- There will be no payments prior to the maturity date and the Notes cannot be redeemed prior to the maturity date.
- There is no principal protection on the Notes.
- The Notes are made available to each investor outside of the United States in a minimum initial investment of US\$50,000 (US\$75,000 for residents of the European Economic Area), and subject to any other restrictions, as may be applicable to an investor under the private offering rules of any jurisdiction outside of the United States.

Payment on the maturity date:

- The amount an investor receives on the maturity date will be based on the direction of and percentage change between the starting value and the ending value of the Basket. If the level of the Basket:

The actual participation rate will be determined on the pricing date and set forth in the final offering document made available in connection with sales of the Notes.
 - has decreased by 10% or less, an investor will receive \$10 per unit; or
 - has decreased by more than 10%, an investor will receive less than \$10 per unit. A decline in the level of the Basket in excess of 10% will result in the amount paid on the maturity date on the Notes being reduced by an amount equal to 100% of the decline in excess of 10%.
