
46,808.08	130%	\$28.20	182.00%	21.71%	17.83%

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
- an investment of a fixed amount in the stocks underlying the Index with the allocation of an amount reflecting the current relative weights of the stocks in the Index; a constant dividend yield of .75% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the hypothetical Ending Index Value;
  - a percentage change in the aggregate price of these stocks that equals the percentage change in the Index from 20,351.34 to the relevant hypothetical Ending Index Value;
- 11
- no transaction fees or expenses;
  - the term of the MITTS Securities is from June 3, 1997 to June 14, 2002;
  - a final Index value equal to the Ending Index Value. The aggregate dividend yield of the stocks underlying the Index as of May 28, 1997 was approximately .75%.
- (3) The Starting Index Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- a suspension, material limitation or absence of trading on the Tokyo Stock Exchange (the "TSE") of 20% or more of the underlying stocks included in the Index or a Successor Index during the one-half hour period preceding the close of trading on the applicable exchange; or
- the suspension or material limitation on the Singapore International Monetary Exchange, Ltd. (the "SIMEX"), the Osaka Securities Exchange (the "OSE") or any other major futures or securities market from trading in futures or options contracts related to the Index or a Successor Index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- . a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange,
- . a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a Market Disruption Event,
- . a suspension in trading in a futures or options contracts on the Index by a major securities market by reason of
  - . a price change violating limits set by that securities market,
  - . an imbalance of orders relating to futures or options contracts, or
  - . a disparity in bid and ask quotes relating to futures or options contracts will constitute a suspension or

material limitation of trading in futures or options contracts related to the Index, and,

. an absence of trading on the TSE will not include any time when the TSE is closed for trading under ordinary circumstances. In some circumstances, the duties of MLPF&S as calculation agent in determining the existence of Market Disruption Events could conflict with the interests of MLPF&S as an affiliate of the issuer of the MITTS Securities.

12

#### Discontinuance of the Index

If the publisher of the Nikkei 225 Index, Nihon Keizai Shimbun, Inc. ("NKS"), discontinues publication of the Index and NKS or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (any successor or substitute index is referred to as a "Successor Index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by NKS or other entity for the Index and calculate the Ending Value as described above under "-Payment at Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice of that selection to be given to holders of the MITTS Securities.

If NKS discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for a Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index prior to the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Calculation Day" shall mean any day on which the calculation agent is able to calculate that value.

If NKS discontinues publication of the Index prior to the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of

- . the determination of the Ending Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of these values to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

If an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "-Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners of the MITTS Securities, at the rate of 6.96% per annum, to the extent that payment of

13

any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date

payment of any amount has been made or duly provided for.

## Global Securities

### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, DTC, together with any successor, being a "depository", as depository, registered in the name of Cede & Co., DTC's partnership nominee, unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, the global security is not transferrable except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as appropriate, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Arrangements among participants, indirect participants and beneficial owners, will govern conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners, subject to any statutory or regulatory requirements in effect from time to time.

### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for

physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct

participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Arrangements among participants, indirect participants and beneficial owners, will govern conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners, subject to any statutory or regulatory requirements in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", will govern payments by participants to beneficial owners, and these payments will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,

15

- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

DTC will exchange the global securities for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. The depository expects that these instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered to holders.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

16

## THE INDEX

All disclosure contained in this prospectus regarding the Index, including, without limitation, its make-up, method of calculation and changes in its components, is derived from publicly available information prepared by Nihon Keizai Shimbun, Inc. ("NKS").

Unless otherwise stated, all information in this prospectus relating to the Nikkei 225 Index has been derived from the Stock Market Indices Data Book published by NKS and other publicly-available sources. This information reflects the policies of NKS as stated in these sources. These policies are subject to change at the discretion of NKS.

The Nikkei 225 Index is a stock index calculated, published and disseminated by NKS that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 Underlying Stocks trading on the TSE and represents a broad cross-section of Japanese industry. All 225 Underlying Stocks are stocks listed in the First Section of the TSE. Stocks listed in the First Section are among the most actively traded stocks on the TSE. Futures and options contracts on the Nikkei 225 Index are traded on the Singapore International Monetary Exchange Ltd., the Osaka Securities Exchange and the Chicago Mercantile Exchange.

The value of the Nikkei 225 Index is reported on the AMEX under the symbol "N225", on Bloomberg under the symbol "NKY" and on Reuters under the symbol ".N225".

The Nikkei 225 Index is a modified, price-weighted index (i.e., an Underlying Stock's weight in the index is based on its price per share rather than the total market capitalization of the issuer) which is calculated by:

- . multiplying the per share price of each Underlying Stock by the corresponding weighting factor for the Underlying Stock (a "Weight Factor"),
- . calculating the sum of all these products, and
- . dividing this sum by a divisor.

Each Weight Factor is computed by dividing (Yen)50 by the par value of the relevant Underlying Stock, so that the share price of each Underlying Stock when multiplied by its Weight Factor corresponds to a share price based on a uniform par value of (Yen)50. Each Weight Factor represents the number of shares of the related Underlying Stock which are included in one trading unit of the Nikkei 225 Index. The stock prices used in the calculation of the Nikkei 225 Index are those reported by a primary market for the Underlying Stocks, currently the TSE. The level of the Nikkei 225 Index is calculated once per minute during TSE trading hours.

The divisor was initially set in 1949 at 225. In order to maintain continuity in the level of the Nikkei 225 Index in the event of certain changes due to non-market factors affecting the Underlying Stocks, including the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the Nikkei 225 Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the Nikkei 225 Index. Thereafter, the divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each change affecting any Underlying Stock, the divisor is adjusted so that the sum of all share prices immediately after the change multiplied by the applicable Weight Factor and divided by the new divisor, the level of the Nikkei 225 Index immediately after the change, will equal the level of the Nikkei 225 Index immediately prior to the change. The current divisor is reported on Bloomberg under the symbol "NKY".

NKS may delete or add Underlying Stocks. However, to maintain continuity in the Nikkei 225 Index, the policy of NKS is generally not to alter the composition of the Underlying Stocks except when an

Underlying Stock is deleted in accordance with the following criteria. NKS will delete from the Underlying Stocks any stock becoming ineligible for listing in the First Section of the TSE due to any of the following reasons: bankruptcy of the issuer; merger of the issuer into, or acquisition of the issuer by, another company; delisting of the stock or transfer of the stock to the "Seiri-Post" because of excess debt of the issuer or because of any other reason; or transfer of the stock to the Second Section of the TSE. Upon deletion of a stock from the Underlying Stocks, NKS will select, in accordance with certain criteria established by it, a replacement for the deleted Underlying Stock. In an exceptional case, NKS may add to the Underlying Stocks a newly listed stock in the First Section of the TSE that is recognized by NKS to be representative of a market. In that case, NKS will delete an existing Underlying Stock with low trading volume that is not representative of a market.

NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225 Index. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus that NKS makes any representation or warranty, implied or express, to Merrill Lynch & Co., the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 Index to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225 Index. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

The use of and reference to the Nikkei 225 Index in connection with the MITTS Securities have been consented to by NKS, the publisher of the Nikkei 225 Index.

None of ML&Co., the calculation agent and the underwriter accepts any responsibility for the calculation, maintenance or publication of the Nikkei 225 Index or any Successor Index. NKS disclaims all responsibility for any errors or omissions in the calculation and dissemination of the Nikkei 225 Index or the manner in which the Index is applied in determining any Starting or Ending Index Values or any Supplemental Redemption Amount upon maturity of the MITTS Securities.

The Tokyo Stock Exchange

The Tokyo Stock Exchange is one of the world's largest securities exchanges in terms of market capitalization. The TSE market is a two-way, continuous pure auction market. Trading hours are currently from 9:00 A.M. to 11:00 A.M. and from 12:30 P.M. to 3:00 P.M., Tokyo time, Monday through Friday.

Due to the time zone difference, on any normal trading day the TSE will close prior to the opening of business in New York City on the same calendar day. Therefore, the closing level of the Nikkei 225 Index on a trading day will generally be available in the United States by the opening of business on the same calendar day.

The TSE has adopted certain measures, including daily price floors and ceilings on individual stocks, intended to prevent any extreme short-term price fluctuations resulting from order imbalances. In general, any stock listed on the TSE cannot be traded at a price lower than the applicable price floor or higher than the applicable price ceiling. These price floors and ceilings are expressed in absolute Japanese yen, rather than percentage, limits based on the closing price of the stock on the previous trading day. In addition, when there is a major order imbalance in a listed stock, the TSE posts a "special bid quote" or a "special asked quote" for that stock at a specified higher or lower price level than the stock's last sale price in order to solicit counter-orders and balance supply and demand for the stock. Investors should also be aware that the TSE may suspend the trading of individual stocks in certain limited and extraordinary circumstances, including, for example, unusual trading activity in that stock. As a result, changes in the Nikkei 225 Index may be limited by

18

price limitations or special quotes, or by suspension of trading, on individual stocks which comprise the Nikkei 225 Index. These limitations may, in turn, adversely affect the value of the MITTS Securities.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

#### 19

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;

- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or

20

- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or

exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying final Treasury regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a Supplemental Redemption Amount equal to \$4.1078 per Unit. This represents an estimated yield on the MITTS Securities equal to 6.96% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, for purposes of applying the Final Regulations to the MITTS Securities, and is not a prediction of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each Unit of the MITTS Securities during each accrual period over the term of the Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.96% per annum, compounded semiannually, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per Unit) -----	Total Interest Deemed to Have Accrued on MITTS Securities as of End of Accrual Period (per Unit) -----
<S>	<C>	<C>
June 3, 1997 through June 14, 1997.....	\$0.0206	\$0.0206
June 15, 1997 through December 14, 1997.....	\$0.3506	\$0.3712
December 15, 1997 through June 14, 1998.....	\$0.3590	\$0.7302
June 15, 1998 through December 14, 1998.....	\$0.3734	\$1.1036
December 15, 1998 through June 14, 1999.....	\$0.3864	\$1.4900
June 15, 1999 through December 14, 1999.....	\$0.3999	\$1.8899
December 15, 1999 through June 14, 2000.....	\$0.4138	\$2.3037
June 15, 2000 through December 14, 2000.....	\$0.4281	\$2.7318
June 15, 2001 through December 14, 2001.....	\$0.4585	\$3.6334
December 15, 2001 through June 14, 2002.....	\$0.4744	\$4.1078

</TABLE>

Projected Supplemental Redemption Amount = \$4.1078 per Unit.

Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Attn: Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago,

Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and

23

- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the

## EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

RISK FACTORS

Your investment in MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment.

You should be aware that we will pay you no more than \$10 per unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity is less than 100. This will be true even if at some time during the life of the MITTS Securities, the value of the index, as adjusted, was higher than 100 but later falls below 100.

Your yield may be lower than the yield on a standard debt security of comparable maturity.

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc with the same maturity date. Your investment may not reflect the full opportunity cost to you when you consider the effect of factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index.

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks. This is because, except as described below in the immediately succeeding paragraph, the value of the index is calculated with reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

Your return will not reflect the payment of dividends.

The index is calculated with reference to the sub-indices which reflect the prices of the common stocks comprising the sub-indices without taking into consideration the value of dividends paid on those stocks, except in the case of the Deutscher Aktienindex sub-index which reflects dividends paid on its underlying common stocks. Therefore, the return you earn on the MITTS Securities, if any, will not be the same as the return that you would earn if you actually owned each of the common stocks underlying each sub-index and received the dividends paid on those stocks.

Your return will be affected by changes in currency exchange rates.

Although the stocks included in the sub-indices are traded in currencies other than U.S. dollars and the MITTS Securities are denominated in U.S. dollars, we will not adjust any amounts payable on the MITTS Securities for currency exchange rates in effect at the maturity of the MITTS Securities. Any

amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the index. Changes in exchange rates, however, may reflect changes in the relevant European economies that may affect the value of the sub-indices, and the MITTS Securities.

Changes in European securities markets will affect your return.

Companies listed on European exchanges issued the underlying stocks that constitute the sub-indices. You should be aware that investments in securities indexed to the value of the European equity securities involve certain risks. The European securities markets may be more volatile than U.S. or other securities markets and market developments may affect these markets in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize a particular European securities market and cross-shareholdings in European companies on these markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about European companies than about those U.S. companies that are subject to the

3

reporting requirements of the SEC and European companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Political, economic, financial and social factors in Europe may affect securities prices in Europe. These factors, including the possibility that recent or future changes in a European country's government, economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other laws or restrictions applicable to European companies or investments in European equity securities and the possibility of fluctuations in the rate of exchange between currencies, could negatively affect the European securities markets. Moreover, the relevant European economies may differ favorably or unfavorably from the U.S. economy in areas of growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency.

There may be an uncertain trading market for the MITTS Securities in the future.

Although the MITTS Securities are listed on the NYSE under the symbol "MEM," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor.

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the value of the index exceeds 100. If you choose to sell your MITTS Securities when the value of the index exceeds 100 you may receive substantially less than the amount that would be payable at maturity based on that index value because of the expectation that the index will continue to fluctuate until the ending index value is determined. If you choose to sell your MITTS Securities when the value of the index is below 100, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising dividend rates, or dividends per share in the European countries related to the common stocks underlying the sub-indices, each an "applicable European country", may increase the value of the index while falling dividend rates in the applicable European countries may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading

value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of the MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. In general, if interest rates in the applicable European countries increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in the applicable European countries decrease, we expect the trading value of the MITTS Securities will decrease. However, interest rates in the applicable European countries may also affect the relevant economies and, in turn, the value of the index. Rising interest rates in the applicable European countries may lower the value of the index and the MITTS Securities. Falling interest rates in the applicable European countries may increase the value of the index and the value of the MITTS Securities.

4

Changes in volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that prior to the maturity of the MITTS Securities, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks comprising the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stocks comprising the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities except that we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law.

New York State laws govern the indenture under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest chargeable to and payable by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return.

We and our affiliates may from time to time buy or sell the stocks underlying the index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interest.

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to

5

whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our a subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

6

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended September 29, 2000
	1995	1996	1997	1998	1999	
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On July 28, 1997, ML&Co. issued an aggregate principal amount of \$72,000,000 or 7,200,000 units of the MITTS Securities.

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described below.

The MITTS Securities will mature on August 30, 2002.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, we will make no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner prior to maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

	<C>	<C>
Principal Amount of each Security (\$10 per unit) Participation Rate	X	Ending Index Value-Starting Index Value ----- Starting Index Value

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Participation Rate" equals 110%.

The "Starting Index Value" equals 100.

The "Ending Index Value" will be determined by the calculation agent and will equal the average, or the arithmetic mean, of the closing values of the Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Index Value will equal the average, or the arithmetic mean, of the closing values of the Index on the Calculation Days, and if there is only one Calculation Day, then the Ending Index Value will equal the closing value of the

Index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrences of a Market Disruption Event on that day.

9

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which The New York Stock Exchange and the AMEX are open for trading and the Index or any Successor Index, as defined below, is calculated and published. All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

10

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values:

- . the percentage change from the Starting Index Value to the Ending Index Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of 2.33% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Annualized Hypothetical Ending the Index Value	Percentage Change Over the Starting Index Value	Total Amount Payable at Maturity per \$10 Principal Amount of MITTS Securities	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities (1)	Pretax Rate of Return of Stocks Underlying Index (1) (2)
<S>	<C>	<C>	<C>	<C>	<C>
40	-60%	\$10.00	0.00%	0.00%	-15.28%
50	-50%	\$10.00	0.00%	0.00%	-11.10%
60	-40%	\$10.00	0.00%	0.00%	-7.64%
70	-30%	\$10.00	0.00%	0.00%	-4.68%
80	-20%	\$10.00	0.00%	0.00%	-2.09%
90	-10%	\$10.00	0.00%	0.00%	0.21%
100 (3)	0%	\$10.00	0.00%	0.00%	2.29%
110	10%	\$11.10	11.00%	2.06%	4.18%
120	20%	\$12.20	22.00%	3.95%	5.92%
130	30%	\$13.30	33.00%	5.69%	7.53%
140	40%	\$14.40	44.00%	7.31%	9.03%
150	50%	\$15.50	55.00%	8.81%	10.43%
160	60%	\$16.60	66.00%	10.23%	11.75%
170	70%	\$17.70	77.00%	11.56%	12.99%
180	80%	\$18.80	88.00%	12.82%	14.17%
190	90%	\$19.90	99.00%	14.01%	15.28%
200	100%	\$21.00	110.00%	15.14%	16.35%
210	110%	\$22.10	121.00%	16.23%	17.36%
220	120%	\$23.20	132.00%	17.26%	18.34%
230	130%	\$24.30	143.00%	18.26%	19.27%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:

- (a) an investment of a fixed amount in the stocks underlying the Sub-Indices with the allocation of that amount reflecting the current

- relative weights of the stocks in the Sub-Indices;
- (b) a percentage change in the aggregate price of the stocks that equals the percentage change in the Index from the Starting Index Value to the relevant hypothetical Ending Index Value;
- (c) a constant dividend yield of 2.33% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter, assuming that value increases or decreases linearly from the Starting Value to the hypothetical Ending Value;
- (d) no transaction fees or expenses;
- (e) the term of the MITTS Securities is from August 1, 1997 to August 30, 2002; and
- (f) a final Index Value equal to the hypothetical Ending Index Value. A final Index Value equal to the Ending Index Value. The aggregate dividend yield of the stocks underlying the Sub-Indices as of July 28, 1997 was approximately 2.33%.

(3) The Starting Index Value of the Index.

11

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the total and pretax annualized rate of return resulting therefrom will depend entirely on the actual Ending Index Value determined by the calculation agent as provided herein.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had the changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if the changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified for example, as if the split had not occurred.

"Market Disruption Event" means the occurrence or existence on any Overseas Index Business Day with respect to a Sub-Index during the one-half hour period that ends at the regular official weekday time at which trading on the Index Exchange related to that Sub-Index occurs of any suspension of, or limitation imposed on, trading, by reason of movements in price exceeding limits permitted by the relevant exchange or otherwise, on

- . the Index Exchange in securities that comprise 20% or more of the value of that Sub-Index, or
- . any exchanges on which futures or options on that Sub-Index are traded in options or futures if, in the determination of the calculation agent, the suspension or limitation is material. For the purpose of the foregoing definition:
  - . a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular hours of the relevant exchange, and
  - . a limitation on trading imposed during the course of a day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange will constitute a Market Disruption Event.

"Overseas Index Business Day" means, with respect to any sub-index, any day that is, or, but for the occurrence of a Market Disruption Event, would have been, a trading day on the relevant Index Exchange or on any exchanges on which futures or options on that Sub-Index are traded, other than a day on which trading on any relevant exchange is scheduled to close prior to its regular weekday closing time.

"Index Exchange" means, with respect to any Sub-Index, the principal exchange on which the shares comprising that Sub-Index are traded.

#### Discontinuance of the Index

If the AMEX discontinues publication of the Index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index, referred to

in this prospectus as a "Successor Index", then, upon the calculation agent's notification of that determination to the Trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by AMEX or another entity for the Index and calculate the Ending Value as described above under "- Payment at Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

12

If the AMEX discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, that Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Calculation Day" shall mean any day on which the calculation agent is able to calculate a substitute value.

If the AMEX discontinues publication of the Index prior to the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of

- . the determination of the Ending Index Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for the values to be made available by telephone.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "- Payment at Maturity" in this prospectus. A bankruptcy proceeding commenced in respect of ML&Co. may limit the claim of the beneficial owner of a MITTS Security, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 6.32% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, the depository cannot transfer any global security except as

13

a whole to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as appropriate, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Arrangements among participants, indirect participants and beneficial owners will govern conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the

name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Arrangements among participants, indirect participants and beneficial owners will govern conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and

indirect participants to beneficial owners, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

DTC will make principal, premium, if any, and/or interest, if any, payments on the MITTS Securities in funds immediately available to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", will govern payments by participants to beneficial owners, and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

DTC will exchange the global securities for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The depository shall instruct the Trustee as to the names in which it is to register the definitive MITTS Securities. DTC expects that these instructions to be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

15

#### THE INDEX

The value of the Index on any Index Business Day is calculated and disseminated by the AMEX. The AMEX generally calculates and disseminates the value of the Index based on the most recently reported values of the Sub-Indices, at approximately 15-second intervals during the AMEX's business hours and the end of each Index Business Day via the Consolidated Tape Association's Network B. The value of the Index is reported on the AMEX and Bloomberg under the symbol "EMX" and on Reuters under the symbol "EMX".

#### Determination of Index Multiplier for each Sub-Index

The initial weighting of each Sub-Index was determined at the close of business on the date the MITTS Securities were priced for initial sale to the public, or the "Pricing Date", based on its relative market capitalization. The market capitalization of a stock equals the product of the total number of shares of stock outstanding and the price of a share of stock. The total market capitalization of the stocks comprising each Sub-Index was determined using the most recently available information concerning the number of shares outstanding for each stock contained in a Sub-Index and the most recently available price

for each share. Current exchange rates were used to translate market capitalization information into U.S. dollars. The market capitalizations expressed in U.S. dollars of each Sub-Index were totaled, or the "Total Market Capitalization". The weighting of each Sub-Index was then determined and equals the percentage of the market capitalization for each Sub-Index relative to the Total Market Capitalization. The Index Multiplier for each Sub-Index was then calculated and equals

- . the weighting for that Sub-Index multiplied by 100, divided by
- . the most recently available value of that Sub-Index. The Index Multipliers were calculated in this way so that the Index would equal 100.00 on the Pricing Date.

The Index Multiplier for each Sub-Index will remain fixed, except that the AMEX may adjust the Index Multiplier in the event of a significant change in how a Sub-Index is calculated. The Index will not be rebalanced periodically to reflect changes in the relative market capitalizations of the Sub-Indices.

#### Computation of the Index

The Index is calculated by totaling the products of the most recently available value of each Sub-Index and the Index Multiplier applicable to that Sub-Index. Since the Sub-Indices are based on stocks traded on stock exchanges in Europe, once these stock exchanges close and the values of the Sub-Indices become fixed until these stock exchanges reopen, the value of the Index will be fixed.

#### Sub-Indices

The following is a list of the Sub-Indices and certain information concerning each Sub-Index. All disclosure contained in this prospectus regarding the Sub-Indices is derived from publicly available information.

##### Financial Times 100 Index--"FTSE 100"

Description of FTSE 100: The FTSE 100 is intended to provide an indication of the pattern of common stock price movement of the 100 common stocks with the largest market capitalization on the London Stock Exchange.

Publisher: FTSE International Limited

Required Disclosure: The FTSE is a registered trademark of the London Stock Exchange Limited and the Financial Times Limited.

16

##### Deutscher Aktienindex--"DAX(R) "

Description of DAX: The DAX is a total rate of return index measuring the performance of 30 common stocks on the Frankfurt Stock Exchange selected on the basis of their market capitalization and trading volume. A total rate of return index reflects both the price performance of the relevant common stocks as well as the dividends paid on these common stocks.

Publisher: Deutsche Borse AG

"DAX is a registered trademark of Deutsche Borse AG.

##### Compagnie des Agents de Change 40 Index--"CAC 40"

Description of CAC 40: The CAC 40 is intended to provide an indication of the pattern of common stock price movement of the 40 common stocks with the largest market capitalization on the Paris Bourse.

Publisher: SBF-Paris Bourse

Required Disclosure: "CAC 40" is a registered trademark of the Societe des Bourses Francaises-Paris Bourse, which designates the index that the SBF-Paris Bourse calculates and publishes. Authorization to use the index and the "CAC 40" trademark in connection with the MITTS Securities has been granted by license.

The SBF-Paris Bourse, owner of the trademark and of the index, does not sponsor, endorse or participate in the marketing of the MITTS Securities. The SBF-Paris Bourse makes no warranty or representation to any person, express or implied, as to the figure at which the said index stands at any particular time, nor as to the results or performance of the MITTS Securities. Neither shall the SBF-Paris Bourse be under any obligation to advise any person of any error in the published level of the index.

##### Swiss Market Index--"SMI"

Description of SMI: The SMI is intended to provide an indication of the pattern of common stock price movement of common stocks with the largest

market capitalization and greatest liquidity on the Geneva, Zurich and Basle Stock Exchanges.

Publisher: Swiss Exchange SWX

Required Disclosure: These MITTS Securities are not in any way sponsored, endorsed, sold or promoted by the Swiss Exchange SWX and the Swiss Exchange SWX makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the SMI index (the "Index") and/or the figure at which the said Index stands at any particular time on any particular day or otherwise. The Index is compiled and calculated solely by the Swiss Exchange SWX. However, the Swiss Exchange SWX shall not be liable (whether in negligence or otherwise) to any person for any error in the Index and the Swiss Exchange SWX shall not be under any obligation to advise any person of any error therein.

SMI(R) is a registered trademark of the Swiss Exchange SWX.

Amsterdam Exchanges-index(R)--"AEX-index"

Description of AEX: The AEX is intended to provide an indication of the pattern of common stock price movement of the 25 common stocks with the largest market capitalization on the Amsterdam Stock Exchange.

Publisher: AEX-Optiebeurs nv

17

Required Disclosure: "The AEX-index is a registered trademark of ASX Operations Pty Limited ("ASXO"), a wholly owned subsidiary of the Australian Stock Exchange Limited. ASXO has granted a license for the use of the index on the basis that ASXO does not expressly or impliedly approve, endorse, make any judgement or express any opinion in respect of the MITTS Securities or any Index Products issued by the Licensee".

Milano Italia Borsa 30 Index--"MIB 30"

Description of MIB 30: The MIB 30 is intended to provide an indication of the pattern of common stock price movement of common stocks with the largest market capitalization and greatest liquidity on the Italian Stock Exchange.

Publisher: Borsa Italiana S.p.A.

Stockholm Exchange Index--"OMX index"

Description of OMX index: The OMX index is intended to provide an indication of the pattern of common stock price movement of the 30 common stocks with the largest volume of trading on the Stockholm Stock Exchange.

Publisher: OM Gruppen AB

Required Disclosure: The MITTS Securities are not in any way sponsored, endorsed, sold or promoted by OM Gruppen AB or OM and OM makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the OMX index and/or the figure at which the said OMX index stands at any particular time on any particular day or otherwise. The OMX index is compiled and calculated solely by an indexer on behalf of OM. However, OM shall not be liable whether in negligence or otherwise to any person for any error in the OMX index and OM shall not be under any obligation to advise any person of any error in the OMX index.

All rights to the trademark OMX, OMX INDEX are vested in OM Gruppen AB and are used under a license agreement with OM.

IBEX 35 Index--"IBEX 35"

Description of IBEX 35: The IBEX 35 is intended to provide an indication of the pattern of common stock price movement of the 35 common stocks with the greatest liquidity continuously traded and quoted on the Joint Stock Exchange System made up of the Barcelona, Bilbao, Madrid and Valencia stock exchanges.

Publisher: Sociedad de Bolsas, S.A.

Required Disclosure: Sociedad de Bolsas, S.A. does not warrant in any case nor for any reason whatsoever:

- (a) the continuity of the composition of the IBEX 35 exactly as it is today;
- (b) the continuity of the method for calculating the IBEX 35 exactly as it is calculated today;
- (c) the continuity of the calculation, formula and publication of the IBEX

- (d) the precision, integrity or freedom from errors or mistakes in the composition and calculation of the IBEX 35; and
- (e) the adequacy of the IBEX 35 for the purposes expected in the issue of the MITTS Securities nor for dealing in the same.

The publisher of each Sub-Index will add or delete stocks due to events such as the bankruptcy or merger of the issuer of a stock. The publisher of a Sub-Index may reevaluate the composition of the stocks underlying the Sub-Index at specified intervals to assure that they still meet the selection criteria or any ongoing eligibility criteria.

The publisher of a Sub-Index is under no obligation to continue the calculation and dissemination of that Sub-Index and the publisher may change the method by which that Sub-Index is calculated. The publishers of the Sub-Indices are under no obligation to take the needs of ML&Co. or the holders of the MITTS into consideration in determining, composing or calculating the Sub-Indices.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or

20

- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;

- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders

21

reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount a projected Supplemental Redemption Amount equal to \$3.7137 per unit. This represents an estimated yield on the MITTS Securities equal to 6.32% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over an assumed term of five years and one month for the MITTS

Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.32% per annum, compounded semiannually, as determined by ML&Co. for purposes of application of the Final Regulations to the MITTS Securities:

March 1, 2001 through August 30, 2001.....	\$0.3945	\$2.8870
August 31, 2001 through February 28, 2002.....	\$0.4069	\$3.2939
March 1, 2002 through August 30, 2002.....	\$0.4198	\$3.7137

</TABLE>

Projected Supplemental Redemption Amount = \$3.7137 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;

- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

24

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of

1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Merrill Lynch & Co., Inc.  
S&P 500 Inflation Adjusted  
Market Index Target-Term Securities(R)  
due September 24, 2007  
"MITTS(R) Securities"  
\$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
<CAPTION>  
<S>

<C>  
Payment at Maturity:

The MITTS Securities:

- . 100% principal protection at maturity.
- . No payments before the maturity date.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the S&P 500 Index.
- . The MITTS Securities are listed on the New York Stock Exchange under the trading symbol "IEM".

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount of
  - . the principal amount of each unit, adjusted by the CPI, and
  - . an additional amount based on the percentage increase, if any, in the value of the S&P 500 Index, adjusted as described in this prospectus.
- . You will receive no less than the principal amount of the MITTS Securities and the additional amount you receive, if any, will not exceed \$10.

</TABLE>

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

RISK FACTORS

Your investment in MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than the principal amount, as adjusted, for each unit of the MITTS Securities you own if the average value of the S&P 500 Index over five trading days shortly before the maturity date is less than 1089.38. This will be true even if the value of the S&P 500 Index was higher than 1089.38 at some time during the life of the MITTS Securities but later falls below 1089.38.

You will not receive an amount in addition to the principal amount, as adjusted, that exceeds \$10 per unit regardless of how much the S&P 500 Index increases. If the S&P 500 Index reaches a value of 2178.76, you will receive an additional amount of \$10. Since \$10 is the maximum additional amount we will pay, you will not receive any incremental benefit from increases beyond that value. If we pay you the maximum additional amount of \$10 per unit, this will represent a maximum annualized rate of return of 7.05% compounded semi-annually over a term of ten years. This limitation does not apply to the principal amount, as adjusted, which is dependent on changes in the Consumer Price Index or CPI.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you consider the effect of factors that affect the time value of money.

Your return will not reflect the payment of dividends on the stocks included in the S&P 500 Index

S&P calculates the S&P 500 Index by reference to the prices of the common stocks comprising the S&P 500 Index without taking into consideration the value of dividends paid on those stocks. Therefore, the return you earn on the MITTS Securities, if any, will not be the same as the return that you would earn if you actually owned each of the common stocks in the S&P 500 Index and received the dividends paid on those stocks.

Many factors may affect the value of the Consumer Price Index

Changes in the CPI will affect the principal amount, as adjusted, that we will pay you at maturity. The changes may be significant. Changes in the CPI are a function of the changes in specified consumer prices over time, which result from the interaction of many factors over which ML&Co. has no control.

In the past, the CPI has experienced periods of volatility and this volatility may occur in the future. Fluctuations and trends in the CPI that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur in the future.

As a result of any change of calculating the CPI, the principal amount, as adjusted, payable on the MITTS Securities, and therefore the value of the MITTS Securities could be significantly reduced. If the CPI is substantially altered, the calculation agent may employ a substitute index to calculate the principal amount, as adjusted, as described under "Description of MITTS Securities-- Payment at Maturity".

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the NYSE under the symbol "IEM," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the S&P 500 Index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the S&P 500 Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the S&P 500 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the S&P 500 Index exceeds 1089.38. If you choose to sell your MITTS Securities when the value of the S&P 500 Index exceeds 1089.38, you may receive substantially less than the amount that would be payable at maturity based on that S&P 500 Index value because of the expectation that the S&P 500 Index will continue to fluctuate until the maturity of the MITTS Securities. If you choose to sell your MITTS Securities when the value of the S&P 500 Index is below 1089.38, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates may increase the value of the S&P 500 Index while falling U.S. dividend rates may decrease the value of the S&P 500 Index. Political, economic and other developments that affect the stocks included in the S&P 500 Index may also affect the value of the S&P 500 Index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because the MITTS Securities repay, at a minimum, the principal amount at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease. Conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the value of the S&P 500 Index. Rising interest rates may lower the value of the S&P 500 Index and, thus, the MITTS Securities. Falling rates may increase the value of the S&P 500 Index and, thus, may increase the value of the MITTS Securities.

The value of the CPI may affect the trading value of the MITTS Securities. The principal amount of the MITTS Securities, as adjusted, will generally be higher in direct proportion to the percentage increase, if any, in the value of the CPI from when the initial CPI is fixed to when the final CPI is determined. However, interim increases in the CPI may or may not result in increases in the trading value of the MITTS Securities because of other economic factors. For example, an increase in the CPI may be accompanied by higher interest rates. Higher interest rates could offset any positive impact of increases in the CPI on the trading value of the MITTS Securities.

Changes in the volatility of the S&P 500 Index or the CPI are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the S&P 500 Index or of the CPI increases, we expect that the trading value of the MITTS Securities will increase. Conversely, if the volatility of the S&P 500 Index or of the CPI decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that prior to the maturity of the MITTS Securities, the MITTS Securities may trade at a value above that which would be expected based on the

level of interest rates and the S&P 500 Index. This difference will reflect a "time premium" due to expectations concerning the value of the S&P 500 Index during the period prior to maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the S&P 500 Index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks included in the S&P 500 Index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stocks included in the S&P 500 Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the S&P 500 Index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the S&P 500 Index or the CPI will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by Merrill Lynch

We and our other affiliates may from time to time buy or sell the stocks underlying the S&P 500 Index for their own accounts for business reasons or in connection with hedging ML&Co.'s obligations under the MITTS Securities. These transactions could affect the price of those stocks and the value of the S&P 500 Index.

5

Potential conflicts of interests

The calculation agent is a subsidiary of ML&Co., the issuer of the MITTS Securities. In some circumstances, MLPF&S' roles as a subsidiary of ML&Co. and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. You should be aware that because the calculation agent is controlled by ML&Co., potential conflicts of interest could arise; however, the calculation agent is subject to limits and has certain duties. For example, in the case of the CPI, the calculation agent could only adjust a value of the CPI to undo a change to how the CPI is calculated or select a successor measure for inflation to maintain the intended economic benefits of the MITTS Securities to you if the CPI is discontinued. The calculation agent could not otherwise adjust a value of the CPI or replace the CPI with another measure of inflation.

6

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

#### DESCRIPTION OF THE MITTS SECURITIES

On September 24, 1997, ML&Co. issued \$16,500,000 aggregate principal amount of S&P 500 MITTS Securities due September 24, 2007. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on September 24, 2007.

While at maturity a beneficial owner of a MITTS Security will receive the

principal amount of the MITTS Security, as adjusted, plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the Adjusted Principal Amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Index Value does not exceed the Benchmark Index Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

#### Determination of the Adjusted Principal Amount

The "Adjusted Principal Amount" for a MITTS Security will be determined by the calculation agent, and will equal the greater of:

- (a) the principal amount of the MITTS Security (\$10 for each unit); and
- (b) the principal amount of the MITTS Security  $\times$   $\frac{\text{Final CPI}}{\text{Initial CPI}}$

"Initial CPI" equals 160.3, the value of the CPI for the third calendar month prior to the month containing the Pricing Date.

"Final CPI" shall be determined by the calculation agent and will equal the value of the CPI for the third calendar month prior to September 24, 2007 as reported on the seventh calendar day prior to the maturity date.

"CPI" means the non-seasonally adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers, published monthly by the Bureau of Labor Statistics of the Department of Labor (the "BLS").

If a previously reported CPI value is revised by the BLS after the Final CPI is determined, the calculation agent will continue to use the previously reported CPI value in calculating the Adjusted Principal Amount.

If the CPI is rebased to a different year, the calculation agent will continue to use the CPI based on the base reference period in effect on the Pricing Date for those purposes, as long as the CPI continues to be published.

#### Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<CAPTION>  
<S>

	<C>
	Ending Index Value - Benchmark Index Value
Principal Amount of the MITTS Security (\$10 per unit) X	-----
-	Benchmark Index Value

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero or more than \$10 per unit. As indicated in the formula above, the calculation agent will calculate the Supplemental Redemption Amount for the MITTS Securities using the principal amount of the MITTS Securities, not the Adjusted Principal Amount which may be greater if the CPI has increased over the term of the MITTS Securities.

The "Benchmark Index Value" equals 1089.38. The Benchmark Index Value was determined on the Pricing Date by multiplying the Starting Index Value by a factor equal to 115%.

The "Ending Index Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the S&P 500 Index (the "Index") determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Index Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days. If there is only one Calculation

Day, then the Ending Index Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrences of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

For purposes of determining the Ending Index Value, an "Index Business Day" is a day on which the NYSE and the American Stock Exchange are open for trading and the Index or any Successor Index, as defined below on page 12, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

Hypothetical Returns

The following table provides the amount payable to beneficial owners of MITTS Securities related to the pretax annualized rates of return given in the table on the following page for a range of hypothetical annualized rates of change in the CPI and percentage changes in the Index from the Starting Index Value to the Ending Index Value.

<TABLE>

33.67							

The following table provides the pretax annualized rate of return to beneficial owners of the MITTS Securities for a range of hypothetical annualized rates of change in the CPI and percentage changes in the Index from the Starting Index Value to the Ending Index Value. The far right column of the table provides the pretax annualized rate of return of an investment in the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.60% per annum, as more fully described below.

&lt;TABLE&gt;

&lt;CAPTION&gt;

Percentage Change in Index from Starting Index Value	Annualized Rate of Change in CPI (1)								Pretax Annualized Rate of Return of Stocks Underlying the Index (2)
	-3.00%	-1.00%	0.00%	1.00%	3.00%	5.00%	7.00%	9.00%	
<S>	<C>	<C>	<C>	<C>	<C>	<C>	<C>	<C>	<C>
- 50.00%.....	0.00%	0.00%	0.00%	1.00%	2.98%	4.94%	6.88%	8.81%	-5.24%
- 30.00%.....	0.00%	0.00%	0.00%	1.00%	2.98%	4.94%	6.88%	8.81%	-1.95%
- 10.00%.....	0.00%	0.00%	0.00%	1.00%	2.98%	4.94%	6.88%	8.81%	0.55%
0.00%.....	0.00%	0.00%	0.00%	1.00%	2.98%	4.94%	6.88%	8.81%	1.60%
10.00%.....	0.00%	0.00%	0.00%	1.00%	2.98%	4.94%	6.88%	8.81%	2.56%
30.00%.....	1.23%	1.23%	1.23%	2.12%	3.92%	5.73%	7.55%	9.37%	4.25%
50.00%.....	2.67%	2.67%	2.67%	3.46%	5.06%	6.70%	8.38%	10.07%	5.71%
70.00%.....	3.95%	3.95%	3.95%	4.65%	6.09%	7.59%	9.15%	10.74%	7.00%
90.00%.....	5.08%	5.08%	5.08%	5.72%	7.03%	8.42%	9.86%	11.36%	8.15%
110.00%.....	6.11%	6.11%	6.11%	6.69%	7.90%	9.19%	10.54%	11.95%	9.20%
130.00%.....	7.05%	7.05%	7.05%	7.58%	8.70%	9.90%	11.18%	12.52%	10.15%
150.00%.....	7.05%	7.05%	7.05%	7.58%	8.70%	9.90%	11.18%	12.52%	11.02%
170.00%.....	7.05%	7.05%	7.05%	7.58%	8.70%	9.90%	11.18%	12.52%	11.84%
190.00%.....	7.05%	7.05%	7.05%	7.58%	8.70%	9.90%	11.18%	12.52%	12.60%

&lt;/TABLE&gt;

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
- an investment of a fixed amount in the stocks underlying the Index with the allocation of that amount reflecting the current relative weights of the stocks in the Index;
  - a percentage change in the aggregate price of the stocks that equals the percentage change in the Index from the Starting Index Value to the relevant hypothetical Ending Index Value;
  - a constant dividend yield of 1.60% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming the value increases or decreases linearly from the Starting Index Value to the applicable hypothetical Ending Index Value;
  - no transaction fees or expenses;
  - a term for the MITTS Securities from September 24, 1997 to September 24, 2007; and
  - a final Index value equal to the Ending Index Value. The aggregate dividend yield of the stocks included in the Index as of September 18, 1997 was approximately 1.60%.

As you can see from the tables, if you assume a 3% per annum change in the CPI during the term of the MITTS Securities and a 70% increase in the Index from the Starting Index Value to the Ending Index Value, \$18.22 would be payable at the maturity of the MITTS Securities and the pretax annualized rate of return to beneficial owners of the MITTS Securities calculated on a semi-annual bond equivalent basis would be 6.09%. Given a fixed annual percentage change in the CPI, any increase in the value of the Index above 230% of the Starting Index Value, a percentage increase in the Index from the Starting Index Value of 130%, will not increase the pretax annualized rate of return on the MITTS Securities.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as described in this prospectus.

## Adjustments to the CPI

If at any time the method of calculating the CPI, or its value, is changed in any material respect, or if the CPI is in any other way modified so that the CPI does not, in the opinion of the calculation agent, fairly represent the value of the CPI had the changes or modifications not been made, then the calculation agent shall make any adjustments for purposes of determining the Final CPI as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of an inflation index comparable to the CPI as if changes or modifications had not been made.

If the CPI is discontinued while the MITTS Securities are outstanding, the calculation agent shall determine an alternative index that in the calculation agent's sole discretion is comparable to the CPI (the "Successor CPI"). Upon the calculation agent's notification of this determination to the trustee and ML&Co., the calculation agent will substitute the Successor CPI for the CPI. The calculation agent may make any adjustments to the values of the Successor CPI in

order to maintain the intended economic benefits to ML&Co. and the holders of the MITTS Securities. Upon any selection by the calculation agent of a Successor CPI, ML&Co. shall cause notice to be given to the Holders of the MITTS Securities.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if the changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

(a) the suspension or material limitation on trading for more than two hours of trading in 100 or more of the securities included in the S&P 500 Index, or

(b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in

- (1) futures contracts related to the Index which are traded on the Chicago Mercantile Exchange or
- (2) option contracts related to the Index which are traded on the Chicago Board Options Exchange, Inc.

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the

13

NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the Index

If S&P discontinues publication of the Index and S&P or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (any successor or substitute index is referred to as a "Successor Index"), then, upon the calculation agent's notification of the determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by S&P or any other entity for the Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If S&P discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If S&P discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Index Value and
- . a determination by the calculation agent that a Successor Index

is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to the values to be made available by telephone.

Despite these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

14

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the Adjusted Principal Amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "- Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 6.58% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or Holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of Holders or that an owner of a beneficial interest in a global security desires to give or take any action which a Holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

15

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has

16

reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Standard & Poor's publishes the Index. The Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading

17

activity of the common stock of that company. The S&P Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the Index to achieve the objectives stated above.

The Index does not reflect the payment of dividends on the stocks included in the Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same that you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the Index

Standard & Poor's currently computes the Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as

the "base value");

- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by Standard & Poor's of particular component stocks in the Index, and
- . other reasons.

18

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{Old Base Value} \quad \times \quad \frac{\text{New Market Value}}{\text{Old Market Value}} \quad = \quad \text{New Base Value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the Index.

#### License Agreement

S&P and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by S&P in connection with particular securities, including the Securities, and ML&Co. is an authorized sublicensee thereof.

The license agreement between S&P and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the Holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the Index to track general stock market performance. S&P's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of S&P and of the Index which is determined, composed and calculated by S&P without regard to ML&Co. or the MITTS Securities. S&P has no obligation to take the needs of ML&Co. or the Holders of the MITTS Securities into consideration in determining, composing or calculating the Index. S&P is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

## CONSUMER PRICE INDEX

The Consumer Price Index or CPI, is a measure of the average change in consumer prices over time for a fixed market basket of goods and services, including food, clothing, shelter, fuels, transportation, charges for doctors and dentists services, and drugs. In calculating the CPI, price changes for the various items are averaged together with weights that represent their importance in the spending of urban households in the United States. The contents of the market basket of goods and services and the weights assigned to the various items are updated periodically by the BLS to take into account changes in consumer expenditure patterns.

All disclosure contained in this prospectus regarding the CPI, including, without limitation, its composition, method of calculation and changes in its components, is derived from publicly available information prepared by the United States Government. Neither ML&Co. nor the underwriter takes any responsibility for the accuracy or completeness of this information.

19

The CPI is expressed in relative terms in relation to a time base reference period for which the level is set at 100. For example, if the CPI for the 1982-1984 reference period is 100, an increase of 16.5 percent from that period would result in a CPI value equal to 116.5. The CPI for a particular month is released and published during the following month. From time to time, the CPI is rebased to a more recent base reference period. The base reference period for these Notes is the 1982-1984 average which is equal to 100.

Historical data on the CPI is available from the U.S. Department of Labor's Bureau of Labor Statistics, Washington, D.C. 20212 or by accessing the Bureau of Labor Statistics' web site located at <http://www.bls.gov>.

## OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

## Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right

to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;

- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of

outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or

22

- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of a projected amount equal to \$9.0973 per unit. This represents an estimated yield on the MITTS Securities equal to 6.58% per annum (compounded semiannually).

The projected payment schedule (including both the projected Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is neither a prediction nor a guarantee of what either the actual Adjusted Principal Amount or the actual Supplemental Redemption Amount will be, or that either the actual Adjusted Principal Amount will exceed \$10 or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of ten years for the MITTS Securities based upon a projected payment schedule for the MITTS Securities (including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.58% per annum (compounded semiannually)) as determined by ML&Co. for purposes of application of the Final Regulations to the MITTS Securities:

\$6.7780	March 24, 2005 through September 23, 2005.....	\$0.5344	
\$7.3300	September 24, 2005 through March 23, 2006.....	\$0.5520	
\$7.9001	March 24, 2006 through September 23, 2006.....	\$0.5701	
\$8.4891	September 24, 2006 through March 23, 2007.....	\$0.5890	
\$9.0973	March 24, 2007 through September 24, 2007.....	\$0.6082	

Projected Redemption Amount = \$9.0973 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of

the application of the Final Regulations to the MITTS Securities, by submitting a written request for the information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other

24

documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

## PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

## EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
 + The information in this prospectus is not complete and may be changed. We +  
 + may not sell these securities until the registration statement filed with +  
 + the Securities and Exchange Commission is effective. This prospectus is not +  
 + an offer to sell these securities and it is not soliciting an offer to buy +  
 + these securities in any state where the offer and sale is not permitted. +

RISK FACTORS

Your investment in MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment.

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date the index value does not exceed 449.42 by more than 10%. This will be true even if at some time during the life of the MITTS Securities, the value of the Russell 2000 Index, as adjusted, was higher than that amount, 494.36, but later falls below 494.36.

Your yield may be lower than the yield on a standard debt security of comparable maturity.

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account inflation and other factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index.

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks. This is because the value of the index is calculated by reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

Your return will not reflect the payment of dividends.

The index is calculated with reference to the prices of the common stocks comprising the index without taking into consideration the value of dividends paid on those stocks. Therefore, the return you earn on your MITTS Securities, if any, will not be the same as the return that you would earn if you actually owned each of the common stocks underlying the index and received the dividends paid on those stocks.

Investments in small capitalization stocks involve risks.

The underlying stocks that constitute the index have been issued by corporations domiciled in the U.S. and its territories and traded on the NYSE, on the AMEX or in the over-the-counter market. If a successor index is substituted for the index as described below, any successor index would also be based upon stocks issued by corporations domiciled in the U.S. and its territories and traded on the NYSE, on the AMEX or in the over-the-counter market. You should be aware that investments in securities indexed to the value of small capitalization companies involve risks. In general, the stocks comprising the index have smaller market capitalizations, less trading liquidity and greater price volatility than stocks in other larger capitalization indexes which are designed to measure the broad movement of the U.S. stock markets. You should understand that these factors could adversely affect the value of the index and your MITTS Securities.

There may be an uncertain trading market for the MITTS Securities in the future.

Although the MITTS Securities are listed on the NYSE under the symbol "RUM", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS

3

Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor.

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the value of the index relative to the benchmark index value. If you choose to sell your MITTS Securities when the value of the index exceeds the benchmark index value, you may receive substantially less than the amount that would be payable at maturity based on that index value because of the

expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index is determined. If you choose to sell your MITTS Securities when the value of the index is below the benchmark index value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates, i.e., dividends per share, may increase the value of the index, while falling U.S. dividend rates may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of the MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease, and conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally if the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. The MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

4

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks comprising the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stock comprising the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities except that we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law.

New York State laws govern the indenture, under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return.

We and our affiliates may from time to time buy or sell the stocks underlying the index for their own accounts for business reasons or in

connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interest.

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the index; Market Disruption Events" and "--Discontinuance of the index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

5

We have entered into an arrangement with one of our a subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

6

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>

Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On September 29, 1997, ML&Co. issued an aggregate principle amount of \$167,500,000 or 16,750,000 units of the MITTS Securities.

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on September 30, 2004.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of each MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>			
<S>	Principal amount of each MITTS Security (\$10 per Unit)	x	<C> (Ending Value - Starting Value ) (-----) ( Starting Value )
</TABLE>			

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 494.36 which was determined on the Pricing Date by multiplying 449.82, the value of the index on the pricing date by 110%.

The "Ending Value" will be determined by the calculation agent and will equal the average, or arithmetic mean, of the closing values of the Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrences of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh

scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Index or any Successor Index, as defined on page 10 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Values:

- . the percentage change from the Starting Value to the Ending Value;
- . the total amount payable per Unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.15% per annum, as more fully described below.

<TABLE>

13.97%	1,123.55	150.00%	\$22.73	127.27%	12.08%
14.58%					

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:

- (a) a constant dividend yield of 1.15% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter, assuming this value increases or decreases linearly from the Starting Value to the hypothetical Ending Value;
- (b) no transaction fees or expenses;

11

- (c) the term of the MITTS Securities is from September 29, 1997 to September 30, 2004;
- (d) the aggregate dividend yield of the stocks underlying the Index as of September 23, 1997 was approximately 1.15%.
- (e) a final Index value equal to the hypothetical Ending Value.

(3) The Starting Value of the Index.

The above figures are for purposes of illustration only. The actual investment term, Supplemental Redemption Amount received by investors, and the respective resulting total and pretax annualized rate of return will depend entirely on the actual Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had the changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock Index comparable to the Index as if any changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- (a) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, each case, in 20% or more of the stocks which then comprise the Index; or
- (b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in
  - (A) futures contracts related to the Index which are traded on the Chicago Mercantile Exchange or
  - (B) option contracts related to the Index which are traded on the Chicago Board Options Exchange, Inc.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

In some circumstances, the duties of MLPF&S as calculation agent in determining the existence of Market Disruption Events could conflict with the interests of MLPF&S as a subsidiary of ML&Co.

#### Discontinuance of the Index

If FRC discontinues publication of the Index and FRC or another entity publishes a successor or substitute Index that the calculation agent determines, in its sole discretion, to be comparable to the Index,

12

referred to as a "Successor Index", then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by FRC or any other entity for the Index and calculate the Ending Value as described above under "- Payment at Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If FRC discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Calculation Day" shall mean any day on which the calculation agent is able to calculate the value.

If FRC discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal (or another newspaper of general circulation), and arrange for information with respect to these values to be made available by telephone.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "- Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners of the MITTS Securities, at the rate of 6.39% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

13

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was

deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor to DTC, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to

DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the

identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or

15

- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Unless otherwise stated, all information in this prospectus on the Index is derived from FRC or other publicly available sources. This information reflects the policies of FRC as stated in these sources and these policies are subject to change by FRC. FRC is under no obligation to continue to publish the Index and may discontinue publication of the Index at any time.

The Index is an index calculated, published and disseminated by FRC, and measures the composite price performance of stocks of 2,000 companies domiciled in the U.S. and its territories. All 2,000 stocks are traded on either the NYSE or the AMEX or in the over-the-counter market and form a part of the Russell

3000(R) Index. The Russell 3000 Index is composed of the 3,000 largest U.S. companies as determined by market capitalization and represents approximately 98% of the investable U.S. equity market.

The Index consists of the smallest 2,000 companies included in the Russell 3000 Index. The Index is designed to track the performance of the small capitalization segment of the U.S. equity market.

Only common stocks belonging to corporations domiciled in the U.S. and its territories are eligible for inclusion in the Russell 3000 Index and the Index. Stocks traded on U.S. exchanges but domiciled in other countries are excluded. Preferred stock, convertible preferred stock, participating preferred stock, paired shares, warrants and rights are also excluded. Trust receipts, Royalty Trusts, limited liability companies, OTC Bulletin Board companies, pink sheets, closed-end mutual funds, and limited partnerships that are traded on U.S. exchanges, are also ineligible for inclusion. Real Estate Investment Trusts and Beneficial Trusts are eligible for inclusion, however. Generally, only one class of securities of a company is allowed in the Russell 3000 Index, although exceptions to this general rule have been made where FRC has determined that each class of securities acts independent of the other.

The primary criteria used to determine the initial list of securities eligible for the Russell 3000 Index is total market capitalization, which is defined as the price of the shares times the total number of shares outstanding. Based on closing values on May 31 of each year, FRC reconstitutes the composition of the Russell 3000 Index using the then existing market capitalizations of eligible companies. As of June 30 of each year, the Index is adjusted to reflect the reconstitution of the Russell 3000 Index for that year. Publication of the Index began on January 1, 1987.

16

As a capitalization-weighted Index, the Russell 2000 Index reflects changes in the capitalization (market value) of the component stocks relative to the capitalization on a base date. The current Index value is calculated by adding the market values of the Index's component stocks, which are derived by multiplying the price of each stock by the number of shares outstanding, to arrive at the total market capitalization of the 2,000 stocks. The total market capitalization is then divided by a divisor, which represents the "adjusted" capitalization of the Index on the base date of December 31, 1986. To calculate the Index, last sale prices will be used for exchange-traded and NASDAQ stocks. If a component stock is not open for trading, the most recently traded price for that security will be used in calculating the Index. In order to provide continuity for the Index's value, the divisor is adjusted periodically to reflect events including changes in the number of common shares outstanding for component stocks, company additions or deletions, corporate restructurings and other capitalization changes.

The value of the Index is reported on the AMEX under the symbol "RTY", on Bloomberg under the symbol "RTY" and on Reuters under the symbol ".RTY".

All disclosure contained in this prospectus regarding the Index, or its publisher, is derived from publicly available information. All copyrights and other intellectual property rights relating to the Index are owned by FRC. FRC has no relationship with ML&Co., Inc. or the MITTS Securities; it does not sponsor, endorse, authorize, sell or promote the MITTS Securities, and has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders

of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

17

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However,

18

without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;

- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount

19

provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the

1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the Treasury Department Final Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$5.5304 per unit. This represents an estimated yield on the MITTS Securities equal to 6.39% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of seven years and one day for the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.39% per annum, compounded semiannually, as determined by ML&Co. for purposes of application of the Final Regulations to the MITTS Securities:

20

<TABLE>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on the MITTS Securities as of End of Accrual Period (per unit) -----
<S>	<C>	<C>
September 29, 1997 through March 30, 1998.....	\$0.3186	\$0.3186
March 31, 1998 through September 30, 1998.....	\$0.3315	\$0.6501
October 1, 1998 through March 30, 1999.....	\$0.3384	\$0.9885
March 31, 1999 through September 30, 1999.....	\$0.3511	\$1.3396
October 1, 1999 through March 30, 2000.....	\$0.3623	\$1.7019
March 31, 2000 through September 30, 2000.....	\$0.3739	\$2.0758
October 1, 2000 through March 30, 2001.....	\$0.3858	\$2.4616
March 31, 2001 through September 30, 2001.....	\$0.3981	\$2.8597
October 1, 2001 through March 30, 2002.....	\$0.4109	\$3.2706
March 31, 2002 through September 30, 2002.....	\$0.4240	\$3.6946
October 1, 2002 through March 30, 2003.....	\$0.4375	\$4.1321
March 31, 2003 through September 30, 2003.....	\$0.4516	\$4.5837
October 1, 2003 through March 30, 2004.....	\$0.4659	\$5.0496
March 31, 2004 through September 30, 2004.....	\$0.4808	\$5.5304

Projected Supplemental Redemption Amount = \$5.5304 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

21

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
 + The information in this prospectus is not complete and may be changed. We +  
 + may not sell these securities until the registration statement filed with +  
 + the Securities and Exchange Commission is effective. This prospectus is not +  
 + an offer to sell these securities and it is not soliciting an offer to buy +  
 + these securities in any state where the offer and sale is not permitted. +

Merrill Lynch & Co., Inc.  
 Major 11 International Market Index Target-Term Securities(R)  
 due December 6, 2002  
 "MITTS(R) Securities"  
 \$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
 <CAPTION>

The MITTS Securities:  
 <S>

- . 100% principal protection at maturity.
- . No payments before maturity date.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the Major 11 International Index.
- . The MITTS Securities are listed on the American Stock Exchange under the symbol "EEM".

</TABLE>

Payment at Maturity:  
 <C>

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the Major 11 International Index as described in this prospectus.
- . You will receive no less than the principal amount of your MITTS Securities.

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the average value of the index over five trading days shortly before the maturity date is less than 100, the value of the index on the date the MITTS Securities were priced, we will pay you only \$10 for each unit of the MITTS Securities you own. This will be true even if, at some time during the life of the MITTS Securities, the value of the index was higher than 100 but later falls below 100.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index

The AMEX calculates the index by reference to the sub-indices comprising eleven major international market indices that reflect the prices of the common stocks included in those sub-indices without taking into consideration the value of dividends paid on those stocks, except in the case of the Deutscher Aktienindex Sub-Index which reflects dividends paid on its underlying common stocks. Your return on your MITTS Securities will not reflect the return you would realize if you actually owned all of the stocks underlying the index and received the dividends paid on those stocks because, except as noted above, the value of the index is calculated by reference to the prices of the stocks included in the index without taking into consideration the value of dividends paid on those stocks.

Your return may be affected by currency exchange rates

Although the stocks comprising the sub-indices are traded in currencies other than U.S. dollars and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for currency exchange rates in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the index. Changes in exchange rates, however, may reflect changes in the relevant European, Australian and Asian economies which in turn may affect the value of the sub-indices and the MITTS Securities.

Your return may be affected by factors affecting international securities markets

The underlying stocks that constitute the sub-indices have been issued by companies listed on European, Australian and Asian exchanges. You should be aware that investments in securities indexed to the value of European, Australian and Asian securities involve risks. The European, Australian and Asian securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize a particular non-U.S. securities market and cross-shareholdings in European, Australian and Asian companies on these markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about non-U.S. companies than about U.S. companies that are subject to the reporting requirements of the SEC and non-U.S. companies are subject to

3

accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in Europe, Australia and Asia may be affected by political, economic, financial and social factors in those regions. In addition, recent or future changes in a country's government, economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other laws or restrictions applicable to non-U.S. companies or investments in non-U.S. equity securities, and possible fluctuations in the rate of exchange between currencies are factors that could negatively affect the international securities markets. Moreover, the relevant European, Australian and Asian economies may differ favorably or unfavorably from the U.S. economy in economic factors such as growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency. Because some sub-indices have a greater weighting than others in calculating the value of the index, fluctuations in the securities markets relating to those sub-indices will have a greater effect on the value of the index than fluctuations in securities markets relating to sub-indices with a lesser weighting.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the AMEX under the symbol "EEM", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the

effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. The trading value of the MITTS Securities will depend substantially on the amount by which the index exceeds or does not exceed 100, the value of the index on the date the MITTS Securities were priced for sale to the public. If you choose to sell your MITTS Securities at a time when the value of the index exceeds 100, you may receive substantially less than the amount that would be payable at maturity based on that index value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index over five trading days is determined. If you choose to sell your MITTS Securities when the value of the index is below, or not sufficiently above, 100, you may receive less than \$10 per unit of your MITTS Securities. In general, rising dividend rates or dividends per share in the respective home countries related to the common stocks underlying the sub-indices may increase the value of the index while falling dividend rates in these countries may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

4

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because the MITTS Securities repay, at a minimum, the principal amount at maturity, we expect that the trading value of the MITTS Securities will be affected by changes in interest rates. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease. If U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. In general, if interest rates in the applicable home countries increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in the applicable home countries decrease, we expect the trading value of the MITTS Securities will decrease. However, interest rates in the applicable home countries may also affect the relevant economies and, in turn, the value of the sub-indices. Rising interest rates in the applicable home countries may lower the value of the sub-indices and the MITTS Securities. Falling interest rates in the applicable home countries may increase the value of the index and the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period before their maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks comprising the sub-indices are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks comprising the sub-indices increase, we expect that the value of the MITTS Securities will decrease, and conversely, if dividend yields on the underlying stock comprising the sub-indices decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon other factors in addition to our ability to pay our obligations under the MITTS Securities, an improvement in our credit ratings will not reduce other investment risks related to an investment in the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities except that we expect that the effect on the trading value of the

MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the 1983 Indenture under which the MITTS Securities were issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

5

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the index for their own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interests

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. Under certain circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with such arrangement. We did not seek competitive bids for such an arrangement from unaffiliated parties.

6

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

#### DESCRIPTION OF THE MITTS SECURITIES

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on December 6, 2002.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of that MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner prior to maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

#### Payment at Maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
 <CAPTION>  
 <S> principal amount per MITTS Security (\$10 per unit) X Ending Index Value - Starting Index Value X Participation Rate  
 -----  
 Starting Index Value  
 </TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Index Value" equals 100.  
 The "Participation Rate" equals 115%.

The "Ending Index Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the index in New York determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Index Value will equal the average or arithmetic mean of the closing values of the index on those Calculation Days, and if there is only one Calculation Day, then the Ending Index Value will equal the closing value of the index on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrences of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

The "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

The "Index Business Day" is a day on which the New York Stock Exchange and the AMEX are open for trading and the index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values:

- . the total amount payable at maturity for each \$10 principal amount of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks underlying the index, which includes an assumed aggregate dividend yield of 2.36% per annum, as more fully described below.

<TABLE>  
 <CAPTION>

Hypothetical Ending Index Value	Percentage Change Over the Starting Index Value	Total Amount Payable at Maturity per \$10 Principal Amount of Securities	Total Rate of Return on Securities	Pretax Annualized Rate of Return on Securities (1)	Pretax Annualized Rate of Return of Stocks Underlying the Index (1) (2)
<S>	<C>	<C>	<C>	<C>	<C>
40	-60%	\$10.00	0.00%	0.00%	-15.48%
50	-50%	\$10.00	0.00%	0.00%	-11.24%
60	-40%	\$10.00	0.00%	0.00%	-7.73%
70	-30%	\$10.00	0.00%	0.00%	-4.72%
80	-20%	\$10.00	0.00%	0.00%	-2.09%
90	-10%	\$10.00	0.00%	0.00%	0.25%

100(3)	0%	\$10.00	0.00%	0.00%	2.36%
110	10%	\$11.15	11.50%	2.18%	4.28%
120	20%	\$12.30	23.00%	4.16%	6.04%
130	30%	\$13.45	34.50%	5.98%	7.68%
140	40%	\$14.60	46.00%	7.67%	9.20%
150	50%	\$15.75	57.50%	9.24%	10.62%
160	60%	\$16.90	69.00%	10.71%	11.96%
170	70%	\$18.05	80.50%	12.09%	13.22%
180	80%	\$19.20	92.00%	13.40%	14.41%
190	90%	\$20.35	103.50%	14.64%	15.55%
200	100%	\$21.50	115.00%	15.81%	16.63%
210	110%	\$22.65	126.50%	16.93%	17.66%
220	120%	\$23.80	138.00%	18.00%	18.64%
230	130%	\$24.95	149.50%	19.03%	19.59%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:

- (a) an investment of a fixed amount in the stocks underlying the sub-indices with the allocation of this amount reflecting the current relative weights of these stocks in the sub-indices;
- (b) a percentage change in the aggregate price of the stocks that equals the percentage change in the index from the Starting Index Value to the relevant hypothetical Ending Index Value;
- (c) a constant dividend yield of 2.36% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the index at the end of each quarter assuming this value increases or decreases linearly from the Starting Index Value to the applicable hypothetical Ending Index Value;
- (d) no transaction fees or expenses;

11

- (e) a term for the MITTS Securities from November 26, 1997 to December 6, 2002; and
- (f) a final Index value equal to the Ending Index Value. The aggregate dividend yield of the stocks underlying the Sub-Indices as of the close of business on November 20, 1997 was approximately 2.36%.

(3) The Starting Index Value equals 100.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the index, or its value, is changed in any material respect, or if the index is in any other way modified so that such index does not, in the opinion of the calculation agent, fairly represent the value of the index had any changes or modifications not been made, then, from and after such time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the index as if no changes or modifications had been made, and calculate the closing value with reference to the index, as adjusted. Accordingly, if the method of calculating the index is modified so that the value of the index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split in the index, then the calculation agent shall adjust the index in order to arrive at a value of the index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means the occurrence or existence on any Overseas Index Business Day with respect to a sub-index during the one-half hour period that ends at the regular official weekday time at which trading on the Index Exchange related to that sub-index occurs of any suspension of, or limitation imposed on, trading (by reason of movements in price exceeding limits permitted by the relevant exchange or otherwise) on (1) the Index Exchange in securities that comprise 20% or more of the value of such sub-index or (2) any exchanges on which futures or options on such sub-index are traded in such options or futures if, in the determination of the calculation agent, such suspension or limitation is material.

For the purpose of the foregoing definition, (1) a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular hours of the relevant exchange and (2) a limitation on trading imposed during the course of a day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange will constitute a Market Disruption Event.

"Overseas Index Business Day" means, with respect to any sub-index, any day that is, or, but for the occurrence of a Market Disruption Event, would have

been, a trading day on the relevant Index Exchange or on any exchanges on which futures or options on the sub-index are traded, other than a day on which trading on any exchange is scheduled to close before its regular weekday closing time.

"Index Exchange" means, with respect to any sub-index, the principal exchange on which the shares comprising that sub-index are traded.

#### Discontinuance of the Index

If the AMEX discontinues publication of the index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the index (a "Successor Index"), then, upon the calculation agent's notification of any determination to the Trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by the AMEX or any other entity for the index and calculate the Ending Index Value as described above under "Payment at

12

Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If the AMEX discontinues publication of the index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the AMEX discontinues publication of the index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at such time, then on each Business Day until the earlier to occur of

- . the determination of the Ending Index Value and
- . a determination by the Calculation Agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

Notwithstanding these alternative arrangements, discontinuance of the publication of the index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities shall have occurred and be continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of each unit, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "Description of MITTS Securities--Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 6.25% per annum to the extent that payment of any interest shall be legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

13

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery

of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as Depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the Trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to

14

the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit

of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or

15

- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

All payments of principal and the Supplemental Redemption Amount, if any, will be made by ML&Co. in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

The AMEX calculates and disseminates the value of the Major 11 International Index on each Index Business Day. The AMEX generally calculates and disseminates the value of the Major 11 International Index based on the most recently reported values of the sub-indices, at approximately 15-second intervals during the AMEX's business hours and the end of each Index Business Day via the Consolidated Tape Association's Network B. The Major 11 International Index value is reported by the AMEX and Bloomberg under the symbol

"EUX" and by Reuters under the symbol ".EUX".

#### Determination of Index Multiplier for each Sub-Index

The initial weighting of each sub-index was determined at the close of business on the Pricing Date based on its relative market capitalization. The market capitalization of a stock equals the product of the total number of shares outstanding and the price per share of that stock. The total market capitalization of the stocks comprising each sub-index was determined using the most recently available information concerning the number of shares outstanding for each stock contained in a sub-index and the most recently available price for each share of that stock. Current exchange rates were used to translate this market capitalization information into U.S. dollars. The market capitalizations expressed in U.S. dollars of each sub-index were totaled (the "Total Market Capitalization"). The weighting of each sub-index was then determined and equals the percentage of the market capitalization for such sub-index relative to the Total Market Capitalization. The Index Multiplier for each sub-index was then calculated and equals:

- . the weighting for such sub-index multiplied by 100, divided by
- . the most recently available value of such sub-index.

The Index Multipliers were calculated in this way so that the index would equal 100.00 on the Pricing Date.

The Index Multiplier for each sub-index will remain fixed, except that the AMEX may adjust the Index Multiplier in the event of a significant change in how a sub-index is calculated. There will be no periodic rebalancing of the index to reflect changes in the relative market capitalizations of the sub-indices.

16

#### Computation of the Major 11 International Index

The AMEX calculates the Major 11 International Index by totaling the products of the most recently available value of each sub-index and the index multiplier applicable to each sub-index. Because the sub-indices are based on stocks traded on exchanges in Europe, Asia and Australia, once the applicable exchanges close and the values of the sub-indices become fixed until these exchanges reopen, the value of the Major 11 International Index will be fixed.

The following is a list of the sub-indices and certain information concerning each sub-index. All disclosure contained in this prospectus supplement regarding the sub-indices is derived from publicly available information.

##### Financial Times 100 Index--"FTSE 100"

Description of FTSE 100: The FTSE 100 is intended to provide an indication of the pattern of common stock price movement of the 100 common stocks with the largest market capitalization on the London Stock Exchange.

Publisher: FTSE International Limited

Required Disclosure: The FTSE is a registered trademark of the London Stock Exchange Limited and the Financial Times Limited.

##### Nikkei Stock Average, "Nikkei 225"

Description of Nikkei 225: The Nikkei 225 is intended to provide an indication of the pattern of common stock price movement of the 225 most actively traded common stocks on the Tokyo Stock Exchange. The Nikkei 225 is a modified price-weighted index which means that an underlying stock's weight in the Nikkei 225 is based on its price per share rather than the total market capitalization of the issuer.

Publisher: Nihon Keizai Shimbun, Inc. ("NKS")

Required Disclosure: NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus supplement that NKS makes any representation or warranty, implied or express, to ML&Co., the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration, marketing or trading of the MITTS

Securities.

NKS has consented to the use of and reference to the Nikkei 225 in connection with the MITTS Securities.

Deutscher Aktienindex--"DAX(R) "

Description of DAX: The DAX is a total rate of return index measuring the performance of 30 common stocks on the Frankfurt Stock Exchange selected on the basis of their market capitalization

17

and trading volume. A total rate of return index reflects both the price performance of the relevant common stocks as well as the dividends paid on these common stocks.

"DAX" is a registered trademark of Deutsche Borse AG.

Swiss Market Index--"SMI(R) "

Description of SMI: The SMI is intended to provide an indication of the pattern of common stock price movement of common stocks with the largest market capitalization and greatest liquidity on the Geneva, Zurich and Basle Stock Exchanges.

Publisher: Swiss Exchange SWX

Required Disclosure: These MITTS Securities are not in any way sponsored, endorsed, sold or promoted by the Swiss Exchange SWX and the Swiss Exchange SWX makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the SMI index (the "Index") and/or the figure at which the said Index stands at any particular time on any particular day or otherwise. The Index is compiled and calculated solely by the Swiss Exchange SWX. However, the Swiss Exchange SWX shall not be liable (whether in negligence or otherwise) to any person for any error in the Index and the Swiss Exchange SWX shall not be under any obligation to advise any person of any error therein.

SMI(R) is a registered trademark of the Swiss Exchange SWX.

Compagnie des Agents de Change 40 Index--"CAC 40"

Description of CAC 40: The CAC 40 is intended to provide an indication of the pattern of common stock price movement of the 40 common stocks with the largest market capitalization on the Paris Bourse.

Publisher: SBF-Paris Bourse

Required Disclosure: "CAC 40" is a registered trademark of the Societe des Bourses Francaises-Paris Bourse, which designates the index that the SBF-Paris Bourse calculates and publishes. Authorization to use the index and the "CAC 40" trademark in connection with the MITTS Securities has been granted by license.

The SBF-Paris Bourse, owner of the trademark and of the index, does not sponsor, endorse or participate in the marketing of the MITTS Securities. The SBF-Paris Bourse makes no warranty or representation to any person, express or implied, as to the figure at which the said index stands at any particular time, nor as to the results or performance of the MITTS Securities. Neither shall the SBF-Paris Bourse be under any obligation to advise any person of any error in the published level of the index.

Amsterdam Exchanges-index(R)--"AEX-index(R) "

Description of AEX: The AEX is intended to provide an indication of the pattern of common stock price movement of the 25 common stocks with the largest market capitalization on the Amsterdam Stock Exchange.

Publisher: AEX-Optiebeurs nv

18

Required Disclosure: "The AEX-index is a registered trademark of ASX Operations Pty Limited ("ASXO"), a wholly owned subsidiary of the Australian Stock Exchange Limited. ASXO has granted a license for the use of the index on the basis that ASXO does not expressly or impliedly approve, endorse, make any judgement or express any opinion in respect of the MITTS Securities or any Index Products issued by the Licensee."

Milano Italia Borsa 30 Index--"MIB 30"

Description of MIB 30: The MIB 30 is intended to provide an indication of

the pattern of common stock price movement of common stocks with the largest market capitalization and greatest liquidity on the Italian Stock Exchange.

Publisher: Borsa Italiana S.p.A.

Australia All Ordinaries Index--"XAO"

Description of XAO: The XAO is a capitalization-weighted index of 274 common stocks listed on the Australian Stock Exchange.

Publisher: ASX Operations Pty Limited

Required Disclosure: The XAO is a registered trade mark of ASX Operations Pty Limited or ASXO, a wholly-owned subsidiary of the Australian Stock Exchange Limited or ASX. ASXO has granted a license for the use of the XAO on the basis that ASXO does not expressly or by implication approve, endorse, make any judgment or express any opinion in respect of the ML&Co. or the MITTS Securities. ASX and its related corporations, shall have no liability for any claim whatsoever where the claim arises wholly or substantially out of accident or negligence of ASX, its related corporations and their servants and agents as the case may be or acts of third parties; and without in any way limiting the generality of the foregoing, arising out of unavailability of the All Ordinaries Index or non-supply of the All Ordinaries Index.

OM Stockholm Exchange Index--"OMX index"

Description of OMX index: The OMX index is intended to provide an indication of the pattern of common stock price movement of the 30 common stocks with the largest volume of trading on the Stockholm Stock Exchange.

Publisher: OM Gruppen AB

Required Disclosure: The MITTS Securities are not in any way sponsored, endorsed, sold or promoted by OM Gruppen AB or OM and OM makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the OMX index and/or the figure at which the said OMX index stands at any particular time on any particular day or otherwise. The OMX index is compiled and calculated solely by an indexer on behalf of OM. However, OM shall not be liable whether in negligence or otherwise to any person for any error in the OMX index and OM shall not be under any obligation to advise any person of any error in the OMX index.

All rights to the trademark OMX, OMX INDEX are vested in OM Gruppen AB and are used under a license agreement with OM.

19

IBEX 35 Index--"IBEX 35"

Description of IBEX 35: The IBEX 35 is intended to provide an indication of the pattern of common stock price movement of the 35 common stocks with the greatest liquidity continuously traded and quoted on the Joint Stock Exchange System made up of the Barcelona, Bilbao, Madrid and Valencia stock exchanges.

Publisher: Sociedad de Bolsas, S.A.

Required Disclosure: Sociedad de Bolsas, S.A. does not warrant in any case nor for any reason whatsoever:

- (a) the continuity of the composition of the IBEX 35 exactly as it is today;
- (b) the continuity of the method for calculating the IBEX 35 exactly as it is calculated today;
- (c) the continuity of the calculation, formula and publication of the IBEX 35;
- (d) the precision, integrity or freedom from errors or mistakes in the composition and calculation of the IBEX 35; and
- (e) the adequacy of the IBEX 35 for the purposes expected in the issue of the MITTS Securities nor for dealing in the same.

AMEX Hong Kong 30 Index--"HK30"

Description of HK30: The HK30 is intended to provide an indication of the pattern of common stock price movement of 30 common stocks listed on the Hong Kong Stock Exchange and selected on the basis of market weight, trading liquidity and representation of business industry.

Publisher: The American Stock Exchange

Required Disclosure: The "AMEX Hong Kong 30 Index" is a service mark of the AMEX. The AMEX in no way sponsors, endorses or is otherwise involved in the issuance of the MITTS Securities, other than the fact that the MITTS Securities will be listed and traded on the AMEX and the AMEX will calculate and disseminate the Major 11 International Index, and the AMEX disclaims any liability to any party for any inaccuracy in the data on which the HK30 is based, for any mistakes, errors or omissions in the calculation, and/or dissemination of the HK30, or for the manner in which it is applied in connection with the issuance of the MITTS Securities.

AMEX has consented to the use and reference to the term "AMEX Hong Kong 30 Index".

The publisher of each sub-index will add or delete stocks due to events such as the bankruptcy or merger of the issuer of a stock. The publisher of a sub-index may reevaluate the composition of the stocks underlying the sub-index at specified intervals to assure that they still meet the selection criteria or any ongoing eligibility criteria.

The publisher of a sub-index is under no obligation to continue the calculation and dissemination of that sub-index and that publisher may change the method by which that sub-index is calculated. The publishers of the sub-indices are under no obligation to take the needs of ML&Co. or the holders of the MITTS into consideration in determining, composing or calculating the sub-indices.

20

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

21

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness

22

without the consent of each holder affected. The Holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

## Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the Holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

23

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

24

## PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$3.6261 per unit. This represents an estimated yield on the MITTS Securities equal to 6.25% per annum (compounded semiannually).

The projected payment schedule, including both projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes i.e., for

purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of five years and ten days for the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.25% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on Securities as of End of Accrual Period (per unit) -----
<S>	<C>	<C>
November 26, 1997 through December 6, 1997...	\$0.0169	\$0.0169
December 7, 1997 through June 6, 1998.....	\$0.3130	\$0.3299
June 7, 1998 through December 6, 1998.....	\$0.3228	\$0.6527
December 7, 1998 through June 6, 1999.....	\$0.3329	\$0.9856
June 7, 1999 through December 6, 1999.....	\$0.3433	\$1.3289
December 7, 1999 through June 6, 2000.....	\$0.3540	\$1.6829
June 7, 2000 through December 6, 2000.....	\$0.3651	\$2.0480
December 7, 2000 through June 6, 2001.....	\$0.3765	\$2.4245
June 7, 2001 through December 6, 2001.....	\$0.3883	\$2.8128
December 7, 2001 through June 6, 2002.....	\$0.4004	\$3.2132
June 7, 2002 through December 6, 2002.....	\$0.4129	\$3.6261

</TABLE>

- - - - -

Projected Supplemental Redemption Amount = \$3.6261 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those

documents; and

- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

26

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express

an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Major 11 International Market Index Target-Term Securities due May 26, 2006. You should carefully read the this prospectus to fully understand the terms of the MITTS Securities, the Major 11 International Index and the tax and other considerations that should be important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on May 26, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive at the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the Major 11 International Index, a compilation of eleven equity indices reflecting select stocks listed on certain exchanges in Europe, Asia and Australia. At the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal Amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\begin{aligned}
 & \text{(Adjusted Ending Value - Starting Value)} \\
 \$10 \times & \left( \frac{\text{-----}}{\text{Starting Value}} \right)
 \end{aligned}$$

but will not be less than zero.

"Starting Value" equals 126.56, the closing value of the Major 11 International Index on May 20, 1999, the date the MITTS Securities were priced

for initial sale to the public.

"Adjusted Ending Value" means the average of the values of the Major 11 International Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the component stocks included in any of the sub-indices comprising the Major 11 International Index or certain futures or options relating to those sub-indices.

3

The "Adjustment Factor" equals 1.5% per year and will be applied over the entire term of the MITTS Securities to reduce the closing values of the Major 11 International Index used to calculate the Supplemental Redemption Amount during the calculation period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the calculation period will be approximately 9.99% less than the actual closing value of the Major 11 International Index on each day during the calculation period. For a detailed discussion of how the Adjustment Factor will affect the value of the Major 11 International Index used to calculate your Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at Maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an Adjustment Factor of 1.5% per year and an investment term of seven years:

Example 1--The Major 11 International Index, as adjusted, is below the Starting Value at maturity:

<TABLE>		
<S>	<C>	<C>
Starting Value: 126.56		
Hypothetical closing value of the Major 11 International Index at maturity: 132.89		
Hypothetical Adjusted Ending Value: 119.61		
	( 119.61 - 126.56 )	(Supplemental
Supplemental Redemption Amount (per unit) = \$10 X (-----)		Redemption
	( 126.56 )	Amount cannot
		be less than zero)
Total payment at maturity (per unit) = \$10 + \$0 = \$10		

Example 2--The Major 11 International Index, as adjusted, is above the Starting Value at maturity:

Starting Value: 126.56		
Hypothetical closing value of the Major 11 International Index at maturity: 202.50		
Hypothetical Adjusted Ending Value: 182.26		
</TABLE>		
<TABLE>		
<S>	<C>	
	( 182.26 - 126.56 )	
Supplemental Redemption Amount (per unit) = \$10 X (-----)		= \$4.40
	( 126.56 )	
</TABLE>		
Total payment at maturity (per unit) = \$10 + \$4.40 = \$14.40		

4

Who publishes the Major 11 International Index and what does the Major 11 International Index measure?

The AMEX publishes the Major 11 International Index, which measures the performance of various European, Australian and Asian stock indices. Each sub-index that comprises the Major 11 International Index measures the performance of certain common stocks in Australia or in a designated European or Asian country. The publishers of the sub-indices use various methods to select and maintain stocks in a sub-index. The sub-indices comprising the Major 11 International Index represent common stocks of issuers traded principally on

stock exchanges located in England, Japan, Germany, Switzerland, France, the Netherlands, Italy, Australia, Sweden, Spain and Hong Kong.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in sub-indices comprising the Major 11 International Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "EUM". You should be aware that the listing of the MITTS Securities on the AMEX will not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the offering and sale of the MITTS Securities. MLPF&S intends to buy and sell the MITTS Securities to create and maintain a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value at the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Major 11 International Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Major 11 International Index

The AMEX calculates the value of the Major 11 International Index by reference to the values of eleven major international market indices that reflect the prices of the common stocks included in those indices without taking into consideration the value of dividends paid on those stocks, except in the case of the Deutscher Aktienindex whose value reflects dividends paid on its underlying common stocks. The return on your MITTS Securities will not reflect the return you would realize if you actually owned all of the stocks underlying each of the sub-indices comprising the Major 11 International Index and received

the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because, except as noted above, the value of the Major 11 International Index is calculated by reference to the prices of the stocks included in the sub-indices without taking into consideration the value of any dividends paid on those stocks.

Your return may be affected by factors affecting international securities markets

The sub-indices that comprise the Major 11 International Index measure the value of the equity securities of companies listed on various European, Australian and Asian exchanges. The return of your MITTS Securities will be affected by factors affecting the value of securities in these markets. The European, Australian and Asian securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize a particular non-U.S. securities market and cross-shareholdings in European, Australian and Asian companies on these markets may affect prices and the volume of trading on those markets. Also, there is generally less publicly available information about non-U.S. companies than about U.S. companies that are subject to the reporting requirements of the SEC. Additionally, non-U.S. companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

The prices and performance of securities of companies in Europe, Australia and Asia may be affected by political, economic, financial and social factors in those regions. In addition, recent or future changes in a

6

country's government, economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other laws or restrictions applicable to non-U.S. companies or investments in non-U.S. equity securities, and possible fluctuations in the rate of exchange between currencies are factors that could negatively affect the international securities markets. Moreover, the relevant European, Australian and Asian economies may differ favorably or unfavorably from the U.S. economy in economic factors such as growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency. Because some of the sub-indices comprising the Major 11 International Index have a greater weighting than others in calculating the value of the Major 11 International Index, fluctuations in the securities markets that those sub-indices measure will have a greater relative effect on the value of the Major 11 International Index than will fluctuations in securities markets measured by sub-indices with a lesser weighting.

Your return may be affected by currency exchange rates

Although the stocks included in the sub-indices are traded in currencies other than U.S. dollars and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for currency exchange rates in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the Major 11 International Index as adjusted by the Adjustment Factor. Changes in exchange rates, however, may reflect changes in the relevant European, Australian and Asian economies which in turn may affect the value of the sub-indices, the Major 11 International Index and the MITTS Securities.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "EUM", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market does continue to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the Major 11 International Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the Major 11 International

Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Major 11 International Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the Major 11 International Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the Major 11 International Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Major 11 International Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when

7

the value of the Major 11 International Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of your MITTS Securities. In general, rising dividend rates, or dividends per share, in the countries in which the stocks included in the sub-indices comprising the Major 11 International Index trade, may increase the value of the Major 11 International Index while falling dividend rates in these countries may decrease the value of the Major 11 International Index.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Additionally, changes in non-U.S. interest rates will affect the trading value of the MITTS Securities. In general, if interest rates increase in the countries in which the stocks included in the sub-indices trade, we expect the trading value of the MITTS Securities will increase and, conversely, if interest rates in these countries decrease, we expect the trading value of the MITTS Securities will decrease. The level of interest rates in these countries may also affect the applicable economies and, in turn, the value of the Major 11 International Index. Rising interest rates may lower the value of the Major 11 International Index and, thus, the MITTS Securities. Falling interest rates may increase the value of the Major 11 International Index and, thus, may increase the value of the MITTS Securities.

Changes in volatility of the Major 11 International Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the Major 11 International Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Major 11 International Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the value of the Major 11 International Index. This difference will reflect a "time premium" due to expectations concerning the value of the Major 11 International Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in the dividend yields of the stocks included in the sub-indices are expected to affect the trading value of the MITTS Securities. Generally, if dividend yields on the stocks included in the sub-indices comprising the Major 11 International Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on these stocks decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Major 11 International Index at maturity, an improvement in our credit ratings will not reduce the investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS

Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the Major 11 International Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

8

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the 1983 Indenture under which the MITTS Securities were issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the sub-indices or futures or options in the sub-indices for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks, the value of the sub-indices and, in turn, the value of the Major 11 International Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interests

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the Major 11 International Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Major 11 International Index. See "Description of the MITTS Securities--Adjustments to the Major 11 International Index; Market Disruption Events" and "--Discontinuance of the Major 11 International Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

There are uncertain tax consequences associated with an investment in the MITTS Securities

You should also consider the tax consequences of investing in the MITTS Securities, aspects of which are uncertain. See "United States Federal Income Taxation".

9

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;

- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

10

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
	-----	-----	-----	-----	-----	September 29, 2000
	-----	-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

11

#### DESCRIPTION OF THE MITTS SECURITIES

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus. The MITTS Securities will mature on May 26, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at Maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "Description of the MITTS Securities--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at Maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<CAPTION>  
<S>  
principal amount of each MITTS Security (\$10 per unit)=\$10 x 
$$\frac{\text{Adjusted Ending - Starting Value}}{\text{Starting Value}}$$
  
</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 126.56, the closing value of the Major 11 International Index on May 20, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Major 11 International Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the Major 11 International Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day, and if there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the Major 11 International Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the Major 11 International Index determined on the last scheduled Index Business Day in the Calculation Period, as reduced by the application of the Adjustment Factor on that day, regardless of the occurrence of a Market Disruption Event on that day.

The "Adjustment Factor" equals 1.5% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a pro-rated basis based on a 365-day year to reduce the value used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative

12

effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 9.99% less than the actual closing value of the Major 11 International Index on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is any day on which the New York Stock Exchange and the AMEX are open for trading and the Major 11 International Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

13

Hypothetical Returns

The following table illustrates, for a range of hypothetical closing values of the Major 11 International Index during the Calculation Period:

- . the percentage change from the Starting Value to the hypothetical closing value,

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in each sub-index comprising the Major 11 International Index, which includes an assumed aggregate dividend yield of 1.51% per annum, as more fully described below.

For the purposes of calculating this table, we have applied an Adjustment Factor of 1.5% per annum.

<TABLE>  
<CAPTION>

Annualized Hypothetical Closing Value During the Calculation Period	Percentage Change From the Starting Value to the Hypothetical Closing Value	Adjusted Ending Value(1)	Total Amount Payable at Maturity per Unit of the MITTS Securities	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities(2)	Pretax Rate of Return of Underlying Sub-
Index(2) (3)	Value	Value(1)	MITTS Securities	Securities	Securities(2)	Sub-

18.14%						

</TABLE>

- (1) The Adjusted Ending Values specified in this column are approximately 9.99% less than the hypothetical closing values of the Major 11 International Index as a result of the cumulative effect of the application of an Adjustment Factor of 1.5% per annum over the term of the MITTS Securities.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes:
  - (a) an investment of a fixed amount in the stocks included in the sub-indices with the allocation of this amount reflecting the current relative weights of these stocks in the sub-indices;
  - (b) a percentage change in the aggregate price of the stocks that equals the percentage change in the Major 11 International Index from the Starting Value to the relevant hypothetical closing value;
  - (c) a constant dividend yield of 1.51% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the Major 11 International Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical closing value;
  - (d) no transaction fees or expenses in connection with purchasing and

- holding stocks included in each sub-index;
- (e) an investment term from May 26, 1999 to May 26, 2006, and
  - (f) a final value of the Major 11 International Index equal to the hypothetical closing value.
- (4) This is the Starting Value of the Major 11 International Index.

14

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Major 11 International Index; Market Disruption Events

If at any time the AMEX changes its method of calculating the Major 11 International Index, or the value of the Major 11 International Index changes, in any material respect, or if the Major 11 International Index is in any other way modified so that the Major 11 International Index does not, in the opinion of the calculation agent, fairly represent the value of the Major 11 International Index had any changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the Major 11 International Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Major 11 International Index as if no changes or modifications had been made, and calculate the closing value with reference to the Major 11 International Index, as so adjusted. Accordingly, if the method of calculating the Major 11 International Index is modified so that the value of the Major 11 International Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Major 11 International Index in order to arrive at a value of the Major 11 International Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means, with respect to any sub-index, the occurrence or existence of any suspension of, or limitation imposed on, trading, by reason of movements in price exceeding limits permitted by the relevant exchange or otherwise, during the one-half hour period that ends at the regular official weekday time at which trading on the Index Exchange related to that sub-index occurs, on:

(A) the Index Exchange in securities that comprise 20% or more of the value of that sub-index or

(B) any exchanges on which futures or options on that sub-index are traded in those options or futures if, in the determination of the calculation agent, that suspension or limitation is material.

For the purpose of the above definition:

(1) a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular hours of the relevant exchange and

(2) a limitation on trading imposed during the course of a day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange will constitute a Market Disruption Event.

"Index Exchange" means, with respect to any sub-index, the principal exchange on which the shares comprising that sub-index are traded.

#### Discontinuance of the Major 11 International Index

If the AMEX discontinues publication of the Major 11 International Index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Major 11 International Index (a "successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by the AMEX or any other entity for the Major 11 International Index and calculate the closing value as described above under "--Payment at Maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

15

In the event that the AMEX discontinues publication of the Major 11 International Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Major 11 International Index in accordance with the procedures last used to calculate the Major 11 International Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Major 11 International Index as described below, the successor index or value will be used as a substitute for the Major 11 International Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the AMEX discontinues publication of the Major 11 International Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Major 11 International Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the MITTS Securities, provided, however, that the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See "--Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding was the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 6.45% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

16

#### Depository

##### Description of the Global Securities

Upon issuance, all MITTS Securities will be represented by one or more fully registered global securities. Each global security will be deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered

the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC will act as securities depository for the MITTS Securities. The MITTS Securities will be issued as fully registered securities registered in the name of Cede & Co. (DTC's nominee). One or more fully registered global securities will be issued for the MITTS Securities in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

17

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts such MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash

on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants shall be the responsibility of DTC, and disbursement of any payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS

18

Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

Settlement for the MITTS Securities will be made by the underwriter in immediately available funds. ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

19

#### THE MAJOR 11 INTERNATIONAL INDEX

The AMEX calculates and disseminates the value of the Major 11 International Index on each Index Business Day. The AMEX generally calculates and disseminates the value of the Major 11 International Index based on the most recently reported values of the sub-indices, at approximately 15-second intervals during the AMEX's business hours and the end of each Index Business Day via the Consolidated Tape Association's Network B. The Major 11 International Index value is reported by the AMEX and Bloomberg under the symbol "EUX" and by Reuters under the symbol ".EUX".

#### Determination of Index Multiplier for each sub-index

The AMEX determined the initial weighting of each sub-index at the close of business on November 20, 1997 based on the relative total market capitalization of each sub-index as of that date. The market capitalization of a stock equals the product of the total number of shares outstanding and the price per share of that stock. The total market capitalization of the stocks comprising each sub-index was determined using the most recently available information at that time concerning the number of shares outstanding for each stock contained in a sub-index and the most recently available price for each share of that stock. Then-current exchange rates were used to translate this market capitalization

information into U.S. dollars. The market capitalizations expressed in U.S. dollars of each sub-index were totaled. The weighting of each sub-index was then determined and equaled the percentage of the market capitalization for that sub-index relative to the total market capitalization. The index multiplier for each sub-index was then calculated and equaled:

- . the weighting for the sub-index multiplied by 100, divided by
- . the most recently available value of the sub-index.

The index multipliers were calculated in this way so that the index would equal 100.00 on November 20, 1997. The AMEX may adjust the index multiplier of any sub-index in the event of a significant change in how that sub-index is calculated, however, there will not be any periodic rebalancing of the Major 11 International Index to reflect changes in the relative market capitalizations of the sub-indices.

#### Computation of the Major 11 International Index

The AMEX calculates the Major 11 International Index by totaling the products of the most recently available value of each sub-index and the index multiplier applicable to each sub-index. Because the sub-indices are based on stocks traded on exchanges in Europe, Asia and Australia, once the applicable exchanges close and the values of the sub-indices become fixed until these exchanges reopen, the value of the Major 11 International Index will be fixed.

20

The following is a list of the sub-indices and certain information concerning each sub-index. All disclosure contained in this prospectus supplement regarding the sub-indices is derived from publicly available information.

#### Financial Times 100 Index--"FTSE 100"

Description of FTSE 100: The FTSE 100 is intended to provide an indication of the pattern of common stock price movement of the 100 common stocks with the largest market capitalization on the London Stock Exchange.

Publisher: FTSE International Limited

Required Disclosure: The FTSE is a registered trademark of the London Stock Exchange Limited and the Financial Times Limited.

#### Nikkei Stock Average, "Nikkei 225"

Description of Nikkei 225: The Nikkei 225 is intended to provide an indication of the pattern of common stock price movement of the 225 most actively traded common stocks on the Tokyo Stock Exchange. The Nikkei 225 is a modified price-weighted index which means that an underlying stock's weight in the Nikkei 225 is based on its price per share rather than the total market capitalization of the issuer.

Publisher: Nihon Keizai Shimbun, Inc. ("NKS")

Required Disclosure: NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus supplement that NKS makes any representation or warranty, implied or express, to ML&Co., the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

NKS has consented to the use of and reference to the Nikkei 225 in connection with the MITTS Securities.

#### Deutscher Aktienindex--"DAX(R) "

Description of DAX: The DAX is a total rate of return index measuring the performance of 30 common stocks on the Frankfurt Stock Exchange selected on the basis of their market capitalization and trading volume. A total rate of return index reflects both the price performance of the relevant common stocks as well as the dividends paid on these common stocks.

Publisher: Deutsche Borse AG

"DAX" is a registered trademark of Deutsche Borse AG.

21

Swiss Market Index--"SMI(R) "

Description of SMI: The SMI is intended to provide an indication of the pattern of common stock price movement of common stocks with the largest market capitalization and greatest liquidity on the Geneva, Zurich and Basle Stock Exchanges.

Publisher: Swiss Exchange SWX

Required Disclosure: These MITTS Securities are not in any way sponsored, endorsed, sold or promoted by the Swiss Exchange SWX and the Swiss Exchange SWX makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the SMI index (the "Index") and/or the figure at which the said Index stands at any particular time on any particular day or otherwise. The Index is compiled and calculated solely by the Swiss Exchange SWX. However, the Swiss Exchange SWX shall not be liable (whether in negligence or otherwise) to any person for any error in the Index and the Swiss Exchange SWX shall not be under any obligation to advise any person of any error therein.

SMI(R) is a registered trademark of the Swiss Exchange SWX.

Compagnie des Agents de Change 40 Index--"CAC 40"

Description of CAC 40: The CAC 40 is intended to provide an indication of the pattern of common stock price movement of the 40 common stocks with the largest market capitalization on the Paris Bourse.

Publisher: SBF-Paris Bourse

Required Disclosure: "CAC 40" is a registered trademark of the Societe des Bourses Francaises-Paris Bourse, which designates the index that the SBF-Paris Bourse calculates and publishes. Authorization to use the index and the "CAC 40" trademark in connection with the MITTS Securities has been granted by license.

The SBF-Paris Bourse, owner of the trademark and of the index, does not sponsor, endorse or participate in the marketing of the MITTS Securities. The SBF-Paris Bourse makes no warranty or representation to any person, express or implied, as to the figure at which the said index stands at any particular time, nor as to the results or performance of the MITTS Securities. Neither shall the SBF-Paris Bourse be under any obligation to advise any person of any error in the published level of the index.

Amsterdam Exchanges-index(R)--"AEX-index(R) "

Description of AEX: The AEX is intended to provide an indication of the pattern of common stock price movement of the 25 common stocks with the largest market capitalization on the Amsterdam Stock Exchange.

Publisher: AEX-Optiebeurs nv

Required Disclosure: "The AEX-index is a registered trademark of ASX Operations Pty Limited ("ASXO"), a wholly owned subsidiary of the Australian Stock Exchange Limited. ASXO has granted a licence for the use of the index on the basis that ASXO does not expressly or impliedly approve, endorse, make any judgement or express any opinion in respect of the MITTS Securities or any Index Products issued by the Licensee."

22

Milano Italia Borsa 30 Index--"MIB 30"

Description of MIB 30: The MIB 30 is intended to provide an indication of the pattern of common stock price movement of common stocks with the largest market capitalization and greatest liquidity on the Italian Stock Exchange.

Publisher: Borsa Italiana S.p.A.

Australia All Ordinaries Index--"XAO"

Description of XAO: The XAO is a capitalization-weighted index of 274 common stocks listed on the Australian Stock Exchange.

Publisher: ASX Operations Pty Limited

Required Disclosure: The XAO is a registered trade mark of ASX Operations Pty Limited or ASXO, a wholly-owned subsidiary of the Australian Stock Exchange Limited or ASX. ASXO has granted a license for the use of the XAO on the basis that ASXO does not expressly or by implication approve,

endorse, make any judgment or express any opinion in respect of the ML&Co. or the MITTS Securities. ASX and its related corporations, shall have no liability for any claim whatsoever where the claim arises wholly or substantially out of accident or negligence of ASX, its related corporations and their servants and agents as the case may be or acts of third parties; and without in any way limiting the generality of the foregoing, arising out of unavailability of the All Ordinaries Index or non-supply of the All Ordinaries Index.

OM Stockholm Exchange Index--"OMX index"

Description of OMX index: The OMX index is intended to provide an indication of the pattern of common stock price movement of the 30 common stocks with the largest volume of trading on the Stockholm Stock Exchange.

Publisher: OM Gruppen AB

Required Disclosure: The MITTS Securities are not in any way sponsored, endorsed, sold or promoted by OM Gruppen AB or OM and OM makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the OMX index and/or the figure at which the said OMX index stands at any particular time on any particular day or otherwise. The OMX index is compiled and calculated solely by an indexer on behalf of OM. However, OM shall not be liable whether in negligence or otherwise to any person for any error in the OMX index and OM shall not be under any obligation to advise any person of any error in the OMX index.

All rights to the trademark OMX, OMX INDEX are vested in OM Gruppen AB and are used under a license agreement with OM.

IBEX 35 Index--"IBEX 35"

Description of IBEX 35: The IBEX 35 is intended to provide an indication of the pattern of common stock price movement of the 35 common stocks with the greatest liquidity continuously traded and quoted on the Joint Stock Exchange System made up of the Barcelona, Bilbao, Madrid and Valencia stock exchanges.

Publisher: Sociedad de Bolsas, S.A.

23

Required Disclosure: Sociedad de Bolsas, S.A. does not warrant in any case nor for any reason whatsoever:

- (a) the continuity of the composition of the IBEX 35 exactly as it is today;
- (b) the continuity of the method for calculating the IBEX 35 exactly as it is calculated today;
- (c) the continuity of the calculation, formula and publication of the IBEX 35;
- (d) the precision, integrity or freedom from errors or mistakes in the composition and calculation of the IBEX 35; and
- (e) the adequacy of the IBEX 35 for the purposes expected in the issue of the MITTS Securities nor for dealing in the same.

AMEX Hong Kong 30 Index--"HK30"

Description of HK30: The HK30 is intended to provide an indication of the pattern of common stock price movement of 30 common stocks listed on the Hong Kong Stock Exchange and selected on the basis of market weight, trading liquidity and representation of business industry.

Publisher: The American Stock Exchange

Required Disclosure: The "AMEX Hong Kong 30 Index" is a service mark of the AMEX. The AMEX in no way sponsors, endorses or is otherwise involved in the issuance of the MITTS Securities, other than the fact that the MITTS Securities will be listed and traded on the AMEX and the AMEX will calculate and disseminate the Major 11 International Index, and the AMEX disclaims any liability to any party for any inaccuracy in the data on which the HK30 is based, for any mistakes, errors or omissions in the calculation, and/or dissemination of the HK30, or for the manner in which it is applied in connection with the issuance of the MITTS Securities.

AMEX has consented to the use and reference to the term "AMEX Hong Kong 30 Index".

The publisher of each sub-index will add or delete stocks due to events such as the bankruptcy or merger of the issuer of a stock. The publisher of a sub-index may reevaluate the composition of the stocks underlying the sub-index

at specified intervals to assure that they still meet the selection criteria or any ongoing eligibility criteria.

The publisher of a sub-index is under no obligation to continue the calculation and dissemination of that sub-index and that publisher may change the method by which that sub-index is calculated. The publishers of the sub-indices are under no obligation to take the needs of ML&Co. or the holders of the MITTS into consideration in determining, composing or calculating the sub-indices.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

#### 24

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The Holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of

ML&Co.; and

- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the Holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$5.5992 per unit. This represents an estimated yield on the MITTS Securities equal to 6.45% per annum (compounded semiannually).

The projected payment schedule (including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities (including both the Projected Supplemental Redemption Amount and an estimated yield equal to 6.45% per annum (compounded semiannually)) as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

Projected Supplemental Redemption Amount = \$5.5992 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any

28

document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 17th Floor, 222 Broadway, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may not sell these securities until the registration statement filed with +  
+ the Securities and Exchange Commission is effective. This prospectus is not +

+ an offer to sell these securities and it is not soliciting an offer to buy +  
+ these securities in any state where the offer and sale is not permitted. +

Merrill Lynch & Co., Inc.  
Market Index Target-Term Securities(R)  
based upon the Dow Jones Industrial Average(SM)  
due January 14, 2003  
"MITTS(R) Securities"  
\$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch,  
Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making  
offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>

<CAPTION>

The MITTS Securities:

<S>

- . 100% principal protection at maturity
- . No payments before the maturity date
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the index measuring the Dow Jones Industrial Average
- . The MITTS Securities are listed on the New York Stock Exchange under the symbol "DJM"

Payment at Maturity:

<C>

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the index, above a benchmark value of 8,594, as described in this prospectus
- . You will receive no less than the principal amount of your MITTS Securities

</TABLE>

Investing in the MITTS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment.

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 8,594. This will be true even if at some time during the life of the MITTS Securities, the value of the index, as adjusted, was higher than 8,594 but later falls below 8,594.

Your yield may be lower than the yield on a standard debt security of comparable maturity.

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account inflation and other factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the index.

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks. This is because the value of the index is calculated by reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

Your return will not reflect the payment of dividends.

The index is calculated with reference to the prices of the common stocks comprising the index without taking into consideration the value of dividends paid on those stocks. Therefore, the return you earn on your MITTS Securities, if any, will not be the same as the return that you would earn if you actually owned each of the common stocks underlying the index and received the dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities in the future.

Although the MITTS Securities are listed on the NYSE under the symbol "DJM," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor.

The trading value of the MITS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable

to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the index does or does not exceed 8,594. If you choose to sell your MITTS Securities when the value of the index exceeds 8,594, you may receive substantially less than the amount that would be payable at maturity based on that index value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index is determined. If you choose to sell your MITTS Securities when the value of the index is below 8,594, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates, or dividends per share, may increase the value of the index while falling U.S. dividend rates may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, may lower the value of the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that prior to the maturity of the MITTS Securities, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to January 14, 2003, the stated maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks comprising the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stock comprising the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities,

4

such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities except that we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law.

New York State laws govern the indenture under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS

Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return.

We and our affiliates may from time to time buy or sell the stocks underlying the Index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment.

Potential conflicts of interest.

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

5

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

6

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

7

DESCRIPTION OF THE MITTS SECURITIES

On December 23, 1997, ML&Co. issued an aggregate principal amount of \$90,000,000 or 9,000,000 units of the MITTS Securities.

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on January 14, 2003.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, ML&Co. will make no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<CAPTION>  
<S>

Principal Amount of each MITTS Security (\$10 per unit)	X	<C>
		Ending Index Value - Benchmark Index Value
		-----
		Benchmark Index Value

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Benchmark Index Value" equals 8,594, which was determined on the pricing date by multiplying 7,957.41, the value of the index on the pricing date by 108%.

The "Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Dow Jones Industrial Average Index (the "Index") determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

8

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Index or any Successor Index, as defined on page 10 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

9

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Index Values:

- . the percentage change from the starting index value to the Ending Index Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.72% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Hypothetical Ending Index Value	Percentage Change Over the Starting Index Value	Total Amount Payable at Maturity per \$10 Principal Amount of MITTS Securities	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities(1)	Pretax Annualized Rate of Return of Stocks Underlying the Index(1) (2)

15,119.08	90.00%	\$17.59	75.93%	11.47%	14.91%

15,914.82	100.00%	\$18.52	85.19%	12.55%	16.05%
16,710.56	110.00%	\$19.44	94.44%	13.57%	17.15%
17,506.30	120.00%	\$20.37	103.70%	14.56%	18.21%

</TABLE>

- 
- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
  - (2) This rate of return assumes:
    - (a) an investment of a fixed amount in the stocks underlying the Index with the allocation of an amount reflecting the current relative weights of the stocks in the Index;
    - (b) a percentage change in the aggregate price of the stocks that equals the percentage change in the Index from the starting index value to the relevant hypothetical Ending Index Value;

10

- (c) a constant dividend yield of 1.72% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming this value increases or decreases linearly from the starting index value to the hypothetical Ending Index Value;
  - (d) no transaction fees or expenses;
  - (e) the term of the MITTS Securities is from December 23, 1997 to January 14, 2003; and
  - (f) a final Index value equal to the hypothetical Ending Index Value. The aggregate dividend yield of the stocks underlying the Index as of December 17, 1997 was approximately 1.72%.
- (3) The starting index value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the respective total and pretax annualized rate of return will depend entirely on the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had the changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if any changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified for example, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events; as determined by the calculation agent:

(a) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in each case, in 20% or more of the stocks which then comprise the Index; or

(b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in

(1) futures contracts related to the Index, or options on these futures contracts, which are traded on any major U.S. exchange or

(2) option contracts related to the Index which are traded on any major U.S. exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

For the purposes of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

11

## Discontinuance of the Index

If Dow Jones discontinues publication of the Index and Dow Jones or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index, this index being referred to in this prospectus as a "Successor Index", then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by Dow Jones or any other entity for the Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If Dow Jones discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Index Calculation Day" shall mean any day on which the calculation agent is able to calculate a value.

If Dow Jones discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Index Value and
- . a determination by the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day.

the calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal (the "WSJ"), or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone. Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

## Events of Default and Acceleration

If an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "Description of the MITTS Securities--Payment at Maturity". If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of their beneficial owners, at the rate of 6.18% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on any date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

## Global Securities

### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, (DTC, together with any successor to DTC, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any a nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct

13

participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and

indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,

14

- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Unless otherwise stated, all information in this prospectus on the Index is derived from Dow Jones or other publicly available sources. This information reflects the policies of Dow Jones as stated in these sources and these policies are subject to change by Dow Jones. Dow Jones is under no obligation to continue to publish the Index and may discontinue publication of the Index at any time.

The Index is a price-weighted index, meaning that the weight of a component stock in the Index is based on its price per share rather than the total market capitalization of the issuer of a component stock, comprised of 30 common stocks chosen by the editors of the WSJ as representative of the broad market of U.S. industry. The corporations represented in the Index tend to be leaders within their respective industries and their stocks are typically widely held by individuals and institutional investors. Changes in the composition of the Index are made entirely by the editors of the WSJ without consultation with the corporations represented in the Index, any stock exchange, any official agency or ML&Co.. Changes to the common stocks included in the Index tend to be made

infrequently. Historically, most substitutions have been the result of mergers, but from time to time, changes may be made to achieve what the editors of the WSJ deem to be a more accurate representation of the broad market of U.S. industry. In choosing a new corporation for the Index, the editors of the WSJ look for leading industrial companies with a successful history of growth and wide interest among investors. The WSJ may change the component stocks of the Index at any time for any reason. Dow Jones, publisher of the WSJ, is not affiliated with ML&Co. and has not participated in any way in the creation of the MITTS Securities.

The Index initially consisted of 12 common stocks and was first published in the WSJ in 1896. The Index was increased to include 20 common stocks in 1916 and to 30 common stocks in 1928. The number of common stocks in the Index has remained at 30 since 1928, and, in an effort to maintain continuity, the constituent corporations represented in the Index have been changed on a relatively infrequent basis.

15

The value of the Index is the sum of the primary exchange prices of each of the 30 common stocks included in the Index, divided by a divisor that is designed to provide a meaningful continuity in the value of the Index. Because the Index is price-weighted, stock splits or changes in the component stocks could result in distortions in the Index value. In order to prevent these distortions related to extrinsic factors, the divisor is changed in accordance with a mathematical formula that reflects adjusted proportions within the Index. The current divisor of the Index is published daily in the WSJ and other publications. In addition, other statistics based on the Index may be found in a variety of publicly available sources.

ML&Co. or its affiliates may presently or from time to time engage in business with one or more of the issuers of the component stocks of the Index, including extending loans to, or making equity investments in these issuers or providing advisory services to these issuers, including merger and acquisition advisory services. In the course of this business, ML&Co. or its affiliates may acquire non-public information with respect to these issuers. ML&Co. does not make any representation to any purchaser of MITTS Securities with respect to any matters whatsoever relating to these issuers. Any prospective purchaser of MITTS Securities should undertake an independent investigation of the issuers of the component stocks of the Index as in its judgment is appropriate to make an informed decision with respect to an investment in the MITTS Securities. The composition of the Index does not reflect any investment or sell recommendations of ML&Co. or its affiliates.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

16

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money

secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any voting stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its voting stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of voting stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However,

17

without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is

required to modify or amend the 1983 Indenture; or

- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

18

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations, the "Final Regulations", concerning the proper United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$3.6070 per unit, the "Projected Supplemental Redemption Amount". This represents an estimated yield on the MITTS Securities equal to 6.18% per annum, compounded semiannually.

The projected payment schedule, including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of five years and twenty-two days

19

for the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the Projected Supplemental Redemption Amount and the estimated yield equal to 6.18% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per Unit) -----	Total Interest Deemed to Have Accrued On the MITTS Securities as of End of Accrual Period (per Unit) -----
<S>	<C>	<C>
January 15, 1998 through July 14, 1998.....	\$0.3101	\$0.3470
July 15, 1998 through January 14, 1999.....	\$0.3197	\$0.6667
January 15, 1999 through July 14, 1999.....	\$0.3296	\$0.9963
July 15, 1999 through January 14, 2000.....	\$0.3398	\$1.3361
January 15, 2000 through July 14, 2000.....	\$0.3503	\$1.6864
July 15, 2000 through January 14, 2001.....	\$0.3611	\$2.0475
January 15, 2001 through July 14, 2001.....	\$0.3723	\$2.4198
July 15, 2001 through January 14, 2002.....	\$0.3837	\$2.8035
January 15, 2002 through July 14, 2002.....	\$0.3957	\$3.1992
July 15, 2002 through January 14, 2003.....	\$0.4078	\$3.6070

</TABLE>

Projected Supplemental Redemption Amount = \$3.6070 per Unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of

these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

20

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

21

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified

opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Subject to Completion  
Preliminary Prospectus dated December 27, 2000

PROSPECTUS  
- - - - -

Merrill Lynch & Co., Inc.  
7 7/8% STRUCTURED YIELD PRODUCT EXCHANGEABLE FOR STOCK(SM)  
Due February 1, 2001  
"STRYPES (SM)"  
Payable with Shares of Common Stock of CIBER, Inc.  
or cash with an equal value

-----  
Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, will use this prospectus when making offers and sales related to market-making transactions in the STRYPES.

The issue price of each STRYPES was \$54.125, which was the last sale price of one share of common stock, par value \$.01 per share, of CIBER on January 26, 1998, as reported on the New York Stock Exchange. The STRYPES will mature on February 1, 2001.

What you will receive before the maturity date:

. On each February 1, May 1, August 1 and November 1, beginning May 1, 1998, we will pay you interest on the STRYPES in cash at the rate of 7 7/8% per year.

What you will receive on the maturity date:

. For each STRYPES you own, you will receive a number of shares of common stock of CIBER or an equivalent amount of cash according to the maturity price. The maturity price is the average closing price per share of common stock of CIBER on a number of days before the maturity date. The amount you will receive is also subject to adjustments, which are more fully described in this prospectus.

<TABLE>	<S>	<C>
	If the maturity price is:	You will receive:
(a)	greater than \$91.4713	.7692 shares of common stock of CIBER
(b)	less than \$91.4713 but greater than \$70.3625	a fractional share of the common stock of CIBER equal to \$70.3625
(c)	less than \$70.3625 but greater than or equal to \$54.125	one share of common stock of CIBER
(d)	less than \$54.125 but greater than \$51.4188	a number of shares of common stock equal to \$54.125, based on the maturity price

(e) less than \$51.4188  
</TABLE>

1.0526 shares of common stock of CIBER

Investing in the STRYPES involves risks, including the risk that your investment may result in a loss. See "Risk Factors" beginning on page 3.

The STRYPES are listed on the NYSE under the trading symbol "BOB".

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the STRYPES will be the prevailing price at the time of sale.

#### RISK FACTORS

Your investment in the STRYPES will involve risks. You should carefully consider the following discussion of risks before investing in the STRYPES. In addition, you should reach an investment decision with regard to the STRYPES only after consulting with your legal and tax advisers and considering the suitability of the STRYPES in the light of your particular circumstances.

You may suffer a loss on your investment

You should be aware that at maturity the amount you will receive may be less than the amount you paid for the STRYPES, which was \$54.125 per STRYPES. Although your investment in the STRYPES may be protected from a depreciation in the value of the common stock of CIBER, if the maturity price does not fall below the downside protection threshold price of \$51.4188, you will have only limited protection from a depreciation below 95% of the initial price of \$54.125. If the maturity price of the common stock of CIBER is less than the downside protection threshold price, the amount you may receive on the maturity date will be less than the issue price you paid for the STRYPES and, therefore, your investment in the STRYPES will result in a loss to you. Accordingly, you assume the risk that the market value of the common stock of CIBER may decline below 95% of the initial price of \$54.125, and that the decline could be substantial.

Your investment in the STRYPES may differ from an investment in other debt securities

The terms of the STRYPES differ from those of ordinary debt securities because the value of the common stock of CIBER or the equivalent amount in cash that you will receive on the maturity date is not fixed, but is based on the maturity price of the common stock of CIBER. Please review the section entitled "Description of the STRYPES".

There may be a limited opportunity for equity appreciation

Your opportunity for equity appreciation may be greater if you made a direct investment in the common stock of CIBER because the amount you may receive on the maturity date will exceed the initial appreciation cap of \$70.3625, which represents an appreciation of 30% over the initial price of \$54.125, only if the maturity price of the common stock of CIBER exceeds the threshold appreciation price of \$91.4713, which represents an appreciation of 69% over the initial price. Moreover, you will be entitled to receive on the maturity date only 76.92%, which is the percentage equal to the initial appreciation cap of \$70.3625 divided by the threshold appreciation price of \$91.4713, of any appreciation of the value of common stock of CIBER above the threshold appreciation price.

Because the price of the common stock of CIBER is subject to market fluctuations, the value of the common stock of CIBER or the amount of cash you may receive on the maturity date may be more or less than the issue price of the STRYPES. If the maturity price is less than the downside protection threshold price, you will have only limited protection from a depreciation below 95% of the initial price of \$54.125. Please review the section entitled "Description of the STRYPES".

There are many factors affecting the trading prices of the STRYPES

The trading prices of the STRYPES in the secondary market will be directly affected by the trading prices of the common stock of CIBER in the secondary market. It is impossible to predict whether the price of the common stock of CIBER will rise or fall because several factors may influence the trading prices of the common stock of CIBER. These factors include:

- . CIBER's operating results and prospects,
- . complex and interrelated political, economic, financial and other factors and market conditions that can affect (1) the capital markets generally, (2) the market segment of which CIBER is a part, or (3) the NYSE, on which the common stock of CIBER is traded, including the level of, and fluctuations in, the trading prices of stocks generally and sales of substantial amounts of the common stock of CIBER in the market subsequent to the offering of the STRYPES or the perception that these sales could occur, and
- . other events that are difficult to predict and are beyond our control.

3

There may be illiquidity of the STRYPES in the secondary market

It is not possible to predict how the STRYPES will trade in the secondary market or whether the secondary market for the STRYPES will be liquid or illiquid. The STRYPES are novel securities and there is currently no secondary market for the STRYPES. Although the STRYPES are listed on the NYSE under the symbol "BOB", you cannot assume

- . that an active trading market for the STRYPES will develop,
- . that listing on the NYSE will provide you with liquidity of investment,
- . that the STRYPES will not later be delisted, or
- . that trading of the STRYPES on the NYSE will not be suspended.

If the NYSE delists the STRYPES or suspends the trading of the STRYPES, we will apply for listing of the STRYPES on another national securities exchange or for quotation on another trading market. If the STRYPES are not listed or traded on any securities exchange or trading market, or if trading of the STRYPES is suspended, it may be more difficult to obtain pricing information for the STRYPES and the liquidity of the STRYPES may be adversely affected.

Investing in the STRYPES may affect the market for the common stock of CIBER

Any market that develops for the STRYPES is likely to influence and be influenced by the market for common stock of CIBER. For example, the price of common stock of CIBER could become more volatile and could be depressed

- . by investors' anticipation of the potential distribution into the market of substantial amounts of common stock of CIBER on the maturity date,

- . by possible sales of common stock of CIBER by investors who view the STRYPES as a more attractive means of equity participation in CIBER, and
- . by hedging or arbitrage trading activity that may develop involving the STRYPES and the common stock of CIBER.

As a holder of STRYPES, you have no stockholder's rights with respect to the common stock of CIBER

You will not be entitled to any rights, including voting rights and rights to receive any dividends, interest or other distributions, with respect to the common stock of CIBER until we have delivered the shares of common stock of CIBER on the maturity date. In addition, you will not be entitled to any rights if the applicable record date for the exercise of any rights occurs before we deliver the shares. For example, if an amendment is proposed to the amended and restated certificate of incorporation of CIBER and the record date for determining the stockholders of record entitled to vote on the amendment occurs before we deliver the

4

shares of common stock of CIBER, you, as a holder of the STRYPES, will not be entitled to vote on the proposed amendment.

CIBER has no obligations with respect to the STRYPES

We are not affiliated with CIBER. CIBER has no obligations with respect to the STRYPES or amounts to be paid to you, including any obligation to take our needs or yours, as a holder of the STRYPES, into consideration for any reason. CIBER will not receive any of the proceeds of this offering of the STRYPES. CIBER is not responsible for, and has not participated in, the determination of the timing of, prices for or quantities of the STRYPES to be issued, or the determination or calculation of the amount you will receive, as a holder of the STRYPES, on the maturity date. In addition, CIBER is not involved with the administration or trading of the STRYPES.

There may be a dilution of common stock of CIBER

The number of shares of common stock of CIBER or the equivalent amount of cash that you are entitled to receive on the maturity date is subject to adjustment for events such as:

- . a merger or consolidation in which CIBER is not the surviving or resulting corporation,
- . a sale or transfer of substantially all of the assets of CIBER,
- . the liquidation, dissolution, winding up or bankruptcy of CIBER,
- . stock splits and combinations, stock dividends, and
- . other actions of CIBER that modify its capital structure.

Please review the section entitled "Description of the STRYPES--Dilution Adjustments".

The number of shares of common stock of CIBER or the cash amount that you may receive as a holder of the STRYPES on the maturity date will not be adjusted for other events not specifically provided, such as offerings of common stock of CIBER by CIBER for cash or in connection with acquisitions.

In addition, no adjustments will be made for any sales of common stock of CIBER by any principal stockholder of CIBER, including the contracting stockholder. The contracting stockholder is Bobby G. Stevenson, who individually and as settlor, beneficiary and trustee of the 1998 Bobby G. Stevenson Revocable Trust, is the contracting stockholder. At December 31, 1997, the contracting stockholder owned beneficially approximately 27% of the outstanding common stock of CIBER. CIBER is not restricted from issuing additional shares of common stock of CIBER during the term of the STRYPES. Because the contracting stockholder can exercise significant influence on the business and affairs of CIBER, any decision to issue additional shares of common stock of CIBER will be influenced by the contracting stockholder. The principal stockholders of CIBER, including the contracting stockholder, are also not precluded from selling shares of common stock of CIBER under Rule 144 under the Securities Act or by causing CIBER to register shares.

Neither CIBER nor any stockholder of CIBER, including the contracting stockholder, has any duty or obligation to consider the interests of the holders of the STRYPES for any reason. Additional issuances or sales may materially and adversely affect the price of the common stock of CIBER. Because of the relationship of the number of shares of common stock of CIBER or the cash amount you will receive on the maturity date to the price of the common stock of CIBER, other events may adversely affect the trading price of the STRYPES. You cannot assume that CIBER will not take any of the foregoing actions or that CIBER or

any of its principal stockholders, including the contracting stockholder, it will not make offerings of, or that will not sell any, common stock of CIBER in the future, or as to the amount of any such offerings or sales.

5

The tax treatment of STRYPES is uncertain

Because of an absence of authority as to the proper characterization of the STRYPES, their ultimate tax treatment is uncertain. Accordingly, you cannot assume that any particular characterization and tax treatment of the STRYPES will be accepted by the Internal Revenue Service or upheld by a court. However, it is the opinion of Brown & Wood LLP, counsel to ML&Co., that the characterization and tax treatment of the STRYPES described in this prospectus, while not the only reasonable characterization and tax treatment, is based on reasonable interpretations of law currently in effect and, even if successfully challenged by the IRS, will not result in the imposition of penalties. Under the 1983 indenture, which is more fully described in this prospectus, if you are subject to United States Federal income tax, you must include currently in income, for United States Federal income tax purposes, payments denominated as interest that are made with respect to a STRYPES in accordance with your regular method of tax accounting. In addition, ML&Co. and you, as a holder of the STRYPES, are required to treat each STRYPES for tax purposes as a unit consisting of:

- . a debt instrument with a fixed principal amount unconditionally payable on the maturity date equal to the issue price of the STRYPES and bearing interest at the stated interest rate on the STRYPES and
- . a forward purchase contract under which you agree to use the principal payment due on the debt instrument to purchase on the maturity date the common stock of CIBER which ML&Co. is obligated to deliver at that time, subject to ML&Co.'s right to deliver cash instead of common stock of CIBER.

Upon the acquisition of a STRYPES and upon your sale or other disposition of a STRYPES before the maturity date, the amount paid or realized be allocated between the debt instrument and the forward contract based upon their relative fair market values, as determined on the date of acquisition or disposition. For these purposes, with respect to acquisitions of STRYPES in connection with the original issuance thereof, ML&Co. and you agree, under the terms of the 1983 indenture, to assign \$56.78 or 104.91% of the initial purchase price of a STRYPES to the debt instrument and to assign \$2.655 or 4.91% of the initial purchase price of a STRYPES to the forward contract.

Because the appropriate character and timing of income, gain or loss to be recognized on a STRYPES is uncertain, you should consult your own tax advisors concerning the application of the United States Federal income tax laws to your particular situation and any consequences of the purchase, ownership and disposition of the STRYPES arising under the laws of any other taxing jurisdiction.

Our holding company structure may affect your right to participate in any distribution of assets of any subsidiary

Since we are a holding company, our right and the right of our creditors, including you, as a holder of STRYPES, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent a bankruptcy court may recognize our claims as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to us are restricted by net capital requirements under the Exchange Act and under rules of exchanges and other regulatory bodies.

6

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;

- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the STRYPES described in this prospectus.

7

PAGE>

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	-----					Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
	----	----	----	----	----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

CIBER, INC.

CIBER is a nationwide provider of information technology consulting, including application software staff supplementation, management consulting solutions for "business/IT" problems, package software implementation services, system life-cycle project responsibility, millennium date change conversion services and networking procurement and engineering services. CIBER's revenues are generated from two areas, the CIBER Information Services ("CIS") Division and CIBER's Solutions Consulting Group ("CIBER Solutions"). The CIS Division provides application software development and maintenance services and, through its CIBR2000 Division, millennium date change solutions. CIBER Solutions provides services through CIBER's wholly-owned subsidiaries Spectrum Technology Group, Inc. ("Spectrum"), Business Information Technology, Inc. ("BIT") and CIBER Network Services, Inc. ("CNSI"). Spectrum provides information technology consulting solutions to business problems, specifically in the areas of data warehousing, data modeling and enterprise architecture, as well as project management and system integration services. BIT specializes in the

implementation and integration of human resource and financial software application products, plus workflow automation and manufacturing/distribution software systems, primarily for client/server networks. A substantial portion of BIT's revenues is derived from assisting clients implementing PeopleSoft, Inc. software. CNSI provides a wide range of local-area and wide-area network solutions, from design and procurement to installation and maintenance, with services including Internet and intranet connectivity.

CIBER is subject to the informational requirements of the Exchange Act. Accordingly, CIBER files reports, proxy and information statements and other information with the SEC. Copies of such material can be inspected and copied at the public reference facilities maintained by the SEC. Reports, proxy and information statements and other information concerning CIBER may also be inspected at the offices of the NYSE. The SEC maintains a Web site at <http://www.sec.gov> containing reports, proxy and information statements and other information regarding registrants, including CIBER, that file electronically with the SEC.

ML&CO. is not affiliated with CIBER, and CIBER has no obligations with respect to the STRYPES. This prospectus relates only to the STRYPES offered hereby and does not relate to the common stock of CIBER. CIBER has filed a registration statement on Form S-3 with the SEC with respect to the shares of common stock of CIBER that may be received by a holder of STRYPES on the maturity date. The prospectus of CIBER constituting a part of such registration statement includes information relating to CIBER and the common stock of CIBER, as well as a discussion of certain risk factors relevant to an investment in common stock of CIBER. The prospectus of CIBER does not constitute a part of this prospectus nor is it incorporated by reference in this prospectus.

#### DESCRIPTION OF THE STRYPES

ML&Co. issued the STRYPES as a series of Senior Debt Securities issued under the 1983 indenture, which is more fully described in this prospectus. The following summary of material provisions of the 1983 indenture does not purport to be complete and is qualified in its entirety by reference to the 1983 indenture. A copy of the 1983 indenture is filed as an exhibit to the registration statement of which this prospectus is a part.

Each STRYPES, which was issued at an issue price of \$54.125 (the "Initial Price"), bears interest at the rate of 70% of the issue price per annum, or \$4.2623 per annum, from January 30, 1998, or from the most recent Interest Payment Date to which interest has been paid or provided for, until the maturity date or the earlier date on which the issue price of the STRYPES is repaid pursuant to the terms of the STRYPES. Interest on the STRYPES is payable in cash quarterly in arrears on February 1, May 1, August 1 and November 1, beginning May 1, 1998, and on the maturity date (each, an "Interest Payment Date"), to the persons in whose names the STRYPES are registered at the close of business on the fifteenth calendar day, whether or not a Business Day, immediately preceding the Interest Payment Date. Interest on the STRYPES will be computed on the basis of a 360-day year of twelve 30-day months. If an Interest Payment Date falls on a day that is not a Business Day, the interest payment to be made on the Interest Payment Date will be made on

9

the next succeeding Business Day with the same force and effect as if made on the Interest Payment Date, and no additional interest will accrue as a result of the delayed payment.

The maturity date of the STRYPES is February 1, 2001. On the maturity date, ML&Co. will pay and discharge each STRYPES by delivering to the holder of the STRYPES a number of shares of common stock of CIBER, subject to ML&Co.'s right to deliver, with respect to all, but not less than all, shares of common stock of CIBER deliverable on the maturity date, cash with an equal value. The number of shares that ML&Co. will deliver is referred to in this prospectus as the "Payment Rate". ML&Co. will determine the Payment Rate according to the following Payment Rate Formula, which is subject to adjustment as a result of dilution events described in this prospectus.

- (a) If the Maturity Price (as defined below) is greater than or equal to \$91.4713 (the "Threshold Appreciation Price"), the holder of STRYPES will receive 0.7692 shares of common stock of CIBER per STRYPES;
- (b) If the Maturity Price is less than the Threshold Appreciation Price but is greater than \$70.3625 (the "Initial Appreciation Cap"), the holder of STRYPES will receive a fractional share of common stock of CIBER per STRYPES so that the value of the fractional share, which will be determined based on the Maturity Price, equals the Initial Appreciation Cap;
- (c) If the Maturity Price is less than or equal to the Initial Appreciation Cap but is greater than or equal to the Initial Price, the holder of STRYPES will receive one share of common stock of CIBER per STRYPES;

- (d) If the Maturity Price is less than the Initial Price but is greater than or equal to \$51.4188 (the "Downside Protection Threshold Price"), the holder of STRYPES will receive a number of shares of common stock of CIBER per STRYPES so that the value of the shares, which will be determined based on the Maturity Price, equals the Initial Price; and
- (e) If the Maturity Price is less than the Downside Protection Threshold Price, the holder of STRYPES will receive 1.0526 shares of common stock of CIBER per STRYPES.

The Maturity Price will represent a determination of the value of a share of common stock of CIBER immediately before the maturity date. You, as a holder of the STRYPES, cannot assume that the amount you will receive on the maturity date will be equal to or greater than the issue price of the STRYPES. If the Maturity Price of the common stock of CIBER is less than the Downside Protection Threshold Price, the amount you will receive on the maturity date will be less than the issue price paid for the STRYPES, in which case your investment in STRYPES will result in a loss. The numbers of shares of common stock of CIBER per STRYPES specified in clauses (a), (c) and (e) of the Payment Rate Formula are referred to in this prospectus as the "Share Components".

Notwithstanding the foregoing, ML&Co. may, in lieu of delivering shares of common stock of CIBER, deliver cash in an amount equal to the value of the number of shares of common stock of CIBER at the Maturity Price, subject to ML&Co.'s agreement contained in the forward purchase contract to deliver on the maturity date the form of consideration that the ML&Co. Subsidiary receives from the contracting stockholder. The right to deliver cash, if exercised by ML&Co., must be exercised with respect to all shares of common stock of CIBER otherwise deliverable on the maturity date in payment of all Outstanding STRYPES. On or before the sixth Business Day before the maturity date, ML&Co. will notify the Securities Depository and the trustee and publish a notice in The Wall Street Journal or another daily newspaper of national circulation stating whether the STRYPES will be paid and discharged with shares of common stock of CIBER or cash. At the time the notice is published, the Maturity Price will not have been determined. If ML&Co. delivers shares of common stock of CIBER, holders of the STRYPES will be responsible for the payment of any and all brokerage costs upon the subsequent sale of the common stock.

10

The "Maturity Price" means the average Closing Price per share of common stock of CIBER on the 20 Trading Days immediately before, but not including, the second Trading Day preceding the maturity date.

The "Closing Price" of any security on any date of determination means (1) the closing sale price or, if no closing price is reported, the last reported sale price, of such security on the NYSE on such date, or (2) if such security is not listed for trading on the NYSE on any date of determination, as reported in the composite transactions for the principal United States securities exchange on which the security is so listed, or (3) if the security is not so listed on a United States national or regional securities exchange, as reported by the National Association of Securities Dealers, Inc. Automated Quotation System, (4) or if the security is not so reported, the last quoted bid price for the security in the over-the-counter market as reported by the National Quotation Bureau or similar organization, or (5) if the bid price is not available, the market value of the security on the date of determination as determined by a nationally recognized independent investment banking firm retained for this purpose by ML&Co. In the event that the Payment Rate Formula is adjusted as described under "-Dilution Adjustments" below, each of the Closing Prices used in determining the Maturity Price will be similarly adjusted to derive, for purposes of determining which clause of the Payment Rate Formula will apply on the maturity date, a Maturity Price stated on a basis comparable to the Downside Protection Threshold Price, the Initial Price, the Initial Appreciation Cap and the Threshold Appreciation Price.

A "Trading Day" means a day on which the security the Closing Price of which is being determined (A) is not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business and (B) has traded at least once on the national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of the security.

The term "Business Day" means any day that is not a Saturday, a Sunday or a day on which the NYSE or banking institutions or trust companies in The City of New York are authorized or obligated by law or executive order to close.

11

#### Hypothetical Payments at Maturity

For illustrative purposes only, the following table shows the number of shares of common stock of CIBER or the amount of cash that a holder of STRYPES would receive for each STRYPES at various hypothetical Maturity Prices. The

table assumes that there will be no dilution adjustments to the Payment Rate Formula as described below. Given the Downside Protection Threshold Price of \$51.42, the Initial Price of \$54.13, the Initial Appreciation Cap of \$70.36 and the Threshold Appreciation Price of \$91.47, a STRYPES holder would receive on the maturity date the following number of shares of common stock of CIBER or, if ML&Co. elects to pay and discharge the STRYPES with cash, the amount of cash per STRYPES:

<TABLE>  
<CAPTION>

Maturity Price of Common Stock of CIBER ----- <S>	Number of Shares of Common Stock of CIBER ----- <C>	Amount of Cash* ----- <C>
\$45.13	1.0526	\$47.50
49.13	1.0526	51.71
51.42	1.0526	54.13
52.13	1.0384	54.13
54.13	1.0000	54.13
59.13	1.0000	59.13
64.13	1.0000	64.13
70.36	1.0000	70.36
74.13	0.9492	70.36
79.13	0.8893	70.36
84.13	0.8364	70.36
91.47	0.7692	70.36
94.13	0.7692	72.40
99.13	0.7692	76.25

</TABLE>

\* The preceding table does not take into account interest payable on the STRYPES. Dollar amounts in the table have been rounded to two decimal places and share amounts have been rounded to four decimal places.

#### Dilution Adjustments

The Payment Rate Formula is subject to adjustment if CIBER shall:

- (1) pay a stock dividend or make a distribution with respect to common stock of CIBER in shares of the stock;
  - (2) subdivide or split the outstanding shares of common stock of CIBER into a greater number of shares;
  - (3) combine the outstanding shares of common stock of CIBER into a smaller number of shares;
  - (4) issue by reclassification of shares of common stock of CIBER any shares of common stock of CIBER;
  - (5) issue rights or warrants to all holders of common stock of CIBER entitling them to subscribe for or purchase shares of common stock of CIBER at a price per share less than the then current market price of the common stock of CIBER, other than rights to purchase common stock of CIBER pursuant to a plan for the reinvestment of dividends or interest; or
- 12
- (6) pay a dividend or make a distribution to all holders of common stock of CIBER of evidences of its indebtedness or other assets, excluding any stock dividends or distributions referred to in clause (1) above or any cash dividends other than any Extraordinary Cash Dividend (as defined below), or issue to all holders of common stock of CIBER rights or warrants to subscribe for or purchase any of its securities, other than those referred to in clause (5) above.

In the case of the events referred to in clauses (1), (2), (3) and (4) above, the Payment Rate Formula shall be adjusted so that each holder of any STRYPES shall thereafter be entitled to receive, upon payment and discharge of the STRYPES, the number of shares of common stock of CIBER or, in the case of a reclassification referred to in clause (4) above, the number of shares of other common stock of CIBER issued pursuant to the reclassification, which the holder would have owned or been entitled to receive immediately following any event had the STRYPES been paid and discharged immediately before the event in clauses (1), (2), (3) and (4) or any record date with respect to the event.

In the case of the event referred to in clause (5) above, the Payment Rate Formula shall be adjusted by multiplying each of the Share Components in the Payment Rate Formula in effect immediately before the date of issuance of the rights or warrants referred to in clause (5) above by a fraction, (A) the numerator of which shall be the number of shares of common stock of CIBER

outstanding on the date of issuance of the rights or warrants, immediately before the issuance, plus the number of additional shares of common stock of CIBER offered for subscription or purchase pursuant to the rights or warrants, and (B) the denominator of which shall be the number of shares of common stock of CIBER outstanding on the date of issuance of the rights or warrants, immediately before the issuance, plus the number of additional shares of common stock of CIBER which the aggregate offering price of the total number of shares of common stock of CIBER so offered for subscription or purchase pursuant to the rights or warrants would purchase at the current market price, which shall be determined by multiplying the total number of shares by the exercise price of the rights or warrants and dividing the product so obtained by the current market price. The current market price shall be the average Closing Price per share of common stock of CIBER on the 20 Trading Days immediately before the date the rights or warrants are issued, subject to certain adjustments. To the extent that shares of common stock of CIBER are not delivered after the expiration of the rights or warrants, the Payment Rate Formula shall be readjusted to the Payment Rate Formula which would then be in effect had the adjustments for the issuance of the rights or warrants been made upon the basis of delivery of only the number of shares of common stock of CIBER actually delivered.

In the case of the event referred to in clause (6) above, the Payment Rate Formula shall be adjusted by multiplying each of the Share Components in the Payment Rate Formula in effect on the record date referred to below by a fraction, (A) the numerator of which shall be the market price per share of the common stock of CIBER on the record date for the determination of stockholders entitled to receive the dividend or distribution or the rights or warrants referred to in clause (6) above, and (B) the denominator of which shall be the market price per share of common stock of CIBER less the fair market value as of the record date of the portion of the assets or evidences of indebtedness to be distributed or of the subscription rights or warrants applicable to one share of common stock of CIBER. The market price in the above fraction shall be the average Closing Price per share of common stock of CIBER on the 20 Trading Days immediately before the record date, subject to certain adjustments. The Board of Directors of ML&Co. shall determine the fair market value in the above fraction; their determination of the fair market value shall be conclusive and described in a resolution adopted with respect thereto.

An "Extraordinary Cash Dividend" means, with respect to any consecutive 12-month period, the amount, if any, by which the aggregate amount of all cash dividends on the common stock of CIBER occurring in the 12-month period, excluding any the dividends occurring in the period for which a prior adjustment to the Payment Rate Formula was previously made, exceeds on a per share basis 10% of the average of the Closing Prices per share of the common stock of CIBER over the 12-month period. All adjustments to the Payment Rate Formula will be calculated to the nearest 1/10,000th of a share of common stock of CIBER or, if there is not a nearest 1/10,000th of a share, to the next lower 1/10,000th of a share. No adjustment in the Payment

13

Rate Formula shall be required unless the adjustment would require an increase or decrease of at least one percent therein; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment. If an adjustment is made to the Payment Rate Formula as described above, an adjustment will also be made to the Maturity Price solely to determine which clause of the Payment Rate Formula will apply on the maturity date. The required adjustment to the Maturity Price will be made by multiplying each of the Closing Prices used in determining the Maturity Price by a fraction, the numerator of which shall be the Share Component in clause (c) of the Payment Rate Formula immediately after the adjustment described above, and the denominator of which shall be the Share Component in clause (c) of the Payment Rate Formula immediately before the adjustment described above. Each adjustment to the Payment Rate Formula shall be made successively.

In the event of a "Reorganization Event", which is:

- (A) any consolidation or merger of CIBER, or any surviving entity or subsequent surviving entity of CIBER (a "CIBER Successor"), with or into another entity, other than a consolidation or merger in which CIBER is the continuing corporation and in which the common stock of CIBER outstanding immediately before the consolidation or merger is not exchanged for cash, securities or other property of CIBER or another corporation,
- (B) any sale, transfer, lease or conveyance to another entity of the property of CIBER or any CIBER Successor as an entirety or substantially as an entirety,
- (C) any statutory exchange of securities of CIBER or any CIBER Successor with another entity, other than in connection with a merger or acquisition, or
- (D) any liquidation, dissolution, winding up or bankruptcy of CIBER or any

the Payment Rate Formula used to determine the amount payable on the maturity date for each STRYPES will be adjusted to provide that each holder of STRYPES will receive cash on the maturity date for each STRYPES. The holder will receive cash in an amount equal to

- (a) if the Transaction Value (as defined below) is greater than or equal to the Threshold Appreciation Price, 0.7692, subject to adjustment in the same manner and to the same extent as the Share Components in the Payment Rate Formula are adjusted as described above, multiplied by the Transaction Value,
- (b) if the Transaction Value is less than the Threshold Appreciation Price but greater than the Initial Appreciation Cap, the Initial Appreciation Cap,
- (c) if the Transaction Value is less than or equal to the Initial Appreciation Cap but is greater than or equal to the Initial Price, the Transaction Value,
- (d) if the Transaction Value is less than the Initial Price but is greater than or equal to the Downside Protection Threshold Price, the Initial Price and
- (e) if the Maturity Price is less than the Downside Protection Threshold Price, 1.0526, subject to adjustment in the same manner and to the same extent as the Share Components in the Payment Rate Formula are adjusted as described above, multiplied by the Transaction Value.

"Transaction Value" means (1) for any cash received in any the Reorganization Event, the amount of cash received per share of common stock of CIBER, (2) for any property other than cash or securities received in any Reorganization Event, an amount equal to the market value on the third Business Day preceding the maturity date of the property received per share of common stock of CIBER as determined by a nationally

14

recognized independent investment banking firm retained for this purpose by ML&Co. and (3) for any securities received in any Reorganization Event, an amount equal to the average Closing Price per unit of the securities on the 20 Trading Days immediately before, but not including, the second Trading Day preceding the maturity date multiplied by the number of the securities, subject to adjustment on a basis consistent with the adjustment provisions described above, received for each share of common stock of CIBER; provided, however, if one or more adjustments to the Payment Rate Formula shall have become effective before the effective date for the Reorganization Event, then the Transaction Value determined in accordance with the foregoing shall be adjusted by multiplying the Transaction Value by the Share Component in clause (c) of the Payment Rate Formula immediately before the effective date for the Reorganization Event. Notwithstanding the foregoing, if any Marketable Securities (as defined below) are received by holders of common stock of CIBER in the Reorganization Event, then in lieu of delivering cash as provided above, ML&Co. may at its option deliver a proportional amount of the Marketable Securities. If ML&Co. elects to deliver Marketable Securities, holders of the STRYPES will be responsible for the payment of any and all brokerage and other transactional costs upon the sale of the securities.

"Marketable Securities" means any securities listed on a U.S. national securities exchange or reported by NASDAQ.

No adjustments will be made for other events, such as offerings of common stock of CIBER by CIBER for cash or in connection with acquisitions. Likewise, no adjustments will be made for any sales of common stock of CIBER by any principal stockholder of CIBER, including the contracting stockholder.

ML&Co. is required, within ten Business Days following the occurrence of an event that requires an adjustment to the Payment Rate Formula or, if ML&Co. is not aware of the occurrence of an event, as soon as practicable after becoming so aware, to provide written notice to the trustee and to the holders of the STRYPES of the occurrence of the event and a statement in reasonable detail setting forth the adjusted Payment Rate Formula and the method by which the adjustment to the Payment Rate Formula was determined; provided that, in respect of any adjustment to the Maturity Price, the notice will only disclose the factor by which each of the Closing Prices used in determining the Maturity Price is to be multiplied in order to determine the Payment Rate on the maturity date. Until the maturity date, the Payment Rate itself cannot be determined.

Securities Depository

#### Description of the Global Securities

The STRYPES are represented by one or more fully registered global securities. Each global security has been deposited with, or on behalf of, The

Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for STRYPES in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of the successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the STRYPES represented by a global security for all purposes under the 1983 indenture. Except as provided below, the beneficial owners of the STRYPES represented by a global security are not entitled to have the STRYPES represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the STRYPES in definitive form and are not considered the owners or holders under the 1983 indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee pursuant to the 1983 indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if the person is not a participant of DTC on the procedures of the participant through which the person owns its interest, to

15

exercise any rights of a holder under the 1983 indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take action, and the participants would authorize beneficial owners owning through the participants to give or take the action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the STRYPES. The STRYPES have been issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One or more fully registered global securities have been issued for the STRYPES in the aggregate principal amount of such issue, and has been deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the 1934 Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of STRYPES under DTC's system must be made by or through direct participants, which will receive a credit for the STRYPES on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such beneficial owner entered into the transaction. Transfers of ownership interests in the STRYPES are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all STRYPES deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of STRYPES with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the STRYPES; DTC's records reflect only the identity of the direct

participants to whose accounts such STRYPES are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

16

Neither DTC nor Cede & Co. will consent or vote with respect to the STRYPES. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the STRYPES are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments on the STRYPES will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on such date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of such payments to direct participants is the responsibility of DTC, and disbursement of such payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- (a) the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, and
- (c) an Event of Default under the 1983 indenture has occurred and is continuing with respect to the STRYPES,

the global securities will be exchangeable for STRYPES in definitive form of like tenor and of an equal aggregate principal amount. The definitive STRYPES will be registered in such name or names as the depository shall instruct the trustee. It is expected that such instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, STRYPES in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Fractional Shares

No fractional shares of common stock of CIBER will be delivered if ML&Co. pays and discharges the STRYPES by delivering shares of common stock of CIBER. In lieu of any fractional share otherwise deliverable in respect of all STRYPES of any holder on the maturity date, the holder shall be entitled to receive an amount in cash equal to the value of the fractional share at the Maturity Price.

#### No Redemption, Sinking Fund or Payment Before Maturity

The STRYPES are not subject to redemption before the maturity date at the option of ML&Co. and do not contain sinking fund or other mandatory redemption provisions. The STRYPES are not subject to payment before the maturity date at the option of the holder.

17

#### Ranking

The STRYPES are unsecured obligations and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co.

There are no contractual restrictions on the ability of ML&Co. or its subsidiaries to incur additional secured or unsecured debt. However, borrowings by certain subsidiaries, including MLPF&S, are restricted by net capital requirements under the Exchange Act and under rules of exchanges and other regulatory bodies.

#### Listing

The STRYPES are listed on the NYSE under the trading symbol "BOB".

#### OTHER TERMS

ML&Co. issued the STRYPES as a series of senior debt securities under the 1983 indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 indenture is filed as an exhibit to the registration statement relating to the STRYPES of which this prospectus is a part. The following summaries of the material provisions of the 1983 indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 indenture, including the definitions of terms in the 1983 indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 indenture.

The 1983 indenture and the STRYPES are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or

18

trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or

- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional

19

Amounts payable on any senior debt security;

- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 indenture and waive compliance by ML&Co. with provisions in the 1983 indenture, except as described under "--Events of Default".

20

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written

notice as provided in the 1983 indenture;

- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 indenture. Before proceeding to exercise any right or power under the 1983 indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The STRYPES and other series of senior debt securities issued under the 1983 indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 indenture.

#### CERTAIN ARRANGEMENTS WITH THE CONTRACTING STOCKHOLDER

Pursuant to the forward purchase contract, the contracting stockholder is obligated to deliver to the ML&Co. Subsidiary on the Business Day immediately preceding the maturity date a number of shares of common stock of CIBER equal to the number required by ML&Co. to pay and discharge all of the STRYPES, including any STRYPES issued pursuant to the over-allotment option granted by ML&Co. to the Underwriter. In lieu of delivering shares of common stock of CIBER on the Business Day immediately preceding the maturity date, the contracting stockholder has the right to satisfy his obligation under the forward purchase contract by delivering cash in an amount equal to the value of the number of shares of common stock of CIBER at the Maturity Price. The right to deliver cash, if exercised by the contracting stockholder, must be exercised with respect to all shares of common stock of CIBER then deliverable pursuant to the forward purchase contract. Under the forward purchase contract, ML&Co. has agreed to pay and discharge the STRYPES by delivering to the holders thereof on the maturity date the form of consideration that the ML&Co. Subsidiary receives from the contracting stockholder.

The consideration to be paid by the ML&Co. Subsidiary under the forward purchase contract is \$71,315,820 in the aggregate which was paid to the contracting stockholder on January 30, 1998. No other consideration is payable by the ML&Co. Subsidiary to the contracting stockholder in connection with its acquisition of the common stock of CIBER or the performance of the forward purchase contract by the contracting stockholder. ML&Co. has agreed with the contracting stockholder that, without the prior consent of the contracting stockholder, it will not amend, modify or supplement the 1983 indenture or the STRYPES in any respect that would adversely affect any obligation of the contracting stockholder under the forward purchase contract, including, without limitation, increasing the consideration that the contracting stockholder is obligated to deliver pursuant to the forward purchase contract.

Until such time, if any, as the contracting stockholder shall have delivered shares of common stock of CIBER to the ML&Co. Subsidiary pursuant to the terms of the forward purchase contract, the contracting stockholder will retain all ownership rights with respect to the common stock of CIBER held by him. The ownership rights include, among others, voting rights and rights to receive any dividends or other distributions.

The contracting stockholder has no duties or obligations with respect to the STRYPES or amounts to be paid to holders thereof, including any duty or obligation to take the needs of ML&Co. or holders of the STRYPES into consideration in determining whether to deliver shares of common stock of CIBER or cash or for any other reason. The forward purchase contract among ML&Co., the ML&Co. Subsidiary, The Bank of New York, as agent for and on behalf of the ML&Co. Subsidiary, and the contracting stockholder is a commercial transaction and does not create any rights in, or for the benefit of, any third party, including any holder of STRYPES.

To the extent that the contracting stockholder does not perform under the forward purchase contract, ML&Co. will be required to otherwise acquire shares of common stock of CIBER for delivery to holders of the STRYPES on the maturity date, unless, in the case of shares deliverable on the maturity date, it elects to exercise its option to deliver cash with an equal value.

Merrill Lynch Capital Corporation, a wholly owned subsidiary of ML&Co., has entered into a secured loan agreement with Bobby G. Stevenson, as trustee of the 1998 Bobby G. Stevenson Revocable Trust. Under the loan agreement, Mr. Stevenson, as trustee of the 1998 Bobby G. Stevenson Revocable Trust, will borrow approximately \$20,567,930 for a term of three years.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York,

22

and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the STRYPES and other securities. For further information on ML&Co. and the STRYPES, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

23

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we

will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the STRYPES and is to be used by MLPF&S when making offers and sales related to market-making transactions in the STRYPES.

MLPF&S may act as principal or agent in these market-making transactions.

24

The STRYPES may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the STRYPES will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

RISK FACTORS

Your investment in the ProGroS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the ProGroS Securities. In addition, you should reach an investment decision with regard to the ProGroS Securities only after consulting with your legal and tax advisors and considering the suitability of the ProGroS Securities in the light of your particular circumstances.

We may redeem the ProGroS Securities before the stated maturity date

We may elect to redeem all of the ProGroS Securities in the manner and times described in this prospectus. We are likely to call the ProGroS Securities during a period when the secondary market price of the ProGroS Securities is approximately equal to the applicable redemption price. We can, however, call the ProGroS Securities during the specified periods described in this prospectus at our option regardless of the secondary market price of the ProGroS Securities. In the event that we elect to call the ProGroS Securities, you will receive only the relevant redemption price and no additional amount based on the price of the common stock of Oracle Corporation.

You may not earn a return on your investment

You should be aware that if the ending value of Oracle common stock, determined as described in this prospectus, does not exceed \$29.1875, the closing price of Oracle common stock on the date the ProGroS Securities were initially priced for sale to the public, at the stated maturity, you will only receive the principal amount of your ProGroS Securities. This will be true even if the value of Oracle common stock, at some time during the life of the ProGroS Securities, was higher than \$29.1875 but later falls below \$29.1875.

You should compare the features of the ProGroS Securities to other available investments before deciding to purchase the ProGroS Securities. Due to the uncertainty as to whether the ProGroS Securities will earn a return or be redeemed before the stated maturity date, the returns which you may receive with respect to the ProGroS Securities may be higher or lower than the returns available on other investments. You should reach an investment decision only after carefully considering the suitability of the ProGroS Securities in light of your particular circumstances.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you consider the effect of factors that affect the time value of money.

Your return will not reflect the payment of dividends

The calculation of the starting and ending values of the Oracle common stock does not take into consideration the value of dividends paid on that stock, if any. Therefore, the return you earn on the ProGroS Securities, if any, will not be the same as the return that you would earn if you actually owned shares of Oracle common stock and received any dividends paid on that stock.

There may be an uncertain trading market for the ProGroS Securities in the future

Although the ProGroS Securities are listed on the AMEX under the symbol "OPG", you cannot assume that a trading market will continue to exist for the ProGroS Securities. If a trading market in the ProGroS Securities continues to exist, you cannot assume that there will be liquidity in that trading market. The continued

existence of a trading market for the ProGroS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the price of Oracle common stock.

If the trading market for the ProGroS Securities is limited, there may be a limited number of buyers if you decide to sell your ProGroS Securities. This may affect the price you receive. Furthermore, it is unlikely that the secondary market price of the ProGroS Securities will correlate exactly with the market price of the Oracle common stock.

Many factors affect the trading value of the ProGroS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

Our ability to call the ProGroS Securities before their stated maturity date is likely to limit the secondary market price at which the ProGroS Securities will trade. In particular, we expect that the secondary market price of the ProGroS Securities generally will not exceed the applicable redemption price because of our ability to call the ProGroS Securities and pay only that redemption price. We believe that if we did not have the right to call the ProGroS Securities, the secondary market price of the ProGroS Securities would likely be significantly different.

We believe that the market value of the ProGroS Securities will be affected by the price of Oracle common stock and by a number of other factors in addition to our ability to call the ProGroS Securities before their stated maturity date. Some of these factors are interrelated in complex ways; as a result, the effect of any one factor may be offset or magnified by the effect of another factor. The following paragraphs describe the expected impact on the market value of the ProGroS Securities given a change in a specific factor, assuming all other conditions remain constant.

**The Value of Oracle Common Stock Will Affect the Value of the Securities.**  
We expect that the market value of the ProGroS Securities will depend on the amount by which the price of Oracle common stock exceeds \$29.1875, the value of Oracle common stock on the date the ProGroS Securities were initially priced for sale to the public. If you choose to sell your ProGroS Securities when the price of Oracle common stock exceeds \$29.1875, you may receive substantially less than the amount that would be payable at the stated maturity date based on that price because of the expectation that the price of Oracle common stock will continue to fluctuate until its final value as described in this prospectus is determined.

If you choose to sell your ProGroS Securities when the price of Oracle common stock is below \$29.1875, you may receive less than the principal amount of your ProGroS Securities. As of the date of this prospectus, Oracle has not paid dividends on its common stock. As a general matter, if dividends are ever paid on Oracle common stock, a rising dividend rate, i.e., dividends per share, may increase the price of Oracle common stock while a falling dividend rate may decrease its price. Political, economic and other developments may also affect the price of Oracle common stock and the value of the ProGroS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the ProGroS Securities. We expect that the trading value of the ProGroS Securities will be affected by changes in interest rates. As a general matter during the earlier years of the ProGroS Securities, if U.S. interest rates increase, we expect that the trading value of the ProGroS Securities will decrease and if U.S. interest rates decrease, we expect the trading value of the ProGroS Securities will increase. However, interest rates may also affect the economy and, in turn, the price of Oracle common stock. Rising interest rates may lower the price of Oracle common stock and the ProGroS Securities. Falling interest rates may increase the value of Oracle common stock and the value of the ProGroS Securities.

Changes in volatility of Oracle common stock are expected to affect the trading value of the ProGroS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of Oracle common stock increases, we expect that the trading value of the ProGroS Securities will increase. If the volatility of Oracle common stock decreases, we expect that the trading value of the ProGroS Securities will decrease.

As the time remaining to maturity of the ProGroS Securities decreases, the "time premium" associated with the ProGroS Securities will decrease. The ProGroS Securities may trade at a value above that which would be expected based on the level of interest rates and the price of Oracle common stock. This difference will reflect a "time premium" due to expectations concerning the price of Oracle common stock during the period prior to the stated

maturity date of the ProGroS Securities. However, as the time remaining to the stated maturity date of the ProGroS Securities decreases, we expect that this time premium will decrease, potentially lowering the trading value of the ProGroS Securities.

Changes in dividend yields of Oracle common stock are expected to affect the trading value of the ProGroS Securities. If dividends are ever paid on Oracle common stock, the dividend yield that would result would likely affect the value of the ProGroS Securities. If the dividend yield on Oracle common stock were to increase, we expect that the value of the ProGroS Securities would decrease. Conversely, if the dividend yield on Oracle common stock were to decrease, we expect that the value of the ProGroS Securities would increase.

Changes in our credit ratings may affect the trading value of the ProGroS Securities. Our credit ratings are an assessment of our ability to pay our

obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the ProGroS Securities. However, because your return on your ProGroS Securities is dependent upon factors in addition to our ability to pay our obligations under the ProGroS Securities, such as the percentage increase in the value of Oracle common stock at maturity, an improvement in our credit ratings will not reduce investment risks related to the ProGroS Securities.

It is important for you to understand that the impact of one of the factors specified above, such as an increase in interest rates, may offset some or all of any increase in the trading value of the ProGroS Securities attributable to another factor, such as an increase in the price of Oracle common stock.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the ProGroS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the ProGroS Securities than if it occurs earlier in the term of the ProGroS Securities except that we expect that the effect on the trading value of the ProGroS Securities of a given increase in the value of Oracle common stock will be greater if it occurs later in the term of the ProGroS Securities than if it occurs earlier in the term of the ProGroS Securities.

You will not have any stockholder's rights with respect to the Oracle common stock

Beneficial owners of the ProGroS Securities are not entitled to any rights with respect to Oracle common stock, including, voting rights and rights to receive any dividends or other distributions in respect of that stock.

No affiliation between ML&Co. and Oracle Corporation

ML&Co. has no affiliation with Oracle Corporation, and Oracle Corporation has no obligations with respect to the ProGroS Securities or amounts to be paid to you, including any obligation to take the needs of ML&Co. or of beneficial owners of the ProGroS Securities into consideration for any reason. Oracle Corporation did not receive any of the proceeds of the initial offering of the ProGroS Securities and is not responsible for, and has not participated in, the determination or calculation of the amount receivable by beneficial owners of the ProGroS Securities on the stated maturity date or upon an earlier redemption. In addition, Oracle Corporation is not involved with the administration or trading of the ProGroS Securities.

There may be state law limits on the payment of amounts payable on the ProGroS Securities

New York State law governs the indenture under which the ProGroS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the ProGroS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the ProGroS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

5

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell Oracle common stock for our own accounts for business reasons or in connection with hedging our obligations under the ProGroS Securities. These transactions could affect the price of Oracle common stock and the return on your ProGroS Securities.

Potential conflicts

The calculation agent, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our subsidiary. Under some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the ProGroS Securities could give rise to conflicts of interests. You should be aware that because we control the calculation agent, potential conflicts of interest could arise.

6

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill

Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the ProGros Securities described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

#### DESCRIPTION OF PROGROS SECURITIES

The ProGros Securities were issued as a series of Senior debt securities under the 1983 indenture which is more fully described in this prospectus.

The ProGros Securities will mature on March 31, 2003 unless called earlier at the option of ML&Co.

Unless called, while at maturity a beneficial owner will receive the principal amount of each ProGroS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "-Payment at Maturity" below.

The ProGroS Securities may be called by ML&Co. as described below, but are not subject to redemption at the option of any beneficial owner before the stated maturity date. Upon the occurrence of an Event of Default with respect to the ProGroS Securities, beneficial owners of the ProGroS Securities may accelerate the maturity of the ProGroS Securities, as described under "-Events of Default and Acceleration" and "Other Terms-Events of Default" in this Prospectus.

The ProGroS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the stated maturity date, a beneficial owner of a ProGroS Security will be entitled to receive the principal amount of each unit plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Amount is not greater than zero, a beneficial owner of a ProGroS Security will be entitled to receive only the principal amount of its ProGroS Securities.

The "supplemental redemption amount" for a ProGroS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	(Ending Value - Starting Value)
principal amount of each ProGroS Security (\$10 per unit) X	(-----)
	( Starting Value )
</TABLE>	

provided, however, that in no event will the supplemental redemption amount be less than zero.

The "starting value" equals \$29.1875.

The "ending value" will be determined by the calculation agent and will equal the arithmetic average or arithmetic mean of the last prices of Oracle common stock determined on each of the first five calculation days during the calculation period. If there are fewer than five calculation days in the calculation period, then the ending value will equal the arithmetic average or arithmetic mean of the last prices of Oracle common stock on these calculation days, and if there is only one calculation day, then the ending value will equal the Last price of Oracle common stock on that calculation day. If no calculation days occur during the calculation period, then the ending value will equal the last price of Oracle common stock determined on the last scheduled calculation day in the calculation period, regardless of the occurrence of a Market disruption event on that day.

The "calculation period" means the period from and including the seventh scheduled calculation day prior to the stated maturity date to and including the second scheduled calculation day before the stated maturity date.

"calculation day" means any trading day during the calculation period on which a Market disruption event has not occurred.

9

"trading day" is a day on which shares of Oracle common stock

- (a) are not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business and
- (b) have traded at least once on a national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of Oracle common stock.

"market disruption event" means the occurrence or existence on any trading day during the one-half hour period that ends when the last price is determined of any suspension of, or limitation imposed on, trading in Oracle common stock on the National Association of Securities Dealers, Inc. Automated Quotation System or other market or exchange, if applicable.

"last price" means the last sales price of Oracle common stock as reported by the NASDAQ NMS or, if that security is not trading on the NASDAQ NMS on any date, as reported in the composite transactions for the principal United States securities exchange on which that security is so listed, or if that security is not so listed on a United States national or regional securities exchange, the last quoted bid price for that security in the over-the-counter market as reported by the National Quotation Bureau or similar organization, or, if the bid price is not available, the market value of that security on that date as

determined by a nationally recognized independent investment banking firm retained for this purpose by the calculation agent.

"business day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a trading day on the NYSE.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the ProGroS Securities.

10

Early Call of the ProGroS Securities at the Option of ML&Co.

Beginning April 1, 1999, ML&Co., in its sole discretion, may elect to call the ProGroS Securities offered hereby, in whole but not in part, before the stated maturity date by giving notice to the Trustee of ML&Co.'s election on any business day within the month of April in 1999, 2000, 2001 or 2002, at the related call price:

Call Period	Call Price
-----	-----
April, 1999	116% of principal amount
April, 2000	132% of principal amount
April, 2001	148% of principal amount
April, 2002	164% of principal amount

If we elect to call your ProGroS Securities prior to the stated maturity date, you will receive only the relevant call price and you will not receive a supplemental redemption amount based on the price of Oracle common stock. If we do not call the ProGroS Securities prior to the stated maturity date, the principal amount plus the supplemental redemption amount, if any, that you receive at the stated maturity may be greater than or less than any of the call prices. ML&Co. may elect to call the ProGroS Securities on any business day during a call period by giving notice to the Trustee and specifying the date on which the call price shall be paid. The call date shall be no later than the 20th Business day after any call election. The Trustee will provide notice of any call election to the registered holders of the ProGroS Securities, specifying the call date, no later than 15, nor more than 30, days before the call date. While the ProGroS Securities are held at the Depositary, the registered holder will be the Depositary, and the Depositary will receive the notice of the call. As more fully described below under "Description of ProGroS Securities--Depositary", the Depositary will forward any notice to its participants which will pass any notice on to the beneficial owners.

11

Hypothetical Returns

The following table illustrates, for a range of hypothetical ending values:

- . the total amount payable at the stated maturity date for each unit of ProGroS Securities,
- . the total rate of return to beneficial owners of the ProGroS Securities and
- . the pretax annualized rate of return to beneficial owners of ProGroS Securities.

This table assumes that the ProGroS Securities are not called prior to the stated maturity date.

<TABLE>  
<CAPTION>

Hypothetical Ending value	Percentage Change Over the Starting value	Total Amount Payable at the Stated Maturity Date per Unit	Total Rate of Return	Pretax Annualized Rate of Returns(1)

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) The starting value equals \$29.1875.

The above figures are for purposes of illustration only. The actual supplemental redemption amount received by investors and the total and pretax annualized rate of return resulting therefrom will depend entirely on the actual ending value determined by the calculation agent as provided in this prospectus.

#### Dilution Adjustments

The Last prices used to determine the ending value are subject to adjustment if Oracle Corporation shall:

- (a) pay a stock dividend or make a distribution with respect to Oracle common stock in shares of Oracle common stock;
  - (b) subdivide or split the outstanding shares of Oracle common stock into a greater number of shares;
  - (c) combine the outstanding shares of Oracle common stock into a smaller number of shares;
- 12
- (d) issue by reclassification of shares of Oracle common stock any shares of common stock of Oracle Corporation;
  - (e) issue rights or warrants to all holders of Oracle common stock entitling them to subscribe for or purchase shares of Oracle common stock at a price per share less than the then current market price of Oracle common stock (other than rights to purchase Oracle common stock pursuant to a plan for the reinvestment of dividends or interest); or
  - (f) pay a dividend or make a distribution to all holders of Oracle common stock of evidences of its indebtedness or other assets, excluding any stock dividends or distributions referred to in clause (a) above or any cash dividends other than any extraordinary cash dividend or issue to all holders of Oracle common stock rights or warrants to subscribe for or purchase any of its securities, other than those referred to in clause (e) above, any of the foregoing are referred to as the "Distributed Assets". The effect of the foregoing is that there will not be any adjustments to the ending value for the issuance by Oracle Corporation of options, warrants, stock purchase rights or securities in connection with the employee benefit plans of Oracle Corporation.

All adjustments will be calculated to the nearest 1/10,000th of a share of Oracle common stock or if there is not a nearest 1/10,000th of a share to the next lower 1/10,000th of a share. No adjustment shall be required unless any adjustment would require an increase or decrease of at least one percent in the last price; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment.

An "Extraordinary cash dividend" means, with respect to any consecutive 12-month period, all cash dividends on Oracle common stock during that period to the extent any dividends exceed on a per share basis 10% of the average last price of Oracle common stock over that period less any dividends for which a prior adjustment was previously made.

In the event of

- (a) any consolidation or merger of Oracle Corporation, or any surviving entity or subsequent surviving entity of Oracle Corporation, a "Successor Company", with or into another entity, other than a merger or consolidation in which Oracle Corporation is the continuing corporation and in which Oracle common stock outstanding immediately prior to the merger or consolidation is not exchanged for cash, securities or other property of Oracle Corporation or another corporation,
- (b) any sale, transfer, lease or conveyance to another corporation of the property of Oracle Corporation or any Successor Company as an entirety or substantially as an entirety,
- (c) any statutory exchange of securities of Oracle Corporation or any

Successor Company with another corporation, other than in connection with a merger or acquisition or

- (d) any liquidation, dissolution, winding up or bankruptcy of Oracle Corporation or any Successor Company, any event described in clause (a), (b), (c) or (d), a "reorganization event", the ending value shall equal the reorganization event value.

The "reorganization event value" shall be determined by the calculation agent and shall equal

- . the transaction value related to the relevant Reorganization Event, plus
- . interest on the transaction value accruing from the date of the payment or delivery of the consideration, if any, received in connection with that Reorganization Event until the stated maturity date at a fixed interest rate determined on the date of that payment or delivery equal

13

to the interest rate that would be paid on a standard senior non-callable debt security of ML&Co. with a term equal to the remaining term of the ProGroS Securities.

The "transaction value" means

- . for any cash received in any reorganization event, the amount of cash received per share of Oracle common stock,
- . for any property other than cash or securities received in any reorganization event, an amount equal to the market value of property received per share on the date that the property is received by holders of Oracle common stock as determined by the calculation agent, and
- . for any securities received in any reorganization event, an amount equal to the last price per unit of securities on the date the securities are received by holders of Oracle common stock multiplied by the number of the securities received for each share of Oracle common stock, subject to adjustment on a basis consistent with the adjustment provisions described above.

The foregoing adjustments shall be made by MLPF&S, as calculation agent, and all adjustments shall be final.

No adjustments will be made for other events, such as offerings of Oracle common stock by Oracle Corporation for cash or in connection with acquisitions.

ML&Co. will, within ten business days following the occurrence of an event that requires an adjustment or if ML&Co. is not aware of occurrence, as soon as practicable after becoming so aware, provide written notice to the Trustee, which shall provide notice to the holders of the ProGroS Securities of the occurrence of any event and, if applicable, a statement in reasonable detail setting forth the adjusted last price to be used in determining the ending value.

#### Events of Default and Acceleration

In case an event of default with respect to any ProGroS Securities has occurred and is continuing, the amount payable to a beneficial owner of a ProGroS Security upon any acceleration permitted by the ProGroS Securities, with respect to each unit, will be equal to the principal amount and the supplemental redemption amount, if any, calculated as though the date of early repayment were the stated maturity date of the ProGroS Securities. See "Description of ProGroS Securities--Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a ProGroS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the ProGroS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the stated maturity date of the ProGroS Securities.

In case of default in payment of the ProGroS Securities whether at the call date, at the stated maturity date, or upon acceleration, from and after the stated maturity date the ProGroS Securities shall bear interest, payable upon demand of their beneficial owners, at the rate of 5.96% per annum to the extent that payment of interest shall be legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the ProGroS Securities to the date payment of that amount has been made or duly provided for.

#### Global Securities

Description of the Global Securities.

The ProGroS Securities are represented by one or more fully registered global securities. Each global security has been deposited with, or on behalf of, The Depository Trust Company or DTC, together with any successor thereto, being a "depository", as depository, registered in the name of Cede & Co., DTC's partnership

14

nominee. Unless and until it is exchanged in whole or in part for ProGroS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the Depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the ProGroS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the ProGroS Securities represented by a global security will not be entitled to have the ProGroS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the ProGroS Securities in definitive form and will not be considered the owners or holders of the ProGroS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the ProGroS Securities. The ProGroS Securities have been issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities have been issued for the ProGroS Securities in the aggregate principal amount of that issue, and has been deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the 1934 Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of ProGroS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the ProGroS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which that beneficial owner entered into the transaction. Transfers of ownership interests in the ProGroS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

15

To facilitate subsequent transfers, all ProGroS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of ProGroS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the ProGroS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the ProGroS Securities are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the ProGroS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the ProGroS Securities are credited on the record date, identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the ProGroS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the Trustee, disbursement of the payments to direct participants is the responsibility of DTC, and disbursement of the payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- (a) the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, and
- (c) an event of default under the 1983 indenture has occurred and is continuing with respect to the ProGroS Securities,

the global securities will be exchangeable for ProGroS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive ProGroS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that these instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the Depository. In that event, ProGroS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

16

#### Same-Day Payment

All payments of principal and the supplemental redemption amount, and call price if any, and will be made by ML&Co. in immediately available funds so long as the ProGroS Securities are maintained in book-entry form.

ORACLE COMMON STOCK

Oracle Corporation

Oracle Corporation supplies software for information management. Oracle Corporation offers its database, tools and application products, along with related consulting, education, and support services in more than 140 countries

around the world.

Oracle Corporation is subject to the informational requirements of the Exchange Act. Accordingly, Oracle Corporation files reports, proxy and other information statements and other information with the SEC. Information provided to or filed with the SEC by Oracle Corporation is available at the offices of the Commission. ML&Co. makes no representation or warranty as to the accuracy or completeness of these reports.

ML&Co. is not affiliated with Oracle Corporation and Oracle Corporation has no obligations with respect to the ProGroS Securities. This prospectus relates only to the ProGroS securities offered by this prospectus and does not relate to Oracle common stock or other securities of Oracle Corporation. The information contained in this prospectus regarding Oracle Corporation has been derived from the publicly available documents described in the preceding paragraph. ML&Co. has not participated in the preparation of these documents or made any due diligence inquiries with respect to Oracle Corporation in connection with the initial offering of the ProGroS Securities. ML&Co. makes no representation that any publicly available documents or any other publicly available information regarding Oracle Corporation are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this prospectus, including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph, that would affect the trading price of Oracle common stock have been publicly disclosed. Subsequent disclosure of any events or the disclosure of or failure to disclose material future events concerning Oracle Corporation could affect the Supplemental Redemption Amount to be received at the stated maturity date and therefore the trading value of the ProGroS Securities.

From time to time, in the ordinary course of business, affiliates of ML&Co. have engaged in investment banking activities on behalf of the Oracle Corporation as well as served as counterparty in other transactions.

Oracle common stock is traded on the NASDAQ NMS under the trading symbol "ORCL".

#### OTHER TERMS

ML&Co. issued the ProGroS Securities as a series of senior debt securities under the 1983 indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as Trustee. A copy of the 1983 indenture is filed as an exhibit to the registration statement relating to the ProGroS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 indenture, including the definitions of terms in the 1983 indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 indenture.

17

The 1983 indenture and the ProGroS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from some subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered Voting Stock whether or not the event has happened.

Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:

18

- . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
- . perform and observe of all of ML&Co.'s obligations under the 1983 indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 indenture.

Modification and Waiver

The 1983 indenture may be modified and amended by ML&Co. and the trustee with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or additional amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or additional amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or additional amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each

holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be events of default with respect to senior debt securities of any series:

- . default in the payment of any interest or additional amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;

19

- . default in the performance of any other obligation of ML&Co. contained in the indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other event of default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 indenture.

If an event of default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all events of default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of that series may waive any event of default with respect to any series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 indenture. Before proceeding to exercise any right or power under the 1983 indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The ProGroS Securities and other series of senior debt securities issued under the 1983 indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 indenture.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about

the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

20

We have filed a registration statement on Form S-3 with the SEC covering the ProGroS Securities and other securities. For further information on ML&Co. and the ProGroS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

21

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the ProGroS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the ProGroS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The ProGroS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the ProGroS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Preliminary Prospectus dated December 27, 2000

PROSPECTUS  
- -----

Merrill Lynch & Co., Inc.  
Telebras Indexed Callable  
Protected Growth(SM) Securities due May 19, 2005  
"ProGroS(SM) Securities"  
\$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the ProGroS Securities.

<TABLE>  
<CAPTION>

The ProGroS Securities:  
<S>

- . 100% principal protected if held to maturity
- . Callable prior to the stated maturity date by Merrill Lynch & Co., Inc.

which

- . No payments before the stated maturity date unless called by Merrill Lynch & Co., Inc.

holders

- . Senior unsecured debt securities of Merrill Lynch & the Co., Inc.

- . The ProGroS Securities are listed on the American Stock Exchange under the symbol "PGT".

</TABLE>

Payment at Maturity:  
<C>

- . On the maturity date, for each unit of the ProGroS Securities you own, we will pay you an amount equal to the sum of principal amount of each unit and an additional amount based on the percentage increase, if any, in the price of an American Depositary Receipt

trades on the NYSE representing the common stock of Telecommunicacoes Brasileiras S.A. - Telebras and the value of securities, cash or property received by

of ADR in corporate reorganizations of Telebras over term of the ProGroS Securities.

- . You will receive no less than principal amount of your ProGroS Securities.

Investing in the ProGroS Securities involves risks.  
See "Risk Factors" beginning on page 3.

Neither the Securities and Exchange SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the ProGroS Securities will be the prevailing market price at the time of sale.

#### RISK FACTORS

Your investment in the ProGroS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the ProGroS Securities. In addition, you should reach an investment decision with regard to the ProGroS Securities only after consulting with your legal and tax advisers and considering the suitability of the ProGroS Securities in the light of your particular circumstances.

We may call the ProGroS Securities before the stated maturity date

We may elect to call all of the ProGroS Securities in the manner and times described in this prospectus. We are likely to call the ProGroS Securities during the month of June 2004 when the secondary market price of the ProGroS Securities is approximately equal to the applicable call price during such period. We can, however, call the ProGroS Securities during the specified periods at our option regardless of the secondary market price of the ProGroS Securities. In the event that we elect to call the ProGroS Securities, you will receive only the relevant call price and no additional amount based on the price of the American Depositary Receipt representing Common Stock Telebras or Telebras Receipt.

You may not earn a return on your investment

You should be aware that if the ending value of Telebras Receipt determined as described in this prospectus, does not exceed \$115.4375 at the stated maturity, you will only receive the principal of your ProGroS Securities. This will be true even if the value of the Telebras Receipt, at some time during the life of the ProGroS Securities was higher than the \$115.4375.

You should compare the features of the ProGroS Securities to other available investments before deciding to purchase the ProGroS Securities. Due to the uncertainty as to whether the ProGroS Securities will earn a return or be called before the stated maturity date, the returns which you may receive with respect to the ProGroS Securities may be higher or lower than the returns available on other investments. You should reach an investment decision only after carefully considering the suitability of the ProGroS Securities in light of your particular circumstances.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you consider the effect of factors that affect the time value of money.

Your return will not reflect the payment of dividends

The calculation of the starting and ending values of the Telebras Receipt does not take into consideration the value of dividends paid on the Telebras Receipt, if any. Therefore, the return you earn on the ProGroS Securities, if any, will not be the same as the return that you would earn if you actually owned the Telebras Receipt and received any dividends paid on the common stock of Telebras.

There may be an uncertain trading market for the ProGroS Securities in the future

Although the ProGroS Securities are listed on the AMEX under the symbol "PGT", you cannot assume that a trading market will continue to exist for the ProGroS Securities. If a trading market in the ProGroS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the ProGroS Securities will depend on the financial performance and other factors such as the appreciation, if any, of the price of Telebras Receipt.

If the trading market for the ProGroS Securities is limited, there may be a limited number of buyers if you decide to sell your ProGroS Securities. This may affect the price you receive. Furthermore, it is unlikely that

3

the secondary market price of the ProGroS Securities will correlate exactly with the market price of the Telebras Receipt.

Many factors affect the trading value of the ProGroS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor.

Our ability to call the ProGroS Securities before the stated maturity date is likely to limit the secondary market price at which the ProGroS Securities will trade. In particular, we expect that the secondary market price of the ProGroS Securities will not exceed the applicable call price because of our ability to call the ProGroS Securities and pay only the call price. We believe that if we did not have the right to call the ProGroS Securities, the secondary market price of the ProGroS Securities would likely be significantly different.

We believe that the market value of the ProGroS Securities will be affected by the value of the Telebras Receipt and by a number of other factors in addition to our ability to call the ProGroS Securities before the stated maturity date. Some of these factors are interrelated in complex ways; as a result, the effect of any one factor may be offset or magnified by the effect of another factor. The following paragraphs describe the expected impact on the market value of the ProGroS Securities given a change in a specific factor, assuming all other conditions remain constant.

Value of the Telebras Receipt. We expect that the market value of the ProGroS Securities will depend on the amount by which the price of Telebras Receipt exceeds \$115.4375, the value of Telebras Receipt on the date the ProGroS Securities were initially priced for sale to the public. If you choose to sell your ProGroS Securities when the price of Telebras Receipt exceeds \$115.4375, you may receive substantially less than the amount that would be payable at the stated maturity date based on that price because of the expectation that the price of Telebras Receipt will continue to fluctuate until its final value as described in this prospectus is determined.

If you choose to sell your ProGroS Securities when the price of Telebras Receipt is below \$115.4375, you may receive less than the principal amount of your ProGroS Securities. As a general matter, if dividends are ever paid on Telebras Receipt, a rising dividend rate, i.e., dividends per share, may increase the price of Telebras Receipt while a falling dividend rate may decrease its price. Political, economic and other developments may also affect

the price of Telebras Receipt and the value of the ProGroS Securities.

Changes in the levels of U.S. interest rates and Brazilian interest rates are expected to affect the trading value of the ProGroS Securities. We expect that the trading value of the ProGroS Securities will be affected by changes in interest rates. As a general matter during the earlier years of the ProGroS Securities, if U.S. interest rates increase, we expect that the trading value of the ProGroS Securities will decrease and if U.S. interest rates decrease, we expect the trading value of the ProGroS Securities will increase. However, interest rates in Brazil and the U.S. may also affect the economies of Brazil and the U.S. and, in turn, the prices of the reference securities. Rising interest rates may lower the prices of the reference securities and the ProGroS Securities. Falling interest rates may increase the prices of the reference securities and the value of the ProGroS Securities.

Changes in volatility of the reference securities are expected to affect the trading value of the ProGroS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the reference securities increases, we expect that the trading value of the ProGroS Securities will increase. If the volatility of the reference securities decreases, we expect that the trading value of the ProGroS Securities will decrease.

As the time remaining to maturity of the ProGroS Securities decreases, the "time premium" associated with the ProGroS Securities will decrease. The ProGroS Securities may trade at a value above that which would be expected based on the level of interest rates and the price of the Telebras Receipt. This difference will reflect a "time premium" due to expectations concerning the price of the Telebras Receipt during the period prior to the stated maturity date of the ProGroS Securities. However, as the time remaining to the stated

4

maturity date of the ProGroS Securities decreases, we expect that this time premium will decrease, potentially lowering the trading value of the ProGroS Securities.

Changes in dividend yields of a reference security are expected to affect the trading value of the ProGroS Securities. If dividends are ever paid on reference security, the dividend yield that would result would likely to affect the value of the ProGroS Securities. If the dividend yield on a reference security were to increase, we expect that the value of the ProGroS Securities would decrease. Conversely, if the dividend yield on a Telebras Receipt were to decrease, we expect that the value of the ProGroS Securities would increase.

Changes in our credit ratings may affect the trading value of the ProGroS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the ProGroS Securities. However, because your return on your ProGroS Securities is dependent upon factors in addition to our ability to pay our obligations under the ProGroS Securities, such as the percentage increase in the value of Telebras Receipt at maturity, an improvement in our credit ratings will not reduce investment risks related to the ProGroS Securities.

It is important for you to understand that the impact of one of the factors specified above, such as an increase in interest rates, may offset some or all of any increase in the trading value of the ProGroS Securities attributable to another factor, such as an increase in the value of the Telebras Receipt.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the ProGroS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the ProGroS Securities than if it occurs earlier in the term of the ProGroS Securities except that we expect that the effect on the trading value of the ProGroS Securities of a given increase in the value of the Telebras Receipt will be greater if it occurs later in the term of the ProGroS Securities than if it occurs earlier in the term of the ProGroS Securities.

#### American Depositary Receipts

The Telebras Receipt is an ADR representing 1,000 shares of common stock of Telebras. If Telebras is reorganized, the Telebras Receipt will be adjusted as described below to reflect certain distributions of cash, securities and/or other property. Some of the reference securities distributed in any such reorganization may be ADRs. An ADR is a negotiable receipt which is issued by a depositary, generally a bank, representing shares, such as the common stock of Telebras, of a non-U.S. issuer that have been deposited and are held, on behalf of the holders of the ADRs, at a custodian bank in the non-U.S. issuer's home country. While the market for shares underlying an ADR generally will be in the country in which the non-U.S. issuer is organized and trading in such market generally will be based on that country's currency, ADRs will trade in U.S. dollars.

Although ADRs are distinct securities from the shares of stock underlying

such ADRs, the trading characteristics and valuations of ADRs will usually, but not necessarily, mirror the characteristics and valuations of such shares represented by the ADRs. Inasmuch as holders of ADRs may surrender the ADR in order to take delivery of and trade the shares underlying such ADR, a characteristic that allows investors in ADRs to take advantage of price differentials between different markets, a market for the shares of stock underlying an ADR that is not liquid generally will result in an illiquid market for the ADR representing such underlying shares.

The depository bank that issues an ADR generally charges a fee, based on the price of the ADR, upon issuance and cancellation of the ADR. This fee would be in addition to the brokerage commissions paid upon the acquisition or surrender of the security. In addition, the depository bank incurs expenses in connection with the conversion of dividends or other cash distributions paid in local currency into U.S. dollars and such expenses are deducted from the amount of the dividend or distribution paid to holders, resulting in a lower payout per share of stock underlying an ADR represented by the ADR than would be the case if such share were held directly. Certain tax considerations, including tax rate differentials, arising from application of the tax laws of one nation to the nationals of another and from certain practices in the ADR market may also exist

5

with respect to an ADR. In varying degrees, any or all of these factors may affect the value of the ADR compared with the value of the shares of stock underlying an ADR in the local market.

#### Foreign Currency Exchange Rate and Foreign Market Considerations

The ProGroS Securities are U.S. dollar-denominated securities issued by ML&Co., a United States corporation. Investments in the ProGroS Securities do not give the beneficial owners any right to receive a reference security or any Telebras Receipt or any other ownership right or interest in a reference security or any Telebras Receipt or the shares of common stock represented by the Telebras Receipt, although the return on the investment in the ProGroS Securities is based on the ending value of the Telebras Receipt. The price of the common stock of Telebras underlying the Telebras Receipt is quoted in Brazilian currency. To the extent there are other reference securities, the prices of such other reference securities may also be quoted in currency other than U.S. dollars. The U.S. dollar price of a reference security that is an ADR will depend on the price of the shares underlying such ADR and the exchange rate between the non-U.S. dollar currency and the U.S. dollar. Even if the price of the shares underlying an ADR is unchanged, changes in the rates of exchange between the U.S. dollar and the non-U.S. dollar currency will affect the U.S. dollar price of such ADR. Furthermore, even if the price in non-U.S. dollar currency of the shares underlying an ADR increases, the U.S. dollar price of the ADR may decrease as a result of changes in the rates of exchange between the U.S. dollar and non-U.S. dollar currency.

Rates of exchange between the U.S. dollar and a non-U.S. dollar currency are determined by forces of supply and demand in the foreign exchange markets. These forces are, in turn, affected by international balance of payments and other economic and financial conditions, government intervention, speculation and other factors. Fluctuations in foreign exchange rates, future U.S. and non-U.S. political and economic developments and the possible imposition of exchange controls or other foreign governmental laws or restrictions applicable to such investments may affect the U.S. dollar value of an ADR. Moreover, individual foreign economies, such as Brazil's, may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resources, self-sufficiency and balance of payments position. There is the possibility of expropriation of assets, confiscatory taxation, political or social instability or diplomatic developments which could affect the value of investments in countries, such as Brazil. There may be less publicly available information about a non-U.S. company, such as Telebras, than about a U.S. company, and non-U.S. companies are not typically subject to accounting, auditing and financial reporting standards and requirements comparable to those to which U.S. entities are subject. Non-U.S. investments may be subject to foreign withholding taxes which could affect the value of investment. In addition, investment laws in certain non-U.S. countries such as Brazil may limit or restrict ownership of certain securities by foreign nationals by restricting or eliminating voting or other rights or limiting the amount of securities that may be so owned, and such limitations or restrictions may affect the prices of such securities.

Brazil's financial markets, while growing in volume, have substantially less volume than U.S. markets. The securities of many non-U.S. companies trading in foreign markets are generally less liquid and their prices more volatile in such markets than securities of comparable U.S. companies trading in the domestic financial markets. Foreign markets have different trading practices that may affect the prices of securities. Non-U.S. markets have different clearance and settlement procedures than those in the U.S., and in certain countries, such as Brazil, there have been instances when such procedures have been insufficient to accommodate the volume of securities transactions, making it difficult to conduct such transactions. There is generally less government supervision and regulation of exchanges, brokers and issuers in Brazil than in

the U.S. In addition, the terms and conditions of depositary facilities may result in less liquidity or lower market values for the ADRs than for the securities underlying the ADRs.

The price of the common stock of Telebras and the price of the securities of any spin-offs from Telebras, will depend on the financial condition and results of operations of Telebras and such spin-offs. The financial condition and results of operations of such entities will be affected by general economic, political, financial and social conditions in Brazil, and in particular, by prospects for future economic growth and its impact on demand for telecommunications services in Brazil. Brazil has in the past experienced economic and political

6

instability and there can be no assurance that current government programs to stabilize the economy will succeed.

You will not have any stockholder's rights with respect to Telebras Receipt

Beneficial owners of the ProGroS Securities are not entitled to any rights with respect to any Telebras Receipt, including, voting rights and rights to receive any dividends or other distributions in respect of the Telebras Receipt.

No affiliation between ML&Co. and Telebras

ML&Co. has no affiliation with Telebras, and Telebras has no obligations with respect to the ProGroS Securities or amounts to be paid to beneficial owners thereof, including any obligation to take the needs of ML&Co. or of beneficial owners of the ProGroS Securities into consideration for any reason. Telebras did not receive any of the proceeds of the initial offering of the ProGroS Securities made hereby and is not responsible for, and has not participated in, the determination or calculation of the amount receivable by beneficial owners of the ProGroS Securities on the stated maturity date or upon an earlier call. In addition, Telebras is not involved with the administration or trading of the ProGroS Securities.

There may be state law limits on the payment of amounts payable on the ProGroS Securities

New York State law governs the 1983 indenture under which the ProGroS Securities are issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the ProGroS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the ProGroS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the reference securities, including shares of Telebras stock, for their own accounts for business reasons or in connection with hedging our obligations under the ProGroS Securities. These transactions could affect the price of the reference securities.

Potential conflicts

The calculation agent is our subsidiary, the issuer of the ProGroS Securities. Under certain circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the ProGroS Securities could give rise to conflicts of interests. You should be aware that because the calculation agent is controlled by us, potential conflicts of interest could arise.

7

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and

- acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the ProGroS Securities described in this prospectus.

8

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

9

#### DESCRIPTION OF THE PROGROS SECURITIES

The ProGroS Securities were issued as a series of senior debt securities under the 1983 indenture which is more fully described in this prospectus.

The ProGroS Securities will mature on May 19, 2005 unless called earlier at the option of ML&Co.

Unless called, while at maturity a beneficial owner will receive the principal amount of such ProGroS Security plus the supplemental redemption amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at Maturity" below.

The ProGroS Securities may be called by ML&Co. as described below, but are not subject to redemption at the option of any beneficial owner prior to the stated maturity date. Upon the occurrence of an Event of Default with respect to the ProGroS Securities, beneficial owners of the ProGroS Securities may accelerate the maturity of the ProGroS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

The ProGroS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the stated maturity date, a beneficial owner of a ProGroS Security will be entitled to receive the principal amount of each unit plus a supplemental redemption amount, if any, as provided below. If the supplemental redemption amount is not greater than zero, a beneficial owner of a ProGroS Security will be entitled to receive only the principal amount of its ProGroS Securities.

The "supplemental redemption amount" for a ProGroS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
principal amount of such ProGroS Security (\$10 per unit) x	$\frac{\text{ending value} - \text{starting value}}{\text{starting value}}$
</TABLE>	

provided, however, that in no event will the supplemental redemption amount be less than zero.

The "starting value" equals \$115.4375.

The "ending value" will be determined by the calculation agent and will equal the Reorganization Event Value with respect to a reorganization event, if any, plus the value of the Telebras Receipt determined as follows:

- (a) for any portion of the Telebras Receipt consisting of cash, the U.S. dollar equivalent of such cash plus interest on such amount accruing from the date of the payment of such cash to holders of the relevant Telebras Receipt for which such cash was paid until the stated maturity date at a fixed interest rate determined on the date of such payment equal to the interest rate that would be paid on a fixed rate senior non-callable debt security of ML&Co. with a term equal to the remaining term for the ProGroS Securities as determined by the calculation agent;
- (b) for any portion of the Telebras Receipt consisting of property other than cash or reference securities, the U.S. dollar equivalent of the market value of such property on the date that such property was delivered to holders of the relevant Telebras Receipt for which such property was distributed plus interest on the U.S. dollar amount accruing from the date of the

10

delivery until the stated maturity date at a fixed interest rate determined as described in (a) above; and

- (c) for any portion of the Telebras Receipt consisting of reference securities, the average or arithmetic mean of the closing prices of each such reference security determined on each of the first five calculation days during the calculation period. If there are fewer than five calculation days in the calculation period with respect to any reference security, then the ending value shall be calculated using the average or arithmetic mean of the closing prices of such reference security on such calculation days, and if there is only one calculation day, then the ending value shall be calculated using the closing price of such reference security on such calculation day. If no calculation days occur during the calculation period with respect to such reference security, then the ending value shall be calculated using the closing price of such reference security determined on the last scheduled calculation day in the calculation period, regardless of the occurrence of a market disruption event on such day.

"U.S. dollar equivalent" means, with respect to cash not denominated in U.S. dollars, such cash amount multiplied by the spot rate, defined below, for the currency in which such cash is denominated at approximately the date of payment or date of valuation of such cash.

The "calculation period" means the period from and including the seventh scheduled calculation day prior to the stated maturity date to and including the second scheduled calculation day prior to the stated maturity date.

"calculation day" means any trading day during the calculation period on

which a market disruption event has not occurred.

"trading day" means a day on which the AMEX, the New York Stock Exchange or the "NYSE" and the NASDAQ National Market System or "NASDAQ NMS" are open for trading.

"market disruption event" means, with respect to a reference security, the occurrence or existence on any business day during the one-half hour period that ends when the closing price is determined, of any suspension of, or limitation imposed on, trading in such reference security on the NYSE (or other market or exchange, if applicable).

"closing price" with respect to a reference security means, for a calculation day the following:

(a) If the reference security is listed on a national securities exchange in the United States, is a NASDAQ NMS security or is included in the OTC Bulletin Board Service or OTC Bulletin Board operated by the National Association of Securities Dealers, Inc., closing price means:

- (1) the last reported sale price, regular way, on such day on the principal United States securities exchange registered under the Exchange Act, on which such reference security is listed or admitted to trading, or
- (2) if not listed or admitted to trading on any such securities exchange or if such last reported sale price is not obtainable, the last reported sale price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on such day, or
- (3) if the last reported sale price is not available in accordance with (1) and (2) above, the mean of the last reported bid and offer price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on such day as determined by the calculation agent. The term "NASDAQ NMS security" includes a security included in any successor to such system and the term "OTC Bulletin Board" shall include any successor service thereto.

11

(b) If such reference security is not listed on a national securities exchange in the United States or is not a NASDAQ NMS security or included in the OTC Bulletin Board operated by the NASD, closing price means the last reported sale price on such day on the securities exchange on which such reference security is listed or admitted to trading with the greatest volume of trading for the calendar month preceding such day as determined by the calculation agent, provided that if such last reported sale price is for a transaction which occurred more than four hours prior to the close of such exchange, then the closing price shall mean the average of the last available bid and offer price on such exchange. If such reference security is not listed or admitted to trading on any such securities exchange or if such last reported sale price or bid and offer are not obtainable, the closing price shall mean the last reported sale price for a transaction which occurred more than four hours prior to when trading in such over-the-counter market typically ends, then the closing price shall mean the average of the last available bid and offer prices in such market of the three dealers which have the highest volume of transactions in such reference security in the immediately preceding calendar month as determined by the calculation agent based on information that is reasonably available to it. If such prices are quoted in a currency other than in U.S. dollars, such prices will be translated into U.S. dollars for purposes of calculating the average market price using the spot rate on the same calendar day as the date of any such price.

The "spot rate" on any date will be determined by the calculation agent and will equal the spot rate of such currency per U.S. \$1.00 on such date at approximately 3:00 p.m., New York City time, as reported by a recognized reporting service for such spot rate, provided that if the calculation agent shall determine that such reported rate is not indicative of actual rates of exchange that may be obtained in the currency exchange rate market, then the spot rate shall equal the spot rate of such currency per U.S. \$1.00 on such date at approximately 3:00 p.m., New York City time at which the calculation agent is able to convert such currency into U.S. dollars.

"business day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a trading day on the NYSE and the AMEX.

All determinations made by the calculation agent are at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, are conclusive for all purposes and binding on ML&Co. and beneficial owners of the ProGroS Securities.

Early Call of the ProGroS Securities at the Option of ML&Co.

During the month of June 2004, the call period, ML&Co., in its sole discretion, may elect to call the ProGroS Securities offered hereby, in whole but not in part, before the stated maturity date by giving notice to the Trustee of ML&Co.'s election on any business day within the month of June 2004, at the call price or \$20 per unit.

If we elect to call your ProGroS Securities before the stated maturity date, you will receive only the call price and you will not receive a supplemental redemption amount based on the value of the Telebras Receipt. If we do not call the ProGroS Securities prior to the stated maturity date, the principal amount plus the supplemental redemption amount, if any, that you receive at the stated maturity may be greater than or less than the call price. ML&Co. may elect to call the ProGroS Securities on any business day during the call period by giving notice to the Trustee and specifying the date on which the call price shall be paid. Such Payment Date shall be no later than the 20th Business Day after such call election. The Trustee will provide notice of such call election to the registered holders of the ProGroS Securities, specifying the Payment Date, no less than 15, nor more than 30, calendar days prior to such Payment Date. While the ProGroS Securities are held at the Depositary, the registered holder will be the Depositary, and the Depositary will receive the notice of the call. As more fully described below under "Description of the ProGroS Securities--Depositary", the Depositary will forward such notice to its participants which will pass such notice on to the beneficial owners.

12

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical ending values,

- . the percentage change over the starting value;
- . the total amount payable at the stated maturity date for each \$10 principal amount of ProGroS Securities;
- . the total rate of return to beneficial owners of the ProGroS Securities;
- . the pretax annualized rate of return to beneficial owners of ProGroS Securities and
- . the pretax annualized rate of return of the Telebras Receipt.

This table assumes that the ProGroS Securities are not called prior to the stated maturity date.

<TABLE>  
<CAPTION>

Hypothetical Ending Value	Percentage Change Over the Starting Value	Total Amount Payable at the Stated Maturity Date per Unit	Total Rate of Return	Pretax Annualized Rate of Return (1)	Pretax Rate of Return of the Telebras Receipt (1) (2)
-----	-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>	<C>
\$ 46.18	-60.00%	\$10.00	0.00%	0.00%	-10.94%
\$ 57.72	-50.00%	\$10.00	0.00%	0.00%	-7.96%
\$ 69.26	-40.00%	\$10.00	0.00%	0.00%	-5.48%
\$ 80.81	-30.00%	\$10.00	0.00%	0.00%	-3.35%
\$ 92.35	-20.00%	\$10.00	0.00%	0.00%	-1.48%
\$103.89	-10.00%	\$10.00	0.00%	0.00%	0.18%
\$115.44	0.00%	\$10.00	0.00%	0.00%	1.69%
\$126.98	10.00%	\$11.00	10.00%	1.37%	3.06%
\$138.53	20.00%	\$12.00	20.00%	2.62%	4.33%
\$150.07	30.00%	\$13.00	30.00%	3.78%	5.50%
\$161.61	40.00%	\$14.00	40.00%	4.86%	6.60%
\$173.16	50.00%	\$15.00	50.00%	5.87%	7.62%
\$184.70	60.00%	\$16.00	60.00%	6.82%	8.58%
\$196.24	70.00%	\$17.00	70.00%	7.72%	9.50%
\$207.79	80.00%	\$18.00	80.00%	8.57%	10.36%
\$219.33	90.00%	\$19.00	90.00%	9.38%	11.18%
\$230.88	100.00%	\$20.00	100.00%	10.14%	11.96%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes

- (a) a constant dividend yield of 1.69% per annum, paid quarterly from the date of initial delivery of ProGroS Securities, applied to the value of the Telebras Receipt at the end of each such

13

quarter assuming such value increases or decreases linearly from the starting value to the applicable hypothetical ending value;

- (b) no transaction fees or expenses;
- (c) a term for the ProGroS Securities from May 19, 1998 to May 19, 2005; and
- (d) a final Telebras Receipt value equal to the ending value.

The above figures are for purposes of illustration only. The actual supplemental redemption amount received by investors and the total and pretax annualized rate of return resulting therefrom will depend entirely on the actual ending value determined by the calculation agent as provided herein.

#### Dilution and Reorganization Adjustments

The Telebras Receipt is subject to adjustment if an issuer of any reference security or the custodian in the case of reference security that is an ADR shall:

- (a) pay a stock dividend or make a distribution with respect to such reference security in reference securities;
- (b) subdivide or split the outstanding units of such reference security into a greater number of units;
- (c) combine the outstanding units of such reference security into a smaller number of units;
- (d) issue by reclassification of units of such reference security any units of another security of such issuer;
- (e) issue rights or warrants to all holders of such reference security entitling them to subscribe for or purchase shares, in the aggregate, for more than 5% of the number of such reference securities outstanding prior to the issuance of such rights or warrants at a price per share less than the then current market price of such reference security, other than rights to purchase such reference security pursuant to a plan for the reinvestment of dividends or interest; or
- (f) pay a dividend or make a distribution to all holders of such reference security of evidences of its indebtedness or other assets excluding any stock dividends or distributions referred to in clause (a) above or any cash dividends other than any Extraordinary Cash Dividend or issue to all holders of such reference security rights or warrants to subscribe for or purchase any of its securities, other than those referred to in clause (e) above. Any of the foregoing assets are referred to as the "Distributed Assets" and any of the foregoing events are referred to as the "dilution events".

Notwithstanding provision (f) in the foregoing sentence, if a reference security is an ADR and the holder of such ADR would receive cash or other property other than securities in the circumstances described in (f) above, but the holder of the securities underlying such ADR could receive securities as a result of a dilution event or the 'Distributed securities and the calculation agent or its affiliates would be eligible to receive the Distributed securities, then ML&Co. can elect for purposes of provision (f) to include the Distributed securities in the Telebras Receipt instead of the cash or property distributed to holders of the ADR in an amount equal to the amount of the Distributed securities that would have been received had the Telebras Receipt consisted of the securities underlying the ADRs instead of the ADRs. For purposes of provision (f), if the holder of a reference security can elect to receive securities in lieu of cash or property other than securities,

14

then for purposes of provision (f) the holders of the reference security shall be deemed to receive only the securities.

In the case of the dilution events referred to in clauses (a), (b), (c) and (d) above, the Telebras Receipt shall be adjusted to include the number of units of such reference security and/or security of such issuer which a holder of units of such reference security would have owned or been entitled to receive immediately following any such event had such holder held, immediately prior to such event, the number of units of such reference security constituting part of the Telebras Receipt immediately prior to such event. Each such adjustment shall become effective immediately after the effective date for such subdivision, split, combination or reclassification, as the case may be. Each such adjustment shall be made successively.

In the case of the dilution event referred to in clause (e) above where the rights or warrants are for more than 5% of the number of shares outstanding

prior to the issuance of such rights or warrants, the Telebras Receipt shall be adjusted by multiplying the number of reference securities constituting Telebras Receipt immediately prior to the date of issuance of the rights or warrants referred to in clause (e) above by a fraction,

- . the numerator of which shall be the number of reference securities outstanding on the date immediately prior to such issuance, plus the number of additional reference securities offered for subscription or purchase pursuant to such rights or warrants, and
- . the denominator of which shall be the number of reference securities outstanding on the date immediately prior to such issuance, plus the number of additional reference securities which the aggregate offering price of the total number of reference securities so offered for subscription or purchase pursuant to such rights or warrants would purchase at the current market price determined as the average Closing Price per reference security for the 20 Trading Days immediately prior to the date of such rights or warrants are issued, subject to certain adjustments, which shall be determined by multiplying such total number of reference securities by the exercise price of such rights or warrants and dividing the product so obtained by such current market price.

To the extent that reference securities are not delivered after the expiration of such rights or warrants, or if such rights or warrants are not issued, the Telebras Receipt shall be readjusted to the Telebras Receipt which would then be in effect had such adjustments for the issuance of such rights or warrants been made upon the basis of delivery of only the number of reference securities actually delivered.

In the case of the dilution event referred to in clause (f) above, the Telebras Receipt shall be adjusted to include, from and after such dividend, distribution or issuance,

- . in respect of that portion, if any, of the Distributed Assets consisting of cash, the amount of such Distributed Assets consisting of cash received for each unit of such reference security multiplied by the number of units of such Reference Security constituting part of the Telebras Receipt on the date of such dividend, distribution or issuance, immediately prior to such dividend, distribution or issuance, plus
- . in respect of that portion, if any, of the Distributed Assets which are other than cash, the number or amount of each type of Distributed Assets other than cash received with respect to each unit of such reference security multiplied by the number of units of such reference security constituting part of the Telebras Receipt on the date of such dividend, distribution or issuance, immediately prior to such dividend, distribution or issuance.

For example, where a reorganization of Telebras results in the distribution to holders of the Telebras Receipt of ADRs representing shares of common stock in various companies formed to operate various spin-

15

off businesses of Telebras, then the Telebras Receipt shall include such ADRs in amounts specified pursuant to provision (f) above. If in any such reorganization of Telebras, holders of Telebras Receipts receive cash or property while holders of the shares of common stock underlying the Telebras Receipts receive distributed securities and the calculation agent or an affiliate can receive and hold the distributed securities, then the calculation agent can elect to have the Telebras Receipt include the Distributed securities instead of such cash or property.

An "extraordinary cash dividend" means, with respect to any consecutive 12-month period, all cash dividends or any other distribution made by the issuer of a reference security or made pursuant to an arrangement effecting a distribution of distributable profits or reserves, whether in cash or in specie, on any reference security occurring in such 12-month period or, if such reference security was not outstanding at the commencement of such 12-month period or was not then a part of the Telebras Receipt, occurring in such shorter period during which such reference security was outstanding and was part of the Telebras Receipt, exceeds on a per share basis 10% of the average of the closing prices per share of such reference security over such 12-month period or such shorter period during which such reference security was outstanding and was part of the Telebras Receipt; provided that, for purposes of the foregoing definition, the amount of cash dividends paid on a per share basis will be appropriately adjusted to reflect the occurrence during such period of any stock dividend or distribution of shares of capital stock of the issuer of such reference security or any subdivision, split, combination or reclassification of shares of such reference security.

All adjustments will be calculated to the nearest 1/10,000th of a share of the reference security or if there is not a nearest 1/10,000th of a share to

the next lower 1/10,000th of a share. No adjustment shall be required unless such adjustment would require an increase or decrease of at least one percent in the Closing Price; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment.

If any of the Distributed Assets are cash, property or reference securities that will be distributed only to holders of the relevant Telebras Receipt who or which can certify as to a certain nationality or formation under the laws of a certain jurisdiction, as the case may be, and a corporation formed in the United States or an affiliate of such corporation formed elsewhere cannot receive such distribution, the Telebras Receipt will reflect only those distributed assets available for distribution to such United States corporation or its affiliates.

In the event of

- (a) any consolidation or merger of an issuer of a reference security, or any surviving entity or subsequent surviving entity of such issuer, a "Successor Company", with or into another entity, other than a merger or consolidation in which the issuer is the continuing corporation and in which the reference security outstanding immediately before the merger or consolidation is not exchanged for cash, securities or other property of the issuer or another corporation,
- (b) any sale, transfer, lease or conveyance to another corporation of the property of an issuer of a reference security or any Successor Company as an entirety or substantially as an entirety,
- (c) any statutory exchange of securities of an issuer of a reference security or any Successor Company with another corporation, other than in connection with a merger or acquisition or
- (d) any liquidation, dissolution, winding up or bankruptcy of an issuer of a reference security or any Successor Company, any such event described in clause (a), (b), (c) or (d), a "reorganization event", the ending value shall be calculated by including the reorganization event value.

The "reorganization event value" shall be determined by the calculation agent and shall equal

- . the transaction value related to the relevant reorganization event, plus

16

- . interest on such transaction value accruing from the date of the payment or delivery of the consideration, if any, received in connection with such reorganization event until the stated maturity date at a fixed interest rate determined on the date of such payment or delivery equal to the interest rate that would be paid on a fixed rate senior non-callable debt security of ML&Co. with a term equal to the remaining term of the ProGroS Securities.

The "transaction value" means

- . for any cash received in any such reorganization event, the amount of cash received per unit of reference security,
- . for any property other than cash or securities received in any such reorganization event, an amount equal to the market value of such property per unit of reference security on the date that such property is received by holders of such reference security as determined by the calculation agent, and
- . for any securities received in any reorganization event, an amount equal to the closing price per unit of the securities on the date the securities are received by holders of the reference security multiplied by the number of such securities received for each unit of the reference security subject to adjustment on a basis consistent with the adjustment provisions described above.

The foregoing adjustments are made by MLPF&S, as calculation agent, and all such adjustments are final.

No adjustments will be made for other events, such as offerings of Deposit Reference Shares by Telebras for cash or in connection with acquisitions.

ML&Co. will, within ten business days following the occurrence of an event that requires an adjustment or if ML&Co. is not aware of such occurrence, as soon as practicable after becoming so aware, provide written notice to the Trustee, which shall provide notice to the holders of the ProGroS Securities of the occurrence of such event and, if applicable, a statement in reasonable detail setting forth the adjusted closing price to be used in determining the

ending value.

#### Events of Default and Acceleration

In case an event of default with respect to any ProGroS Securities has occurred and is continuing, the amount payable to a beneficial owner of a ProGroS Security upon any acceleration permitted by the ProGroS Securities, with respect to each \$10 principal amount thereof, will be equal to the principal amount of the ProGroS Securities and the supplemental redemption amount, if any, calculated as though the date of early repayment were the stated maturity date of the ProGroS Securities. See "Description of the ProGroS Securities, Payment at Maturity" herein. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a ProGroS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the ProGroS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the stated maturity date of the ProGroS Securities.

In case of default in payment of the ProGroS Securities whether at the call date, at the stated maturity date, or upon acceleration, from and after the stated maturity date the ProGroS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 6.25% per annum to the extent that payment of such interest shall be legally enforceable on the unpaid amount due and payable on such date in

17

accordance with the terms of the ProGroS Securities to the date payment of such amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities.

The ProGroS Securities are represented by one or more fully registered global securities. Each global security has been deposited with, or on behalf of, The Depository Trust Company or DTC, together with any successor thereto, being a "depository", as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for ProGroS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the ProGroS Securities represented by a global security for all purposes under the 1983 indenture. Except as provided below, the beneficial owners of the ProGroS Securities represented by a global security are not entitled to have the ProGroS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the ProGroS Securities in definitive form and are not considered the owners or holders under the 1983 indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee pursuant to the 1983 indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if such person is not a participant of DTC on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the 1983 indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in such a global security desires to give or take any action which a holder is entitled to give or take under the 1983 indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take such action, and such participants would authorize beneficial owners owning through such participants to give or take such action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

##### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the ProGroS Securities. The ProGroS Securities have been issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities have been issued for the ProGroS Securities in the aggregate principal amount of such issue, and has been deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the

meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the 1934 Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the NASD. Access to the DTC's system is also available to others such as securities

18

brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of ProGroS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the ProGroS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such beneficial owner entered into the transaction. Transfers of ownership interests in the ProGroS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all ProGroS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of ProGroS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the ProGroS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the ProGroS Securities are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the ProGroS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the ProGroS Securities are credited on the record date, identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the ProGroS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the Depository's records unless DTC has reason to believe that it will not receive payment on such date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the Trustee, disbursement of such payments to direct participants is the responsibility of DTC, and disbursement of such payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If the depository is at any time unwilling or unable to continue as depository and

- (a) a successor depository is not appointed by ML&Co. within 60 days,
- (b) ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, and

19

- (c) an Event of Default under the 1983 indenture has occurred and is continuing with respect to the ProGroS Securities,

the global securities will be exchangeable for ProGroS Securities in definitive

form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples thereof. The definitive ProGroS Securities will be registered in such name or names as the Depositary shall instruct the Trustee. It is expected that such instructions may be based upon directions received by the Depositary from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the Depositary. In that event, ProGroS Security in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Payment

All payments of principal and the supplemental redemption amount, and call price if any, and will be made by ML&Co. in immediately available funds so long as the ProGroS Securities are maintained in book-entry form.

20

#### THE TELEBRAS RECEIPT

##### Telecomunicacoes Brasileiras S.A.-Telebras

Telecomunicacoes Brasileiras S.A.-Telebras was the primary supplier of public telecommunications services in Brazil. Telebras owned and operated all of the inter-state and international telephone transmission facilities in Brazil, and was the primary provider of intra-state service and provides telephone-related services such as data transmission, cellular mobile telephone service, and sound, image, videotext and telex transmission.

In 1998, Telebras was privatized by the federal government of Brazil and reorganized into 12 separate corporations. These spin-offs resulted in the distribution to holders of a Telebras Receipt of cash, securities and other property, including common stock and/or warrants to purchase common stock in the new corporations. An investor in the ProGroS Securities should carefully review the adjustments to be made in the case of these reorganization events contained in "--Dilution and Reorganization Adjustments."

Before the reorganization, Telebras was subject to the informational requirements of the Exchange Act. Accordingly, Telebras filed reports, proxy and other information statements and other information with the SEC. There is no assurance that the 12 separate corporations that previously made up Telebras will be subject to the informational requirements of the Exchange Act or make any information relating to their business widely or publicly available. In the event that this information, if any, is not widely or publicly available during the term of the ProGroS Securities, pricing information for the ProGroS Securities may be more difficult to obtain and the value and liquidity of the ProGroS Securities may be adversely affected.

ML&Co. is not affiliated with Telebras and Telebras has no obligations with respect to the ProgroS securities. This prospectus relates only to the ProgroS securities offered hereby and does not relate to the Telebras receipt or other securities of Telebras. The information contained in this prospectus regarding Telebras has been derived from the publicly available documents described in the preceding paragraph. ML&Co. Has not participated in the preparation of such documents or made any due diligence inquiries with respect to Telebras in connection with the initial offering of the ProgroS securities. ML&Co. Makes no representation that such publicly available documents or any other publicly available information regarding Telebras are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date hereof, including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph, that would affect the trading price of the Telebras receipt have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning Telebras could affect the supplemental redemption amount to be received at the stated maturity date and therefore the trading value of the progroS securities.

From time to time, in the ordinary course of business, affiliates of ML&Co. engaged in certain investment banking activities on behalf of the Telebras as well as served as counterparty in certain other transactions.

21

#### OTHER TERMS

ML&Co. issued the ProGroS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the ProGroS Securities of which this prospectus is a part. The following summaries

of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the ProGroS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any voting stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

22

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and

- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

23

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to

24

receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The ProGroS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the ProGroS Securities and other securities. For further information on ML&Co. and the ProGroS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is

completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;

25

- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the ProGroS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the ProGroS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The ProGroS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the ProGroS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 1,119.49, the value of the index on the date the MITTS Securities were priced. This will be true even if at some time during the life of the MITTS Securities, the value of the index, as adjusted, was higher than 1,119.49 but later falls below 1,119.49.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks underlying the index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks because of the reduction caused by the adjustment factor described in this prospectus and because the index is calculated by reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the AMEX under the symbol "MLF", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another

factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the index, as reduced by the adjustment factor, exceeds 1,119.49. If you choose to sell your MITTS Securities when the

value of the index, as reduced by the adjustment factor, exceeds 1,119.49, you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index is determined. If you choose to sell your MITTS Securities when the value of the index is below 1,119.49, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates, or dividends per share, may increase the value of the index while falling U.S. dividend rates may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. The MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks included in the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stock comprising the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

4

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the senior indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

#### Potential conflicts of interest

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our a subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

5

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

6

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-

interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On June 26, 1998, ML&Co. issued \$285,000,000 aggregate principal amount of S&P 500 MITTS Securities due July 1, 2005. The MITTS Securities were issued as a series of Senior Debt Securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on July 1, 2005.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner prior to maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Adjusted Ending Value does not exceed the Starting Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
"Principal Amount" of the MITTS Security (\$10 per unit) X	( Adjusted Ending Value - Starting Value )
	( ----- )
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 1,119.49.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the S&P 500 Index (the "Index") as adjusted by the Adjustment Factor (the "Adjusted Index Value") determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five but more than one Calculation Days, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the Adjusted Index Value on these Calculation Days. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the Adjusted Index Value on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the Adjusted Index Value determined on the

last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Adjustment Factor" equals 1.3% per annum and will be prorated based on a 365-day year and applied each calendar day during the term of the MITTS Securities to reduce the Index. As a result of the application of the Adjustment Factor, the adjusted value of the Index used to calculate your Supplemental Redemption Amount at the stated maturity of the MITTS Securities will be approximately 8.78% less than the actual Index value on any day during the Calculation Period.

8

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

For purposes of determining the Adjusted Ending Value, an "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Index or any Successor Index, as defined on page 11 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

9

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical values of the Index during the Calculation Period,

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount;
- . the percentage change from the Starting Value to the Adjusted Ending Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.40% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Pretax Annualized Hypothetical Index Rate of Return on Value During the Stocks Underlying Calculation Period the Index (1) (2)	Adjusted Ending Value	Percentage Change of Adjusted Ending Value Over the Starting Value	Total Amount Payable at Maturity Per \$10 Principal Amount of MITTS Securities	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities (1)

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
  - (a) a constant dividend yield of 1.40% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the hypothetical Index value during the Calculation Period;
  - (b) no transaction fees or expenses;
  - (c) an investment term from June 26, 1998 to July 1, 2005; and
  - (d) a final Index value equal to the hypothetical Index value during the Calculation Period.
- (3) The Starting Value equals 1,119.49.

10

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had such changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Adjusted Ending Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if any changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events; as determined by the calculation agent:

- (a) the suspension or material limitation on trading, for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in each case, in 20% or more of the stocks which then comprise the Index; or
- (b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in
  - (1) futures contracts related to the Index, or options on futures contracts, which are traded on any major U.S. exchange or

- (2) option contracts related to the Index which are traded on any major U.S. exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

#### Discontinuance of the Index

If Standard & Poor's ("S&P") discontinues publication of the Index and S&P or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (any successor or substitute index is referred to as a "Successor Index"), then, upon the calculation agent's notification of the determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by S&P or any other entity for the Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If S&P discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any

11

Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Index Calculation Day" shall mean any day on which the calculation agent is able to calculate the value.

If S&P discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to the values to be made available by telephone.

Despite these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "- Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 5.90% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as

12

depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or Holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of Holders or that an owner of a beneficial interest in a global security desires to give or take any action which a Holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership

interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

S&P publishes the Index. The Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. S&P chooses companies for inclusion in the Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which S&P uses as an assumed model for the composition of the total market. Relevant criteria employed by S&P include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. S&P may from time to time, in its sole discretion, add companies to, or delete companies from, the Index to achieve the objectives stated above.

The Index does not reflect the payment of dividends on the stocks included in the Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same that you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the Index

S&P currently computes the Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While S&P currently employs the above methodology to calculate the Index, no assurance can be given that S&P will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

15

S&P adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by S&P to be arbitrary or not due to true market fluctuations. These changes may result from causes such as

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by S&P of particular component stocks in the Index, and
- . other reasons.

In these cases, S&P first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock

or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\begin{array}{r} \text{New Market Value} \\ \text{Old Base Value X } \frac{\text{-----}}{\text{Old Market Value}} = \text{New Base Value} \end{array}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the Index.

#### License Agreement

S&P does not guarantee the accuracy and/or the completeness of the Index or any data included in the Index. S&P makes no warranty, express or implied, as to results to be obtained by ML&CO., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P index or any data included in the Index in connection with the rights licensed under the license agreement described herein or for any other use. S&P makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P Index or any data included in the Index. Without limiting any of the above information, in no event shall S&P have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

S&P and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by S&P in connection with some securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee thereof.

The license agreement between S&P and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of

16

the Index to track general stock market performance. S&P's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of S&P and of the Index which is determined, composed and calculated by S&P without regard to ML&Co. or the MITTS Securities. S&P has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the Index. S&P is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

All disclosures contained in this prospectus supplement regarding the Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by S&P. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

17

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
- . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
- . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;

18

- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or

19

- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the

consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the Treasury Department Final Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$5.0390 per unit. This represents an estimated yield on the MITTS Securities equal to 5.90% per annum (compounded semiannually).

The projected payment schedule (including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of seven years and one day for the MITTS Securities based upon the projected payment schedule for the MITTS Securities (including both the projected Supplemental Redemption Amount and the estimated yield equal to 5.90% per annum (compounded semiannually)) as determined by ML&Co. for purposes of application of the Final Regulations to the MITTS Securities:

</TABLE>

Projected Supplemental Redemption Amount = \$5.0390 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also

obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

21

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding

exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

22

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

23

## RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity you will receive no more than a number of Class D shares of the EuroFund in an amount equal in value, determined based on the market price of the Class D shares shortly before the maturity date, to the principal amount, if these shares are available, if the average value of the index over five trading days shortly before the maturity date is less than 15.53. This will be true even if, at some time during the life of the MITTS Securities, the value of the EuroFund index, as adjusted, was higher than 15.53, the value of the EuroFund Index on the date the MITTS Securities were priced for initial sale to the public, but later falls below 15.53.

Your yield on the MITTS Securities will not equal the yield on Class B Shares or the securities held by the EuroFund

The yield you earn on the MITTS Securities, if any, will not be the same as the yield that you would earn if you directly owned Class B Shares of the EuroFund. In calculating the value of the EuroFund index, the AMEX will reduce the value of the EuroFund index by 2.6% each year. This annual reduction will be applied on a pro rata basis each calendar day. Because of these cumulative daily reductions, the value of the EuroFund index over time will increasingly diverge from the actual value of the Class B Shares and their distributions had you directly owned the Class B Shares. These reductions would not apply if you directly owned the Class B Shares of the EuroFund.

In addition, the yield you earn on the MITTS Securities, if any, will not be the same yield that you would earn if you directly owned the securities held by the EuroFund. Because the EuroFund's return, as measured by the index, is determined after deductions for annual fees and expenses and transaction fees, the EuroFund's return, and consequently the return on the MITTS Securities, will be less than the return you would realize if you directly owned the securities held by the EuroFund.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other similar investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you consider inflation or other factors that affect the time value of money.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the NYSE under the symbol "EFM," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors including the appreciation, if any, of the value of the index.

If a limited trading market for the MITTS Securities exists, and you do not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the EuroFund index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the value of the EuroFund index exceeds or does not exceed 15.53. If you choose to sell your MITTS Securities when the value of the EuroFund index exceeds 15.53 on any given date, you may receive substantially less than the value that would be payable at maturity based on that value of the EuroFund index because of the expectation that the value of the EuroFund index will continue to fluctuate until shortly before the maturity date when the average value of the index is determined. If you choose to sell your MITTS Securities when the value of the EuroFund index is below, or not sufficiently above, 15.53, you may receive less than the principal amount per unit of MITTS Securities and lose a substantial portion of your investment. Political, economic and other developments that affect the securities owned by the EuroFund may also affect the value of the EuroFund Index and the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay at a minimum, the principal amount per unit of the MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if interest rates increase, we expect that the trading value of the MITTS Securities will decrease, and, conversely, if interest rates decrease, we expect the trading value of the MITTS Securities will increase.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the EuroFund index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the EuroFund index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. The MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the EuroFund index. This difference would reflect a "time premium" due to expectations concerning the value of the EuroFund index during the period before February 28, 2006, the stated maturity of the MITTS Securities. However, as the time remaining to maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities, except that we expect that the effect on the trading value of the MITTS Securities of a given increase or decrease in

4

the EuroFund index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

No shareholder's rights

You will not be entitled to any rights with respect to any shares of the EuroFund, including, without limitation, voting rights and rights to receive any dividends or distributions on the shares, until we deliver Class D Shares at the maturity of the MITTS Securities. For example, if the EuroFund sets a record date for a matter to be voted on by holders of Class D Shares prior to our delivery of Class D Shares to you, you will not be entitled to vote on that matter. You should be aware that if Class D Shares of the EuroFund are not available for sale to new investors immediately prior to the stated maturity date, we will pay you the amounts due to you for your MITTS Securities in cash instead of delivering Class D Shares on the stated maturity date.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the indenture under which the MITTS Securities are issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell shares of the EuroFund or shares of the companies in which the EuroFund invests, for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the EuroFund index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interest

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities-- Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

5

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- o securities brokerage, trading and underwriting;
- o investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- o asset management;
- o brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- o securities clearance services;

- o insurance sales and underwriting services; and
- o investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On September 3, 1998, ML&Co. issued an aggregate principal amount of \$77,000,000 or 7,700,000 of the MITTS Securities.

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on February 28, 2006.

While at maturity a beneficial owner of a MITTS Security will receive, if available, the number of Class D Shares of the EuroFund equal in value, determined based on the Maturity NAV, to the sum of the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "--Delivery at Maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Delivery at Maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the number of Class D Shares of the EuroFund equal in value, determined based on the Maturity NAV, to the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. The number of Class D Shares delivered by ML&Co. will be rounded to the nearest one-thousandth of a share. If the Ending Index Value does not exceed the Starting Index Value, a beneficial owner of a MITTS Security will be entitled to receive only the number of Class D Shares of the EuroFund equal in value to the principal amount of each MITTS Security, determined based on the Maturity NAV.

"Maturity NAV" shall mean the net asset value for the Class D Shares of the EuroFund as calculated by the EuroFund on the first Calculation Day during the Calculation Period; provided, however, if no Calculation Days occur during the Calculation Period because of Market Disruption Events, then Maturity NAV shall mean the net asset value for the Class D Shares of the EuroFund as calculated by the EuroFund on the last scheduled Index Business Day in the Calculation Period regardless of the occurrence of a Market Disruption Event on

that day.

Notwithstanding the foregoing, if the EuroFund is not issuing Class D Shares to new investors in the EuroFund on the date Maturity NAV is to be determined, ML&Co. may, in lieu of delivering Class D Shares of the EuroFund, pay cash in an amount equal to the sum of the principal amount of the MITTS Securities and the Supplemental Redemption Amount, if any.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<CAPTION>

<S>	<C>	<C>
Principal amount of each MITTS Security (\$10 per unit)	X	(Ending Index Value - Starting Index Value) (-----) ( Starting Index Value )

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

8

The "Starting Index Value" equals 15.53, which was the value of the EuroFund Index on the date the MITTS Securities were initially priced for sale to the public (the "Pricing Date"). The value of the EuroFund Index on the Pricing Date was set to match the net asset value of Class B Shares of the EuroFund on the Pricing Date.

The "Ending Index Value" will be determined by the calculation agent and will be equal to the closing value of the EuroFund Index determined on the first Calculation Day during the Calculation Period. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Index Value will equal the closing value of the EuroFund Index determined on the last scheduled Index Business Day in the Calculation Period regardless of the occurrence of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the AMEX calculates and publishes the EuroFund Index.

"Market Disruption Event" means the EuroFund

- o is unable or otherwise fails to issue a net asset value for any series of shares of the EuroFund after the close of business on the NYSE but before 11:00 p.m., New York City time on the same day or
- o suspends redemption of shares of the EuroFund.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

9

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Values:

- o the Ending Index Value used to calculate the Supplemental Redemption Amount;
- o the percentage change from the Starting Index Value to the Ending Index Value;
- o the total value of Class D Shares deliverable at maturity for each \$10 principal amount of MITTS Securities;
- o the total rate of return to beneficial owners of the MITTS Securities;
- o the pretax annualized rate of return on the MITTS Securities; and
- o the pretax annualized rate of return of class B Shares.

<TABLE>  
<CAPTION>

Rate Hypthetical Ending Index Value	Percentage Change of Ending Index Value	Total Value of Class D Shares Deliverable at Maturity per \$10 Principal Amount of MITTS Securities	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities (1)	Pretax Annualized Rate of Return of Class B Shares (1) (2)
<S>	<C>	<C>	<C>	<C>	<C>
3.11	-80.00%	\$10.00	0.00%	0.00%	-18.02%
6.21	-60.00%	\$10.00	0.00%	0.00%	-9.40%
9.32	-40.00%	\$10.00	0.00%	0.00%	-4.17%
12.42	-20.00%	\$10.00	0.00%	0.00%	-0.38%
15.53(3)	0.00%	\$10.00	0.00%	0.00%	2.62%
18.64	20.00%	\$12.00	20.00%	2.45%	5.10%
21.74	40.00%	\$14.00	40.00%	4.54%	7.22%
24.85	60.00%	\$16.00	60.00%	6.37%	9.07%
27.95	80.00%	\$18.00	80.00%	8.00%	10.72%
31.06	100.00%	\$20.00	100.00%	9.47%	12.21%

37.27	140.00%	\$24.00	140.00%	12.03%	14.81%
40.38	160.00%	\$26.00	160.00%	13.17%	15.96%
43.48	180.00%	\$28.00	180.00%	14.22%	17.03%
46.59	200.00%	\$30.00	200.00%	15.21%	18.03%

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
- (a) an initial investment of a fixed amount in the Series B Shares of the EuroFund;
  - (b) a reinvestment of all cash dividends and distributions in the Series B Shares of the EuroFund;
  - (c) no transaction fees or expenses;
  - (d) an investment term from September 3, 1998 to February 28, 2006; and (e) a final EuroFund Index value equal to the Ending Index Value.
- (3) This is the Starting Index Value.

The above figures are for purposes of illustration only. The actual investment term, Supplemental Redemption Amount received by investors, and the resulting total and pretax annualized rate of return will

10

depend entirely on the Starting Index Value and the actual Ending Index Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the EuroFund Index

If at any time the AMEX changes the method of calculating the EuroFund Index, or the index's value changes, in any material respect, or if the EuroFund Index is in any other way modified so that the EuroFund Index does not, in the opinion of the calculation agent, fairly represent the value of the EuroFund Index had the changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Index Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of an index comparable to the EuroFund Index as if any changes or modifications had not been made, and calculate the closing value with reference to the EuroFund Index, as adjusted. Accordingly, if the method of calculating the EuroFund Index is modified so that the value of the EuroFund Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the EuroFund Index, then the calculation agent shall adjust the EuroFund Index in order to arrive at a value of the EuroFund Index as if it had not been modified, for example, as if the split had not occurred.

#### Discontinuance of the EuroFund Index

If the AMEX discontinues publication of the EuroFund Index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the EuroFund Index (a "Successor Index") then, upon the calculation agent's notification of its determination to the Trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by the AMEX or any other entity for the EuroFund Index and calculate the Ending Index Value as described above under "Delivery at Maturity". Upon any selection by the calculation agent of a

Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If the AMEX discontinues publication of the EuroFund Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the EuroFund Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the EuroFund Index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the EuroFund Index as described below, the Successor Index or value shall be substituted for the EuroFund Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the AMEX discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- o the determination of the Adjusted Ending Value and
- o a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

11

Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of a MITTS Security, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "Delivery at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners, at the rate of 5.97% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities.

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered

the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by

12

arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the

MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

13

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- o the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- o ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- o an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

14

#### THE EUROFUND INDEX

##### Calculation of the EuroFund Index

The AMEX has set the starting value of the EuroFund Index to equal the net asset value of one Class B Share of the EuroFund on the Pricing Date. Thereafter, the AMEX will calculate the value of the EuroFund Index on any day by multiplying the current Index Share Multiplier by the most recent net asset value per Class B Share announced by the EuroFund. For purposes of this calculation, any declared but unpaid Cash Distribution, as defined below, will be added back and included in the "net asset value" of the EuroFund from and including the ex-dividend date related to any Cash Distribution to but excluding the date that any Cash Distribution is paid to holders of the Class B Shares.

The value of the EuroFund Index is reported on the AMEX and Bloomberg under the symbol "EFI" and on the Reuters under the symbol ".EFI".

##### Calculation of the Index Share Multiplier

The Index Share Multiplier shall initially be set to one, representing one Class B Share of the EuroFund. If the EuroFund distributes any cash dividends or distributions of any character to holders of the Class B Shares (a "Cash Distribution"), then the Index Share Multiplier shall be increased by a percentage of Class B Shares equal to the Cash Distribution divided by the net asset value for Class B Shares calculated by the EuroFund on the date that any Cash Distribution is paid to holders of Class B Shares. If a Market Disruption

Event has occurred on the day any Cash Distribution is paid, the adjustment to the Index Share Multiplier shall be postponed until the next succeeding Index Business Day on which a Market Disruption Event has not occurred. The Index Share Multiplier shall also be adjusted by the AMEX to reflect certain stock splits, reverse stock splits or share dividends that may occur with respect to the Class B Shares.

Each calendar day, the AMEX shall reduce the value of the EuroFund Index by a percentage equal to 2.6% divided by 365 and reset the Index Share Multiplier so that the product of the net asset value and the revised Index Share Multiplier equals the value of the EuroFund Index so reduced. If a Market Disruption Event occurs on any day on which the EuroFund Index value is to be determined, then the foregoing adjustment to the Index Share Multiplier shall occur on the next succeeding Index Business Day on which a Market Disruption Event has not occurred.

The EuroFund

ML&Co. has attached the fund prospectus describing the EuroFund and is delivering it to purchasers of the MITTS Securities together with this prospectus of ML&Co. for the convenience of reference only. The fund prospectus does not constitute a part of this prospectus of ML&Co., nor is it incorporated by reference in this prospectus of ML&Co. The summary description below is qualified in its entirety by the information describing EuroFund and the EuroFund Index included in the attached fund prospectus.

The EuroFund has stated that its investment objectives are to seek capital appreciation primarily through investment in equities of corporations domiciled in European countries. Current income from dividends and interest will not be an important consideration in selecting portfolio securities. The EuroFund has stated that it anticipates that under normal market conditions at least 80% of its net assets will consist of European corporate securities, primarily common stocks and securities convertible into common stock.

The EuroFund is a diversified, open-end management investment company under the Investment Company Act.

The EuroFund has publicly disclosed its intention to distribute all of its net investment income, if any. The EuroFund has indicated that dividends from the net investment income are paid at least annually and all net realized capital gains, if any, are distributed to the shareholders of the EuroFund annually.

The EuroFund is subject to the registration requirements of the Securities Act and the Investment Company Act. Accordingly, the EuroFund files prospectuses, statements of additional information, reports, proxy and other information statements and other information with the SEC. ML&Co. makes no representation or warranty as to the accuracy or completeness of that information.

15

The foregoing summary of the policies of the EuroFund reflect certain investment restrictions which are subject to change by shareholders of the EuroFund at any time.

The EuroFund is managed by Merrill Lynch Asset Management, L.P., an affiliate of ML&Co. The EuroFund itself is governed by an independent board of directors.

The EuroFund has no obligations with respect to the MITTS Securities. This prospectus relates only to the MITTS Securities offered hereby and does not relate to the Class B or Class D shares of the EuroFund. The information contained in this prospectus regarding the EuroFund has been derived from the publicly available documents described above. ML&Co. has not participated in the preparation of these documents or made any due diligence inquiries with respect to the EuroFund in connection with the offering of the MITTS Securities. ML&Co. makes no representation that these publicly available documents or any other publicly available information regarding the EuroFund are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this prospectus, including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph, that would affect the EuroFund index, and therefore the trading price of the MITTS securities, have been publicly disclosed. Subsequent disclosure of any events or the disclosure of or failure to disclose material future events concerning the EuroFund could affect the supplemental redemption amount to be received at the stated maturity date and therefore the trading value of the MITTS Securities.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the

1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

16

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- o merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- o convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- o the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - o pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - o perform and observe all of ML&Co.'s obligations under the 1983

Indenture, and

- o ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However,

17

without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- o change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- o reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- o change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- o impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- o reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- o modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- o default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- o default in the payment of any principal or premium, when due;
- o default in the deposit of any sinking fund payment, when due;
- o default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- o specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- o any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal

18

amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due

and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- o in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- o in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$5.5344 per unit, the "Projected Supplemental Redemption Amount". This represents an estimated yield on the MITTS Securities equal to 5.97% per annum (compounded semiannually).

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of seven years and six months for the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the Projected Supplemental Redemption Amount and the estimated yield equal to 5.97% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

Projected Supplemental Redemption Amount = \$5.5344 per unit.

Prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for this information to Merrill Lynch & Co., Inc., Attn: Darryl W. Colletti, Corporate Secretary's Office, 100 Church Street, 12th Floor, New York, New York 10080-6512.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you

with different or inconsistent information, you should not rely on it. We are not, and

MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may sell these securities until the registration statement filed with the +  
+ Securities and Exchange Commission is effective. This prospectus is not an +  
+ offer to sell these securities and it is not soliciting an offer to buy +  
+ these securities in any state where the offer and sale is not permitted. +

</TABLE>

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 1,066.09, the value of the index on the date the MITTS Securities were priced. This will be true even if at some time during the life of the MITTS Securities, the value of the index, as adjusted, was higher than 1,066.09 but later falls below 1,066.09.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks underlying the Index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks because of the reduction caused by the adjustment factor described in this prospectus and because the index is calculated by reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the NYSE under the symbol "MIJ", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the index, as reduced by the adjustment factor, exceeds 1,066.09. If you choose to sell your MITTS Securities when the value of the index, as reduced by the adjustment factor, exceeds 1,066.09, you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index is determined. If you choose to sell your MITTS Securities when the value of the index is below 1,066.09, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates, or dividends per share, may increase the value of the index while falling U.S. dividend rates may decrease the value of the index. Political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. The MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period prior to the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. If dividend yields on the stocks included in the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stock comprising the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the senior indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which

4

includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interest

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our a subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

5

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

6

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>

<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On September 29, 1998, ML&Co. issued \$82,000,000 aggregate principal amount of S&P 500 MITTS Securities due September 28, 2005. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on September 28, 2005.

While at maturity ML&Co. will pay a beneficial owner of a MITTS Security the principal amount of each MITTS Security plus the Supplemental Redemption Amount described below, if any, ML&Co. will make no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, ML&Co. will pay a beneficial owner of a MITTS Security the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Adjusted Ending Value does not exceed the Starting Value, ML&Co. will pay a beneficial owner of a MITTS Security only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	(Adjusted Ending Value - Starting Value)
Principal Amount of each MITTS Security (\$10 per Unit) x	(-----)
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 1,066.09.
