The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the S&P 500 Index (the "Index") as adjusted by the Adjustment Factor (the "Adjusted Index Value") determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the Adjusted Index Value on these Calculation Days. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the Adjusted Index Value on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the Adjusted Index Value determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Adjustment Factor" equals 1.9% per annum and will be prorated based

on a 365-day year and applied each calendar day during the term of the MITTS Securities to reduce the Index. As a result of the application of the Adjustment Factor, the adjusted value of the Index used to calculate your Supplemental Redemption Amount at the stated maturity of the MITTS Securities will be approximately 12.48% less than the actual Index value on any day during the Calculation Period.

8

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

For purposes of determining the Adjusted Ending Value, an "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Index or any Successor Index, as defined on page 10 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical values of the Index during the Calculation Period,

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount;
- . the percentage change from the Starting Value to the Adjusted Ending Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.49% per annum, as more fully described below.

<TABLE>

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
- (a) a constant dividend yield of 1.49% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter

9

assuming this value increases or decreases linearly from the Starting Value to the hypothetical Index value during the Calculation Period;

- (b) no transaction fees or expenses;
  - (c) an investment term from September 23, 1998 to September 28, 2005; and
  - (d) a final Index value equal to the hypothetical Index value during the Calculation Period.
- (3) The Starting Value equals 1,066.09.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had any changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Adjusted Ending Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if any changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified, due to a split in the Index, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events; as determined by the calculation agent:

(a) the suspension or material limitation on trading, for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in each case, in 20% or more of the stocks which then comprise the Index; or

(b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in

(1) futures contracts related to the Index, or options on futures contracts, which are traded on any major U.S. exchange or

(2) option contracts related to the Index which are traded on any major U.S. exchange.

For the purposes of clause (a) above, any limitations on trading during

significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

#### Discontinuance of the Index

If S&P discontinues publication of the Index and S&P or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (any successor or substitute index is referred to as a "Successor Index"), then, upon the calculation agent's notification of the determination to the trustee and ML&Co., the calculation agent will substitute the Successor

10

Index as calculated by S&P or any other entity for the Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If S&P discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Index Calculation Day" shall mean any day on which the calculation agent is able to calculate the value.

If S&P discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value and
- . a determination by the calculation agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to the values to be made available by telephone.

Despite these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "- Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 5.78% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee).

11

Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or Holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of Holders or that an owner of a beneficial interest in a global security desires to give or take any action which a Holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into

12

the transaction. Transfers of ownership interests in the MITTS Securities are to

be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

13

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Standard & Poor's publishes the Index. The Index is intended to provide an indication of the pattern of common stock price movement. The calculation of

the value of the Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the Index to achieve the objectives stated above.

The Index does not reflect the payment of dividends on the stocks included in the Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same that you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the Index

Standard & Poor's currently computes the Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

14

While Standard & Poor's currently employs the above methodology to calculate the Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by Standard & Poor's of particular component stocks in the Index, and
- . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares

of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{Old Base Value} \times \frac{\text{New Market Value}}{\text{Old Market Value}} = \text{New Base Value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the Index.

#### License Agreement

Standard & Poor's ("S&P") does not guarantee the accuracy and/or the completeness of the Index or any data included in the Index. S&P makes no warranty, express or implied, as to results to be obtained by ML&CO., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P Index or any data included in the Index in connection with the rights licensed under the license agreement described in this prospectus or for any other use. S&P makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P Index or any data included in the Index. Without limiting any of the information above, in no event shall S&P have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

S&P and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by S&P in connection with particular securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee thereof.

The license agreement between S&P and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

15

"The MITTS Securities are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the Index to track general stock market performance. S&P's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of S&P and of the Index which is determined, composed and calculated by S&P without regard to ML&Co. or the MITTS Securities. S&P has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the Index. S&P is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is

a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right

16

to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;

- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;

17

- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or

18

- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior

debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$4.8955 per unit (the "Projected Supplemental Redemption Amount"). This represents an estimated yield on the MITTS Securities equal to 5.78% per annum (compounded semiannually).

The projected payment schedule, including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities (including both the Projected Supplemental Redemption Amount and the estimated yield equal to 5.78% per annum (compounded semiannually)) as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued On the MITTS Securities as of End of Accrual Period (per unit) -----
<S>	<C>	<C>
September 29, 1998 through March 28, 1999.....	\$0.2850	\$0.2850
March 29, 1999 through September 28, 1999.....	\$0.2972	\$0.5822
September 29, 1999 through March 28, 2000.....	\$0.3058	\$0.8880
March 29, 2000 through September 28, 2000.....	\$0.3147	\$1.2027
September 29, 2000 through March 28, 2001.....	\$0.3238	\$1.5265
March 29, 2001 through September 28, 2001.....	\$0.3331	\$1.8596
September 29, 2001 through March 28, 2002.....	\$0.3427	\$2.2023
March 29, 2002 through September 28, 2002.....	\$0.3527	\$2.5550
September 29, 2002 through March 28, 2003.....	\$0.3628	\$2.9178
March 29, 2003 through September 28, 2003.....	\$0.3733	\$3.2911
September 29, 2003 through March 28, 2004.....	\$0.3842	\$3.6753
March 29, 2004 through September 28, 2004.....	\$0.3952	\$4.0705
September 29, 2004 through March 28, 2005.....	\$0.4066	\$4.4771
March 29, 2005 through September 28, 2005.....	\$0.4184	\$4.8955

Projected Supplemental Redemption Amount = \$4.8955 per unit.

Prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for the information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212)

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity date is less than 14,152.95, the value of the index on the date the MITTS Securities were priced. This will be true even if, at some time during the life of the MITTS Securities, the value of the index was higher than 14,152.95 but later falls below 14,152.95.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable Merrill Lynch & Co., Inc. debt security with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time

value of money.

Your return will not reflect the return of owning the stocks included in the Index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the index and received the dividends paid on those stocks. This is because the value of the index is calculated by reference to the prices of the common stocks included in the index without taking into consideration the value of dividends paid on those stocks.

Your return may be affected by currency exchange rates

Although the stocks included in the index are traded in Japanese yen and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for the currency exchange rate in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the index. Changes in the currency exchange rate, however, may reflect changes in the Japanese economy that may affect the value of the index and the MITTS Securities.

Your return may be affected by factors affecting the value of Japanese stocks

Because the underlying stocks included in the index have been issued by Japanese companies, the return on your MITTS Securities will be affected by risks relating to an investment in Japanese equity securities. The Japanese securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize the Japanese securities markets and cross-shareholdings in Japanese companies on those markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about Japanese companies than about those U.S. companies that are subject to the reporting requirements of the U.S. Securities and Exchange Commission, and Japanese companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in Japan are subject to political, economic, financial and social factors that apply in Japan. In addition, recent or future changes in the Japanese government's economic and fiscal policies, the

3

possible imposition of, or changes in, currency exchange laws or other Japanese laws or restrictions applicable to Japanese companies or investments in Japanese equity securities and fluctuations in the rate of exchange between currencies may negatively affect the Japanese securities markets. Moreover, the Japanese economy may differ favorably or unfavorably from the U.S. economy in economic factors such as growth in gross national product, rates of inflation, capital reinvestment, resources and self-sufficiency.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the AMEX under the symbol "MLN," you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the appreciation, if any, of the value of the index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the MITTS Securities. The trading value of the MITTS Securities will depend substantially

on the amount by which the value of the index exceeds or does not exceed 14,152.95, the value of the index on the pricing date. If you choose to sell your MITTS Securities at a time when the value of the index exceeds 14,152.95, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index over five trading days is determined. If you choose to sell your MITTS Securities when the value of the index is below, or not sufficiently above, 14,152.95, you may receive less than \$10 per unit of your MITTS Securities. In general, rising Japanese dividend rates, or dividends per share, may increase the value of the index while falling Japanese dividend rates may decrease the value of the index. Additionally, political, economic and other developments that affect the stocks underlying the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of the MITTS Securities at maturity, we expect that the trading value of the MITTS Securities will be affected by changes in interest rates. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. In general, if interest rates in Japan increase, we expect that the trading value of the MITTS Securities will increase and, conversely, if interest rates in Japan decrease, we expect the trading value of the MITTS Securities will decrease. However, interest rates in Japan may also affect the Japanese economy and, in turn, the value of the index. Rising interest rates in Japan may lower the value of the index and, as a result, may decrease the value of the MITTS Securities. Falling interest rates in Japan may increase the value of the index and, as a result, may increase the value of the MITTS Securities.

4

Changes in the volatility of the Japanese yen/U.S. dollar exchange rate are expected to affect the trading value of the MITTS Securities. The Japanese yen/U.S. dollar rate is a foreign exchange spot rate that measures the relative values of two currencies, the Japanese yen and the U.S. dollar and is expressed as a rate that reflects the amount of Japanese yen that can be purchased for one U.S. dollar. The Japanese yen/U.S. dollar rate increases when the U.S. dollar appreciates relative to the Japanese yen. Volatility is the term used to describe the size and frequency of market fluctuations. In general, if the volatility of the Japanese yen/U.S. dollar rate increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Japanese yen/U.S. dollar rate decreases, we expect that the trading value of the MITTS Securities will decrease.

Correlation between the Japanese yen/U.S. dollar exchange rate and the index. Correlation is the term used to describe the relationship between the percentage changes in the Japanese yen/U.S. dollar exchange rate and the percentage changes in the index. In general, if the correlation between the Japanese yen/U.S. dollar exchange rate and the index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the correlation between the Japanese yen/U.S. dollar exchange rate and the index decreases, we expect that the trading value of the MITTS Securities will decrease.

Changes in the volatility of the index are expected to affect the trading value of the MITTS Securities. Generally, if the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that prior to their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the index. This difference would reflect a "time premium" due to expectations concerning the value of the index during the period before September 21, 2005, the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index are expected to affect the trading value of the MITTS Securities. Generally, if dividend yields on the stocks included in the index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our

ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities, except that we expect that the effect on the trading value of the MITTS Securities of a given increase or decrease in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

The indenture under which the MITTS Securities are issued is governed by New York State law. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25%

5

per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the index for their own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts of interest

Our subsidiary, Merrill Lynch, Pierce, Fenner & Smith Incorporated or MLPF&S, is our agent for the purposes of calculating the value of the index and the amount payable to you at maturity. Under certain circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the index. See "Description of the MITTS Securities-- Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our a subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

6

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

In this prospectus, "ML&Co.", "we", "us" and "our" refer specifically to Merrill Lynch & Co., Inc., the holding company. ML&Co. is the issuer of the MITTS Securities described in this prospectus.

7

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

8

#### DESCRIPTION OF THE MITTS SECURITIES

On December 28, 1998, ML&Co. issued an aggregate principal amount of \$70,000,000 or 7,000,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on September 21, 2005.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of

Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

Payment at Maturity

At the maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of each unit plus the Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>		<C>
<S>		( Ending Value - Starting Value )
Principal amount of each MITTS Security (\$10 per unit) X		( ----- )
		( Starting Value )
</TABLE>		

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 14,152.95.

The "Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index (the "Index") determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Index on these Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Index or any Successor Index, as defined on page 11 below, is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Values:

- . the percentage change from the Starting Value to the Ending Value;
- . the total amount payable per Unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.04% per annum, as more fully described below.

<TABLE>  
<CAPTION>

	Ending Value Percentage Change	Total Amount Payable at Maturity	Total Rate of Return on	Pretax Annualized Rate of	
	Over the Starting	Per Unit of MITTS	the MITTS	Return on the MITTS	Rate

5.00%	19,814.13	40.00%	\$14.00	40.00%	5.06%
6.14%	21,229.43	50.00%	\$15.00	50.00%	6.11%
7.20%	22,644.72	60.00%	\$16.00	60.00%	7.10%
8.20%	24,060.02	70.00%	\$17.00	70.00%	8.03%
9.15%	25,475.31	80.00%	\$18.00	80.00%	8.92%
10.04%	26,890.61	90.00%	\$19.00	90.00%	9.76%
10.89%	28,305.90	100.00%	\$20.00	100.00%	10.56%
11.70%	29,721.20	110.00%	\$21.00	110.00%	11.32%
12.48%	31,136.49	120.00%	\$22.00	120.00%	12.05%
13.22%	32,551.79	130.00%	\$23.00	130.00%	12.75%
13.93%	33,967.08	140.00%	\$24.00	140.00%	13.43%
14.61%	35,382.38	150.00%	\$25.00	150.00%	14.07%
15.27%					

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:

10

- (a) a constant dividend yield of 1.04% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Index at the end of each quarter assuming the value increases or decreases linearly from the Starting Value to the hypothetical Ending Value;
- (b) no transaction fees or expenses;
- (c) the term of the MITTS Securities is from December 28, 1998 to September 21, 2005; and
- (d) a final Index value equal to the hypothetical Ending Value.

(3) The Starting Value of the Index.

The above figures are for purposes of illustration only. The actual investment term, Supplemental Redemption Amount received by investors, and the respective total and pretax annualized rate of return will depend entirely on the Starting Value and the actual Ending Value determined by the calculation agent as provided herein.

#### Adjustments to the Index; Market Disruption Events

If at any time the method of calculating the Index, or its value, is changed in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had the changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Ending Value is to be calculated, make such adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if the changes or modifications had not been made, and calculate the closing value with

reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been modified (e.g., due to a split in the Index), then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, e.g., as if the split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- . a suspension, material limitation or absence of trading on the Tokyo Stock Exchange (the "TSE") of 20% or more of the underlying stocks which then comprise the Index or a Successor Index during the one-half hour period preceding the close of trading on the applicable exchange; or
- . the suspension or material limitation on the Singapore International Monetary Exchange, Ltd. (the "SIMEX"), the Osaka Securities Exchange (the "OSE") or any other major futures or securities market from trading in futures or options contracts related to the Index or a Successor Index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- . a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange,
- . a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a Market Disruption Event,
- . a suspension in trading in a futures or options contract on the Index by a major securities market by reason of
  - . a price change violating limits set by the securities market,
  - . an imbalance of orders relating to futures or options contracts or

11

- . a disparity in bid and ask quotes relating to futures or options contracts will constitute a suspension or material limitation of trading in futures or options contracts related to the Index, and
- . an absence of trading on the TSE will not include any time when the TSE is closed for trading under ordinary circumstances.

Under certain circumstances, the duties of MLPF&S as calculation agent in determining the existence of Market Disruption Events could conflict with the interests of MLPF&S as a subsidiary of ML&Co..

Based on the information currently available to ML&Co., the opening of trading on the OSE was delayed on January 17, 1995 because of the earthquake in Kobe. If this delay had occurred during the one-half hour period preceding the close of trading on the OSE, it would have constituted a Market Disruption Event. In addition, because of movements in the price for futures contracts for the Index, the OSE imposed price limits on futures contracts on January 23, 1995 that were in effect during the one-half hour period preceding the close of trading on the OSE and that would have constituted a Market Disruption Event. On January 31 and February 1 of 1994, prices for futures contracts for the Index reached price limits imposed by the OSE, which would have been a Market Disruption Event. Other than the foregoing events, to ML&Co.'s knowledge no circumstances have arisen since the inception of the Index that could have constituted a Market Disruption Event. The existence or nonexistence of these circumstances, however, is not necessarily indicative of the likelihood of these circumstances arising or not arising in the future.

Discontinuance of the Index

If the publisher of the Nikkei 225 Index, Nihon Keizai Shimbun, Inc. ("NKS"), discontinues publication of the Index and NKS or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (any successor or substitute index is referred to as a "Successor Index"), then, upon the calculation agent's notification of that determination to the Trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by NKS or such other entity for the Index and calculate the Ending Value as described above under "-Payment at Maturity". Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If NKS discontinues publication of the Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the Index before any discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the Index as described below, that Successor Index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the Index, "Calculation Day" shall mean any day on which the Calculation Agent is able to calculate a substitute value.

If NKS discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value and
- . a determination by the Calculation Agent that a Successor Index is available,

the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The Calculation Agent

12

will cause notice of each value to be published not less often than once each month in The Wall Street Journal (or another newspaper of general circulation), and arrange for the values to be made available by telephone.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

If an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount per unit, will be equal to the principal amount per unit and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount per unit of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners, at the rate of 6.01% per annum (to the extent that payment of such interest shall be legally enforceable) on the unpaid amount due and payable on such date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Global Securities

##### Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co. (DTC's partnership nominee). Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or Holders

under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which such person owns its interest, to exercise any rights of a Holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of Holders or that an owner of a beneficial interest in a global security desires to give or take any action which a Holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect

13

participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the Depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the Trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

All payments of principal and the Supplemental Redemption Amount, if any, will be made by ML&Co. in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE NIKKEI 225 INDEX

Unless otherwise stated, all information relating to the Nikkei 225 Index in this prospectus has been derived from the Stock Market Indices Data Book published by NKS and other publicly-available sources. This information reflects the policies of NKS as stated in these sources; these policies are subject to change at the discretion of NKS.

The Nikkei 225 Index is a stock index calculated, published and disseminated by NKS that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 underlying stocks (the "Underlying Stocks") trading on the TSE and represents a broad cross-section of Japanese industry. All 225 Underlying Stocks are stocks listed in the First Section of the TSE. Stocks listed in

the First Section are among the most actively traded stocks on the TSE. Futures and options contracts on the Nikkei 225 Index are traded on the SIMEX, the OSE and the Chicago Mercantile Exchange.

The Nikkei 225 Index is a modified, price-weighted index (i.e., an Underlying Stock's weight in the index is based on its price per share rather than the total market capitalization of the issuer) which is calculated by

- . multiplying the per share price of each Underlying Stock by the corresponding weighting factor for that Underlying Stock (a "Weight Factor"),

- . calculating the sum of all these products, and
- . dividing the sum by a divisor.

Each Weight Factor is computed by dividing (Yen)50 by the par value of the relevant Underlying Stock, so that the share price of each Underlying Stock when multiplied by its Weight Factor corresponds to a share price based on a uniform par value of (Yen)50. Each Weight Factor represents the number of shares of the related Underlying Stock which are included in one trading unit of the Nikkei 225 Index. The stock prices used in the calculation of the Nikkei 225 Index are those reported by a primary market for the Underlying Stocks, currently the TSE. The level of the Nikkei 225 Index is calculated once per minute during TSE trading hours.

The divisor was initially set in 1949 at 225 and is subject to periodic adjustment. In order to maintain continuity in the level of the Nikkei 225 Index in the event of certain changes due to non-market factors affecting the Underlying Stocks, such as the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the Nikkei 225 Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the Nikkei 225 Index. Thereafter, the divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each change affecting any Underlying Stock, the divisor is adjusted so that the sum of all share prices immediately after the change multiplied by the applicable Weight Factor and divided by the new divisor, which will be the level of the Nikkei 225 Index immediately after the change, will equal the level of the Nikkei 225 Index immediately prior to the change. The current divisor is available on Bloomberg under the symbol "NKY".

Underlying Stocks may be deleted or added by NKS. However, to maintain continuity in the Nikkei 225 Index, the policy of NKS is generally not to alter the composition of the Underlying Stocks except when an Underlying Stock is deleted in accordance with the following criteria. Any stock becoming ineligible for listing in the First Section of the TSE due to any of the following reasons will be deleted from the Underlying Stocks: bankruptcy of the issuer; merger of the issuer into, or acquisition of the issuer by, another company; delisting of the stock or transfer of the stock to the "Seiri-Post" because of excess debt of the issuer or because of any other reason; or transfer of the stock to the Second Section of the TSE. Upon deletion of a stock from the Underlying Stocks, NKS will select, in accordance with criteria established by it, a replacement for deleted Underlying Stock. In an exceptional case, a newly listed stock in the First Section of the TSE that is recognized by NKS to be representative of a market may be added to the Underlying Stocks. In such case, an existing Underlying Stock with low trading volume and not representative of a market will be deleted.

NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225 Index. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus that NKS makes any representation or warranty, implied or express, to ML&Co., the holder of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 Index to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holder of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225 Index. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities that have been issued or in the determination or

16

calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration or marketing of the MITTS Securities.

The use of and reference to the Nikkei 225 Index in connection with the MITTS Securities have been consented to by NKS, the publisher of the Nikkei 225 Index.

None of ML&Co., the calculation agent and MLPF&S accepts any responsibility for the calculation, maintenance or publication of the Nikkei 225 Index or any Successor Index. NKS disclaims all responsibility for any errors or omissions in the calculation and dissemination of the Nikkei 225 Index or the manner in which the Index is applied in determining any Starting Values or Ending Values or any Supplemental Redemption Amount upon maturity of the MITTS Securities.

The Tokyo Stock Exchange

The TSE is one of the world's largest securities exchanges in terms of market capitalization. Trading hours are currently from 9:00 A.M. to 11:00 A.M. and from 12:30 P.M. to 3:00 P.M., Tokyo time, Monday through Friday.

Due to the time zone difference, on any normal trading day the TSE will

close prior to the opening of business in New York City on the same calendar day. Therefore, the closing level of the Nikkei 225 Index on such trading day will generally be available in the United States by the opening of business on the same calendar day.

The TSE has adopted measures, including daily price floors and ceilings on individual stocks, intended to prevent any extreme short-term price fluctuations resulting from order imbalances. In general, any stock listed on the TSE cannot be traded at a price lower than the applicable price floor or higher than the applicable price ceiling. Price floors and ceilings are expressed in absolute Japanese yen, rather than percentage, limits based on the closing price of the stock on the previous trading day. In addition, when there is a major order imbalance in a listed stock, the TSE posts a "special bid quote" or a "special asked quote" for that stock at a specified higher or lower price level than the stock's last sale price in order to solicit counter-orders and balance supply and demand for the stock. Prospective investors should also be aware that the TSE may suspend the trading of individual stocks in limited and extraordinary circumstances, including, for example, unusual trading activity in that stock. As a result, changes in the Nikkei 225 Index may be limited by price limitations or special quotes, or by suspension of trading, on individual stocks which comprise the Nikkei 225 Index, which limitations may, in turn, adversely affect the value of the MITTS Securities.

17

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a

Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

18

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of

19

outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of senior debt securities may waive an Event of Default under that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the Trustee shall be entitled to receive from the Holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

20

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$4.8938 per Unit (the "Projected Supplemental Redemption Amount"). This represents an estimated yield on the MITTS Securities equal to 6.01% per annum (compounded semiannually).

The projected payment schedule (including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed

to have accrued with respect to each Unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities (including both the Projected Supplemental Redemption Amount and the estimated yield equal to 6.01% per annum (compounded semiannually)) as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

<TABLE>

</TABLE>

Projected Supplemental Redemption Amount = \$ 4.8938 per Unit.

21

All prospective investors in the Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;

- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and

22

- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
 + The information in this prospectus is not complete and may be changed. We +  
 + may not sell these securities until the registration statement filed with +  
 + the Securities and Exchange Commission is effective. This prospectus not is +  
 + an offer to sell these securities and is not soliciting an offer to buy +  
 + these securities in any state where the offer and sale is not permitted. +

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from the prospectus to help you understand The Energy Select Sector SPDR(R) Fund Market Index Target-Term Securities(R) due February 21, 2006. You should carefully read this prospectus to understand fully the terms of the MITTS Securities as well as the tax and other considerations that should be important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights some risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

References in this prospectus to "Energy SPDR Fund" are to the Energy Select Sector SPDR Fund.

We have attached the prospectus for the Energy SPDR Fund dated January 28, 2000 (the "Fund Prospectus"). You should carefully read the Fund Prospectus to fully understand the operation and management of the Energy SPDR Fund, particularly the fees and expenses associated with shares of the Energy SPDR Fund which affect the Net Asset Value per share of the Energy SPDR Fund and which will directly apply to you if we choose to deliver these shares to you at maturity of the MITTS Securities. Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Energy SPDR Fund and the index compilation agent for the Energy Select Sector Index . However, we are not affiliated with the Energy SPDR Fund or the Energy Select Sector Index. The Energy SPDR Fund will not receive any of the proceeds from the sale of the MITTS Securities and will not have any obligations with respect to the MITTS Securities. We have attached the Fund Prospectus and are delivering it to you together with this prospectus for the convenience of reference only. The Fund Prospectus does not constitute a part of prospectus, nor is it incorporated by reference in this prospectus.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on February 21, 2006 and cannot be redeemed at an earlier date. You will not receive any shares of the Energy SPDR Fund or any other payments on the MITTS Securities until maturity.

Each "unit" of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, the MITTS Securities were issued in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC record beneficial ownership of the MITTS Securities by individual investors. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive at the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to

protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in the appreciation, if any, in the Net Asset Value per share of the Energy SPDR Fund. At maturity, you will receive a number of shares, and an amount of cash equal to the value of any fractional shares, of the Energy SPDR Fund, or cash with an equal value, equal in value to the sum of the Principal Amount and the Supplemental Redemption Amount, if any. We will determine the number of shares to be delivered to you based on the Ending Value.

3

Principal Amount

The Principal Amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\begin{array}{r}
 \$10 \times \left( \frac{\text{Adjusted Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right)
 \end{array}$$

but will not be less than zero.

"Starting Value" equals 22.4936, the Net Asset Value of one share of the Energy SPDR Fund on February 11, 1999, the date the MITTS Securities were priced for initial sale to the public.

"Adjusted Ending Value" means the Ending Value, as reduced by the application of the Adjustment Factor on each calculation day.

"Ending Value" means the average of the Net Assets Values per share of the Energy SPDR Fund at the close of the market on five Calculation Days shortly before the maturity of the MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's Net Asset Value if, during the calculation period, there is a disruption in the trading of a number of the component stocks of the Energy Select Sector Index or options relating to the shares of the Energy SPDR Fund, the Energy SPDR Fund is unable or otherwise fails to issue a Net Asset Value for the shares of the Energy SPDR Fund or the Energy SPDR Fund suspends the creation or redemption of its shares. Please see the section entitled "Description of the MITTS Securities--Adjustments to the Net Asset Value; Market Disruption Events" in this prospectus.

The "Adjustment Factor" equals 0.85% per year and will reduce the Net Asset Value per share of the Energy SPDR Fund used to calculate the Supplemental Redemption Amount. As a result of the application of the Adjustment Factor, the adjusted Net Asset Value per share of the Energy SPDR Fund used to calculate your Supplemental Redemption Amount at the maturity of the MITTS Securities will be approximately 5.8% less than the actual Net Asset Value per share of the Energy SPDR Fund on any day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the Net Asset Value per share of the Energy SPDR Fund used to calculate your Supplemental Redemption Amount, i.e., the Adjusted Ending Value, see "Description of the MITTS Securities--Delivery at Maturity" and "--Hypothetical Returns" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

4

Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an Adjustment Factor of 0.85% per year:

Example 1--Adjusted Ending Value is less than the Starting Value at the maturity date:

Starting Value: 22.49  
 Hypothetical Ending Value: 23.62  
 Hypothetical Adjusted Ending Value: 22.25

<TABLE>		
<S>	<C>	<C>
	( 22.25 - 22.49 )	(Supplemental
Supplemental Redemption Amount (per unit) = \$10 X	( ----- ) = \$0.00	Redemption
	( 22.49 )	Amount cannot
</TABLE>		be less than zero)

Total value of shares delivered at maturity (per unit) = \$10 + \$0 = \$10

Example 2--Adjusted Ending Value is greater than the Starting Value at the

maturity date:

Starting Value: 22.49  
Hypothetical Ending Value: 35.99  
Hypothetical Adjusted Ending Value: 33.90

<TABLE>  
<S> <C> ( 33.90 - 22.49 )  
Supplemental Redemption Amount (per unit) = \$10 X ( ----- ) = \$5.07  
( 22.49 )  
</TABLE>

Total value of shares delivered at maturity (per unit) = \$10 + \$5.07 = \$15.07

How is the Net Asset Value determined?

The "Net Asset Value" means the net asset value per share of the Energy SPDR Fund as determined by the Energy SPDR Fund. The Energy SPDR Fund calculates its Net Asset Value per share by dividing the value of its net assets, i.e., the value of its total assets less total liabilities, by its total number of shares outstanding. Expenses and fees, including the management, administration and distribution fees, of the Energy SPDR Fund are accrued daily and taken into account for purposes of determining Net Asset Value. The Net Asset Value per share of the Energy SPDR Fund is determined by the Energy SPDR Fund each Business Day after the close of trading on the New York Stock Exchange, ordinarily 4:00 p.m., New York time. Shares of the Energy SPDR Fund are listed on the AMEX under the trading symbol "XLE".

When will I receive cash instead of shares of the Energy SPDR Fund?

If we choose to pay you the amount due to you at maturity in cash instead of in shares of the Energy SPDR Fund which you would otherwise be entitled to receive, we will pay you an amount of cash equal to the sum of the Principal Amount and the Supplemental Redemption Amount, if any. In addition, if at any time MLPF&S ceases to be a soliciting dealer in the shares of the Energy SPDR Fund, we will pay the amount due to you in cash instead of shares. Please see the section entitled "Description of the MITTS Securities--Delivery at Maturity" in this prospectus.

In addition, in the event that we choose to deliver shares of the Energy SPDR Fund at maturity, we will not distribute any fractional shares to you. We will aggregate all amounts due to you in respect of the total number of units you hold on the stated maturity date, and in lieu of delivering to you any fractional shares of the Energy SPDR Fund to which you would otherwise

5

be entitled, we will pay you the cash value of these fractional shares based on the Net Asset Value per share of the Energy SPDR Fund shortly before maturity.

Will I be charged any transaction fees or expenses with respect to the shares of the Energy SPDR Fund?

Unless and until we deliver shares of the Energy SPDR Fund to you in satisfaction of our obligations under the MITTS Securities, you will not be directly charged any management, administration, distribution or other transaction fees or other expenses with respect to the shares of the Energy SPDR Fund. However, because the Energy SPDR Fund accrues these fees and expenses daily for purposes of determining the Net Asset Value of its shares, the Net Asset Values used to calculate your Supplemental Redemption Amount will reflect the deduction of these fees and expenses as well as the reduction resulting from the application of the Adjustment Factor.

If at maturity we deliver to you shares of the Energy SPDR Fund, you will then become directly subject to ongoing account maintenance fees and some other transaction expenses with respect to your shares so long as you hold these shares.

The accompanying Fund Prospectus describes the fees and expenses charged by the Energy SPDR Fund in greater detail.

What is the Energy SPDR Fund?

The Energy SPDR Fund is an index fund whose stated investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities comprising the Energy Select Sector Index. The Energy Select Sector Index consists of the equity securities of publicly traded companies that are components of the S&P 500 Index and are involved in the development and production of energy products. Companies in the Energy Select Sector Index develop and produce crude oil and natural gas, and provide drilling and other energy related services. As of February 11, 1999, the Energy Select Sector Index included 31 component stocks. A list of these securities and their index

weightings as of that date is set forth under the section "The Energy SPDR Fund" in this prospectus. Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Energy SPDR Fund and the Index Compilation Agent for the Energy Select Sector Index. We are not affiliated with the Energy SPDR Fund or the Energy Select Sector Index. The Energy SPDR Fund does not receive any of the proceeds from the sale of, or have any obligations under, the MITTS Securities. You should independently decide whether an investment in the MITTS Securities and the Energy SPDR Fund is appropriate for you.

The Energy SPDR Fund is one of nine investment funds comprising the Select Sector SPDR Trust (the "Trust"), a management investment company registered under the Investment Company Act of 1940, as amended. Each fund's investment portfolio is comprised principally of constituent companies whose equity securities are components of the S&P 500 Index, each representing one of nine specified market sector indices. Each stock in the S&P 500 Index is allocated to only one Select Sector Index. The combined companies of the nine Select Sector Indices represent all of the companies whose stocks are components of the S&P 500 Index.

You should carefully read the Fund Prospectus accompanying this prospectus to fully understand the operation and management of the Energy SPDR Fund. In addition, because the Trust is subject to the registration requirements of the Securities Act of 1933, as amended, and the Investment Company Act, the Trust is required to file periodically information specified by the SEC. For more information about the Energy SPDR Fund and the shares that you may receive at maturity, information provided to or filed with the SEC by the Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. You may also obtain copies of these documents at no cost by calling the Trust at (800) 843-2639 or by writing the Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor these other documents are incorporated by reference in this prospectus, and we make no representation or warranty as to the accuracy or completeness of that information.

6

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the symbol "ESM".

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the offering and sale of the MITTS Securities.

MLPF&S is our agent for purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount. Under some circumstances, these duties could result in a conflict of interest between MLPF&S's status as our subsidiary and its responsibilities as calculation agent.

MLPF&S also is a soliciting dealer in the shares of the Energy SPDR Fund and is the index compilation agent for the Energy Select Sector Index. Under some circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities to the Energy SPDR Fund and the Energy Select Sector Index. Please see the section entitled "Risk Factors--Potential conflicts" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risks. Please refer to the section "Risk Factors" in this prospectus.

7

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

The MITTS Securities are unlike typical equity or debt securities

The MITTS Securities combine features of equity and debt instruments. For example, like an equity instrument, the Supplemental Redemption Amount will be based on the increase, if any, in the Net Asset Value per share of the Energy SPDR Fund. However, as a holder of the MITTS Securities, you will not be entitled to receive distributions that would be payable on the shares of the Energy SPDR Fund if you had made a direct investment in the shares. In addition, like a debt instrument, you will receive the principal amount of your MITTS Securities on the maturity date. However, the terms of the MITTS Securities differ from the terms of ordinary debt securities in that the Supplemental Redemption Amount payable at maturity is not a fixed amount, but is based on the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor, determined on five, or, under particular circumstances, fewer than five days shortly before the maturity date.

You may not earn a return on your investment

You should be aware that at maturity we will pay you no more than \$10 for each unit of the MITTS Securities you own if the average value of the index over five trading days shortly before the maturity does not exceed 22.4936. This will be true even if, at some time during the life of the MITTS Securities, the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor, was higher than 22.4936 but later falls below 22.4936.

Your return will not reflect the return of owning shares of the Energy SPDR Fund or the securities and other assets comprising the Energy SPDR Fund's investment portfolio

When determining the Supplemental Redemption Amount, if any, paid to you at maturity, the Energy SPDR Fund's Net Asset Value per share, which reflects the reduction of fund assets resulting from the accrual of the Energy SPDR Fund's fees and expenses and any distributions made by the Energy SPDR Fund, will also be reduced by the application of the Adjustment Factor. Consequently, your return on the MITTS Securities will not reflect the return of owning the shares of the Energy SPDR Fund or the securities and other assets comprising the Energy SPDR Fund's investment portfolio.

Changes in the Net Asset Value per share of the Energy SPDR Fund will not exactly mirror changes in the Energy Select Sector Index

As indicated in the Fund Prospectus, the Energy SPDR Fund's investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities comprising the Energy Select Sector Index. However, because the Energy SPDR Fund's investment portfolio may not hold all of the stocks in the Energy Select Sector Index or may not hold each stock in the same weighting as the Energy Select Sector Index, because the Energy SPDR Fund may hold other assets and because the Net Asset Value per share of the Energy SPDR Fund reflects the reduction of fund assets resulting from the accrual of fees and expenses and the payment of distributions, if any, changes in the value of the Energy Select Sector Index and in the Net Asset Value per share of the Energy SPDR Fund are not expected to be identical. As stated in the Fund Prospectus, the investment adviser to the Energy SPDR Fund believes that "over time, the 'tracking error' of the Energy SPDR Fund relative to the performance of the

8

Energy Select Sector Index, adjusted for the effect of the Energy SPDR Fund's expenses, will be less than 5%". There is no assurance that the tracking error will not be greater than 5% at any time, including the time that you may wish to sell your MITTS Securities before the maturity date or at the time the calculation agent determines the Supplemental Redemption Amount, if any.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable Merrill Lynch & Co., Inc. debt security with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "ESM", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the Net Asset Value per share of the Energy SPDR Fund.

If a limited trading market for the MITTS Securities exists, and you do

not wish to hold your investment until maturity, fewer buyers may want to purchase your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the Net Asset Value per share of the Energy SPDR Fund. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The Net Asset Value per share of the Energy SPDR Fund is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor, exceeds the Starting Value. Even if you choose to sell your MITTS Securities when the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Net Asset Value will continue to fluctuate until shortly before the maturity date when the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities before the maturity date when the Net Asset Value per share of the Energy SPDR Fund, as adjusted by the Adjustment Factor, is below or not sufficiently above the Starting Value, you may receive less than the \$10 Principal Amount per unit of MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the Principal Amount per unit of the MITTS Securities at maturity, we expect that changes in interest rates will effect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease

9

and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the Net Asset Value of the Energy SPDR Fund. Rising interest rates may lower the Net Asset Value per share of the Energy SPDR Fund and, as a result, lower the trading value of the MITTS Securities and, conversely, falling interest rates may increase the Net Asset Value per share of the Energy SPDR Fund and, as a result, may increase the trading value of the MITTS Securities.

Changes in the volatility of the Fund are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the Net Asset Value per share of the Energy SPDR Fund increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Net Asset Value per share of the Energy SPDR Fund decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. The MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Net Asset Value per share of the Energy SPDR Fund. This difference will reflect a "time premium" due to expectations concerning the Net Asset Value per share of the Energy SPDR Fund during the period before the maturity of the MITTS Securities. However, as the time remaining to the maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Fund are expected to affect the trading value of the MITTS Securities. Generally, if dividend yields on the stocks comprising the Energy SPDR Fund increase, we expect that the trading value of the MITTS Securities will decrease, and conversely, if dividend yields on the stocks comprising the Energy SPDR Fund's investment portfolio decrease, we expect that the trading value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase

in the Net Asset Value per share of the Energy SPDR Fund at maturity, an improvement in our credit ratings will not reduce other investment risks related to the MITTS Securities.

In general, assuming all other relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in any one of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of an increase or decrease in the Net Asset Value per share of the Energy SPDR Fund will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Absence of prior active market for shares of the Energy SPDR Fund

The Energy SPDR Fund is a recently organized investment company and there is limited operating history available. Although these shares are listed for trading on the AMEX and a number of similar products have been traded on the AMEX for varying periods of time, there is no assurance that an active trading market will continue to exist for the shares of the Energy SPDR Fund. If a trading market does continue to exist, there is no assurance that there will be liquidity in the trading market.

10

Concentration in energy-related securities

Because the Energy SPDR Fund's investment portfolio is predominantly comprised of securities of companies in the energy-producing field, the value of the MITTS Securities may be adversely affected by an economic downturn in the energy industry. The companies whose securities comprise the Energy SPDR Fund's investment portfolio produce crude oil and natural gas and provide drilling and other energy production and distribution related services. Stock prices for these types of companies are affected by supply and demand both for their specific product or service and for energy products in general. The price of oil and gas, exploration and production spending, government regulation, political events and economic conditions will likewise affect the performance of these companies. Correspondingly, companies in the energy field are subject to swift energy price and supply fluctuations caused by events relating to international politics, energy conservation, the results of exploration projects, and tax and other governmental policies. Weak demand for these companies' products or services or for energy products and services in general, as well as negative developments in these other areas, would adversely affect the performance of the Energy SPDR Fund and in turn, the trading value of the MITTS Securities.

No affiliation between ML&Co. and the Energy SPDR Fund

Our affiliate MLPF&S is both a soliciting dealer in the shares of the Energy SPDR Fund and the Index Compilation Agent for the Energy Select Sector Index. However, we are not affiliated with the Energy SPDR Fund or the Energy Select Sector Index. The Energy SPDR Fund has no obligations with respect to the MITTS Securities or amounts to be paid to you, including any obligation to take the needs of ML&Co. or of beneficial owners of the MITTS Securities into consideration for any reason. The Energy SPDR Fund did not receive any of the proceeds from this offering and is not responsible for, and has not participated in, the determination or calculation of the amount you will receive on your MITTS Securities at maturity. In addition, the Energy SPDR Fund is not involved with the administration or trading of the MITTS Securities and has no obligations with respect to any amounts due under the MITTS Securities.

You will not have shareholder's rights until you receive share of the Energy SPDR Fund

Unless and until we deliver shares of the Energy SPDR Fund to you at the maturity of the MITTS Securities, you will not be entitled to any rights with respect to these shares including, without limitation, the right to receive distributions on, to vote or to redeem these shares. For example, if the Energy SPDR Fund sets a record date for a matter to be voted on by shareholders before our delivery of the shares of the Energy SPDR Fund to you, you will not be entitled to vote on that matter.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws

concerning usurious rates of interest.

11

#### Potential conflicts of interests

The calculation agent for the MITTS Securities is one of our subsidiaries. In some circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests between the calculation agent and the holders of the MITTS Securities. These conflicts could occur, for instance, in connection with its determination as to whether a Market Disruption Event (as defined below) has occurred.

MLPF&S is a soliciting dealer in the shares of the Energy SPDR Fund. In some circumstances, MLPF&S's role as calculation agent for the MITTS Securities and its role as a soliciting dealer in the shares could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities. These conflicts could occur in connection with its determination as to the Adjusted Ending Value and the number of shares to be delivered at maturity.

Additionally, MLPF&S serves as Index Compilation Agent for the Energy Select Sector Index. In its capacity as Index Compilation Agent, MLPF&S determines, in consultation with S&P, which securities of the S&P 500 it will include in the Energy Select Sector Index. In some circumstances, MLPF&S's role as calculation agent for the MITTS Securities and its role as Index Compilation Agent could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities.

MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We anticipate entering into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due under the MITTS Securities. This subsidiary expects to make a profit in connection with the arrangement. We did not seek competitive bids for the arrangement from unaffiliated parties.

12

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

## RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

## DESCRIPTION OF THE MITTS SECURITIES

On February 18, 1999, ML&Co. issued \$51,000,000 aggregate principal amount, or 5,100,000 units, of Energy Select Sector SPDR Fund MITTS Securities due February 21, 2006. The MITTS Securities were issued as a series of senior debt securities under the Senior Indenture, referred to as the 1983 Indenture, which is more fully described in this prospectus. The MITTS Securities will mature on February 21, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the number of shares of the Energy SPDR Fund, or cash with an equal value, equal in value, determined based on the Ending Value, to the sum of the Principal Amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "Delivery at Maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner prior to maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "Description of the MITTS Securities--Events of Default and Acceleration" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

The MITTS Securities do not have the benefit of any sinking fund.

## Delivery at Maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the number of shares of the Energy SPDR Fund, or cash with an equal value, equal in value as determined based on the Ending Value, to the Principal Amount of each MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. The amount to be paid by ML&Co. to any holder of the MITTS Securities on the maturity date will be aggregated based on the total number of units then held by each holder and rounded to the nearest cent. If the Adjusted Ending Value does not exceed the Starting Value, a beneficial owner of a MITTS Security will be entitled to receive only the number of shares of the Energy SPDR Fund, or cash with an equal value, equal in value as determined based on the Ending Value, to the Principal Amount of each MITTS Security.

If ML&Co. chooses to deliver shares of the Energy SPDR Fund to holders of the MITTS Securities at the maturity date, ML&Co. or one of its affiliates will deliver shares of the Energy SPDR Fund that are then newly issued by the Energy SPDR Fund.

ML&Co. may, at its option, in lieu of delivering shares of the Energy SPDR Fund, pay cash in an amount equal to the sum of the Principal Amount of the MITTS Securities and the Supplemental Redemption Amount, if any. In addition, if at any time MLPF&S ceases to be a soliciting dealer in the shares of the Energy SPDR Fund, ML&Co. will pay the amount due to holders of the MITTS Securities in cash instead of shares.

#### Determination of the Supplemental Redemption Amount

The Supplemental Redemption Amount for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
Principal Amount of each MITTS Security (\$10 per unit) X	(Adjusted Ending Value - Starting Value)
	(-----)
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

15

The "Starting Value" equals 22.4936, the Net Asset Value of one share of the Energy SPDR Fund on the Pricing Date.

"Net Asset Value" means the net asset value per share of the Energy SPDR Fund as determined by the Energy SPDR Fund. The Energy SPDR Fund calculates its Net Asset Value per share by dividing the value of its net assets, i.e., the value of its total assets less total liabilities, by its total number of shares outstanding. Expenses and fees, including the management, administration and distribution fees, of the Energy SPDR Fund are accrued daily and taken into account for purposes of determining its Net Asset Value. The Net Asset Value per share of the Energy SPDR Fund is determined by the Energy SPDR Fund each Business Day after the close of trading on the New York Stock Exchange, ordinarily 4:00 p.m., New York time. Shares of the Energy SPDR Fund are listed on the AMEX under the trading symbol "XLE".

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the Ending Value, as reduced by the application of the Adjustment Factor on each Calculation Day.

The "Ending Value" will equal the average, or the arithmetic mean, of the Net Asset Values per share of the Energy SPDR Fund on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period, the Ending Value will equal the average, or the arithmetic mean, of the Net Asset Values of the Energy SPDR Fund on each of the Calculation Days, and if there is only one Calculation Day, then the Ending Value will be equal to the Net Asset Value per share of the Energy SPDR Fund on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Value shall mean the Net Asset Value per share of the Energy SPDR Fund on the last Trading Day prior to the Calculation Period for which a Net Asset Value per share of the Energy SPDR Fund was determined.

The Adjustment Factor equals 0.85% per year and will be prorated based on a 365-day year and applied each calendar day to reduce the Ending Value used to calculate the Supplemental Redemption Amount. As a result of the application of the Adjustment Factor, the adjusted Net Asset Value of one share of the Energy SPDR Fund used to calculate the Supplemental Redemption Amount at the maturity of the MITTS Securities will be approximately 5.8% less than the actual Net Asset Value per share of the Energy SPDR Fund on any day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Calculation Day prior to the Maturity Date to and including the second scheduled Calculation Day prior to maturity.

"Calculation Day" means any Trading Day on which a Market Disruption Event has not occurred.

"Trading Day" is a day on which the shares of the Energy SPDR Fund:

- are not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business and
- have traded at least once on a national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of the shares of the Energy SPDR Fund.

Fractional Shares

ML&Co. will not deliver fractional shares of the Energy SPDR Fund at maturity. In the event ML&Co. elects to pay holders of the MITTS Securities in shares of the Energy SPDR Fund, all amounts due to any holder of the MITTS Securities in respect of the total number of units held by that holder will be aggregated, and in lieu of delivering any fractional share to that holder, that holder will receive the cash value of the fractional share based on the Ending Value.

Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Values,

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the percentage change from the Starting Value to the Adjusted Ending Value,
- . the principal amount and Supplemental Redemption Amount, if any, paid at maturity for each unit,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in shares of the Energy SPDR Fund. This table assumes an Adjustment Factor of 0.85% per annum.

<TABLE>

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes,

(a) a constant dividend yield of 2.67% per annum, paid quarterly from the date of the initial delivery of the MITTS Securities, applied to the

- Net Asset Value per share of the Energy SPDR Fund at the end of each quarter, assuming the Net Asset Value per share of the Energy SPDR Fund increases or decreases linearly from the Starting Value to the hypothetical Ending Value during the Calculation Period;
- (b) no transaction fees or expenses in connection with the purchase of the MITTS Securities;
  - (c) a term from February 11, 1999 to February 21, 2006; and
  - (d) a Net Asset Value per share of the Energy SPDR Fund on the maturity date equal to the Ending Value.
- (3) The Starting Value equals 22.4936, the Net Asset Value per share of the Energy SPDR Fund on the Pricing Date.

17

The figures on the previous page are for purposes of illustration only. The actual Supplemental Redemption Amount and the total and pretax annualized rate of return resulting therefrom will depend entirely on actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Net Asset Value; Market Disruption Events

If at any time the shares of the Energy SPDR Fund are subject to a split or reverse split, the calculation agent shall adjust the Net Asset Value per share of the Energy SPDR Fund used to calculate the Ending Value in order to arrive at a Net Asset Value per share of the Energy SPDR Fund as if the split or reverse split, as the case may be, had not occurred.

"Market Disruption Event" means either of the following events; as determined by the calculation agent:

- (a) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in each case, in 20% or more of the stocks which then comprise the Index; or
- (b) the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise,
  - (A) futures contracts related to the Index, or options on these futures contracts, which are traded on any major U.S. exchange, or
  - (B) option contracts related to the Index which are traded on any major U.S. exchange, or
- (c) the Energy SPDR Fund (1) is unable or otherwise fails to issue a Net Asset Value for any shares of the Energy SPDR Fund after the close of business on the NYSE or (2) suspends the creation or redemption of shares of the Energy SPDR Fund.

For the purposes of paragraphs (a) and (b) of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under New York Stock Exchange Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Termination of the Energy SPDR Fund

If the Energy SPDR Fund is liquidated or otherwise terminated, for purposes of calculating the Supplemental Redemption Amount payable at the maturity of the MITTS Securities, the "Net Asset Value" will be calculated by the calculation agent as follows: The Net Asset Value per share of the Energy SPDR Fund on the Trading Day occurring immediately before any liquidating distribution will equal the Net Asset Value for that day (the "Pre-liquidation Date"). The calculation agent will then calculate the Net Asset Value after the close of trading on each Trading Day, each applicable date defined as a "Determination Date", after the Pre-liquidation Date by increasing or decreasing, as the case may be, the Net Asset Value as of the immediately preceding Trading Day by the percentage by which the closing value of the Energy Select Sector Index increases or decreases from that immediately preceding Trading Day to the Determination Date and further decreasing the Net Asset Value by fees, expenses and non-liquidating distributions, together, "Fund

18

Expenses", that the calculation agent, in its sole judgment but with reference to the Fund Expenses actually incurred by the Energy SPDR Fund before its

liquidation or termination, deems would reasonably have been accrued and included in the calculation of the Net Asset Value per share of the Energy SPDR Fund had it not been liquidated or terminated, from the immediately preceding Trading Day to the Determination Date. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to the values to be made available by telephone.

If the Energy SPDR Fund is liquidated or otherwise terminated and the Energy Select Sector Index is no longer calculated or published, an "Index Termination Event", the calculation agent will select a successor index that it determines, in its sole discretion, to be comparable to the Energy Select Sector Index, and, upon the calculation agent's notification of its determination to the Trustee and ML&Co., the calculation agent will substitute the successor index for the Energy Select Sector Index and calculate the Net Asset Value in accordance with the procedures referred to in the immediately preceding paragraph with reference to the successor index. Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice thereof to be given to holders of the MITTS Securities.

In the event that an Index Termination Event occurs and a successor index to the Energy Select Sector Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the calculation agent shall compute a substitute index for the Energy Select Sector Index for any Calculation Day in accordance with the procedures last used to calculate the Energy Select Sector Index prior to any discontinuance. The calculation agent will calculate the Net Asset Value in accordance with the procedures referred to in the first paragraph of this section with reference to the substitute index. Upon any selection by the calculation agent of the substitute index, ML&Co. shall cause notice thereof to be given to holders of the MITTS Securities.

If S&P discontinues publication of the S&P 500 Index subsequent to an Index Termination Event and

- . a successor index to the Energy Select Sector Index is not selected by the calculation agent or is no longer published on any of the Calculation Days and
- . the calculation agent is unable to calculate a substitute index for the Energy Select Sector Index, then

the calculation agent will compute a substitute index for the S&P 500 Index for any Calculation Day in accordance with the procedures last used to calculate the S&P 500 Index prior to any discontinuance. If the calculation agent calculates the substitute index for the S&P 500 Index, the calculation agent will use the substitute index to calculate the substitute index for the Energy Select Sector Index.

Notwithstanding these alternative arrangements, liquidation or termination of the Energy SPDR Fund or the discontinuance of the publication of the Energy Select Sector Index or the S&P 500 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount thereof, will be equal to the Principal Amount and the Supplemental Redemption Amount, if any, calculated assuming:

- . the date of early repayment is the maturity date of the MITTS Securities and

19

- . the Adjustment Factor is prorated based on a 365-day year and applied each calendar day to reduce the Net Asset Value per share of the Energy SPDR Fund used to calculate the Supplemental Redemption Amount. See "Delivery at Maturity" in this prospectus.

If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the Principal Amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 5.83% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

Description of the Global Securities

Beneficial owners of the MITTS Securities may not receive physical delivery of the MITTS Securities nor may they be entitled to have the MITTS Securities registered in their names. The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, The Depository Trust Company or DTC, DTC, together with any successor thereto, being (a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by a global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders under the 1983 Indenture, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and the participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of the MITTS Securities, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities

will be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has

21

reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

In addition, ML&Co. may decide to discontinue use of the system of book-entry transfers through the depository. In that event, MITTS Securities in definitive form will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Delivery

All payments of principal and the Supplemental Redemption Amount, if any, will be made by ML&Co., by delivery of shares of the Energy SPDR Fund in an equivalent value. In the event ML&Co. elects, at its option, to pay cash in lieu of delivering shares of the Energy SPDR Fund, ML&Co. will make that payment in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

## THE ENERGY SPDR FUND

ML&Co. has attached the Fund Prospectus describing the Energy SPDR Fund and is delivering it to purchasers of the MITTS Securities together with this prospectus for the convenience of reference only. The Fund Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference in this prospectus. The summary description below is qualified in its entirety by the information describing the Energy SPDR Fund and the Energy Select Sector Index included in the attached Fund Prospectus.

As stated in the Fund Prospectus, the Energy SPDR Fund is an index fund whose investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities included in the Energy Select Sector Index. The Energy Select Sector Index consists of the equity securities of publicly traded companies that are components of the S&P 500 Index and are involved in the development and production of energy products. Companies in the Energy Select Sector Index develop and produce crude oil and natural gas, and provide drilling and other energy related services.

Although ML&Co.'s subsidiary, MLPF&S, provides services to the Energy SPDR Fund and the Energy Select Sector Index, ML&Co. is not affiliated with the Energy SPDR Fund or the Energy Select Sector Index, and the Energy SPDR Fund did not receive any of the proceeds from the sale of, or have any obligations under, the MITTS Securities. A prospective purchaser of the MITTS Securities should independently decide whether an investment in the MITTS Securities and the Energy SPDR Fund is appropriate.

The Energy SPDR Fund is one of nine investment funds comprising the Trust. Each fund's investment portfolio is comprised principally of constituent companies whose equity securities are components of the S&P 500 Index, each representing one of nine specified market sector indices. Each stock in the S&P 500 Index is allocated to only one Select Sector Index. The combined companies of the nine indices represent all of the companies whose stocks are components of the S&P 500 Index. The Energy SPDR Fund's initial public offering occurred on December 16, 1998 and therefore it has limited operating history.

Because the Trust is subject to the registration requirements of the Securities Act and the Investment Company Act, the Trust is required to file periodically information specified by the SEC. For more information about the Energy SPDR Fund and the shares that a holder of the MITTS Securities may receive at maturity, information provided to or filed with the SEC by the Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. Copies of these documents may also be obtained at no cost by calling the Trust at (800) 843-2639 or by writing the Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor these other documents are incorporated by reference in this prospectus, and ML&Co. makes no representation or warranty as to the accuracy or completeness of any of these other documents.

ML&Co. is not affiliated with the Energy SPDR Fund, and the Energy SPDR Fund has no obligations with respect to the MITTS Securities. This prospectus relates only to the MITTS Securities offered hereby and does not relate to the shares of the Energy SPDR Fund or any other securities relating to the Energy SPDR Fund. The information contained in this prospectus regarding the Energy SPDR Fund has been derived from the publicly available documents described in the preceding paragraph. ML&Co. makes no representation that these publicly available documents or any other publicly available information regarding the Energy SPDR Fund are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this prospectus, including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph, that would affect the trading price of the shares of the Energy SPDR Fund, and therefore the trading price of the MITTS Securities, have been publicly disclosed. Subsequent disclosure of any material events or the disclosure of or failure to disclose material future events

concerning the Energy SPDR Fund could affect the Supplemental Redemption Amount, if any, to be received at maturity and therefore the trading value of the MITTS Securities.

MLPF&S, a subsidiary of ML&Co., is a soliciting dealer in the shares of the Energy SPDR Fund. Additionally, MLPF&S serves as Index Compilation Agent for the Energy Select Sector Index. In its capacity as Index Compilation Agent, MLPF&S determines, in consultation with S&P, the composition of the securities measured by the Energy Select Sector Index.

License Agreement

S&P, the AMEX and MLPF&S have entered into a non-exclusive license

agreement providing for the license to MLPF&S, in exchange for a fee, of the right to use indices owned and published by S&P in connection with some securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee of MLPF&S.

The license agreement among S&P, the AMEX and MLPF&S provides that the following language must be stated in this prospectus:

"Standard & Poor's(R)", "Standard & Poor's 500", "S&P 500(R)", "S&P(R)", "500", "Standard & Poor's Depository Receipts", "SPDRs", "Select Sector SPDR" and "Select Sector Standard & Poor's Depository Receipts" are trademarks of Standard & Poor's, a division of The McGraw-Hill Companies, Inc., and have been licensed for use by MLPF&S. ML&Co., is an authorized sublicensee of MLPF&S. The stocks comprising the Energy Select Sector Index were selected by MLPF&S, as Index Compilation Agent, in consultation with S&P from the universe of companies represented by the S&P 500 Index. The composition and weightings of the stocks included in the Energy Select Sector Index can be expected to differ from the composition and weighting of stocks included in any similar S&P 500 sector index published and disseminated by S&P.

The MITTS Securities, the Energy SPDR Fund and the Energy Select Sector Index are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or in the ability of the Energy SPDR Fund to track the performance and yield of the Energy Select Sector Index or in the ability of the Energy Select Sector Index to track the performance of the energy sector represented in the stock market. The stocks included in the Energy Select Sector Index were selected by MLPF&S as the Index Compilation Agent in consultation with S&P from a universe of companies involved in the development and production of energy products and represented by the S&P 500 Index. The composition and weightings of the stocks included in the Energy Select Sector Index can be expected to differ from the composition and weighting of stocks included in any corresponding S&P 500 sector index that is published and disseminated by S&P. S&P's only relationship to the Index Compilation Agent is the licensing of some trademarks and trade names of S&P and of the S&P 500 Index which is determined, composed and calculated by S&P without regard to the index compilation agent or the MITTS Securities. S&P has no obligation to take the needs of the Index Compilation Agent, ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. S&P is not responsible for and has not participated in any determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are initially to be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which ML&Co. will convert the MITTS Securities ML&Co. into shares of the Energy SPDR Fund or cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

S&P does not guarantee the accuracy and/or the completeness of the S&P 500 Index, the Energy Select Sector Index or any data included therein. S&P makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, the holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index, the Energy Select Sector Index or any data included therein in connection with

24

the rights licensed under the license agreement described herein or for any other use. S&P makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index, the Energy Select Sector Index or any data included therein. Without limiting the generality of the foregoing, in no event shall S&P have any liability for any special, punitive, indirect or consequential damages (including lost profits), even if notified of the possibility of these damages.

All disclosures contained in this prospectus regarding the S&P 500 Index or the Energy Select Sector Index, including its respective make-up, method of calculation and changes in its components, are derived from publicly available information prepared by S&P and the Trust, respectively. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under

the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right

25

to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

## Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;

26

- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

## Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the Trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the Trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of

Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or

27

- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$4.9556 per Unit (the "Projected Supplemental Redemption Amount"). This represents an estimated yield on the MITTS Securities equal to 5.83% per annum, compounded semiannually.

The projected payment schedule, including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over an assumed term of approximately seven years for the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the Projected Supplemental Redemption Amount and the estimated yield equal to 5.83% per annum (compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

Projected Supplemental Redemption Amount=\$4.9556 per unit.

All prospective investors in the Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

WHERE YOU CAN FIND MORE INFORMATION

ML&Co.

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

The Energy SPDR Fund

The Trust is subject to the registration requirements of the Securities Act and the Investment Company Act and is required to file periodically information specified by the SEC. For more information about the

Energy SPDR Fund and the shares that you may receive at maturity, information provided to or filed with the SEC by the Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through its web site. You may also obtain copies of these documents at no cost by calling the Trust at (800) 843-2639 or by writing the Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor these other documents are incorporated by reference in this prospectus, and we make no representation or warranty as to the accuracy or completeness of this information.

INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29,

2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Callable Market Index Target-Term Securities(R) due March 5, 2007 based upon Internet HOLDRs(SM). You should carefully read this prospectus to fully understand the terms of the Callable MITTS Securities and the tax and other considerations that are important to you in making a decision about whether to invest in the Callable MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the Callable MITTS Securities, to determine whether an investment in the Callable MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus supplement to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

"Internet HOLDRs" are depository receipts issued by the Internet HOLDRs Trust. We have attached the prospectus dated \_\_\_\_\_ and the prospectus supplement dated \_\_\_\_\_, 2000 for Internet HOLDRs (the "HOLDRs Prospectus"). From time to time the Internet HOLDRs Trust updates the prospectus supplement. You should carefully read the HOLDRs Prospectus and any updated prospectus supplements including the section entitled "Risk Factors" to fully understand the operation and management of the Internet HOLDRs Trust and risks that may affect the price of Internet HOLDRs. The Internet HOLDRs Trust will not receive any of the proceeds from the sale of the Callable MITTS Securities and will not have any obligations with respect to the Callable MITTS Securities.

We have attached the HOLDRs Prospectus and are delivering it to you together with this prospectus for the convenience of reference only. The HOLDRs Prospectus does not constitute a part of this prospectus nor is it incorporated by reference into this prospectus.

What are the Callable MITTS Securities?

The Callable MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The Callable MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The Callable MITTS Securities will mature on March 5, 2007.

Each unit of Callable MITTS Securities represents \$10 principal amount of Callable MITTS Securities. You may transfer the Callable MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the Callable MITTS Securities in the form of a global certificate, which are held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the Callable MITTS Securities. You should refer to the section entitled "Description of the Callable MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the Callable MITTS Securities?

We have designed the Callable MITTS Securities for investors who want to protect their investment by receiving at least the \$10 principal amount at maturity and who also want to participate in possible increases in the price of Internet HOLDERS. On the stated maturity date, if we have not called the Callable MITTS Securities, you will receive a cash payment equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

3

$$\begin{aligned}
 & \text{\$10 x } \left( \frac{\text{( Ending Value - Starting Value )}}{\text{( Starting Value )}} \right)
 \end{aligned}$$

but will not be less than zero.

"Starting Value" equals 156.44, the closing price of one unit of Internet HOLDERS on February 29, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

"Ending Value" will be the average of the closing prices of Internet HOLDERS, as adjusted for dilution and reorganization events described in this prospectus, on five business days shortly before the maturity of the Callable MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's closing price if, during the period shortly before the stated maturity date of the Callable MITTS Securities, there is a disruption in the trading of Internet HOLDERS.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the Callable MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if we do not call the Callable MITTS Securities prior to the maturity date and the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your Callable MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

Examples

Here are two examples of Supplemental Redemption Amount, calculations assuming the Callable MITTS Securities have not been called prior to the stated maturity:

Example 1--The Ending Value is less than the Starting Value on the stated maturity date:

Starting Value: \$156.44  
Hypothetical Ending Value at maturity: \$140.79

<TABLE>		<C>		<C>
<S>				(Supplemental
		( 140.79 - 156.44 )		Redemption
	Supplemental Redemption Amount (per unit) = \$10 x	( ----- )	x = \$0.00	Amount cannot
		( 156.44 )		be less than
				zero)

</TABLE>

Total payment at maturity (per unit) = \$10.00 + \$0.00 = \$10.00

Example 2-- The Ending Value is less than the Starting Value on the stated maturity date:

Starting Value: \$156.44  
Hypothetical Ending Value at maturity: \$281.59

<TABLE>		<C>	
<S>			
		( 281.59 - 156.44 )	
	Supplemental Redemption Amount (per unit) = \$10 x	( ----- )	x = \$8.00
		( 156.44 )	

</TABLE>

Total payment at maturity (per unit) = \$10.00 + \$8.00 = \$18.00

How does the call feature work?

We may elect to call the Callable MITTS Securities at \$22.50 per unit (the "Call Price") on any Business Day during the month of February 2006 (the "Call Period") by giving notice to the trustee of the Callable MITTS Securities as described herein and specifying the date on which the Call Price shall be paid (the "Payment Date"). The Payment Date shall be no later than the twentieth Business Day after the call election.

If we elect to call your Callable MITTS Securities prior to the stated maturity date, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Internet HOLDERS. If we do not call the Callable MITTS Securities prior to the stated maturity date, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity date may be greater than or less than the Call Price.

What is the Internet HOLDERS Trust?

The Internet HOLDERS Trust was formed under the depositary trust agreement, dated September 2, 1999, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Internet HOLDERS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the Internet industry. The trust issues Internet HOLDERS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Internet HOLDERS are separate from the underlying common stocks that are represented by Internet HOLDERS.

Internet HOLDERS are listed on the AMEX under the trading symbol "HHH".

You should carefully read the HOLDERS Prospectus accompanying this prospectus to fully understand the operation and management of the Internet HOLDERS Trust. The risks described in the HOLDERS Prospectus under the section entitled "Risk Factors" may affect the prices of Internet HOLDERS and, therefore, the value of the Callable MITTS Securities. The HOLDERS Prospectus is not incorporated by reference into this prospectus and we make no representation or warranty as to the accuracy or completeness of the information.

Please note that an investment in the Callable MITTS Securities does not entitle you to an ownership interest in Internet HOLDERS or in the stocks held by the Internet HOLDERS Trust.

Are the Callable MITTS Securities listed on a stock exchange?

The Callable MITTS Securities are listed on the AMEX under the trading symbol "IHM". You should be aware that the listing of the Callable MITTS Securities on the AMEX will not necessarily ensure that a liquid trading market will be available for the Callable MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the Callable MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S was the underwriter for the initial offering and sale of the Callable MITTS Securities. MLPF&S intends to buy and sell Callable MITTS Securities to create a secondary market for holders of the Callable MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities.

MLPF&S is also be our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent. In addition, MLPF&S also acted as the initial depositor for the Internet HOLDERS Trust.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing,

insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the Callable MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

6

#### RISK FACTORS

Your investment in the Callable MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the Callable MITTS Securities. In addition, you should reach an investment decision with regard to the Callable MITTS Securities only after consulting your legal and tax advisers and considering the suitability of the Callable MITTS Securities in light of your particular circumstances

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the price of Internet HOLDERS was higher than the Starting Value at some time during the life of the Callable MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your Callable MITTS Securities.

The Callable MITTS Securities are subject to early call

We may elect to call all of the Callable MITTS Securities by giving notice on any Business Day during February 2006. We are likely to call the Callable MITTS Securities during the Call Period if the secondary market price of the Callable MITTS Securities is approximately equal to or above the Call Price during that period. We can, however, call the Callable MITTS Securities during the Call Period at our option regardless of the secondary market price of the Callable MITTS Securities. In the event that we elect to call the Callable MITTS Securities, you will receive only the Call Price and no Supplemental Redemption Amount based on the price of Internet HOLDERS.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning Internet HOLDERS or the securities held by the Internet HOLDERS Trust

The return on your Callable MITTS Securities will not reflect the return you would realize if you actually owned Internet HOLDERS and received the dividends, if any, paid on Internet HOLDERS because the value of Internet HOLDERS is calculated by reference to the price of Internet HOLDERS without taking into consideration the value of any normal dividends paid on Internet HOLDERS. In addition, if Callable MITTS Securities are called prior to the stated maturity date, you will receive only the Call Price and you will not receive any additional amount based upon the appreciation, if any, in the price of Internet HOLDERS.

There may be an uncertain trading market for the Callable MITTS Securities

The Callable MITTS Securities are listed on the AMEX under the trading symbol "IHM". You cannot assume that a trading market exists for the Callable MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the Callable MITTS Securities depends on our financial performance and other factors such as the increase, if any, in the price of Internet HOLDERS.

7

If the trading market for the Callable MITTS Securities is limited, there may be a limited number of buyers for your Callable MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the Callable MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the Callable MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the Callable MITTS Securities caused by another factor and that the effect of

one factor may exacerbate the decrease in the trading value of the Callable MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the Callable MITTS Securities attributable to another factor, such as an increase in the price of Internet HOLDERS. The following paragraphs describe the expected impact on the market value of the Callable MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The price of Internet HOLDERS is expected to affect the trading value of the Callable MITTS Securities. We expect that the market value of the Callable MITTS Securities will depend substantially on the amount, if any, by which the price of Internet HOLDERS, as adjusted for certain dilution and reorganization events described in this prospectus supplement, exceeds the Starting Value. If you choose to sell your Callable MITTS Securities when the price of Internet HOLDERS, as adjusted, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that price because of the expectation that the price of Internet HOLDERS will continue to fluctuate until the Ending Value is determined. If you choose to sell your Callable MITTS Securities when the price of Internet HOLDERS, as adjusted, is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of Callable MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the Callable MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of Callable MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the Callable MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the Callable MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the Callable MITTS Securities will increase.

Changes in the volatility of Internet HOLDERS are expected to affect the trading value of the Callable MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. If the volatility of Internet HOLDERS increases or decreases, the trading value of the Callable MITTS Securities may be adversely affected.

As the time remaining to maturity of the Callable MITTS Securities decreases, the "time premium" associated with the Callable MITTS Securities will decrease. We anticipate that before their maturity, the Callable MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the price of Internet HOLDERS. This difference will reflect a "time premium" due to expectations concerning the price of Internet HOLDERS during the period before the stated maturity of the Callable MITTS Securities. However, as the time remaining to the stated maturity of the Callable MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the Callable MITTS Securities.

Changes in dividend yields of the stocks held by the Internet HOLDERS Trust are expected to affect the trading value of the Callable MITTS Securities. If the dividend yields on the stocks held by the Internet HOLDERS Trust increase, we expect that the value of the Callable MITTS Securities will decrease and, conversely, if the dividend yields on the stocks held by the Internet HOLDERS Trust decrease, we expect that the value of the Callable MITTS Securities will increase.

8

Changes in our credit ratings may affect the trading value of the Callable MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the Callable MITTS Securities. However, because your return on your Callable MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the Callable MITTS Securities, such as the percentage increase in the price of Internet HOLDERS at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the Callable MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities. However, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in the price of Internet HOLDERS will be greater if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities.

Amounts payable on the Callable MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the Callable MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the Callable MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not

apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the Callable MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

#### No stockholder's rights

Beneficial owners of the Callable MITTS Securities are not entitled to any rights in Internet HOLDERS including, for example, voting rights and rights to receive any dividends or other distributions and rights to cancel Internet HOLDERS and receive the underlying securities.

#### Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell Internet HOLDERS or stocks of the companies held by the Internet HOLDERS Trust for our own accounts, for business reasons or in connection with hedging our obligations under the Callable MITTS Securities. These transactions could affect the price of Internet HOLDERS in a manner that could be adverse to your investment in the Callable MITTS Securities.

#### Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the Callable MITTS Securities could give rise to conflicts of interests. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

9

#### Risks related to Internet HOLDERS

Internet HOLDERS are subject to various risks which are described under the section entitled "Risk Factors" in the HOLDERS Prospectus. Any loss of value to Internet HOLDERS attributable to such risks could adversely affect the value of the Callable MITTS Securities. You should carefully consider those risks before deciding whether an investment in the Callable MITTS Securities is suitable for you.

10

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

11

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

12

#### DESCRIPTION OF THE CALLABLE MITTS SECURITIES

On March 3, 2000 ML&Co. issued an aggregate principal amount of \$40,000,000 or 4,000,000 units of Callable MITTS Securities. The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The Callable MITTS Securities will mature on March 5, 2007 unless called earlier at the option of ML&Co.

Unless called, at the stated maturity a beneficial owner of a Callable MITTS Security will receive the sum of the principal amount of the Callable MITTS Security plus the Supplemental Redemption Amount, if any. There will be no other payment of interest, periodic or otherwise. See the section entitled "-- Payment at maturity".

The Callable MITTS Securities may be called by ML&Co. as described below, but are not subject to redemption at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the Callable MITTS Securities, beneficial owners of the Callable MITTS Securities may accelerate the maturity of the Callable MITTS Securities, as described under the sections entitled "--Events of Default and Acceleration" in this prospectus supplement and "Description of Debt Securities--Events of Default" in the accompanying prospectus.

ML&Co. will issue the Callable MITTS Securities in denominations of whole units each with a principal amount of \$10.00.

The Callable MITTS Securities will not have the benefit of any sinking fund.

Payment at maturity

If we do not call the Callable MITTS Securities at an earlier date, at the stated maturity, a beneficial owner of a Callable MITTS Security will be entitled to receive the \$10 principal amount of each Callable MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, a beneficial owner of a Callable MITTS Security will be entitled to receive only the principal amount of the Callable MITTS Security.

The "Supplemental Redemption Amount" for a Callable MITTS Security will be determined by the calculation agent and will equal:

$$\begin{array}{l} \text{principal amount of each Callable MITTS Security } (\$10 \text{ per unit}) \times \left( \frac{\text{Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right) \end{array}$$

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 156.44, the Closing Price of one unit of Internet HOLIDRs on February 29, 2000, the date the MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the value of the Reference Property determined as follows:

(A) for any portion of the Reference Property consisting of cash:

- . that cash, plus

13

- . interest on the amount accruing from and including the date of the payment of that cash to holders of the Reference Property for which that cash was paid to but excluding the stated maturity date at a fixed interest rate determined on the date of the payment equal to the interest rate that would be paid on a fixed rate senior non-callable debt security of ML&Co. with a term equal to the remaining term for the Callable MITTS Securities as determined by the calculation agent;

(B) for any portion of the Reference Property consisting of property other than cash or Reference Securities:

- . the market value of that property, as determined by the calculation agent on the date that the property was delivered to holders of the relevant Reference Property for which the property was distributed, plus
- . interest on the amount accruing from and including the date of delivery to but excluding the stated maturity date at a fixed interest rate determined as described in (A) above; and

(C) for any portion of the Reference Property consisting of Reference Securities, the average, arithmetic mean, of the Closing Prices of each such Reference Security determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period with respect to any Reference Security, then the Ending Value shall be calculated using the average, arithmetic mean, of the Closing Prices of that Reference Security on those Calculation Days, and if there is only one Calculation Day, then the Ending Value shall be calculated using the Closing Price of that Reference Security on such Calculation Day. If no Calculation Days occur during the Calculation Period with respect to that Reference Security, then the Ending Value shall be calculated using the Closing Price of that Reference Security determined on the last scheduled Calculation Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

"Reference Property" initially shall mean one unit of Internet HOLIDRs, and shall be subject to adjustment from time to time to reflect the distribution of cash, securities and/or other property in accordance with the adjustment provisions described below under "--Dilution and Reorganization Adjustments".

"Reference Securities" shall mean any securities included in the Reference Property.

"Calculation Period" means the period from and including the seventh scheduled Calculation Day prior to the stated maturity date to and including the second scheduled Calculation Day prior to the stated maturity date.

"Calculation Day" means, with respect to any Reference Security, any

Trading Day during the Calculation Period on which a Market Disruption Event has not occurred.

"Market Disruption Event" means, for any Reference Security, the occurrence or existence on any Business Day during the one-half hour period that ends when the Closing Price is determined, of any suspension of, or limitation imposed on, trading in that Reference Security on the New York Stock Exchange, or other market or exchange, if applicable.

"Trading Day" means a day on which the AMEX, the NYSE and the NASDAQ National Market System ("NASDAQ NMS") are open for trading.

"Closing Price" of a Reference Security means, for a Calculation Day the following:

14

- (a) If the Reference Security is listed on a national securities exchange in the United States, is a NASDAQ NMS security or is included in the OTC Bulletin Board Service ("OTC Bulletin Board") operated by the National Association of Securities Dealers, Inc. (the "NASD"), Closing Price means:
- (i) the last reported sale price, regular way, on that day on the principal United States securities exchange registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), on which that Reference Security is listed or admitted to trading, or
  - (ii) if not listed or admitted to trading on any such securities exchange or if the last reported sale price is not obtainable, the last reported sale price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day, or
  - (iii) if the last reported sale price is not available pursuant to (i) and (ii) above, the mean of the last reported bid and offer price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day as determined by the calculation agent.

The term "NASDAQ NMS security" shall include a security included in any successor to that system and the term "OTC Bulletin Board" shall include any successor service to that service.

- (b) If the Reference Security is not listed on a national securities exchange in the United States or is not a NASDAQ NMS security or included in the OTC Bulletin Board operated by the NASD, Closing Price means the last reported sale price on that day on the securities exchange on which the Reference Security is listed or admitted to trading with the greatest volume of trading for the calendar month preceding that day as determined by the calculation agent, provided that if the last reported sale price is for a transaction which occurred more than four hours prior to the close of that exchange, then the Closing Price shall mean the average, mean, of the last available bid and offer price on that exchange. If the Reference Security is not listed or admitted to trading on any such securities exchange or if the last reported sale price or bid and offer are not obtainable, the Closing Price shall mean the last reported sale price for a transaction which occurred more than four hours prior to when trading in such over-the-counter market typically ends, then the Closing Price shall mean the average, mean, of the last available bid and offer prices in such market of the three dealers which have the highest volume of transactions in the Reference Security in the immediately preceding calendar month as determined by the calculation agent based on information that is reasonably available to it.

"Business Day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a day on the NYSE and the AMEX are open for trading.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the Callable MITTS Securities.

Early call of the Callable MITTS Securities at the option of ML&Co.

During the Call Period, the month of February 2006, ML&Co., in its sole discretion, may elect to call the Callable MITTS Securities, in whole but not in part, before the stated maturity date by giving notice to the trustee of ML&Co.'s election on any Business Day within the month of February 2006, at \$22.50 per unit.

If we elect to call your Callable MITTS Securities before the stated

maturity date, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Internet

15

HOLDERS. If we do not call the Callable MITTS Securities before the stated maturity date, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity may be greater than or less than the Call Price. ML&Co. may elect to call the Callable MITTS Securities on any Business Day during the Call Period by giving notice to the trustee and specifying the date on which the Call Price shall be paid. The Payment Date shall be no later than the twentieth Business Day after the call election. The trustee will provide notice of the call election to the registered holders of the Callable MITTS Securities, specifying the Payment Date, no less than 15, nor more than 30, calendar days prior to the Payment Date. While the Callable MITTS Securities are held at the depository, the registered holder will be the depository, and the depository will receive the notice of the call. As more fully described below under "--Depository", the depository will forward this notice to its participants which will pass in on the beneficial owners.

You should compare the features of the Callable MITTS Securities to other available investments before deciding to purchase the Callable MITTS Securities. Due to the uncertainty as to whether the Callable MITTS Securities will earn a Supplemental Redemption Amount or be called prior to the stated maturity date, the return on investment with respect to the Callable MITTS Securities may be higher or lower than the return available on other securities issued by ML&Co. or issued by others and available through MLPF&S. It is suggested that you reach an investment decision only after carefully considering the suitability of the Callable MITTS Securities in light of your particular circumstances.

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values during the Calculation Period:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the total amount payable at maturity for each unit of Callable MITTS Securities,
- . the total rate of return to beneficial owners of the Callable MITTS Securities,
- . the pretax annualized rate of return to the beneficial owners of the Callable MITTS Securities, and
- . pretax annualized rate of return of an investment in Internet HOLDERS.

16

<TABLE>  
<CAPTION>

return	Percentage change from the Starting Value	Total amount payable at maturity per unit of the Callable MITTS Securities	Total rate of return on the Callable MITTS Securities	Pretax annualized rate of return on the Callable MITTS Securities (1)	Pretax annualized rate of return on Internet HOLDERS (1)
Hypothetical Ending Value (2)	to the hypothetical Ending Value	Callible MITTS Securities	MITTS Securities	MITTS Securities (1)	on Internet HOLDERS (1)
<S>	<C>	<C>	<C>	<C>	<C>
31.29	-80%	10.00	0.00%	0.00%	-21.72%
62.58	-60%	10.00	0.00%	0.00%	-12.67%
93.86	-40%	10.00	0.00%	0.00%	-7.17%
125.15	-20%	10.00	0.00%	0.00%	-3.16%
156.44 (3)	0%	10.00	0.00%	0.00%	0.00%
187.73	20%	12.00	20.00%	2.62%	2.62%
219.01	40%	14.00	40.00%	4.86%	4.86%
250.30	60%	16.00	60.00%	6.82%	6.82%
281.59	80%	18.00	80.00%	8.57%	8.57%
312.88	100%	20.00	100.00%	10.14%	10.14%
344.16	120%	22.00	120.00%	11.57%	11.57%
375.45	140%	24.00	140.00%	12.89%	12.89%
406.74	160%	26.00	160.00%	14.11%	14.11%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:  
(a) a dividend yield of 0% per annum;  
(b) no transaction fees or expenses;

- (c) an investment term of seven years; and
  - (d) a percentage change in the aggregate price of Internet HOLDERS, as adjusted for any dilution or reorganization events described below, that equals the percentage change from the Starting Value to the relevant hypothetical Ending Value.
- (3) This is the Closing Price of a unit of Internet HOLDERS on February 29, 2000 and the Starting Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Ending Value determined by the calculation agent as provided in this prospectus supplement.

#### Events of Default and Acceleration

In case an Event of Default with respect to any Callable MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a Callable MITTS Security upon any acceleration permitted by the Callable MITTS Securities, with respect to each \$10 principal amount of the Callable MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the Callable MITTS Securities, provided, however, if the acceleration occurs before the end of the Call Period, the maximum amount payable with respect to the Callable MITTS Securities will be the Call Price. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Callable MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Callable MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the Callable MITTS Securities.

In case of default in payment of the Callable MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the Callable MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 6.68% per annum, to the extent that payment of any interest is

17

legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the Callable MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Dilution and Reorganization Adjustments

The Reference Property is subject to adjustment if an issuer of any Reference Security shall:

- (i) pay a stock dividend or make a distribution on that Reference Security in Reference Securities;
- (ii) subdivide or split the outstanding units of that Reference Security into a greater number of units;
- (iii) combine the outstanding units of that Reference Security into a smaller number of units;
- (iv) issue by reclassification of units of that Reference Security any units of another security of that issuer;
- (v) issue rights or warrants to all holders of that Reference Security entitling them to subscribe for or purchase shares, in the aggregate, for more than 5% of the number of those Reference Securities outstanding prior to the issuance of the rights or warrants at a price per share less than the then current market price of that Reference Security (other than rights to purchase that Reference Security pursuant to a plan for the reinvestment of dividends or interest); or
- (vi) pay a dividend or make a distribution to all holders of that Reference Security of evidences of its indebtedness or other assets:
  - . including in the case where the Reference Security is Internet HOLDERS, any of the securities underlying Internet HOLDERS that may be distributed by the Internet HOLDERS Trust, but,
  - . excluding any stock dividends or distributions referred to in clause (i) above or any cash dividends other than any Extraordinary Cash Dividend or issue to all holders of that Reference Security rights or warrants to subscribe for or purchase any of its securities (other than those referred to in clause (v) above) (any of the foregoing assets are referred to as the "Distributed Assets" and any of the foregoing events are referred to as the "Dilution Events").

For purposes of provision (vi) above, if the holder of a Reference Security can elect to receive securities in lieu of cash or property other than securities, then for purposes of provision (vi) above, the holders of the Reference Security shall be deemed to receive only the securities.

In the case of the Dilution Events referred to in clauses (i), (ii), (iii) and (iv) above, the Reference Property shall be adjusted to include the number of units of the Reference Security and/or security of that issuer which a holder of units of that Reference Security would have owned or been entitled to receive immediately following any the event had the holder held, immediately prior to such event, the number of units of that Reference Security constituting part of the Reference Property immediately prior to the event. Each adjustment shall become effective immediately after the effective date for the subdivision, split, combination or reclassification, as the case may be. Each adjustment shall be made successively.

In the case of the Dilution Event referred to in clause (v) above where the rights or warrants are for more than 5% of the number of shares outstanding prior to the issuance of the rights or warrants, the Reference

18

Property shall be adjusted by multiplying the number of Reference Securities constituting Reference Property immediately prior to the date of issuance of the rights or warrants referred to in clause (v) above by a fraction:

- . the numerator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities offered for subscription or purchase pursuant to the rights or warrants, and
- . the denominator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities which the aggregate offering price of the total number of Reference Securities so offered for subscription or purchase pursuant to the rights or warrants would purchase at the current market price, determined as the average Closing Price per Reference Security for the 20 Trading Days immediately prior to the date of such rights or warrants are issued, subject to certain adjustments, which shall be determined by multiplying such total number of Reference Securities by the exercise price of the rights or warrants and dividing the product so obtained by the current market price.

To the extent that Reference Securities are not delivered after the expiration of the rights or warrants, or if the rights or warrants are not issued, the Reference Property shall be readjusted to the Reference Property which would then be in effect had such adjustments for the issuance of the rights or warrants been made upon the basis of delivery of only the number of Reference Securities actually delivered.

In the case of the Dilution Event referred to in clause (vi) above, the Reference Property shall be adjusted to include, from and after the dividend, distribution or issuance,

- . for the portion of the Distributed Assets consisting of cash, the amount of such Distributed Assets consisting of cash received for each unit of that Reference Security multiplied by the number of units of that Reference Security constituting part of the Reference Property on the date of the dividend, distribution or issuance, immediately prior to the dividend, distribution or issuance, plus
- . for the portion of the Distributed Assets which are other than cash, the number or amount of each type of Distributed Assets other than cash received with respect to each unit of that Reference Security multiplied by the number of units of that Reference Security constituting part of the Reference Property on the date of the dividend, distribution or issuance, immediately prior to the dividend, distribution or issuance.

An "Extraordinary Cash Dividend" means, with respect to any consecutive 12-month period, the amount, if any, by which the aggregate amount of all cash dividends or any other distribution made by the issuer of a Reference Security or made pursuant to an arrangement effecting a distribution of distributable profits or reserves, whether in cash or in specie, on any Reference Security occurring in such 12-month period (or, if the Reference Security was not outstanding at the commencement of such 12-month period or was not then a part of the Reference Property, occurring in such shorter period during which such Reference Security was outstanding and was part of the Reference Property) exceeds on a per share basis 10% of the average of the Closing Prices per share of such Reference Security over such 12-month period (or shorter period during which such Reference Security was outstanding and was part of the Reference Property); provided that, for purposes of the foregoing definition, the amount of cash dividends paid on a per share basis will be appropriately adjusted to

reflect the occurrence during such period of any stock dividend or distribution of shares of capital stock of the issuer of such Reference Security or any subdivision, split, combination or reclassification of shares of such Reference Security.

If the Reference Security is Internet HOLDERS, the determination as to whether any cash dividend on such Internet HOLDERS is an Extraordinary Cash Dividend shall be made

19

- . by examining which of the stocks underlying Internet HOLDERS is responsible for all or a portion of such cash dividend on Internet HOLDERS, and
- . treating each such stock underlying Internet HOLDERS as if it were a Reference Security only for this purpose and then determining whether such cash dividend would be an Extraordinary Cash Dividend as defined above with respect to such deemed Reference Security.

A "Reorganization Event" shall mean:

- . any consolidation or merger of an issuer of a Reference Security, or any surviving entity or subsequent surviving entity of that issuer (a "Successor Company"), with or into another entity, other than a merger or consolidation in which such issuer is the continuing corporation and in which the Reference Security outstanding immediately prior to the merger or consolidation is not exchanged for cash, securities or other property of such issuer or another corporation;
- . any sale, transfer, lease or conveyance to another corporation of the property of an issuer of a Reference Security or any Successor Company as an entirety or substantially as an entirety;
- . any statutory exchange of securities of an issuer of a Reference Security or any Successor Company with another corporation, other than in connection with a merger or acquisition; or
- . any liquidation, dissolution, winding up or bankruptcy of an issuer of a Reference Security or any Successor Company.

If a Reorganization Event occurs, the Reference Property shall include:

- . for any cash received in that Reorganization Event, the cash received for each unit of a Reference Security multiplied by the number of units of that Reference Security constituting part of the Reference Property on the date of the Reorganization Event;
- . for any property other than cash or securities received in that Reorganization Event, the property received for each unit of a Reference Security multiplied by the number of units of that Reference Security constituting part of the Reference Property on the date of the Reorganization Event as determined by the calculation agent; and
- . for any securities received in that Reorganization Event, the securities received for each unit of a Reference Security multiplied by the number of units of that Reference Security constituting part of the Reference Property on the date of the Reorganization Event (subject to adjustment on a basis consistent with the adjustment provisions described above)

All adjustments will be calculated to the nearest 1/10,000th of a share of the Reference Security, or if there is not a nearest 1/10,000th of a share to the next lower 1/10,000th of a share. No adjustment shall be required unless that adjustment would require an increase or decrease of at least one percent in the Closing Price; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment.

The foregoing adjustments shall be made by MLPF&S, as calculation agent, and all adjustments shall be final.

ML&Co. will, within ten Business Days following the occurrence of an event that requires an adjustment, or if ML&Co. is not aware of such occurrence, as soon as practicable after becoming so aware, provide written notice to the trustee, which shall provide notice to the holders of the Callable MITTS

20

Securities of the occurrence of the event and, if applicable, a statement in reasonable detail setting forth the adjusted Closing Price to be used in determining the Ending Value.

Depositary

Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its

21

direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit

of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts such MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or

22

- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

23

ML&Co. has attached the HOLDRs Prospectus describing the Internet HOLDRs Trust and is delivering it to purchasers of the Callable MITTS Securities together with this prospectus for the convenience of reference only. The HOLDRs Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference into this prospectus. The summary description below is qualified in its entirety by the information describing the Internet HOLDRs Trust and the securities held by the Trust included in the attached HOLDRs Prospectus.

The Internet HOLDRs Trust was formed under the depositary trust agreement, dated as of September 2, 1999, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Internet HOLDRs. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the Internet industry. The trust issues Internet HOLDRs that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Internet HOLDRs are separate from the underlying common stocks that are represented by Internet HOLDRs.

Internet HOLDRs are listed on the AMEX under the trading symbol "HHH".

You should carefully read the HOLDRs Prospectus accompanying this prospectus to fully understand the operation and management of the Internet HOLDRs Trust. Neither the HOLDRs Prospectus nor these other documents are incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S,

24

to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and waiver

25

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

## Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

26

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

## PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$5.8501 per unit. This represents an estimated yield on the MITTS Securities equal to 6.68% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption

Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the Callable MITTS Securities during each accrual period over the term of the Callable MITTS Securities based upon a projected payment schedule for the Callable MITTS Securities (including both the

27

Projected Supplemental Redemption Amount and an estimated yield equal to 6.68% per annum (compounded semiannually)) as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the Callable MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on the Callable MITTS Securities as of the end of accrual period (per unit) -----
<S>	<C>	<C>
March 3, 2000 through September 5, 2000.....	\$0.3405	\$0.3405
September 6, 2000 through March 5, 2001.....	\$0.3454	\$0.6859
March 6, 2001 through September 5, 2001.....	\$0.3569	\$1.0428
September 6, 2001 through March 5, 2002.....	\$0.3688	\$1.4116
March 6, 2002 through September 5, 2002.....	\$0.3812	\$1.7928
September 6, 2002 through March 5, 2003.....	\$0.3939	\$2.1867
March 6, 2003 through September 5, 2003.....	\$0.4070	\$2.5937
September 6, 2003 through March 5, 2004.....	\$0.4206	\$3.0143
March 6, 2004 through September 5, 2004.....	\$0.4347	\$3.4490
September 6, 2004 through March 5, 2005.....	\$0.4492	\$3.8982
March 6, 2005 through September 5, 2005.....	\$0.4642	\$4.3624
September 6, 2005 through March 5, 2006.....	\$0.4797	\$4.8421
March 6, 2006 through September 5, 2006.....	\$0.4957	\$5.3378
September 6, 2006 through March 5, 2007.....	\$0.5123	\$5.8501

Projected Supplemental Redemption Amount = \$5.8501 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms

28

and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

29

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by

reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the S&P 500 Market Index Target-Term Securities due March 27, 2006. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the S&P 500 Index, and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities will rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on March 27, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the MITTS Securities in the form of a global certificate, which will be held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive at the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the S&P 500 Index as reduced by the Adjustment Factor. At the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal Amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\$10 \times \left( \frac{\text{( Adjusted Ending Value - Starting Value )}}{\text{( Starting Value )}} \right)$$

but will not be less than zero.

"Starting Value", equals 1,262.14, the closing value of the S&P 500 Index on March 23, 1999, the date the MITTS Securities were priced for initial sale to the public.

"Adjusted Ending Value" means the average of the values of the S&P 500 Index as reduced by the application of the Adjustment Factor at the close of the market on five business days before the maturity of the MITTS Securities. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of the component stocks included in the S&P 500 Index or certain futures or options relating to the S&P 500 Index.

The "Adjustment Factor" equals 2.6% per year and will be prorated based on a 365-day year and applied each calendar day to reduce the value of the S&P 500 Index. As a result of the Adjustment Factor, the adjusted value of the S&P 500 Index used to calculate your Supplemental Redemption Amount at the stated maturity of the MITTS Securities will be approximately 16.66% less than the actual value of the S&P 500 Index on any day during the calculation period. For a detailed discussion of how the Adjustment Factor affects the value of the S&P 500 Index used to calculate your Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at Maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the

3

Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an Adjustment Factor of 2.6%:

Example 1--The S&P 500 Index, as adjusted, is below the Starting value at maturity:

Starting Value: 1,262.14  
 Hypothetical closing value of the S&P 500 Index at maturity: 1,388.35  
 Hypothetical Adjusted Ending Value: 1,157.08

<TABLE>			
<S>	<C>		<C>
		( 1,157.08-1,262.14 )	
Supplemental Redemption Amount (per unit) = \$10 X	( ----- )	= \$0.00	(Supplemental Redemption Amount cannot
	( 1,262.14 )		be less than zero)
</TABLE>			

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The S&P 500 Index, as adjusted, is above the Starting value at maturity:

Starting Value: 1,262.14  
 Hypothetical closing value of the S&P 500 Index at maturity: 2,145.64  
 Hypothetical Adjusted Ending Value: 1,788.21

<TABLE>			
<S>	<C>		
		( 1,788.21-1,262.14 )	
Supplemental Redemption Amount (per unit) = \$10 X	( ----- )	= \$4.17	
	( 1,262.14 )		
</TABLE>			

Total payment at maturity (per unit) = \$10 + \$4.17 = \$14.17

Who publishes the S&P 500 Index and what does the S&P 500 Index measure?

The S&P 500 Index is published by Standard & Poor's, a division of The McGraw-Hill Companies, Inc., and is intended to provide an indication of the pattern of common stock price movement. The value of the S&P 500 Index is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. The market value for the common stock of a company is the product of the market price per share of the common stock and the number of outstanding shares of common stock. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in the S&P 500 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "FML". You should be aware that the listing of the MITTS Securities on the AMEX will not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review "Risk Factors--There may be an uncertain trading market for the MITTS Securities in the future".

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending

4

Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in the accompanying prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value at the stated maturity, the Supplemental Redemption Amount will be zero. This will be true even if, at some time during the life of the MITTS Securities the value of the S&P 500 Index, as reduced by the Adjustment Factor, was higher than Starting Value but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable Merrill Lynch & Co., Inc. debt security with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors, like inflation, that

affect the time value of money.

Your return will not reflect the return of owning the stocks included in the S&P 500 Index

Your return will not reflect the return you would realize if you actually owned the stocks included in the S&P 500 Index and received the dividends paid on those stocks because of the reduction caused by the Adjustment Factor and because the S&P 500 Index is calculated by reference to the prices of the common stocks included in the S&P 500 Index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities in the future

Although the MITTS Securities are listed on the AMEX under the trading symbol "FML", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market in the MITTS Securities continues to exist, you cannot assume that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, of the value of the S&P 500 Index.

If the trading market for the MITTS Securities is limited and you do not wish to hold your investment until maturity, there may be a limited number of buyers for your MITTS Securities. This may affect the price you receive if you sell before maturity.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be effected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the index. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the index will affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the index, as reduced by the adjustment factor, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the index, as reduced

6

by the adjustment factor, exceeds the Starting Value you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the index will continue to fluctuate until shortly before the maturity date when the average value of the index is determined. If you choose to sell your MITTS Securities when the value of the index is below the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates, or dividends per share, may increase the value of the index while falling U.S. dividend rates may decrease the value of the index. Political, economic and other developments that affect the stocks included in the index may also affect the value of the index and the value of the MITTS Securities.

Changes in the levels of U.S. interest rates may affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the value of the index. Rising interest rates may lower the value of the index and, thus, the MITTS Securities. Falling interest rates may increase the value of the index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the index may affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the index increases, we expect that the trading value of the MITTS Securities will increase. If the volatility of the index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the trading value of the MITTS Securities may decrease. We anticipate that before the maturity of the MITTS Securities the MITTS Securities may trade at a value

above that which would be expected based on the level of interest rates and the index value. This difference will reflect a "time premium" due to expectations concerning the value of the index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the index may affect the trading value of the MITTS Securities. If dividend yields on the stocks included in the index increase, we expect that the value of the MITTS Securities will decrease. Conversely, if dividend yields on the stock included in the index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the index at maturity, an improvement in our credit ratings will not reduce investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the indenture under which the MITTS Securities will be issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like

7

the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our other affiliates may from time to time buy or sell the stocks included in the S&P 500 Index for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and the value of the S&P 500 Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

The calculation agent is our subsidiary. Under certain circumstances, MLPF&S's role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with the calculation agent's determination as to whether a Market Disruption Event has occurred, or in connection with judgments that it would be required to make in the event of a discontinuance of the S&P 500 Index. See "Description of the MITTS Securities-- Adjustments to the S&P 500 Index; Market Disruption Events" and "-- Discontinuance of the S&P 500 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with our subsidiary to hedge the market risks associated with our obligation to pay the Supplemental Redemption Amount. Our subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for such an arrangement from unaffiliated parties.

8

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated,

Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

9

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

10

#### DESCRIPTION OF THE MITTS SECURITIES

On March 26, 1999, ML&Co. issued an aggregate principal amount of \$70,000,000 or 7,000,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which

is more fully described in this prospectus.

The MITTS Securities will mature on March 27, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount described below, if any, there will be no other payment of interest, periodic or otherwise. See "- Payment at Maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "- Events of Default and Acceleration" and "Other Terms - Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

#### Payment at Maturity

At the stated maturity date, a beneficial owner of a MITTS Security will be entitled to receive the principal amount plus the Supplemental Redemption Amount, if any, all as provided below. If the Adjusted Ending Value does not exceed the Starting Value, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount.

#### Determination of the Supplemental Redemption Amount

The Supplemental Redemption Amount for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	( Adjusted Ending Value - Starting Value )
Principal amount of the MITTS Security (\$10 per unit) X	( ----- )
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 1,262.14, the closing value of the S&P 500 Index on March 23, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the S&P 500 Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the S&P 500 Index on those Calculation Days as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the S&P 500 Index on that Calculation Day as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the S&P 500 Index determined on the last scheduled Index Business Day in the Calculation Period as reduced by the application of the Adjustment Factor on that Calculation Day, regardless of the occurrence of a Market Disruption Event on that day.

The "Adjustment Factor" equals 2.6% and will be prorated based on a 365-day year and applied each calendar day during the term of the MITTS Securities to reduce the value of the S&P 500 Index. As a

11

result of the Adjustment Factor, the adjusted value of the S&P 500 Index used to calculate your Supplemental Redemption Amount at the stated maturity of the MITTS Securities will be approximately 16.66% less than the actual value of the S&P 500 Index on any day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the S&P 500 Index or any Successor Index, as defined on page S-14, is calculated and published.

All determinations made by the calculation agent shall be at the sole

discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

Hypothetical Returns

The following table illustrates, for a range of hypothetical closing values of the S&P 500 Index during the Calculation Period:

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount;
- . the percentage change from the Starting Value to the Adjusted Ending Value;
- . the total amount payable per unit of MITTS Securities;
- . the total rate of return on the MITTS Securities;
- . the pretax annualized rate of return on the MITTS Securities; and
- . the pretax annualized rate of return of the stocks included in the S&P 500 Index, which includes an assumed aggregate dividend yield of 1.27% per annum, as more fully described below.

This table assumes an Adjustment Factor of 2.6% per year.

3,155.35	2,629.72	108.35%	\$20.84	108.35%	10.75%
14.97%					

</TABLE>

- (1) The Adjusted Ending Values in this column are approximately 16.66% less than the hypothetical closing values of the S&P 500 Index during the Calculation Period as a result of the application of the Adjustment Factor of 2.6% over the term of the MITTS Securities.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes:
- a dividend yield of 1.27% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the S&P 500 Index at the end of each quarter assuming this

13

value increases or decreases linearly from the Starting Value to the hypothetical closing value of the S&P 500 Index during the Calculation Period;

- no transaction fees or expenses;
  - an investment term equal to the term of the MITTS Securities, and
  - a final closing value of the S&P 500 Index equal to the hypothetical closing value of the S&P 500 Index during the Calculation Period.
- (4) The Starting Value of the S&P 500 Index.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus. Historical data regarding the S&P 500 Index is included in this prospectus under "The S&P 500 Index--Historical Data on the S&P 500 Index".

#### Adjustments to the S&P 500 Index; Market Disruption Events

If at any time the method of calculating the S&P 500 Index, or its value, is changed in any material respect, or if the S&P 500 Index is in any other way modified so that the S&P 500 Index does not, in the opinion of the calculation agent, fairly represent the value of the S&P 500 Index had these changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Adjusted Ending Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the S&P 500 Index as if the changes or modifications had not been made, and calculate a closing value with reference to the S&P 500 Index, as adjusted. Accordingly, if the method of calculating the S&P 500 Index is modified so that the value of the S&P 500 Index is a fraction or a multiple of what it would have been if it had not been modified, for example, due to a split in the S&P 500 Index, then the calculation agent shall adjust the S&P 500 Index in order to arrive at a value of the S&P 500 Index as if it had not been modified, for example, as if the split had not occurred.

"Market Disruption Event" means either of the following events; as determined by the calculation agent:

- the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the S&P 500 Index; or
- the suspension or material limitation, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in
  - futures contracts related to the S&P 500 Index, or options on those futures contracts, which are traded on any major U.S. exchange or
  - option contracts related to the S&P 500 Index which are traded on any major U.S. exchange.

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or

regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

14

#### Discontinuance of the S&P 500 Index

If Standard & Poor's discontinues publication of the S&P 500 Index and S&P or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the S&P 500 Index (a "Successor Index"), then, upon the calculation agent's notification of that determination to the trustee and ML&Co., the calculation agent will substitute the Successor Index as calculated by Standard & Poor's or any other entity for the S&P 500 Index. Upon any selection by the calculation agent of a Successor Index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If Standard & Poor's discontinues publication of the S&P 500 Index and a Successor Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the value to be substituted for the S&P 500 Index for any Calculation Day used to calculate the Supplemental Redemption Amount at maturity will be a value computed by the calculation agent for each Calculation Day in accordance with the procedures last used to calculate the S&P 500 Index before the discontinuance. If a Successor Index is selected or the calculation agent calculates a value as a substitute for the S&P 500 Index as described below, that Successor Index or value shall be substituted for the S&P 500 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists. If the calculation agent calculates a value as a substitute for the S&P 500 Index, "Index Calculation Day" shall mean any day on which the calculation agent is able to calculate that value.

If Standard & Poor's discontinues publication of the Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no Successor Index is available at that time, then on each Business Day until the earlier to occur of the determination of the Adjusted Ending Value and a determination by the calculation agent that a Successor Index is available, the calculation agent shall determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and for this information to be made available by telephone. Despite these alternative arrangements, discontinuance of the publication of the S&P 500 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities occurs and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See "Description of the MITTS Securities--Payment at Maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners, at the rate of 6.13% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of the amount has been made or duly provided for.

15

#### Depository

Upon issuance, all MITTS Securities will be represented by one or more fully registered global securities. Each global security will be deposited with, or on behalf of, DTC, (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of depository or by a nominee of the depository to depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security,

DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the Trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

The following is based on information furnished by DTC:

DTC will act as securities depository for the MITTS Securities. The MITTS Securities will be issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more

16

fully registered global securities will be issued for the MITTS Securities in the aggregate principal amount of that issue, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which that beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be

accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of these payments to direct

17

participants shall be the responsibility of DTC, and disbursement of these payments to the beneficial owners shall be the responsibility of direct participants and indirect participants.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-Day Settlement and Payment

Settlement for the MITTS Securities will be made by the underwriter in immediately available funds. ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE S&P 500 INDEX

Standard & Poor's publishes the S&P 500 Index. The S&P 500 Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the S&P 500 Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The

Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the S&P 500 Index to achieve the objectives stated above.

The S&P 500 Index does not reflect the payment of dividends on the stocks included in the S&P 500 Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same that you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the S&P 500 Index

Standard & Poor's currently computes the S&P 500 Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

18

While Standard & Poor's currently employs the above methodology to calculate the S&P 500 Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by Standard & Poor's of particular component stocks in the S&P 500 Index, and
- . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{old base value} \times \frac{\text{new base value}}{\text{old market value}} = \text{new market value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the S&P 500 Index.

Standard & Poor's does not guarantee the accuracy and/or the completeness of the S&P 500 Index or any data included in that index. Standard & Poor's makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use

19

of the S&P 500 Index or any data included therein in connection with the rights licensed under the license agreement described in this prospectus supplement or for any other use. Standard & Poor's makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index or any data included therein. Without limiting any of the above, in no event shall Standard & Poor's have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

Standard & Poor's and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by Standard & Poor's in connection with certain securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee under that agreement.

The license agreement between Standard & Poor's and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by Standard & Poor's. Standard & Poor's makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the S&P 500 Index to track general stock market performance. Standard & Poor's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of Standard & Poor's and of the S&P 500 Index which is determined, composed and calculated by Standard & Poor's without regard to ML&Co. or the MITTS Securities. Standard & Poor's has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. Standard & Poor's is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. Standard & Poor's has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

All disclosures contained in this prospectus regarding the above S&P 500 Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by Standard & Poor's. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

20

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders

of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:

21

- . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
- . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal

which could be declared due and payable before the stated maturity date;

- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;

22

- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983

Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

23

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$5.2665 per unit (the "Projected Supplemental Redemption Amount"). This represents an estimated yield on the MITTS Securities equal to 6.13% per annum (compounded semiannually).

The projected payment schedule (including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities) has been determined solely for United States federal income tax purposes (i.e., for purposes of applying the Final Regulations to the MITTS Securities), and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that would be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over an assumed term of approximately seven years for the MITTS Securities based upon a hypothetical projected payment schedule for the MITTS Securities, including both the Projected Supplemental Redemption Amount and the estimated yield equal to 6.13% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on the MITTS Securities as of End of Accrual Period (per unit) -----
<S>	<C>	<C>
March 26, 1999 through September 27, 1999.....	\$0.3108	\$0.3108
September 28, 1999 through March 27, 2000.....	\$0.3160	\$0.6268
March 28, 2000 through September 27, 2000.....	\$0.3257	\$0.9525
September 28, 2000 through March 27, 2001.....	\$0.3357	\$1.2882
March 28, 2001 through September 27, 2001.....	\$0.3460	\$1.6342
September 28, 2001 through March 27, 2002.....	\$0.3566	\$1.9908
March 28, 2002 through September 27, 2002.....	\$0.3675	\$2.3583
September 28, 2002 through March 27, 2003.....	\$0.3788	\$2.7371
March 28, 2003 through September 27, 2003.....	\$0.3904	\$3.1275
September 28, 2003 through March 27, 2004.....	\$0.4023	\$3.5298
March 28, 2004 through September 27, 2004.....	\$0.4147	\$3.9445
September 28, 2004 through March 27, 2005.....	\$0.4274	\$4.3719
March 28, 2005 through September 27, 2005.....	\$0.4405	\$4.8124
September 28, 2005 through March 27, 2006.....	\$0.4541	\$5.2665

</TABLE>

Projected Supplemental Redemption Amount = \$5.2665 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our

SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

25

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

#### SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Consumer Staples Select Sector SPDR(R) Fund Market Index Target-Term Securities(R) due April 19, 2006. You should carefully read this prospectus to understand fully the terms of the MITTS Securities as well as the tax and other considerations that should be important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

References in this prospectus to the "Consumer Staples SPDR Fund" are to the Consumer Staples Select Sector SPDR Fund.

We have attached the prospectus for the Consumer Staples SPDR Fund dated January 28, 2000 (the "Fund Prospectus"). You should carefully read the Fund Prospectus to fully understand the operation and management of the Consumer Staples SPDR Fund, particularly the fees and expenses associated with shares of

the Consumer Staples SPDR Fund which affect the Net Asset Value per share of the Consumer Staples SPDR Fund and which will directly apply to you if we choose to deliver these shares to you at maturity of the MITTS Securities. Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Consumer Staples SPDR Fund and the index compilation agent for the Consumer Staples Select Sector Index. However, we are not affiliated with the Consumer Staples SPDR Fund or the Consumer Staples Select Sector Index. The Consumer Staples SPDR Fund will not receive any of the proceeds from the sale of the MITTS Securities and will not have any obligations with respect to the MITTS Securities.

We have attached the Fund Prospectus and are delivering it to you together with this prospectus and the accompanying prospectus of ML&Co. for the convenience of reference only. The Fund Prospectus does not constitute a part of this prospectus or the accompanying prospectus of ML&Co., nor is it incorporated by reference in this prospectus or in the accompanying prospectus of ML&Co.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on April 19, 2006 and cannot be redeemed at an earlier date. You will not receive any shares of the Consumer Staples SPDR Fund or any other payments on the MITTS Securities until maturity.

Each "unit" of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we will issue the MITTS Securities in the form of a global certificate, which will be held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities-Depository" in this prospectus.

What will I receive at the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in the appreciation, if any, in the Net Asset Value per share of the Consumer Staples

3

SPDR Fund. At maturity, you will receive a number of shares of the Consumer Staples SPDR Fund equal in value to the sum of the principal amount and the Supplemental Redemption Amount, if any, and an amount of cash equal to the value of any fractional shares. We will determine the number of shares to be delivered to you based on the Ending Value. At our option, instead of delivering to you the shares to which you would otherwise be entitled, we may pay you cash.

Principal Amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\begin{aligned} & (\text{ Adjusted Ended Value} - \text{ Starting Value} ) \\ \$10 \times & ( \frac{\text{-----}}{\text{ Starting Value}} ) \\ & ( \hspace{10em} ) \end{aligned}$$

but will not be less than zero.

"Starting Value" equals 27.4089, the Net Asset Value of one share of the Consumer Staples SPDR Fund on April 13, 1999, the date the MITTS Securities were priced for initial sale to the public.

"Adjusted Ending Value" means the Ending Value, as reduced by the application of the Adjustment Factor to the Net Asset Value used to calculate the Ending Value on each calculation day during the calculation period.

"Ending Value" means the average of the Net Asset Values per share of the Consumer Staples SPDR Fund at the close of the market on five calculation days shortly before the maturity of the MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's Net Asset Value if, during the calculation period, there is a disruption in the trading of a number of the component stocks of the Consumer Staples Select Sector Index or options relating to the shares of the Consumer Staples SPDR Fund, the Consumer Staples SPDR Fund is unable or otherwise fails to issue a Net Asset Value for the shares of the Consumer Staples SPDR Fund or the Consumer Staples SPDR Fund suspends the creation or redemption of its shares. Please see the section entitled "Description of the MITTS Securities-Adjustments to the Net Asset Value; Market Disruption Events" in this prospectus.

The "Adjustment Factor" equals 1.95% per year and will be applied over the term of the MITTS Securities to reduce the Net Asset Value per share of the Consumer Staples SPDR Fund used to calculate the Supplemental Redemption Amount on each calculation day during the calculation period. As a result of the cumulative effect of this reduction, the values used to calculate your Supplemental Redemption Amount at the maturity of the MITTS Securities will be approximately 12.77% less than the actual Net Asset Values per share of the Consumer Staples SPDR Fund on each day during the calculation period. For a detailed discussion of how the Adjustment Factor will affect the Net Asset Value per share of the Consumer Staples SPDR Fund used to calculate your Supplemental Redemption Amount, see "Description of the MITTS Securities-Delivery at Maturity" and "-Hypothetical Returns" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

4

#### Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an Adjustment Factor of 1.95% per year.

Example 1-Adjusted Ending Value is less than the Starting Value at the maturity date:

Starting Value: 27.41  
 Hypothetical Ending Value: 28.78  
 Hypothetical Adjusted Ending Value: 25.10

$$\text{Supplemental Redemption Amount (per unit)} = \$10 \times \left( \frac{25.10 - 27.41}{27.41} \right) = \$0.00$$

Total value of shares delivered at maturity (per unit) = \$10 + \$0 = \$10

Example 2-Adjusted Ending Value is greater than the Starting Value at the maturity date:

Starting Value: 27.41  
 Hypothetical Ending Value: 43.85  
 Hypothetical Adjusted Ending Value: 38.25

$$\text{Supplemental Redemption Amount (per unit)} = \$10 \times \left( \frac{38.25 - 27.41}{27.41} \right) = \$3.96$$

Total value of shares delivered at maturity (per unit) = \$10 + \$3.96 = \$13.96

How is the Net Asset Value determined?

The "Net Asset Value" means the net asset value per share of the Consumer Staples SPDR Fund as determined by the Consumer Staples SPDR Fund. The Consumer Staples SPDR Fund calculates its Net Asset Value per share by dividing the value of its net assets, i.e., the value of its total assets less total liabilities, by its total number of shares outstanding. Expenses and fees, including the management, administration and distribution fees, of the Consumer Staples SPDR Fund are accrued daily and taken into account for purposes of determining Net Asset Value. The Net Asset Value per share of the Consumer Staples SPDR Fund is determined by the Consumer Staples SPDR Fund each Business Day after the close of trading on the New York Stock Exchange, ordinarily 4:00 p.m., New York City time. Shares of the Consumer Staples SPDR Fund are listed on the AMEX under the trading symbol "XLP".

When will I receive cash instead of shares of the Consumer Staples SPDR Fund?

If we choose to pay you the amount due to you at maturity in cash instead of in shares of the Consumer Staples SPDR Fund which you would otherwise be entitled to receive, we will pay you an amount of cash equal to the sum of the principal amount and the Supplemental Redemption Amount, if any. In addition, if at any time MLPF&S ceases to be a soliciting dealer in the shares of the Consumer Staples SPDR Fund, we will pay the amount due to you in cash instead of shares. Please see the section entitled "Description of the MITTS Securities--Delivery at Maturity" in this prospectus.

In addition, in the event that we choose to deliver shares of the Consumer Staples SPDR Fund at maturity, we will not distribute any fractional shares to you. We will aggregate all amounts due to you in respect of the total number

5

of units you hold on the stated maturity date, and in lieu of delivering to you any fractional shares of the Consumer Staples SPDR Fund to which you would otherwise be entitled, we will pay you the cash value of these fractional shares

based on the Ending Value.

Will I be charged any transaction fees or expenses with respect to the shares of the Consumer Staples SPDR Fund?

Unless and until we deliver shares of the Consumer Staples SPDR Fund to you in satisfaction of our obligations under the MITTS Securities, you will not be directly charged any management, administration, distribution or other transaction fees or other expenses with respect to the shares of the Consumer Staples SPDR Fund. However, because the Consumer Staples SPDR Fund accrues these fees and expenses daily for purposes of determining the Net Asset Value of its shares, the Net Asset Values used to calculate your Supplemental Redemption Amount will reflect the deduction of these fees and expenses as well as the reduction resulting from the application of the Adjustment Factor.

If at maturity we deliver to you shares of the Consumer Staples SPDR Fund, you will then become directly subject to ongoing account maintenance fees and certain other transaction expenses with respect to your shares so long as you hold those shares.

The accompanying Fund Prospectus describes the fees and expenses charged by the Consumer Staples SPDR Fund in greater detail.

What is the Consumer Staples SPDR Fund?

The Consumer Staples SPDR Fund is an index fund whose stated investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities comprising the Consumer Staples Select Sector Index. The Consumer Staples Select Sector Index consists of the equity securities of publicly traded companies that are components of the S&P 500 Index and are involved in the development and production of consumer staples, including cosmetic and personal care products, pharmaceuticals, soft drinks, tobacco and food products. As of April 13, 1999, the Consumer Staples Select Sector Index included 71 component stocks. A list of these securities and their index weightings as of April 13, 1999 is set forth under the section entitled "The Consumer Staples SPDR Fund" in this prospectus. Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Consumer Staples SPDR Fund and the index compilation agent for the Consumer Staples Select Sector Index. We are not affiliated with the Consumer Staples SPDR Fund or the Consumer Staples Select Sector Index. The Consumer Staples SPDR Fund will not receive any of the proceeds from the sale of, or have any obligations under, the MITTS Securities. You should independently decide whether an investment in the MITTS Securities and the Consumer Staples SPDR Fund is appropriate for you.

The Consumer Staples SPDR Fund is one of nine investment funds comprising the Select Sector SPDR Trust, a management investment company registered under the Investment Company Act of 1940, as amended. Each fund's investment portfolio is comprised principally of constituent companies whose equity securities are components of the S&P 500 Index, each representing one of nine specified market sector indices. Each stock in the S&P 500 Index is allocated to only one Select Sector Index. The combined companies of the nine Select Sector Indices represent all of the companies whose stocks are components of the S&P 500 Index.

You should carefully read the Fund Prospectus accompanying this prospectus and prospectus of ML&Co. to fully understand the operation and management of the Consumer Staples SPDR Fund. In addition, because the Select Sector SPDR Trust is subject to the registration requirements of the Securities Act of 1933, as amended, and the Investment Company Act, the Select Sector SPDR Trust is required to file periodically certain information specified by the SEC. For more information about the Consumer Staples SPDR Fund and the shares that you may receive at maturity, information provided to or filed with the SEC by the Select Sector SPDR Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. You may also obtain copies of these documents at no cost by calling the Select Sector SPDR Trust at (800) 843-2639 or by writing the Select Sector SPDR Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor these other documents are incorporated by reference in this prospectus, and we make no representation or warranty as to the accuracy or completeness of this information.

6

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "CSM". You should be aware that the listing of the MITTS Securities on the AMEX will not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review the section entitled "Risk Factors-There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the offering and sale of

the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities, and may stabilize or maintain the market price of the MITTS Securities during the initial distribution of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities, or continue them once it has started.

MLPF&S also is our agent for purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent.

MLPF&S also is a soliciting dealer in the shares of the Consumer Staples SPDR Fund and is the index compilation agent for the Consumer Staples Select Sector Index. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities to the Consumer Staples SPDR Fund and the Consumer Staples Select Sector Index. Please see the section entitled "Risk Factors-Potential conflicts of interests" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risks. Please refer to the section "Risk Factors" in this prospectus.

7

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

The MITTS Securities are unlike typical equity or debt securities

The MITTS Securities combine features of equity and debt instruments. For example, like an equity instrument, the Supplemental Redemption Amount will be based on the increase, if any, in the Net Asset Value per share of the Consumer Staples SPDR Fund. However, as a holder of the MITTS Securities, you will not be entitled to receive distributions that would be payable on the shares of the Consumer Staples SPDR Fund as if you had made a direct investment in those shares. In addition, like a debt instrument, you will receive the principal amount of your MITTS Securities on the maturity date. However, the terms of the MITTS Securities differ from the terms of ordinary debt securities in that the Supplemental Redemption Amount payable at maturity is not a fixed amount, but is based on the Net Asset Value per share of the Consumer Staples SPDR Fund, as reduced by the Adjustment Factor over the term of the MITTS Securities.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value at the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the Net Asset Value per share of the Consumer Staples SPDR Fund, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your return will not reflect the return of owning shares of the Consumer Staples SPDR Fund or the securities and other assets comprising the Consumer Staples SPDR Fund's investment portfolio

When determining the Supplemental Redemption Amount, if any, paid to you at maturity, the Consumer Staples SPDR Fund's Net Asset Value per share, which reflects the reduction of fund assets resulting from the accrual of the Consumer Staples SPDR Fund's fees and expenses and any distributions made by the Consumer Staples SPDR Fund, will also be reduced by the application of the Adjustment Factor over the term of the MITTS Securities. Consequently, your return on the MITTS Securities will not reflect the return of owning the shares of the Consumer Staples SPDR Fund or the securities and other assets included in the Consumer Staples SPDR Fund's investment portfolio.

Changes in the Net Asset Value per share of the Consumer Staples SPDR Fund will

not exactly mirror changes in the Consumer Staples Select Sector Index

As indicated in the Fund Prospectus, the Consumer Staples SPDR Fund's investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities included in the Consumer Staples Select Sector Index. However, changes in the value of the Consumer Staples Select Sector Index and in the Net Asset Value per share of the Consumer Staples SPDR Fund are not expected to be identical because:

- . the Consumer Staples SPDR Fund's investment portfolio may not hold all of the stocks in the Consumer Staples Select Sector Index or may not hold each stock in the same weighting as the Consumer Staples Select Sector Index,
- . the Consumer Staples SPDR Fund may hold assets other than equity securities, and
- . the Net Asset Value per share of the Consumer Staples SPDR Fund reflects the reduction of fund assets resulting from the accrual of fees and expenses and the payment of distributions, if any.

8

As stated in the Fund Prospectus, the investment adviser to the Consumer Staples SPDR Fund believes that "over time, `the tracking error' of the Consumer Staples SPDR Fund relative to the performance of the Consumer Staples Select Sector Index, adjusted for the effect of the Consumer Staples SPDR Fund's expenses, will be less than 5%". There is no assurance that the tracking error will not be greater than 5% at any time, including the time that you may wish to sell your MITTS Securities before the maturity date or at the time the calculation agent determines the Supplemental Redemption Amount, if any.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable Merrill Lynch & Co., Inc. debt security with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "CSM", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market does develop, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the Net Asset Value per share of the Consumer Staples SPDR Fund.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers when you decide to sell your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may magnify the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the Net Asset Value per share of the Consumer Staples SPDR Fund. The following paragraphs describe the expected impact on the trading value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The Net Asset Value per share of the Consumer Staples SPDR Fund is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the Net Asset Value per share of the Consumer Staples SPDR Fund, as reduced by the Adjustment Factor, exceeds the Starting Value. Even if you choose to sell your MITTS Securities when the Net Asset Value per share of the Consumer Staples SPDR Fund, as reduced by the Adjustment Factor, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Net Asset Value will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities before the maturity date when the Net Asset

Value per share of the Consumer Staples SPDR Fund, as adjusted by the Adjustment Factor, is below or not sufficiently above the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because the MITTS Securities repay, at a minimum, the principal amount at the maturity date, we expect that the trading value of the MITTS Securities will be affected by changes in interest rates. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. Interest rates may also affect the U.S. economy and, in turn, the Net Asset Value of the Consumer

9

Staples SPDR Fund. Rising interest rates may lower the Net Asset Value per share of the Consumer Staples SPDR Fund and, as a result, lower the trading value of the MITTS Securities and, conversely, falling interest rates may increase the Net Asset Value per share of the Consumer Staples SPDR Fund and, as a result, may increase the trading value of the MITTS Securities.

Changes in the volatility of the Fund are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the Net Asset Value per share of the Consumer Staples SPDR Fund increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Net Asset Value per share of the Consumer Staples SPDR Fund decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Net Asset Value per share of the Consumer Staples SPDR Fund. This difference will reflect a "time premium" due to expectations concerning the Net Asset Value per share of the Consumer Staples SPDR Fund during the period before the maturity of the MITTS Securities. However, as the time remaining to the maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Fund are expected to affect the trading value of the MITTS Securities. Generally, if dividend yields on the stocks comprising the Consumer Staples SPDR Fund increase, we expect that the trading value of the MITTS Securities will decrease, and conversely, if dividend yields on the stocks comprising the Consumer Staples SPDR Fund's investment portfolio decrease, we expect that the trading value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because the return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the increase in the Net Asset Value per share of the Consumer Staples SPDR Fund at maturity, an improvement in our credit ratings will not reduce other investment risks related to the MITTS Securities.

In general, assuming all other relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in any one of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of an increase or decrease in the Net Asset Value per share of the Consumer Staples SPDR Fund will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Absence of prior active market for shares of the Consumer Staples SPDR Fund

The Consumer Staples SPDR Fund is a recently organized investment company and has a limited operating history. Although its shares are listed for trading on the AMEX and a number of similar products have been traded on the AMEX for varying periods of time, there is no assurance that an active trading market will develop for the shares of the Consumer Staples SPDR Fund. If a trading market does develop, there is no assurance that there will be liquidity in the trading market.

Concentration in consumer-related securities

Because the Consumer Staples SPDR Fund's investment portfolio is predominantly comprised of securities of companies involved in the development and production of consumer staples, the value of the MITTS Securities may be

adversely affected by several factors. These companies are subject to government

10

regulation affecting the permissibility of using various food additives and production methods, which regulations could affect their earnings and profitability. Tobacco companies may be adversely affected by the adoption of proposed legislation and/or by litigation. Also, the success of food, soft drink, and fashion-related products may be strongly affected by fads, marketing campaigns and other factors affecting supply and demand. Weak demand for these companies' products or services, as well as negative developments in these other areas, would adversely affect the performance of the Consumer Staples SPDR Fund and in turn, the trading value of the MITTS Securities.

No affiliation between ML&Co. and the Consumer Staples SPDR Fund

Our affiliate MLPF&S is both a soliciting dealer in the shares of the Consumer Staples SPDR Fund and the Index Compilation Agent for the Consumer Staples Select Sector Index. However, we are not affiliated with the Consumer Staples SPDR Fund or the Consumer Staples Select Sector Index. The Consumer Staples SPDR Fund has no obligations with respect to the MITTS Securities or amounts to be paid to you, including any obligation to take the needs of ML&Co. or of beneficial owners of the MITTS Securities into consideration for any reason. The Consumer Staples SPDR Fund will not receive any of the proceeds from this offering and is not responsible for, and has not participated in, the determination or calculation of the amount you will receive on your MITTS Securities at maturity. In addition, the Consumer Staples SPDR Fund is not involved with the administration or trading of the MITTS Securities and has no obligations with respect to any amounts due under the MITTS Securities.

You will have no shareholder's rights unless and until you receive shares of the Consumer Staples SPDR Fund

Unless and until we deliver shares of the Consumer Staples SPDR Fund to you at the maturity of the MITTS Securities, you will not be entitled to any rights with respect to these shares including, without limitation, the right to receive distributions on, to vote or to redeem these shares. For example, if the Consumer Staples SPDR Fund sets a record date for a matter to be voted on by shareholders before our delivery of the shares of the Consumer Staples SPDR Fund to you, you will not be entitled to vote on that matter.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the indenture under which the MITTS Securities will be issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Potential conflicts of interests

The calculation agent for the MITTS Securities is one of our subsidiaries. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests between the calculation agent and the holders of the MITTS Securities. These conflicts could occur, for instance, in connection with its determination as to whether a Market Disruption Event, as defined below, has occurred.

MLPF&S is a soliciting dealer in the shares of the Consumer Staples SPDR Fund. Under certain circumstances, MLPF&S' role as calculation agent for the MITTS Securities and its role as a soliciting dealer in these shares could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities. These conflicts could occur in connection with its determination as to the Adjusted Ending Value and the number of shares to be delivered at maturity.

11

Additionally, MLPF&S serves as index compilation agent for the Consumer Staples Select Sector Index. In its capacity as index compilation agent, MLPF&S determines, in consultation with S&P, which securities of the S&P 500 are to be included in the Consumer Staples Select Sector Index. Under certain circumstances, MLPF&S' role as calculation agent for the MITTS Securities and its role as index compilation agent could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities.

MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due under the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

12

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

13

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the

interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On April 19, 1999, ML&Co. issued \$72,000,000 aggregate principal amount, or 7,200,000 units, of Consumer Staples Select Sector SPDR Fund MITTS Securities due April 19, 2006. The MITTS Securities were issued as a series of senior debt securities under the Senior Indenture, referred to as the 1983 Indenture, which is more fully described in this prospectus. The MITTS Securities will mature on April 19, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the number of shares of the Consumer Staples SPDR Fund, or cash with an equal value, equal in value, determined based on the Ending Value, to the sum of the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "Delivery at Maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner prior to maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "Other Terms--Events of Default and Acceleration" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

The MITTS Securities do not have the benefit of any sinking fund.

Delivery at Maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the number of shares of the Consumer Staples SPDR Fund, or cash with an equal value, equal in value to the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. The amount to be paid by ML&Co. to any holder of the MITTS Securities on the maturity date will be aggregated based on the total number of units then held by that holder and rounded to the nearest cent. If the Adjusted Ending Value does not exceed the Starting Value, a beneficial owner of a MITTS Security will be entitled to receive only the number of shares of the Consumer Staples SPDR Fund, or cash with an equal value, equal in value to the principal amount of the MITTS Security. The number of shares to be delivered at maturity will be determined based on the Ending Value.

If ML&Co. chooses to deliver shares of the Consumer Staples SPDR Fund to holders of the MITTS Securities at the maturity date, ML&Co. or one of its affiliates will deliver shares of the Consumer Staples SPDR Fund that are then newly issued by the Consumer Staples SPDR Fund.

ML&Co. may, at its option, in lieu of delivering shares of the Consumer Staples SPDR Fund, pay cash in an amount equal to the sum of the principal amount of the MITTS Securities and the Supplemental Redemption Amount, if any. In addition, if at any time ML&Co. ceases to be a soliciting dealer in the shares of the Consumer Staples SPDR Fund, ML&Co. will pay the amount due to holders of the MITTS Securities in cash instead of shares.

Determination of the Supplemental Redemption Amount

The Supplemental Redemption Amount for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>				
<S>				<C>
Principal amount of the MITTS Security (\$10 per unit)	X		(Adjusted Ending Value - Starting Value)	
			(-----)	
			( Starting Value )	
</TABLE>				

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 27.4089, the Net Asset Value of one share of the Consumer Staples SPDR Fund on April 13, 1999, the date the MITTS Securities were priced for initial sale to the public.

"Net Asset Value" means the net asset value per share of the Consumer Staples SPDR Fund as determined by the Consumer Staples SPDR Fund. The Consumer Staples SPDR Fund calculates its Net Asset Value per share by dividing the value of its net assets, i.e., the value of its total assets less total liabilities, by its total number of shares outstanding. Expenses and fees, including the management, administration and distribution fees, of the Consumer Staples SPDR Fund are accrued daily and taken into account for purposes of determining its Net Asset Value. The Net Asset Value per share of the Consumer Staples SPDR Fund is determined by the Consumer Staples SPDR Fund each Business Day after the close of trading on the New York Stock Exchange, ordinarily 4:00 p.m., New York City time. Shares of the Consumer Staples SPDR Fund are listed on the AMEX under the trading symbol "XLP".

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the Ending Value, as reduced by the application of the Adjustment Factor to the Net Asset Value used to calculate the Ending Value on each Calculation Day during the Calculation Period.

The "Ending Value" will equal the average, or arithmetic mean, of the Net Asset Values per share of the Consumer Staples SPDR Fund on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period, the Ending Value will equal the average, or arithmetic mean, of the Net Asset Values of the Consumer Staples SPDR Fund on each of these Calculation Days, and if there is only one Calculation Day, then the Ending Value will be equal to the Net Asset Value per share of the Consumer Staples SPDR Fund on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Value shall mean the Net Asset Value per share of the Consumer Staples SPDR Fund on the last Trading Day before the Calculation Period for which a Net Asset Value per share of the Consumer Staples SPDR Fund was determined.

The "Adjustment Factor" equals 1.95% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a prorated basis based on a 365-day year to reduce the values used to calculate the Supplemental Redemption Amount. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount at the maturity of the MITTS Securities will be approximately 12.77% less than the actual Net Asset Values per share of the Consumer Staples SPDR Fund on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Calculation Day before the maturity date to and including the second scheduled Calculation Day before maturity.

"Calculation Day" means any Trading Day on which a Market Disruption Event has not occurred.

"Trading Day" is a day on which the shares of the Consumer Staples SPDR Fund:

- . are not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business and
- . have traded at least once on a national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of the shares of the Consumer Staples SPDR Fund.

#### Fractional Shares

ML&Co. will not distribute fractional shares of the Consumer Staples SPDR Fund at maturity. In the event ML&Co. elects to pay holders of the MITTS Securities in shares of the Consumer Staples SPDR Fund, all amounts due to any holder of the MITTS Securities in respect of the total number of units held by that

16

holder will be aggregated, and in lieu of delivering any fractional share to that holder, that holder will receive the cash value of that fractional share based on the Ending Value.

#### Hypothetical Returns

The following table illustrates, for a range of hypothetical Ending Values:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,

- . the principal amount and Supplemental Redemption Amount, if any, paid at maturity per unit,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS securities, and
- . the pretax annualized rate of return of an investment in shares of the Consumer Staples SPDR Fund.

<TABLE>  
<CAPTION>

Pretax Annualized Hypothetical Rate of Return	Percentage Change from the Starting Value to the Hypothetical Ending Value	Principal Amount and Supplemental Redemption Amount paid at Maturity per unit	Total Rate of Return on the MITTS Securities	Pretax Annualized Rate of Return on the MITTS Securities (2)
5.48	-80.00%	4.78	0.00%	0.00%
-20.32%	-60.00%	9.56	0.00%	0.00%
10.96	-40.00%	14.35	0.00%	0.00%
-11.39%	-20.00%	19.13	0.00%	0.00%

-5.91%	20.00%	28.69	4.68%	0.65%
21.93	40.00%	33.47	22.12%	2.87%
-1.91%	60.00%	38.25	39.57%	4.82%
27.41 (4)	80.00%	43.04	57.02%	6.55%
1.27%	100.00%	47.82	74.46%	8.10%
32.89	120.00%	52.60	91.91%	9.52%
3.91%	140.00%	57.38	109.35%	10.83%
6.18%	160.00%	62.16	126.80%	12.04%
8.17%	180.00%	66.95	144.25%	13.16%
9.94%	200.00%	71.73	161.69%	14.21%
54.82				
11.54%				
13.00%				
14.35%				
15.60%				
16.76%				
17.85%				

- (1) The Adjusted Ending Values specified in this column are approximately 12.77% less than the hypothetical Ending Values as a result of the cumulative effect of the application of the Adjustment Factor of 1.95% per annum over the term of the MITTS Securities.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes,
- a constant dividend yield of 1.27% per annum, paid quarterly during the investment term and applied to the Net Asset Value per share of the Consumer Staples SPDR Fund at the end of each quarter, assuming the Net Asset Value per share of the Consumer Staples SPDR Fund increases or decreases linearly from the Starting Value to the hypothetical Ending Value during the Calculation Period;
  - no transaction fees or expenses in connection with purchasing and holding shares of the Consumer Staples SPDR Fund;
  - an investment term equal to the term of the MITTS Securities; and
  - a Net Asset Value per share of the Consumer Staples SPDR Fund on the maturity date equal to the Ending Value.

(4) The Starting Value equals 27.4089.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount and the resulting total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Net Asset Value; Market Disruption Events

If at any time the shares of the Consumer Staples SPDR Fund are subject to a split or reverse split, the calculation agent shall adjust the Net Asset Value per share of the Consumer Staples SPDR Fund used to calculate the Ending Value in order to arrive at a Net Asset Value per share of the Consumer Staples SPDR Fund as if such split or reverse split, as the case may be, had not occurred.

"Market Disruption Event" means any of the following events, as determined by the calculation agent:

- (a) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the Consumer Staples Select Sector Index;
- (b) the suspension or material limitation on trading, in each case, for more than two hours of trading, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts related to the shares of the Consumer Staples SPDR Fund which are traded on any major U.S. exchange; or
- (c) the Consumer Staples SPDR Fund (1) is unable or otherwise fails to issue a Net Asset Value for any shares of the Consumer Staples SPDR Fund after the close of business on the NYSE or (2) suspends the creation or redemption of shares of the Consumer Staples SPDR Fund.

For the purpose of clause (a) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

For the purposes of clauses (a) and (b) of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

#### Termination of the Consumer Staples SPDR Fund

If the Consumer Staples SPDR Fund is liquidated or otherwise terminated, for purposes of calculating the Supplemental Redemption Amount payable at the maturity of the MITTS Securities, the calculation agent will calculate the Net Asset Value as follows: The Net Asset Value per share of the Consumer Staples SPDR Fund on the Trading Day occurring immediately before any liquidating distribution will equal the Net Asset Value for that day (the "Pre-liquidation Date"). The calculation agent will then calculate the Net Asset Value after the close of trading on each Trading Day following the Pre-liquidation Date (each date, a "Determination Date") by increasing or decreasing, as the case may be, the Net Asset Value as of the immediately preceding Trading Day by the percentage by which the closing value of the Consumer Staples Select Sector Index increases or decreases from the immediately preceding Trading Day to that Determination Date and further decreasing the Net Asset Value by fees, expenses and non-liquidating distributions (together, "Fund Expenses") that the calculation agent, in its sole judgment but with reference to the Fund Expenses actually incurred by the Consumer Staples SPDR Fund before its liquidation or termination, deems would reasonably have been accrued and included in the calculation of the Net Asset Value per share of the Consumer Staples SPDR Fund had it not been liquidated or terminated, from the immediately preceding Trading Day to that Determination Date. The calculation agent will cause notice of each value to be published not less often than

18

once each month in The Wall Street Journal, or another newspaper of general circulation, and arrange for information with respect to such values to be made available by telephone.

If the Consumer Staples SPDR Fund is liquidated or otherwise terminated and the Consumer Staples Select Sector Index is no longer calculated or published (an "Index Termination Event"), the calculation agent will select a successor index that it determines, in its sole discretion, to be comparable to the Consumer Staples Select Sector Index, and, upon the calculation agent's notification of such determination to the trustee and ML&Co., the calculation agent will substitute the successor index for the Consumer Staples Select Sector Index and calculate the Net Asset Value in accordance with the procedures referred to in the immediately preceding paragraph with reference to the successor index. Upon any selection by the calculation agent of a successor

index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

In the event that an Index Termination Event occurs and a successor index to the Consumer Staples Select Sector Index is not selected by the calculation agent or is no longer published on any of the Calculation Days, the calculation agent shall compute a substitute index for the Consumer Staples Select Sector Index for that Calculation Day in accordance with the procedures last used to calculate the Consumer Staples Select Sector Index before any discontinuance. The calculation agent will calculate the Net Asset Value in accordance with the procedures referred to in the first paragraph of this section with reference to a substitute index. Upon any selection by the calculation agent of a substitute index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

If S&P discontinues publication of the S&P 500 Index subsequent to an Index Termination Event and

- . a successor index to the Consumer Staples Select Sector Index is not selected by the calculation agent or is no longer published on any of the Calculation Days and
- . the calculation agent is unable to calculate a substitute index for the Consumer Staples Select Sector Index,

the calculation agent will compute a substitute index for the S&P 500 Index for that Calculation Day in accordance with the procedures last used to calculate the S&P 500 Index prior to any discontinuance. If the calculation agent calculates a substitute index for the S&P 500 Index, the calculation agent will use that substitute index to calculate the substitute index for the Consumer Staples Select Sector Index.

Notwithstanding these alternative arrangements, liquidation or termination of the Consumer Staples SPDR Fund or the discontinuance of the publication of the Consumer Staples Select Sector Index or the S&P 500 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount thereof, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated assuming:

- . the date of early repayment is the maturity date of the MITTS Securities and
- . the Adjustment Factor is prorated based on a 365-day year and applied each calendar day to reduce the Net Asset Value per share of the Consumer Staples SPDR Fund used to calculate the Supplemental Redemption Amount. See "Delivery at Maturity" in this prospectus.

If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

19

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners thereof, at the rate of 5.83% per annum, to the extent that payment of any interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of any amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

Upon issuance, all MITTS Securities will be represented by one or more fully registered global securities. Each such global security will be deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or by any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all

purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if such person is not a participant of DTC, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in such a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take such action, and such participants would authorize beneficial owners owning through such participants to give or take such action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC will act as securities depository for the MITTS Securities. The MITTS Securities will be issued as fully registered securities registered in the name of Cede & Co., DTC's nominee. One or more fully registered global securities will be issued for the MITTS Securities in the aggregate principal amount of the issue, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for

20

physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which such beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts such MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depositary's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of these payments to direct participants shall be the responsibility of DTC, and disbursement of these payments to the beneficial owners shall be the responsibility of direct and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depositary is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable or
- . an Event of Default has occurred and is continuing with respect to the MITTS Securities,

21

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. These definitive MITTS Securities will be registered in the name or names as the depositary shall instruct the trustee. It is expected that the instructions may be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in such global securities.

DTC may discontinue providing its services as securities depositary with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under such circumstances, in the event that a successor securities depositary is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC, or a successor securities depositary. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for the accuracy of this information.

#### Same-Day Settlement and Delivery

Settlement for the MITTS Securities will be made by the underwriter in immediately available funds. ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, by delivery of shares of the Consumer Staples SPDR Fund in an equal value. If ML&Co. elects, at its option, to pay cash in lieu of delivering shares of the Consumer Staples SPDR Fund, ML&Co. will make payment in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE CONSUMER STAPLES SPDR FUND

ML&Co. has attached the Fund Prospectus describing the Consumer Staples SPDR Fund and is delivering it to purchasers of the MITTS Securities together with this prospectus and the accompanying prospectus of ML&Co. for the convenience of reference only. The Fund Prospectus does not constitute a part of this prospectus or the accompanying prospectus of ML&Co., nor is it incorporated by reference in this prospectus or the accompanying prospectus of ML&Co. The summary description below is qualified in its entirety by the information describing the Consumer Staples SPDR Fund and the Consumer Staples Select Sector Index included in the attached Fund Prospectus.

As stated in the Fund Prospectus, the Consumer Staples SPDR Fund is an index fund whose investment objective is to provide investment results that,

before expenses, correspond generally to the price and yield performance of the publicly traded equity securities included in the Consumer Staples Select Sector Index. The Consumer Staples Select Sector Index consists of the equity securities of publicly traded companies that are components of the S&P 500 Index and are involved in the development and production of consumer staples, including cosmetic and personal care products, pharmaceuticals, soft drinks, tobacco and food products.

Although ML&Co.'s subsidiary, MLPF&S, provides certain services to the Consumer Staples SPDR Fund and the Consumer Staples Select Sector Index, ML&Co. is not affiliated with the Consumer Staples SPDR Fund or the Consumer Staples Select Sector Index, and the Consumer Staples SPDR Fund will not receive any of the proceeds from the sale of, or have any obligations under, the MITTS Securities. A prospective purchaser of the MITTS Securities should independently decide whether an investment in the MITTS Securities and the Consumer Staples SPDR Fund is appropriate.

22

The Consumer Staples SPDR Fund is one of nine investment funds comprising the Select Sector SPDR Trust. Each fund's investment portfolio is comprised principally of constituent companies whose equity securities are components of the S&P 500 Index, each representing one of nine specified market sector indices. Each stock in the S&P 500 Index is allocated to only one Select Sector Index. The combined companies of the nine indices represent all of the companies whose stocks are components of the S&P 500 Index. The Consumer Staples SPDR Fund's initial public offering occurred on December 16, 1998 and therefore has limited operating history.

Because the Select Sector SPDR Trust is subject to the registration requirements of the Securities Act and the Investment Company Act, the Select Sector SPDR Trust is required to file periodically certain information specified by the SEC. For more information about the Consumer Staples SPDR Fund and the shares that a holder of the MITTS Securities may receive at maturity, information provided to or filed with the SEC by the Select Sector SPDR Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. Copies of these documents may also be obtained at no cost by calling the Select Sector SPDR Trust at (800) 843-2639 or by writing the Select Sector SPDR Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor these other documents are incorporated by reference in this prospectus, and ML&Co. makes no representation or warranty as to the accuracy or completeness of these documents.

ML&Co. is not affiliated with the Consumer Staples SPDR Fund, and the Consumer Staples SPDR Fund has no obligations with respect to the MITTS Securities. This prospectus relates only to the MITTS Securities offered by this prospectus and does not relate to the shares of the Consumer Staples SPDR Fund or any other securities relating to the Consumer Staples SPDR Fund. The information contained in this prospectus regarding the Consumer Staples SPDR Fund has been derived from the publicly available documents described in the preceding paragraph. ML&Co. makes no representation that these publicly available documents or any other publicly available information regarding the Consumer Staples SPDR Fund are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this prospectus, including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph, that would affect the trading price of the shares of the Consumer Staples SPDR Fund, and therefore the trading price of the MITTS Securities, have been publicly disclosed. Subsequent disclosure of any of these events or the disclosure of or failure to disclose material future events concerning the Consumer Staples SPDR Fund could affect the Supplemental Redemption Amount, if any, to be received at maturity and therefore the trading value of the MITTS Securities.

MLPF&S, a subsidiary of ML&Co., is a soliciting dealer in the shares of the Consumer Staples SPDR Fund. Additionally, MLPF&S serves as index compilation agent for the Consumer Staples Select Sector Index. In its capacity as index compilation agent, MLPF&S determines, in consultation with S&P, the composition of the securities measured by the Consumer Staples Select Sector Index.

#### License Agreement

S&P, the AMEX and MLPF&S have entered into a non-exclusive license agreement providing for the license to MLPF&S, in exchange for a fee, of the right to use indices owned and published by S&P in connection with certain securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee of MLPF&S.

The license agreement among S&P, the AMEX and MLPF&S provides that the following language must be stated in this prospectus:

"Standard & Poor's(R)", "Standard & Poor's 500(R)", "S&P 500(R)", "S&P(R)", "500", "Standard & Poor's Depositary Receipts", "SPDRs", "Select Sector SPDR" and "Select Sector Standard & Poor's Depositary Receipts" are registered trademarks of Standard & Poor's, a division of The McGraw-Hill Companies, Inc.,

and have been licensed for use by MLPF&S. ML&Co. is an authorized sublicensee of MLPF&S. The stocks comprising the Consumer Staples Select Sector Index were selected by MLPF&S, as index compilation agent, in consultation with S&P from the universe of companies represented by the S&P 500 Index. The composition

23

and weightings of the stocks included in the Consumer Staples Select Sector Index can be expected to differ from the composition and weighting of stocks included in any similar S&P 500 sector index published and disseminated by S&P.

The MITTS Securities, the Consumer Staples SPDR Fund and the Consumer Staples Select Sector Index are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or in the ability of the Consumer Staples SPDR Fund to track the performance and yield of the Consumer Staples Select Sector Index or in the ability of the Consumer Staples Select Sector Index to track the performance of the consumer staples sector represented in the stock market. The stocks included in the Consumer Staples Select Sector Index were selected by MLPF&S as the index compilation agent in consultation with S&P from a universe of companies involved in the development and production of consumer staples products and represented by the S&P 500 Index. The composition and weightings of the stocks included in the Consumer Staples Select Sector Index can be expected to differ from the composition and weighting of stocks included in any corresponding S&P 500 sector index that is published and disseminated by S&P. S&P's only relationship to the index compilation agent is the licensing of certain trademarks and trade names of S&P and of the S&P 500 Index which is determined, composed and calculated by S&P without regard to the index compilation agent or the MITTS Securities. S&P has no obligation to take the needs of the index compilation agent, ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. S&P is not responsible for and has not participated in any determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are initially to be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into shares of the Consumer Staples SPDR Fund or cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

S&P does not guarantee the accuracy and/or the completeness of the S&P 500 Index, the Consumer Staples Select Sector Index or any data included therein. S&P makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, the holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index, the Consumer Staples Select Sector Index or any data included therein in connection with the rights licensed under the license agreement described herein or for any other use. S&P makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index, the Consumer Staples Select Sector Index or any data included therein. Without limiting the generality of the foregoing, in no event shall S&P have any liability for any special, punitive, indirect or consequential damages, including lost profits, even if notified of the possibility of such damages.

All disclosures contained in this prospectus regarding the S&P 500 Index or the Consumer Staples Select Sector Index, including its respective make-up, method of calculation and changes in its components, are derived from publicly available information prepared by S&P and the Select Sector SPDR Trust, respectively. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

#### OTHER TERMS

ML&Co. issued the MITTS Securities as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

24

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt

securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

25

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any

installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;

- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "-- Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;

26

- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the Trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the Trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, ML&Co. has determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount and a projected Supplemental Redemption Amount equal to \$5.0655 per Unit (the "Projected Supplemental Redemption Amount"). This represents an estimated yield on the MITTS Securities equal to 5.83% per annum, compounded semiannually.

27

The projected payment schedule, including both the Projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over an assumed term of approximately seven years for the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the Projected Supplemental Redemption Amount and the estimated yield equal to 5.83% per annum (compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on MITTS Securities as of End of Accrual Period (per unit) -----

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

#### The Consumer Staples SPDR Fund

The Select Sector SPDR Trust is subject to the registration requirements of the Securities Act and the Investment Company Act and is required to file periodically certain information specified by the SEC. For more information about the Consumer Staples SPDR Fund and the shares that you may receive at maturity, information provided to or filed with the SEC by the Select Sector SPDR Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through its web site. You may also obtain copies of these documents at no cost by calling the Select Sector SPDR Trust at (800) 843-2639 or by writing the Select Sector SPDR Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor these other documents are incorporated by reference in this prospectus, and we make no representation or warranty as to the accuracy or completeness of that information.

29

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and

. any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

30

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

 Select Sector SPDR Fund Growth Portfolio  
 Market Index Target-Term Securities(R)  
 due May 25, 2006  
 "MITTS(R) Securities"  
 \$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary when making offers and sales related to market-making transactions in the MITTS Securities.

<TABLE>  
 <CAPTION>

The MITTS Securities:

<S>

- . 100% principal protection at maturity.
- . No payments before the maturity date.
- . Senior unsecured debt securities of Merrill Lynch & Co., Inc.
- . Linked to the value of the Select Sector SPDR Fund Growth Portfolio Index, an index tracking the value of various Select Sector SPDR Funds. Each Select Sector SPDR Fund is an index fund whose stated investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of publicly-traded equity securities involved in a specific market sector comprising the relevant sector index.
- . The MITTS Securities have been approved for listing on the American Stock Exchange under the trading symbol "GWM".

</TABLE>

Payment at maturity:

<C>

- . On the maturity date, for each unit of the MITTS Securities you own, we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the value of the Select Sector SPDR Fund Growth Portfolio Index, reduced by an annual adjustment factor of 2.35%.
- . At maturity, you will receive no less than the principal amount of your MITTS Securities.

Investing in the MITTS Securities involves risk.  
 See "Risk Factors" beginning on page 9 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the MITTS Securities will be the prevailing market price at the time of sale.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Select Sector SPDR Fund Growth Portfolio Market Index Target- Term Securities due May 25, 2006. You should carefully read the prospectus and the accompanying fund prospectus to fully understand the terms of the MITTS Securities, the Select Sector SPDR Fund Growth Portfolio Index (the "SPDR Fund Growth Portfolio Index") and the tax and other considerations that should be important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights the material risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

We have attached the prospectus for the Select Sector SPDR Funds. You should carefully read the fund prospectus to fully understand the operation and management of the Select Sector SPDR Funds, including the fees and expenses associated with shares of the Select Sector SPDR Funds which affect the value per share of the Select Sector SPDR Funds and which will therefore indirectly affect the value of the SPDR Fund Growth Portfolio Index.

Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Select Sector SPDR Funds and the index compilation agent for each of the indices related to the Select Sector SPDR Funds. However, we are not affiliated with any of the Select Sector SPDR Funds. The Select Sector SPDR Funds did not receive any of the proceeds from the initial sale of the MITTS Securities and does not have any obligations with respect to the MITTS Securities.

We have attached the fund prospectus and are delivering it to you together with this prospectus of ML&Co. for the convenience of reference only. The fund prospectus does not constitute a part of this prospectus, nor is it incorporated by reference in this prospectus.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on May 25, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive at the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the SPDR Fund Growth Portfolio Index. At the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

( Adjusted Ending Value - Starting Value )  
 \$10 X ( ----- )

( Starting Value )

but will not be less than zero.

3

The "Starting Value" equals 100, the value to which the SPDR Fund Growth Portfolio Index was set on May 25, 1999, the date the MITTS Securities were priced for initial sale to the public (the "Pricing Date").

"Adjusted Ending Value" means the average of the closing values of the SPDR Fund Growth Portfolio Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the component stocks included in any of the funds underlying the SPDR Fund Growth Portfolio Index or certain futures or options relating to those funds or the S&P 500 Index.

The "Adjustment Factor" equals 2.35% and will be applied over the entire term of the MITTS Securities to reduce the closing values of the SPDR Fund Growth Portfolio Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 15.18% less than the actual value of the SPDR Fund Growth Portfolio Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the SPDR Fund Growth Portfolio Index used to calculate your Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities--Payment at maturity" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

4

Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an Adjustment Factor of 2.35% per year and a term equal to that of the MITTS Securities:

Example 1--The SPDR Fund Growth Portfolio Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 100.00

Hypothetical closing value of the SPDR Fund Growth Portfolio Index at maturity: 105.00

Hypothetical Adjusted Ending Value: 89.06

<TABLE>			
<S>		<C>	<C>
		( 89.06 - 100 )	(Supplemental Redemption Amount
cannot			
Supplemental Redemption Amount (per unit) = \$10 X ( ----- ) = \$0.00		( 100 )	be less than zero)
</TABLE>			

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The SPDR Fund Growth Portfolio Index, as adjusted, is above the Starting Value at maturity:

Starting Value: 100.00

Hypothetical closing value of the SPDR Fund Growth Portfolio Index at maturity: 180.00

Hypothetical Adjusted Ending Value: 152.68

<TABLE>			
<S>		<C>	
		( 152.68 - 100 )	
Supplemental Redemption Amount (per unit) = \$10 X ( ----- ) = \$5.27		( 100 )	

</TABLE>

Total payment at maturity (per unit) = \$10 + \$5.27 = \$15.27

What is the SPDR Fund Growth Portfolio Index?

The AMEX publishes the SPDR Fund Growth Portfolio Index under the symbol "GWI". The index measures the performance of eight underlying funds (each a "Select Sector SPDR Fund") that each tracks the performance of stocks in a particular sector or group of industries selected from a universe of companies defined in the S&P 500 Index.

Each Select Sector SPDR Fund is an index fund whose stated investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of publicly-traded equity securities comprising the relevant sector index (each a "Select Sector Index"). Each Select Sector Index consists of the equity securities of publicly-traded companies that are components of the S&P 500 Index and are involved in a specific market sector. The Select Sector SPDR Funds are eight of the nine investment funds comprising the Select Sector SPDR Trust, a management investment company registered under the Investment Company Act of 1940, as amended. The combined companies constituting the nine Select Sector Indexes represent all of the companies whose stocks are components of the S&P 500 Index. The funds included in the SPDR Fund Growth Portfolio Index include all sectors of stock included in the S&P 500 Index except one, the utilities sector.

Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Select Sector SPDR Funds and the index compilation agent for the Select Sector Indexes underlying the Select Sector SPDR Funds. The Select Sector SPDR Funds did not receive any of the proceeds from the initial sale of, and does not have any obligations under, the MITTS Securities.

You should carefully read the fund prospectus accompanying this prospectus to fully understand the operation and management of the Select Sector SPDR Funds, including the fees and expenses charged by the Select Sector SPDR Funds. In addition, because the Select Sector SPDR Trust is subject to the registration requirements of the Securities Act of 1933, as amended, and the Investment Company Act, the Select Sector SPDR Trust is required to file periodically certain information specified by the SEC. For more information about the Select Sector SPDR Funds you

5

can inspect information provided to or filed with the SEC by the Select Sector SPDR Trust at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. You may also obtain copies of these documents at no cost by calling the Select Sector SPDR Trust at (800) 843-2639 or by writing the Select Sector SPDR Trust c/o ALPS Mutual Funds Services, Inc., 370 17th Street, Suite 3100, Denver, CO 80202. Neither the fund prospectus nor these other documents are incorporated by reference in this prospectus, and we make no representation or warranty as to the accuracy or completeness of this information.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "GWM". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell the MITTS Securities to create and maintain a secondary market for holders of the MITTS Securities. However, MLPF&S is not be obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also be our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent.

MLPF&S also is a soliciting dealer in the shares of the Select Sector SPDR Funds and is the index compilation agent for the indices related to the Select Sector SPDR Funds. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S's status as our subsidiary and its responsibilities to the Select Sector SPDR Funds and the Select Sector Indexes.

Please see the section entitled "Risk Factors-Potential conflicts of interests" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in the accompanying prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

6

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value at the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the SPDR Fund Growth Portfolio Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will repay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index

The AMEX calculates the value of the SPDR Fund Growth Portfolio Index by reference to the values of eight Select Sector SPDR Funds that reflect the prices of those funds without taking into consideration the value of dividends paid on those funds. The return on your MITTS Securities will not reflect the return you would realize if you actually owned all of the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index and received the dividends paid on those funds because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the SPDR Fund Growth Portfolio Index is calculated by reference to the values of the Select Sector SPDR Funds included in the SPDR Fund Growth Portfolio Index without taking into consideration the value of any dividends paid on those funds.

Changes in the value per share of a Select Sector SPDR Fund will not exactly mirror changes in the related Select Sector Index

As indicated in the fund prospectus, a Select Sector SPDR Fund's investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly-traded equity securities included in the related Select Sector Index. However, changes in the value of a Select Sector Index and in the value per share of the related Select Sector SPDR Fund are not expected to be identical because:

- . a Select Sector SPDR Fund's investment portfolio may not hold all of the stocks in the related Select Sector Index or may not hold each stock in the same weighting as the related Select Sector Index,
- . a Select Sector SPDR Fund may hold assets other than equity securities, and
- . the value per share of a Select Sector SPDR Fund reflects the reduction of fund assets resulting from the accrual of fees and expenses and the payment of distributions, if any.

As stated in the fund prospectus, the investment adviser to the Select

Sector SPDR Funds believes that "over time, 'the tracking error' of a Select Sector SPDR Fund relative to the performance of the related Select Sector Index, adjusted for the effect of that Select Sector SPDR Fund's expenses, will be less than 5%". There is no

7

assurance that the tracking error will not be greater than 5% at any time, including the time that you may wish to sell your MITTS Securities before the maturity date or at the time the calculation agent determines the Supplemental Redemption Amount, if any.

The SPDR Fund Growth Portfolio Index is expected to be indirectly affected by fees charged by the underlying Select Sector SPDR Funds to their shareholders which will reduce the value of the Select Sector SPDR Fund shares.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "GWM", you cannot assume that a trading market will continue to exist for the MITTS Securities. If a trading market does continue to exist, there can be no assurance that there will be liquidity in the trading market. The continued existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the SPDR Fund Growth Portfolio Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the SPDR Fund Growth Portfolio Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the SPDR Fund Growth Portfolio Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the SPDR Fund Growth Portfolio Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the SPDR Fund Growth Portfolio Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the SPDR Fund Growth Portfolio Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the SPDR Fund Growth Portfolio Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of your MITTS Securities. In general, rising dividend rates, or dividends per share, may increase the value of the SPDR Fund Growth Portfolio Index while falling dividend rates may decrease the value of the SPDR Fund Growth Portfolio Index.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Rising interest rates may lower the value of the SPDR Fund Growth Portfolio Index and, thus, the MITTS Securities. Falling interest rates may increase the value of the SPDR Fund Growth Portfolio Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the SPDR Fund Growth Portfolio Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market

8

fluctuations. Generally, if the volatility of the SPDR Fund Growth Portfolio Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the SPDR Fund Growth Portfolio

Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the value of the SPDR Fund Growth Portfolio Index. This difference will reflect a "time premium" due to expectations concerning the value of the SPDR Fund Growth Portfolio Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the underlying Select Sector SPDR Funds are expected to affect the trading value of the MITTS Securities. Generally, if dividend yields on the stocks included in the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on these stocks decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the SPDR Fund Growth Portfolio Index at maturity, an improvement in our credit ratings will not reduce the investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the SPDR Fund Growth Portfolio Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

No affiliation between ML&Co. and the Select Sector SPDR Funds

Our affiliate MLPF&S is both a soliciting dealer in the shares of the Select Sector SPDR Funds and the index compilation agent for the related Select Sector Indexes. However, we are not affiliated with the Select Sector SPDR Funds or the related Select Sector Indexes. The Select Sector SPDR Funds have no obligations with respect to the MITTS Securities or amounts to be paid to you, including any obligation to take the needs of ML&Co. or of beneficial owners of the MITTS Securities into consideration for any reason. The Select Sector SPDR Funds will not receive any of the proceeds from this offering and are not responsible for, and have not participated in, the determination or calculation of the amount you will receive on your MITTS Securities at maturity. In addition, the Select Sector SPDR Funds are not involved with the administration or trading of the MITTS Securities and have no obligations with respect to any amounts due under the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State laws govern the 1983 Indenture under which the MITTS Securities were issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by

9

a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell shares of the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index or the stocks underlying those funds for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of the underlying stocks, the value of the Select Sector SPDR Funds and, in turn, the value of the SPDR Fund Growth Portfolio Index in a manner that would be adverse to your investment in the

MITTS Securities.

#### Potential conflicts of interests

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the SPDR Fund Growth Portfolio Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the SPDR Fund Growth Portfolio Index. See "Description of the MITTS Securities--Adjustments to the SPDR Fund Growth Portfolio Index; Market Disruption Events" and "Discontinuance of the SPDR Fund Growth Portfolio Index" in this prospectus.

MLPF&S is a soliciting dealer in the shares of the Select Sector SPDR Funds. Under certain circumstances, MLPF&S' role as calculation agent for the MITTS Securities and its role as a soliciting dealer in these shares could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities. These conflicts could occur in connection with its determination as to the Adjusted Ending Value and the amount we owe you at maturity.

Additionally, MLPF&S serves as Index Compilation Agent for each Select Sector Index. In its capacity as Index Compilation Agent, MLPF&S determines, in consultation with S&P, which securities of the S&P 500 are to be included in each Select Sector Index. Under certain circumstances, MLPF&S' role as calculation agent for the MITTS Securities and its role as Index Compilation Agent could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities.

MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

10

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information

We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

11

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

12

DESCRIPTION OF THE MITTS SECURITIES

ML&Co. issued the MITTS Securities as a series of senior debt securities under the senior indenture, referred to as the 1983 Indenture, which is more fully described in this prospectus. The MITTS Securities will mature on May 25, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. Upon the occurrence of an Event of Default with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "Description of the MITTS Securities--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, a beneficial owner of a MITTS Security will be entitled to receive only the principal amount of its MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<S>

	<C>	
	(	Adjusted Ending Value - Starting Value )
principal amount of each MITTS Security (\$10 per unit) X	(	----- )
	(	Starting Value )

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 100.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the SPDR Fund Growth Portfolio Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the SPDR Fund Growth Portfolio Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the SPDR Fund Growth Portfolio Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the SPDR Fund Growth Portfolio Index determined on the last scheduled Index Business Day in the Calculation Period, as reduced by the application of the Adjustment Factor on that day, regardless of the occurrence of a Market Disruption Event on that day.

The "Adjustment Factor" equals 2.35% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a pro-rated basis based on a 365-day year to reduce the value used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately

13

15.18% less than the actual closing value of the SPDR Fund Growth Portfolio Index on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is any day on which the NYSE and the AMEX are open for trading and the SPDR Fund Growth Portfolio Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

#### Hypothetical returns

The following table illustrates, for a range of hypothetical closing values of the SPDR Fund Growth Portfolio Index during the Calculation Period:

- . the percentage change from the Starting Value to the hypothetical closing value of the SPDR Fund Growth Portfolio Index,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the shares of the Select Sector SPDR Funds included in the SPDR Fund Growth Portfolio Index, which includes an assumed aggregate dividend yield of 1.09% per annum, as more fully described below.

14

For the purposes of calculating this table, we have applied an Adjustment Factor of 2.35% per annum.

<TABLE>

17.63%						

(1) The Adjusted Ending Values specified in this column are approximately 15.18% less than the hypothetical closing values of the SPDR Fund Growth Portfolio Index as a result of the cumulative effect of the application of an Adjustment Factor of 2.35% per annum over the term of the MITTS Securities.

(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(3) This rate of return assumes:

- (a) an investment of a fixed amount in the shares of the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index with the allocation of this amount reflecting the relative weights of each of the Select Sector SPDR Funds in the SPDR Fund Growth Portfolio Index;
- (b) a percentage change in the aggregate price of the shares that equals the percentage change in the SPDR Fund Growth Portfolio Index from the Starting Value to the relevant hypothetical closing value;
- (c) a constant dividend yield of 1.09% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the shares of the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical closing value;
- (d) no transaction fees or expenses in connection with purchasing and holding shares of the Select Sector SPDR Funds;
- (e) an investment term from May 28, 1999 to May 25, 2006; and
- (f) a final value of the SPDR Fund Growth Portfolio Index equal to the hypothetical closing value.

(4) The Starting Value of the SPDR Fund Growth Portfolio Index equals 100.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

Adjustments to the SPDR Fund Growth Portfolio Index; Market Disruption Events

If at any time the AMEX changes its method of calculating the SPDR Fund Growth Portfolio Index, or the value of the SPDR Fund Growth Portfolio Index changes, in any material respect, or if the SPDR Fund Growth Portfolio Index is in any other way modified so that the SPDR Fund Growth Portfolio Index does not, in the opinion of the calculation agent, fairly represent the value of the SPDR Fund Growth Portfolio Index had any changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the SPDR Fund Growth Portfolio Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the SPDR Fund Growth Portfolio Index as if no changes or modifications had been made, and calculate the closing value with reference to the SPDR Fund Growth Portfolio Index, as so adjusted. Accordingly, if the method of calculating the SPDR Fund Growth Portfolio Index is modified so that the value of the SPDR Fund Growth Portfolio Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the SPDR Fund Growth Portfolio Index in order to arrive at a value of the SPDR Fund Growth Portfolio Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means any of the following events, with respect to the Select Sector SPDR Funds, as determined by the calculation agent:

- (a) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the Select Sector SPDR Funds underlying the SPDR Fund Growth Portfolio Index; or
- (b) the suspension or material limitation on trading, in each case, for more than two hours of trading whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise in option contracts or futures contracts related to the S&P 500 Index or the shares of a Select Sector SPDR Fund underlying the SPDR Fund Growth Portfolio Index which are traded on any major U.S. exchange.

A limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange.

For the purposes of clause (a) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

Discontinuance of the SPDR Fund Growth Portfolio Index

If the AMEX discontinues publication of the SPDR Fund Growth Portfolio Index and the AMEX or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the SPDR Fund Growth Portfolio Index (a "successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by the AMEX or any other entity for the SPDR Fund Growth Portfolio Index and calculate the closing value as described above under "Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

16

In the event that the AMEX discontinues publication of the SPDR Fund Growth Portfolio Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the SPDR Fund Growth Portfolio Index in accordance with the procedures last used to calculate the SPDR Fund Growth Portfolio Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the SPDR Fund Growth Portfolio Index as described below, the successor index or value will be used as a substitute for the SPDR Fund Growth Portfolio Index for all purposes, including for purposes of determining whether a Market Disruption

Event exists.

If the AMEX discontinues publication of the SPDR Fund Growth Portfolio Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Exchange Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

An "Exchange Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the SPDR Fund Growth Portfolio Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the MITTS Securities, provided, however, that the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See "-Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding was the maturity date of the MITTS Securities.

In case of default in payment at the maturity date of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 6.38% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

17

#### Depository

##### Description of Global Securities

Upon issuance, all MITTS Securities will be represented by one or more fully registered global securities. Each global security will be deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a

beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC will act as securities depository for the MITTS Securities. The MITTS Securities will be issued as fully registered securities registered in the name of Cede & Co. (DTC's nominee). One or more fully registered global securities will be issued for the MITTS Securities in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is

18

in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts such MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in

"street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants shall be the responsibility of DTC, and disbursement of any payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

19

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Same-day settlement and payment

Settlement for the MITTS Securities will be made by the underwriter in immediately available funds. ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE SELECT SECTOR SPDR FUND GROWTH PORTFOLIO INDEX

The SPDR Fund Growth Portfolio Index is an index tracking the value of eight underlying Select Sector SPDR Funds. Each Select Sector SPDR Fund is an index fund whose stated investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly-traded equity securities comprising the relevant sector index. Each sector index consists of the equity securities of publicly-traded companies that are components of the S&P 500 Index and that represent a specific market sector. An investment in the MITTS Securities does not entitle you to any ownership interest in any of the Select Sector SPDR Funds comprising the SPDR Fund Growth Portfolio Index.

The initial multipliers were calculated so that the value of the SPDR Fund Growth Portfolio Index equaled 100 on the Pricing Date. The initial multiplier for each Select Sector SPDR Fund was determined by the calculation agent on the Pricing Date and equalled:

- . the initial weighting for the Select Sector SPDR Fund multiplied by 100, divided by
- . the last sale price reported on the AMEX of that Select Sector SPDR Fund on the Pricing Date.

The respective multipliers will remain constant for the term of the MITTS Securities unless adjusted for certain events such as splits, reverse splits or capital gains distributions of any Select Sector SPDR Fund. The AMEX will have the sole discretion as to whether to make any adjustments and the amount of any adjustments.

The AMEX calculates and disseminates the value of the SPDR Fund Growth Portfolio Index that equals the sum of the products, for each Select Sector SPDR

Fund, of the applicable multiplier and the most recently reported price at which the Select Sector SPDR Fund has traded on its primary exchange. The AMEX disseminates the SPDR Fund Growth Portfolio Index at approximately 15-second intervals during the AMEX's business hours and at the end of each Index Business Day via the Consolidated Tape Association's Network B. The SPDR Fund Growth Portfolio Index is reported by the AMEX and Bloomberg under the symbol "GWI" and by Reuters under the symbol ".GWI".

#### Select Sector SPDR Funds

ML&Co. has attached the fund prospectus describing the Select Sector SPDR Funds and is delivering it to purchasers of the MITTS Securities together with this prospectus of ML&Co. for the convenience of reference only. The fund prospectus does not constitute a part of this prospectus of ML&Co., nor is it incorporated by reference in this prospectus of ML&Co. The summary description below is qualified in its entirety by the information describing the Select Sector SPDR Funds and the Select Sector Indexes included in the attached fund prospectus.

The investment objective of each Select Sector SPDR Fund is to provide investment results that, before expenses, correspond generally to the price and yield performance of publicly traded equity securities of companies in a particular sector or group of industries as represented by a specified Select Sector Index published by the AMEX. The companies included in each Select Sector SPDR Index are selected on the basis of general industry classification from a universe of companies defined by the S&P 500. For further information on the Select Sector

20

SPDR Funds and the Select Sector Indexes you should carefully read the fund prospectus accompanying this prospectus.

Although ML&Co.'s subsidiary, MLPF&S, provides certain services to the Select Sector SPDR Funds and the provider of the Select Sector Indexes, ML&Co. is not affiliated with the Select Sector SPDR Funds or the Select Sector Indexes, and the Select Sector SPDR Funds will not receive any of the proceeds from the sale of, or have any obligations under, the MITTS Securities. A prospective purchaser of the MITTS Securities should independently decide whether an investment in the MITTS Securities is appropriate.

The Select Sector SPDR Trust is subject to the registration requirements of the Securities Act and the Investment Company Act, and is required to file periodically certain information specified by the SEC. For more information about the Select Sector SPDR Funds, the information provided to or filed with the SEC by the Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. Copies of these documents may also be obtained at no cost by calling the Trust at (800) 843-2639 or by writing the Trust c/o ALPS Mutual Funds Services, Inc., 370 17th Street, Suite 3100, Denver, CO 80202. Neither the fund prospectus nor such other documents are incorporated by reference in this prospectus, and ML&Co. makes no representation or warranty as to the accuracy or completeness of any such documents.

ML&Co. is not affiliated with any of the Select Sector SPDR Funds, and the Select Sector SPDR Funds do not have obligations with respect to the MITTS Securities. This prospectus relates only to the MITTS Securities offered by this prospectus and does not relate to the shares of the Select Sector SPDR Funds or any other securities relating to the Select Sector SPDR Funds. The information contained in this prospectus regarding the Select Sector SPDR Funds has been derived from the publicly available documents described in the preceding paragraph. ML&Co. makes no representation that these publicly available documents or any other publicly available information regarding the Select Sector SPDR Funds are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this prospectus, including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph, that would affect the trading price of the shares of the Select Sector SPDR Funds, and therefore the trading price of the MITTS Securities, have been publicly disclosed. Subsequent disclosure of any of these events or the disclosure of or failure to disclose material future events concerning the Select Sector SPDR Funds could affect the Supplemental Redemption Amount, if any, to be received at maturity and therefore the trading value of the MITTS Securities.

MLPF&S, a subsidiary of ML&Co., is a soliciting dealer in the shares of the Select Sector SPDR Funds. Additionally, MLPF&S serves as index compilation agent for the Select Sector Indexes. In its capacity as index compilation agent, MLPF&S determines, in consultation with S&P, the composition of the securities measured by the Select Sector Indexes.

#### License Agreement

S&P, the AMEX and MLPF&S have entered into a non-exclusive license agreement providing for the license to MLPF&S, in exchange for a fee, of the right to use Select Sector Indexes owned and published by S&P in connection with

certain securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee of MLPF&S.

The license agreement among S&P, the AMEX and MLPF&S provides that the following language must be stated in this prospectus:

"Standard & Poor's(R)", "Standard & Poor's 500(R)", "S&P 500(R)", "S&P(R)", "500", "Standard & Poor's Depository Receipts", "SPDRs", "Select Sector SPDR" and "Select Sector Standard & Poor's Depository Receipts" are registered trademarks of Standard & Poor's, a division of The McGraw-Hill Companies, Inc., and have been licensed for use by MLPF&S. ML&Co. is an authorized sublicensee of MLPF&S. The stocks comprising the Select Sector Indexes were selected by MLPF&S, as index compilation agent, in consultation with S&P from the universe of companies represented by the S&P 500 Index. The composition and weightings of the stocks included in the Select Sector Indexes can be expected to differ from the composition and weighting of stocks included in any similar S&P 500 sector indexes published and disseminated by S&P.

21

The MITTS Securities, the SPDR Fund Growth Portfolio Index, the Select Sector SPDR Funds and the Select Sector Indexes are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or in the ability of the SPDR Fund Growth Portfolio Index to track the performance and yield of the Select Sector Indexes or in the ability of the Select Sector Indexes to track the performance of the corresponding sectors represented in the stock market. The stocks included in the Select Sector Indexes were selected by MLPF&S as the index compilation agent in consultation with S&P. The composition and weightings of the stocks included in each Select Sector Index can be expected to differ from the composition and weighting of stocks included in any corresponding S&P 500 sector index that is published and disseminated by S&P. S&P's only relationship to the index compilation agent is the licensing of certain trademarks and trade names of S&P and of the S&P 500 Index which is determined, composed and calculated by S&P without regard to the index compilation agent or the MITTS Securities. S&P has no obligation to take the needs of the index compilation agent, ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. S&P is not responsible for and has not participated in any determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are initially to be sold, or quantities of the MITTS Securities to be issued or in the calculation of the Supplemental Redemption Amount. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

S&P does not guarantee the accuracy and/or the completeness of the S&P 500 Index, the Select Sector Indexes or any data included therein. S&P makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, the holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index, the Select Sector Indexes or any data included therein in connection with the rights licensed under the license agreement described herein or for any other use. S&P makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index, the Select Sector Indexes or any data included therein. Without limiting the generality of the foregoing, in no event shall S&P have any liability for any special, punitive, indirect or consequential damages, including lost profits, even if notified of the possibility of such damages.

All disclosures contained in this prospectus regarding the S&P 500 Index or the Select Sector Indexes, including its respective make-up, method of calculation and changes in its components, are derived from publicly available information prepared by S&P and the Select Sector SPDR Trust, respectively. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any

22

subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on Disposition of Voting Stock of, and Merger and Sale of Assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe of all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

23

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding

series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The Holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount

24

of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the

debt securities of that series; or

- . in respect of an obligation or provision of any Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the Holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the final Treasury Department Regulations (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$5.5253 per unit. This represents an estimated yield on the MITTS Securities equal to 6.38% per annum (compounded semiannually).

The projected payment schedule, including both projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over a term of five years and ten days for the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.38% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on MITTS Securities as of end of accrual period (per unit) -----
<S>	<C>	<C>
May 28, 1999 through November 28, 1999.....	\$0.3217	\$0.3217

November 29, 2003 through May 28, 2004.....	\$0.4233	\$3.6927
May 29, 2004 through November 28, 2004.....	\$0.4368	\$4.1295
November 29, 2004 through May 28, 2005.....	\$0.4507	\$4.5802
May 29, 2005 through November 28, 2005.....	\$0.4651	\$5.0453
November 29, 2005 through May 25, 2006.....	\$0.4800	\$5.5253
</TABLE>		

Projected Supplemental Redemption Amount = \$5.5253 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their

investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

27

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Preliminary Prospectus dated December 27, 2000

PROSPECTUS  
- -----

Merrill Lynch & Co., Inc.

Russell 2000(R) Index\* Call Warrants  
Expiring May 25, 2001

Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, will use this prospectus when making offers and sales related to market-making transactions in the warrants.

The Russell 2000 Index Call Warrants: Exercise and payment upon exercise:

- |  |   |
|--|---|
| <ul style="list-style-type: none"><li>. Unsecured contractual obligations of ML&amp;Co.</li><li>. Your return upon exercise is linked to the performance of the Russell 2000 Index, an index designed to track the price</li></ul> | <ul style="list-style-type: none"><li>. Upon exercise, we will pay you, for each Russell 2000 Index Call Warrant that you own, an amount in U.S. dollars equal to the product, if positive, of the percentage change in the Russell 2000 Index as described in this prospectus,</li></ul> |
|--|---|

performance of the common stock of 2,000 corporations with small capitalizations relative to other stocks in the U.S. equity market.

and the Dollar Multiplier which is an amount equal to \$21.75.

The warrants are listed on the American Stock Exchange under the trading symbol "RSY.WS".

You will be able to exercise the warrants from the date they are issued until shortly before their expiration, subject to the possibility that your right to exercise may be postponed or that the warrants may be cancelled.

Investing in the warrants involves a high degree of risk, including the risk that the warrants will expire worthless and you may sustain a total loss of the purchase price. Please see "Risk Factors" beginning on page 7 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the warrants will be the prevailing market price at the time of sale.

Merrill Lynch & Co.

The date of this prospectus is , .

\* The use of, and reference to, the term "Russell 2000 Index" in this prospectus has been consented to by Frank Russell Company.

SUMMARY INFORMATION -- Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Russell 2000 Index Call Warrants expiring May 25, 2001. You should carefully read this prospectus to understand fully the terms of the warrants as well as the tax and other considerations that should be important to you in making a decision about whether to invest in the warrants. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the warrants, to determine whether an investment in the warrants is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the warrants?

The warrants are contractual obligations of ML&Co. and are not secured by collateral. The warrants rank equally with all other unsecured contractual obligations of ML&Co. and ML&Co.'s unsecured and unsubordinated debt. The warrants will entitle you to receive a cash settlement upon exercise. The warrants will expire on May 25, 2001.

You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the warrants in the form of a global certificate, which is being held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record beneficial ownership of the warrants by individual investors. Direct and indirect participants in DTC will include participants in the Euroclear System ("Euroclear") and Clearstream Banking, societe anonyme (formerly Cedelbank) ("Clearstream, Luxembourg"). clearing systems. You should refer to the section "Description of the warrants-- Depository" in this prospectus.

When can I exercise my warrants and when are they subject to automatic exercise or cancellation?

At your option, you may exercise your warrants on any New York Business Day during the period from May 28, 1999 until 1:00 p.m., New York City time on the second scheduled Index Calculation Day immediately preceding their expiration, whether on May 25, 2001 or on the date of earlier expiration. See "Description of the warrants--Exercise and settlement of warrants".

If you do not exercise your warrants during that period, your warrants will be automatically exercised on the Expiration Date or, in the case of delisting or the imposition of a permanent trading suspension on trading of warrants, on the Delisting Date or the date of trading suspension. See "Description of the warrants--Automatic Exercise".

Your warrants are subject to cancellation if the calculation agent determines that an extraordinary event that materially affects the trading of securities generally has occurred and is continuing, as described in "Description of the warrants--Extraordinary Events and Market Disruption Events". If your warrants are cancelled, you will receive the Alternative Settlement Amount determined by the calculation agent as described under "Description of the warrants--Extraordinary Events and Market Disruption Events".

How do I exercise my warrants?

To exercise your warrants, you must cause a broker, who may, in turn, need to direct a participant in DTC:

- . to transfer the warrants to the Warrant Agent on the records of DTC, and
- . to deliver a duly completed and executed exercise notice on your behalf to the Warrant Agent.

In order for a New York Business Day to constitute the Exercise Date for the warrants you are exercising, you must cause your warrants to be

3

transferred to, and the exercise notice to be received by, the Warrant Agent at or prior to 1:00 p.m., New York City time, on that New York Business Day, provided that if you hold the warrants through Clearstream, Luxembourg or Euroclear, the warrants must be transferred to the Warrant Agent by 1:00 p.m., New York City time, on the applicable Valuation Day.

Are there limits on how and when I can exercise my warrants?

You may exercise no fewer than 100 warrants at any one time, except in the case of automatic exercise. See "Description of the warrants--Minimum Exercise Amount". Any exercise of warrants, other than on the Expiration Date or an earlier expiration date, are subject, at ML&Co.'s option, to:

- . the limitation that no more than 20% of the warrants originally issued may be exercised on any Exercise Date, and
- . no more than 10% of the warrants originally issued may be exercised by you, either individually or in concert with any other beneficial owner, on any Exercise Date, other than automatic exercise.

See "Description of the warrants--Maximum Exercise Amount" in this prospectus.

What will I receive when I exercise my warrants or they are automatically exercised?

When you exercise your warrants or they are automatically exercised, we will pay you an amount in U.S. dollars based on the percentage change in the Russell 2000 Index, the Cash Settlement Amount, determined on the Valuation Day relating to the Exercise Date for those warrants, as described in this prospectus. See "Description of the warrants--Cash Settlement Amount upon exercise".

#### Cash Settlement Amount

The "Cash Settlement Amount" will equal an amount in U.S. dollars equal to the product, if positive, of the Percentage Change, in the Russell 2000 Index multiplied by the Dollar Multiplier. In no event will the Cash Settlement Amount be less than zero.

#### Percentage Change

The "Percentage Change" will equal:

$$\frac{\text{Index Spot Value} - \text{Index Strike}}{\text{Value Index Strike Value}}$$

You will receive no payment if the Cash Settlement Amount is equal to zero; however the Cash Settlement Amount cannot be less than zero. In certain circumstances, you may receive an Alternative Settlement Amount rather than the Cash Settlement Amount.

The "Index Strike Value" equals 434.45, the closing value of the index in New York on the date the warrants were priced for initial sale to the public.

The "Index Spot Value" means the closing value of the index in New York on the Valuation Day relating to an exercise of warrants. The Valuation Day will generally be the day on which your exercise of warrants is effective, if that day is also an Index Calculation Day. An "Index Calculation Day" means any day on which the NYSE and the AMEX are open for trading and the index, or any successor index, is calculated and published.

#### Dollar Multiplier

The "Dollar Multiplier" equals \$21.75.

We will pay you a Cash Settlement Amount only if the Index Spot Value is greater than the Index Strike Value. If the Index Spot Value is less than, or equal to the Index Strike Value, the Cash Settlement Amount will be zero. If the Cash Settlement Amount is zero, you will sustain a total loss of the purchase price.

For more specific information about the amount you will receive when you exercise your warrants, please see the section "Description of the warrants--Cash Settlement Amount upon exercise" in this prospectus.

4

#### Examples

Here are three examples of hypothetical Cash Settlement Amount calculations:

Example 1--Index Spot Value is less than the Index Strike Value on the Valuation Day relating to the relevant Exercise Date:

Index Strike Value: 434.45

Hypothetical Index Spot Value: 327.08

<TABLE>			
<S>	<C>	<C>	
	( 327.08 - 434.45 )		
Cash Settlement Amount per warrant = \$21.75 X ( ----- ) = \$0.00	( 434.45 )		(The Cash Settlement Amount cannot be less than zero)
</TABLE>			

Total Cash Settlement Amount per warrant = \$0 and the exercise of the warrant at that time is worthless.

Example 2--Index Spot Value is greater than the Index Strike Value on the Valuation Day relating to the relevant Exercise Date, however the Cash Settlement Amount is less than the initial offering price of \$5.00:

Index Strike Value: 434.45

Hypothetical Index Spot Value: 501.52

<TABLE>	
<S>	<C>
	( 501.52 - 434.45 )
Cash Settlement Amount per warrant = \$21.75 X	( ----- ) = \$3.36
	( 434.45 )

</TABLE>

Total Cash Settlement Amount per warrant = \$3.36 and the exercise of the warrant results in a payment that is less than the initial offering price.

Example 3--Index Spot Value is greater than the Index Strike Value on the Valuation Day relating to the relevant Exercise Date:

Index Strike Value: 434.45

Hypothetical Index Spot Value: 545.14

<TABLE>	
<S>	<C>
	( 545.14 - 434.45 )
Cash Settlement Amount per warrant = \$21.75 X	( ----- ) = \$5.54
	( 434.45 )

</TABLE>

Total Cash Settlement Amount per warrant = \$5.54.

Who publishes the index and what does the index measure?

The Russell 2000 Index is published by Frank Russell Company ("FRC") and is designed to track the performance of 2,000 common stocks of corporations with small capitalizations relative to other stocks in the U.S. equity market. Market capitalization is the value of a corporation's stock in the public market determined by multiplying the number of outstanding shares by the current price of a share. As of April 30, 1999, the market capitalization of the stocks in the Russell 2000 Index ranged from approximately \$12.2 million to

5

\$13.2 billion, with the average market capitalization being \$593.7 million. The corporations in the Russell 2000 Index are domiciled in the U.S. and its territories and their stocks are traded on the NYSE, on the AMEX, or in the over-the-counter market.

Please note that an investment in the warrants does not entitle you to any ownership interest in the stocks of the companies included in the Russell 2000 Index.

Are the warrants listed on a stock exchange?

The warrants are listed on the AMEX under the trading symbol "RSY.WS". You should be aware that the listing of the warrants on the AMEX will not necessarily ensure that a liquid trading market will be available for the warrants, or that it will remain available throughout the term of the warrants. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the warrants" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the offering and sale of the warrants. MLPF&S intends to buy and sell warrants to create a secondary market for holders of the warrants, and may stabilize or maintain the market price of the warrants during the initial distribution of the warrants. However, MLPF&S will not be obligated to engage in any of these market activities, or continue them once it has started.

MLPF&S is our agent for purposes of calculating the Index Spot Value and the Cash Settlement Amount or Alternative Settlement Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent. Please see the section entitled "Risk Factors--Potential conflicts of interests" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in the accompanying prospectus of ML&Co. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where you can find more information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the warrants is subject to risks, including the risk that you will lose your entire purchase price. Please refer to the section "Risk Factors" in this prospectus.

6

#### RISK FACTORS

Your investment in the warrants will involve a high degree of risk. For example, there is the risk that you might not earn a return on your investment and the risk that the warrants will expire worthless. You should be prepared to sustain a total loss of the purchase price of your warrants. We suggest that you, as a potential purchaser of warrants, be experienced with respect to options and option transactions. In addition, you should reach an investment decision with regard to the Warrants only after consulting with your legal and tax advisers and considering the suitability of the Warrants in the light of your particular circumstances.

The warrants are long-term options and may expire worthless

You will receive a cash payment upon exercise only if the warrants have a Cash Settlement Amount greater than zero on the relevant Valuation Day. At pricing, the Cash Settlement Amount of the warrants will equal zero. The warrants will be "in-the-money", i.e., their Cash Settlement Amount will exceed zero, on the relevant Valuation Day only if, as of that date, the closing value of the index is greater than the Index Strike Value. You may incur transaction costs in connection with any exercise of the warrants. Therefore, you may receive no return, even if the warrants are in-the-money, if the Cash Settlement Amount does not exceed any transaction costs and the price you paid for the warrants.

An increase in the level of the index from the date the warrants are priced for initial sale to the public will result in a Cash Settlement Amount for the warrants, and a decrease in the level of the index from that date will result in a zero Cash Settlement Amount for your warrants. If a warrant is not exercised prior to its expiration and, on the Valuation Day with respect to its expiration, the value of the index is less than or equal to the Index Strike Value, the warrant will expire worthless and you will have sustained a total loss of the purchase price of the warrant. You should therefore be prepared to sustain a total loss of the purchase price of your warrants.

The value of the warrants is closely related to changes in the value of the index

The warrants provide opportunities for investment but also pose risks to you as a result of fluctuations in the value of the underlying investment. In general, certain risks associated with the warrants are similar to those generally applicable to other options or warrants of private corporate issuers. However, unlike options or warrants on equity or debt securities, which are traded primarily on the basis of the value of a single underlying security, the trading value of the warrants being offered by this prospectus is likely to reflect primarily the extent of the appreciation or depreciation of the index.

You may lose your entire investment. This risk reflects the nature of a warrant as an asset which tends to decline in value over time and which may, depending on the relative value of the index, be worthless when it expires. A warrant is "out-of-the-money" when the Index Spot Value is less than the Index Strike Value. Assuming all other factors are held constant, the more a warrant is out-of-the-money and the shorter its remaining term to expiration, the greater the risk that you will lose all of your investment. This means that if you do not sell your warrants in the secondary market or exercise your warrants prior to expiration you will necessarily lose your entire investment in the warrant if it expires when the Index Spot Value is less than or equal to the Index Strike Value.

Since warrants may become worthless upon expiration, you must generally be correct about the direction, timing and magnitude of anticipated changes in the value of the index in order to recover and realize a return upon your investment. If the value of the index does not increase to an extent sufficient to cover the costs of your warrants, i.e., the purchase price plus transaction costs, if any, before the warrants expire, you will lose all or a part of your investment in the warrants upon expiration.

In general, the stocks comprising the index have smaller market capitalizations, greater price fluctuations, and less trading liquidity than stocks in other larger capitalization indices which are designed to

7

measure the broad movement of the U.S. stock market. These factors may adversely affect the value of the index and the warrants.

The stocks underlying the index are traded on the NYSE, AMEX and in the over-the-counter market. Some of these markets have adopted measures intended to

prevent extreme short-term price fluctuations resulting from order imbalances. As a result, variations in the index may be limited by price limitations on, or by suspension of trading in, individual stocks which comprise the index which may, in turn, adversely affect the value of the warrants or result in a Market Disruption Event. See "Description of the warrants--Extraordinary Events and Market Disruption Events".

The warrants are suitable only for investors with experience in options transactions

The AMEX requires that warrants be sold only to investors with options-approved accounts and that its members and member organizations and their registered employees make certain suitability determinations before recommending transactions in warrants. We suggest that investors considering purchasing warrants be experienced with respect to options and option transactions and understand the risks of stock index transactions and reach an investment decision only after carefully considering, with their advisers, the suitability of the warrants in light of their particular circumstances. Warrants are not suitable for persons solely dependent upon a fixed income for individual retirement plan accounts or for accounts under the Uniform Transfers/Gifts to Minors Act. Investors should be prepared to sustain a total loss of the purchase price of their warrants.

Restrictions on the minimum and maximum number of warrants you may exercise

- . Minimum Exercise Amount. Except for cases of automatic exercise, you must tender at least 100 warrants at any one time in order to exercise your warrants. Thus, except in cases of automatic exercise, if you own fewer than 100 warrants you will need either to sell your warrants or purchase additional warrants, incurring transaction costs in either case, in order to realize proceeds from your investment. At any time you must purchase additional warrants in order to have the minimum number of warrants necessary to elect to exercise, you will be exposed to the conditions of the secondary market for warrants at the time of that purchase, including the risk that there may be a limited number of warrants available in the market at that time, and the other factors affecting the secondary market discussed above. Furthermore, you incur the risk that there may be differences between the trading value of the warrants and the Cash Settlement Amount of the warrants.
- . Maximum Exercise Amount. All exercises of warrants, other than on automatic exercise, are subject, at our option, to the limitation that not more than 20% of the warrants originally issued may be exercised on any Exercise Date and not more than 10% of the warrants originally issued may be exercised by you or on your behalf, either individually or in concert with any other beneficial owner, on any Exercise Date. If any New York Business Day would otherwise be the Exercise Date for more than 20% of the warrants originally issued, then at our election 20% of the warrants originally issued shall be exercised on that Exercise Date, subject to the following conditions: (a) no more than 10% of the warrants originally issued shall be exercised for the account of any single beneficial owner, and, (b) the Warrant Agent shall select the warrants to be exercised on a pro rata basis. If, as a result of the pro rata selection, any beneficial owner of warrants would be deemed to have exercised fewer than 100 warrants, the Warrant Agent shall first select an additional amount of that beneficial owner's warrants so that no beneficial owner shall be deemed to have exercised fewer than 100 warrants, and the remainder of the warrants, whether or not fewer than 100 warrants (the "Remaining Warrants"), shall be deemed exercised on the following New York Business Day subject to successive applications of this provision. In selecting warrants to be exercised, the Warrant Agent shall deem any Remaining Warrants which were exercised on a prior Exercise Date exercised before any other warrants exercised on a subsequent Exercise Date.

8

As a result of any postponed exercise, beneficial owners will receive a Cash Settlement Amount determined as of a date later than the otherwise applicable Valuation Day. In that case, as a result of any postponement, the Cash Settlement Amount actually received by beneficial owners may be lower (or higher) than the otherwise applicable Cash Settlement Amount if the Valuation Day of the warrants had not been postponed.

There may be a time lag after you give exercise instructions

In the case of any exercise of warrants, there will be a time lag between the time you give instructions to exercise and the time the Index Spot Value relating to the exercise is determined. Therefore, you will not be able to determine, at the time of exercise of a warrant, the Index Spot Value that will be used to calculate the Cash Settlement Amount of the warrant, and will thus be unable to determine the Cash Settlement Amount. The delay will, at a minimum, amount to several hours and could be much longer. For example, an exercise notice received by the Warrant Agent after 1:00 p.m. Friday would generally

result in the Index Spot Value being determined the following Monday. Any downward movement in the level of the index between the time you exercise a warrant and the time the Index Spot Value for that exercise is determined will result in your receiving a Cash Settlement Amount that is less than the Cash Settlement Amount you anticipated based on the level of the index most recently reported prior to exercise. If you have not exercised a warrant prior to 1:00 p.m. on the second scheduled Index Calculation Day preceding the Expiration Date you will, pursuant to the provision for automatic exercise, have the Index Spot Value with respect to the warrant determined on the Expiration Date. The value of the index may change significantly during that period, and these movements could adversely affect the Cash Settlement Amount of the warrants being exercised.

Further delay may occur if a Market Disruption Event or Extraordinary Event has occurred, in which case the Cash Settlement Amount in respect of exercised warrants will be calculated as of the next succeeding Index Calculation Day on which there is no Market Disruption Event or Extraordinary Event. If the calculation agent determines that on a Valuation Day a Market Disruption Event or Extraordinary Event has occurred, the Valuation Day shall be postponed to the first succeeding Index Calculation Day on which no Market Disruption Event or Extraordinary Event occurs; subject to the following conditions: (a) if the Valuation Day has not occurred on or prior to the fifth scheduled Index Calculation Day following an Exercise Date because of Market Disruption Events, the fifth scheduled Index Calculation Day shall be the Valuation Day regardless of whether a Market Disruption Event has occurred on that day, and (b) if an Extraordinary Event has occurred and is continuing, and if the Extraordinary Event is expected by ML&Co. to continue, ML&Co. may immediately cancel the warrants as described below under "Description of the warrants--Extraordinary Events and Market Disruption Events". During any period of delay due to a Market Disruption Event or Extraordinary Event, the value of the index may change significantly, and that change may adversely affect the amount paid on any warrants exercised during that period.

The warrants will be automatically exercised if they are delisted

In the event that the warrants are delisted from, or permanently suspended from trading on, the AMEX and the warrants are not simultaneously accepted for trading pursuant to the rules of another regulated trading organization that are filed with the SEC under U.S. securities laws, warrants not previously exercised will expire on the date the delisting or trading suspension becomes effective and will be deemed automatically exercised on the Delisting Date. At the applicable Valuation Day with respect to the automatic exercise, the warrants may be out-of-the-money so that the Cash Settlement Amount would equal zero.

The warrants are not standardized options issued by the Options Clearing Corporation

The warrants are not standardized stock index options of the type issued by the Options Clearing Corporation (the "OCC"), a clearing agency regulated by the SEC. For example, unlike purchasers of OCC standardized options who have the credit benefits of guarantees and margin and collateral deposits by OCC clearing members to protect the OCC from a clearing member's failure, purchasers of warrants must look solely to ML&Co. for performance of its obligations to pay the Cash Settlement Amount or Alternative

9

Settlement Amount on the exercise of warrants. Further, the market for the warrants is not expected to be generally as liquid as the market for OCC standardized options. The OCC does issue standardized stock index options in which payments, if any, are determined based on changes in the index.

The warrants are unsecured contractual obligations of ML&Co. and will rank equally with ML&Co.'s other unsecured contractual obligations and with ML&Co.'s unsecured and unsubordinated debt. However, given that ML&Co. is a holding company, the right of ML&Co., and hence the right of creditors of ML&Co., including beneficial owners of the warrants, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of certain exchanges and other regulatory bodies.

There may be an uncertain trading market for the warrants

The warrants have been approved for listing on the AMEX under the trading symbol "RSY.WS", subject to official notice of issuance. While there have been a number of issuances of different warrants, trading volumes have varied historically from one series to another, and it is therefore impossible to predict how the warrants will trade. You cannot assume that a trading market will develop for the warrants. If a trading market does develop, there can be no assurance that there will be liquidity in the trading market. The development of a trading market for the warrants will depend on the percentage change in the

Russell 2000 Index, and other factors such as our financial performance.

If the trading market for the warrants is limited, there may be a limited number of buyers if you decide to sell your warrants, and as the number of outstanding warrants decreases their value may decrease. This may affect the price you receive upon exercise.

Many factors affect the trading value of the warrants; these factors interrelate in complex ways and the effect of one factor may offset or magnify the effect of another factor

The market value of the warrants will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the warrants caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the warrants caused by another factor. For example, an increase in interest rates may offset some or all of any increase in the trading value of the warrants attributable to another factor, such as an increase in the value of the Russell 2000 Index. The following paragraphs describe the expected impact on the market value of the warrants given a change in a specific factor, assuming all other conditions remain constant.

The value of the index is expected to affect the trading value of the warrants. We expect that the trading value of the warrants will depend substantially on the amount by which the index's value increases or decreases. If the value of the index increases, the trading value of a warrant is expected to increase. If the value of the index decreases, the trading value of a warrant is expected to decrease. It is possible that the trading value of a warrant may decline even if there is an increase in the value of the index.

Changes in the levels of U.S. interest rates are expected to affect the trading value of the warrants. We expect that interest rates will affect the trading value of the warrants. In general, if U.S. interest rates increase, we expect that the trading value of the warrants will increase and, conversely, if U.S. interest rates decrease, we expect that the trading value of the warrants will decrease. Interest rates may also affect the U.S. economy and, in turn, the index's value.

Changes in the volatility of the index are expected to affect the trading value of the warrants. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. Generally, if the volatility of the index increases, we expect that the trading value of the warrants will increase and,

10

conversely, if the volatility of the index decreases, we expect that the trading value of the warrants will decrease.

As the time remaining to the expiration date of the warrants decreases, the "time premium" associated with the warrants will decrease. We anticipate that the warrants may trade at a value above that which would be expected based on the level of the index due to a "time premium" resulting from expectations concerning the value of the index prior to the expiration of the warrants. Generally, as the time remaining to the expiration date of the warrants decreases, we expect that this time premium will decrease, lowering the trading value of the warrants.

Changes in dividend yields of the stocks underlying the index are expected to affect the trading value of the warrants. Generally, if dividend yields on the common stocks underlying the index increase, we expect that the trading value of the warrants will decrease, and conversely, if dividend yields on the stocks underlying the index decrease, we expect that the trading value of the warrants will increase.

Changes in our credit ratings may affect the trading value of the warrants. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the warrants. However, because the return on your warrants is dependent upon factors in addition to our ability to pay our obligations under the warrants, such as any increase in the index's value, an improvement in our credit ratings will not reduce other investment risks related to warrants.

It is important for you to understand that the impact of one of the factors specified above, such as a decrease in index volatility, may offset some or all of any increase in the trading value of the warrants attributable to another factor, such as any increase in the index's value.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the Russell 2000 Index for our own accounts for business reasons or in connection with hedging our obligations under the warrants. These transactions could affect the price of these stocks and in turn the value of the

index in a manner that would be adverse to your investment in the warrants.

#### Potential conflicts of interests

Our subsidiary, MLPF&S, is the calculation agent for the warrants. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the warrants could give rise to conflicts of interests between the calculation agent and the holders of the warrants. These conflicts could occur, for instance, in connection with its determination as to whether a Market Disruption Event or Extraordinary Event, as defined below, has occurred. See "Description of the warrants--Extraordinary Events and Market Disruption Events" and "--Successor Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due under the warrants. This subsidiary expects to make a profit in connection with the arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

11

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the warrants described in this prospectus.

12

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

13

#### DESCRIPTION OF THE WARRANTS

The warrants are contractual obligations controlled by a Warrant Agreement (the "Warrant Agreement") dated May 28, 1999, between ML&Co. and Citibank, N.A., as Warrant Agent (the "Warrant Agent"). The warrants will expire on May 25, 2001. The following statements about the warrants are summaries of the detailed provisions of the Warrant Agreement, the form of which was filed as an exhibit to the registration statement relating to the warrants. Wherever particular provisions of the Warrant Agreement or its terms are referred to, those provisions or definitions are incorporated by reference as a part of the statements made, and the statements are qualified in their entirety by those references.

A warrant will not require, or entitle, you to sell or purchase any shares of any stock underlying the index or any successor index or any other securities to or from ML&Co. ML&Co. will make only a U.S. dollar cash settlement, if any, upon exercise of a warrant. You will not receive any interest on any amount owed on the warrants and the warrants will not entitle you to any of the rights of holders of any underlying stock or other securities.

Period during which warrants may be exercised

You may exercise your warrants as early as the date of initial delivery of the warrants. The warrants will expire on May 25, 2001, or on an earlier date as described under "Automatic Exercise". Warrants not exercised at or prior to 1:00 p.m., New York City time, on the second scheduled Index Calculation Day immediately preceding the Expiration Date or earlier expiration will be deemed automatically exercised on the Expiration Date or, in the case of delisting, on the Delisting Date. Warrants cancelled upon the occurrence and continuation of an Extraordinary Event shall be exercised as described below under "Extraordinary Events and Market Disruption Events". The term "New York Business Day", as used in this prospectus, means any day other than a Saturday or a Sunday or a day on which commercial banks in The City of New York are required or authorized by law or executive order to be closed.

Cash Settlement Amount upon exercise

The Cash Settlement Amount of an exercised warrant is an amount in U.S. dollars that results from the following formula:

Percentage Change x Dollar Multiplier

The "Percentage Change" will equal the following amount:

$$\frac{\text{Index Spot Value} - \text{Index Strike Value}}{\text{Index Strike Value}}$$

The "Dollar Multiplier" equals \$21.75.

The "Index Spot Value" relating to any Exercise Date will be determined by MLPF&S, the "calculation agent", and will equal the closing value of the index, or, if applicable, the successor index, in New York on the Valuation Day relating to such exercise of warrants.

The "Index Strike Value" equals 434.45, the closing value of the index in New York the date the warrants were priced for initial sale to the public.

We will round the Cash Settlement Amount, if necessary, to the nearest cent, with one-half cent being rounded upwards.

14

Set forth below are illustrations of the Cash Settlement Amounts for warrants at exercise based upon various hypothetical percentage changes in the closing value of the index. This table assumes a Dollar Multiplier of \$21.75. The index Percentage Change on Valuation Day column indicates the percentage increase or decrease in the value of the Index Spot Value as compared to the Index Strike Value at the time of exercise. The actual Cash Settlement Amount of a warrant will depend entirely on the actual index Percentage Change on the applicable Valuation Day relating to the Exercise Date. The Cash Settlement Amounts in the table do not reflect any "time value" for a warrant, which may be reflected in the trading value, and are not necessarily indicative of potential profit or loss, which are also affected by purchase price and transaction costs.

<TABLE>  
<CAPTION>

\* This is the breakeven point (the point at which the Cash Settlement Amount is equal to the initial purchase price per warrant).

#### Depository

##### Description of the Global Warrants

All of the warrants are represented by one or more fully registered global warrants. Each global warrant has been deposited with, or on behalf of, The Depository Trust Company, otherwise known as DTC, or any successor to it (the "depository"), as depository, and registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for warrants in definitive form, no global warrant may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of its successor. Investors may elect to hold interests in the global warrants through either the depository, in the United States, or Clearstream, Luxembourg, or Morgan Guaranty Trust Company of New York, Brussels Office, as operator of the Euroclear, if they are participants in these systems, or indirectly through organizations which are participants in these systems.

15

Clearstream, Luxembourg and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream, Luxembourg's and Euroclear's names on the books of their respective depositories, which in turn will hold interests in customers' securities accounts in the depositories' names on the books of the depository. The Chase Manhattan Bank is acting as depository for Euroclear and Citibank, N.A, not in its capacity as Warrant Agent under the Warrant Agreement, is acting as depository for Clearstream, Luxembourg (in these capacities, the "U.S. Depositories").

So long as DTC, or its nominee, is a registered owner of a global warrant, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the warrants represented by the global warrant for all purposes under the Warrant Agreement. Except as provided below, the beneficial owners of the warrants represented by a global warrant are not entitled to have the warrants represented by the global warrant registered in their names, will not receive or be entitled to receive physical delivery of the warrants in definitive form and

are not considered the owners or holders of the warrants under the Warrant Agreement, including for purposes of receiving any reports delivered by ML&Co. or the Warrant Agent pursuant to the Warrant Agreement. Accordingly, each person owning a beneficial interest in a global warrant must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the Warrant Agreement. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest which a holder is entitled to give or take under the Warrant Agreement, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and these participants would authorize beneficial owners owning through these participants to give or take any action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by the depository to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is acting as securities depository for the warrants. The warrants were issued as fully registered securities registered in the name of Cede & Co., DTC's nominee. One or more fully registered global warrants were issued for the warrants and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the American Stock Exchange, Inc., and the NASD. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the warrants under DTC's system must be made by or through direct participants, which will receive a credit for the warrants on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which these beneficial owner entered into the transaction. Transfers of ownership interests

16

in the warrants are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all warrants deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of warrants with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the warrants; DTC's records reflect only the identity of the direct participants to whose accounts the warrants are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Ownership of beneficial interests in the warrants is limited to persons that have accounts with the depository ("participants") or persons that may hold interests through participants. The depository has advised ML&Co. that after the issuance of the global warrants representing the warrants, the depository credited, on its book-entry registration and transfer system, the participants' accounts with the respective number of warrants represented by the global warrant. Ownership of beneficial interests in the global warrant are shown on, and the transfer of ownership interests are effected only through, records maintained by the depository, with respect to interests of participants, and on

the records of participants, with respect to interests of persons held through participants. The laws of some states may require that certain purchasers of securities take physical delivery of these securities in definitive form. These limits and laws may impair the ability to own, transfer or pledge beneficial interests in the global warrants.

The Cash Settlement Amount payable upon exercise of warrants registered in the name of the depository or its nominee will be paid by the Warrant Agent to the participants or, in the case of automatic exercise, to the depository. None of ML&Co., the Warrant Agent or any other agent of ML&Co. or agent of the Warrant Agent has any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests or for supervising or reviewing any records relating to beneficial ownership interests. ML&Co. expects that the Warrant Agent, upon the receipt of any payment of the Cash Settlement Amount in respect of any portion of the global warrant, will pay the relevant participant in an amount proportionate to its beneficial interest in the global warrant being exercised and that the participant will credit the accounts of the beneficial owners of the warrants. ML&Co. expects that the depository, in the case of automatic exercise, upon receipt of any payment of the Cash Settlement Amount in respect of all or any portion of the global warrant, will credit the accounts of the participants with payment in amounts proportionate to their respective beneficial interests in the portion of the global warrant so exercised, as shown on the records of the depository. ML&Co. also expects that payments by participants to owners of beneficial interests in the global warrant will be governed by standing customer instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participants. It is suggested that a purchaser of warrants with accounts at more than one brokerage firm effect transactions in the warrants, including exercises, only through the brokerage firm or firms which hold that purchaser's warrants.

#### Exchange for certificated warrants

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
  - . if ML&Co. executes and delivers to the Warrant Agent a company order to the effect that the global warrants shall be exchangeable, or
- 17
- . if ML&Co. is subject to certain events in bankruptcy, insolvency or reorganization,

the global warrants will be exchangeable for warrants in definitive form of like tenor. These definitive warrants will be registered in the name or names as the depository shall instruct the Warrant Agent. It is expected that the instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global warrants.

DTC may discontinue providing its services as securities depository with respect to the warrants at any time by giving reasonable notice to ML&Co. or the Warrant Agent. Under these circumstances, in the event that a successor securities depository is not obtained, warrant certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC, or a successor securities depository. In that event, warrant certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for the accuracy of this information.

#### Clearstream, Luxembourg and Euroclear

Beneficial owners may hold their interests in warrants through Clearstream, Luxembourg or Euroclear only if they are participants in these systems, or indirectly through organizations which are participants in these systems. Clearstream, Luxembourg and Euroclear will hold omnibus positions on behalf of their participants through the facilities of DTC. All securities in Clearstream, Luxembourg or Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts.

Exercises of warrants by persons holding through Clearstream, Luxembourg or Euroclear participants will be effected through DTC, in accordance with DTC rules, on behalf of the relevant European international clearing system by its depository; however, these transactions will require delivery of exercise instructions to the relevant European international clearing system by the participant in that system in accordance with its rules and procedures and

within its established deadlines under European time. The relevant European international clearing system will, if the exercise meets its requirements, deliver instructions to its depository to take action to effect its exercise of the warrants on its behalf by delivering warrants through DTC and receiving payment in accordance with its normal procedures for next-day funds settlement. Payments with respect to the warrants held through Clearstream, Luxembourg or Euroclear will be credited to the cash accounts of Clearstream, Luxembourg participants or Euroclear participants in accordance with the relevant system's rules and procedures, to the extent received by its depository. See "Exercise and settlement of warrants" in this prospectus.

Clearstream, Luxembourg advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations ("Clearstream, Luxembourg Participants") and facilitates the clearance and settlement of securities transactions between Clearstream, Luxembourg Participants through electronic book-entry changes in accounts of Clearstream, Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream, Luxembourg Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Monetary Institute. Clearstream, Luxembourg Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg Participant either directly or indirectly.

18

Distributions with respect to the warrants held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream, Luxembourg Participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream, Luxembourg.

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear ("Euroclear Participants") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by the Brussels, Belgium office of Morgan Guaranty Trust Company of New York (the "Euroclear Operator"), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the "Cooperative"). The Euroclear Operator conducts all operations, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is the Belgian branch of a New York banking corporation that is a member bank of the Federal Reserve System. It is regulated and examined by the Board of Governors of the Federal Reserve System and the New York State Banking Department, as well as the Belgian Banking Commission.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "Terms and Conditions"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of or relationship with persons holding through Euroclear Participants.

All information in this prospectus on Clearstream, Luxembourg and Euroclear is derived from Clearstream, Luxembourg or Euroclear, as the case may be, and reflects the policies of these organizations; and these policies are subject to change without notice.

#### Exercise and settlement of warrants

You may exercise warrants on any New York Business Day during the period from the date of initial delivery of the warrants until 1:00 p.m., New York City

time, on the earlier of:

- (a) the second scheduled Index Calculation Day immediately preceding the Expiration Date, and
- (b) the Delisting Date.

Your right to exercise warrants is subject to postponement upon the occurrence of an Extraordinary Event or Market Disruption Event as described under "Extraordinary Events and Market Disruption Events" in this prospectus. If you do not exercise your warrants during the period specified above (including by reason of any postponed exercise), your warrants will be automatically exercised as described under "Automatic Exercise" in this prospectus, subject to earlier cancellation as described below under "Extraordinary Events and Market Disruption Events" in this prospectus. You exercise warrants by:

- . transferring the warrants free to the Warrant Agent on the records of DTC, and

19

- . causing a duly completed and executed exercise notice to be delivered by a DTC participant on behalf of you to the Warrant Agent.

A form of exercise notice is included as Appendix A to this prospectus, and may be obtained from the Warrant Agent at the Warrant Agent's Office. The Warrant Agent's telephone number and facsimile transmission number for this purpose are (212) 657-9055 and (212) 825-3483, respectively.

In the case of warrants held through the facilities of Clearstream, Luxembourg or Euroclear, a beneficial owner may exercise the warrants on any New York Business Day during the period from the date of initial delivery of the warrants until 1:00 p.m., New York City time, on the earlier of:

- . the second scheduled Index Calculation Day immediately preceding the Expiration Date and
- . the Delisting Date by causing

(a) these warrants to be transferred to the Warrant Agent, by giving appropriate instructions to the participant holding these warrants in either the Clearstream, Luxembourg or Euroclear system, as the case may be, and

(b) a duly completed and executed Exercise Notice to be delivered on behalf of the beneficial owner by Clearstream, Luxembourg, in the case of warrants held through Clearstream, Luxembourg, or the participant, in the case of warrants held through Euroclear, to the Warrant Agent.

Forms of exercise notice for warrants held through the facilities of either Clearstream, Luxembourg or Euroclear may be obtained from the Warrant Agent at the Warrant Agent's Office or from Clearstream, Luxembourg or Euroclear.

The "Exercise Date" for a warrant will be:

- . the New York Business Day on which the Warrant Agent receives the warrant and exercise notice in proper form with respect to that warrant, if received at or prior to 1:00 p.m., New York City time, on that day, or
- . if the Warrant Agent receives that warrant and exercise notice after 1:00 p.m., New York City time, on a New York Business Day, then the first New York Business Day following that New York Business Day.

In the case of warrants held through the facilities of Clearstream, Luxembourg or Euroclear, except for warrants subject to automatic exercise, the "Exercise Date" for a warrant will be:

- . the New York Business Day on which the Warrant Agent receives the exercise notice in proper form with respect to the Warrant if the exercise notice is received at or prior to 1:00 p.m., New York City time, on that day, provided that the warrant is received by the Warrant Agent by 1:00 p.m., New York City time, on the Valuation Day, or
- . if the Warrant Agent receives the exercise notice after 1:00 p.m., New York City time, on a New York Business Day, then the first New York Business Day following that New York Business day, provided that the warrant is received by 1:00 p.m., New York City time, on the Valuation Day relating to exercises of warrants on the succeeding New York Business Day.

20

In the event that the warrant is received after 1:00 p.m., New York City time, on the Valuation Day, then the Exercise Date for the warrants will be the first New York Business Day following the day on which the warrants are received.

If a beneficial owner of warrants held through the facilities of Clearstream, Luxembourg or Euroclear has exercised warrants by delivering an exercise notice in proper form with respect to the warrants and the Valuation Day is expected not to be a New York Business Day, the beneficial owner should make arrangements so that the warrants are delivered prior to the Valuation Day in order to ensure that the Exercise Date for the warrants is not postponed as described above. In the case of warrants held through the facilities of Clearstream, Luxembourg or Euroclear, in order to ensure proper exercise on a given New York Business Day, participants in Clearstream, Luxembourg or Euroclear must submit exercise instructions to Clearstream, Luxembourg or Euroclear, as the case may be, by 10:00 a.m., Luxembourg time, in the case of Clearstream, Luxembourg and by 10:00 a.m., Brussels time (by telex), or 11:00 a.m., Brussels time (by EUCLID), in the case of Euroclear.

In addition, in the case of book-entry exercises by means of the Euroclear System:

- . participants must also transmit, by facsimile (facsimile number (212) 825-3483), to the Warrant Agent a copy of the exercise notice submitted to Euroclear by 1:00 p.m., New York City time, on the desired Exercise Date and
- . Euroclear must confirm by telex to the Warrant Agent by 9:00 a.m., New York City time, on the Valuation Day, that the warrants will be received by the Warrant Agent on that date; provided, that if the telex communication is received after 9:00 a.m., New York City time, on the Valuation Day, ML&Co. will be entitled to direct the Warrant Agent to reject the related exercise notice or waive the requirement for timely delivery of the telex communication.

To ensure that an exercise notice and the related warrants will be delivered to the Warrant Agent before 1:00 p.m., New York City time, on a given New York Business Day, you may need to give exercise instructions to your broker or other intermediary substantially earlier than 1:00 p.m., New York City time, on that day or even on the prior New York Business Day. Different brokerage firms may have different cut-off times for accepting and implementing exercise instructions from their customers. Therefore, you should consult with your broker and other intermediaries, if applicable, as to applicable cut-off times and other exercise mechanics.

Except in the case of warrants subject to automatic exercise and for warrants that upon exercise will entitle you to receive an Alternative Settlement Amount in lieu of the Cash Settlement Amount, if on any Valuation Day the Cash Settlement Amount for any warrants would be zero, then the attempted exercise of those warrants will be void and of no effect. These warrants will be transferred back to the participant that submitted them free on the records of DTC and, in that case, the beneficial owner will be permitted to re-exercise the warrants as described in this prospectus.

The "Valuation Day" for a warrant will be the applicable Exercise Date, if the Exercise Date is an Index Calculation Day, or the immediately succeeding Index Calculation Day, if the Exercise Date is not an Index Calculation Day, subject to postponement upon the occurrence of an Extraordinary Event or a Market Disruption Event as described below under "Extraordinary Events and Market Disruption Events" or as a result of the exercise of a number of warrants exceeding the limits on exercise described below under "Maximum Exercise Amount".

"Index Calculation Day" means any day on which the NYSE and the AMEX are open for trading and the index or a successor index, if any, is calculated and published. The following is an illustration of the timing of an Exercise Date and the Valuation Day, assuming:

21

- . that all relevant dates are New York Business Days and Index Calculation Days,
- . the absence of any intervening Extraordinary Event or Market Disruption Event and
- . the number of exercised warrants does not exceed the maximum permissible amount.

If the Warrant Agent receives a beneficial owner's warrants and exercise notice in proper form at or prior to 1:00 p.m., New York City time, on July 21, 1999, the Exercise Date for these warrants will be July 21, 1999, and the Valuation Day for these warrants will be July 21, 1999. However, in the case of

warrants held through the facilities of Clearstream, Luxembourg or Euroclear, the warrants must be received by 1:00 p.m., New York City time, on the Valuation Day; if the warrants are received after that time, then the Exercise Date for the warrants will be the day on which the warrants are received or, if that day is not a New York Business Day, the next succeeding New York Business Day, and the Valuation Day for the warrants will be the Exercise Date, if it is an Index Calculation Day, or the first Index Calculation Day following that Exercise Date, if that Exercise Date is not an Index Calculation Day.

#### Calculation of Cash Settlement Amount

Following receipt of warrants and the related exercise notice in proper form, the Warrant Agent will, not later than 10:00 a.m., New York City time, on the New York Business Day following the applicable Valuation Day:

- . obtain the Index Spot Value from the Calculation Agent,
- . determine the Cash Settlement Amount of the warrants and
- . advise ML&Co. of the aggregate Cash Settlement Amount of the exercised warrants.

ML&Co. will be required to make available to the Warrant Agent, no later than 3:00 p.m., New York City time, on the fourth New York Business Day following the Valuation Day, funds in an amount sufficient to pay the aggregate Cash Settlement Amount. If ML&Co. has made funds available by that time, the Warrant Agent will thereafter be responsible for making funds available to each of the appropriate participants, who will be responsible for disbursing that payments to each of their respective participants, who, in turn, will be responsible for disbursing payments to the beneficial owner it represents, and the participant will be responsible for disbursing the payments to the beneficial owner it represents and to each brokerage firm for which it acts as agent. Each brokerage firm will be responsible for disbursing funds to the beneficial owners it represents.

#### Automatic Exercise

All warrants for which the Warrant Agent has not received a valid Exercise Notice at or prior to 1:00 p.m., New York City time, or for which the Warrant Agent has received a valid Exercise Notice but with respect to which timely delivery of the relevant warrant has not been made, together with any warrants the Valuation Day for which has at that time been postponed as described under "Extraordinary Events and Market Disruption Events" below, on

- (a) the second scheduled Index Calculation Day immediately preceding the Expiration Date, or
- (b) the close of business on the New York Business Day on which the warrants are delisted from, or permanently suspended from trading on, the AMEX and the warrants are not simultaneously accepted for trading pursuant to the rules of another regulated trading organization (the "Delisting Date")

22

will be deemed automatically exercised on that Expiration Date or Delisting Date, as the case may be (the Expiration Date will be deemed the Exercise Date), and the Cash Settlement Amount, if any, determined as provided under "Exercise and settlement of warrants", of the automatically exercised warrants will be paid and settlement shall otherwise occur as described under "Book-Entry procedures and settlement" and "Calculation of Cash Settlement Amount". ML&Co. will notify holders as soon as practicable of the delisting or trading suspension. ML&Co. will agree in the Warrant Agreement that it will not seek delisting of the warrants or suspension of their trading on the AMEX.

In the event the warrants are canceled by ML&Co. because of the continuance of an Extraordinary Event as described under "Extraordinary Events and Market Disruption Events" below, warrants not previously exercised shall be automatically exercised on the basis that the Valuation Day for the warrants shall be the Cancellation Date, and the Alternative Settlement Amount of any automatically exercised warrants will be paid on the fourth New York Business Day following that Valuation Day. Settlement shall otherwise occur as described under "Book-Entry procedures and settlement" and "Exercise and settlement of warrants".

#### Minimum Exercise Amount

You must exercise at least 100 warrants at any one time, except in the case of automatic exercise or exercise upon cancellation of the warrants as described under "Extraordinary Events and Market Disruption Events" below. Accordingly, except in the case of automatic exercise of the warrants or upon cancellation of the warrants, if you own fewer than 100 warrants, you will need either to sell your warrants or purchase additional warrants, in order to realize proceeds from your investment. Warrants held through one participant, may not be combined with warrants held through another participant in order to satisfy the minimum

exercise requirement.

#### Maximum Exercise Amount

All exercises of warrants, other than on automatic exercise, are subject, at ML&Co.'s option, to the following limitations:

- (a) not more than 20% of the warrants originally issued may be exercised on any Exercise Date and
- (b) not more than 10% of the warrants originally issued may be exercised by or on behalf of any beneficial owner, either individually or in concert with any other beneficial owner, on any Exercise Date.

If any New York Business Day would otherwise, under the terms of the Warrant Agreement, be the Exercise Date in respect to more than 20% of the warrants originally issued, then at ML&Co.'s election, 20% of the warrants originally issued shall be deemed exercised on the Exercise Date, selected by the Warrant Agent on a pro rata basis, subject to the following conditions: (a) if, as a result of the pro rata selection, any beneficial owner of warrants would be deemed to have exercised fewer than 100 warrants, then the Warrant Agent shall first select an additional amount of the beneficial owner's warrants so that no beneficial owner shall be deemed to have exercised fewer than 100 warrants, and the remainder of the warrants, whether or not fewer than 100 warrants, the Remaining Warrants, shall be deemed exercised on the following New York Business Day, subject to successive applications of this provision; and (b) any Remaining Warrants for which an Exercise Notice was delivered on a given Exercise Date shall be deemed exercised before any other warrants for which an Exercise Notice was delivered on a later Exercise Date. If any beneficial owner attempts to exercise more than 10% of the warrants originally issued on any New York Business Day, then, at ML&Co.'s election, 10% of the warrants shall be deemed exercised on that New York Business Day and the remainder shall be deemed exercised on the following New York Business Day, subject to successive applications of this provision. As a result of any postponed exercise as described above, the beneficial owners will receive a Cash Settlement Amount determined as of a date later than the otherwise applicable Valuation Day. In that case, as a result of any postponement, the Cash Settlement Amount actually received by those

23

beneficial owners may be lower than the otherwise applicable Cash Settlement Amount if the Valuation Day of the warrants had not been postponed.

#### Successor Index

If FRC discontinues publication of the index and FRC or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the index (a "successor index"), then, upon the calculation agent's notification of its determination to the Warrant Agent and ML&Co., the calculation agent will substitute the successor index as calculated by FRC or another entity for the index and calculate the Cash Settlement Amount upon an exercise as described above. Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners by publication in a United States newspaper with a national circulation.

If at any time FRC changes its method of calculating the Russell 2000 Index, or the value of the Russell 2000 Index changes, in any material respect, or if the Russell 2000 Index is in any other way modified so that the Russell 2000 Index does not, in the opinion of the calculation agent, fairly represent the value of the Russell 2000 Index had any changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the Ending Value is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Russell 2000 Index as if no changes or modifications had been made, and calculate the Ending Value with reference to the Russell 2000 Index, as so adjusted. Accordingly, if the method of calculating the Russell 2000 Index is modified so that the value of the Russell 2000 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Russell 2000 Index in order to arrive at a value of the Russell 2000 Index as if it had not been modified, e.g., as if a split had not occurred.

In the event that the FRC discontinues publication of the Russell 2000 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Russell 2000 Index in accordance with the procedures last used to calculate the Russell 2000 Index

before any discontinuance.

If a successor index is selected or the calculation agent calculates a value as a substitute for the index, the successor index or value shall be substituted for the index for all purposes, including for purposes of determining whether a Market Disruption Event or Extraordinary Event exists. If the calculation agent calculates a value as a substitute for the index, "Index Calculation Day" shall mean any day on which the calculation agent is able to calculate that value.

#### Extraordinary Events and Market Disruption Events

Extraordinary Events. If the calculation agent determines that an Extraordinary Event has occurred and is continuing on the scheduled Index Calculation Day with respect to which the Index Spot Value on a Valuation Day is to be determined (the "Applicable Scheduled Index Calculation Day"), then the Cash Settlement Amount in respect of an exercise shall be calculated on the basis that the Valuation Day shall be the next Index Calculation Day following an Applicable Scheduled Index Calculation Day on which there is no Extraordinary Event or Market Disruption Event; provided that if a Valuation Day has not occurred on or prior to the Expiration Date or the Delisting Date, the holders will receive the Alternative Settlement Amount in lieu of the Cash Settlement Amount which shall be calculated as if the warrants had been cancelled on the Expiration Date or the Delisting Date, as the case may be. ML&Co. shall promptly give notice to the beneficial owners by publication in a United States newspaper with a national circulation, currently expected to be The Wall Street Journal, if an Extraordinary Event shall have occurred.

24

"Extraordinary Event" means any of the following events, as determined by the calculation agent:

(i) a suspension or absence of trading on the NYSE, AMEX or the over-the-counter market of all the underlying stocks which then comprise the index or a successor index;

(ii) the enactment, publication, decree or other promulgation of any statute, regulation, rule or order of any court or any other U.S. or non-U.S. governmental authority that would make it unlawful for ML&Co. to perform any of its obligations under the Warrant Agreement or the warrants; or

(iii) any outbreak or escalation of hostilities or other national or international calamity or crises, including, without limitation, natural calamities that in the reasonable opinion of the calculation agent may materially and adversely affect the economy of the United States or the trading of securities generally on the NYSE, AMEX or the over-the-counter market, that has or will have a material adverse effect on the ability of ML&Co. to perform its obligations under the warrants or to modify the hedge of its position with respect to the index or the common stocks which then comprise the index or a successor index.

For the purposes of determining whether an Extraordinary Event has occurred: (a) a limitation on the hours or number of days of trading on an exchange will not constitute an Extraordinary Event if it results from an announced change in the regular business hours of the exchange and (b) an "absence of trading" on an exchange will not include any time when the exchange itself is closed for trading under ordinary circumstances. If the calculation agent determines that an Extraordinary Event has occurred and is continuing, and if the Extraordinary Event is expected by the calculation agent to continue, ML&Co. may immediately cancel all outstanding warrants by notifying the Warrant Agent of the cancellation, the date notice is given being the "Cancellation Date", and each beneficial owner's rights under the warrants and the Warrant Agreement shall thereupon cease. Upon any cancellation, each warrant shall be automatically exercised on the basis that the Valuation Day for the warrant shall be the Cancellation Date, if the Cancellation Date is an Index Calculation Day, or the immediately succeeding scheduled Index Calculation Day, if the Cancellation Date is not an Index Calculation Day, and the beneficial owner of each warrant will receive, in lieu of the Cash Settlement Amount of the warrant, an amount (the "Alternative Settlement Amount"), determined by the calculation agent, which is the greater of:

- . the average of the last sale prices, as available, of the warrants on the AMEX, or any successor securities exchange on which the warrants are listed, on the 30 trading days preceding the date on which the Extraordinary Event was declared; provided that, if the warrants were not traded on the AMEX, or any successor securities exchange, on at least 20 of these trading days, no effect will be given to this clause for the purpose of determining the Alternative Settlement Amount, and
- . the amount "X" calculated using the formula set forth below:

$$X = I + \left( \frac{\text{-----} X \text{-----}}{2 \quad B} \right)$$

where

I = The Cash Settlement Amount of the warrants determined as described under "Cash Settlement Amount" above, but subject to the following modifications:

25

- (1) if the Cancellation Date for the warrants is a date on which the index or a successor index is calculated and published, for the purpose of determining the Cash Settlement Amount, the Index Spot Value will be determined as of the Cancellation Date except that, if the Index Spot Value as of that day is less than 90% of the Index Spot Value as of the immediately preceding Index Calculation Day, then the Index Spot Value will be deemed to be 90% of the Index Spot Value on the preceding Index Calculation Day; or
- (2) if the Cancellation Date for the warrants is a date on which the index or a successor index is not calculated or published, for the purpose of determining the Cash Settlement Amount, the Index Spot Value will be deemed to be the lesser of (i) the Index Spot Value as of the first Index Calculation Day immediately preceding the Cancellation Date except that, if the Index Spot Value as of that day is less than 90% of the Index Spot Value as of the second Index Calculation Day immediately preceding that Cancellation Date, 90% of the Index Spot Value as of that second Index Calculation Day and (ii) the arithmetic average of four amounts, being (a) the Index Spot Value at each of the three successive Index Calculation Days immediately preceding the Cancellation Date and (b) the Index Spot Value at the next Index Calculation Day, provided that if an Extraordinary Event continues for 30 consecutive days immediately following the Cancellation Date, then the calculation agent shall calculate an amount which, in its reasonable opinion, fairly reflects the value of the underlying stocks on the scheduled Index Calculation Day immediately following that Cancellation Date which, subject to approval by ML&Co., ML&Co.'s approval not to be unreasonably withheld, shall for purposes of calculating the amount under this clause (2) (ii) be treated as the figure arrived at under clause (2) (ii) (b) above;

T = U.S.\$5.00, the initial offering price per warrant;

A = the total number of days from but excluding the Cancellation Date for the warrants to and including the Expiration Date; and

B = the total number of days from but excluding the date the warrants were initially sold to and including the Expiration Date.

For the purposes of determining "I" in the above formula, in the event that the calculation agent and ML&Co. are required to have, but have not, after good faith consultation with each other and within five days following the first day upon which the Alternative Settlement Amount may be calculated in accordance with the above formula, agreed upon a figure under clause (2) (ii) (b) which fairly reflects the value of the Underlying Stocks on the Cancellation Date, then the calculation agent shall promptly nominate a third party, subject to approval by ML&Co., this approval not to be unreasonably withheld, to determine the figure and calculate the Alternative Settlement Amount in accordance with the above formula. This party shall act as an independent expert and not as an agent of ML&Co. or the calculation agent, and its calculation and determination of the Alternative Settlement Amount shall, absent manifest error, be final and binding on ML&Co., the Warrant Agent, the calculation agent and the holders. The Warrant Agent will have no duty of independent investigation with respect to the calculation and determination of the Alternative Settlement Amount. Any calculations will be made available to holders for inspection at the Warrant Agent's Office. Neither ML&Co. nor the third party shall have any responsibility for good faith errors or omissions in calculating the Alternative Settlement Amount. Under certain circumstances, the duties of MLPF&S as calculation agent in determining the existence of Extraordinary Events could conflict with the interests of MLPF&S as an affiliate of the issuer of the warrants, ML&Co.

Market Disruption Events. If the calculation agent determines that on a Valuation Day a Market Disruption Event has occurred and is continuing, the Valuation Day shall be postponed to the first succeeding Index Calculation Day on which no Market Disruption Event occurs; provided that, if the Valuation Day has not occurred on or prior to the fifth scheduled Index Calculation Day following an Exercise Date because of Market Disruption Events, the calculation agent shall, on that fifth scheduled Index Calculation Day, calculate

26

an amount which, in its reasonable opinion, fairly reflects the value of the

underlying stocks on that day in order to determine the Cash Settlement Amount. "Market Disruption Event" means with respect to any Valuation Day the occurrence or existence during the one-half hour period that ends at the determination of the closing index value for that scheduled Index Calculation Day of:

- (1) a suspension, material limitation or absence of trading on the NYSE, AMEX or the over-the-counter market of 20% or more of the underlying stocks which then comprise the index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange; or
- (2) the suspension or material limitation on the Chicago Board Options Exchange (the "CBOE"), Chicago Mercantile Exchange (the "CME") or any other major futures or securities market of trading in futures or options contracts related to the index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- (1) a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange,
- (2) a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a Market Disruption Event,
- (3) a suspension in trading in a futures or options contract on the index by a major securities market by reason of (a) a price change violating limits set by the securities market, (b) an imbalance of orders relating to these contracts or (c) a disparity in bid and ask quotes relating to these contracts will constitute a suspension or material limitation of trading in futures or options contracts related to the index,
- (4) an absence of trading on an exchange will not include any time when the exchange is closed for trading under ordinary circumstances, and
- (5) the occurrence of an Extraordinary Event described in Clause (i) of Extraordinary Event will not constitute, and will supersede the occurrence of, a Market Disruption Event.

Under certain circumstances, the duties of MLPF&S as calculation agent in determining the existence of Market Disruption Events could conflict with the interests of MLPF&S as an affiliate of the issuer of the warrants, ML&Co.

#### Modification

The Warrant Agreement and the terms of the warrants may be amended by ML&Co. and the Warrant Agent without the consent of the beneficial owners of any warrants for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective or inconsistent provision contained in the Warrant Agreement or the terms of the warrants, or in any other manner which ML&Co. may deem necessary or desirable and which will not materially and adversely affect the interests of the beneficial owners of the warrants.

ML&Co. and the Warrant Agent also may modify or amend the Warrant Agreement and the terms of the warrants, with the consent of the beneficial owners of not less than a majority in number of the then outstanding warrants affected, provided that no modification or amendment that changes the Index Strike Value so as to adversely affect the beneficial owner, shortens the period of time during which the warrants may be exercised or otherwise materially and adversely affects the exercise rights of the beneficial owners of the

27

warrants or reduces the percentage of the number of outstanding warrants, the consent of whose beneficial owners is required for modification or amendment of the Warrant Agreement or the terms of the warrants may be made without the consent of the beneficial owners of warrants affected by these changes.

28

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation, and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that the corporation, if other than ML&Co., formed by or resulting from any consolidation or merger or which shall have received these assets shall be a corporation organized and existing under the laws of the United States of America or a state thereof and shall assume payment of the Cash Settlement Amount or Alternative Settlement Amount with respect to all unexercised warrants, according to their tenor, and the due and punctual performance and observance of all of the covenants and conditions of the Warrant

Agreement and of the warrants to be performed by ML&Co.

#### THE INDEX

Unless otherwise stated, all information in this prospectus on the index is derived from FRC or other publicly available sources. This information reflects the policies of FRC as stated in these sources and these policies are subject to change by FRC. FRC is under no obligation to continue to publish the index and may discontinue publication of the index at any time.

The index is an index calculated, published and disseminated by FRC, and measures the composite price performance of stocks of 2,000 companies domiciled in the U.S. and its territories. All 2,000 stocks are traded on either the NYSE or the AMEX or in the over-the-counter market and form a part of the Russell 3000(R) Index. The Russell 3000 Index is composed of the 3,000 largest U.S. companies as determined by market capitalization and represents approximately 98% of the investable U.S. equity market.

The index consists of the smallest 2,000 companies included in the Russell 3000. The index is designed to track the performance of the small capitalization segment of the U.S. equity market.

#### Selection of stocks underlying the index

Only common stocks belonging to corporations domiciled in the U.S. and its territories are eligible for inclusion in the Russell 3000 Index and the index. Stocks traded on U.S. exchanges but domiciled in other countries are excluded. Preferred stock, convertible preferred stock, participating preferred stock, paired shares, warrants and rights are also excluded. Trust receipts, Royalty Trusts, limited liability companies, OTC Bulletin Board companies, pink sheets, closed-end mutual funds, and limited partnerships that are traded on U.S. exchanges, are also ineligible for inclusion. Real Estate Investment Trusts and Beneficial Trusts are eligible for inclusion, however. Generally, only one class of securities of a company is allowed in the Russell 3000 Index, although exceptions to this general rule have been made where FRC has determined that each class of securities acts independent of the other.

The primary criteria used to determine the initial list of securities eligible for the Russell 3000 Index is total market capitalization, which is defined as the price of the shares times the total number of shares outstanding. Based on closing values on May 31 of each year, FRC reconstitutes the composition of the Russell 3000 Index using the then existing market capitalizations of eligible companies. As of June 30 of each year, the index is adjusted to reflect the reconstitution of the Russell 3000 Index for that year. Real-time dissemination of the index began on January 1, 1987.

As a capitalization-weighted index, the Russell 2000 Index reflects changes in the capitalization, or market value, of the component stocks relative to the capitalization on a base date. The current index value is calculated by adding the market values of the index's component stocks, which are derived by multiplying the price of each stock by the number of shares outstanding, to arrive at the total market capitalization of the 2,000 stocks. The total market capitalization is then divided by a divisor, which represents the "adjusted" capitalization of the index on the base date of December 31, 1986. To calculate the index, last sale prices will be used for exchange-traded and NASDAQ stocks. If a component stock is not open for trading, the most recently traded price for that security will be used in calculating the index. In order to provide continuity for the index's value, the divisor is adjusted periodically to reflect events including changes in the number of

29

common shares outstanding for component stocks, company additions or deletions, corporate restructurings and other capitalization changes.

The value of the index is reported on the AMEX under the Symbol "RTY", on Bloomberg under the symbol "RTY" and on Reuters under the symbol ".RTY".

All disclosure contained in this prospectus regarding the index, or its publisher, is derived from publicly available information. All copyrights and other intellectual property rights relating to the index are owned by FRC. FRC has no relationship with ML&Co. or the warrants; it does not sponsor, endorse, authorize, sell or promote the warrants, and has no obligation or liability in connection with the administration, marketing or trading of the warrants.

The index is a trademark of FRC and has been licensed for use by ML&Co. The warrants are not sponsored, endorsed, sold or promoted by FRC and FRC makes no representation regarding the advisability of investing in the warrants.

The warrants are not sponsored, endorsed, sold or promoted by FRC. FRC makes no representation or warranty, express or implied, to the owners of the warrants or any member of the public regarding the advisability of investing in securities generally or in the warrants particularly or the ability of the index to track general stock market performance or a segment of the same. FRC's publication of the index in no way suggests or implies an opinion by FRC as to

the advisability of investment in any or all of the securities upon which the index is based. FRC's only relationship to ML&Co. is the licensing of certain trademarks, and trade names of FRC and of the index which is determined, composed and calculated by FRC without regard to ML&Co. or the warrants. FRC is not responsible for and has not reviewed the warrants or any associated literature or publications and FRC makes no representation or warranty express or implied as to their accuracy or completeness, or otherwise. FRC reserves the right, at any time and without notice, to alter, amend, terminate or in any way change the index. FRC has no obligation or liability in connection with the administration, marketing or trading of the warrants.

FRC DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN AND FRC SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. FRC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY ML&CO., INVESTORS, OWNERS OF THE WARRANTS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR ANY DATA INCLUDED THEREIN. FRC MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL FRC HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the STRYPES and other securities. For further information on ML&Co. and the STRYPES, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and

any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the warrants and is to be used by MLPF&S when making offers and sales related to market-making transactions in the warrants.

MLPF&S may act as principal or agent in these market-making transactions.

The warrants may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the warrants will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may not sell these securities until the registration statement filed with +  
+ the Securities and Exchange Commission is effective. This prospectus is +  
+ not an offer to sell these securities and it is not soliciting an offer to +

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Market Index Target-Term Securities based upon the Dow Jones Industrial Average(SM) due June 26, 2006. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the Dow Jones Industrial Average(SM) (the "Index"), and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on June 26, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the Index as reduced by the Adjustment Factor. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\begin{aligned} & ( \text{ Adjusted Ending Value} - \text{ Starting Value} ) \\ \$10 \times & ( \text{ -----} ) \\ & ( \text{ Starting Value} ) \end{aligned}$$

but will not be less than zero.

"Starting Value" equals 10,721.63, the closing value of the Index on June 22, 1999, the date the MITTS Securities were priced for initial sale to the public.

"Adjusted Ending Value" means the average of the values of the Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the component

stocks included in the Index or certain future or option contracts relating to the Index.

The "Adjustment Factor" equals 2.0% per year and will be prorated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the

Supplemental Redemption Amount during the Calculation Period at the stated maturity of the MITTS Securities will be approximately 13.09% less than the actual closing value of the Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor affects the value of the Index used to calculate the Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations:

Example 1--The Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 10,721.63  
 Hypothetical closing value of the Index at maturity: 11,793.79  
 Hypothetical Adjusted Ending Value: 10,249.62

<TABLE>			
<S>	<C>		<C>
	( 10,249.62 - 10,721.63 )		(Supplemental Redemption
Amount cannot			be less than zero)
Supplemental Redemption Amount (per unit) = \$10 X ( ----- ) = \$0.00	( 10,721.63 )		
</TABLE>			

Total payment at maturity (Per Unit) = \$10 + \$0 = \$10

Example 2--The Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 10,721.63  
 Hypothetical closing value of the Index at maturity: 19,298.93  
 Hypothetical Adjusted Ending Value: 16,772.10

<TABLE>			
<S>	<C>		
	( 16,772.10 - 10,721.63 )		
Supplemental Redemption Amount (per unit) = \$10 X ( ----- ) = \$5.64	( 10,721.63 )		
</TABLE>			

Total payment at maturity (Per Unit) = \$10 + \$5.64 = \$15.64

#### Who publishes the Index and what does the Index measure?

The Dow Jones Industrial Average(SM) is a price-weighted index published by Dow Jones & Company, Inc. ("Dow Jones") which means a component stock's weight in the Index is based on its price per share rather than the total market capitalization of the issuer of that component stock. The Index is designed to provide an indication of the composite price performance of 30 common stocks of corporations representing a broad cross-section of U.S. industry. The component stocks of the Index are selected by the editors of The Wall Street Journal ("WSJ"). The corporations represented in the Index tend to be market leaders in their respective industries and their stocks are typically widely held by individuals and institutional investors. The corporations currently represented in the Index are incorporated in the U.S. and its territories and their stocks are traded on the New York Stock Exchange.

The value of the Index is the sum of the primary exchange prices of each of the 30 common stocks included in the Index, divided by a divisor that is designed to provide a meaningful continuity in the value of the Index. Because the Index is price-weighted, stock splits or changes in the component stocks could result in distortions in the Index value. In order to prevent these distortions related to extrinsic factors, the divisor may be changed in accordance with a mathematical formula that reflects adjusted proportions within the Index. The current divisor of the Index is published daily in the WSJ and other publications. In addition, other statistics based on the Index may be found in a variety of publicly available sources.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in the Index.

#### Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "MDJ".

You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create and maintain a secondary market for holders of the MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value at the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Index

Dow Jones calculates the value of the Index by reference to the prices of the common stocks included in the Index without taking into consideration the value of dividends paid on those stocks. The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in the Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the Index is calculated by reference to the prices of the stocks included in the Index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "MDJ", you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the Index. The following paragraphs describe the expected impact on

6

the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates or dividends per share may increase the value of the Index while falling U.S. dividend rates may decrease the value of the Index.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Rising U.S. interest rates may lower the value of the Index and, thus, the MITTS Securities. Falling U.S. interest rates may increase the value of the Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. Generally, if the volatility of the Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Index. This difference will reflect a "time premium" due to expectations concerning the value of the Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of

the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the

7

value of the Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the Index or future or option contracts in the Index for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Index. See the sections entitled "Description of the MITTS Securities--Adjustments to the Index; Market Disruption Events" and "--Discontinuance of the Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

8

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;

- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

9

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	-----					Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
	----	----	----	----	----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

10

#### DESCRIPTION OF THE MITTS SECURITIES

On June 26, 1999, ML&Co. issued an aggregate principal amount of \$52,000,000 or 5,200,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on June 26, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See the section "--Payment at maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to

receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, you will be entitled to receive only the principal amount of your MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

$$\begin{array}{l} \text{principal amount of each MITTS Security (\$10 per unit)} \times \left( \frac{\text{Adjusted Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right) \end{array}$$

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 10,721.63, the closing value of the Index on June 22, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days during the Calculation Period, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the Index determined on the last scheduled Index Business Day in the Calculation Period, as reduced by the application of the Adjustment Factor on that day, regardless of the occurrence of a Market Disruption Event on that day.

The "Adjustment Factor" equals 2.0% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this

11

percentage on a prorated basis based on a 365-day year to reduce the value used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 13.09% less than the actual closing value of the Index on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the New York Stock Exchange and the AMEX are open for trading and the Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

#### Hypothetical returns

The following table illustrates, for a range of hypothetical closing values of the Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from June 22, 1999 to June 26, 2006:

- . the percentage change from the Starting Value to the hypothetical closing value,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of the MITTS Securities, and

. the pretax annualized rate of return of an investment in the stocks underlying the Index, which includes an assumed aggregate dividend yield of 1.61% per annum, as more fully described below.

For the purposes of calculating this table, we have applied an Adjustment Factor of 2.0% per annum.

12

18.26%						

</TABLE>

(1) The Adjusted Ending Values specified in this column are approximately 13.09% less than the hypothetical closing values of the Index as a result of the cumulative effect of the application of the Adjustment Factor of 2.0% per annum over the term of the MITTS Securities.

(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(3) This rate of return assumes:

- (a) a constant dividend yield of 1.61% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical closing value;
- (b) no transaction fees or expenses in connection with purchasing and holding stocks included in the Index;
- (c) an investment term from June 22, 1999 to June 26, 2006; and
- (d) a final closing value of the Index equal to the hypothetical closing value.

(4) This is the Starting Value of the Index.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

If at any time Dow Jones changes its method of calculating the Index, or the value of the Index changes, in any material respect, or if the Index is in any other way modified so that the Index does not, in the opinion of the calculation agent, fairly represent the value of the Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Index as if those changes or modifications had not been made, and calculate the closing value with reference to the Index, as adjusted. Accordingly, if the method of calculating the Index is modified so that the value of the Index is a fraction or a multiple of what it would have been if it had not been

13

modified, e.g., due to a split, then the calculation agent shall adjust the Index in order to arrive at a value of the Index as if it had not been modified, e.g., as if the split had not occurred.

"Market Disruption Event" means either of the following events as determined by the calculation agent:

- (A) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the Index; or
- (B) the suspension or material limitation, in each case, for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts or futures contracts related to the Index, or any successor index, which are traded on any major U.S. exchange.

For the purpose of the above definition:

- (1) a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange and
- (2) for the purpose of clause (A) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

Discontinuance of the Index

If Dow Jones discontinues publication of the Index and Dow Jones or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Index (a "successor index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by Dow Jones or another entity for the Index and calculate the closing value as described above under "--Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a national circulation.

In the event that Dow Jones discontinues publication of the Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Index in accordance with the procedures last used to calculate the Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Index as described below, the successor index or value shall be substituted for the Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If Dow Jones discontinues publication of the Index before the Calculation Period and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

14

- . the determination of the Adjusted Ending Value and

- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in the WSJ or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 6.90% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depositary

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depositary"), as depositary, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depositary to a nominee of the depositary or by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any nominee to a successor of the depositary or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical

delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory

requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

16

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

17

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE INDEX

Unless otherwise stated, all information herein on the Index is derived from Dow Jones or other publicly available sources. This information reflects the policies of Dow Jones as stated in the publicly available sources and the policies are subject to change by Dow Jones. Dow Jones is under no obligation to continue to publish the Index and may discontinue publication of the Index at any time.

The Index is a price-weighted index, i.e., the weight of a component stock in the Index is based on its price per share rather than the total market capitalization of the issuer of the component stock, comprised of 30 common stocks chosen by the editors of the WSJ as representative of the broad market of U.S. industry. The corporations represented in the Index tend to be leaders within their respective industries and their stocks are typically widely held by individuals and institutional investors. Changes in the composition of the Index are made entirely by the editors of the WSJ without consultation with the corporations represented in the Index, any stock exchange, any official agency or ML&Co. Changes to the common stocks included in the Index tend to be made infrequently. Historically, most substitutions have been the result of mergers, but from time to time, changes may be made to achieve what the editors of the WSJ deem to be a more accurate representation of the broad market of U.S. industry. In choosing a new corporation for the Index, the editors of the WSJ look for leading industrial companies with a successful history of growth and wide interest among investors. The component stocks of the Index may be changed at any time for any reason. Dow Jones, publisher of the WSJ, is not affiliated with ML&Co. and has not participated in any way in the creation of the MITTS Securities.

The Index initially consisted of 12 common stocks and was first published in the WSJ in 1896. The Index was increased to include 20 common stocks in 1916 and to 30 common stocks in 1928. The number of common stocks in the Index has remained at 30 since 1928, and, in an effort to maintain continuity, the constituent corporations represented in the Index have been changed on a relatively infrequent basis.

The value of the Index is the sum of the primary exchange prices of each of the 30 common stocks included in the Index, divided by a divisor that is designed to provide a meaningful continuity in the value of the Index. Because the Index is price-weighted, stock splits or changes in the component stocks could result in distortions in the Index value. In order to prevent these distortions related to extrinsic factors, the divisor is changed in accordance

with a mathematical formula that reflects adjusted proportions within the Index. The current divisor of the Index AND THE VALUE OF THE Index are published daily in the WSJ and other publications. In addition, other statistics based on the Index may be found in a variety of publicly available sources. The value of the Index is also reported on Bloomberg under the symbol "indu".

ML&Co. or its affiliates may presently or from time to time engage in business with one or more of the issuers of the component stocks of the Index, including extending loans to, or making equity investments in, the issuers or providing advisory services to the issuers, including merger and acquisition advisory services. In the course of its business, ML&Co. or its affiliates may acquire non-public information with respect to the issuers. ML&Co. does not make any representation to any purchaser of the MITTS Securities with respect to any matters whatsoever relating to the issuers. Any prospective purchaser of the MITTS Securities should undertake an independent investigation of the issuers of the component stocks of the Index as in its judgment is appropriate to make an informed decision about an investment in the MITTS Securities. The composition of the Index does not reflect any investment or sell recommendations of ML&Co. or its affiliates.

18

#### License Agreement

"Dow Jones", "Dow Jones Industrial Average(SM)", and "DJIA(SM)" are service marks of Dow Jones & Company, Inc. Dow Jones has no relationship to MLPF&S or ML&Co., other than the licensing of the Dow Jones Industrial Average(SM) and its service marks for use in connection with the MITTS Securities.

Dow Jones does not:

- . Sponsor, endorse, sell or promote the MITTS Securities.
- . Recommend that any person invest in the MITTS Securities or any other securities.
- . Have any responsibility or liability for or make any decisions about the timing, amount or pricing of MITTS Securities.
- . Have any responsibility or liability for the administration, management or marketing of the MITTS Securities.
- . Consider the needs of the MITTS Securities or the owners of the MITTS Securities in determining, composing or calculating the Dow Jones Industrial Average(SM) or have any obligation to do so.

Dow Jones will not have any liability in connection with the MITTS Securities. Specifically,

- . Dow Jones does not make any warranty, express or implied, and Dow Jones disclaims any warranty about:
  - . The results to be obtained by the MITTS Securities, the owner of the MITTS Securities or any other person in connection with the use of the Dow Jones Industrial Average(SM) and the data included in the Dow Jones Industrial Average(SM);
  - . The accuracy or completeness of the Dow Jones Industrial Average(SM) and its data;
  - . The merchantability and the fitness for a particular purpose or use of the Dow Jones Industrial Average(SM) and its data;
- . Dow Jones will have no liability for any errors, omissions or interruptions in the Dow Jones Industrial Average(SM) or its data;
- . Under no circumstances will Dow Jones be liable for any lost profits or indirect, punitive, special or consequential damages or losses, even if Dow Jones knows that they might occur.

The licensing agreement between MLPF&S and Dow Jones is solely for their benefit and not for the benefit of the owners of the MITTS Securities or any other third parties.

19

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983

Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

20

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the

Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness

21

without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of

the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.0823 per unit. This represents an estimated yield on the MITTS Securities equal to 6.90% per annum, compounded semiannually.

The projected payment schedule, including both projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.90% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on MITTS Securities as of end of accrual period (per unit) -----
<S>	<C>	<C>
June 25, 1999 through December 26, 1999.....	\$0.3479	\$0.3479
December 27, 1999 through June 26, 2000.....	\$0.3570	\$0.7049
June 27, 2000 through December 26, 2000.....	\$0.3693	\$1.0742
December 27, 2000 through June 26, 2001.....	\$0.3821	\$1.4563
June 27, 2001 through December 26, 2001.....	\$0.3952	\$1.8515
December 27, 2001 through June 26, 2002.....	\$0.4089	\$2.2604
June 27, 2002 through December 26, 2002.....	\$0.4230	\$2.6834
December 27, 2002 through June 26, 2003.....	\$0.4375	\$3.1209
June 27, 2003 through December 26, 2003.....	\$0.4527	\$3.5736
December 27, 2003 through June 26, 2004.....	\$0.4683	\$4.0419
June 27, 2004 through December 26, 2004.....	\$0.4845	\$4.5264
December 27, 2004 through June 26, 2005.....	\$0.5011	\$5.0275
June 27, 2005 through December 26, 2005.....	\$0.5185	\$5.5460
December 27, 2005 through June 26, 2006.....	\$0.5363	\$6.0823

</TABLE>

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;

- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may not sell these securities until the registration statement filed with +  
+ the Securities and Exchange Commission is effective. This prospectus is not +  
+ an offer to sell these securities and it is not soliciting an offer to buy +  
+ these securities in any state where the offer and sale is not permitted. +

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Russell 2000 Market Index Target-Term Securities due July 21, 2006. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the Russell 2000 Index, and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on July 21, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the Russell 2000 Index as reduced by the Adjustment Factor. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\$10 \times \frac{(\text{Adjusted Ending Value} - \text{Starting Value})}{(\text{Starting Value})}$$

but will not be less than zero.

"Starting Value" equals 465.80, which was the closing value of the Russell 2000 Index on July 15, 1999, the date the MITTS Securities were priced for initial sale to the public.

"Adjusted Ending Value" means the average of the values of the Russell 2000 Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the component stocks included in the Russell 2000 Index or certain futures or options contracts relating to the Russell 2000 Index.

The "Adjustment Factor" equals 2.35% per year and will be prorated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the Russell 2000 Index used to

calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 15.18% less than the actual closing value of the Russell 2000 Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the Russell 2000 Index used to calculate the Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 2.35% per year:

Example 1--The Russell 2000 Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 465.80  
Hypothetical closing value of the Russell 2000 Index at maturity: 512.38  
Hypothetical Adjusted Ending Value: 434.60

<TABLE>			
<S>	<C>		<C>
		(434.60 - 465.80)	(Supplemental
Supplemental Redemption Amount (per unit) = \$10.00 x	(-----)	) = \$0.00	Redemption
	( 465.80 )		Amount cannot
			be less than
			zero)

</TABLE>

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The Russell 2000 Index, as adjusted, is above the Starting Value at maturity:

Starting Value: 465.80  
Hypothetical closing value of the Russell 2000 Index at maturity: 838.44  
Hypothetical Adjusted Ending Value: 711.17

<TABLE>			
<S>	<C>		
		(711.17 - 465.80)	
Supplemental Redemption Amount (per unit) = \$10 x	(-----)	) = \$5.27	
	( 465.80 )		

</TABLE>

Total payment at maturity (per unit) = \$10 + \$5.27 = \$15.27

Who publishes the Russell 2000 Index and what does the Russell 2000 Index measure?

The Russell 2000 Index is published by Frank Russell Company ("FRC") and is designed to track the performance of 2,000 common stocks of corporations with small capitalizations relative to other stocks in the U.S. equity market. Market capitalization is the value of a corporation's stock in the public market determined by multiplying the number of outstanding shares by the current price of a share. The corporations in the Russell 2000 Index are domiciled in the U.S. and its territories and their stocks are traded on the New York Stock Exchange, on the AMEX, or in the over-the-counter market.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in the Russell 2000 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "RSM". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities.

MLPF&S will also be our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Russell 2000 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Russell 2000 Index

FRC calculates the value of the Russell 2000 Index by reference to the prices of the common stocks included in the Russell 2000 Index without taking into consideration the value of the dividends paid on those stocks. The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in the Russell 2000 Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the Russell 2000 Index is calculated by reference to the prices of the stocks included in the Russell 2000 Index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX, you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, of the value of the Russell 2000 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold

your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the Russell 2000 Index. The following paragraphs describe the

6

expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Russell 2000 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the Russell 2000 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the Russell 2000 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Russell 2000 Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the Russell 2000 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates or dividends per share may increase the value of the Russell 2000 Index while falling U.S. dividend rates may decrease the value of the Russell 2000 Index.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. Rising U.S. interest rates may lower the value of the Russell 2000 Index and, thus, the MITTS Securities. Falling U.S. interest rates may increase the value of the Russell 2000 Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the Russell 2000 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the Russell 2000 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Russell 2000 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Russell 2000 Index. This difference would reflect a "time premium" due to expectations concerning the value of the Russell 2000 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Russell 2000 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Russell 2000 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the Russell 2000 Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Russell 2000 Index at maturity, an improvement in our credit ratings will not reduce the investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs

7

later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the Russell 2000 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which include debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our other affiliates may from time to time buy or sell the stocks included in the Russell 2000 Index or futures or options in the Russell 2000 Index for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Russell 2000 Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with the calculation agent's determination as to whether the value of the Russell 2000 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Russell 2000 Index. See the sections entitled "Description of the MITTS Securities--Adjustments to the Russell 2000 Index; Market Disruption Events" and "--Discontinuance of the Russell 2000 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with our subsidiary to hedge the market risks associated with our obligation to pay the Supplemental Redemption Amount. Our subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for such an arrangement from unaffiliated parties.

8

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;

- . banking, trust and lending services, including mortgage lending and related services;
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On July 21, 1999, ML&Co. issued an aggregate principal amount of \$35,000,000 or 3,500,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on July 21, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount is not greater than zero, you will be entitled to receive only the principal amount of your MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

$$\begin{array}{l} \text{principal amount of each MITTS Security } (\$10 \text{ per unit}) \times \frac{\text{(Adjusted Ending Value - Starting Value)}}{\text{(Starting Value)}} \end{array}$$

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 465.80, which was the closing value of the Russell 2000 Index on July 15, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Russell 2000 Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days during the Calculation Period, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the Russell 2000 Index on those Calculation Days as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the Russell 2000 Index on that Calculation Day as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the Russell 2000 Index determined on the last scheduled Index Business Day in the Calculation Period as reduced by the application of the Adjustment Factor on that Calculation Day, regardless of the occurrence of a Market Disruption Event on that day.

11

The "Adjustment Factor" equals 2.35% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a prorated basis based on a 365-day year to reduce the value used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 15.18% less than the actual closing value of the Russell 2000 Index on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the New York Stock Exchange and the AMEX are open for trading and the Russell 2000 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of the MITTS Securities.

#### Hypothetical returns

The following table illustrates, for a range of hypothetical closing values of the Russell 2000 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from July 21, 1999 to July 21, 2006:

- . the percentage change from the Starting Value to the hypothetical closing value,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,

- . the pretax annualized rate of return to beneficial owners of the MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the Russell 2000 Index, which includes an assumed aggregate dividend yield of 1.27% per annum, as more fully described below.

For the purposes of calculating this table, we have applied an Adjustment Factor of 2.35% per annum.

</TABLE>

- (1) The Adjusted Ending Values specified in this column are approximately 15.18% less than the hypothetical closing values of the Russell 2000 Index as a result of the cumulative effect of the application of an Adjustment Factor of 2.35% per annum over the term of the MITTS Securities
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes:
  - (a) a constant dividend yield of 1.27% per annum, paid quarterly from the date of initial delivery of MITTS Securities, applied to the value of the Russell 2000 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical closing value;
  - (b) no transaction fees or expenses in connection with purchasing and holding stocks included in the index;
  - (c) an investment term from July 21, 1999 to July 21, 2006; and
  - (d) a final closing value of the Russell 2000 Index equal to the hypothetical closing value.
- (4) This is the Starting Value of the Russell 2000 Index.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Russell 2000 Index; Market Disruption Events

If at any time FRC changes its method of calculating the Russell 2000 Index, or the value of the Russell 2000 Index changes, in any material respect, or if the Russell 2000 Index is in any other way modified so that the Russell 2000 Index does not, in the opinion of the calculation agent, fairly represent the value of the Russell 2000 Index if no changes or modifications had been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value with respect to the Russell 2000 Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index

13

comparable to the Russell 2000 Index as if no changes or modifications had been made, and calculate the closing value with reference to the Russell 2000 Index, as adjusted. Accordingly, if the method of calculating the Russell 2000 Index is modified so that the value of the Russell 2000 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Russell 2000 Index in order to arrive at a value of the Russell 2000 Index as if it had not been modified, e.g., as if the split had not occurred.

"Market Disruption Event" means either of the following events as determined by the calculation agent:

- (a) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the Russell 2000 Index; or
- (b) the suspension or material limitation, in each case, for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts or futures contracts related to the Russell 2000 Index, or any successor index, traded on any major U.S. exchange.

For the purpose of the above definition:

- (1) a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange and
- (2) for the purpose of clause (a) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the Russell 2000 Index

If FRC discontinues publication of the Russell 2000 Index and FRC or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Russell 2000 Index (a "successor index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by FRC or another entity for the Russell 2000 Index and calculate the closing value as described above under "-- Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a national circulation.

In the event that the FRC discontinues publication of the Russell 2000 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Russell 2000 Index in accordance with the procedures last used to calculate the Russell 2000 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Russell 2000 Index as described below, the successor index or value shall be substituted for the Russell 2000

Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

14

If FRC discontinues publication of the Russell 2000 Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these value to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Russell 2000 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities occurs and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities, provided, however, that the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities shall bear interest, payable upon demand of the beneficial owners, at the rate of 6.70% per annum, to the extent that payment of such interest shall be legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of the amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

15

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983

Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

16

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be

governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

17

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE RUSSELL 2000 INDEX

Unless otherwise stated, all information in this prospectus on the index is derived from FRC or other publicly available sources. This information reflects the policies of FRC as stated in these sources and these policies are subject to change by FRC. FRC is under no obligation to continue to publish the Russell 2000 Index and may discontinue publication of the Russell 2000 Index at any time.

The Russell 2000 Index is an index calculated, published and disseminated by FRC, and measures the composite price performance of stocks of 2,000 companies domiciled in the U.S. and its territories. All 2,000 stocks are traded on either the NYSE or the AMEX or in the over-the-counter market and form a part of the Russell 3000(R) Index. The Russell 3000(R) Index is composed of the 3,000 largest U.S. companies as determined by market capitalization.

The Russell 2000 Index consists of the smallest 2,000 companies included in the Russell 3000(R) Index. The Russell 2000 Index is designed to track the performance of the small capitalization segment of the U.S. equity market.

Only common stocks belonging to corporations domiciled in the U.S. and its territories are eligible for inclusion in the Russell 3000 Index and the Russell 2000 Index. Stocks traded on U.S. exchanges but domiciled in other countries are excluded. Preferred stock, convertible preferred stock, participating preferred stock, paired shares, warrants and rights are also excluded. Trust receipts, Royalty Trusts, limited liability companies, OTC Bulletin Board companies, pink sheets, closed-end mutual funds, and limited partnerships that are traded on U.S. exchanges, are also ineligible for inclusion. Real Estate Investment Trusts and Beneficial Trusts are eligible for inclusion, however. In general, only one class of securities of a company is allowed in the Russell 3000 Index, although exceptions to this general rule have been made where FRC has determined that

each class of securities acts independent of the other.

The primary criteria used to determine the initial list of securities eligible for the Russell 3000 Index is total market capitalization, which is defined as the price of the shares times the total number of shares outstanding. Based on closing values on May 31 of each year, FRC reconstitutes the composition of the Russell 3000 Index using the then existing market capitalizations of eligible companies. As of June 30 of each year, the Russell 2000 Index is adjusted to reflect the reconstitution of the Russell 3000 Index for that year. Real-time dissemination of the Russell 2000 Index began on January 1, 1987.

As a capitalization-weighted index, the Russell 2000 Index reflects changes in the capitalization, or market value, of the component stocks relative to the capitalization on a base date. The current Russell 2000 Index value is calculated by adding the market values of the Russell 2000 Index's component stocks, which are derived by multiplying the price of each stock by the number of shares outstanding, to arrive at the total market capitalization of the 2,000 stocks. The total market capitalization is then divided by a divisor, which represents the "adjusted" capitalization of the Russell 2000 Index on the base date of December 31, 1986. To calculate the Russell 2000 Index, last sale prices will be used for exchange-traded and NASDAQ stocks. If a component stock is not open for trading, the most recently traded price for that security will be used in calculating the

18

Russell 2000 Index. In order to provide continuity for the Russell 2000 Index's value, the divisor is adjusted periodically to reflect events including changes in the number of common shares outstanding for component stocks, company additions or deletions, corporate restructurings and other capitalization changes.

The value of the Russell 2000 Index is reported on the AMEX under the symbol "RTY", on Bloomberg under the symbol "RTY" and on Reuters under the symbol ".RUT".

All disclosure contained in this prospectus regarding the Russell 2000 Index, or its publisher, is derived from publicly available information. All copyrights and other intellectual property rights relating to the Russell 2000 Index are owned by FRC. FRC has no relationship with ML&Co. or the MITTS Securities; it does not sponsor, endorse, authorize, sell or promote the MITTS Securities, and has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

The Russell 2000 Index is a trademark of FRC and has been licensed for use by ML&Co. The MITTS Securities are not sponsored, endorsed, sold or promoted by FRC and FRC makes no representation regarding the advisability of investing in the MITTS Securities.

The MITTS Securities are not sponsored, endorsed, sold or promoted by FRC. FRC makes no representation or warranty, express or implied, to the owners of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the Russell 2000 Index to track general stock market performance or a segment of the same. FRC's publication of the Russell 2000 Index in no way suggests or implies an opinion by FRC as to the advisability of investment in any or all of the securities upon which the Russell 2000 Index is based. FRC's only relationship to ML&Co. is the licensing of certain trademarks, and trade names of FRC and of the Russell 2000 Index which is determined, composed and calculated by FRC without regard to ML&Co. or the MITTS Securities. FRC is not responsible for and has not reviewed the MITTS Securities or any associated literature or publications and FRC makes no representation or warranty express or implied as to their accuracy or completeness, or otherwise. FRC reserves the right, at any time and without notice, to alter, amend, terminate or in any way change the Russell 2000 Index. FRC has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

FRC DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE RUSSELL 2000 INDEX OR ANY DATA INCLUDED THEREIN AND FRC SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. FRC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY ML&CO., INVESTORS, OWNERS OF THE MITTS SECURITIES, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE RUSSELL 2000 INDEX OR ANY DATA INCLUDED THEREIN. FRC MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE RUSSELL 2000 INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL FRC HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

19

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities

under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

20

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and

- . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness

21

without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for

payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$5.8659 per unit. This represents an estimated yield on the MITTS Securities equal to 6.70% per annum, compounded semiannually.

The projected payment schedule, including both projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.70% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on the MITTS Securities as of end of accrual period (per unit) -----
<S>	<C>	<C>
July 21, 1999 through January 21, 2000.....	\$0.3378	\$0.3378
January 22, 2000 through July 21, 2000.....	\$0.3463	\$0.6841
July 22, 2000 through January 21, 2001.....	\$0.3579	\$1.0420
January 22, 2001 through July 21, 2001.....	\$0.3699	\$1.4119

January 22, 2005 through July 21, 2005.....	\$0.4815	\$4.8540
July 22, 2005 through January 21, 2006.....	\$0.4976	\$5.3516
January 22, 2006 through July 21, 2006.....	\$0.5143	\$5.8659

</TABLE>

Projected Supplemental Redemption Amount = \$5.8659 per unit.

23

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;

24

- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in such Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
+ The information in this prospectus is not complete and may be changed. We +  
+ may not sell these securities until the registration statement filed with +  
+ the Securities and Exchange Commission is effective. This prospectus is not +  
+ an offer to sell these securities and it is not soliciting an offer to buy +  
+ these securities in any state where the offer and sale is not permitted. +

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the S&P 500(R) Market Index Target-Term Securities(R) due August 4, 2006. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the S&P 500(R) and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on August 4, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the S&P 500 Index as reduced by the Adjustment Factor. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\$10 \times \left( \frac{\text{Adjusted Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right)$$

but will not be less than zero.

The "Starting Value" equals 1,341.03, the closing value of the S&P 500 Index on July 29, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" means the average or arithmetic mean of the values of the S&P 500 Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS

Securities, there is a disruption in the trading of a sufficient number of the stocks included in the S&P 500 Index or certain futures or options contracts relating to the S&P 500 Index.

The "Adjustment Factor" equals 2.2% per year and will be prorated based on a 365-day

3

year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 14.28% less than the actual closing value of the S&P 500 Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the S&P 500 Index used to calculate the Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the MITTS Securities--Payment at maturity" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 2.2% per year:

Example 1--The S&P 500 Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 1,341.03  
Hypothetical closing value of the S&P 500 Index at maturity: 1,475.13  
Hypothetical Adjusted Ending Value: 1,264.43

<S>	<C>	<C>
	( 1,264.43 - 1,341.03 )	
Supplemental Redemption Amount (per unit) = \$10 X (-----)	) = \$0.00	(Supplemental Redemption Amount cannot
	( 1,341.03 )	be less than zero)

</TABLE>

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The S&P 500 Index, as adjusted, is above the Starting Value at maturity:

Starting Value: 1,341.03  
Hypothetical closing value of the S&P 500 Index at maturity: 2,413.85  
Hypothetical Adjusted Ending Value: 2,069.07

<S>	<C>	
	( 2,069.07 - 1,341.03 )	
Supplemental Redemption Amount (per unit) = \$10 X (-----)	) = \$5.43	
	( 1,341.03 )	

</TABLE>

Total payment at maturity (per unit) = \$10 + \$5.43 = \$15.43

Who publishes the S&P 500 Index and what does the S&P 500 Index measure?

The S&P 500 is published by Standard & Poor's, a division of The McGraw-Hill Companies, Inc., and is intended to provide an indication of the pattern of common stock price movement in the United States. The value of the S&P 500 is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common

4

stocks of 500 similar companies during the base period of the years 1941 through 1943. The market value for the common stock of a company is the product of the

market price per share of the common stock and the number of outstanding shares of common stock. Standard & Poor's chooses companies for inclusion in the S&P 500 with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "MPF". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell the MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the S&P 500 Index

The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in the S&P 500 Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the S&P 500 Index is calculated by reference to the prices of the stocks included in the S&P 500 Index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "MPF", you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the S&P 500 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the S&P 500 Index. The following paragraphs describe the expected

6

impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the S&P 500 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the S&P 500 Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the S&P 500 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates or dividends per share may increase the value of the S&P 500 Index while falling U.S. dividend rates may decrease the value of the S&P 500 Index.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Rising U.S. interest rates may lower the value of the S&P 500 Index and, thus, the MITTS Securities. Falling U.S. interest rates may increase the value of the S&P 500 Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the S&P 500 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the S&P 500 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the S&P 500 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of U.S. interest rates and the S&P 500 Index. This difference will reflect a "time premium" due to expectations concerning the value of the S&P 500 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the S&P 500 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the S&P 500 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the S&P 500 Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS

Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the S&P 500 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs

7

later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the S&P 500 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the S&P 500 Index or futures or options contracts on the S&P 500 Index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the S&P 500 Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the S&P 500 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the S&P 500 Index. See the sections entitled "Description of the MITTS Securities-- Adjustments to the S&P 500 Index; Market Disruption Events" and "-- Discontinuance of the S&P 500 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

8

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;

- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

9

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

10

#### DESCRIPTION OF THE MITTS SECURITIES

On August 4, 1999, ML&Co. issued an aggregate principal amount of \$90,000,000 or 9,000,000 units of MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on August 4, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities

of the S&P 500 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from August 4, 1999 to August 4, 2006:

- . the percentage change from the Starting Value to the hypothetical closing value,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the S&P 500 Index, which includes an assumed aggregate dividend yield of 1.22% per annum, as more fully described below.

For the purposes of calculating this table, we have applied the Adjustment Factor of 2.2% per annum.

12

<TABLE>  
<CAPTION>

Hypothetical rate closing value of during the included calculation 500 period	Percentage change from the Starting Value to hypothetical closing value	Total amount payable at maturity per unit of the MITTS Securities Adjusted Ending Value(1)	Pretax annualized rate of return on the MITTS Securities(2)	Pretax annualized rate of return of stocks in the S&P Index(2) (3)

14.29%				
3,486.68	160.00%	2,988.66	122.86%	11.77%
15.54%				
3,754.88	180.00%	3,218.55	140.01%	12.90%
16.70%				
4,023.09	200.00%	3,448.45	157.15%	13.95%
17.79%				

(1) The Adjusted Ending Values specified in this column are approximately 14.28% less than the hypothetical closing values of the S&P 500 Index as a result of the application of the Adjustment Factor of 2.2% per annum over the term of the MITTS Securities.

(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(3) This rate of return assumes:

(a) a percentage change in the aggregate price of the stocks that equals the percentage change in the S&P 500 Index from the Starting Value to

- the relevant hypothetical closing value;
  - (b) a constant dividend yield of 1.22% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the S&P 500 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical closing value;
  - (c) no transaction fees or expenses; and
  - (d) an investment term from August 4, 1999 to August 4, 2006.
- (4) This is the Starting Value of the S&P 500 Index.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the S&P 500 Index; Market Disruption Events

If at any time Standard & Poor's changes its method of calculating the S&P 500 Index, or the value of the S&P 500 Index changes, in any material respect, or if the S&P 500 Index is in any other way modified so that the S&P 500 Index does not, in the opinion of the calculation agent, fairly represent the value of the S&P 500 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the S&P 500 Index is to be calculated, make those adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the S&P 500 Index as if those changes or modifications had not been made, and calculate the closing value with reference to the S&P 500 Index, as so adjusted. Accordingly, if the method of calculating the S&P 500 Index is modified so that the value of the S&P 500 Index is a fraction or a multiple of what it would have been if it had not been

13

modified, e.g., due to a split, then the calculation agent shall adjust the S&P 500 Index in order to arrive at a value of the S&P 500 Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means either of the following events as determined by the calculation agent:

- (A) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the S&P 500 Index; or
- (B) the suspension or material limitation, in each case, for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts or futures contracts related to the S&P 500 Index, or any successor index, which are traded on any major U.S. exchange.

For the purpose of the above definition:

- (1) a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange and
- (2) for the purpose of clause (A) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the S&P 500 Index

If Standard & Poor's discontinues publication of the S&P 500 Index and Standard & Poor's or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the S&P 500 Index (a "successor index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by Standard & Poor's or any other entity for the S&P 500 Index and calculate the Adjusted Ending Value as described above under "Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a national circulation.

In the event that Standard & Poor's discontinues publication of the S&P 500 Index and:

- . the calculation agent does not select a successor index, or

- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the S&P 500 Index in accordance with the procedures last used to calculate the S&P 500 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the S&P 500 Index as described below, the successor index or value will be used as a substitute for the S&P 500 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If Standard & Poor's discontinues publication of the S&P 500 Index before the Calculation Period and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

14

- . the determination of the Ending Value and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the S&P 500 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity date or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 7% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical

delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns

Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depositary's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depositary is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depositary shall instruct the trustee. It is expected that instructions may be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depositary with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depositary is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depositary. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

17

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE S&P 500 INDEX

Standard & Poor's publishes the S&P 500 Index. The S&P 500 Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the S&P 500 Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies

from, the S&P 500 Index to achieve the objectives stated above.

The value of the S&P 500 Index is reported on the AMEX and on Bloomberg under the symbol "SPX".

The S&P 500 Index does not reflect the payment of dividends on the stocks included in the S&P 500 Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same return you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the S&P 500 Index

Standard & Poor's currently computes the S&P 500 Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the S&P 500 Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that

18

may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as:

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by Standard & Poor's of particular component stocks in the S&P 500 Index, and
- . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{old base value} \times \frac{\text{new base value}}{\text{old market value}} = \text{new market value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the S&P 500 Index.

Standard & Poor's does not guarantee the accuracy and/or the completeness of the S&P 500 Index or any data included in that index. Standard & Poor's makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index or any data included therein in connection with the rights licensed under the license agreement described in this prospectus or for any other use. Standard & Poor's makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index or any data included therein. Without limiting any of the above, in no event shall Standard & Poor's have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

Standard & Poor's and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by Standard & Poor's in connection with certain securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee under that agreement.

The license agreement between Standard & Poor's and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

19

"The MITTS Securities are not sponsored, endorsed, sold or promoted by Standard & Poor's. Standard & Poor's makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the S&P 500 Index to track general stock market performance. Standard & Poor's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of Standard & Poor's and of the S&P 500 Index which is determined, composed and calculated by Standard & Poor's without regard to ML&Co. or the MITTS Securities. Standard & Poor's has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. Standard & Poor's is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. Standard & Poor's has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

All disclosures contained in this prospectus regarding the above S&P 500 Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by Standard & Poor's. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may

be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other

20

than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

21

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity

date;

- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal

22

amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to

receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.1915 per unit. This represents an estimated yield on the MITTS Securities equal to 7% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

23

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on MITTS Securities as of end of accrual period (per unit) -----

August 5, 2002 through February 4, 2003.....	\$0.4304	\$2.7264
February 5, 2003 through August 4, 2003.....	\$0.4454	\$3.1718
August 5, 2003 through February 4, 2004.....	\$0.4610	\$3.6328
February 5, 2004 through August 4, 2004.....	\$0.4772	\$4.1100
August 5, 2004 through February 4, 2005.....	\$0.4938	\$4.6038
February 5, 2005 through August 4, 2005.....	\$0.5112	\$5.1150
August 5, 2005 through February 4, 2006.....	\$0.5290	\$5.6440
February 5, 2006 through August 4, 2006.....	\$0.5475	\$6.1915

Projected Supplemental Redemption Amount = \$6.1915 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit

plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other

24

documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000 ; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding

exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Nikkei 225 Market Index Target-Term Securities(R) due August 4, 2006. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the Nikkei Stock Average (the "Nikkei 225 Index"), and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on August 4, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the Nikkei 225 Index, an index measuring the composite price performance of selected Japanese stocks. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The principal amount per unit is \$10.

Supplemental Redemption Amount

The Supplemental Redemption Amount per unit will equal:

$$\begin{aligned} & ( \text{Ending Value} - \text{Starting Value} ) \\ \$10 \times & ( \frac{\text{Ending Value} - \text{Starting Value}}{\text{Starting Value}} ) \times \text{Participation Rate} \\ & ( \text{Starting Value} ) \end{aligned}$$

but will not be less than zero.

The "Ending Value" means the average of the values of the Nikkei 225 Index at the close of the market on five business days shortly before the maturity of the MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even by reference to a single day's closing value if, during the period prior to the stated maturity date of the MITTS Securities, there is a disruption in the trading of the component stocks comprising the Nikkei 225 Index or certain future or option contracts relating to the Nikkei 225 Index.

The "Starting Value" equals 17,869.92, the closing value of the Nikkei 225 Index on July 29, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Participation Rate" equals 120%.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of the MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

Examples

Here are two examples of Supplemental Redemption Amount calculations:

Example 1--The Nikkei 225 Index is below the Starting Value at maturity:

Starting Value: 17,869.92  
Hypothetical Ending Value: 16,976.42

<TABLE>		
<S>	<C>	<C>
	( 16,976.42 - 17,869.92 )	
Supplemental Redemption Amount (per unit) = \$10 x ( ----- ) x 120% = \$0.00		(Supplemental
Redemption Amount	( 17,869.92 )	cannot be less
than zero.)		
</TABLE>		

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The Nikkei 225 Index is above the Starting Value at maturity:

Starting Value: 17,869.92  
Hypothetical Ending Value: 32,165.86

<TABLE>		
<S>	<C>	
	( 32,165.86 - 17,869.92 )	
Supplemental Redemption Amount (per unit) = \$10 x ( ----- ) x 120% = \$9.60		
	( 17,869.92 )	
</TABLE>		

Total payment at maturity (per unit) = \$10 + \$9.60 = \$19.60

Who publishes the Nikkei 225 Index and what does the Nikkei 225 Index measure?

The Nikkei 225 Index is a stock index published by Nihon Keizai Shimbun, Inc. ("NKS") that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 common stocks traded on the Tokyo Stock Exchange (the "TSE") and represents a broad cross section of Japanese industry. All 225 underlying stocks (the "Underlying Stocks") are stocks listed in the First Section of the TSE and are, therefore, among the most actively traded stocks on the TSE. The Nikkei 225 Index is a modified, price-weighted index, which means an Underlying Stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in the Nikkei 225 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the symbol "NKM". You should be

aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the MITTS Securities. You should review the section entitled "Risk Factors"-- There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities.

MLPF&S is also our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents ML&Co. has filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Nikkei 225 Index was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

If the Ending Value exceeds the Starting Value, then the Participation Rate will enhance the amount of the Supplemental Redemption Amount received at maturity. However, if the Ending Value does not exceed the Starting Value, you will receive only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Nikkei 225 Index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the Nikkei 225 Index and received the dividends paid on those stocks because NKS calculates the Nikkei 225 Index by reference to the prices of the common stocks comprising the Nikkei 225 Index without taking into consideration the value of dividends paid on those stocks.

Your return will not be adjusted for changes in currency exchange rates

Although the stocks included in the Nikkei 225 Index are traded in Japanese yen and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for the currency exchange rate in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the Nikkei 225 Index. Changes in exchange rates, however, may reflect changes in the Japanese economy which in turn may affect the value of the Nikkei 225 Index and the MITTS Securities.

There may be an uncertain trading market for the MITTS Securities

The MITTS Securities are listed on the AMEX under the trading symbol "NKM". You cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance and other factors such as the increase, if any, in the value of the Nikkei 225 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

6

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some

or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the Nikkei 225 Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Nikkei 225 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount, if any, by which the Nikkei 225 Index exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the Nikkei 225 Index exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the Nikkei 225 Index will continue to fluctuate until the Ending Value is determined. If you choose to sell your MITTS Securities when the value of the Nikkei 225 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of your MITTS Securities. In general, rising Japanese dividend rates, or dividends per share, may increase the value of the Nikkei 225 Index while falling Japanese dividend rates may decrease the value of the Nikkei 225 Index. Political, economic and other developments that affect the stocks underlying the Nikkei 225 Index may also affect the value of the Nikkei 225 Index and, indirectly, the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. In general, if interest rates in Japan increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in Japan decrease, we expect that the trading value of the MITTS Securities will decrease. The level of interest rates in Japan may also affect the Japanese economy and, in turn, the value of the Nikkei 225 Index. Rising interest rates may lower the value of the Nikkei 225 Index and, thus, the MITTS Securities. Falling interest rates may increase the value of the Nikkei 225 Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the Nikkei 225 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the Nikkei 225 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Nikkei 225 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

Volatility of the Japanese yen/U.S. dollar exchange rate. The Japanese yen/U.S. dollar rate is a foreign exchange spot rate that measures the relative values of two currencies, the Japanese yen and the U.S. dollar (the "JPY/USD Rate"). The JPY/USD Rate increases when the U.S. dollar appreciates relative to the Japanese yen. The JPY/USD Rate is expressed as a rate that reflects the amount of Japanese yen that can be purchased for one U.S. dollar. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the JPY/USD Rate increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the JPY/USD Rate decreases, we expect that the trading value of the MITTS Securities will decrease.

7

Correlation Between the JPY/USD Rate and the Nikkei 225 Index. Correlation is the term used to describe the relationship between the percentage changes in the JPY/USD Rate and the percentage changes in the Nikkei 225 Index. In general, if the correlation between the JPY/USD Rate and the Nikkei 225 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the correlation between the JPY/USD Rate and the Nikkei 225 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the value of the Nikkei 225 Index. This difference will reflect a "time premium" due to expectations concerning the value of the Nikkei 225 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Nikkei 225 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Nikkei 225 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if

dividend yields on these stocks decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Nikkei 225 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the Nikkei 225 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Risks associated with the Japanese securities markets

The Underlying Stocks that constitute the Nikkei 225 Index have been issued by Japanese companies. You should be aware that investments in securities indexed to the value of Japanese equity securities involve certain risks. The Japanese securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S. or other securities markets. Direct or

8

indirect government intervention to stabilize the Japanese securities markets and cross-shareholdings in Japanese companies on those markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about Japanese companies than about those U.S. companies that are subject to the reporting requirements of the SEC, and Japanese companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in Japan are subject to political, economic, financial and social factors that apply in Japan. These factors, which could negatively affect the Japanese securities markets, include the possibility of recent or future changes in the Japanese government's economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other Japanese laws or restrictions applicable to Japanese companies or investments in Japanese equity securities and the possibility of fluctuations in the rate of exchange between currencies. Moreover, the Japanese economy may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the Nikkei 225 Index or future or option contracts in the Nikkei 225 Index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Nikkei 225 Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in

connection with its determination as to whether the value of the Nikkei 225 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Nikkei 225 Index. See the sections entitled "Description of the MITTS Securities--Adjustments to the Nikkei 225 Index; Market Disruption Events" and "--Discontinuance of the Nikkei 225 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On August 4, 1999, ML&Co. issued an aggregate principal amount of \$75,000,000 or 7,500,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on August 4, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, you will be entitled to receive only the principal amount of your MITTS Securities.

Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>			
<S>		<C>	<C>
		( Ending Value - Starting Value )	
Principal amount of the MITTS Security (\$10 per unit) X	( ----- ) X	Participation Rate	
	( Starting Value )		
</TABLE>			

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 17,869.92, the closing value of the Nikkei 225 Index on July 29, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index on those Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Nikkei 225 Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending Value will equal the closing value of the Nikkei 225 Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Participation Rate" equals 120%.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" means a day on which the New York Stock Exchange and the AMEX are open for trading and the Nikkei 225 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values of the Nikkei 225 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from August 4, 1999 to August 4, 2006:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the Nikkei 225 Index, which includes an assumed aggregate dividend yield of .70% per annum, as more fully described below.

<TABLE>  
<CAPTION>

Hypothetical Ending Value during the Calculation Period	Percentage Change from the Starting Value to the hypothetical Ending Value	Total amount payable at maturity per unit of the MITTS Securities (1)	Total rate of return on the MITTS Securities (1)	Pretax annualized rate of return on the MITTS Securities (1) (2)	Pretax annualized rate of return of stocks underlying the Nikkei 225 Index (2) (3)

9.33%					
35,739.84	100%	22.00	120.00%	11.58%	
10.92%					
39,313.82	120%	24.40	144.00%	13.15%	
12.37%					
42,887.81	140%	26.80	168.00%	14.58%	
13.70%					
46,461.79	160%	29.20	192.00%	15.90%	
14.94%					
50,035.78	180%	31.60	216.00%	17.12%	
16.09%					
53,609.76	200%	34.00	240.00%	18.25%	
17.16%					

- (1) The table assumes a Participation Rate of 120%.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes:
  - (a) a percentage change in the aggregate price of the Underlying Stocks that equals the percentage change in the Nikkei 225 Index from the Starting Value to the relevant hypothetical Ending Value;
  - (b) a constant dividend yield of .70% per annum, paid quarterly from the date of initial delivery of the MTTTS Securities, applied to the value of the Nikkei 225 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical Ending Value;
  - (c) no transaction fees or expenses in connection with purchasing and holding stocks included in the Nikkei 225 Index; and
  - (d) an investment term from August 4, 1999 to August 4, 2006.
- (4) This is the Starting Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rate of return will depend entirely on the actual Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Nikkei 225 Index; Market Disruption Events

If at any time NKS changes its method of calculating the Nikkei 225 Index, or the value of the Nikkei 225 Index changes, in any material respect, or if the Nikkei 225 Index is in any other way modified so that the Nikkei 225 Index does not, in the opinion of the calculation agent, fairly represent the value of the Nikkei 225 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the Nikkei 225 Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Nikkei 225 Index as if those changes or modifications had not been made, and calculate the closing value with reference to the Nikkei 225 Index, as so adjusted. Accordingly, if the method of calculating the Nikkei 225 Index is modified so that the value of the Nikkei 225 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Nikkei 225 Index in order to arrive at a value of the Nikkei 225 Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- (a) a suspension, material limitation or absence of trading on the TSE of 20% or more of the Underlying Stocks which then comprise the Nikkei 225 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange; or
- (b) the suspension or material limitation on the Singapore International Monetary Exchange, Ltd. (the "SIMEX"), the Osaka Securities Exchange (the "OSE") or any other major futures or securities market from trading in futures or options contracts related to the Nikkei 225 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- (1) a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange;
- 14
- (2) a decision to permanently discontinue trading in the relevant future or option contract will not constitute a Market Disruption Event;
  - (3) a suspension in trading in a future or option contract on the Nikkei 225 Index by a major securities market by reason of (a) a price change violating limits set by that securities market, (b) an imbalance of orders relating to those contracts or (c) a disparity in bid and ask quotes relating to those contracts will constitute a suspension or material limitation of trading in futures or options contracts related to the Nikkei 225 Index; and
  - (4) an absence of trading on the TSE will not include any time when the TSE is closed for trading under ordinary circumstances.

While ML&Co. understands that circumstances have occurred in the past that would have been deemed Market Disruption Events, ML&Co. cannot predict the likelihood of a Market Disruption Event occurring in the future.

If NKS discontinues publication of the Nikkei 225 Index and NKS or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Nikkei 225 Index (a "successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by NKS or any other entity for the Nikkei 225 Index and calculate the closing value as described above under "--Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

In the event that NKS discontinues publication of the Nikkei 225 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Nikkei 225 Index in accordance with the procedures last used to calculate the Nikkei 225 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Nikkei 225 Index as described below, the successor index or value will be used as a substitute for the Nikkei 225 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the NKS discontinues publication of the Nikkei 225 Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

15

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Nikkei 225 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding was the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 7% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the

depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by

16

arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts such MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

17

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depositary's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depositary is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depositary shall instruct the trustee. It is expected that instructions may be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depositary with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depositary is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depositary. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

18

#### THE NIKKEI 225 INDEX

All disclosure contained in this prospectus regarding the Nikkei 225 Index, including, without limitation, its make-up, method of calculation and changes in its components, unless otherwise stated, has been derived from the Stock Market Indices Data Book published by NKS and other publicly available sources. The information reflects the policies of NKS as stated in these sources; and the policies are subject to change at the discretion of NKS.

The Nikkei 225 Index is a stock index calculated, published and disseminated by NKS that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 Underlying Stocks trading on the TSE and represents a broad cross-section of Japanese industry. All 225 of the stocks underlying the Nikkei 225 Index are stocks listed in the First Section of the TSE. Stocks listed in the First Section are among the most actively traded stocks on the TSE. Futures and options contracts on the Nikkei 225 Index are traded on the SIMEX, the OSE and the Chicago Mercantile Exchange.

The value of the Nikkei 225 Index is reported on the AMEX under the symbol "N225", on Bloomberg under the symbol "NKY" and on Reuters under the symbol ".N225".

The Nikkei 225 Index is a modified, price-weighted index. Each stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer. NKS calculates the Nikkei 225 Index by: multiplying the per share price of each Underlying Stock by the corresponding weighting factor for that Underlying Stock (a "Weight Factor"), calculating the sum of all these products and dividing that sum by a divisor. Each Weight Factor is computed by dividing (Yen)50 by the par value of the relevant Underlying Stock, so that the share price of each Underlying Stock when multiplied by its Weight Factor corresponds to a share price based on a uniform par value of (Yen)50. Each Weight Factor represents the number of shares of the related Underlying Stock which are included in one trading unit of the Nikkei 225 Index. The stock prices used in the calculation of the Nikkei 225 Index are those reported by a primary market for the Underlying Stocks, which is currently the TSE. The level of the Nikkei 225 Index is calculated once per minute during TSE trading hours.

The divisor was initially set in 1949 at 225 and is subject to periodic adjustment. In order to maintain continuity in the level of the Nikkei 225 Index in the event of certain changes due to non-market factors affecting the Underlying Stocks, such as the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the Nikkei 225 Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the Nikkei 225 Index. The divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each change affecting any Underlying Stock, the divisor is adjusted in such a way that the sum of all share prices immediately after the change multiplied by the applicable Weight Factor and divided by the new divisor, the level of the Nikkei 225 Index immediately after the change, will equal the level of the Nikkei 225 Index immediately prior to the change. The current divisor is available on Bloomberg under the symbol "NKY".

Underlying Stocks may be deleted or added by NKS. However, to maintain continuity in the Nikkei 225 Index, the policy of NKS is generally not to alter the composition of the Underlying Stocks except when an Underlying Stock is deleted in accordance with the following criteria. Any stock becoming ineligible for listing in the First Section of the TSE due to any of the following reasons will be deleted from the Underlying Stocks: bankruptcy of the issuer; merger of the issuer into, or acquisition of the issuer by, another company; delisting of the stock or transfer of the stock to the "Seiri-Post" because of excess debt of the issuer or because of any other reason; or transfer of the stock to the Second Section of the TSE. Upon deletion of a stock from the Nikkei 225 Index, NKS will select, in accordance with certain criteria established by it, a replacement for the deleted Underlying Stock. In an exceptional case, a newly listed stock in the First Section of the TSE that is recognized by NKS to be representative of a market may be added to the Underlying Stocks. As a result, an existing Underlying Stock with low trading volume and not representative of a market will be deleted.

19

NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225 Index. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus that NKS makes any representation or warranty, implied or express, to ML&Co., the holder of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225 Index. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration or marketing of the MITTS Securities.

The use of and reference to the Nikkei 225 Index in connection with the MITTS Securities have been consented to by NKS, the publisher of the Nikkei 225 Index.

None of ML&Co., the calculation agent and MLPF&S accepts any responsibility for the calculation, maintenance or publication of the Nikkei 225 Index or any successor index. NKS disclaims all responsibility for any errors or omissions in the calculation and dissemination of the Nikkei 225 Index or the manner in which

the Nikkei 225 Index is applied in determining any Starting Values or Ending Values or any Supplemental Redemption Amount upon maturity of the MITTS Securities.

The Tokyo Stock Exchange

The TSE is one of the world's largest securities exchanges in terms of market capitalization. Trading hours are currently from 9:00 A.M. to 11:00 A.M. and from 12:30 P.M. to 3:00 P.M., Tokyo time, Monday through Friday.

Due to the time zone difference, on any normal trading day the TSE will close prior to the opening of business in New York City on the same calendar day. Therefore, the closing level of the Nikkei 225 Index on a trading day will generally be available in the United States by the opening of business on the same calendar day.

The TSE has adopted certain measures, including daily price floors and ceilings on individual stocks, intended to prevent any extreme short-term price fluctuations resulting from order imbalances. In general, any stock listed on the TSE cannot be traded at a price lower than the applicable price floor or higher than the applicable price ceiling. These price floors and ceilings are expressed in absolute Japanese yen, rather than percentage limits based on the closing price of the stock on the previous trading day. In addition, when there is a major order imbalance in a listed stock, the TSE posts a "special bid quote" or a "special asked quote" for that stock at a specified higher or lower price level than the stock's last sale price in order to solicit counter-orders and balance supply and demand for the stock. Prospective investors should also be aware that the TSE may suspend the trading of individual stocks in certain limited and extraordinary circumstances, including, for example, unusual trading activity in that stock. As a result, changes in the Nikkei 225 Index may be limited by price limitations or special quotes, or by suspension of trading, on individual stocks which comprise the Nikkei 225 Index, and these limitations may, in turn, adversely affect the value of the MITTS Securities.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

20

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at

least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

21

Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of

outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

22

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

23

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.1915 per unit. This represents an estimated yield on the MITTS Securities

equal to 7% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities.

<TABLE>  
<CAPTION>

Accrual Period -----	Interest Deemed to Accrue During Accrual Period (per unit) -----	Total Interest Deemed to Have Accrued on MITTS Securities as of End of Accrual Period (per unit) -----
<S>	<C>	<C>
August 4, 1999 through February 4, 2000.....	\$0.3529	\$0.3529
February 5, 2000 through August 4, 2000.....	\$0.3624	\$0.7153
August 5, 2000 through February 4, 2001.....	\$0.3750	\$1.0903
February 5, 2001 through August 4, 2001.....	\$0.3882	\$1.4785
August 5, 2001 through February 4, 2002.....	\$0.4017	\$1.8802
February 5, 2002 through August 4, 2002.....	\$0.4158	\$2.2960
August 5, 2002 through February 4, 2003.....	\$0.4304	\$2.7264
February 5, 2003 through August 4, 2003.....	\$0.4454	\$3.1718
August 5, 2003 through February 4, 2004.....	\$0.4610	\$3.6328
February 5, 2004 through August 4, 2004.....	\$0.4772	\$4.1100
August 5, 2004 through February 4, 2005.....	\$0.4938	\$4.6038
February 5, 2005 through August 4, 2005.....	\$0.5112	\$5.1150
August 5, 2005 through February 4, 2006.....	\$0.5290	\$5.6440
February 5, 2006 through August 4, 2006.....	\$0.5475	\$6.1915

Projected Supplemental Redemption Amount = \$6.1915 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

25

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

+++++
+ The information contained in this prospectus is not complete and may be +
+ changed. We may not sell these securities until the registration statement +
+ filed with the Securities and Exchange Commission is effective. This +
+ prospectus is not an offer to sell these securities and it is not soliciting +
+ an offer to buy these securities in any state where the offer and sale is +
+ not permitted. +

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Nikkei 225 Market Index Target-Term Securities(R) due September 20, 2002. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the Nikkei Stock Average (the "Nikkei 225 Index") and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on September 20, 2002. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the Nikkei 225 Index as reduced by the Adjustment Factor. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\$10 \times \left( \frac{\text{Adjusted Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right)$$

but will not be less than zero.

The "Starting Value" equals 17,777.22, the closing value of the Nikkei 225 Index on September 14, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be the average of the values of the Nikkei 225 Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the component stocks included in the Nikkei 225 Index or certain

future or option contracts relating to the Nikkei 225 Index.

The "Adjustment Factor" equals 1.95% per year and will be prorated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the Nikkei 225 Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period at the stated maturity of the MITTS Securities will be approximately 5.69% less than the actual closing value of the Nikkei 225 Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the Nikkei 225 Index used to calculate the Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 1.95% per year:

Example 1--The hypothetical Adjusted Ending Value is below the Starting Value at maturity:

Starting Value: 17,777.22  
 Hypothetical closing value of the Nikkei 225 Index at maturity: 18,666.08  
 Hypothetical Adjusted Ending Value: 17,604.47

<TABLE>		
<S>	<C>	<C>
	( 17,604.47 - 17,777.22 )	
Supplemental Redemption Amount (per unit) = \$10 X	( ----- ) = \$0.00	(Supplemental Redemption Amount cannot be
	( 17,777.22 )	less than zero)

</TABLE>

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The hypothetical Adjusted Ending Value is above the Starting Value at maturity:

Starting Value: 17,777.22

Hypothetical closing value of the Nikkei 225 Index at maturity: 23,110.39

Hypothetical Adjusted Ending Value: 21,796.01

<TABLE>

<S>	<C>
	( 21,796.01 - 17,777.22 )
Supplemental Redemption Amount (per unit) = \$10 X	( ----- ) = \$2.26
	( 17,777.22 )

</TABLE>

Total payment at maturity (per unit) = \$10 + \$2.26 = \$12.26

4

Who publishes the Nikkei 225 Index and what does the Nikkei 225 Index measure?

The Nikkei 225 Index is a stock index published by Nihon Keizai Shimbun, Inc. ("NKS") that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 common stocks traded on the Tokyo Stock Exchange (the "TSE") and represents a broad cross section of Japanese industry. All 225 underlying stocks (the "Underlying Stocks") are stocks listed in the First Section of the TSE and are, therefore, among the most actively traded stocks on the TSE. The Nikkei 225 Index is a modified, price-weighted index, which means an Underlying Stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in the Nikkei 225 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "MNN". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with

regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Nikkei 225 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Nikkei 225 Index

NKS calculates the value of the Nikkei 225 Index by reference to the prices of the common stocks included in the Nikkei 225 Index without taking into consideration the value of dividends paid on those stocks. The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in the Nikkei 225 Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the Nikkei 225 Index is calculated by reference to the prices of the stocks included in the Nikkei 225 Index without taking into consideration the value of dividends paid on those stocks.

Your return will not be adjusted for changes in currency exchange rates

Although the stocks included in the Nikkei 225 Index are traded in Japanese yen and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for the currency exchange rate in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the Nikkei 225 Index. Changes in exchange rates, however, may reflect changes in the Japanese economy which in turn may affect the value of the Nikkei 225 Index and the MITTS Securities.

There may be an uncertain trading market for the MITTS Securities

The MITTS Securities are listed on the AMEX under the trading symbol "MNN". You cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the Nikkei 225 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

6

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the Nikkei 225 Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Nikkei 225 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount, if any, by which the Nikkei 225 Index, as reduced by the Adjustment Factor over the term of the MITTS

Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the Nikkei 225 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Nikkei 225 Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the Nikkei 225 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising Japanese dividend rates or dividends per share may increase the value of the Nikkei 225 Index while falling Japanese dividend rates may decrease the value of the Nikkei 225 Index. Political, economic and other developments that affect the stocks underlying the Nikkei 225 Index may also affect the value of the Nikkei 225 Index and, indirectly, the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. In general, if interest rates in Japan increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in Japan decrease, we expect that the trading value of the MITTS Securities will decrease.

Changes in the volatility of the Nikkei 225 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the Nikkei 225 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Nikkei 225 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

Volatility of the Japanese yen/U.S. dollar exchange rate. The Japanese yen/U.S. dollar rate is a foreign exchange spot rate that measures the relative values of two currencies, the Japanese yen and the U.S. dollar (the "JPY/USD Rate"). The JPY/USD Rate increases when the U.S. dollar appreciates relative to the Japanese yen. The JPY/USD Rate is expressed as a rate that reflects the amount of Japanese yen that can be purchased for one U.S. dollar. Volatility is the term used to describe the size and frequency of market fluctuations. In general, if the volatility of the JPY/USD Rate increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the JPY/USD Rate decreases, we expect that the trading value of the MITTS Securities will decrease.

Correlation Between the JPY/USD Rate and the Nikkei 225 Index. Correlation is the term used to describe the relationship between the percentage changes in the JPY/USD Rate and the percentage changes in the Nikkei 225 Index. In general, if the correlation between the JPY/USD Rate and the Nikkei 225 Index

7

increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the correlation between the JPY/USD Rate and the Nikkei 225 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Nikkei 225 Index. This difference will reflect a "time premium" due to expectations concerning the value of the Nikkei 225 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Nikkei 225 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Nikkei 225 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the Nikkei 225 Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Nikkei 225 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given change in the value of the Nikkei 225 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Risks associated with the Japanese securities markets

The Underlying Stocks that constitute the Nikkei 225 Index have been issued by Japanese companies. You should be aware that investments in securities indexed to the value of Japanese equity securities involve certain risks. The Japanese securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize the Japanese securities markets and cross-shareholdings in Japanese companies on those markets may affect prices and volume of trading on those markets. Also, there is

8

generally less publicly available information about Japanese companies than about those U.S. companies that are subject to the reporting requirements of the SEC, and Japanese companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in Japan are subject to political, economic, financial and social factors that apply in Japan. These factors, which could negatively affect the Japanese securities markets, include the possibility of recent or future changes in the Japanese government's economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other Japanese laws or restrictions applicable to Japanese companies or investments in Japanese equity securities and the possibility of fluctuations in the rate of exchange between currencies. Moreover, the Japanese economy may differ favorably or unfavorably from the U.S. economy with regard to growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the Nikkei 225 Index or future or option contracts on the Nikkei 225 Index for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Nikkei 225 Index in a manner that could be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the Nikkei 225 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Nikkei 225 Index. See the sections entitled "Description of the MITTS Securities--Adjustments to the Nikkei 225 Index; Market Disruption Events" and "--Discontinuance of the Nikkei 225 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge

the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

## DESCRIPTION OF THE MITTS SECURITIES

On September 20, 1999, ML&Co. issued an aggregate principal amount of \$47,000,000 or 4,700,000 units of MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on September 20, 2002.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

The MITTS Securities were issued in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

## Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Adjusted Ending Value does not exceed the Starting Value, you will be entitled to receive only the principal amount of your MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	( Adjusted Ending Value - Starting Value )
principal amount of each MITTS Security (\$10 per unit) X	( ----- )
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 17,777.22, the closing value of the Nikkei 225 Index on September 14, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days during the Calculation Period, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day, then the Adjusted Ending Value will equal the closing value of the Nikkei 225 Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the Nikkei 225 Index determined on the last scheduled Index Business Day in the Calculation Period, as reduced by the application of the Adjustment Factor on that Index Business Day, regardless of the occurrence of a Market Disruption Event on that Index Business Day.

The "Adjustment Factor" equals 1.95% per year, and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a prorated basis based on a 365-day year to reduce the value used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 5.69% less than the actual closing value of the Nikkei 225 Index

on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the New York Stock Exchange and the AMEX are open for trading and the Nikkei 225 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

#### Hypothetical returns

The following table illustrates, for a range of hypothetical closing values of the Nikkei 225 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from September 20, 1999 to September 20, 2002:

- . the percentage change from the Starting Value to the hypothetical closing value,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the Nikkei 225 Index, which includes an assumed aggregate dividend yield of .67% per annum, as more fully described below.

13

<TABLE>  
<CAPTION>

Hypothetical closing value of the Nikkei 225 Index during the Calculation Period	Percentage change from the Starting Value of the hypothetical closing value	Adjusted Ending Value(1)	Total amount payable at maturity per unit of the MITTS Securities	Total rate of return on the MITTS Securities	Pretax annualized rate of return on the MITTS Securities(2)	Pretax annualized rate of return of stocks included in the Nikkei 225 Index(2) (3)

31,999.00	80%	30,179.10	16.98	69.76%	18.42%	21.35%
33,776.72	90%	31,855.71	17.92	79.19%	20.40%	23.35%

</TABLE>

(1) The Adjusted Ending Values specified in this column are approximately 5.69% less than the hypothetical closing values of the Nikkei 225 Index as a result of the cumulative effect of the application of the Adjustment Factor of 1.95% per annum over the term of the MITTS Securities.

(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(3) This rate of return assumes:

(a) a percentage change in the aggregate price of the stocks that equals the percentage change in the Nikkei 225 Index from the Starting Value to the relevant hypothetical closing value;

- (b) a constant dividend yield of .67% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the Nikkei 225 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical closing value;
  - (c) no transaction fees or expenses in connection with purchasing and holding stocks included in the Nikkei 225 Index;
  - (d) an investment term from September 20, 1999 to September 20, 2002; and
  - (e) a final closing value of the Nikkei 225 Index equal to the hypothetical closing value.
- (4) This is the Starting Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Nikkei 225 Index; Market Disruption Events

If at any time NKS changes its method of calculating the Nikkei 225 Index, or the value of the Nikkei 225 Index changes, in any material respect, or if the Nikkei 225 Index is in any other way modified so that the Nikkei 225 Index does not, in the opinion of the calculation agent, fairly represent the value of the Nikkei 225 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the Nikkei 225 Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Nikkei 225 Index as

14

if those changes or modifications had not been made, and calculate the closing value with reference to the Nikkei 225 Index, as adjusted. Accordingly, if the method of calculating the Nikkei 225 Index is modified so that the value of the Nikkei 225 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Nikkei 225 Index in order to arrive at a value of the Nikkei 225 Index as if it had not been modified, e.g., as if the split had not occurred.

"Market Disruption Event" means either of the following events as determined by the calculation agent:

- (a) the suspension, material limitation or absence of trading on the TSE of 20% or more of the Underlying Stocks which then comprise the Nikkei 225 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange; or
- (b) the suspension or material limitation on the Singapore International Monetary Exchange, Ltd. (the "SIMEX"), the Osaka Securities Exchange (the "OSE") or any other major futures or securities market from trading in futures or options contracts related to the Nikkei 225 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- (1) a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange;
- (2) a decision to permanently discontinue trading in the relevant future or option contract will not constitute a Market Disruption Event;
- (3) a suspension in trading in a future or option contract on the Nikkei 225 Index by a major securities market by reason of (a) a price change violating limits set by that securities market, (b) an imbalance of orders relating to those contracts or (c) a disparity in bid and ask quotes relating to those contracts will constitute a suspension or material limitation of trading in future or option contracts related to the Nikkei 225 Index; and
- (4) an absence of trading on the TSE will not include any time when the TSE is closed for trading under ordinary circumstances.

While ML&Co. understands that circumstances have occurred in the past that would have been deemed Market Disruption Events, ML&Co. cannot predict the likelihood of a Market Disruption Event occurring in the future.

#### Discontinuance of the Nikkei 225 Index

If NKS discontinues publication of the Nikkei 225 Index and NKS or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Nikkei 225 Index (a

"successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by NKS or any other entity for the Nikkei 225 Index and calculate the closing value as described above under "--Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

In the event that NKS discontinues publication of the Nikkei 225 Index and:

- . the calculation agent does not select a successor index, or

15

- . the successor index is no longer published on any of the Index Business Days during the Calculation Period,

the calculation agent will compute a substitute value for the Nikkei 225 Index in accordance with the procedures last used to calculate the Nikkei 225 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Nikkei 225 Index as described below, the successor index or value shall be substituted for the Nikkei 225 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If NKS discontinues publication of the Nikkei 225 Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Nikkei 225 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 6.65% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

16

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee.

Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depositary to a nominee of the depositary or by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any nominee to a successor of the depositary or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depositary for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that

17

clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will

remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depositary's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depositary is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or

18

- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depositary shall instruct the trustee. It is expected that instructions may be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depositary with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depositary is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depositary. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

19

#### THE NIKKEI 225 INDEX

All disclosure contained in this prospectus regarding the Nikkei 225 Index, including, without limitation, its make-up, method of calculation and changes in its components, unless otherwise stated, has been derived from the Stock Market Indices Data Book published by NKS and other publicly available sources. The information reflects the policies of NKS as stated in these sources; and the

policies are subject to change at the discretion of NKS.

The Nikkei 225 Index is a stock index calculated, published and disseminated by NKS that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 Underlying Stocks trading on the TSE and represents a broad cross-section of Japanese industry. All 225 Underlying Stocks are stocks listed in the First Section of the TSE. Stocks listed in the First Section are among the most actively traded stocks on the TSE. Futures and options contracts on the Nikkei 225 Index are traded on the SIMEX, the OSE and the Chicago Mercantile Exchange.

The value of the Nikkei 225 Index is reported on the AMEX under the symbol "N225", on Bloomberg under the symbol "NKY" and on Reuters under the symbol ".N225".

The Nikkei 225 Index is a modified, price-weighted index. Each stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer. NKS calculates the Nikkei 225 Index by: multiplying the per share price of each Underlying Stock by the corresponding weighting factor for that Underlying Stock (a "Weight Factor"), calculating the sum of all these products and dividing that sum by a divisor. Each Weight Factor is computed by dividing (Yen)50 by the par value of the relevant Underlying Stock, so that the share price of each Underlying Stock when multiplied by its Weight Factor corresponds to a share price based on a uniform par value of (Yen)50. Each Weight Factor represents the number of shares of the related Underlying Stock which are included in one trading unit of the Nikkei 225 Index. The stock prices used in the calculation of the Nikkei 225 Index are those reported by a primary market for the Underlying Stocks, which is currently the TSE. The level of the Nikkei 225 Index is calculated once per minute during TSE trading hours.

The divisor was initially set in 1949 at 225 and is subject to periodic adjustment. In order to maintain continuity in the level of the Nikkei 225 Index in the event of certain changes due to non-market factors affecting the Underlying Stocks, such as the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the Nikkei 225 Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the Nikkei 225 Index. The divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each change affecting any Underlying Stock, the divisor is adjusted in such a way that the sum of all share prices immediately after the change multiplied by the applicable Weight Factor and divided by the new divisor, the level of the Nikkei 225 Index immediately after the change, will equal the level of the Nikkei 225 Index immediately prior to the change. The current divisor is available on Bloomberg under the symbol "NKY".

Underlying Stocks may be deleted or added by NKS. However, to maintain continuity in the Nikkei 225 Index, the policy of NKS is generally not to alter the composition of the Underlying Stocks except when an Underlying Stock is deleted in accordance with the following criteria. Any stock becoming ineligible for listing in the First Section of the TSE due to any of the following reasons will be deleted from the Underlying Stocks: bankruptcy of the issuer; merger of the issuer into, or acquisition of the issuer by, another company; delisting of the stock or transfer of the stock to the "Seiri-Post" because of excess debt of the issuer or because of any other reason; or transfer of the stock to the Second Section of the TSE. Upon deletion of a stock from the Underlying Stocks, NKS will select, in accordance with certain criteria established by it, a replacement for the deleted Underlying Stock. In an exceptional case, a newly listed stock in the First Section of the TSE that is recognized by NKS to be representative of a market may be added to the Underlying Stocks. As a result, an existing Underlying Stock with low trading volume and not representative of a market will be deleted.

20

NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225 Index. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus that NKS makes any representation or warranty, implied or express, to ML&Co., the holder of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 Index to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holder of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225 Index. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration or marketing of the MITTS Securities.

The use of and reference to the Nikkei 225 Index in connection with the MITTS Securities have been consented to by NKS, the publisher of the Nikkei 225 Index.

None of ML&Co., the calculation agent and MLPF&S accepts any responsibility for the calculation, maintenance or publication of the Nikkei 225 Index or any successor index. NKS disclaims all responsibility for any errors or omissions in the calculation and dissemination of the Nikkei 225 Index or the manner in which the Nikkei 225 Index is applied in determining any Starting Values, Adjusted Ending Value or any Supplemental Redemption Amount upon maturity of the MITTS Securities.

#### The Tokyo Stock Exchange

The TSE is one of the world's largest securities exchanges in terms of market capitalization. Trading hours are currently from 9:00 A.M. to 11:00 A.M. and from 12:30 P.M. to 3:00 P.M., Tokyo time, Monday through Friday.

Due to the time zone difference, on any normal trading day the TSE will close prior to the opening of business in The City of New York on the same calendar day. Therefore, the closing level of the Nikkei 225 Index on a trading day will generally be available in the United States by the opening of business on the same calendar day.

The TSE has adopted certain measures, including daily price floors and ceilings on individual stocks, intended to prevent any extreme short-term price fluctuations resulting from order imbalances. In general, any stock listed on the TSE cannot be traded at a price lower than the applicable price floor or higher than the applicable price ceiling. These price floors and ceilings are expressed in absolute Japanese yen, rather than percentage limits based on the closing price of the stock on the previous trading day. In addition, when there is a major order imbalance in a listed stock, the TSE posts a "special bid quote" or a "special asked quote" for that stock at a specified higher or lower price level than the stock's last sale price in order to solicit counter-orders and balance supply and demand for the stock. Prospective investors should also be aware that the TSE may suspend the trading of individual stocks in certain limited and extraordinary circumstances, including, for example, unusual trading activity in that stock. As a result, changes in the Nikkei 225 Index may be limited by price limitations or special quotes, or by suspension of trading, on individual stocks which comprise the Nikkei 225 Index, and these limitations may, in turn, adversely affect the value of the MITTS Securities.

21

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding

senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

22

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
- . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
- . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the

without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule

for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$2.1673 per unit. This represents an estimated yield on the MITTS Securities equal to 6.65% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.65% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on the MITTS Securities as of the end of accrual period (per unit) -----
<S>	<C>	<C>
September 20, 1999 through March 20, 2000.....	\$0.3316	\$0.3316
March 21, 2000 through September 20, 2000.....	\$0.3435	\$0.6751
September 21, 2000 through March 20, 2001.....	\$0.3549	\$1.0300
March 21, 2001 through September 20, 2001.....	\$0.3668	\$1.3968
September 21, 2001 through March 20, 2002.....	\$0.3789	\$1.7757
March 21, 2002 through September 20, 2002.....	\$0.3916	\$2.1673

</TABLE>

Projected Supplemental Redemption Amount = \$2.1673 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other

documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information. We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:
  - . annual report on Form 10-K for the year ended December 31, 1999;
  - . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000 ; and
  - . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;

26

- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent

auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

++++  
 + The information in this prospectus is not complete and may be changed. We +  
 + may not sell these securities until the registration statement filed with +  
 + the Securities and Exchange Commission is effective. This prospectus is +  
 + not an offer to sell these securities and is not soliciting an offer to buy +  
 + these securities in any state where the offer and sale is not permitted. +

#### SUMMARY INFORMATION -- Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Energy SPDR(R) Fund Market Index Target-Term Securities(R) due September 20, 2006. You should carefully read this prospectus to fully understand the terms of the MITTS Securities and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

References in this prospectus to the "Energy SPDR Fund" are to the Energy Select Sector SPDR Fund.

We have attached the prospectus for the Energy SPDR Fund dated January 28, 2000, (the "Fund Prospectus"). You should carefully read the Fund Prospectus to fully understand the operation and management of the Energy SPDR Fund, particularly the fees and expenses associated with shares of the Energy SPDR Fund which affect the net asset value per share of the Energy SPDR Fund and which will directly apply to you if we choose to deliver these shares of the Energy SPDR Fund to you at maturity of the MITTS Securities. Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Energy SPDR Fund and the index compilation agent for the Energy Select Sector Index. However, we are not affiliated with the Energy SPDR Fund or the Energy Select Sector Index. The

Energy SPDR Fund will not receive any of the proceeds from the sale of the MITTS Securities and will not have any obligations with respect to the MITTS Securities.

We have attached the Fund Prospectus and are delivering it to you together with this prospectus for the convenience of reference only. The Fund Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference into this prospectus.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on September 20, 2006. We cannot redeem the MITTS Securities at any earlier date. We will not deliver to you any shares of the Energy SPDR Fund or make any other payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in the appreciation, if any, in the Net Asset Value per share of the Energy SPDR Fund as reduced by the Adjustment Factor. On the stated maturity date, you will receive a number of shares of the Energy SPDR Fund equal in value to the sum of the principal amount and the Supplemental Redemption Amount, if any, and an amount of

3

cash equal to the value of any fractional shares. We will determine the number of shares to be delivered to you based on the Ending Value. At our option, instead of delivering to you the shares of the Energy SPDR Fund to which you would otherwise be entitled, we may pay you cash.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\$10x \left( \frac{\text{(Adjusted Ending Value - Starting Value)}}{\text{(Starting Value)}} \right)$$

but will not be less than zero.

The "Starting Value" equals 29.27, the Net Asset Value of one share of the Energy SPDR Fund on September 14, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" means the Ending Value as reduced by the application of the Adjustment Factor to the Net Asset Value used to calculate the Ending Value on each calculation day during the calculation period.

"Ending Value" means the average of the Net Asset Values of one share of the Energy SPDR Fund as determined by the Energy SPDR Fund at the close of the market on five calculation days shortly before the maturity of the MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's Net Asset Value if, during the calculation period, there is a disruption in the trading of a number of the component stocks of the Energy Select Sector Index or options relating to the shares of the Energy SPDR Fund, the Energy SPDR Fund is unable or otherwise fails to issue a Net Asset Value for the shares of the Energy SPDR Fund or the Energy SPDR Fund suspends the creation or redemption of its shares. Please see the section entitled "Description of the MITTS Securities--Adjustments to the Energy SPDR Fund; Market Disruption Events" in this prospectus.

The "Adjustment Factor" equals 1.25% per year and will be prorated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the Net Asset Value per share of the Energy SPDR Fund used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate your Supplemental Redemption Amount at

the maturity of the MITTS Securities will be approximately 8.38% less than the actual Net Asset Values per share of the Energy SPDR Fund on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the Net Asset Value per share of the Energy SPDR Fund used to calculate your Supplemental Redemption Amount, see "Description of the MITTS Securities--Delivery at maturity" and "--Hypothetical Returns" in this prospectus. For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

4

-----  
Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 1.25% per year:

Example 1 -- The hypothetical Adjusted Ending Value is below the Starting Value at maturity:

Starting Value: 29.27  
Hypothetical Ending Value at maturity: 30.73  
Hypothetical Adjusted Ending Value: 28.15

<TABLE>

<S>	<C> (28.15 - 29.27) ----- ( 29.27 )	<C>  (Supplement Redemption Amount  be less than zero)
Supplemental Redemption Amount (per unit) = \$10 X ----- = \$0.00 cannot		

</TABLE>

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2 --The hypothetical Adjusted Ending Value is above the Starting Value at maturity:

Starting Value: 29.27  
Hypothetical Ending Value at maturity: 52.68  
Hypothetical Adjusted Ending Value: 48.26

Supplemental Redemption Amount (per unit) = \$10 X ----- = \$6.49	(48.26 - 29.27) ----- ( 29.27 )
---	---------------------------------------

Total payment at maturity (per unit) = \$10 + \$6.49 = \$16.49  
-----

How is the Net Asset Value determined?

The "Net Asset Value" means the net asset value per share of the Energy SPDR Fund as determined by the Energy SPDR Fund. The Energy SPDR Fund calculates its Net Asset Value per share by dividing the value of its net assets, i.e., the value of its total assets less total liabilities, by its total number of shares outstanding. Expenses and fees, including the management, administration and distribution fees, of the Energy SPDR Fund are accrued daily and taken into account for purposes of determining Net Asset Value. The Net Asset Value per share of the Energy SPDR Fund is determined by the Energy SPDR Fund on each Business Day after the close of trading on the New York Stock Exchange, ordinarily 4:00 p.m., New York City time. Shares of the Energy SPDR Fund are listed on the AMEX under the trading symbol "XLE".

When will I receive cash instead of shares of the Energy SPDR Fund?

If we choose to pay you the amount due to you at maturity in cash instead of in shares of the Energy SPDR Fund which you would otherwise be entitled to receive, we will pay you an amount of cash equal to the sum of the principal amount and the Supplemental Redemption Amount, if any. In addition, if at any time MLPF&S ceases to be a soliciting dealer in the shares of the Energy SPDR Fund, we will pay the amount due to you in cash instead of shares. Please see the section entitled "Description of the MITTS Securities--Delivery at maturity" in this prospectus.

In addition, in the event that we choose to deliver shares of the Energy SPDR Fund at maturity, we will not distribute any fractional shares to you.

5

We will aggregate all amounts due to you in respect of the total number of units you hold on the stated maturity date, and, in lieu of delivering to you any fractional shares of the Energy SPDR Fund to which you would otherwise be entitled, we will pay you the cash value of these fractional shares based on the Ending Value.

Will I be charged any transaction fees or expenses with respect to the shares of the Energy SPDR Fund?

Unless and until we deliver shares of the Energy SPDR Fund to you in satisfaction of our obligations under the MITTS Securities at maturity, you will not be directly charged any management, administration, distribution or other transaction fees or other expenses with respect to the shares of the Energy SPDR Fund. However, because the Energy SPDR Fund accrues these fees and expenses daily for purposes of determining the Net Asset Value of its shares, the Net Asset Values used to calculate your Supplemental Redemption Amount will reflect the deduction of these fees and expenses as well as the reduction resulting from the application of the Adjustment Factor.

If at maturity we deliver to you shares of the Energy SPDR Fund, you will then become directly subject to ongoing account maintenance fees and certain other transaction expenses with respect to your shares so long as you hold those shares.

The accompanying Fund Prospectus describes the fees and expenses charged by the Energy SPDR Fund in greater detail.

What is the Energy SPDR Fund?

The Energy SPDR Fund is an index fund whose stated investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities comprising the Energy Select Sector Index. The Energy Select Sector Index consists of the equity securities of publicly traded companies that are components of the S&P 500 Index and are involved in the development and production of energy products. Companies in the Energy Select Sector Index develop and produce crude oil and natural gas, and provide drilling and other energy related services. Our affiliate, MLPF&S, is both a soliciting dealer in the shares of the Energy SPDR Fund and the index compilation agent for the Energy Select Sector Index. We are not affiliated with the Energy SPDR Fund or the Energy Select Sector Index. The Energy SPDR Fund did not receive any of the proceeds from the sale of the MITTS Securities and does not have any obligations with respect to the MITTS Securities. You should independently decide whether an investment in the MITTS Securities and the Energy SPDR Fund is appropriate for you.

The Energy SPDR Fund is one of nine investment funds comprising the Select Sector SPDR Trust, a management investment company registered under the Investment Company Act of 1940, as amended. Each fund's investment portfolio is comprised principally of constituent companies whose equity securities are components of the S&P 500 Index, each representing one of nine specified market sector indices. Each stock in the S&P 500 Index is allocated to only one Select Sector Index. The combined companies of the nine Select Sector Indices represent all of the companies whose stocks are components of the S&P 500 Index.

You should carefully read the Fund Prospectus accompanying this prospectus to fully understand the operation and management of the Energy SPDR Fund. In addition, because the Select Sector SPDR Trust is subject to the registration requirements of the Securities Act of 1933, as amended, and the Investment Company Act, the Select Sector SPDR Trust is required to file periodically certain information specified by the SEC. For more information about the Energy SPDR Fund and the shares that you may receive at maturity, information provided to or filed with the SEC by the Select Sector SPDR Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. You may also obtain copies of these documents at no cost by calling the Select Sector SPDR Trust at (800) 843-2639 or by writing the Select Sector SPDR Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO

Are the MITTS Securities be listed on a stock exchange?

The MITTS Securities have been approved for listing on the AMEX under the trading symbol "ESY". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review "Risk Factors-- There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

MLPF&S also is a soliciting dealer in the shares of the Energy SPDR Fund and is the index compilation agent for the Energy Select Sector Index. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities to the Energy SPDR Fund and the Energy Select Sector Index. Please see the section entitled "Risk Factors--Potential conflicts" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

7

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value at the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your return will not reflect the return of owning shares of the Energy SPDR Fund or the securities and other assets comprising the Energy SPDR Fund's investment portfolio

When determining the Supplemental Redemption Amount, if any, paid to you at maturity, the Energy SPDR Fund's Net Asset Value per share, which reflects the reduction of fund assets resulting from the accrual of the Energy SPDR Fund's fees and expenses and any distributions made by the Energy SPDR Fund, will also be reduced by the application of the Adjustment Factor over the term of the MITTS Securities. Consequently, your return on the MITTS Securities will not reflect the return of owning the shares of the Energy SPDR Fund or the securities and other assets included in the Energy SPDR Fund's investment portfolio.

Changes in the Net Asset Value per share of the Energy SPDR Fund will not exactly mirror changes in the Energy Select Sector Index

As indicated in the Fund Prospectus, the Energy SPDR Fund's investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities included in the Energy Select Sector Index. However, changes in the value of the Energy Select Sector Index and in the Net Asset Value per share of the Energy SPDR Fund are not expected to be identical because:

- . the Energy SPDR Fund's investment portfolio may not hold all of the stocks in the Energy Select Sector Index or may not hold each stock in the same weighting as the Energy Select Sector Index,

- . the Energy SPDR Fund may hold assets other than equity securities, and
- . the Net Asset Value per share of the Energy SPDR Fund reflects the reduction of fund assets resulting from the accrual of fees and expenses and the payment of distributions, if any.

As stated in the Fund Prospectus, the investment adviser to the Energy SPDR Fund believes that "over time, 'the tracking error' of the Energy SPDR Fund relative to the performance of the Energy Select Sector Index, adjusted for the effect of the Energy SPDR Fund's expenses, will be less than 5%". There is no assurance that the tracking error will not be greater than 5% at any time, including the time that you may wish to sell your MITTS Securities before the maturity date or at the time the calculation agent determines the Supplemental Redemption Amount, if any.

8

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "ESY", you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the Net Asset Value per share of the Energy SPDR Fund.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the Net Asset Value per share of the Energy SPDR Fund. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The Net Asset Value per share of the Energy SPDR Fund is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount, if any, by which the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the Net Asset Value per share of the Energy SPDR Fund, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Net Asset Value per share of the Energy SPDR Fund will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the Net Asset Value per share of the Energy SPDR Fund is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates or dividends per share may increase the Net Asset Value per share of the Energy SPDR Fund while falling U.S. dividend rates may decrease the Net Asset Value per share of the Energy SPDR Fund.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Rising U.S. interest rates may lower the Net Asset Value per share of the Energy SPDR Fund and, as a result, may lower the trading value of the MITTS Securities.

Falling U.S. interest rates may increase the Net Asset Value per share of the Energy SPDR Fund and, as a result, may increase the value of the MITTS Securities.

9

Changes in the volatility of the Net Asset Value per share of the Energy SPDR Fund are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the Net Asset Value per share of Energy SPDR Fund increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Net Asset Value per share of the Energy SPDR Fund decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Net Asset Value per share of the Energy SPDR Fund. This difference will reflect a "time premium" due to expectations concerning the Net Asset Value per share of the Energy SPDR Fund during the period before the stated maturity date of the MITTS Securities. However, as the time remaining to the stated maturity date of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Energy SPDR Fund are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Energy SPDR Fund increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the Energy SPDR Fund decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the Net Asset Value per share of the Energy SPDR Fund at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the Net Asset Value per share of the Energy SPDR Fund will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Absence of prior active market for shares of the Energy SPDR Fund

The Energy SPDR Fund is a recently organized investment company and has a limited operating history. Although its shares are listed for trading on the AMEX and a number of similar products have been traded on the AMEX for varying periods of time, there is no assurance that an active trading market will continue to exist for the shares of the Energy SPDR Fund. If a trading market does continue to exist, there is no assurance that there will be liquidity in the trading market.

Concentration in energy-related securities

Because the Energy SPDR Fund's investment portfolio is predominantly comprised of securities of companies in the energy-producing field, the value of the MITTS Securities may be adversely affected by an economic downturn in the energy industry. The companies whose securities comprise the Energy SPDR Fund's investment portfolio produce crude oil and natural gas and provide drilling and other energy production and distribution related services. Stock prices for these types of companies are affected by supply and demand both for their specific product or service and for energy products in general. The price of oil and gas,

10

exploration and production spending, government regulation, political events and economic conditions will likewise affect the performance of these companies. Correspondingly, companies in the energy field are subject to swift energy price and supply fluctuations caused by events relating to international politics, energy conservation, the results of exploration projects, and tax and other governmental policies. Weak demand for these companies' products or services or for energy products and services in general, as well as negative developments in these other areas, would adversely affect the performance of the Energy SPDR Fund and in turn, the trading value of the MITTS Securities.

No affiliation between ML&Co. and the Energy SPDR Fund

Our affiliate MLPF&S is both a soliciting dealer in the shares of the Energy SPDR Fund and the index compilation agent for the Energy Select Sector Index. However, we are not affiliated with the Energy SPDR Fund or the Energy Select Sector Index. The Energy SPDR Fund has no obligations with respect to the MITTS Securities or amounts to be paid to you, including any obligation to take the needs of ML&Co. or of beneficial owners of the MITTS Securities into consideration for any reason. The Energy SPDR Fund did not receive any of the proceeds from the initial offering of the MITTS Securities and is not responsible for, and has not participated in, the determination or calculation of the amount you will receive on your MITTS Securities at maturity. In addition, the Energy SPDR Fund is not involved with the administration or trading of the MITTS Securities and has no obligations with respect to any amounts due under the MITTS Securities.

No shareholder's rights

Unless and until we deliver shares of the Energy SPDR Fund to you at the maturity of the MITTS Securities, you will not be entitled to any rights with respect to these shares, including, without limitation, the right to receive distributions on, to vote or to redeem these shares. For example, if the Energy SPDR Fund sets a record date for a matter to be voted on by shareholders before our delivery of the shares of the Energy SPDR Fund to you, you will not be entitled to vote on that matter.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the Energy SPDR Fund or futures or options in the Energy SPDR Fund for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Energy SPDR Fund in a manner that could be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S'

11

role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the Energy SPDR Fund can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Energy SPDR Fund. See "Description of the MITTS Securities--Adjustments to the Energy SPDR Fund; Market Disruption Events" and "--Termination of the Energy SPDR Fund" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

MLPF&S is also a soliciting dealer in the shares of the Energy SPDR Fund. Under certain circumstances, MLPF&S' role as calculation agent for the MITTS Securities and its role as a soliciting dealer in these shares could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities. These conflicts could occur in connection with its determination as to the Adjusted Ending Value and the number of shares to be delivered at maturity.

Additionally, MLPF&S serves as index compilation agent for the Energy Select Sector Index. In its capacity as index compilation agent, MLPF&S determines, in consultation with S&P, which securities of the S&P 500 are to be included in the Energy Select Sector Index. Under certain circumstances, MLPF&S' role as calculation agent for the MITTS Securities and its role as index

compilation agent could give rise to conflicts of interests between the calculation agent and holders of the MITTS Securities.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

12

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

13

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred

security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On September 20, 1999, ML&Co. issued an aggregate principal amount of \$44,000,000 or 4,400,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on September 20, 2006.

While at maturity a beneficial owner of a MITTS Security will receive the number of shares of the Energy SPDR Funds equal in value to the sum of the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. At our option, instead of delivering to you the shares of the Energy SPDR Fund to which you would otherwise be entitled, we may pay you cash with an equal value. See the section entitled "--Delivery at maturity" below. The number of shares to be delivered at maturity will be determined based on the Ending Value.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Delivery at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the number of shares of the Energy SPDR Fund equal in value to the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. The amount to be paid by ML&Co. to any holder of the MITTS Securities on the maturity date will be aggregated based on the total number of units then held by that holder and rounded to the nearest cent. If the Adjusted Ending Value does not exceed the Starting Value, a beneficial owner of a MITTS Security will be entitled to receive only the number of shares of the Energy SPDR Fund or cash with value equal to the principal amount of the MITTS Security. The number of shares to be delivered at maturity will be determined based on the Ending Value.

If ML&Co. delivers shares of the Energy SPDR Fund to holders of the MITTS Securities at the maturity date, ML&Co. or one of its affiliates will deliver shares of the Energy SPDR Fund that are then newly issued by the Energy SPDR Fund.

ML&Co. may, at its option, in lieu of delivering shares of the Energy SPDR Fund, pay cash in an amount equal to the sum of the principal amount of the MITTS Securities and the Supplemental Redemption Amount, if any. In addition, if at any time MLPF&S ceases to be a soliciting dealer in the shares of the Energy SPDR Fund, ML&Co. will pay the amount due to holders of the MITTS Securities in cash instead of shares.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	(Adjusted Ending Value - Starting Value)
Principal amount of the MITTS Security (\$10 per unit) X	(-----)
	( Starting Value )

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 29.27, the Net Asset Value of one share of the Energy SPDR Fund on February 14, 1999, the date the MITTS Securities were priced

for initial sale to the public.

"Net Asset Value" means the net asset value per share of the Energy SPDR Fund as determined by the Energy SPDR Fund. The Energy SPDR Fund calculates its Net Asset Value per share by dividing the value of its net assets, i.e., the value of its total assets less total liabilities, by its total number of shares outstanding. Expenses and fees, including the management, administration and distribution fees, of the Energy SPDR Fund are accrued daily and taken into account for purposes of determining Net Asset Value. The Net Asset Value per share of the Energy SPDR Fund is determined by the Energy SPDR Fund on each Business Day after the close of trading on the New York Stock Exchange, ordinarily 4:00 p.m., New York City time. Shares of the Energy SPDR Fund are listed on the AMEX under the trading symbol "XLE".

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the Ending Value as reduced by the application of the Adjustment Factor to the Net Asset Value used to calculate the Ending Value on each Calculation Day during the Calculation Period.

The "Ending Value" will equal the average, or arithmetic mean, of the Net Asset Values per share of the Energy SPDR Fund as determined by the Energy SPDR Fund on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period, the Ending Value will equal the average, or arithmetic mean, of the Net Asset Values of the Energy SPDR Fund on each of these Calculation Days, and if there is only one Calculation Day, then the Ending Value will be equal to the Net Asset Value per share of the Energy SPDR Fund on that Calculation Day. If no Calculation Days occur during the Calculation Period because of Market Disruption Events, then the Ending Value shall mean the Net Asset Value per share of the Energy SPDR Fund on the last Trading Day before the Calculation Period for which the Net Asset value per share of the Energy SPDR Fund was determined.

The "Adjustment Factor" equals 1.25% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a prorated basis based on a 365-day year to reduce the value used to calculate the Supplemental Redemption Amount on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 8.38% less than the actual Net Asset Value per share of the Energy SPDR Fund on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Trading Day before the maturity date to and including the second scheduled Trading Day before the maturity date.

A "Calculation Day" means any Trading Day during the Calculation Period on which a Market Disruption Event has not occurred.

A "Trading Day" is a day on which the shares of the Energy SPDR Fund:

- . are not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business; and
- . have traded at least once on a national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of the shares of the Energy SPDR Fund.

#### Fractional Shares

ML&Co. will not distribute fractional shares of the Energy SPDR Fund at maturity. In the event ML&Co. pays holders of the MITTS Securities in shares of the Energy SPDR Fund, all amounts due to any holder of the MITTS Securities in respect of the total number of units held by that holder will be aggregated,

16

and in lieu of delivering any fractional share to that holder, that holder will receive the cash value of that fractional share based on the Ending Value.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

#### Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values, assuming an initial investment of \$10 per unit and an investment term from September 20, 1999 to September 20, 2006:

- . the percentage change from the Starting Value to the hypothetical Ending Value,

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of the MITTS Securities, and
- . the pretax annualized rate of return of an investment in shares of the Energy SPDR Fund which includes an assumed aggregate dividend yield of 2.04% per annum, as more fully described below.

<TABLE>

16.49%						
81.95	180%	75.08	25.65	156.52%	13.91%	
17.67%						
87.80	200%	80.44	27.48	174.85%	14.97%	
18.77%						

(1) The Adjusted Ending Values specified in this column are approximately 8.38% less than the hypothetical Ending Values as a result of the cumulative effect of the application of the Adjustment Factor of 1.25% per annum over the term of the MITTS Securities.

(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(3) This rate of return assumes:

- (a) a constant dividend yield of 2.04% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the Net Asset Value per share of the Energy SPDR Fund at the end of each quarter assuming this Net Asset Value per share increases or decreases

linearly from the Starting Value to the applicable hypothetical Ending Values;

- (b) no transaction fees or expenses in connection with purchasing and holding shares of the Energy SPDR Fund;
- (c) an initial investment of \$10 and an investment term from September 20, 1999 to September 20, 2006; and
- (d) a final Net Asset Value per share of the Energy SPDR Fund equal to the hypothetical Ending Value.

(4) This is the Starting Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Energy SPDR Fund; Market Disruption Events

If at any time the shares of the Energy SPDR Fund are subject to a split or reverse split, the calculation agent shall adjust the Net Asset Value per share of the Energy SPDR Fund used to calculate the Ending Value in order to arrive at a Net Asset Value per share of the Energy SPDR Fund as if a split or reverse split, as the case may be, had not occurred.

"Market Disruption Event" means any of the following events as determined by the calculation agent:

- (A) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, in 20% or more of the stocks which then comprise the Energy Select Sector Index;
- (B) the suspension or material limitation, in each case, for more than two hours of trading, or during the one-half hour period preceding the close of trading on the applicable exchange, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts related to the Energy SPDR Fund which are traded on any major U.S. exchange; or
- (C) the Energy SPDR Fund (1) is unable or otherwise fails to issue a Net Asset Value for any shares of the Energy SPDR Fund after the close of business on the NYSE, or (2) suspends the creation or redemption of shares of the Energy SPDR Fund.

For the purposes of clauses (A) and (B) of this definition, a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange and for the purpose of clause (A) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Termination of the Energy SPDR Fund

If the Energy SPDR Fund is liquidated or otherwise terminated, for purposes of calculating the Supplemental Redemption Amount payable at the maturity of the MITTS Securities, the calculation agent will

calculate the Net Asset Value per share of the Energy SPDR Fund as follows: the Net Asset Value per share of the Energy SPDR Fund on the Trading Day occurring immediately before any liquidating distribution will equal the Net Asset Value for that day (the "Pre-liquidation Date"). The calculation agent will then calculate the Net Asset Value after the close of trading on each Trading Day following the Pre-liquidation Date (each date, a "Determination Date") by increasing or decreasing, as the case may be, the Net Asset Value as of the immediately preceding Trading Day by the percentage by which the closing value of the Energy Select Sector Index increases or decreases from the immediately preceding Trading Day to that Determination Date and further decreasing the Net Asset Value by fees, expenses and non-liquidating distributions (together, "Fund Expenses") that the calculation agent, in its sole judgment but with reference to the Fund Expenses actually incurred by the Energy SPDR Fund before its liquidation or termination, deems would reasonably have been accrued and included in the calculation of the Net Asset Value per share of the Energy SPDR Fund had it not been liquidated or terminated, from the immediately preceding Trading Day to that Determination Date. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall

Street Journal, or another newspaper of general circulation, and arrange for information with respect to such values to be made available by telephone.

If the Energy SPDR Fund is liquidated or otherwise terminated and the Energy Select Sector Index is no longer calculated or published (an "Index Termination Event"), the calculation agent will select a successor index that it determines, in its sole discretion, to be comparable to the Energy Select Sector Index (a "successor index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the successor index for the Energy Select Sector Index and calculate the closing value as described above under "--Delivery at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a general circulation.

In the event that an Index Termination Event occurs and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute index for the Energy Select Sector Index for that Calculation Day in accordance with the procedures last used to calculate the Energy Select Sector Index before any discontinuance. The calculation agent will calculate the Net Asset Value in accordance with the procedures referred to in the first paragraph of this section with reference to a substitute index. Upon any calculation of a substitute index in accordance with this paragraph, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a general circulation.

If Standard & Poor's ("S&P") discontinues publication of the S&P 500 Index subsequent to an Index Termination Event and

- . the calculation agent does not select a successor index or the successor index is no longer published on any of the Calculation Days and
- . the calculation agent is unable to calculate a substitute index for the Energy Select Sector Index,

the calculation agent will compute a substitute index for the S&P 500 Index for that Calculation Day in accordance with the procedures last used to calculate the S&P 500 Index prior to any discontinuance. If the calculation agent calculates a substitute index for the S&P 500 Index, the calculation agent will use that substitute index to calculate the substitute index for the Energy Select Sector Index.

19

Notwithstanding these alternative arrangements, liquidation or termination of the Energy SPDR Fund or the discontinuance of the publication of the Energy Select Sector Index or the S&P 500 Index may adversely affect trading in the MITTS Securities.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Delivery at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 7.08% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

## Depository

### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning

20

through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants

21

identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

## THE ENERGY SPDR FUND

ML&Co. has attached the Fund Prospectus describing the Energy SPDR Fund and is delivering it to purchasers of the MITTS Securities together with this prospectus for the convenience of reference only. The Fund Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference into this prospectus. The summary description below is qualified in its entirety by the information describing the Energy SPDR Fund and the Energy Select Sector Index included in the attached Fund Prospectus.

As stated in the Fund Prospectus, the Energy SPDR Fund is an index fund whose investment objective is to provide investment results that, before expenses, correspond generally to the price and yield performance of the publicly traded equity securities included in the Energy Select Sector Index. The Energy Select Sector Index consists of the equity securities of publicly traded companies that are components of the S&P 500 Index and are involved in the development and production of energy products. Companies in the Energy Select Sector Index develop and produce crude oil and natural gas, and provide drilling and other energy related services.

Although ML&Co.'s subsidiary, MLPF&S, provides certain services to the Energy SPDR Fund and the Energy Select Sector Index, ML&Co. is not affiliated with the Energy SPDR Fund or the Energy Select Sector Index, and the Energy SPDR Fund did not receive any of the proceeds from the sale of the MITTS Securities. A prospective purchaser of the MITTS Securities should independently decide whether an investment in the MITTS Securities and the Energy SPDR Fund is appropriate.

The Energy SPDR Fund is one of nine investment funds comprising the Select Sector SPDR Trust. Each fund's investment portfolio is comprised principally of constituent companies whose equity securities are components of the S&P 500 Index, each representing one of nine specified market sector indices. Each stock in the S&P 500 Index is allocated to only one Select Sector Index. The combined companies of the nine indices represent all of the companies whose stocks are components of the S&P 500 Index. The Energy SPDR Fund's initial public offering occurred on December 16, 1998 and therefore it has limited operating history.

Because the Select Sector SPDR Trust is subject to the registration requirements of the Securities Act and the Investment Company Act, the Trust is required to file periodically certain information specified by the SEC. For more information about the Energy SPDR Fund and the shares that a holder of the MITTS Securities may receive at maturity, information provided to or filed with the SEC by the Select Sector SPDR Trust can be inspected at the SEC's public reference facilities or accessed over the Internet through a web site maintained by the SEC at <http://www.sec.gov>. Copies of these documents may also be obtained at no cost by calling the Select Sector SPDR Trust at (800) 843- 2639 or by writing the Select Sector SPDR Trust c/o ALPS Mutual Funds Services, Inc., at 370 17th Street, Suite 3100, Denver, CO 80202. Neither the Fund Prospectus nor such other documents are incorporated by reference into this prospectus, and ML&Co. makes no representation or warranty as to the accuracy or completeness of any such documents.

ML&Co. is not affiliated with the Energy SPDR Fund, and the Energy SPDR Fund has no obligations with respect to the MITTS Securities. This prospectus relates only to the MITTS Securities offered hereby and does not relate to the shares of the Energy SPDR Fund or any other securities relating to the Energy SPDR Fund. The information contained in this prospectus regarding the Energy SPDR Fund has been derived from the publicly available documents described in the preceding paragraph. ML&Co. makes no representation that these publicly available documents or any other publicly available information regarding the Energy SPDR Fund are accurate or complete. Furthermore, there can be no assurance that all events occurring prior to the date of this prospectus (including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph) that would affect the trading price of the shares of the Energy SPDR Fund, and therefore the trading price of the MITTS Securities, have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events

concerning the Energy SPDR Fund could affect the Supplemental Redemption Amount, if any, to be received at maturity and therefore the trading value of the MITTS Securities.

MLPF&S, a subsidiary of ML&Co., is a soliciting dealer in the shares of the Energy SPDR Fund. Additionally, MLPF&S serves as index compilation agent for the Energy Select Sector Index. In its capacity as index compilation agent, MLPF&S determines, in consultation with S&P, the composition of the securities measured by the Energy Select Sector Index.

S&P, the AMEX and MLPF&S have entered into a non-exclusive license agreement providing for the license to MLPF&S, in exchange for a fee, of the right to use indices owned and published by S&P in connection with certain securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee of MLPF&S.

The license agreement among S&P, the AMEX and MLPF&S provides that the following language must be stated in this prospectus:

"Standard & Poor's(R)", "Standard & Poor's 500", "S&P 500(R)", "S&P(R)", "500", "Standard & Poor's Depository Receipts", "SPDRs", "Select Sector SPDR" and "Select Sector Standard & Poor's Depository Receipts" are trademarks of Standard & Poor's, a division of The McGraw-Hill Companies, Inc., and have been licensed for use by MLPF&S. ML&Co., is an authorized sublicensee of MLPF&S. The stocks comprising the Energy Select Sector Index were selected by MLPF&S, as index compilation agent, in consultation with S&P from the universe of companies represented by the S&P 500 Index. The composition and weightings of the stocks included in the Energy Select Sector Index can be expected to differ from the composition and weighting of stocks included in any similar S&P 500 sector index published and disseminated by S&P.

The MITTS Securities, the Energy SPDR Fund and the Energy Select Sector Index are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or in the ability of the Energy SPDR Fund to track the performance and yield of the Energy Select Sector Index or in the ability of the Energy Select Sector Index to track the performance of the energy sector represented in the stock market. The stocks included in the Energy Select Sector Index were selected by MLPF&S as the index compilation agent in consultation with S&P from a universe of companies involved in the development and production of energy products and represented by the S&P 500 Index. S&P's only relationship to the index compilation agent is the licensing of certain trademarks and trade names of S&P and of the S&P 500 Index which is determined, composed and calculated by S&P without regard to the index compilation agent or the MITTS Securities. S&P has no obligation to take the needs of the index compilation agent, ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. S&P is not responsible for and has not participated in any determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities were initially sold, or quantities of the MITTS Securities issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into shares of the Energy SPDR Fund or cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

S&P does not guarantee the accuracy and/or the completeness of the S&P 500 Index, the Energy Select Sector Index or any data included therein. S&P makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, the holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index, the Energy Select Sector Index or any data included therein in connection with the rights licensed under the license agreement described herein or for any other use. S&P makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose

24

with respect to the S&P 500 Index, the Energy Select Sector Index or any data included therein. Without limiting the generality of the foregoing, in no event shall S&P have any liability for any special, punitive, indirect or consequential damages (including lost profits), even if notified of the possibility of such damages."

All disclosures contained in this prospectus regarding the S&P 500 Index or the Energy Select Sector Index, including its respective make-up, method of calculation and changes in its components, are derived from publicly available information prepared by S&P and the Trust, respectively. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of such information.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

25

#### Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the

consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;

26

- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or

in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.2732 per unit. This represents an estimated yield on the MITTS Securities equal to 7.08% per annum, compounded semiannually.

The projected payment schedule, including both projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7.08% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

Projected Supplemental Redemption Amount = \$6.2732 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other

documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods

included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

#### SUMMARY INFORMATION-Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Global Market Index Target-Term Securities due December 22, 2004. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the S&P 500 Index (the "S&P 500"), the Nikkei Stock Average (the "Nikkei 225 Index"), the Dow Jones Euro STOXX 50 Index (the "Euro STOXX 50") and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

The S&P 500, the Nikkei 225 Index and the Euro STOXX 50 are referred to collectively as the "Underlying Indices" in this prospectus.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on December 22, 2004. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company,

also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the Underlying Indices as reduced by the Adjustment Factor. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount".

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal the sum of the "Index Redemption Amounts" for each of the Underlying Indices but will not be less than zero.

The "Index Redemption Amount" means, for each of the Underlying Indices:

$$\begin{array}{r} \text{\$10 X ( ( Adjusted Ending Value - Starting Value ) } \\ \text{----- ) X -} \\ \text{( Starting Value ) } \end{array} \begin{array}{r} 1 \\ 3 \end{array}$$

The "Starting Value" equals 1,418.78 for the S&P 500, 18,111.31 for the Nikkei 225 Index and 4,517.68 for the Euro STOXX 50, each the closing value of that Underlying Index on December 16, 1999, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value", for each Underlying Index, will be the average of the values of that Underlying Index at the close of the market on five business days shortly before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may

3

calculate the Adjusted Ending Values by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the component stocks included in any of the Underlying Indices or certain futures or options contracts relating to any of the Underlying Indices.

The "Adjustment Factor" equals 1.75% per year and will be prorated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the Underlying Indices used to calculate the Index Redemption Amounts during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Index Redemption Amounts during the Calculation Period at the stated maturity of the MITTS Securities will be approximately 8.39% less than the actual closing values of the Underlying Indices on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the Underlying Indices used to calculate the Index Redemption Amounts and the Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at maturity" in this prospectus.

For more specific information about the Index Redemption Amounts and the Supplemental Redemption Amount, please see the section entitled "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the sum of the Index Redemption Amounts is greater than zero. If the sum of the Index Redemption Amounts is less than, or equal to, zero, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 1.75% per year:

Example 1--The sum of the hypothetical Index Redemption Amounts is less than zero at maturity:

S&P 500 Starting Value: 1,418.78  
Hypothetical closing value of the S&P 500 at maturity: 1,702.54  
Hypothetical Adjusted Ending Value of the S&P 500: 1,559.74

<TABLE>  
 <S> <C>  

$$\text{S\&P 500 Index Redemption Amount (per unit)} = \$10 \times \left( \frac{1,559.74 - 1,418.78}{1,418.78} \right) \times \frac{1}{3} = \$0.33$$

</TABLE>

Nikkei 225 Index Starting Value: 18,111.31  
 Hypothetical closing value of the Nikkei 225 Index at maturity: 21,733.57  
 Hypothetical Adjusted Ending Value of the Nikkei 225 Index: 19,910.76

<TABLE>  
 <S> <C>  

$$\text{Nikkei 225 Index Redemption Amount (per unit)} = \$10 \times \left( \frac{19,910.76 - 18,111.31}{18,111.31} \right) \times \frac{1}{3} = \$0.33$$

</TABLE>

Euro STOXX 50 Starting Value: 4,517.68  
 Hypothetical closing value of the Euro STOXX 50 at maturity: 3,840.03  
 Hypothetical Adjusted Ending Value of the Euro STOXX 50: 3,517.96

4

<TABLE>  
 <S> <C>  

$$\text{Euro STOXX 50 Index Redemption Amount (per unit)} = \$10 \times \left( \frac{3,517.96 - 4,517.68}{4,517.68} \right) \times \frac{1}{3} = -\$0.74$$

</TABLE>

Supplemental Redemption Amount = \$0.33 + \$0.33 - \$0.74 = \$0.00

(Supplemental Redemption Amount cannot be less than zero)

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The sum of the hypothetical Index Redemption Amounts is greater than zero at maturity:

S&P 500 Starting Value: 1,418.78  
 Hypothetical closing value of the S&P 500 at maturity: 2,270.05  
 Hypothetical Adjusted Ending Value of the S&P 500: 2,079.66

<TABLE>  
 <S> <C>  

$$\text{S\&P 500 Index Redemption Amount (per unit)} = \$10 \times \left( \frac{2,079.66 - 1,418.78}{1,418.78} \right) \times \frac{1}{3} = \$1.55$$

</TABLE>

Nikkei 225 Index Starting Value: 18,111.31  
 Hypothetical closing value of the Nikkei 225 Index at maturity: 28,978.10  
 Hypothetical Adjusted Ending Value of the Nikkei 225 Index: 26,547.68

<TABLE>  
 <S> <C>  

$$\text{Nikkei 225 Index Redemption Amount (per unit)} = \$10 \times \left( \frac{26,547.68 - 18,111.31}{18,111.31} \right) \times \frac{1}{3} = \$1.55$$

</TABLE>

Euro STOXX 50 Starting Value: 4,517.68  
 Hypothetical closing value of the Euro STOXX 50 at maturity: 6,776.52  
 Hypothetical Adjusted Ending Value of the Euro STOXX 50: 6,208.17

<TABLE>  
 <S> <C>  

$$\text{Euro STOXX 50 Index Redemption Amount (per unit)} = \$10 \times \left( \frac{6,208.17 - 4,517.68}{4,517.68} \right) \times \frac{1}{3} = \$1.25$$

</TABLE>

Supplemental Redemption Amount = \$1.55 + \$1.55 + \$1.25 = \$4.35

Total payment at maturity (per unit) = \$10 + \$4.35 = \$14.35

Will I receive interest payments on the MITTS Securities?

You will not receive any interest payments on the MITTS Securities, but will instead receive the principal amount plus the Supplemental Redemption Amount, if any, at maturity. We have designed the MITTS Securities for investors who are willing to forego market interest payments on the MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the

Underlying Indices.

Who publishes the Underlying Indices and what do they measure?

The S&P 500 is published by Standard & Poor's, a division of The McGraw-Hill

5

Companies, Inc., and is intended to provide an indication of the pattern of common stock price movement in the United States. The value of the S&P 500 is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. The market value for the common stock of a company is the product of the market price per share of the common stock and the number of outstanding shares of common stock. Standard & Poor's chooses companies for inclusion in the S&P 500 with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market.

The Nikkei 225 Index is a stock index published by Nihon Keizai Shimbun, Inc. ("NKS") that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 common stocks traded on the Tokyo Stock Exchange (the "TSE") and represents a broad cross section of Japanese industry. All 225 underlying stocks (the "Underlying Stocks") are stocks listed in the First Section of the TSE and are, therefore, among the most actively traded stocks on the TSE. The Nikkei 225 Index is a modified, price-weighted index, which means an Underlying Stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer.

The Euro STOXX 50 was created by STOXX, a joint venture founded by SWX-Swiss Exchange, SBF-Bourse de Paris, Deutsche Borse AG and Dow Jones. Publication of the Euro STOXX 50 began on February 26, 1998. The Euro STOXX 50 consists of the stocks of 50 European companies that are among the largest in market capitalization, highest in liquidity and are the leaders of their industrial sectors.

Please note that an investment in the MITTS Securities does not entitle you to any ownership interest in the stocks of the companies included in the Underlying Indices.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the trading symbol "GMM". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Values, the Index Redemption Amounts and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

6

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the sum of the Index Redemption Amounts does not exceed zero on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of one or more of the Index Redemption Amounts is greater than zero but the sum of the Index Redemption Amounts is less than zero at maturity. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Underlying Indices

The value of each Underlying Index is calculated by reference to the prices of the common stocks included in that Underlying Index without taking into consideration the value of dividends paid on those stocks. The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in each Underlying Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor applied to the closing values of each Underlying Index used to calculate that Underlying Index's Index Redemption Amount and because the value of each Underlying Index is calculated by reference to the prices of the stocks included in that Underlying Index without taking into consideration the value of dividends paid on those stocks.

Your return will not be adjusted for changes in currency exchange rates

Although the stocks included in the Nikkei 225 Index and the Euro STOXX 50 are traded in various currencies and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for the currency exchange rate in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon changes in the value of the Underlying Indices. Changes in exchange rates, however, may reflect changes in a country's economy which in turn may affect the value of an Underlying Index and the MITTS Securities.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on the AMEX under the trading symbol "GMM", you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the Underlying Indices.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

7

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of an Underlying Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The values of the Underlying Indices are expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS

Securities will depend substantially on the amount, if any, by which each Underlying Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value for that Underlying Index. If you choose to sell your MITTS Securities when the value of each Underlying Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the corresponding Starting Value of each Underlying Index, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the Underlying Indices will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of each Underlying Index is below, or not sufficiently above, the corresponding Starting Value of each Underlying Index, you may receive less than the \$10 principal amount per unit of MITTS Securities. Because the Supplemental Redemption Amount equals the sum of the Index Redemption Amounts, an increase in the value of an Underlying Index may be offset by a decrease in the value of another Underlying Index. In general, rising dividend rates or dividends per share may increase the value of the Underlying Indices, while falling dividend rates may decrease the value of the Underlying Indices. Political, economic and other developments that affect the stocks underlying the Underlying Indices may also affect the value of the Underlying Indices and, indirectly, the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. In general, if interest rates in Japan or Europe increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in Japan or Europe decrease, we expect that the trading value of the MITTS Securities will decrease. The level of interest rates in the U.S., Japan or Europe may also affect the applicable economies and, in turn, the value of the relevant Underlying Index. Rising interest rates may lower the value of an Underlying Index and, thus, may decrease the value of the MITTS Securities. Falling interest rates may increase the value of an Underlying Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the Underlying Indices are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the Underlying Indices increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Underlying Indices decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the Underlying Indices. This difference will reflect a "time premium" due to expectations concerning the value of the Underlying Indices during the period before the stated maturity of the MITTS Securities. However, as the

8

time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Underlying Indices are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Underlying Indices increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the Underlying Indices decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Underlying Indices at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given change in the value of each Underlying Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Risks associated with the Japanese and European securities markets

The stocks that constitute the Nikkei 225 Index and the Euro STOXX 50 have been issued by companies in Japan and various European countries. You should be aware that investments in securities indexed to the value of these equity securities involve certain risks. The Japanese and European securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S. or other securities markets. Direct or indirect government intervention to stabilize the Japanese and European securities markets and cross-shareholdings in companies on those markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about Japanese and European companies than about those U.S. companies that are subject to the reporting requirements of the SEC, and Japanese and European companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in each country are subject to political, economic, financial and social factors that apply in that country. These factors, which could negatively affect that country's securities markets, include the possibility of recent or future changes in the government's economic and fiscal policies, the possible

9

imposition of, or changes in, currency exchange laws or other laws or restrictions applicable to companies or investments in a country's equity securities and the possibility of fluctuations in the rate of exchange between currencies. Moreover, the economy of each country may differ favorably or unfavorably from the U.S. economy with regard to growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the Underlying Indices or futures or options contracts on the Underlying Indices for our own accounts, for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Underlying Indices in a manner that could be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Values, Index Redemption Amounts and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the values of the Underlying Indices can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of an Underlying Index. See the sections entitled "Description of the MITTS Securities--Adjustments to the Underlying Indices; Market Disruption Events" and "--Discontinuance of the Underlying Indices" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

10

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS securities described in this prospectus.

11

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

12

#### DESCRIPTION OF THE MITTS SECURITIES

On December 22, 1999, ML&Co. issued an aggregate principal amount of

\$47,000,000 or 4,700,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture which is more fully described in this prospectus.

The MITTS Securities will mature on December 22, 2004.

While at maturity a beneficial owner of a MITTS Security will receive the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity" below.

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under the sections entitled "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

#### Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Supplemental Redemption Amount does not exceed zero, you will be entitled to receive only the principal amount of your MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal the sum of the Index Redemption Amounts, provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Index Redemption Amount" means, for each of the Underlying Indices:

<TABLE>			
<S>	<C>		
principal amount of each MITTS Security (\$10 per unit) X	( Adjusted Ending Value - Starting Value )	1	
	( ----- ) X	-	
	( Starting Value )	3	
</TABLE>			

The "Starting Value" equals 1,418.78 for the S&P 500, 18,111.31 for the Nikkei 225 Index and 4,517.68 for the Euro STOXX 50, each the closing value of that Underlying Index on December 16, 1999, the day the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" for each Underlying Index will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of that Underlying Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days during the Calculation Period, then the Adjusted Ending Values will equal the average or arithmetic mean of the closing values of the applicable Underlying Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day, then the Adjusted Ending Values will equal the closing value of the applicable Underlying Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Values will equal the closing value of the applicable Underlying Index determined on the last scheduled Index Business Day in the Calculation Period, as reduced by the

application of the Adjustment Factor on that Index Business Day, regardless of the occurrence of a Market Disruption Event on that Index Business Day.

The "Adjustment Factor" equals 1.75% per year and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a prorated basis based on a 365-day year to reduce the values used to calculate the Index Redemption Amounts on each Calculation Day during the Calculation Period. As a result of the cumulative effect of this reduction, the values used to calculate the Index Redemption Amounts during the Calculation Period will be approximately 8.39% less than the actual closing values of the Underlying Indices on each Calculation Day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

"Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is a day on which the NYSE and the AMEX are open for trading and the Underlying Indices or any successor indices are calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

#### Hypothetical returns

The following table illustrates, for a range of average percentage changes from the Starting Value to the hypothetical closing value for the Underlying Indices, assuming an initial investment of \$10 per unit and an investment term from December 22, 1999 to December 22, 2004:

- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of the MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the Underlying Indices, which includes an assumed aggregate dividend yield of 1.22% per annum, as more fully described below.

14

<TABLE>

<CAPTION>

Percentage change from the Starting Value to the hypothetical closing value of the Underlying Indices (1)	Total amount payable at maturity per unit of the MITTS Securities (2)	Total rate of return on the MITTS Securities (2)	Pretax annualized rate of return on the MITTS Securities (2) (3)	Pretax annualized rate of return of stocks included in the Underlying Indices (3) (4)
<S>	<C>	<C>	<C>	<C>
-80%	10.00	0.00%	0.00%	-28.45%
-60%	10.00	0.00%	0.00%	-16.32%
-40%	10.00	0.00%	0.00%	-8.77%
-20%	10.00	0.00%	0.00%	-3.21%
0%	10.00	0.00%	0.00%	1.22%
20%	10.99	9.94%	1.90%	4.93%
40%	12.83	28.26%	5.03%	8.12%
60%	14.66	46.58%	7.79%	10.93%
80%	16.49	64.90%	10.25%	13.44%
100%	18.32	83.23%	12.47%	15.72%
120%	20.15	101.55%	14.50%	17.80%
140%	21.99	119.87%	16.38%	19.72%
160%	23.82	138.19%	18.11%	21.50%
180%	25.65	156.52%	19.73%	23.17%
200%	27.48	174.84%	21.25%	24.73%

</TABLE>

- (1) The percentage change in the Starting Value and the hypothetical closing value of each of the Underlying Indices does not reflect the application of the Adjustment Factor.
- (2) The total amount payable at maturity per unit of MITTS Securities and the total and pretax annualized rates of return on the MITTS Securities assume the application of an Adjustment Factor of 1.75%.
- (3) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (4) This rate of return assumes:
  - (a) a percentage change in the aggregate price of the stocks that equals the percentage change in the Underlying Indices from the aggregate Starting Value to the relevant hypothetical aggregate closing value;
  - (b) a constant dividend yield of 1.22% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the Underlying Indices at the end of each quarter assuming this value increases or decreases linearly from the hypothetical aggregate Starting Value to the applicable hypothetical aggregate closing value;
  - (c) no transaction fees or expenses in connection with purchasing and

- holding stocks included in the Underlying Indices; and
- (d) an initial investment of \$10 per unit and an investment term for the MITTS Securities from December 22, 1999 to December 22, 2004.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Underlying Indices; Market Disruption Events

If at any time the publisher of an Underlying Index changes its method of calculating that Underlying Index, or the value of an Underlying Index changes, in any material respect, or if an Underlying Index is in any other way modified so that the Underlying Index does not, in the opinion of the calculation agent, fairly represent the value of that Underlying Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of that Underlying Index is to be calculated, make any adjustments as, in the good faith

15

judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to that Underlying Index as if those changes or modifications had not been made, and calculate the closing value with reference to the Underlying Index, as adjusted. Accordingly, if the method of calculating an Underlying Index is modified so that the value of that Underlying Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust that Underlying Index in order to arrive at a value of that Underlying Index as if it had not been modified, e.g., as if the split had not occurred.

"Market Disruption Event" means, with respect to any Underlying Index, the occurrence or existence of any suspension of, or limitation imposed on, trading, by reason of movements in price exceeding limits permitted by the relevant exchange or otherwise, during the one-half hour period that ends at the regular official weekday time at which trading on the Index Exchange related to that Underlying Index occurs, on:

- (A) the Index Exchange in securities that comprise 20% or more of the value of that Underlying Index or
- (B) any exchanges on which futures or options on that Underlying Index are traded in those options or futures if, in the determination of the calculation agent, that suspension or limitation is material.

For the purpose of the above definition:

- (1) a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular hours of the relevant exchange, and
- (2) a limitation on trading imposed during the course of a day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange will constitute a Market Disruption Event.

"Index Exchange" means, with respect to any Underlying Index, the principal exchange on which the shares comprising that Underlying Index are traded.

#### Discontinuance of an Underlying Index

If publication of any Underlying Index is discontinued and the calculation agent determines, in its sole discretion, that a published successor or substitute is comparable to that Underlying Index (a "successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index for that Underlying Index and calculate the closing value as described above under "--Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

In the event that the publication of any Underlying Index is discontinued and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Index Business Days during the Calculation Period,

the calculation agent will compute a substitute value for that Underlying Index in accordance with the procedures last used to calculate that Underlying Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for any Underlying Index as described below, the successor index or value shall be substituted for that Underlying

Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

16

If the publication of any Underlying Index is discontinued before the period during which the Index Redemption Amounts are to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value for that Underlying Index and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Index Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of any Underlying Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of the MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 6.87% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

17

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a

participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

18

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the

depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

19

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

#### THE UNDERLYING INDICES

##### The S&P 500 Index

Standard & Poor's publishes the S&P 500 Index. The S&P 500 Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the S&P 500 Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the S&P 500 Index to achieve the objectives stated above.

The S&P 500 Index does not reflect the payment of dividends on the stocks included in the S&P 500 Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same return that you would receive if you were to purchase these stocks and hold them

for a period equal to the term of the MITTS Securities.

#### Computation of the S&P 500 Index

Standard & Poor's currently computes the S&P 500 Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and

20

- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the S&P 500 Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as:

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of ML&Co.,
- . the substitution by Standard & Poor's of particular component stocks in the S&P 500 Index, and
- . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{old base value} \times \frac{\text{new base value}}{\text{old market value}} = \text{new market value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the S&P 500 Index.

#### License Agreement

Standard & Poor's does not guarantee the accuracy and/or the completeness of the S&P 500 Index or any data included in that index. Standard & Poor's makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index or any data included therein in connection with the rights licensed under the license agreement described in this prospectus or for any other use. Standard & Poor's makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a

particular purpose with respect to the S&P 500 Index or any data included therein. Without limiting any of the above, in no event shall Standard & Poor's have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

Standard & Poor's and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by Standard & Poor's in connection with certain securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee under that agreement.

21

The license agreement between Standard & Poor's and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by Standard & Poor's. Standard & Poor's makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the S&P 500 Index to track general stock market performance. Standard & Poor's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of Standard & Poor's and of the S&P 500 Index which is determined, composed and calculated by Standard & Poor's without regard to ML&Co. or the MITTS Securities. Standard & Poor's has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. Standard & Poor's is not responsible for and did not participate in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities were initially sold, or quantities of the MITTS Securities issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. Standard & Poor's has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

All disclosures contained in this prospectus regarding the above S&P 500 Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by Standard & Poor's. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

The Nikkei 225 Index

All disclosure contained in this prospectus regarding the Nikkei 225 Index, including, without limitation, its make-up, method of calculation and changes in its components, unless otherwise stated, has been derived from the Stock Market Indices Data Book published by NKS and other publicly available sources. The information reflects the policies of NKS as stated in these sources; and the policies are subject to change at the discretion of NKS.

The Nikkei 225 Index is a stock index calculated, published and disseminated by NKS that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 Underlying Stocks trading on the TSE and represents a broad cross-section of Japanese industry. All 225 Underlying Stocks are stocks listed in the First Section of the TSE. Stocks listed in the First Section are among the most actively traded stocks on the TSE. Futures and options contracts on the Nikkei 225 Index are traded on the Singapore International Monetary Exchange, the Osaka Securities Exchange and the Chicago Mercantile Exchange.

The value of the Nikkei 225 Index is reported on the AMEX under the symbol "N225", on Bloomberg under the symbol "NKY" and on Reuters under the symbol ".N225".

The Nikkei 225 Index is a modified, price-weighted index. Each stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer. NKS calculates the Nikkei 225 Index by: multiplying the per share price of each Underlying Stock by the corresponding weighting factor for that Underlying Stock (a "Weight Factor"), calculating the sum of all these products and dividing that sum by a divisor. Each Weight Factor is computed by dividing (Yen)50 by the par value of the relevant Underlying Stock, so that the share price of each Underlying Stock when multiplied by its Weight Factor corresponds to a share price based on a uniform par value of (Yen)50. Each Weight Factor represents the number of shares of the related Underlying Stock which are included in one trading unit of the Nikkei 225 Index. The stock prices used in the calculation of the Nikkei 225 Index are those reported by a primary market for the Underlying Stocks, which is currently the TSE. The level of the Nikkei 225 Index is calculated once per minute during TSE trading hours.

22

The divisor was initially set in 1949 at 225 and is subject to periodic adjustment.

The divisor was initially set in 1949 at 225 and is subject to periodic adjustment. In order to maintain continuity in the level of the Nikkei 225 Index in the event of certain changes due to non-market factors affecting the Underlying Stocks, such as the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the Nikkei 225 Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the Nikkei 225 Index. The divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each change affecting any Underlying Stock, the divisor is adjusted in such a way that the sum of all share prices immediately after the change multiplied by the applicable Weight Factor and divided by the new divisor, the level of the Nikkei 225 Index immediately after the change, will equal the level of the Nikkei 225 Index immediately prior to the change. The current divisor is available on Bloomberg under the symbol "WKY". The current divisor is available on Bloomberg under the symbol "NKY".

Underlying Stocks may be deleted or added by NKS. However, to maintain continuity in the Nikkei 225 Index, the policy of NKS is generally not to alter the composition of the Underlying Stocks except when an Underlying Stock is deleted in accordance with the following criteria. Any stock becoming ineligible for listing in the First Section of the TSE due to any of the following reasons will be deleted from the Underlying Stocks: bankruptcy of the issuer; merger of the issuer into, or acquisition of the issuer by, another company; delisting of the stock or transfer of the stock to the "Seiri-Post" because of excess debt of the issuer or because of any other reason; or transfer of the stock to the Second Section of the TSE. Upon deletion of a stock from the Underlying Stocks, NKS will select, in accordance with certain criteria established by it, a replacement for the deleted Underlying Stock. In an exceptional case, a newly listed stock in the First Section of the TSE that is recognized by NKS to be representative of a market may be added to the Underlying Stocks. As a result, an existing Underlying Stock with low trading volume and not representative of a market will be deleted.

NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225 Index. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus that NKS makes any representation or warranty, implied or express, to ML&Co., the holder of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 Index to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holder of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225 Index. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration or marketing of the MITTS Securities.

The use of and reference to the Nikkei 225 Index in connection with the MITTS Securities have been consented to by NKS, the publisher of the Nikkei 225 Index.

None of ML&Co., the calculation agent and MLPF&S accepts any responsibility for the calculation, maintenance or publication of the Nikkei 225 Index or any successor index. NKS disclaims all responsibility for any errors or omissions in the calculation and dissemination of the Nikkei 225 Index or the manner in which the Nikkei 225 Index is applied in determining any Starting Values or Adjusted Ending Values or any Supplemental Redemption Amount upon maturity of the MITTS Securities.

The Tokyo Stock Exchange

The TSE is one of the world's largest securities exchanges in terms of market capitalization. Trading hours are currently from 9:00 A.M. to 11:00 A.M. and from 12:30 P.M. to 3:00 P.M., Tokyo time, Monday through Friday.

23

Due to the time zone difference, on any normal trading day, the TSE will close prior to the opening of business in The City of New York on the same calendar day. Therefore, the closing level of the Nikkei 225 Index on a trading day will generally be available in the United States by the opening of business on the same calendar day.

The TSE has adopted certain measures, including daily price floors and ceilings on individual stocks, intended to prevent any extreme short-term price fluctuations resulting from order imbalances. In general, any stock listed on the TSE cannot be traded at a price lower than the applicable price floor or higher than the applicable price ceiling. These price floors and ceilings are

expressed in absolute Japanese yen, rather than percentage limits based on the closing price of the stock on the previous trading day. In addition, when there is a major order imbalance in a listed stock, the TSE posts a "special bid quote" or a "special asked quote" for that stock at a specified higher or lower price level than the stock's last sale price in order to solicit counter-orders and balance supply and demand for the stock. Prospective investors should also be aware that the TSE may suspend the trading of individual stocks in certain limited and extraordinary circumstances, including, for example, unusual trading activity in that stock. As a result, changes in the Nikkei 225 Index may be limited by price limitations or special quotes, or by suspension of trading, on individual stocks which comprise the Nikkei 225 Index, and these limitations may, in turn, adversely affect the value of the MITTS Securities.

The Euro STOXX 50

The Euro STOXX 50 was created by STOXX, a joint venture founded by SWX-Swiss Exchange, SBF-Bourse de Paris, Deutsche Borse AG and Dow Jones. Publication of the Euro STOXX 50 began on February 26, 1998, based on an initial value of the Euro STOXX 50 of 1,000 at December 31, 1991.

The Euro STOXX 50 is currently calculated by (i) multiplying the per share price of each underlying security by the number of outstanding shares (and, if the stock is not quoted in euro, then multiplied by the country currency and an exchange factor which reflects the exchange rate between the country currency and the euro); (ii) calculating the sum of all these products (the "Index Aggregate Market Capitalization"); and (iii) dividing the Index Aggregate Market Capitalization by a divisor which represents the Index Aggregate Market Capitalization on the base date of the Euro STOXX 50 and which can be adjusted to allow changes in the issued share capital of individual underlying securities, including the deletion and addition of stocks, the substitution of stocks, stock dividends and stock splits, to be made without distorting the Euro STOXX 50. Because of this capitalization weighting, movements in share prices of the underlying securities of companies with relatively greater market capitalization will have a greater effect on the value of the entire Euro STOXX 50 than will movements in share prices of the underlying securities of companies with relatively smaller market capitalization.

The composition of the Euro STOXX 50 is reviewed annually, and changes are implemented on the third Friday in September, using market data from the end of July as the basis for the review process. Changes in the composition of the Euro STOXX 50 are made to ensure that the Euro STOXX 50 includes those companies which, within the eligible countries and within each industry sector, have the greatest market capitalization. Changes in the composition of the Euro STOXX 50 are made entirely by STOXX without consultation with the corporations represented in the Euro STOXX 50 or ML&Co. The Euro STOXX 50 is also reviewed on an ongoing basis, and change in the composition of the Euro STOXX 50 may be necessary if there have been extraordinary events for one of the issuers of the underlying securities, e.g., delisting, bankruptcy, merger or takeover. In these cases, the event is taken into account as soon as it is effective. The underlying securities may be changed at any time for any reason. Neither STOXX nor any of its founders is affiliated with ML&Co. and has participated in any way in the creation of the MITTS Securities.

ML&Co. or its affiliates may presently or from time to time engage in business with the publishers, owners, founders or creators of the Euro STOXX 50 or any of its successors or one or more of the issuers of the underlying securities, including extending loans to, making equity investments in or providing advisory services, including merger and acquisition advisory services, to the publishers, their successors, founders or

24

creators or to any of the issuers. In the course of business with issuers, ML&Co. or its affiliates may acquire non-public information with respect to the issuers. ML&Co. may also act as market maker for the common stocks of the issuers. ML&Co. does not make any representation to any purchaser of MITTS Securities with respect to any matters whatsoever relating to any of the publishers, their successors, founders or creators or to any of the issuers. Any prospective purchaser of MITTS Securities should undertake an independent investigation of the issuers of the underlying securities and with respect to the competency of its publisher to formulate and calculate the Euro STOXX 50 as in its judgment is appropriate to make an informed decision with respect to an investment in the MITTS Securities. The composition of the Euro STOXX 50 does not reflect any investment or sell recommendations of ML&Co. or its affiliates.

A representative of an affiliate of ML&Co. may from time to time be a member of the STOXX Limited Advisory Committee. STOXX states in its Guide to the Dow Jones STOXX Indexes that STOXX's Advisory Committee advises the Supervisory Board on matters relating to the Euro STOXX 50. This advisory committee proposes changes in the composition of the Euro STOXX 50 to the Supervisory Board and makes recommendations with respect to the accuracy and transparency of the index computation. Decisions on the composition and changes in the Euro STOXX 50 are reserved to the Supervisory Board.

STOXX Ltd. and ML&Co. have entered into a non-exclusive license agreement

providing for the license to ML&Co., in exchange for a fee, of the right to use the Euro STOXX 50, which is owned and published by STOXX, in connection with certain securities, including the MITTS Securities.

The license agreement between STOXX and ML&Co. provides that the following language must be set forth in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by STOXX LIMITED or Dow Jones & Company, Inc. Neither STOXX nor Dow Jones makes any representation or warranty, express or implied, to the owners of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly. The only relationship of STOXX to ML&Co. is as the licensor of the Dow Jones STOXX, the Dow Jones Euro STOXX 50 and of certain trademarks, trade names and service marks of STOXX, and as the sublicensor of the Dow Jones STOXX, the Dow Jones Euro STOXX and of certain trademarks, trade names and service marks of Dow Jones. The aforementioned indices are determined, composed and calculated by STOXX or Dow Jones, as the case may be, without regard to ML&Co. or the MITTS Securities. Neither STOXX nor Dow Jones is responsible for or has participated in the determination of the timing of, prices at, or quantities of the MITTS Securities issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. Neither STOXX nor Dow Jones has any obligation or liability in connection with the administration, marketing or trading of the MITTS Securities.

NEITHER STOXX NOR DOW JONES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY DATA INCLUDED THEREIN AND NEITHER SHALL HAVE ANY LIABILITY FOR ANY ERRORS, OMISSIONS OR INTERRUPTIONS THEREIN. NEITHER STOXX NOR DOW JONES MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY ML&CO., OWNERS OF THE MITTS SECURITIES, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDICES OR ANY DATA INCLUDED THEREIN. NEITHER STOXX NOR DOW JONES MAKES ANY EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE INDEXES OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL EITHER STOXX OR DOW JONES HAVE ANY LIABILITY FOR ANY LOST PROFITS OR INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES OR LOSSES, EVEN IF NOTIFIED OF THE POSSIBILITY THEREOF. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN STOXX AND ML&CO."

25

The Dow Jones Euro STOXX 50 is owned by STOXX Ltd. and is a service mark of Dow Jones & Company, Inc., and has been licensed for certain purposes by ML&Co. (C) 1998 by STOXX Ltd. All rights reserved.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens

specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

26

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or

- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

27

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to

28

receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the United States Federal income tax treatment of contingent payment debt instruments to the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$4.0189 per unit. This represents an estimated yield on the MITTS Securities equal to 6.87% per annum (compounded semiannually).

The projected payment schedule, including both projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon the projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 6.87% per annum, compounded semiannually, as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on the MITTS Securities as of the end of accrual period (per unit) -----
<S>	<C>	<C>
December 23, 1999 through June 22, 2000.....	\$0.3445	\$0.3445
June 23, 2000 through December 22, 2000.....	\$0.3553	\$0.6998
December 23, 2000 through June 22, 2001.....	\$0.3675	\$1.0673
June 23, 2001 through December 22, 2001.....	\$0.3802	\$1.4475
December 23, 2001 through June 22, 2002.....	\$0.3932	\$1.8407
June 23, 2002 through December 22, 2002.....	\$0.4067	\$2.2474
December 23, 2002 through June 22, 2003.....	\$0.4207	\$2.6681
June 23, 2003 through December 22, 2003.....	\$0.4352	\$3.1033
December 23, 2003 through June 22, 2004.....	\$0.4501	\$3.5534
June 23, 2004 through December 22, 2004.....	\$0.4655	\$4.0189

Projected Supplemental Redemption Amount = \$4.0189 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely

for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and

30

- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the AMEX or off the exchange in

negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

+++++
+ The information in this prospectus is not complete and may be changed. We +
+ may not sell these securities until the registration statement filed with +
+ the Securities and Exchange Commission is effective. This prospectus is not +
+ an offer to sell these securities and it is not soliciting an offer to buy +
+ these securities in any state where the offer and sale is not permitted. +

PROSPECTUS

Merrill Lynch & Co., Inc.
BOND INDEX NOTES
Domestic Master Series 1999A

Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, will use this prospectus when making offers and sales related to market-making transactions in the following securities.

<TABLE>
<CAPTION>

Table with 2 columns: Bond Index Notes, Maturity Amount. Row 1: Senior unsecured debt securities of Merrill Lynch & Co. Inc. / On the maturity date for your series of Bond Index Notes, we will pay you an amount equal to a percentage of the principal amount of your Bond Index Notes.

Payment of Interest:
. On each interest payment date for your series of Bond Index Notes, we will pay you an amount of interest determined with reference to the index rate

of interest for the applicable fixed income index less a fixed spread as specified in the pricing supplement related to that series.

</TABLE>

Investing in Bond Index Notes involves risks, including the risk that on the maturity date you may receive less than the principal amount of your Bond Index Notes. For a discussion of the material risks related to an investment in Bond Index Notes, you should review the pricing supplement related to your series of Bond Index Notes and this prospectus, including the section entitled "Risk Factors" on page of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

As of the date of the prospectus there has been only one Series of Bond Index Notes issued, the terms of which are discussed on page 7. For each series of Bond Index Notes, we will specify the public offering price, underwriting discount and the proceeds, before expenses, to Merrill Lynch & Co., Inc. in the applicable pricing supplement and periodically update this prospectus.

Merrill Lynch & Co.

The date of this prospectus is , .

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Bond Index Notes. We issue Bond Index Notes in separate series. All Bond Index Notes of a single series have identical terms and provisions. The terms and conditions of each series of Bond Index Notes are described in a separate final pricing supplement at the time of the issuance of that series. The pricing supplement for each series of Bond Index Notes includes the title and aggregate principal amount of that series, the specific fixed income index to which that series is linked and other information relevant to that series. You should carefully read this prospectus and the applicable pricing supplement to fully understand the terms of your Bond Index Notes, the applicable fixed income index to which those Bond Index Notes are linked and the tax and other considerations that should be important to you in making a decision about whether to invest in Bond Index Notes. You should also carefully review the "Risk Factors" section included in this prospectus on page which highlights certain risks associated with an investment in Bond Index Notes to determine whether an investment in Bond Index Notes is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc.

References in this prospectus to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are Bond Index Notes?

Each series of Bond Index Notes is a series of senior debt securities issued by ML&Co. and is not secured by collateral. Bond Index Notes rank equally with all of our other unsecured and unsubordinated debt. Each series of Bond Index Notes will mature on a specified date as set forth in the applicable pricing supplement, which will be no greater than five years from the date of their original issuance. We may not redeem any series of Bond Index Notes before their stated maturity date.

We issue Bond Index Notes in denominations of \$20 and integral multiples of \$20. You may transfer your Bond Index Notes only in these denominations. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issue Bond Index Notes in the form of global certificates, which are held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC record your ownership of the Bond Index Notes. For a description of the global certificates and DTC, you should refer to the section entitled "Description of Bond Index Notes--Depository" in this prospectus.

To which fixed income index is my Bond Index Notes be linked?

Each series of Bond Index Notes is linked to one of the following Merrill Lynch fixed income indices calculated and published by the Portfolio Strategies Group of MLPF&S and published on the AMEX:

- . U.S. Domestic Master Index,
- . Mortgage Master Index,
- . U.S. Corporate/Government Master Index,
- . U.S. Corporate Master Index,
- . U.S. Treasury/Agency Master Index,
- . U.S. Treasury Master Index, and
- . U.S. Agency Master Index.

Each fixed income index is more fully described in this prospectus under the section entitled "The Fixed Income Indices". The specific fixed income index to which your Bond Index Notes are linked is specified in the applicable pricing supplement.

What form of interest payments will I receive on my Bond Index Notes?

You will not receive fixed interest payments on your Bond Index Notes. We have designed the Bond Index Notes for investors who are willing to forego fixed interest payments on the Bond Index Notes in exchange for (1) interest payments which are paid on each interest payment date and which are based upon an index of market rates of interest, less a fixed spread, and (2) participation on the maturity date in any increase or decrease in the value of the price return component of the fixed income index to which your Bond Index Notes are linked.

3

What will I receive on each interest payment date?

On each interest payment date, we pay you interest on your Bond Index Notes in an amount equal to the Index Rate of Interest less a fixed spread specified in the final pricing supplement related to your series of Bond Index Notes.

For any interest period, the "Index Rate of Interest" for any fixed income index is equal to the weighted average of the interest accrued and interest paid on securities underlying that fixed income index less the amount of any interest scheduled to have been paid but not paid during that interest period on those underlying securities. For any interest period, the applicable Index Rate of Interest for any fixed income index is calculated as the percentage change in value of the total return of the applicable fixed income index less the percentage change in value of the price return component of that fixed income index over that interest period.

With respect to any specific interest payment date for any series of Bond Index Notes, an interest period is the period from and including the fourth business day immediately preceding the most recent prior interest payment date to but excluding the fourth business day immediately preceding the subject interest payment date, or in the case of the initial interest period, the period

from the fourth business day immediately preceding the original issue date of that series of Bond Index Notes to but excluding the fourth business day immediately preceding the initial interest payment date.

The interest payment dates on which interest payments are made are specified in the applicable pricing supplement.

What will I receive on the maturity date?

We have designed Bond Index Notes for investors who want to benefit from an investment in a selected broad-based fixed income sector as measured by a total return fixed income index, without incurring the transaction costs associated with investing in multiple fixed income securities in order to attain a broad-based and diversified fixed income portfolio. The value of each fixed income index takes into account both (1) interest paid on underlying fixed income securities and (2) the price appreciation or depreciation of those underlying fixed income securities. The price return component of Bond Index Notes represents the price appreciation or depreciation of the underlying fixed income securities. On the maturity date of any series of Bond Index Notes, in addition to an interest payment for the final interest period, you will receive a payment equal to the Maturity Amount, which will be based on the price return component of that series.

The "Maturity Amount" for each \$20 principal amount of Bond Index Notes for any series will equal:

$$\begin{aligned} & \text{( Final Price Return Value )} \\ \$20 \times & \text{( ----- )} \\ & \text{( Initial Price Return Value )} \end{aligned}$$

For purposes of determining the Maturity Amount, the "Initial Price Return Value" for any series of Bond Index Notes will equal the most recently published value of the price return component for the applicable fixed income index on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth business day immediately preceding the issue date. The Initial Price Return Value for your Bond Index Notes appears in the applicable final pricing supplement.

For purposes of determining the Maturity Amount, the "Final Price Return Value" for any series of Bond Index Notes will equal the most recently published value of the price return component for the applicable fixed income index on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth business day immediately preceding the maturity date of the applicable series of Bond Index Notes.

If the Final Price Return Value is greater than the Initial Price Return Value, you will receive a Maturity Amount that is greater than the principal amount of your Bond Index Notes. If the Final Price Return Value is less than the Initial Price Return Value, you will receive a Maturity Amount that is less than the principal amount of your Bond Index Notes, which would result in a loss to you. You should refer to the section entitled "Risk Factors--Your Bond Index Notes are not principal-protected and you may receive less than your principal amount at maturity" in this prospectus.

Who publishes the fixed income index to which my Bond Index Notes are linked and what does the fixed income index measure?

Each fixed income index is calculated, maintained and published by the Portfolio Strategies Group of our subsidiary MLPF&S. The fixed income indices are designed to reflect the value of debt

obligations issued by the U.S. government, by corporate institutions in major industry sectors or both. The fixed income indices are "total return" indices. This means that the total return of a given fixed income index measures the return of the underlying securities measured by that index based on the appreciation or depreciation in the value for these underlying securities plus the interest income paid on those underlying securities. The value of the "price return" component is published as a separate price return index for each fixed income index. A price return index is one component of a total return index and measures the appreciation or depreciation in value of a fixed principal amount of the underlying securities measured by the applicable fixed income index. The price return component of the applicable fixed income index will be used in determining the amount, if any, you will receive at maturity. Each fixed income index has been calculated and published by the Portfolio Strategies Group for at least 20 years and their respective price return components have been calculated and published by the Portfolio Strategies Group since at least 1986. Each fixed income index is also published on the AMEX.

An investment in Bond Index Notes does not entitle you to any ownership interest in the underlying securities and other assets measured by any fixed income index.

Are my Bond Index Notes listed on a securities exchange?

We will list each series of Bond Index Notes on a national securities exchange or on the Nasdaq Stock Market. We disclose the securities exchange or automated quotation system on which your Bond Index Notes are listed and the assigned trading symbol in the applicable pricing supplement. You should be aware that the listing of any series of Bond Index Notes on a securities exchange or automated quotation system does not necessarily ensure that a liquid trading market exists for any series of Bond Index Notes. You should review "Risk Factors--There may be an uncertain trading market for Bond Index Notes" in this prospectus.

What are the roles of MLPF&S?

Our subsidiary MLPF&S was the underwriter for the offering and sale of each series of Bond Index Notes.

Additionally, the Portfolio Strategies Group, a group within MLPF&S, is responsible for calculating, determining the ongoing composition of and publishing the fixed income indices to which Bond Index Notes are linked.

MLPF&S also is the calculation agent for purposes of calculating the amount of interest and the Maturity Amount payable with respect to each series of Bond Index Notes. Under certain circumstances, these various duties could result in a conflict of

5

interest between MLPF&S' status as our subsidiary and its responsibilities as calculator of the fixed income indices and calculation agent for Bond Index Notes. Please see the section entitled "Risk Factors--Potential conflicts" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in Bond Index Notes is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

6

#### RISK FACTORS

Your investment in Bond Index Notes will involve risks. You should carefully consider the following discussion of risks before investing in the Bond Index Notes. In addition, you should reach an investment decision with regard to the Bond Index Notes only after consulting with your legal and tax advisers and considering the suitability of the Bond Index Notes in the light of your particular circumstances.

Your Bond Index Notes are not principal-protected and you may receive less than your principal amount at maturity

For any series of Bond Index Notes, if the Final Price Return Value is less than the Initial Price Return Value, the Maturity Amount paid to you will be less than the principal amount of your Bond Index Notes. If you purchased your Bond Index Notes at the principal amount under these circumstances, your investment in Bond Index Notes would result in a loss to you. This will be true even if the value of the price return component of the fixed income index to which your Bond Index Notes are linked was higher than the Initial Price Return Value at some time during the life of your Bond Index Notes but later falls below the Initial Price Return Value.

Your yield may be lower than the yield on a standard debt security of comparable maturity

Because the Maturity Amount you receive may be less than the principal amount of your Bond Index Notes, the amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Changes in market interest rates are expected to have a greater effect on the yield and trading value of your Bond Index Notes than such changes would have on the yield and trading value of standard, non-indexed, coupon-bearing debt securities of comparable maturity

The yield and trading value of your Bond Index Notes will be determined by reference to the debt securities underlying the applicable fixed income index. These underlying securities will have an average term to maturity that is greater than the term to maturity of your Bond Index Notes. We therefore expect that a change in market interest rates will have a greater effect on the yield and trading value of your Bond Index Notes than such change would have on standard, non-indexed, coupon-bearing debt securities having the same maturity as your Bond Index Notes. In general, if you bought a standard, non-indexed, coupon-bearing debt security with the same maturity date, the effect on the trading value of that debt security due to a given change in market interest rates would be less if it occurred later in the term of that debt security. However, it is expected that the effect on the trading value of your Bond Index Notes due to a given change in market interest rates will not be reduced as the time remaining to maturity of your Bond Index Notes decreases.

The trading value of Bond Index Notes will depend on the value of the applicable fixed income index

We expect that the trading value of any series of Bond Index Notes will depend substantially on the amount by which the value of the price return component for the applicable fixed income index exceeds or does not exceed the Initial Price Return Value. If you choose to sell your Bond Index Notes when the value of the applicable price return component exceeds the Initial Price Return Value, you may receive substantially less than the amount that would be payable at maturity because of, among other factors, the expectation that the value of the applicable fixed income index will continue to fluctuate until the Final Price Return Value for that series is determined. If before the maturity date you choose to sell your Bond Index Notes when the value of the applicable price return component is below, or not sufficiently above, the Initial Price Return Value, you may receive less than the principal amount of your Bond Index Notes, which would result in a loss to you.

7

Changes in the level of U.S. interest rates are expected to affect the value of the indices. We expect that changes in U.S. interest rates will affect the value of the price return component of the fixed income index to which your Bond Index Notes are linked and the value of any of the fixed income indices. In general, if U.S. interest rates increase, we expect that the value of the fixed income indices will decrease, and conversely, if U.S. interest rates decrease, we expect the value of the fixed income indices will increase. However, in certain circumstances, a decrease in interest rates may reduce the yield associated with the underlying assets of any fixed income index and consequently may lower the value of that index. For example, a decrease in interest rates may increase the prepayment risk associated with certain mortgage assets underlying the Mortgage Master Index and may reduce the value of the Mortgage Master Index. In addition, any changes in U.S. interest rates may also affect the U.S. economy and, in turn, the value of any fixed income index.

Changes in credit ratings of the underlying issuers will affect the value of the indices. Real or anticipated changes in the credit ratings of the companies or government agencies whose securities comprise the underlying asset class of any fixed income index may affect the value of that fixed income index and, in turn, the trading value of Bond Index Notes.

Changes in our credit ratings will affect the trading value of Bond Index Notes

Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of Bond Index Notes. However, because your return on your Bond Index Notes is dependent upon other factors in addition to our ability to pay our obligations under Bond Index Notes, such as the increases or decreases in the value of the applicable price return component, an improvement in our credit ratings will not reduce the other investment risks related to Bond Index Notes.

There may be an uncertain trading market for Bond Index Notes

Each series of Bond Index Notes is listed on a national securities exchange or the Nasdaq Stock Market. However, you cannot assume that a trading market exists for any such series of the Bond Index Notes. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for any series of Bond Index Notes depends on our financial performance, and other factors like the increase or decrease in the value of the applicable fixed income index over the life of the Bond Index Notes.

If the trading market for Bond Index Notes is limited, there may be a limited number of buyers for your Bond Index Notes if you do not wish to hold your investment until maturity. This may affect the price you receive.

The rate at which interest accrues on your Bond Index Notes during any interest period is determined only at the end of that period

Because we calculate the rate at which interest accrues on your Bond Index

Notes during any interest period on the fourth business day immediately preceding the applicable interest payment date, the rate at which interest will accrue during any interest period will be determined only at the end of that period. As a result, if you sell your Bond Index Notes on any day prior to the day on which the interest rate is determined for an interest period, the price you obtain will not necessarily reflect the interest payment that you would have received had you held your Bond Index Notes until the next interest payment date. Because of this uncertainty throughout most of an interest period as to the rate at which interest will accrue on Bond Index Notes during that interest period, the prices at which Bond Index Notes are traded are expected to reflect estimated interest accruals to the date of the applicable trades, and no other accrued interest will be paid or received in connection with such transactions.

#### Potential conflicts

Our subsidiary MLPF&S has multiple responsibilities in connection with Bond Index Notes. MLPF&S is the calculation agent for Bond Index Notes and is required to carry out its duties as calculation agent for Bond Index Notes in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

8

Additionally, the Portfolio Strategies Group, a group within MLPF&S, is responsible for calculating, determining the ongoing composition of and publishing the fixed income indices to which Bond Index Notes are linked. Because the Portfolio Strategies Group is part of MLPF&S, a subsidiary of ours, a conflict of interest could arise.

We expect that, from time to time, we will enter into arrangements with one or more of our subsidiaries to hedge the market risks associated with our payment obligations under Bond Index Notes. Each subsidiary would expect to make a profit in connection with any arrangement of this kind. We will not seek competitive bids for any arrangement from unaffiliated parties.

9

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Bond Index Notes described in this prospectus.

10

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine Months Ended September 29, 2000
	1995	1996	1997	1998	1999	
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF BOND INDEX NOTES

Bond Index Notes may be issued in various series as senior unsecured debt securities under ML&Co.'s 1983 Indenture, which is more fully described in the accompanying prospectus. Each series of Bond Index Notes will mature on a specified date as set forth in the applicable pricing supplement, which will be no later than five years from the date of their original issuance.

Bond Index Notes are not be subject to redemption by ML&Co. or at the option of any beneficial owner before their stated maturity date. Upon the occurrence of an Event of Default with respect to a series of Bond Index Notes, beneficial owners of that series of Bond Index Notes may accelerate the maturity of Bond Index Notes, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

Bond Index Notes were issued in denominations of \$20 and integral multiples of \$20.

Bond Index Notes do not have the benefit of any sinking fund.

The stated maturity date, the applicable fixed income index and the other terms and conditions of each series of Bond Index Notes are set forth in the applicable pricing supplement.

Payment of Interest

On each interest payment date specified in the applicable pricing supplement, a beneficial owner of a Bond Index Note is entitled to an interest payment in an amount equal to the Index Rate of Interest less a fixed spread specified in the final pricing supplement (the "Spread"). The "Index Rate of Interest" for any fixed income index is equal to the weighted average of the interest accrued and interest paid on the securities underlying that fixed income index less the amount of any interest scheduled to have been paid but not paid during that interest period on those underlying securities. For any interest period, the applicable Index Rate of Interest for any fixed income index will be calculated as the percentage change in value of the total return of the applicable fixed income index less the percentage change in value of the price return component of that fixed income index over that interest period. For each interest period, each interest payment will equal:

<S>	<C>
\$20 x [ ( Ending Total Return Value ) ( Ending Price Return Value ) ]	
[ ( ----- - 1 ) - ( ----- - 1 ) - Spread ]	
[ ( Starting Total Return Value ) ( Starting Price Return Value ) ]	

Determination of the Interest Income

For any series of Bond Index Notes, for purposes of determining the amount

of interest payable on the initial interest payment date, the "Starting Total Return Value" equals the value of the total return index for the applicable fixed income index most recently published on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth Business Day immediately preceding the original issue date for that series. For purposes of determining the amount of interest payable on any other interest payment date, the Starting Total Return Value for any series of Bond Index Notes equals the Ending Total Return Value used in connection with the calculation of interest for the immediately preceding interest payment date.

For purposes of determining the amount of interest payable on any interest payment date, the "Ending Total Return Value" for any series of Bond Index Notes equals the value of the total return index for the applicable fixed income index most recently published for that series on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth Business Day immediately preceding the applicable interest payment date.

For purposes of determining the amount of interest payable on the initial interest payment date, the "Starting Price Return Value" equals the value of the price return index for the applicable fixed income index most recently published on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth Business Day immediately preceding the issue date. For purposes of determining the amount of interest payable on any other interest payment date, the Starting Price Return Value for any series of Bond Index Notes equals the Ending Price Return Value used in connection with the calculation of interest for the immediately preceding interest payment

12

date. The price return index level on any day is determined by reference to the prices (exclusive of accrued interest) of the securities comprising the applicable index on that day, as determined by the Portfolio Strategies Group of MLPF&S.

For purposes of determining the amount of interest payable on any interest payment date, the "Ending Price Return Value" for any series of Bond Index Notes equals the value of the price return index for the applicable fixed income index most recently published for such series on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth Business Day immediately preceding the applicable interest payment date.

With respect to any specific interest payment date for any series of Bond Index Notes, an interest period is the period from and including the fourth Business Day immediately preceding the most recent prior interest payment date to but excluding the fourth Business Day immediately preceding the subject interest payment date or, in the case of the initial interest period, the period from the fourth Business Day immediately preceding the original issue date of that series of Bond Index Notes to but excluding the fourth Business Day immediately preceding the initial interest payment date.

Interest payments on the Bond Index Notes are payable to their holders as they appear on the books and records of ML&Co. on the relevant record dates, which will be the Business Day immediately preceding the applicable interest payment date. In the event the Bond Index Notes do not remain in book-entry form, the relevant record date will be the fifteenth calendar day, whether or not a Business Day, immediately preceding the applicable interest payment date. In the event that any interest payment date or the maturity date is not a Business Day, interest or the Maturity Amount, as the case may be, payable on that date will be made on the next succeeding day which is a Business Day, without any interest or other payment with respect to such delay, in each case with the same force and effect as if made on the scheduled payment date.

A "Business Day" means any day other than a Saturday or Sunday that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in The City of New York.

The Spread is a fixed percentage which reduces the interest payable on the Bond Index Notes. The Spread related to any series of Bond Index Notes is specified in the final pricing supplement relating to that series.

#### Maturity Amount

On the maturity date of any series of Bond Index Notes, in addition to an interest payment for the final interest period, a beneficial owner of a Bond Index Note will receive a payment equal to the Maturity Amount. If the Final Price Return Value is greater than the Initial Price Return Value, a beneficial owner of a Bond Index Note will receive a Maturity Amount that is greater than the principal amount of its Bond Index Note. If the Final Price Return Value is less than the Initial Price Return Value, a beneficial owner of a Bond Index Note will receive a Maturity Amount that is less than the principal amount of its Bond Index Note, which would result in a loss to that beneficial owner.

#### Determination of the Maturity Amount

The Maturity Amount for each \$20 principal amount of Bond Index Note for

any series will equal:

$$\$20 \times \frac{(\text{Final Price Return Value}) - (\text{Initial Price Return Value})}{\text{-----}}$$

For purposes of determining the Maturity Amount, the Initial Price Return Value for any series of Bond Index Notes equals the most recently published value of the price return component for the applicable fixed income index on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth Business Day immediately preceding the issue date. The Initial Price Return Value for any series of Bond Index Notes is set forth in the applicable pricing supplement.

13

For purposes of determining the Maturity Amount, the Final Price Return Value for any series of Bond Index Notes will equal the most recently published value of the price return component for the applicable fixed income index on the Bloomberg information system at 11:00 a.m., New York City time, on the fourth Business Day immediately preceding the maturity date of the applicable series of Bond Index Notes.

All determinations made by the calculation agent for Bond Index Notes shall be at its sole discretion and, absent a determination by such calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and beneficial owners of Bond Index Notes.

Hypothetical Returns

The hypothetical returns calculated on the following pages are for purposes of illustration only. The actual Maturity Amount and interest payments for a Bond Index Note will depend entirely on the actual Spread, the price return component and total return index value for the applicable fixed income index and the relevant period. The actual Maturity Amount may be less than the principal amount of your Bond Index Notes, which would result in a loss to you.

The following examples assume a hypothetical Bond Index Note having an original issue date of December 6, 1999, a stated maturity date of December 6, 2002, annual interest payments and a Spread of 0.50%. The following examples also assume a Bond Index Note is held from the original issue date until the stated maturity date.

The specific terms of your Bond Index Note may differ. The actual terms of each series of Bond Index Notes are set forth in the applicable pricing supplement.

14

Example One

<TABLE>  
<CAPTION>

Amount	Date	Total Return Index	Price Return Index	Annual Interest Percentage	Maturity per \$20 principal
amount	----	-----	-----	-----	-----
--					
<S>		<C>	<C>	<C>	<C>
	11/30/99	825.000	300.000	---	---
	11/30/00	890.000	303.000	6.38%	---
	11/30/01	945.000	301.000	6.34%	---
	12/02/02	1018.000	304.000	6.23%	\$20.27

Interest Calculations:

$$\$20 \times \left( \frac{(\text{Ending Total Return Value}) - (\text{Starting Total Return Value})}{\text{-----} - 1} - \left( \frac{(\text{Ending Price Return Value}) - (\text{Starting Total Return Value})}{\text{-----} - 1} - \text{Spread} \right) \right)$$

First Interest Payment Date: 12/6/00

$$6.38\% = \frac{(\text{890}) - (\text{303})}{(\text{----} - 1)} - \frac{(\text{----} - 1)}{(\text{825}) - (\text{300})} - 0.50\%$$

Interest payable on 12/6/00 for each \$20 principal amount = \$1.28

Second Interest Payment Date: 12/6/01

$$6.34\% = \frac{(\text{ 945 } - \text{ 301 } - 1)}{(\text{ 890 } - \text{ 303 } - 1)} - 0.50\%$$

Interest payable on 12/6/01 for each \$20 principal amount = \$1.27

Third Interest Payment Date: 12/6/02

$$6.23\% = \frac{(\text{ 1018 } - \text{ 304 } - 1)}{(\text{ 945 } - \text{ 301 } - 1)} - 0.50\%$$

Interest payable on 12/6/02 for each \$20 principal amount = \$1.25

Maturity Amount Calculation:

$$\$20 \times \frac{(\text{ Final Price Return Value } - \text{ Initial Price Return Value } - 1)}{\text{ Initial Price Return Value } - 1}$$

Maturity Date: 12/6/02

$$101.33\% = \frac{(\text{ 304 } - \text{ 300 } - 1)}{\text{ 300 } - 1}$$

Maturity Amount payable at the maturity date per \$20 principal amount = \$20.27

Total amount payable per \$20 principal amount = \$24.07

Annualized Rate of Return: 6.70%

15

Example Two

<TABLE>  
<CAPTION>

Amount	Date	Total Return Index	Price Return Index	Annual Interest Percentage	Maturity per \$20 principal
amount	----	-----	-----	-----	-----
--					
<S>		<C>	<C>	<C>	<C>
	11/30/99	825.000	300.000	---	---
	11/30/00	852.000	289.000	6.44%	---
	11/30/01	895.000	283.000	6.62%	---
	12/02/02	935.000	274.000	7.15%	\$18.27

</TABLE>

Interest Calculations:

<TABLE>

$$\text{Interest} = \$20 \times \frac{(\text{ Ending Total Return Value } - \text{ Starting Total Return Value } - 1)}{(\text{ Starting Total Return Value } - 1)} - \text{Spread}$$

</TABLE>

First Interest Payment Date: 12/6/00

$$6.38\% = \frac{(\text{ 852 } - \text{ 289 } - 1)}{(\text{ 825 } - \text{ 300 } - 1)} - 0.50\%$$

Total interest payable on 12/6/00 for each \$20 principal amount = \$1.29

Second Interest Payment Date: 12/6/01

$$6.62\% = \frac{(\text{ 895 } - \text{ 283 } - 1)}{(\text{ 852 } - \text{ 289 } - 1)} - 0.50\%$$

Total interest payable on 12/6/01 for each \$20 principal amount = \$1.32

Third Interest Payment Date: 12/6/02

$$7.15\% = \frac{(\text{ 935 } - \text{ 274 } - 1)}{(\text{ 895 } - \text{ 283 } - 1)} - 0.50\%$$

Total interest payable on 12/6/02 for each \$20 principal amount = \$1.43

Maturity Amount Calculation:

$$\begin{aligned}
& \text{\$20} \times \left( \frac{\text{( Final Price Return Value )}}{\text{( Initial Price Return Value )}} \right)
\end{aligned}$$

Maturity Date: 12/6/02

$$\begin{aligned}
& \text{91.33\%} = \left( \frac{\text{( 274 )}}{\text{( 300 )}} \right)
\end{aligned}$$

Maturity Amount payable at the maturity date per \$20 principal amount = \$18.27

Total amount payable per \$20 principal amount = \$22.31

Annualized Rate of Return: 4.13%

Changes to the Fixed Income Indices

ML&Co. has agreed to use its reasonable efforts to cause MLPF&S, through its Portfolio Strategies Group, to continue to calculate and publish the fixed income indices for as long as Bond Index Notes remain outstanding.

From time to time, the Portfolio Strategies Group has changed, and may in the future change, the methodology used to calculate and maintain the fixed income indices in order to better reflect the value of the applicable fixed income sector. The inclusion rules governing the characteristics of the securities included in each fixed income index are set forth in the section "The Fixed Income Indices--Inclusion Rules and Historical Information". Investors in Bond Index Notes should be aware that any changes or modifications in the methodology used to calculate the fixed income indices or the discontinuance of and substitution for the fixed income indices may adversely affect the value or Maturity Amount of any series of Bond Index Notes payable at maturity.

Events of Default and Acceleration

In case an Event of Default with respect to any Bond Index Notes has occurred and is continuing, the amount payable to a beneficial owner of a Bond Index Note upon any acceleration permitted by the Bond Index Notes, with respect to each \$20 principal amount of Bond Index Notes, will be equal to (1) accrued but unpaid interest on the Bond Index Notes plus (2) the Maturity Amount, in each case, calculated as though the date of early repayment was the stated maturity date of the Bond Index Notes; provided, however, that the Spread will be applied to the values used to calculate the accrued but unpaid interest on the Bond Index Notes as if Bond Index Notes had not been accelerated and had remained outstanding to the stated maturity date. See "Description of Bond Index Notes--Maturity Amount" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Bond Index Note may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Bond Index Notes plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of Bond Index Notes.

In case of a default in payment on any Bond Index Notes, whether at the maturity date or upon acceleration, from and after the maturity date or the date of acceleration, as the case may be, Bond Index Notes will bear interest, payable upon demand of their beneficial owners, at the London inter-bank offered rate for one-month deposits as of the date of the final pricing supplement as determined by ML&Co. (the "Default Rate"), to the extent that payment of interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of Bond Index Notes to the date payment of that amount has been made or duly provided for.

Bond Index Notes Issued December 22, 1999

The terms appearing in the Final Pricing Supplement for the Bond Index Notes due December 23, 2002, are set forth below.

<TABLE>	<C>	
<S>		
Issue:		Bond Index Notes, Domestic Master Series 1999A
Principal Amount per Bond Index Note:		\$20

Public Offering Price:	Per Bond Index Note	Total
	-----	-----
	\$20.00	\$30,000,000

Underwriting Discount:	Per Bond Index Note	Total
------------------------	---------------------	-------

	-----	-----
	\$ .20	\$ 300,000
Proceeds To Issuer Before Expenses:	Per Bond Index Note	Total
	-----	-----
	\$19.80	\$29,700,000
Original Issue Date:	December 22, 1999	

Stated Maturity Date: December 23, 2002  
Listing: AMEX  
Trading Symbol: BNX  
Fixed Income Index: Merrill Lynch U.S. Domestic Master Index  
(American Stock Exchange Symbol "IDM")

Maturity Amount Calculation Period:	Start Date	End Date
	-----	-----
	Dec. 16, 1999	Dec. 17, 2002
Maturity Amount Payment Date:	Dec. 23, 2002	

Interest Payment Periods:	Calculation	Calculation	Interest
	Start Date	End Date	Payment Date
	-----	-----	-----
	Dec. 16, 1999	June 16, 2000	June 22, 2000
	June 16, 2000	Dec. 18, 2000	Dec. 22, 2000
	Dec. 18, 2000	June 18, 2001	June 22, 2001
	June 18, 2001	Dec. 18, 2001	Dec. 24, 2001
	Dec. 18, 2001	June 18, 2002	June 24, 2002
	June 18, 2002	Dec. 17, 2002	Dec. 23, 2002

Spread: 50% of the Principal Amount per annum (which results in a Spread of .25% of the Principal Amount per semi-annual Interest Payment period)

Initial Price Return Value: 284.295  
Starting Total Return Value: 825.081  
Starting Price Return Value: 284.295 for the initial Interest Payment Period

Depository

Description of the Global Securities

Upon issuance, each series of Bond Index Notes will be represented by one or more fully registered global securities. Each global security will be deposited with, or on behalf of, DTC (DTC, together with any successor thereto, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for Bond Index Notes in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of Bond Index Notes represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of Bond Index Notes represented by a global security will not be entitled to have Bond Index Notes represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of Bond Index Notes in definitive form and will not be considered the owners or holders of Bond Index Notes, including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take action, and those participants would authorize beneficial owners owning through those participants to give or take action or would otherwise act upon the

instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants, and by participants and indirect participants to beneficial owners will be

governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the Bond Index Notes. The Bond Index Notes were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the Bond Index Notes in the aggregate principal amount of the Bond Index Notes, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered under to the provisions of Section 17A of the Securities and Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of Bond Index Notes under DTC's system must be made by or through direct participants, which will receive a credit for the Bond Index Notes on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the Bond Index Notes are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all Bond Index Notes deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of Bond Index Notes with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Bond Index Notes; DTC's records reflect only the identity of the direct participants to whose accounts the Bond Index Notes are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Arrangements among participants, indirect participants and beneficial owners, will govern conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners, subject to any statutory or regulatory requirements in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the Bond Index Notes. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the Bond Index Notes are credited on the record date identified in a listing attached to the omnibus proxy.

Principal, premium, if any, and/or interest, if any, payments on the Bond Index Notes will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", will govern payments by participants to beneficial owners, and these payments will be the responsibility of the participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to any series of Bond Index Notes,

the global securities representing these Bond Index Notes will be exchangeable for Bond Index Notes in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$20 and integral multiples of \$20. The definitive Bond Index Notes will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to Bond Index Notes at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor depository is not obtained, Bond Index Note certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, Bond Index Note certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

Same-Day Settlement and Payment

Settlement for Bond Index Notes will be made by the underwriter in immediately available funds. All payments on Bond Index Notes will be made by ML&Co. in immediately available funds so long as the Bond Index Notes are maintained in book-entry form.

THE FIXED INCOME INDICES

The Portfolio Strategies Group of our subsidiary MLPF&S calculates, maintains and publishes approximately 800 separate fixed income indices designed to track changing values of various classes of fixed income assets. Each series of Bond Index Notes is indexed to one of seven of these fixed income indices. Each of these seven indices is published on the AMEX. For purposes of determining the Maturity Amount or the amount of interest payable on Bond Index Notes, the value of each of these seven indices will be based on the applicable fixed income index values published by Bloomberg at the end of each trading day. Each fixed income index is designed to reflect the value of debt obligations issued in various sectors of the U.S. domestic fixed income securities market.

The fixed income indices are broad-based indices weighted by issue size (calculated by multiplying the total face value of the security currently outstanding by its bid price, plus accrued interest). Each fixed income index has inclusion rules designed to ensure a reasonable level of liquidity in the underlying securities and to minimize the number of issues in a particular fixed income index while capturing the majority of the capitalization of a given market.

The name of each fixed income index, the AMEX trading symbol of each fixed income index and the year in which the fixed income index began being calculated and published, general terms of the securities underlying each fixed income index and the market value of each fixed income index is set forth below.

Index Name	AMEX Symbol	Year Commenced
-----	-----	-----
U.S. Domestic Master Index	IDM	1975
Mortgage Master Index	IGM	1975
U.S. Corporate/ Government Master Index	ICG	1972

-----

Rebalancing of the fixed income indices

Securities included in the fixed income indices are held constant throughout any given month. Qualifying securities are determined on the last calendar day of each month based on security characteristics on that date. Accordingly, on December 31st of each year, MLPF&S selects lists of qualifying securities for each fixed income index for the following month of January. On January 31st of each year, MLPF&S selects lists of qualifying securities for each fixed income index for the following month of February. MLPF&S repeats this selection process on the last calendar day of each month. Those issues that meet the criteria for a fixed income index on a month-end selection date remain in the fixed income index throughout the following month.

- . New issues must settle on or before the rebalancing date to be included in the fixed income index for the applicable month. For example, the September 1999 U.S. Treasury Two-year auction took place on the 29th and settled on September 30, 1999, thereby qualifying for inclusion in the U.S. Treasury Master Index in October. However, the October 1999 Two-year auction which took place on the 27th did not settle until November 1 and therefore did not qualify for the November 1999 index .
- . Issues that meet the maturity requirements of a fixed income index on the selection date are included, and remain in the index throughout the month regardless of whether they subsequently fall short of the maturity guidelines during the month. For example, the U.S. Treasury 5.75% due October 31, 2000 had exactly one year remaining term to maturity (the minimum maturity requirement for the fixed income indices) on October 31, 1999 and was included in the U.S. Treasury Master Index for the full month of November 1999.
- . Issues that meet the rating requirements of a fixed income index on the selection date are included, and remain in a fixed income index throughout the month regardless of whether their rating falls outside of the required range as a result of an upgrade or downgrade during the month. For example, an issue that is rated BBB on January 31st, but is downgraded to BB on February 1st, will be part of the Investment Grade Corporate Master Index for February, and then will move to the High Yield Master Index in March. For purposes of fixed income index selection criteria, ratings are based on a composite of Moody's Investors Service Inc. and Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc.
- . Bonds that are called during a month are removed from each fixed income index at month-end at the call price.
- . The principal amounts of fixed income in each fixed income index are held constant throughout the month. Increases and decreases in issue size that take place during the month as a result of partial redemptions or re-opening of issues are captured at the next month-end rebalancing.

Calculating total returns between any two dates

Returns between any two dates can then be derived from the beginning of period and end of period fixed income index value/1/ in the following fashion:

$$TRR = \frac{IV1}{IV\0} - 1$$

where

TRR is the total rate of return from T\0 to T\1

IV\ n is the total rate of return index value on day n

/1/ Since fixed income index values represent closing levels, period returns will include market movement on the end of period date but exclude market movement on the beginning of period date. Therefore, to capture the returns for the month of November, the November 30th fixed income index value is divided by the October 31st fixed income index value.

Merrill Lynch fixed income indices are calculated on a month-to-date basis, with daily fixed income index value derived by applying each day's month to date return percentage to the fixed income value at the beginning of the month.

#### Reinvestment assumptions

Cash flows that occur during the month are reinvested at the beginning-of-month 1-month LIBID rate, with daily compounding. At the end of the month, cash and reinvestment income are removed from the index and capitalization weights are recalculated. Reinvestment rates will be sourced from the Merrill Lynch LIBID 1-month Constant Maturity Index Series.

#### Pricing

Each of the above fixed income indices are calculated by the Portfolio Strategies Group. Price levels of the underlying securities reflect the Portfolio Strategies Group's determination of the appropriate bid-side price for the applicable securities. All securities comprising the fixed income indices are priced at approximately 3:00 p.m., New York City time, each trading day. The prices of the underlying securities comprising the fixed income indices are determined based on the prices of such securities and other similar securities obtained from publicly-available information and MLPF&S' trading personnel. In addition to using these prices in calculating the fixed income indices, MLPF&S disseminates these prices to their customers, including mutual funds, custodians and institutions who use these prices to determine the value of their positions. When the Portfolio Strategies Group is not able to determine the price of an underlying security comprising any of the fixed income indices, it will use a security price from a third party vendor or other valuation methodology that, in the best judgement of the Portfolio Strategies Group, will provide the most accurate bid-side price. The resulting fixed income index values are published by Bloomberg at the end of each trading day.

- . The U.S. Agency Master Index is computed daily and can be viewed on Bloomberg at GOQO(INDEX)(GO).
- . The U.S. Agency Master Index is published on the AMEX under the symbol "IGN".

24

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA") and Section 4975 of the Code prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any Bond Index Notes on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of Bond Index Notes will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### OTHER TERMS

ML&Co. issued the Bond Index Notes as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the Bond Index Notes of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

ML&Co. may issue series of senior debt securities from time to time under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the Bond Index Notes are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations Upon Liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any transaction, MLPF&S remains a Controlled Subsidiary.

25

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the senior debt securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and Waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of senior debt securities affected. However, without the consent of each holder of any outstanding senior debt security affected, no amendment or modification to the 1983 Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt

securities of any series may, with respect to that series, waive past defaults under the 1983 Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default".

#### Events of Default

Each of the following will be Events of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior

debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;

- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding senior debt securities of that series may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of the 1983 Indenture which cannot be modified under the terms of that Indenture without the consent of each holder of each outstanding security of each series of senior debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The Bond Index Notes and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

27

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;

- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000, and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement.

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

28

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on a national securities exchange or the Nasdaq Stock Market, as specified in the applicable pricing supplement, or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by

reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Nikkei 225 Market Index Target-Term Securities(R) due March 30, 2007. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the Nikkei Stock Average (the "Nikkei 225 Index") and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus supplement to "ML&Co." "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on March 30, 2007. We cannot redeem the MITTS Securities at any earlier date and will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section entitled "Description of the MITTS Securities--Depository" in this prospectus supplement.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the Nikkei 225 Index, an index measuring the composite price performance of selected Japanese stocks. On the stated maturity date, you will receive a payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\$10 \times \left( \frac{\text{(Ending Value - Starting Value)}}{\text{Starting Value}} \right) \times \text{Participation Rate}$$

but will not be less than zero.

The "Starting Value" equals 20,374.34, the closing value of the Nikkei 225 Index on March 28, 2000, the date the MITTS Securities were priced for initial sale to the public.

The "Ending Value" means the average of the values of the Nikkei 225 Index at the close of the market on five business days shortly before the maturity of the MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even by reference to a single day's closing value if, during the period prior to the stated maturity date of the MITTS Securities, there is a disruption in the trading of the component stocks comprising the Nikkei 225 Index or certain futures or options contracts relating to the Nikkei 225 Index.

The "Participation Rate" equals 130%.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the MITTS Securities" in this prospectus.

3

We will pay you a Supplemental Redemption Amount only if the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of the MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and a Participation Rate of 130%:

Example 1--The Nikkei 225 Index is below the Starting Value at maturity:

Starting Value: 20,374.34  
Hypothetical Ending Value: 19,355.62

<TABLE>			
<CAPTION>			
<S>	<C>		<C>
		(19,355.62 - 20,374.34)	( Supplemental
Supplemental Redemption Amount (per unit) = \$10 X	(-----)	X 130% = \$0.00	Redemption
	( 20,374.34 )		Amount
			cannot be
			less than
			zero)

</TABLE>

Total payment at maturity (per unit) = \$10 + \$0.00 = \$10.00

Example 2--The Nikkei 225 Index is above the Starting Value at maturity:

Starting Value: 20,374.34  
Hypothetical Ending Value: 27,505.36

<TABLE>			
<CAPTION>			
<S>	<C>		
		(27,505.36 - 20,374.34)	
Supplemental Redemption Amount (per unit) = \$10 X	(-----)	X 130% = \$4.55	
	( 20,374.34 )		

</TABLE>

Total payment at maturity (per unit) = \$10 + \$4.55 = \$14.55

Who publishes the Nikkei 225 Index and what does the Nikkei 225 Index measure?

The Nikkei 225 Index is a stock index published by Nihon Keizai Shimbun, Inc. ("NKS") that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 common stocks traded on the Tokyo Stock Exchange (the "TSE") and represents a broad cross section of Japanese industry. All 225 underlying stocks (the "Underlying Stocks") are stocks listed in the First Section of the TSE and are, therefore, among the most actively traded stocks on the TSE. The Nikkei 225 Index is a modified, price-weighted index, which means an Underlying Stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer.

Please note that an investment in the MITTS Securities does not entitle you

to any ownership interest in the stocks of the companies included in the Nikkei 225 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are listed on the AMEX under the symbol "MLJ". You should be aware that the listing of the MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities".

What is the role of MLPF&S?

4

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis.

For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read other documents ML&Co. has filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Nikkei 225 Index was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

If the Ending Value exceeds the Starting Value, then the Participation Rate will enhance the amount of the Supplemental Redemption Amount received at maturity. However, if the Ending Value does not exceed the Starting Value, you will receive only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of Merrill Lynch & Co., Inc. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Nikkei 225 Index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the Nikkei 225 Index and received the dividends paid on those stocks because NKS calculates the Nikkei 225 Index by reference to the prices of the common stocks comprising the Nikkei 225 Index without taking into consideration the value of dividends paid on those stocks.

Your return will not be adjusted for changes in currency exchange rates

Although the stocks included in the Nikkei 225 Index are traded in Japanese yen and the MITTS Securities are denominated in U.S. dollars, we will not adjust the amount payable at maturity for the currency exchange rate in effect at the maturity of the MITTS Securities. Any amount in addition to the principal amount of each unit payable to you at maturity is based solely upon the percentage increase in the Nikkei 225 Index. Changes in exchange rates, however, may reflect changes in the Japanese economy which in turn may affect the value of the Nikkei 225 Index and the MITTS Securities.

There may be an uncertain trading market for the MITTS Securities

The MITTS Securities are listed on the AMEX under the trading symbol "MLJ". You cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities depends on our financial performance and other factors such as the increase, if any, in the value of the Nikkei 225 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

6

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the Nikkei 225 Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Nikkei 225 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount, if any, by which the Nikkei 225 Index exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the Nikkei 225 Index exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the Nikkei 225 Index will continue to fluctuate until the Ending Value is determined. If you choose to sell your MITTS Securities when the value of the Nikkei 225 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of your MITTS Securities. In general, rising Japanese dividend rates, or dividends per share, may increase the value of the Nikkei 225 Index while falling Japanese dividend rates may decrease the value of the Nikkei 225 Index. Political, economic and other developments that affect the stocks underlying the Nikkei 225 Index may also affect the value of the Nikkei 225 Index and, indirectly, the value of the MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the MITTS Securities will increase. In general, if interest rates in Japan increase, we expect that the trading value of the MITTS Securities will increase. If interest rates in Japan decrease, we expect that the trading value of the MITTS Securities will decrease. The level of interest rates in Japan may also affect the Japanese economy and, in turn, the value of the Nikkei 225 Index. Rising interest rates may lower the value of the Nikkei 225 Index and, thus, the MITTS Securities. Falling interest rates may increase the value of the Nikkei 225 Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the Nikkei 225 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the Nikkei 225 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the Nikkei 225 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

Volatility of the Japanese yen/U.S. dollar exchange rate. The Japanese

yen/U.S. dollar rate is a foreign exchange spot rate that measures the relative values of two currencies, the Japanese yen and the U.S. dollar (the "JPY/USD Rate"). The JPY/USD Rate increases when the U.S. dollar appreciates relative to the Japanese yen. The JPY/USD Rate is expressed as a rate that reflects the amount of Japanese yen that can be purchased for one U.S. dollar. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the JPY/USD Rate increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the JPY/USD Rate decreases, we expect that the trading value of the MITTS Securities will decrease.

Correlation between the JPY/USD Rate and the Nikkei 225 Index. Correlation is the term used to describe the relationship between the percentage changes in the JPY/USD Rate and the percentage changes in the Nikkei 225 Index. In general, if the correlation between the JPY/USD Rate and the Nikkei 225 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the

7

correlation between the JPY/USD Rate and the Nikkei 225 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the value of the Nikkei 225 Index. This difference will reflect a "time premium" due to expectations concerning the value of the Nikkei 225 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the Nikkei 225 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the Nikkei 225 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on these stocks decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the Nikkei 225 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the Nikkei 225 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities were issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

8

Risks associated with the Japanese securities markets

The Underlying Stocks that constitute the Nikkei 225 Index have been issued by Japanese companies. You should be aware that investments in securities indexed to the value of Japanese equity securities involve certain risks. The Japanese securities markets may be more volatile than U.S. or other securities markets and may be affected by market developments in different ways than U.S.

or other securities markets. Direct or indirect government intervention to stabilize the Japanese securities markets and cross-shareholdings in Japanese companies on those markets may affect prices and volume of trading on those markets. Also, there is generally less publicly available information about Japanese companies than about those U.S. companies that are subject to the reporting requirements of the SEC, and Japanese companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in Japan are subject to political, economic, financial and social factors that apply in Japan. These factors, which could negatively affect the Japanese securities markets, include the possibility of recent or future changes in the Japanese government's economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other Japanese laws or restrictions applicable to Japanese companies or investments in Japanese equity securities and the possibility of fluctuations in the rate of exchange between currencies. Moreover, the Japanese economy may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the Nikkei 225 Index or futures or options contracts in the Nikkei 225 Index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Nikkei 225 Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interest. These conflicts could occur, for instance, in connection with its determination as to whether the value of the Nikkei 225 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Nikkei 225 Index. See the sections entitled "Description of the MITTS Securities-Adjustments to the Nikkei 225 Index; Market Disruption Events" and "- -Discontinuance of the Nikkei 225 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

9

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

10

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges...	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

11

#### DESCRIPTION OF THE MITTS SECURITIES

On March 31, 2000, ML & Co. issued an aggregate principal amount of \$25,000,000 or 2,500,000 units of the MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on March 30, 2007.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of each MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, beneficial owners of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10.00 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity, a beneficial owner of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, you will be entitled to receive only the principal

amount of your MITTS Securities.

Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<CAPTION>  
<S>

	<C>	<C>
	(Ending Value - Starting Value)	
principal amount of each MITTS Security (\$10 per unit) X	(-----)	X Participation Rate
	( Starting Value )	

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 20,374.34, the closing value of the Nikkei 225 Index on March 28, 2000, the date the MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Nikkei 225 Index on those Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Nikkei 225 Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending Value will equal the closing value of the Nikkei 225 Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Participation Rate" equals 130%.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" means a day on which the New York Stock Exchange and the AMEX are open for trading and the Nikkei 225 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values of the Nikkei 225 Index during the Calculation Period:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the Nikkei 225 Index, which includes an assumed aggregate dividend yield of 0.59% per annum, as more fully described below.

<TABLE>

10.80%	40,748.68	100%	23.00	130.00%	12.24%
12.24%	44,823.55	120%	25.60	156.00%	13.87%
13.58%	48,898.42	140%	28.20	182.00%	15.35%
14.81%	52,973.28	160%	30.80	208.00%	16.71%
15.96%	57,048.15	180%	33.40	234.00%	17.97%
17.03%	61,123.02	200%	36.00	260.00%	19.14%

</TABLE>

- (1) The table assumes a Participation Rate of 130%.  
(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

13

- (3) This rate of return assumes:  
(a) a percentage change in the aggregate price of the Underlying Stocks that equals the percentage change in the Nikkei 225 Index from the Starting Value to the relevant hypothetical Ending Value;  
(b) a constant dividend yield of 0.59% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the Nikkei 225 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical Ending Value;  
(c) no transaction fees or expenses in connection with purchasing and holding stocks included in the Nikkei 225 Index; and  
(d) an investment term from March 31, 2000 to March 30, 2007.  
(4) This is the Starting Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rates of return will depend entirely on the Ending Value determined by the calculation agent as provided in this prospectus.

#### Adjustments to the Nikkei 225 Index; Market Disruption Events

If at any time NKS changes its method of calculating the Nikkei 225 Index, or the value of the Nikkei 225 Index changes, in any material respect, or if the Nikkei 225 Index is in any other way modified so that the Nikkei 225 Index does not, in the opinion of the calculation agent, fairly represent the value of the Nikkei 225 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the Nikkei 225 Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Nikkei 225 Index as if those changes or modifications had not been made, and calculate the closing value with reference to the Nikkei 225 Index, as so adjusted. Accordingly, if the method of calculating the Nikkei 225 Index is modified so that the value of the Nikkei 225 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Nikkei 225 Index in order to arrive at a value of the Nikkei 225 Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means either of the following events, as determined by the calculation agent:

- (a) a suspension, material limitation or absence of trading on the TSE of 20% or more of the Underlying Stocks which then comprise the Nikkei 225 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange; or
- (b) the suspension or material limitation on the Singapore International Monetary Exchange, Ltd. (the "SIMEX"), the Osaka Securities Exchange (the "OSE") or any other major futures or securities market from trading in futures or options contracts related to the Nikkei 225 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- (1) a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange;
- (2) a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a Market Disruption Event;

14

- (3) a suspension in trading in a futures or options contract on the Nikkei 225 Index by a major securities market by reason of (a) a price change violating limits set by that securities market, (b) an imbalance of orders relating to those contracts, or (c) a disparity in bid and ask quotes relating to those contracts will constitute a suspension or material limitation of trading in futures or options contracts related to the Nikkei 225 Index; and
- (4) an absence of trading on the TSE will not include any time when the TSE is closed for trading under ordinary circumstances.

While ML&Co. understands that circumstances have occurred in the past that would have been deemed Market Disruption Events, ML&Co. cannot predict the likelihood of a Market Disruption Event occurring in the future.

#### Discontinuance of the Nikkei 225 Index

If NKS discontinues publication of the Nikkei 225 Index and NKS or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Nikkei 225 Index (a "successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by NKS or any other entity for the Nikkei 225 Index and calculate the closing value as described above under "--Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the MITTS Securities.

In the event that NKS discontinues publication of the Nikkei 225 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Nikkei 225 Index in accordance with the procedures last used to calculate the Nikkei 225 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Nikkei 225 Index as described below, the successor index or value will be used as a substitute for the Nikkei 225 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the NKS discontinues publication of the Nikkei 225 Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value, or
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the AMEX are open for

trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Nikkei 225 Index may adversely affect trading in the MITTS Securities.

15

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding was the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 7.48% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

16

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking

Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts such MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory

17

requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is

continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

18

#### THE NIKKEI 225 INDEX

All disclosure contained in this prospectus regarding the Nikkei 225 Index, including, without limitation, its make-up, method of calculation and changes in its components, unless otherwise stated, has been derived from the Stock Market Indices Data Book published by NKS and other publicly available sources. The information reflects the policies of NKS as stated in these sources and the policies are subject to change at the discretion of NKS.

The Nikkei 225 Index is a stock index calculated, published and disseminated by NKS that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index is currently based on 225 Underlying Stocks trading on the TSE and represents a broad cross-section of Japanese industry. All 225 of the stocks underlying the Nikkei 225 Index are stocks listed in the First Section of the TSE. Stocks listed in the First Section are among the most actively traded stocks on the TSE. Futures and options contracts on the Nikkei 225 Index are traded on the SIMEX, the OSE and the Chicago Mercantile Exchange.

The Nikkei 225 Index is a modified, price-weighted index. Each stock's weight in the Nikkei 225 Index is based on its price per share rather than the total market capitalization of the issuer. NKS calculates the Nikkei 225 Index by multiplying the per share price of each Underlying Stock by the corresponding weighting factor for that Underlying Stock (a "Weight Factor"), calculating the sum of all these products and dividing that sum by a divisor. Each Weight Factor is computed by dividing (Yen)50 by the par value of the relevant Underlying Stock, so that the share price of each Underlying Stock when multiplied by its Weight Factor corresponds to a share price based on a uniform par value of (Yen)50. Each Weight Factor represents the number of shares of the related Underlying Stock which are included in one trading unit of the Nikkei 225 Index. The stock prices used in the calculation of the Nikkei 225 Index are those reported by a primary market for the Underlying Stocks, which is currently the TSE. The level of the Nikkei 225 Index is calculated once per minute during TSE trading hours.

The divisor was initially set in 1949 at 225 and is subject to periodic adjustment. In order to maintain continuity in the level of the Nikkei 225 Index in the event of certain changes due to non-market factors affecting the Underlying Stocks, such as the addition or deletion of stocks, substitution of stocks, stock dividends, stock splits or distributions of assets to stockholders, the divisor used in calculating the Nikkei 225 Index is adjusted in a manner designed to prevent any instantaneous change or discontinuity in the level of the Nikkei 225 Index. The divisor remains at the new value until a further adjustment is necessary as the result of another change. As a result of each change affecting any Underlying Stock, the divisor is adjusted in such a way that the sum of all share prices immediately after the change multiplied by the applicable Weight Factor and divided by the new divisor, i.e., the level of the Nikkei 225 Index immediately after the change, will equal the level of the Nikkei 225 Index immediately prior to the change. The current divisor is available on Bloomberg under the symbol "NKY".

Underlying Stocks may be deleted or added by NKS. However, to maintain continuity in the Nikkei 225 Index, the policy of NKS is generally not to alter

the composition of the Underlying Stocks except when an Underlying Stock is deleted in accordance with the following criteria. Any stock becoming ineligible for listing in the First Section of the TSE due to any of the following reasons will be deleted from the Underlying Stocks: bankruptcy of the issuer; merger of the issuer into, or acquisition of the issuer by, another company; delisting of the stock or transfer of the stock to the "Seiri-Post" because of excess debt of the issuer or because of any other reason; or transfer of the stock to the Second Section of the TSE. Upon deletion of a stock from the Nikkei 225 Index, NKS will select, in accordance with certain criteria established by it, a replacement for the deleted Underlying Stock. In an exceptional case, a newly listed stock in the First Section of the TSE that is recognized by NKS to be representative of a market may be added to the Underlying Stocks. As a result, an existing Underlying Stock with low trading volume and not representative of a market will be deleted.

19

NKS is under no obligation to continue the calculation and dissemination of the Nikkei 225 Index. The MITTS Securities are not sponsored, endorsed, sold or promoted by NKS. No inference should be drawn from the information contained in this prospectus that NKS makes any representation or warranty, implied or express, to ML&Co., the holder of the MITTS Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities in particular or the ability of the Nikkei 225 Index to track general stock market performance. NKS has no obligation to take the needs of ML&Co. or the holder of the MITTS Securities into consideration in determining, composing or calculating the Nikkei 225 Index. NKS is not responsible for, and has not participated in the determination of the timing of, prices for, or quantities of, the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be settled in cash. NKS has no obligation or liability in connection with the administration or marketing of the MITTS Securities.

The use of and reference to the Nikkei 225 Index in connection with the MITTS Securities have been consented to by NKS, the publisher of the Nikkei 225 Index.

None of ML&Co., the calculation agent and MLPF&S accepts any responsibility for the calculation, maintenance or publication of the Nikkei 225 Index or any successor index. NKS disclaims all responsibility for any errors or omissions in the calculation and dissemination of the Nikkei 225 Index or the manner in which the Nikkei 225 Index is applied in determining any Starting Values or Ending Values or any Supplemental Redemption Amount upon maturity of the MITTS Securities.

#### The Tokyo Stock Exchange

The TSE is one of the world's largest securities exchanges in terms of market capitalization. Trading hours are currently from 9:00 A.M. to 11:00 A.M. and from 12:30 P.M. to 3:00 P.M., Tokyo time, Monday through Friday.

Due to the time zone difference, on any normal trading day the TSE will close prior to the opening of business in New York City on the same calendar day. Therefore, the closing level of the Nikkei 225 Index on a trading day will generally be available in the United States by the opening of business on the same calendar day.

The TSE has adopted certain measures, including daily price floors and ceilings on individual stocks, intended to prevent any extreme short-term price fluctuations resulting from order imbalances. In general, any stock listed on the TSE cannot be traded at a price lower than the applicable price floor or higher than the applicable price ceiling. These price floors and ceilings are expressed in absolute Japanese yen, rather than percentage limits based on the closing price of the stock on the previous trading day. In addition, when there is a major order imbalance in a listed stock, the TSE posts a "special bid quote" or a "special asked quote" for that stock at a specified higher or lower price level than the stock's last sale price in order to solicit counter-orders and balance supply and demand for the stock. Prospective investors should also be aware that the TSE may suspend the trading of individual stocks in certain limited and extraordinary circumstances, including, for example, unusual trading activity in that stock. As a result, changes in the Nikkei 225 Index may be limited by price limitations or special quotes, or by suspension of trading, on individual stocks which comprise the Nikkei 225 Index, and these limitations may, in turn, adversely affect the value of the MITTS Securities.

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not,

immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

22

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.7221 per unit. This represents an estimated yield on the MITTS Securities equal to 7.48% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon a projected payment schedule for the MITTS Securities (including both a Projected Supplemental Redemption Amount and an estimated yield equal to 7.48% per annum (compounded semiannually)) as determined by ML&Co. for purposes of illustrating the application of the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit)	Total interest deemed to have accrued on the MITTS Securities as of the end of accrual period (per unit)
-----	-----	-----
<S>	<C>	<C>
March 31, 2000 through September 30, 2000.....	\$0.3750	\$0.3750
October 1, 2000 through March 30, 2001.....	\$0.3881	\$0.7631
March 31, 2001 through September 30, 2001.....	\$0.4025	\$1.1656
October 1, 2001 through March 30, 2002.....	\$0.4176	\$1.5832
March 31, 2002 through September 30, 2002.....	\$0.4332	\$2.0164
October 1, 2002 through March 30, 2003.....	\$0.4494	\$2.4658
March 31, 2003 through September 30, 2003.....	\$0.4663	\$2.9321
October 1, 2003 through March 30, 2004.....	\$0.4836	\$3.4157
March 31, 2004 through September 30, 2004.....	\$0.5018	\$3.9175
October 1, 2004 through March 30, 2005.....	\$0.5205	\$4.4380
March 31, 2005 through September 30, 2005.....	\$0.5399	\$4.9779
October 1, 2005 through March 30, 2006.....	\$0.5602	\$5.5381
March 31, 2006 through September 30, 2006.....	\$0.5812	\$6.1193
October 1, 2006 through March 30, 2007.....	\$0.6028	\$6.7221

</TABLE>

- -----

Projected Supplemental Redemption Amount = \$6.7221 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for the information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

24

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file by visiting the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information about the public reference rooms. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

25

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities offered on the NYSE or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

26

SUMMARY INFORMATION -- Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Euro Currency Warrants, Expiring February 28, 2002 (the "warrants"). You should carefully read this prospectus to understand fully the terms of the warrants as well as the tax and other considerations that should be important to you in making a decision about whether to invest in the warrants. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the warrants, to determine whether an investment in the warrants is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

In this prospectus, unless otherwise specified or unless the context otherwise requires, references to "Euro" or "EUR" are to the lawful currency of the member states of the European Union that adopt the single currency in accordance with the treaty establishing the European Community (the "EC") as amended by the Treaty on European Union, and references to "Dollars", "\$", "U.S.\$" or "USD" are to the lawful currency of the United States.

What are the warrants?

The warrants are contractual obligations of ML&Co. and are not secured by collateral. The warrants rank equally with all other unsecured contractual obligations of ML&Co. and ML&Co.'s unsecured unsubordinated debt. The warrants will entitle you to receive a cash settlement upon automatic exercise. The warrants will expire on February 28, 2002.

You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we have issued the warrants in the form of a global certificate, which is being held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record beneficial ownership of the warrants by individual investors. Direct and indirect participants in DTC will include participants in the Euroclear and Clearstream Banking, societe anonyme ("Clearstream, Luxembourg") clearing systems. You should refer to the section "Description of the warrants--Depository" in this prospectus.

When are my warrants subject to automatic exercise?

Your warrants will be automatically exercised on the earlier of:

- (i) the fourth scheduled Business Day prior to the Expiration Date (the "Exercise Date") or,
- (ii) the Business Day immediately prior to the warrants' delisting, the imposition of a permanent trading suspension on trading of the warrants, or if certain events in bankruptcy, insolvency or reorganization involving ML&Co. occur.

See "Description of the warrants--Exercise of the warrants and--Automatic exercise prior to the Expiration Date".

What will I receive upon automatic exercise of my warrants?

When the warrants are automatically exercised, we will pay you a Cash Settlement Amount in U.S. Dollars which will be the greater of

- (i) zero, or
- (ii) U.S. \$50 x  $\left( \frac{\text{Spot Value} - \text{Strike Value}}{\text{Strike Value}} \right)$

You will receive no payment if the Cash Settlement Amount is equal to zero. The Cash Settlement Amount cannot be less than zero.

The "Strike Value" equals 0.8695, the offer rate of the U.S. Dollar per Euro in the interbank market as reported by Reuters Group PLC ("Reuters") on page FXFX at approximately

S-3

3:00 p.m. London time on November 30, 2000, the date the warrants were priced for initial sale to the public.

The "Spot Value" will be determined by MLPF&S, the calculation agent, and will equal the bid rate of the U.S. Dollar per Euro in the interbank market as reported by Reuters on page FXFX at approximately 3:00 p.m. London time on the Exercise Date. If Reuters is not providing the exchange rate for U.S. Dollar per Euro, then MLPF&S will determine such exchange rate using other sources as described in "Description of the Warrants--Cash Settlement Amount".

We will pay you a Cash Settlement Amount only if the Spot Value is greater than the Strike Value. If the Spot Value is less than or equal to the Strike Value upon exercise, the Cash Settlement Amount will be zero. If the Cash Settlement Amount is zero, you will sustain a total loss of the purchase price.

For more specific information about the amount you will receive upon exercise of your warrants, please see the section "Description of the Warrants--Cash Settlement Amount" in this prospectus.

Who can buy the warrants?

The AMEX requires that you have an options-approved account in order to purchase the warrants. We recommend that you, as an investor in the warrants, have experience with respect to options and options transactions. If you are solely dependent upon fixed income, or if you intend to purchase the warrants for your individual retirement plan account or for accounts under the Uniform Transfers/Gifts to Minors Act, then the warrants are not a suitable investment for you. Please see "Risk Factors" in this prospectus.

S-4

-----  
Examples

Here are three examples of Cash Settlement Amount calculations using the initial offering price of \$3.875 per warrant:

Example 1-- Spot Value is less than the Strike Value on the Exercise Date:

Strike Value: 0.8695 U.S./Euro  
Hypothetical Spot Value: 0.8000 U.S./Euro

$$\text{Cash Settlement Amount per warrant} = \$50 \times \frac{(0.8000 - 0.8695)}{(0.8695)} = \$0.00$$

Total Cash Settlement Amount per warrant = \$0 and the exercise of the warrant is worthless.

Example 2-- Spot Value is greater than the Strike Value on the Exercise Date, however, the Cash Settlement Amount is less than the offering price:

Strike Value: 0.8695 U.S./Euro  
Hypothetical Spot Value: 0.9000 U.S./Euro

$$\text{Cash Settlement Amount per warrant} = \$50 \times \frac{(0.9000 - 0.8695)}{(0.8695)} = \$1.75$$

Total Cash Settlement Amount per warrant = \$1.75 and the exercise of the warrant results in a payment that is less than the initial offering price.

Example 3-- Spot Value is greater than the Strike Value on the Exercise Date:

Strike Value: 0.8695 U.S./Euro  
Hypothetical Spot Value: 1.0000 U.S./Euro

$$\text{Cash Settlement Amount per warrant} = \$50 \times \frac{(1.0000 - 0.8695)}{(0.8695)} = \$7.50$$

Total Cash Settlement Amount per warrant = \$7.50.  
-----

S-5

What is the Euro?

The Euro is the official currency of the member states of the European Economic and Monetary Union.

It was introduced in January 1999 and replaced the national currencies of the 11 participating countries. The Euro is the official currency of the member states of the European Economic and Monetary Union that adopted the single currency in accordance with the treaty establishing the EC, as amended by the Treaty on European Union. The following 11 countries use the Euro as their official currency: Germany, Belgium, Luxembourg, Spain, France, Ireland, Italy, the Netherlands, Austria, Portugal and Finland. There is a possibility that in the future other EC countries may adopt the Euro as their official currency.

What does the USD/EUR Rate reflect?

The "USD/EUR Rate" is a foreign exchange spot rate that measures the relative value of two currencies, the Euro and the U.S. Dollar. The USD/EUR Rate increases when the Euro appreciates relative to the U.S. Dollar and decreases when the Euro depreciates relative to the U.S. Dollar.

Are the warrants listed on a stock exchange?

The warrants are listed on the AMEX under the trading symbol "EUN.WS". You should be aware that the listing of the warrants on the AMEX will not necessarily ensure that a liquid trading market will be available for the warrants, or that it will remain available throughout the term of the warrants. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the warrants" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the warrants. MLPF&S intends to buy and sell warrants to create a secondary market for holders of the warrants. However, MLPF&S will not be obligated to engage in any of these market activities, or to continue them once it has started.

MLPF&S is also our agent for purposes of calculating the Spot Value and the Cash Settlement Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent. Please see the section entitled "Risk Factors--Potential conflicts of interest" in this prospectus.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the warrants is subject to risks, including the risk that you will lose your entire purchase price. Please refer to the section "Risk Factors" in this prospectus.

S-6

#### RISK FACTORS

Your investment in the warrants will involve a high degree of risk. For example, there is foreign exchange risk, the risk that you might not earn a return on your investment and the risk that the warrants will expire worthless. You should be prepared to sustain a total loss of the purchase price of your warrants. We suggest that you, as a potential purchaser of warrants, be experienced with respect to options and option transactions and understand the risks of foreign currency transactions. In addition, you should reach an investment decision with regard to the warrants only after consulting with your legal and tax advisers and considering the suitability of the warrants in the light of your particular circumstances.

The warrants are long-term options and may expire worthless

Your warrants will be automatically exercised on the earlier of either the Exercise Date, Delisting Date or Early Expiration Date and are not exercisable at your option. You will receive a cash payment upon automatic exercise only if the warrants have a Cash Settlement Amount greater than zero on the date of exercise. On November 30, 2000 the Cash Settlement Amount of the warrants are equal to zero. The warrants will be "in-the-money", i.e., their Cash Settlement Amount will exceed zero, only if as of the date of automatic exercise, the Spot

Value is greater than the Strike Value.

If the Spot Value is less than or equal to the Strike Value on the date of automatic exercise, the warrant will expire worthless and you will have sustained a total loss of the purchase price of the warrant. You should therefore be prepared to sustain a total loss of the purchase price of your warrants.

The price of the warrants may be higher than the price a commercial user might pay in certain circumstances

The price of the warrants may be greater than the price a commercial user of, or dealer in options on, U.S. Dollars or Euro might pay for a comparable option involving significantly larger amounts of U.S. Dollars and Euro.

The value of the warrants is closely related to changes in the USD/EUR Rate

The warrants provide opportunities for investment but also pose risks to you as a result of fluctuations in the value of the currency underlying the warrants. In general, certain risks associated with the warrants are similar to those generally applicable to other options or warrants of private corporate issuers. However, unlike options or warrants on equity or debt securities, which are traded and priced primarily on the basis of the value of a single underlying security, the trading value of the warrants being offered by this prospectus is likely to reflect the current and anticipated USD/EUR Rate on the Exercise Date.

You may lose your entire investment. This risk reflects the nature of a warrant as an asset which tends to decline in value over time and which may, depending on the relative value of the Euro as compared with the U.S. Dollar, be worthless when it expires. A warrant is "out-of-the-money" when the Spot Value is less than the Strike Value. Assuming all other factors are held constant, the more a warrant is out-of-the-money and the shorter its remaining term to expiration, the greater the risk that you will lose all of your investment. This means that if you do not sell your warrants in the secondary market, you will lose your entire investment in the warrant if it expires when the Spot Value is less than or equal to the Strike Value.

Since warrants may become worthless upon expiration, you must generally be correct about the direction, timing and magnitude of anticipated exchange rate changes affecting the Euro and the U.S. Dollar in order to recover and realize a return upon your investment. If the value of the Euro as compared with the U.S. Dollar does not increase to an extent sufficient to cover the cost of your warrants, i.e., the purchase price, before the warrants expire, you will lose all or a part of your investment in the warrants upon expiration. You will bear the foreign exchange risks of the value of the U.S. Dollar in terms of the Euro.

S-7

Currency Exchange Markets. The value of any currency, including the Euro and the U.S. Dollar, may be affected by complex political and economic factors. The spot exchange rate of the Euro in terms of the U.S. Dollar is at any moment a result of the supply and demand for the two currencies, and changes in the exchange rate result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the European Union and the United States, including economic and political developments in other countries. Of particular importance are the relative rates of inflation, interest rate levels, the balance of payments and the extent of governmental surpluses or deficits in the European Union and in the United States, all of which are in turn sensitive to the monetary, fiscal and trade policies pursued by the European Union, the governments of the European Union, the United States and other countries important to international trade and finance.

Foreign exchange rates can either be fixed by sovereign governments or floating. Exchange rates of most economically developed nations, including the European Union, are permitted to fluctuate in value relative to the U.S. Dollar. However, governments sometimes do not allow their currencies to float freely in response to economic forces. Governments, including the European Union, use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes, to affect the exchange rates of their respective currencies. They may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by devaluation or revaluation of a currency. Thus, a special risk in purchasing the warrants is that their liquidity, trading value and Cash Settlement Amount could be affected by the actions of sovereign governments or the European Union which could change or interfere with theretofore freely determined currency valuation, fluctuations in response to other market forces and the movement of currencies across borders. There will be no adjustment or change in the terms of the warrants in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting the Euro, the U.S. Dollar or any other currency.

Even though currency trades around-the-clock, your warrants will trade on the AMEX only during regular trading hours

The interbank market in foreign currencies is a global, around-the-clock market. Therefore, the hours of trading for the warrants will not conform to the hours during which the Euro and U.S. Dollar are traded. To the extent that the AMEX is closed while the markets for the Euro remain open, significant price and rate movements may take place in the underlying foreign exchange markets that will not be reflected immediately in the price of a warrant on such exchange. The possibility of these movements should be taken into account in relating closing prices on the AMEX for the warrants to those in the underlying foreign exchange markets.

There is no systematic reporting of last-sale information for foreign currencies. Reasonably current bid and offer information is available in certain brokers' offices, in bank foreign currency trading offices, and to others who wish to subscribe for this information, but this information will not necessarily reflect the EUR bid rate used to calculate the Spot Value. There is no regulatory requirement that those quotations be firm or revised on a timely basis. The absence of last-sale information and the limited availability of quotations to individual investors may make it difficult for many investors to obtain timely, accurate data about the state of the underlying foreign exchange markets.

The warrants are suitable only for investors with options-approved accounts

The AMEX requires that warrants be sold only to investors with options-approved accounts and that its members and member organizations and their registered employees make certain suitability determinations before recommending transactions in warrants. We suggest that investors considering purchasing warrants be experienced with respect to options and option transactions and understand the risks of foreign currency transactions and reach an investment decision only after carefully considering, with their advisers, the suitability of the warrants in light of their particular circumstances. Warrants are not suitable for persons solely dependent upon a fixed income, for individual retirement plan accounts or for accounts under the

S-8

Uniform Transfers/Gifts to Minors Act. You should be prepared to sustain a total loss of the purchase price of your warrants.

The warrants will be automatically exercised if they are delisted

In the event that the warrants are delisted from, or permanently suspended from trading on, the AMEX and the warrants are not simultaneously accepted for trading pursuant to the rules of another regulated trading organization that files with the SEC under U.S. securities laws, the warrants will expire on the date of the delisting or trading suspension becomes effective and will be deemed automatically exercised on the Delisting Date. At the time of the automatic exercise, the warrants may be out-of-the-money so that the Cash Settlement Amount would equal zero.

The warrants are not standardized options issued by the Options Clearing Corporation

The warrants are not standardized foreign currency options of the type issued by the Options Clearing Corporation (the "OCC"), a clearing agency regulated by the SEC. For example, unlike purchasers of OCC standardized options who have the credit benefits of guarantees and margin and collateral deposits by OCC clearing members to protect the OCC from a clearing member's failure, purchasers of warrants must look solely to ML&Co. for performance of its obligations to pay the Cash Settlement Amount on the exercise of warrants. In addition, OCC standardized options provide for physical delivery of the underlying foreign currency (rather than cash settlement in U.S. Dollars), and permit immediate determination of value upon exercise. Further, the market for the warrants is not expected to be generally as liquid as the market for some OCC standardized options.

The warrants are unsecured contractual obligations of ML&Co. and rank equally with ML&Co.'s other unsecured contractual obligations and with ML&Co.'s unsecured and unsubordinated debt. However, given that ML&Co. is a holding company, the right of ML&Co., and hence the right of creditors of ML&Co., including beneficial owners of the warrants, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of certain exchanges and other regulatory bodies.

There may be an uncertain trading market for the warrants

The warrants are listed on the AMEX under the trading symbol "EUN.WS". While there have been a number of issuances of different warrants, trading volumes have varied historically from one series to another, and it is therefore impossible to predict how the warrants will trade. You cannot assume that a

trading market exists for the warrants. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market.

Many factors affect the trading value of the warrants; these factors interrelate in complex ways and the effect of one factor may offset or magnify the effect of another factor

The market value of the warrants will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the warrants caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the warrants caused by another factor. For example, an increase in the level of Euro interest rates may offset some or all of any increase in the trading value of the warrants attributable to another factor, such as an increase in the value of the USD/EUR Rate. The following paragraphs describe the expected impact on the market value of the warrants given a change in a specific factor, assuming all other conditions remain constant.

The value of the USD/EUR Rate is expected to affect the trading value of the warrants. We expect that the trading value of the warrants will depend primarily on the current and anticipated USD/EUR Rate on

S-9

the Exercise Date. It is possible that the trading value of a warrant may decline even if there is a increase in the value of the Euro as compared to the U.S. Dollar prior to the Exercise Date.

Changes in the levels of interest rates are expected to affect the trading value of the warrants. We expect that interest rates will affect the trading value of the warrants. In general, if U.S. interest rates increase, we expect that the trading value of the warrants will increase and, conversely, if U.S. interest rates decrease, we expect that the trading value of the warrants will decrease. In general, if Euro interest rates increase, we expect that the trading value of the warrants will decrease and, conversely, if Euro interest rates decrease, we expect that the trading value of the warrants will increase. Interest rates may also affect the economies of the member countries of the European Union or the United States, and, in turn, the USD/EUR Rate.

Changes in volatility of the USD/EUR Rate are expected to affect the trading value of the warrants. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. Generally, if the volatility of the USD/EUR Rate increases, we expect that the trading value of the warrants will increase and, conversely, if the volatility of the USD/EUR Rate decreases, we expect that the trading value of the warrants will decrease.

As the time remaining to the expiration date of the warrants decreases, the "time premium" associated with the warrants will decrease. We anticipate that the warrants may trade at a value above that which would be expected based on the level of the USD/EUR Rate due to a "time premium" resulting from expectations concerning the value of the USD/EUR Rate prior to the expiration of the warrants. Generally, as the time remaining to the expiration date of the warrants decreases, we expect that this time premium will decrease, lowering the trading value of the warrants.

Changes in our credit ratings may affect the trading value of the warrants. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the warrants. However, because the return on your warrants is dependent upon factors in addition to our ability to pay our obligations under the warrants, such as any increase in the USD/EUR Rate, an improvement in our credit ratings will not reduce other investment risks related to warrants.

It is important for you to understand that the impact of one of the factors specified above, such as a decrease in USD/EUR Rate volatility, may offset some or all of any increase in the trading value of the warrants attributable to another factor, such as any increase in the USD/EUR Rate. Before selling warrants, beneficial owners should carefully consider the trading value of the warrants, the value of the U.S. Dollar and the Euro, and the probable range of Cash Settlement Amounts.

#### Potential conflicts of interests

Our subsidiary, MLPF&S, is the calculation agent for the warrants. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the warrants could give rise to conflicts of interests between the calculation agent and the holders of the warrants. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due under the

warrants. This subsidiary expects to make a profit in connection with the arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

Tax consequences

You should also consider the tax consequences of investing in the warrants. See "United States Federal Income Taxation" below.

S-10

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Warrants described in this prospectus.

S-11

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred

security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

S-12

#### DESCRIPTION OF THE WARRANTS

An aggregate of 1,600,000 warrants have been issued. The warrants are contractual obligations controlled by a Warrant Agreement (the "Warrant Agreement") dated December 6, 2000, between ML&Co. and Citibank, N.A., as Warrant Agent (the "Warrant Agent"). The warrants will expire on February 28, 2002. The following statements about the warrants summarize the detailed provisions of the Warrant Agreement, the form of which was filed as an exhibit to the registration statement relating to the warrants. Wherever we refer to particular provisions of the Warrant Agreement or its terms, those provisions or definitions are incorporated by reference as a part of the statements made, and the statements are qualified in their entirety by those references.

A warrant will not require, or entitle, a beneficial owner to sell or purchase Euro to or from ML&Co. ML&Co. will make only a U.S. Dollar cash settlement, if any, upon automatic exercise of the warrants.

The warrants will expire on February 28, 2002 (the "Expiration Date") or on an earlier date as described under "-- Automatic exercise prior to the Expiration Date". The warrants will be automatically exercised on the Exercise Date, as set forth under "-- Exercise of warrants".

The warrants are unsecured contractual obligations of ML&Co. and rank equally with its other unsecured contractual obligations and with its unsecured and unsubordinated debt. Because ML&Co. is a holding company, the right of ML&Co. and its creditors, including the currency warrant holders, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise is necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that a bankruptcy court may recognize claims of ML&Co. itself as a creditor of the subsidiary. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Securities Exchange Act of 1934, as amended, and under rules of certain exchanges and other regulatory bodies.

#### Exercise of warrants

The warrants will expire on the Expiration Date. The warrants are not exercisable at the option of the holder. The warrants will be automatically exercised on the earlier of (i) the fourth scheduled Business Day prior to the Expiration Date (the "Exercise Date") or, (ii) on the Delisting Date in the case of delisting or a trading suspension or on the Early Expiration Date in the case of certain events in bankruptcy, insolvency or reorganization.

The Warrant Agent will obtain the Cash Settlement Amount on the Exercise Date from the calculation agent and will pay the Cash Settlement Amount of the warrants to the depository on the Expiration Date and, if February 28, 2002 is not a Business Day, on the next succeeding Business Day. If the warrants are delisted or there is a trading suspension and the warrants are not simultaneously accepted for listing on another national securities exchange, as described below under "Automatic exercise prior to the Expiration Date", the Warrant Agent will pay the Cash Settlement Amount of the warrants to the depository on the fifth Business Day following the Delisting Date or Early Expiration Date, as applicable. See "Description of the warrants--DTC Procedures".

#### Cash Settlement Amount

The Cash Settlement Amount for each warrant you own will be determined on the Exercise Date as an amount in U.S. Dollars equal to the greater of:

(i) zero, or

(ii) U.S. \$50 x  $\frac{\text{Spot Value} - \text{Strike value}}{\text{Strike Value}}$

The Cash Settlement Amount cannot be less than zero. You will never owe us any money on the warrants you own.

S-13

The "Spot Value" will be determined by MLPF&S or any successor thereto, as the calculation agent (the "calculation agent"), and will equal the bid rate of the U.S. Dollar per Euro in the interbank market as reported by Reuters on page

FXFX at approximately 3:00 p.m. London time on the Exercise Date.

The "Strike Value" equals 0.8695, the offer rate of the U.S. Dollar per Euro in the interbank market as reported by Reuters on page FXFX at approximately 3:00 p.m. London time on November 30, 2000, the date the warrants were priced for initial sale to the public.

However, if the USD/EUR Rate is not so quoted on the date of automatic exercise, then the Spot Value will be the exchange rate between Euro and U.S. Dollars, based upon the noon buying rate in New York for cable transfers in foreign currencies as announced by the Federal Reserve Bank of New York for customs purposes (the "Noon Buying Rate"). If the Noon Buying Rate is not announced on such date of automatic exercise, then the Spot Value will be calculated on the basis of the arithmetic mean of the applicable spot quotations received by the calculation agent at approximately 3:00 p.m. London time on the relevant date for the purchase or sale by the Reference Dealers of the Reference Amount for settlement two Business Days later. If fewer than two Reference Dealers provide such spot quotations, then the Spot Value will be calculated on the basis of the arithmetic mean of the applicable spot quotations received by the calculation agent at approximately 3:00 p.m. London time on the relevant date from three leading commercial banks in New York (selected in the sole discretion of the calculation agent), for the sale by such banks of the Reference Amount for settlement two Business Days later. If these spot quotations are available from fewer than three banks, then the calculation agent, in its sole discretion, shall determine which spot rate is available and reasonable to be used. If no such spot quotation is available, then the Spot Value will be the rate the calculation agent, in its sole discretion, determines to be fair and reasonable under the circumstances at approximately 3:00 p.m., London time, on the relevant date.

"Business Day", as used herein, means any day other than a Saturday or a Sunday or a day on which commercial banks in The City of New York are required or authorized by law or executive order to be closed.

"Reference Amount" is U.S.\$869,500, which was equal to approximately EUR 1,000,000 on November 30, 2000.

"Reference Dealers", as used herein, means Citibank, N.A., Deutsche Bank Securities, Inc. and The Chase Manhattan Bank, or their successors.

We will round the Cash Settlement Amount, if necessary, to the nearest cent, with one-half cent being rounded upwards.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the beneficial owners of the warrants.

#### Automatic exercise prior to the Expiration Date

In the event that the warrants are delisted from, or permanently suspended from trading on, the AMEX and the warrants are not simultaneously accepted for trading pursuant to the rules of another national securities exchange, the warrants will expire on the Business Day immediately prior to the date on which such delisting or trading suspension becomes effective (the "Delisting Date"), and the warrants will be automatically exercised at the close of business on such Delisting Date. The Cash Settlement Amount, if any, shall be determined by the calculation agent as provided under "--Cash Settlement Amount" as if the Delisting Date were the Exercise Date, and the Cash Settlement Amount will be paid on the fifth Business Day following such Delisting Date. Settlement shall otherwise occur as described under "--DTC Procedures". We will notify you as soon as practicable of such delisting or trading suspension. We have agreed in the Warrant Agreement that we will not seek delisting of the warrants or suspension of their trading on the AMEX.

The warrants may also expire on the date of occurrence of certain events in bankruptcy, insolvency or reorganization involving ML&Co. and the warrants will be automatically exercised as of the Business Day

S-14

immediately preceding such date (the "Early Expiration Date"). The Cash Settlement Amount, if any (determined as provided under "--Cash Settlement Amount" as if the Early Expiration Date were the Exercise Date), of such automatically exercised warrants will be due and payable on the fifth Business Day following such Early Expiration Date. Settlement will otherwise occur as described under "--DTC Procedures".

#### Modification

The Warrant Agreement and the terms of the warrants may be amended by ML&Co. and the Warrant Agent without the consent of the beneficial owners of any warrants for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective or inconsistent provision contained in the Warrant Agreement or the terms of the warrants, or in any other manner which ML&Co. may

deem necessary or desirable and which will not materially and adversely affect the interests of the beneficial owners of the warrants.

ML&Co. and the Warrant Agent also may modify or amend the Warrant Agreement and the terms of the warrants, with the consent of the beneficial owners of not less than a majority of the then outstanding warrants affected, provided that no modification or amendment that changes the Strike Value so as to adversely affect the beneficial owner, shortens the period of time during which the warrants will be automatically exercised or otherwise materially and adversely affects the exercise rights of the beneficial owners of the warrants or reduces the number of outstanding warrants the consent of whose beneficial owners is required for modification or amendment of the Warrant Agreement or the terms of the warrants may be made without the consent of the beneficial owners of warrants affected by these changes.

#### Merger and Consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay or deliver the Cash Settlement Amount or any consideration payable or deliverable upon exercise, if applicable with respect to all the Warrants; and
  - . perform and observe all of the obligations and conditions of the warrant agreement to be performed or observed by ML&Co.; and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any merger or consolidation, in default under the warrant agreement.

#### Depository

##### Description of the Global Warrants

All of the warrants are represented by one or more fully registered global warrants. Each global warrant has been deposited with, or on behalf of, The Depository Trust Company, otherwise known as DTC, or any successor to it (the "depository"), as depository, and registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for warrants in definitive form, no global warrant may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of its successor. Investors may elect to hold interests in the global warrants through either the depository, in the United States, or Clearstream, Luxembourg, or Morgan Guaranty Trust Company of New York, Brussels Office, as operator of the Euroclear System ("Euroclear"), if they are participants in these systems, or indirectly through organizations which are participants in these systems. Clearstream, Luxembourg and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream, Luxembourg's and Euroclear's names on

S-15

the books of their respective depositories, which in turn will hold interests in customers' securities accounts in the depositories' names on the books of the depository. The Chase Manhattan Bank is acting as depository for Euroclear and Citibank, N.A, not in its capacity as Warrant Agent under the Warrant Agreement, is acting as depository for Clearstream, Luxembourg (in these capacities, the "U.S. Depositories").

So long as DTC, or its nominee, is a registered owner of a global warrant, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the warrants represented by the global warrant for all purposes under the Warrant Agreement. Except as provided below, the beneficial owners of the warrants represented by a global warrant are not entitled to have the warrants represented by the global warrant registered in their names, will not receive or be entitled to receive physical delivery of the warrants in definitive form and are not considered the owners or holders of the warrants under the Warrant Agreement, including for purposes of receiving any reports delivered by ML&Co. or the Warrant Agent pursuant to the Warrant Agreement. Accordingly, each person owning a beneficial interest in a global warrant must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the Warrant Agreement. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest which a holder is entitled to give or take under the Warrant Agreement, DTC would authorize the participants holding the relevant beneficial interests to give or take any action, and these

participants would authorize beneficial owners owning through these participants to give or take any action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by the depositary to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is acting as securities depositary for the warrants. The warrants were issued as fully registered securities registered in the name of Cede & Co., DTC's nominee. One or more fully registered global warrants were issued for the warrants and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the American Stock Exchange, Inc., and the NASD. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the warrants under DTC's system must be made by or through direct participants, which will receive a credit for the warrants on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which these beneficial owner entered into the transaction. Transfers of ownership interests in the warrants are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

S-16

To facilitate subsequent transfers, all warrants deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of warrants with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the warrants; DTC's records reflect only the identity of the direct participants to whose accounts the warrants are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Ownership of beneficial interests in the warrants is limited to persons that have accounts with the depositary ("participants") or persons that may hold interests through participants. The depositary has advised ML&Co. that after the issuance of the global warrants representing the warrants, the depositary credited, on its book-entry registration and transfer system, the participants' accounts with the respective number of warrants represented by the global warrant. Ownership of beneficial interests in the global warrant is shown on, and the transfer of ownership interests will be effected only through, records maintained by the depositary, with respect to interests of participants, and on the records of participants, with respect to interests of persons held through participants. The laws of some states may require that certain purchasers of securities take physical delivery of these securities in definitive form. These limits and laws may impair the ability to own, transfer or pledge beneficial interests in the global warrants.

The Cash Settlement Amount payable upon exercise of warrants registered in the name of the depositary or its nominee will be paid by the Warrant Agent to the participants or, in the case of automatic exercise, to the depositary. None of ML&Co., the Warrant Agent or any other agent of ML&Co. or agent of the Warrant Agent has any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests or for

supervising or reviewing any records relating to beneficial ownership interests. ML&Co. expects that the Warrant Agent, upon the receipt of any payment of the Cash Settlement Amount in respect of any portion of the global warrant, will pay the relevant participant in an amount proportionate to its beneficial interest in the global warrant being exercised and that the participant will credit the accounts of the beneficial owners of the warrants. ML&Co. expects that the depository, in the case of automatic exercise, upon receipt of any payment of the Cash Settlement Amount in respect of all or any portion of the global warrant, will credit the accounts of the participants with payment in amounts proportionate to their respective beneficial interests in the portion of the global warrant so exercised, as shown on the records of the depository. ML&Co. also expects that payments by participants to owners of beneficial interests in the global warrant will be governed by standing customer instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the participants. It is suggested that a purchaser of warrants with accounts at more than one brokerage firm effect transactions in the warrants, including exercises, only through the brokerage firm or firms which hold that purchaser's warrants.

#### Exchange for certificated warrants

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the Warrant Agent a company order to the effect that the global warrants shall be exchangeable, or
- . ML&Co. is subject to certain events in bankruptcy, insolvency or reorganization,

S-17

the global warrants will be exchangeable for warrants in definitive form of like tenor. These definitive warrants will be registered in the name or names as the depository shall instruct the Warrant Agent. It is expected that the instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global warrants.

DTC may discontinue providing its services as securities depository with respect to the warrants at any time by giving reasonable notice to ML&Co. or the Warrant Agent. Under these circumstances, in the event that a successor securities depository is not obtained, warrant certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC, or a successor securities depository. In that event, warrant certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for the accuracy of this information.

#### Clearstream, Luxembourg and Euroclear

Beneficial owners may hold their interests in warrants through Clearstream, Luxembourg or Euroclear only if they are participants in these systems, or indirectly through organizations which are participants in these systems. Clearstream, Luxembourg and Euroclear will hold omnibus positions on behalf of their participants through the facilities of DTC. All securities in Clearstream, Luxembourg or Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts.

Exercises of warrants by persons holding through Clearstream, Luxembourg or Euroclear participants will be effected through DTC, in accordance with DTC rules, on behalf of the relevant European international clearing system by its depository; however, these transactions will require delivery of exercise instructions to the relevant European international clearing system by the participant in that system in accordance with its rules and procedures and within its established deadlines under European time. The relevant European international clearing system will, if the exercise meets its requirements, deliver instructions to its depository to take action to effect its exercise of the warrants on its behalf by delivering warrants through DTC and receiving payment in accordance with its normal procedures for next-day funds settlement. Payments with respect to the warrants held through Clearstream, Luxembourg or Euroclear will be credited to the cash accounts of Clearstream, Luxembourg or Euroclear participants or Euroclear participants in accordance with the relevant system's rules and procedures, to the extent received by its depository. See "--DTC Procedures" in this prospectus supplement.

Clearstream, Luxembourg advises that it is incorporated under the laws of

Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations ("Clearstream, Luxembourg Participants") and facilitates the clearance and settlement of securities transactions between Clearstream, Luxembourg Participants through electronic book-entry changes in accounts of Clearstream, Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream, Luxembourg Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Monetary Institute. Clearstream, Luxembourg Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg Participant either directly or indirectly.

Distributions with respect to the warrants held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream, Luxembourg Participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream, Luxembourg.

S-18

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear ("Euroclear Participants") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by the Brussels, Belgium office of Morgan Guaranty Trust Company of New York (the "Euroclear Operator"), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the "Cooperative"). The Euroclear Operator conducts all operations, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is the Belgian branch of a New York banking corporation that is a member bank of the Federal Reserve System. It is regulated and examined by the Board of Governors of the Federal Reserve System and the New York State Banking Department, as well as the Belgian Banking Commission.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "Terms and Conditions"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of or relationship with persons holding through Euroclear Participants.

All information in this prospectus on Clearstream, Luxembourg and Euroclear is derived from Clearstream, Luxembourg or Euroclear, as the case may be, and reflects the policies of these organizations; and these policies are subject to change without notice.

S-19

#### THE USD/EUR RATE AND CASH SETTLEMENT AMOUNTS

The USD/EUR Rate is a foreign exchange spot rate that measures the relative values of two currencies, the Euro and the U.S. Dollar. The USD/EUR Rate increases when the Euro appreciates relative to the U.S. Dollar and decreases when the Euro depreciates relative to the U.S. Dollar. The USD/EUR Rate is expressed as a rate that reflects the amount of U.S. Dollar that can be purchased for one Euro. A USD/EUR Rate equal to 0.8695 USD/EUR thus indicates that \$0.8695 can be purchased for 1 Euro. The foreign exchange spot rate of the U.S. Dollar per Euro on the Exercise Date will determine the Cash Settlement Amount. Appreciation of the Euro relative to the U.S. Dollar, i.e., depreciation of the U.S. Dollar relative to the Euro, will result in a greater Cash Settlement Amount. Conversely, depreciation of the Euro relative to the U.S. Dollar, i.e., appreciation of the U.S. Dollar relative to the Euro, will result

in a lesser Cash Settlement Amount. In no event will the Cash Settlement Amount be less than zero.

S-20

On November 30, 2000 the offer rate of the U.S. Dollar per Euro in the interbank market as reported by Reuters on page FFXF at approximately 3:00 pm London time was 0.8695.

The information presented in this prospectus relating to the exchange rates of the U.S. Dollar relative to the Euro is furnished as a matter of information only. The fluctuations in the USD/EUR Rate that have occurred in the past are not necessarily indicative of fluctuations in that rate which may occur over the term of the warrants.

Set forth below is an illustration of the Cash Settlement Amount of warrants at exercise based on various hypothetical USD/EUR Rates. This table assumes a dollar multiplier of U.S.\$50. The Percentage Change column indicates the percentage increase or decrease in the value of the Spot Value as compared to the Strike Value at the time of exercise. The actual Cash Settlement Amount of a warrant will depend entirely on the actual USD/EUR Rate on the Exercise Date. The illustrative Cash Settlement Amounts in the table do not reflect any "time value" for a warrant, which may be reflected in trading value, and are not necessarily indicative of potential profit or loss, which are also affected by purchase price.

S-21

Hypothetical USD/EUR Spot Values	Percentage Change/(1)/	Cash Settlement Amount Based on USD/EUR Spot Values/(1)/
1.2000	38.0%	\$19.01
1.1500	32.3%	\$16.13
1.1000	26.5%	\$13.25
1.0500	20.8%	\$10.38
1.0000	15.0%	\$ 7.50
0.9500	9.3%	\$ 4.63
0.9000	3.5%	\$ 1.75
0.8695	0.0%	\$ 0.00
0.8500	-2.2%	\$ 0.00
0.8000	-8.0%	\$ 0.00
0.7500	-13.7%	\$ 0.00

/(1)/ Based upon a USD/EUR Strike Value of 0.8695.

S-22

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the "Code" prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any warrant on behalf of any plan, represents on behalf of itself and the plan that the acquisition, holding and any subsequent disposition of the warrant will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the warrants and other securities. For further information on ML&Co. and the warrants, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because the prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement.

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and

S-23

- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th Floor, New York, New York 10038, Telephone: (212) 670-0432.

S-24

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the Warrants and is to be used by MLPF&S when making offers and sales related to market-making transactions in the Warrants.

MLPF&S may act as principal or agent in these market-making transactions.

The Warrants may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the Warrants will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts

in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Table with 2 columns: Page and Content. Content includes SUMMARY INFORMATION--Q&A, RISK FACTORS, MERRILL LYNCH & CO., INC., RATIO OF EARNINGS TO FIXED CHARGES, DESCRIPTION OF THE CALLABLE MITTS SECURITIES, THE BROADBAND HOLDERS TRUST, OTHER TERMS, PROJECTED PAYMENT SCHEDULE, ERISA CONSIDERATIONS, WHERE YOU CAN FIND MORE INFORMATION, INCORPORATION OF INFORMATION WE FILE WITH THE SEC, PLAN OF DISTRIBUTION, EXPERTS.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Callable Market Index Target-Term Securities(R) due September 13, 2007 based upon Broadband HOLDERS(SM). You should carefully read this prospectus to fully understand the terms of the Callable MITTS Securities and the tax and other considerations that are important to you in making a decision about whether to invest in the Callable MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the Callable MITTS Securities, to determine whether an investment in the Callable MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

"Broadband HOLDERS" are depositary receipts issued by the Broadband HOLDERS Trust. We have attached the prospectus dated . and the prospectus supplement dated . for Broadband HOLDERS (together, the "HOLDERS Prospectus"). From time to time the Broadband HOLDERS Trust updates the prospectus supplement. You should carefully read the HOLDERS Prospectus and any updated prospectus supplements including the section entitled "Risk Factors" to fully understand the operation and management of the Broadband HOLDERS Trust and risks that may affect the price of Broadband HOLDERS. The Broadband HOLDERS Trust will not receive any of the proceeds from the sale of the Callable MITTS Securities and will not have any obligations with respect to the Callable MITTS Securities.

We have attached the HOLDERS Prospectus and are delivering it to you together with this prospectus for the convenience of reference only. The HOLDERS Prospectus does not constitute a part of this prospectus nor is it incorporated by reference into this prospectus.

What are the Callable MITTS Securities?

The Callable MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The Callable MITTS Securities rank

equally with all of our other unsecured and unsubordinated debt. The Callable MITTS Securities will mature on September 13, 2007 unless called by ML&Co. in September 2006.

Each unit of Callable MITTS Securities represents \$10 principal amount of Callable MITTS Securities. You may transfer the Callable MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the Callable MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the Callable MITTS Securities. You should refer to the section entitled "Description of the Callable MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the Callable MITTS Securities?

We have designed the Callable MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the price of Broadband HOLDRS. On the stated maturity date, if we have not called the Callable MITTS Securities, you will receive a cash payment equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

#### Principal Amount

The "principal amount" per unit is \$10.

#### Supplemental Redemption Amount

3

The "Supplemental Redemption Amount" per unit will equal:

$$\text{\$10x } \left( \frac{\text{Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right)$$

but will not be less than zero.

The "Starting Value" equals \$92.00, the closing price of Broadband HOLDRS on September 7, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be the average of the closing prices of Broadband HOLDRS, as adjusted for dilution and reorganization events described in this prospectus, on five business days shortly before the maturity of the Callable MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's closing price if, during the period shortly before the stated maturity date of the Callable MITTS Securities, there is a disruption in the trading of Broadband HOLDRS.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the Callable MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if we do not call the Callable MITTS Securities in September 2006 and the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your Callable MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations. If we call the Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not be entitled to receive any payment on the stated maturity date.

Example 1--Ending Value is less than the Starting Value on the stated maturity date:

Starting Value: \$92.00

Hypothetical Ending Value at maturity: \$82.80

<TABLE>

<S>

<C>

Supplemental Redemption Amount (per unit) =	( 82.80 - 92.00 )	(Supplemental Redemption amount cannot be less than zero)
	(-----)	
	( 92.00 )	

Total payment on the stated maturity date (per unit) = \$10.00 + \$0.00  
= \$10.00

Example 2--Ending Value is greater than the Starting Value on the stated maturity date:

Starting Value: \$92.00

Hypothetical Ending Value at maturity: \$133.40

Supplemental Redemption Amount (per unit) = \$10 x (133.40 - 92.00)  
(-----) = \$4.50  
( 92.00 )

Total payment on the stated maturity date (per unit) = \$10.00 + \$4.50 = \$14.50

</TABLE>

4

How does the call feature work?

We may elect to call the Callable MITTS Securities at \$20.50 per unit (the "Call Price"), on any Business Day during the month of September 2006 (the "Call Period") by giving notice to the trustee of the Callable MITTS Securities as described in this prospectus and specifying the date on which the Call Price will be paid (the "Payment Date"). The Payment Date will be no later than the twentieth Business Day after the call election. The Call Price represents an annualized rate of return on your Callable MITTS Securities of 12.05%, as calculated on a semi-annual bond equivalent basis, assuming you own the Callable MITTS Securities from September 13, 2000 to the Payment Date.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Broadband HOLDERS. If we do not call the Callable MITTS Securities during the Call Period, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity date may be greater than or less than the Call Price.

Will I receive interest payments on the Callable MITTS Securities?

You will not receive any interest payments on the Callable MITTS Securities, but will instead receive the principal amount plus the Supplemental Redemption Amount, if any, at maturity, or the Call Price if the Callable MITTS Securities are called during the Call Period. We have designed the Callable MITTS Securities for investors who are willing to forego market interest payments on the Callable MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the price of Broadband HOLDERS.

What is the Broadband HOLDERS Trust?

The Broadband HOLDERS Trust was formed under a depositary trust agreement, dated March 22, 2000, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Broadband HOLDERS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the broadband business. The trust issues Broadband HOLDERS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Broadband HOLDERS are separate from the underlying common stocks that are represented by Broadband HOLDERS.

Broadband HOLDERS are listed on the AMEX under the trading symbol "BDH".

You should carefully read the HOLDERS Prospectus accompanying this prospectus to fully understand the operation and management of the Broadband HOLDERS Trust. The risks described in the HOLDERS Prospectus under the section entitled "Risk Factors" may affect the prices of Broadband HOLDERS and, therefore, the value of the Callable MITTS Securities. The HOLDERS Prospectus is not incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

Please note that an investment in the Callable MITTS Securities does not entitle you to an ownership interest in Broadband HOLDERS or in the stocks held by the Broadband HOLDERS Trust.

Are the Callable MITTS Securities listed on a stock exchange?

The Callable MITTS Securities are listed on the AMEX under the trading symbol "BDM". The listing of the Callable MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the Callable MITTS Securities. You should review the section entitled "Risk Factors--There

may be an uncertain trading market for the Callable MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary MLPF&S was the underwriter for the initial offering and sale of the

5

Callable MITTS Securities. MLPF&S intends to buy and sell Callable MITTS Securities to create a secondary market for holders of the Callable MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities or to continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent. In addition, MLPF&S acted as the initial depositor for the Broadband HOLDRS Trust and regularly makes a market in Broadband HOLDRS.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the Callable MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

6

#### RISK FACTORS

Your investment in the Callable MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the Callable MITTS Securities. In addition, you should reach an investment decision with regard to the Callable MITTS Securities only after consulting your legal and tax advisers and considering the suitability of the Callable MITTS Securities in light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value, the Supplemental Redemption Amount will be zero. This will be true even if the price of Broadband HOLDRS was higher than the Starting Value at some time during the life of the Callable MITTS Securities but later falls to or below the Starting Value. If the Supplemental Redemption Amount is zero and the Callable MITTS Securities are not called by us prior to the stated maturity date, we will pay you only the principal amount of your Callable MITTS Securities.

The Callable MITTS Securities are subject to early call

We may elect to call all of the Callable MITTS Securities by giving notice on any Business Day during the Call Period. We are likely to call the Callable MITTS Securities during the Call Period if the secondary market price of the Callable MITTS Securities is approximately equal to or above the Call Price during that period. In the event that we elect to call the Callable MITTS Securities, you will receive only the Call Price and no Supplemental Redemption Amount based on the trading price of Broadband HOLDRS.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning Broadband HOLDRS or the securities held by the Broadband HOLDRS Trust

The return on your Callable MITTS Securities will not reflect the return you would realize if you actually owned Broadband HOLDRS and received cash distributions, if any, paid on Broadband HOLDRS because the price of

Broadband HOLDRS is calculated without taking into consideration the value of any normal cash distributions paid on Broadband HOLDRS. In addition, if Callable MITTS Securities are called during the Call Period, you will receive only the Call Price and you will not receive any additional amount based upon the appreciation, if any, in the price of Broadband HOLDRS.

There may be an uncertain trading market for the Callable MITTS Securities

The Callable MITTS Securities are listed on the AMEX under the trading symbol "BDM". You cannot assume that a trading market exists for the Callable MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the Callable MITTS Securities depends on our financial performance and other factors such as the increase, if any, in the price of Broadband HOLDRS.

If the trading market for the Callable MITTS Securities is limited, there may be a limited number of buyers for your Callable MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

7

Many factors affect the trading value of the Callable MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the Callable MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the Callable MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the Callable MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the Callable MITTS Securities attributable to another factor, such as an increase in the price of Broadband HOLDRS. The following paragraphs describe the expected impact on the market value of the Callable MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The price of Broadband HOLDRS is expected to affect the trading value of the Callable MITTS Securities. We expect that the market value of the Callable MITTS Securities will depend substantially on the amount, if any, by which the price of Broadband HOLDRS, as adjusted for certain dilution and reorganization events described in this prospectus, exceeds the Starting Value. If you choose to sell your Callable MITTS Securities when the price of Broadband HOLDRS exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that price because of the expectation that the price of Broadband HOLDRS will continue to fluctuate until the Ending Value is determined. If you choose to sell your Callable MITTS Securities when the price of Broadband HOLDRS is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of Callable MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the Callable MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of Callable MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the Callable MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the Callable MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the Callable MITTS Securities will increase. Rising interest rates may lower the price of the Broadband HOLDRS and, thus, the Callable MITTS Securities. Falling interest rates may increase the price of the Broadband HOLDRS and, thus, may increase the value of the Callable MITTS Securities.

Changes in the volatility of Broadband HOLDRS are expected to affect the trading value of the Callable MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. If the volatility of Broadband HOLDRS increases or decreases, the trading value of the Callable MITTS Securities may be adversely affected.

As the time remaining to maturity of the Callable MITTS Securities decreases, the "time premium" associated with the Callable MITTS Securities will decrease. We anticipate that before their maturity, the Callable MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the price of Broadband HOLDRS. This difference will reflect a "time premium" due to expectations concerning the price of Broadband HOLDRS during the period before the stated maturity of the Callable MITTS Securities. However, as the time remaining to the stated maturity of the Callable MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the Callable MITTS Securities.

Changes in dividend yields of the stocks held by the Broadband HOLDRS Trust are expected to affect the trading value of the Callable MITTS Securities. If the dividend yields on the stocks held by the Broadband HOLDRS Trust increase, we expect that the value of the Callable MITTS Securities will

decrease and, conversely, if the dividend yields on the stocks held by the Broadband HOLDRS Trust decrease, we expect that the value of the Callable MITTS Securities will increase.

8

Changes in our credit ratings may affect the trading value of the Callable MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the Callable MITTS Securities. However, because your return on your Callable MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the Callable MITTS Securities, such as the percentage increase, if any, in the price of Broadband HOLDRS at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the Callable MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities. However, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in the price of Broadband HOLDRS will be greater if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities.

Amounts payable on the Callable MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the Callable MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the Callable MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the Callable MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

No stockholder's rights

Beneficial owners of the Callable MITTS Securities are not entitled to any rights in Broadband HOLDRS including, for example, voting rights and rights to receive any cash or other distributions and rights to cancel Broadband HOLDRS and receive the underlying securities.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell Broadband HOLDRS or stocks of the companies held by the Broadband HOLDRS Trust for our own accounts, for business reasons or in connection with hedging our obligations under the Callable MITTS Securities. These transactions could affect the price of Broadband HOLDRS in a manner that could be adverse to your investment in the Callable MITTS Securities.

Potential conflicts

Our subsidiary MLPF&S is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the Callable MITTS Securities could give rise to conflicts of interests. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

9

Risks related to Broadband HOLDRS

Broadband HOLDRS are subject to various risks which are described under the section entitled "Risk Factors" in the HOLDRS Prospectus. Any loss of value to Broadband HOLDRS attributable to such risks would adversely affect the value of the Callable MITTS Securities. You should carefully consider those risks before deciding whether an investment in the Callable MITTS Securities is suitable for you.

## MERRILL LYNCH &amp; CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Callable MITTS Securities described in this prospectus.

## RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
	-----	-----	-----	-----	-----	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

## DESCRIPTION OF THE CALLABLE MITTS SECURITIES

On September 13, 2000, ML&Co. issued an aggregate principal amount of \$35,000,000 or 3,500,000 units of Callable MITTS Securities. The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus. Unless called by ML&Co. during the Call Period, the Callable MITTS Securities will mature on September 13, 2007.

Unless the Callable MITTS Securities are called during the Call Period, at the stated maturity a beneficial owner of a Callable MITTS Security will receive the sum of the principal amount of the Callable MITTS Security plus the Supplemental Redemption Amount, if any. There will be no payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity".

The Callable MITTS Securities may be called by ML&Co. as described below, but are not subject to redemption at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the Callable MITTS Securities, registered owners of the Callable MITTS Securities may accelerate the maturity of the Callable MITTS Securities, as described under the sections entitled "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the Callable MITTS Securities in denominations of whole units, each with a principal amount of \$10.00.

The Callable MITTS Securities do not have the benefit of any sinking fund.

## Payment at maturity

If we do not call the Callable MITTS Securities during the Call Period, a beneficial owner of a Callable MITTS Security will be entitled to receive, at the stated maturity, the principal amount of each Callable MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, a beneficial owner of a Callable MITTS Security will be entitled to receive only the principal amount of the Callable MITTS Security.

## Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a Callable MITTS Security will be determined by the calculation agent and will equal:

Principal amount of each Callable MITTS Security

$$(\$10 \text{ per unit}) \times \left( \frac{\text{Ending Value} - \text{Starting Value}}{\text{Starting Value}} \right)$$

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals \$92.00, the Closing Price of one Broadband HOLDR on September 7, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the value of the Reference Property determined as follows:

- (A) for any portion of the Reference Property consisting of cash:
- . that cash, plus
  - . interest on the amount accruing from and including the date of the payment of that cash to holders of the Reference Property for which that cash was paid to but excluding the

stated maturity date at a fixed interest rate determined on the date of the payment equal to the interest rate that would be paid on a fixed rate senior non-callable debt security of ML&Co. with a term approximately equal to the remaining term for the Callable MITTS Securities as determined by the calculation agent;

- (B) for any portion of the Reference Property consisting of property other than cash or Reference Securities:
- . the market value of that property, as determined by the calculation agent on the date that the property was delivered to holders of the relevant Reference Property for which the property was distributed, plus

. interest on the amount accruing from and including the date of delivery to but excluding the stated maturity date at a fixed interest rate determined as described in (A) above; and

- (C) for any portion of the Reference Property consisting of Reference Securities, the average or arithmetic mean, of the Closing Prices of each such Reference Security determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period with respect to any Reference Security, then the Ending Value shall be calculated using the average, arithmetic mean, of the Closing Prices of that Reference Security on those Calculation Days, and if there is only one Calculation Day, then the Ending Value shall be calculated using the Closing Price of that Reference Security on such Calculation Day. If no Calculation Days occur during the Calculation Period with respect to that Reference Security, then the Ending Value shall be calculated using the Closing Price of that Reference Security determined on the last scheduled Trading Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

"Reference Property" initially shall mean one Broadband HOLDR, and shall be subject to adjustment from time to time to reflect the distribution of cash, securities and/or other property in accordance with the adjustment provisions described below under "--Dilution and Reorganization Adjustments".

"Reference Securities" shall mean any securities included in the Reference Property.

"Calculation Period" means the period from and including the seventh scheduled Trading Day prior to the stated maturity date to and including the second scheduled Trading Day prior to the stated maturity date.

"Calculation Day" means, with respect to any Reference Security, any Trading Day during the Calculation Period on which a Market Disruption Event has not occurred.

"Market Disruption Event" means, for any Reference Security, the occurrence or existence on any Trading Day during the one-half hour period that ends when the Closing Price is determined, of any suspension of, or limitation imposed on, trading in that Reference Security on the New York Stock Exchange, or other market or exchange, if applicable.

"Trading Day" means a day on which the AMEX, the NYSE and the NASDAQ National Market System ("NASDAQ NMS") are open for trading.

"Closing Price" of a Reference Security means, for a Calculation Day, the following:

- (a) If the Reference Security is listed on a national securities exchange in the United States, is a NASDAQ NMS security or is included in the OTC Bulletin Board Service ("OTC Bulletin Board") operated by the National Association of Securities Dealers, Inc. (the "NASD"), Closing Price means:

14

- (i) the last reported sale price, regular way, on that day on the principal United States securities exchange registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), on which that Reference Security is listed or admitted to trading, or
- (ii) if not listed or admitted to trading on any such securities exchange or if the last reported sale price is not obtainable, the last reported sale price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day, or
- (iii) if the last reported sale price is not available pursuant to (i) and (ii) above, the mean of the last reported bid and offer price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day as determined by the calculation agent.

The term "NASDAQ NMS security" shall include a security included in any successor to that system, and the term "OTC Bulletin Board" shall include any successor service to that service.

- (b) If the Reference Security is not listed on a national securities exchange in the United States or is not a NASDAQ NMS security or included in the OTC Bulletin Board operated by the NASD, Closing Price means the last reported sale price on that day on the securities exchange on which the Reference Security is listed or admitted to trading with the greatest volume of trading for the calendar month preceding that day as determined by the calculation agent, provided that if the last reported sale price is for a transaction which

occurred more than four hours prior to the close of that exchange, then the Closing Price shall mean the average, mean, of the last available bid and offer price on that exchange. If the Reference Security is not listed or admitted to trading on any such securities exchange or if the last reported sale price or bid and offer are not obtainable, the Closing Price shall mean the last reported sale price for a transaction which occurred more than four hours prior to when trading in such over-the-counter market typically ends, then the Closing Price shall mean the average, mean, of the last available bid and offer prices in such market of the three dealers which have the highest volume of transactions in the Reference Security in the immediately preceding calendar month as determined by the calculation agent based on information that is reasonably available to it.

"Business Day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a day on which the NYSE, the NASDAQ NMS and the AMEX are open for trading.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the Callable MITTS Securities.

Early call of the Callable MITTS Securities at the option of ML&Co.

During the Call Period, the month of September 2006, ML&Co., in its sole discretion, may elect to call the Callable MITTS Securities, in whole but not in part, at \$20.50 per unit (the "Call Price"), by giving notice to the trustee on any Business Day. The Call Price represents an annualized rate of return on your Callable MITTS Securities of 12.05%, as calculated on a semi-annual bond equivalent basis, assuming you own the Callable MITTS Securities from September 13, 2000 to the Payment Date.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Broadband

15

HOLDERS. If we do not call the Callable MITTS Securities, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity may be greater than or less than the Call Price. ML&Co. may elect to call the Callable MITTS Securities on any Business Day during the Call Period by giving notice to the trustee and specifying the date on which the Call Price shall be paid. The Payment Date shall be no later than the twentieth Business Day after the call election. The trustee will provide notice of the call election to the registered holders of the Callable MITTS Securities, specifying the Payment Date, no less than 15 calendar days prior to the Payment Date. While the Callable MITTS Securities are held at the depository, the registered holder will be the depository, and the depository will receive the notice of the call. As more fully described below under "--Depository", the depository will forward this notice to its participants which will pass it onto the beneficial owners.

You should compare the features of the Callable MITTS Securities to other available investments before deciding to purchase the Callable MITTS Securities. Due to the uncertainty as to whether the Callable MITTS Securities will earn a Supplemental Redemption Amount or be called during the Call Period, the return on investment with respect to the Callable MITTS Securities may be higher or lower than the return available on other securities issued by ML&Co. or other issuers. We suggest that you reach an investment decision only after carefully considering the suitability of the Callable MITTS Securities in light of your particular circumstances.

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from September 13, 2000 to September 13, 2007:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the total amount payable at maturity for each unit of Callable MITTS Securities,
- . the total rate of return to beneficial owners of the Callable MITTS Securities,
- . the pretax annualized rate of return to the beneficial owners of the Callable MITTS Securities, and
- . pretax annualized rate of return of an investment in Broadband HOLDERS.

16

The table also assumes we do not call the Callable MITTS Securities prior to the stated maturity date.

<TABLE>  
<CAPTION>

Hypothetical Ending Value	Percentage change from the Starting Value to the hypothetical Ending Value	Total amount payable at maturity per unit of the Callable MITTS Securities	Total rate of return on the Callable MITTS Securities	Pretax annualized rate of return on the Callable MITTS Securities(1)	Pretax annualized rate of return on Broadband HOLDERS (1) (2)
-----	-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>	<C>
18.40	-80%	\$10.00	0.00%	0.00%	-21.70%
36.80	-60%	\$10.00	0.00%	0.00%	-12.65%
55.20	-40%	\$10.00	0.00%	0.00%	-7.15%
73.60	-20%	\$10.00	0.00%	0.00%	-3.15%
92.00(3)	0%	\$10.00	0.00%	0.00%	0.02%
110.40	20%	\$12.00	20.00%	2.62%	2.64%
128.80	40%	\$14.00	40.00%	4.86%	4.88%
147.20	60%	\$16.00	60.00%	6.83%	6.85%
165.60	80%	\$18.00	80.00%	8.57%	8.59%
184.00	100%	\$20.00	100.00%	10.15%	10.17%
202.40	120%	\$22.00	120.00%	11.58%	11.61%
220.80	140%	\$24.00	140.00%	12.90%	12.93%

</TABLE>

(1) The annualized rates of return specified in this column are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:

- (a) a dividend yield of 0.02% per annum;
- (b) no transaction fees or expenses;
- (c) an investment term from September 13, 2000 to September 13, 2007; and
- (d) a percentage change in the aggregate price of Broadband HOLDERS, as adjusted for any dilution or reorganization events described below, that equals the percentage change from the Starting Value to the relevant hypothetical Ending Value.

(3) The Starting Value is 92.00.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend on the actual Ending Value determined by the calculation agent as provided in this prospectus.

#### Events of Default and Acceleration

In case an Event of Default with respect to any Callable MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a Callable MITTS Security upon any acceleration permitted by the Callable MITTS Securities, with respect to each \$10 principal amount of the Callable MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the Callable MITTS Securities, provided, however, if the acceleration occurs before the end of the Call Period, the maximum amount payable with respect to each Callable MITTS Security will be the Call Price. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Callable MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Callable MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the Callable MITTS Securities.

In case of default in payment of the Callable MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the Callable MITTS Securities will bear interest, payable upon

demand of their beneficial owners, at the rate of 7.21% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the Callable MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Dilution and Reorganization Adjustments

The Reference Property is subject to adjustment if an issuer of any Reference Security shall:

- (i) pay a stock dividend or make a distribution on that Reference Security in Reference Securities;
- (ii) subdivide or split the outstanding units of that Reference Security into a greater number of units;
- (iii) combine the outstanding units of that Reference Security into a smaller number of units;
- (iv) issue by reclassification of units of that Reference Security any units of another security of that issuer;
- (v) issue rights or warrants to all holders of that Reference Security entitling them to subscribe for or purchase shares, in the aggregate, for more than 5% of the number of those Reference Securities outstanding prior to the issuance of the rights or warrants at a price per share less than the then current market price of that Reference Security (other than rights to purchase that Reference Security pursuant to a plan for the reinvestment of dividends or interest); or
- (vi) pay a dividend or make a distribution to all holders of that Reference Security of evidences of its indebtedness or other assets:
  - . including in the case where the Reference Security is Broadband HOLDERS, any of the securities underlying Broadband HOLDERS that may be distributed by the Broadband HOLDERS Trust, but,
  - . excluding any stock dividends or distributions referred to in clause (i) above or any cash dividends other than any Extraordinary Cash Dividend or issuance to all holders of that Reference Security of rights or warrants to subscribe for or purchase any of its securities (other than those referred to in clause (v) above) (any of the foregoing assets are referred to as the "Distributed Assets" and any of the foregoing events are referred to as the "Dilution Events").

For purposes of provision (vi) above, if the holder of a Reference Security can elect to receive securities in lieu of cash or property other than securities, then for purposes of provision (vi) above, the holders of the Reference Security shall be deemed to receive only the securities.

In the case of the Dilution Events referred to in clauses (i), (ii), (iii) and (iv) above, the Reference Property shall be adjusted to include the number of units of the Reference Security and/or security of that issuer which a holder of Reference Property as constituted immediately prior to the Dilution Event would have owned or been entitled to receive as a result of that Dilution Event. Each adjustment shall become effective immediately after the effective date for the dividend, distribution subdivision, split, combination or reclassification, as the case may be. Each adjustment shall be made successively.

In the case of the Dilution Event referred to in clause (v) above, the Reference Property shall be adjusted by multiplying the number of Reference Securities constituting Reference Property immediately prior to the date of issuance of the rights or warrants referred to in clause (v) above by a fraction:

18

- . the numerator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities offered for subscription or purchase pursuant to the rights or warrants, and
- . the denominator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities which the aggregate offering price of the total number of Reference Securities so offered for subscription or purchase pursuant to the rights or warrants would purchase at the current market price, determined as the average Closing Price per Reference Security for the 20 Trading Days immediately prior to the date of such rights or warrants are issued, subject to certain adjustments, which shall be determined by multiplying such total number of Reference Securities by the exercise price of the rights or warrants and dividing the product so obtained by the current market price.

To the extent that the rights or warrants are not exercised before they expire, or if the rights or warrants are not issued, the Reference Property shall be readjusted to the Reference Property which would then be in effect had such adjustments for the issuance of the rights or warrants been made upon the basis of delivery of only the number of Reference Securities actually delivered under the rights or warrants.

In the case of the Dilution Event referred to in clause (vi) above, the

Reference Property shall be adjusted to include, from and after the dividend, distribution or issuance,

- . for the portion of the Distributed Assets consisting of cash, the amount of such Distributed Assets consisting of cash received on Reference Property as constituted on the date of the dividend, distribution or issuance, plus
- . for the portion of the Distributed Assets which are other than cash, the number or amount of each type of Distributed Assets other than cash received on Reference Property as constituted on the date of the dividend, distribution or issuance.

An "Extraordinary Cash Dividend" means, with respect to any consecutive 12-month period, the amount, if any, by which the aggregate amount of all cash dividends or any other distribution made by the issuer of a Reference Security or made pursuant to an arrangement effecting a distribution of distributable profits or reserves, whether in cash or in specie, on any Reference Security occurring in such 12-month period (or, if the Reference Security was not outstanding at the commencement of such 12-month period or was not then a part of the Reference Property, occurring in such shorter period during which such Reference Security was outstanding and was part of the Reference Property) exceeds on a per share basis 10% of the average of the Closing Prices per share of such Reference Security over such 12-month period (or shorter period during which such Reference Security was outstanding and was part of the Reference Property); provided that, for purposes of the foregoing definition, the amount of cash dividends paid on a per share basis will be appropriately adjusted to reflect the occurrence during such period of any stock dividend or distribution of shares of capital stock of the issuer of such Reference Security or any subdivision, split, combination or reclassification of shares of such Reference Security.

If the Reference Security is Broadband HOLDERS, the determination as to whether any cash dividend on such Broadband HOLDERS is an Extraordinary Cash Dividend shall be made:

- . by examining which of the stocks underlying Broadband HOLDERS is responsible for all or a portion of such cash dividend or distribution on Broadband HOLDERS, and
- . treating each such stock underlying Broadband HOLDERS as if it were a Reference Security only for this purpose and then determining whether such cash dividend would be an Extraordinary Cash Dividend as defined above with respect to such deemed Reference Security.

19

A "Reorganization Event" shall mean:

- . any consolidation or merger of an issuer of a Reference Security, or any surviving entity or subsequent surviving entity of that issuer (a "Successor Company"), with or into another entity, other than a merger or consolidation in which such issuer is the continuing corporation and in which the Reference Security outstanding immediately prior to the merger or consolidation is not exchanged for cash, securities or other property of such issuer or another corporation;
- . any sale, transfer, lease or conveyance to another corporation of the property of an issuer of a Reference Security or any Successor Company as an entirety or substantially as an entirety;
- . any statutory exchange of securities of an issuer of a Reference Security or any Successor Company with another corporation, other than in connection with a merger or acquisition; or
- . any liquidation, dissolution, winding up or bankruptcy of an issuer of a Reference Security or any Successor Company.

If a Reorganization Event occurs, the Reference Property shall include:

- . for any cash received in that Reorganization Event, the cash received by a holder of the Reference Property as constituted on the date of the Reorganization Event;
- . for any property other than cash or securities received in that Reorganization Event, the property received by a holder of the Reference Property as constituted on the date of the Reorganization Event as determined by the calculation agent; and
- . for any securities received in that Reorganization Event, the securities received by a holder of the Reference Property as constituted on the date of the Reorganization Event (subject to adjustment on a basis consistent with the adjustment provisions described above).

All adjustments will be calculated to the nearest 1/10,000th of a share of the Reference Security, or if there is not a nearest 1/10,000th of a share, to the next lower 1/10,000th of a share. No adjustment shall be required unless that adjustment would require an increase or decrease of at least one percent in the Closing Price; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment.

The foregoing adjustments shall be made by MLPF&S, as calculation agent, and all adjustments, absent a manifest error, shall be final.

ML&Co. will, within ten Business Days following the occurrence of an event that requires an adjustment, or if ML&Co. is not aware of such occurrence, as soon as practicable after becoming so aware, provide written notice to the trustee, which shall provide notice to the holders of the Callable MITTS Securities of the occurrence of the event and, if applicable, a statement in reasonable detail setting forth the adjusted Closing Price to be used in determining the Ending Value.

Depository

#### Description of the Global Securities

The Callable MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for Callable MITTS Securities in definitive form, no global

20

security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the Callable MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the Callable MITTS Securities represented by a global security will not be entitled to have the Callable MITTS Securities registered in their names, will not receive or be entitled to receive physical delivery of the Callable MITTS Securities in definitive form and will not be considered the owners or holders of the Callable MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the Callable MITTS Securities. The Callable MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the Callable MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust

companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the Callable MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the Callable MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the

21

transaction. Transfers of ownership interests in the Callable MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all Callable MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of Callable MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Callable MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the Callable MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the Callable MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the Callable MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the Callable MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the Callable MITTS Securities,

the global securities will be exchangeable for Callable MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive Callable MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the Callable MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, Callable MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, Callable MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the Callable MITTS Securities are maintained in book-entry form.

#### THE BROADBAND HOLDERS TRUST

ML&Co. has attached the HOLDERS Prospectus describing the Broadband HOLDERS Trust and is delivering it to purchasers of the Callable MITTS Securities together with this for the convenience of reference only. The HOLDERS Prospectus does not constitute a part of this, nor is it incorporated by reference into this prospectus. The summary description below is qualified in its entirety by the information describing the Broadband HOLDERS Trust and the securities held by the Trust included in the attached HOLDERS Prospectus.

The Broadband HOLDERS Trust was formed under a depository trust agreement, dated as of March 22, 2000, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Broadband HOLDERS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by 20 companies generally considered to be involved in various segments of the broadband business. The trust issues Broadband HOLDERS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Broadband HOLDERS are separate from the underlying common stocks that are represented by Broadband HOLDERS.

Broadband HOLDERS are quoted on the AMEX under the trading symbol "BDH".

You should carefully read the HOLDERS Prospectus accompanying this prospectus to fully understand the operation and management of the Broadband HOLDERS Trust. Neither the HOLDERS Prospectus nor these other documents are incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

#### OTHER TERMS

The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the Callable MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the Callable MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are

necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

25

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
- . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
- . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the

stated maturity date;

- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the

26

Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to

receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

27

The Callable MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

28

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the Callable MITTS Securities, we have determined that the projected payment schedule for the Callable MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.4136 per unit. This represents an estimated yield on the Callable MITTS Securities equal to 7.21% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the Callable MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the Callable MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the Callable MITTS Securities during each accrual period over the term of the Callable MITTS Securities based upon the projected payment schedule for the Callable MITTS Securities (including both the Projected Supplemental Redemption Amount and the estimated yield equal to 7.21% per annum (compounded semiannually)) as determined by ML&Co. for purposes of applying the Final Regulations to the Callable MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on the Callable MITTS Securities as of the end of accrual period (per unit) -----
<S>	<C>	<C>
September 13, 2000 through March 13, 2001.....	\$0.3575	\$0.3575
March 14, 2001 through September 13, 2001.....	\$0.3734	\$0.7309
September 14, 2001 through March 13, 2002.....	\$0.3868	\$1.1177
March 14, 2002 through September 13, 2002.....	\$0.4008	\$1.5185
September 14, 2002 through March 13, 2003.....	\$0.4153	\$1.9338
March 14, 2003 through September 13, 2003.....	\$0.4302	\$2.3640

March 14, 2006 through September 13, 2006.....	\$0.5320	\$5.2912
September 14, 2006 through March 13, 2007.....	\$0.5513	\$5.8425
March 14, 2007 through September 13, 2007.....	\$0.5711	\$6.4136

</TABLE>

Projected Supplemental Redemption Amount = \$6.4136 per unit.

All prospective investors in the Callable MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the Callable MITTS Securities. Investors in the Callable MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the Callable MITTS Securities, by submitting a written request for such information to Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

## ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any Callable MITTS Security on behalf of any plan, represents on behalf of itself and the plan that the acquisition, holding and any subsequent disposition of the Callable MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

## WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the Callable MITTS Securities and other securities. For further information on ML&Co. and the Callable MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

## INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any

jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the Callable MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the Callable MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The Callable MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the Callable MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein,

31

they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

## SUMMARY INFORMATION -- Q&amp;A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the S&P 500(R) Market Index Target-Term Securities(R) due June 29, 2007. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the S&P 500 Index and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on June 29, 2007. We cannot redeem the MITTS Securities at any earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the S&P 500 Index as reduced by the Adjustment Factor. On the stated maturity date, you will receive a cash payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\begin{aligned} & (\text{Adjusted Ending Value} - \text{Starting Value}) \\ & \text{\$10 X } \left( \frac{\text{-----}}{\text{Starting Value}} \right) \end{aligned}$$

but will not be less than zero.

The "Starting Value" equals 1,455.31, the closing value of the S&P 500 Index on June 26, 2000, the date the MITTS Securities were priced for initial sale to the public (the "Pricing Date").

The "Adjusted Ending Value" means the average or arithmetic mean of the values of the S&P 500 Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of the stocks included in the S&P 500 Index or certain futures or options contracts relating to the S&P 500 Index.

The "Adjustment Factor" equals 1.75% per year and will be pro-rated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 11.53% less than the actual closing value of the S&P 500 Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the

S&P 500 Index used to calculate the Supplemental Redemption Amount, see "Description of the MITTS Securities--Payment at Maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 1.75% per year:

Example 1--The S&P 500 Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 1,455.31  
Hypothetical average closing value of the S&P 500 Index for the calculation period: 1,528.08  
Hypothetical Adjusted Ending Value: 1,351.82

<TABLE>

<S>	(1,351.82-1,455.31)	<C>
Supplemental Redemption Amount (per unit) = \$10 x = (-----)	= \$0.00	(Supplemental Redemption Amount cannot be less than zero)
( 1,455.31 )		

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The S&P 500 Index, as adjusted, is above the Starting Value at maturity:

Starting Value: 1,455.31  
Hypothetical average closing value of the S&P 500 Index for the calculation period: 2,619.56  
Hypothetical Adjusted Ending Value: 2,317.42

	(1,317.42-1,455.31)	
Supplemental Redemption Amount (per unit) = \$10 x = (-----)	= \$5.92	
( 1,455.31 )		

Total payment at maturity (per unit) = \$10 + \$5.92 = \$15.92

</TABLE>

4

Who publishes the S&P 500 Index and what does the S&P 500 Index measure?

The S&P 500 Index is published by Standard & Poor's, a division of The McGraw-Hill Companies, Inc., and is intended to provide an indication of the pattern of common stock price movement in the United States. The value of the S&P 500 Index is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. The market value for the common stock of a company is the product of the market price per share of the common stock and the number of outstanding shares of common stock. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market.

Will I receive interest payments on the MITTS Securities?

You will not receive any interest payments on the MITTS Securities, but will instead receive the principal amount plus the Supplemental Redemption Amount, if any, at maturity. We have designed the MITTS Securities for investors who are willing to forego market interest payments on the MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the S&P 500 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are quoted on The Nasdaq National Market under the symbol "MITT". You should be aware that the listing of the MITTS Securities on The Nasdaq National Market does not necessarily ensure that a liquid trading market will be available for the MITTS Securities. You should review the section

entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was one of the underwriters for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell the MITTS Securities to create a secondary market for holders of the MITTS Securities. However, MLPF&S will not be obligated to engage in any of these market activities or to continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiary and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If the Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the S&P 500 Index

The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in the S&P 500 Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the S&P 500 Index is calculated by reference to the prices of the stocks included in the S&P 500 Index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are listed on The Nasdaq National Market under the symbol "MITT", you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the S&P 500 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to

hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest

6

rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the S&P 500 Index. The following paragraphs describe the expected impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the S&P 500 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the S&P 500 Index will continue to fluctuate until the Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the S&P 500 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates or dividends per share may increase the value of the S&P 500 Index while falling U.S. dividend rates may decrease the value of the S&P 500 Index.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Rising U.S. interest rates may lower the value of the S&P 500 Index and, thus, the MITTS Securities. Falling U.S. interest rates may increase the value of the S&P 500 Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the S&P 500 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the S&P 500 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the S&P 500 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of U.S. interest rates and the S&P 500 Index. This difference will reflect a "time premium" due to expectations concerning the value of the S&P 500 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the S&P 500 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the S&P 500 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the S&P 500 Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the S&P 500 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

7

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the S&P 500 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities will be issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the S&P 500 Index or futures or options contracts on the S&P 500 Index for our own accounts for business reasons or in connection with hedging our obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the S&P 500 Index in a manner that would be adverse to your investment in the MITTS Securities.

Potential conflicts

Our subsidiary, MLPF&S, is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether the value of the S&P 500 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance or unavailability of the S&P 500 Index. See "Description of the MITTS Securities-- Adjustments to the S&P 500 Index; Market Disruption Events" and "-- Discontinuance of the S&P 500 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

8

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending

- and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the MITTS Securities described in this prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine
	1995	1996	1997	1998	1999	Months Ended
	-----	-----	-----	-----	-----	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On June 29, 2000, ML&Co. issued an aggregate principle amount of \$42,000,000 or 4,200,000 units of MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus.

The MITTS Securities will mature on June 29, 2007.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, holders of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under the sections entitled "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units of \$10 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity a holder of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as described below. If the Adjusted Ending Value does not exceed the Starting Value, you will be entitled to receive only the principal amount of your MITTS Securities.

Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
principal amount of each MITTS Security (\$10 per unit) x	(Adjusted Ending Value - Starting Value)
	(-----)
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 1,455.31, the closing value of the S&P 500 Index on June 26, 2000 the day the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the S&P 500 Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days during the Calculation Period, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the S&P 500 Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the S&P 500 Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the S&P 500 Index determined on the last scheduled Index

11

Business Day in the Calculation Period, as reduced by the application of the Adjustment Factor on that day, regardless of the occurrence of a Market Disruption Event on that Index Business Day.

The "Adjustment Factor" equals 1.75% and will be applied over the entire term of the MITTS Securities. On each calendar day during the term of the MITTS Securities, we will apply this percentage on a pro-rated basis based on a 365-day year to reduce the values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values of the S&P 500 Index used to calculate your Supplemental Redemption Amount during the Calculation Period will be approximately 11.53% less than the actual value of the S&P 500 Index on each day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is any day on which the NYSE and the Nasdaq Stock Market are open for trading and the S&P 500 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

Hypothetical returns

The following table illustrates, for a range of hypothetical average closing values of the S&P 500 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from June 26, 2000 to June 29, 2007:

. the percentage change from the Starting Value to the hypothetical average closing value,

- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the S&P 500 Index, which includes an assumed aggregate dividend yield of 1.11% per annum, as more fully described below.

12

For the purposes of calculating this table, we have applied the Adjustment Factor of 1.75% per annum.

<TABLE>  
<CAPTION>

4,365.93	200.00%	3,862.37	\$26.54	165.40%	14.44%	
17.66%						

(1) The Adjusted Ending Values specified in this column are approximately 11.53% less than the hypothetical average closing values of the S&P 500 Index as a result of the application of the Adjustment Factor of 1.75% per annum over the term of the MITTS Securities.

(2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(3) This rate of return assumes:

- (a) a percentage change in the aggregate price of the stocks that equals the percentage change in the S&P 500 Index from the

Starting Value to the relevant hypothetical average closing value;

- (b) a constant dividend yield of 1.11% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the S&P 500 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical average closing value;
  - (c) no transaction fees or expenses; and
  - (d) an investment term from June 26, 2000 to June 29, 2000.
- (4) This is the Starting Value of the S&P 500 Index.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rate of return will depend entirely on the actual Adjusted Ending Value determined by the calculation agent as described in this prospectus.

#### Adjustments to the S&P 500 Index; Market Disruption Events

If at any time Standard & Poor's changes its method of calculating the S&P 500 Index, or the value of the S&P 500 Index changes, in any material respect, or if the S&P 500 Index is in any other way modified so that the S&P 500 Index does not, in the opinion of the calculation agent, fairly represent the value of the S&P 500 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the S&P 500 Index is to be calculated, make those adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the S&P 500

13

Index as if those changes or modifications had not been made, and calculate the closing value with reference to the S&P 500 Index, as so adjusted. Accordingly, if the method of calculating the S&P 500 Index is modified so that the value of the S&P 500 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the S&P 500 Index in order to arrive at a value of the S&P 500 Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means either of the following events as determined by the calculation agent:

- (A) the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading, on the applicable exchange, in 20% or more of the stocks which then comprise the S&P 500 Index; or
- (B) the suspension or material limitation, in each case, for more than two hours of trading, or during the one-half hour period preceding the close of trading, on the applicable exchange, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts or futures contracts related to the S&P 500 Index, or any successor index, which are traded on any major U.S. exchange.

For the purpose of the above definition:

- (1) a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange and
- (2) for the purpose of clause (A) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the S&P 500 Index

If Standard & Poor's discontinues publication of the S&P 500 Index and Standard & Poor's or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the S&P 500 Index (a "successor index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by Standard & Poor's or any other entity for the S&P 500 Index and calculate the Adjusted Ending Value as described above under "Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a national circulation.

In the event that Standard & Poor's discontinues publication of the S&P 500 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the S&P 500 Index in accordance with the procedures last used to calculate the S&P 500 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the S&P 500 Index as described below, the successor index or value will be used as a substitute for the S&P 500 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

14

If Standard & Poor's discontinues publication of the S&P 500 Index before the Calculation Period and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Adjusted Ending Value, and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the Nasdaq Stock Market are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the S&P 500 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the holder of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity date or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their holders, at the rate of 7.77% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

15

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all

purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

16

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as

soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

17

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

18

#### THE S&P 500 INDEX

Standard & Poor's publishes the S&P 500 Index. The S&P 500 Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the S&P 500 Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The

Index is comprised of the common stocks of companies in four main groups: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the S&P 500 Index to achieve the objectives stated above.

The value of the S&P 500 Index is reported on the AMEX and on Bloomberg under the symbol "SPX".

The S&P 500 Index does not reflect the payment of dividends on the stocks included in the S&P 500 Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same as the return you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the S&P 500 Index

Standard & Poor's currently computes the S&P 500 Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the S&P 500 Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

19

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as:

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,
- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of the issuer,
- . the substitution by Standard & Poor's of particular component stocks in the S&P 500 Index, and
- . other reasons.

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{Old base Value X } \frac{\text{New Market Value}}{\text{Old Market Value}} = \text{New Base Value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the S&P 500 Index.

## License Agreement

Standard & Poor's does not guarantee the accuracy and/or the completeness of the S&P 500 Index or any data included in that index. Standard & Poor's makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index or any data included therein in connection with the rights licensed under the license agreement described in this prospectus or for any other use. Standard & Poor's makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index or any data included therein. Without limiting any of the above, in no event shall Standard & Poor's have any liability for any special, punitive, indirect or consequential damage, including lost profits, even if notified of the possibility of these damages.

Standard & Poor's and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by Standard & Poor's in connection with some securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee under that agreement.

The license agreement between Standard & Poor's and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by Standard & Poor's. Standard & Poor's makes no representation or warranty, express or implied, to the holders of the MITTS

20

Securities or any member of the public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the S&P 500 Index to track general stock market performance. Standard & Poor's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of Standard & Poor's and of the S&P 500 Index which is determined, composed and calculated by Standard & Poor's without regard to ML&Co. or the MITTS Securities. Standard & Poor's has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. Standard & Poor's is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. Standard & Poor's has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

All disclosures contained in this prospectus regarding the above S&P 500 Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by Standard & Poor's. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

21

## OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including

the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

22

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal

which could be declared due and payable before the stated maturity date;

- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

23

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to

receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$7.0524 per unit. This represents an estimated yield on the MITTS Securities equal to 7.77% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7.77% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

<TABLE> <CAPTION>		Total interest

</TABLE>

- - - - -

Projected Supplemental Redemption Amount = \$7.0524 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212)

ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is part.

INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S

is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the Nasdaq National Market or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein,

28

they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

29

+++++
+The information in this prospectus is not complete and may be changed. We may +
+not sell these securities until the registration statement filed with the +
+Securities and Exchange Commission is effective. The prospectus is not an +
+offer sell these securities and it is not soliciting an offer to buy these +
+securities in any state where the offer and sale is not permitted. +

\$10 principal amount per unit

This prospectus is to be used by Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, our wholly-owned subsidiary, when making offers and sales related to market-making transactions in the Callable MITTS Securities.

<TABLE> <CAPTION> The Callable MITTS Securities:	Payment at the stated maturity or upon exercise of the call option:
<S> . 100% principal protection at maturity. . Callable prior to the stated maturity by Merrill Lynch & Co., Inc. . No payments before the maturity date unless called. . Senior unsecured debt securities of Merrill Lynch & Co., Inc. . Linked to the price of Semiconductor HOLDRS (trading symbol "SMH") . The Callable MITTS Securities are listed on the American Stock Exchange under the trading symbol "SME". . Closing date: October 6, 2000.	<C> . On the maturity date, if the Callable MITTS Securities have not been called, for each unit of MITTS Securities you own we will pay you an amount equal to the sum of the principal amount of each unit and an additional amount based on the percentage increase, if any, in the price of Semiconductor HOLDRS. . At maturity, you will receive no less than the principal amount of your Callable MITTS Securities. . If Merrill Lynch & Co., Inc. elects to call your Callable MITTS Securities prior to the stated maturity, you will receive \$21 per unit.

Investing in the Callable MITTS Securities involves risk.  
See "Risk Factors" beginning on page 7 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The sale price of the Callable MITTS Securities will be the prevailing market price at the time of sale.

Merrill Lynch & Co.

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Callable Market Index Target-Term Securities(R) due October 5, 2007 based upon Semiconductor HOLDRS(SM). You should carefully read this prospectus to fully understand the terms of the Callable MITTS Securities and the tax and other considerations that are important to you in making a decision about whether to invest in the Callable MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the Callable MITTS Securities, to determine whether an investment in the Callable MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

"Semiconductor HOLDRS" are depositary receipts issued by the Semiconductor HOLDRS Trust. We have attached the prospectus dated \_\_\_\_\_ and the prospectus supplement dated \_\_\_\_\_ for Semiconductor HOLDRS (together, the "HOLDRS Prospectus"). From time to time the Semiconductor HOLDRS Trust updates the prospectus supplement. You should carefully read the HOLDRS Prospectus and any updated prospectus supplements including the section entitled "Risk Factors" to fully understand the operation and management of the Semiconductor HOLDRS Trust and risks that may affect the price of Semiconductor HOLDRS. The Semiconductor HOLDRS Trust will not receive any of the proceeds from the sale of the Callable MITTS Securities and will not have any obligations with respect to the Callable MITTS Securities.

We have attached the HOLDRS Prospectus and are delivering it to you together with this prospectus for the convenience of reference only. The HOLDRS Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference into this prospectus.

What are the Callable MITTS Securities?

The Callable MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The Callable MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The Callable MITTS Securities will mature on October 5, 2007 unless called by ML&Co. in October 2006.

Each unit of Callable MITTS Securities represents \$10 principal amount of Callable MITTS Securities. You may transfer the Callable MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the Callable MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the Callable MITTS Securities. You should refer to the section entitled "Description of the Callable MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the Callable MITTS Securities?

We have designed the Callable MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the price of Semiconductor HOLDRS. On the stated maturity date, if we have not called the Callable MITTS Securities, you will receive a cash payment equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal Amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\begin{array}{r}
 \text{(Ending Value-Starting Value)} \\
 \$10 \times \left( \frac{\text{-----}}{\text{Starting Value}} \right)
 \end{array}$$

but will not be less than zero.

The "Starting Value" equals \$68.45, the Closing Price of Semiconductor HOLDRS on October 3, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be the average of the Closing Prices of Semiconductor HOLDRS, as adjusted for dilution and reorganization events described in this prospectus, on five business days shortly before the maturity of the Callable MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's Closing Price if, during the period shortly before the stated maturity date of the Callable MITTS Securities, there is a disruption in the trading of Semiconductor HOLDRS.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the Callable MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if we do not call the Callable MITTS Securities during October 2006 and the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your Callable MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations. If we call the Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not be entitled to receive any payment on the stated maturity date.

Example 1--Ending Value is less than the Starting Value on the stated maturity date:

Starting Value: \$68.45  
Hypothetical Ending Value at maturity: \$61.61

<TABLE>			<C>
<S>			(Supplemental
	(61.61-86.45)		Redemption
Supplemental Redemption Amount (per unit) = \$10 X (-----)	= \$0.00		Amount may not
( 68.45 )			be less than zero.)
Total payment on the stated maturity date (per unit) = \$10.00 + \$0.00 = \$10.00			

Example 2--Ending Value is greater than the Starting Value on the stated maturity date:

Starting Value: \$68.45  
Hypothetical Ending Value at maturity: \$99.25

(99.25-68.45)  
Supplemental Redemption Amount (per unit) = \$10 X (-----) = \$4.50  
( 68.45 )

Total payment on the stated maturity date (per unit) = \$10.00 + \$4.50 = \$14.50  
</TABLE>

4

How does the call feature work?

We may elect to call the Callable MITTS Securities at \$21 per unit (the "Call Price"), on any Business Day during the month of October 2006 (the "Call Period") by giving notice to the trustee of the Callable MITTS Securities as described in this prospectus and specifying the date on which the Call Price will be paid (the "Payment Date"). The Payment Date will be no later than the twentieth Business Day after the call election. The Call Price represents an annualized rate of return on your Callable MITTS Securities of 12.43%, as calculated on a semi-annual bond equivalent basis, assuming you own the Callable MITTS Securities from October 6, 2000 to the Payment Date.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Semiconductor HOLDRS. If we do not call the Callable MITTS Securities during the Call period, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity date may be greater than or less than the Call Price.

Will I receive interest payments on the Callable MITTS Securities?

You will not receive any interest payments on the Callable MITTS Securities, but will instead receive the principal amount plus the Supplemental

Redemption Amount, if any, at maturity, or the Call Price if the Callable MITTS Securities are called during the Call Period. We have designed the Callable MITTS Securities for investors who are willing to forego market interest payments on the Callable MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the price of Semiconductor HOLDRS.

What is the Semiconductor HOLDRS Trust?

The Semiconductor HOLDRS Trust was formed under a depositary trust agreement, dated April 24, 2000, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Semiconductor HOLDRS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the semiconductor industry. The trust issues Semiconductor HOLDRS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Semiconductor HOLDRS are separate from the underlying common stocks that are represented by Semiconductor HOLDRS.

Semiconductor HOLDRS are listed on the AMEX under the trading symbol "SMH".

You should carefully read the HOLDRS Prospectus accompanying this prospectus to fully understand the operation and management of the Semiconductor HOLDRS Trust. The risks described in the HOLDRS Prospectus under the section entitled "Risk Factors" may affect the prices of Semiconductor HOLDRS and, therefore, the value of the Callable MITTS Securities. The HOLDRS Prospectus is not incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

Please note that an investment in the Callable MITTS Securities does not entitle you to an ownership interest in Semiconductor HOLDRS or in the stocks held by the Semiconductor HOLDRS Trust.

Are the Callable MITTS Securities listed on a stock exchange?

The Callable MITTS Securities are listed on the AMEX under the trading symbol "SME". The listing of the Callable MITTS Securities on the AMEX will not necessarily ensure that a liquid trading market will be available for the Callable MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the Callable MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary MLPF&S was the underwriter for the initial offering and sale of the

5

Callable MITTS Securities. MLPF&S intends to buy and sell Callable MITTS Securities to create a secondary market for holders of the Callable MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities or to continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent. In addition, MLPF&S acted as the initial depositor for the Semiconductor HOLDRS Trust and regularly makes a market in Semiconductor HOLDRS.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents of ML&Co. we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the Callable MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

6

Your investment in the Callable MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the Callable MITTS Securities. In addition, you should reach an investment decision with regard to the Callable MITTS Securities only after consulting your legal and tax advisers and considering the suitability of the Callable MITTS Securities in light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value, the Supplemental Redemption Amount will be zero. This will be true even if the price of Semiconductor HOLDRS was higher than the Starting Value at some time during the life of the Callable MITTS Securities but later falls to or below the Starting Value. If the Supplemental Redemption Amount is zero and the Callable MITTS Securities are not called by us prior to the stated maturity date, we will pay you only the principal amount of your Callable MITTS Securities.

The Callable MITTS Securities are subject to early call

We may elect to call all of the Callable MITTS Securities by giving notice on any Business Day during the Call Period. We are likely to call the Callable MITTS Securities during the Call Period if the secondary market price of the Callable MITTS Securities is approximately equal to or above the Call Price during that period. In the event that we elect to call the Callable MITTS Securities, you will receive only the Call Price and no Supplemental Redemption Amount based on the trading price of Semiconductor HOLDRS.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning Semiconductor HOLDRS or the securities held by the Semiconductor HOLDRS Trust

The return on your Callable MITTS Securities will not reflect the return you would realize if you actually owned Semiconductor HOLDRS and received cash distributions, if any, paid on Semiconductor HOLDRS because the price of Semiconductor HOLDRS is calculated without taking into consideration the value of any normal cash distributions paid on Semiconductor HOLDRS. In addition, if the Callable MITTS Securities are called during the Call Period, you will receive only the Call Price and you will not receive any additional amount based upon the appreciation, if any, in the price of Semiconductor HOLDRS.

There may be an uncertain trading market for the Callable MITTS Securities

The Callable MITTS Securities are listed on the AMEX under the trading symbol "SME". You cannot assume that a trading market exists for the Callable MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the Callable MITTS Securities depends on our financial performance and other factors such as the increase, if any, in the price of Semiconductor HOLDRS.

If the trading market for the Callable MITTS Securities is limited, there may be a limited number of buyers for your Callable MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

7

Many factors affect the trading value of the Callable MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the Callable MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the Callable MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the Callable MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the Callable MITTS Securities attributable to another factor, such as an increase in the price of Semiconductor HOLDRS. The following paragraphs describe the expected impact on the market value of the Callable MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The price of Semiconductor HOLDRS is expected to affect the trading value of the Callable MITTS Securities. We expect that the market value of the Callable MITTS Securities will depend substantially on the amount, if any, by

which the price of Semiconductor HOLDRS, as adjusted for certain dilution and reorganization events described in this prospectus, exceeds the Starting Value. If you choose to sell your Callable MITTS Securities when the price of Semiconductor HOLDRS exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that price because of the expectation that the price of Semiconductor HOLDRS will continue to fluctuate until the Ending Value is determined. If you choose to sell your Callable MITTS Securities when the price of Semiconductor HOLDRS is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of Callable MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the Callable MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of Callable MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the Callable MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the Callable MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the Callable MITTS Securities will increase. Rising interest rates may lower the price of the Semiconductor HOLDRS and, thus, the Callable MITTS Securities. Falling interest rates may increase the price of the Semiconductor HOLDRS and, thus, may increase the value of the Callable MITTS Securities.

Changes in the volatility of Semiconductor HOLDRS are expected to affect the trading value of the Callable MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. If the volatility of Semiconductor HOLDRS increases or decreases, the trading value of the Callable MITTS Securities may be adversely affected.

As the time remaining to maturity of the Callable MITTS Securities decreases, the "time premium" associated with the Callable MITTS Securities will decrease. We anticipate that before their maturity, the Callable MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the price of Semiconductor HOLDRS. This difference will reflect a "time premium" due to expectations concerning the price of Semiconductor HOLDRS during the period before the stated maturity of the Callable MITTS Securities. However, as the time remaining to the stated maturity of the Callable MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the Callable MITTS Securities.

Changes in dividend yields of the stocks held by the Semiconductor HOLDRS Trust are expected to affect the trading value of the Callable MITTS Securities. Semiconductor HOLDRS Trust has not made any cash distributions to date. If the dividend yields on the stocks held by the Semiconductor HOLDRS Trust increase, we expect that the value of the Callable MITTS Securities will decrease and, conversely, if the dividend yields on the stocks held by the Semiconductor HOLDRS Trust decrease, we expect that the value of the Callable MITTS Securities will increase.

8

Changes in our credit ratings may affect the trading value of the Callable MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the Callable MITTS Securities. However, because your return on your Callable MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the Callable MITTS Securities, such as the percentage increase, if any, in the price of Semiconductor HOLDRS at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the Callable MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities. However, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in the price of Semiconductor HOLDRS will be greater if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities.

Amounts payable on the Callable MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the Callable MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the Callable MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the Callable MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws

concerning usurious rates of interest.

No stockholder's rights

Beneficial owners of the Callable MITTS Securities are not entitled to any rights in Semiconductor HOLDRS including, for example, voting rights and rights to receive any cash or other distributions on the underlying securities and rights to cancel Semiconductor HOLDRS and receive the underlying securities.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell Semiconductor HOLDRS or stocks of the companies held by the Semiconductor HOLDRS Trust for our own accounts, for business reasons or in connection with hedging our obligations under the Callable MITTS Securities. These transactions could affect the price of Semiconductor HOLDRS in a manner that could be adverse to your investment in the Callable MITTS Securities.

Potential conflicts

Our subsidiary MLPF&S is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the Callable MITTS Securities could give rise to conflicts of interests. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

9

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

Risks related to Semiconductor HOLDRS

Semiconductor HOLDRS are subject to various risks which are described under the section entitled "Risk Factors" in the HOLDRS Prospectus. Any loss of value to Semiconductor HOLDRS attributable to such risks would adversely affect the value of the Callable MITTS Securities. You should carefully consider those risks before deciding whether an investment in the Callable MITTS Securities is suitable for you.

10

MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Callable MITTS Securities described in this prospectus.

11

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

</TABLE>

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

12

DESCRIPTION OF THE CALLABLE MITTS SECURITIES

On October 6, 2000, ML&Co. issued an aggregate principal amount of \$28,000,000 or 2,800,000 units of Callable MITTS Securities. The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus. Unless called by ML&Co. during the Call Period, the Callable MITTS Securities will mature on October 5, 2007.

Unless the Callable MITTS Securities are called during the Call Period, at the stated maturity a beneficial owner of a Callable MITTS Security will receive the sum of the principal amount of the Callable MITTS Security plus the Supplemental Redemption Amount, if any. There will be no payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity".

The Callable MITTS Securities may be called by ML&Co. as described below, but are not subject to redemption at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the Callable MITTS Securities, registered holders of the Callable MITTS Securities may accelerate the maturity of the Callable MITTS Securities, as described under the sections entitled "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. will issue the Callable MITTS Securities in denominations of whole units, each with a principal amount of \$10.00.

The Callable MITTS Securities will not have the benefit of any sinking fund.

Payment at maturity

If we do not call the Callable MITTS Securities during the Call Period, a beneficial owner of a Callable MITTS Security will be entitled to receive, at the stated maturity, the principal amount of each Callable MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, a beneficial owner of a Callable MITTS Security will be entitled to receive only the principal amount of

the Callable MITTS Security.

Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a Callable MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	(Ending Value - Starting Value)
Principal amount of each Callable MITTS Security (\$10 per unit) X	(-----)
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals \$68.45, the Closing Price of one Semiconductor HOLDR on October 3, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the value of the Reference Property determined as follows:

(A) for any portion of the Reference Property consisting of cash:

. that cash, plus

13

. interest on the amount accruing from and including the date of the payment of that cash to holders of the Reference Property for which that cash was paid to but excluding the stated maturity date at a fixed interest rate determined on the date of the payment equal to the interest rate that would be paid on a fixed rate senior non-callable debt security of ML&Co. with a term approximately equal to the remaining term for the Callable MITTS Securities as determined by the calculation agent;

(B) for any portion of the Reference Property consisting of property other than cash or Reference Securities:

. the market value of that property, as determined by the calculation agent on the date that the property was delivered to holders of the relevant Reference Property for which the property was distributed, plus

. interest on the amount accruing from and including the date of delivery to but excluding the stated maturity date at a fixed interest rate determined as described in (A) above; and

(C) for any portion of the Reference Property consisting of Reference Securities, the average or arithmetic mean, of the Closing Prices of each such Reference Security determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period with respect to any Reference Security, then the Ending Value shall be calculated using the average, arithmetic mean, of the Closing Prices of that Reference Security on those Calculation Days, and if there is only one Calculation Day, then the Ending Value shall be calculated using the Closing Price of that Reference Security on such Calculation Day. If no Calculation Days occur during the Calculation Period with respect to that Reference Security, then the Ending Value shall be calculated using the Closing Price of that Reference Security determined on the last scheduled Trading Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

"Reference Property" initially shall mean one Semiconductor HOLDR, and shall be subject to adjustment from time to time to reflect the distribution of cash, securities and/or other property in accordance with the adjustment provisions described below under "--Dilution and Reorganization Adjustments".

"Reference Securities" shall mean any securities included in the Reference Property.

"Calculation Period" means the period from and including the seventh scheduled Trading Day prior to the stated maturity date to and including the second scheduled Trading Day prior to the stated maturity date.

"Calculation Day" means, with respect to any Reference Security, any Trading Day during the Calculation Period on which a Market Disruption Event has not occurred.

"Market Disruption Event" means, for any Reference Security, the occurrence or existence on any Trading Day during the one-half hour period that ends when the Closing Price is determined, of any suspension of, or limitation imposed on, trading in that Reference Security on the New York Stock Exchange, or other market or exchange, if applicable.

"Trading Day" means a day on which the AMEX, the NYSE and the NASDAQ National Market System ("NASDAQ NMS") are open for trading.

"Closing Price" of a Reference Security means, for a Calculation Day, the following:

- (a) If the Reference Security is listed on a national securities exchange in the United States, is a NASDAQ NMS security or is included in the OTC Bulletin Board Service ("OTC Bulletin

14

Board") operated by the National Association of Securities Dealers, Inc. (the "NASD"), Closing Price means:

- (i) the last reported sale price, regular way, on that day on the principal United States securities exchange registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), on which that Reference Security is listed or admitted to trading, or
- (ii) if not listed or admitted to trading on any such securities exchange or if the last reported sale price is not obtainable, the last reported sale price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day, or
- (iii) if the last reported sale price is not available pursuant to (i) and (ii) above, the mean of the last reported bid and offer price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day as determined by the calculation agent.

The term "NASDAQ NMS security" shall include a security included in any successor to that system, and the term "OTC Bulletin Board" shall include any successor service to that service.

- (b) If the Reference Security is not listed on a national securities exchange in the United States or is not a NASDAQ NMS security or included in the OTC Bulletin Board operated by the NASD, Closing Price means the last reported sale price on that day on the securities exchange on which the Reference Security is listed or admitted to trading with the greatest volume of trading for the calendar month preceding that day as determined by the calculation agent, provided that if the last reported sale price is for a transaction which occurred more than four hours prior to the close of that exchange, then the Closing Price shall mean the average, mean, of the last available bid and offer price on that exchange. If the Reference Security is not listed or admitted to trading on any such securities exchange or if the last reported sale price or bid and offer are not obtainable, the Closing Price shall mean the last reported sale price for a transaction which occurred more than four hours prior to when trading in such over-the-counter market typically ends, then the Closing Price shall mean the average, mean, of the last available bid and offer prices in such market of the three dealers which have the highest volume of transactions in the Reference Security in the immediately preceding calendar month as determined by the calculation agent based on information that is reasonably available to it.

"Business Day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a day on which the NYSE, the NASDAQ NMS and the AMEX are open for trading.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the Holders and beneficial owners of the Callable MITTS Securities.

Early call of the Callable MITTS Securities at the option of ML&Co.

During the Call Period, the month of October 2006, ML&Co., in its sole discretion, may elect to call the Callable MITTS Securities, in whole but not in part, at \$21 per unit, by giving notice to the trustee on any Business Day. The Call Price represents an annualized rate of return on your Callable MITTS Securities of 12.43%, as calculated on a semi-annual bond equivalent basis,

assuming you own the Callable MITTS Securities from October 6, 2000 to the Payment Date.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Semiconductor

15

HOLDERS. If we do not call the Callable MITTS Securities, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity may be greater than or less than the Call Price. ML&Co. may elect to call the Callable MITTS Securities on any Business Day during the Call Period by giving notice to the trustee and specifying the date on which the Call Price shall be paid. The Payment Date shall be no later than the twentieth Business Day after the call election. The trustee will provide notice of the call election to the registered holders of the Callable MITTS Securities, specifying the Payment Date, no less than 15 calendar days prior to the Payment Date. While the Callable MITTS Securities are held at the depository, the registered holder will be the depository, and the depository will receive the notice of the call. As more fully described below under "--Depository", the depository will forward this notice to its participants which will pass it onto the beneficial owners.

You should compare the features of the Callable MITTS Securities to other available investments before deciding to purchase the Callable MITTS Securities. Due to the uncertainty as to whether the Callable MITTS Securities will earn a Supplemental Redemption Amount or be called during the Call Period, the return on investment with respect to the Callable MITTS Securities may be higher or lower than the return available on other securities issued by ML&Co. or issued by others. We suggest that you reach an investment decision only after carefully considering the suitability of the Callable MITTS Securities in light of your particular circumstances.

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from October 6, 2000 to October 5, 2007:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the total amount payable at maturity for each unit of Callable MITTS Securities,
- . the total rate of return to beneficial owners of the Callable MITTS Securities,
- . the pretax annualized rate of return to the beneficial owners of the Callable MITTS Securities, and
- . pretax annualized rate of return of an investment in Semiconductor HOLDERS.

16

The table also assumes we do not call the Callable MITTS Securities prior to the stated maturity date.

<TABLE>  
<CAPTION>

Hypothetical Ending Value	Percentage change from the Starting Value to the hypothetical Ending Value	Total amount payable at maturity per unit of the Callable MITTS Securities	Total rate of return on the Callable MITTS Securities	Pretax annualized rate of return on the Callable MITTS Securities(1)	Pretax Annualized rate of return on Semiconductor HOLDERS (1) (2)
<S>	<C>	<C>	<C>	<C>	<C>
13.69	-80%	\$10.00	0.00%	0.00%	-21.72%
27.38	-60%	\$10.00	0.00%	0.00%	-12.67%
41.07	-40%	\$10.00	0.00%	0.00%	-7.17%
54.76	-20%	\$10.00	0.00%	0.00%	-3.16%
68.45(3)	0%	\$10.00	0.00%	0.00%	0.00%
82.14	20%	\$12.00	20.00%	2.62%	2.62%
95.83	40%	\$14.00	40.00%	4.86%	4.86%
109.52	60%	\$16.00	60.00%	6.83%	6.83%
123.21	80%	\$18.00	80.00%	8.58%	8.58%
136.90	100%	\$20.00	100.00%	10.15%	10.15%
150.59	120%	\$22.00	120.00%	11.59%	11.59%
164.28	140%	\$24.00	140.00%	12.91%	12.91%

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
  - (a) a dividend yield of 0% per annum;
  - (b) no transaction fees or expenses;
  - (c) an investment term from October 6, 2000 to October 5, 2007; and
  - (d) a percentage change in the aggregate price of Semiconductor HOLDRS, as adjusted for any dilution or reorganization events described below, that equals the percentage change from the Starting Value to the relevant hypothetical Ending Value.
- (3) The Starting Value is 68.45.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend on the actual Ending Value determined by the calculation agent as provided in this prospectus.

#### Events of Default and Acceleration

In case an Event of Default with respect to any Callable MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a Callable MITTS Security upon any acceleration permitted by the Callable MITTS Securities, with respect to each \$10 principal amount of the Callable MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the Callable MITTS Securities, provided, however, if the acceleration occurs before the end of the Call Period, the maximum amount payable with respect to each Callable MITTS Security will be the Call Price. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Callable MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Callable MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the Callable MITTS Securities.

In case of default in payment of the Callable MITTS Securities, whether at the stated maturity or upon acceleration, from and after the maturity date the Callable MITTS Securities will bear interest, payable upon

17

demand of their beneficial owners, at the rate of 7.11% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the Callable MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Dilution and Reorganization Adjustments

The Reference Property is subject to adjustment if an issuer of any Reference Security shall:

- (i) pay a stock dividend or make a distribution on that Reference Security in Reference Securities;
- (ii) subdivide or split the outstanding units of that Reference Security into a greater number of units;
- (iii) combine the outstanding units of that Reference Security into a smaller number of units;
- (iv) issue by reclassification of units of that Reference Security any units of another security of that issuer;
- (v) issue rights or warrants to all holders of that Reference Security entitling them to subscribe for or purchase shares, in the aggregate, for more than 5% of the number of those Reference Securities outstanding prior to the issuance of the rights or warrants at a price per share less than the then current market price of that Reference Security (other than rights to purchase that Reference Security pursuant to a plan for the reinvestment of dividends or interest); or
- (vi) pay a dividend or make a distribution to all holders of that Reference Security of evidences of its indebtedness or other assets:
  - . including in the case where the Reference Security is Semiconductor HOLDRS, any of the securities underlying Semiconductor HOLDRS that may be distributed by the Semiconductor HOLDRS Trust, but,

- . excluding any stock dividends or distributions referred to in clause (i) above or any cash dividends other than any Extraordinary Cash Dividend or issuance to all holders of that Reference Security of rights or warrants to subscribe for or purchase any of its securities (other than those referred to in clause (v) above) (any of the foregoing assets are referred to as the "Distributed Assets" and any of the foregoing events are referred to as the "Dilution Events").

For purposes of provision (vi) above, if the holder of a Reference Security can elect to receive securities in lieu of cash or property other than securities, then for purposes of provision (vi) above, the holders of the Reference Security shall be deemed to receive only the securities.

In the case of the Dilution Events referred to in clauses (i), (ii), (iii) and (iv) above, the Reference Property shall be adjusted to include the number of units of the Reference Security and/or security of that issuer which a holder of Reference Property as constituted immediately prior to the Dilution Event would have owned or been entitled to receive as a result of that Dilution Event. Each adjustment shall become effective immediately after the effective date for the dividend, distribution subdivision, split, combination or reclassification, as the case may be. Each adjustment shall be made successively.

In the case of the Dilution Event referred to in clause (v) above, the Reference Property shall be adjusted by multiplying the number of Reference Securities constituting Reference Property immediately prior to the date of issuance of the rights or warrants referred to in clause (v) above by a fraction:

18

- . the numerator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities offered for subscription or purchase pursuant to the rights or warrants, and
- . the denominator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities which the aggregate offering price of the total number of Reference Securities so offered for subscription or purchase pursuant to the rights or warrants would purchase at the current market price, determined as the average Closing Price per Reference Security for the 20 Trading Days immediately prior to the date of such rights or warrants are issued, subject to certain adjustments, which shall be determined by multiplying such total number of Reference Securities by the exercise price of the rights or warrants and dividing the product so obtained by the current market price.

To the extent that the rights or warrants are not exercised before they expire, or if the rights or warrants are not issued, the Reference Property shall be readjusted to the Reference Property which would then be in effect had such adjustments for the issuance of the rights or warrants been made upon the basis of delivery of only the number of Reference Securities actually delivered under the rights or warrants.

In the case of the Dilution Event referred to in clause (vi) above, the Reference Property shall be adjusted to include, from and after the dividend, distribution or issuance,

- . for the portion of the Distributed Assets consisting of cash, the amount of such Distributed Assets consisting of cash received on Reference Property as constituted on the date of the dividend, distribution or issuance, plus
- . for the portion of the Distributed Assets which are other than cash, the number or amount of each type of Distributed Assets other than cash received on Reference Property as constituted on the date of the dividend, distribution or issuance.

An "Extraordinary Cash Dividend" means, with respect to any consecutive 12-month period, the amount, if any, by which the aggregate amount of all cash dividends or any other distribution made by the issuer of a Reference Security or made pursuant to an arrangement effecting a distribution of distributable profits or reserves, whether in cash or in specie, on any Reference Security occurring in such 12-month period (or, if the Reference Security was not outstanding at the commencement of such 12-month period or was not then a part of the Reference Property, occurring in such shorter period during which such Reference Security was outstanding and was part of the Reference Property) exceeds on a per share basis 10% of the average of the Closing Prices per share of such Reference Security over such 12-month period

(or shorter period during which such Reference Security was outstanding and was part of the Reference Property); provided that, for purposes of the foregoing definition, the amount of cash dividends paid on a per share basis will be appropriately adjusted to reflect the occurrence during such period of any stock dividend or distribution of shares of capital stock of the issuer of such Reference Security or any subdivision, split, combination or reclassification of shares of such Reference Security.

If the Reference Security is Semiconductor HOLDERS, the determination as to whether any cash dividend on such Semiconductor HOLDERS is an Extraordinary Cash Dividend shall be made,

- . by examining which of the stocks underlying Semiconductor HOLDERS is responsible for all or a portion of such cash dividend or distribution on Semiconductor HOLDERS, and
- . treating each such stock underlying Semiconductor HOLDERS as if it were a Reference Security only for this purpose and then determining whether such cash dividend would be an Extraordinary Cash Dividend as defined above with respect to such deemed Reference Security.

19

A "Reorganization Event" shall mean:

- . any consolidation or merger of an issuer of a Reference Security, or any surviving entity or subsequent surviving entity of that issuer (a "Successor Company"), with or into another entity, other than a merger or consolidation in which such issuer is the continuing corporation and in which the Reference Security outstanding immediately prior to the merger or consolidation is not exchanged for cash, securities or other property of such issuer or another corporation;
- . any sale, transfer, lease or conveyance to another corporation of the property of an issuer of a Reference Security or any Successor Company as an entirety or substantially as an entirety;
- . any statutory exchange of securities of an issuer of a Reference Security or any Successor Company with another corporation, other than in connection with a merger or acquisition; or
- . any liquidation, dissolution, winding up or bankruptcy of an issuer of a Reference Security or any Successor Company.

If a Reorganization Event occurs, the Reference Property shall include:

- . for any cash received in that Reorganization Event, the cash received by a holder of the Reference Property as constituted on the date of the Reorganization Event;
- . for any property other than cash or securities received in that Reorganization Event, the property received by a holder of the Reference Property as constituted on the date of the Reorganization Event as determined by the calculation agent; and
- . for any securities received in that Reorganization Event, the securities received by a holder of the Reference Property as constituted on the date of the Reorganization Event (subject to adjustment on a basis consistent with the adjustment provisions described above).

All adjustments will be calculated to the nearest 1/10,000th of a share of the Reference Security, or if there is not a nearest 1/10,000th of a share, to the next lower 1/10,000th of a share. No adjustment shall be required unless that adjustment would require an increase or decrease of at least one percent in the Closing Price; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment.

The foregoing adjustments shall be made by MLPF&S, as calculation agent, and all adjustments, absent a manifest error, shall be final.

ML&Co. will, within ten Business Days following the occurrence of an event that requires an adjustment, or if ML&Co. is not aware of such occurrence, as soon as practicable after becoming so aware, provide written notice to the trustee, which shall provide notice to the holders of the Callable MITTS Securities of the occurrence of the event and, if applicable, a statement in reasonable detail setting forth the adjusted Closing Price to be used in determining the Ending Value.

Depositary

## Description of the Global Securities

The Callable MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for Callable MITTS Securities in definitive form, no global

20

security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the Callable MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the Callable MITTS Securities represented by a global security will not be entitled to have the Callable MITTS Securities registered in their names, will not receive or be entitled to receive physical delivery of the Callable MITTS Securities in definitive form and will not be considered the owners or holders of the Callable MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the Callable MITTS Securities. The Callable MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the Callable MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the Callable MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the Callable MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the

21

transaction. Transfers of ownership interests in the Callable MITTS Securities

are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all Callable MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of Callable MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Callable MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the Callable MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the Callable MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the Callable MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the Callable MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the Callable MITTS Securities,

the global securities will be exchangeable for Callable MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive Callable MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

22

DTC may discontinue providing its services as securities depository with respect to the Callable MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, Callable MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, Callable MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the Callable MITTS Securities are maintained in book-entry form.

## THE SEMICONDUCTOR HOLDERS TRUST

ML&Co. has attached the HOLDERS Prospectus describing the Semiconductor HOLDERS Trust and is delivering it to purchasers of the Callable MITTS Securities together with this prospectus for the convenience of reference only. The HOLDERS Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference into this prospectus. The summary description below is qualified in its entirety by the information describing the Semiconductor HOLDERS Trust and the securities held by the Trust included in the attached HOLDERS Prospectus.

The Semiconductor HOLDERS Trust was formed under a depositary trust agreement, dated as of April 24, 2000, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Semiconductor HOLDERS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the Semiconductor industry. The trust issues Semiconductor HOLDERS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Semiconductor HOLDERS are separate from the underlying common stocks that are represented by Semiconductor HOLDERS.

Semiconductor HOLDERS are quoted on the AMEX under the trading symbol "SMH".

You should carefully read the HOLDERS Prospectus accompanying this prospectus to fully understand the operation and management of the Semiconductor HOLDERS Trust. Neither the HOLDERS Prospectus nor these other documents are incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

## OTHER TERMS

The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the Callable MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the Callable MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

## Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the

class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

25

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness

without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The Callable MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper

United States Federal income tax treatment of contingent payment debt instruments such as the Callable MITTS Securities, we have determined that the projected payment schedule for the Callable MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.3031 per unit. This represents an estimated yield on the Callable MITTS Securities equal to 7.11% per annum, compounded semiannually.

The projected payment schedule (including both the projected Supplemental Redemption Amount and the estimated yield on the Callable MITTS Securities) has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the Callable MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the Callable MITTS Securities during each accrual period over the term of the Callable MITTS Securities based upon the projected payment schedule for the Callable MITTS Securities (including both the Projected Supplemental Redemption Amount and the estimated yield equal to 7.11% per annum (compounded semiannually)) as determined by ML&Co. for purposes of applying the Final Regulations to the Callable MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on the Callable MITTS Securities as of the end of accrual period (per unit) -----
<S>	<C>	<C>
October 6, 2000 through April 5, 2001.....	\$0.3525	\$0.3525
April 6, 2001 through October 5, 2001.....	\$0.3681	\$0.7206
October 6, 2001 through April 5, 2002.....	\$0.3811	\$1.1017
April 6, 2002 through October 5, 2002.....	\$0.3946	\$1.4963
October 6, 2002 through April 5, 2003.....	\$0.4087	\$1.9050
April 6, 2003 through October 5, 2003.....	\$0.4233	\$2.3283
October 6, 2003 through April 5, 2004.....	\$0.4382	\$2.7665
April 6, 2004 through October 5, 2004.....	\$0.4539	\$3.2204
October 6, 2004 through April 5, 2005.....	\$0.4700	\$3.6904
April 6, 2005 through October 5, 2005.....	\$0.4867	\$4.1771
October 6, 2005 through April 5, 2006.....	\$0.5039	\$4.6810
April 6, 2006 through October 5, 2006.....	\$0.5220	\$5.2030
October 6, 2006 through April 5, 2007.....	\$0.5404	\$5.7434
April 6, 2007 through October 5, 2007.....	\$0.5597	\$6.3031

</TABLE>

Projected Supplemental Redemption Amount = \$6.3031 per unit.

All prospective investors in the Callable MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the Callable MITTS Securities. Investors in the Callable MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the Callable MITTS Securities, by

29

submitting a written request for such information Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any Callable MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the Callable MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form with the SEC covering the Callable MITTS Securities and other securities. For further information on ML&Co. and the Callable MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000,

30

September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17/th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the Callable MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the Callable MITTS

Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The Callable MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the Callable MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

31

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

32

+++++
+The information in this prospectus is not complete and may be changed. We +
+may not sell these securities until the registration statement filed with the +
+Securities and Exchange Commission is effective. This prospectus is not an +
+offer to sell these securities and it is not soliciting an offer to buy these +
+securities in any state where the offer and sale is not permitted. +

SUMMARY INFORMATION--Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Callable Market Index Target-Term Securities(R) due August 3, 2007 based upon Biotech HOLDERS(SM). You should carefully read this prospectus to fully understand the terms of the Callable MITTS Securities and the tax and other considerations that are important to you in making a decision about whether to invest in the Callable MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the Callable MITTS Securities, to determine whether an investment in the Callable MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

"Biotech HOLDRS" are depositary receipts issued by the Biotech HOLDRS Trust. We have attached the prospectus dated \_\_\_\_\_ and the prospectus supplement dated \_\_\_\_\_ for Biotech HOLDRS (together, the "HOLDRS Prospectus"). From time to time the Biotech HOLDRS Trust updates the prospectus supplement. You should carefully read the HOLDRS Prospectus and any updated prospectus supplements including the section entitled "Risk Factors" to fully understand the operation and management of the Biotech HOLDRS Trust and risks that may affect the price of Biotech HOLDRS. The Biotech HOLDRS Trust will not receive any of the proceeds from the sale of the Callable MITTS Securities and will not have any obligations with respect to the Callable MITTS Securities.

We have attached the HOLDRS Prospectus and are delivering it to you together with this prospectus for the convenience of reference only. The HOLDRS Prospectus does not constitute a part of this prospectus nor is it incorporated by reference into this prospectus.

What are the Callable MITTS Securities?

The Callable MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The Callable MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The Callable MITTS Securities will mature on August 3, 2007 unless called by ML&Co. in August 2006.

Each unit of Callable MITTS Securities represents \$10 principal amount of Callable MITTS Securities. You may transfer the Callable MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the Callable MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the Callable MITTS Securities. You should refer to the section entitled "Description of the Callable MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the Callable MITTS Securities?

We have designed the Callable MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the price of Biotech HOLDRS. On the stated maturity date, if we have not called the Callable MITTS Securities, you will receive a cash payment equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

3

$$\$10 \times \left( \frac{\text{(Ending Value - Starting Value)}}{\text{(Starting Value)}} \right)$$

but will not be less than zero.

The "Starting Value" equals \$176.875, the Closing Price of Biotech HOLDRS on August 1, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be the average of the closing prices of Biotech HOLDRS, as adjusted for dilution and reorganization events described in this prospectus, on five business days shortly before the maturity of the Callable MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even a single day's Closing Price if, during the period shortly before the stated maturity date of the Callable MITTS Securities, there is a disruption in the trading of Biotech HOLDRS.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the Callable MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if we do not call the Callable MITTS Securities during August 2006 and the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to,

the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your Callable MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations. If we call the Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not be entitled to receive any payment on the stated maturity date.

Example 1--Ending Value is less than the Starting Value on the stated maturity date:

Starting Value: \$176.88  
Hypothetical Ending Value at maturity: \$159.19

<TABLE>			<C>
<S>			(Supplemental
		(159.19 - 176.88)	Redemption
Supplemental Redemption Amount (per unit) = \$10 x	(-----)	= \$0.00	amount cannot
	( 176.88 )		be less than zero)

Total payment on the stated maturity date (per unit) = \$10.00 + \$0.00 = \$10.00

Example 2--Ending Value is greater than the Starting Value on the stated maturity date:

Starting Value: \$176.88  
Hypothetical Ending Value at maturity: \$256.48

		(256.48 - 176.88)	
Supplemental Redemption Amount (per unit) = \$10 x	(-----)	= \$4.00	
	( 176.88 )		

Total payment on the stated maturity date (per unit) = \$10.00 + \$4.50 = \$14.50

</TABLE>

4

How does the call feature work?

We may elect to call the Callable MITTS Securities at \$22 per unit (the "Call Price") on any Business Day during the month of August 2006 (the "Call Period") by giving notice to the trustee of the Callable MITTS Securities as described in this prospectus and specifying the date on which the Call Price will be paid (the "Payment Date"). The Payment Date will be no later than the twentieth Business Day after the call election.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Biotech HOLDERS. If we do not call the Callable MITTS Securities during the Call period, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity date may be greater than or less than the Call Price.

Will I receive interest payments on the Callable MITTS Securities?

You will not receive any interest payments on the Callable MITTS Securities, but will instead receive the principal amount plus the Supplemental Redemption Amount, if any, at maturity, or the Call Price if the Callable MITTS Securities are called during the Call Period. We have designed the Callable MITTS Securities for investors who are willing to forego market interest payments on the Callable MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the price of Broadband HOLDERS.

What is the Biotech HOLDERS Trust?

The Biotech HOLDERS Trust was formed under a depositary trust agreement, dated November 18, 1999, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Biotech HOLDERS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the biotechnology industry. The trust issues Biotech HOLDERS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Biotech HOLDERS are separate from the underlying common stocks that are represented by Biotech HOLDERS.

Biotech HOLDERS are listed on the AMEX under the trading symbol "BBH".

You should carefully read the HOLDERS Prospectus accompanying this prospectus to fully understand the operation and management of the Biotech HOLDERS Trust. The risks described in the HOLDERS Prospectus under the section entitled "Risk Factors" may affect the prices of Biotech HOLDERS and, therefore, the value of the Callable MITTS Securities. The HOLDERS Prospectus is not incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

Please note that an investment in the Callable MITTS Securities does not entitle you to an ownership interest in Biotech HOLDERS or in the stocks held by the Biotech HOLDERS Trust.

Are the Callable MITTS Securities listed on a stock exchange?

The Callable MITTS Securities are listed on the AMEX under the trading symbol "BHM". The listing of the Callable MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the Callable MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the Callable MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary MLPF&S was one of the underwriters for the offering and sale of the Callable MITTS Securities. MLPF&S intends to buy and sell Callable MITTS Securities to create a secondary market for holders of the Callable MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities or to continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as a subsidiary of ML&Co. and its responsibilities as calculation agent. In addition, MLPF&S also acted

5

as the initial depositor for the Biotech HOLDERS Trust and regularly makes a market in Biotech HOLDERS.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the Callable MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

6

#### RISK FACTORS

Your investment in the Callable MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the Callable MITTS Securities. In addition, you should reach an investment decision with regard to the Callable MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the Callable MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value, the Supplemental Redemption Amount will be zero. This will be true even if the price of Biotech HOLDERS was higher than the Starting Value at some time during the life of the Callable MITTS Securities but later falls to or below the Starting Value. If the Supplemental Redemption Amount is zero and the Callable MITTS Securities are not called by us prior to the stated maturity date, we will pay you only the principal amount of your Callable MITTS Securities.

The Callable MITTS Securities are subject to early call

We may elect to call all of the Callable MITTS Securities by giving notice on any Business Day during the Call Period. We are likely to call the Callable MITTS Securities during the Call Period if the secondary market price of the Callable MITTS Securities is approximately equal to or above the Call Price during that period. In the event that we elect to call the Callable MITTS

Securities, you will receive only the Call Price and no Supplemental Redemption Amount based on the trading price of Biotech HOLDERS.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning Biotech HOLDERS or the securities held by the Biotech HOLDERS Trust

The return on your Callable MITTS Securities will not reflect the return you would realize if you actually owned Biotech HOLDERS and received cash distributions, if any, paid on Biotech HOLDERS because the price of Biotech HOLDERS is calculated without taking into consideration the value of any normal cash distributions paid on Biotech HOLDERS. In addition, if Callable MITTS Securities are called during the Call Period, you will receive only the Call Price and you will not receive any additional amount based upon the appreciation, if any, in the price of Biotech HOLDERS.

There may be an uncertain trading market for the Callable MITTS Securities

The Callable MITTS Securities are listed on the AMEX under the trading symbol "BHM" You cannot assume that a trading market exists for the Callable MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the Callable MITTS Securities will depend on our financial performance and other factors such as the increase, if any, in the price of Biotech HOLDERS.

If the trading market for the Callable MITTS Securities is limited, there may be a limited number of buyers for your Callable MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

7

Many factors affect the trading value of the Callable MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the Callable MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the Callable MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the Callable MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the Callable MITTS Securities attributable to another factor, such as an increase in the price of Biotech HOLDERS. The following paragraphs describe the expected impact on the market value of the Callable MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The price of Biotech HOLDERS is expected to affect the trading value of the Callable MITTS Securities. We expect that the market value of the Callable MITTS Securities will depend substantially on the amount, if any, by which the price of Biotech HOLDERS, as adjusted for certain dilution and reorganization events described in this prospectus, exceeds the Starting Value. If you choose to sell your Callable MITTS Securities when the price of Biotech HOLDERS exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that price because of the expectation that the price of Biotech HOLDERS will continue to fluctuate until the Ending Value is determined. If you choose to sell your Callable MITTS Securities when the price of Biotech HOLDERS is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of Callable MITTS Securities.

Changes in the levels of interest rates are expected to affect the trading value of the Callable MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of Callable MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the Callable MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the Callable MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the Callable MITTS Securities will increase. Rising interest rates may lower the price of the Biotech HOLDERS and, thus, the Callable MITTS Securities. Falling interest rates may increase the price of the Biotech HOLDERS and, thus, may increase the value of the Callable MITTS Securities.

Changes in the volatility of Biotech HOLDERS are expected to affect the trading value of the Callable MITTS Securities. Volatility is the term used to

describe the size and frequency of price and/or market fluctuations. If the volatility of Biotech HOLDERS increases or decreases, the trading value of the Callable MITTS Securities may be adversely affected.

As the time remaining to maturity of the Callable MITTS Securities decreases, the "time premium" associated with the Callable MITTS Securities will decrease. We anticipate that before their maturity, the Callable MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the price of Biotech HOLDERS. This difference will reflect a "time premium" due to expectations concerning the price of Biotech HOLDERS during the period before the stated maturity of the Callable MITTS Securities. However, as the time remaining to the stated maturity of the Callable MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the Callable MITTS Securities.

Changes in dividend yields of the stocks held by the Biotech HOLDERS Trust are expected to affect the trading value of the Callable MITTS Securities. If the dividend yields on the stocks held by the Biotech HOLDERS Trust increase, we expect that the value of the Callable MITTS Securities will decrease and, conversely, if the dividend yields on the stocks held by the Biotech HOLDERS Trust decrease, we expect that the value of the Callable MITTS Securities will increase.

8

Changes in our credit ratings may affect the trading value of the Callable MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the Callable MITTS Securities. However, because your return on your Callable MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the Callable MITTS Securities, such as the percentage increase, if any, in the price of Biotech HOLDERS at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the Callable MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities. However, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in the price of Biotech HOLDERS will be greater if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities.

Amounts payable on the Callable MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the Callable MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the Callable MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the holders of the Callable MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

No stockholder's rights

Beneficial owners of the Callable MITTS Securities are not entitled to any rights in Biotech HOLDERS including, for example, voting rights and rights to receive any cash or other distributions and rights to cancel Biotech HOLDERS and receive the underlying securities.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell Biotech HOLDERS or stocks of the companies held by the Biotech HOLDERS Trust for our own accounts, for business reasons or in connection with hedging our obligations under the Callable MITTS Securities. These transactions could affect the price of Biotech HOLDERS in a manner that could be adverse to your investment in the Callable MITTS Securities.

Potential conflicts

Our subsidiary MLPF&S is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the Callable MITTS Securities could give rise to conflicts of interests. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that

because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

9

#### Risks related to Biotech HOLDERS

Biotech HOLDERS are subject to various risks which are described under the section entitled "Risk Factors" in the HOLDERS Prospectus. Any loss of value to Biotech HOLDERS attributable to such risks would adversely affect the value of the Callable MITTS Securities. You should carefully consider those risks before deciding whether an investment in the Callable MITTS Securities is suitable for you.

10

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Callable MITTS Securities described in this prospectus.

11

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
<S> Ratio of earnings to fixed charges.....	<C> 1.2	<C> 1.2	<C> 1.2	<C> 1.1	<C> 1.3	<C> 1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE CALLABLE MITTS SECURITIES

On August 3, 2000, ML&Co. issued an aggregate principle amount of \$34,000,000 or 3,400,000 units of Callable MITTS Securities. The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus. Unless called by ML&Co. during the Call Period, the Callable MITTS Securities will mature on August 3, 2007.

Unless the Callable MITTS Securities are called during the Call Period, at the stated maturity a beneficial owner of a Callable MITTS Security will receive the sum of the principal amount of the Callable MITTS Security plus the Supplemental Redemption Amount, if any. There will be no payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity".

The Callable MITTS Securities may be called by ML&Co. as described below, but are not subject to redemption at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the Callable MITTS Securities, registered holders of the Callable MITTS Securities may accelerate the maturity of the Callable MITTS Securities, as described under the sections entitled "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the Callable MITTS Securities in denominations of whole units of \$10 per unit.

The Callable MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

If we do not call the Callable MITTS Securities during the Call Period, a beneficial owner of a Callable MITTS Security will be entitled to receive, at the stated maturity, the principal amount of each Callable MITTS Security plus the Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, a beneficial owner of a Callable MITTS Security will be entitled to receive only the principal amount of the Callable MITTS Security.

Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a Callable MITTS Security will be determined by the calculation agent and will equal:

$$\text{Principal amount of each Callable MITTS Security (\$10 per unit)} \times \frac{\text{Ending Value} - \text{Starting Value}}{\text{Starting Value}}$$

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals \$176.875, the Closing Price of one Biotech HOLDR on August 1, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the value of the Reference Property determined as follows:

- (A) for any portion of the Reference Property consisting of cash:
  - . that cash, plus

- . interest on the amount accruing from and including the date of the payment of that cash to holders of the Reference Property for which that cash was paid to but excluding the stated maturity date at a fixed interest rate determined on the date of the payment equal to the interest rate that would be paid on a fixed rate senior non-callable debt security of ML&Co. with a term approximately equal to the remaining term for the Callable MITTS Securities as determined by the calculation agent;
- (B) for any portion of the Reference Property consisting of property other than cash or Reference Securities:
- . the market value of that property, as determined by the calculation agent on the date that the property was delivered to holders of the relevant Reference Property for which the property was distributed, plus
  - . interest on the amount accruing from and including the date of delivery to but excluding the stated maturity date at a fixed interest rate determined as described in (A) above; and
- (C) for any portion of the Reference Property consisting of Reference Securities, the average or arithmetic mean, of the Closing Prices of each such Reference Security determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days in the Calculation Period with respect to any Reference Security, then the Ending Value shall be calculated using the average, arithmetic mean, of the Closing Prices of that Reference Security on those Calculation Days, and if there is only one Calculation Day, then the Ending Value shall be calculated using the Closing Price of that Reference Security on such Calculation Day. If no Calculation Days occur during the Calculation Period with respect to that Reference Security, then the Ending Value shall be calculated using the Closing Price of that Reference Security determined on the last scheduled Trading Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

"Reference Property" initially shall mean one Biotech HOLDR, and shall be subject to adjustment from time to time to reflect the distribution of cash, securities and/or other property in accordance with the adjustment provisions described below under "--Dilution and Reorganization Adjustments".

"Reference Securities" shall mean any securities included in the Reference Property.

The "Calculation Period" means the period from and including the seventh scheduled Trading Day prior to the stated maturity date to and including the second scheduled Trading Day prior to the stated maturity date.

"Calculation Day" means, with respect to any Reference Security, any Trading Day during the Calculation Period on which a Market Disruption Event has not occurred.

"Market Disruption Event" means, for any Reference Security, the occurrence or existence on any Trading Day during the one-half hour period that ends when the Closing Price is determined, of any suspension of, or limitation imposed on, trading in that Reference Security on the New York Stock Exchange, or other market or exchange, if applicable.

"Trading Day" means a day on which the AMEX, the NYSE and the NASDAQ National Market System ("NASDAQ NMS") are open for trading.

"Closing Price" of a Reference Security means, for a Calculation Day, the following:

- (a) If the Reference Security is listed on a national securities exchange in the United States, is a NASDAQ NMS security or is included in the OTC Bulletin Board Service ("OTC Bulletin Board") operated by the National Association of Securities Dealers, Inc. (the "NASD"), Closing Price means:
- (i) the last reported sale price, regular way, on that day on the principal United States securities exchange registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), on which that Reference Security is listed or admitted to trading, or
  - (ii) if not listed or admitted to trading on any such securities exchange or if the last reported sale price is not obtainable, the last reported sale price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day, or

- (iii) if the last reported sale price is not available pursuant to (i) and (ii) above, the mean of the last reported bid and offer price on the over-the-counter market as reported on the NASDAQ NMS or OTC Bulletin Board on that day as determined by the calculation agent.

The term "NASDAQ NMS security" shall include a security included in any successor to that system, and the term "OTC Bulletin Board" shall include any successor service to that service.

- (b) If the Reference Security is not listed on a national securities exchange in the United States or is not a NASDAQ NMS security or included in the OTC Bulletin Board operated by the NASD, Closing Price means the last reported sale price on that day on the securities exchange on which the Reference Security is listed or admitted to trading with the greatest volume of trading for the calendar month preceding that day as determined by the calculation agent, provided that if the last reported sale price is for a transaction which occurred more than four hours prior to the close of that exchange, then the Closing Price shall mean the average, mean, of the last available bid and offer price on that exchange. If the Reference Security is not listed or admitted to trading on any such securities exchange or if the last reported sale price or bid and offer are not obtainable, the Closing Price shall mean the last reported sale price for a transaction which occurred more than four hours prior to when trading in such over-the-counter market typically ends, then the Closing Price shall mean the average, mean, of the last available bid and offer prices in such market of the three dealers which have the highest volume of transactions in the Reference Security in the immediately preceding calendar month as determined by the calculation agent based on information that is reasonably available to it.

"Business Day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a day on which the NYSE, the NASDAQ NMS and the AMEX are open for trading.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the Holders and beneficial owners of the Callable MITTS Securities.

Early call of the Callable MITTS Securities at the option of ML&Co.

During the Call Period, the month of August 2006, ML&Co., in its sole discretion, may elect to call the Callable MITTS Securities, in whole but not in part, at \$22 per unit (the "Call Price"), by giving notice to the trustee on any Business Day.

15

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the price of Biotech HOLDRS. If we do not call the Callable MITTS Securities, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity may be greater than or less than the Call Price. ML&Co. may elect to call the Callable MITTS Securities on any Business Day during the Call Period by giving notice to the trustee and specifying the date on which the Call Price shall be paid. The Payment Date shall be no later than the twentieth Business Day after the call election. The trustee will provide notice of the call election to the registered holders of the Callable MITTS Securities, specifying the Payment Date, no less than 15 calendar days prior to the Payment Date. While the Callable MITTS Securities are held at the depository, the registered holder will be the depository, and the depository will receive the notice of the call. As more fully described below under "--Depository", the depository will forward this notice to its participants which will pass it onto the beneficial owners.

You should compare the features of the Callable MITTS Securities to other available investments before deciding to purchase the Callable MITTS Securities. Due to the uncertainty as to whether the Callable MITTS Securities will earn a Supplemental Redemption Amount or be called during the Call Period, the return on investment with respect to the Callable MITTS Securities may be higher or lower than the return available on other securities issued by ML&Co. or issued by others. We suggest that you reach an investment decision only after carefully considering the suitability of the Callable MITTS Securities in light of your particular circumstances. See the section entitled "United States Federal Income Taxation".

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from August 4, 2000 to August 3, 2007:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
- . the total amount payable at maturity for each unit of Callable MITTS Securities,
- . the total rate of return to beneficial owners of the Callable MITTS Securities,
- . the pretax annualized rate of return to the beneficial owners of the Callable MITTS Securities, and
- . pretax annualized rate of return of an investment in Biotech HOLDERS.

16

The table also assumes we do not call the Callable MITTS Securities prior to the stated maturity date.

<TABLE>  
<CAPTION>

Hypothetical Ending Value	Percentage change from the Starting Value to the hypothetical Ending Value	Total amount payable at maturity per unit of the Callable MITTS Securities	Total rate of return on the Callable MITTS Securities	Pretax annualized rate of return on Callable MITTS Securities (1)	Pretax Annualized rate of return on Biotech HOLDERS (1) (2)
-----	-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>	<C>
35.38	-80%	10.00	0.00%	0.00%	-21.72%
70.75	-60%	10.00	0.00%	0.00%	-12.67%
106.13	-40%	10.00	0.00%	0.00%	-7.17%
141.50	-20%	10.00	0.00%	0.00%	-3.16%
176.88 (3)	0%	10.00	0.00%	0.00%	0.00%
212.25	20%	12.00	20.00%	2.62%	2.62%
247.63	40%	14.00	40.00%	4.86%	4.86%
283.00	60%	16.00	60.00%	6.83%	6.83%
318.38	80%	18.00	80.00%	8.58%	8.57%
353.75	100%	20.00	100.00%	10.15%	10.15%
389.13	120%	22.00	120.00%	11.59%	11.58%
424.50	140%	24.00	140.00%	12.91%	12.90%
459.88	160%	26.00	160.00%	14.13%	14.12%

</TABLE>

(1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.

(2) This rate of return assumes:

- (a) a dividend yield of 0% per annum;
- (b) no transaction fees or expenses;
- (c) an investment term from August 4, 2000 to August 3, 2007; and
- (d) a percentage change in the aggregate price of Biotech HOLDERS, as adjusted for any dilution or reorganization events described below, that equals the percentage change from the Starting Value to the relevant hypothetical Ending Value.

(3) The actual Starting Value is 176.875.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by you and the resulting total and pretax annualized rates of return will depend entirely on the actual Ending Value determined by the calculation agent as provided in this prospectus.

#### Events of Default and Acceleration

In case an Event of Default with respect to any Callable MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a Callable MITTS Security upon any acceleration permitted by the Callable MITTS Securities, with respect to each \$10 principal amount of the Callable MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment was the stated maturity date of the Callable MITTS Securities, provided, however, if the acceleration occurs before the end of the Call Period, the maximum amount payable with respect to each Callable MITTS Security will be the Call Price. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Callable MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Callable MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the Callable MITTS Securities.

In case of default in payment of the Callable MITTS Securities, whether

at the stated maturity or upon acceleration, from and after the maturity date the Callable MITTS Securities will bear interest, payable upon

17

demand of their beneficial owners, at the rate of 7.54% per annum, to the extent that payment of any interest is legally enforceable, on the unpaid amount due and payable on that date in accordance with the terms of the Callable MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Dilution and Reorganization Adjustments

The Reference Property is subject to adjustment if an issuer of any Reference Security shall:

- (i) pay a stock dividend or make a distribution on that Reference Security in Reference Securities;
- (ii) subdivide or split the outstanding units of that Reference Security into a greater number of units;
- (iii) combine the outstanding units of that Reference Security into a smaller number of units;
- (iv) issue by reclassification of units of that Reference Security any units of another security of that issuer;
- (v) issue rights or warrants to all holders of that Reference Security entitling them to subscribe for or purchase shares, in the aggregate, for more than 5% of the number of those Reference Securities outstanding prior to the issuance of the rights or warrants at a price per share less than the then current market price of that Reference Security (other than rights to purchase that Reference Security pursuant to a plan for the reinvestment of dividends or interest); or
- (vi) pay a dividend or make a distribution to all holders of that Reference Security of evidences of its indebtedness or other assets:
  - . including in the case where the Reference Security is Biotech HOLDERS, any of the securities underlying Biotech HOLDERS that may be distributed by the Biotech HOLDERS Trust, but,
  - . excluding any stock dividends or distributions referred to in clause (i) above or any cash dividends other than any Extraordinary Cash Dividend or issuance to all holders of that Reference Security of rights or warrants to subscribe for or purchase any of its securities (other than those referred to in clause (v) above) (any of the foregoing assets are referred to as the "Distributed Assets" and any of the foregoing events are referred to as the "Dilution Events").

For purposes of provision (vi) above, if the holder of a Reference Security can elect to receive securities in lieu of cash or property other than securities, then for purposes of provision (vi) above, the holders of the Reference Security shall be deemed to receive only the securities.

In the case of the Dilution Events referred to in clauses (i), (ii), (iii) and (iv) above, the Reference Property shall be adjusted to include the number of units of the Reference Security and/or security of that issuer which a holder of Reference Property as constituted immediately prior to the Dilution Event would have owned or been entitled to receive as a result of that Dilution Event. Each adjustment shall become effective immediately after the effective date for the dividend, distribution subdivision, split, combination or reclassification, as the case may be. Each adjustment shall be made successively.

In the case of the Dilution Event referred to in clause (v) above, the Reference Property shall be adjusted by multiplying the number of Reference Securities constituting Reference Property immediately prior to the date of issuance of the rights or warrants referred to in clause (v) above by a fraction:

18

- . the numerator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities offered for subscription or purchase pursuant to the rights or warrants, and
- . the denominator of which shall be the number of Reference Securities outstanding on the date immediately prior to such issuance, plus the number of additional Reference Securities which the aggregate offering price of the total number of Reference Securities so offered for subscription or purchase pursuant to the rights or warrants would

purchase at the current market price, determined as the average Closing Price per Reference Security for the 20 Trading Days immediately prior to the date of such rights or warrants are issued, subject to certain adjustments, which shall be determined by multiplying such total number of Reference Securities by the exercise price of the rights or warrants and dividing the product so obtained by the current market price.

To the extent that the rights or warrants are not exercised before they expire, or if the rights or warrants are not issued, the Reference Property shall be readjusted to the Reference Property which would then be in effect had such adjustments for the issuance of the rights or warrants been made upon the basis of delivery of only the number of Reference Securities actually delivered under the rights or warrants.

In the case of the Dilution Event referred to in clause (vi) above, the Reference Property shall be adjusted to include, from and after the dividend, distribution or issuance,

- . for the portion of the Distributed Assets consisting of cash, the amount of such Distributed Assets consisting of cash received on Reference Property as constituted on the date of the dividend, distribution or issuance, plus
- . for the portion of the Distributed Assets which are other than cash, the number or amount of each type of Distributed Assets other than cash received on Reference Property as constituted on the date of the dividend, distribution or issuance.

An "Extraordinary Cash Dividend" means, with respect to any consecutive 12-month period, the amount, if any, by which the aggregate amount of all cash dividends or any other distribution made by the issuer of a Reference Security or made pursuant to an arrangement effecting a distribution of distributable profits or reserves, whether in cash or in specie, on any Reference Security occurring in such 12-month period (or, if the Reference Security was not outstanding at the commencement of such 12-month period or was not then a part of the Reference Property, occurring in such shorter period during which such Reference Security was outstanding and was part of the Reference Property) exceeds on a per share basis 10% of the average of the Closing Prices per share of such Reference Security over such 12-month period (or shorter period during which such Reference Security was outstanding and was part of the Reference Property); provided that, for purposes of the foregoing definition, the amount of cash dividends paid on a per share basis will be appropriately adjusted to reflect the occurrence during such period of any stock dividend or distribution of shares of capital stock of the issuer of such Reference Security or any subdivision, split, combination or reclassification of shares of such Reference Security.

If the Reference Security is Biotech HOLDRS, the determination as to whether any cash dividend on such Biotech HOLDRS is an Extraordinary Cash Dividend shall be made,

- . by examining which of the stocks underlying Biotech HOLDRS is responsible for all or a portion of such cash dividend or distribution on Biotech HOLDRS, and
- . treating each such stock underlying Biotech HOLDRS as if it were a Reference Security only for this purpose and then determining whether such cash dividend would be an Extraordinary Cash Dividend as defined above with respect to such deemed Reference Security.

19

A "Reorganization Event" shall mean:

- . any consolidation or merger of an issuer of a Reference Security, or any surviving entity or subsequent surviving entity of that issuer (a "Successor Company"), with or into another entity, other than a merger or consolidation in which such issuer is the continuing corporation and in which the Reference Security outstanding immediately prior to the merger or consolidation is not exchanged for cash, securities or other property of such issuer or another corporation;
- . any sale, transfer, lease or conveyance to another corporation of the property of an issuer of a Reference Security or any Successor Company as an entirety or substantially as an entirety;
- . any statutory exchange of securities of an issuer of a Reference Security or any Successor Company with another corporation, other than in connection with a merger or acquisition; or
- . any liquidation, dissolution, winding up or bankruptcy of an issuer of a Reference Security or any Successor Company.

If a Reorganization Event occurs, the Reference Property shall include:

- for any cash received in that Reorganization Event, the cash received by a holder of the Reference Property as constituted on the date of the Reorganization Event;
- for any property other than cash or securities received in that Reorganization Event, the property received by a holder of the Reference Property as constituted on the date of the Reorganization Event as determined by the calculation agent; and
- for any securities received in that Reorganization Event, the securities received by a holder of the Reference Property as constituted on the date of the Reorganization Event (subject to adjustment on a basis consistent with the adjustment provisions described above).

All adjustments will be calculated to the nearest 1/10,000th of a share of the Reference Security, or if there is not a nearest 1/10,000th of a share, to the next lower 1/10,000th of a share. No adjustment shall be required unless that adjustment would require an increase or decrease of at least one percent in the Closing Price; provided, however, that any adjustments which by reason of the foregoing are not required to be made shall be carried forward and taken into account in any subsequent adjustment.

The foregoing adjustments shall be made by MLPF&S, as calculation agent, and all adjustments, absent a manifest error, shall be final.

ML&Co. will, within ten Business Days following the occurrence of an event that requires an adjustment, or if ML&Co. is not aware of such occurrence, as soon as practicable after becoming so aware, provide written notice to the trustee, which shall provide notice to the holders of the Callable MITTS Securities of the occurrence of the event and, if applicable, a statement in reasonable detail setting forth the adjusted Closing Price to be used in determining the Ending Value.

#### Depository

##### Description of the Global Securities

The Callable MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for Callable MITTS Securities in definitive form, no global

20

security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the Callable MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the Callable MITTS Securities represented by a global security will not be entitled to have the Callable MITTS Securities registered in their names, will not receive or be entitled to receive physical delivery of the Callable MITTS Securities in definitive form and will not be considered the owners or holders of the Callable MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the Callable MITTS Securities. The

Callable MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the Callable MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the Callable MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the Callable MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the

21

transaction. Transfers of ownership interests in the Callable MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all Callable MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of Callable MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Callable MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the Callable MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the Callable MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the Callable MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the Callable MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

Exchange for Certificated Securities

If:

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co.

within 60 days,

- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the Callable MITTS Securities,

the global securities will be exchangeable for Callable MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive Callable MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

22

DTC may discontinue providing its services as securities depository with respect to the Callable MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depository is not obtained, Callable MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, Callable MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the Callable MITTS Securities are maintained in book-entry form.

23

#### THE BIOTECH HOLDERS TRUST

ML&Co. has attached the HOLDERS Prospectus describing the Biotech HOLDERS Trust and is delivering it to purchasers of the Callable MITTS Securities together with this prospectus for the convenience of reference only. The HOLDERS Prospectus does not constitute a part of this prospectus, nor is it incorporated by reference into this prospectus. The summary description below is qualified in its entirety by the information describing the Biotech HOLDERS Trust and the securities held by the Trust included in the attached HOLDERS Prospectus.

The Biotech HOLDERS Trust was formed under a depository trust agreement, dated as of November 18, 1999, among The Bank of New York, as trustee, MLPF&S, as the initial depositor, other depositors and the owners of Biotech HOLDERS. The trust is not a registered investment company under the Investment Company Act of 1940.

The trust holds shares of common stock issued by companies generally considered to be involved in various segments of the biotechnology industry. The trust issues Biotech HOLDERS that represent an undivided beneficial ownership interest in the shares of common stock held by the trust. Biotech HOLDERS are separate from the underlying common stocks that are represented by Biotech HOLDERS.

Biotech HOLDERS are listed on the AMEX under the trading symbol "BBH".

You should carefully read the HOLDERS Prospectus accompanying this prospectus to fully understand the operation and management of the Biotech HOLDERS Trust. Neither the HOLDERS Prospectus nor these other documents are incorporated by reference into this prospectus, and we make no representation or warranty as to the accuracy or completeness of the information.

24

#### OTHER TERMS

The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the Callable MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the

1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the Callable MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

25

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness

26

without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

27

The Callable MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

28

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the Callable MITTS Securities, we have determined that the projected payment schedule for the Callable MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.7934 per unit. This represents an estimated yield on the Callable MITTS Securities equal to 7.54% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the Callable MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the Callable MITTS Securities), and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the Callable MITTS Securities during each accrual period over the term of the Callable MITTS Securities based upon a projected payment schedule for the Callable MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7.54% per annum compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the Callable MITTS Securities:

<TABLE>

February 5, 2007 through August 3, 2007.....	\$0.6102	\$6.7934

</TABLE>

Projected Supplemental Redemption Amount = \$6.7934 per unit.

All prospective investors in the Callable MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the Callable MITTS Securities. Investors in the Callable MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the Callable MITTS Securities, by submitting a written request for such information Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

29

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any Callable MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the Callable MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the Callable MITTS Securities and other securities. For further information on ML&Co. and the Callable MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000,

30

September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before

SUMMARY INFORMATION -- Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the Callable Nasdaq-100 Market Index Target-Term Securities(R) due August 3, 2007. You should carefully read this prospectus to fully understand the terms of the Callable MITTS Securities, the Nasdaq-100 Index and the tax and other considerations that are important to you in making a decision about whether to invest in the Callable MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the Callable MITTS Securities, to determine whether an investment in the Callable MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the Callable MITTS Securities?

The Callable MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The Callable MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The Callable MITTS Securities will mature on August 3, 2007 unless called by ML&Co. in August 2006.

Each unit of Callable MITTS Securities represents \$10 principal amount of Callable MITTS Securities. You may transfer the Callable MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the Callable MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the Callable MITTS Securities. You should refer to the section entitled "Description of the Callable MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the Callable MITTS Securities?

We have designed the Callable MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the Nasdaq-100 Index. On the stated maturity date, if we have not called the Callable MITTS Securities, you will receive a payment on the Callable MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\begin{aligned}
 & \text{(Ending Value - Starting Value)} \\
 \$10 \times & \text{(-----)} \\
 & \text{( Starting Value )}
 \end{aligned}$$

but will not be less than zero.

The "Starting Value" equals 3,521.15, the closing value of the Nasdaq-100 Index on August 1, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" means the average of the values of the Nasdaq-100 Index at the close of the market on five business days shortly before the maturity of

the Callable MITTS Securities. We may calculate the Ending Value by reference to fewer than five or even by reference to a single day's closing value if, during the period prior to the stated maturity date of the Callable MITTS Securities, there is a disruption in the trading of the component stocks comprising the Nasdaq-100 Index or certain futures or options contracts relating to the Nasdaq-100 Index.

For more specific information about the Supplemental Redemption Amount, please see the section entitled "Description of the Callable MITTS Securities" in this prospectus.

3

We will pay you a Supplemental Redemption Amount only if we do not call the Callable MITTS Securities in August 2006 and the Ending Value is greater than the Starting Value. If the Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of the Callable MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

#### Examples

Here are two examples of Supplemental Redemption Amount calculations. If we call the Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not be entitled to receive any payment on the stated maturity date.

Example 1--The Nasdaq-100 Index is below the Starting Value at maturity.

Starting Value: 3,521.15  
Hypothetical Ending Value: 3,169.04

<TABLE>  
<S>

Supplemental Redemption Amount (per unit) =  $\$10 \times \frac{(3,169.04 - 3,521.15)}{(3,521.15)} = \$0.00$

<C>  
(Supplemental Redemption Amount cannot be less than zero)

Total payment at maturity (per unit) =  $\$10 + \$0.00 = \$10$

Example 2--The Nasdaq-100 Index is above the Starting Value at Maturity

Starting Value: 3,521.15  
Hypothetical Ending Value: 5,105.67

Supplemental Redemption Amount (per unit) =  $\$10 \times \frac{(5,105.67 - 3,521.15)}{(3,521.15)} = \$4.50$

Total payment at maturity (per unit) =  $\$10 + \$4.50 = \$14.50$

</TABLE>

How does the call feature work?

We may elect to call the Callable MITTS Securities at \$21.50 per unit (the "Call Price") on any Business Day during the month of August 2006 (the "Call Period") by giving notice to the trustee of the Callable MITTS Securities as described in this prospectus and specifying the date on which the Call Price will be paid (the "Payment Date"). The Payment Date will be no later than the twentieth Business Day after the call election.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount. If we do not call the Callable MITTS Securities during the Call Period, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity date may be greater than or less than the Call Price.

Will I receive interest payments on the Callable MITTS Securities?

You will not receive any interest payments on the Callable MITTS Securities, but will instead receive the principal amount plus the Supplemental Redemption Amount, if any, at maturity, or the Call Price if the Callable MITTS Securities are called during the Call Period. We

4

have designed the Callable MITTS Securities for investors who are willing to forego market interest payments on the Callable MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the Nasdaq-100 Index.

Who publishes the Nasdaq-100 Index and what does the Nasdaq-100 Index measure?

The Nasdaq-100 Index is a modified capitalization-weighted index of 100 of the largest and most actively traded stocks of non-financial companies listed on the Nasdaq National Market tier of The Nasdaq Stock Market. The Nasdaq-100 Index is currently calculated and published by The Nasdaq Stock Market, Inc. (the "Nasdaq").

Are the Callable MITTS Securities listed on a stock exchange?

The Callable MITTS Securities are listed on the AMEX under the symbol "MNM". The listing of the Callable MITTS Securities on the AMEX does not necessarily ensure that a liquid trading market is available for the Callable MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the Callable MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary MLPF&S was one of the underwriters for the initial offering and sale of the Callable MITTS Securities. MLPF&S intends to buy and sell Callable MITTS Securities to create a secondary market for holders of the Callable MITTS Securities. However, MLPF&S is not obligated to engage in any of these market activities.

MLPF&S is also be our agent for purposes of calculating, among other things, the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could result in a conflict of interest between MLPF&S' status as our subsidiary and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co., see the section entitled "Merrill Lynch & Co., Inc." in this prospectus. You should also read other documents ML&Co. has filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the Callable MITTS Securities is subject to risk. Please refer to the section entitled "Risk Factors" in this prospectus.

5

#### RISK FACTORS

Your investment in the Callable MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the Callable MITTS Securities. In addition, you should reach an investment decision with regard to the Callable MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the Callable MITTS Securities in the light of your particular circumstances.

You may not earn a return on your investment

You should be aware that if the Ending Value does not exceed the Starting Value, the Supplemental Redemption Amount will be zero. This will be true even if the value of the Nasdaq-100 Index was higher than the Starting Value at some time during the life of the Callable MITTS Securities but later falls to or below the Starting Value. If the Supplemental Redemption Amount is zero and the Callable MITTS Securities have not been called prior to the stated maturity date, we will pay you only the principal amount of your Callable MITTS Securities.

The Callable MITTS Securities are subject to early call

We may elect to call all of the Callable MITTS Securities by giving notice on any Business Day during the Call Period. We are likely to call the Callable MITTS Securities during the Call Period if the secondary market price of the Callable MITTS Securities is approximately equal to or above the Call Price during that period. In the event that we elect to call the Callable MITTS Securities, you will receive only the Call Price and no Supplemental Redemption Amount.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the Nasdaq-100 Index

Your return will not reflect the return you would realize if you actually owned the stocks underlying the Nasdaq-100 Index and received the dividends paid on those stocks because Nasdaq calculates the Nasdaq-100 Index by reference to the prices of the common stocks comprising the Nasdaq-100 Index without taking into consideration the value of dividends paid on those stocks. In addition, if the Callable MITTS Securities are called during the Call Period, you will receive only the Call Price and you will not receive any additional amount based upon the appreciation, if any, in the level of the Nasdaq-100 Index.

There may be an uncertain trading market for the Callable MITTS Securities

Although the Callable MITTS Securities are listed on the AMEX under the trading symbol "MNM", you cannot assume that a trading market exists for the Callable MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the Callable MITTS Securities will depend on our financial performance and other factors such as the increase, if any, in the value of the Nasdaq-100 Index.

If the trading market for the Callable MITTS Securities is limited, there may be a limited number of buyers for your Callable MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

6

Many factors affect the trading value of the Callable MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the Callable MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the Callable MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the Callable MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the Callable MITTS Securities attributable to another factor, such as an increase in the value of the Nasdaq-100 Index. The following paragraphs describe the expected impact on the market value of the Callable MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the Nasdaq-100 Index is expected to affect the trading value of the Callable MITTS Securities. We expect that the market value of the Callable MITTS Securities will depend substantially on the amount, if any, by which the Nasdaq-100 Index exceeds the Starting Value. If you choose to sell your Callable MITTS Securities when the value of the Nasdaq-100 Index exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on this value because of the expectation that the Nasdaq-100 Index will continue to fluctuate until the Ending Value is determined. If you choose to sell your Callable MITTS Securities when the value of the Nasdaq-100 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of your Callable MITTS Securities. In general, rising U.S. dividend rates, or dividends per share, may increase the value of the Nasdaq-100 Index while falling U.S. dividend rates may decrease the value of the Nasdaq-100 Index.

Changes in the levels of interest rates are expected to affect the trading value of the Callable MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of Callable MITTS Securities at maturity, we expect that changes in interest rates will affect the trading value of the Callable MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the Callable MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect that the trading value of the Callable MITTS Securities will increase. Rising interest rates may lower the value of the Nasdaq-100 Index and, thus, the Callable MITTS Securities. Falling interest rates may increase the value of the Nasdaq-100 Index and, thus, may increase the value of the Callable MITTS Securities.

Changes in the volatility of the Nasdaq-100 Index are expected to affect the trading value of the Callable MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. If the volatility of the Nasdaq-100 Index increases or decreases the trading value of the Callable MITTS Securities may be adversely affected.

As the time remaining to maturity of the Callable MITTS Securities decreases, the "time premium" associated with the Callable MITTS Securities will decrease. We anticipate that before their maturity, the Callable MITTS Securities may trade at a value above that which would be expected based on the level of interest rates and the value of the Nasdaq-100 Index. This difference will reflect a "time premium" due to expectations concerning the value of the

Nasdaq-100 Index during the period before the stated maturity of the Callable MITTS Securities. However, as the time remaining to the stated maturity of the Callable MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the Callable MITTS Securities.

Changes in dividend yields of the stocks included in the Nasdaq-100 Index are expected to affect the trading value of the Callable MITTS Securities. In general, if dividend yields on the stocks included in the Nasdaq-100 Index increase, we expect that the value of the Callable MITTS Securities will decrease and, conversely, if dividend yields on these stocks decrease, we expect that the value of the Callable MITTS Securities will increase.

7

Changes in our credit ratings may affect the trading value of the Callable MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the Callable MITTS Securities. However, because your return on your Callable MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the Callable MITTS Securities, such as the percentage increase, if any, in the value of the Nasdaq-100 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the Callable MITTS Securities.

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the Callable MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities. However, we expect that the effect on the trading value of the Callable MITTS Securities of a given increase in the value of the Nasdaq-100 Index will be greater if it occurs later in the term of the Callable MITTS Securities than if it occurs earlier in the term of the Callable MITTS Securities.

Amounts payable on the Callable MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the Callable MITTS Securities were issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the Callable MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We promise, for the benefit of the Callable MITTS Securities holders, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks underlying the Nasdaq-100 Index or futures or options contracts in the Nasdaq-100 Index for our own accounts for business reasons or in connection with hedging our obligations under the Callable MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the Nasdaq-100 Index in a manner that could be adverse to your investment in the Callable MITTS Securities.

Potential conflicts

Our subsidiary MLPF&S is our agent for the purposes of calculating the Ending Value and the Supplemental Redemption Amount. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the Callable MITTS Securities could give rise to conflicts of interest. These conflicts could occur, for instance, in connection with its determination as to whether the value of the Nasdaq-100 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance of the Nasdaq-100 Index. See the sections entitled "Description of the Callable MITTS Securities--Adjustments to the Nasdaq-100 Index; Market Disruption Events" and "--Discontinuance of the Nasdaq-100 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay amounts due at maturity on the Callable MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

8

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Callable MITTS Securities described in this prospectus.

9

RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended
	1995	1996	1997	1998	1999	September 29, 2000
-	----	----	----	----	----	-----
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE CALLABLE MITTS SECURITIES

On August 4, 2000, ML&Co. issued an aggregate principle amount of \$36,000,000 or 3,600,000 of Callable MITTS Securities. The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus. Unless called by ML&Co. during the Call Period, the Callable MITTS Securities will mature on August 3, 2007.

Unless the Callable MITTS Securities are called during the Call Period, at the stated maturity a beneficial owner of a Callable MITTS Security will receive the sum of the principal amount of each Callable MITTS Security plus the Supplemental Redemption Amount, if any. There will be no other payment of interest, periodic or otherwise. See the section entitled "--Payment at maturity".

The Callable MITTS Securities may be called by ML&Co. as described below, but the Callable MITTS Securities are not subject to redemption at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the Callable MITTS Securities, registered holders of the Callable MITTS Securities may accelerate the maturity of the Callable MITTS Securities, as described under "--Events of Default and Acceleration" in this prospectus and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the Callable MITTS Securities in denominations of whole units of \$10 per unit.

The Callable MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

If we do not call the Callable MITTS Securities during the Call Period, a beneficial owner of a Callable MITTS Security will be entitled to receive at the stated maturity, the principal amount of that Callable MITTS Security plus a Supplemental Redemption Amount, if any, all as provided below. If the Ending Value does not exceed the Starting Value, you will be entitled to receive only the principal amount of your Callable MITTS Securities.

Determination of the Supplemental Redemption Amount

The "Supplemental Redemption Amount" for a Callable MITTS Security will be determined by the calculation agent and will equal:

<TABLE>	
<S>	<C>
	(Ending Value - Starting Value)
principal amount of each Callable MITTS Security (\$10 per unit) X	(-----)
	( Starting Value )
</TABLE>	

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 3,521.15, the closing value of the Nasdaq-100 Index on August 1, 2000, the date the Callable MITTS Securities were priced for initial sale to the public.

The "Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the Nasdaq-100 Index determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days, then the Ending Value will equal the average or arithmetic mean of the closing values of the Nasdaq-100 Index on those Calculation Days, and if there is only one Calculation Day, then the Ending Value will equal the closing value of the Nasdaq-100 Index on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Ending

Value will equal the closing value of the Nasdaq-100 Index determined on the last scheduled Index Business Day in the Calculation Period, regardless of the occurrence of a Market Disruption Event on that day.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day prior to the maturity date to and including the second scheduled Index Business Day prior to the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" means a day on which the New York Stock Exchange and the AMEX are open for trading and the Nasdaq-100 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the Callable MITTS Securities.

Early call of the Callable MITTS Securities at the option of ML&Co.

During the Call Period, the month of August 2006, ML&Co., in its sole discretion, may elect to call the Callable MITTS Securities, in whole but not in part, at \$21.50 per unit (the "Call Price") by giving notice to the trustee on any Business Day.

If we elect to call your Callable MITTS Securities during the Call Period, you will receive only the Call Price and you will not receive a Supplemental Redemption Amount based on the Nasdaq-100 Index. If we do not call the Callable MITTS Securities, the principal amount plus the Supplemental Redemption Amount, if any, that you receive at the stated maturity may be greater than or less than the Call Price. ML&Co. may elect to call the Callable MITTS Securities on any Business Day during the Call Period by giving notice to the trustee and specifying the date on which the Call Price shall be paid. The Payment Date shall be no later than the twentieth Business Day after the call election. The trustee will provide notice of the call election to the registered holders of the Callable MITTS Securities, specifying the Payment Date, no less than 15 calendar days prior to the Payment Date. While the Callable MITTS Securities are held at the depository, the registered holder will be the depository, and the depository will receive the notice of the call. As more fully described below under "--Depository", the depository will forward this notice to its participants which will pass it onto the beneficial owners.

You should compare the features of the Callable MITTS Securities to other available investments before deciding to purchase the Callable MITTS Securities. Due to the uncertainty as to whether the Callable MITTS Securities will earn a Supplemental Redemption Amount or be called during the Call Period, the return on investment with respect to the Callable MITTS Securities may be higher or lower than the return available on other securities issued by ML&Co. or issued by others. We suggest that you reach an investment decision only after carefully considering the suitability of the Callable MITTS Securities in light of your particular circumstances.

Hypothetical returns

The following table illustrates, for a range of hypothetical Ending Values of the Nasdaq-100 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from August 4, 2000 to August 3, 2007:

- . the percentage change from the Starting Value to the hypothetical Ending Value,
  - . the total amount payable at maturity for each unit of Callable MITTS Securities,
- 12
- . the total rate of return to beneficial owners of the Callable MITTS Securities,
  - . the pretax annualized rate of return to beneficial owners of Callable MITTS Securities, and
  - . the pretax annualized rate of return of an investment in the stocks included in the Nasdaq-100 Index, which includes an assumed aggregate dividend yield of 0.03% per annum, as more fully described below.

The table also assumes we do not call the Callable MITTS Securities prior to the stated maturity date.

<TABLE>  
<CAPTION>

rate	Percentage	Total amount		Pretax annualized	
	change from the Starting Value to the hypothetical Ending Value	payable at maturity per unit of the Callable MITTS Securities(1)	Total rate of return on the Callable MITTS Securities(1)	rate of return on the Callable MITTS Securities(1) (2)	of return of stocks underlying the Nasdaq-100 Index(2)
Hypothetical Ending Value during the Calculation Period	Ending Value	Securities(1)	Securities(1)	Securities(1) (2)	Index(2)
-----	-----	-----	-----	-----	-----
<S>	<C>	<C>	<C>	<C>	<C>
704.23	-80%	10.00	0.00%	0.00%	-21.69%
1,408.46	-60%	10.00	0.00%	0.00%	-12.64%
2,112.69	-40%	10.00	0.00%	0.00%	-7.14%
2,816.92	-20%	10.00	0.00%	0.00%	-3.13%

3,521.15(3)	0%	10.00	0.00%	0.00%	0.03%
4,225.38	20%	12.00	20.00%	2.62%	2.65%
4,929.61	40%	14.00	40.00%	4.86%	4.90%
5,633.84	60%	16.00	60.00%	6.83%	6.86%
6,338.07	80%	18.00	80.00%	8.58%	8.61%
7,042.30	100%	20.00	100.00%	10.15%	10.18%
7,746.53	120%	22.00	120.00%	11.59%	11.62%
8,450.76	140%	24.00	140.00%	12.91%	12.94%
9,154.99	160%	26.00	160.00%	14.13%	14.16%

</TABLE>

- (1) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (2) This rate of return assumes:
- a percentage change in the aggregate price of the underlying stocks that equals the percentage change in the Nasdaq-100 Index from the Starting Value to the relevant hypothetical Ending Value;
  - a constant dividend yield of 0.03% per annum, paid quarterly from the date of initial delivery of the Callable MITTS Securities, applied to the value of the Nasdaq-100 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical Ending Value;
  - no transaction fees or expenses; and
  - an investment term from August 4, 2000 to August 3, 2007.
- (3) This is the Starting Value.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount received by investors and the resulting total and pretax annualized rates of return will depend on the actual Ending Value determined by the calculation agent as described in this prospectus.

#### Adjustments to the Nasdaq-100 Index; Market Disruption Events

If at any time Nasdaq changes its method of calculating the Nasdaq-100 Index, or the value of the Nasdaq-100 Index changes, in any material respect, or if the Nasdaq-100 Index is in any other way modified so

13

that the Nasdaq-100 Index does not, in the opinion of the calculation agent, fairly represent the value of the Nasdaq-100 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the Nasdaq-100 Index is to be calculated, make any adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the Nasdaq-100 Index as if those changes or modifications had not been made, and calculate the closing value with reference to the Nasdaq-100 Index, as so adjusted. Accordingly, if the method of calculating the Nasdaq-100 Index is modified so that the value of the Nasdaq-100 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the Nasdaq-100 Index in order to arrive at a value of the Nasdaq-100 Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event means either of the following events, as determined by the calculation agent:

- a suspension, material limitation or absence of trading on the The Nasdaq Stock Market of 20% or more of the underlying stocks which then comprise the Nasdaq-100 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange; or
- the suspension or material limitation on the The Nasdaq Stock Market or any other major futures or securities market from trading in futures or options contracts related to the Nasdaq-100 Index or a successor index during the one-half hour period preceding the close of trading on the applicable exchange.

For the purposes of determining whether a Market Disruption Event has occurred:

- a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange;
- a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a Market Disruption Event;
- a suspension in trading in a futures or options contract on the

Nasdaq-100 Index by a major securities market for more than two hours by reason of (a) a price change violating limits set by that securities market, (b) an imbalance of orders relating to those contracts, or (c) a disparity in bid and ask quotes relating to those contracts will constitute a suspension or material limitation of trading in futures or options contracts related to the Nasdaq-100 Index; and

4. an absence of trading on The Nasdaq Stock Market will not include any time when The Nasdaq Stock Market is closed for trading under ordinary circumstances.

#### Discontinuance of the Nasdaq-100 Index

If Nasdaq discontinues publication of the Nasdaq-100 Index and Nasdaq or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the Nasdaq-100 Index (a "successor index"), then, upon the calculation agent's notification of any determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by Nasdaq or any other entity for the Nasdaq-100 Index and calculate the closing value as described above under "--Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall cause notice to be given to holders of the Callable MITTS Securities.

14

In the event that Nasdaq discontinues publication of the Nasdaq-100 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the Nasdaq-100 Index in accordance with the procedures last used to calculate the Nasdaq-100 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the Nasdaq-100 Index as described below, the successor index or value will be used as a substitute for the Nasdaq-100 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

If the Nasdaq discontinues publication of the Nasdaq-100 Index before the period during which the Supplemental Redemption Amount is to be determined and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value, or
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law to close and that is a day on which the NYSE, the Nasdaq National Market System and the AMEX are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the Nasdaq-100 Index may adversely affect trading in the Callable MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any Callable MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a Callable MITTS Security upon any acceleration permitted by the Callable MITTS Securities, with respect to each \$10 principal amount, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the Callable MITTS Securities, provided however, if the acceleration occurs before the end of the Call Period, the maximum amount payable with respect to each Callable MITTS security will be the Call Price. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the beneficial owner of a Callable MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the Callable MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the Callable MITTS

Securities.

In case of default in payment of the Callable MITTS Securities, whether at their stated maturity or upon acceleration, from and after the maturity date the Callable MITTS Securities will bear interest, payable upon demand of their beneficial owners, at the rate of 7.54% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in accordance with the terms of the Callable MITTS Securities to the date payment of that amount has been made or duly provided for.

15

Depository

#### Description of the Global Securities

The Callable MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for Callable MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the Callable MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the Callable MITTS Securities will not be entitled to have the Callable MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the Callable MITTS Securities in definitive form and will not be considered the owners or holders of the Callable MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the Callable MITTS Securities. The Callable MITTS Securities were issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One or more fully registered global securities were issued for the Callable MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that

16

clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants

are on file with the SEC.

Purchases of Callable MITTS Securities under DTCs system must be made by or through direct participants, which will receive a credit for the Callable MITTS Securities on DTCs records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the Callable MITTS Securities are to be made by entries on the books of participants acting on behalf of beneficial owners.

To facilitate subsequent transfers, all Callable MITTS Securities deposited with DTC are registered in the name of DTCs partnership nominee, Cede & Co. The deposit of Callable MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Callable MITTS Securities; DTCs records reflect only the identity of the direct participants to whose accounts such Callable MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the Callable MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the Callable MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the Callable MITTS Securities will be made in immediately available funds to DTC. DTCs practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depositarys records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants shall be the responsibility of DTC, and disbursement of any payments to the beneficial owners will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If:

- . the depositary is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or

17

- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the Callable MITTS Securities,

the global securities will be exchangeable for Callable MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive Callable MITTS Securities will be registered in the name or names as the depositary shall instruct the trustee. It is expected that instructions may be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depositary with respect to the Callable MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the event that a successor securities depositary is not obtained, Callable MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depositary. In that event, Callable MITTS

Security certificates will be printed and delivered.

The information in this section concerning DTC and DTCs system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental Redemption Amount, if any, in immediately available funds so long as the Callable MITTS Securities are maintained in book-entry form.

18

#### THE NASDAQ-100 INDEX

The Nasdaq-100 Index is a modified capitalization-weighted index of 100 of the largest and most actively traded stocks of non-financial companies listed on The Nasdaq National Market tier of The Nasdaq Stock Market. The Nasdaq-100 Index was first published in January 1985 and includes companies across a variety of major industry groups. Current information regarding the market value of the Nasdaq-100 Index is available from the Nasdaq as well as numerous market information services. The Nasdaq-100 Index is determined, comprised and calculated by the Nasdaq without regard to the Callable MITTS Securities.

The Nasdaq-100 Index share weights of the component securities of the Nasdaq-100 Index at any time are based upon the total shares outstanding in each of the 100 Nasdaq-100 Index securities and are additionally subject, in certain cases, to rebalancing. Accordingly, each underlying stock's influence on the value of the Nasdaq-100 Index is directly proportional to the value of its Nasdaq-100 Index share weight.

#### Computation of the Nasdaq-100 Index

##### Underlying Stock Eligibility Criteria and Annual Ranking Review

To be eligible for inclusion in the Nasdaq-100 Index, a security must be traded on the Nasdaq National Market tier of The Nasdaq Stock Market and meet the following criteria:

- . the security must be of a non-financial company;
- . only one class of security per issuer is allowed;
- . the security may not be issued by an issuer currently in bankruptcy proceedings;
- . the security must have an average daily trading volume of at least 100,000 shares per day;
- . the security must have "seasoned" on The Nasdaq Stock Market or another recognized market (generally, a company is considered to be seasoned by Nasdaq if it has been listed on a market for at least two years; in the case of spin-offs, the operating history of the spin-off will be considered);
- . if a security would otherwise qualify to be in the top 25% of the issuers included in the Index by market capitalization, then a one year "seasoning" criteria would apply;
- . if the security is of a foreign issuer, the company must have a worldwide market value of at least \$10 billion, a U.S. market value of at least \$4 billion, and average trading volume on The Nasdaq Stock Market of at least 200,000 shares per day; in addition, foreign securities must be eligible for listed options trading; and
- . the issuer of the security may not have entered into a definitive agreement or other arrangement which would result in the security no longer being listed on The Nasdaq Stock Market within the next six months.

These Nasdaq-100 Index eligibility criteria may be revised from time to time by the National Association of Securities Dealers, Inc. without regard to the Callable MITTS Securities.

The Nasdaq-100 Index securities are evaluated on an annual basis, except under extraordinary circumstances which may result in an interim evaluation, as follows (such evaluation is referred to herein as the "Ranking Review"). Securities listed on The Nasdaq Stock Market which meet the above eligibility criteria are ranked by market value. Index-eligible securities which are already in the Nasdaq-100 Index and which are

19

in the top 150 eligible securities (based on market value) are retained in the

Nasdaq-100 Index provided that such security was ranked in the top 100 eligible securities as of the previous ranking review. Securities not meeting such criteria are replaced. The replacement securities chosen are those Index-eligible securities not currently in the Nasdaq-100 Index which have the largest market capitalization. Generally, the list of annual additions and deletions is publicly announced via a press release in the early part of December and replacements are made effective after the close of trading on the third Friday in December. Moreover, if at any time during the year, a Nasdaq-100 Index security is no longer traded on The Nasdaq Stock Market, or is otherwise determined by the Nasdaq to become ineligible for continued inclusion in the Nasdaq-100 Index, the security will be replaced with the largest market capitalization security not currently in the Nasdaq-100 Index and meeting the Nasdaq-100 Index eligibility criteria listed above.

In addition to the Ranking Review, the securities in the Nasdaq-100 Index are monitored every day by the Nasdaq with respect to changes in total shares outstanding arising from secondary offerings, stock repurchases, conversions, or other corporate actions. The Nasdaq has adopted the following quarterly scheduled weight adjustment procedures with respect to such changes. If the change in total shares outstanding arising from such corporate action is greater than or equal to 5.0%, such change is made to the Nasdaq-100 Index on the evening prior to the effective date of such corporate action or as soon as practical thereafter. Otherwise, if the change in total shares outstanding is less than 5%, then all such changes are accumulated and made effective at one time on a quarterly basis after the close of trading on the third Friday in each of March, June, September, and December. In either case, the Nasdaq-100 Index share weights for such underlying stocks are adjusted by the same percentage amount by which the total shares outstanding have changed in such Nasdaq-100 Index securities. Ordinarily, whenever there is a change in the Nasdaq-100 Index share weights or a change in a component security included in the Nasdaq-100 Index, Nasdaq adjusts the divisor to assure that there is no discontinuity in the value of the Nasdaq-100 Index which might otherwise be caused by any such change.

#### Rebalancing of the Nasdaq-100 Index

The Nasdaq-100 Index is calculated under a "modified capitalization-weighted" methodology, which is a hybrid between equal weighting and conventional capitalization weighting. This methodology is expected to: (1) retain in general the economic attributes of capitalization weighting; (2) promote portfolio weight diversification (thereby limiting domination of the Nasdaq-100 Index by a few large stocks); (3) reduce Index performance distortion by preserving the capitalization ranking of companies; and (4) reduce market impact on the smallest Nasdaq-100 Index securities from necessary weight rebalancings.

Under the methodology employed, on a quarterly basis coinciding with the Nasdaq's quarterly scheduled weight adjustment procedures, the Nasdaq-100 Index securities are categorized as either "Large Stocks" or "Small Stocks" depending on whether their current percentage weights (after taking into account such scheduled weight adjustments due to stock repurchases, secondary offerings, or other corporate actions) are greater than, or less than or equal to, the average percentage weight in the Nasdaq-100 Index (i.e., as a 100-stock index, the average percentage weight in the Nasdaq-100 Index is 1.0%).

Such quarterly examination will result in a Nasdaq-100 Index rebalancing if either one or both of the following two weight distribution requirements are not met: (1) the current weight of the single largest market capitalization Nasdaq-100 Index security must be less than or equal to 24.0% and (2) the "collective weight" of those Nasdaq-100 Index securities whose individual current weights are in excess of 4.5%, when added together, must be less than or equal to 48.0%. In addition, Nasdaq may conduct a special rebalancing if it is determined necessary to maintain the integrity of the Nasdaq-100 Index.

If either one or both of these weight distribution requirements are not met upon quarterly review, or Nasdaq determines that a special rebalancing is required, a weight rebalancing will be performed. First, relating to weight distribution requirement (1) above, if the current weight of the single largest Nasdaq-100 Index security exceeds 24.0%, then the weights of all Large Stocks will be scaled down proportionately

20

towards 1.0% by enough for the adjusted weight of the single largest Nasdaq-100 Index security to be set to 20.0%. Second, relating to weight distribution requirement (2) above, for those Nasdaq-100 Index securities whose individual current weights or adjusted weights in accordance with the preceding step are in excess of 4.5%, if their "collective weight" exceeds 48.0%, then the weights of all Large Stocks will be scaled down proportionately towards 1.0% by just enough for the "collective weight," so adjusted, to be set to 40.0%.

The aggregate weight reduction among the Large Stocks resulting from either or both of the above rescalings will then be redistributed to the Small Stocks in the following iterative manner. In the first iteration, the weight of the largest Small Stock will be scaled upwards by a factor which sets it equal to

the average Nasdaq-100 Index weight of 1.0%. The weights of each of the smaller remaining Small Stocks will be scaled up by the same factor reduced in relation to each stock's relative ranking among the Small Stocks such that the smaller the Nasdaq-100 Index security in the ranking, the less the scale-up of its weight. This is intended to reduce the market impact of the weight rebalancing on the smallest component securities in the Nasdaq-100 Index.

In the second iteration, the weight of the second largest Small Stock, already adjusted in the first iteration, will be scaled upwards by a factor which sets it equal to the average index weight of 1.0%. The weights of each of the smaller remaining Small Stocks will be scaled up by this same factor reduced in relation to each stock's relative ranking among the Small Stocks such that, once again, the smaller the stock in the ranking, the less the scale-up of its weight.

Additional iterations will be performed until the accumulated increase in weight among the Small Stocks exactly equals the aggregate weight reduction among the Large Stocks from rebalancing in accordance with weight distribution requirement (1) and/or weight distribution requirement (2).

Then, to complete the rebalancing procedure, once the final percent weights of each of the Nasdaq-100 Index securities are set, the Nasdaq-100 Index share weights will be determined anew based upon the last sale prices and aggregate capitalization of the Nasdaq-100 Index at the close of trading on the Thursday in the week immediately preceding the week of the third Friday in March, June, September, and December. Changes to the Nasdaq-100 Index share weights will be made effective after the close of trading on the third Friday in March, June, September, and December and an adjustment to the Index divisor will be made to ensure continuity of the Nasdaq-100 Index.

Ordinarily, new rebalanced weights will be determined by applying the above procedures to the current Nasdaq-100 Index share weights. However, Nasdaq may from time to time determine rebalanced weights, if necessary, by instead applying the above procedure to the actual current market capitalization of the Nasdaq-100 Index components. In such instances, Nasdaq would announce the different basis for rebalancing prior to its implementation.

#### License Agreement

The Nasdaq Stock Market, Inc. and Merrill Lynch & Co., Inc. have entered into a non-exclusive license agreement providing for the license to ML&Co., in exchange for a fee, of the right to use the Nasdaq-100 Index in connection with certain securities, including the Callable MITTS Securities.

The license agreement between the Nasdaq and ML&Co. provides that the following language must be stated in this prospectus:

"The Callable MITTS Securities are not sponsored, endorsed, sold or promoted by, The Nasdaq Stock Market, Inc. (including its affiliates) (Nasdaq, with its affiliates, are referred to as the "Corporations"). The Corporations have not passed on the legality or suitability of, or the accuracy or adequacy of descriptions and disclosures relating to, the Callable MITTS Securities. The Corporations make no representation or warranty, express or implied to the owners of the Callable MITTS Securities or any

member of the public regarding the advisability of investing in securities generally or in the Callable MITTS Securities particularly, or the ability of the Nasdaq-100 Index(R) to track general stock market performance. The Corporation's only relationship to ML&Co. is in the licensing of the Nasdaq-100(R), Nasdaq-100 Index(R), and Nasdaq trademarks or service marks, and certain trade names of the Corporations and the use of the Nasdaq-100 Index(R) which is determined, composed and calculated by Nasdaq without regard to ML&Co. or the Callable MITTS Securities. Nasdaq has no obligation to take the needs of ML&Co. or the owners of the Callable MITTS Securities into consideration in determining, composing or calculating the Nasdaq-100 Index(R). The Corporations are not responsible for and have not participated in the determination of the timing of, prices at, or quantities of the Callable MITTS Securities to be issued or in the determination or calculation of the equation by which the Callable MITTS Securities are to be converted into cash. The Corporations have no liability in connection with the administration, marketing or trading of the Callable MITTS Securities.

The Corporations do not guarantee the accuracy and/or uninterrupted calculation of the Nasdaq-100 Index(R) or any data included therein. The Corporations make no warranty, express or implied, as to results to be obtained by ML&Co., owners of the Callable MITTS Securities, or any other person or entity from the use of the Nasdaq-100 Index(R) or any data included therein. The Corporations make no express or implied warranties, and expressly disclaim all warranties of merchantability or fitness for a particular purpose or use with respect to the Nasdaq-100

Index(R) or any data included therein. Without limiting any of the foregoing, in no event shall the Corporations have any liability for any lost profits or special, incidental, punitive, indirect, or consequential damages, even if notified of the possibility of such damages."

All disclosures contained in this prospectus regarding the Nasdaq-100 Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by Nasdaq. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of such information.

22

#### OTHER TERMS

The Callable MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the Callable MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the Callable MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

#### Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

23

In addition, ML&Co. may not permit MLPF&S to:

. merge or consolidate, unless the surviving company is a Controlled

Subsidiary, or

- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to all the Senior Debt Securities; and
  - . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness

24

without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60

days after written notice as provided in the 1983 Indenture;

- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

25

The Callable MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

26

#### PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the Callable MITTS Securities, we have determined that the projected payment schedule for the Callable MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.7934 per unit. This represents an estimated yield on the Callable MITTS Securities equal to 7.54% per annum, compounded semiannually.

The projected payment schedule (including both the projected Supplemental Redemption Amount and the estimated yield on the Callable MITTS Securities) has been determined solely for United States Federal income tax purposes (i.e., for purposes of applying the Final Regulations to the Callable MITTS Securities), and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the Callable MITTS Securities during each accrual period over the term of the Callable MITTS Securities based upon a projected payment schedule for the Callable MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7.54% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the Callable MITTS Securities:

February 5, 2007 through August 3, 2007.....	\$0.6102	\$6.7934

-----  
Projected Supplemental Redemption Amount = \$6.7934 per unit.

All prospective investors in the Callable MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the Callable MITTS Securities. Investors in the Callable MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the Callable MITTS Securities, by submitting a written request for such information Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

27

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any Callable MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the Callable MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the Callable MITTS Securities and other securities. For further information on ML&Co. and the Callable MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this registration statement is

part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

28

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the Callable MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the Callable MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The Callable MITTS Securities may be offered on the AMEX or off the exchange in negotiated transactions or otherwise.

The distribution of the Callable MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain

internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because

29

such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

SUMMARY INFORMATION-- Q&A

This summary includes questions and answers that highlight selected information from this prospectus to help you understand the S&P 500(R) Market Index Target-Term Securities(R) due November 20, 2007. You should carefully read this prospectus to fully understand the terms of the MITTS Securities, the S&P 500 Index and the tax and other considerations that are important to you in making a decision about whether to invest in the MITTS Securities. You should carefully review the "Risk Factors" section, which highlights certain risks associated with an investment in the MITTS Securities, to determine whether an investment in the MITTS Securities is appropriate for you.

References in this prospectus to "ML&Co.", "we", "us" and "our" are to Merrill Lynch & Co., Inc. and references to "MLPF&S" are to Merrill Lynch, Pierce, Fenner & Smith Incorporated.

What are the MITTS Securities?

The MITTS Securities are a series of senior debt securities issued by ML&Co. and are not secured by collateral. The MITTS Securities rank equally with all of our other unsecured and unsubordinated debt. The MITTS Securities will mature on November 20, 2007. We cannot redeem the MITTS Securities at an earlier date. We will not make any payments on the MITTS Securities until maturity.

Each unit of MITTS Securities represents \$10 principal amount of MITTS Securities. You may transfer the MITTS Securities only in whole units. You will not have the right to receive physical certificates evidencing your ownership except under limited circumstances. Instead, we issued the MITTS Securities in the form of a global certificate, which is held by The Depository Trust Company, also known as DTC, or its nominee. Direct and indirect participants in DTC will record your ownership of the MITTS Securities. You should refer to the section "Description of the MITTS Securities--Depository" in this prospectus.

What will I receive on the stated maturity date of the MITTS Securities?

We have designed the MITTS Securities for investors who want to protect their investment by receiving at least the principal amount of their investment at maturity and who also want to participate in possible increases in the value of the S&P 500 Index as reduced by the Adjustment Factor. On the stated maturity date, you will receive a cash payment on the MITTS Securities equal to the sum of two amounts: the "principal amount" and the "Supplemental Redemption Amount", if any.

Principal amount

The "principal amount" per unit is \$10.

Supplemental Redemption Amount

The "Supplemental Redemption Amount" per unit will equal:

$$\$10 \times \left( \frac{\text{( Adjusted Ending Value - Starting Value )}}{\text{( Starting Value )}} \right)$$

but will not be less than zero.

The "Starting Value" equals 1,382.95, the closing value of the S&P 500 Index on November 14, 2000, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusting Ending Value" means the average of arithmetic mean of the values of the S&P 500 Index at the close of the market on five business days before the maturity of the MITTS Securities as reduced on each day by the application of the Adjustment Factor. We may calculate the Adjusted Ending Value by reference to fewer than five or even a single day's closing value if, during the period shortly before the stated maturity date of the MITTS Securities, there is a disruption in the trading of a sufficient number of stocks included in the S&P 500 Index or certain futures or options contracts relating to the S&P 500 Index.

3

The "Adjustment Factor" equals 1.9% per year and will be pro-rated based on a 365-day year and applied over the entire term of the MITTS Securities on each calendar day to reduce the closing values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period will be approximately 12.46% less than the actual closing value of the S&P 500 Index on each day during the Calculation Period. For a detailed discussion of how the Adjustment Factor will affect the value of the S&P 500 Index used to calculate the Supplemental Redemption Amount, see "Description of the MITTS Securities-Payment at Maturity" in this prospectus.

For more specific information about the Supplemental Redemption Amount, please see the section "Description of the MITTS Securities" in this prospectus.

We will pay you a Supplemental Redemption Amount only if the Adjusted Ending Value is greater than the Starting Value. If the Adjusted Ending Value is less than, or equal to, the Starting Value, the Supplemental Redemption Amount will be zero. We will pay you the principal amount of your MITTS Securities regardless of whether any Supplemental Redemption Amount is payable.

-----  
Examples

Here are two examples of Supplemental Redemption Amount calculations assuming an investment term equal to that of the MITTS Securities and an Adjustment Factor of 1.9% per year:

Example 1--a S&P 500 Index, as adjusted, is below the Starting Value at maturity:

Starting Value: 1,382.95  
Hypothetical average closing value of the S&P 500 Index for the calculation period: 1,452.10  
Hypothetical Adjusted Ending Value: 1,271.191

<TABLE>

<S>

Supplemental Redemption Amount (per unit) = \$10 x ( ----- ) = \$0

<C>

(Supplemental Redemption Amount cannot be less

( 1,382.95 ) than zero)

Total payment at maturity (per unit) = \$10 + \$0 = \$10

Example 2--The S&P 500 Index, as adjusted, is above the Starting Value at maturity:

Starting Value: 1,382.95  
Hypothetical average closing value of the S&P 500 Index for the calculation period: 2,489.31  
Hypothetical Adjusted Ending Value: 2,179.18

Supplemental Redemption Amount (per unit) = \$10 x  $\left( \frac{2,179.18 - 1,382.95}{1,382.95} \right)$  = \$5.76

Total payment at maturity (per unit) = \$10 + \$5.76 = \$15.76

</TABLE>

4

Who publishes the S&P 500 Index and what does the S&P 500 Index measure?

The S&P 500 Index is published by Standard & Poor's, a division of The McGraw-Hill Companies, Inc. and is intended to provide an indication of the pattern of common stock price movement in the United States. The value of the S&P 500 Index is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. The market value for the common stock of a company is the product of the market price per share of the common stock and the number of outstanding shares of common stock. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market.

Will I receive interest payments on the MITTS Securities?

You will not receive any interest payments on the MITTS Securities, but will instead receive the principal amount plus the Supplemental Redemption Amount, if any, at maturity. We have designed the MITTS Securities for investors who are willing to forego market interest payments on the MITTS Securities, such as floating interest rates paid on standard senior non-callable debt securities, in exchange for the ability to participate in possible increases in the S&P 500 Index.

Are the MITTS Securities listed on a stock exchange?

The MITTS Securities are quoted on The Nasdaq National Market under the symbol "MLMT". You should be aware that the listing of the MITTS Securities on The Nasdaq National Market does not necessarily ensure that a liquid trading market is available for the MITTS Securities. You should review the section entitled "Risk Factors--There may be an uncertain trading market for the MITTS Securities" in this prospectus.

What is the role of MLPF&S?

Our subsidiary, MLPF&S, was the underwriter for the initial offering and sale of the MITTS Securities. MLPF&S intends to buy and sell the MITTS Securities to create a secondary market for holders of the MITTS Securities, however, MLPF&S will not be obligated to engage in any of these market activities or continue them once it has started.

MLPF&S is also our agent for purposes of calculating, among other things, the Adjusted Ending Value and the Supplemental Redemption Amount. Under certain circumstances, these duties could, result in a conflict of interest between MLPF&S status as a subsidiary of ML&Co. and its responsibilities as calculation agent.

Who is ML&Co.?

Merrill Lynch & Co., Inc. is a holding company with various subsidiaries and affiliated companies that provide investment, financing, insurance and related services on a global basis. For information about ML&Co. see the section "Merrill Lynch & Co., Inc." in this prospectus. You should also read the other documents we have filed with the SEC, which you can find by referring to the section entitled "Where You Can Find More Information" in this prospectus.

Are there any risks associated with my investment?

Yes, an investment in the MITTS Securities is subject to risk. Please refer to the section "Risk Factors" in this prospectus.

## RISK FACTORS

Your investment in the MITTS Securities will involve risks. You should carefully consider the following discussion of risks before investing in the MITTS Securities. In addition, you should reach an investment decision with regard to the MITTS Securities only after consulting with your legal and tax advisers and considering the suitability of the MITTS Securities in the light of your particular circumstances.

You may or may not earn a return on your investment

You should be aware that if the Adjusted Ending Value does not exceed the Starting Value on the stated maturity date, the Supplemental Redemption Amount will be zero. This will be true even if the value of the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, was higher than the Starting Value at some time during the life of the MITTS Securities but later falls below the Starting Value. If a Supplemental Redemption Amount is zero, we will pay you only the principal amount of your MITTS Securities.

Your yield may be lower than the yield on a standard debt security of comparable maturity

The amount we pay you at maturity may be less than the return you could earn on other investments. Your yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of ML&Co. with the same stated maturity date. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money.

Your return will not reflect the return of owning the stocks included in the S&P 500 Index

The return on your MITTS Securities will not reflect the return you would realize if you actually owned the stocks included in the S&P 500 Index and received the dividends paid on those stocks because of the cumulative effect of the reduction caused by the Adjustment Factor and because the value of the S&P 500 Index is calculated by reference to the prices of the stocks included in the S&P 500 Index without taking into consideration the value of dividends paid on those stocks.

There may be an uncertain trading market for the MITTS Securities

Although the MITTS Securities are quoted on The Nasdaq National Market under the symbol "MLMT", you cannot assume that a trading market exists for the MITTS Securities. If a trading market does exist, there can be no assurance that there will be liquidity in the trading market. The existence of a trading market for the MITTS Securities will depend on our financial performance, and other factors such as the increase, if any, in the value of the S&P 500 Index.

If the trading market for the MITTS Securities is limited, there may be a limited number of buyers for your MITTS Securities if you do not wish to hold your investment until maturity. This may affect the price you receive.

Many factors affect the trading value of the MITTS Securities; these factors interrelate in complex ways and the effect of any one factor may offset or magnify the effect of another factor

The trading value of the MITTS Securities will be affected by factors that interrelate in complex ways. It is important for you to understand that the effect of one factor may offset the increase in the trading value of the MITTS Securities caused by another factor and that the effect of one factor may exacerbate the decrease in the trading value of the MITTS Securities caused by another factor. For example, an increase in U.S. interest rates may offset some or all of any increase in the trading value of the MITTS Securities attributable to another factor, such as an increase in the value of the S&P 500 Index. The following paragraphs describe the expected

impact on the market value of the MITTS Securities given a change in a specific factor, assuming all other conditions remain constant.

The value of the S&P 500 Index is expected to affect the trading value of the MITTS Securities. We expect that the market value of the MITTS Securities will depend substantially on the amount by which the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value. If you choose to sell your MITTS Securities when the value of the S&P 500 Index, as reduced by the Adjustment Factor over the term of the MITTS Securities, exceeds the Starting Value, you may receive substantially less than the amount that would be payable at maturity based on that value because of the expectation that the S&P 500 Index will continue to fluctuate until the

Adjusted Ending Value is determined. If you choose to sell your MITTS Securities when the value of the S&P 500 Index is below, or not sufficiently above, the Starting Value, you may receive less than the \$10 principal amount per unit of MITTS Securities. In general, rising U.S. dividend rates or dividends per share may increase the value of the S&P 500 Index while falling U.S. dividend rates may decrease the value of the S&P 500 Index.

Changes in the levels of interest rates are expected to affect the trading value of the MITTS Securities. Because we will pay, at a minimum, the principal amount per unit of MITTS Securities at maturity, we expect that changes in U.S. interest rates will affect the trading value of the MITTS Securities. In general, if U.S. interest rates increase, we expect that the trading value of the MITTS Securities will decrease and, conversely, if U.S. interest rates decrease, we expect the trading value of the MITTS Securities will increase. Rising U.S. interest rates may lower the value of the S&P 500 Index and, thus, the MITTS Securities. Falling U.S. interest rates may increase the value of the S&P 500 Index and, thus, may increase the value of the MITTS Securities.

Changes in the volatility of the S&P 500 Index are expected to affect the trading value of the MITTS Securities. Volatility is the term used to describe the size and frequency of price and/or market fluctuations. In general, if the volatility of the S&P 500 Index increases, we expect that the trading value of the MITTS Securities will increase and, conversely, if the volatility of the S&P 500 Index decreases, we expect that the trading value of the MITTS Securities will decrease.

As the time remaining to maturity of the MITTS Securities decreases, the "time premium" associated with the MITTS Securities will decrease. We anticipate that before their maturity, the MITTS Securities may trade at a value above that which would be expected based on the level of U.S. interest rates and the S&P 500 Index. This difference will reflect a "time premium" due to expectations concerning the value of the S&P 500 Index during the period before the stated maturity of the MITTS Securities. However, as the time remaining to the stated maturity of the MITTS Securities decreases, we expect that this time premium will decrease, lowering the trading value of the MITTS Securities.

Changes in dividend yields of the stocks included in the S&P 500 Index are expected to affect the trading value of the MITTS Securities. In general, if dividend yields on the stocks included in the S&P 500 Index increase, we expect that the value of the MITTS Securities will decrease and, conversely, if dividend yields on the stocks included in the S&P 500 Index decrease, we expect that the value of the MITTS Securities will increase.

Changes in our credit ratings may affect the trading value of the MITTS Securities. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings may affect the trading value of the MITTS Securities. However, because your return on your MITTS Securities is dependent upon factors in addition to our ability to pay our obligations under the MITTS Securities, such as the percentage increase in the value of the S&P 500 Index at maturity, an improvement in our credit ratings will not reduce the other investment risks related to the MITTS Securities.

7

In general, assuming all relevant factors are held constant, we expect that the effect on the trading value of the MITTS Securities of a given change in most of the factors listed above will be less if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities. However, we expect that the effect on the trading value of the MITTS Securities of a given increase in the value of the S&P 500 Index will be greater if it occurs later in the term of the MITTS Securities than if it occurs earlier in the term of the MITTS Securities.

Amounts payable on the MITTS Securities may be limited by state law

New York State law governs the 1983 Indenture under which the MITTS Securities will be issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes debt securities like the MITTS Securities. Under present New York law, the maximum rate of interest is 25% per annum on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or Federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for the benefit of the holders of the MITTS Securities, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

Purchases and sales by us and our affiliates may affect your return

We and our affiliates may from time to time buy or sell the stocks included in the S&P 500 Index or futures or options contracts on the S&P 500 Index for our own accounts for business reasons or in connection with hedging our

obligations under the MITTS Securities. These transactions could affect the price of these stocks and, in turn, the value of the S&P 500 Index in a manner that would be adverse to your investment in the MITTS Securities.

#### Potential conflicts

Our subsidiary MLPF&S is our agent for the purposes of calculating the Adjusted Ending Value and the Supplemental Redemption Amount payable to you at maturity. Under certain circumstances, MLPF&S' role as our subsidiary and its responsibilities as calculation agent for the MITTS Securities could give rise to conflicts of interests. These conflicts could occur, for instance, in connection with its determination as to whether a value of the S&P 500 Index can be calculated on a particular trading day, or in connection with judgments that it would be required to make in the event of a discontinuance or unavailability of the S&P 500 Index. See the sections entitled "Description of the MITTS Securities--Adjustments to the S&P 500 Index; Market Disruption Events" and "--Discontinuance of the S&P 500 Index" in this prospectus. MLPF&S is required to carry out its duties as calculation agent in good faith and using its reasonable judgment. However, you should be aware that because we control MLPF&S, potential conflicts of interest could arise.

We have entered into an arrangement with one of our subsidiaries to hedge the market risks associated with our obligation to pay the amounts due at maturity on the MITTS Securities. This subsidiary expects to make a profit in connection with this arrangement. We did not seek competitive bids for this arrangement from unaffiliated parties.

8

#### MERRILL LYNCH & CO., INC.

We are a holding company that, through our U.S. and non-U.S. subsidiaries and affiliates such as Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Government Securities Inc., Merrill Lynch Capital Services, Inc., Merrill Lynch International, Merrill Lynch Capital Markets Bank Ltd., Merrill Lynch Asset Management LP and Mercury Asset Management Ltd, provides investment, financing, advisory, insurance, and related products on a global basis, including:

- . securities brokerage, trading and underwriting;
- . investment banking, strategic services, including mergers and acquisitions and other corporate finance advisory activities;
- . asset management;
- . brokerage and related activities in swaps, options, forwards, futures and other derivatives;
- . securities clearance services;
- . equity, debt and economic research;
- . banking, trust and lending services, including mortgage lending and related services;
- . insurance sales and underwriting services; and
- . investment advisory and related recordkeeping services.

We provide these products and services to a wide array of clients, including individual investors, small businesses, corporations, governments, governmental agencies and financial institutions.

Our principal executive office is located at 4 World Financial Center, New York, New York 10080; our telephone number is (212) 449-1000.

If you want to find more information about us, please see the sections entitled "Where You Can Find More Information" and "Incorporation of Information We File with the SEC" in this prospectus.

ML&Co. is the issuer of the Callable MITTS Securities described in this prospectus.

9

#### RATIO OF EARNINGS TO FIXED CHARGES

In July 2000, ML&Co. acquired Herzog, Heine, Geduld, Inc. ("Herzog") through an exchange offer followed by a merger of a wholly-owned subsidiary of ML&Co. with and into Herzog. The merger was accounted for as a pooling-of-interests under generally accepted accounting principles in the United States of America and is not expected to have a significant impact on the results of operations, financial position and cash flows of ML&Co. The following information for the fiscal years 1996 through 1999 has been restated by the

management of ML&Co. to give effect to the merger.

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

<TABLE>  
<CAPTION>

	Year Ended Last Friday in December					For the Nine Months Ended September 29, 2000
	1995	1996	1997	1998	1999	
<S>	<C>	<C>	<C>	<C>	<C>	<C>
Ratio of earnings to fixed charges.....	1.2	1.2	1.2	1.1	1.3	1.3

For the purpose of calculating the ratio of earnings to fixed charges, "earnings" consist of earnings from continuing operations before income taxes and fixed charges, excluding amortization of capitalized interest and preferred security dividend requirements. "Fixed charges" consist of interest costs, the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

DESCRIPTION OF THE MITTS SECURITIES

On November 20, 2000, ML&Co. issued an aggregate principal amount of \$25,000,000 or 2,500,000 units of MITTS Securities. The MITTS Securities were issued as a series of senior debt securities under the 1983 Indenture, which is more fully described in this prospectus. The MITTS Securities will mature on November 20, 2007.

While at maturity a beneficial owner of a MITTS Security will receive the sum of the principal amount of the MITTS Security plus the Supplemental Redemption Amount, if any, there will be no other payment of interest, periodic or otherwise. See "--Payment at maturity".

The MITTS Securities are not subject to redemption by ML&Co. or at the option of any beneficial owner before maturity. If an Event of Default occurs with respect to the MITTS Securities, holders of the MITTS Securities may accelerate the maturity of the MITTS Securities, as described under "--Events of Default and Acceleration" and "Other Terms--Events of Default" in this prospectus.

ML&Co. issued the MITTS Securities in denominations of whole units each with a principal amount of \$10.0 per unit.

The MITTS Securities do not have the benefit of any sinking fund.

Payment at maturity

At maturity a holder of a MITTS Security will be entitled to receive the principal amount of that MITTS Security plus a Supplemental Redemption Amount, if any, all as described below. If the Adjusted Ending Value does not exceed the Starting Value, you will be entitled to receive only the principal amount of your MITTS Securities.

The "Supplemental Redemption Amount" for a MITTS Security will be determined by the calculation agent and will equal:

<TABLE>  
<S>

principal amount of each MITTS Security (\$10 per unit) x	<C>
	(Adjusted Ending Value - Starting Value)
	(-----)
	( Starting Value )

</TABLE>

provided, however, that in no event will the Supplemental Redemption Amount be less than zero.

The "Starting Value" equals 1,382.95, the closing value of the S&P 500 Index on November 14, 2000, the date the MITTS Securities were priced for initial sale to the public.

The "Adjusted Ending Value" will be determined by the calculation agent and will equal the average or arithmetic mean of the closing values of the S&P 500 Index, as reduced by the application of the Adjustment Factor on each Calculation Day, determined on each of the first five Calculation Days during the Calculation Period. If there are fewer than five Calculation Days during the

Calculation Period, then the Adjusted Ending Value will equal the average or arithmetic mean of the closing values of the S&P 500 Index on those Calculation Days, as reduced by the application of the Adjustment Factor on each Calculation Day. If there is only one Calculation Day during the Calculation Period, then the Adjusted Ending Value will equal the closing value of a S&P 500 Index on that Calculation Day, as reduced by the application of the Adjustment Factor on that Calculation Day. If no Calculation Days occur during the Calculation Period, then the Adjusted Ending Value will equal the closing value of the S&P 500 Index determined on the last scheduled Index Business Day in the Calculation Period, as reduced by the application of the Adjustment Factor on that day, regardless of the occurrence of a Market Disruption Event on that Index Business Day.

11

The "Adjustment Factor" equals 1.9% and will be applied over the entire term of the MITTS Securities. For each calendar day during the term of the MITTS Securities, we will apply this percentage on a pro-rated basis based on a 365-day year to reduce the values of the S&P 500 Index used to calculate the Supplemental Redemption Amount during the Calculation Period. As a result of the cumulative effect of this reduction, the values of the S&P 500 Index used to calculate your Supplemental Redemption Amount during the Calculation Period will be approximately 12.46% less than the actual value of the S&P 500 Index on each day during the Calculation Period.

The "Calculation Period" means the period from and including the seventh scheduled Index Business Day before the maturity date to and including the second scheduled Index Business Day before the maturity date.

A "Calculation Day" means any Index Business Day during the Calculation Period on which a Market Disruption Event has not occurred.

An "Index Business Day" is any day on which the NYSE and the Nasdaq Stock Market are open for trading and the S&P 500 Index or any successor index is calculated and published.

All determinations made by the calculation agent shall be at the sole discretion of the calculation agent and, absent a determination by the calculation agent of a manifest error, shall be conclusive for all purposes and binding on ML&Co. and the holders and beneficial owners of the MITTS Securities.

Hypothetical returns

The following table illustrates, for a range of hypothetical average closing values of the S&P 500 Index during the Calculation Period, assuming an initial investment of \$10 per unit and an investment term from November 20, 2000 to November 20, 2007:

- . percentage change from the Starting Value to the hypothetical average closing value,
- . the Adjusted Ending Value used to calculate the Supplemental Redemption Amount,
- . the total amount payable at maturity for each unit of MITTS Securities,
- . the total rate of return to beneficial owners of the MITTS Securities,
- . the pretax annualized rate of return to beneficial owners of MITTS Securities, and
- . the pretax annualized rate of return of an investment in the stocks included in the S&P 500 Index, which includes an assumed aggregate dividend yield of 1.15% per annum, as more fully described below.

12

For the purposes of calculating this table, we have applied the Adjustment Factor of 1.9% per annum.

<TABLE>  
<CAPTION>

Hypothetical average closing value during the calculation period	Percentage change from the Starting Value to hypothetical average closing value	Adjusted Ending Value (1)	Total amount payable at maturity per unit of the MITTS Securities	Total rate of return on the MITTS Securities	Pretax annualized rate of return on the MITTS Securities (2)	Pretax annualized rate of return of stocks included in the S&P 500 Index (2) (3)
<S>	<C>	<C>	<C>	<C>	<C>	<C>
276.59	-80.00%	242.13	\$10.00	0.00%	0.00%	-20.45%
553.18	-60.00%	484.26	\$10.00	0.00%	0.00%	-11.51%
829.77	-40.00%	726.39	\$10.00	0.00%	0.00%	-6.03%

1,106.36	-20.00%	968.53	\$10.00	0.00%	0.00%	-2.02%
1,382.95(4)	0.00%	1,210.66	\$10.00	0.00%	0.00%	1.15%
1,659.54	20.00%	1,452.79	\$10.50	5.05%	0.70%	3.79%

2,212.72	60.00%	1,937.05	\$14.01	40.07%	4.87%	8.04%
2,489.31	80.00%	2,179.18	\$15.76	57.57%	6.60%	9.81%
2,765.90	100.00%	2,421.31	\$17.51	75.08%	8.16%	11.41%
3,042.49	120.00%	2,663.45	\$19.26	92.59%	9.58%	12.87%
3,319.08	140.00%	2,905.58	\$21.01	110.10%	10.89%	14.21%
3,595.67	160.00%	3,147.71	\$22.76	127.61%	12.10%	15.46%
3,872.26	180.00%	3,389.64	\$24.51	145.12%	13.22%	16.62%
4,148.85	200.00%	3,631.97	\$26.26	162.62%	14.27%	17.70%

</TABLE>

- (1) The Adjusted Ending Values specified in this column are approximately 12.46% less than the hypothetical average closing values of the S&P 500 Index as a result of the application of the Adjustment Factor of 1.9% per annum over the term of the MITTS Securities.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return assumes:
- a percentage change in the aggregate price of the stocks that equals the percentage change in the S&P 500 Index from the Starting Value to the relevant hypothetical average closing value;
  - a constant dividend yield of 1.15% per annum, paid quarterly from the date of initial delivery of the MITTS Securities, applied to the value of the S&P 500 Index at the end of each quarter assuming this value increases or decreases linearly from the Starting Value to the applicable hypothetical average closing value;
  - no transaction fees or expenses; and
  - an investment term equal to the term of the MITTS Securities.
- (4) This is the Starting Value of the S&P 500 Index.

The above figures are for purposes of illustration only. The actual Supplemental Redemption Amount, received by you and the resulting total and pretax annualized rates of return will depend on the actual Adjusted Ending Value determined by the calculation agent as described in this prospectus.

#### Adjustments to the S&P 500 Index; Market Disruption Events

If at any time Standard & Poor's changes its method of calculating the S&P 500 Index, or the value of the S&P 500 Index changes, in any material respect, or if the S&P 500 Index is in any other way modified so that the S&P 500 Index does not, in the opinion of the calculation agent, fairly represent the value of the S&P 500 Index had those changes or modifications not been made, then, from and after that time, the calculation agent shall, at the close of business in New York, New York, on each date that the closing value of the S&P 500 Index is to be calculated, make those adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a calculation of a value of a stock index comparable to the S&P 500

13

Index as if those changes or modifications had not been made, and calculate the closing value with reference to the S&P 500 Index, as so adjusted. Accordingly, if the method of calculating the S&P 500 Index is modified so that the value of the S&P 500 Index is a fraction or a multiple of what it would have been if it had not been modified, e.g., due to a split, then the calculation agent shall adjust the S&P 500 Index in order to arrive at a value of the S&P 500 Index as if it had not been modified, e.g., as if a split had not occurred.

"Market Disruption Event" means either of the following events as determined by the calculation agent:

- the suspension or material limitation on trading for more than two hours of trading, or during the one-half hour period preceding the close of trading, on the applicable exchange, in 20% or more of the stocks which then comprise the S&P 500 Index; or
- the suspension or material limitation, in each case, for more than two hours of trading, or during the one-half hour period preceding the close of trading, on the applicable exchange, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option contracts or futures contracts related to the S&P 500 Index, or any successor index, which are traded on any major U.S. exchange.

For the purpose of the above definition:

- a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange and

- (2) for the purpose of clause (A) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the calculation agent, will be considered "material".

#### Discontinuance of the S&P 500 Index

If Standard & Poor's discontinues publication of the S&P 500 Index and Standard & Poor's or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the S&P 500 Index (a "successor index"), then, upon the calculation agent's notification of its determination to the trustee and ML&Co., the calculation agent will substitute the successor index as calculated by Standard & Poor's or any other entity for the S&P 500 Index and calculate the Adjusted Ending Value as described above under "Payment at maturity". Upon any selection by the calculation agent of a successor index, ML&Co. shall promptly give notice to the beneficial owners of the MITTS Securities by publication in a United States newspaper with a national circulation.

In the event that Standard & Poor's discontinues publication of the S&P 500 Index and:

- . the calculation agent does not select a successor index, or
- . the successor index is no longer published on any of the Calculation Days,

the calculation agent will compute a substitute value for the S&P 500 Index in accordance with the procedures last used to calculate the S&P 500 Index before any discontinuance. If a successor index is selected or the calculation agent calculates a value as a substitute for the S&P 500 Index as described below, the successor index or value will be used as a substitute for the S&P 500 Index for all purposes, including for purposes of determining whether a Market Disruption Event exists.

14

If Standard & Poor's discontinues publication of the S&P 500 Index before the Calculation Period and the calculation agent determines that no successor index is available at that time, then on each Business Day until the earlier to occur of:

- . the determination of the Ending Value, and
- . a determination by the calculation agent that a successor index is available,

the calculation agent will determine the value that would be used in computing the Supplemental Redemption Amount as described in the preceding paragraph as if that day were a Calculation Day. The calculation agent will cause notice of each value to be published not less often than once each month in The Wall Street Journal or another newspaper of general circulation, and arrange for information with respect to these values to be made available by telephone.

A "Business Day" is any day on which the NYSE and the Nasdaq Stock Market are open for trading.

Notwithstanding these alternative arrangements, discontinuance of the publication of the S&P 500 Index may adversely affect trading in the MITTS Securities.

#### Events of Default and Acceleration

In case an Event of Default with respect to any MITTS Securities has occurred and is continuing, the amount payable to a beneficial owner of a MITTS Security upon any acceleration permitted by the MITTS Securities, with respect to each \$10 principal amount of MITTS Securities, will be equal to the principal amount and the Supplemental Redemption Amount, if any, calculated as though the date of early repayment were the stated maturity date of the MITTS Securities, provided, however, the Adjustment Factor will be applied to the values used to calculate the Supplemental Redemption Amount as if the MITTS Securities had not been accelerated and had remained outstanding to the stated maturity date. See the section entitled "--Payment at maturity" in this prospectus. If a bankruptcy proceeding is commenced in respect of ML&Co., the claim of the holder of a MITTS Security may be limited, under Section 502(b)(2) of Title 11 of the United States Code, to the principal amount of the MITTS Security plus an additional amount of contingent interest calculated as though the date of the commencement of the proceeding were the maturity date of the MITTS Securities.

In case of default in payment of the MITTS Securities, whether at the stated maturity date or upon acceleration, from and after the maturity date the MITTS Securities will bear interest, payable upon demand of their holders, at the rate of 7.16% per annum to the extent that payment of any interest is legally enforceable on the unpaid amount due and payable on that date in

accordance with the terms of the MITTS Securities to the date payment of that amount has been made or duly provided for.

#### Depository

##### Description of the Global Securities

The MITTS Securities currently are represented by one or more fully registered global securities. Each global security was deposited with, or on behalf of, DTC (DTC, together with any successor, being a "depository"), as depository, registered in the name of Cede & Co., DTC's partnership nominee. Unless and until it is exchanged in whole or in part for MITTS Securities in definitive form, no global security may be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor.

15

So long as DTC, or its nominee, is a registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the MITTS Securities represented by the global security for all purposes under the 1983 Indenture. Except as provided below, the beneficial owners of the MITTS Securities represented by a global security will not be entitled to have the MITTS Securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of the MITTS Securities in definitive form and will not be considered the owners or holders of the MITTS Securities including for purposes of receiving any reports delivered by ML&Co. or the trustee under the 1983 Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a participant of DTC, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the 1983 Indenture. ML&Co. understands that under existing industry practices, in the event that ML&Co. requests any action of holders or that an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the 1983 Indenture, DTC would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

#### DTC Procedures

The following is based on information furnished by DTC:

DTC is the securities depository for the MITTS Securities. The MITTS Securities were issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One or more fully registered global securities were issued for the MITTS Securities in the aggregate principal amount of such issue, and were deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member, of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its direct participants and by the NYSE, the AMEX, and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the MITTS Securities under DTC's system must be made by or through direct participants, which will receive a credit for the MITTS Securities on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase; but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the MITTS Securities are to be made by entries on the books of participants acting

on behalf of beneficial owners.

16

To facilitate subsequent transfers, all MITTS Securities deposited with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of MITTS Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the MITTS Securities; DTC's records reflect only the identity of the direct participants to whose accounts the MITTS Securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to the MITTS Securities. Under its usual procedures, DTC mails an omnibus proxy to ML&Co. as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the MITTS Securities are credited on the record date.

Principal, premium, if any, and/or interest, if any, payments made in cash on the MITTS Securities will be made in immediately available funds to DTC. DTC's practice is to credit direct participants' accounts on the applicable payment date in accordance with their respective holdings shown on the depository's records unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of that participant and not of DTC, the trustee or ML&Co., subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, to DTC is the responsibility of ML&Co. or the trustee, disbursement of those payments to direct participants will be the responsibility of DTC, and disbursement of those payment will be the responsibility of direct participants and indirect participants.

#### Exchange for Certificated Securities

If

- . the depository is at any time unwilling or unable to continue as depository and a successor depository is not appointed by ML&Co. within 60 days,
- . ML&Co. executes and delivers to the trustee a company order to the effect that the global securities shall be exchangeable, or
- . an Event of Default under the 1983 Indenture has occurred and is continuing with respect to the MITTS Securities,

the global securities will be exchangeable for MITTS Securities in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$10 and integral multiples of \$10. The definitive MITTS Securities will be registered in the name or names as the depository shall instruct the trustee. It is expected that instructions may be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global securities.

DTC may discontinue providing its services as securities depository with respect to the MITTS Securities at any time by giving reasonable notice to ML&Co. or the trustee. Under these circumstances, in the

17

event that a successor securities depository is not obtained, MITTS Security certificates are required to be printed and delivered.

ML&Co. may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, MITTS Security certificates will be printed and delivered.

The information in this section concerning DTC and DTC's system has been obtained from sources that ML&Co. believes to be reliable, but ML&Co. takes no responsibility for its accuracy.

#### Payment

ML&Co. will make all payments of principal and the Supplemental

Redemption Amount, if any, in immediately available funds so long as the MITTS Securities are maintained in book-entry form.

18

#### THE S&P 500 INDEX

Standard & Poor's publishes the S&P 500 Index. The S&P 500 Index is intended to provide an indication of the pattern of common stock price movement. The calculation of the value of the S&P 500 Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. Standard & Poor's chooses companies for inclusion in the S&P 500 Index with the aim of achieving a distribution by broad industry groupings that approximates the distribution of these groupings in the common stock population of the NYSE, which Standard & Poor's uses as an assumed model for the composition of the total market. Relevant criteria employed by Standard & Poor's include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of that company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. The Index is comprised of four main groups of companies: Industrials, Utilities, Transportation and Financial. Standard & Poor's may from time to time, in its sole discretion, add companies to, or delete companies from, the S&P 500 Index to achieve the objectives stated above.

The value of the S&P 500 Index is reported on the AMEX and on Bloomberg under the symbol "SPX".

The S&P 500 Index does not reflect the payment of dividends on the stocks included in the S&P 500 Index. Because of this, and due to the application of the Adjustment Factor, the return on the MITTS Securities will not be the same as the return you would receive if you were to purchase these stocks and hold them for a period equal to the term of the MITTS Securities.

#### Computation of the S&P 500 Index

Standard & Poor's currently computes the S&P 500 Index as of a particular time as follows:

- (a) the product of the market price per share and the number of then outstanding shares of each component stock is determined as of that time (referred to as the "market value" of that stock);
- (b) the market values of all component stocks as of that time are aggregated;
- (c) the mean average of the market values as of each week in the base period of the years 1941 through 1943 of the common stock of each company in a group of 500 substantially similar companies is determined;
- (d) the mean average market values of all these common stocks over the base period are aggregated (the aggregate amount being referred to as the "base value");
- (e) the current aggregate market value of all component stocks is divided by the Base Value; and
- (f) the resulting quotient, expressed in decimals, is multiplied by ten.

While Standard & Poor's currently employs the above methodology to calculate the S&P 500 Index, no assurance can be given that Standard & Poor's will not modify or change this methodology in a manner that may affect the Supplemental Redemption Amount, if any, payable to beneficial owners of MITTS Securities upon maturity or otherwise.

19

Standard & Poor's adjusts the foregoing formula to offset the effects of changes in the market value of a component stock that are determined by Standard & Poor's to be arbitrary or not due to true market fluctuations. These changes may result from causes such as:

- . the issuance of stock dividends,
- . the granting to shareholders of rights to purchase additional shares of stock,
- . the purchase of shares by employees pursuant to employee benefit plans,

- . consolidations and acquisitions,
- . the granting to shareholders of rights to purchase other securities of the issuer,
- . the substitution by Standard & Poor's of particular component stocks in the S&P 500 Index, and
- . other reasons

In these cases, Standard & Poor's first recalculates the aggregate market value of all component stocks, after taking account of the new market price per share of the particular component stock or the new number of outstanding shares of that stock or both, as the case may be, and then determines the new base value in accordance with the following formula:

$$\text{Old Base Value} \times \frac{\text{New Market Value}}{\text{Old Market Value}} = \text{New Base Value}$$

The result is that the base value is adjusted in proportion to any change in the aggregate market value of all component stocks resulting from the causes referred to above to the extent necessary to negate the effects of these causes upon the S&P 500 Index.

#### License Agreement

Standard & Poor's ("S&P") does, not guarantee the accuracy and/or the completeness of the S&P 500 Index or any data included in the S&P 500 Index. S&P makes no warranty, express or implied, as to results to be obtained by ML&Co., MLPF&S, holders of the MITTS Securities, or any other person or entity from the use of the S&P 500 Index or any data included in the S&P 500 Index in connection with the rights licensed under the license agreement described in this prospectus or for any other use. S&P makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the S&P 500 Index or any data included in the S&P 500 Index. Without limiting any of the above information, in no event shall S&P have any liability for any special, punitive, indirect or consequential damage; including lost profits, even if notified of the possibility of these damages.

S&P and Merrill Lynch Capital Services, Inc. have entered into a non-exclusive license agreement providing for the license to Merrill Lynch Capital Services, Inc., in exchange for a fee, of the right to use indices owned and published by S&P in connection with some securities, including the MITTS Securities, and ML&Co. is an authorized sublicensee of Merrill Lynch Capital Services, Inc.

The license agreement between S&P and Merrill Lynch Capital Services, Inc. provides that the following language must be stated in this prospectus:

"The MITTS Securities are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the MITTS Securities or any member of the

20

public regarding the advisability of investing in securities generally or in the MITTS Securities particularly or the ability of the S&P 500 Index to track general stock market performance. S&P's only relationship to Merrill Lynch Capital Services, Inc. and ML&Co. (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of S&P and of the S&P 500 Index which is determined, composed and calculated by S&P without regard to ML&Co. or the MITTS Securities. S&P has no obligation to take the needs of ML&Co. or the holders of the MITTS Securities into consideration in determining, composing or calculating the S&P 500 Index. S&P is not responsible for and has not participated in the determination of the timing of the sale of the MITTS Securities, prices at which the MITTS Securities are to initially be sold, or quantities of the MITTS Securities to be issued or in the determination or calculation of the equation by which the MITTS Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the MITTS Securities."

All disclosures contained in this prospectus regarding the above S&P 500 Index, including its make-up, method of calculation and changes in its components, are derived from publicly available information prepared by Standard & Poor's. ML&Co. and MLPF&S do not assume any responsibility for the accuracy or completeness of this information.

21

#### OTHER TERMS

The MITTS Securities were issued as a series of senior debt securities

under the 1983 Indenture, dated as of April 1, 1983, as amended and restated, between ML&Co. and The Chase Manhattan Bank, as trustee. A copy of the 1983 Indenture is filed as an exhibit to the registration statement relating to the MITTS Securities of which this prospectus is a part. The following summaries of the material provisions of the 1983 Indenture are not complete and are subject to, and qualified in their entirety by reference to, all provisions of the 1983 Indenture, including the definitions of terms in the 1983 Indenture.

Series of senior debt securities may from time to time be issued under the 1983 Indenture, without limitation as to aggregate principal amount, in one or more series and upon terms as ML&Co. may establish under the provisions of the 1983 Indenture.

The 1983 Indenture and the MITTS Securities are governed by and construed in accordance with the laws of the State of New York.

ML&Co. may issue senior debt securities with terms different from those of senior debt securities previously issued, and issue additional senior debt securities of a previously issued series of senior debt securities.

The senior debt securities are unsecured and rank equally with all other unsecured and unsubordinated indebtedness of ML&Co. However, because ML&Co. is a holding company, the rights of ML&Co. and its creditors, including the holders of senior debt securities, to participate in any distribution of the assets of any subsidiary upon its liquidation or reorganization or otherwise are necessarily subject to the prior claims of creditors of the subsidiary, except to the extent that claims of ML&Co. itself as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain subsidiaries, including MLPF&S, to ML&Co. are restricted by net capital requirements under the Exchange Act, and under rules of exchanges and other regulatory bodies.

#### Limitations upon liens

ML&Co. may not, and may not permit any majority-owned subsidiary to, create, assume, incur or permit to exist any indebtedness for borrowed money secured by a pledge, lien or other encumbrance, other than those liens specifically permitted by the 1983 Indenture, on the Voting Stock owned directly or indirectly by ML&Co. of any majority-owned subsidiary, other than a majority-owned subsidiary which, at the time of the incurrence of the secured indebtedness, has a net worth of less than \$3,000,000, unless the outstanding senior debt securities are secured equally and ratably with the secured indebtedness.

"Voting Stock" is defined in the 1983 Indenture as the stock of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation provided that, for the purposes of the 1983 Indenture, stock that carries only the right to vote conditionally on the occurrence of an event is not considered voting stock whether or not the event has happened.

Limitation on disposition of Voting Stock of, and merger and sale of assets by, MLPF&S

ML&Co. may not sell, transfer or otherwise dispose of any Voting Stock of MLPF&S or permit MLPF&S to issue, sell or otherwise dispose of any of its Voting Stock, unless, after giving effect to any such transaction, MLPF&S remains a Controlled Subsidiary.

"Controlled Subsidiary" is defined in the 1983 Indenture to mean a corporation more than 80% of the outstanding shares of Voting Stock of which are owned directly or indirectly by ML&Co.

22

In addition, ML&Co. may not permit MLPF&S to:

- . merge or consolidate, unless the surviving company is a Controlled Subsidiary, or
- . convey or transfer its properties and assets substantially as an entirety, except to one or more Controlled Subsidiaries.

#### Merger and consolidation

ML&Co. may consolidate or merge with or into any other corporation and ML&Co. may sell, lease or convey all or substantially all of its assets to any corporation, provided that:

- . the resulting corporation, if other than ML&Co., is a corporation organized and existing under the laws of the United States of America or any U.S. state and assumes all of ML&Co.'s obligations to:
  - . pay any amounts due and payable or deliverable with respect to

all the Senior Debt Securities; and

- . perform and observe all of ML&Co.'s obligations under the 1983 Indenture, and
- . ML&Co. or the successor corporation, as the case may be, is not, immediately after any consolidation or merger, in default under the 1983 Indenture.

#### Modification and waiver

ML&Co. and the trustee may modify and amend the 1983 Indenture with the consent of holders of at least 66 2/3% in principal amount of each outstanding series of debt securities affected. However, without the consent of each holder of any outstanding debt security affected, no amendment or modification to any Indenture may:

- . change the stated maturity date of the principal of, or any installment of interest or Additional Amounts payable on, any senior debt security or any premium payable on redemption, or change the redemption price;
- . reduce the principal amount of, or the interest or Additional Amounts payable on, any senior debt security or reduce the amount of principal which could be declared due and payable before the stated maturity date;
- . change the place or currency of any payment of principal or any premium, interest or Additional Amounts payable on any senior debt security;
- . impair the right to institute suit for the enforcement of any payment on or with respect to any senior debt security;
- . reduce the percentage in principal amount of the outstanding senior debt securities of any series, the consent of whose holders is required to modify or amend the 1983 Indenture; or
- . modify the foregoing requirements or reduce the percentage of outstanding senior debt securities necessary to waive any past default to less than a majority.

23

No modification or amendment of ML&Co.'s Subordinated Indenture or any Subsequent Indenture for subordinated debt securities may adversely affect the rights of any holder of ML&Co.'s senior indebtedness without the consent of each holder affected. The holders of at least a majority in principal amount of outstanding senior debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance by ML&Co. with provisions in the 1983 Indenture, except as described under "--Events of Default" below.

#### Events of Default

Each of the following will be an Event of Default with respect to senior debt securities of any series:

- . default in the payment of any interest or Additional Amounts payable when due and continuing for 30 days;
- . default in the payment of any principal or premium, when due;
- . default in the deposit of any sinking fund payment, when due;
- . default in the performance of any other obligation of ML&Co. contained in the 1983 Indenture for the benefit of that series or in the senior debt securities of that series, continuing for 60 days after written notice as provided in the 1983 Indenture;
- . specified events in bankruptcy, insolvency or reorganization of ML&Co.; and
- . any other Event of Default provided with respect to senior debt securities of that series which are not inconsistent with the 1983 Indenture.

If an Event of Default occurs and is continuing for any series of senior debt securities, other than as a result of the bankruptcy, insolvency or reorganization of ML&Co., the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare all amounts, or any lesser amount provided for in the senior debt securities, due and payable or deliverable immediately. At any time after a declaration of acceleration has been made with respect to senior debt securities of any series but before the trustee has obtained a judgment or decree for

payment of money, the holders of a majority in principal amount of the outstanding senior debt securities of that series may rescind any declaration of acceleration and its consequences, if all payments due, other than those due as a result of acceleration, have been made and all Events of Default have been remedied or waived.

The holders of a majority in principal amount or aggregate issue price of the outstanding debt securities of any series of debt securities may waive any Event of Default with respect to that series, except a default:

- . in the payment of any amounts due and payable or deliverable under the debt securities of that series; or
- . in respect of an obligation or provision of any indenture which cannot be modified under the terms of that indenture without the consent of each holder of each series of debt securities affected.

The holders of a majority in principal amount of the outstanding senior debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to those senior debt securities, provided that any direction shall not be in conflict with any rule of law or the 1983 Indenture. Before proceeding to exercise

24

any right or power under the 1983 Indenture at the direction of the holders, the trustee shall be entitled to receive from the holders reasonable security or indemnification against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

The MITTS Securities and other series of senior debt securities issued under the 1983 Indenture do not have the benefit of any cross-default provisions with other indebtedness of ML&Co.

ML&Co. is required to furnish to the trustee annually a statement as to the fulfillment by ML&Co. of all of its obligations under the 1983 Indenture.

25

PROJECTED PAYMENT SCHEDULE

Solely for purposes of applying the regulations issued on June 11, 1996 by the Treasury Department (the "Final Regulations") concerning the proper United States Federal income tax treatment of contingent payment debt instruments such as the MITTS Securities, we have determined that the projected payment schedule for the MITTS Securities will consist of payment on the maturity date of the principal amount thereof and a projected Supplemental Redemption Amount equal to \$6.3583 per unit This represents an estimated yield on the MITTS Securities equal to 7.16% per annum, compounded semiannually.

The projected payment schedule, including both the projected Supplemental Redemption Amount and the estimated yield on the MITTS Securities, has been determined solely for United States Federal income tax purposes, i.e., for purposes of applying the Final Regulations to the MITTS Securities, and is neither a prediction nor a guarantee of what the actual Supplemental Redemption Amount will be, or that the actual Supplemental Redemption Amount will even exceed zero.

The following table sets forth the amount of interest that will be deemed to have accrued with respect to each unit of the MITTS Securities during each accrual period over the term of the MITTS Securities based upon a projected payment schedule for the MITTS Securities, including both the projected Supplemental Redemption Amount and the estimated yield equal to 7.16% per annum, compounded semiannually, as determined by ML&Co. for purposes of applying the Final Regulations to the MITTS Securities:

<TABLE>  
<CAPTION>

Accrual Period -----	Interest deemed to accrue during accrual period (per unit) -----	Total interest deemed to have accrued on MITTS Securities as of the end of the accrual period (per unit) -----
<S>	<C>	<C>
November 20, 2000 through May 20, 2001.....	\$0.3550	\$0.3550
May 21, 2001 through November 20, 2001.....	\$0.3707	\$0.7257
November 21, 2001 through May 20, 2002.....	\$0.3840	\$1.1097
May 21, 2002 through November 20, 2002.....	\$0.3977	\$1.5074
November 21, 2002 through May 20, 2003.....	\$0.4120	\$1.9194
May 21, 2003 through November 20, 2003.....	\$0.4267	\$2.3461
November 21, 2003 through May 20, 2004.....	\$0.4420	\$2.7881

May 21, 2004 through November 20, 2004.....	\$0.4578	\$3.2459
November 21, 2004 through May 20, 2005.....	\$0.4742	\$3.7201
May 21, 2005 through November 20, 2005.....	\$0.4912	\$4.2113
November 21, 2005 through May 20, 2006.....	\$0.5088	\$4.7201
May 21, 2006 through November 20, 2006.....	\$0.5269	\$5.2470
November 21, 2006 through May 20, 2007.....	\$0.5459	\$5.7929
May 21, 2007 through November 20, 2007.....	\$0.5654	\$6.3583

</TABLE>

Projected Supplemental Redemption Amount = \$6.3583 per unit.

All prospective investors in the MITTS Securities should consult their own tax advisors concerning the application of the Final Regulations to their investment in the MITTS Securities. Investors in the MITTS Securities may also obtain the projected payment schedule, as determined by ML&Co. for purposes of the application of the Final Regulations to the MITTS Securities, by submitting a written request for such information Merrill Lynch & Co., Inc., Corporate Secretary's Office, 222 Broadway, 17th Floor, New York, New York 10038, (212) 670-0432, corporatesecretary@exchange.ml.com.

26

#### ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and Section 4975 of the Internal Revenue Code, as amended (the "Code") prohibit various transactions between certain parties and the assets of employee benefit plans, unless an exemption is available; governmental plans may be subject to similar prohibitions. Because transactions between a plan and ML&Co. may be prohibited absent an exemption, each fiduciary, by its purchase of any MITTS Security on behalf of any plan, represents on behalf of itself and the plan, that the acquisition, holding and any subsequent disposition of the MITTS Security will not result in a violation of ERISA, the Code or any other applicable law or regulation.

#### WHERE YOU CAN FIND MORE INFORMATION

We file reports, proxy statements and other information with the SEC. Our SEC filings are also available over the Internet at the SEC's web site at <http://www.sec.gov>. The address of the SEC's Internet site is provided solely for the information of prospective investors and is not intended to be an active link. You may also read and copy any document we file at the SEC's public reference rooms in Washington, D.C., New York, New York and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for more information on the public reference rooms and their copy charges. You may also inspect our SEC reports and other information at the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

We have filed a registration statement on Form S-3 with the SEC covering the MITTS Securities and other securities. For further information on ML&Co. and the MITTS Securities, you should refer to our registration statement and its exhibits. This prospectus summarizes material provisions of contracts and other documents that we refer you to. Because this prospectus may not contain all the information that you may find important, you should review the full text of these documents. We have included copies of these documents as exhibits to our registration statement of which this prospectus is a part.

#### INCORPORATION OF INFORMATION WE FILE WITH THE SEC

The SEC allows us to incorporate by reference the information we file with them, which means:

- . incorporated documents are considered part of the prospectus;
- . we can disclose important information to you by referring you to those documents; and
- . information that we file with the SEC will automatically update and supersede this incorporated information.

We incorporate by reference the documents listed below which were filed with the SEC under the Exchange Act:

- . annual report on Form 10-K for the year ended December 31, 1999;
- . quarterly reports on Form 10-Q for the periods ended March 31, 2000, June 30, 2000 and September 29, 2000; and
- . current reports on Form 8-K dated January 25, 2000, March 3, 2000, March 31, 2000, April 17, 2000, May 3, 2000, May 24, 2000, June 29, 2000, July 18, 2000, August 2, 2000, August 4, 2000, September 13, 2000, October 6, 2000, October 17, 2000, November 1, 2000, November 20, 2000 and December 6, 2000.

We also incorporate by reference each of the following documents that we will file with the SEC after the date of this prospectus until this offering is completed or after the date of this initial registration statement and before the effectiveness of the registration statement:

- . reports filed under Sections 13(a) and (c) of the Exchange Act;
- . definitive proxy or information statements filed under Section 14 of the Exchange Act in connection with any subsequent stockholders' meeting; and
- . any reports filed under Section 15(d) of the Exchange Act.

You should rely only on information contained or incorporated by reference in this prospectus. We have not, and MLPF&S has not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and MLPF&S is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

You should assume that the information appearing in this prospectus is accurate as of the date of this prospectus only. Our business, financial condition and results of operations may have changed since that date.

You may request a copy of any filings referred to above (excluding exhibits), at no cost, by contacting us at the following address: Mr. Lawrence M. Egan, Jr., Corporate Secretary's Office, Merrill Lynch & Co., Inc., 222 Broadway, 17th/ Floor, New York, New York 10038, Telephone: (212) 670-0432.

#### PLAN OF DISTRIBUTION

This prospectus has been prepared in connection with secondary sales of the MITTS Securities and is to be used by MLPF&S when making offers and sales related to market-making transactions in the MITTS Securities.

MLPF&S may act as principal or agent in these market-making transactions.

The MITTS Securities may be offered on the Nasdaq National Market or off the exchange in negotiated transactions or otherwise.

The distribution of the MITTS Securities will conform to the requirements set forth in the applicable sections of Rule 2720 of the Conduct Rules of the NASD.

#### EXPERTS

The consolidated financial statements and the related financial statement schedule incorporated in this prospectus by reference from the Annual Report on Form 10-K of Merrill Lynch & Co., Inc. and subsidiaries for the year ended December 31, 1999 have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports (each of which expressed an unqualified opinion and which report on the consolidated financial statements included an explanatory paragraph for the change in accounting method in 1998 for certain internal-use software development costs to conform with Statement of Position 98-1), which are incorporated herein by reference, and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

With respect to unaudited interim financial information for the periods included in the Quarterly Reports on Form 10-Q which are incorporated herein by reference, Deloitte & Touche LLP have applied limited procedures in accordance with professional standards for a review of such information. However, as

stated in their report included in each of the Quarterly Reports on Form 10-Q and incorporated by reference herein, they did not audit and they do not express an opinion on such interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended, for their reports on unaudited interim financial information because such report is not a "report" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933, as amended.

Item 15. Indemnification of Directors and Officers.

Section 145 of the General Corporation Law of the State of Delaware, as amended, provides that under certain circumstances a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such person is or was a director, officer, employee or agent of the corporation or is or was serving at its request in such capacity in another corporation or business association, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, has no reasonable cause to believe such person's conduct was unlawful.

Article XIII, Section 2 of the Restated Certificate of Incorporation of the Company provides in effect that, subject to certain limited exceptions, the Company shall indemnify its directors and officers to the extent authorized or permitted by the General Corporation Law of the State of Delaware.

Each of the underwriting and distribution agreements and forms thereof filed as Exhibit 1 provides for the indemnification of the Company, its controlling persons, its directors and certain of its officers by the Underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Act").

The directors and officers of the Company are insured under policies of insurance maintained by the Company, subject to the limits of the policies, against certain losses arising from any claim made against them by reason of being or having been such directors or officers. In addition, the Company has entered into contracts with all of its directors providing for indemnification of such persons by the Company to the full extent authorized or permitted by law, subject to certain limited exceptions.

The Declaration of Trust of the Trust provides, to the fullest extent permitted by applicable law, for indemnification of the Regular Trustees, any Affiliate of any Regular Trustee, any officer, director, shareholder, member, partner, employees, representative or agent of any Regular Trustee, or any officer, director, shareholder member, partner, employee representative or agent of the Trust or its Affiliates (each a "Company Indemnified

II-1

Person"), from and against losses and expenses incurred by such Company Indemnified Person in connection with any action, suit or proceeding, except that if such action, suit or proceedings is by or in the right of the Trust, the indemnity shall be limited to expenses of such Company Indemnified Person.

The Limited Partnership Agreement of the Partnership provides that to the fullest extent permitted by applicable law, the Partnership shall indemnify and hold harmless each of the General Partner, and any Special Representative, any Affiliate of the General Partner or any Special Representative, any officer, director, shareholder, member, partner, employee representative or agent of the General Partner or any Special Representative, or any of their respective Affiliates, or any employee or agent of the Partnership or its Affiliates (each, a "Partnership Indemnified Person"), from and against any loss, damage or claim incurred by such Partnership Indemnified Person by reason of any act or omission performed or omitted by such Partnership Indemnified Person in good faith on behalf of the Partnership and in a manner such Partnership Indemnified Person reasonably believed to be within the scope

of authority conferred on such Partnership Indemnified Person by the Limited Partnership Agreement, except that no Partnership Indemnified Person shall be entitled to be indemnified in respect of any loss, damage or claim incurred by such Partnership Indemnified Person by reason of gross negligence or willful misconduct with respect to such acts or omissions. The Limited Partnership Agreement also provides that, to the fullest extent permitted by applicable law, expenses (including legal fees) incurred by a Partnership Indemnified Person in defending any claim, demand, action, suit or proceeding shall, from time to time, be advanced by the Partnership prior to the final disposition of such claim, demand, action, suit or proceeding upon receipt by the Partnership of any undertaking by or on behalf of the Partnership Indemnified Person to repay such amount if it shall be determined that the Partnership Indemnified Person is not entitled to be indemnified as authorized in the Limited Partnership Agreement.

The Regular Trustees of the Trust are covered by insurance policies indemnifying them against certain liabilities, including certain liabilities arising under the Act, which might be incurred by them in such capacity and against which they cannot be indemnified by the Company or the Trust. Any agents, dealers or underwriters who execute the agreements filed as Exhibit 1 of this Registration Statement with respect to Trust Originated Preferred Securities SM will agree to indemnify the Company's directors and their officers and the Trustees who signed the Registration Statement with respect to such securities against certain liabilities that may arise under the Act with respect to information furnished to the Company or the Trust by or on behalf of any such indemnifying party.

II-13

Notwithstanding the foregoing, any increase or decrease in volume of

securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by the registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at the time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the Securities being registered which remain unsold at the termination of the offering.

(b) That, for purpose of determining any liability under the Securities Act of 1933, each filing of such registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of such registrant pursuant to the provisions referred to in Item 15 of this registration statement, or otherwise, such registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in such Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by such registrant of expenses incurred or paid by a director, officer or controlling person of such registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, such registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(d) To file an application for the purpose of determining the eligibility of the trustee to act under subsection (a) of Section 310 of the Trust Indenture Act (the "Act") in accordance with the rules and regulations prescribed by the Commission under Section 305(b)(2) of the Act.

UNLESS THIS NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF DTC TO MERRILL LYNCH & CO., INC. OR ITS AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT, AND ANY NOTE ISSUED IS REGISTERED IN THE NAME OF CEDE & CO. OR IN SUCH OTHER NAME AS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT IS MADE TO CEDE & CO. OR TO SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC), ANY TRANSFER, PLEDGE OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL INASMUCH AS THE REGISTERED OWNER HEREOF, CEDE & CO., HAS AN INTEREST HEREIN.

No. R-  
CUSIP 590188 FP 8

§

MERRILL LYNCH &amp; CO., INC.

6.64% NOTE DUE SEPTEMBER 19, 2002

Merrill Lynch & Co., Inc., a Delaware corporation (hereinafter called the "Company", which term includes any successor corporation under the Indenture herein referred to), for value received, hereby promises to pay to CEDE & CO., or registered assigns, the principal sum of \_\_\_\_\_ DOLLARS (\$) on September 19, 2002 and to pay interest thereon from September 19, 1995, or from the most recent date in respect of which interest has been paid or duly provided for, semiannually on March 19 and September 19 in each year (each, an "Interest Payment Date"), commencing March 19, 1996, at the rate of 6.64% per annum, until the principal hereof is paid or duly made available for payment. The interest so payable and punctually paid or duly provided for on any Interest Payment Date will, as provided in such Indenture, be paid to the Person in whose name this Note (or one or more Predecessor Securities) is registered at the close of business on the Regular Record Date for such interest, which shall be the March 4 or September 4 (whether or not a Business Day) next preceding such Interest Payment Date. Any such interest which is payable, but is not punctually paid or duly provided for on any Interest Payment Date, shall forthwith cease to be payable to the registered Holder on such Regular Record Date, and may be paid to the Person in whose name this Note (or one or more Predecessor Securities) is registered at the close of business on a Special Record Date for the payment of such Defaulted Interest to be fixed by the Trustee, notice whereof shall be given to the Holder of this Note not less than 10 days prior to such Special Record Date, or may be paid at any time in any other lawful manner, as more fully provided in such Indenture.

Payment of the principal of and the interest on this Note will be made at the office or agency of the Company maintained for that purpose in the Borough of Manhattan, The City of New York, in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts; provided, however, that payment of interest may be made at the option of the Company by check mailed to the address of the Person entitled thereto as such address shall appear in the Security Register.

This Note is one of the series of 6.64% Notes due September 19, 2002 (the "Notes"). Reference is hereby made to the further provisions of this Note set forth on the reverse hereof, which further provisions shall for all purposes have the same effect as if set forth at this place.

Unless the certificate of authentication hereon has been executed by Chemical Bank, the Trustee under the Indenture, or its successor thereunder, by the manual signature of one of its authorized officers, this Note shall not be

entitled to any benefits under the Indenture, or be valid or obligatory for any purpose.

IN WITNESS WHEREOF, the Company has caused this instrument to be duly executed under its corporate seal.

Dated:

CERTIFICATE OF AUTHENTICATION  
This is one of the Securities of  
the series designated therein  
referred to in the  
within-mentioned Indenture.

MERRILL LYNCH & CO., INC.

6.64% NOTE DUE SEPTEMBER 19, 2002

This Note is one of a duly authorized issue of Securities of the Company, issued and to be issued under an Indenture, dated as of April 1, 1983, as amended and restated (herein called the "Indenture"), between the Company and Chemical Bank (successor by merger to Manufacturers Hanover Trust Company), Trustee (herein called the "Trustee", which term includes any successor trustee under the Indenture), to which Indenture and all indentures supplemental thereto reference is hereby made for a statement of the respective rights thereunder of the Company, the Trustee and the Holders of the Securities, and the terms upon which the Securities are, and are to be, authenticated and delivered.

The Notes are not subject to redemption by the Company prior to maturity.

If an Event of Default (as defined in the Indenture) with respect to the Notes shall occur and be continuing, the principal of all the Notes may be declared due and payable in the manner and with the effect provided in the Indenture.

The Indenture permits, with certain exceptions as therein provided, the amendment thereof and the modification of the rights and obligations of the Company and the rights of the Holders of the Securities of each series to be affected under the Indenture at any time by the Company and the Trustee with the consent of the Holders of not less than 66-2/3% in aggregate principal amount of the Securities at the time Outstanding, as defined in the Indenture, of each series affected thereby. The Indenture also contains provisions permitting the Holders of specified percentages in aggregate principal amount of the Securities of each series at the time Outstanding, on behalf of the Holders of all Securities of each series, to waive compliance by the Company with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by the Holder of this Note shall be conclusive and binding upon such Holder and upon all future Holders of this Note and of any Note issued upon the registration of transfer hereof or in exchange herefor or in lieu hereof whether or not notation of such consent or waiver is made upon this Note.

No reference herein to the Indenture and no provision of this Note or of the Indenture shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay the principal of and interest on this Note, at the time, place, and rate, and in the coin or currency, herein prescribed.

As provided in the Indenture and subject to certain limitations set forth therein and on the face hereof, the transfer of this Note may be registered on

2

the Security Register of the Company, upon surrender of this Note for registration of transfer at the office or agency of the Company in the Borough of Manhattan, The City of New York, duly endorsed by, or accompanied by a written instrument of transfer in form satisfactory to the Company duly executed by, the Holder hereof or by his attorney duly authorized in writing, and thereupon one or more new Notes, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

The Notes are issuable only in registered form without coupons in denominations of \$1,000 and integral multiples thereof. As provided in the Indenture and subject to certain limitations set forth therein and on the face hereof, the Notes are exchangeable for a like aggregate principal amount of Notes in authorized denominations as requested by the Holder surrendering the same. If (x) any Depository is at any time unwilling or unable to continue as Depository and a successor depository is not appointed by the Company within 60 days, (y) the Company executes and delivers to the Trustee a Company Order to the effect that this Note shall be exchangeable or (z) an Event of Default has occurred and is continuing with respect to the Notes, this Note shall be exchangeable for Notes in definitive form of like tenor and of an equal aggregate principal amount, in denominations of \$1,000 and integral multiples thereof. Such definitive Notes shall be registered in such name or names as the Depository shall instruct the Trustee. If definitive Notes are so delivered, the Company may make such changes to the form of this Note as are necessary or appropriate to allow for the issuance of such definitive Notes.

No service charge shall be made for any such registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Prior to due presentment of this Note for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name this Note is registered as the owner hereof for all purposes, whether or not this Note be overdue, and neither the Company, the Trustee nor any such agent shall be affected by notice to the contrary.

All terms used in this Note which are defined in the Indenture shall have the meanings assigned to them in the Indenture.

v

INDENTURE, dated as of \_\_\_\_\_, between Merrill Lynch & Co., Inc., a Delaware corporation ("Company"), and \_\_\_\_\_, a national banking association, as trustee (the "Trustee").

Each party agrees as follows for the benefit of the other party and for the equal and ratable benefit of the Holders of the Company's Liquid Yield Option(TM) Notes due \_\_\_\_\_, (Zero Coupon -- Senior) (the "Securities"):

Article I

DEFINITIONS AND INCORPORATION BY REFERENCE

Section 1.01. Definitions.

"Affiliate" of any specified person means any other person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified person. For the purposes of this definition, "control", when used with respect to any specified person, means the power to direct or cause the direction of the management and policies of such person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms "controlling" and "controlled" have meanings correlative to the foregoing.

"Applicable Procedures" means, with respect to any transfer or transaction involving a Global Security or beneficial interest therein, the rules and procedures of the Depositary for such Security, in each case to the extent applicable to such transaction and as in effect from time to time.

"Bankruptcy Law" means Title 11, United States Code, or any similar Federal or state law for the relief of debtors.

"Board of Directors" or "Board" means, with respect to any matter, either the board of directors of the Company or any committee of such board duly authorized, with respect to such matter, to exercise the powers of such board.

"Business Day" means each week day of the year on which banking institutions in The City of New York are not authorized or obligated to close.

"Capital Stock" for any corporation means any and all shares, interests, rights to purchase, warrants, options, participations or other equivalents of or interests in (however designated) capital stock issued by that corporation.

"Cash" or "cash" means such coin or currency of The United States of America as at any time of payment is legal tender for the payment of public and private debts.

"Common Stock" means the Common Stock, par value \$1.33 per share, including the Rights attached thereto of the Company as it exists on the date of this Indenture or any other shares of capital stock of the Company into which such common stock shall be reclassified or changed.

"Company" means the party named as the "Company" in the first paragraph of this Indenture until a successor replaces it pursuant to the applicable provisions of this Indenture and, thereafter, shall mean such successor. The foregoing sentence shall likewise apply to any subsequent such successor or successors.

"Company Request" or "Company Order" means a written request or order signed in the name of the Company by either of its Chairman or Vice Chairman of the Board, its President or any Vice President, and by its Treasurer, an Assistant Treasurer, its Secretary or an Assistant Secretary, and delivered to the Trustee.

"Corporate Trust Office" means the principal office of the Trustee at which at any time its corporate trust business shall be administered, which office at the date hereof is located at \_\_\_\_\_, Attention: \_\_\_\_\_ Administration, or such other address as the Trustee may designate from time to time by notice to the Holders and the Company.

"Corporation" includes corporations, associations, companies and business trusts.

"Custodian" means any receiver, trustee, assignee, liquidator, custodian or similar official under any Bankruptcy Law.

"Default" means any event that is, or after notice or passage of time or both would be, an Event of Default.

"Depository" means, with respect to the Securities issuable or issued in whole or in part in global form, the person specified in Section 2.03 as the Depository with respect to the Securities, until a successor shall have been appointed and become such pursuant to the applicable provision of this Indenture, and, thereafter, "Depository" shall mean or include such successor.

"Global Securities" means Securities that are in the form of the Securities attached hereto as Exhibit A.

"Holder" or "Securityholder" means a person in whose name a Security is registered on the Registrar's books.

"Indenture" means this Indenture as amended or supplemented from time to time in accordance with the terms hereof, including the provisions of the TIA that are deemed to be a part hereof.

"Issue Date" of any Security means the date on which the Security was originally issued or deemed issued as set forth on the face of the Security.

"Issue Price" of any Security means, in connection with the original issuance of such Security, the initial issue price at which the Security is sold as set forth on the face of the Security.

"Market Price" means the average of the Sale Prices of the Common Stock for each Trading Day of the five Trading Day period ending on and including the third Trading Day immediately prior to, but not including the applicable Purchase Date, appropriately adjusted to take into account the actual occurrence, during the seven Trading Days preceding such Purchase Date, of any event described

in Section 10.06, 10.07 or 10.08; subject, however, to the conditions set forth in Sections 10.09 and 10.10.

"Officer" means Chairman of the Board, the President, any Vice President, the Treasurer, the Secretary, any Assistant Treasurer or Assistant Secretary of the Company.

"Officers' Certificate" means a written certificate containing the information specified in Sections 11.04 and 11.05, signed in the name of the

Company by Chairman of the Board, the President, a Vice President or the Treasurer and by an Assistant Treasurer, the Secretary or an Assistant Secretary, and delivered to the Trustee.

"Opinion of Counsel" means a written opinion containing the information specified in Sections 12.04 and 12.05, if applicable, rendered by legal counsel who may be (i) an employee of, or counsel to, the Company or (ii) other counsel designated by the Company and reasonably acceptable to the Trustee.

"Original Issue Discount" of any Security means the difference between the Issue Price and the Principal Amount of the Security as set forth on the face of the Security.

"Person" means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

"Principal", "Principal Amount" or "principal amount" of a Security means the principal amount due at the maturity date of the Security as set forth on the face of the Security.

"Redemption" or "redemption" shall have the meaning set forth in Section 3.01.

"Redemption Date" or "redemption date" shall mean the date specified for redemption of any of the Securities in accordance with the terms of the Securities and this Indenture.

"Redemption Price" or "redemption price" shall have the meaning set forth in paragraph 5 of the Securities.

"Responsible Officer", when used with respect to the Trustee, means any officer within the corporate trust department (or any successor group) including without limitation any vice president, any assistant vice president, any assistant secretary or any other officer of the Trustee customarily performing functions similar to those performed by any of the above-designated officers and also means, with respect to a particular corporate trust matter, any other officer to whom such matter is referred because of his knowledge of and familiarity with the particular subject.

"Rights" means the preferred stock purchase rights distributed pursuant to the Amended and Restated Rights Agreement of the Company dated as of \_\_\_\_\_, as amended or restated from time to time.

"Sale Price" of a single share of Common Stock on any Trading Day means the closing per share sale price for the Common Stock (or if no closing sale price is reported, the average of the bid and ask prices or, if more than one in either case, the average of the average bid and the average ask prices) on such Trading Day as reported in composite transactions for the principal United States securities exchange on which the Common Stock is traded or, if the Common Stock is not listed on a United States national or regional stock exchange, as reported by the National Association of Securities Dealers Automated Quotation System.

"SEC" means the Securities and Exchange Commission.

3

"Securities" means any of the Company's Liquid Yield Option(TM) Notes due \_\_\_\_\_, (Zero Coupon - Senior), as amended or supplemented from time to time in accordance with the terms hereof, issued under this Indenture.

"Securities Custodian" means the Registrar as custodian with respect to the Securities in global form, or any successor entity thereto.

"Securityholder" or "Holder" means a person in whose name a Security is registered on the Registrar's books.

"Stated Maturity", when used with respect to any Security, means the date specified in such Security as the final fixed date on which the Principal of such Security is due and payable.

"Subsidiary" means a corporation, a majority of whose Capital Stock with voting power, under ordinary circumstances, to elect directors is, at the date of determination, directly or indirectly owned by the Company, by one or more Subsidiaries of the Company or by the Company and one or more Subsidiaries of the Company. "Wholly-owned", when used with reference to a Subsidiary, means a  
-----  
Subsidiary of which all of the outstanding capital stock (except for qualifying shares) is owned by the Company or by one or more wholly-owned Subsidiaries.

"Tax Event" means that the Company shall have received an opinion from independent tax counsel experienced in such matters to the effect that, on or after \_\_\_\_\_, as a result of (a) any amendment to, or change (including any announced prospective change) in, the laws (or any regulations

thereunder) of the United States or any political subdivision or taxing authority thereof or therein or (b) any amendment to, or change in, an interpretation or application of such laws or regulations by any legislative body, court, governmental agency or regulatory authority, in each case which amendment or change is enacted, promulgated, issued or announced or which interpretation is issued or announced or which action is taken, on or after , , there is more than an insubstantial risk that interest (including Original Issue Discount) payable on the Securities either (i) would not be deductible on a current accrual basis or (ii) would not be deductible under any other method, in either case in whole or in part, by the Company (by reason of deferral, disallowance, or otherwise) for United States federal income tax purposes.

"TIA" means the Trust Indenture Act of 1939, as amended by the Trust Indenture Reform Act of 1990, and as in effect on the date of this Indenture.

"Time of Determination" means the time and date of the determination of stockholders entitled to receive rights, warrants, options or a distribution, in each case, to which Sections 10.07 or 10.08 apply.

"Trading Day" means each day on which the primary securities exchange or quotation system which is used to determine the Sale Price is open for trading or quotation.

"Trust Officer" means any officer of the Trustee assigned by the Trustee to administer its corporate trust matters.

4

"Trustee" means the party named as the "Trustee" in the first paragraph of this Indenture until a successor replaces it pursuant to the applicable provisions of this Indenture and, thereafter, shall mean such successor.

Section 1.03. Incorporation by Reference of Trust Indenture Act.  
-----

Whenever this Indenture refers to a provision of the TIA, such provision is incorporated by reference in and made a part of this Indenture. The following TIA terms used in this Indenture have the following meanings:

"Commission" means the SEC.  
-----

"indenture securities" means the Securities.  
-----

"indenture security holder" means a Securityholder.  
-----

"indenture to be qualified" means this Indenture.  
-----

"indenture trustee" or "institutional trustee" means the Trustee.  
-----

"obligor" on the indenture securities means the Company.  
-----

All other TIA terms used in this Indenture that are defined by the TIA or defined by TIA reference to another statute or regulation have the meanings assigned to them by such definitions.

Section 1.04. Rules of Construction. Unless the context otherwise  
-----

requires:

(a) a term has the meaning assigned to it;

(b) an accounting term not otherwise defined has the meaning assigned to it in accordance with generally accepted accounting principles as in effect from time to time in The United States of America;

(c) "or" is not exclusive;

(d) "including" means including, without limitation; and

(e) words in the singular include the plural, and words in the plural include the singular.

Article II

THE SECURITIES

Section 2.01. Form and Dating. The Securities and the Trustee's  
-----

certificate of authentication shall be substantially in the form of Exhibit A, which is a part of this Indenture.

6

The Securities may have notations, legends or endorsements required by law, stock exchange rule or usage (provided that any such notation, legend or endorsement required by usage is in a form acceptable to the Company and the Trustee). Each Security shall be dated the date of its authentication.

The Securities shall be issued, initially in the form of a global Security, which shall be deposited with DTC or the nominee thereof, duly executed by the Company and authenticated by the Trustee as hereinafter provided.

Each global Security shall represent such of the outstanding Securities as shall be specified therein and each shall provide that it shall represent the aggregate amount of outstanding Securities from time to time endorsed thereon and that the aggregate amount of outstanding Securities represented thereby may from time to time be reduced or increased, as appropriate, to reflect exchanges and redemptions. Any endorsement of a global Security to reflect the amount of any increase or decrease in the amount of outstanding Securities represented thereby shall be made by the Trustee in accordance with instructions given by the Holder thereof as required by Section 2.11.

Section 2.02. Execution and Authentication. The Securities shall be  
-----

executed by the Company by either of its Chairman or Vice Chairman of the Board, its President or one of its Vice Presidents, under its corporate seal reproduced thereon attested by its Secretary or one of its Assistant Secretaries. The signature of any of these officers on the Securities may be manual or facsimile.

Securities bearing the manual or facsimile signatures of individuals who were at any time the proper officers of the Company shall bind the Company, notwithstanding that such individuals or any of them have ceased to hold such offices prior to the authentication and delivery of such Securities or did not hold such offices at the Issue Date of such Securities.

No Security shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Security a certificate of authentication substantially in the form provided for herein duly executed by the Trustee by manual signature of an authorized officer, and such certificate upon any Security shall be conclusive evidence, and the only evidence, that such Security has been duly authenticated and delivered hereunder.

The Trustee shall authenticate and deliver Securities for original issue in an aggregate Principal Amount of up to \$ \_\_\_\_\_ upon a Company Order without any further action by the Company; provided, however, that in the event

that the Company sells any Securities pursuant to the over-allotment option (the "Over-allotment Option") granted pursuant to Section 2 of the Purchase

Agreement, dated \_\_\_\_\_, between the Company and Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, then the Trustee shall authenticate and deliver Securities for original issue in an aggregate Principal Amount of up to \$ \_\_\_\_\_ plus up to \$ \_\_\_\_\_ aggregate Principal Amount of Securities sold pursuant to the Over-allotment Option upon a Company Order. The aggregate Principal Amount of Securities outstanding at any time may not exceed the amount set forth in the foregoing sentence, subject to the proviso set forth therein, except as provided in Section 2.07.

7

Section 2.03. Registrar, Paying Agent and Conversion Agent. The Company shall maintain an office or agency where Securities may be presented for registration of transfer or for exchange ("Registrar"), an office or agency

where Securities may be presented for purchase or payment ("Paying Agent") and

an office or agency where Securities may be presented for conversion ("Conversion Agent"). Registrar shall keep a register of the Securities and of

their transfer and exchange. The Company may have one or more co-registrars, one or more additional paying agents and one or more additional conversion agents. The term Paying Agent includes any additional paying agent. The term Conversion Agent includes any additional conversion agent.

The Company shall enter into an appropriate agency agreement with any Registrar, Paying Agent, Conversion Agent or co-registrar other than the Trustee. The agreement shall implement the provisions of this Indenture that relate to such agent. The Company shall notify the Trustee and the Holders of the name and address of any such agent and of any change in the office or agency referred to in Section 4.05. If the Company fails to maintain a Registrar, Paying Agent or Conversion Agent, the Trustee shall act as such and shall be entitled to appropriate compensation therefor pursuant to Section 7.06. The Company or any Subsidiary or an Affiliate of either of them may act as Paying Agent, Registrar, Conversion Agent or co-registrar.

The Company initially appoints the Trustee as Registrar, Conversion Agent and Paying Agent in connection with the Securities.

The Company initially appoints The Depository Trust Company ("DTC") to act as Depository with respect to the global Securities.

The Company initially appoints the Registrar to act as Securities Custodian with respect to the global Securities.

Section 2.04. Paying Agent To Hold Money and Securities in Trust. In accordance with Section 4.05 and except as otherwise provided herein, prior to or on each due date of payments in respect of any Security, the Company shall deposit with the Paying Agent a sum of money or, if permitted by the terms hereof, securities sufficient to make such payments when so becoming due. The Company shall require each Paying Agent (other than the Trustee) to agree in writing that the Paying Agent shall hold in trust for the benefit of Securityholders or the Trustee all money and securities held by the Paying Agent for the making of payments in respect of the Securities and shall notify the Trustee of any default by the Company in making any such payment. At any time during the continuance of any default by the Company in making any payments in respect of the Securities, the Paying Agent shall, upon the written request of the Trustee, forthwith pay to the Trustee all money and securities so held in

trust. If the Company, a Subsidiary or an Affiliate of either of them acts as Paying Agent, it shall segregate the money and securities held by it as Paying Agent and hold it as a separate trust fund. The Company at any time may require a Paying Agent to pay all money and securities held by it to the Trustee and to account for any money and securities disbursed by it. Upon doing so, the Paying Agent shall have no further liability for the money and securities.

8

Section 2.05. Securityholder Lists. The Trustee shall preserve in as

-----  
current a form as is reasonably practicable the most recent list available to it of the names and addresses of Securityholders. If the Trustee is not the Registrar, the Company shall furnish or cause to be furnished to the Trustee (i) at least semiannually on \_\_\_\_\_, and \_\_\_\_\_, a list of the names and addresses of Securityholders dated within 15 days of the date on which the list is furnished and (ii) at such other times as the Trustee may request in writing a list, in such form and as of such date as the Trustee may reasonably require, of the names and addresses of Securityholders.

Section 2.06. Transfer and Exchange. Upon surrender for registration of

-----  
transfer of any Security, together with a written instrument of transfer reasonably satisfactory to the Trustee duly executed by the Securityholder or such Securityholder's attorney duly authorized in writing, at the office or agency of the Company designated as Registrar or co-registrar pursuant to Section 2.03 or at the office or agency referred to in Section 4.05, the Company shall execute, and the Trustee shall authenticate and deliver, in the name of the designated transferee or transferees, one or more new Securities of any authorized denomination or denominations, of a like aggregate Principal Amount. The Company shall not charge a service charge for any registration of transfer or exchange, but the Company may require payment of a sum sufficient to pay all taxes, assessments or other governmental charges that may be imposed in connection with the transfer or exchange of the Securities from the Securityholder requesting such transfer or exchange (other than any exchange of a temporary Security for a definitive Security not involving any change in ownership).

At the option of the Holder, Securities may be exchanged for other Securities of any authorized denomination or denominations, of a like aggregate Principal Amount, upon surrender of the Securities to be exchanged, together with a written instrument of transfer reasonably satisfactory to the Registrar duly executed by the Securityholder or such Securityholder's attorney duly authorized in writing, at such office or agency. Whenever any Securities are so surrendered for exchange, the Company shall execute, and the Trustee shall authenticate and deliver, the Securities which the Holder making the exchange is entitled to receive.

The Company shall not be required to make, and the Registrar need not register, transfers or exchanges of (a) Securities selected for redemption (except, in the case of Securities to be redeemed in part, the portion thereof not to be redeemed), (b) any Securities in respect of which a Purchase Notice or a Change in Control Purchase Notice has been given and not withdrawn by the Holder thereof in accordance with the terms of this Indenture (except, in the case of Securities to be purchased in part, the portion thereof not to be purchased) or (c) any Securities for a period of 15 days before the mailing of a notice of redemption.

Notwithstanding any provision to the contrary herein, so long as a global Security remains outstanding and is held by or on behalf of the Depositary, transfers of a global Security, in whole or in part, shall be made only in accordance with Section 2.11 and this Section 2.06. Transfers of a global Security shall be limited to transfers of such global Security in whole, or in part, to nominees of the Depositary or to a successor of the Depositary or such successor's nominee.

9

Section 2.07. Replacement Securities. If (a) any mutilated Security is

-----  
surrendered to the Company or the Trustee, or (b) the Company and the Trustee receive evidence to their satisfaction of the destruction, loss or theft of any Security, and there is delivered to the Company and the Trustee such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the Company or the Trustee that such Security has been acquired by a bona fide purchaser, the Company shall execute, and upon its

-----  
written request the Trustee shall authenticate and deliver, in exchange for any such mutilated Security or in lieu of any such destroyed, lost or stolen Security, a new Security of like tenor and Principal Amount, bearing a number not contemporaneously outstanding.

In case any such mutilated, destroyed, lost or stolen Security has become or is about to become due and payable, or is about to be purchased by the Company pursuant to Article 3 hereof, the Company in its discretion may, instead

of issuing a new Security, pay or purchase such Security, as the case may be.

Upon the issuance of any new Securities under this Section, the Company may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Trustee) in connection therewith.

Every new Security issued pursuant to this Section in lieu of any mutilated, destroyed, lost or stolen Security shall constitute an original additional contractual obligation of the Company, whether or not the destroyed, lost or stolen Security shall be at any time enforceable by anyone, and shall be entitled to all benefits of this Indenture equally and proportionately with any and all other Securities duly issued hereunder.

The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Securities.

Section 2.08. Outstanding Securities; Determinations of Holders' Action.  
-----

Securities outstanding at any time are all the Securities authenticated by the Trustee except for those cancelled by it, those delivered to it for cancellation, mutilated, destroyed, lost or stolen Securities for which the Trustee has authenticated and delivered a new Security in lieu therefor pursuant to Section 2.07, those paid pursuant to Section 2.07, and those described in this Section 2.08 as not outstanding. A Security does not cease to be outstanding because the Company or an Affiliate thereof holds the Security; provided, however, that in determining whether the Holders of the requisite

-----  
Principal Amount of Securities have given or concurred in any request, demand, authorization, direction, notice, consent or waiver hereunder, Securities owned by the Company or any other obligor upon the Securities or any Affiliate of the Company or such other obligor, other than Securities purchased in connection with the distribution or trading thereof, shall be disregarded and deemed not to be outstanding, except that, in determining whether the Trustee shall be protected in relying upon any such request, demand, authorization, direction, notice, consent or waiver, only Securities which the Trustee knows to be so owned shall be so disregarded. Subject to the foregoing, only Securities outstanding at the time of such

determination shall be considered in any such determination (including, without limitation, determinations pursuant to Articles 6 and 9).

If a Security is replaced pursuant to Section 2.07, it ceases to be outstanding unless the Trustee receives proof reasonably satisfactory to it that the replaced Security is held by a bona fide purchaser.

If the Paying Agent holds, in accordance with this Indenture, on a Redemption Date, or on the Business Day following a Purchase Date, or on the Business Day following a Change in Control Purchase Date, or at Stated Maturity, money or, if permitted by the terms hereof, securities sufficient to pay the Securities payable on that date, then on and after that date such Securities shall cease to be outstanding and Original Issue Discount and interest, if any (including, if such Securities have been converted to semiannual coupon notes following the occurrence of a Tax Event, interest on such notes), on such Securities shall cease to accrue and all other rights of the Holder shall terminate (other than the right to receive the applicable Redemption Price, Purchase Price or Change in Control Purchase Price, as the case may be, upon delivery of the Security in accordance with the terms of this Indenture); provided, that if such Securities are to be redeemed, notice of such redemption  
-----  
has been duly given pursuant to this Indenture or provision therefor satisfactory to the Trustee has been made.

If a Security is converted in accordance with Article 10, then from and after the Conversion Date such Security shall cease to be outstanding and Original Issue Discount and interest, if any (including, if such Securities have been converted to semiannual coupon notes following the occurrence of a Tax Event, interest on such notes), shall cease to accrue on such Security.

Section 2.09. Temporary Securities. Pending the preparation of definitive  
-----

Securities, the Company may execute, and upon Company Order the Trustee shall authenticate and deliver, temporary Securities which are printed, lithographed, typewritten, mimeographed or otherwise produced, in any authorized denomination, substantially of the tenor of the definitive Securities in lieu of which they are issued and with such appropriate insertions, omissions, substitutions and other variations as the Officers executing such Securities may determine, as conclusively evidenced by their execution of such Securities.

If temporary Securities are issued, the Company will cause definitive Securities to be prepared without unreasonable delay. After the preparation of definitive Securities, the temporary Securities shall be exchangeable for

definitive Securities upon surrender of the temporary Securities at the office or agency of the Company designated for such purpose pursuant to Section 2.03 or 4.05, without charge to the Holder. Upon surrender for cancellation of any one or more temporary Securities the Company shall execute and the Trustee shall authenticate and deliver in exchange therefor a like Principal Amount of definitive Securities of authorized denominations. Until so exchanged the temporary Securities shall in all respects be entitled to the same benefits under this Indenture as definitive Securities.

11

Section 2.10. Cancellation. All Securities surrendered for payment, -----  
redemption or purchase by the Company pursuant to Article 3, conversion pursuant to Article 10, registration of transfer or exchange shall, if surrendered to any person other than the Trustee, be delivered to the Trustee and shall be promptly cancelled by it. The Company may at any time deliver to the Trustee for cancellation any Securities previously authenticated and delivered hereunder which the Company may have acquired in any manner whatsoever, and all Securities so delivered shall be promptly cancelled by the Trustee. No Securities shall be authenticated in lieu of or in exchange for any Securities cancelled as provided in this Section, except as expressly permitted by this Indenture. All cancelled Securities held by the Trustee shall be disposed of by the Trustee in accordance with its standard procedures unless the Company directs by Company Order that the Trustee deliver cancelled Securities to the Company.

Section 2.11. Global Securities.  
-----

(a) Transfer and Exchange of Global Securities. A global  
-----

Security deposited with the Depository pursuant to Section 2.01 shall be transferred to the beneficial owners thereof only if such transfer complies with Section 2.06 and (i) the Depository notifies the Company that it is unwilling or unable to continue as depository for such global Security or if at any time ceases to be a "clearing agency" registered under the Exchange Act and a successor depository is not appointed by the Company within 60 days after such notice, or (ii) an Event of Default has occurred and is continuing with respect to the Securities. In either case, the Company will promptly make available to the Trustee a reasonable supply of Securities in definitive, fully registered form without interest coupons in accordance with the provisions of this Article 2.

Any global Security that is transferable to the beneficial owners thereof pursuant to this Section 2.11 shall be surrendered by the Depository to the Trustee located in the Borough of Manhattan, The City of New York, to be so transferred, in definitive form, in whole or from time to time in part, in denominations of \$1,000 and integral multiples of \$1,000, without charge, and the Trustee shall authenticate and deliver, upon such transfer of each portion of such global Security, an equal aggregate Principal Amount at Stated Maturity of Securities of authorized denominations. Any portion of a global Security transferred pursuant to this Section 2.11 shall be executed, authenticated and delivered only in the denominations specified in the form of Security attached as Exhibit A-I hereto and registered in such names as the Depository shall direct.

Members of, or participants in, the Depository ("Agent Members") shall have no rights under this Indenture with respect to any global Security held on their behalf by the Depository or under the global Security, and the Depository may be treated by the Company, the Trustee and any agent of the Company or the Trustee as the absolute owner of such global Security for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall (A) prevent the Company, the Trustee or any agent of the Company or the Trustee from giving effect to any written certification, proxy or other authorization furnished by the Depository or (B) impair, as

12

between the Depository and its Agent Members, the operation of customary practices governing the exercise of the rights of a holder of any Security.

Subject to the provisions of this Section 2.11(a), the Holder may grant proxies and otherwise authorize any Person, including Agent Members and Persons that may hold interests through Agent Members, to take any action which a Holder is entitled to take under this Indenture or the Securities.

(b) Transfer and Exchange of Securities. Subject to the provisions of  
-----

Section 2.11(a), when Securities are presented by a Holder to the Registrar with a request:

(1) to register the transfer of the Securities; or

(2) to exchange such Securities for an equal principal amount of Securities of other authorized denominations,

the Registrar shall register the transfer or make the exchange as requested; provided, however, that the Securities presented or surrendered for register of transfer or exchange shall be duly endorsed or accompanied by a written instruction of transfer in form satisfactory to the Registrar duly executed by such Holder or by such Holder's attorney, duly authorized in writing.

Section 2.12. CUSIP Numbers. The Company in issuing the Securities may

-----  
use "CUSIP" numbers (if then generally in use), and, if so, the Trustee shall use "CUSIP" numbers in notices of redemption as a convenience to Holders; provided that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Securities or as contained in any notice of a redemption and that reliance may be placed only on the other identification numbers printed on the Securities, and any such redemption shall not be affected by any defect in or omission of such numbers. The Company will promptly notify the Trustee of any change in the CUSIP numbers.

### Article III

#### REDEMPTION AND PURCHASES

Section 3.01. Right to Redeem; Notices to Trustee. The Company, at its

-----  
option, may redeem the Securities for cash in accordance with the provisions set forth in paragraphs 5 and 7 of the Securities (a "Redemption"). If the Company elects to redeem Securities pursuant to paragraph 5 of the Securities, it shall notify the Trustee in writing of the Redemption Date, the Principal Amount of Securities to be redeemed and the Redemption Price.

The Company shall give the notice to the Trustee provided for in this Section 3.01 at least 30 days but not more than 60 days before the Redemption Date (unless a shorter notice shall be satisfactory to the Trustee). If fewer than all the Securities are to be redeemed, the record date relating to such redemption shall be selected by the Company and given to the Trustee, which record date shall not be less than ten days after the date of notice to the Trustee.

13

Section 3.02. Selection of Securities to Be Redeemed. If less than all

-----  
the Securities are to be redeemed, the Trustee shall select the Securities to be redeemed pro rata or by lot or by any other method the Trustee considers fair and appropriate (so long as such method is not prohibited by the rules of any stock exchange on which the Securities are then listed). The Trustee shall make the selection not more than 60 days before the Redemption Date from outstanding Securities not previously called for redemption. The Trustee may select for redemption portions of the Principal Amount of Securities that have denominations larger than \$1,000. Securities and portions of them the Trustee selects shall be in Principal Amounts of \$1,000 or an integral multiple of \$1,000. Provisions of this Indenture that apply to Securities called for redemption also apply to portions of Securities called for redemption. The Trustee shall notify the Company promptly of the Securities or portions of Securities to be redeemed.

If any Security selected for partial redemption is thereafter surrendered for conversion in part before termination of the conversion right with respect to the portion of the Security so selected and prior to such redemption, the converted portion of such Security shall be deemed (so far as may be), solely for purposes of determining the aggregate Principal Amount of Securities to be redeemed by the Company, to be the portion selected for redemption. Securities that have been converted during a selection of Securities to be redeemed may be treated by the Trustee as outstanding for the purpose of such selection. Nothing in this Section 3.02 shall affect the right of any Holder to convert any Security pursuant to Article 10 before the termination of the conversion right with respect thereto.

Section 3.03. Notice of Redemption. At least 30 days but not more than 60

-----  
days before a Redemption Date, the Company shall mail a notice of redemption by first-class mail to each Holder of Securities to be redeemed in the manner provided in Section 12.02.

The notice shall identify the Securities to be redeemed and shall state:

- (a) the Redemption Date;
- (b) the Redemption Price;
- (c) the Conversion Rate;
- (d) the name and address of the Paying Agent and Conversion Agent and

of the office or agency referred to in Section 4.05;

(e) that Securities called for redemption may be converted at any time before the close of business on the Redemption Date;

(f) that Holders who want to convert Securities must satisfy the requirements set forth in paragraph 9 of the Securities;

(g) that Securities called for redemption must be surrendered to the Paying Agent or at the office or agency referred to in Section 4.05 to collect the Redemption Price;

14

(h) the CUSIP number of the Securities;

(i) the Company has the right to pay the Redemption Price in Common Stock or cash and the procedure for notifying the Holders of such election;

(j) if fewer than all the outstanding Securities are to be redeemed, the certificate numbers and Principal Amounts of the particular Securities to be redeemed; and

(k) that, unless the Company defaults in payment of the Redemption Price, Original Issue Discount on Securities called for redemption and interest, if any, will cease to accrue on and after the Redemption Date.

At the Company's written request, the Trustee shall give the notice of redemption in the Company's name and at the Company's expense.

Section 3.04. Effect of Notice of Redemption. Once notice of redemption

-----  
is given, Securities called for redemption become due and payable on the Redemption Date stated in the notice and at the Redemption Price therefor except for Securities that are converted in accordance with the terms of the Securities and this Indenture. Upon the later of the Redemption Date and the date such Securities are surrendered to the Paying Agent or at the office or agency referred to in Section 4.05, such Securities called for redemption shall be paid at the Redemption Price therefor.

Section 3.05. Deposit of Redemption Price. Prior to or on the Redemption

-----  
Date, the Company shall deposit with the Paying Agent (or if the Company or a Subsidiary or an Affiliate of either of them is the Paying Agent, shall segregate and hold in trust) money sufficient to pay the Redemption Price of all Securities to be redeemed on that date other than Securities or portions of Securities called for redemption which prior thereto have been delivered by the Company to the Trustee for cancellation. The Paying Agent shall as promptly as practicable return to the Company any money, with interest, if any, thereon (subject to the provisions of Section 7.01(f)), not required for that purpose because of conversion of Securities pursuant to Article 10. If such money is then held by the Company or a Subsidiary or an Affiliate of the Company in trust and is not required for such purpose it shall be discharged from such trust.

Section 3.06. Securities Redeemed in Part. Upon surrender of a Security

-----  
that is redeemed in part, the Company shall execute, and the Trustee shall authenticate and deliver to the Holder, a new Security in an authorized denomination equal in Principal Amount to the unredeemed portion of the Security surrendered.

Section 3.07. Conversion Arrangement on Call for Redemption.

-----  
(a) In connection with any redemption of Securities, the Company may arrange, in lieu of redemption, for the purchase and conversion of any Securities called for redemption by an agreement with one or more investment banks or other purchasers pursuant to which such investment banks or other purchasers (collectively, the "Redemption Purchasers") will purchase from Holders all or a portion of such Securities

15

called for redemption by paying to the Trustee in trust for the Securityholders whose Securities are to be so purchased, on or before the close of business on the Redemption Date, an amount that, together with any amounts deposited with the Trustee by the Company for redemption of such Securities, is not less than the Redemption Price, together with interest, if any, accrued to the Redemption Date, of such Securities.

(b) Notwithstanding anything to the contrary contained in this Article 3, the obligation of the Company to pay the Redemption Price of

such Securities, including all accrued interest, if any, shall be deemed to be satisfied and discharged to the extent such amount is so paid by such Redemption Purchasers but no such agreement shall relieve the Company of its obligation to pay such Redemption Price and such accrued interest, if any, to Securityholders. If such an agreement is entered into, any Securities not duly surrendered for conversion by the Holders thereof may, at the option of the Company, be deemed, to the fullest extent permitted by law, acquired by such Redemption Purchasers from such Holders and (notwithstanding anything to the contrary contained in Article 11) surrendered by such Redemption Purchasers for conversion, all as of immediately prior to the close of business on the Redemption Date, subject to payment of the Redemption Price as specified herein. The Trustee shall hold and pay to the Holders whose Securities are selected for redemption any such amount paid to it for purchase and conversion in the same manner as it would moneys deposited with it by the Company for the redemption of Securities.

(c) Without the Trustee's prior written consent, no arrangement between the Company and such Redemption Purchasers for the purchase and conversion of any Securities shall increase or otherwise affect any of the powers, duties, responsibilities or obligations of the Trustee as set forth in this Indenture, and the Company agrees to indemnify the Trustee from, and hold it harmless against, any loss, liability or expense arising out of or in connection with any such arrangement for the purchase and conversion of any Securities between the Company and such Redemption Purchasers, including the costs and expenses incurred by the Trustee in the defense of any claim or liability arising out of or in connection with the exercise or performance of any of its powers, duties, responsibilities or obligations under this Indenture other than resulting from the Trustee's gross negligence or willful misconduct.

Section 3.08. Purchase of Securities at the Option of the Holder.  
-----

(a) General. Securities shall be purchased by the Company  
-----

pursuant to paragraph 6 of the Securities as of \_\_\_\_\_ and \_\_\_\_\_ (each, a "Purchase Date"), at the purchase price specified therein (the "Purchase Price"), at the option of the Holder thereof, upon :

(1) delivery to the Paying Agent or to the office or agency referred to in Section 4.05 by the Holder of a written notice of purchase (a "Purchase Notice") at any time from the opening of business on the date that is 20 Business Days prior to the Purchase Date until the close of business on the Purchase Date stating:

16

(A) the certificate number of the Security that the Holder will deliver to be purchased;

(B) the portion of the Principal Amount of the Security which the Holder will deliver to be purchased, which portion must be \$1,000 or an integral multiple thereof;

(C) that such Security shall be purchased on the Purchase Date pursuant to the terms and conditions specified in this Indenture and in paragraph 6 of the Securities; and

(D) if the Company elects pursuant to Section 3.08(b) to pay the Purchase Price on the Purchase Date, in whole or in part, in shares of Common Stock, but such portion of the Purchase Price to be paid in Common Stock is ultimately to be paid in cash because any condition in Section 3.08(d) is not satisfied, that such Holder elects (i) to withdraw such Purchase Notice as to some or all of the Securities to which it relates (stating the Principal Amount and certificate numbers of the Securities as to which such withdrawal shall relate), or (ii) to receive cash in respect of the Purchase Price for all Securities subject to such Purchase Notice; and

(2) delivery of such Security prior to, on, or after, the Purchase Date (together with all necessary endorsements) to the Paying Agent at the offices of the Paying Agent or to the office or agency referred to in Section 4.05, such delivery being a condition to receipt by the Holder of the Purchase Price therefor; provided, however, that such Purchase Price

-----  
shall be so paid pursuant to this Section 3.08 only if the Security so delivered conforms in all material respects to the description thereof in the related Purchase Notice.

If a Holder, in such Holder's Purchase Notice and in any written notice of withdrawal delivered by such Holder pursuant to the terms of Section 3.10, fails to indicate such Holder's choice with respect to the election set forth in clause (D) of Section 3.08(a)(1) above, such Holder shall be deemed to have

electd to receive cash in respect of the Purchase Price otherwise payable in Common Stock.

The Company shall purchase from the Holder thereof, pursuant to this Section 3.08, a portion of a Security if the Principal Amount of such portion is \$1,000 or an integral multiple of \$1,000. Provisions of this Indenture that apply to the purchase of all of a Security also apply to the purchase of such portion of such Security.

Any purchase by the Company contemplated pursuant to the provisions hereof shall be consummated by the delivery of the consideration to be received by the Holder promptly following the later of the Purchase Date and the time of delivery of the Security.

Notwithstanding anything herein to the contrary, any Holder delivering to the Paying Agent or the office or agency referred to in Section 4.05 the Purchase Notice contemplated by this Section 3.08(a) shall have the right to withdraw at any time prior to the close of business on the Purchase Date such Purchase Notice by delivery of a written notice of withdrawal to the Paying Agent or such office or agency in accordance with Section 3.10.

17

The Paying Agent shall promptly notify the Company of the receipt by it of any Purchase Notice or written notice of withdrawal thereof.

(b) Company's Right to Elect Manner of Payment of Purchase Price. The

-----  
Securities to be purchased pursuant to Section 3.08(a) may be paid for, at the election of the Company, in cash or Common Stock, or in any combination of cash and Common Stock, subject to the conditions set forth in this Section 3.08. The Company shall designate, in the Company Notice delivered pursuant to Section 3.08(e), whether the Company will purchase the Securities for cash or Common Stock, and, if a combination thereof, the percentages of the Purchase Price of Securities in respect of which it will pay in cash or Common Stock; provided

-----  
that the Company will pay cash in lieu of any fractional interests in Common Stock. For purposes of determining the existence of potential fractional interests, all Securities subject to purchase by the Company held by a Holder shall be considered together (no matter how many separate certificates are to be presented). Each Holder whose Securities are purchased pursuant to this Section 3.08 shall receive the same percentage of cash or Common Stock in payment of the Purchase Price for such Securities, except (i) as provided in Section 3.08(d) with regard to the payment of cash in lieu of fractional shares of Common Stock and (ii) in the event that the Company is unable to purchase the Securities of a Holder or Holders for Common Stock because any necessary qualifications or registrations of the Common Stock under applicable state securities laws cannot reasonably be obtained, the Company may purchase the Securities of such Holder or Holders for cash. The Company may not change its election with respect to the consideration (or components or percentages thereof) to be paid once the Company has given the Company Notice thereof to Securityholders except pursuant to this Section 3.08(b) or Section 3.08(d).

At least five Business Days before the Company Notice Date (as defined below), the Company shall deliver an Officers' Certificate to the Trustee specifying:

- (1) the manner of payment selected by the Company;
- (2) the information required by Section 3.08(e);
- (3) that the conditions to such manner of payment set forth in Section 3.08(d) have or will be complied with; and
- (4) whether the Company desires the Trustee to give the notice required by Section 3.08(e).

(c) Purchase with Cash. On each Purchase Date, at the option of the

-----  
Company, the Principal Amount of the Securities in respect of which a Purchase Notice pursuant to Section 3.08(a) has been given, or a specified percentage thereof, may be purchased by the Company with cash equal to the aggregate Purchase Price of such Securities.

(d) Payment by Common Stock. On each Purchase Date, at the option of the

-----  
Company, the Principal Amount of the Securities in respect of which a Purchase

18

Notice pursuant to Section 3.08(a) has been given, or a specified percentage thereof, may be purchased by the Company by the issuance of a number of shares of Common Stock equal to the quotient obtained by dividing (i) the amount of cash to which the Securityholders would have been entitled had the Company elected to pay all or such specified percentage,

as the case may be, of the Purchase Price of such Securities in cash by (ii) the Market Price of a share of Common Stock, subject to the next succeeding paragraph.

The Company will not issue a fractional share of Common Stock in payment of the Purchase Price. Instead the Company will pay cash for the current market value of any such fractional share. The current market value of a fraction of a share shall be determined by multiplying the Market Price by such fraction and rounding the product to the nearest whole cent, with one-half cent being rounded upward. It is understood that if a Holder elects to have more than one Security purchased, the number of shares of Common Stock shall be based on the aggregate amount of Securities to be purchased. Upon a payment by Common Stock pursuant to the terms hereof, that portion of accrued Original Issue Discount attributable to the period from the Issue Date to the Purchase Date with respect to the purchased Security shall not be cancelled, extinguished or forfeited but rather shall be deemed paid in full to the Holder through the delivery of the Common Stock in exchange for the Security being purchased pursuant to the terms hereof, and the fair market value of such Common Stock (together with any cash payments in lieu of fractional shares of Common Stock) shall be treated as issued, to the extent thereof, first in exchange for the Original Issue Discount accrued through the Purchase Date, and the balance, if any, of the fair market value of such shares of Common Stock shall be treated as issued in exchange for the Issue Price of the Security being purchased pursuant to the provisions hereof.

The Company's right to exercise its election to purchase the Securities pursuant to this Section through the issuance of shares of Common Stock shall be conditioned upon:

(1) the Company's not having given notice of an election to pay entirely in cash and its giving of timely notice of election to purchase all or a specified percentage of the Securities with Common Stock as provided herein;

(2) the registration of the shares of Common Stock to be issued in respect of the payment of the Purchase Price under the Securities Act of 1933, as amended (the "Securities Act") and the Securities Exchange Act of 1934, as amended (the "Exchange Act"), in each case if required unless there exists an applicable exemption to registration thereunder;

(3) any necessary qualification or registration under applicable state securities laws or the availability of an exemption from such qualification and registration with respect to the shares of Common Stock to be issued in respect of the payment of the Purchase Price;

(4) the listing of Common Stock on the Purchase Date on the New York Stock Exchange or other national securities exchange or quotation on the NASDAQ Stock Market; and

19

(5) the receipt by the Trustee of an Officers' Certificate and an Opinion of Counsel each stating that (A) the terms of the issuance of the Common Stock are in conformity with this Indenture and (B) the shares of Common Stock to be issued by the Company in payment of the Purchase Price in respect of Securities have been duly authorized and, when issued and delivered pursuant to the terms of this Indenture in payment of the Purchase Price in respect of the Securities, will be validly issued, fully paid and nonassessable and shall be free of any preemptive rights and any lien or adverse claim (provided that such Opinion of Counsel may state that, insofar as it relates to the absence of such preemptive rights, liens and adverse claims, it is given upon the best knowledge of such counsel), and, in the case of such Officers' Certificate, that conditions (i), (ii), (iii) and (iv) above have been satisfied and, in the case of such Opinion of Counsel, that conditions (ii), (iii) and (iv) above have been satisfied.

Such Officers' Certificate shall also set forth the number of shares of Common Stock to be issued for each \$1,000 Principal Amount of Securities and the Sale Price of a share of Common Stock on each of the seven Business Days prior to the Purchase Date. The Company may elect to pay in Common Stock only if the information necessary to calculate the Market Price is reported in The Wall

Street Journal or another daily newspaper of national circulation. If such

conditions are not satisfied prior to or on the Purchase Date and the Company elected to purchase the Securities pursuant to this Section 3.08 through the issuance of shares of Common Stock, the Company shall pay, without further notice, the Purchase Price in cash.

(e) Notice of Election. The Company shall send a notice of its election (the "Company Notice") to purchase with cash or Common Stock or any combination thereof to each Holder (and to each beneficial owner as required

by applicable law) in the manner provided in Section 11.02. The Company Notice shall be sent to Holders (and to beneficial owners as required by applicable law) on a date not less than 20 Business Days prior to the Purchase Date (such date not less than 20 Business Days prior to the Purchase Date being herein referred to as the "Company Notice Date"). Such Company

-----  
Notice shall state the manner of payment elected and shall contain the following information:

In the event the Company has elected to pay the Purchase Price (or any specified percentage thereof) with Common Stock, the notice shall:

(1) state that each Holder will receive Common Stock with a Market Price determined, in accordance with the terms of this Indenture, as of a specified date prior to the Purchase Date equal to such specified percentage of the Purchase Price of the Securities held by such Holder (except for any cash amount to be paid in lieu of fractional shares);

(2) set forth the method of calculating the Market Price; and

(3) state that because the Market Price of Common Stock will be determined prior to the Purchase Date, Holders will bear the market risk with

20

respect to the value of the Common Stock to be received from the date such Market Price is determined to the Purchase Date.

In any case, each notice shall include a form of Purchase Notice to be completed by the Holder and shall state:

(i) the Purchase Price and Conversion Rate;

(ii) the name and address of the Paying Agent and the Conversion Agent and of the office or agency referred to in Section 4.05;

(iii) that Securities as to which a Purchase Notice has been given may be converted into Common Stock at any time prior to the close of business on the applicable Purchase Date only if the applicable Purchase Notice has been withdrawn in accordance with the terms of this Indenture;

(iv) that Securities must be surrendered to the Paying Agent or to the office or agency referred to in Section 4.05 to collect payment;

(v) that the Purchase Price for any security as to which a Purchase Notice has been given and not withdrawn will be paid promptly following the later of the Purchase Date and the time of surrender of such Security as described in (iv) ;

(vi) the procedures set forth in Section 3.08(a) the Holder must follow to exercise rights under Section 3.08 and a brief description of those rights;

(vii) briefly, the conversion rights of the Securities and that Holders who want to convert Securities must satisfy the requirements set forth in paragraph 9 of the Securities; and

(viii) the procedures for withdrawing a Purchase Notice (including, without limitation, for a conditional withdrawal pursuant to the terms of Section 3.08(a) (1) (D) or Section 3.10).

At the Company's written request, the Trustee shall give such notice in the Company's name and at the Company's expense; provided, however, that, in all cases, the text of such notice shall be prepared by the Company.

Upon determination of the actual number of shares of Common Stock to be issued for each \$1,000 Principal Amount of Securities, the Company promptly will issue a press release and publish such determination on its Website on the World Wide Web and furnish the Trustee with an affidavit of publication.

(f) Covenants of the Company. All shares of Common Stock delivered upon purchase of the Securities shall be newly issued shares or treasury shares, shall be duly authorized, validly issued, fully paid and nonassessable and shall be free from preemptive rights and free of any lien or adverse claim.

21

The Company shall use its reasonable efforts to list or cause to have quoted any shares of Common Stock to be issued to purchase Securities on the principal national securities exchange or over-the-counter or other domestic market on which any other shares of the Common Stock are then listed or quoted. The Company will promptly inform the Trustee in writing of any such listing.

(g) Procedure Upon Purchase. On or before the Purchase Date, the

-----  
Company shall deposit cash (in respect of a cash purchase under Section 3.08(c) or for fractional interests, as applicable) or shares of Common Stock, or any combination thereof, as applicable, at the time and in the manner as provided in Section 3.11, sufficient to pay the aggregate Purchase Price of all Securities to be purchased pursuant to this Section 3.08. As soon as practicable after the later of the Purchase Date and the date such Securities are surrendered to the Paying Agent or at the office or agency referred to in Section 4.05, the Company shall deliver to each Holder entitled to receive Common Stock through the Paying Agent a certificate for the number of full shares of Common Stock issuable in payment of the Purchase Price and cash in lieu of any fractional interests. The person in whose name the certificate for Common Stock is registered shall be treated as a holder of record of such Common Stock on the Business Day following the related Purchase Date. Subject to Section 3.08(d), no payment or adjustment will be made for dividends on the Common Stock the record date for which occurred prior to the Purchase Date.

(h) Taxes. If a Holder of a Security is paid in Common Stock, the

-----  
Company shall pay any documentary, stamp or similar issue or transfer tax due on such issue of shares of Common Stock. However, the Holder shall pay any such tax that is due because the Holder requests the shares of Common Stock to be issued in a name other than the Holder's name. The Paying Agent may refuse to deliver the certificates representing the Common Stock being issued in a name other than the Holder's name until the Paying Agent receives a sum sufficient to pay any tax that will be due because the shares of Common Stock are to be issued in a name other than the Holder's name. Nothing herein shall preclude the Company from withholding or directing the withholding of any tax required by law or regulations.

Section 3.09. Purchase of Securities at Option of the Holder Upon Change  
-----  
in Control.  
-----

(a) If on or prior to \_\_\_\_\_, there shall have occurred a Change in Control, Securities shall be purchased, at the option of the Holder thereof, by the Company at the purchase price specified in paragraph 6 of the Securities (the "Change in Control Purchase Price"), on the date that \_\_\_\_\_  
is 35 Business Days after the occurrence of the Change in Control (the "Change in Control Purchase Date"), subject to satisfaction by or on behalf \_\_\_\_\_  
of the Holder of the requirements set forth in Section 3.09(c).

A "Change in Control" shall be deemed to have occurred at such time after \_\_\_\_\_  
the original issuance of the Securities as either of the following events shall occur:

(1) There shall be consummated any consolidation or merger of the Company pursuant to which the Common Stock would be converted into cash, securities or other property, in each case, other than a consolidation or merger of the Company in which the holders of Common Stock immediately prior to the consolidation or merger have, directly or indirectly, at least a majority of the total voting power in the aggregate of all classes of Capital Stock of the continuing or surviving corporation immediately after such consolidation or merger; or

(2) There is a report filed by any person, including its Affiliates and Associates (other than the Company, any Subsidiary of the Company, or any employee benefit plan of either the Company or any Subsidiary of the Company), on Schedule 13D or 14D-1 (or any successor schedule, form or report) pursuant to the Exchange Act, disclosing that such person (for the purposes of this Section 3.09 only, the term "person" shall include a "person" within the meaning of Section 13(d) (3) or Section 14(d) (2) of the Exchange Act or any successor provision to either of the foregoing) has become the beneficial owner (as the term "beneficial owner" is defined \_\_\_\_\_  
under Rule 13d-3 or any successor rule or regulation promulgated under the Exchange Act) of 50% or more of the total voting power in the aggregate of all classes of Capital Stock of the Company then outstanding normally entitled to vote in elections of directors provided, however, that a person \_\_\_\_\_  
shall not be deemed beneficial owner of, or to own beneficially, (A) any securities tendered pursuant to a tender or exchange offer made by or on behalf of such person or any of such person's Affiliates or Associates until such tendered securities are accepted for purchase or exchange

thereunder, or (B) any securities if such beneficial ownership (1) arises solely as a result of a revocable proxy delivered in response to a proxy or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations under the Exchange Act, and (2) is not also then reportable on Schedule 13D (or any successor schedule, form or report) under the Exchange Act.

Notwithstanding the foregoing provisions of this Section 3.09, a Change in Control shall not be deemed to have occurred if at any time the Company, any Subsidiary, any employee stock ownership plan or any other employee benefit plan of the Company or any Subsidiary, or any person holding Common Stock for or pursuant to the terms of any such employee benefit plan files or becomes obligated to file a report under or in response to Schedule 13D or Schedule 14D-1 (or any successor schedule, form or report) under the Exchange Act disclosing beneficial ownership by it of shares of Common Stock, whether in excess of 50% or otherwise.

"Associate" shall have the meaning ascribed to such term in Rule 12b-2 of -----  
the General Rules and Regulations under the Exchange Act, as in effect on the date hereof.

(b) Within 15 Business Days after the Change in Control, the Company shall mail a written notice of such Change in Control by first-class mail to the Trustee and to each Holder (and to beneficial owners if required by applicable law). The notice

23

shall include a form of Change in Control Purchase Notice to be completed by the Securityholder and shall state:

(1) briefly, the events causing a Change in Control, and the date such Change in Control is deemed to have occurred for purposes of this Section 3.09;

(2) the date by which the Change in Control Purchase Notice pursuant to this Section 3.09 must be given;

(3) the Change in Control Purchase Date;

(4) the Change in Control Purchase Price;

(5) the name and address of the Paying Agent and the Conversion Agent and the office or agency referred to in Section 4.05;

(6) the Conversion Rate and any adjustments thereto;

(7) that Securities as to which a Change in Control Purchase Notice has been given may be converted into Common Stock (or, in lieu thereof, cash, if the Company shall so elect) at any time prior to the close of business on the Change of Control Purchase Date only if the Change in Control Purchase Notice has been withdrawn in accordance with the terms of this Indenture;

(8) that Securities must be surrendered to the Paying Agent or the office or agency referred to in Section 4.05 to collect payment;

(9) that the Change in Control Purchase Price for any Security as to which a Purchase Notice has been duly given and not withdrawn will be paid promptly following the later of the Change in Control Purchase Date and the time of surrender of such Security as described in (8);

(10) the procedures the Holder must follow to exercise rights under this Section 3.09 and a brief description of those rights;

(11) briefly, the conversion rights of the Securities;

(12) that Holders who want to convert Securities must satisfy the requirements set forth in paragraph 9 of the Securities; and

(13) the procedures for withdrawing a Change in Control Purchase Notice.

(c) A Holder may exercise its rights specified in Section 3.09(a) upon delivery of a written notice of purchase (a "Change in Control Purchase Notice") to the -----  
-----

24

Paying Agent or to the office or agency referred to in Section 4.05 at any time prior to the close of business on the Change in Control Purchase Date, stating:

(1) the certificate number of the Security which the Holder will deliver to be purchased;

(2) the portion of the Principal Amount of the Security which the Holder will deliver to be purchased, which portion must be \$1,000 or an integral multiple thereof; and

(3) that such Security shall be purchased on the Change in Control Purchase Date pursuant to the terms and conditions specified in paragraph 6 of the Securities.

Receipt of the Security by the Paying Agent prior to, on or after the Change in Control Purchase Date (together with all necessary endorsements), at the offices of the Paying Agent or to the office or agency referred to in Section 4.05 shall be a condition to the receipt by the Holder of the Change in Control Purchase Price therefor; provided, however, that such Change in Control

Purchase Price shall be so paid pursuant to this Section 3.09 only if the Security so delivered to the Paying Agent or such office or agency shall conform in all material respects to the description thereof set forth in the related Change in Control Purchase Notice.

The Company shall purchase from the Holder thereof, pursuant to this Section 3.09, a portion of a Security if the Principal Amount of such portion is \$1,000 or an integral multiple of \$1,000. Provisions of this Indenture that apply to the purchase of all of a Security also apply to the purchase of such portion of such Security.

Any purchase by the Company contemplated pursuant to the provisions of this Section 3.09 shall be consummated by the delivery of the consideration to be received by the Holder promptly following the later of the Change in Control Purchase Date and the date such Securities are surrendered to the Paying Agent or at the office or agency referred to in Section 4.05.

Notwithstanding anything herein to the contrary, any Holder delivering to the Paying Agent or to the office or agency referred to in Section 4.05 the Change in Control Purchase Notice contemplated by this Section 3.09(c) shall have the right to withdraw such Change in Control Purchase Notice at any time prior to the close of business on the Change in Control Purchase Date by delivery of a written notice of withdrawal to the Paying Agent or to such office or agency in accordance with Section 3.10.

The Paying Agent shall promptly notify the Company of the receipt by it of any Change in Control Purchase Notice or written withdrawal thereof.

Section 3.10. Effect of Purchase Notice or Change in Control Purchase

Notice. Upon receipt by the Paying Agent of the Purchase Notice or Change in

Control Purchase Notice specified in Section 3.08(a) or Section 3.09(c), as applicable, the Holder of the Security in respect of which such Purchase Notice or Change in Control Purchase Notice, as the case may be, was given shall (unless such Purchase Notice or Change in Control Purchase Notice is

withdrawn as specified in the following two paragraphs) thereafter be entitled to receive solely the Purchase Price or Change in Control Purchase Price, as the case may be, with respect to such Security. Such Purchase Price or Change in Control Purchase Price shall be paid to such Holder promptly following the later of (x) the Business Day following the Purchase Date or the Change in Control Purchase Date, as the case may be, with respect to such Security (provided the conditions in Section 3.08(a) or Section 3.09(c), as applicable, have been satisfied) and (y) the time of delivery of such Security to the Paying Agent or to the office or agency referred to in Section 4.05 by the Holder thereof in the manner required by Section 3.08(a) and (g) or Section 3.09(c), as applicable. Securities in respect of which a Purchase Notice or Change in Control Purchase Notice, as the case may be, has been given by the Holder thereof may not be converted into shares of Common Stock on or after the date of the delivery of such Purchase Notice or Change in Control Purchase Notice, as the case may be, unless such Purchase Notice or Change in Control Purchase Notice, as the case may be, has first been validly withdrawn as specified in the following two paragraphs.

A Purchase Notice or Change in Control Purchase Notice, as the case may be, may be withdrawn by means of a written notice of withdrawal delivered to the office of the Paying Agent or to the office or agency referred to in Section 4.05 at any time on or prior to the close of business on the Purchase Date or the Change in Control Purchase Date, as the case may be, specifying:

(a) the certificate number of the Security in respect of which such notice of withdrawal is being submitted;

(b) the Principal Amount of the Security with respect to which such notice of withdrawal is being submitted; and

(c) the Principal Amount, if any, of such Security which remains subject to the original Purchase Notice or Change in Control Purchase Notice, as the case may be, and which has been or will be delivered for purchase by the Company.

A written notice of withdrawal of a Purchase Notice may be in the form set forth in the preceding paragraph or may be in the form of (i) a conditional withdrawal contained in a Purchase Notice pursuant to the terms of Section 3.08(a)(1)(D) or (ii) a conditional withdrawal containing the information set forth in Section 3.08(a)(1)(D) and the preceding paragraph and contained in a written notice of withdrawal delivered to the Paying Agent as set forth in the preceding paragraph.

There shall be no purchase of any Securities pursuant to Section 3.08 (other than through the issuance of Common Stock in payment of the Purchase Price, including cash in lieu of fractional shares of Common Stock) or Section 3.09 if there has occurred (prior to, on or after, as the case may be, the giving, by the Holders of such Securities, of the required Purchase Notice or Change in Control Purchase Notice, as the case may be) and is continuing an Event of Default (other than a default in the payment of the Purchase Price or Change in Control Purchase Price, as the case may be, with respect to such Securities). The Paying Agent will promptly return to the respective Holders thereof any Securities (x) with respect to which a Purchase Notice or

26

Change in Control Purchase Notice, as the case may be, has been withdrawn in compliance with this Indenture, or (y) held by it during the continuance of an Event of Default (other than a default in the payment of the Purchase Price or Change in Control Purchase Price, as the case may be, with respect to such Securities) in which case, upon such return, the Purchase Notice or Change in Control Purchase Notice with respect thereto shall be deemed to have been withdrawn.

Section 3.11. Deposit of Purchase Price or Change in Control Purchase

Price. Prior to \_\_\_\_ .m. (local time in The City of New York) on the Business

Day following the Purchase Date or the Change in Control Purchase Date, as the case may be, the Company shall deposit with the Trustee or with the Paying Agent (or, if the Company or a Subsidiary or an Affiliate of either of them is acting as Paying Agent, shall segregate and hold in trust as provided in Section 2.04) an amount of cash in immediately available funds or securities, if expressly permitted hereunder, sufficient to pay the aggregate Purchase Price or Change in Control Purchase Price, as the case may be, of all the Securities or portions thereof which are to be purchased as of the Purchase Date or Change in Control Purchase Date, as the case may be.

Section 3.12. Securities Purchased in Part. Any Security which is to be

purchased only in part shall be surrendered at the office of the Paying Agent or the office or agency referred to in Section 4.05 (with, if the Company or the Trustee so requires, due endorsement, or a written instrument of transfer in form satisfactory to the Company and the Trustee executed by the Holder or such Holder's attorney duly authorized in writing) and the Company shall execute and the Trustee shall authenticate and deliver to the Holder of such Security, without service charge, a new Security or Securities, of any authorized denomination as requested by such Holder in aggregate Principal Amount equal to, and in exchange for, the portion of the Principal Amount of the Security so surrendered which is not purchased.

Section 3.13. Covenant to Comply With Securities Laws Upon Purchase of

Securities. In connection with any offer to purchase or purchase of Securities

under Section 3.08 or 3.09 hereof, the Company shall (i) comply with Rule 13e-4 and Rule 14e-1 under the Exchange Act, if applicable, (ii) file the related Schedule 13E-4 (or any successor schedule, form or report) under the Exchange Act, if applicable, and (iii) otherwise comply with all Federal and state securities laws regulating the offer and delivery of shares of Common Stock upon purchase of the Securities (including positions of the SEC under applicable no-action letters) so as to permit the rights and obligations under Sections 3.08 and 3.09 to be exercised in the time and in the manner specified in Sections 3.08 and 3.09.

Section 3.14. Repayment to the Company. The Trustee and the Paying Agent

shall return to the Company any cash or shares of Common Stock, together with interest on such cash, if any, or dividends on such shares of Common Stock, if any, (subject to the provisions of Section 7.01(f)) held by them for the payment of a Purchase Price or Change in Control Purchase Price, as the case may be, of

the Securities that remain unclaimed as provided in paragraph 13 of the Securities; provided, however, that to the extent that the aggregate amount of

-----  
cash (including interest) or shares of Common Stock (including dividends received thereon, if any) deposited by the Company pursuant to Section 3.11 exceeds the aggregate Purchase Price or Change in Control Purchase Price, as the case may be, of the Securities or portions thereof to be purchased,

27

then promptly after the Business Day following the Purchase Date or Change in Control Purchase Date, as the case may be, the Trustee shall return any such excess to the Company together with interest or dividends, if any, thereon (subject to the provisions of Section 7.01(f)).

Any cash deposited with the Trustee or with the Paying Agent pursuant to Section 3.11 hereof, shall be invested by the Trustee or Paying Agent, as applicable, in short term obligations of, or fully guaranteed by, the United States of America, or commercial paper rated A-1 or better by Standard and Poor's Corporation or P-1 or better by Moody's Investors Service, Inc. as specifically directed in writing by the Company. If the Company fails to so direct the Trustee in writing, the Trustee may invest any cash deposited with it in money market funds (including funds of the Trustee and its affiliates for which they may receive compensation). Interest earned on such investments shall be repaid to the Company pursuant to this Section 3.14. Except as provided for in this Section 3.14, the Trustee shall be under no liability for interest on any money received by it pursuant to this Indenture.

#### Article IV

##### COVENANTS

Section 4.01. Payment of Securities. The Company shall promptly make all  
-----  
payments in respect of the Securities on the dates and in the manner provided in the Securities or pursuant to this Indenture. Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price, Change in Control Purchase Price and interest, if any, shall be considered paid on the applicable date due if on such date the Trustee or the Paying Agent holds, in accordance with this Indenture, cash or securities, if expressly permitted hereunder, sufficient to pay all such amounts then due.

The Company shall, to the extent permitted by law, pay interest on overdue amounts at the per annum rate of interest set forth in paragraph 1 of the Securities, compounded semi-annually, which interest on overdue amounts (to the extent payment of such interest shall be legally enforceable) shall accrue from the date such overdue amounts were originally due and payable.

Section 4.02. SEC Reports. The Company shall file with the Trustee,  
-----  
within 15 days after it files such annual and quarterly reports, information, documents and other reports with the SEC, copies of its annual and quarterly reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may by rules and regulations prescribe) which the Company is required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act (or any such successor provisions thereto). The Company also shall comply with the other provisions of TIA Section 314(a), to the extent such provisions are applicable.

Section 4.03. Compliance Certificate; Notice of Defaults.  
-----

(a) The Company shall deliver to the Trustee within 120 days after the end of each fiscal year of the Company (beginning with the fiscal year ending on ) a

28

certificate of the principal executive officer, the principal financial officer or the principal accounting officer of the Company stating whether or not, to the knowledge of the signer, the Company has complied with all conditions and covenants on its part contained in this Indenture and, if the signer has obtained knowledge of any default by the Company in the performance, observance or fulfillment of any such condition or covenant, specifying each such default and the nature thereof. For the purpose of this Section 4.03, compliance shall be determined without regard to any grace period or requirement of notice provided pursuant to the terms of this Indenture.

(b) The Company shall file with the Trustee written notice of the occurrence of any Default or Event of Default within five Business Days of its becoming aware of such Default or Event of Default.

Section 4.04. Further Instruments and Acts. Upon request of the Trustee,  
-----  
the Company will execute and deliver such further instruments and do such

further acts as may be reasonably necessary or proper to carry out more effectively the purposes of this Indenture.

Section 4.05. Maintenance of Office or Agency. The Company will maintain

-----  
in the Borough of Manhattan, The City of New York, in such location as may be required by the rules of any securities exchange or quotation system on which the Securities may from time to time be listed, an office or agency where Securities may be presented or surrendered for payment, where Securities may be surrendered for registration of transfer, exchange, purchase, redemption or conversion and where notices and demands to or upon the Company in respect of the Securities and this Indenture may be served. The office of the Trustee in The City of New York, which office on the date hereof is located at \_\_\_\_\_, shall be such office or agency for all of the aforesaid purposes unless the Company shall maintain some other office or agency for such purposes and shall give prompt written notice to the Trustee of the location, and any change of location, of such other office or agency. If at any time the Company shall fail to maintain any such required office or agency or shall fail to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the address of the Trustee set forth in Section 12.02.

The Company may also from time to time designate one or more other offices or agencies where the Securities may be presented or surrendered for any or all such purposes and may from time to time rescind such designations; provided,

-----  
however, that no such designation or rescission shall in any manner relieve the

-----  
Company of its obligation to maintain an office or agency in The City of New York, for such purposes.

Section 4.06. Calculation of Original Issue Discount. The Company shall

-----  
file with the Trustee, within 30 days following the end of each calendar year, a written notice specifying (i) the amount of Original Issue Discount (including the daily rates and accrual periods) accrued on outstanding Securities as of the end of such year and (ii) such other specific information relating to such Original Issue Discount as may then be relevant under the Internal Revenue Code of 1986, as amended from time to time.

29

## Article V

### SUCCESSOR CORPORATION

Section 5.01. When Company May Merge or Transfer Assets. The Company may

-----  
consolidate with, or sell, lease or convey all or substantially all of its properties and assets to, or merge with or into any other corporation, provided

-----  
that in any such case:

(a) either the Company shall be the continuing corporation or the successor corporation shall be a corporation organized and existing under the laws of the United States or any State thereof and such successor corporation shall expressly assume, by an indenture supplemental hereto, executed and delivered to the Trustee, in form satisfactory to the Trustee, the due and punctual payment of all amounts payable with respect to all the Securities, according to their terms, and the due and punctual performance and observance of all of the covenants, conditions and obligations to be performed by the Company under the Securities and this Indenture; and

(b) immediately after giving effect to such merger or consolidation or such sale, lease or conveyance, and the assumption contemplated above, the Company or such successor corporation shall not be in default in the performance of any such covenant, condition or obligation.

In the case of any such consolidation, merger, sale, lease or conveyance and upon any such assumption by the successor corporation, such successor corporation shall succeed to, and be substituted for, and may exercise every right and power of, the Company under this Indenture with the same effect as if such successor had been named as the Company herein; and thereafter, except in the case of a lease of its properties and assets substantially as an entirety, the Company shall be relieved of any further obligation under this Indenture and the Securities. Such successor corporation thereupon may cause to be signed, and may issue either in its own name or in the name of the Company, any or all of the Securities issuable hereunder which theretofore shall not have been signed by the Company and delivered to the Trustee; and, upon the order of such successor corporation, instead of the Company, and subject to all the terms, conditions and limitations in this Indenture prescribed, the Trustee shall authenticate and shall deliver any Securities which previously shall have been signed and delivered by the officers of the Company to the Trustee for

authentication, and any Securities which such successor corporation thereafter shall cause to be signed and delivered to the Trustee for that purpose. All the Securities so issued shall in all respects have the same legal rank and benefit under this Indenture as the Securities theretofore or thereafter issued in accordance with the terms of this Indenture as though all of such Securities had been issued at the date of the execution hereof.

In case of any such consolidation, merger, sale, lease or conveyance, such changes in phraseology and form (but not in substance) may be made in the Securities thereafter to be issued as may be appropriate.

30

The Trustee, subject to Section 7.01, may receive an Officers' Certificate and an Opinion of Counsel as conclusive evidence that any such consolidation, merger, sale, lease or conveyance, and any such assumption, complies with the provisions of this Article.

#### Article VI

##### DEFAULTS AND REMEDIES

Section 6.01. Events of Default. An "Event of Default" occurs if:

-----

(a) after exercise of its option pursuant to Section 11.01 following a Tax Event, the Company defaults on the payment of interest upon any Security when such interest becomes due and payable, and such default continues for a period of 30 days;

(b) the Company defaults in the payment of the Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price or Change in Control Purchase Price on any Security when the same becomes due and payable at its Stated Maturity, upon redemption, upon declaration, when due for purchase by the Company or otherwise, whether or not such payment shall be prohibited by this Indenture;

(c) the Company fails to comply with any of its agreements in the Securities or this Indenture (other than those referred to in clauses (a) and (b) above) and such failure continues for 60 days after receipt by the Company of a Notice of Default;

(d) the Company, pursuant to or within the meaning of any Bankruptcy Law:

(1) commences a voluntary case or proceeding;

(2) consents to the entry of an order for relief against it in an involuntary case or proceeding or the commencement of any case against it;

(3) consents to the appointment of a Custodian of it or for any substantial part of its property;

(4) makes a general assignment for the benefit of its creditors;

(5) files a petition in bankruptcy or answer or consent seeking reorganization or relief; or

(6) consents to the filing of such petition or the appointment of or taking possession by a Custodian;

31

(e) a court of competent jurisdiction enters an order or decree under any Bankruptcy Law that:

(1) is for relief against the Company in an involuntary case or proceeding, or adjudicates the Company insolvent or bankrupt;

(2) appoints a Custodian of the Company or for any substantial part of its property; or

(3) orders the winding up or liquidation of the Company; and the order or decree remains unstayed and in effect for 60 days; or

(4) the Company fails to deliver shares of Common Stock (and cash in lieu of fractional shares) or cash in lieu of shares of Common Stock in accordance with the terms hereof when such Common Stock (and cash in lieu of fractional shares) or cash is required to be delivered, upon conversion of a Security and such failure is not remedied for a period of 10 days.

A Default under clause (c) above is not an Event of Default until the

Trustee notifies the Company, or the Holders of at least 25% in aggregate Principal Amount of the Securities at the time outstanding notify the Company and the Trustee, of the Default and the Company does not cure such Default within the time specified in clause (c) above after receipt of such notice. Any such notice must specify the Default, demand that it be remedied and state that such notice is a "Notice of Default."

The Company shall deliver to the Trustee, within 30 days after it becomes aware of the occurrence thereof, written notice of any event which with the giving of notice and the lapse of time or both would become an Event of Default under clause (c), its status and what action the Company is taking or proposes to take with respect thereto.

Section 6.02. Acceleration. If an Event of Default (other than an Event -----  
of Default specified in Section 6.01(d) or (e)) occurs and is continuing, unless the Principal Amount of all the Securities shall have already become due and payable, either the Trustee by notice to the Company, or the Holders of at least 25% in aggregate Principal Amount of the Securities at the time outstanding by notice to the Company and the Trustee, may declare the Issue Price and accrued Original Issue Discount (or if the Securities have been converted to a semiannual coupon note following a Tax Event, the Restated Principal Amount, plus accrued and unpaid interest) through the date of declaration on all the Securities to be immediately due and payable, whereupon such Issue Price and accrued Original Issue Discount shall be due and payable immediately; provided that, if an Event of Default specified in Section 6.01(d) or (e) occurs and is continuing, the Issue Price and accrued Original Issue Discount (or if the Securities have been converted to a semiannual coupon note following a Tax Event, the Restated Principal Amount, plus accrued and unpaid interest) on all the Securities to the date of the occurrence of such Event of Default shall become and be immediately due and payable without any declaration or other act on the part of

32

the Trustee or any Securityholders. The Holders of a majority in aggregate Principal Amount of the Securities at the time outstanding, by notice to the Trustee (and without notice to any other Securityholder) may rescind an acceleration and its consequences if the rescission would not conflict with any judgment or decree and if all existing Events of Default have been cured or waived except nonpayment of the Issue Price and accrued Original Issue Discount (or accrued and unpaid interest) that have become due solely as a result of acceleration and if all amounts due to the Trustee under Section 7.06 have been paid. No such rescission shall affect any subsequent Default or impair any right consequent thereto.

Section 6.03. Other Remedies. If an Event of Default occurs and is -----  
continuing, the Trustee may pursue any available remedy to collect the payment of the Issue Price and accrued Original Issue Discount on the Securities or to enforce the performance of any provision of the Securities or this Indenture.

The Trustee may maintain a proceeding even if the Trustee does not possess any of the Securities or does not produce any of the Securities in the proceeding. A delay or omission by the Trustee or any Securityholder in exercising any right or remedy accruing upon an Event of Default shall not impair the right or remedy or constitute a waiver of, or acquiescence in, the Event of Default. No remedy is exclusive of any other remedy. All available remedies are cumulative.

Section 6.04. Waiver of Past Defaults. The Holders of a majority in -----  
aggregate Principal Amount of the Securities at the time outstanding, by notice to the Trustee (and without notice to any other Securityholder), may waive an existing Default and its consequences except (a) an Event of Default described in Section 6.01(b), (b) a Default in respect of a provision that under Section 9.02 cannot be amended without the consent of each Securityholder affected or (c) a Default under Article 11. When a Default is waived, it is deemed cured and shall cease to exist, but no such waiver shall extend to any subsequent or other Default or impair any consequent right.

Section 6.05. Control by Majority. The Holders of a majority in aggregate -----  
Principal Amount of the Securities at the time outstanding may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or this Indenture or that the Trustee determines in good faith is unduly prejudicial to the rights of other Securityholders or would involve the Trustee in personal liability unless the Trustee shall have been provided with reasonable security or indemnity against such liability satisfactory to the Trustee.

Section 6.06. Limitation on Suits. A Securityholder may not pursue any -----  
remedy with respect to this Indenture or the Securities unless:

(a) the Holder gives to the Trustee written notice stating that an Event of Default is continuing;

33

(b) the Holders of at least 25% in aggregate Principal Amount of the Securities at the time outstanding make a written request to the Trustee to pursue the remedy;

(c) such Holder or Holders offer to the Trustee reasonable security or indemnity against any loss, liability or expense satisfactory to the Trustee;

(d) the Trustee does not comply with the request within 60 days after receipt of the notice, the request and the offer of security or indemnity; and

(e) the Holders of a majority in aggregate Principal Amount of the Securities at the time outstanding do not give the Trustee a direction inconsistent with the request during such 60-day period.

A Securityholder may not use this Indenture to prejudice the rights of any other Securityholder or to obtain a preference or priority over any other Securityholder.

Section 6.07. Rights of Holders to Receive Payment. Notwithstanding any

-----  
other provision of this Indenture, the right of any Holder to receive payment of the Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price, Change in Control Purchase Price or interest, if any, in respect of the Securities held by such Holder, on or after the respective due dates expressed in the Securities or any Redemption Date, and to convert the Securities in accordance with Article 10 or to bring suit for the enforcement of any such payment on or after such respective dates or the right to convert, shall not be impaired or affected adversely without the consent of each such Holder.

Section 6.08. Collection Suit by Trustee. If an Event of Default

-----  
described in Section 6.01(2) occurs and is continuing, the Trustee may recover judgment in its own name and as trustee of an express trust against the Company for the whole amount owing with respect to the Securities and the amounts provided for in Section 7.06.

Section 6.09. Trustee May File Proofs of Claim. In case of the pendency

-----  
of any receivership, insolvency, liquidation, bankruptcy, reorganization, arrangement, adjustment, composition or other judicial proceeding relative to the Company or any other obligor upon the Securities or the property of the Company or of such other obligor or their creditors, the Trustee (irrespective of whether the Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price, Change in Control Purchase Price or interest, if any, in respect of the Securities shall then be due and payable as therein expressed or by declaration or otherwise and irrespective of whether the Trustee shall have made any demand on the Company for the payment of any such amount) shall be entitled and empowered, by intervention in such proceeding or otherwise:

(a) to file and prove a claim for the whole amount of the Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price, Change in Control Purchase Price or interest, if any, and to file such other papers or documents as may be necessary or advisable in order to have the claims of the Trustee (including any claim for the reasonable compensation,

34

expenses, disbursements and advances of the Trustee, its agents and counsel) and of the Holders allowed in such judicial proceeding; and

(b) to collect and receive any moneys or other property payable or deliverable on any such claims and to distribute the same;

and any Custodian, receiver, assignee, trustee, liquidator, sequestrator or similar official in any such judicial proceeding is hereby authorized by each Holder to make such payments to the Trustee and, in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay the Trustee any amount due it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.06.

Nothing herein contained shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of

reorganization, arrangement, adjustment or composition affecting the Securities or the rights of any Holder thereof, or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding.

Section 6.10. Priorities. If the Trustee collects any money pursuant to  
-----  
this Article 6, it shall pay out the money in the following order:

FIRST: to the Trustee for amounts due under Section 7.06;

SECOND: to Securityholders for amounts due and unpaid on the Securities for the Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price, Change in Control Purchase Price or interest, if any, as the case may be, ratably, without preference or priority of any kind, according to such amounts due and payable on the Securities; and

THIRD: the balance, if any, to the Company.

The Trustee may fix a record date and payment date for any payment to Securityholders pursuant to this Section 6.10. At least 15 days before such record date, the Company shall mail to each Securityholder and the Trustee a notice that states the record date, the payment date and amount to be paid.

Section 6.11. Undertaking for Costs. In any suit for the enforcement of  
-----  
any right or remedy under this Indenture or in any suit against the Trustee for any action taken or omitted by it as Trustee, a court in its discretion may require the filing by any party litigant (other than the Trustee) in the suit of an undertaking to pay the costs of the suit, and the court in its discretion may assess reasonable costs, including reasonable attorneys' fees, against any party litigant in the suit, having due regard to the merits and good faith of the claims or defenses made by the party litigant. This Section 6.11 does not apply to a suit initiated by the Trustee, a suit by a Holder pursuant to Section 6.07 or a suit by Holders of more than 10% in aggregate Principal Amount of the Securities at the time outstanding.

35

Section 6.12. Notice of Defaults. The Trustee shall, within 90 days after  
-----  
the occurrence of any Default, mail to all Holders of Securities, as the names and addresses of such Holders appear on the books of registry of the Company, notice of all Defaults of which the Trustee shall be aware, unless such Defaults shall have been cured or waived before the giving of such notice; provided that, except in the case of a Default described in Section 6.01(1) or 6.01(2), the Trustee shall be protected in withholding such notice if and so long as the board of directors, the executive committee, or a trust committee of directors or Trust Officers of the Trustee in good faith determines that the withholding of such notice is in the interests of the Holders of Securities.

Section 6.13. Waiver of Stay, Extension or Usury Laws. The Company  
-----  
covenants (to the extent it may lawfully do so) that it shall not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay or extension law or any usury or other law, wherever enacted, now or at any time hereafter in force, that would prohibit or forgive the Company from paying all or any portion of the Principal Amount, Issue Price, accrued Original Issue Discount, Redemption Price, Purchase Price or Change in Control Purchase Price in respect of the Securities, or any interest on any such amounts, as contemplated herein, or that may affect the covenants or the performance of this Indenture or the Securities; and the Company (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

## Article VII

### TRUSTEE

Section 7.01. Rights of Trustee.  
-----

(a) The Trustee may rely on any document believed by it to be genuine and to have been signed or presented by the proper person. The Trustee need not investigate any fact or matter stated in the document.

(b) Before the Trustee acts or refrains from acting, it may require an Officers' Certificate or an Opinion of Counsel. The Trustee shall not be liable for any action it takes or omits to take in good faith in reliance on such Officers' Certificate or Opinion of Counsel.

(c) The Trustee may act through agents and shall not be responsible for the misconduct or negligence of any agent appointed with

due care.

(d) The Trustee shall not be liable for any action it takes or omits to take in good faith which it believes to be authorized or within its rights or powers.

36

(e) The Trustee may refuse to perform any duty or exercise any right or power or extend or risk its own funds or otherwise incur any financial liability unless it receives indemnity satisfactory to it against any loss, liability or expense.

(f) Money held by the Trustee in trust hereunder need not be segregated from other funds except to the extent required by law. The Trustee (acting in any capacity hereunder) shall be under no liability for interest on any money received by it hereunder.

Section 7.02. Individual Rights of Trustee. The Trustee in its individual

-----  
or any other capacity may become the owner or pledgee of Securities and may otherwise deal with the Company or its Affiliates with the same rights it would have if it were not Trustee. Any Paying Agent, Registrar, Conversion Agent or co-registrar may do the same with like rights. However, the Trustee must comply with Sections 7.09 and 7.10.

Section 7.03. Trustee's Disclaimer. The Trustee makes no representation

-----  
as to the validity or adequacy of this Indenture or the Securities, it shall not be accountable for the Company's use of the proceeds from the Securities, it shall not be responsible for any statement in the registration statement for the Securities under the Securities Act or in the Indenture or the Securities (other than its certificate of authentication), or the determination as to which beneficial owners are entitled to receive any notices hereunder.

Section 7.04. Notice of Defaults. The Trustee shall, within 90 days after

-----  
the occurrence of any Default, mail to all Holders of Securities, as the names and addresses of such Holders appear on the books of registry of the Company, notice of all Defaults of which the Trustee shall be aware, unless such Defaults shall have been cured or waived before the giving of such notice; provided that,

-----  
except in the case of a Default described in Section 6.01(1) or 6.01(2), the Trustee shall be protected in withholding such notice if and so long as the board of directors, the executive committee, or a trust committee of directors or Trust Officers of the Trustee in good faith determines that the withholding of such notice is in the interests of the Holders of Securities.

Section 7.05. Reports by Trustee to Holders. Within 60 days after each

-----  
May 15 beginning with the May 15 following the date of this Indenture, the Trustee shall mail to each Securityholder a brief report dated as of such May 15 that complies with TIA Section 313(a), if required by said Section. The Trustee also shall comply with TIA Section 313(b).

A copy of each report at the time of its mailing to Securityholders shall be provided to the Company and shall be submitted to the SEC and each stock exchange on which the Securities are listed. The Company agrees promptly to notify the Trustee whenever the Securities become listed on any stock exchange and of any delisting thereof.

Section 7.06. Compensation and Indemnity. The Company agrees:

-----  
(a) to pay to the Trustee from time to time such reasonable compensation for all services rendered by it hereunder (which compensation shall not (to the extent

37

permitted by law) be limited by any provision of law in regard to the compensation of a trustee of an express trust);

(b) to reimburse the Trustee upon its request and, if required by the Company, submission of reasonable documentation for all reasonable expenses, disbursements and advances incurred or made by the Trustee in accordance with any provision of this Indenture (including the reasonable compensation and the expenses, advances and disbursements of its agents and counsel), except any such expense, disbursement or advance as may be attributable to its negligence or bad faith; and

(c) to indemnify each of the Trustee, its officers, directors, employees and agents, or any predecessor Trustee for, and to hold it harmless against, any and all loss, liability, damage, claim or expense,

including taxes (other than taxes based upon, measured or determined by the income of the Trustee), incurred without negligence or bad faith on its part, arising out of or in connection with the acceptance or administration of this trust, including the reasonable costs and expenses of defending itself against any claim or liability in connection with the exercise or performance of any of its powers or duties hereunder.

The Trustee shall give the Company notice of any claim or liability for which the Trustee might be entitled to indemnification under subparagraph (c) of this Section 7.06, within a reasonable amount of time after a Trust Officer of the Trustee becomes aware of such claim or liability. To secure the Company's payment obligations in this Section 7.06, the Trustee shall have a lien prior to the Securities on all money or property held or collected by the Trustee.

The Company's payment obligations pursuant to this Section 7.06 shall survive the discharge of this Indenture. When the Trustee incurs expenses after the occurrence of a Default specified in Section 6.01(4) or (5), the expenses are intended to constitute expenses of administration under the Bankruptcy Law. The provisions of this Section shall survive the termination of this Indenture.

Section 7.07. Replacement of Trustee. The Trustee may resign by so  
-----  
notifying the Company; provided, however, no such resignation shall be effective  
-----  
until a successor Trustee has accepted its appointment pursuant to this Section 7.07. The Holders of a majority in aggregate Principal Amount of the Securities at the time outstanding may remove the Trustee by so notifying the Trustee and may appoint a successor Trustee (subject to the consent of the Company, such consent not to be unreasonably withheld). The Company shall remove the Trustee if:

- (a) the Trustee fails to comply with Section 7.09;
- (b) the Trustee is adjudged bankrupt or insolvent;
- (c) a receiver or other public officer takes charge of the Trustee or its property; or
- (d) the Trustee otherwise becomes incapable of acting.

If the Trustee resigns or is removed or if a vacancy exists in the office of Trustee for any reason, the Company shall promptly appoint, by resolution of its Board of Directors, a successor Trustee that meets the requirements of Section 7.09.

A successor Trustee shall deliver a written acceptance of its appointment to the retiring Trustee and to the Company. Thereupon the resignation or removal of the retiring Trustee shall become effective, and the successor Trustee shall have all the rights, powers and duties of the Trustee under this Indenture. The successor Trustee shall mail a notice of its succession to Securityholders. The retiring Trustee shall promptly transfer all property held by it as Trustee to the successor Trustee, subject to the lien provided for in Section 7.06.

If a successor Trustee does not take office within 30 days after the retiring Trustee resigns or is removed, the retiring Trustee, the Company or the Holders of a majority in aggregate Principal Amount of the Securities at the time outstanding may petition any court of competent jurisdiction for the appointment of a successor Trustee.

If the Trustee fails to comply with Section 7.09, any Securityholder may petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee.

Section 7.08. Successor Trustee by Merger. If the Trustee consolidates  
-----  
with, merges or converts into, or transfers all or substantially all its corporate trust business or assets to, another corporation, the resulting, surviving or transferee corporation without any further act shall be the successor Trustee.

Section 7.09. Eligibility; Disqualification. The Trustee shall at all  
-----  
times satisfy the requirements of TIA Sections 310(a) (1) and 310(b). The Trustee shall have a combined capital and surplus of at least \$100,000,000 as set forth in its most recent published annual report of condition. In determining whether the Trustee has conflicting interests as defined in TIA Section 310(b) (1), the provisions contained in the proviso to TIA Section 310(b) (1) shall be deemed incorporated herein.

Section 7.10. Preferential Collection of Claims Against Company. The

-----  
Trustee shall comply with TIA Section 311(a), excluding any creditor relationship listed in TIA Section 311(b). A Trustee who has resigned or been removed shall be subject to TIA Section 311(a) to the extent indicated therein.

Article VIII

DISCHARGE OF INDENTURE

Section 8.01. Discharge of Liability on Securities. When (i) the Company

-----  
delivers to the Trustee all outstanding Securities (other than Securities replaced pursuant to Section 2.07) for cancellation or (ii) all outstanding Securities have become due and payable and the Company deposits with the Trustee cash or, if expressly permitted by the terms hereof, securities sufficient to pay at the Stated Maturity, the Purchase Date, the Change in Control Purchase or the

39

Redemption Date, the Principal Amount, the Purchase Price, the Change in Control Purchase Price or the Redemption Price, as the case may be, of all outstanding Securities (other than Securities replaced pursuant to Section 2.07), and if, in either case, the Company has paid all other sums payable hereunder by the Company (including, without limitation, sums payable by delivery of shares of Common Stock pursuant to Section 3.08), then this Indenture shall, subject to Section 7.06, cease to be of further effect. The Trustee shall join in the execution of a document prepared by the Company acknowledging satisfaction and discharge of this Indenture on demand of the Company accompanied by an Officers' Certificate and Opinion of Counsel and at the cost and expense of the Company.

Section 8.02. Repayment to the Company. The Trustee and the Paying Agent

-----  
shall return to the Company any money or securities held by them for the payment of any amount with respect to the Securities that remains unclaimed for two years; provided, however, that the Trustee or such Paying Agent, before being

-----  
required to make any such return, may, at the expense of the Company, cause to be published once in The Wall Street Journal or another daily newspaper of

-----  
national circulation or mail to each such Holder notice that such money or securities remains unclaimed and that, after a date specified therein, which shall not be less than 30 days from the date of such mailing, any unclaimed money or securities then remaining will be returned to the Company. After return to the Company, Holders entitled to the money or securities must look to the Company for payment as general creditors unless an applicable abandoned property law designates another person, and the Trustee and the Paying Agent shall have no further liability with respect to such money or securities for that period commencing after the return thereof.

Article IX

AMENDMENTS

Section 9.01. Without Consent of Holders. The Company and the Trustee may

-----  
amend this Indenture or the Securities without the consent of any Securityholder:

(a) to cure any ambiguity, omission, defect or inconsistency; provided, however, that such amendment does not materially adversely affect the  
-----  
rights of any Securityholder;

(b) to comply with Article 5 or Section 10.14;

(c) to provide for uncertificated Securities in addition to or in place of certificated Securities so long as such action shall not adversely affect the interests of the Holders of the Securities in any material respect;

(d) to make any change that does not materially adversely affect the rights of any Securityholder;

40

(e) to add to the covenants or obligations of the Company hereunder or to surrender any right, power or option herein conferred upon the Company; or

(f) to make any change to comply with the TIA, or any amendment thereafter, or any requirement of the SEC in connection with the qualification of this Indenture under the TIA or any amendment thereof.

Section 9.02. With Consent of Holders. With the written consent of the  
-----

-----  
Holders of at least a majority in aggregate Principal Amount of the Securities at the time outstanding, the Company and the Trustee may amend this Indenture or the Securities. However, without the consent of each Securityholder affected, an amendment or supplement to this Indenture or the Securities may not:

(a) make any reduction in the Principal Amount of Securities whose Holders must consent to an amendment;

(b) make any change to the rate of accrual in connection with Original Issue Discount, reduce the rate of interest referred to in paragraph 1 of the Securities, reduce the rate of interest referred to in Section 11.01 upon the occurrence of a Tax Event or extend the time for payment of accrued Original Issue Discount or interest, if any, on any Security;

(c) reduce the Principal Amount or the Issue Price of or extend the Stated Maturity of any Security;

(d) reduce the amount of cash payable in respect of conversion upon the Company's election to pay cash with respect thereto, the Redemption Price, Purchase Price or Change in Control Purchase Price of any Security or extend the date on which the Purchase Price or Change in Control Purchase Price of any Security is payable;

(e) make any Security payable in money or securities other than that stated in the Security;

(f) subordinate the securities;

(g) make any change in Section 6.04 or this Section 9.02, except to increase any percentage referred to therein, or make any change in Section 6.07;

(h) make any change that adversely affects the right to convert any Security (including the right to receive cash in lieu of Common Stock except as set forth in Section 9.01(4));

(i) make any change that adversely affects the right to require the Company to purchase the Securities in accordance with the terms thereof and this Indenture

41

(including the right to receive cash if the Company has elected to pay cash upon such purchase);

(j) make any change to the provisions of this Indenture relating to the purchase of Securities at the option of the Holder pursuant to Section 3.08 or 3.09 which change would result in a violation of applicable federal or state securities laws (including positions of the SEC under applicable no-action letters), whether as a result of the exercise or performance of any rights or obligations under such provisions or otherwise;

(k) modify the provisions of this Indenture relating to the ranking of the Securities in a manner adverse to the Holders of the Securities; or

(l) impair the right to institute suit for the enforcement of any payment with respect to, or conversion of, the Securities.

It shall not be necessary for the consent of the Holders under this Section 9.02 to approve the particular form of any proposed amendment, but it shall be sufficient if such consent approves the substance thereof.

After an amendment under this Section 9.02 becomes effective, the Company shall mail to each Holder a notice briefly describing the amendment.

Section 9.03. Compliance with Trust Indenture Act. Every supplemental  
-----  
indenture executed pursuant to this Article shall comply with the TIA as then in effect.

Section 9.04. Revocation and Effect of Consents, Waivers and Actions.  
-----

-----  
Until an amendment or waiver becomes effective, a consent to it or any other action by a Holder of a Security hereunder is a continuing consent by the Holder and every subsequent Holder of that Security or portion of the Security that evidences the same obligation as the consenting Holder's Security, even if notation of the consent, waiver or action is not made on the Security. However, any such Holder or subsequent Holder may revoke the consent, waiver or action as

to such Holder's Security or portion of the Security if the Trustee receives the notice of revocation before the date the amendment, waiver or action becomes effective. After an amendment, waiver or action becomes effective, it shall bind every Securityholder, except as provided in Section 9.02.

Section 9.05. Notation on or Exchange of Securities. Securities

-----  
authenticated and delivered after the execution of any supplemental indenture pursuant to this Article may, and shall if required by the Trustee, bear a notation in form approved by the Trustee as to any matter provided for in such supplemental indenture. If the Company shall so determine, new Securities so modified as to conform, in the opinion of the Trustee and the Company, to any such

42

supplemental indenture may be prepared and executed by the Company and authenticated and delivered by the Trustee in exchange for outstanding Securities.

Section 9.06. Trustee to Sign Supplemental Indentures. The Trustee shall

-----  
sign any supplemental indenture authorized pursuant to this Article 9 if the amendment does not adversely affect the rights, duties, liabilities or immunities of the Trustee. If it does, the Trustee may, but need not, sign it. In signing such amendment the Trustee shall be entitled to receive, and (subject to the provisions of Section 7.01) shall be fully protected in relying upon, an Officers' Certificate and an Opinion of Counsel stating that such amendment is authorized or permitted by this Indenture.

Section 9.07. Effect of Supplemental Indentures. Upon the execution of

-----  
any supplemental indenture under this Article, this Indenture shall be modified in accordance therewith, and such supplemental indenture shall form a part of this Indenture for all purposes; and every Holder of Securities theretofore or thereafter authenticated and delivered hereunder shall be bound thereby.

43

Article X

CONVERSION

Section 10.01. Conversion Privilege. A Holder of a Security may convert

-----  
such Security into shares of Common Stock at any time (subject to the limitation described in Section 3.03(5)) during the period stated in paragraph 9 of the Securities. The number of shares of Common Stock issuable upon conversion of a Security per

44

\$1,000 of Principal Amount thereof shall be that set forth in paragraph 9 in the Securities (the "Conversion Rate"), subject to adjustment as herein set forth.

-----  
The Holders' right to convert Securities into shares of Common Stock is subject to the Company's right to elect to instead pay such Holder the amount of cash set forth in the next succeeding sentence, in lieu of delivering such shares of Common Stock (the "Conversion Payment"); provided, however, that if such payment

-----  
of cash is not permitted pursuant to the provisions of this Indenture or the provisions of any other agreement or instrument to which the Company is a party or by which it is bound or otherwise, the Company shall deliver shares of Common Stock (and cash in lieu of fractional shares of Common Stock) in accordance with this Article, whether or not the Company has delivered a notice pursuant to Section 10.02 to the effect that the Securities would be paid in cash. The amount of cash to be paid pursuant to Section 10.02 for each per \$1,000 Principal Amount of a Security upon conversion shall be equal to the Sale Price of a share of Common Stock on the Trading Day immediately prior to the related Conversion Date multiplied by the Conversion Rate in effect on such Trading Day.

The Company shall not pay cash in lieu of delivering shares of Common Stock upon the conversion of any Security pursuant to the terms of this Article (other than cash in lieu of fractional shares pursuant to Section 10.03) if there has occurred (prior to, on or after, as the case may be, the Conversion Date or the date on which the Company delivers its notice of whether such Security shall be converted into shares of Common Stock or cash pursuant to Section 10.02) and is continuing an Event of Default (other than a default in such payment on such Securities), provided, however, that this sentence shall not apply in the event

-----  
that an Event of Default occurs after such cash is paid.

"Time of Determination" means the time and date of the earlier of (i) the  
-----  
determination of stockholders entitled to receive rights, warrants, or options  
or a distribution, in each case, to which Sections 10.07 and 10.08 apply and  
(ii) the time ("Ex-Dividend Time") immediately prior to the commencement of "ex-  
-----  
dividend" trading for such rights, options, warrants or distribution on the New  
York Stock Exchange or such other national or regional exchange or market on  
which the shares of the Common Stock are then listed or quoted.

Section 10.02. Conversion Procedure. To convert a Security a Holder must  
-----  
satisfy the requirements in paragraph 9 of the Securities. The date on which  
the Holder satisfies all those requirements is the conversion date (the  
"Conversion Date"). Within two Business Days following the Conversion Date, the  
-----

Company shall deliver to the Holder, through the Conversion Agent, written  
notice of whether such Security shall be converted into shares of Common Stock  
or paid in cash. If the Company shall have notified the Holder that such  
Security shall be converted into shares of Common Stock, the Company shall  
deliver to the Holder no later than the seventh Business Day following the  
Conversion Date a certificate for the number of full shares of Common Stock  
issuable upon the conversion and cash in lieu of any fractional share determined  
pursuant to Section 10.03. Except as provided in Section 10.01, if the Company  
shall have notified the Holder that such Security shall be paid in cash, the  
Company shall deliver to the Holder surrendering such Security the amount of  
cash payable with respect to such Security on the fifth Business Day following  
such Conversion Date. Except as provided in Section 10.01, the Company may not  
change its election with respect to the consideration to be delivered upon  
conversion of a Security once the Company has notified the Holder in accordance  
with this paragraph.

The person in whose name the certificate is registered shall be treated as  
a stockholder of record on and after the Conversion Date; provided, however,  
-----  
that no surrender of a Security on any date when the stock transfer books of the  
Company shall be closed shall be effective to constitute the person or persons  
entitled to receive the shares of Common Stock upon such conversion as the  
record holder or holders of such shares of Common Stock on such date, but such  
surrender shall be effective to constitute the person or persons entitled to  
receive such shares of Common Stock as the record holder or holders thereof for  
all purposes at the close of business on the next succeeding day on which such  
stock transfer books are open; provided further, that such conversion shall be  
-----

at the Conversion Rate in effect on the date that such Security shall have been  
surrendered for conversion, as if the stock transfer books of the Company had  
not been closed. Upon conversion of a Security, such person shall no longer be a  
Holder of such Security.

Holders may surrender a Security for conversion by means of book entry  
delivery in accordance with paragraph 9 of the Securities and the regulations of  
the applicable book entry facility.

No payment or adjustment will be made for dividends on any Common Stock  
except as provided in this Article. On conversion of a Security, that portion of  
accrued Original Issue Discount (or interest, if the Company has exercised its  
option provided for in Section 11.01) attributable to the period from the Issue  
Date (or, if the Company has exercised the option provided for in Section 11.01,  
the later of (x) the date of such exercise and (y) the date on which interest  
was last

paid) to the Conversion Date with respect to the converted Security shall not be  
cancelled, extinguished or forfeited, but rather shall be deemed to be paid in  
full to the Holder thereof through delivery of the Common Stock in exchange for  
the Security being converted pursuant to the terms hereof, and the fair market  
value of such Common Stock (together with any cash payment in lieu of fractional  
shares of Common Stock) shall be treated as issued, to the extent thereof, first  
in exchange for the Original Issue Discount accrued through the Conversion Date,  
and the balance, if any, of such fair market value of such shares of Common  
Stock (and any such cash payment) shall be treated as issued in exchange for the  
Issue Price of the Security being converted pursuant to the provisions hereof.

If the Holder converts more than one Security at the same time, the number  
of shares of Common Stock issuable upon the conversion shall be computed based  
on the total Principal Amount of the Securities converted.

Upon surrender of a Security that is converted in part, the Company shall  
execute, and the Trustee shall authenticate and deliver to the Holder, a new  
Security in an authorized denomination equal in Principal Amount to the  
unconverted portion of the Security surrendered.

If the last day on which a Security may be converted is a Legal Holiday in a place where the Conversion Agent is located, the Security may be surrendered to such Conversion Agent on the next succeeding day that is not a Legal Holiday.

Section 10.03. Fractional Shares. The Company will not issue a fractional  
-----  
share of Common Stock upon conversion of a Security. Instead, the Company will deliver cash for the current market value of the fractional share. The current market value of a fractional share shall be determined to the nearest 1/1,000th of a share by multiplying the Sale Price, on the last Trading Day prior to the Conversion Date, of a full share by the fractional amount and rounding the product to the nearest whole cent.

Section 10.04. Taxes on Conversion. If a Holder converts a Security, the  
-----  
Company shall pay any documentary, stamp or similar issue or transfer tax due on the issue of shares of Common Stock upon such conversion. The Holder, however, shall pay any such tax that is due because the Holder requests the shares to be issued in a name other than the Holder's name. The Conversion Agent may refuse to deliver the certificates representing the Common Stock being issued in a name other than the Holder's name until the Conversion Agent receives a sum sufficient to pay any tax that will be due because the shares are to be issued in a name other than the Holder's name. Nothing herein shall preclude the Company from withholding or directing the withholding of any tax required by law or regulations.

Section 10.05. Company to Provide Stock. The Company shall, prior to  
-----  
issuance of any Securities hereunder, and from time to time as may be necessary, reserve out of its authorized but unissued Common Stock a sufficient number of shares of Common Stock to permit the conversion of the Securities for shares of Common Stock.

46

All shares of Common Stock delivered upon conversion of the Securities shall be newly issued shares or treasury shares, shall be duly and validly issued and fully paid and nonassessable and shall be free from preemptive rights and free of any lien or adverse claim.

The Company will endeavor promptly to comply with all Federal and state securities laws regulating the offer and delivery of shares of Common Stock upon conversion of Securities, if any, and will list or cause to have quoted such shares of Common Stock on each national securities exchange or in the over-the-counter market or such other market on which the Common Stock is then listed or quoted.

Section 10.06. Adjustment for Change in Capital Stock. If, after the  
-----  
Issue Date, the Company:

- (a) pays a dividend or makes a distribution on its Common Stock in shares of its Common Stock;
- (b) subdivides its outstanding shares of Common Stock into a greater number of shares;
- (c) combines its outstanding shares of Common Stock into a smaller number of shares;
- (d) pays a dividend or makes a distribution on its Common Stock in shares of its Capital Stock (other than Common Stock or rights, warrants or options for its Capital Stock); or
- (e) issues by reclassification of its Common Stock any shares of its Capital Stock (other than rights, warrants or options for its Capital Stock),

then the conversion privilege and the Conversion Rate in effect immediately prior to such action shall be adjusted so that the Holder of a Security thereafter converted may receive the number of shares or other units of Capital Stock of the Company which such Holder would have owned immediately following such action if such Holder had converted the Security immediately prior to such action.

The adjustment shall become effective immediately after the record date in the case of a dividend or distribution and immediately after the effective date in the case of a subdivision, combination or reclassification.

If after an adjustment a Holder of a Security upon conversion of such Security may receive shares or other units of two or more classes or series of Capital Stock of the Company, the Conversion Rate shall thereafter be subject to adjustment upon the occurrence of an action taken with respect to any such class

or series of Capital Stock as is contemplated by this Article with respect to the Common Stock, on terms comparable to those applicable to Common Stock in this Article.

47

Section 10.07. Adjustment for Rights Issue. If, after the Issue Date, the Company distributes any rights, warrants or options to all holders of its Common Stock entitling them, for a period expiring within 60 days after the record date for such distribution, to purchase shares of Common Stock at a price per share less than the Sale Price as of the Time of Determination, the Conversion Rate shall be adjusted in accordance with the formula:

$$R' = R \times \frac{O + N}{O + \frac{N \times P}{M}}$$

where:

R' = the adjusted Conversion Rate.

R = the current Conversion Rate.

O = the number of shares of Common Stock outstanding on the record date for the distribution to which this Section 10.07 is being applied.

N = the number of additional shares of Common Stock offered pursuant to the distribution.

P = the offering price per share of such additional shares.

M = the Average Sale Price, minus, in the case of (i) a distribution to

which Section 10.06(4) applies or (ii) a distribution to which Section 10.08 applies, for which, in each case, (x) the record date shall occur on or before the record date for the distribution to which this Section 10.07 applies and (y) the Ex-Dividend Time shall occur on or after the date of the Time of Determination for the distribution to which this Section 10.07 applies, the fair market value (on the record date for the distribution to which this Section 10.07 applies) of:

(a) the Capital Stock of the Company distributed in respect of each share of Common Stock in such Section 10.06(4) distribution, and

(b) the assets of the Company or debt securities or any rights, warrants or options to purchase securities of the Company distributed in respect of each share of Common Stock in such Section 10.08 distribution.

"Average Sale Price" means the average of the Sale Prices of the Common

Stock for the shorter of:

(1) 30 consecutive Trading Days ending on the last full Trading Day prior to the Time of Determination with respect to the rights, options, warrants or distribution in respect of which the Average Sale Price is being calculated, or

(2) the period (x) commencing on the date next succeeding the first public announcement of (a) the issuance of rights, options or warrants or (b) the

48

distribution, in each case, in respect of which the Average Sale Price is being calculated and (y) proceeding through the last full Trading Day prior to the Time of Determination with respect to the rights, warrants or distribution in respect of which the Average Sale Price is being calculated, or

(3) the period, if any, (x) commencing on the date next succeeding the Ex-Dividend Time (as defined below) with respect to the next preceding (a) issuance of rights, warrants, or options or (b) distribution, in each case, for which an adjustment is required by the provisions of Section 10.06(4), 10.07 or 10.08 and (y) proceeding through the last full Trading Day prior to the Time of Determination with respect to the rights, warrants, or options or distribution in respect of which the Average Sale Price is being calculated.

If the Ex-Dividend Time (or in the case of a subdivision, combination or

reclassification, the effective date with respect thereto) with respect to a dividend, subdivision, combination or reclassification to which Section 10.06(1), (2), (3) or (5) applies occurs during the period applicable for calculating "Average Sale Price" pursuant to the definition in the preceding sentence, "Average Sale Price" shall be calculated for such period in a manner determined in good faith by the Board of Directors to reflect the impact of such dividend, subdivision, combination or reclassification on the Sale Price of the Common Stock during such period.

The Board of Directors shall determine fair market values for the purposes of this Section 10.07.

The adjustment shall become effective immediately after the record date for the determination of shareholders entitled to receive the rights, warrants or options to which this Section 10.07 applies.

No adjustment shall be made under this Section 10.07 if the application of the formula stated above in this Section 10.07 would result in value of R' that is equal to or less than the value of R.

Section 10.08. Adjustment for Other Distributions. If, after the Issue  
-----  
Date, the Company distributes to all holders of its Common Stock any of its assets or debt securities or any rights, warrants or options to purchase securities of the Company (including securities or cash, but excluding (x) distributions of Capital Stock referred to in Section 10.06 and distributions of rights, warrants or options referred to in Section 10.07 and (y) cash dividends or other cash distributions that are paid out of consolidated current net earnings or earned surplus as shown on the books of the Company, unless such cash dividends or other cash distributions are Extraordinary Cash Dividends (as defined below)), the Conversion Rate shall be adjusted, subject to the provisions of the last paragraph of this Section 10.08, in accordance with the formula:

$$R' = R \times \frac{M}{M - F}$$

49

where:

R' = the adjusted Conversion Rate.

R = the current Conversion Rate.

M = the Average Sale Price, minus, in the case of a distribution to which  
-----

Section 10.06(4) applies for which (i) the record date shall occur on or before the record date for the distribution to which this Section 10.08 applies and (ii) the Ex-Dividend Time shall occur on or after the date of the Time of Determination for the distribution to which this Section 10.08 applies, the fair market value (on the record date for the distribution to which this Section 10.08 applies) of any Capital Stock of the Company distributed in respect of each share of Common Stock in such Section 10.06(4) distribution.

F = the fair market value (on the record date for the distribution to which this Section 10.08 applies) of the assets, securities, rights, warrants or options to be distributed in respect of each share of Common Stock in the distribution to which this Section 10.08 is being applied (including, in the case of cash dividends or other cash distributions giving rise to an adjustment, all such cash distributed concurrently).

The Board of Directors shall determine fair market values for the purpose of this Section 10.08.

The adjustment shall become effective immediately after the record date for the determination of shareholders entitled to receive the distribution to which this Section 10.08 applies.

For purposes of this Section 10.08, the term "Extraordinary Cash Dividend"  
-----

shall mean any cash dividend with respect to the Common Stock the amount of which, together with the aggregate amount of cash dividends on the Common Stock to be aggregated with such cash dividend in accordance with the provisions of this paragraph, equals or exceeds the threshold percentages set forth in items (1) or (2) below:

(1) If, upon the date prior to the Ex-Dividend Time with respect to a cash dividend on the Common Stock, the aggregate amount of such cash dividend together with the amounts of all cash dividends on the Common

Stock with Ex-Dividend Times occurring in the eighty-five (85) consecutive day period ending on the date prior to the Ex-Dividend Time with respect to the cash dividend to which this provision is being applied equals or exceeds 12.5% of the average of the Sale Prices during the period beginning on the date after the first such Ex-Dividend Time in such period and ending on the date prior to the Ex-Dividend Time with respect to the cash dividend to which this provision is being applied (except that if no other cash dividend has had an Ex-Dividend Time occurring in such period, the period for calculating the average of the Sale Prices shall be the period commencing 85 days prior to the date prior to the Ex-Dividend Time with respect to the cash dividend to which this provision is being applied), such cash dividend together with each other cash dividend with an Ex-Dividend

50

Time occurring in such 85-day period shall be deemed to be an Extraordinary Cash Dividend and for purposes of applying the formula set forth above in this Section 10.08, the value of "F" shall be equal to (w) the aggregate amount of such cash dividend together with the amounts of the other cash dividends with Ex-Dividend Times occurring in such period minus (x) the aggregate amount of such other cash dividends with Ex-Dividend Times occurring in such period for which a prior adjustment in the Conversion Rate was previously made under this Section 10.08.

(2) If upon the date prior to the Ex-Dividend Time with respect to a cash dividend on the Common Stock, the aggregate amount of such cash dividend, together with the amounts of all cash dividends on the Common Stock with Ex-Dividend Times occurring in the 365-consecutive-day period ending on the date prior to the Ex-Dividend Time with respect to the cash dividend to which this provision is being applied equals or exceeds 25% of the average of the Sale Prices during the period beginning on the date after the first such Ex-Dividend Time in such period and ending on the date prior to the Ex-Dividend Time with respect to the cash dividend to which this provision is being applied (except that if no other cash dividend has had an Ex-Dividend Time occurring in such period, the period for calculating the average of the Sale Prices shall be the period commencing 365 days prior to the date prior to the Ex-Dividend Time with respect to the cash dividend to which this provision is being applied), such cash dividend together with each other cash dividend with an Ex-Dividend Time occurring in such 365-day period shall be deemed to be an Extraordinary Cash Dividend and for purposes of applying the formula set forth above in this Section 10.08, the value of "F" shall be equal to (y) the aggregate amount of such cash dividend together with amounts of the other cash dividends with Ex-Dividend Times occurring in such period minus (z) the

-----  
aggregate amount of such other cash dividends with Ex-Dividend Times occurring in such period for which a prior adjustment in the Conversion Rate was previously made under this Section 10.08.

In the event that, with respect to any distribution to which this Section 10.08 would otherwise apply, the difference "M-F" as defined in the above formula is less than \$1.00 or "F" is greater than "M", then the adjustment provided by this Section 10.08 shall not be made and in lieu thereof the provisions of Section 10.14 shall apply to such distribution.

Section 10.09. When Adjustment May Be Deferred. No adjustment in the  
-----  
Conversion Rate need be made unless the adjustment would require an increase or decrease of at least 1% (e.g., if the Conversion Rate is 4, an increase or  
---  
decrease of .04 (1% of 4)) in the Conversion Rate. Any adjustments that are not made shall be carried forward and taken into account in any subsequent adjustment.

All calculations under this Article 10 shall be made to the nearest cent or to the nearest 1/1,000th of a share, as the case may be, with one-half of a cent and 5/10,000ths of a share being rounded upwards.

51

Section 10.10. When No Adjustment Required. No adjustment need be made  
-----  
for a transaction referred to in Section 10.06, 10.07, 10.08 or 10.14 if Securityholders are to participate in the transaction on a basis and with notice that the Board of Directors determines to be fair and appropriate in light of the basis and notice on which holders of Common Stock participate in the transaction.

No adjustment need be made for rights to purchase Common Stock pursuant to a Company plan for reinvestment of dividends or interest.

No adjustment need be made for a change in the par value or no par value of

the Common Stock.

To the extent the Securities become convertible into cash pursuant to the terms of Sections 10.08 or 10.14, no adjustment need be made thereafter as to the cash. Interest will not accrue on the cash.

Notwithstanding any provision to the contrary in this Indenture, no adjustment shall be made in the Conversion Rate to the extent, but only to the extent, such adjustment results in the following quotient being less than the par value of the Common Stock: (i) the Issue Price plus accrued Original Issue Discount as of the date such adjustment would otherwise be effective divided by (ii) the Conversion Rate as so adjusted.

Section 10.11. Notice of Adjustment. Whenever the Conversion Rate is

-----  
adjusted, the Company shall file with the Trustee and the Conversion Agent a notice of such adjustment and a certificate from the Company's independent public accountants briefly stating the facts requiring the adjustment and the manner of computing it. The Conversion Agent will promptly mail such notice to Securityholders at the Company's expense. The certificate shall be conclusive evidence that the adjustment is correct. Neither the Trustee nor any Conversion Agent shall be under any duty or responsibility with respect to any such certificate except to exhibit the same to any Holder desiring inspection thereof.

Section 10.12. Voluntary Increase. The Company from time to time may

-----  
increase the Conversion Rate by any amount and for any period of time (provided, that such period shall be not less than 20 Business Days). Whenever the Conversion Rate is increased, the Company shall mail to Securityholders and file with the Trustee and the Conversion Agent a notice of the increase. The Company shall mail the notice at least 15 days before the date the increased Conversion Rate takes effect. The notice shall state the increased Conversion Rate and the period it will be in effect.

A voluntary increase of the Conversion Rate does not change or adjust the Conversion Rate otherwise in effect for purposes of Sections 10.06, 10.07 or 10.08.

Section 10.13. Notice of Certain Transactions. If:

-----  
(a) the Company takes any action that would require an adjustment in the Conversion Rate pursuant to Section 10.06, 10.07 or 10.08 (unless no adjustment is to occur pursuant to Section 10.10); or

52

(b) the Company takes any action that would require a supplemental indenture pursuant to Section 10.14; or

(c) there is a liquidation or dissolution of the Company;

then the Company shall mail to Securityholders and file with the Trustee and the Conversion Agent a notice stating the proposed record date for a dividend or distribution of the proposed effective date of a subdivision, combination, reclassification, consolidation, merger, binding share exchange, transfer, liquidation or dissolution. The Company shall file and mail the notice at least 15 days before such date. Failure to file or mail the notice or any defect in it shall not affect the validity of the transaction.

Section 10.14. Reorganization of Company; Special Distributions. If the

-----  
Company is a party to a transaction subject to Section 5.01 (other than a sale of all or substantially all of the assets of the Company in a transaction in which the holders of Common Stock immediately prior to such transaction do not receive securities, cash or other assets of the Company or any other person) or a merger or binding share exchange which reclassifies or changes its outstanding Common Stock, the person obligated to deliver securities, cash or other assets upon conversion of Securities shall enter into a supplemental indenture. If the issuer of securities deliverable upon conversion of Securities is an Affiliate of the successor Company, that issuer shall join in the supplemental indenture.

The supplemental indenture shall provide that the Holder of a Security may convert it into the kind and amount of securities, cash or other assets which such Holder would have received immediately after the consolidation, merger, binding share exchange or transfer if such Holder had converted the Security immediately before the effective date of the transaction, assuming (to the extent applicable) that such Holder (i) was not a constituent person or an Affiliate of a constituent person to such transaction; (ii) made no election with respect thereto; and (iii) was treated alike with the plurality of non-electing Holders. The supplemental indenture shall provide for adjustments which shall be as nearly equivalent as may be practical to the adjustments provided for in this Article 10. The successor Company shall mail to Securityholders a notice briefly describing the supplemental indenture.

If this Section applies, neither Section 10.06 nor 10.07 applies.

If the Company makes a distribution to all holders of its Common Stock of any of its assets, or debt securities or any rights, warrants or options to purchase securities of the Company that, but for the provisions of the last paragraph of Section 10.08, would otherwise result in an adjustment in the Conversion Rate pursuant to the provisions of Section 10.08, then, from and after the record date for determining the holders of Common Stock entitled to receive the distribution, a Holder of a Security that converts such Security in accordance with the provisions of this Indenture shall upon such conversion be entitled to receive, in addition to the shares of Common Stock into which the Security is convertible, the kind and amount of securities, cash or other assets comprising the distribution that such Holder would have received if such Holder had converted the Security immediately prior to the record date for determining the holders of Common Stock entitled to receive the distribution.

53

Section 10.15. Company Determination Final. Any determination that the Company or the Board of Directors must make pursuant to this Article 10 is conclusive.

Section 10.16. Trustee's Adjustment Disclaimer. The Trustee has no duty to determine when an adjustment under this Article 10 should be made, how it should be made or what it should be. The Trustee has no duty to determine whether a supplemental indenture under Section 10.14 need be entered into or whether any provisions of any supplemental indenture are correct. The Trustee shall not be accountable for and makes no representation as to the validity or value of any securities or assets issued upon conversion of Securities. The Trustee shall not be responsible for the Company's failure to comply with this Article 11. Each Conversion Agent (other than the Company or an Affiliate of the Company) shall have the same protection under this Section 10.16 as the Trustee.

Section 10.17. Simultaneous Adjustments. If this Article 10 requires adjustments to the Conversion Rate under more than one of Sections 10.06(4), 10.07 or 10.08, and the record dates for the distributions giving rise to such adjustments shall occur on the same date, then such adjustments shall be made by applying, first, the provisions of Section 10.06, second, the provisions of Section 10.08 and, third, the provisions of Section 10.07.

Section 10.18. Successive Adjustments. After an adjustment to the Conversion Rate under this Article 10, any subsequent event requiring an adjustment under this Article 10 shall cause an adjustment to the Conversion Rate as so adjusted.

## Article XI

### SPECIAL TAX EVENT CONVERSION

Section 11.01. Optional Conversion to Semiannual Coupon Note Upon Tax Event. From and after the date (the "Tax Event Date") of the occurrence of a Tax Event, at the option of the Company, interest in lieu of future Original Issue Discount shall accrue at % per annum on a principal amount per Security (the "Restated Principal Amount") equal to the Issue Price plus Original Issue Discount accrued to the date immediately prior to the Tax Event Date or the date on which the Company exercises the option described herein, whichever is later (such date, the "Option Exercise Date"). Such interest shall accrue from the Option Exercise Date and shall be payable semiannually on and of each year (each an "Interest Payment Date") to holders of record at the close of business on , or (each a "Regular Record Date") immediately preceding such Interest Payment Date. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months and will accrue from the most recent date on which interest has been paid or, if no interest has been paid, from the Option Exercise Date. Within 15 days of the occurrence of a Tax Event, the Company shall mail a written notice of such Tax Event by first-class mail to the Trustee.

Section 11.02. Payment of Interest; Interest Rights Preserved.

(a) Interest on any Security that is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid to the person in whose name

that Security is registered at the close of business on the Regular Record Date for such interest at the office or agency of the Company maintained for such purpose. Each installment of interest on any Security shall be paid in same-day funds by transfer to an account maintained by the payee located inside the United States. In the case of a global Security, interest payable on any Interest Payment Date will be paid to the Depositary for the purpose of permitting DTC to credit the interest received by it in respect of such global Security to the accounts of the beneficial owners thereof.

(b) Except as otherwise specified with respect to the Securities, any interest on any Security that is payable, but is not punctually paid or duly provided for, within 30 days following any Interest Payment Date (herein called "Defaulted Interest") shall forthwith cease to

-----  
be payable to the registered Holder thereof on the relevant Regular Record Date by virtue of having been such Holder, and such Defaulted Interest may be paid by the Company, at its election in each case, as provided in clause (1) or (2) below:

(1) The Company may elect to make payment of any Default Interest to the persons in whose names the Securities are registered at the close of business on a Special Record Date for the payment of such Defaulted Interest, which shall be fixed in the following manner. The Company shall notify the Trustee in writing of the amount of Defaulted Interest proposed to be paid on each Security and the date of the proposed payment (which shall not be less than 20 days after such notice is received by the Trustee), and at the same time the Company shall deposit with the Trustee an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to the Trustee for such deposit on or prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the persons entitled to such Defaulted Interest as in this clause provided. Thereupon the Trustee shall fix a Special Record Date for the payment of such Defaulted Interest which shall be not more than 15 days and not less than 10 days prior to the date of the proposed payment and not less than 10 days after the receipt by the Trustee of the notice of the proposed payment. The Trustee shall promptly notify the Company of such Special Record Date and, in the name and at the expense of the Company, shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be mailed, first-class postage prepaid, to each Holder of the Securities at his address as it appears on the list of Securityholders maintained pursuant to Section 2.05 not less than 10 days prior to such Special Record Date. The Trustee may, in its discretion, in the name and at the expense of the Company, cause a similar notice to be published at least once in The Wall Street Journal, but such publications

-----  
shall not be a condition precedent to the establishment of such Special Record Date. Notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor having been mailed as aforesaid, such Defaulted Interest shall be paid to the persons in whose names the Securities are registered at the close of business on such Special Record Date and shall no longer be payable pursuant to the following clause (2).

(2) The Company may make payment of any Defaulted Interest on the Securities in any other lawful manner not inconsistent with the requirements of any securities exchange on which such Securities may be listed, and upon such notice as may be required by such exchange, if, after notice given by the Company to the Trustee of the proposed payment pursuant to this clause, such manner of payment shall be deemed practicable by the Trustee.

## Article XII

### MISCELLANEOUS

Section 12.01. Trust Indenture Act Controls. If any provision of this  
-----  
Indenture limits, qualifies or conflicts with another provision which is required to be included in this Indenture by the TIA, the required provision shall control.

Section 12.02. Notices. Any notice or communication shall be in writing  
-----  
and delivered in person or mailed by first-class mail, postage prepaid, addressed as follows:

if to the Company:

Merrill Lynch & Co., Inc.  
100 Church Street, 12th Floor

New York, New York 10080-6512  
Attention: Secretary

with a copy to:

Merrill Lynch & Co., Inc.  
World Financial Center  
South Tower  
225 Liberty Street  
New York, New York 10080-0736  
Attention: Treasurer

if to the Trustee:

[address]

The Company or the Trustee by notice to the other may designate additional or different addresses for subsequent notices or communications.

Any notice or communication given to a Securityholder shall be mailed by first-class mail to the Securityholder at the Securityholder's address as it appears on the registration books of the Registrar and shall be sufficiently given if so mailed within the time prescribed.

56

Failure to mail a notice or communication to a Securityholder or any defect in it shall not affect its sufficiency with respect to other Securityholders. If a notice or communication is mailed in the manner provided above, it is duly given, whether or not received by the addressee.

If the Company mails a notice or communication to the Securityholders, it shall mail a copy to the Trustee and each Registrar, Paying Agent, Conversion Agent or co-registrar.

Section 12.03. Communication by Holders with Other Holders.  
-----

Securityholders may communicate pursuant to TIA Section 312(b) with other Securityholders with respect to their rights under this Indenture or the Securities. The Company, the Trustee, the Registrar, the Paying Agent, the Conversion Agent and anyone else shall have the protection of TIA Section 312(c).

Section 12.04. Certificate and Opinion as to Conditions Precedent. Upon  
-----

any request or application by the Company to the Trustee to take any action under this Indenture, the Company shall furnish to the Trustee:

- (a) an Officers' Certificate stating that, in the opinion of the signers, all conditions precedent, if any, provided for in this Indenture relating to the proposed action have been complied with; and
- (b) an Opinion of Counsel stating that, in the opinion of such counsel, all such conditions precedent have been complied with.

Section 12.05. Statements Required in Certificate or Opinion. Each  
-----

Officers' Certificate or Opinion of Counsel with respect to compliance with a covenant or condition provided for in this Indenture shall include:

- (a) a statement that each person making such Officers' Certificate or Opinion of Counsel has read such covenant or condition;
- (b) a brief statement as to the nature and scope of the examination or investigation upon which the statements or opinions contained in such Officers' Certificate or Opinion of Counsel are based;
- (c) a statement that, in the opinion of each such person, he has made such examination or investigation as is necessary to enable such person to express an informed opinion as to whether or not such covenant or condition has been complied with; and
- (d) a statement that, in the opinion of such person, such covenant or condition has been complied with.

Section 12.06. Separability Clause. In case any provision in this  
-----

Indenture or in the Securities shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

Section 12.07. Rules By Trustee, Paying Agent, Conversion Agent and Registrar. The Trustee may make reasonable rules for action by or a meeting of the Securityholders. The Registrar, Conversion Agent and the Paying Agent may make reasonable rules for their functions.

Section 12.08. Legal Holiday. A "Legal Holiday" is any day other than a Business Day. If any specified date (including a date for giving notice) is a Legal Holiday, the action shall be taken on the next succeeding day that is not a Legal Holiday, and to the extent applicable no Accreted Discount or interest, if any, shall accrue for the intervening period.

Section 12.09. GOVERNING LAW. THIS INDENTURE AND THE SECURITIES SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, AS APPLIED TO CONTRACTS MADE AND PERFORMED WITHIN THE STATE OF NEW YORK, WITHOUT REGARD TO PRINCIPLES OF CONFLICT OF LAWS.

Section 12.10. No Recourse Against Others. A director, Officer, employee or stockholder, as such, of the Company shall not have any liability for any obligations of the Company under the Securities or this Indenture or for any claim based on, in respect of or by reason of such obligations or their creation. By accepting a Security, each Securityholder shall waive and release all such liability. The waiver and release shall be part of the consideration for the issue of the Securities.

Section 12.11. Successors. All agreements of the Company in this Indenture and the Securities shall bind its successor. All agreements of the Trustee in this Indenture shall bind its successor.

Section 12.12. Multiple Originals. The parties may sign any number of copies of this Indenture. Each signed copy shall be an original, but all of them together represent the same agreement. One signed copy is enough to prove this Indenture.

Section 12.13. References. All section references are to sections of this Indenture unless specified otherwise.

SIGNATURES

IN WITNESS WHEREOF, the undersigned, being duly authorized, have executed this Indenture on behalf of the respective parties hereto as of the date first above written.

[FORM OF REVERSE SIDE OF LYON]

Liquid Yield Option(TM) Note due  
(Zero Coupon)

1. Interest  
-----

This Security shall not bear interest except as specified in this paragraph or in paragraph 9 hereof. If the Principal Amount hereof or any portion of such Principal Amount is not paid when due (whether upon acceleration pursuant to Section 6.02 of the Indenture, upon the date set for payment of the Redemption Price pursuant to paragraph 5 hereof, upon the date set for payment of a Purchase Price or Change in Control Purchase Price pursuant to paragraph 6 hereof, upon the date set for a Conversion Payment pursuant to paragraph 8 hereof or upon the Stated Maturity of this Security) or if shares of Common Stock (and cash in lieu of fractional shares) or cash in lieu thereof in respect of a conversion of this Security in accordance with the terms of Article 10 of the Indenture is not delivered when due, then in each such case the overdue amount shall bear interest at the rate of % per annum, compounded semiannually (to the extent that the payment of such interest shall be legally enforceable), which interest shall accrue from the date such overdue amount was due to the date payment of such amount, including interest thereon, has been made or duly provided for. All such interest shall be payable on demand.

Original Issue Discount (the difference between the Issue Price and the Principal Amount of the Security), in the period during which a Security remains outstanding, shall accrue at % per annum, on a semiannual bond equivalent basis using a 360-day year composed of twelve 30-day months, commencing on the Issue Date of this Security, and cease to accrue on the earlier of (a) the date on which the Principal Amount at Stated Maturity hereof or any portion of such Principal Amount at Stated Maturity becomes due and payable and (b) any Redemption Date, Conversion Date, Change in Control Purchase Date, Purchase Date or other date on which such Original Issue Discount (or, if such Securities have been converted to semiannual coupon notes following the occurrence of a Tax Event, interest on such notes) shall cease to accrue in accordance with Section 2.08 of the Indenture.

2. Method of Payment  
-----

Subject to the terms and conditions of the Indenture, Merrill Lynch & Co., Inc. (the "Company") will make payments in respect of the Securities to the persons who are registered Holders of Securities at the close of business on the Business Day preceding the Redemption Date or Stated Maturity, as the case may be, or at the close of business on a Purchase Date, Change in Control Purchase Date or Conversion Date, as the case may be. Holders must surrender Securities to a Paying Agent to collect such payments in respect of the Securities. The Company will pay cash amounts in money of The United States of America that at the time of payment is legal tender for payment of public and private debts. However, the Company may make such cash payments by check payable in such money.

3. Paying Agent, Conversion Agent and Registrar  
-----

Initially, \_\_\_\_\_, as trustee (the "Trustee"), will act as Paying Agent, Conversion Agent and Registrar. The Company may appoint and change any Paying Agent, Conversion Agent, Registrar or

3

co-registrar, upon notice to the Trustee and the Holders. The Company or any of its Subsidiaries or any of their Affiliates may act as Paying Agent, Conversion Agent, Registrar or co-registrar.

4. Indenture  
-----

The Company issued the Securities under an Indenture, dated as of \_\_\_\_\_ (the "Indenture"), between the Company and the Trustee. The terms of the Securities include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended by the Trust Indenture Reform Act of 1990, and, as in effect on the date of the Indenture (the "TIA"), except as provided in Section 9.03 of the Indenture. Capitalized terms used herein or on the face hereof and not defined herein have the meanings ascribed thereto in the Indenture. The Securities are subject to all such terms, and Securityholders are referred to the Indenture and the TIA for a statement of those terms.

The Securities are general unsecured obligations of the Company limited to the aggregate Principal Amount at Maturity specified in Section 2.02 of the Indenture (subject to Section 2.07 of the Indenture). The Indenture does not limit other indebtedness of the Company, secured or unsecured.

5. Redemption at the Option of the Company  
-----

No sinking fund is provided for the Securities. The Securities are redeemable as a whole at any time, or from time to time in part, at the option of the Company at the Redemption Prices set forth below, provided, that the Securities are not redeemable prior to .

The table below shows the Redemption Prices of a Security per \$1,000 Principal Amount at Stated Maturity on the dates shown below and at Stated Maturity, which prices reflect accrued Original Issue Discount calculated to each such date. The Redemption Price of a Security redeemed between such dates would include an additional amount reflecting the additional Original Issue Discount accrued from and including the next preceding date in the table to, but excluding, the Redemption Date.

	(1)	(2)	(3)
		Accrued Original Issue Discount	Redemption Price
Redemption Date	LYON Issue Price	at %	(1) + (2)
- -----	-----	-----	-----

If converted to a semiannual coupon note following the occurrence of a Tax Event, this Security will be redeemable at the Restated Principal Amount plus interest accrued and unpaid from, and including, the date of such conversion to, but excluding, the Redemption Date; but in no event will this Security be redeemable before .

6. Purchase by the Company at the Option of the Holder  
-----

4

Subject to the terms and conditions of the Indenture, the Company shall become obligated to purchase, at the option of the Holder, the Securities held by such Holder on \_\_\_\_\_, 20\_\_, the Purchase Date, at \$\_\_\_\_\_, the Purchase Price, per \$1,000 Principal Amount at Stated Maturity of such Securities, upon delivery of a Purchase Notice containing the information set forth in the Indenture, at any time from the opening of business on the date that is 20 Business Days prior to the Purchase Date until the close of business on the Purchase Date and upon delivery of the Securities to the Paying Agent by the Holder as set forth in the Indenture. Such Purchase Price may be paid, at the option of the Company, in cash or by the issuance and delivery of shares of Common Stock of the Company, or in any combination thereof.

If prior to a Purchase Date this Security has been converted to a semiannual coupon note following the occurrence of a Tax Event, the Purchase Price will be equal to the Restated Principal Amount plus accrued and unpaid interest from, and including, the date of conversion to, but excluding, the Purchase Date.

Subject to the terms and conditions of the Indenture, if any Change in Control occurs on or prior to \_\_\_\_\_, the Company shall, at the option of the Holders, purchase all Securities for which a Change in Control Purchase Notice shall have been delivered as provided in the Indenture and not withdrawn, on the date that is 35 Business Days after the occurrence of such Change in Control, for a Change in Control Purchase Price equal to the Issue Price plus accrued Original Issue Discount to, but excluding, the Change in Control Purchase Date, which Change in Control Purchase Price shall be paid in cash.

If prior to a Change in Control Purchase Date this Security has been converted to a semiannual coupon note following the occurrence of a Tax Event, the Change in Control Purchase Price shall be equal to the Restated Principal Amount plus accrued interest from, and including, the date of conversion to, but excluding, the Change in Control Purchase Date.

Holders have the right to withdraw any Purchase Notice or Change in Control Purchase Notice, as the case may be, by delivering to the Paying Agent a written notice of withdrawal in accordance with the provisions of the Indenture prior to the close of business on the Purchase Date or Change in Control Purchase Date, as the case may be.

If cash sufficient to pay the Purchase Price or Change in Control Purchase Price of all Securities or portions thereof to be purchased as of the Purchase Date or the Change in Control Purchase Date, as the case may be, is deposited with the Paying Agent on the Business Day following the Purchase Date or the Business Day

following the Change in Control Purchase Date, as the case may be, Original Issue Discount (or interest upon conversion to semiannual coupon notes following the occurrence of a Tax Event) ceases to accrue on such Securities (or portions thereof) on and after such date, and the Holders thereof shall have no other rights as such (other than the right to receive the Purchase Price or Change in Control Purchase Price, as the case may be, upon surrender of such Security).

7. Notice of Redemption  
-----

Notice of redemption will be mailed at least 30 days but not more than 60 days before the Redemption Date to each Holder of Securities to be redeemed at the Holder's registered address. If money sufficient to pay the Redemption Price of all Securities (or portions thereof) to be redeemed on the Redemption Date is deposited with the Paying Agent prior to or on the Redemption Date, on and after

5

such date Original Issue Discount ceases to accrue on such Securities or portions thereof. Securities in denominations larger than \$1,000 of Principal Amount may be redeemed in part but only in integral multiples of \$1,000 of Principal Amount.

8. Conversion  
-----

Subject to the next two succeeding sentences, a Holder of a Security may convert it into Common Stock of the Company at any time before the close of business on provided, however, that if a Security is called for redemption, the Holder

-----  
may convert it at any time before the close of business on the Redemption Date. The number of shares of Common Stock to be delivered upon conversion of a Security into Common Stock per \$1,000 of Principal Amount shall be equal to the Conversion Rate. A Security in respect of which a Holder has delivered a Purchase Notice or Change in Control Purchase Notice exercising the option of such Holder to require the Company to purchase such Security may be converted only if the notice of exercise is withdrawn in accordance with the terms of the Indenture.

The initial Conversion Rate is shares of Common Stock per \$1,000 Principal Amount, subject to adjustment in certain events described in the Indenture. The Company will deliver cash or a check in lieu of any fractional share of Common Stock.

The Holders' right to convert Securities into shares of Common Stock is subject to the Company's right to elect to instead pay such Holder the amount of cash set forth in the next succeeding sentence in lieu of delivering such shares of Common Stock; provided, however, that if such payment of cash is not permitted pursuant to the provisions of the Indenture or the provisions of any other agreement or instrument to which the Company is a party or by which it is bound or otherwise, the Company shall deliver shares of Common Stock (and cash in lieu of fractional shares of Common Stock) in accordance with Article 10 of the Indenture, whether or not the Company has delivered a notice pursuant to Section 10.02 to the effect that the Securities will be paid in cash. The amount of cash to be paid for each \$1,000 Principal Amount of a Security shall be equal to the Sale Price of a share of Common Stock on the Trading Day immediately prior to the related Conversion Date multiplied by the Conversion Rate in effect on such Trading Day.

The Company shall not pay cash in lieu of delivering shares of Common Stock upon the conversion of any Security pursuant to the terms of Article 10 of the Indenture (other than cash in lieu of fractional shares) if there has occurred (prior to, on or after, as the case may be, the Conversion Date or the date on which the Company delivers its notice of whether each Security shall be converted into shares of Common Stock or cash) and is continuing an Event of Default (other than a default in such payment on such Securities), provided, however, that this sentence shall not apply in the event that an Event of Default occurs after such cash is paid.

In the event the Company exercises its option pursuant to Section 11.01 of the Indenture to have interest in lieu of Original Issue Discount accrue on the Security following a Tax Event, the Holder will be entitled on the conversion to receive the same number of shares of Common Stock such Holder would have received if the Company had not exercised such option. If the Company exercises such option, Securities surrendered for conversion during the period from the close of business on any Regular Record Date next preceding any Interest Payment Date to the opening of business of such Interest Payment Date (except Securities to be redeemed on a date within such period) must be

6

accompanied by payment of an amount equal to the interest thereon that the registered Holder is to receive. Except where Securities surrendered for conversion must be accompanied by payment as described above, no interest on converted Securities will be payable by the Company on any Interest Payment Date

subsequent to the date of conversion.

To convert a Security a Holder must (i) complete and manually sign the conversion notice on the back of the Security (or complete and manually sign a facsimile of such notice) and deliver such notice to the Conversion Agent (or the office or agency referred to in Section 4.05 of the Indenture) or, if applicable, complete and deliver to The Depository Trust Company ("DTC" or the "Depository", which term includes any successor thereto) the appropriate instruction form for conversion pursuant to DTC's book-entry conversion program, (ii) surrender the Security to a Conversion Agent by physical or book-entry delivery (which is not necessary in the case of conversion pursuant to DTC's book-entry conversion program), (iii) furnish appropriate endorsements and transfer documents if required by the Conversion Agent, the Company or the Trustee and (iv) pay any transfer or similar tax, if required. Book-entry delivery of a Security to the Conversion Agent may be made by any financial institution that is a participant in DTC; conversion through DTC's book-entry conversion program is available for any security that is held in an account maintained at DTC by any such participant.

A Holder may convert a portion of a Security if the Principal Amount of such portion is \$1,000 or an integral multiple of \$1,000. No payment or adjustment will be made for dividends on the Common Stock except as provided in the Indenture. On conversion of a Security, that portion of accrued Original Issue Discount (or interest, if the Company has exercised its option provided for in paragraph 8 hereof) attributable to the period from the Issue Date (or, if the Company has exercised the option referred to in paragraph 9 hereof, the later of (x) the date of such exercise and (y) the date on which interest was last paid), to the Conversion Date with respect to the converted Security shall not be cancelled, extinguished or forfeited, but rather shall be deemed paid in full to the Holder thereof through the delivery of the Common Stock in exchange for the Security being converted pursuant to the terms hereof.

The Conversion Rate will be adjusted for dividends or distributions on Common Stock payable in Common Stock or other Capital Stock; subdivisions, combinations or certain reclassifications of Common Stock; distributions to all holders of Common Stock of certain rights, warrants or options to purchase Common Stock for a period expiring within 60 days at less than the Sale Price at the Time of Determination; and distributions to such holders of assets or debt securities of the Company or certain rights, warrants or options to purchase securities of the Company (excluding certain cash dividends or distributions). However, no adjustment need be made if Securityholders may participate in the transaction or in certain other cases. The Company from time to time may voluntarily increase the Conversion Rate.

If the Company is a party to a consolidation, merger or binding share exchange of the type specified in the Indenture, or certain transfers of all or substantially all of its assets to another person, or in certain other circumstances described in the Indenture, the right to convert a Security into Common Stock may be changed into a right to convert it into securities, cash or other assets of the Company or another person.

9. Tax Event.  
-----

7

- (i) From and after the date (the "Tax Event Date") of the occurrence of a Tax Event, at the option of the Company, interest in lieu of future Original Issue Discount shall accrue at % per annum on a principal amount per Security (the "Restated Principal Amount") equal to the Issue Price plus Original Issue Discount accrued to the date immediately prior to the Tax Event Date and shall be payable semiannually on and of each year (each an "Interest Payment Date") to holders of record at the close of business on or (each a "Regular Record Date") immediately preceding such Interest Payment Date. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months and will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from the Tax Event Date.
- (ii) Interest on any Security that is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid to the person in whose name that Security is registered at the close of business on the Regular Record Date for such interest at the office or agency of the Company maintained for such purpose. Each installment of interest on any Security shall be paid in same-day funds by transfer to an account maintained by the payee located inside the United States. In the case of a global Security, interest payable on any Interest Payment Date will be paid to the Depository, for the purpose of permitting such party to credit the interest received by it in respect of such global Security to the accounts of the beneficial owners thereof.
- (iii) Except as otherwise specified with respect to the Securities, any interest on any Security that is payable, but is not punctually paid or

duly provided for, on any Interest Payment Date (herein called "Defaulted Interest") shall forthwith cease to be payable to the registered Holder thereof on the relevant Regular Record Date by virtue of having been such Holder, and such Defaulted Interest may be paid by the Company as provided for in Section 11.02(b) of the Indenture.

10. Conversion Arrangement on Call for Redemption  
-----

Any Securities called for redemption, unless surrendered for conversion before the close of business on the Redemption Date, may be deemed to be purchased from the Holders of such Securities at an amount not less than the Redemption Price, by one or more investment bankers or other purchasers who may agree with the Company to purchase such Securities from the Holders and to make payment for such Securities to the Trustee in trust for such Holders.

11. Denominations; Transfer; Exchange  
-----

The Securities are in fully registered form, without coupons, in denominations of \$1,000 of Principal Amount and integral multiples of \$1,000. A Holder may transfer or exchange Securities in accordance with the Indenture. The Registrar may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and to pay any taxes and fees required by law or permitted by the Indenture. The Registrar need not transfer or exchange any Securities selected for redemption (except, in the case of a Security to be redeemed in part, the portion of the Security not to be redeemed) or any Securities in respect of which a Purchase Notice or Change in Control Purchase Notice has been given and not withdrawn (except, in the case of a Security to be purchased in part, the

8

portion of the Security not to be purchased) or any Securities for a period of 15 days before a selection of Securities to be redeemed.

12. Persons Deemed Owners  
-----

The registered Holder of this Security may be treated as the owner of this Security for all purposes.

13. Unclaimed Money or Securities  
-----

The Trustee and the Paying Agent shall return to the Company any money or securities held by them for the payment of any amount with respect to the Securities that remains unclaimed for two years, provided, however, that the

Trustee or such Paying Agent, before being required to make any such return, may at the expense of the Company cause to be published once in The Wall Street

Journal or another newspaper of national circulation or mail to each such Holder

notice that such money or securities remains unclaimed and that, after a date specified therein, which shall not be less than 30 days from the date of such publication or mailing, any unclaimed money or securities then remaining will be returned to the Company. After return to the Company, Holders entitled to the money or securities must look to the Company for payment as general creditors unless an applicable abandoned property law designates another person, and the Trustee and the Paying Agent shall have no further liability with respect to such money or securities for that period commencing after the return thereof.

14. Amendment; Waiver  
-----

Subject to certain exceptions set forth in the Indenture, (i) the Indenture or the Securities may be amended with the written consent of the Holders of at least a majority in aggregate Principal Amount of the Securities at the time outstanding and (ii) certain defaults or noncompliance with certain provisions may be waived with the written consent of the Holders of a majority in aggregate Principal Amount of the Securities at the time outstanding. Subject to certain exceptions set forth in the Indenture, without the consent of any Securityholder, the Company and the Trustee may amend the Indenture or the Securities to cure any ambiguity, defect or inconsistency, or to comply with Article 5 or Section 10.14 of the Indenture or to make any change that does not materially adversely affect the rights of any Securityholder.

15. Defaults and Remedies  
-----

Under the Indenture, Events of Default include (i) after exercise by the Company of its option pursuant to Section 11.01 of the Indenture following a Tax Event, default in the payment of interest that continues for a period of 31 days; (ii) default in payment of the Principal Amount, Issue Price, accrued Original Issue

Discount, Redemption Price, Purchase Price or Change in Control Purchase Price, as the case may be, in respect of the Securities when the same becomes due and payable; (iii) failure either to deliver shares of Common Stock or pay cash in lieu thereof (together with cash in lieu of fractional shares) in accordance with the terms of the Indenture when such Common Stock (or cash) is required to be delivered following conversion of a Security and such failure is not remedied for a period of 10 days; (iv) failure by the Company to comply with other agreements in the Indenture or the Securities, subject to notice and lapse of time; or (v) certain events of bankruptcy or insolvency. If an Event of Default occurs and is continuing, the Trustee, or the Holders of at least 25% in aggregate Principal Amount of the Securities at the time outstanding, may declare all the Securities to be due and payable

immediately. Certain events of bankruptcy or insolvency are Events of Default that will result in the Securities becoming due and payable immediately upon the occurrence of such Events of Default.

Securityholders may not enforce the Indenture or the Securities except as provided in the Indenture. The Trustee may refuse to enforce the Indenture or the Securities unless it receives reasonable indemnity or security. Subject to certain limitations, Holders of a majority in aggregate Principal Amount of the Securities at the time outstanding may direct the Trustee in its exercise of any trust or power. The Trustee may withhold from Securityholders notice of any continuing Default (except a Default in payment of amounts specified in clause (i) or (ii) in the immediately preceding paragraph) if it determines that withholding notice is in their interests.

16. Trustee Dealings with the Company  
-----

Subject to certain limitations imposed by the TIA, the Trustee under the Indenture, in its individual or any other capacity, may become the owner or pledgee of Securities and may otherwise deal with and collect obligations owed to it by the Company or its Affiliates and may otherwise deal with the Company or its Affiliates with the same rights it would have if it were not Trustee.

17. No Recourse Against Others  
-----

A director, officer, employee or stockholder, as such, of the Company shall not have any liability for any obligations of the Company under the Securities or the Indenture or for any claim based on, in respect of or by reason of such obligations or their creation. By accepting a Security, each Securityholder waives and releases all such liability. The waiver and release are part of the consideration for the issue of the Securities.

18. Authentication  
-----

This Security shall not be valid until an authorized officer of the Trustee manually signs the Certificate of Authentication on the other side of this Security.

19. Abbreviations  
-----

Customary abbreviations may be used in the name of a Securityholder or an assignee, such as TEN COM (=tenants in common), TEN ENT (=tenants by the entireties), JT TEN (=joint tenants with right of survivorship and not as tenants in common) and CUST (=custodian), and UNIF TRANS MIN ACT (=Uniform Transfers to Minors Act).

20. GOVERNING LAW  
-----

THE INDENTURE AND THIS SECURITY SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, AS APPLIED TO CONTRACTS MADE AND TO BE PERFORMED WITHIN THE STATE OF NEW YORK WITHOUT REGARD TO PRINCIPLES OF CONFLICTS OF LAWS.

[LETTERHEAD OF BROWN & WOOD LLP]

December 27, 2000

Merrill Lynch & Co., Inc.  
4 World Financial Center  
North Tower  
New York, New York 10080

Ladies and Gentlemen:

We have acted as your counsel and are familiar with the corporate proceedings had in connection with the proposed issuance and sale by Merrill Lynch & Co., Inc. (the "Company") of up to \$20,000,000,000 aggregate principal amount of its senior debt securities, including Structured Yield Product Exchangeable for Stock, (the "Senior Debt Securities") and/or subordinated debt securities (the "Subordinated Debt Securities", and together with the Senior Debt Securities, the "Debt Securities"), both of which may be convertible into common stock, par value \$1.33 1/3 per share, of the Company (the "Common Stock"), preferred stock, par value \$1.00 per share, of the Company (the "Preferred Stock") or Depositary Shares representing Preferred Stock (the "Depositary Shares"); and/or warrants to purchase Debt Securities (the "Debt Warrants"); and/or warrants entitling the holders thereof to receive from the Company a payment or delivery determined by reference to decreases or increases in the level of an index or portfolio based on one or more equity or debt securities, any statistical measure of economic or financial performance, or the price or value of any commodity or any other item or index or a combination thereof (the "Index Warrants"); and/or warrants to receive from the Company the cash value in U.S. dollars of the right to purchase or to sell specified foreign currencies or units of two or more such foreign currencies (the "Currency Warrants"); and/or shares of Preferred Stock, which may be convertible into Preferred Stock or Common Stock or exchangeable for Debt Securities; and/or shares of Preferred Stock, which may be represented by Depositary Shares; and/or warrants to purchase shares of Preferred Stock (the "Preferred Stock Warrants"); and/or shares of Common Stock; and/or warrants to purchase shares of Common Stock (the "Common Stock Warrants"), in each case as shall be designated by the Company at the time of offering.

We have examined such documents and records as we deemed appropriate, including the following:

- (a) a copy of the Restated Certificate of Incorporation of the Company, certified by the Secretary of State of the State of Delaware;
- (b) copies of the Company's Registration Statement on Form S-3, as amended, relating to the Securities (as defined below) (the "Registration Statement");
- (c) a copy of the indenture with respect to the Senior Debt Securities between the Company and The Chase Manhattan Bank (formerly known as Chemical Bank, successor by merger to Manufacturers Hanover Trust Company), as trustee, dated April 1, 1983, as amended and restated (such indenture, as further amended from time to time, the "1983 Senior Indenture"), in the form executed by the Company and The Chase Manhattan Bank;
- (d) a copy of the indenture with respect to the Senior Debt Securities between the Company and The Chase Manhattan Bank (successor by merger to The Chase Manhattan Bank, N.A.), as trustee, dated October 1, 1993 (the "1993 Senior Indenture"), in the form executed by the Company and The Chase Manhattan Bank;
- (e) a copy of the indenture with respect to the Subordinated Debt Securities between the Company and The Chase Manhattan Bank, as trustee, dated December 17, 1996 (the "Subordinated Indenture"), in the form executed by the Company and The Chase Manhattan Bank;
- (f) a copy of the form of indenture with respect to Index Warrants which are to be issued with a minimum value payable upon expiration (a "Minimum Expiration Value") (including a form of global index warrant certificate) (the "Index Warrant Indenture") in the form filed or incorporated by reference as an exhibit to the Registration Statement;
- (g) a copy of the form of warrant agreement with respect to Index Warrants other than Index Warrants which are to be issued with a Minimum Expiration Value (including a form of global index warrant

certificate) (the "Index Warrant Agreement") in the form filed or incorporated by reference as an exhibit to the Registration Statement;

- (h) a copy of the form of warrant agreement with respect to the Debt Warrants (including a form of global debt warrant certificate) (the "Debt Warrant Agreement") in the form filed or incorporated by reference as an exhibit to the Registration Statement;
- (i) a copy of the form of warrant agreement with respect to the Currency Warrants (including a form of global currency warrant certificate) (the "Currency Warrant Agreement") in the form filed or incorporated by reference as an exhibit to the Registration Statement;

2

- (j) a copy of the form of warrant agreement with respect to the Preferred Stock Warrants and the Common Stock Warrants (including a form of global warrant certificate) (the "Preferred Stock and Common Stock Warrant Agreement") in the form filed or incorporated by reference as an exhibit to the Registration Statement;
- (k) a copy of the form of certificate of designations with respect to the Preferred Stock (the "Certificate of Designations") in the form filed or incorporated by reference as an exhibit to the Registration Statement;
- (l) a copy of the form of deposit agreement with respect to the Depositary Shares (the "Deposit Agreement") in the form filed or incorporated by reference as an exhibit to the Registration Statement;
- (m) a copy of the form of certificate representing the Preferred Stock in the form filed or incorporated by reference as an exhibit to the Registration Statement; and
- (n) a specimen of the certificate representing the Common Stock in the form filed or incorporated by reference as an exhibit to the Registration Statement.

The Debt Warrants, Index Warrants, Currency Warrants, Preferred Stock Warrants and Common Stock Warrants are hereinafter collectively referred to as the "Warrants". The Warrants, Debt Securities, Preferred Stock, Depositary Shares and Common Stock are hereinafter collectively referred to as the "Securities". The "1983 Senior Indenture" shall mean such indenture as amended by the Trust Indenture Reform Act of 1990. The 1983 Senior Indenture, 1993 Senior Indenture and the 1993 Senior Indenture as supplemented by the 1993 Supplemental Indenture are hereinafter collectively referred to as the "Senior Indentures". The Senior Indentures, Subordinated Indenture and Index Warrant Indenture, including any supplemental indenture thereto, are hereinafter collectively referred to as the "Indentures". The Debt Warrant Agreement, Currency Warrant Agreement, Index Warrant Agreement and Preferred Stock and Common Stock Warrant Agreement are hereinafter collectively referred to as the "Warrant Agreements".

Based upon the foregoing and upon such further investigation as we deem relevant in the premises, we are of the opinion:

1. The Company has been duly incorporated under the laws of the State of Delaware.
2. The Senior Indentures and the Subordinated Indenture have each been duly and validly authorized, executed and delivered by the Company and, as amended by the Trust Indenture Reform Act of 1990 in the case of the 1983 Senior Indenture, constitute valid and binding agreements of the Company, enforceable in accordance with their respective terms.
3. When appropriate corporate action has been taken to authorize the Company to execute and deliver any applicable Index Warrant Indenture, supplemental indenture or Warrant Agreement, to fix the terms of one or more issues of Securities under an Indenture or Warrant Agreement and to authorize their issue, and such Indenture or Warrant Agreement shall have

3

been duly executed and delivered by the Company and the trustee or warrant agent, and when the Securities with terms so fixed shall have been duly authenticated or countersigned by the trustee or warrant agent, as the case may be, and duly issued under the respective Indenture or Warrant Agreement in accordance with such corporate action, such Indentures and/or Warrant Agreements and such Securities will constitute valid and binding agreements of the Company, enforceable in accordance with their terms.

4. When appropriate corporate action has been taken by the Company to fix

the terms of one or more series of the Preferred Stock as contemplated in the Registration Statement, to authorize the execution and filing with the Secretary of State of the State of Delaware of a Certificate of Designations relating thereto and to authorize the issuance of shares thereof, and when such Certificate of Designations shall have been so executed and filed by the Company and Preferred Stock with the terms so fixed shall have been duly issued and delivered by the Company against payment of the consideration therefor or for Depositary Shares representing interests therein in accordance with such corporate action, such Preferred Stock will be validly issued, fully paid and non-assessable.

5. When appropriate corporate action has been taken by the Company to authorize the execution and delivery of a Deposit Agreement, and when such Deposit Agreement shall have been duly executed and delivered by the Company and the depositary, such Deposit Agreement will constitute a valid and binding agreement of the Company, enforceable in accordance with its terms.

6. When appropriate corporate action has been taken by the Company to authorize the issuance and deposit of Preferred Stock with a depositary pursuant to a Depositary Agreement and the issuance of Depositary Shares representing interests therein, and when such Preferred Stock shall have been duly issued and so deposited and such depositary shall have duly issued and delivered depositary receipts evidencing such Depositary Shares against payment of the consideration therefor in accordance with such corporate action, such Depositary Shares will represent valid interests in the Preferred Stock so deposited and shall entitle the holders thereof to the rights specified in the depositary receipts evidencing the Depositary Shares and in the applicable Deposit Agreement.

7. When appropriate corporate action has been taken by the Company to authorize the issuance of shares of Common Stock, such Common Stock, when issued, delivered and paid for as contemplated in the Registration Statement, will be duly authorized, validly issued, fully paid and non-assessable.

With respect to enforcement, the above opinions are qualified to the extent that enforcement of the Indentures, Warrant Agreements, Securities and Deposit Agreement may be limited by bankruptcy, insolvency or other laws of general applicability relating to or affecting enforcement of creditors' rights or by general equity principles, and further to the extent that enforcement of any Securities denominated in other than United States dollars may be limited by requirements that a claim (or foreign currency judgment in respect of such claim) be converted into United States dollars at a rate of exchange prevailing on a date determined pursuant to applicable law. We have further assumed with respect to enforcement that, when fixed, the

4

terms of the Securities will comply with all applicable "bucket shop" or similar state laws, or have the availability of federal preemption therefrom.

We consent to the filing of this opinion as an exhibit to the Registration Statement and to the use of our name wherever appearing in the Registration Statement and any amendment thereto.

Very truly yours,

/s/ Brown & Wood LLP

Re: Merrill Lynch Preferred Capital Trust VI  
Trust Preferred Securities ("TOPrS")  
-----

Ladies and Gentlemen:

We have acted as counsel to Merrill Lynch & Co., Inc., a Delaware corporation (the "Company"), Merrill Lynch Preferred Funding VI, L.P., a Delaware limited partnership (the "Partnership"), and Merrill Lynch Preferred Capital Trust VI, a statutory business trust formed under the laws of the State of Delaware (the "Trust"), in connection with the preparation and filing by the Company, the Partnership and the Trust with the Securities and Exchange Commission (the "Commission") of a Registration Statement on Form S-3 (the "Registration Statement") under the Securities Act of 1933, as amended, with respect to (i) the guarantee (the "Trust Guarantee") to be issued by the Company to The Chase Manhattan Bank, as trustee, for the benefit of the holders of the Trust Originated Preferred Securities to be issued by the Trust (the "Trust Preferred Securities"), (ii) the guarantee (the "Partnership Guarantee") to be issued by the Company with respect to the Partnership Preferred Securities to be issued by the Partnership (the "Partnership Preferred Securities"), (iii) the guarantees (the "Investment Guarantees") to be issued by the Company for the benefit of the holders of the Partnership Preferred Securities with respect to certain debentures (the "Debentures") to be issued by one or

more of the Company's eligible controlled affiliates and (iv) the subordinated debentures (the "Company Debentures") to be issued by the Company to the Partnership pursuant to an indenture (the "Company Indenture") between the Company and The Chase Manhattan Bank, as trustee (the "Debenture Trustee"), each in the form filed as exhibits to the Registration Statement. The Trust Guarantee, the Partnership Guarantee and the Investment Guarantees are hereinafter collectively referred to as the "Guarantees".

We have reviewed the corporate action of the Company in connection with the giving of the Guarantees and the issuance and sale of the Company Debentures by the Company and have examined, and have relied as to matters of fact upon, originals or copies certified or otherwise identified to our satisfaction, of such corporate records, agreements, documents and other instruments and such certificates or comparable documents of public officials and of officers and representatives of the Company, and have made such other and further investigations as we have deemed relevant and necessary as a basis for the opinions hereinafter set forth.

In such examination, we have assumed the genuineness of all signatures, the legal capacity of natural persons, the authenticity of all documents submitted to us as originals, the conformity to original documents of all copies of documents submitted to us and the authenticity of the originals of such latter documents.

Based upon the foregoing, and subject to the qualifications and limitations stated herein, we are of the opinion:

1. When the Trust Guarantee has been duly authorized, executed and delivered by the Company, and upon the issuance and sale of the related Trust Preferred Securities to the holders of the Trust Preferred Securities in accordance with the Registration Statement, such Trust Guarantee will constitute a valid and legally binding obligation of the Company enforceable against the Company in accordance with its terms.

2. When the Partnership Guarantee has been duly authorized, executed and delivered by the Company, and upon the issuance and sale of the related Partnership Preferred Securities to the holders of the Partnership Preferred Securities in accordance with the Registration Statement, such Partnership

Guarantee will constitute a valid and legally binding obligation of the Company enforceable against the Company in accordance with its terms.

3. When the Investment Guarantees have been duly authorized, executed and delivered by the Company, and upon the issuance and sale of Debentures to the Partnership in accordance with the Registration Statement, such Investment Guarantees will constitute valid and legally binding obligations of the Company enforceable against the Company in accordance with their terms.

4. When the Company Debentures have been duly authorized, executed and issued by the Company and upon the issuance and sale of the Company Debentures to the Partnership in accordance with the Registration Statement (assuming due authorization,

execution and delivery of the Company Indenture by the Debenture Trustee and due authentication of the Company Debentures by the Debenture Trustee), such Company Debentures will constitute valid and legally binding obligations of the Company enforceable against the Company in accordance with their terms.

With respect to enforcement, the above opinions are qualified to the extent that enforcement of the Guarantees or the Company Debentures may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or affecting creditors' rights generally and except as enforcement thereof is subject to general equity principles (regardless of whether enforcement is considered in a proceeding in equity or at law).

We consent to the filing of this opinion as an exhibit to the Registration Statement and to the use of our name wherever appearing in the Registration Statement and any amendment thereto.

Very truly yours,

/s/ Brown & Wood LLP

Re: Merrill Lynch & Co., Inc.  
Registration Statement on Form S

Ladies and Gentlemen:

We have acted as special Delaware counsel to Merrill Lynch Preferred Capital Trust ("Trust VI") a statutory business trust created under the Business Trust Act of the State of Delaware (Del. Code Ann., tit. 12, (S)(S)3801 et seq.), and Merrill Lynch Preferred Funding VI, L.P. ("Partnership VI") limited partnership formed under the Revised Uniform Limited Partnership Act of the State of Delaware (6 Del. C. (S)(S)17-101 et seq.), in connection with the preparation of the Registration Statement on Form S-3 filed by Merrill Lynch & Co., Inc. (the "Company"), a corporation organized under the laws of the State of Delaware, the Trust and the Partnership for the registration under the Securities Act of 1933, as amended (the "Act"), of Trust Preferred Securities (the "Trust Preferred Securities") of the Trust, Partnership Preferred Securities (the "Partnership Preferred Securities") of the Partnership, guarantees of the Company relating thereto and certain other securities.

The Trust Preferred Securities are to be issued pursuant to an Amended and Restated Declaration of Trust of the Trust (the "Declaration"), among the Company, as sponsor of the Trust, Chase Manhattan Bank Delaware, as Delaware trustee (the "Delaware Trustee"), The Chase Manhattan Bank, as property trustee (the "Property Trustee"), and John C. Stomber and Stanley Schaefer, as regular trustees (the "Regular Trustees"). The Partnership Preferred Securities will be issued pursuant to the Amended and Restated Agreement of Limited Partnership of the Partnership (the "Limited Partnership Agreements") between the Company, as the general partner (in such capacity, the "General Partner"), and Merrill Lynch Group, Inc., a Delaware corporation, as the initial limited partner.

This opinion is being delivered in accordance with the requirements of Item 601(b)(5) of Regulation S-K under the Act. Capitalized terms used but not otherwise defined herein have the meanings ascribed to them in the Registration Statement.

In connection with this opinion, we have examined originals or copies, certified or otherwise identified to our satisfaction, of (i) the Registration Statement on Form S-3 filed by the Company, the Partnership and the Trust with the Securities and Exchange Commission (the "Commission") on June 7, 2000 under the Act (such Registration Statement, as so amended, being hereinafter referred to as the "Registration Statement"); (ii) the Certificate of Trust of the Trust filed with the Secretary of State of the State of Delaware on December 7, 1998; (iii) the form of the Declaration (including the designation of the terms of the Trust Preferred Securities annexed thereto); (iv) the form of the Trust Preferred Securities and specimen certificates thereof; (v) the form of the Purchase Agreement (the "Purchase Agreement") proposed to be entered into among the Company, the Partnership, the Trust and the Underwriters to be named therein (collectively, the "Underwriters") relating to, among other things, the sale of the Trust Preferred Securities; (vi) the Certificate of Limited Partnership of the Partnership filed with the Secretary of State of the State of Delaware on December 7, 1998; (vii) the form of the Limited Partnership Agreement (including the designation of the terms of the Partnership Preferred Securities annexed thereto); and (viii) the form of the Partnership Preferred Securities and specimen certificates thereof. We have also examined originals or copies, certified or otherwise identified to our satisfaction, of such other documents, certificates and records as we have deemed necessary or appropriate as a basis for the opinions set forth herein.

In our examination, we have assumed the legal capacity of all natural persons, the genuineness of all signatures, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as certified or photostatic copies and the authenticity of the originals of such copies. In making our examination of documents executed, or to be executed, by parties other than the Partnership and the Trust, we have assumed that such parties had, or will have, the power, corporate or other, to enter into and perform all obligations thereunder and have also assumed the due authorization by all requisite action, corporate or other, and execution and delivery by such parties of such documents and that

such documents constitute valid and binding obligations of such parties. In addition, we have assumed that the Declaration, the Trust Preferred Securities, the Limited Partnership Agreement and the Partnership Preferred Securities when executed will be in substantially the forms reviewed by us. With respect to the opinion set forth in paragraph (2) below, we have assumed that, except for the exercise of rights and powers expressly permitted by the Limited Partnership Agreement, the holders of Partnership Preferred Securities will not participate in the control of the business of the Partnership. As to any facts material to the opinions expressed herein which were not independently established or verified, we have relied upon oral or written statements and representatives of officers, trustees and other representatives of the Company, the Partnership, the Trusts, and others.

We do not express any opinion as to the laws of any jurisdiction other than the laws of the State of Delaware.

Based on and subject to the foregoing and to the other qualifications and limitations set forth herein, we are of the following opinions when (i) the Registration Statement becomes effective; (ii) the Declaration, the Purchase Agreement and the Limited Partnership Agreement with respect to the Trust Preferred Securities and Partnership Preferred Securities have been duly executed and delivered by the parties thereto; (iii) the terms of the Trust Preferred Securities being issued have been duly established in accordance with the Declaration and such Trust Preferred Securities have been duly executed and authenticated in accordance with such Declaration and delivered to and paid

2

for by the Underwriters as contemplated by the Purchase Agreement; and (iv) the terms of the Partnership Preferred Securities being issued have been duly established in accordance with the Limited Partnership Agreement and such Partnership Preferred Securities have been duly executed in accordance with such Limited Partnership Agreement and delivered to and paid for by the Trust as contemplated by the Purchase Agreement:

1. The Trust Preferred Securities being issued will have been duly authorized for issuance and will be validly issued, fully paid and nonassessable, representing undivided beneficial ownership interests in the assets of the related Trust; and the holders of such Trust Preferred Securities will be entitled to the same limitation of personal liability extended to stockholders of private corporations for profit organized under the General Corporation Law of the State of Delaware. We bring to your attention, however, that the holders of such Trust Preferred Securities may be obligated, pursuant to the Declaration therefor, to (i) provide indemnity and/or security in connection with and pay taxes or governmental charges arising from transfers of such Trust Preferred Securities and (ii) provide security and indemnity in connection with the requests of or directions to the Property Trustee to exercise its rights and powers under the Declaration therefor.

2. The Partnership Preferred Securities being issued will have been authorized for issuance and will represent valid partnership interests in the Partnership, and the holders of such Partnership Preferred Securities, as limited partners of such Partnership, will not be liable to third parties for the obligations of the Partnership. We bring to your attention, however, that the holders of such Partnership Preferred Securities may be obligated, pursuant to the Limited Partnership Agreement, to (i) provide indemnity and/or security in connection with and pay taxes or governmental charges arising from transfers of such Partnership Preferred Securities and the issuance of replacement Partnership Preferred Securities, and (ii) provide security and indemnity in connection with requests of or directions to the Special Representative (as defined in the Limited Partnership Agreement) to exercise its rights, and powers under such Limited Partnership Agreement.

We hereby consent to the use of our name under the heading "Legal Matters" in the prospectus which forms a part of the Registration Statement. We also hereby consent to the filing of this opinion with the Commission as an exhibit to the Registration Statement. In giving this consent, we do not thereby admit that we are within the category of persons whose consent is required under Section 7 of the Act or the rules and regulations of the Commission promulgated thereunder. This opinion is expressed as of the date hereof unless otherwise expressly stated and we disclaim any undertaking to advise you of any subsequent changes in the facts stated or assumed herein or of any subsequent changes in applicable law.

Very truly yours,

/s/ Skadden, Arps, Slate, Meagher & Flom LLP

Re: Merrill Lynch Preferred Capital Trust VI  
Trust Originated Preferred Securities ("TOPrS")  
-----

Ladies and Gentlemen:

We have acted as tax counsel ("Tax Counsel") to Merrill Lynch & Co., Inc., a Delaware corporation (the "Company"), Merrill Lynch Preferred Funding VI, L.P., a limited partnership formed under the Delaware Revised Uniform Limited Partnership Act, as amended (the "Partnership"), and Merrill Lynch Preferred Capital Trust VI, a statutory business trust formed under the Delaware Business Trust Act, as amended (the "Trust"), in connection with the preparation and filing by the Company, the Partnership and the Trust with the Securities and Exchange Commission (the "Commission") of a Registration Statement on Form S-3 (as amended, the "Registration Statement") under the Securities Act of 1933, as amended, and with respect to: (i) the issuance and sale of subordinated debentures (the "Company Debentures") by the Company pursuant to a form of Indenture (the "Company Indenture"), between the Company and The Chase Manhattan Bank, as trustee (the "Indenture Trustee") in the form filed as an exhibit to the Registration Statement; (ii) the issuance and sale of one or more debentures (each of which is guaranteed by the Company pursuant to a form of Affiliate Debenture Guarantee Agreement in the form filed as an Exhibit to the Registration Statement between such Investment Affiliate and the Indenture Trustee, each a "Guaranteed Investment Affiliate Debenture", collectively "Investment Affiliate Debentures") by one or more eligible controlled affiliates of the Company (each an "Investment Affiliate") pursuant to forms of Indenture (each an "Investment Affiliate Indenture"), (the Company Subordinated Debenture and Investment Affiliate Debentures are collectively referred to hereinafter as the "Debentures" and the forms of the Company Indenture and the Investment Affiliate Indentures are collectively referred to hereinafter as the "Indentures"); (iii) the issuance and sale of Partnership Preferred Securities by the Partnership to the Trust pursuant to the Amended and Restated Agreement of Limited Partnership (the "Partnership Agreement") in the form filed as an exhibit to the Registration Statement; and (iv) the issuance and sale of Trust Preferred Securities and Trust Common

Securities (collectively, "Trust Securities") pursuant to the Trust's Amended and Restated Declaration of Trust (the "Declaration") in the form filed as an exhibit to the Registration Statement. The Trust Preferred Securities will be offered for sale to investors pursuant to the Prospectus contained in the Registration Statement.

All capitalized terms used in this opinion letter and not otherwise defined herein shall have the meanings ascribed to such terms in the Registration Statement.

In delivering this opinion letter, we have reviewed and relied upon: (i) the Registration Statement; (ii) forms of the Indentures; (iii) forms of the Debentures; (iv) the form of the Partnership Agreement; (v) the form of the Declaration; (vi) the forms of (A) the Partnership Guarantee Agreement, (B) the Trust Preferred Securities Guarantee Agreement, (C) the Trust Common Securities Guarantee Agreement and (D) the Affiliate Debenture Guarantee Agreement, each filed as exhibits to the Registration Statement; and (vii) the forms of (A) the Partnership Preferred Securities and (B) the Trust Securities, each filed as exhibits to the Registration Statement. In addition, we have examined, and relied as to matters of fact upon, certain certificates and comparable documents of the Company and certain eligible controlled Affiliates of the Company, from which the Company will select Investment Affiliates. Further, we have relied upon certain other statements and representations made by officers of the Company. We also have examined and relied upon original or copies, certified or otherwise identified to our satisfaction, of such records of the Company, the Partnership and the Trust and such other documents, certificates and records as

we have deemed necessary or appropriate as a basis for the opinions set forth herein.

In our examination of such material, we have assumed the genuineness of all signatures, the authenticity of all documents submitted to us as originals and the conformity to original documents of all copies of documents submitted to us. In addition, we also have assumed (i) that the transactions related to the issuance of the Debentures, Partnership Preferred Securities and Trust Securities will be consummated in accordance with the terms of the documents and forms of documents described herein and (ii) on the closing date, an Independent Financial Advisor will deliver the opinion required under Section 7.1(b) of the Partnership Agreement.

On the basis of the foregoing and assuming that the Partnership and the Trust were formed and will be maintained in compliance with the terms of the Partnership Agreement and the Declaration, respectively, we hereby confirm (i) our opinions set forth in the Prospectus contained in the Registration Statement under the caption "Certain Federal Income Tax Considerations" and (ii) that, subject to the qualifications set forth therein, the discussion set forth in the Registration Statement under such caption is an accurate summary of the United States federal income tax matters described therein.

We express no opinion with respect to the transactions referred to herein or in the Registration Statement other than as expressly set forth herein. Moreover, we note that there is no authority directly on point dealing with securities such as the Trust Preferred Securities or transactions of the type described herein and that our opinions are not binding on the Internal Revenue Service ("IRS") or the courts, either of which could take a contrary position.

2

Nevertheless, we believe that if challenged, the opinions we express herein would be sustained by a court with jurisdiction in a properly presented case.

Our opinions are based upon the Code, the Treasury regulations promulgated thereunder and other relevant authorities and law, all as in effect on the date hereof. Consequently, future changes in the law may cause the tax treatment of the transactions referred to herein to be materially different from that described above.

The opinions we express herein are limited solely to matters governed by the federal law of the United States.

We hereby consent to the use of this opinion for filing as Exhibit 5(d) to the Registration Statement and the use of our name in the Registration Statement under the captions "United States Federal Income Taxation" and "Legal Matters".

Very truly yours,

/s/ Brown & Wood LLP

Ratio of earnings to combined fixed charges and preferred stock dividends 1.22	1.29	1.11	1.20

</TABLE>

(a) Other fixed charges consists of the interest factor in rentals, amortization of debt issuance costs, preferred security dividend requirements of subsidiaries, and amortization of capitalized interest.

Note: Prior period amounts have been restated to reflect the merger with Herzog, Heine, Geduld, Inc. as required under pooling-of-interests accounting.

[LETTERHEAD OF DELOITTE & TOUCHE LLP]

December 27, 2000

Merrill Lynch & Co., Inc.  
4 World Financial Center  
New York, NY 10080

We have made a review, in accordance with standards established by the American Institute of Certified Public Accountants, of the unaudited interim condensed consolidated financial information of Merrill Lynch & Co., Inc. and subsidiaries ("Merrill Lynch") for the three-month periods ended March 31, 2000 and March 26, 1999, included in Merrill Lynch's Quarterly Report on Form 10-Q for the quarter ended March 31, 2000 as indicated in our report dated May 12, 2000 and for the three- and six-month periods ended June 30, 2000 and June 25, 1999, included in Merrill Lynch's Quarterly Report on Form 10-Q for the quarter ended June 30, 2000 as indicated in our report dated August 11, 2000 and for the three- and nine-month periods ended September 29, 2000 and September 24, 1999 included in Merrill Lynch's Quarterly Report on Form 10-Q for the quarter ended September 29, 2000 (the "Third Quarter Form 10-Q") as indicated in our report dated November 13, 2000; because we did not perform an audit, we expressed no opinion on that information. The unaudited interim condensed consolidated financial information included in the Third Quarter Form 10-Q gives retroactive effect to the merger of Merrill Lynch and Herzog, Heine, Geduld, Inc., which has been accounted for as a pooling-of-interests, as described in Note 2 to such condensed consolidated financial statements.

We are aware that our reports referred to above, which are included in your Quarterly Reports on Form 10-Q for the quarters ended March 31, 2000, June 30, 2000 and September 29, 2000, are incorporated by reference in this Registration Statement.

We are also aware that the aforementioned reports, pursuant to Rule 436(c) under the Securities Act of 1933, are not considered a part of the Registration Statement prepared or certified by an accountant or are reports prepared or certified by an accountant within the meaning of Sections 7 and 11 of that Act.

GENERAL

Item 1. General Information.

Furnish the following information as to the trustee:

(a) Name and address of each examining or supervising authority to  
which it is subject.

New York State Banking Department, State House, Albany, New York  
12110.

Board of Governors of the Federal Reserve System, Washington,  
D.C., 20551.

Federal Reserve Bank of New York, District No. 2, 33 Liberty  
Street, New York, N.Y.

Federal Deposit Insurance Corporation, Washington, D.C., 20429.

(b) Whether it is authorized to exercise corporate trust powers.

Yes.

Item 2. Affiliations with the Obligor.

If the obligor is an affiliate of the trustee, describe each such affiliation.

None.

-2-

Item 16. List of Exhibits

List below all exhibits filed as a part of this Statement of Eligibility.

1. A copy of the Articles of Association of the Trustee as now in effect, including the Organization Certificate and the Certificates of Amendment dated February 17, 1969, August 31, 1977, December 31, 1980, September 9, 1982, February 28, 1985, December 2, 1991 and July 10, 1996 (see Exhibit 1 to Form T-1 filed in connection with Registration Statement No. 333-06249, which is incorporated by reference).

2. A copy of the Certificate of Authority of the Trustee to Commence Business (see Exhibit 2 to Form T-1 filed in connection with Registration Statement No. 33-50010, which is incorporated by reference. On July 14, 1996, in connection with the merger of Chemical Bank and The Chase Manhattan Bank (National Association), Chemical Bank, the surviving corporation, was renamed The Chase Manhattan Bank).

3. None, authorization to exercise corporate trust powers being contained in the documents identified above as Exhibits 1 and 2.

4. A copy of the existing By-Laws of the Trustee (see Exhibit 4 to Form T-1 filed in connection with Registration Statement No. 333-76439, which is incorporated by reference).

5. Not applicable.

6. The consent of the Trustee required by Section 321(b) of the Act (see Exhibit 6 to Form T-1 filed in connection with Registration Statement No. 33-50010, which is incorporated by reference. On July 14, 1996, in connection with the merger of Chemical Bank and The Chase Manhattan Bank (National Association), Chemical Bank, the surviving corporation, was renamed The Chase Manhattan Bank).

7. A copy of the latest report of condition of the Trustee, published pursuant to law or the requirements of its supervising or examining authority.

8. Not applicable.

9. Not applicable.

SIGNATURE
